2. City Manager's Report

XIV. EXECUTIVE SESSION

THE CITY OF ROCKWALL CITY COUNCIL WILL RECESS INTO EXECUTIVE SESSION TO DISCUSS THE FOLLOWING MATTERS AS AUTHORIZED BY CHAPTER 551 OF THE TEXAS GOVERNMENT CODE:

1. Discussion regarding possible sale or lease of real property / land in the vicinity of Heath Street and Fannin Street pursuant to Section §551.072 (Real Property).

2. Discussion regarding the appeal to the Public Utility Commission filed by the cities of Garland, Mesquite, Plano and Richardson against the North Texas Municipal Water District (NTMWD) regarding water rates pursuant to Section 551.071 (Consultation with Attorney).

XV. RECONVENE PUBLIC MEETING & TAKE ANY ACTION AS RESULT OF EXECUTIVE SESSION

XVI. ADJOURNMENT

This facility is wheelchair accessible and accessible parking spaces are available. Request for accommodations or interpretive services must be made 48 hours prior to this meeting. Please contact the City Secretary's Office at (972) 771-7700 or FAX (972) 771-7727 for further information.

The City of Rockwall City Council reserves the right to adjourn into executive session at any time to discuss any of the matters listed on the agenda above, as authorized by Texas Government Code § 551.071 (Consultation with Attorney) § 551.072 (Deliberations about Real Property) § 551.074 (Personnel Matters) and § 551.086 (Economic Development)

I, Kristy Cole, City Secretary for the City of Rockwall, Texas, do hereby certify that this Agenda was posted at City Hall, in a place readily accessible to the general public at all times, on the 29th day of December, 2017 at 4:00 p.m. and remained so posted for at least 72 continuous hours preceding the scheduled time of said meeting.

_____ _____

Kristy Cole, City Secretary Date Removed

MINUTES
ROCKWALL CITY COUNCIL
Monday, December 18, 2017
4:00 p.m. Regular City Council Meeting
City Hall, 385 S. Goliad, Rockwall, Texas 75087

I. CALL PUBLIC MEETING TO ORDER

Mayor Pro Tem Hohenshelt called the public meeting to order at 4:00 p.m. Present were Mayor Pro Tem John Hohenshelt, Councilmembers Dana Macalik, Mike Townsend, Kevin Fowler, Bennie Daniels and Dennis Lewis. Also present were City Manager Rick Crowley, Assistant City Manager Brad Griggs and City Attorney Frank Garza. Mayor Jim Pruitt and Assistant City Manager Mary Smith were absent from the entirety of the meeting.

II. WORK SESSION

1. HOLD WORK SESSION TO CONSIDER POTENTIAL CAPITAL IMPROVEMENT PROJECTS ASSOCIATED WITH FUTURE BOND ELECTION

City Manager Rick Crowley came forth and briefed the Council on this work session item, generally indicating that projects for the 5-10 year street, alley and drainage Capital Improvement Program (CIP) need to be identified. He explained that a preliminary formula has been developed and applied to the condition assessment provided by the condition assessment study. We know from the output provided by applying the formula that some adjustments to the formula will need to be made, but at this point, Mr. Crowley explained that Council input is needed before the CIP may be finalized. He went on to indicate that if the Council would like to call a bond election, the February 5, 2018 regular city council meeting date would be a good opportunity to do so, as it falls within the state prescribed timeframe for calling a bond election to be held on May 5, 2018.

Director of Public Works/City Engineer, Amy Williams, came forth and continued briefing the Council on this work session item. She generally explained the results of the street, alley and drainage condition assessment that was recently performed.

At the request of Mr. Crowley, Mr. Garza briefed the Council on the legal parameters associated with that which both city staff members and city council members may share with the public. He generally explained that staff is only allowed to provide factual information. However, Council members are allowed to state their own personal support or non-support for individual bond-related propositions.

Discussion ensued generally related to what projects might be put forth for voter consideration in a bond election as well as the associated, estimated costs and the potential taxpayer and water/sewer rate implications. Generally indication was given that it is likely not viable to issue debt for projects that are more than 10 years 'out.' Mr. Crowley shared his opinion that five years is even more viable. Council generally indicated a desire for staff to research the tax rate of Rockwall's comparable cities. Mayor Pro Tem Hohenshelt shared that for the first meeting in January, he would like staff to bring back two options for the Council to evaluate – a $60 million option showing a 5 year vs. 10 year and a $120 million option with a 5 year vs. 10 year.

Mayor Pro Tem Hohenshelt read the below listed discussion items into the public record before recessing the meeting to go into Executive Session at 4:48 p.m.

III. EXECUTIVE SESSION.

THE CITY OF ROCKWALL CITY COUNCIL WILL RECESS INTO EXECUTIVE SESSION TO DISCUSS THE FOLLOWING MATTERS AS AUTHORIZED BY CHAPTER 551 OF THE TEXAS GOVERNMENT CODE:

1. Discussion regarding City Council's authority to waive state regulations pursuant to Section 551.071 (Consultation with Attorney).
2. Discussion regarding the appeal to the Public Utility Commission filed by the cities of Garland, Mesquite, Plano and Richardson against the North Texas Municipal Water District (NTMWD) regarding water rates pursuant to Section 551.071 (Consultation with Attorney).

IV. ADJOURN EXECUTIVE SESSION

The Council adjourned from Executive Session at 5:14 p.m.

V. RECONVENE PUBLIC MEETING

Hohenshelt reconvened the public meeting at 6:00 p.m. with 6 of the 7 council members being present (Pruitt absent).

VI. TAKE ANY ACTION AS A RESULT OF EXECUTIVE SESSION

Council took no action as a result of Executive Session.

VII. INVOCATION AND PLEDGE OF ALLEGIANCE – COUNCILMEMBER DANIELS

Councilmember Daniels delivered the invocation and led the Pledge of Allegiance.

VIII. OPEN FORUM

Mayor Pro Tem Hohenshelt explained how Open Forum is conducted and asked if anyone would like to come forth and speak at this time.

Brad Bassett
1592 Sunset Hill
Rockwall, TX 75087

Mr. Bassett came forth and shared comments pertaining to the Council's recent discussion of a possible bond election. He generally expressed concern about the city council potentially not including any parks and recreation-related projects as part of a bond election. He shared that the Park Board (which he currently chairs) often hears from citizens during the Park Board's Open Forum that they would like to see more park-related amenities (such as sports fields, additional parks and parks-related amenities). He asked the Council to consider allowing the Park Board to come forth with some suggestions. Mr. Crowley, City Manager, agreed to work with Mr. Bassett and the Park Board to hold a work session with Council at the next, regular council meeting.

IX. CONSENT AGENDA

1. Consider approval of the minutes from the December 04, 2017 regular city council meeting, and take any action necessary.
2. Consider a recommendation from the City Council Naming Subcommittee honoring Barbara Coleson, and take any action necessary.
3. Consider authorizing the City Manager to execute a contract with Cigna Health and Life Insurance Company to secure reinsurance/stop loss coverage for the City's health insurance plans, applying to claims exceeding $100,000, and take any action necessary.
4. Consider awarding a bid to Maverick Harley-Davidson and authorizing the City Manager to execute a Purchase Order for a new 2018 police pursuit motorcycle totaling $36,090.25 to be funded out of the General Fund, Police Patrol Operations Budget, and take any action necessary.
5. Consider awarding a bid to Waukesha-Pearce and authorizing the City Manager to execute a contract for the purchase and install of stand by power generators at three lift stations totaling $272,377 to be funded out of the Water and Sewer Fund, Sewer Operations Budget, and take any action necessary.
6. Consider approval of a Facilities Agreement with SWBC Rockwall, LP for the pro-rata reimbursement of expenses associated with the over-sizing of the sanitary sewer line and lift station upgrade expenses associated with this development, and take any action necessary.
7. Consider approval of the Construction Materials Testing for Squabble Creek Lift Station Improvements and the Quail Run and Memorial Gravity Bypass Trunk Sewer Project and authorize the City Manager to execute a contract with Alliance Geotechnical Group for a total amount of $29,365.00 and to be to be funded by the Water / Sewer Bond Funds, and take any action necessary.
8. **P2017-059** - Consider a request by Dub Douphrate of Douphrate & Associates, Inc. on behalf of Russell Hickey of Merritt Capital Partners for the approval of a preliminary plat for an age/restricted senior living community consisting of 47 single-family lots on a 13.031-acre tract of land identified as Lots 5 & 7, Block A, Eastshore Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 68 (PD-68), situated within the SH-205 Overlay (SH-205 OV) District, located on the east side of S. Goliad Street [S. SH-205] north of the intersection of S. Goliad Street and Justin Road, and take any action necessary.

Councilmember Lewis moved to approve the entire Consent Agenda (#s 1, 2, 3, 4, 5, 6, 7, and 8). Councilmember Townsend seconded the motion, which passed by a vote of 6 ayes with 1 absent (Pruitt).

X. APPOINTMENTS

1. Appointment with the Planning and Zoning Chairman to discuss and answer any questions regarding cases on the agenda and related issues and take any action necessary.

Chairman of the Planning & Zoning Commission, Johnny Lyons, came forth and briefed the Council on recommendations of the Commission relative to planning-related items on tonight's meeting agenda. The Council took no action following Mr. Lyons' presentation.

Mayor Pro Tem Hohenshelt then reordered the agenda to address Z2017-062 (Public Hearing item #3) next.

XI. PUBLIC HEARING ITEMS

1. **Z2017-060** - Hold a public hearing to discuss and consider a request by David Naylor of Rayburn Country Electric Cooperative for the approval of an **ordinance** for a zoning change from Agricultural (AG) District to a Heavy Commercial (HC) District for a 3.227-acre parcel of land identified as Lot 3, Block A, Rayburn Country Addition, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, generally located northeast of the intersection of Mims Road and Sids Road, and take any action necessary **(1st Reading)**.

Planning Director Ryan Miller provided background information concerning this agenda item. Notices were sent out to 13 property owners and residents located within 500' of the subject property. In addition, a few nearby HOA's were also notified. Staff received one notice back in favor of the request and none in opposition. In addition, the Planning & Zoning Commission has recommended approval of this item.

Mayor Pro Tem Hohenshelt opened the public hearing and asked if anyone would like to come forward and speak at this time. There being no one indicating such, he then closed the public hearing.

Councilmember Lewis moved to approve Z2017-060. Councilmember Macalik seconded the motion. The ordinance was read as follows:

CITY OF ROCKWALL
ORDINANCE NO. 18-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED SO AS TO FURTHER AMEND THE ZONING MAP TO ADOPT A CHANGE IN ZONING FROM AN AGRICULTURAL (AG) DISTRICT TO A HEAVY COMMERCIAL (HC) DISTRICT FOR A 3.227-ACRE TRACT OF LAND IDENTIFIED AS LOT 3, BLOCK A, RAYBURN COUNTRY ADDITION, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS AND MORE SPECIFICALLY DESCRIBED IN EXHIBIT *'A'* AND DEPICTED IN EXHIBIT '*B*' OF THIS ORDINANCE; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

The motion to approve passed unanimously of those present (6 ayes with Pruitt absent).

2. **Z2017-061** - Hold a public hearing to discuss and consider a request by Deric Salser of Salser Development Group on behalf of Russ Porter of Rockwall School of Music for the approval of an **ordinance** amending Specific Use Permit (SUP) No. 174 (S-174) [Ordinance No. 17-45] being a 0.747-acre portion of a larger 2.49-acre parcel of land identified as Lot 9, Block A, Flagstone Corners Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 60 (PD-60) for Residential-Office (RO) District land uses, addressed as 1830 & 1842 Mims Road, and take any action necessary **(1st Reading)**.

Planning Director Ryan Miller provided background information concerning this agenda item. The applicant would like the Council to consider granting a waiver to remove the masonry fence requirement and allow the existing landscape screening and wrought iron fence to remain instead. Notices were sent out to property owners and residents located within 500' of the subject property. Of the 92 notices sent, staff has received 3 notices back in favor of the request and 3 notices in opposition of the request. In addition, two nearby HOA's were notified (Lyndon Park and Flagstone Estates), and the city's Planning & Zoning Commission has voted to recommend approval of this item with the caveat that the applicant infill the existing landscaping to ensure that a couple of holes are filled in, and that the landscaping be maintained over time.

Mayor Pro Tem Hohenshelt opened the public hearing and asked if anyone would like to come forward and speak at this time. There being no one indicating such, he then closed the public hearing.

Mr. Russ Porter, the owner of Rockwall School of Music, came forth and addressed the Council concerning this agenda item. He briefly spoke about the existing wrought iron fence and the row of landscaping shrubs. He expressed that the building has been sound proofed such that music is not even heard within the building from room to room. So, hearing sound coming from the building on the outside, he explained, will not be an issue. He generally requested approval of this request.

Councilmember Fowler brought up a letter written by some of the neighbors, in part, expressing concern that the screening be maintained over time, including if/when drought occurs and/or if and when the property ever sells / changes hands. Mr. Miller assured that the property owner will still be required to maintain the landscaping, including screening, if drought occurs. Also, the SUP would transfer to the new property owner if the use stays the same (a music school). Or, if, for example, it becomes an office building instead, the landscaping and associated buffer would become part of that new SUP as well.

Councilmember Townsend moved to approve Z2017-061. Councilmember Lewis seconded the motion, clarifying that the applicant will be required to fill in the existing bare spots within the shrubs. Councilmember Daniels asked how the shrubs would be maintained if drought occurs. Mr. Miller generally explained that the applicant/property owner could still utilize drip irrigation to water the landscaping and shrubs. In addition, if anything dies, the applicant would be required to replace any dead landscaping. It would become an enforcement issue should that occur.

Kevin Holmes, an individual present in the audience, asked if he may address the Council. Mayor Pro Tem Hohenshelt opened the public hearing back up again.

Kevin Holmes
2647 Waterstone Lane
Rockwall, TX

Mr. Holmes came forth and shared that his property shares a property line with the applicant/subject property. He indicated that as long as the stipulations are enforced (i.e. the landscaping and screening shrubs are maintained), then he is in support of Council approving this request.

Following Mr. Holmes' comments, Mayor Pro Tem Hohenshelt closed the public hearing (again). The ordinance was read as follows:

CITY OF ROCKWALL
ORDINANCE NO. 18-XX
SPECIFIC USE PERMIT NO. S-XXX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE OF THE CITY OF ROCKWALL, TEXAS, AS PREVIOUSLY AMENDED, SO AS TO GRANT A SPECIFIC USE PERMIT (SUP) TO ALLOW FOR A MUSIC STUDIO IN PLANNED DEVEOPMENT DISTRICT 60 (PD-60), ON A 0.747-ACRE PORTION OF A LARGER 2.49-ACRE PARCEL OF LAND BEING IDENTIFIED AS A PORTION OF LOT 9, BLOCK A, FLAGSTONE CORNERS ADDITION, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE

The motion passed unanimously (6 ayes with 1 absent (Pruitt)).

Public Hearing item #4 was addressed next by Council.

3. **Z2017-062** - Hold a public hearing to discuss and consider a request by Cameron Slown of FC Cuny Corporation on behalf of Phillip McNeill, Jr. of McNeill Hotel Company for the approval of an **ordinance** for a Specific Use Permit (SUP) for a hotel on a 2.166-acre parcel of land identified as Lot 2A of the Isaac Brown Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 32 (PD-32), situated within the Scenic Overlay (SOV) District, located southwest of the intersection of Summer Lee Drive and Horizon Road [FM-3097], and take any action necessary **(1st Reading).**

Planning Director Ryan Miller provided background information pertaining to this agenda item, generally indicating that the applicant is proposing a 98 room, four story hotel under the Hilton "True" brand, and this requires approval and issuance of an SUP. He explained that residential and 'extended stay' hotel components would be prohibited. The applicant has indicated that they may, at some point, participate in a "land swap" with the property to the south. If so, they would like the SUP, if it is approved, to be transferred to that property. Thirty-nine notices were sent out to property owners and residents located within 500' of the subject property. In addition, the Lago Vista homeowners association was also notified. Staff received one notice in favor of this request (from the property owner) and no notices in opposition. In addition, the Planning & Zoning Commission has recommended approval of this request.

Mayor Pro Tem Hohenshelt opened the public hearing and asked if anyone would like to come forward and speak at this time. There being no one indicating such, he then closed the public hearing.

Councilmember Fowler asked Mr. Cuny to come forth and answer what sort of demand exists for this new hotel.

Chris Cuny
FC Cuny Corporation
2 Horizon Court
Heath, TX

Mr. Cuny shared that three feasibility studies were required to be completed, and all three of them indicate that there is a reasonable demand for an additional hotel. In addition, this hotel will be geared toward millennials. The price point per night will not be

on the high end, nor will it be on the low end – instead, it will be moderately priced. Councilmember Fowler asked if Mr. Cuny anticipates that this will be a "variance heavy" project. Mr. Cuny shared that, no, he does not believe it will be. Councilmember Daniels asked how tall this hotel might be. Mr. Cuny shared that it will be a 98 bed hotel that is about 40-50' tall. Councilmember Daniels expressed concern about a hotel being 70 or 80' tall. He asked Mr. Miller if there is a limitation on how tall this hotel, if approved, can be. Mr. Miller shared that the Council will have a chance to approve a PD development plan, and, within that plan, the Council can place stipulations on height.

Councilmember Fowler moved to approve Z2017-062. Councilmember Daniels seconded the motion. The ordinance was read as follows:

CITY OF ROCKWALL
ORDINANCE NO. 18-XX
SPECIFIC USE PERMIT NO. S-1XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, TEXAS, AS HERETOFORE AMENDED, SO AS TO FURTHER AMEND THE ZONING MAP AND PLANNED DEVELOPMENT DISTRICT 32 [*ORDINANCE NO. 17-22*] TO ADOPT A SPECIFIC USE PERMIT (SUP) FOR A HOTEL WITHIN THE INTERIOR AND RESIDENTIAL SUBDISTRICTS OF PLANNED DEVELOPMENT DISTRICT 32 (PD-32) ON A 2.166-ACRE PARCEL OF LAND IDENTIFIED AS LOT 2A OF THE ISSAC BROWN ADDITION, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OR FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

The motion passed by a vote of 6 ayes with 1 absent (Pruitt).

Public Hearing item #1 was addressed next on the agenda.

4. **Z2017-063** - Hold a public hearing to discuss and consider a request by Jim Douglas of Douglas Properties, Inc. on behalf of Isabel Garrett of the McClendon Company for the approval of an **ordinance** amending Planned Development District 82 (PD-82) for the purpose incorporating an additional 98.341-acre tract of land into the existing single-family development being a 81.49-acre tract of land creating a 179.831-acre tract of land identified as a portion of Tract 8 and all of Tract 16 of the J. A. Ramsay Survey, Abstract No. 186, City of Rockwall, Rockwall County, Texas, Planned Development District 82 (PD-82) and Agricultural (AG) District, situated on the west side of Rochell Road south of SH-276, and take any action necessary **(1st Reading).**

Planning Director Ryan Miller provided background information concerning this agenda item. He shared that the applicant is requesting to rezone the existing PD to incorporate additional land. The applicant has been able to decrease the overall density from 2.5 units per acre to 1.5 units per acre due to incorporating the area of land that contains the radio towers (98 acres will be dedicated as open space and will incorporate a trail). In addition, the applicant has removed the request for "flat front entry" garages. Instead, the applicant has indicated that 100% of the additional homes that will be constructed will be either recessed or j-swing garages/entries. In addition, the size of the lots nearest Sterling Farms has been increased. This particular proposal reflects an additional 148 single family homes with the existing PD-82, which will result in a total of 352 single-

family homes overall. There will be 69.43 acres of open space, which is about 40% of the total land area contained within the development. The open space will include a public park that contains certain amenities prior to it being dedicated to the city as well as a looped trail in the area of the radio towers. Notices were sent out to residents and property owners located within 500' of the property. A total of 111 notices were sent out, and four notices and one email in opposition to this request have been received by staff to date. In addition, three nearby HOA's were also notified.

Mayor Pro Tem Hohenshelt opened the public hearing and asked if anyone would like to come forward and speak at this time.

The applicant came forth to address the Council.

Jim Douglas
Douglas Properties
2309 Avenue K
Plano, TX

Mr. Douglas provided comments pertaining to the portion of the property on which the communication towers sit. He explained that buying the property will allow them to have more control over that area, including keeping it mowed and maintained and providing the potential for a hike/bike trail. Also, an additional playground pavilion will be added. He shared that his request does comply with the city's comp plan, and it does add a considerable amount of additional open space. He showed some visual examples of the proposed pavilion and playground areas as well as examples of what the homes (Bloomfield builders) will look like.

There being no one else wishing to come forth and speak to the Council, Hohenshelt then closed the public hearing.

Councilmember Fowler asked what the price point of these homes will be. Mr. Douglas shared that the pricing will range from about $270,000 up to $400,000.

Councilmember Lewis moved to approve Z2017-063. Councilmember Daniels seconded the motion. The ordinance was read as follows:

CITY OF ROCKWALL
ORDINANCE NO. 18-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING PLANNED DEVELOPMENT DISTRICT 82 (PD-82) [*ORDINANCE NO. 16-43*], AND THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, SO AS TO FURTHER AMEND THE PLANNED DEVELOPMENT DISTRICT TO INCORPORATE A 98.341-ACRE TRACT OF LAND INTO THE EXISTING 81.49-ACRE TRACT OF LAND, CREATING A 179.831-ACRE PLANNED DEVELOPMENT DISTRICT IDENTIFIED AS PLANNED DEVELOPMENT DISTRICT 82 (PD-82) AND BEING TRACT 3, TRACT 8 AND TRACT 16, OF THE J. A. RAMSEY SURVEY, ABSTRACT NO. 186, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS, AND MORE FULLY DESCRIBED HEREIN BY *EXHIBIT 'A'*; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

The motion passed by a vote of 5 ayes, 1 against (Townsend) and 1 absent (Pruitt).

5. **Z2017-064** - Hold a public hearing to discuss and consider a request by Robert Rash for the approval of an **ordinance** for a Specific Use Permit (SUP) allowing a detached garage that does not meeting the minimum masonry requirements on a 1.144-acre parcel of land identified as Lot 8, Block A, Grady Rash Subdivision, City of Rockwall, Rockwall County, Texas, zoned Single Family 10 (SF-10) District, addressed as 4 Soapberry Lane, and take any action necessary **(1st Reading).**

Planning Director Ryan Miller explained that this request is to enclose an existing 900 square foot carport with metal panels. He explained that the request had to go through the city's Board of Adjustments in order to have the use changed (to make it 'legally non-conforming'). Sixty-five notices were sent out to residents and property owners located within 500' of the property, and one nearby HOA was also notified. Staff has received four notices back in opposition and four notices back in favor of the request. In addition, the City's Planning & Zoning Commission has recommended approval of this request.

Mayor Pro Tem Hohenshelt opened the public hearing and asked if anyone would like to come forward and speak at this time.

Mr. Robert Rash (3 Soapberry Lane), the applicant, came forth and explained that this subdivision only has four homes, and there is no HOA. He shared that he and his neighbors work hard to maintain their little subdivision. He clarified that the building will be 15' tall (not 20' tall as Mr. Miller indicated). He went on to describe what this detached garage will be made out of and generally how it will look.

There being no one else indicating a desire to come forth and speak at this time, Hohenshelt then closed the public hearing.

Councilmember Fowler moved to approve Z2017-064. Councilmember Townsend seconded the motion. The ordinance was read as follows:

CITY OF ROCKWALL

ORDINANCE NO. 18-XX

SPECIFIC USE PERMIT NO. S-XXX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, TEXAS, AS PREVIOUSLY AMENDED, SO AS TO GRANT A SPECIFIC USE PERMIT (SUP) TO ALLOW FOR AN ACCESSORY BUILDING THAT DOES NOT MEET THE MINIMUM REQUIREMENTS, ON A 1.144-ACRE TRACT OF LAND ZONED SINGLE-FAMILY 10 (SF-10) DISTRICT AND IDENTIFIED AS LOT 8, BLOCK A, GRADY RASH SUBDIVISION, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OR FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

The motion passed by a vote of 4 in favor, 2 against (Daniels and Macalik) and 1 absent (Pruitt).

6. **Z2017-052** - Hold a public hearing to discuss and consider a request by Pat Atkins of Saddlestar Land Development on behalf of the Stagliano Family Trust for the approval of an **ordinance** for a zoning change from an Agricultural (AG) District, Commercial (C) District and Heavy Commercial (HC) District to a Planned Development District for commercial/retail, single-family and townhome land uses on a 63.72-acre tract of land identified as Tract 3 of the W. H. Barnes Survey, Abstract No. 26, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG)

District, Commercial (C) District and Heavy Commercial (HC) District, situated within the SH-205 Overlay (SH-205 OV) District, located at the northwest corner of S. Goliad Street [SH-205] and Mims Road, and take any action necessary **(1st Reading) [Postpone to January 15, 2017] .**

It was announced that the applicant has requested to postpone this item until the January 16th (not 15th) city council meeting.

7. **Z2017-054** - Hold a public hearing to discuss and consider a City initiated zoning request for the approval of an **ordinance** amending Article IX, Tree Preservation, of the Unified Development Code [Ordinance No. 04-38] for the purpose of making general corrections and clarifications to the code, and take any action necessary **(1st Reading).**

Planning Director Ryan Miller provided very brief comments pertaining to this agenda item. The Planning & Zoning Commission has recommended approval of this item. Councilmember Fowler moved to approve Z2017-054. Councilmember Macalik seconded the motion. The ordinance was read as follows:

CITY OF ROCKWALL
ORDINANCE NO. 17-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, BY AMENDING ARTICLE IX, *TREE PRESERVATION*; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

It was pointed out by the city attorney that the public hearing still needed to be opened and held. Mayor Pro Tem Hohenshelt then opened the public hearing and asked if anyone would like to come forward and speak at this time. There being no one indicating such, he then closed the public hearing. The motion passed by a vote of 6 in favor with 1 absent (Pruitt).

8. **Z2017-056** - Hold a public hearing to discuss and consider a City initiated zoning request for the approval of an **ordinance** amending Section 6.2, Public Hearing Postponement, Recess and Continuations, of Article II, Authority and Administrative Procedures, of the Unified Development Code [Ordinance No. 04-38] for the purpose of amending the time period for postponing or continuing a public hearing, and take any action necessary **(1st Reading).**

Mr. Miller provided very brief, introductory comments pertaining to this agenda item. Mayor Pro Tem Hohenshelt opened the public hearing and asked if anyone would like to come forward and speak at this time. There being no one indicating such, he then closed the public hearing. Councilmember Lewis then moved to approve Z2017-056. Councilmember Townsend seconded the motion. The ordinance was read as follows:

CITY OF ROCKWALL
ORDINANCE NO. 18-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, BY AMENDING SECTION 6.2, *PUBLIC HEARING POSTPONEMENT,*

***RECESS AND CONTINUATIONS*, OF ARTICLE II, *AUTHORITY AND ADMINISTRATIVE PROCEDURES*; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.**

The motion passed by a vote of 6 ayes with 1 absent (Pruitt).

9. **Z2017-057** - Hold a public hearing to discuss and consider a City initiated zoning request for the approval of an **ordinance** amending Section 2.1.11, Utilities, Communications and Transportation, of Article IV, Permissible Uses, of the Unified Development Code [Ordinance No. 04-38] for the purpose of changing the antenna standards to allow replacement telecommunications towers in excess of 125-feet by Specific Use Permit (SUP), and take any action necessary **(1st Reading)**.

Mr. Miller provided brief, introductory comments pertaining to this agenda item. Mayor Pro Tem Hohenshelt then opened the public hearing and asked if anyone would like to come forward and speak at this time. There being no one indicating such, he then closed the public hearing. Councilmember Townsend moved to approve Z2017-057. Councilmember Lewis seconded the motion. The ordinance was read as follows:

CITY OF ROCKWALL
ORDINANCE NO. 18-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, BY AMENDING SUBSECTION 2.1.11, *UTILITIES, COMMUNICATIONS AND TRANSPORTATION*, OF SECTION 2, *USE STANDARDS*, OF ARTICLE IV, *PERMISSIBLE USES*; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

The motion passed by a vote of 6 ayes with 1 absent (Pruitt).

10. **Z2017-058** - Hold a public hearing to discuss and consider a City initiated zoning request for the approval of an **ordinance** amending Article IV, Permissible Uses, of the Unified Development Code [Ordinance No. 04-38] for the purpose of creating a land use and use standards for the Food Truck/Trailer land use, and take any action necessary **(1st Reading).**

Mr. Miller, Planning Director, provided brief, introductory comments pertaining to this agenda item. Mayor Pro Tem Hohenshelt opened the public hearing and asked if anyone would like to come forward and speak at this time. There being no one indicating such, he then closed the public hearing. Councilmember Fowler then moved to approve Z2017-058. Councilmember Townsend seconded the motion. The ordinance was then read as follows:

CITY OF ROCKWALL
ORDINANCE NO. 18-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, BY AMENDING SECTION 1, *LAND USE SCHEDULE*, AND SECTION 2, *USE STANDARDS*, OF ARTICLE IV, *PERMISSIBLE USES*; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE

SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

The motion passed by a vote of 6 ayes with 1 absent (Pruitt).

11. **Z2017-059** - Hold a public hearing to discuss and consider a request by Ed Cavendish of Ed Cavendish Homes/VPS Construction on behalf of Jal Kumar of Rockwall Marina Development, LLC for the approval of an **ordinance** amending Planned Development District 8 (PD-8) [Ordinance No. 92-39] for the purpose of allowing townhomes on a 6.88-acre tract of land identified as Lot 4, Block A, Spyglass Hill #4 Addition and Tract 134-12 of the E. Teal Survey, Abstract No. 207, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 8 (PD-8) [Ordinance No. 92-39] for Zero Lot Line (ZL-5) District land uses, generally located south on the south side of Henry M. Chandler Drive west of Ridge Road [FM-740], and take any action necessary **(1st Reading).**

Planning Director Ryan Miller provided introductory comments pertaining to this agenda item. The subject property was annexed into the City of Rockwall and zoned Agricultural (AG) District on October 29, 1973 (Ordinance No. 73-43). On November 12, 1973, the subject property was rezoned to Planned Development District 8 (PD-8) and designated for a Multi-Family Structure or Condominium by Ordinance No. 73-48. This designation was amended on October 19, 1992 by Ordinance No. 92-39 (Case No. PZ1992-008-01), which re-designated the subject property to allow 44 zero-lot-line, single-family homes. The subject property is an un-platted 6.88-acre tract of land located on Henry M. Chandler Drive, adjacent to the Chandler's Landing Marina and the Spyglass Condominiums, in the Chandler's Landing community.

On October 13, 2017, the applicant requested to reinstate the preliminary plat that was approved in 1992 in accordance with Ordinance No. 92-39. This preliminary plat depicted the proposed layout for the 44 zero-lot-line, single-family homes. The Planning and Zoning Commission approved the reinstatement request October 24, 2017; however, the applicant ultimately chose to submit an application on November 17, 2017 requesting to amend Ordinance No. 92-39 to allow for a 48-unit townhome development.

According to the concept plan provided by the applicant the proposed townhome development will consist of 48-single family attached lots that will be broken up into blocks of three (3) to five (5) homes. The development will incorporate approximately 42% open space, the majority of which will be used to create a buffer between the proposed development and Spyglass, Phase 3 (which is located directly east of the subject property). The concept plan also shows that about half of the proposed lots will have front entry garages. The remainder of the lots will incorporate rear entry garages (i.e. accessible from an alleyway). Staff should note that the applicant has requested that the streets be private and maintained by the Homeowner's Association (HOA). Staff has included this condition in the proposed draft ordinance with the stipulation that the applicant provide a 29-foot back-to-back concrete street built to the City's standards. A summary of the proposed density and dimensional requirements for the project were briefly mentioned.

Two-hundred and sixty-nine notices were sent out to residents and property owners within 500' of the property, and the Chandler's Landing and a few other HOAs were also notified. Nine notices and one email, including a letter from the Chandler's Landing HOA, have been received back in opposition of the request.

Mayor Pro Tem Hohenshelt opened the public hearing and asked if anyone would like to come forward and speak at this time.

Ross Ramsay
2235 Ridge Road
Rockwall, TX

Mr. Ramsay came forth and addressed the Council, indicating that he is the architect and is representing the applicant. He shared a drawing with the Council that depicted the lots and layout pertaining to the proposal. He explained that the properties would be individually platted. He also explained that the elevation drops as you head down the hill.

Ed Cavendish
Ed Cavendish Homes
1017 Native Trail
Heath, TX

Mr. Cavendish came forth and further explained some aspects of the proposal, generally explaining that the plan that was approved for zero lots in 1992 did not contain any open space. This current proposal, however, does include open space. He then showed the Council a visual, 3-D depiction of what was approved in 1992 versus what is being proposed today. He went on to speak about the elevations of the property as they pertain to where the first townhome will be placed, including how the view line of the property owners already located above the area will be affected. He went on to show visual renderings of what the proposed townhomes will look like. He also shared a letter of recommendation from an Ebby Halliday realtor as well as sample photos of past custom homes he has constructed in the past.

Scott Mason
275 Henry M. Chandler
Rockwall, TX

Mr. Mason came forth and shared that his property is directly adjacent to the proposed townhomes. He then provided comments pertaining to the proposal, generally expressing concern about the setbacks and the elevations associated with the tops of the rooflines. He shared that he is not absolutely against this request; however, he does have some concerns. He appreciates Mr. Ramsay and Mr. Cavendish working with him and the other existing homeowners located uphill from this proposed development.

Scott Self
319 Harborview Drive
Rockwall, TX

Mr. Self came forth and shared that he represents the Henry M. Chandler Homeowner's Association. He shared that the HOA recently expressed opposition to increasing the density of this particular area of (now) undeveloped land.

Gary Amerson
293 Harborview
Rockwall, TX

Mr. Amerson indicated that he is part of the Environmental Committee of the Henry M. Chandler HOA. He expressed that the environmental committee has also voted to

recommend that the city council not approve this request. They have concerns about the density and the elevations, and both he and the Environmental Committee would like to see this property remain "single-family." He expressed that he and others have concerns about the number of rental properties within the subdivision, which he said is about 30%. So, he would like to see this remain single-family.

Dennis Vierling
1121 Bayshore Drive
Rockwall, TX

Mr. Vierling shared that he owns the property on Bayshore, but he also owns several other properties. He believes that Mr. Ramsay and Mr. Cavendish will work to build something quality and will work to preserve the views. He generally spoke in favor of the request.

Mr. Cavendish came forward again to provide additional comments to Council. He shared details pertaining to about how large, square footage wise, that these homes will be and how much 'green space' will be included.

It was pointed out by Hohenshelt and Mr. Miller that the Planning & Zoning Commission received a case memo that contained a 'typo' which indicated that the number of units approved in 1992 was 44; however, it was really 36 units. Council also received the same 'typo' in its packet / meeting information. Mr. Miller shared that if the Council believes that this error is material enough, then it may wish to remand this back to the Planning & Zoning Commission for further consideration.

Mr. Ramsay again came forth and shared additional comments, generally encouraging the Council to consider moving forth with approval of this request tonight.

Councilmember Daniels shared that he believes the Council should remand this back to P&Z, especially since the information that was provided to the Commission was not accurate when it was initially discussed.

Hohenshelt asked if anyone else would like to come forth and speak at this time. There being no one indicating such, he then closed the public hearing.

Councilmember Daniels moved to remand this item (Z2017-059) back to the Planning & Zoning Commission for further consideration. Councilmember Macalik seconded the motion, which passed by a vote of 5 ayes, 1 against (Lewis), and 1 absence (Pruitt). Councilmember Lewis expressed that he voted against the motion because he was ready to vote on this item tonight.

Mayor Pro Tem Hohenshelt called for a break at 8:03 p.m. Hohenshelt reconvened the council meeting at 8:13 p.m.

XII. ACTION ITEMS

1. **Z2017-055** – Discuss and consider a request by Kevin Hickman of PegasusAblon on behalf of Rockwall Rental Properties, LP for the approval of an **ordinance** for a PD Development Plan amending Ordinance 13-16 and in accordance with Ordinance No. 10-21, for a 7.344-acre tract of land identified as Lot 9, Block A, Harbor-Rockwall Addition and Tract 16 of the M. J. Barksdale Survey, Abstract No. 11, City of Rockwall, Rockwall County, Texas, zoned Planned Development

District 32 (PD-32), situated within the IH-30 (IH-30) Overlay District, located at the southwest corner of the intersection of the IH-30 frontage road and Lakefront Trail, and take any action necessary **(2nd Reading).**

Mayor Pro Tem Hohenshelt indicated that he will be recusing himself from this agenda item (and he has filed an affidavit of recusal with the city secretary). Councilmember Fowler then took over chairing the meeting for the duration of this agenda item.

Planning Director Ryan Miller briefly shared that at the last council meeting, staff was instructed to make certain changes to this item and then take those back to the Planning & Zoning Commission for an additional review. This is technically second reading of the ordinance.

Councilmember Lewis moved to approve Z2017-055. Councilmember Townsend seconded the motion. The ordinance was read as follows:

CITY OF ROCKWALL
ORDINANCE NO. 17-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING *ORDINANCE NO. 11-43 & ORDINANCE NO. 13-16*, PLANNED DEVELOPMENT DISTRICT 32 (PD-32) [*ORDINANCE NO. 10-21*] AND THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, SO AS TO APPROVE A DEVELOPMENT PLAN ON APPROXIMATELY 7.344-ACRES FOR PROPERTY IDENTIFIED AS LOT 9, BLOCK A, HARBOR-ROCKWALL ADDITION AND TRACT 16 OF THE M. J. BARKSDALE SURVEY, ABSTRACT NO. 11, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS; AND MORE FULLY DESCRIBED HEREIN BY *EXHIBIT 'A'*; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF *TWO THOUSAND DOLLARS ($2,000.00)* FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

The motion passed by a vote of 5 ayes, 1 recusal (Hohenshelt), and 1 absent (Pruitt).

2. Discuss and consider approval of a variance request from the Rockwall Housing Authority from the City's Standards of Design and Construction, Section 2.19 (Off-Street Parking) allowing for the asphalt overlay of an existing concrete parking lot, and take any action necessary.

Tony Rios
Executive Director of Rockwall Housing Authority
100 Lake Meadows
Rockwall, TX

Mr. Rios indicated that he is requesting a variance from the Council, explaining that the Housing Authority has taken steps to make several improvements to the property. He would like a variance to do an asphalt overlay to the existing parking lot in an effort to improve the parking lot. He showed photos of a lot of cracks in the existing concrete parking lot at the Housing Authority. He explained that he believes the apartment complex located next door did an asphalt overlay, and it greatly improved their parking lot. So, he is seeking approval of the asphalt overlay as well.

Councilmember Lewis shared that if the existing cracks on the concrete are not addressed before the asphalt is laid (if this even gets approved), then those cracks will eventually reappear within the asphalt. Mr. Rios shared that they plan to make improvements to the parking lot every 4 or 5 years.

Ms. Williams clarified that the property next door to the Housing Authority property did have some asphalt overlaid; however, the existing parking lot prior to the overlay was asphalt to begin with. That property, she said, does have concrete curbs and gutters; however, the existing surface that was overlaid was asphalt. Also, the parking lot where Planet Fitness is located did recently get an asphalt overlay; however, it was also 'existing asphalt.' Ms. Williams clarified that if a property already had asphalt, the property owner can do an asphalt overlay. However, if the parking lot is concrete, it has to be replaced / improved with concrete, per the city's standards.

Councilmember Daniels moved to deny the request to overlay the parking lot with asphalt. Councilmember Macalik seconded the motion, which passed by a vote of 6 ayes with 1 absent (Pruitt).

3. Discuss and consider height and size variance requests associated with the expansion of an existing monument sign located at 3018 Ridge Road, and take any action necessary.

Building Official Jeffrey Widmer came forth and explained that the applicant is requesting variances to both the height and size of a monument sign. The existing monument sign is 82 sq. ft. in size and 7' in height and is in compliance with all other sign ordinance regulations. The applicant desires to expand the sign to an overall size of 150 sq. ft. and height of 12'-10". The applicant states the increase in the size and height is necessary, because of the current limited visibility for Coldwell Banker. He explained that the sign ordinance allows a monument sign to be a maximum of 7' in height and a maximum of 98 sq. ft. in area. He also mentioned that this is a unique request in that he cannot recall any other past sign of this type being approved for this large of a size or height.

Councilmember Daniels shared that he visited the property, and he observed that this sign is actually one of the more visible signs. Some of the other signs are more obscure. He believes that approving this request would open up the floodgates to others coming forth to request larger signs.

The applicant came forth.

Jamie (no last name was stated)
Signature Signs and Graphics
880 E. Ralph Hall Parkway
Rockwall, TX

Jamie pointed out that it is his understanding that the name of the shopping center has to be included at the top of the sign. Mr. Widmer came forth and shared that this sign is not a retail center, but, rather, it is a stand-alone building that contains multiple tenants within the building. So, whether there are 4 or 6 tenants, they would all be required to share the space on the sign. He pointed out that the applicant is willing to remove the "castle" topper on the proposed sign as well as the name of the business center.

Mayor Pro Tem Hohenshelt asked if anyone would like to make a motion. Councilmember Daniels then moved to deny the height and size variance requests. Councilmember Townsend seconded the motion, which passed by a vote of 6 in favor with 1 absent (Pruitt).

4. **SP2017-039** - Discuss and consider a request by Dub Douphrate of Douphrate & Associates, Inc. on behalf of Russell Frank of Hacienda Car Wash for the approval of variances in conjunction with an approved site

plan for a carwash within the Scenic Overlay (SOV) District on a 2.008-acre tract of land being identified as Lots 1 & 2-01, Block A, the Woods at Rockwall Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the Scenic Overlay (SOV) District, located south of the intersection of W. Yellow Jacket Lane and Ridge Road [FM-740], and take any action necessary.

Mr. Miller, Planning Director, provided background information concerning this agenda item. The applicant is requesting approval of variances to the Scenic Overlay (SOV) District standards to allow for not meeting the 20% stone requirement for the rear building elevation and to allow for stucco to exceed the 50% standard as outlined in staff's report and as depicted on the building elevations. The request is in conjunction with an approved site plan and will allow the construction of a single-story, 4,396 SF car wash facilities. The proposed car wash will be situated on a 2.008-acre tract of land identified as Lots 1 & 2-01, Block A, The Woods at Rockwall Addition that is located south of the intersection of W. Yellow Jacket Lane and Ridge Road [*FM-740*], is situated within the Scenic Overlay (*SOV*) District, and is zoned *Commercial* (C) *District*.

On February 6, 2017, the City Council approved a Specific Use Permit (*SUP No. S-162*) [*Ordinance No. 17-09*] to allow for a car wash facility within the Scenic Overlay (SOV) District. The SUP also established operational conditions requiring the car wash tunnel to be setback a minimum of 50-ft from Ridge Road and that the facility is required to provide screening adjacent to the southern boundary (*i.e. Lot 1, Block A, Lakewood Park Addition*) that consists of a wrought iron fence and landscaping. The applicant's site plan meets both of these conditions. Additionally, the SUP stipulates that the development shall generally be in conformance with the concept plan as established in the ordinance. The Architectural Review Board did ask the applicant to tone down the colors some; however, both the ARB and the Planning & Zoning Commission did ultimately recommend approval of this request.

The applicant then came forth:

Russell Frank
2400 S. Goliad
Rockwall, TX

Mr. Frank stood ready to answer any questions of Council; however, none were asked. Councilmember Lewis then moved to approve SP2017-039. Councilmember Townsend seconded the motion, which passed by a vote of 5 ayes, 1 against (Fowler), and 1 absent (Pruitt).

5. **MIS2017-015** - Discuss and consider a special request by Michael Hunter of the North East Texas Community Development Corporation for the approval of waivers to the requirements stipulated for the Southside Residential Neighborhood Overlay (SRO) District to allow the construction of a duplex on a 0.1120-acre tract of land identified as a portion of Lot 4B, Block H, Sanger Addition, City of Rockwall, Rockwall County, Texas, zoned Multi Family 14 (MF-14) District, situated within the Southside Residential Neighborhood Overlay (SRO) District, located at the northeast corner of Peters Colony and E. Bourn Street, and take any action necessary.

The applicant has submitted a special request for the approval of a deviation from the minimum front yard setback, minimum lot size, a masonry exception, and minimum lot depth for properties in the Southside Residential Neighborhood Overlay (SRO) District as stipulated by the Unified Development Code (UDC). The purpose of this request is to allow for the subject property to platted as shown the by the ownership lines

depicted on the Rockwall County Appraisal District (RCAD) website. The purpose for the replat is for the construction of a duplex. The property is situated at the northeast corner of Peters Colony and E. Bourn Street.

The concept plan submitted by the applicant shows that the subject property will have a duplex oriented toward Peters Colony. The applicant is requesting a special exception to the minimum front yard setback adjacent to Peters Colony to reduce it from 20-feet to 15-feet. The applicant is also requesting a special exception to the minimum lot size to allow a reduction from 5,000 SF to 4,896 SF. Additionally, the applicant is requesting a masonry exception to allow 60% Hardi Board (or other similar cementaceous material) instead of the 50% maximum allowed for properties located in the Southside Residential Overlay (SRO) District. Finally, the applicant is requesting a special exception to the minimum lot depth to reduce it from 100-feet to 70-feet. Staff should note that a duplex is allowed by-right in a Multi-Family 14 (MF-14) District.

The Southside Residential Overlay (SRO) District was created to provide flexibility necessary for allowing infill and redevelopment of the Southside Neighborhood. According to Subsection 6.4, *Southside Residential Neighborhood Overlay (SRO) District,* of Section 6*, Overlay Districts,* of Article V, *District Development Standards*, of the Unified Development Code (UDC), residential properties located within the Southside Residential Neighborhood Overlay (SRO) District are subject to certain development standards. The City's Planning & Zoning Commission did recommend approval of this request by a vote of 4 in favor with 2 against.

Following a few, brief questions, Councilmember Fowler moved to approve MIS2017-015. Councilmember Lewis seconded the motion, which passed by a vote of 5 in favor, 1 against (Macalik), and 1 absent (Pruitt).

6. Discuss and consider adoption of a resolution setting solid waste collection rates, and take any action necessary.

Mr. Crowley shared that the existing contract with Republic Waste allows for various opportunities to request rate increases during the contract length. The resolution reflects a 3% increase, which will result in an increase of about a .42 cents per month for residential customers.

Mr. Rick Bernas with Republic Services came forth and provided one, brief comment, generally indicating that his company is requesting the annual 3% increase, which can occur each January, per the contract terms. Councilmember Fowler then moved to approve the resolution. Councilmember Lewis seconded the motion, which passed by a vote of 6 ayes with 1 absent (Pruitt).

7. **MIS2017-016** - Discuss and consider a special request by Steven J. Goldberg of Cogent Realty Advisors, LLC for the approval of waivers to the requirements stipulated for the Southside Residential Neighborhood Overlay (SRO) District to allow the construction of two (2) single-family homes on a 0.310-acre tract of land identified as Lots 33 & 34, Canup Addition, City of Rockwall, Rockwall County, Texas, zoned Single Family 7 (SF-7) District, situated within the Southside Residential Neighborhood Overlay (SRO) District, located at the southeast corner of Emma Jane Road and Sam Houston Street, and take any action necessary.

Mr. Miller, Planning Director, provided background information concerning this agenda item. On November 28, 2017, the Planning and Zoning Commission recommended denial of a request for approval of a deviation from the minimum front yard setback, minimum lot depth, and minimum lot size for the purpose of constructing three (3)

single-family homes. After the Planning and Zoning Commission's recommendation, the applicant chose to withdraw the request. Since that time, the applicant has changed his request and is seeking approval of a deviation from the minimum front yard setback stipulated for properties in the Southside Residential Neighborhood Overlay (SRO) District as stipulated by the Unified Development Code (UDC). The purpose of this request is to allow for the subdivision of three (3) tracts of land into two (2) lots for the construction of two (2) single-family homes. According to the applicant, the lots were purchased after reviewing the ownership lines depicted by the Rockwall Central Appraisal District (RCAD), which makes the properties appear to be in three (3) parcels of land; however, two (2) of the properties were subdivided by metes and bounds, and these lots are not buildable in their current format (i.e. they do not meet the lot depth and lot size requirements). In addition, the lots are currently platted into two (2) lots. Staff should note that this property is located within the Southside Residential Neighborhood Overlay (SRO) District, which allows for less restrictive development standards than a typical single-family, residentially zoned property. Mr. Miller mentioned that the Planning & Zoning Commission has recommended approval of this request.

Councilmember Townsend moved to approve MIS2017-016. Councilmember Daniels seconded the motion, which passed by a vote of 6 ayes with 1 absent (Pruitt).

8. **SP2017-037** - Discuss and consider a request by Randy Eardley, P.E. of Wier & Associates, Inc. on behalf Getra Thomason-Saunders of Chick-Fil-A, Inc. for the approval of variances in conjunction with an approved site plan for a restaurant with drive-through on a 0.656-acre tract of land being identified as Lots 1 & 2, Block A, Billy Peoples #1 Addition, City of Rockwall, Rockwall County, Texas, zoned General Retail (GR) District, situated within the SH-205 Overlay (SH-205 OV) District, addressed as 1902 & 2000 S. Goliad Street [SH-205], and take any action necessary.

Mr. Miller provided background information concerning this agenda item. The applicant is requesting variances associated with an approved site plan for a restaurant, 2,000 SF or more, w/ drive-through [i.e. Chick-Fil-A]. The proposed restaurant is ~2,200 SF and situated on a 0.656-acre parcel of land [i.e. Lots 1 & 2, Block A, Billy Peoples #1 Addition], is zoned General Retail (GR) District and is addressed as 1902 & 2000 S. Goliad Street [SH-205]. Currently, there is an existing vacant convenient store [i.e. E-Z Mart] and a vacant restaurant [i.e. Pizza Hut] that will need to be demolished in order to develop the site. According to Subsection 2.1.6, Retail and Personal Service Use Conditions, of Section 2, Use Standards, of Article IV, Permissible Uses, of the Unified Development Code (UDC) a restaurant with a drive- through shall not have access to local residential streets. Additionally, the UDC states that stacking lanes for drive-through service windows shall accommodate at least six (6) vehicles per lane. In this case, the submitted site plan shows stacking to accommodate ~19 vehicles with dual lanes. Based on the applicant's submittal, staff has identified the following variances:

A) *Four (4) Sided Architecture:* According to Section 6.7, *SH-205 Overlay (SH-205 OV) District*, of Article V, *District Development Standards*, of the UDC, commercial buildings shall be architecturally finished on all four (4) sides (i.e. incorporating the same materials detailing, and features).

B) Pitched roof and landscaping standards associated with the city's SH-205 Overlay (SH-205 OV) District Standards

Councilmember Daniels asked if it is necessary to act on the variances individually or IF it is ok to vote on them together. He went on to indicate that he is opposed to the variance requests associated with the vertical articulation (a proposed flat roof instead of the required pitched roof). He essentially views this as a preference of the applicant, and he does not believe this is reason enough to approve this particular variance request.

Robert Gunner
5613 Lindell Avenue

Dallas, TX

Robert came forth and shared that he is the architect on the project. He provided brief comments, explaining that the flat roof is proposed, in part, to allow for air conditioning units to be placed on top of the roof. After brief discussion, Councilmember Daniels generally indicated that he was now comfortable with approving the variance pertaining to a flat roof rather than a pitched roof.

Councilmember Townsend pointed out that all of the surrounding buildings all have flat roofs as well. At that, Councilmember Daniels shared that he is okay with the proposed flat roof.

Councilmember Lewis moved to approve SP2017-037, including all three variance requests. Councilmember Daniels seconded the motion, which passed by a vote of 6 ayes with 1 absent (Pruitt).

XIII. EXECUTIVE SESSION

THE CITY OF ROCKWALL CITY COUNCIL WILL RECESS INTO EXECUTIVE SESSION TO DISCUSS THE FOLLOWING MATTERS AS AUTHORIZED BY CHAPTER 551 OF THE TEXAS GOVERNMENT CODE:

1. Discussion regarding City Council's authority to waive state regulations pursuant to Section 551.071 (Consultation with Attorney).
2. Discussion regarding the appeal to the Public Utility Commission filed by the cities of Garland, Mesquite, Plano and Richardson against the North Texas Municipal Water District (NTMWD) regarding water rates pursuant to Section 551.071 (Consultation with Attorney).

XIV. RECONVENE PUBLIC MEETING & TAKE ANY ACTION AS RESULT OF EXECUTIVE SESSION

The Council did not reconvene into Executive Session following the close of the public meeting agenda.

XV. ADJOURNMENT

The Council acknowledged students in the audience tonight who are from a local high school "government class." Mayor Pro Tem Hohenshelt adjourned the public meeting at 8:59 p.m.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS 2nd DAY OF JANUARY, 2018.

CITY OF ROCKWALL

ORDINANCE NO. 18-01

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, BY AMENDING ARTICLE IX, *TREE PRESERVATION* FOR THE PURPOSE OF MAKING GENERAL CORRECTIONS AND CLARIFICATIONS TO THE CODE; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, an amendment to the City of Rockwall's Unified Development Code [*Ordinance No. 04-38*] has been initiated by the City Council of the City of Rockwall to amend Article IX, *District Tree Preservation*, of the Unified Development Code [*Ordinance No. 04-38*] and,

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the city's corporate boundaries, and the governing body in the exercise of its legislative discretion, has concluded that the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:**

Section 1. That Article IX, *Tree Preservation,* of the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall, as heretofore amended, be and the same is hereby amended as specifically described in *Exhibits 'A'* of this ordinance.

Section 2. That any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *Two Thousand Dollars* ($2,000.00) for each offense and each and every day such offense shall continue shall be deemed to constitute a separate offense;

Section 3. That if any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable;

Section 4. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides;

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 2ND DAY OF JANUARY 2018.

Jim Pruitt, Mayor

ATTEST:

Kristy Cole, City Secretary

APPROVED AS TO FORM:

Frank J. Garza, City Attorney

1st Reading: December 18, 2017

2nd Reading: January 2, 2018

Article IX, Tree Preservation, of the Unified Development Code

Section 1. Purpose, Applicability and Exemptions.

Section 1.1. Purpose.

The purpose of this article is to secure the preservation of mature, healthy trees and natural areas, and to ensure the consideration of protected trees during the planning and design process for development and/or redevelopment within the City. In addition, this article is intended to layout procedures for the protection of trees during the construction process, and outline the requirements for the replacement and replanting of trees that have been removed. This article also provides protection for the indiscriminate clearing of any property within the City.

Section 1.2. Applicability.

The terms and provisions of this article shall apply to all real property within the City's corporate limits that meets one (1) of the following criteria:

1. The establishment of a new subdivision of land.
2. The replatting of undeveloped land for the purpose of combining and/or subdividing real property.
3. The development of a residential tract of land that is greater than or equal to three (3) acres.
4. The development and/or removal of trees on a non-residential tract of land that is greater than or equal to one (1) acre.
5. A submission of a site plan and/or plat for the purpose of developing, subdividing or combing non-residential land.

Section 1.3. Exemptions.

The terms and provisions of this article shall not apply if the following conditions exist:

1. *Agricultural Property.* Property zoned Agricultural (AG) District and being actively used for agricultural purposes shall be exempt from the requirements specified by this article; however, clear-cutting of land on property zoned Agricultural (AG) District that is not being actively used for agricultural purposes is prohibited.
2. *Damaged/Diseased Trees.* If a certified arborist establishes that the tree is dead, diseased, damaged beyond the point of recovery, or in danger of falling the tree maybe removed.
3. *Residential Property.* The owner of a property with an existing single-family home shall be exempt from the tree protection and replacement requirements specified by this article as it pertains to that property on which the home is located.
4. *Public Safety.* If the City determines that a tree or trees create unsafe vision clearance or conflicts with other ordinances or regulations, or the tree or trees are determined to be in a diseased, dead, hazardous or dangerous condition so as to endanger the public health, safety or welfare of the general public, the City or property owner may remove the tree or trees without being required to follow the terms and provisions of this ordinance.
5. *Utility Service Interruption.* The tree has disrupted a public utility service due to tornado, flood or other act of God. Removal shall be limited to the part of the tree that is found necessary to be removed to reestablish and maintain the utility service.
6. *Utility Companies, Utility Service and or Distribution/Transmission Lines.* Utility companies shall not be subject to the tree protection or replacement requirements in this article when establishing distribution and transmission lines. When establishing new utility service, services should be routed between the service pole or transmission and distribution lines and the building being served in a manner that does not require the removal of a protected of feature tree. All right-of-way, easements or similar types of public property maintained by utility companies shall not be subject to the tree protection or replacement requirements of this article.
7. *Public Property.* All right-of-way, easements or similar types of public property maintained by the city shall not be subject to the terms and provisions of this article.

Section 2. Definitions.

- ☑ *Critical Root Zone (CRZ).* The area of undisturbed natural soil around a tree defined by a concentric circle with a radius equal to the distance from the trunk to the outermost portion of the drip line but not less than a one (1) foot radius for each one (1) inch DBH.

- ☑ *Clear-Cutting.* The removal of all trees or a significant majority of the trees within an area.

- ☑ *Diameter at Breast Height (DBH).* The diameter in inches of a tree as measured through the main trunk at a point 4½-feet above the natural ground level.

- ☑ *Drip Line.* A vertical line running through the outermost portion of the crown of a tree and extending down to the ground.

- ☑ *Feature Tree.* Any tree -- *excluding non-protected trees* -- that has a DBH of greater than 25-inches. Feature Trees may not be removed without approval of the Planning and Zoning Commission.

- ☑ *Limits of Construction.* A delineation on the *Treescape Plan* that shows the boundary of the area within which all construction activity will occur.

- ☑ *Non-Protected Tree.* All Bois d'Arc, Willow, Cottonwood, Locust, and Chinaberry regardless of size and Hackberry and Cedar trees less than 11-inches shall be considered non-protected trees and do not require mitigation to be removed.

- ☑ *Primary Protected Tree.* Any tree -- *excluding non-protected trees and Hackberry and Cedar trees* -- that have a DBH of four (4) inches or greater. The removal of any protected tree shall require the approval of the Planning and Zoning Commission. The diameter of a multi-trunk tree shall be determined by adding the total diameter of the largest trunk at DBH to one-half (½) the diameter of each additional trunk.

- ☑ *Protective/Temporary Fencing.* Snow fencing, chainlink fencing, orange vinyl construction fencing or similar fencing with a four (4) foot approximate height. The Director of Planning and Zoning or his/her designee, shall determine the appropriate type of fencing for any particular property or portion thereof.

- ☑ *Replacement Tree.* A tree from the Reclamation/Tree Preservation list contained in Table 1.1, Required Trees by District, of Appendix F, Landscaping Guidelines and Requirements, of this Unified Development Code with a minimum caliper size of three (3) inches and height of seven (7) feet. For the purpose of determining size, replacement trees should be measured at DBH.

- ☑ *Secondary Protected Tree.* Any Hackberry or Cedar tree that measures 11-inches or more. The removal of any protected tree shall require the approval of the Planning and Zoning Commission. The diameter of a multi-trunk tree shall be determined by adding the total diameter of the largest trunk at DBH to one-half (½) the diameter of each additional trunk.

- ☑ *Tree.* Any self-supported woody perennial plant that will attain a trunk diameter of three (3) inches DBH and normally attains an overall height of at least 15-feet at maturity; usually with one (1) main stem or trunk and many branches.

Section 3. Treescape Plan.

Section 3.1. Treescape.

A *Treescape Plan* is a plan showing the exact location, size (*i.e. trunk diameter and height*), and common name of all trees, four (4) inches and greater and indicating the trees that are proposed to be removed, transplanted or replaced. A *Treescape Plan* shall be prepared by a landscape architect or design professional, be drawn to the largest scale practical, and incorporate the following elements:

1. The location of all existing and/or proposed structures, or building pads as shown on the grading plan and all improvements properly dimensioned and referenced to the property lines.
2. The building setbacks.
3. All existing and proposed site elevations, grades, major contour lines and the limits of construction.
4. The location of all existing or proposed utilities and easements.
5. The location of all protected and feature trees.
6. The location of all trees to be removed from the site and the location of all replacement trees.
7. A spreadsheet indicating all trees by species, location key shown on the *Treescape Plan*, the DBH, the physical condition of tree, and an indication of whether or not the applicant is proposing to remove that tree. Each column with numeric values shall be totaled.
8. A title block stating street address, lot and block, subdivision name, date and project number.
9. The name, address, and phone number of person preparing the plan and the developer/property owner.

Section 3.2. Treescape Plan Required.

No person, directly or indirectly, shall cut down, destroy, remove or move, or effectively destroy through damaging, any tree situated on a property regulated by this article without first submitting and receiving approval of a *Treescape Plan* unless otherwise allowed by this article.

For properties that have no protected or feature trees or where the development of the property will not require the removal of any protected or feature trees, the developer or property owner may submit a letter certifying that no protected or feature trees will be affected as a result of the proposed development. This letter will be submitted with the understanding that if it is determined that there are protected or feature trees on the property any violation of the provisions of this article shall be subject to the violation provisions and fines stipulated in Section 10, *Violations*.

Staff may administratively approve any *Treescape Plan* or letter that does not involve the removal of any protected or feature trees.

Section 3.3. Treescape Plan Application.

All applications for *Treescape Plans* shall be submitted to the Director of Planning and Zoning or his/her designee. In addition to the application, an applicant shall also submit 1) a *Treescape Plan* conforming to the requirements of this article and 2) a letter from the applicant or property owner indicating the reason for the removal of any protected or feature trees. A *Treescape Plan* may also be required with an application for a site plan and/or a preliminary plat, replat, or final plat.

Section 3.4. Treescape Plan Review Process.

The Director of Planning and Zoning, or his/her designee, shall review the *Treescape Plan* and approve the plan per the requirements of this article, or forward any recommendations to the Planning and Zoning Commission. As part of the *Treescape Plan* review process, the city has the right to request changes or adjustments in the layout and design of a development to save trees. The Planning and Zoning Commission will review and approve or disapprove the *Treescape Plan*. The decision of the Planning and Zoning Commission may be appealed to the City Council.

Section 3.5. Treescape Plan Expiration.

A *Treescape Plan* shall be valid for two (2) years from the approval date. A *Treescape Plan* that is approved in conjunction with a preliminary plat, final plat, site plan, and/or building permit shall be valid for the same amount of time as the corresponding plan and/or permit.

Section 3.6. Builder/Contractor Responsibility.

It shall be the responsibility of the builder/contractor to verify that a parcel of land has an approved *Treescape Plan* prior to commencing work on a property. In addition, the builder/contractor shall be responsible for ensuring that all construction activities meet the requirements of this article.

Section 4. Tree Removal Permit.

Once a *Treescape Plan* has been approved for a property, a Tree Removal Permit will be required to remove any tree(s). Tree Removal Permits may be approved administratively by the Director of Planning and Zoning or his/her designee, or forwarded on to the Planning and Zoning Commission for approval. Feature trees may not be removed without the approval of the Planning and Zoning Commission. All trees removed through this process will require mitigation in accordance with the Sections contained in this article.

Section 5. Tree Mitigation Requirements.

The Tree Mitigation requirements shall apply for all properties that do not fall under the exemptions listed in Section 1.3, *Exemptions*, of this Article. In addition, if a *Treescape Plan* or Tree Removal Permit allows for the removal of a protected or feature tree(s), the applicant and/or property owner shall account for the number of inches of tree being removed using the following criteria:

1. *Primary Protected Trees*. Primary protected trees measuring four (4) inches through 25-inches DBH shall be replaced on an inch-for-inch basis (*i.e. the total number of caliper inches of tree being replaced shall equal the total number of caliper inches being removed*).
2. *Secondary Protected Trees*. Hackberry and Cedar trees measuring 11-inches through 25-inches DBH shall be replaced with a half (½) inch for every inch removed (*i.e. the total number of caliper inches of tree required to be replaced shall be half (½) of the inches being removed*).
3. *Featured Trees*. Featured trees (*i.e. all trees greater than 25-inches*) shall be replaced with twice the number of inches being removed (*i.e. the total number of caliper inches of tree being replaced shall be twice the number of caliper inches being removed*).
4. *Non-Protected Tree*. No mitigation will be required for the removal of any tree that is less than four (4) inches DBH or less than 11-inches DBH for Hackberry and Cedar trees. In addition, no mitigation shall be required for the removal of Bois d'Arc, Willow, Cottonwood, Locust and Chinaberry trees.

Table 1: Summary of Mitigation Requirements

Type of Tree	Mitigation Value	Mitigation Requirement	Example of Mitigation Requirements
Primary Protected Trees	4" – 25"	1":1"	A 20-inch tree would require 20-inches of mitigation.
Secondary Protect Trees	11" – 25"	1":½" or 1":0.5"	A 20-inch tree would require ten (10) inches of mitigation.
Featured Trees	Greater Than 25"	1":2"	A 30-inch tree would require 60-inches of mitigation.

5. *Tree Preservation Credits*. For each saved Oak, Pecan or Elm tree(s) 25-inches DBH or greater the mitigation balance can be reduced on an inch-for-inch basis for up to 20% of the total mitigation balance (*i.e. Total Mitigation Balance x 20% = Total Eligible Tree Preservation Credit*).
6. *Mitigation Balance*. The Total Mitigation Balance (*i.e. mitigation balance – tree preservation credits = total mitigation balance*) may be satisfied through one or a combination of the following:

    (a) The developer/property owner can provide the required number of trees -- *three (3) inch caliper DBH minimum* -- on the subject property to offset the total mitigation balance (*e.g. if the total mitigation balance is nine [9] inches then three [3], three [3] inch caliper trees could be planted on-site to satisfy the mitigation requirements*).

    (b) The developer/property owner may petition the Parks and Recreation Department to accept the required number of trees -- *three (3) inch caliper DBH minimum* -- to offset the total mitigation balance (*e.g. if the total mitigation balance is nine [9] inches then three [3], three [3] inch caliper trees could be submitted to the Parks and Recreation Department to satisfy the mitigation requirements*). Depending on the number of trees being submitted the Director of Parks and Recreation or his/her designee could require a facilities agreement be approved prior to accepting the trees.

(c) Tree Preservation Credits may be purchased at a rate of $200.00 per inch for up to 20% of the total replacement inches (*e.g. if total mitigation required was 100-inches the developer/property owner could pay a total of $4,000.00 [i.e. (20% x 100) x $200.00 = $4,000.00] into the City's Tree Fund; however, the developer/property owner would still be required to satisfy a remaining tree mitigation balance of 80-inches*). In addition, if the developer/property owner plants a tree on (i) the property for which the tree preservation credit was assessed or (ii) a location that is mutually agreed upon by the City and the developer/property owner, the developer/property owner shall be eligible for a reduction in the cost of tree preservation credits of up to 50%. These funds will be deposited in the *City's Tree Mitigation Fund* and will be used for planting trees in the City's parks, medians, street right-of-ways, or other similar areas as determined by the Parks and Recreation Department.

(d) Trees required by Article VIII, *Landscape Standards*, of this Unified Development Code shall be permitted to be subtracted from the total mitigation balance if provided on site as part of the required landscaping.

7. Alternative Tree Mitigation Settlement Agreements. In certain cases, the City Council -- *upon recommendation from the Planning and Zoning Commission* -- may consider an Alternative Tree Mitigation Settlement Agreement where, due to hardship, the applicant is unable to meet the requirements of this article or where it is determined that adherence to the tree mitigation requirements will create a hardship for an applicant. These funds will be deposited in the *City's Tree Mitigation Fund* and will be used for planting trees in the City's parks, medians, street right-of-ways, or other similar areas as determined by the Parks and Recreation Department.

Section 6. Tree Planting and Transplanting Requirements.

Section 6.1. Replacement Trees.

All replacement trees shall be subject to the following planting requirements:

1. All replacement trees must be maintained in a healthy growing condition for a minimum of two (2) years from the date of planting.
2. Replacement trees shall not be planted within an area such that the mature root zone will interfere with underground public utility lines, and/or where the mature canopy of the tree will interfere with overhead utility lines. In addition, no tree shall be planted within five (5) feet of an existing fire hydrant, water line or sewer line.
3. Replacement trees shall be selected from the Reclamation/Tree Preservation section of Table 1.1: Required Trees by District contained in Appendix 'F', *Landscape Guidelines and Requirements*, of the Unified Development Code.
4. All replacement trees shall be a minimum of three (3) caliper inches DBH.

Section 6.2. Transplanting Trees.

All trees conforming to the species permitted in the *Reclamation/Tree Preservation* section of *Table 1.1: Required Trees by District* contained in Appendix 'F', *Landscape Guidelines and Requirements*, of the Unified Development Code can be transplanted to meet the replacement requirements and shall be subject to the following planting requirements:

1. All trees three (3) caliper inches DBH through six (6) caliper inches DBH are eligible for transplanting.
2. All transplanted trees must survive and be maintained in a healthy condition for a minimum of two (2) years from the date of transplanting. The developer/property owner who received the transplanting credit must replace trees that do not meet these criteria.
3. Transplanted protected trees will be listed in the tree survey with the notation that they are being transplanted.

Section 7. Tree Protection During Construction.

Section 7.1. Tree Protection.

1. Prior to any construction or land development, the developer shall clearly mark all protected and feature trees with an aluminum tag -- *indicating the trees relationship to the Treescape*

Plan -- and flag (*i.e. bright fluorescent red vinyl tape*). The red tape should be wrapped around the main trunk of the protected and/or feature tree at a height of approximately five (5) feet so that the tape is clearly visible during construction. In those instances where a protected tree is so close to the construction area that construction equipment could possibly damage the tree, a protective fence shall be required. The protective fence must be maintained during all construction phases until the project is finished.

2. The developer or property owner shall be responsible for preserving all protected and feature trees during construction. This includes hiring an arborist, if necessary.

Section 7.2. Material and Equipment Storage.

The developer or contractor shall not store any material or equipment under the canopy of any protected or featured tree. During the construction stage of the development no cleaning or storage of equipment or material shall be allowed within the drip line of any tree scheduled to be preserved on an approve *Treescape Plan*. Those materials include, but are not limited to, oils, solvents, mortar, asphalt and concrete.

Section 7.3. Signs.

No signs, wire or other attachments shall be affixed to any tree scheduled to be preserved on an approve *Treescape Plan*.

Section 7.4. Traffic.

No vehicular traffic, construction equipment traffic or parking shall take place within the drip line of any tree unless on existing street pavement. This restriction does not apply to single incident access for purposes of clearing underbrush, establishing the building pad and associated lot grading, vehicular traffic necessary for routine utility maintenance or emergency restoration of utility service or routine mowing operations.

Section 7.5. Grade.

No grade change in excess of two (2) inches shall be allowed within the drip line of any protected or featured tree unless adequate construction methods are approved beforehand. If approved, major grade changes (i.e. two [2] inches or greater) within the critical root zone of a protected or featured tree will require additional measures to maintain proper oxygen and water exchange with the roots. Root pruning will be required when disturbance will result in root exposure.

Section 7.6. Tree Flagging.

At the time of submittal of a *Treescape Plan* all protected trees or feature trees should be marked with an aluminum tag, which indicates its relationship to the *Treescape Plan*, and clearly flagged with bright fluorescent red vinyl tape. The red tape should be wrapped around the main trunk of the protected tree at a height of approximately four (4) feet so that the tape is clearly visible.

Section 7.7. Boring.

Boring of utilities under protected or feature trees shall be required in those circumstances where it is not possible to trench around the critical root zone of a protected or feature tree. When required, the length of the bore shall be the width of the critical root zone plus two (2) feet on either side of the critical root zone and shall be at a minimum depth of 48-inches.

Section 7.8. Damage.

Any physical damage to a tree being preserved for a tree credit that is considered to place the survival of the tree in doubt shall be eliminated as a credited tree and will require additional trees to planted in its place at the required ratio. A certified arborist shall be consulted to determine whether physical damage to a tree places the survival of the tree in doubt.

Section 8. Tree Pruning.

Section 8.1. General.

No protected or featured tree shall be pruned in a manner that would significantly disfigure the tree, or in a manner that would lead to the death of the tree.

Section 8.2. Pruning by Utility Companies.

Utility companies may prune trees as necessary to reestablish disrupted service or maintain existing service without obtaining a permit.

Section 8.3. Allowed Pruning.

A protected or featured tree may be pruned in cases where it is necessary to remove branches broken during the course of construction, or where protected or featured trees must be pruned to allow construction of a structure. Pruning should be done in manner that does not significantly disfigure the tree or lead to the death of the tree.

Section 9. Tree Fund.

Section 9.1. Administration of the Tree Fund.

The city shall administer the Tree Fund. The funds shall be used to purchase plant material as permitted by this ordinance, install (*including the equipment or labor necessary to install the plant materials*) and maintain trees on public property including the necessary irrigation equipment, to acquire wooded property that remains in a naturalistic state in perpetuity, to perform and maintain a city wide tree inventory and to educate citizens and developers on the benefits and value of trees. The city council shall have the ability to adopt alternative methods of creating tree credits and methods of distribution of trees and/or funds for purchasing trees.

Funds collected as a result of the mitigation of trees may be used to purchase trees, both deciduous and coniferous, any woody type plant or any perennial appropriate for the climatic conditions of the north Texas region.

(Ord. No. 09-23, 6-15-2009; Ord. No. 15-13, § 1, 4-20-2015)

Section 9.2. Collection of Money for the Tree Fund.

Money contributed to the tree fund shall be paid prior to the issuance of a building permit and/or prior to the filing of a Final Plat.

Section 10. Violations.

Any person, firm, corporation, agent or employee thereof who violates any of the provisions of this article shall be fined $500.00 for each offense. The unlawful damage, destruction or removal of each tree shall be considered a separate incident and each offence subjects the violator to the maximum penalty of $500.00 for the first tree with each subsequent tree increasing by $500.00 increments.

No acceptance of public improvements shall be authorized and no Certificates of Occupancy (CO) shall be issued until all fines for violations of this article have been paid to the city.

CITY OF ROCKWALL

ORDINANCE NO. 18-02

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, BY AMENDING SECTION 6.2, *PUBLIC HEARING POSTPONEMENT, RECESS AND CONTINUATIONS*, OF ARTICLE II, *AUTHORITY AND ADMINISTRATIVE PROCEDURES* FOR THE PURPOSE OF AMENDING THE TIME PERIOD FOR POSTPONING OR CONTINUING A PUBLIC HEARING; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, an amendment to the City of Rockwall's Unified Development Code [*Ordinance No. 04-38*] has been initiated by the City Council of the City of Rockwall to amend Section 6.2, *Public Hearing Postponement, Recess and Continuations,* of Article II, *Authority and Administrative Procedures*, of the Unified Development Code [*Ordinance No. 04-38*] and,

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the city's corporate boundaries, and the governing body in the exercise of its legislative discretion, has concluded that the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:**

SECTION 1. That Section 6.2, *Public Hearing Postponement, Recess and Continuations,* of Article II, *Authority and Administrative Procedures,* of the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall, as heretofore amended, be and the same is hereby amended as specifically described in *Exhibits 'A'* of this ordinance.

SECTION 2. That any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *Two Thousand Dollars* ($2,000.00) for each offense and each and every day such offense shall continue shall be deemed to constitute a separate offense;

SECTION 3. That if any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable;

SECTION 4. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides;

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 2ND DAY OF JANUARY, 2018.

Jim Pruitt, Mayor

ATTEST:

Kristy Cole, City Secretary

APPROVED AS TO FORM:

Frank J. Garza, City Attorney

Additions
~~*Deletions*~~

Section 6.2. Public Hearing Postponement, Recess, and Continuations.

A. A public hearing for which notice has been given may be postponed by announcing the postponement at or after the time and place the hearing is scheduled to begin.

B. A public hearing may be recessed and continued any time after the hearing has commenced.

C. If a postponement or continuance of a public hearing is to a specific date and time no later than 30 ~~60~~ days from the first or most recent hearing, the announcement of the postponement or continuance at the public hearing in which the application has been postponed or continued shall be sufficient notice and no additional notice is required.

D. Postponed or continued public hearing shall be presumed to be held in the same location, unless a different location for the hearing is announced at the time of the postponement or continuance.

E. In the event that any request or amendment is being considered, whether or not a public hearing is involved, and it is continued at the request of the applicant more than one time, an additional fee shall be required to cover the reasonable costs to the city, including the cost of any additional advertising cost and the cost of the city's consultants due to the postponement.

F. If the applicant is not present at a meeting where the request is being considered and the request cannot be considered, then an additional fee, as described in 6.2.E above, shall also be required.

CITY OF ROCKWALL

ORDINANCE NO. 18-03

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, BY AMENDING SUBSECTION 2.1.11, *UTILITIES, COMMUNICATIONS AND TRANSPORTATION*, OF SECTION 2, *USE STANDARDS*, OF ARTICLE IV, *PERMISSIBLE USES* FOR THE PURPOSE OF CHANGING THE ANTENNA STANDARDS TO ALLOW REPLACEMENT TELECOMMUNICATIONS TOWERS IN EXCESS OF 125-FEET BY SPECIFIC USE PERMIT (SUP); PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, an amendment to the City of Rockwall's Unified Development Code [*Ordinance No. 04-38*] has been initiated by the City Council of the City of Rockwall to amend Subsection 2.1.11, *Utilities, Communications and Transportation*, of Section 2, *Use Standards*, of Article IV, *Permissible Uses*, of the Unified Development Code [*Ordinance No. 04-38*] and,

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the city's corporate boundaries, and the governing body in the exercise of its legislative discretion, has concluded that the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:**

SECTION 1. That Subsection 2.1.11, *Utilities, Communications and Transportation*, of Section 2, *Use Standards*, of Article IV, *Permissible Uses*, of the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall, as heretofore amended, be and the same is hereby amended as specifically described in *Exhibits 'A'* of this ordinance.

SECTION 2. That any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *Two Thousand Dollars* ($2,000.00) for each offense and each and every day such offense shall continue shall be deemed to constitute a separate offense;

SECTION 3. That if any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable;

SECTION 4. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides;

Section 2.1.11. Utilities, Communications and Transportation.

Antenna.

1. *Definitions*.

~~For the purpose of this section, an antenna~~ Antenna mast is defined as an antenna, mast or tower, or all or any two of these combined to constitute a structure designed for radio and television reception or transmission.

Antenna means a device or apparatus consisting of one or more wires or rods arranged to send and receive radio, television, electromagnetic or microwave signals. For purposes of this section, several antenna components may be assembled to perform a single function for a single operator and may be considered one antenna.

Antenna, accessory, means an antenna for the purpose of transmitting, retransmitting and/or receiving radio, television, electromagnetic or microwave signals as part of and directly related to a principal activity within an office, retail or industrial building and which itself is not a principal use or unrelated to any principal use on the property.

Antenna, amateur radio, means a radio communication antenna used by a person holding an amateur station license from the Federal Communications Commission (FCC). An amateur radio antenna shall be allowed as an accessory use in any zoning district, under the following guidelines:

(a) Amateur antenna support structures, antenna, or support wires must be located behind the front facade of the main building, and no amateur antenna support structure, antenna, or support wires may be located in the required rear or side yard setback.

(b) No amateur antenna support structure or antenna may be greater than the maximum height of the underlying zoning district. However, the height of such antenna support structure or antenna may be increased up to 70 feet provided the setback from side and rear setback lines is increased by one foot for every foot the height exceeds the limit specified in the underlying zoning district. In addition, the city council may consider approval of a specific use permit for any amateur antenna support structure or antenna that is proposed to exceed these height limits.

(c) Only one amateur radio support structure may be erected on a residential lot. Additional antenna support structures may be allowed with the approval of a specific use permit.

(Ord. No. 10-14, § 23, 7-6-2010)

Antenna, commercial, means an antenna for the purpose of transmitting, retransmitting and/or receiving radio, television, cellular, electromagnetic or microwave signals, and any other similar technology, primarily for the purpose of operating a business and/or for financial gain. A commercial antenna may be either mounted or freestanding as described below.

Antenna, commercial—freestanding, means a commercial antenna supported by or affixed to a freestanding pole, tower, tripod, frame or other similar structure.

Antenna, commercial—mounted, means a commercial antenna permanently affixed to the roof or other portion of a building.

2. *Antenna standards.*

(a) Antenna, accessory.

(1) The antenna installation shall comply with the height and area regulations of the applicable zoning district.

(2) Administrative approval of the antenna installation shall be required.

(b) *Antenna, commercial*. Located entirely within any nonresidential structure allowed under the applicable zoning district regulations:

(1) Any necessary equipment building shall be of a material allowed by the applicable zoning district, similar in color and character to the principal building on the site; or the necessary equipment shall be contained entirely within the principal building on the property or in an underground vault.

(2) Any necessary equipment building shall be enclosed by a decorative iron fence surrounded by a screening hedge which will achieve a height of at least six feet at maturity or a masonry screening wall at least eight feet in height, compatible in color with the principal building and the equipment building.

(3) At least one paved parking space with paved access thereto shall be provided at the antenna location; said parking space need not be reserved exclusively for use in conjunction with the antenna installation and may be one of the spaces provided for the principal use on the property.

(4) Administrative approval of the antenna installation shall be required prior to the issuance of any permits for construction.

(5) No more than three separate equipment buildings shall be located on a single lot.

(c) *Antenna, commercial—freestanding*, when attached to a utility installation or a light pole in a public park or on public school property:

(1) The height of the utility installation or light pole upon which the antenna is attached shall be greater than 75 feet but no more than 150 feet.

(2) The antenna shall extend no more than ten feet above the maximum height of the utility structure.

(3) A minimum clearance of 15 feet shall be maintained from the ground to the lowest element of the antenna.

(4) A minimum setback of 20 feet shall be maintained from the utility installation, light pole or any equipment building to the lot line of the nearest property developed for residential occupancy.

(5) Any necessary equipment building may be constructed of metal with a baked-on or pre-painted surface and shall not exceed seven feet in height and 75 square feet in area. The exterior surfaces shall be covered in paint or a similar coating; or the building may be built of a material allowed by the applicable zoning district for the principal building; or the necessary equipment may be contained entirely within a principal building on the property or in an underground vault. All equipment buildings shall be maintained free from graffiti.

(6) At least one paved parking space with paved access may be required at the antenna location; this parking space need not be reserved exclusively for use in conjunction with the antenna installation and may be one of the spaces provided for the principal use on the property, if any.

(7) Administrative approval of the antenna installation shall be required prior to the issuance of any permits for construction.

(8) No more than three separate antennas and three equipment buildings shall be located on a single lot or structure.

(d) Antenna, commercial—freestanding, other.

(1) The antenna installation shall comply with the height and area regulations of the applicable zoning district and the support structure shall not exceed 125 feet in height.

(2) The antenna shall not extend more than ten feet above the maximum height of the support structure. (3) Any necessary equipment building shall be of a material allowed by the applicable zoning district, similar in color and character to the principal building on the site; or the necessary equipment shall be contained entirely within a principal building on the property or in an underground vault.

(3) The antenna and any equipment buildings shall be enclosed by a decorative iron fence surrounded by a screening hedge which will achieve a height of at least six feet at maturity or by a masonry screening wall at least eight feet in height, compatible in color and character with the principal building and the equipment building.

(4) At least one paved parking space with paved access may be required at the antenna location; this space need not be reserved exclusively for use in conjunction with the antenna facility and may be one of the spaces required for the principal use on the property.

(5) Administrative approval of the antenna installation shall be required prior to the issuance of any permits for construction.

(6) No more than three separate antennas and three equipment buildings shall be located on a single lot or structure.

(e) Antenna, commercial—mounted, 12 feet or less in height, on nonresidential structures allowed under the applicable zoning district regulations:

(1) The total height of the structure, including the antenna, shall not exceed the maximum height of the zoning district by more than 12 feet.

(2) A minimum clearance of 15 feet shall be maintained from the ground to the lowest element of the antenna.

(3) Any necessary equipment building shall be of a material allowed by the applicable zoning district, similar in color and character to the principal building; or the necessary equipment shall be contained entirely within a principal building on the property or in an underground vault.

(4) The antenna and any necessary equipment building shall be enclosed by a decorative iron fence surrounded by a screening hedge, which will achieve a height of at least six feet at maturity or a masonry screening wall at least eight feet in height, compatible in color and character with the principal building and the equipment building.

(5) At least one paved parking space with paved access thereto shall be provided at the antenna location; said space need not be reserved exclusively for use in conjunction with the antenna facility and may be one of the spaces required for the principal use on the property.

(6) Administrative approval of the antenna installation shall be required prior to the issuance of any permits for construction.

(f) *Replacement of an existing Antenna, commercial – freestanding, other.* Where an antenna installation has not been permitted under this chapter but that is considered to be a legally recognized, non-conforming structure or facility, the replacement of the antenna installation may be approved by the City Council on a case-by-case basis through a Specific Use Permit (SUP) pending the request conforms to the following criteria:

(1) The replacement of any legally recognized, non-conforming antenna installation shall only be permitted within the Heavy Commercial (HC), Light Industrial (LI) and Heavy Industrial (HI) Districts.

(2) The replacement antenna installation shall be setback a minimum distance equal to the height of the proposed structure from any residential property or residentially zoned property.

(3) The existing antenna installation shall be removed from the property within 14-days of the completion of the proposed replacement antenna installation.

(4) The height of the replacement installation shall be equal to or less than the existing antenna installation, and any additional antennas added to the structure shall not exceed the height of the replacement installation.

(5) Any necessary equipment buildings associated with the replacement installation shall be of a material allowed by the applicable zoning district and be similar in color and character to the principal building on the site. As an alternative, the necessary equipment can be contained entirely within the principal building on the property or in an underground vault.

(6) The antenna and any equipment buildings shall be enclosed by a decorative iron fence surrounded by a landscape screening that will achieve a height of at least six (6) feet at maturity. As an alternative a masonry screening wall at least eight (8) feet in height, compatible in color and character with the principal building may be used.

(7) At least one paved parking space with paved access may be required at the antenna location. This parking space does not need to be reserved exclusively for the replacement tower use and may be one (1) of the spaces required for the principal use on the property.

3. *Construction and maintenance requirements.* All antenna masts, towers and antenna supports used for television and radio reception or transmission shall be constructed and maintained in accordance with the following requirements:

(a) All electrical specifications of such antenna masts, towers and supports shall comply with the National Electrical Code, the electrical code of the city, Standard Building Code, and the building code of the city.

(b) Antenna structures shall be designed in accordance with section 1205.1 of the Standard Building Code. 4. Permit required. Any person desiring to erect or have erected an antenna more than 25 feet in height above ground level, or an antenna mast 25 feet or less in height but not erected as required by this section, shall make written application to the building inspection department for a permit to erect same. Sufficient plans and specifications, as determined by the chief building official, must accompany each application. It shall be unlawful and a violation of this division to erect, or cause to be erected, or to maintain, or cause to maintain, such antenna mast without first having obtained a permit. It shall be the duty of the permittee to request a final inspection upon completion of the antenna system. Domestic TV antennas are exempt from this section.

4. Restrictions and limitations. All antenna systems constructed and maintained under the provisions of this section shall be subject to the following restrictions and limitations:

(a) No such antenna system shall be more than 99 feet in height.

(b) The location on the lot of such antenna system shall comply with the requirements of this Unified Development Code insofar as the front building line and side yard building line and requirements are concerned. No portion of an antenna system shall extend beyond the front building line on any lot, and on corner lots the side yard setback requirements shall be adhered to on the side adjacent to a public street, and where the front and side yard requirements are applicable, all portions of such structures shall be within the limits fixed by such requirements.

(Ord. No. 10-14, § 24, 7-6-2010)

(c) All antenna systems constructed under the provisions of this section shall be maintained so as to at all times comply with the requirements of this section.

(d) The regulations contained herein shall not apply to the extent that they have been preempted by specific regulations of the FCC to the contrary.

CITY OF ROCKWALL

ORDINANCE NO. 18-04

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, BY AMENDING SECTION 1, *LAND USE SCHEDULE*, AND SECTION 2, *USE STANDARDS*, OF ARTICLE IV, *PERMISSIBLE USES*; FOR THE PURPOSE OF CREATING A LAND USE AND ASSOCIATED USE STANDARDS FOR THE FOOD TRUCK/TRAILER LAND USE; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, an amendment to the City of Rockwall's Unified Development Code [*Ordinance No. 04-38*] has been initiated by the City Council of the City of Rockwall to amend Section 1, *Land Use Schedule,* and Section 2, *Use Standards*, of Article IV, *Permissible Uses*, of the Unified Development Code [*Ordinance No. 04-38*] and,

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the city's corporate boundaries, and the governing body in the exercise of its legislative discretion, has concluded that the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:**

SECTION 1. That Section 1, *Land Use Schedule,* and Section 2, *Use Standards*, of Article IV, *Permissible Uses*, of the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall, as heretofore amended, be and the same is hereby amended as specifically described in *Exhibits 'A'* of this ordinance.

SECTION 2. That any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *Two Thousand Dollars* ($2,000.00) for each offense and each and every day such offense shall continue shall be deemed to constitute a separate offense;

SECTION 3. That if any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable;

SECTION 4. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides;

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 2ND DAY OF JANUARY, 2018.

Jim Pruitt, Mayor

Section 2. Use Standards.
Section 2.1.6. Retail and Personal Service Use Conditions.

Beverage ~~and/or food~~ service facility, portable. A portable beverage ~~and/or food~~ service facility is an establishment that sells beverages ~~and/or food~~ from a structure ~~or trailer~~ that can be moved from place to place but that stays at one location during a normal business day; food sales are prohibited in these facilities. A portable beverage ~~and/or food~~ facility shall meet the following minimum conditions:

1. The service shall be limited to snow cone stands, beverage ~~and/or food~~ stands serving nonalcoholic beverages such as coffee, juices or sodas ~~and/or prepared food products~~.
2. The maximum time limit of such temporary use shall not exceed 150 days annually or a time limit otherwise approved by the city council. At the end of the time period, the structure shall be removed from the property.
3. Any temporary power poles will be removed on the date of or immediately following the termination date of the permit.
4. No additional freestanding signage shall be permitted.
5. The temporary portable structure or trailer shall meet all health and electrical codes off the city.
6. Any such temporary facility shall not reduce the number of required parking spaces of any nearby building or use.
7. Any such temporary facility shall have permanent restrooms for employees available within 300 feet of the door of the portable beverage facility. Written permission from the permanent building owner for restroom use must be submitted to the building official; no portable restroom facility is allowed.
8. Any such temporary facility shall be located on an all-weather (asphalt or concrete) parking surface with adequate space for parking and circulation, unless alternatively approved by the city council.

Food Truck/Trailer. A *Food Truck* or *Trailer* is a *Mobile Food Vendor* that sells food and/or beverages that are either pre-packaged or prepared in the confines of a portable truck/trailer, which can be moved from place to place, but is typically in a fixed location for extended periods of time. A *Food Truck/Trailer* shall meet the following conditions:

1. The *Food Truck/Trailer* shall be located on an improved surface (*i.e. concrete or asphalt*) on private property where an existing business is currently operating with a valid Certificate of Occupancy (CO). Operation within the public right-of-way is prohibited.

2. *Food Trucks/Trailers* shall only operate between the hours of 7:00 AM and 10:00 PM, and the *Food Truck/Trailer* shall be required to be removed from the property during non-operation hours (*i.e. overnight storage on the site is prohibited*).
3. The *Food Truck/Trailer* shall be equipped with trash receptacles approved by the City Health Inspector and that comply with all other applicable City codes. The outside storage of trash shall be prohibited.
4. The *Food Truck/Trailer* shall have permanent restrooms (*i.e. public or private*) for employees available within 300-feet of the facility. Portable restrooms facilities are not permitted to meet this requirement.
5. The *Food Truck/Trailer* shall have access to a minimum of two (2) dedicated parking spaces and shall not reduce the required parking for the existing building/land use.
6. All noise and lighting shall be subject to the requirements of the Municipal Code of Ordinances and the Unified Development Code. In addition, no lights associated with the operation of a *Food Truck/Trailer* may be directed towards an adjacent property or onto a public right-of-way.
7. All signage must be attached to the *Food Truck/Trailer* with the exception of one (1) freestanding menu board no greater than eight (8) SF placed adjacent to the *Food Truck/Trailer*.
8. Food Trucks/Trailers shall be prohibited from locating within the Downtown Square (*i.e. the properties bounded by N. Alamo Street, E. Interurban Street, S. Fannin Street, and E. Washington Street*); however, the City Council may consider allowing a Food Truck/Trailer to locate within the Downtown Square on a case-by-case basis through the approval of a Specific Use Permit (SUP).

CITY OF ROCKWALL

ORDINANCE NO. 18-05

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED SO AS TO FURTHER AMEND THE ZONING MAP TO ADOPT A CHANGE IN ZONING FROM AN AGRICULTURAL (AG) DISTRICT TO A HEAVY COMMERCIAL (HC) DISTRICT FOR A 3.227-ACRE TRACT OF LAND IDENTIFIED AS LOT 3, BLOCK A, RAYBURN COUNTRY ADDITION, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS AND MORE SPECIFICALLY DESCRIBED IN EXHIBIT *'A'* AND DEPICTED IN EXHIBIT '*B*' OF THIS ORDINANCE; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City has received a request from David Naylor of Rayburn Country Electric Cooperative for the approval of an amendment to the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall to adopt a change in zoning from an Agricultural (AG) District to a Heavy Commercial (HC) for a 3.227-acre tract of land identified as Lot 3, Block A, Rayburn Country Addition, City of Rockwall, Rockwall County, Texas, and more specifically depicted in *Exhibit 'A'* of this ordinance, which hereinafter shall be referred to as the *Subject Property* and incorporated by reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the affected area, and in the vicinity thereof, and the governing body in the exercise of its legislative discretion, has concluded that the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:**

SECTION 1. That the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall, Texas, as heretofore amended, be and the same are hereby amended by amending the zoning map of the City of Rockwall so as to change the zoning of the *Subject Property* from an Agricultural (AG) District to a Heavy Commercial (HC) District; and

SECTION 2. That the *Subject Property* shall be used and developed only in the manner and for the purposes provided for a *Heavy Commercial (HC) District* as stipulated by Subsection 4.7*, Heavy Commercial (HC) District,* of Section 4*, Commercial Districts,* of Article V*, District Development Standards,* of the Unified Development Code (UDC) [*Ordinance No. 04-38*] of the City of Rockwall as heretofore amended, as amended herein by granting of this zoning change, and as may be amended in the future;

SECTION 3. That the official zoning map of the City be corrected to reflect the changes in the zoning described herein.

SECTION 4. Any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *TWO THOUSAND DOLLARS* ($2,000.00) for each offence and each and every day such offense shall continue shall be deemed to constitute a separate offense.

SECTION 5. If any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code of the City of Rockwall, Texas, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable.

SECTION 6. That all ordinances of the City of Rockwall in conflict with the provisions of this ordinance be and the same are hereby repealed, and all other ordinances of the City of Rockwall not in conflict with the provisions of this ordinance shall remain in full force and effect.

SECTION 7. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, ON THIS THE 2nd DAY OF JANUARY, 2018.

CITY OF ROCKWALL

ORDINANCE NO. 18-06
SPECIFIC USE PERMIT NO. S-181

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE OF THE CITY OF ROCKWALL, TEXAS, AS PREVIOUSLY AMENDED, SO AS TO GRANT A SPECIFIC USE PERMIT (SUP) TO ALLOW FOR A MUSIC STUDIO IN PLANNED DEVEOPMENT DISTRICT 60 (PD-60), ON A 0.747-ACRE PORTION OF A LARGER 2.49-ACRE PARCEL OF LAND BEING IDENTIFIED AS A PORTION OF LOT 9, BLOCK A, FLAGSTONE CORNERS ADDITION, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE

WHEREAS, the City has received a request from Deric Salser of Salsar Development Group on behalf of Russ Porter of Rockwall School of Music, LLC for the approval of a Specific Use Permit (SUP) to allow for a *Music Studio* in Planned Development District 60 (PD-60) on a 0.747-acre portion of a larger 2.49-acre parcel of land being described as a portion of Lot 9, Block A, Flagstone Corners Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 60 (PD-60) for Residential Office (RO) District land uses, addressed as 1830 & 1842 Mims Road, and being more specifically described in *Exhibit 'A'* and depicted in *'Exhibit 'B'* of this ordinance, which herein after shall be referred to as the *Subject Property* and incorporated reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall, in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall, have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally, and to all persons interested in and situated in the affected area and in the vicinity thereof, the governing body in the exercise of its legislative discretion has concluded that the Unified Development Code [*Ordinance No. 04-38*], Planned Development District 60 (PD-60) [*Ordinance No. 05-05*], and Specific Use Permit (SUP) No. S-175 [*Ordinance No. 17-45*] of the City of Rockwall should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED** by the City Council of the City of Rockwall, Texas;

SECTION 1. That the approval of this ordinance shall supersede all requirements stipulated in *Ordinance No. 17-45*;

SECTION 2. That the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall, as heretofore amended, be and the same is hereby amended so as to grant a Specific Use Permit (SUP) allowing a *Music Studio* as stipulated by Planned Development District 60 (PD-60) [*Ordinance No. 05-05*] and Article IV, *Permissible Uses*, of the Unified Development Code [*Ordinance No. 04-38*] on the *Subject Property*; and

SECTION 3. That the Specific Use Permit (SUP) shall be subject to the conditions set forth in *Section 1, Land Use Schedule,* of *Article IV, Permissible Uses, and Planned Development District 60 (PD-60)* [*Ordinance No. 05-05*] as heretofore amended and as may be amended in the future,

and shall be subject to the following:

3.1 OPERATIONAL CONDITIONS

The following conditions pertain to the operation of a music studio on the *Subject Property* and conformance to these stipulations is required for continued operations:

1) The music studio shall generally conform to the concept plan shown in *Exhibit 'C'* and the concept building elevations shown in *Exhibit 'D'* of this ordinance.

2) A row of canopy trees a minimum of four (4) caliper-inches in size and spaced 20-feet on center shall be planted adjacent to the residential properties to the northeast and southeast of the subject property.

3) Incidental display/outside storage is prohibited.

4) A shrub row shall be provided as headlight screening for any parking adjacent to residential properties or that face towards Mims Road.

5) The dumpster enclosure doors shall not face towards any residential properties.

6) A Cross-access easement shall be provided adjacent to the property to the northwest of the subject property.

7) Music outside of the studio is prohibited.

8) The developer is to fill-in and maintain shrub row adjacent to the residential property lines to the northeast and southeast.

3.2 COMPLIANCE

Approval of this ordinance in accordance with Section 8.3, *Council Approval or Denial*, of Article II, *Authority and Administrative Procedures*, of the Unified Development Code (UDC) will require compliance to the following:

1) Upon obtaining a Certificate of Occupancy (CO), should any business or establishment operating under the guidelines of this ordinance fail to meet the minimum operational requirements set forth herein and outline in the Unified Development Code (UDC), the City Council may (*after proper notice*) initiate proceedings to revoke the Specific Use Permit (SUP) in accordance with Section 4.4.(3) of Article IV, *Permissible Uses*, of the Unified Development Code (UDC).

SECTION 4. That the official zoning map of the City be corrected to reflect the changes in zoning described herein.

SECTION 5. That all ordinances of the City of Rockwall in conflict with the provisions of this ordinance be, and the same are hereby repealed to the extent of that conflict.

SECTION 6. Any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *TWO THOUSAND DOLLARS* ($2,000.00) for each offence and each and every day such offense shall continue shall be deemed to constitute a separate offense.

SECTION 7. If any section or provision of this ordinance or the application of that section or provision to any person, firm, corporation, situation or circumstance is for any reason judged invalid, the adjudication shall not affect any other section or provision of this ordinance or the application of any other section or provision to any other person, firm, corporation, situation or circumstance, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions of this ordinance shall remain in full force and effect.

SECTION 8. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides;

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 2nd DAY OF JANUARY, 2018.

CITY OF ROCKWALL

ORDINANCE NO. 18-07

SPECIFIC USE PERMIT NO. S-182

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, TEXAS, AS HERETOFORE AMENDED, SO AS TO FURTHER AMEND THE ZONING MAP AND PLANNED DEVELOPMENT DISTRICT 32 [*ORDINANCE NO. 17-22*] TO ADOPT A SPECIFIC USE PERMIT (SUP) FOR A HOTEL WITHIN THE INTERIOR AND RESIDENTIAL SUBDISTRICTS OF PLANNED DEVELOPMENT DISTRICT 32 (PD-32) ON A 2.166-ACRE PARCEL OF LAND IDENTIFIED AS LOT 2A OF THE ISSAC BROWN ADDITION, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OR FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City has received a request by Cameron Slown of F. C. Cuny Corporation on behalf of Phillip McNeill, Jr. of McNeill Hotel Company for the approval of a Specific Use Permit (SUP) to allow a *Hotel* on a 2.166-acre parcel of land identified as Lot 2A of the Isaac Brown Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 32 (PD-32) [*Ordinance No. 17-22*], situated within the *Interior* and *Residential Subdistricts* of Planned Development District 32 (PD-32) and the Scenic Overlay (SOV) District, generally located southwest of the intersection of Summer Lee Drive and Horizon Road [*FM-3097*], and more specifically described in *Exhibit 'A'* of this ordinance, which herein after shall be referred to as the *Subject Property* and incorporated by reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall, in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall, have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally, and to all persons interested in and situated in the affected area and in the vicinity thereof, the governing body in the exercise of its legislative discretion has concluded that the Unified Development Code [*Ordinance No. 04-38*] and Planned Development District 32 (PD-32) [*Ordinance No. 17-22*] of the City of Rockwall should be amended as follows:

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:

SECTION 1. That the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall, as heretofore amended, be and the same is hereby amended so as to grant a Specific Use Permit (SUP) allowing for *Hotel* within a Planned Development District 32 (PD-32) as stipulated by *Ordinance No. 17-22* on the *Subject Property*; and

SECTION 2. That the *Subject Property* shall be developed and/or used only in the manner and for the purposes described in this Specific Use Permit (SUP) ordinance and as set forth in Planned Development District 32 (PD-32) [*Ordinance No. 17-22*] and the Unified Development

Code [*Ordinance No. 04-38*] as heretofore amended, as amended herein by granting of this zoning change, and as may be amended in the future, and shall be subject to the additional following conditions and compliance standards:

2.1 OPERATIONAL CONDITIONS

The following conditions pertain to the operation of a *Hotel* on the *Subject Property* and conformance to these stipulations are required for continued operations:

1) Prior to the submission of a site plan, a *PD Development Plan* depicting a more detailed *Concept Site Plan* and *Concept Building Elevations* than those contained in this Specific Use Permit (SUP) ordinance shall be required to be approved by the City Council pending a recommendation from the Planning and Zoning Commission.

2) Nothing contained in this Specific Use Permit (SUP) ordinance shall be deemed to supersede the requirements of *Ordinance No. 17-22*.

3) The development of this property shall generally conform to the *Concept Site Plan* depicted in *Exhibit 'B'* of this Specific Use Permit (SUP) ordinance where not in conflict with *Ordinance No. 17-22.*

4) The proposed hotel shall generally conform to the *Concept Building Elevations* depicted in *Exhibit 'C'* of this Specific Use Permit (SUP) ordinance where not in conflict with *Ordinance No. 17-22* and pending a recommendation from the Architectural Review Board (ARB).

5) This Specific Use Permit (SUP) ordinance shall constitute approval of a structure in excess of 36-feet within the Scenic Overlay (SOV) District, and satisfy the requirements of Subsection C, *Special Use Standards*, of Section 6.8, *Scenic Overlay (SOV) District*, of Article V, *District Development Standards*, of the Unified Development Code [*Ordinance No. 04-38*].

6) The proposed hotel shall be prohibited from being utilized as an *Extended Stay*, *Transient* or *Residence Hotel*, which are considered to be standard hotel rooms that do not contain kitchen facilities.

2.2 COMPLIANCE

Approval of this ordinance in accordance with Section 8.3, *Council Approval or Denial*, of Article II, *Authority and Administrative Procedures*, of the Unified Development Code (UDC) will require compliance to the following:

1) Upon obtaining a Certificate of Occupancy (CO), should any business or establishment operating under the guidelines of this ordinance fail to meet the minimum operational requirements set forth herein and outline in the Unified Development Code (UDC), the City Council may (*after proper notice*) initiate proceedings to revoke the Specific Use Permit (SUP) in accordance with Section 4.4.(3) of Article IV, *Permissible Uses*, of the Unified Development Code (UDC).

SECTION 3. That the official zoning map of the City of Rockwall be corrected to reflect the changes described herein.

SECTION 4. That all ordinances of the City of Rockwall in conflict with the provisions of this ordinance be, and the same are hereby repealed to the extent of that conflict.

SECTION 5. Any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *TWO THOUSAND DOLLARS* ($2,000.00) for each offence and each and every day such offense shall continue shall be deemed to constitute a separate offense.

SECTION 6. If any section of provision of this ordinance or the application of that section or provision to any person, firm, cooperation, situation or circumstance is for any reason judged invalid, the adjudication shall not affect any other section or provision of this ordinance or the application of any other section or provision to any other person, firm, corporation, situation or circumstance, and the City Council declares that it would have to adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions of this ordinance shall remain in full force and effect.

SECTION 7. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 2ND DAY OF JANUARY, 2018.

Jim Pruitt, Mayor

ATTEST:

Kristy Cole, City Secretary

APPROVED AS TO FORM:

Frank J. Garza, City Attorney

1st Reading: December 18, 2017

CITY OF ROCKWALL
CITY COUNCIL MEMO

AGENDA DATE: 01/02/2018

APPLICANT: Christopher Orr, *Arcadia Lakes of Somerset Holdings, LLC*

AGENDA ITEM: **P2017-069**; *Somerset Park Subdivision, Phase I*

SUMMARY:

Consider a request by Christopher Orr of Arcadia Lakes of Somerset Holdings, LLC for the approval of a amending plat for Phase 1 of the Somerset Park Subdivision, containing 152 single-family residential lots on a 56.247-acre tract of land being a portion of a larger 139.354-acre tract of land identified as Blocks 1-12, of the Somerset Park Subdivision, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 63 (PD-63) for Single Family 10 (SF-10) District land uses, situated within the SH-205 Overlay (SH-205 OV) District, located at the northeast corner of the Intersection of FM-549 and S. Goliad Street (SH-205), and take any action necessary.

PLAT INFORMATION:

- ☑ On November 21, 2016, the City Council approved a request to final plat 144 of the proposed 309 residential lots, private park, and open space.
- ☑ The purpose of this request is to *replat* Phase I [*i.e. 144 of the 309 single-family residential lots*] and 5.998-acres of private park and open space for the purpose of establishing the necessary franchise utility easements for development of a single-family residential subdivision. The lot mix has not changed from the final plat.
- ☑ The *replat* conforms to Planned Development District 63 (PD-63) [*Ordinance No. 14-49*], which was approved by the City Council on November 17, 2014 under *Case No. Z2014-025*.
- ☑ The Surveyor/Engineer has completed the majority of the technical revisions requested by staff, and this *replat* conforming to the requirements for *replats* as stated in the *Subdivision Ordinance* in the *Municipal Code of Ordinances*, is recommended for conditional approval pending the completion of final technical modifications and submittal requirements.
- ☑ Conditional approval of this plat by the City Council shall constitute approval subject to the conditions stipulated in the *Recommendation* section below.

RECOMMENDATIONS:

Should the City Council choose to approve the *replat* for the *Somerset Park Subdivision* staff would recommend the following conditions of approval:

1) The *replat* shall conform to all requirements stipulated by the Planning, Engineering and Fire Departments;

2) Any construction resulting from the approval of this *replat* shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

PLANNING AND ZONING COMMISSION:

On December 26, 2017, the Planning and Zoning Commission's motion to recommend approval of the replat with staff recommendations passed by a vote of 5-0 with Commissioners Lyons and Fishman absent.

OWNERS DEDICATION

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS:

STATE OF TEXAS}
COUNTY OF ROCKWALL}

I the undersigned owner of the land shown on this plat, and designated herein as the AMENDING PLAT OF SOMERSET PARK to the City of Rockwall, Texas, and whose name is subscribed hereto, hereby dedicate to the use of the public forever all streets, alleys, parks, water courses, drains, easements and public places thereon shown on the purpose and consideration therein expressed. I understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same. I also understand the following;

1. No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.

2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of their respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maintaining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.

3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.

4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.

5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.

6. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Rockwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, storm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall; or until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer and/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as progress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

We further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the Addition upon the public services required in order that the development will comport with the present and future growth needs of the City; we, our successors and assigns hereby waive any claim, damage, or cause of action that we may have as a result of the dedication of exactions made herein.

OWNERS CERTIFICATE

STATE OF TEXAS}
COUNTY OF ROCKWALL}

WHEREAS, Somerset Park Development, LLC, and Arcadia Lakes of Somerset Holdings, LLC. are the owner's of a tract of land in the Abner Johnson Survey, Abstract No. 123, situated in the City of Rockwall, in Rockwall County, Texas, being a portion of a tract of land to Somerset Park Development, LLC, as recorded in Instrument Number 20160000010169 of the Official Public Records of Rockwall County, Texas and a portion of a remainder of a tract of land to Arcadia Lakes of Somerset Holdings, LLC. recorded in Instrument Number 20130000500385 of the Official Public Records of Rockwall County, Texas and being more particularly described as follows:

BEGINNING at a 1/2 inch iron rod found for the southeast corner of said Somerset Park tract, lying on the north Right of Way of Farm to Market (F.M.) 549, a variable width right-of-way;

THENCE South 88 degrees 45 minutes 27 seconds West along the south line of said Somerset Park tract and the north line of said F.M. 549, a distance of 1321.87 feet to a 3 inch T.X.D.O.T. right-of-way disk found for the southwest corner of said Somerset Park tract, said point also lying on the east line of State Highway (S.H.) 205 a called 100 feet wide right-of-way and at the beginning of a curve to the right;

THENCE with said curve to the right and along the east line of said S.H. 205, having a radius of 5005.59 feet, a central angle of 01 degrees 25 minutes 19 seconds, an arc length of 124.23 feet, a chord bearing of North 43 degrees 10 minutes 28 seconds West, a distance of, 124.23 feet to a 5/8 inch iron rod found for the most northerly southwest corner of said Somerset Park tract, same being the south corner of a tract of land to N.L. Lofland & Annie Lofland as recorded in Volume 28, Page 487 of the Deed Records of Rockwall County, Texas;

THENCE North 00 degrees 40 minutes 31 seconds West along the common line of said N.L. Lofland & Annie Lofland tract and said Somerset Park tract, a distance of 1062.07 feet to a 1/2 inch iron rod found at an angle point in same;

THENCE North 00 degrees 59 minutes 21 seconds West continuing along said N.L. Lofland & Annie Lofland tract and said Somerset Park tract common line, a distance of 869.90 feet to a 60-D nail found at the northerly base of a fence corner post for the northeast corner of said N.L. Lofland & Annie Lofland tract and at an inner ell corner of said Somerset Park tract;

THENCE North 85 degrees 28 minutes 38 seconds West continuing along said N.L. Lofland & Annie Lofland tract and said Somerset Park tract common line, a distance of 10.57 feet to a 1/2 inch iron rod found for the southeast corner of a tract of land to N.L. Lofland recorded in Volume 30, Page 548, of the Deed Records of Rockwall County, Texas, same point lying on the north line of said N.L. Lofland & Annie Lofland tract and on the west line of said Somerset Park tract;

THENCE North 00 degrees 08 minutes 29 seconds East along the common line of said N.L. Lofland tract and said Somerset Park tract, a distance of 428.94 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430" set for the northwest corner of said Somerset Park tract;

THENCE departing the east line of said N.L. Lofland tract, along the north/east lines of said Somerset Park tract and partially through the interior of said Arcadia tract the following courses and distances;

THENCE North 64 degrees 22 minutes 07 seconds East, a distance of 255.05 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430" set for corner at the beginning of a curve to the left;

THENCE with said curve to the left having a radius of 574.00 feet, a central angle of 13 degrees 40 minutes 50 seconds, an arc length of 137.05 feet,a chord bearing of South 32 degrees 28 minutes 18 seconds East, a distance of 136.73 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430" set for corner;

THENCE North 86 degrees 43 minutes 34 seconds East, a distance of 11.91 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430" set for corner at the beginning of a curve to the right;

THENCE with said curve to the right having a radius of 1040.00 feet, a central angle of 01 degrees 26 minutes 00 seconds, an arc length of 26.02 feet, a chord bearing of North 34 degrees 15 minutes 20 seconds East a distance of 26.02 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430" set for corner;

THENCE South 55 degrees 02 minutes 34 seconds East a distance of 80.00 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430" set for corner at the beginning of a curve to the left;

THENCE with said curve to the left having a radius of 960.00 feet, a central angle of 02 degrees 27 minutes 29 seconds, an arc length of 41.19 feet, a chord bearing of South 33 degrees 44 minutes 40 seconds West a distance of 41.18 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430" set for corner;

THENCE South 08 degrees 23 minutes 58 seconds East a distance of 15.18 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430" set for corner at the beginning of a curve to the left;

THENCE with said curve to the left having a radius of 574.00 feet, a central angle of 13 degrees 44 minutes 06 seconds, an arc length of 137.60 feet, a chord bearing of South 56 degrees 22 minutes 56 seconds East a distance of 137.27 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430" set for corner at the beginning of a reverse curve to the right;

THENCE with said reverse curve to the right having a radius of 606.00 feet, a central angle of 19 degrees 54 minutes 48 seconds, an arc length of 210.62 feet, a chord bearing of South 53 degrees 17 minutes 35 seconds East, a distance of, 209.56 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430" set for corner at the beginning of a reverse curve to the left;

THENCE with said reverse curve to the left having a radius of 424.00 feet, a central angle of 50 degrees 39 minutes 01 seconds, an arc length of 374.82 feet, a chord bearing of South 68 degrees 39 minutes 41 seconds East, a distance of, 362.73 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430" set for corner;

THENCE South 03 degrees 59 minutes 12 seconds East, a distance of 52.00 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430" set for corner;

THENCE South 00 degrees 57 minutes 49 seconds East, a distance of 142.77 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430" set for corner;

THENCE South 06 degrees 11 minutes 04 seconds East, a distance of 184.22 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430" set for corner at the beginning of a curve to the right;

THENCE with said curve to the right having a radius of 1000.00 feet, a central angle of 23 degrees 47 minutes 40 seconds, an arc length of 415.29 feet, a chord bearing of South 05 degrees 42 minutes 46 seconds West, a distance of 412.31 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430" set for corner;

THENCE South 71 degrees 47 minutes 52 seconds East, a distance of 173.23 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430" set for corner at the beginning of a curve to the right;

THENCE with said curve to the right having a radius of 1476.00 feet, a central angle of 00 degrees 54 minutes 00 seconds, an arc length of 23.18 feet, a chord bearing of South 18 degrees 39 minutes 08 seconds West, a distance of, 23.18 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430" set for corner at the beginning of a compound curve continuing to the right;

THENCE with said compound curve continuing to the right having a radius of 406.00 feet, a central angle of 00 degrees 41 minutes 12 seconds, an arc length of 4.86 feet, a chord bearing of South 19 degrees 26 minutes 43 seconds West, a distance of, 4.86 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430" set for corner;

THENCE South 70 degrees 12 minutes 41 seconds East, a distance of 120.00 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430" set for corner at the beginning of a curve to the right;

THENCE with said curve to the right having a radius of 526.00 feet, a central angle of 48 degrees 44 minutes 05 seconds, an arc length of 447.41 feet, a chord bearing of South 44 degrees 09 minutes 22 seconds West, a distance of, 434.04 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430" set for corner;

THENCE South 18 degrees 38 minutes 36 seconds East a distance of 118.21 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430" set for corner;

THENCE South 63 degrees 53 minutes 02 seconds East a distance of 14.08 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430" set for corner;

THENCE South 18 degrees 38 minutes 36 seconds East a distance of 52.01 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430" set for corner;

THENCE South 26 degrees 04 minutes 50 seconds West a distance of 9.95 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430" set for corner at the beginning of a curve to the left;

THENCE with said curve to the left having a radius of 321.00 feet, a central angle of 40 degrees 44 minutes 09 seconds, an arc length of 228.22 feet, a chord bearing of South 39 degrees 07 minutes 20 seconds East a distance of 223.45 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430" set for corner;

THENCE South 59 degrees 29 minutes 25 seconds East a distance of 26.18 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430" set for corner at the beginning of a curve to the right;

THENCE with said curve to the right having a radius of 364.00 feet, a central angle of 09 degrees 37 minutes 01 seconds, an arc length of 61.10 feet, a chord bearing of South 54 degrees 40 minutes 54 seconds East a distance of 61.03 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430" set for corner;

THENCE South 49 degrees 52 minutes 23 seconds East a distance of 61.12 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430" set for corner at the beginning of a curve to the right;

THENCE with said curve to the right having a radius of 443.00 feet, a central angle of 48 degrees 37 minutes 50 seconds, an arc length of 376.00 feet, a chord bearing of South 25 degrees 33 minutes 28 seconds East a distance of 364.82 feet;

THENCE South 01 degrees 14 minutes 33 seconds East a distance of 8.08 feet to a 5/8 inch iron rod with cap stamped "R.P.L.S. 5430" set for corner;

THENCE South 46 degrees 14 minutes 32 seconds East a distance of 24.04 feet to the POINT OF BEGINNING containing 2,457,949 square Feet, or 56.427 acres of land.

THE PURPOSE OF THIS AMENDING PLAT IS TO ADD/REMOVE UTILITY EASEMENTS. (NO LOTS HAVE BEEN CHANGED)

CITY OF ROCKWALL
CITY COUNCIL MEMO

AGENDA DATE: 01/02/2018

APPLICANT: Jeremy Epton

AGENDA ITEM: **P2017-071;** *Lot 1, Block A, Epton Addition*

SUMMARY:

Consider a request by Jeremy Upton for the approval of a final plat for Lot 1, Block A, Epton Addition being a 4.95-acre tract of land identified as Tracts 18 & 19 of the E. M. Elliott Survey, Abstract No. 77, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, addressed as 2075 Airport Road, and take any action necessary.

PLAT INFORMATION:

- ☑ The objective of this request is to final plat a 4.95-acre tract of land [*i.e. Tracts 18 & 19 of the E. M. Elliott Survey, Abstract No. 77*] into one (1) parcel of land [*Lot 1, Block A, Epton Addition*] for the purpose of combining one (1) lot into two (2) lots for the expansion of an existing single-family home.
- ☑ The surveyor has completed the majority of the technical revisions requested by staff, and this plat, conforming to the requirements for final plats as stated in the Subdivision Ordinance in the Municipal Code of Ordinances, is recommended for conditional approval pending the completion of final technical modifications and submittal requirements.
- ☑ Conditional approval of this plat by the City Council shall constitute approval subject to the conditions stipulated in the *Recommendation* section below.
- ☑ With the exception of the items listed in the *Recommendation* section of this case memo, this plat is in substantial compliance with the requirements of the Subdivision Ordinance in the Municipal Code of Ordinances.

RECOMMENDATIONS:

Should the City Council choose to approve the *final plat* for *Lot 1 Block A, Epton Addition,* staff would recommend the following conditions:

1) All technical comments from the Engineering, Planning and Fire Departments shall be addressed prior to the filing of this plat;
2) Any construction resulting from the approval of this *final plat* shall conform to the requirements set forth by the Unified Development Code, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

PLANNING AND ZONING COMMISSION:

On December 26, 2017, the Planning and Zoning Commission's motion to recommend approval of the final plat with staff recommendations passed by a vote of 5-0 with Commissioners Lyons and Fishman absent.

OWNER'S CERTIFICATE
(Public Dedication)

STATE OF TEXAS
COUNTY OF ROCKWALL

WHEREAS Jeremy Epton and Kristi Helmer, BEING THE OWNERS OF A TRACT OF land in the County of Rockwall, State of Texas, said tract being described as follows:

All that certain lot, tract or parcel of land situated in the E.M. ELLIOTT SURVEY, ABSTRACT NO. 77, City of Rockwall, Rockwall County, Texas, and being a part of a tract of land as described in a Warranty deed from Arvel Gray and Lena Gray to J.E. Parker and Deloris Estelle Parker, dated August 19, 1967 and being recorded in Volume 80, Page 41 of the Deed Records of Rockwall County, Texas, and also a part of a tract of land as described in a Special Warranty deed from Bobby H. Douglas to Deloris Estelle Douglas, dated August 26, 2000 and being recorded in Volume 2011, Page 267 of the Real Property Records of Rockwall County, Texas, and being more particularly described as follows:

BEGINNING at a 1/2" iron rod found for corner in the east boundary line of said Parker tract and the west boundary line of a tract of land as described in a Warranty deed to Billy W. Peoples, as recorded in Volume 1464, Page 321 of the Real Property Records of Rockwall County, Texas, said point being N. 00 deg. 46 min. 36 sec. E., 24.91 feet from the southeast corner of said Parker tract and in the north right-of-way line of Airport Road, per deed recorded in Volume 6245, Page 280 of the Official Public Records of Rockwall County, Texas;

THENCE N. 88 deg. 38 min. 34 sec. W. along the north right-of-way line of Airport Road, a distance of 418.64 feet to a 1/2" iron rod found for corner in the east boundary line of a tract of land as described in a Warranty deed to Jennifer Douglas, as recorded in Volume 4429, Page 286 of the Real Property Records of Rockwall County, Texas;

THENCE N. 01 deg. 09 min. 28 sec. E. along the east line of said Jennifer Douglas tract, a distance of 323.57 feet to a 1/2" iron rod found for corner at the northeast corner of same;

THENCE N. 88 deg. 34 min. 38 sec. W. along the north line of said tract, a distance of 125.00 feet to a 1/2" iron rod found for corner at the northwest corner of same;

THENCE N. 01 deg. 09 min. 28 sec. E. a distance of 232.64 feet to a 1/2" iron rod found for corner at the northwest corner of said Deloris Estelle Douglas tract;

THENCE S. 88 deg. 55 min. 35 sec. E. a distance of 378.89 feet to a 1/2" iron rod found for corner at the northeast corner of said Deloris Estelle Douglas tract;

THENCE S. 01 deg. 13 min. 24 sec. W. a distance of 285.38 feet to a 1/2" iron rod found for corner at the northwest corner of said Parker tract;

THENCE S. 89 deg. 24 min. 35 sec. E. a distance of 163.26 feet to a 1/2" iron pipe found for corner at the northeast corner of said Parker tract and northwest corner of said Peoples tract;

THENCE S. 00 deg. 46 min. 36 sec. W. a distance of 275.04 feet to the POINT OF BEGINNING and containing 215,528 square feet or 4.95 acres of land.

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS:

STATE OF TEXAS
COUNTY OF ROCKWALL

I the undersigned owner of the land shown on this plat, and designated herein as EPTON ADDITION, LOT 1, BLOCK A, an Addition to the City of Rockwall, Texas, and whose name is subscribed hereto, hereby dedicate to the use of the public forever all streets, alleys, parks, water courses, drains, easements and public places thereon shown on the purpose and consideration therein expressed. I further certify that all other parties who have a mortgage or lien interest in EPTON ADDITION, LOT 1, BLOCK A, have been notified and signed this plat.

I understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same.

I also understand the following;

1. No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.

2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of th eir respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maint aining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.

3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.

4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.

5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.

6. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Roc kwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, sto rm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall; or

Until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer an d/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as p rogress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or

Until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

I further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the subdivision upon the public services required in order that the development will comport with the present and future growth needs of the City; I , my successors and assigns hereby waive any claim, damage, or cause of action that I may have as a result of the dedication of exaction's made herein.

CITY OF ROCKWALL
CITY COUNCIL MEMO

AGENDA DATE: 01/02/2018

APPLICANT: James Zaferis

AGENDA ITEM: **P2017-072;** *Lot 6, Block C, Rockwall Technology Park Addition*

SUMMARY:

Consider a request by James Zaferis on behalf of Pete Koulos of Astrocheif Texas LLC (DBA Pegasus Food) for the approval of a replat for Lot 6, Block C, Rockwall Technology Park Addition being a 8.482-acre parcel of land identified as Lot 5, Block C, Rockwall Technology Park, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, addressed as 1635 Innovation Drive, and take any action necessary.

PLAT INFORMATION:

☑ The objective of this request is to replat an 8.482-acre parcel of land [*i.e. Lot 5, Block C, Rockwall Technology Park Addition*] into one (1) parcel of land [*i.e. Lot 6, Block C, Rockwall Technology Park Addition*] for the purpose of adding the necessary fire lane and utility easements for an existing building that is being converted to a frozen food manufacturing facility [*i.e. Pegasus Food*].

☑ The surveyor has completed the majority of the technical revisions requested by staff, and this plat, conforming to the requirements for replats as stated in the *Subdivision Ordinance* in the Municipal Code of Ordinances, is recommended for conditional approval pending the completion of final technical modifications and submittal requirements.

☑ Conditional approval of this plat by the City Council shall constitute approval subject to the conditions stipulated in the *Recommendation* section below.

☑ With the exception of the items listed in the *Recommendation* section of this case memo, this plat is in substantial compliance with the requirements of the Subdivision Ordinance in the Municipal Code of Ordinances.

RECOMMENDATIONS:

Should the City Council choose to approve the *replat* for *Lot 6 Block C, Rockwall Technology Park Addition,* staff would recommend the following conditions:

1) All technical comments from the Engineering, Planning and Fire Departments shall be addressed prior to the filing of this plat;

2) Any construction resulting from the approval of this *replat* shall conform to the requirements set forth by the Unified Development Code, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

PLANNING AND ZONING COMMISSION:

On December 26, 2017, the Planning and Zoning Commission's motion to recommend approval of the replat with staff recommendations passed by a vote of 5-0 with Commissioners Lyons and Fishman absent.

OWNER'S CERTIFICATE

STATE OF TEXAS
COUNTY OF ROCKWALL

WHEREAS **EVANGELOS AND VASILIKI AMBATIELOS,** BEING THE OWNERS OF A TRACT OF LAND within the City of Rockwall, County of Rockwall, State of Texas, said tract being described as follows:

LEGAL DESCRIPTION

BEING a tract or parcel of land situated in Rockwall County, Texas, being part of the J.M. Allen Survey, Abstract No. 2, being all of Lot 5, Block C of the AMENDED REPLAT OF LOT 3, BLOCK C OF ROCKWALL TECHNOLOGY PARK, an addition to the City of Rockwall as recorded in Cabinet E on Slides 329-330 of the Plat Records of Rockwall County, Texas and being further described as follows:

BEGINNING at a capped "DCA" 1/2 inch iron rod found for a corner at the southeast corner of Lot 5 in Innovation Drive;
THENCE N 71°59'40" W along the south line of Lot 5, a distance of 442.20 feet to a capped "DCA" 1/2 inch iron rod found for a corner at the southwest corner of Lot 5;
THENCE N 01°32'36" W along the west line of Lot 5, a distance of 1026.15 feet to a 1/2 inch iron rod set for a corner at the northwest corner of Lot 5;
THENCE S 46°51'29" E along the northeast line of Lot 5, a distance of 573.26 feet to a 1/2 inch iron rod found for a corner at the northeast corner of Lot 5 in Innovation Drive, said corner being at the beginning of a curve to the left, having a central angle of 94°19'57", a radius of 70.00 feet and a chord bearing of S 04°07'00" E and a chord length of 102.67 feet;
THENCE in the Southeasterly direction, along said curve to the left and along Innovation Drive, an arc length of 115.25 feet to a 1/2 inch iron rod set for a corner, said corner being at the beginning of a curve to the right, having a central angle of 50°28'59", a radius of 20.50 feet and a chord bearing of S 26°02'37" E and a chord length of 17.48 feet;
THENCE in the Southeasterly direction, along said curve to the right and along Innovation Drive, an arc length of 18.06 feet to a capped "DCA" 1/2 inch iron rod found for a corner,
THENCE S 00°46'48" E along the east line of Lot 5 and Innovation Drive, a distance of 548.01 feet to an "x" found in concrete for a corner, said corner being at the beginning of a curve to the left, having a central angle of 06°27'04", a radius of 930.00 feet and a chord bearing of S 04°02'56" E and a chord length of 104.66 feet;
THENCE in the Southeasterly direction, along said curve to the left and along Innovation Drive, an arc length of 104.71 feet returning to the Point of Beginning and containing 8.482 acres of land.

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS:

STATE OF TEXAS
COUNTY OF ROCKWALL

I the undersigned owner of the land shown on this plat, and designated herein as the **REPLAT OF LOT 5, BLOCK C OF THE AMENDED PLAT OF LOT 3, BLOCK C OF ROCKWALL TECHNOLOGY PARK,** a subdivision to the City of Rockwall, Texas, and whose name is subscribed hereto, hereby dedicate to the use of the public forever all streets, alleys, parks, water courses, drains, easements and public places thereon shown on the purpose and consideration therein expressed. I further certify that all other parties who have a mortgage or lien interest in the **REPLAT OF LOT 5, BLOCK C OF THE AMENDED PLAT OF LOT 3, BLOCK C OF ROCKWALL TECHNOLOGY PARK** have been notified and signed this plat.

I understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same. I also understand the following:

1. No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.
2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of their respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maintaining and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.
3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.
4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.
5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.
6. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Rockwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, storm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall; or

Until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit , should the developer and/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as progress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or

Until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

I further acknowledge that the dedications and/or exactions made herein are proportional to the impact of the Subdivision upon the public services required in order that the development will comport with the present and future growth needs of the City; I , my successors and assigns hereby waive any claim, damage, or cause of action that I may have as a result of the dedication of exactions made hereon.

CITY OF ROCKWALL
CITY COUNCIL MEMO

AGENDA DATE: 01/02/2018

APPLICANT: City of Rockwall

AGENDA ITEM: **P2017-073;** *Lots 1, 2, & 3, Fannin Addition*

SUMMARY:

Consider a city initiated request for the approval of a final plat for Lots 1, 2, & 3, Block A, Fannin Addition being a 4.01-acre tract of land identified as a portion of Lot AA, Block 122, B. F. Boydston Addition, City of Rockwall, Rockwall County, Texas, zoned Single-Family 7 (SF-7) District, generally located on the west side of Fannin Street south of the intersection of Fanning Street and Heath Street, and take any action necessary.

PLAT INFORMATION:

- ☑ The objective of this request is to final plat a 4.01-acre tract of land [*i.e. a portion of Lot AA, Block 122, B. F. Boydston Addition*] into three (3) parcels of land [*Lots 1, 2, & 3 Block A, Fannin Addition*] in order to subdivide one (1) lot into three (3) lots for the purpose of conveying Lots 1 and 2. Lot 3 contains a 20-inch water line and is being retained by the City of Rockwall in order to provide sufficient access to the water line. Staff should note that Lot 3 does not meet the technical requirements of the Unified Development Code, however, since the City of Rockwall is maintaining ownership of the lot, the City Council has the ability to waive the requirements.
- ☑ The surveyor has completed the majority of the technical revisions requested by staff, and this plat, conforming to the requirements for final plats as stated in the Subdivision Ordinance in the Municipal Code of Ordinances, is recommended for conditional approval pending the completion of final technical modifications and submittal requirements.
- ☑ Conditional approval of this plat by the City Council shall constitute approval subject to the conditions stipulated in the *Recommendation* section below.
- ☑ With the exception of the items listed in the *Recommendation* section of this case memo, this plat is in substantial compliance with the requirements of the Subdivision Ordinance in the Municipal Code of Ordinances.

RECOMMENDATIONS:

Should the City Council choose to approve the *final plat* for *Lots 1, 2, & 3, Block A, Fannin Addition,* staff would recommend the following conditions:

1) All technical comments from the Engineering, Planning and Fire Departments shall be addressed prior to the filing of this plat;
2) Any construction resulting from the approval of this *final plat* shall conform to the requirements set forth by the Unified Development Code, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

PLANNING AND ZONING COMMISSION:

On December 26, 2017, the Planning and Zoning Commission's motion to recommend approval of the final plat with staff recommendations passed by a vote of 5-0 with Commissioners Lyons and Fishman absent.

THENCE N. 12 deg. 31 min. 28 sec. E. a distance of 153.68 to a 1/2" iron rod with yellow plastic cap stamped "RPLS 5034" set for corner;

THENCE S. 86 deg. 26 min. 11 sec. E. a distance of 187.96 feet to the POINT OF BEGINNING and containing 174,707 square feet or 4.01 acres of land.

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS:

STATE OF TEXAS
COUNTY OF ROCKWALL

I the undersigned owner of the land shown on this plat, and designated herein as FANNIN ADDITION, an Addition to the City of Rockwall, Texas, and whose name is subscribed hereto, hereby dedicate to the use of the public forever all streets, alleys, parks, water courses, drains, easements and public places thereon shown on the purpose and consideration therein expressed. I further certify that all other parties who have a mortgage or lien interest in FANNIN ADDITION, have been notified and signed this plat.

I understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same.

I also understand the following;

1. No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.

2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of th eir respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maint aining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.

3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.

4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.

5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.

6. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Roc kwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, sto rm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall; or

Until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer an d/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as p rogress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or

Until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

I further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the subdivision upon the public services required in order that the development will comport with the present and future growth needs of the City; I , my successors and assigns hereby waive any claim, damage, or cause of action that I may have as a result of the dedication of exaction's made herein.

City of Rockwall
The New Horizon

MEMORANDUM

TO: **Honorable Mayor and Council**

FROM: **Kristy Cole, City Secretary/Assistant to the City Manager**

DATE: **January 2, 2018**

SUBJECT: **Updates to local alcoholic beverage permit provisions**

The City of Rockwall held a local option election in 2007. As a result of the election, voters approved the City to be "wet" and permit alcohol sales locally in the following ways: Beer – Off Premise Consumption; Wine – Off Premise Consumption; and Mixed Beverages (in) Restaurants for On Premise Consumption ("RM") only for those who also hold a food and beverage certificate ("FB"). (Note: the locally imposed requirement that a permit holder also carry an "FB" essentially disallows 'bars' within the city).

Any sublicense(s) for a specific type of business that falls into the above categories is eligible for approval by TABC as long as said sublicenses are not prohibited by any City Ordinance. As part of the TABC application approval process and the County Judge guidelines for approval, the **City Secretary** must certify that the sale of alcoholic beverages is not prohibited by charter or ordinance. These local ordinances may be related to zoning, special use, or distance requirements from schools, churches or hospitals. The City Secretary accomplishes this task through collaboration with the City's Director of Planning.

Staff has collaborated with the city attorney in an effort to make minor modifications to existing language within the city's Code of Ordinances in order to bring the City's Local Alcoholic Beverage Permit Application and Certification provisions into alignment with State law.

The draft ordinance provided to Council for consideration essentially eliminates a previous provision that called for a local fee schedule to be on file in the city secretary's office and incorporated said fee schedule as "Exhibit A" to the ordinance. These fee schedules change somewhat regularly. As such, it makes more sense to simply reference that the city will charge ½ of the state prescribed fees – that way if state fees change in the future, the city will not have to keep updating a local fee schedule.

The second thing the draft ordinance accomplishes is it eliminates the assessment of a local "administrative processing fee," as it is believed that this type of fee is not permissible according to the State code.

In conclusion, passage of this ordinance will streamline the city's local provisions and ensure the city is in compliance with current state law. Staff will be available to answer any questions the Council may have at or before Tuesday's council meeting.

CITY OF ROCKWALL, TEXAS

ORDINANCE #_____

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING CHAPTER 4, ALCOHOLIC BEVERAGES, ARTICLE II. PERMITS, SEC. 4-23 AND SEC. 4-25 TO PROVIDE FOR A FEE SCHEDULE IN ACCORDANCE WITH CURRENT FEES PRESCRIBED BY THE TEXAS ALCOHOLIC BEVERAGE COMMISSION; REPEAL OF BIENNIAL ADMINISTRATIVE PROCESSING FEE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, since the City of Rockwall's original adoption of the schedule and fees associated with local Alcoholic Beverage Permits (Ord. 07-55), the City Council of the City of Rockwall amended Ordinance07-55 in July 2013 (Ord. 13-18) to amend its local regulations to mirror the State's fee and licensing schedule and update the City's fee schedule, and

WHEREAS, the City Council of the City of Rockwall in the exercise of its legislative discretion now believes it to be in the best interest of the City and its alcoholic beverage permit holders to amend its local regulations to mirror the State's fee and licensing schedule and to repeal the Biennial Administrative Processing Fee.

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:

Section 1. That Sections 4-23 and 4-25 of Chapter 4. Alcoholic Beverages, Article II. Permits of the Code of Ordinances are hereby amended and shall read as follows:

Sec. 4-23. - Required; biennial fee required and expiration of local permit.

(a) It shall be unlawful for any person to manufacture, distill, brew, import, transport, store for purposes of sale, distribute or sell any beer, wine or other alcoholic beverage within the city without having first paid a biennial city fee equal to one-half of the state fee (not including the state surcharge) required by the Texas Alcoholic Beverage Commission (TABC) of every person that may be issued any permit or license or renew such permit or license by the state for the manufacture, distilling, brewing, importing, transporting, storing, distributing, or sale of any beer or wine. The City will charge one half of the amount of the State's fee for each permit as the local permit fee.

(b) The fee contained in subsection (a) of this section shall be paid to the city secretary biennially, except that the city shall not assess a local permit fee for a mixed beverage permit during the three-year period following the state's issuance of said permit. The city secretary shall issue a receipt for the permit fee(s) and keep a record of the same in the city secretary's office in accordance with state prescribed local record retention schedules. Any and all applicable local fees shall be paid to the City Secretary

biennially with the local permit expiring one day before the expiration date of the permit holder's State TABC license. All fees are nonrefundable.

Sec. 4-25. – Repealed.

Section 2. If any section, article, paragraph, sentence, clause, phrase, or word in this Ordinance, or application thereof to any persons or circumstances, is held invalid or unconstitutional by a court of competent jurisdiction such holding shall not affect the validity of the remaining portions of this Ordinance; and the City Council hereby declares it would have passed such remain portion of this Ordinance despite such invalidity which remaining portions shall remain in full force and effect.

Section 3. That this ordinance shall take effect immediately from and after its adoption and it is so resolved.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, this 16th DAY OF JANUARY, 2018.

CITY OF ROCKWALL, TEXAS
MEMORANDUM

TO: Brad Griggs, Assistant City Manager

CC: Rick Crowley, City Manager

FROM: Andy Hesser, Parks and Recreation Director

DATE: December 28, 2017

SUBJECT: PARK BOARD APPOINTMENT WITH CITY COUNCIL

As you recall, Park Board Chairman Brad Bassett spoke with the City Council during open forum at the December 18th Council meeting. At that time he requested that Council consider park projects to be included in the possible call for a bond election for improving City infrastructure. As a result, Mayor Pro-Tem Hohenshelt asked staff to work with the Park Board on this initiative.

Consequently, a special Park Board meeting was held on December 27th to discuss the topic of potential project recommendations, priorities and associated development costs. The Park Board voted unanimously to recommend that City Council consider two potential ballot initiatives. Park Board Chairman Brad Bassett has requested an appointment with City Council at the January 2nd meeting to present the following items for consideration:

- $1,750,000 for the continued development of neighborhood parks. These funds would be allocated among several possible neighborhood parks that have previously utilized developer pro-rata equipment fees or other funds for the first phase of park construction. This project would fulfill the 50% public portion as prescribed by the Mandatory Park Land Dedication Ordinance leading to a fully developed neighborhood park.

- $8,250,000 for the development of phase 1 of the Lakeside Park. The Lakeside Park Master Plan was developed about 10 years ago and shows many recreational amenities adjacent to Lake Ray Hubbard. Park Board discussed utilizing the first phase funds to develop the southern end of the proposed park land.

These items are in line with past strategic initiatives and Parks and Open Space Master Plan recommendations. Staff will be available to answer any questions.

CITY OF ROCKWALL, TEXAS
MEMORANDUM

TO: Mayor and City Council

CC: Rick Crowley, *City Manager*
Brad Griggs, *Assistant City Manager*

FROM: Ryan Miller, *Director of Planning and Zoning*

DATE: January 2, 2018

SUBJECT: Z2017-059; *Amendment to PD-8 for Townhomes*

On December 26, 2017, the Planning and Zoning Commission approved a motion to allow the applicant, Ross Ramsay, to postpone the public hearing for *Case No. Z2017-059* to the *January 30, 2018* Planning and Zoning Commission meeting. The motion was approved by a vote of 5-0, with Chairman Lyons and Commissioner Fishman absent. The purpose of this request is to allow the applicant time to modify the request to address the concerns stated at the December 18, 2017 City Council meeting and to meet with the Chandler's Landing Homeowner's Association (HOA). This means the new City Council public hearing would be *February 5, 2018*.

According to Section 6.2, *Public Hearing Postponements, Recess, and Continuations*, of the Article II, Authority and Administrative Procedures, of the Unified Development Code (UDC), a public hearing may be postponed by announcing the postponement at the public hearing and indicating the time and place the new hearing is scheduled to begin. The announcement of a postponement shall be sufficient notice and no additional notice shall be required.

From: Ross Ramsay
To: Miller, Ryan
Subject: Plannign and Zoning Case No.
Date: Wednesday, December 20, 2017 11:06:58 AM

Ryan Miller:

We would like to request a postponement before Planning & Zoning until Tuesday, Jan. 30, 2018. We would like this time to make amendments to the plan and to gather support from the neighbors.

Thank you.

Ross Ramsay

CITY OF ROCKWALL

ORDINANCE NO. 18-08

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING PLANNED DEVELOPMENT DISTRICT 82 (PD-82) [*ORDINANCE NO. 16-43*], AND THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, SO AS TO FURTHER AMEND THE PLANNED DEVELOPMENT DISTRICT TO INCORPORATE A 98.341-ACRE TRACT OF LAND INTO THE EXISTING 81.49-ACRE TRACT OF LAND, CREATING A 179.831-ACRE PLANNED DEVELOPMENT DISTRICT IDENTIFIED AS PLANNED DEVELOPMENT DISTRICT 82 (PD-82) AND BEING TRACT 3, TRACT 8 AND TRACT 16, OF THE J. A. RAMSEY SURVEY, ABSTRACT NO. 186, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS, AND MORE FULLY DESCRIBED HEREIN BY *EXHIBIT 'A'*; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City has received a request by Jim Douglas of Douglas Properties, Inc. on behalf of Isabel Garrett of the McClendon Company, for the purpose of amending Planned Development District 82 (PD-82) [*Ordinance No. 16-43*], by incorporating an additional 98.341-acre tract of land into the existing 81.49-acre tract of land, for the purpose of developing a residential subdivision on a 179.831-acre tract of land identified as Tract 3,Tract 8, and Tract 16 of the J. A. Ramsey Survey, Abstract No. 186, City of Rockwall, Rockwall County, Texas and more fully described in *Exhibit 'A'* of this ordinance, which hereinafter shall be referred to as the *Subject Property* and incorporated by reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the affected area, and in the vicinity thereof, and the governing body in the exercise of its legislative discretion, has concluded that the Unified Development Code [*Ordinance No. 04-38*] and Planned Development District 82 (PD-82) [*Ordinance No. 16-43*] should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:**

Section 1. That the approval of this ordinance shall supersede all requirements stipulated in Planned Development District 82 (PD-82) [*Ordinance No. 16-43*];

Section 2. That the *Subject Property* shall be developed and/or used only in the manner and for the purposes described within this *Planned Development District Ordinance*, and unless specifically modified within this ordinance the *Subject Property* shall adhere to all development standards stipulated by the Single Family 10 (SF-10) District as specified in Section 3.4, *Single*

Family Residential (SF-10) District, of Article V, District Development Standards, of the Unified Development Code [*Ordinance No. 04-38*] as heretofore amended, as amended herein by granting of this zoning change, and as may be amended in the future;

Section 3. That development of the *Subject Property* shall generally be in accordance with the *Planned Development Concept Plan*, described in *Exhibit 'B'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'B'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*;

Section 4. That development of the *Subject Property* shall generally be in accordance with the *Concept Phasing Plan*, described in *Exhibit 'C'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'C'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*;

Section 5. That development of the park areas on the *Subject Property* shall generally be in accordance with the *Parks Concept Plan*, described in *Exhibit 'D'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'D'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*;

Section 6. That development of the *Subject Property* shall generally be in accordance with the *Development Standards*, described in *Exhibit 'E'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'E'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*;

Section 7. That development of the *Subject Property* shall be in conformance with the schedule listed below (*except as set forth below with regard to simultaneous processing and approvals*).

(a) The procedures set forth in the City's subdivision regulations on the date this ordinance is approved by the City, as amended by this ordinance (*including Subsections 7(b) through 7(g) below*), shall be the exclusive procedures applicable to the subdivision and platting of the *Subject Property*.

(b) The following plans and plats shall be required in the order listed below (*except as set forth below with regard to simultaneous processing and approvals*). The City Council shall act on an application for an *Open Space Master Plan* in accordance with the time period specified in *Section 212.009* of the *Texas Local Government Code*.

(1) Open Space Master Plan
(2) Master Plat
(3) PD Site Plan
(4) Preliminary Plat
(5) Final Plat

(c) *Open Space Master Plan.* An *Open Space Master Plan* for the *Subject Property*, prepared in accordance with this ordinance and consistent with the *Planned Development Concept Plan*, (*Open Space Master Plan*) shall be considered for approval by the City Council following recommendation of the Parks and Recreation Board.

(d) *Master Plat*. A *Master Plat* application covering all of the Subject Property shall be submitted and shall identify each phase of the development. The *Master Plat* application shall not be approved until the *Open Space Master Plan* may be processed by the City concurrently with the Master Plat Application.

(e) *PD Site Plan.* A *PD Site Plan* covering all of the *Subject Property* shall be submitted and shall identify all site/landscape/hardscape plan(s) for all open space, neighborhood parks, trail systems, street buffers and entry features as depicted in *Exhibit 'D'* (*Park Concept Plan and Amenity Package*). A *PD Site Plan* application, including a plan for improvements for the parkland and/or trails, may be processed by the City concurrently with a *Preliminary Plat Application* for the development.

(f) *Preliminary Plat.* A *Preliminary Plat* covering all of the *Subject Property* shall be submitted and shall include a *Treescape Plan*. A *Preliminary Plat* application, including a plan for improvements for the parkland and/or trails as identified in Section 6(d) above, may be processed by the City concurrently with a *PD Site Plan Application* for the development.

(g) *Final Plat.* Prior to the issuance of any building permits, a *Final Plat*, conforming to the *Preliminary Plat*, for all of the *Subject Property* shall be submitted for approval.

Section 8. That any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *Two Thousand Dollars ($2,000.00*) for each offense and each and every day such offense shall continue shall be deemed to constitute a separate offense;

Section 9. That if any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable;

Section 10. The standards in this ordinance shall control in the event of a conflict between this ordinance and any provision of the Unified Development Code or any provision of the City Code, ordinance, resolution, rule, regulation, or procedure that provides a specific standard that is different from and inconsistent with this ordinance. References to zoning district regulations or other standards in the Unified Development Code (including references to the *Unified Development Code*), and references to overlay districts, in this ordinance or any of the Exhibits hereto are those in effect on the date this ordinance was passed and approved by the City Council of the City of Rockwall, Texas;

Section 11. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides;

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 2ND DAY OF JANUARY, 2018.

I(am), LLC as recorded in, Instrument No. 20150000005151 , Deed Records Rockwall County Texas (DRRCT) and more particularly described as follows;

COMMENCING at a found ½-inch iron rod for the southwest corner of Sterling Farms Addition, an Addition to the City of Rockwall as recorded Slide C, Page 396, Plat Records Rockwall County Texas (PRRCT), said point being in the common north line of said Tract 2, and being in the East right of way line for Farm to Market Road 543;

THENCE N 88°52'38" E with the common line of said McClendon Tract 2, and said Addition a distance of 665.59 feet to the *POINT OF BEGINNING*, from said point a found iron rod for the common southerly corner of Lots 17 and 16 of said Sterling Farms Addition bears N 88°52' E, 136.53 feet;

THENCE N 88°04'30" E, a distance of 140.05 feet to a found ½-inch iron rod;

THENCE N 88°52'36" E, a distance of 1773.18 feet to a point for southeast corner of said Sterling Farms Addition, and the westerly southwest corner of Timber Creek Estates, Phase 2 & 3, an Addition to the City of Rockwall as recorded in Cabinet E, Slides 55-57, Plat Records Rockwall County Texas (PRRCT);

THENCE easterly and southerly with the line common to said Timber Creek Estates and said McClendon Tract 2 as follows:

> N 89°51'04" E, a distance of 523.95 feet to a point for a corner in said common line;
>
> S 01°05'16" E, a distance of 612.61 feet to a ½-inch iron rod for the southerly southwest corner of said Timber Creek Estates;

THENCE S 01°01'20" E continuing with the east line of said McClendon tract and with the west line of that West Union Investments, Co. tract as described in Volume 377, Page 273, Deed Records Rockwall County Texas, at 1644.86 feet pass a found 3/8-inch iron rod, continuing for a total distance of 1648.36 feet to a found fence post for corner, being on the north line of Ridge Haven Estates, an Addition to the City of Rockwall as recorded in Book A, Slide 213, (PRRCT);

THENCE N 88°53'47" W with the north line of said Addition, a distance of 284.75 feet to a found ½-inch iron rod for the northwest corner of said Addition, same being the northeast corner of Fontanna Ranch Phase II, an Addition to the City of Rockwall as recorded in Instrument No. 20170000010844, Official Public Records Rockwall County Texas (OPRRCT);

THENCE S 89°19' 19" W with the north line of Fontanna Ranch, a distance of 447.16 feet to a found ½-inch iron rod;

THENCE N 01°00'46" W, a distance of 18.05 feet to a found iron rod with Powell & Powell cap for a corner of said Fontanna Ranch and being the southwesterly corner of that tact described in a Special Warranty Deed to iHeartMedia Tower Company, I, LLC, as recorded in Instrument No. 20150000005151,(OPRRCT);

THENCE N 48°51'10" W, a distance of 2825.34 feet to a found 5/8-inch iron rod with Powell & Powell cap for the northwest corner of said iHeartMedia Tower Company tract;

THENCE N 48°05'00" E, with the northwesterly line of said iHeartMedia Tower Company tract, a distance of 515.38 feet to the *POINT OF BEGINNING*, and containing 98.3415 acres of land, more or less.

Park Concept Plans

Development Standards.

1. *Permitted Uses.* Unless specifically provided by this Planned Development ordinance, only those uses permitted within the Single Family 10 (SF-10) District, as stipulated by the *Permissible Use Charts* contained in Article IV, *Permissible Uses*, of the Unified Development Code (UDC), are allowed on the *Subject Property*.

2. *Lot Composition and Layout.* The lot layout and composition shall generally conform to the *Concept Plans* depicted in *Exhibit 'B'* and stated in *Table 1*, which is as follows:

Table 1: Lot Composition

Lot Type	*Minimum Lot Size (FT)*	*Minimum Lot Size (SF)*	*Maximum Dwelling Units (#)*	*Dwelling Units (%)*
A	65' x 125'	8,125 SF	296	84.09%
B	80' x 125'	10,000 SF	46	13.06%
C	80' x 125'	25,000 SF	10	2.85%
		Maximum Permitted Units:	*352*	*100%*

3. *Density and Dimensional Requirements.* Unless specifically provided by this Planned Development ordinance, the development standards stipulated by the Single Family 10 (SF-10) District, as specified by Article V, *District Development Standards*, of the Unified Development Code are applicable to all development on the *Subject Property.* The maximum permissible density for the *Subject Property* shall not exceed *1.96* dwelling units per gross acre of land; however, in no case should the proposed development exceed *352* dwelling units. All lots shall conform to the standards depicted in *Table 2*, which is as follows:

Lot Type (see Concept Plan) ►	***A***	***B***	***C***
Minimum Lot Width [1] & [5]	65'	80'	80'
Minimum Lot Depth	125'	125'	125'
Minimum Lot Area	8,125 SF	10,000 SF	25,000 SF
Minimum Front Yard Setback [2]	20'	20'	20'
Minimum Side Yard Setback	5'	5'	5'
Minimum Side Yard Setback (Adjacent to a Street) [2]	10'	10'	10'
Minimum Length of Driveway Pavement	25'	25'	25'
Maximum Height [3]	36'	36'	36'
Minimum Rear Yard Setback [4]	10'	10'	10'
Minimum Area/Dwelling Unit (SF)	1,800 SF	2,000 SF	2,000 SF
Maximum Lot Coverage	65%	65%	65%

General Notes:

[1]: The minimum lot width shall be measured at the *Front Yard Building Setback*.

[2]: The location of the *Front Yard Building Setback* as measured from the front property line.

[3]: The *Maximum Height* shall be measured to the eave or top plate (whichever is greater) of the single family home.

[4]: As measured from the rear yard property line.

[5]: Lots fronting onto a curvilinear street, cul-de-sac or eyebrow may have the lot width reduced by up to 20% as measured at the front property line provided that the lot width is met at the front building line. Additionally, the lot depth on lots fronting onto curvilinear streets, cul-de-sacs and eyebrows maybe reduced by up to ten (10%) percent, but shall meet the minimum lot size for each lot type.

4. *Building Standards.* All development shall adhere to the following building standards:

(a) *Masonry Requirement.* The minimum masonry requirement for the exterior façades of all buildings shall be 80%. For the purposes of this ordinance, the masonry requirement shall be limited to full width brick, natural stone, and cast stone.

Cementaceous fiberboard horizontal lap-siding (*e.g. HardiBoard or Hardy Plank*) and, stucco (*i.e. three [3] part stucco or a comparable -- to be determined by staff*) may be used for up to 50% of the masonry requirement; however, stucco (*i.e. three [3] part stucco or comparable -- to be determined by staff*) shall be permitted through a Specific Use Permit (SUP) only.

(b) *Roof Pitch.* A minimum of a *6:12* roof pitch is required on all structures with the exception of sunrooms and porches, which shall have a minimum of a *4:12* roof pitch.

(c) *Garage Orientation.* A minimum of 30% of garages shall be oriented in a *traditional swing* (or *j-swing*) configuration for *Phase I* and *Phase II* of the *subject property* as depicted in *Exhibit 'C'* of this ordinance. The remainder of garages in *Phase I* and *Phase II* may be configured in a front entry configuration where the front of the garage is flush with (*or recessed behind*) the front façade of the home and the driveway has a minimum length of 25-feet. However, 100% of the garages in *Phase III -- as depicted in Exhibit 'C' of this ordinance* -- shall be oriented in a *traditional swing* (or *j-swing*) configuration. All garage configurations that are not front entry shall meet the requirements of Article VI, *Parking and Loading*, of the Unified Development Code. All garage doors are required to be of cedar construction.

5. *Anti-Monotony Restrictions.* The development shall adhere to the *Anti-Monotony Matrix* depicted in *Table 3* below (*for spacing requirements see the illustration below*).

Table 3 : Anti-Monotony Matrix

Lot Type	*Minimum Lot Size*	*Elevation Features*
A	65' x 125'	(1), (2), (3), (4)
B	80' x 125'	(1), (2), (3), (4)
C	80' x 125'	(1), (2), (3), (4)

(1) Identical brick blends or paint colors may not occur on adjacent (*side-by-side*) properties along any block face without at least four (4) intervening homes of differing materials on the same side of the street beginning with the adjacent property and three (3) intervening homes of differing materials on the opposite side of the street.

(2) Front building elevations shall not repeat along any block face without at least four (4) intervening homes of differing appearance on the same side of the street and three (3) intervening homes of differing appearance on the opposite side of the street. The rear elevation of homes backing to open spaces or on Rochell Road shall not repeat without at least four (4) intervening homes of differing appearance. Homes are considered to have a differing appearance if any of the following two (2) items deviate:

(a) Number of Stories
(b) Porch and/or Sunroom Type and Layout
(c) Roof Type and Layout
(d) Articulation of the Front Façade

(3) Each phase of the subdivision will allow for a maximum of four (4) compatible roof colors, and all roof shingles shall be an architectural or dimensional shingle (*3-Tab Roofing Shingles are prohibited*).

Illustration 1: Properties line up on the opposite side of the street. Where RED is the subject property.

Illustration 2: Properties do not line up on opposite side of the street. Where RED is the subject property.

6. *Fencing Standards.* All individual residential fencing and walls shall be architecturally compatible with the following design standards:

   (a) Wood Fences. All wood fences shall be constructed of a standard fencing material (*minimum of ½" thickness or better; spruce fencing will not be allowed*), and use fasteners that are hot dipped galvanized or stainless steel. Wood fences facing onto a street shall be painted and/or stained and sealed with all pickets being placed on the *public side* facing the street. All wood fences shall be smooth-finished, free of burs and splinters, and be a maximum of six (6) feet in height.

   (b) Wrought Iron/Tubular Steel. Lots located along the perimeter of roadways, abutting open spaces, greenbelts and parks shall be required to install a wrought iron or tubular steel fence. Wrought iron/tubular steel fences can be a maximum of six (6) feet in height.

   (c) Corner Lots. Corner lot fences (*i.e. adjacent to the street*) shall provide masonry columns at 45-feet off center spacing that begins at the rear of the property line. A maximum of six (6) foot solid *board-on-board panel* fence constructed utilizing cedar fencing shall be allowed between the masonry columns along the side and/or rear lot adjacent to a street. In addition, the fencing shall be setback from the side property line adjacent to a street a minimum of five (5) feet. The property owner shall be required to maintain both sides of the fence.

   (d) Solid Fences (including Wood Fences). All solid fences shall incorporate a decorative top rail or cap detailing into the design of the fence.

7. *Landscape and Hardscape Standards.*

   (1) *Landscape.* Landscaping shall be reviewed and approved with the PD Site Plan. All *Canopy/Shade Trees* planted within this development shall be a minimum of four (4) caliper inches in size and all *Accent/Ornamental/Under-Story Trees* shall be a minimum of four (4) feet in total height. The following tree species are approved for planting within this subdivision:

   (a) Canopy/Shade Trees. Bald Cyprus, Cedar Elm, Texas Red Oak, Homestead Elm, Lace Bark Elm, Alle Elm, Chinese Pistachio, Shumard Oak, Sycamore, and Burr Oak.

   (b) Accent/Ornamental/Under-Story Trees. Texas Redbud, Eve's Necklace, Mexican Plum, Downy Hawthorn, Crepe Myrtle, Texas Mountain Laurel, Vitex, and Desert Willow.

   (2) *Landscape Buffers.* All landscape buffers and plantings located within the buffers shall be maintained by the Homeowner's Association (HOA).

   (a) Landscape Buffer and Sidewalks (Rochell Road). A minimum of a 15-foot landscape buffer shall be provided along the frontage of Rochell Road (*outside of and beyond any required right-of-way dedication*), and shall incorporate ground cover, a *built-up* berm and/or shrubbery or a combination thereof along the entire length of the frontage. Berms and/or shrubbery shall have a minimum height of 30-inches and a maximum height of 48-inches. In addition, at least one canopy tree shall be planted per 50 linear feet of frontage. A minimum of a five (5) foot sidewalk shall be required along Rochell Road.

   (3) *Street Trees.* Street trees shall generally be planted in conformance with the *Planned Development Concept Plan* as depicted in *Exhibits 'B'* of this ordinance. The Homeowner's Association (HOA) shall be responsible for the maintenance of all street trees and will be required to maintain a minimum of a 14-foot vertical clearance height for all trees. All street trees shall be planted a minimum of five (5) feet from all water, sanitary sewer and storm lines.

   (4) *Irrigation Requirements*. Irrigation shall be installed for all required landscaping located within common areas, landscape buffers and/or open space. Irrigation installed in these areas shall be designed by a Texas licensed irrigator or landscape architect and shall be maintained by the Homeowner's Association.

   (5) *Hardscape.* Hardscape plans indicating the location of all sidewalks and trails shall be reviewed and approved with the PD Site Plan.

8. *Street.* All streets (*excluding drives, fire lanes and private parking areas*) shall be built according to City street standards.

9. *Park Improvements.* All parks within this development -- *including all features outlined in Section 'A' & 'B' below* -- shall be maintained by the *Home Owners Association (HOA)*.

Exhibit 'E':
Development Standards

A) The development of *Phase I* and *Phase II* -- *as depicted in Exhibit 'C' of this ordinance* -- shall incorporate a nine (9) acre, fully established natural turf (*e.g. seeding process*) and irrigated park as generally depicted in the *Planned Development Park Concept Plan* of *Exhibit 'D'* of this ordinance. This area shall also incorporate the following improvements:

1. Eight (8) Foot Concrete *Hike & Bike Trail*
2. Playground
3. Plaza
4. Covered Pavilion
5. Picnic Area
6. Benches
7. Landscape Features (*e.g. Trees and Other Vegetation*)

B) The development of *Phase III* -- *as depicted in Exhibit 'C' of this ordinance* -- shall incorporate a 2.24-acre, fully established natural turf (*e.g. seeding process*) and irrigated private park as generally depicted in the *Planned Development Concept Plan* depicted in *Exhibit 'B'* of this ordinance.

10. *Lighting.* Light poles shall not exceed 20-feet in total height (*i.e. base and lighting standard*). All fixtures shall be directed downward and be positioned to contain all light within the development area.

11. *Sidewalks.* At a maximum, all sidewalks adjacent to a street shall begin two (2) feet behind the right-of-way line and be five (5) feet in overall width.

12. *Buried Utilities.* New distribution power-lines required to serve the *Subject Property* shall be placed underground, whether such lines are located internally or along the perimeter of the *Subject Property*, unless otherwise authorized by the City Council. New transmission power-lines, or additional lines that are added to existing poles, may be above ground, if located along the perimeter of the *Subject Property*. The Developer shall not be required to re-locate existing overhead power-lines along the perimeter of the *Subject Property*. Temporary power-lines constructed across undeveloped portions of the *Subject Property* to facilitate development phasing and looping may be allowed above ground, but shall not be considered *existing lines* at the time the area is developed, and if they are to become permanent facilities, such lines shall be placed underground pursuant to this paragraph. Franchise utilities shall be placed within a ten (10) foot public utility easement behind the sidewalk, between the home and the property line.

13. *Open Space.* All phases of the development (*i.e. Phase I, Phase II, and Phase III as depicted in Exhibit 'C' of this ordinance*) shall adhere to *Exhibits 'B' & 'D'* and all private parks and open space areas shall be maintained by the Homeowners Association (HOA).

14. *Neighborhood Signage.* Permanent subdivision identification signage shall be permitted at all major entry points for the proposed subdivision. Final design and location of any entry features shall be reviewed and approved with the *PD Site Plan*.

15. *Drainage Standards.* The development shall comply with existing drainage standards including the permissible spread of water in the streets and permissible gutter flow

through intersections as outlined in the City of Rockwall's *Standards of Design and Construction* (*approved in August 2003 and updated in October 2007*). The proposed drainage areas, flow patterns (*not lot to lot drainage*), and storm drain system that will be constructed shall be based on the City's drainage criteria and be identified on a *Conceptual Drainage Plan*, which shall be submitted with the *Civil Plans* at the time of *Engineering* submittal. The *Conceptual Drainage Plan* shall be reviewed and approved by the Engineering Department in compliance with engineering standards.

16. *Homeowner's Association (HOA)*. A Homeowner's Association shall be created to enforce the restrictions established in accordance with the requirements of *Section 38-15* of the *Subdivision Regulations* contained within the Municipal Code of Ordinances of the City of Rockwall. The HOA shall also maintain all private parks, trails, open space and common areas, irrigation, landscaping, screening fences associated with this development.

17. *Variances*. The variance procedures and standards for approval that are set forth in the Unified Development Code shall apply to any application for variances to this ordinance.

CITY OF ROCKWALL

ORDINANCE NO. 18-09

SPECIFIC USE PERMIT NO. S-183

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, TEXAS, AS PREVIOUSLY AMENDED, SO AS TO GRANT A SPECIFIC USE PERMIT (SUP) TO ALLOW FOR AN ACCESSORY BUILDING THAT DOES NOT MEET THE MINIMUM REQUIREMENTS, ON A 1.144-ACRE TRACT OF LAND ZONED SINGLE-FAMILY 10 (SF-10) DISTRICT AND IDENTIFIED AS LOT 8, BLOCK A, GRADY RASH SUBDIVISION, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OR FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, a request has been made by Robert Rash for the approval of a Specific Use Permit (SUP) for the purpose constructing an accessory building that does not meet the minimum masonry requirements, and exceeds the maximum height requirements as stipulated by the Unified Development Code (UDC), situated on 1.144-acre tract of land, zoned Single-Family 10 (SF-10) District, and being identified as Lot 8, Block A, Grady Rash Subdivision, City of Rockwall, Rockwall County, Texas, addressed as 4 Soapberry Lane, and being more specifically depicted in *Exhibit 'A'* of this ordinance, which herein after shall be referred to as the *Subject Property* and incorporated reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall, in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall, have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally, and to all persons interested in and situated in the affected area and in the vicinity thereof, the governing body in the exercise of its legislative discretion has concluded that the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall should be amended as follows:

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:

SECTION 1. That the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall, as heretofore amended, be and the same is hereby amended so as to grant a Specific Use Permit (SUP) allowing for the establishment of a metal accessory building that does not conform to the minimum masonry requirements and maximum height requirements for accessory buildings in a Single-Family 10 (SF-10) District as stipulated by Section 2.1.2, *Residential Lodging Use Conditions,* of Article IV*, Permissible Uses,* and Section 3.2 of Article V*, District Development Standards,* of the Unified Development Code [*Ordinance No. 04-38*] on the *Subject Property*; and

SECTION 2. That the *Subject Property* shall be used only in the manner and for the purposes described in this Specific Use Permit (SUP) ordinance and as specifically set forth in Subsection 3.4*, Single-Family 10 (SF-10) District,* of Section 3*, Residential Districts*, of Article V*, District Development Standards,* and Section 2.1.2, *Residential Lodging Conditions*, of Article IV, *Permissible Uses*, of the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall as heretofore amended, as amended herein by the granting of this zoning change, and as my be

amended in the future, and shall be subject to the following operational conditions:

2.1 OPERATIONAL CONDITIONS

The following conditions shall pertain to the construction of an accessory building on the *Subject Property*, and conformance to these operations is required for continued operation:

1) The accessory building shall generally conform to the site plan depicted in *Exhibit 'B'* and the concept building elevations depicted in *Exhibit 'C'* of this ordinance.

2) The accessory building shall not exceed a maximum size of 900 SF.

3) The accessory building shall not exceed a maximum overall height of 20-feet.

4) The accessory building is subject to administrative review in the event that the *Subject Property* is sold, conveyed or altered in any manner.

2.2 COMPLIANCE

Approval of this ordinance in accordance with Section 8.3, *Council Approval or Denial*, of Article II, *Authority and Administrative Procedures*, of the Unified Development Code (UDC) will require compliance to the following:

1) Upon obtaining a Certificate of Occupancy (CO), should any business or establishment operating under the guidelines of this ordinance fail to meet the minimum operational requirements set forth herein and outline in the Unified Development Code (UDC), the City Council may (*after proper notice*) initiate proceedings to revoke the Specific Use Permit (SUP) in accordance with Section 4.4.(3) of Article IV, *Permissible Uses*, of the Unified Development Code (UDC).

SECTION 3. That the official zoning map of the City be corrected to reflect the changes in zoning described herein.

SECTION 4. That all ordinances of the City of Rockwall in conflict with the provisions of this ordinance be, and the same are hereby repealed to the extent of that conflict.

SECTION 5. Any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *TWO THOUSAND DOLLARS* (*$2,000.00*) for each offence and each and every day such offense shall continue shall be deemed to constitute a separate offense.

SECTION 6. If any section or provision of this ordinance or the application of that section or provision to any person, firm, corporation, situation or circumstance is for any reason judged invalid, the adjudication shall not affect any other section or provision of this ordinance or the application of any other section or provision to any other person, firm, corporation, situation or circumstance, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions of this ordinance shall remain in full force and effect.

SECTION 7. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 2nd DAY OF JANUARY, 2018.

CITY OF ROCKWALL
CITY COUNCIL MEMO

AGENDA DATE: 01/02/2018

APPLICANT: Sami Ibrahim; *DFW Distributor Petroleum, Inc.*

AGENDA ITEM: **SP2017-040;** *Retail Center & Convenience Store with Gasoline Sales*

SUMMARY:

Discuss and consider a request by Sami Ibrahim of DFW Distributor Petroleum, Inc. for the approval of variances in conjunction with an approved site plan for a gas station and strip retail center on a 2.47-acre tract of land identified as Tracts 2-14 & 2-01 of the J. A. Ramsey Survey, Abstract 186, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the SH-276 Overlay (SH-276 OV) District, located at the southeast corner of the intersection of SH-276 and FM-549, and take any action necessary.

PURPOSE AND BACKGROUND:

On December 26, 2017, the Planning and Zoning Commission approved a *site plan* proposing to construct an 11,550 SF retail center and 5,000 SF gas station. The proposed retail center and gas station will be situated on a 2.47-acre tract of land identified as Tracts 2-14 & 2-01 of the J. A. Ramsey Survey, Abstract No. 186 that is located at the southeast corner of the intersection of SH-276 and FM-549, is within the SH-276 Overlay (S*H-276 OV*) and FM-549 (*FM-549 OV*) Districts , and is zoned Commercial (C) District. A summary of the density and dimensional requirements for the subject property and the proposed project's conformance to these requirements is as follows:

Ordinance Provisions	*Zoning District Standards*	*Conformance to the Standards*
Minimum Lot Area	*10,000 SF*	*x=2.47-Acres; In Conformance*
Minimum Lot frontage	*60-Feet*	*x>60-Feet; In Conformance*
Minimum Lot Depth	*100-Feet*	*x>100-Feet; In Conformance*
Minimum Front Yard Setback	*15-Feet*	*x>15-Feet; In Conformance*
Minimum Rear Yard Setback	*20-Feet + 1/2*[1]	*x>28-Feet; In Conformance*
Minimum Side Yard Setback	*10-Feet*	*x=10-Foot; In Conformance*
Maximum Building Height	*60-Ft w/o SUP*[2]	*x<60 Ft; In Conformance*
Max Building/Lot Coverage	*60%*	*x=15%; In Conformance*
Minimum Masonry Requirement	*90%*	*x>90%; In Conformance*
Minimum Number of Parking Spaces	*67*	*92 Provided; In Conformance*
Minimum Stone Requirement (SH205 OV)	*20% ea facade*	*x< 20%; Not In Conformance Variance Required*
Minimum Landscaping Percentage	*15%*	*x=25.5%; In Conformance*
Maximum Impervious Coverage	*85-90%*	*x=15.5%; In Conformance*

NOTES:
[1]: *Abutting residentially zoned property: 20 feet plus one-half the building height over 36 feet.*
[2]: *Maximum building height: 240 feet. Any structure over 36 feet shall require a specific use permit.*

VARIANCE REQUESTS:

Based on the applicant's request the following variances will be required:

1) *Section 6.13, FM-549 Overlay (FM-549 OV) District and Section 6.14, SH-276 Overlay (SH-276 OV) District, of Article V, District Development Standards of the Unified Development Code (UDC)*. The proposed project will require a variance to four (4) side architecture

requirements of the overlay districts, which requires all four sides of the building be finished with the same materials, detailing, articulation and features as the primary building elevation. As established in Section 6.13.C.5, and Section 6.14.C.5, of Article V, of the UDC the east and west elevations of the retail center and the south, east and west elevations of the convenience store do not incorporate the same elements (*e.g. awnings, canopies*) as the primary elevation. The variance would allow the retail center and convenience stores to be constructed as depicted on the elevations submitted. Furthermore, the code requires that a row of trees be planted behind the primary building. The approval of this variance would exempt the development from this requirement [*¾-Majority Vote*].

2) *Section 6.13, FM-549 Overlay (FM-549 OV) District and Section 6.14, SH-276 Overlay (SH-276 OV) District, of Article V, District Development Standards of the UDC*. The proposed development will require a variance to allow for not meeting the 20% natural or quarried stone requirement stipulated by Sec. 6.13.C.1 and 6.14.C.1 of Article V, of the UDC. If approved this variance will allow for 12% natural or quarried stone on the north elevation of both buildings as depicted on the building elevations submitted. The north elevations are located at the rear of the property and are blocked from view by a six (6) foot masonry wall [*¾-Majority Vote*].

3) Section 5.1.C, of Article V, District Development Standards, of the UDC. The proposed building will require a variance to allow for not meeting the vertical and horizontal articulation requirements on both buildings. This variance is as follows: (1) The *Retail Center* will require a variance on the north and south building elevations for not meeting both the vertical and horizontal articulation requirements and (2) the *Convenience Center* will require a variance on the north elevation to not meeting the vertical and horizontal articulation requirements [*Simple Majority Vote*].

4) Based on staff's review of the site plan the applicant will need to provide vertical walls in their detention areas, and according to the Engineering's *Standards of Design and Construction Manual* the City does not allow vertical walls. This means that the applicant will need to either request a variance to the City's detention requirements or provide underground detention [*Simple Majority Vote*].

ARCHITECTURAL REVIEW BOARD RECOMMENDATION:

On November 28, 2017, the Architectural Review Board (ARB) reviewed the proposed building elevations for the site. The ARB requested the applicant provide a materials sample board and provide a perspective of the buildings. The ARB also recommended the applicant make changes to the building elevations so that the retail building matches the gas station building and creates more of a unified appearance between the architecture of the two (2) buildings.

On December 26, 2017, the Architectural Review Board (ARB) approved a motion to recommend approval of the building elevations and variances to the overlay district and articulation requirements by a vote of 3-0, with Board Members Neill, Myrat, Johannesen and Craddock absent.

RECOMMENDATIONS:

If the City Council chooses to approve the applicant's request then staff would recommend the following conditions of approval:

1) All technical comments provided by the Planning, Engineering and Fire Department must be addressed prior to the submittal of a building permit.

2) The convenience store/gas station cannot incorporate a public paging system in conformance to the residential adjacency standards.

3) The gas station shall not incorporate a drive-through or walk-up window in conformance to the residential adjacency standards.

4) No outside storage or display shall be permitted for the gas station unless the applicant revises the site plan.

5) Any construction or building necessary to complete this Site Plan request must conform to the requirements set forth by the UDC, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

PLANNING AND ZONING COMMISSION:

On December 26, 2017, the Planning and Zoning Commission approved a motion to approve the site plan and recommend approval of variances to the overlay district requirements by a vote of 5-0, with Chairman Lyons and Commissioner Fishman absent. A subsequent motion was made to deny the variance request for vertical walls. This motion failed by a vote of 2-3, with Commissioners Chodun, Welch and Moeller dissenting. A final motion to approve the variance request for vertical walls was approved by a vote of 3-2, with Commissioners Trowbridge and Logan dissenting.

CITY OF ROCKWALL
CITY COUNCIL MEMO

AGENDA DATE: 01/02/2018

APPLICANT: Steven J. Goldberg *of Cogent Realty Advisors, LLC.*

AGENDA ITEM: **MIS2017-017;** Special Request – *Emma Jane & Sam Houston*

SUMMARY:

Discuss and consider a special request by Steven J. Goldberg of Cogent Realty Advisors, LLC for the approval of waivers to the requirements stipulated for the Southside Residential Neighborhood Overlay (SRO) District to allow the construction of a single-family home on a 0.0172-acre tract of land identified as a portion of Lot 53 of the Canup Addition, City of Rockwall, Rockwall County, Texas, zoned Single-Family 7 (SF-7) District, situated within the Southside Residential Neighborhood Overlay (SRO) District, located at the northwest corner of Emma Jane Road and Sam Houston Street, and take any action necessary.

CHARACTERISTICS OF REQUEST:

The applicant has submitted a special request for the approval of a deviation from the minimum front and rear yard setbacks, minimum lot depth, and for a flat front entry garage for a property located within the Southside Residential Neighborhood Overlay (SRO) District as stipulated by the Unified Development Code (UDC). The purpose for the request is to allow for the construction of a single-family residential home as depicted on the proposed site plan. The property is situated at the northwest corner of Emma Jane Street and Sam Houston Street.

It should be noted that the *subject property* is considered to be a double frontage lot and requires a minimum setback of 20-ft along both frontages [*i.e. Emma Jane & Sam Houston*]. The proposed site plan submitted by the applicant shows that the *subject property* will have a single family home oriented towards Emma Jane Street, which would allow for a lot depth of less than 100-ft [*i.e. 49-ft 6 inches*]. The applicant has stated in his letter of request that the purpose for this orientation of the home is due to numerous utility service improvements [*i.e. utility poles, telephone connection box, fire hydrant, etc.*] located along the Sam Houston Street frontage. As a result, the applicant is requesting a waiver to the minimum front yard setback adjacent to Emma Jane Street, requesting to reduce this setback from 20-feet to ten (10) feet. The applicant is also request to reduce the rear yard setback from ten (10) feet to six (6) feet. This is being requested due to the lot depth of approximately 49-feet that results from re-orienting the lot off of Emma Jane. If the required front yard and rear yard setbacks were used, this would create an approximately 19-foot deep building envelop based on the re-orientation of the lot. With this being said, the applicant is requesting a reduction in the minimum lot depth to reduce it from 100-feet to 49-feet as depicted on the proposed site plan. Finally, the applicant is requesting to allow a flat front entry driveway. Currently, the UDC requires all garages accessible from the street be configured in a *J-Swing* (*Traditional Swing*) or recessed garage format (*i.e. the garage is setback a minimum of 20-feet from the front façade of the primary structure*).

The Southside Residential Overlay (SRO) District was created to provide flexibility necessary for the development of the Southside Neighborhood. According to Subsection 6.4, *Southside Residential Neighborhood Overlay (SRO) District,* of Section 6*, Overlay Districts,* of Article V, *District Development Standards*, of the Unified Development Code (UDC), residential properties

located within the Southside Residential Neighborhood Overlay (SRO) District are subject to the following development standards:

Ordinance Provisions	*Development Standards*	*Conformance to the Standards*
Minimum Lot Area	*5,000 SF*	*X= 7,772 SF; In Conformance*
Minimum Lot Frontage	*50-Feet*	*X~156-Feet; In Conformance*
Minimum Lot Depth	*100-Feet*	*X~49-Feet; Not In Conformance*
Minimum Front Yard Setback	*20-Feet*	*X=10-Feet; Not In Conformance*
Minimum Side Yard Setback [1]	*6-Feet*	*X=6-Feet; In Conformance*
Minimum Number of Off-Street Parking Spaces [2]	*2*	*X=0; Not In Conformance*

NOTES:
[1]: Side setback is 6-feet for internal lots and 20-feet when abutting a street.
[2]: Two (2) parking spaces are required for a single family dwelling unit. An enclosed garage shall not be considered in meeting the off-street parking requirements.

In addition, Section 6.4.D of Article V, *District Development Standards*, of the UDC grants the City Council the ability to grant, "…special requests in furtherance of neighborhood preservation and enhancement within the established neighborhood preservation overlay district [*i.e. Southside Residential Neighborhood Overlay (SRO) District*]." The approval of any such request shall preempt any underlying zoning restrictions stipulated by the UDC. The approvals of these requests are discretionary decisions for the Planning and Zoning Commission and City Council.

RECOMMENDATIONS:

If the Planning & Zoning Commission and City Council choose to approve the applicant's request staff would recommend the following conditions:

1) The property will need to be replatted prior to the issuance of building permits.

2) Any construction or building allowed by this request must conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

PLANNING AND ZONING COMMISSION:

On December 26, 2017, the Planning and Zoning Commission approved a motion to recommend approval of the applicant's request with the provision that the driveway be a minimum of 20-feet in length. The motion passed by a vote of 5-0, with Chairman Lyons and Commissioner Fishman absent. The applicant has agreed to make the driveway a minimum of 20-feet in length and as a result staff has withdrawn the request to reduce the driveway to ten (10) feet.

COGENT

December 15, 2017

Mr. Ryan Miller
Director of Planning and Zoning
City of Rockwall Planning & Zoning Department
385 S. Goliad Street
Rockwall, Texas 75032

Re: Lot 53 Emma Jane Street (Northwest corner of Sam Houston and Emma Jane)
Rockwall, Texas 75032

Dear Mr. Miller:

We are requesting consideration of special request in furtherance of neighborhood preservation. The property of concern is situated at the northwest corner of Sam Houston and Emma Jane Streets and per the Rockwall Central Appraisal District consists of one parcel measuring 49.6 feet along Sam Houston Street by 159 feet along Emma Jane Street. Our desire is to develop the site with a single family detached residential dwelling unit with the front oriented toward Emma Jane Street.

As you will note in the attached photos, numerous utility service improvements including two wood utility poles with overhead lines, metal telephone connection box and fire hydrant exist along the parcel's Sam Houston Street frontage. We feel as though the aesthetics of any home built upon the subject parcel would be greatly enhanced if the front is oriented toward Emma Jane Street and away the unsightly utility improvements that line the site's frontage along Sam Houston Street.

In order to facilitate development of a house oriented toward Emma Jane Street, we are requesting various waivers to the requirements stipulated for property situated in the Southside Residential Neighborhood Overlay (SRO) District. Specifically, we are requesting special exceptions to the minimum lot depth requirement from 100 feet to 49.6 feet, waiver of the dual front yard setback requirement for the Emma Jane frontage from 20 feet to 10 feet and rear yard setback requirement from 10 feet to 6 feet. Furthermore, we are seeking approval to construct the house with a front entry garage that faces the street (as is typical of other existing and under construction houses in the immediate area). It is specifically noted that if the site was free of unsightly utility improvements and there were no impediments in orienting the house toward Sam Houston Street, we would not be seeking approval for most of the requested special exceptions noted above.

Attached please find photographs of the subject site, proposed site plan with requested setbacks and foot print of an approximate 1,800 square foot house oriented toward Emma Jane Street and sample front elevation for a home that could be built upon the subject site.

CITY OF ROCKWALL
CITY COUNCIL MEMO

AGENDA DATE: 01/02/2018

APPLICANT: Peter Muhl; *Rockwall Habitat for Humanity*

AGENDA ITEM: **MIS2017-018***; Special Request for 801 Lamar Street*

SUMMARY:

Discuss and consider a request by Peter Muhl of Rockwall Habitat for Humanity for the approval of waivers to the requirements stipulated for the Southside Residential Neighborhood Overlay (SRO) District to allow the construction of two (2) single-family homes on a 0.22-acre parcel of land identified as Lot I, Block 112, B. F. Boydston Addition, City of Rockwall, Rockwall County, Texas, zoned Single Family 7 (SF-7) District, situated within the Southside Residential Neighborhood Overlay (SRO) District, addressed as 801 Lamar Street, and take any action necessary.

CHARACTERISTICS OF REQUEST:

The applicant has submitted a special request for the approval of a deviation from the minimum lot size and minimum lot depth for a property in the Southside Residential Neighborhood Overlay (SRO) District as stipulated by the Unified Development Code (UDC). The purpose of this request is to allow for the subject property to be subdivided for the construction of a single-family home on Lot 2. The subject property has an existing single-family home situated on it. The applicant has submitted a replat [*P2017-067*] to subdivide one (1) lot into two (2) lots for the construction of a second single-family home on Lot 2. The applicant is requesting a special exception to the minimum lot size to allow a reduction from 5,000 SF to 4,435 SF on Lot 2; Lot 1 conforms to the requirements stipulated in the Unified Development Code (UDC). Additionally, the applicant is requesting a special exception to the minimum lot depth to reduce it from 100-feet to 75-feet for Lots 1 and 2. Staff should note that the proposed single-family home is allowed by right in a Single-Family 7 (SF-7) District.

The Southside Residential Overlay (SRO) District was created to provide the flexibility necessary for infill and redevelopment within the Southside Neighborhood. According to Subsection 6.4, *Southside Residential Neighborhood Overlay (SRO) District,* of Section 6*, Overlay Districts,* of Article V, *District Development Standards*, of the Unified Development Code (UDC), residential properties located within the Southside Residential Neighborhood Overlay (SRO) District are subject to the following development standards:

		Conformance to the Standards	
Ordinance Provisions	*Zoning District Standards*	*Lot 1*	*Lot 2*
Minimum Lot Area	*5,000 SF*	*X~5,312 SF; In Conformance*	*X~4,435 SF; Not In Conformance*
Minimum Lot Frontage	*50-Feet*	*X~130-Feet; In Conformance*	*X~58-Feet; In Conformance*
Minimum Lot Depth	*100-Feet*	*X~75-Feet; Not In Conformance*	*X~75-Feet; Not In Conformance*
Minimum Front Yard Setback	*20-Feet*	*X=20-Feet; In Conformance*	*X=20-Feet; In Conformance*
Minimum Rear Yard Setback	*10-Feet*	*X=10-Feet; In Conformance*	*X=10-Feet; In Conformance*
Minimum Side Yard Setback	*6-Feet*	*X=6-Feet; In Conformance*	*X=6-Feet; In Conformance*

In addition, Section 6.4.D of Article V, *District Development Standards*, of the UDC allows the City Council the ability to grant, "…special requests in furtherance of neighborhood preservation and enhancement within the established neighborhood preservation overlay district [*i.e.*

Southside Residential Neighborhood Overlay (SRO) District]." The approval of any such request shall preempt any underlying zoning restrictions stipulated by the UDC. The approval of these requests are discretionary decisions for the Planning and Zoning Commission and City Council.

RECOMMENDATIONS:

Should the City Council choose to approve the applicant's request staff would recommend the following conditions:

1) Prior to developing Lot 2, Lamar Street will need to be extended [*i.e. 20-foot reinforced concrete access*] to the south property line of Lot 2 in order to provide access.

2) Any construction or building allowed by this request must conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

PLANNING AND ZONING COMMISSION:

On December 26, 2017, the Planning and Zoning Commission's motion to recommend approval of the waivers of the requirements stipulated for the Southside Residential Neighborhood Overlay (SRO) District with staff recommendations passed by a vote of 5-0 with Commissioners Lyons and Fishman absent.

WHEREAS ROCKWALL HABITAT FOR HUMANITY, TEXAS, is the owner of a 0.22–acre tract of land situated within the City of Rockwall, in the N. M. Ballard Survey, Abstract No. 48, Rockwall County, Texas, and being all of the called 0.22–acre tract of land described in the Cash Warranty Deed executed on the 25th day of August, 2009, from Mary Madgelene Price, Individually and as Independent Executrix of the Estate of Ronnie Fulton Price Deceased, and accepted by Rockwall Habitat for Humanity, and filed under County Clerk File Number 20090000421452, in the County of Rockwall, Texas, and being more particularly described as follows:

BEGINNING at an "X" found chiseled in concrete on the easterly line of Lamar Street (20–foot right–of–way) dedicated in the Sanger Bros' Addition and recorded in Cabinet Q, at Page 100 of the Deed Records of Rockwall County, Texas, at the northwest corner of said Rockwall Habitat of Humanity Tract and at the southwest corner of a 0.14–acre tract land as described in a General Warranty Deed from Paul Ray Dabney to Rockwall Habitat for Humanity, dated August 15, 2008 and being recorded in County Clerk File Number 20080000403715, in the County of Rockwall, Texas, said "X" having coordinates of:
X= 2,595,528.24
Y= 7,024,839.66;

THENCE N 88°58'25"W with the common line between the said 0.14–acre tract and the said 0.22–acre tract a distance of 75.00 feet to a 1/2–inch steel rod with yellow cap stamped "RPLS 5034" found marking the northeast corner of said 0.22–acre tract;

THENCE S 00°19'02"E a distance of 130.00 feet to a 1/2–inch steel rod with yellow cap stamped "RPLS 5034" found marking the southeast corner of said 0.22–acre tract;

THENCE N 88°58'25"W a distance of 75.00 feet to a 1/2–inch steel rod with yellow cap stamped "RPLS 5034" found on the easterly right–of–way line of aforementioned Lamar Street;

THENCE N 00°19'02"W with the the said easterly right–of–way line of said Lamar Street for a distance of 130.00 feet to the PLACE OF BEGINNING and containing 0.22 acres of land.

STATE OF TEXAS §
§
COUNTY OF ROCKWALL §

NOW THEREFORE, KNOW ALL BY THESE PRESENTS:

I the undersigned owner of the land shown on this plat, and designated herein as the LAMAR STREET HABITAT No. 1 subdivision to the City of Rockwall, Texas, and whose name is subscribed hereto, hereby dedicate to the use of the public forever all streets, alleys, parks, watercourses, drains, easements and public places thereon shown on the purpose and consideration therein expressed. I further certify that all other parties who have mortgage or lien interest in the LAMAR STREET HABITAT No. 1 subdivision have been notified and signed this plat.

I understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accomidation of all utilities desiring to use or using same. I also understand the following;

1. No buildings shall be constructed or paced upon, over, or across the utility easements as described herein.

2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of their respective systems on any of these easement strips; and any public utility shall at all times have the right of ingress and egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maintaining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.

3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.

4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.

5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.

6. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Rockwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, storm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall; or

Until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer and/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as progress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or

Until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

I further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the Subdivision upon the public services required in order that the development will comport with the present and future growth needs of the City; I,my successors and assigns hereby waive any claim, damage, or cause of action that I may have as a result of the dedication of exactions made herein.

The New Horizon

MEMORANDUM

TO: **Honorable Mayor and City Council Members**

FROM: **Kristy Cole, City Secretary / Assistant to the City Manager**

DATE: **January 2, 2018**

SUBJECT: **Designating newspaper of record**

The Council has voted in past years to continue designating the Royse City / Rockwall Herald Banner as the city's newspaper of record. This particular newspaper and the Dallas Morning News are believed to be the only newspapers in our area that meet the state law requirements for a "newspaper of record" designation. As a reminder:

According to Article XI., Sec. 11.02 of the city charter,

> *The City Council must designate annually a newspaper of general circulation in the City to serve as newspaper of record. All ordinances, notices and other matters required by this Charter, City ordinance, or the Constitution and laws of the State of Texas must be published in the newspaper of record.*

According to Section 2051.049 of the Texas Government Code;

> *The governmental entity or representative required to publish a notice in a newspaper shall select, in accordance with this subchapter, one or more newspapers to publish the notice.*

According to Section 2051.044 of the Texas Government Code

> *The newspaper in which a notice is published must:(1) devote not less than 25 percent of its total column lineage to general interest items;(2) be published at least once each week;(3) be entered as second-class postal matter in the county where published; and(4) have been published regularly and continuously for at least 12 months before the governmental entity or representative publishes notice.*

While state law outlines the requirements for an official newspaper, and the city's Charter calls for designation of a newspaper of record annually, there is no legal method or process in place that stipulates how the city will select the official newspaper. The Council's options for designating a newspaper of record are as follows:

- rename the Royse City/Rockwall Herald Banner as the official newspaper of record via a motion and simple majority vote of the Council; or,
- instruct staff to initiate a "request for proposals" process, compile the results, and present them to Council for consideration at an upcoming Council meeting.

It is noteworthy that, overall, staff has been satisfied with the Herald Banner since we began doing business with them in 2014, and the publisher has informed me that no rate increase is anticipated for 2018. Staff, as well as the city attorney will be available to any questions the Council may have concerning this matter.

AGENDA
ROCKWALL CITY COUNCIL
SPECIAL CITY COUNCIL MEETING
Monday, January 22, 2018, 5:00 PM
City Hall - 385 S. Goliad, Rockwall, Texas 75087

I. CALL PUBLIC MEETING TO ORDER

II. WORK SESSION

1. Hold a work session to consider potential capital improvement projects associated with future bond election.

III. ADJOURNMENT

This facility is wheelchair accessible and accessible parking spaces are available. Request for accommodations or interpretive services must be made 48 hours prior to this meeting. Please contact the City Secretary's Office at (972) 771-7700 or FAX (972) 771-7727 for further information

The City of Rockwall City Council reserves the right to adjourn into executive session at any time to discuss any of the matters listed on the agenda above, as authorized by Texas Government Code § 551.071 (Consultation with Attorney) § 551.072 (Deliberations about Real Property) § 551.074 (Personnel Matters) and § 551.086 (Economic Development)

I, Kristy Cole, City Secretary for the City of Rockwall, Texas, do hereby certify that this Agenda was posted at City Hall, in a place readily accessible to the general public at all times, on the 19th day of January, 2018 at 4:00 p.m. and remained so posted for at least 72 continuous hours preceding the scheduled time of said meeting.

MEMORANDUM

TO: **Rick Crowley, City Manager**

FROM: **Mary Smith, Assistant City Manager**

DATE: **January 19, 2018**

SUBJECT: **2018 CIP Planning Worksession**

Staff has prepared information regarding each of the various aspects of a potential May bond election. During the worksession scheduled for January 22nd we anticipate covering the following:

Questions to be answered:

1. What projects do we anticipate including in a May election?
    a. Streets and Associated Drainage
    b. Drainage Improvements (standalone drainage projects)
    c. Parks to include Neighborhood Parks and/or Lakeside Parks and/or Baseball Improvements
    d. Airport Improvements

2. At what level of funding for each category? Also, what period of time do we anticipate completing the projects? (This decision will impact the tax rate implications as well as both "hard" and "soft" project costs.) We will review the tax rate implications of the various scenarios.

3. What level of specificity for ballot language – broad general terms or named projects? Or some combination of specific and general.

4. Citizen Involvement level between now and the election date?

5. Art in Public Places funding – should it be continued with this bond program?

We will review the timeline for the final vote calling the bond election and whether it will be held at the regularly scheduled February 5th meeting or require a special meeting prior to the final deadline of February 16th. We will also review the state law regarding the 3-year exclusion of funding for activities which do not receive a favorable vote during an election.

CITY OF ROCKWALL, TEXAS
MEMORANDUM

TO: **Brad Griggs, Assistant City Manager**

FROM: **Andy Hesser, Parks and Recreation Director**

DATE: **January 19, 2018**

SUBJECT: **ATHLETIC FIELD OPTIONS PRESENTATION**

At recent council meetings, Park Board Chairman Bassett has briefed the Council on a Park Board recommendation to include two park projects on the upcoming bond election. The projects discussed were to complete neighborhood park build-out for a total of $1,750,000 and to develop the southern portion of the Lakeside Park in the amount of $8,250,000.

The attached presentation was given at the Jan. 16 council meeting in an attempt to address some questions previously posed by Council, specifically regarding athletic field needs. To summarize, previous questions asked were about current RBSL program participation and revenue, field capacity, tournaments, grass infields, renovation options for existing facilities and explore possible costs of future construction of athletic fields.

Staff will be available to answer any questions regarding the presentation and other proposed projects at the Jan. 22 work session.

2017 RBSL Operations

$178,036 – League revenue

+ $32,276 - Tournament/clinic revenue

$210,312 – Gross revenue

- $130,301 - Expenses

$80,011 – Net revenue

5

2017 League Registration

- 1921 total participants for spring, summer & fall seasons
- 40% residents
- 60% non-residents
- $41,320 collected in non-resident fee (dollars above the resident discount fee)

6

Additional Revenue

- $15,659 concession stand revenue
- $12,000 Lake Pointe Sports field rental contract
  - LPC is allowed to use 3 fields at Yellowjacket and 2 fields at Myers Park, after the RBSL team needs are fulfilled.
  - Contract expires at the end of 2018 season.

7

Tournament Summary

- 2 City tournaments hosted 48 teams
- 2 Scheduled tournaments were rained out
- 4 Regional partnership tournaments hosted 166 teams

✓ 2018 is scheduled to host 5 City operated tournaments

City of Grapevine Case Study

- **National Service Research (NSR)** completed a comprehensive research study for the City of Grapevine, Texas to measure the economic impact of a baseball tournament at Oak Grove Park that comprised 82 teams from across the Southwest part of the United States July 5-9, 2010. The survey provided primary information in which to conduct the economic impact study. The study focused on:
- Expenditure impacts such as food, retail, transportation and entertainment. The survey collected information on the average daily per person expenditure for each category and 2% of these expenditures are returned to the City of Grapevine and represents direct benefits to the City. Transportation impacts such as rental cars and fuel do not provide sales tax return to the City of Grapevine and therefore were excluded from those calculations.
- Hotel expenditures - 6% of these expenditures are returned to the City which directly benefits the City of Grapevine.
- In order to complete this study effort, National Service Research worked with Grapevine park staff on the survey document. NSR sent trained interviewers to Oak Grove Park on July 7. Interviewers queried 300 attendees who live outside of Grapevine at the baseball tournament between the hours of 9am to 9pm. The margin of error of the 300 sample size at a 95% confidence level is plus or minus 5.8%.

10

Summary of Key Findings

- Total Attendance - 14,000 (2,000 daily)
- 97% of tournament visitors were from outside of Grapevine
- Day visitors came to the tournament for an average of 5.1 days

- 16.7% stayed in a hotel in Grapevine
- Overnight visitors stayed an average of 5.6 nights and 6.3 days
- Average number of Grapevine hotel rooms per traveling party per night 1.7
- Average daily hotel room expenditure in Grapevine was $85.72/night

- Average food/drink expenditures per person per day $34.23
- Average retail expenditures per person per day $21.91
- Average entertainment/recreation expenditures per person per day $14.95
- Total expenditures per person per day $71.09

- DIRECT IMPACTS:
  - Sales tax returned to the City of Grapevine: $ 14,080
  - Hotel tax returned to the City of Grapevine: $ 16,380
  - **TOTAL** $ **30,460**
- Economic Impact of daily expenditures ($704,000 x 3): $ 2,100,000
- Economic Impact of Grapevine hotel expenditures ($273,000 X 3): $ 819,000
- **Total economic impact** **$ 2,919,000**

Source: National Service Research , Baseball Tournament Personal Interviews. July 2010

Analysis of Existing Facilities

- Tuttle Athletic Complex
  - 14 acres of irrigated multi-purpose fields
  - 6 lighted fields
  - 2 unlighted fields
- Yellowjacket Fields
  - 3 fields irrigated and unlighted
- Myers Park Fields
  - 2 fields unirrigated and unlighted

12

Analysis of Existing Facilities

Estimated team capacity: determined by maximum number of teams that can play at any given facility. Typical spring season attendance is about 85 to 95 teams

- Assumes current field conditions; each team gets one weekly practice; depends on age group distribution.
  - Tuttle: 120 teams
  - Myers: practice only at this time
  - Yellowjacket: 30 teams

13

Analysis of Existing Facilities

- **Estimated total capacity if lights are added:**
  - Tuttle: 140 teams by lighting fields 7 & 8
  - Myers: 30 teams by lighting fields 1 & 2
  - Yellowjacket: 50 teams by lighting fields 1, 2 & 3
- **Approximately 30% increase in field capacity**
- Fields are multi-purpose in order to accommodate a wide range of age groups. Each field has multiple base anchor distances, pitching mound locations and temporary fencing as illustrated by the *following slide*.

15

Options to Accommodate Future Growth Needs

- Tuttle
  - $310,000 to light fields 7 & 8
- Myers
  - $367,000 to light fields 1 & 2
  - $380,000 to renovate both fields to game quality
  - $54,200 to install new fence on renovated fields
  - $38,540 to irrigate both fields
  - $839,740 Total renovation cost for game/tournament quality
- Yellowjacket
  - $480,000 to add lighting to 3 fields
  - $100,000 to add parking lot on east side

16

Options to Accommodate Future Growth Needs

- Continued:
  - Estimate to add grass infields to existing fields:
    - $50,000 to $100,000 per infield depending on size
    - One additional full time staff to absorb additional maintenance of grass edges, irrigation and increased time for infield grooming.
    - Could potentially reduce over all capacity due to fewer age groups that can be accommodated in a given week.

17

Options to Accommodate Future Growth Needs

In the event that it is determined that a new athletic complex is the preferred direction, staff reviewed construction estimates for a $15 million athletic complex in Mt. Pleasant Texas. The project was designed and estimated by MHS Planning and Design in 2016.

It is on 142 acres and includes the potential for 10 baseball fields, 12 soccer fields, some trail and other amenities.

The cost estimates do NOT include land acquisition and the water and sewer utilities are City installed.

The project is designed to be very budget friendly with minimal features. However, some items may not conform to Rockwall design/building standards such as paving and utilities.

City of Rockwall
The New Horizon

MEMORANDUM

TO: **Rockwall City Council**

FROM: **Joey Boyd, Director of Internal Operations**

DATE: **January 19, 2018**

SUBJECT: **Airport Development Plan CIP Cost Estimates**

The Airport Advisory Board discussed and approved a resolution on Monday, January 23, 2017 recommending that the City Council consider adding the local matching funds necessary to make the improvements identified in the Airport Development Plan to the next City CIP bond election. The City Council formally accepted the resolution on February 20, 2017.

At the time that the Airport Development Plan study was completed in December 2012, cost estimates for the improvements identified in the plan totaled more than $16 million. Most of the improvements identified in the study are eligible for funding through either State or Federal grant programs at a 90/10 percent cost sharing, with 10% being the local match by the City.

Attached for review and reference are the resolution previously accepted by the City Council and Chapter 5: Phased Development and Capital Improvement Plan from the Airport Development Plan. The estimates are using 2013 construction costs.

In 2009, the City Council authorized $600,000 to purchase land adjacent to the airport for future expansion.

CHAPTER FIVE: PHASED DEVELOPMENT AND CAPITAL IMPROVEMENT PLAN

FUNDING SOURCES AND OPTIONS

Funding for general aviation airports is typically available from federal, state, and local sources. At the Ralph M. Hall Municipal Airport in Rockwall, Texas, a combination of funding sources, in addition to private financing, will be required during the short and long-term planning periods to implement the proposed airport development program. The Airport is recognized in the Federal Aviation Administration's (FAA) *National Plan of Integrated Airport Systems* (NPIAS) and is included in the most recent *Texas Airport System Plan Update (2010)* qualifying the airport for state and federal airport funding.

FEDERAL AVIATION ADMINISTRATION AIRPORT FUNDING PROGRAM

In Texas, federal airport entitlement, discretionary, and improvement program grants for general aviation and reliever airports are administered through the Texas Department of Transportation (TxDOT), Aviation Division as part of the FAA's State Block Grant Program. The *Airport Improvement Program* (AIP) provides federal planning and development grants to public-use airports included in the NPIAS. The Federal *Airport and Airways Trust Fund* is the source of all AIP funds. These funds are collected through aviation user-generated taxes (airline passenger tax, aircraft parts and fuel), and appropriated by Congress for eligible airport planning, design, construction, and improvement projects. The current system of federal airport funds is distributed by formula and discretion in accordance with provisions contained in the Airport and Airway Improvement Act of 1982, as amended. FAA Order 5100.38C, *AIP Handbook*, provides guidance and describes polices and administrative procedures for funding AIP projects.

The funding mechanism for the AIP requires authorization from Congress. On February 14, 2012, a re-authorization bill was signed into law funding the FAA and its programs annually through 2015 at the sum of $3.35 Billion per year. This new bill provides the capability for airports to initiate long-term planning and ends the five year battle of 23 short-term extensions since September 2007. Under AIP, the national priority system is used to distribute state-apportionment improvement funds in accordance with FAA provisions (population and land size).

As a Block Grant State since 1996, the TxDOT, Aviation Division channels the distribution of AIP funding to general aviation and reliever airports within Texas in accordance with the degree of need. TxDOT also assumes administrative responsibilities related to the distribution of AIP funds, with letters of interest, grant assurances, planning reviews, and other regulatory requirements relating to airport projects conducted under state control. The AIP funds for eligible airport development projects are funded at 90 percent federal and 10 percent local. Approximately $19.3 million was appropriated in 2011 through AIP funding and an additional $10.5 million through discretionary means for airport improvements in the State of Texas.

As a part of the *Wendell H. Ford Aviation Investment and Reform Act for the 21st Century* (AIR 21), general aviation airports listed in the NPIAS are authorized to receive non-primary airport entitlement (NPE) funds. Because Rockwall's airport is listed in the 2013-2017 NPIAS, the airport qualifies for this funding source. The airport could receive NPE funds equal to one fifth of the five-year cost estimate for airport improvements as listed in the NPIAS, to a maximum of $150,000 per year. Approximately $26.4 Million was appropriated to various airports across the state in 2011. These funds typically have a life span of 3 to 4 years and can be banked and rolled over from year to year in order to achieve large project funding without large outlays on behalf of the local airport sponsor.

FAA FACILITIES AND EQUIPMENT (F & E) FUNDING PROGRAM

Within the FAA's Airways Facilities Division, money is available through the Facilities and Equipment Fund (F&E) to purchase and/or install navigational aids (NAVAIDs), visual approach aids, approach lighting systems, and other air safety related technical equipment, which includes Air Traffic Control Towers (ATCT). Each F&E development project is evaluated independently through a cost/benefit analysis to determine funding eligibility and priority ranking.

STATE OF TEXAS FUNDING AND PROGRAMMING

In addition to the FAA's AIP, TxDOT also administers state funded programs for airport planning, maintenance, and construction projects. The funding is derived from a portion of the motor vehicle title and registration fees as part of the State Highway Fund (Fund #6). Each fiscal year's airport program funding level is appropriated by the state's general appropriations bill as part of the TxDOT budget. The most recent Texas AIP was funded at approximately $15.6 million. The state-local cost sharing for most projects under this program is set at 90 percent state and 10 percent local. Revenue generating projects like fuel facilities and other projects like weather stations can be funded at a 75 percent state and 25 percent local. Other projects like terminal buildings, routine maintenance projects, and small capital improvement program items can be funded under a 50-50 funding basis.

TxDOT provides airport maintenance grant assistance under the Routine Airport Maintenance Program (RAMP), intended to match local funds on a 50 percent basis for "lower-cost" airfield and terminal area improvement projects. Airfield items (runway crack seal, patching, herbicide, etc.) tend to carry a higher priority than terminal area items (entrance road paving, fencing, lighting, etc.), with determination of eligibility of specific items made by TxDOT. The State of Texas will match up to $50,000 for a total of $100,000 annually per airport, with the local sponsor responsible for costs in excess of this annual amount. Under RAMP, local governments are permitted to issue their own contracts for the scope of services by means of a standard one-page application form submitted to TxDOT. If the TxDOT District Office (Dallas) is unable to assist in the requested service, the local government may be approved to contract-out for services; however, the local contract will require TxDOT approval for scope and cost. In-kind force accounts are not acceptable for matching funds on RAMP projects. TxDOT typically issues multiple RAMP contracts for goods and services in combination with similar projects at other nearby airports.

In addition to RAMP, other grant programs and their eligibility requirements offered by Texas include:

- **Automated Weather Observation System (AWOS)**
  - 75/25 cost share (estimated cost $140,000)
  - Letter of interest

- **Terminal Building Program**
  - Airport property publicly owned or leased by public entity for at least 20 years
  - Airport must have airport manager or designated person on site on regular basis
  - Airport must have aviation fuel available for sale to flying public
  - 50/50 cost share for design and construction up to $1,000,000
  - 50/50 cost share for vehicle parking and entrance road up to $100,000
  - 90/10 cost share for aircraft parking apron in addition to the building grant amount
  - Letter of interest

- **Hangar Program**
  - 90/10 cost share
  - NPE only/state funding secondary if NPE is exhausted (case by case basis)
  - Capped at $600,000 for structures only, no cap for pavement
  - Airside needs must be met
  - Justification for additional hangar space required
  - Approved ALP designating location
  - Hangar lease and rate schedule in place
  - Adoption of Airport Minimum Standards if not already in place

- Letter of interest

✈ **Fuel Facility Development**

- 75/25 cost share (NPE funding only)
- Installation of new systems owned and controlled by airport sponsor only (above ground storage tank, dispensing system, and card reader for self-serve 100LL)
- Airside needs must be met
- Approved ALP designating location
- Adoption of Airport Minimum Standards if not already in place
- Evidence of compliance with environmental regulations, which includes a Storm Water Pollution Prevention Plan and Spill Prevention Control and Countermeasure Plan. Both plans eligible for RAMP grants
- Letter of interest

LOCAL AIRPORT FUNDING

The local funding requirement for eligible federal or state-funded capital improvement projects normally totals 10 percent of the project development cost. However, as seen above, some airport projects still require a 25 to 50 percent match of the project specific development cost. AIP funding for general aviation airport improvements, even with the multiple federal and state programs, will place greater emphasis on the need for routine pavement maintenance and a continued financial commitment from the local airport sponsor in the future.

PRIVATE (THIRD PARTY) AIRPORT FINANCING

Rockwall's airport has received little or no private-sector money to facilitate airfield development. General aviation airports serving both business and personal aircraft often rely heavily on private sector financing for non-eligible improvement projects. These types of projects, which serve an individual need, have a business-related public benefit, or are beyond the financial resources of the airport sponsor or TxDOT. Private financing can range from a single monetary up-front payment for new hangar development to total financing of new airport structures, property, and facilities to routine maintenance.

Bank loans are considered short-term financing and are typically used at general aviation airports for hangar development and less capital-intensive terminal area improvements. Build-and-lease-back agreements can be used for hangar development either as a pledge to support bond issues or against mortgages on facilities constructed for a particular tenant. Ground-lease rates are nominal to reflect outstanding debt risk to the investor. The major disadvantages to ground leases are higher interest rates, and the non-assignable or restricted leasehold, which remains conditionally unsecured by the financing institution.

PHASED DEVELOPMENT AND PROJECT COST ESTIMATES

PHASED DEVELOPMENT PLAN

The phased development plan is the formulation of an orderly series of improvements intended to yield a safe, efficient, and attractive public facility in a timely and economical manner. A list of capital improvement projects has been assembled from the facility requirements and is based on the preferred airport development alternative selected by the City and an airport committee comprised of City Council members and Rockwall Economic Development Corporation (REDC) board members. This project list, along with the Capital Improvement Program (CIP), upon acceptance by the airport sponsor and TxDOT can be continuously updated by the sponsor and TxDOT.

The following guidelines have been employed in formulating the Phased Development Plan and CIP for Ralph M. Hall Municipal Airport:

- Overall, the development plan has been structured to provide flexibility to meet short and long-range goals. Therefore, individual projects should not be considered as a single improvement but as part of a series of projects that arrive at the ultimate development concept

- The development plan does not represent an obligation of local funds, nor does it require a funding commitment without justification of demand levels by the City of Rockwall, the REDC, TxDOT, or the FAA

- The expressed desire, intent, and ability of the City to achieve airport land use compatibility, coupled with favorable community and business support of the airport, remains an important funding consideration.

Each project is associated with a priority and phase separated by year. This CIP and Phased Development Plan described below and depicted in **Table 5-1** through 5**-3** and on **Figure 5-1** encompass three development and funding phases: Phase I (0-5 years), Phase II (6-10 years), and Phase III (11-20 years).

PHASE I INCLUDES THE FOLLOWING PROJECTS:

- Airfield Improvements
  - A4: Design and construct 25 foot wide partial parallel taxiway offset 225 feet from runway centerline
  - A9: Design and reconstruct Runway 17/35 removing line-of-sight issue, widening to 60 feet, and runway safety area improvement on north end

- A10: Airfield electrical improvements – new electrical vault, runway lights, airport rotating beacon, lighted windsock and new segmented circle

✈ Landside Improvements
- A1: Property acquisition – 19 acres for terminal redevelopment
- A2: Design and construct replacement shade "T" type hangars and associated taxilanes on airport's east side
- A3: Remove existing hangars and terminal building on Airport's east side
- A5: Design and construction new aircraft parking apron
- A6: Remove and replace AvGAS fuel storage and delivery system
- A7: Design and construct new entrance road, auto parking, and security fencing
- A8: Design and construct new terminal building
- A11: Design and construct new 100' x 100' common/box hangar
- A12: Design and construct new 10 unit nested T-hangar
- A13: Design and construct new 10 unit nested T-hangar
- A14: Design and construct new 80' x 80' common/box hangar

PHASE II INCLUDES THE FOLLOWING PROJECTS:

✈ Airfield Improvements
- B1: Install visual approach lighting aids (PAPIs and REILs) to both ends of Runway 17/35
- B4: Relocate AWOS
- B5: Design and construction parallel taxiway extension north to Runway 17 end
- B6: Design and install medium intensity taxiway lights (MITL) along taxiway extension

✈ Landside Improvements
- B2: Design and construct apron expansion
- B3: Design and construct new 80' x 80' common/box hangar

PHASE III INCLUDES THE FOLLOWING PROJECTS:

- Landside Improvements
  - C1 and C2: Design and construct 60' x 60' common/box hangars and associated taxilane and ramp areas
  - C3: Design and construct 60'x 40' common/box hangars and associated taxilane and ramp areas
  - C4: Design and construct 80' x 40' common/box hangar and associated taxilane and ramp area

PROJECT COST ESTIMATES

Opinions of probable costs for individual projects are based on unconstrained funding and have been prepared for improvements identified to meet facility requirements. Since these probable costs are based on current year dollars, they are intended for planning purposes only and should not be used or construed as construction cost estimates. Formalized opinions of probable costs will be developed as part of each project's scoping process during the design and engineering. It is important to note that market demand, not occurrence within a specific time frame, will drive facility need. Additionally, the project list is flexible and evolving. For example, if a project is slated for year three of the Phasing Plan, this does not mean it needs to occur during this time. Project importance changes over time which may allow certain items to move up or down in the priority order.

TABLE 5-1
PHASE I (0-5 YEARS) DEVELOPMENT COSTS
RALPH M. HALL MUNICIPAL AIRPORT

	Project Type	Local Funding	State/Federal Funding	Total Cost	TXDOT Program Source
A1	Acquire Land Adjacent to and East of the Airport (approx. 19 acres)	$179,000	$1,611,000	$1,790,000	AIP
A2	Construct two New 10-unit Shade T-Hangars (northern units) and Associated Taxilane	$114,000	$1,026,000	$1,140,000	AIP/Hangar Program
A3	Remove existing hangars and structures on east-side of airport	$20,000	$180,000	$200,000	AIP/Hangar Program
A4	Construct 25' Parallel Taxiway 225' from Runway Centerline with airport signs and centerline striping (From the AWOS to the Runway 35 End)	$75,000	$675,000	$750,000	AIP
A5	Construct new Terminal Area Apron (400' x 200')	$76,000	$684,000	$760,000	AIP
A6	Remove and Replace underground AvGAS Fuel Storage Tank with Above Ground 12,000 Gallon Tank and 24-Hour Credit System	$87,500	$262,500	$350,000	AIP/Fuel Program
A7	Construct New Airport Entrance Road, Auto Parking, and Security Fence	$48,000	$432,000	$480,000	AIP
A8	Construct new Terminal Building (approx. 3,000 ft^2)	$225,000	$225,000	$450,000	Terminal Program
A9	Reconstruct, Widen, and Re-stripe Runway 17/35. (Width will increase 15' and Reconstruction will correct Line of Sight Deficiency)	$204,000	$1,836,000	$2,040,000	AIP
A10	Install LED MIRL on Reconstructed Runway and Upgrade Electrical Vault, Rotating Beacon, and Lighted Windsock and Segmented Circle	$94,000	$846,000	$940,000	AIP
A11	Construct 100' x 100' Box Hangar	$75,000	$675,000	$750,000	AIP/Hangar Program
A12	Construct New 10-unit Nested T-Hangar with Bi-Fold Doors (southern unit) and Associated Taxilane	$66,000	$594,000	$660,000	AIP/Hangar Program
A13	Construct New 10-unit Nested T-Hangar with Bi-Fold Doors (center unit) and Associated Taxilane	$70,000	$630,000	$700,000	AIP/Hangar Program
A14	Construct 80' x 80' Box Hangar and Associated Taxilane/Ramp	$37,500	$337,500	$375,000	Hangar Program
	PHASE I TOTAL	**$1,371,000**	**$10,014,000**	**$11,385,000**	

TABLE 5-2
PHASE II (6-10 YEARS) DEVELOPMENT COSTS
RALPH M. HALL MUNICIPAL AIRPORT

	Project Type	Local Funding	State/Federal Funding	Total Cost	TXDOT Program Source
B1	Install PAPI-4 and REILs to serve each Runway End	$54,000	$486,000	$540,000	AIP
B2	Expand Apron North	$51,000	$459,000	$510,000	AIP
B3	Construct one 80 x 80 Box Hangar and Associated Taxilane/Ramp	$91,000	$819,000	$910,000	Hangar Program
B4	Relocate AWOS	$10,000	$30,000	$40,000	AWOS
B5	Extend parallel taxiway north to Runway 17 end	$45,000	$405,000	$450,000	AIP
B6	Install medium intensity taxiway lights (MITL) along full length of parallel taxiway	$20,000	$180,000	$200,000	AIP
	PHASE II TOTAL	**$291,000**	**$2,559,000**	**$2,850,000**	

TABLE 5-3
PHASE III (11-20 YEARS) DEVELOPMENT COSTS
RALPH M. HALL MUNICIPAL AIRPORT

	Project Type	Local Funding	State/Federal Funding	Total Cost	TXDOT Program Source
C1	Construct three 60’ x 60’ Box Hangars and Associated Taxilane/Ramp	$150,000	$550,000	$700,000	Hangar Program
C2	Construct two 60’ x 40’ Box Hangars and Associated Taxilane/Ramp	$90,000	$420,000	$510,000	Hangar Program
C3	Construct one 60 x 40 Box Hangar and Associated Taxilane/Ramp	$50,000	$210,000	$260,000	Hangar Program
C4	Construct one 80 x 40 Box Hangar and Associated Taxilane/Ramp	$70,000	$315,000	$385,000	Hangar Program
	PHASE III TOTAL	**$360,000**	**$1,495,000**	**$1,855,000**	
	TOTAL	**$2,022,000**	**$14,068,000**	**$16,090,000**	

Source: Costs reflect current 2013 dollars and should be used for planning purposes only. Engineering/design and construction costs are inclusive.

* If airport owned, hangars are funded at a 90%/10% cost share through NPE up to $600,000. The Airport Sponsor is responsible for 100% of the remaining balance. If privately owned, 100% of the cost is private or third party funding.

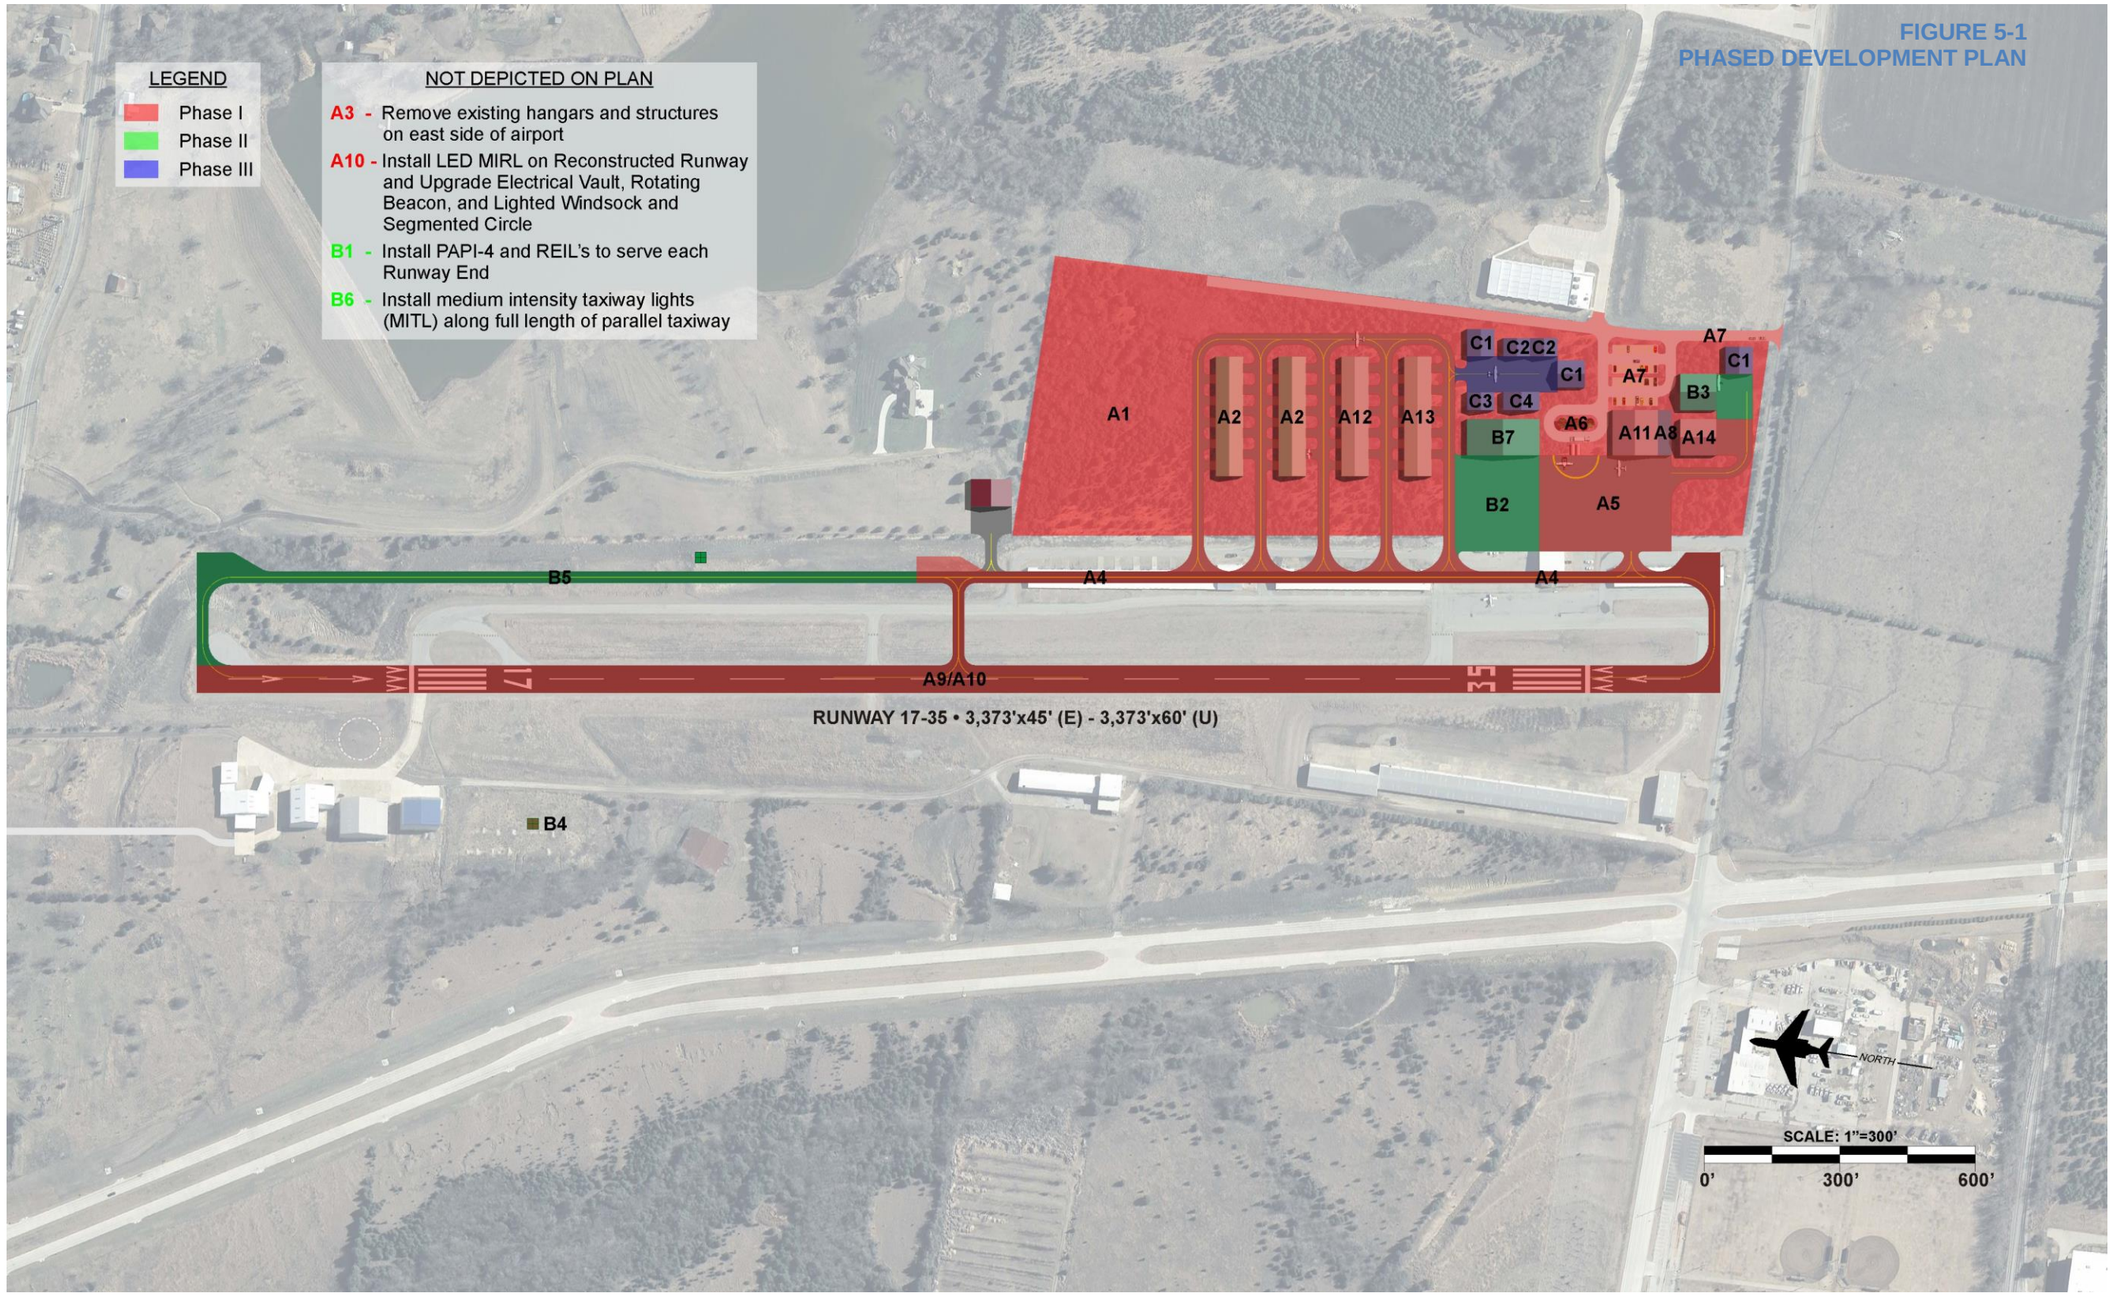
Other likely future projects for the airport over the course of the long-term development include:

TABLE 5-4
LONG-TERM PROJECTS
ROCKWALL MUNICIPAL AIRPORT

Project Type	TXDOT Grant Program
Rehabilitate Runway 17/35 (3,373' x 60')	AIP
Rehabilitate Parallel Taxiway and Connectors (3,373' x 25')	AIP
Rehabilitate Terminal Apron (600' x 200')	AIP
Rehabilitate Airport Entrance Road	AIP
Rehabilitate or Upgrade Airport Beacon	AIP
Install Above-ground Jet-A fuel Tank (12,000 gallons, as demand warrants)	Fuel Program
Install fencing and controlled access gates around new terminal areas east and west	AIP
Institute Airport Minimum Standards and Rules and Regulations.	AIP
Update Airport Master Plan	AIP
Update Height Hazard Zoning Map and associated ordinance to coincide with runway changes	AIP

To supplement the information provided by the project list and project development cost estimates, a Phasing Plan graphic has been prepared. This graphic, represented in **Figure 5-1**, indicates the suggested phasing for improvements for both short-term and long-term projects throughout the next 10-years. It is set up as a color coded system to easily identify projects as they are listed and itemized in **Tables 5-1, 5-2,** and **5-3**.

FIGURE 5-1
PHASED DEVELOPMENT PLAN



CITY OF ROCKWALL, TEXAS
AIRPORT ADVISORY BOARD
RESOLUTION 17-01 AA

A RESOLUTION OF THE AIRPORT ADVISORY BOARD OF THE CITY OF ROCKWALL, TEXAS RECOMMENDING THAT CERTAIN AIRPORT IMPROVMENTS AT THE RALPH M. HALL / ROCKWALL MUNICIPAL AIRPORT BE INCORPORATED INTO THE CITY'S CAPITAL IMPROVEMENT PLAN AND THAT SAID IMPROVEMENTS BE CONSIDERED FOR INCLUSION ON A FUTURE BOND ELECTION; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, in 2016, the Rockwall City Council established an Airport Advisory Board to make recommendations regarding both short-term and long-term strategic planning for the airport; and

WHEREAS, the Airport Advisory Board believes the airport is important to local and regional businesses and provides a positive impact to economic development; and

WHEREAS, the City of Rockwall and the Rockwall Economic Development Corporation previously performed an Airport Development Plan study resulting in the need for new construction of the runway, taxiways, airport terminal, new hangars, and a fuel island to bring the airport up to current standards; and

WHEREAS, the Rockwall City Council establishes a Capital Improvement Plan for the City, periodically presenting proposed capital improvements on a general election ballot when it deems such efforts to be in the best interest of the City, including considerations for the health, welfare, safety, and / or quality of life of its residents.

NOW, THEREFORE, BE IT RESOLVED BY THE AIRPORT ADVISORY BOARD OF THE CITY OF ROCKWALL, TEXAS THAT:

Section 1. The Airport Advisory Board recommends that the City Council consider adding the local matching funds necessary to participate in the State of Texas Airport Capital Improvement Program to the next City of Rockwall bond election.

Section 2. The City Council is asked to direct staff to develop cost estimates and an implementation timeline associated with consideration of certain airport improvements as part of the City's capital improvement program planning process.

Section 3. This resolution shall take effect immediately from and after its adoption and it is so resolved.

PASSED AND APPROVED BY THE AIRPORT ADVISORY BOARD OF THE CITY OF ROCKWALL, TEXAS, on this the 23rd day of January, 2017.

Dwight Royall

Notes:

(1) **Construction Cost Per Square Yard Assumes:**
- 2018 Projected Construction Pricing
- Concrete Thickness 8-inch and Subgrade Thickness of 8-inches
- 5-foot concrete sidewalks both sides of street
- Reestablishment of Grass, Irrigation Systems & Mailboxes
- No Drainage Improvements
- No Water Line and Wastewater Line Replacement

(2) Drainage Cost are Preliminary. Cost take in account any reported drainage concerns along street, and possible upsizing to current standards within reason.

– Cut of Line for North Streets Bond Package

$ 2,806,382.85 <--- Total Amount of Water & Wastewater August 2017 Budget Meeting Cost

Notes:

(1) **Construction Cost Per Square Yard Assumes:**
- 2018 Projected Construction Pricing
- Concrete Thickness 8-inch and Subgrade Thickness of 8-inches
- 5-foot concrete sidewalks both sides of street
- Reestablishment of Grass, Irrigation Systems & Mailboxes
- No Drainage Improvements
- No Water Line and Wastewater Line Replacement

(2) Drainage Cost are Preliminary. Cost take in account any reported drainage concerns along street, and possible upsizing to current standards within reason.

Notes:

(1) **Construction Cost Per Square Yard Assumes:**
- – 2018 Projected Construction Pricing
- – Average Concrete Thickness 7-5-7-inch and Subgrade Thickness of 6-inches
- – Reestablishment of Grass, Irrigation Systems
- – No Drainage Improvements
- – No Water Line and Wastewater Line Replacement

(2) Drainage Cost are Preliminary. Cost take in account any reported drainage concerns along street, and possible upsizing to current standards within reason.

– Cut of Line for South Alley Bond Package

City of Rockwall
The New Horizon

MEMORANDUM

TO: **Rick Crowley, City Manager**

FROM: **Mary Smith, Assistant City Manager**

DATE: **February 2, 2018**

SUBJECT: **Bond Election May 2018**

Bond Election Resolution

Bond Counsel, Leroy Grawunder, McCall, Parkhurst & Horton has prepared a couple of versions of the resolution calling the bond election for May 2018. As the Council finalizes discussions, resolutions are in the packet to allow for Streets and Parks propositions and or just one proposition for Streets. In addition, more descriptive and less descriptive language can be selected. Bond Counsel will explain how the recent changes in state law regarding failed propositions causes him to lean toward less descriptive language on propositions. IN addition, the dollar amounts are left blank and will be filled in as the Council makes decisions regarding the projects.

Ability to Absorb New Issues as Debt Levels Drop

This information was previously provided to Council and is included here for reference purposes.

Fiscal Year 2019 – $4.7 million dollars
Fiscal Year 2020 – $9.1 million dollars running total $13.8million
Fiscal Year 2021 – $9.6 million dollars running total $23.4million
Fiscal Year 2024 – $2.6 million dollars running total $26.0million
Fiscal Year 2026 – $6.6 million dollars running total $32.6million
Fiscal Year 2027 – $20.5 million dollars running total $53.1million
Fiscal Year 2028 – $6.9 million dollars running total $60.0million

Impact of Accelerated Issuance – Increased Assessed Values

In order to accelerate the issuances to attempt to complete the road improvements over a five-year rather than a ten-year period could at first analysis require a potential 6-cent tax rate increase. Various scenarios have been run which looked at value increases from a minimum of 5% annually to a maximum of 8% in the early years. The most recent five-year average is 8.63% so these increases should be more than conservative enough for this purpose. This level of value growth should allow the City to either issue the debt for $60million in projects within 7-8 years rather than 10 years or provide opportunity for an additional $20-$25million of additional debt during the 10 year period without a tax rate increase.

For each additional $1million to be issued we would assume $78,000 per year in debt service payable over twenty years. The current assessed value allows the City to fund approximately $500,000 in debt service per penny on the tax rate. This factor will improve as assessed values increase. All of the scenarios that have been run anticipate keeping the debt rate near its current amount of 17.82 cents which is about 40% of the city's current rate.

Conclusion

Looking at a number of scenarios its seems very likely that the City should be able to absorb $60million in new debt within 7-8 years or issue an additional $20million above this level without a tax rate impact. A desire on the part of future Councils to either further accelerate project timelines or pursue other projects could cause a need for a higher debt rate which could result in a tax rate increase.

CITY OF ROCKWALL, TEXAS
MEMORANDUM

TO: **Brad Griggs, Assistant City Manager**

FROM: **Andy Hesser, Parks and Recreation Director**

DATE: **January 31, 2018**

SUBJECT: **APPOINTMENT WITH PARK BOARD CHAIRMAN BRAD BASSETT**

At the January 22nd special Council meeting, Park Board Chairman Brad Bassett presented a request that Council consider including certain park projects on the proposed upcoming bond election ballot. After much discussion, Council asked that the Park Board provide additional detail regarding their requests. To facilitate that direction, Park Board held a special meeting on Monday January 29th and voted unanimously of the four present that Council consider the following for the upcoming bond election:

- Phase 2 neighborhood parks construction - $ $2,200,000
- Renovations of Myers ballfields and Yellowjacket ballfields - $1,500,000
- Authorize funding a feasibility study for an athletic complex in this year's budget for consideration of a bond program at the next possible general election.
- Consider funding the completion of concept plans for the remaining identified projects in the 2017 Strategic Plan (Alma Williams Howard Park, a south community, The Lakeside Park and The Lakes of Squabble Creek)

I have included a summary of what was discussed for the neighborhood park phase 2 construction that identifies suggested parks, amenities and associated costs. The spreadsheet lists the cost estimates to renovate and light Myers ballfields to game and tournament quality as well as lighting the fields at Yellowjacket and additional parking. There are also maps of each proposed neighborhood park that show the boundaries and existing amenities.

Mr. Bassett will be available to present the Park Board recommendations. Staff will be available to answer any questions.

Northshore Park - District 4		**$450,000.00**
	1/3 mile trail loop	
	Drinking fountain with dog bowls	
	25'x35' Pavilion

MINUTES
ROCKWALL CITY COUNCIL
Tuesday, January 16, 2018
4:00 p.m. Regular City Council Meeting
City Hall, 385 S. Goliad, Rockwall, Texas 75087

I. CALL PUBLIC MEETING TO ORDER

Mayor Pruitt called the public meeting to order at 4:00 p.m. Present were Mayor Jim Pruitt and Council Members Dana Macalik, Mike Townsend, Kevin Fowler, Bennie Daniels and Dennis Lewis. Also present were City Manager Rick Crowley and Assistant City Managers Mary Smith and Brad Griggs. Absent from the meeting were Mayor Pro Tem John Hohenshelt and City Attorney Frank Garza.

II. WORK SESSION

1. Hold a work session to consider potential capital improvement projects associated with future bond election.

Andy Hesser, Director of Parks and Recreation for the city, came forth and gave a presentation to Council concerning, in part, ball fields, tournaments and associated revenue and costs. He also provided Council with details concerning potential capital improvement projects related to park improvements and ball fields. Lengthy discussion about ball fields, including revenues and expenditures related to the city-run sports program(s) ensued. The Council also discussed if and how to potentially put forth bond propositions related to ball fields so that voters have an opportunity to express for what, if anything, they are willing for the city to assume debt over in order to provide those programs and/or facilities.

Current chairman of the city's Park Board, Brad Bassett, came forth to speak to the Council concerning these matters. He commented on the potential advantages and disadvantages of limiting city-run sports programs to only kids who live within the city (versus allowing kids from surrounding cities / areas to also participate). He generally expressed the belief that limiting sports programs to only kids who live within the city would result in a notably diminished program quality.

Discussion ensued regarding road-related improvement needs and associated (estimated) costs. Mr. Bassett spoke briefly about the logic that the Park Board utilized when putting forth a recommendation to the Council to possibly put forth a bond proposition for $1.75 million to make improvements ("build out") seven neighborhood parks throughout the city, pointing out that the Park Board believed that the 'finish out' of these parks would afford a lot of "bang for your buck" if it were to be approved in a bond election.

Mayor Pruitt pointed out that other groups within the city have approached him recently, expressing a desire for the Council to consider bond election propositions related to their own causes as well (i.e. music groups, "the arts" groups, theater groups, etc.).

Joey Boyd, Director of Internal Operations, then briefed the Council on municipal airport-related capital improvement projects and associated, estimated costs for possible inclusion in a bond election. Dwight Royall, current chairman, (1995 Hidden Valley (address)) of the Airport Advisory Board, then came forth and addressed the Council. He explained that, upon original formation of the board, the board was charged with (1) creating rules and regulations for the airport and its use and (2) getting the airport (financially) 'in the black.' He pointed out

that both objectives have since been accomplished and positive progress has been made. Mr. Royall went on to share the advantages, benefits and importance of a city / municipal airport. He pointed out that some of the airport-related improvements may possibly be accomplished through a matching grant(s). Mayor Pruitt expressed apprehension about potentially forcibly condemning Mr. Jack Athey's land (who currently owns the land necessary to potentially expand / lengthen the existing runway). It was pointed out that the city already has money set aside to pay its portion of acquiring the land (with TXDOT Aviation providing matching grant funds). General indication was given by Council that it would like staff and the city attorney to make some inquiries to TXDOT Aviation and also to look into current state and federal laws associated with possibly condemning the property in question.

The Council took no action as a result of the work session discussions.

Mayor Pruitt then read the below listed discussion items into the record before recessing the public meeting to go into Executive Session at 5:16 p.m.

III. EXECUTIVE SESSION.

THE CITY OF ROCKWALL CITY COUNCIL WILL RECESS INTO EXECUTIVE SESSION TO DISCUSS THE FOLLOWING MATTERS AS AUTHORIZED BY CHAPTER 551 OF THE TEXAS GOVERNMENT CODE:

1. Discussion regarding (re)appointment of city council subcommittees and board liaisons - Fire Dept. Pension Board - pursuant to Section §551.074 (Personnel Matters).
2. Discussion regarding possible sale of real property / land in PD-32 pursuant to Section §551.072 (Real Property).
3. Discussion regarding legal review of deed records pertaining to public access on Breezy Hill Lane pursuant to Section §551.071 (Attorney/Client Consultation)
4. Discussion regarding the appeal to the Public Utility Commission filed by the cities of Garland, Mesquite, Plano and Richardson against the North Texas Municipal Water District (NTMWD) regarding water rates pursuant to §Section 551.071 (Consultation with Attorney).

IV. ADJOURN EXECUTIVE SESSION

Mayor and Council adjourned from Executive Session at 5:46 p.m.

V. RECONVENE PUBLIC MEETING (6:00 P.M.)

Mayor Pruitt reconvened the public meeting at 6:00 p.m. with six of the seven council members being present (Hohenshelt was absent).

VI. TAKE ANY ACTION AS A RESULT OF EXECUTIVE SESSION

Councilmember Townsend moved to reappoint Councilmember Fowler to the city's Fire Pension Board. Councilmember Lewis seconded the motion, which passed by a vote of 6 in favor with 1 absent (Hohenshelt).

VII. INVOCATION AND PLEDGE OF ALLEGIANCE – COUNCILMEMBER TOWNSEND

Councilmember Townsend delivered the invocation and led the Pledge of Allegiance.

VIII. PROCLAMATIONS / AWARDS

1. Rockwall Citizens on Patrol Appreciation Day

Mayor Pruitt called forth Rockwall Police Chief, Kirk Riggs. He then read and presented a proclamation recognizing the Rockwall Citizen Police Academy Alumni Association and the Citizens on Patrol volunteers. The volunteers then presented the mayor with a(n oversized) "check," (ceremonial only) representing the $204,000 that the volunteers saved the city this past year.

IX. OPEN FORUM

Mayor Pruitt explained how Open Forum is conducted and asked if anyone would like to come forth and speak at this time. There being no one indicating such, Mayor Pruitt then closed Open Forum.

X. CONSENT AGENDA

1. Consider approval of the minutes from the January 2, 2017 regular city council meeting, and take any action necessary.

2. Consider approval of an **ordinance** amending the Code of Ordinances in Chapter 4, Alcoholic Beverages, Article II. Permits, Sections 4-23 and 4-25 to provide for a fee schedule in accordance with current fees prescribed by the TX Alcoholic Beverage Commission and to repeal the local Biennial Administrative Processing Fee, and take any action necessary. **(2nd Reading)**

3. **P2017-066** - Consider a request by Matt Atkins of Engineering Concepts on behalf of Scott Lewis of RRDC, LTD. for the approval of a preliminary plat for the Whisper Rock Subdivision containing 28 single-family lots on a 9.477-acre tract of land identified as Tract 104 of the E. Teal Survey, Abstract No. 207, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 47 (PD-47) for Single-Family 10 (SF-10) District land uses, situated within the Scenic Overlay (SOV) District, addressed as 3231 Ridge Road, and take any action necessary.

4. **P2017-068** - Consider a request by Michael Duval of G & A Consultants on behalf of John Delin of R. W. Ladera, LLC for the approval of a preliminary plat for Lot 1, Block A, Ladera Rockwall being a 28.011-acre tract of land identified as Tract 5 of the M. B. Jones Survey, Abstract No. 122, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 85 (PD-85), situated within the 205 By-Pass Overlay (205 BY-OV) and the East SH-66 Overlay (E SH-66 OV) District , located at the northeast corner of the intersection of SH-66 and John King Boulevard, and take any action necessary.

5. **P2017-070** - Consider a request by Cameron Slown of F. C. Cuny Corporation on behalf of Robert S. Whittle for the approval of a final plat for the Highlands Subdivision containing 46 single-family residential lots on a 11.655-acre tract of land identified as Tract 2 of the M. B. Jones Survey, Abstract No. 122, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 5 (PD-5) for Zero Lot Line (ZL-5) District land uses, situated within the SH-205 By-Pass Overlay (205 BY-OV) District, located at the northwest corner of the intersection of SH-66 and FM-1141, and take any action necessary.

Councilmember Lewis moved to approve the entire Consent Agenda (#s 1, 2, 3, 4, and 5). Councilmember Townsend seconded the motion. The ordinance caption was read as follows:

CITY OF ROCKWALL
ORDINANCE NO. 18-10

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING CHAPTER 4, ALCOHOLIC BEVERAGES, ARTICLE II. PERMITS, SEC. 4-23 AND SEC. 4-25 TO PROVIDE FOR A FEE SCHEDULE IN ACCORDANCE WITH CURRENT FEES PRESCRIBED BY THE TEXAS ALCOHOLIC BEVERAGE COMMISSION; REPEAL OF BIENNIAL ADMINISTRATIVE PROCESSING FEE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

The motion passed by a vote of 6 ayes with 1 absent (Hohenshelt).

XI. APPOINTMENTS

1. Appointment with the Planning and Zoning Chairman to discuss and answer any questions regarding cases on the agenda and related issues and take any action necessary.

Johnny Lyons, current chairman of the city's Planning & Zoning Commission, came forth and briefed the Council on recommendations of the Commission relative to planning-related items on tonight's council meeting agenda. The Council took no action as a result of the briefing.

2. Appointment with the Historic Preservation Advisory Board (HPAB) Chairman to discuss and answer any questions regarding cases on the agenda and related issues, and take any action necessary.

Daniel Nichols, current chairman of the city's HPAB, came forth and briefed the Council on recommendations of the Board relative to Action Item #1 on tonight's meeting agenda. Following brief comments, the Council took no action as a result of Mr. Nichols' briefing.

Mayor Pruitt then reordered the agenda to address Action Item #1 next.

3. Appointment with Doug Galloway of Cooper General Contractors to discuss and consider a request to change Article IV, Permissible Uses, of the Unified Development Code to allow the "Brewery or Distillery (Excluding Brew Pubs)" land use through a Specific Use Permit (SUP) in the Downtown (DT) District, and take any action necessary.

Planning Director Ryan Miller provided brief, introductory comments pertaining to this appointment item, indicating that Council has been provided with a memo outlining the details of this request. He indicated that currently, the city "allows, by right" a brewery or distillery to be located within both light industrial and heavy industrial zoning areas.

Doug Galloway
3508 Edgewater
Dallas, TX

Cory and Eva Cannon
1280 Highland Drive
Rockwall, TX

Mr. Galloway indicated that he has had a predevelopment meeting with the city's Planning Director and team. He generally expressed that they have a desire to open a brewery or distillery in the downtown area.

Mr. Cannon shared that he and his wife are both Rockwall homeowners and business owners. He went on to state that they would like to put a 13,000 square foot brewery and tasting room. They desire for it to be a family and community friendly place. They believe that it will positively contribute to tourism. He expressed that the do not desire to be located in an industrially zoned area because they want to be more connected to the downtown area and the community. Also, they want to utilize the facility as a rental event space. Mrs. Cannon expressed that it would not be a bar and that they too have concerns about drunk driving. Furthermore, they will not be open late and will plan to close no later than 9:00 p.m. The business will brew beer for distribution as well as onsite consumption.

Mayor Pruitt expressed concern about this business and its location, as he fears it will operate more like a bar. Councilmember Daniels expressed that he has viewed downtown as a family-friendly area, and he does not personally feel as though this type of business fits in well with that theme. Councilmember Fowler suggested that the Cannon's meet with the downtown merchants to get input from them about this concept.

Following the discussions, Council took no action pertaining to this agenda item.

4. Appointment with Jacob Boan with Suntex Marinas to discuss and consider a request to sublease regarding the Chandlers Landing Marina, and take any action necessary.

Brad Griggs, Assistant City Manager, indicated that Jacob Owen and Chris Petty are with Suntex Marinas, which operates the marina at Chandler's Landing. They have submitted a request for consent to sublease the property to operate under a real estate investment trust.

Jacob Owen
6406 Lakecrest Drive
Sachse, TX

Chris Petty
6086 Dripping Springs
Frisco, TX

Mr. Owen explained that they would like the city to consider approval of a consent to sublease. He explained that this Chandlers Landing Marina sublease would be with a fully owned and controlled entity of Suntex, and it would include the ship store, fuel station and boat rental operation at that location. He explained that this structure is required by the IRS. He shared that there would be no change in management or day-to-day operations should this request be approved. Brief discussion took place pertaining to the advantages that Suntex would experience as a result of operating as a real estate trust. Mayor Pruitt expressed concern that Suntex is potentially "running off" sailboats in favor of speed boats, and that some patrons have told him Suntex does not even have any sailboat rental space available any longer. Mr. Petty shared that the market, in large part, has driven the trend towards sail boats having less and less of a presence in the boat manufacturing market. Brief discussion took place pertaining to potential advantages and disadvantages of the city approving this request. Indication was given that the city's attorney has reviewed and commented on the agreement. Following the comments, Councilmember Lewis moved to approve Suntex's request for a

sublease agreement at Chandler's Landing Marina. Councilmember Townsend seconded the motion, which passed by a vote of 6 in favor with 1 absent (Hohenshelt).

XII. PUBLIC HEARING ITEMS

1. **P2017-046** - Hold a public hearing to discuss and consider a request Theresa Briones for the approval of a replat for Lots 1 & 2, Block A, Briones Addition being a 0.25-acre parcel of land identified as portion of Block 7 of the Garner Addition, City of Rockwall, Rockwall County, Texas, zoned Single-Family 10 (SF-10) District, situated within the North SH-205 Overlay (N. SH-205 OV) District, addressed as 905 N. Alamo Street, and take any action necessary.

Mr. Miller shared that this property is located within the N. SH-205 overlay district between West and Alamo Streets. It is zoned SF-10, and the applicant is requesting to subdivide the lots. The city's Planning & Zoning Commission has reviewed this request and issued a recommendation of approval (by a vote of 7-0). Since this is not a zoning case, property owners within 200' (rather than 500') were notified of this request. One notice was received back in favor, and one notice was received back today.

Mayor Pruitt opened the public hearing, asking if anyone would like to come forth and speak. There being no one indicating such, he then closed the public hearing. The applicant was not in attendance.

Councilmember Townsend moved to approve P2017-046. Councilmember Lewis seconded the motion, which passed by a vote of 5 in favor, 1 against (Pruitt) and 1 absent (Hohenshelt).

2. **Z2017-052** - Hold a public hearing to discuss and consider a request by Pat Atkins of Saddlestar Land Development on behalf of the Stagliano Family Trust for the approval of an **ordinance** for a zoning change from an Agricultural (AG) District, Commercial (C) District and Heavy Commercial (HC) District to a Planned Development District for commercial/retail, single-family and townhome land uses on a 63.72-acre tract of land identified as Tract 3 of the W. H. Barnes Survey, Abstract No. 26, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, Commercial (C) District and Heavy Commercial (HC) District, situated within the SH-205 Overlay (SH-205 OV) District, located at the northwest corner of S. Goliad Street [SH-205] and Mims Road, and take any action necessary **(1st Reading).** ***[Postponed to Monday, Feb. 5, 2018]***

Mayor Pruitt indicated that this case is being postponed until the February 5, 2018 city council meeting. Mr. Miller explained that this case has been delayed, in part, due to the Planning & Zoning Commission requesting some additional information. No action was taken.

3. **Z2017-065** - Hold a public hearing to discuss and consider a request by Randy Eardley, P.E. of Wier & Associates, Inc. on behalf Getra Thomason-Saunders of Chick-Fil-A, Inc. for the approval of an **ordinance** for a Specific Use Permit (SUP) for a restaurant with a drive-through or drive-in on a 0.656-acre tract of land being identified as Lots 1 & 2, Block A, Billy Peoples #1 Addition, City of Rockwall, Rockwall County, Texas, zoned General Retail (GR) District, situated within the SH-205 Overlay (SH-205 OV) District, addressed as 1902 & 2000 S. Goliad Street [SH-205], and take any action necessary **(1st Reading).**

Planning Director Ryan Miller provided background information pertaining to this agenda item. The applicant is requesting approval of a Specific Use Permit (SUP) for a *restaurant, 2,000 SF*

or more, w/ drive-through **[*i.e. Chick-Fil-A*]. The proposed restaurant is ~2,200 SF and situated on a 0.656-acre tract of land [*i.e. Lots 1 & 2, Block A, Billy Peoples #1 Addition*], is zoned General Retail (GR) District, and is addressed as 1902 & 2000 S. Goliad Street [SH-205].**

On December 12, 2017, the Planning and Zoning Commission approved a site plan [*Case No. SP2017-037*], a restaurant with a drive-through, on the subject property. Subsequently, the City Council approved variances associated with the approved site plan on December 18, 2017. After the approval of the submitted site plan, staff recognized that the subject property was located in a General Retail (GR) District and would require a Specific Use Permit (SUP) for a restaurant greater than 2,000 SF with a drive-through facility. Staff should note that although the approval of a Specific Use Permit (SUP) is discretionary to the Planning and Zoning Commission and the City Council, there currently exists several other restaurants with drive-throughs [*e.g. Taco Casa, Braum's, and Chicken Express*] located adjacent to the subject property and that are zoned General Retail (GR) District.

On December 28, 2017, staff sent 39 notices to property owners and residents within 500-feet of the subject property. Additionally, staff notified the Waterstone Homeowner's Association which is the only Neighborhood Associations/HOA's located within 1,500-feet of the subject property. Since the time tonight's meeting packet was sent out, staff did receive back one notice in favor of the request and a signed petition in opposition of the request from an adjacent property owner. The Planning & Zoning Commission did recommend by a vote of 7-0 to recommend approval of this request. With regards to the parking spaces, Councilmember Townsend asked if a traffic impact study / analysis was conducted. Mr. Miller generally indicated that, no, one was not performed. He then went on to explain under what circumstances a traffic impact analysis would be conducted.

Mayor Pruitt opened the public hearing, asking if anyone would like to come forth and speak at this time.

Brian Berry (Mayor of the City of Heath (2 Essex Court Heath, TX)) came forth and addressed the Council concerning this public hearing item. He shared that he is the property owner just west of this property (an office building that houses two tenants). He generally asked the Council to consider calling for a traffic analysis to be conducted, especially since this is a new and unique zoning-related 'use' for the city. He would also like to know how many employees this restaurant will employ, as this will impact the allotted parking spaces, including the number of handicapped spaces. He would also like to require a fence to keep parking associated with this property separate from parking located at adjacent properties / businesses. He is not opposed to Chick-fil-A; however, he suspects this may lead to a traffic nightmare at this location. He has concerns about access to this new Chick-fil-A as well as the additional 'wear and tear' it will put on the parking lot, including his own parking lot. His comments generally seemed to express concern and potential opposition to this request.

The applicant then came forth to address the Council concerning this request. At this point, she simply introduced herself - Priya Acharya with Weir and Associates (the civil engineer firm working on behalf of Chick-fil-A).

Mario Smajli
1422 Murphy Drive
Rockwall, TX

Mr. Smajli, owner of Luigi's (the restaurant located adjacent to this property), came forth to address the Council concerning this request. He generally spoke in opposition to the Council

approving this request. He has various concerns, especially related to the parking and ingress/egress associated with vehicles that will patron this 'drive thru only' restaurant. He pointed out that there is no easement at the rear of his property, and he feels strongly as though people will be walking to the restaurant, and utilizing the back of his property to get to and from. He pointed out that them doing so will be considered 'trespassing,' and, if anyone gets hurt on his property, he will get sued. This will cause his insurance costs to skyrocket. He pointed out that a lady in a wheelchair previous did just that and sued him. So, it is a very real concern. He also has concerns about where the 18-wheeler truck(s) will make deliveries to this Chick-fil-A restaurant, as he believes they will utilize his property to do so. He believes that a traffic study should be conducted. He explained that he is a patron of Chick-fil-A and has no problems with the business itself; however, the existing Chick-fil-A on the north side of town has proven to have a huge traffic problem, and it has choked out at least one or two adjacent businesses over there due to the very high traffic volumes. He is opposed to the Council approving this SUP and strongly encouraged the Council to not approve this item.

With regards to planning and zoning related public hearing items in the city in general, Councilmember Lewis pointed out that the city goes above and beyond that which is required in the Texas Local Government Code. He explained that state law requires notification of property owners and businesses located within 200'; however, the city notifies those within 500' and also notifies adjacent homeowner's associations (within 1,500').

Mayor Pruitt explained that city staff initially made a mistake, as staff inadvertently believed that this type of business was "allowed by right" at this location. He shared, however, that if the process had ensued as it actually should have, then staff and the public may well have not known that this particular restaurant was going to be a Chick-fil-A restaurant.

John McKenzie
9796 FM 1565
Terrell, TX

Mr. McKenzie came forth and expressed opposition to approval of this request because he believes the parking is going to be a real issue as well as traffic congestion. He stated that he generally reiterates everything that Mario previously stated.

Bruce Foith
1087 Shady Lane Drive
Rockwall, TX

Mr. Foith generally expressed that he believes there are better locations within the city that this drive-thru Chick-fil-A restaurant could go in. He indicated that locating a Chick-fil-A in the north part of town, for example, would be much better. He believes that the traffic and parking will be a nightmare at this particular location, and he empathizes with Mario. He stated that if he were an adjacent business owner, he would be really upset too.

Linda Diaz
1935 Copper Ridge Circle
Rockwall, TX 75032

Ms. Diaz expressed that she and her family also own a business in the Hobby Lobby shopping center (All Sports). She believes the traffic flow in and out of a Chick-fil-A restaurant at this location will be a large problem. She shared that she has received a lot of feedback on social

media regarding placement of a Chick-fil-A restaurant at this location. She generally expressed opposition to the Council approving this request.

Mrs. Karen Caramanica
503 Windsor Way
Rockwall, TX

Mrs. Caramanica came forth and expressed that she and her husband moved to Rockwall years ago and that they live in the north part of town. She expressed concern about traffic in Rockwall, in general, as growth has rapidly taken place within the city. She expressed strong opposition to the Council approving this request. She firmly feels that this is not at all a good location and that traffic, especially after school dismisses, will be very heavy.

Mr. John Caramanica
503 Windsor Way
Rockwall, TX

Mr. Caramanica came forth and shared that he has watched the town grow from a two stop sign town to a real traffic nightmare. He questions why a traffic study has not been conducted. He believes that this particular intersection already has a lot of congestion, and putting in a Chick-fil-A at this intersection would only exasperate the traffic problems and would pose more safety concerns. He feels that a wall should be built around this location to keep cars and people from adversely impacting Mario's restaurant and parking next door. He is concerned about growth continuing to rapidly occur and an insufficient water and road infrastructure to support it. He generally expressed strong opposition to the Council approving this request.

Michael Hunter
220 W. Quail Run Road
Rockwall, TX

Mr. Hunter expressed that he offices up north near the other Chick-fil-A. He has observed that traffic at that location backs up substantially. He believes that will be the same case at this location. He urged the council to look at this with some common sense. He generally believes that staff and council should help Chick-fil-A possibly locate a better site elsewhere.

Tim Mosley
466 Chippendale Drive
Heath, TX 75032

Mr. Mosley came forth and provided comments to the Council concerning this request. He shared that he currently owns and operates the existing Chick-fil-A restaurant on Ridge Road. He spoke about his knowledge the Chick-fil-A as a company works very closely with their engineers on site drawings and locations, and he does believe they know what they're doing. He suspects they may be doing this "drive thru only" concept in an effort to take some of the volume off of the Ridge Road Chick-fil-A. He pointed out that every business owner wants to place a business in a location that is busy in order to be successful, to make money, and to be able to give back to the community. Councilmember Lewis asked Mr. Mosely if his location's delivery trucks are 18-wheelers or panel trucks. Mr. Mosley shared that the delivery trucks are all different sizes and they often come in the middle of the night (four of his six regular deliveries take place at night).

The applicant (Priya Acharya) then came forth again to address the Council. She pointed out that this 'drive thru only' Chick-fil-A concept will be the third of its kind in this area. One is located in Dallas on Cockerel Hill, and another one is about to be placed near Love Field in Dallas. She pointed out that the facility at this particular Rockwall location will be substantially smaller in size than the other two locations. Also, she pointed out that this location will have two drive thru lanes that narrow down to just one, ultimate line.

Mayor Pruitt asked Ms. Acharya if Chick-fil-A will consider building a wrought iron fence to separate this site's parking from the adjacent parking lot. Ms. Acharya shared that, if doing so is a condition of approval, she feels as though Chick-fil-A would consider doing so. Ms. Acharya shared that a traffic impact study was not performed because the city did not require one.

Discussion took place related to the Council possibly remanding this topic back to the Planning & Zoning Commission for further evaluation.

Mayor Pruitt expressed that it he does believe there will be a parking problem, as about 13 spaces will be occupied by employees, two will be handicapped spaces, and that will only leave perhaps 2 spaces for patrons to park. He suggested that Chick-fil-A may want to speak to adjacent property owners about potentially establishing a parking agreement so that employees will have a place to park. Councilmember Townsend generally expressed concerns about the limited number of parking spaces, traffic flow and traffic congestion. Discussion took place pertaining to the "drive thru only" Chick-fil-A location in Dallas on Cockrell Hill.

Ms. Acharya generally shared that Chick-fil-A strives to be a good steward and positively contribute to the community.

Mayor Pruitt then closed the public hearing.

Councilmember Lewis moved to approve Z2017-065 with the caveat that they work with staff to develop a fence around the property. Councilmember Townsend seconded the motion.

Following brief comments by Mayor Pruitt, Councilmember Lewis withdrew his motion, and Councilmember Townsend withdrew his second.

Mayor Pruitt moved to deny Z2017-065 without prejudice and instruct Chick-fil-A to work on dealing with the traffic, dealing with the fence, and dealing with the parking (where their employees will park, perhaps through a parking agreement). Councilmember Macalik seconded the motion, which passed by a vote of 5 in favor, 1 against (Townsend) and 1 absent (Hohenshelt).

4. **Z2017-066** - Hold a public hearing to discuss and consider a request by Trent Hyde for the approval of an **ordinance** for a Specific Use Permit (SUP) to allow for a detached garage that does not meet the minimum requirements as stipulated by Article IV, Permissible Uses, of the Unified Development Code for a 0.830-acre tract of land identified as the Wilson Addition, City of Rockwall, Rockwall County, Texas, zoned Single-Family 10 (SF-10) District, addressed as 218 W. Quail Run Road, and take any action necessary **(1st Reading).**

Planning Director Ryan Miller provided background information concerning this agenda item. He generally indicated that this applicant had a previous SUP request that came before the Council back in October and was essentially denied "with prejudice." So, he has made some changes to his original application and is now returning to seek Council's approval. He changed his request from an accessory building to a detached garage, and he plans to incorporate a concrete foundation, roll-up door and a 3' masonry wainscot. The proposed garage is a metal, detached garage that will be 700' feet and will be situated behind the primary structure. Notices were sent out to property owners and residents located within 500', and nearby HOAs (homeowners associations) were also notified. Staff received back 8 notices in favor and 1 notice in opposition. In addition, the city's Planning & Zoning Commission has voted 6-1 to recommend approval of this SUP request.

Trent Hyde then came forth and briefly addressed the Council regarding his proposed structure. He mainly focused on size of the property, indicating that it is actually significantly larger than SF-10 designation would make it seem. He explained that he is unable to get the same brick as his house; however, he is planning on utilizing Austin stone. He further explained that he plans to move the existing 2,000' Morgan building that is currently located along the property line. He explained that he will move it to the rear of the property (the southwest corner), 12' away from the property line.

Following additional comments regarding the other, existing structure, Mayor Pruitt moved to approve Z2017-066 with the stipulation that the existing accessory building be moved as required and discussed. Councilmember Fowler seconded the motion. After additional comments, the ordinance was read as follows:

CITY OF ROCKWALL
ORDINANCE NO. 18-XX
SPECIFIC USE PERMIT NO. S-XXX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, TEXAS, AS PREVIOUSLY AMENDED, SO AS TO GRANT A SPECIFIC USE PERMIT (SUP) TO ALLOW A DETACHED GARAGE THAT DOES NOT MEET THE MINIMUM REQUIREMENTS, ON A 0.830-ACRE TRACT OF LAND ZONED SINGLE-FAMILY 10 (SF-10) DISTRICT AND IDENTIFIED AS THE WILSON ADDITION, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OR FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

The motion passed by a vote of 6 in favor with 1 absent (Hohenshelt).

5. **Z2017-067** - Hold a public hearing to discuss and consider a request by Katherine Crane for the approval of an **ordinance** for a zoning change from a Single Family 10 (SF-10) District to a Residential-Office (RO) District for a 0.210-acre parcel of land identified as Lot 17, Block 14, Highwood Addition, City of Rockwall, Rockwall County, Texas, zoned Single Family 10 (SF-10) District, addressed as 302 W. Kaufman Street, and take any action necessary **(1st Reading).**

Planning Director Ryan Miller explained that the applicant is seeking to change the zoning from SF-10 to a "residential office district" designation instead. The purpose is for the applicant to be able to establish a counseling business within her residence. If it is approved,

the applicant will need to go through the proper site plan process to ensure there will be adequate parking and ADA requirements are met. Notices were sent out to property owners and residents within 500', and nearby HOAs within 1,500' were also notified. One notice was received back in favor of the request, and the city's Planning & Zoning Commission has recommended denial of the request by a vote of 7-0. So, approval of this item will require a ¾ majority vote of Council.

Mayor Pruitt then opened the public hearing, asking if anyone would like to come forth and speak at this time. There being no one indicating such, he then closed the public hearing and invited Ms. Crane (the applicant) to come forth. Ms. Crane then showed the Council photographs of her home's location and briefly explained why she is seeking this change in zoning.

Following Ms. Crane's comments, the Council took no action pertaining to this public hearing item.

6. **P2017-067** - Hold a public hearing to discuss and consider a request by Blake Sudduth of R-Delta Engineers, Inc. on behalf of Peter Muhl of Rockwall Habitat for Humanity for the approval of a replat for Lots 1 & 2, Block A, Lamar Street Habitat No. 1 Addition being a 0.22-acre parcel of land identified as Lot I, Block 112, B. F. Boydston Addition, City of Rockwall, Rockwall County, Texas, zoned Single Family 7 (SF-7) District, situated within the Southside Residential Neighborhood Overlay (SRO) District, addressed as 801 Lamar Street, and take any action necessary.

Planning Director, Ryan Miller, provided background information pertaining to this agenda item. The applicant would like to subdivide the property and establish two lots. Property owners located within 200' were notified, and one notice was received back in favor of the request. In addition, the city's Planning & Zoning Commission has voted 7-0 to recommend approval of this item. Mayor Pruitt then opened the public hearing. There being no one wishing to come forth and speak, the mayor then closed the public hearing. Councilmember Lewis moved to approve P2017-067. Councilmember Townsend seconded the motion, which, after brief comments pertaining to the adjacent roadway, passed by a vote of 6 in favor with 1 absent (Hohenshelt).

XIII. ACTION ITEMS

1. Discuss and consider a request by Natalee Davenport appealing a decision by the Historic Preservation Advisory Board (HPAB) concerning the denial of a Certificate of Appropriateness (COA) for a Medium Contributing property, being a 0.24-acre parcel of land identified as a portion of Lot 1 of the Austin Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 50 (PD-50) for Residential Office (RO) District land uses, situated within the North Goliad Corridor Overlay (NGC OV) District, addressed as 902 N. Goliad Street, and take any action necessary.

Planning Director Ryan Miller provided background information concerning this agenda item. He explained that on December 21, 2017, the Historic Preservation Advisory Board (HPAB) denied a request by Natalee Davenport for a Certificate of Appropriateness (COA) by a vote of 4-0, with Board Members Odom, Bowlin and Clark absent. As part of the motion, the HPAB stated that the proposed single pane glass windows and deck were not in keeping with the historic nature of the property, and did not conform to the Historic Preservation Guidelines contained in Appendix D of the Unified Development Code (UDC). In response to this finding, the applicant submitted a request to appeal the HPAB's decision to the City Council. According to the city's Unified Development Code, if a COA is denied by the HPAB "…the applicant may appeal to the City Council by filing a written notice with the Historic Preservation Officer within ten (10) business days after the decision of the board. In

considering an appeal, the sole issue before the City Council shall be whether the board erred in its decision. The City Council shall consider the same standards and evidence that was considered in making the decision. Appeal to the City Council constitutes the final administrative remedy." Should the City Council find that the HPAB erred in its decision the applicant will be permitted to keep the improvements as is and will be required to submit a building permit to the Building Inspections Department. Should the City Council find that the HPAB acted within its purview, the applicant would be required to remove the improvements from the property and will be prohibited from submitting a COA application -- *requesting the same changes to the property* -- for a period of one (1) year from the date of the City Council's decision unless [*1*] the City Council denies the request without prejudice or [*2*] the HPAB waives the time period due to a change in circumstances.

Natalee Davenport
1640 Coastal Drive
Rockwall, TX 75087

Ms. Davenport came forth with her current contractor and addressed the Council concerning her request. Ms. Davenport generally explained to the Council the various improvements that she has made to the property since she assumed ownership. She indicated that she and her contractor had no intentional malice in removing the windows and replacing them with new ones and with constructing the deck. The contractor spoke, indicating that when he took over the job, he thought he was performing work under the original permit that was pulled by the initial contractor, and he did not know that said permit had already been closed out and he needed to pull a new permit. He went to the city that same day and pulled a new permit. The gentleman indicated that the purpose of constructing the deck is so that the business may utilize it as an entertainment area for its clients.

Mayor Pruitt explained that the Council's job tonight is not to decide on if the work that has been performed so far is legitimate or not. The Council's job, instead, is to make a decision regarding if the city's Historic Preservation Advisory Board, made a mistake in its ruling or not.

Discussion ensued regarding Ms. Davenport having originally purchased the property when it was designated by the city as a "landmark property;" however, the city thereafter downgraded the property to a "medium contributing" property (historic-wise). This, Mr. Miller explained, because of work that the previous owners had done without having received approval from the city.

Councilmember Lewis asked if the Council has an ability to remand this issue back to the HPAB at this point. Mr. Miller shared that, no, the Council actually does not have the ability to do so under these particular circumstances and under the city's current regulations.

Councilmember Lewis moved to approve the HPAB's denial without prejudice. Councilmember Daniels seconded the motion, which passed by a vote of 6 ayes with 1 absent (Hohenshelt).

Following discussion of this item, Mayor Pruitt then reordered the agenda to address Public Hearing item #3 next.

2. **SP2017-041** - Discuss and consider a request by David Naylor of Rayburn Country Electric Cooperative for the approval of a variance to the parking requirements and an exception to the material requirements in conjunction with an approved site plan for an addition to an existing facility on an 18.875-acre

tract of land identified as Lots 1, 2 & 3, Block A, Rayburn Country Addition and a portion of Tract 3-13 of the W. H. Barnes Survey, Abstract No. 26, City of Rockwall, Rockwall County, Texas, zoned Heavy Commercial (HC) District, addressed as 950 & 980 Sids Road, and take any action necessary.

Planning Director Ryan Miller provided brief background information pertaining to this agenda item. He generally explained that this request pertains to an expansion of Rayburn County Electric Cooperative, as the applicant will be addition two, additional buildings which will be built behind the existing building and will create and a sort of "campus feel" to their existing structure. A new office building and a new warehouse are part of this request, and the applicant is seeking two variances – one related to a reduction in the minimum parking requirements and one related to 50% cementous materials requirement. The applicant is seeking to receive approval of a combination of tilt wall and a type of hardiboard. Both buildings will require approval of these variance requests. The Architectural Review Board has reviewed this request, and the ARB did ultimately approve the variance requests. In addition, the city's Planning & Zoning Commission has unanimously recommended approval of these requests as well.

Mike Malone (the architect) came forth and provided brief comments to the Council concerning these requests. He explained that the buildings will be built to withstand tornadic winds, and they will have very strong windows.

Councilmember Fowler asked some questions pertaining to the adjacent neighbors, flood plain and treed area. He wants to be sure that the neighbors to the south will not be bothered by the addition of these two, new buildings. Mr. Malone shared that he believes there will be a pretty good buffer in place.

Councilmember Lewis moved to approve SP2017-041, including the parking and masonry (materials) variance. Councilmember Fowler seconded the motion, which passed by a vote of 6 in favor with 1 absent (Hohenshelt).

3. **SP2017-042** - Discuss and consider a request by Bob Leimberg of Clayco Construction on behalf of Alan Yu of Lollicup USA, Inc. for the approval of exceptions and variances in conjunction with an approved site plan for a manufacturing facility on a 34.23-acre tract of land identified as a portion of Lot 1, Block A, Rockwall, Technology Park, Phase 2 and Tract 2-01 of the J. H. B. Jones Survey, Abstract No. 125, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, located at the southeast corner of the intersection of Corporate Crossing [FM-3549] and Capital Boulevard, situated within the FM-549 Overlay (FM-549 OV) District, and take any action necessary.

Planning Director Ryan Miller provided background information pertaining to this agenda item, indicating that this is located within Phase 2 of the Technology Park. The first three variance requests – related to the natural stone requirement; the seven architectural elements otherwise required in the overlay district; and the positioning of the loading docks (they will be visible from the public right-of-way) - will require a ¾ supermajority vote of Council for approval. They are also seeking variances (requiring simple majority votes of Council) related to a reduction in the number of parking spaces (they say they only need 206 based on the maximum number of employees per shift). Also, they're seeking an exception to the tilt wall materials that will be utilized on the buildings. Finally, they are seeking variances to the city's horizontal and vertical articulation requirements. The city's Architectural Review Board has

reviewed the proposed articulation / elevations twice. Ultimately, the ARB recommended approval, and the city's P&Z Commission also recommended approval.

Mayor Pruitt then made a motion to approve the variance requests that require the ¾ majority approval of Council (the ones related to the following: the 20% stone requirement; the architectural elements; and utilizing of landscaping rather than the 10' masonry wall for screening). Councilmember Lewis seconded the motion, which passed unanimously of those present (Hohenshelt absent).

Mayor Pruitt then moved to approve the remaining variance requests pertaining to: lowering the minimum parking spaces required; to allow for the building to be constructed with tilt wall; and not meeting the city's vertical and horizontal articulation requirements. Councilmember Lewis seconded the motion, which passed by a vote of 6 ayes with 1 absent (Hohenshelt).

4. Discuss and consider authorizing the City Manager to negotiate a Guaranteed Maximum Price (GMP) contract addendum with Dean Construction for the SH 66 Boat Ramp improvements not to exceed $468,150 to be funded by matching grant from Texas Parks and Wildlife Department, and take any action necessary.

Parks Director, Andy Hesser, briefed the Council on this agenda item. Public bids were open on Friday, and this GMP document was submitted thereafter. It is believed that this amount will be sufficient and allow for a "contingency" of about $15,000. Councilmember Townsend moved to authorize the City Manager to negotiate a Guaranteed Maximum Price contract addendum with Dean Construction for the SH 66 Boat Ramp improvements not to exceed $468,150 to be funded by matching grant from Texas Parks and Wildlife Department. Councilmember Lewis seconded the motion, which passed by a vote of 6 ayes with 1 absent (Hohenshelt).

5. Discuss and consider authorizing the City Manager to negotiate a contract with Bellingham Marine, Inc. for The Harbor boat dock repairs in the amount of $359,394.62, to be funded from the general fund and reimbursed by insurance claim funds, and take any action necessary.

Parks Director, Andy Hesser, provided brief comments to the Council pertaining to this agenda item. He generally indicated that insurance proceeds will cover these costs. Following additional, brief comments, Councilmember Townsend moved to authorize the City Manager to negotiate a contract with Bellingham Marine, Inc. for The Harbor boat dock repairs. Councilmember Lewis seconded the motion, which passed by a vote of 6 ayes with 1 absent (Hohenshelt).

6. Discuss and consider (re)appointments to the city's Main Street Advisory Board, and take any action necessary.

Councilmember Macalik moved to reappoint the following Main Street Advisory Board Members to serve an additional two year term on the MSAB: Terry Gregory, Claudette Hatfield, Evan Matteson and Daniel Nichols. Mayor Pruitt seconded the motion, which passed by a vote of 6 ayes with 1 absent (Hohenshelt).

XIV. EXECUTIVE SESSION

THE CITY OF ROCKWALL CITY COUNCIL WILL RECESS INTO EXECUTIVE SESSION TO DISCUSS THE FOLLOWING MATTERS AS AUTHORIZED BY CHAPTER 551 OF THE TEXAS GOVERNMENT CODE:

1. Discussion regarding (re)appointment of city council subcommittees and board liaisons - Fire Dept. Pension Board - pursuant to Section §551.074 (Personnel Matters).

2. Discussion regarding possible sale of real property / land in PD-32 pursuant to Section §551.072 (Real Property).

3. Discussion regarding legal review of deed records pertaining to public access on Breezy Hill Lane pursuant to Section §551.071 (Attorney/Client Consultation)

4. Discussion regarding the appeal to the Public Utility Commission filed by the cities of Garland, Mesquite, Plano and Richardson against the North Texas Municipal Water District (NTMWD) regarding water rates pursuant to Section §551.071 (Consultation with Attorney).

XV. RECONVENE PUBLIC MEETING & TAKE ANY ACTION AS RESULT OF EXECUTIVE SESSION

Council did not reconvene in Executive Session following the close of the public meeting agenda.

XVI. ADJOURNMENT

Mayor Pruitt adjourned the meeting at 10:01 p.m.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS 5th DAY OF FEBRUARY, 2018.

40

MINUTES
ROCKWALL CITY COUNCIL
SPECIAL CITY COUNCIL MEETING

Monday, January 22, 2018, 5:00 PM
City Hall - 385 S. Goliad, Rockwall, Texas 75087

I. CALL PUBLIC MEETING TO ORDER

Mayor Pruitt called the meeting to order at 5:10 p.m. Present were Mayor Jim Pruitt, Mayor Pro Tem John Hohenshelt, and Council Members Dana Macalik, Mike Townsend, Kevin Fowler, Bennie Daniels and Dennis Lewis. Also present were City Manager Rick Crowley and Assistant City Managers Mary Smith and Brad Griggs.

II. WORK SESSION

1. Hold a work session to consider potential capital improvement projects associated with future bond election.

Mayor Pruitt began the work session discussion. He provided a broad overview of the capital improvement-related discussions that have taken place on the part of the Council for the last couple of years. He generally indicated that an Engineering study has been completed that shows the city in desperate need of addressing roadway replacement and/or repairs. As such, the Council began evaluating the possibility of calling a bond election to address some of these needs. The mayor shared that if the city spends $60 million on roadway improvements, it can issue that debt over a period of 10 years without raising city taxes. He expressed that he is not in favor of a tax increase. He acknowledged having heard from the park board representatives and airport board representatives as well as other groups within the city (i.e. theater and orchestra groups) expressing additional needs; however, he is not in favor of raising taxes at this point. Instead, he prefers that this bond election solely focus on road-related projects.

Councilmember Daniels generally expressed the belief that citizens should have an opportunity to vote on additional projects (such as ball fields) and decide on their own if they do or do not wish for their taxes to be raised in order to pay for those things. Councilmember Townsend expressed agreement with Councilmember Daniels' sentiments in this regard. He pointed out that a recent parks and recreation survey showed that the citizens are really interested in having additional ball fields. In addition, regarding other projects (such as the airport), he also does not have a desire to raise taxes. He shared that the city is right on the cusp of not being able to absorb costs pertaining to additional, large projects within the regular city budget. He does believe that the voters should be able to decide what they are willing to pay for.

Councilmember Macalik also expressed opposition to raising taxes, indicating that she is most concerned about the city's infrastructure and roadways. She believes that a lot of the

roadway and infrastructure improvements are way overdue, acknowledging that $120 million could easily be spent on roads and infrastructure because there are so many needs.

Mayor Pruitt clarified that the Council will not be taking action this evening; however, the hope is to make a definitive decision by the February 5 city council meeting if possible.

Councilmember Fowler inquired about the finish out of the neighborhood parks, asking if the city could come up with a means by which these parks could be prioritized and what sort of amenities would need to be included. Assistant City Manager Brad Griggs indicated that public hearings would need to be held with residents in those particular neighborhoods in order to determine what amenities they would like to see in their neighborhood park(s). Brief comments were made pertaining to the north lakeside park. Indication was given that Rockwall will need to further work with the City of Dallas in order to establish additional interlocal agreement for some of the property along the lakeshore. However, he expressed, the city could begin developing the area that extends out about 3,500 feet beyond Dalton Road.

Councilmember Hohenshelt suggested that the Council systematically address the various CIP-related topics one at a time (i.e. roads first, parks next, the airport after, etc.).

Councilmember Fowler acknowledged that the city's true roadway-related needs far exceed $60 million. However, that is the dollar amount that would mean taxes won't have to be raised.

Assistant City Manager Mary Smith briefed the Council on the process that would ensue if a bond election was successful. She shared that the $60 million would be issued over time; as only a limited number of projects can take place at one time over the course of the ten years. She shared that the estimates that have been made concerning "project management" may be inflated and may therefore allow for some 'wiggle room.'

Councilmember Hohenshelt proposed that any bond proposition related to streets be increased to $90 million. He suggests this because there will be a cost escalation, and that will need to be factored in, and the numbers we are working with are already two years out-of-date. He then shared details regarding the tax rate of various other cities within the Metroplex. Of the half a dozen or so cities he mentioned, Rockwall's city tax rate was the lowest. He seems to express that a tax rate increase may be necessary in order to address aged and failing infrastructure. Furthermore, he does not believe that Rockwall citizens would necessarily balk at the need for a tax rate increase if it were related to improving roadways.

Lengthy discussion ensued pertaining to how much debt should potentially be proposed in a bond election and the associated, possible tax implications if certain amounts of debt were to be approved for issuance by voters. Mrs. Smith generally indicated that there are a lot of variables that come into play when attempting to make such predictions, such as future sales tax and property tax revenues, among other things.

Councilmember Fowler expressed concern about the potential that a $90 million debt issuance proposal in a bond election could fail and not be approved by voters. Then, the

city will be forced to wait for three years before a subsequent roadway-related bond election could be held.

Councilmember Macalik shared that she has taken time over the last couple of months to visit with some local constituents to discuss their feelings on potentially having their taxes raised – if not substantially – in order to address roadway improvements. She expressed that about 80% of those with whom she spoke seemed to express they would be in favor of that, especially because they are so frustrated with our city's roadways.

Mr. Crowley shared that staff could bring forth a resolution for the Council to consider at the February 5 regular city council meeting that reflects $90 million in debt issuance for roadways and then prepare estimates with regards to issuing that debt over a period of 10 years or more (attempting to estimate the amount of time over which the debt could potentially be issued without taxes having to be raised).

Mr. Crowley cautioned the Council on possibly being too specific in bond proposition language with regards to roadway repairs versus expansion(s) of roadways.

Mr. Crowley indicated that staff will move forward with bringing forth an election order for the Council to consider at its next meeting. At Council's direction, he will ensure to be relatively non-specific on the language that is utilized in the election order, including the proposed bond proposition language.

Additional discussion then ensued (again) pertaining to the existing tax rate, possible tax rate increases and associated implications, especially pertaining to the possibility that bad economic times could possibly occur over the course of the next ten years. The governor's and lieutenant governor's tax rate caps were also discussed.

Mr. Crowley pointed out that needed drainage improvements have also been put forth to the Council for consideration and discussion as part of this work session. Mrs. Smith shared that if a brand new roadway is being built, the cost of putting in water/sewer infrastructure can be spent as part of the new roadway installation. However, if new water/sewer infrastructure is needed on an existing roadway, the cost has to be taken out of water/sewer funds, and doing so would affect rates.

City Engineer Amy Williams pointed out the various drainage-related projects that have been identified within the city. Mayor Pruitt urged the Council to consider which of these sorts of projects, if any, may be the city's responsibility to fix. The Council generally expressed a desire to perhaps evaluate drainage-related projects as part of a future bond election (not this one in May 2018), as they believe that more information on these projects is needed and more discussion is necessary.

Mayor Pruitt recessed the meeting, calling for a break at 6:32 p.m.

Mayor Pruitt called the meeting back to order at 6:50 p.m.

Mr. Crowley then engaged the Council in discussions pertaining to possible park-related capital improvement projects. Mayor Pruitt generally asked the Park Board chairman, Brad Bassett, to consider having the Park Board further prioritize and attempt to solidify

additional details pertaining to amenities that may need to be included in finishing out the various neighborhood parks throughout the city.

Councilmember Lewis expressed that our city's ball fields have been subpar ever since he moved to Rockwall in 1993. Therefore, residents living in Rockwall leave our city to go to other cities to have their kids play ball, resulting in those residents spending their money elsewhere. Also, Rockwall is not able to attract tournaments, which would also result in additional tax dollars. He believes that Rockwall is a "baseball town," and our city is notably subpar when evaluated against other cities to which we often compare ourselves. Councilmember Lewis generally expressed a desire to put ball fields on the ballot and allow voters to decide whether or not they want to spend tax dollars on them. Assistant City Manager, Brad Griggs, shared that ball fields have traditionally been among the top five priorities of the city over the last several years.

Councilmember Townsend shared that a lot of things are not easily quantifiable – for example, 'quality of life' and 'open space.' He believes that Parks are key to maintaining quality of life. In addition, the city has been discussing lake side parks for years, and he believes that citizens are interested in lake side parks. Furthermore, he pointed out that a "ball fields" project is the only project that will actually bring revenue into the city.

Mr. Crowley expressed that the city's bond counsel would need to verify this; however, he believes that park-related bond propositions could be put forth as separate items or as one, combined item.

Councilmember Macalik suggested that perhaps the Council might consider putting forth the lake side park as one, stand alone bond proposition and then put forth, for example, ball fields as a separate bond proposition on the ballot.

Councilmember Hohenshelt pointed out that bond projects are associated with capital expenditures; however, additional maintenance-related expenses will invariably impact the budget in general (i.e. mowing, lighting, general maintenance and upkeep, etc.). He generally expressed a desire for the Park Board to do some additional work in order to provide additional information to the Council.

Councilmember Townsend recommended that the Council consider putting forth a bond proposition that contains both a lake side park and an athletic (ball fields) complex.

Mayor Pruitt expressed concern about the parks and recreation-related projects not yet having been sufficiently evaluated. He suggested that parks related items should potentially be placed on the next uniform election date (rather than on an election this May).

Councilmember Townsend pointed out that the Council did not allocate funding in this year's budget to allow for parks and recreation related projects to be studied in more depth (i.e. hiring a consultant to assist with estimated costs, possible amenities, etc.).

Mayor Pruitt expressed that he is not in favor of spending tax payer dollars to build a ball field complex so that a lot of players who do not live in our city can come into our city and utilize those facilities.

Councilmember Townsend expressed strong support for the Council putting forth to the voters a proposition(s) that would allow voters to decide on increasing ball field capacity within the city. He believes that the existing league is not growing, and, as a result, it eventually will fail.

Mayor Pruitt expressed a desire for the Council to figure out how to prioritize the needs of all organizations within the city (i.e. theater groups, baseball, soccer, 'the arts,' etc.).

Mr. Crowley clarified that the Park Board will work on bringing forth additional, more concrete details pertaining to potential bond-related projects between now and the next city council meeting.

Councilmember Hohenshelt urged Mr. Bassett, Park Board chairman, to consider bringing back to the Council for consideration a specific bond proposition dollar amount, as well as more specifics about what benefits each project might possibly afford (i.e. if we spend "x amount of dollars" on ballfield enhancements, "x number of additional teams" may be served).

Mayor Pruitt expressed concern about park-related bond projects perhaps being "rushed" for inclusion on this upcoming May's uniform election date. He feels that more time is needed to study the projects, and more thought needs to be put into them without rushing forward with placing them on a bond election ballot.

Discussion ensued related to possibly authorizing money to be spent on hiring consultants to perform a study in order to help the Park Board further evaluate the needs and associated costs. Mr. Crowley shared that existing money is in the city's Rec Development fund that could be utilized to further evaluate these park-related needs. Indication was given that the city manager will spend money (within his spending limits) to hire a consultant to work with staff and the Park Board to bring back some additional information between now and the next scheduled city council meeting.

Joey Boyd, Director of Internal Operations, and Dwight Royall, current Chairman of the city's Airport Advisory Board, then discussed capital expenditure-related needs pertaining to the city's municipal airport. It was pointed out that a lot of the project needs at the airport could be accomplished through 'matching grant funds' potentially available through the federal government. Mr. Boyd suggested updating the cost estimates. Mayor Pruitt shared that he has reservations with possibly condemning someone's property and purchasing it if the city is not going to end up actually using it. Mr. Crowley cautioned that staff and the Airport Board will need to be sure that TXDOT Aviation rules are carefully followed. Mr. Royall proposed a meeting with a subcommittee of the Council, Airport Advisory Board members (or a subcommittee of the board) as well as the person at TXDOT Aviation who is responsible for land acquisition. Mr. Royall urged the Council to move forward with starting the process of acquiring the land because he believes doing so will demonstrate to TXDOT Aviation that the City of Rockwall is serious about moving forward. Mr. Crowley suggested that Mr. Griggs, Mr. Boyd, and Mr. Royall meet with the TXDOT Aviation land acquisition representative and then report back to the Council thereafter. Mr. Royall pointed out that there are several airport hangars that will, in the short term, will end up reverting to the city and generating some off-setting revenue.

Mayor Pruitt expressed the belief that TXDOT may likely not fund smaller airports like Rockwall's in the future, especially since the funds they have available have become limited.

Mayor Pruitt again expressed a desire for the Council to, at some point, consider the needs of other groups within the city, such as "the arts" groups (theater, orchestra, etc.). Mr. Crowley indicated that staff will be happy to work with any / all of those groups. Mayor Pruitt shared that The Rockwall Summer Musicals, the Rockwall Community Playhouse and the Rockwall Philharmonic Orchestra are the groups to which he is referring. Councilmember Fowler wonders what the level of interest is that Rockwall citizens have in these sorts of groups. Mr. Crowley indicated that a citizen survey has not been conducted in a number of years, so it is not certain. Councilmember Fowler is interested in knowing what our citizens value as far as facility-related needs. Mr. Crowley pointed out that the city itself also has building related CIP needs (i.e. police station, city hall expansion, etc.).

Councilmember Daniels pointed out that the organizations Mayor Pruitt has mentioned (i.e. theater groups) are currently privately funded; whereas, the other facilities that the Council has been speaking about are related to publicly-funded programs (i.e. the city's sports / ball fields program and the municipal airport).

Councilmember Fowler expressed that he is nearly convinced that the Council will only be able to logically vote on putting forth road-related CIP projects on a bond election within the next eighteen working days.

Mayor Pruitt shared that perhaps the city council should consider establishing a CIP citizen committee in the future to evaluate other, future bond election projects. Councilmember Hohenshelt shared that he too believes that only road-related projects should be put forth to voters on a May 2018 bond election.

The Council took no formal action as a result of these work session discussions.

III. ADJOURNMENT

Mayor Pruitt adjourned the meeting at 8:10 p.m.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS 5th DAY OF FEBRUARY, 2018.

CITY OF ROCKWALL

ORDINANCE NO. 18-11

SPECIFIC USE PERMIT NO. S-184

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, TEXAS, AS PREVIOUSLY AMENDED, SO AS TO GRANT A SPECIFIC USE PERMIT (SUP) TO ALLOW A DETACHED GARAGE THAT DOES NOT MEET THE MINIMUM REQUIREMENTS, ON A 0.830-ACRE TRACT OF LAND ZONED SINGLE-FAMILY 10 (SF-10) DISTRICT AND IDENTIFIED AS THE WILSON ADDITION, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OR FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, a request has been made by Trent Hyde for the approval for a Specific Use Permit (SUP) for the purpose of constructing a detached that does not meet the minimum masonry requirements as stipulated by the Unified Development Code (UDC), situated on 0.830-acre tract of land, zoned Single-Family 10 (SF-10) District, and being identified as the Wilson Addition, City of Rockwall, Rockwall County, Texas, addressed as 218 West Quail Run Road, and being more specifically depicted in *Exhibit 'A'*, which herein after shall be referred to as the *Subject Property* and incorporated reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall, in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall, have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally, and to all persons interested in and situated in the affected area and in the vicinity thereof, the governing body in the exercise of its legislative discretion has concluded that the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall should be amended as follows:

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:

SECTION 1. That the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall, as heretofore amended, be and the same is hereby amended so as to grant a Specific Use Permit allowing for the establishment of a metal detached garage that does not conform to the minimum masonry requirements and maximum size requirements for detached garages in a Single-Family 10 (SF-10) District as stipulated by Subsection *2.1.2, Residential and Lodging Use Conditions,* of Section 2, *Use Standards*, of Article IV*, Permissible Uses,* of the Unified Development Code [*Ordinance No. 04-38*] on the *Subject Property*; and

SECTION 2. That the *Subject Property* shall be used only in the manner and for the purposes described in this Specific Use Permit (SUP) ordinance and as specifically set forth in Subsection 3.4*, Single-Family 10 (SF-10) District,* of Section 3*, Residential Districts*, of Article V*, District Development Standards,* of the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall as heretofore amended, as amended herein by the granting of this zoning change, and as my be amended in the future, and shall be subject to the following operational conditions:

2.1 OPERATIONAL CONDITIONS

The following conditions shall pertain to the construction of a detached garage on the subject property, and conformance to these operations is required for continued operation:

1) The detached garage shall generally conform to the site plan depicted in *Exhibit 'B'* and building elevations depicted in *Exhibit 'C'* of this ordinance.

2) The detached garage shall not exceed a maximum size of 900 SF.

3) The detached garage shall not exceed a maximum overall height of 15-feet.

4) The subject property shall have no more than two (2) accessory buildings.

5) The detached garage is subject to administrative review in the event that the *Subject Property* is sold, conveyed or altered in any manner.

2.2 COMPLIANCE

Approval of this ordinance in accordance with Section 8.3, *Council Approval or Denial*, of Article II, *Authority and Administrative Procedures*, of the Unified Development Code (UDC) will require compliance to the following:

1) Upon obtaining a Certificate of Occupancy (CO), should any business or establishment operating under the guidelines of this ordinance fail to meet the minimum operational requirements set forth herein and outline in the Unified Development Code (UDC), the City Council may (*after proper notice*) initiate proceedings to revoke the Specific Use Permit (SUP) in accordance with Section 4.4.(3) of Article IV, *Permissible Uses*, of the Unified Development Code (UDC).

SECTION 3. That the official zoning map of the City be corrected to reflect the changes in zoning described herein.

SECTION 4. That all ordinances of the City of Rockwall in conflict with the provisions of this ordinance be, and the same are hereby repealed to the extent of that conflict.

SECTION 5. Any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *TWO THOUSAND DOLLARS* (*$2,000.00*) for each offence and each and every day such offense shall continue shall be deemed to constitute a separate offense.

SECTION 6. If any section or provision of this ordinance or the application of that section or provision to any person, firm, corporation, situation or circumstance is for any reason judged invalid, the adjudication shall not affect any other section or provision of this ordinance or the application of any other section or provision to any other person, firm, corporation, situation or circumstance, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions of this ordinance shall remain in full force and effect.

SECTION 7. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 5TH DAY OF FEBRUARY, 2018.

CITY OF ROCKWALL, TEXAS
MEMORANDUM

TO: **Richard Crowley, City Manager**

FROM: **Lea Ann Ewing, Purchasing Agent**

DATE: **January 26, 2018**

SUBJECT: **Purchase of a used Crane Truck**

Approved in the Water & Sewer Fund, Wastewater operating budget is $125,000 to purchase a used crane truck. Request for Sealed Proposals were solicited this January to find a used crane truck from dealers who mainly buy and sell used construction/utility vehicles and equipment. One bid was received from Utility Truck Equipment Company (UTEC) located in Waco. Their truck bid met our specifications and the bid price of $125,000 was within budget.

The proposed truck is a 2016 model Ford F750 chassis with 8,557 miles. Installed on the chassis is a Knapheide Custom Crane Body and a Venturo 8K Hydraulic Crane. UTEC offered a 12-month warranty on the chassis, bed and all equipment. This truck was used only by UTEC for demo purposes. Staff physically inspected the truck and its equipment for specification compliance and were completely satisfied. This truck listed for approximately $139,478 (new condition) in 2016.

For Council consideration is the bid award to UTEC for the used crane truck for $125,000 and authorize the City Manager to approve a purchase order for the purchase of this truck.

MEMORANDUM

To: **Rick Crowley, City Manager**

From: **Lea Ann Ewing, Purchasing Agent**

Date: **January 31, 2018**

Subject: **Replace Police Patrol Charger**

Recently one of our 2014 model Police Patrol Chargers was involved in an accident. TML has examined this vehicle and declared it totaled. TML has paid the City $17,388 as settlement. Staff would like to replace this Charger.

A new 2018 model pursuit Charger meeting specifications has been located at Love Field Chrysler Dodge for $25,736. This vehicle is available for purchase through the Dallas County purchasing cooperative contract #802913. As a member and participant in this cooperative program, the City has met all formal bidding requirements pertaining to the purchase of this new vehicle.

For Council consideration are 1) a budget amendment increase of $8,400 in General Fund, Police Patrol Vehicle budget for the difference needed to purchase the new Charger, 2) the bid award to Love Field Dodge and 3) authorizing the City Manager to execute a purchase order for this new vehicle.

MEMORANDUM

TO: **Rick Crowley, City Manager**

FROM: **Kirk Riggs, Chief of Police**

DATE: **January 31, 2018**

SUBJECT: **PMAM Amendment to Agreement**

Attached for your review and consideration is an Amendment to Agreement for Police and Fire Alarm Tracking and Billing services with PMAM Corporation. We entered into our original contract with PMAM in November of 2008. City Attorney Frank Garza and I have both reviewed this agreement and are satisfied with its content.

PMAM has offered to increase the City's ratio from 44% to 60%, and reduce PMAM to 40% of the total revenue collected annually.

Council is asked to consider authorizing the City Manager to approve the revised agreement with PMAM Corporation.

AMENDMENT TO AGREEMENT

THIS AMENDMENT TO AGREEMENT is made and entered in the City of Rockwall on March 1, 2018, by and between the CITY OF ROCKWALL, a municipal corporation, herein referred to as City, and PM AM CORPORATION, hereinafter referred to as Contractor.

WITNESSETH:

WHEREAS, on November 6, 2008 the City entered into an Agreement with Contractor for contact services in connection with the City of Rockwall's Alarm Ordinance, per Ordinance No. 08-62; and

Whereas, the City desires to extend the term of the Agreement for an additional 5 years and Contractor has mutually agreed.

NOW THEREFORE, in consideration of their mutual promises, obligations and covenants hereinafter contained, the parties hereto agree as follows:

1. The initial term of this Agreement shall be for a period of five (5) years commencing on March 1, 2018 and ending on the day immediately preceding the fifth anniversary of the Contract Implementation Date. Upon the expiration of the Initial Term, this Agreement shall be subject to automatic extension from year to year thereafter (each an **"Extended Term"**) on the same terms and conditions as set forth herein, unless either party notifies the other in writing at least sixty (90) days prior to the expiration of the Initial Term or the Extended Term, as applicable, that such party will not further extend the term of this Agreement.

2. Effective March 1, 2018 the split ratio identified in Exhibit B under "Compensation", shall read as follows:

City of Rockwall to receive:	60%
PM AM Corporation to receive:	40%

3. All other terms and conditions of the Agreement remain in full force and effect.

IN WITNESS WHEREOF, the parties hereto have caused this instrument to be executed the day and year first written above.

EXHIBIT "B"

Specifications for Alarm Tracking and Billing Service and Revenue Sharing Agreement

The City of Rockwall (City) wants to ensure the overall success of the enforcement of the City's Alarm Ordinance related to alarm tracking and billing. The City wants to reduce the number of false alarms and save valuable resources of the Rockwall Police Department (RPD). The City also wishes to increase the revenue through PMAM's Alarm Tracking and Billing (ATB) system by timely collection of renewal fees, collection of fines and new permit fees. The City wants to outsource the entire operation of administering and maintenance of this system. Under the said revenue-sharing / outsourcing agreement, PMAM shall:

1. Provide a software package that maintains and tracks the false alarm data and reports as outlined later in this document.
2. Perform all 7 testing procedures (internal and external ATB system) to ensure the integrity of the ATB. (1) Unit (2) Integration (3) External Function (4) System (5) Acceptance (6) Regression and (7) Installation.
3. Send out "Alarm Permit Applications" for renewals.
4. Send out Alarm permit applications to residents who may have alarms but are not registered in the system.
5. Download "call data" on a daily basis.
6. Send out letters and invoices to the residences/businesses who have had more than 3 or more than incidents of false alarm.
7. Follow up with the defaulters who have not paid their dues on time on a monthly basis.
8. Collect all fees associated with program.
9. Reconcile accounts on a monthly basis.
10. Identify top 1 % to 5% residents/businesses that have been responsible for maximum number of false alarm calls and send them the required material to bring awareness to alarm reduction program.
11. Respond to all queries that citizens may have within 24 hours of the time the complaint was received by PMAM on normal business days Monday through Friday, 8 am – 5 pm.
12. Provide required information and reports to the RPD representative on a weekly basis.

PMAM Responsibilities

1. PMAM will work towards increasing the number of new and renewed permit applications and reduce the false alarm count. Given the cost advantage of solutions developed in India, it will reduce the running cost of the operations and make profits for itself as well as for the City.
2. PMAM will make several enhancements in consultation with the RPD and City officials so that the citizens are provided up to date information and at the same time they have the ease of paying their dues.
3. Some of the areas identified for enhancements are
    - Provide a web-based solution allowing for payment of alarm permit fee on line.

- In all correspondence with the citizens for the false alarm calls, the system will provide the history of the false alarms caused by the residents. This will result in residents making fewer calls to determine whether they have been billed correctly.
- Make voice enabled multi-media CDs that officers may drop at business places and the new incumbents will be able to listen, see and learn about the precautions they may take to reduce the false alarms.
- One software personnel will be available in our Indian facility to develop additional features, reports and modules that may be needed to continuously improve the software deployed for the ATB system. The software specialist will be available during the term of the contract.
- Apart from the current reports that are generated for the false alarm reduction program, PMAM will identify new reports though which effectiveness, efficiency and accuracy of the information can be monitored by the City and PMAM.
- Will provide an Alarm Tracking and Billing System (ATB) system which will aid the False Alarm Reduction Program and service the ATB system with the following capabilities:
    i. Tracking new and existing registrations (The City currently has approximately 3,400 permit holders)
    ii. False alarm and violation (finable and non finable reports)
    iii. Billing notifications
    iv. Collection services
    v. Self Service Login capability by the citizens to maintain their account and view the history
    vi. Online bill payment capability by the citizens
    vii. Detailed invoice generation, which will have the history of all the False alarms

4. PMAM will accurately convert all pertinent data downloaded from the City's current primary alarm and accounts receivable (AR) databases to populate the ATB system. PMAM will provide ATB system interface to upload data from RPD's New World System on a daily basis. The interface will be such a way that all parties share and benefit from the most current and accurate information and do not cause any disruption to the City and RPD operations.

5. PMAM will provide a single point of contact and personnel for daily citizen assistance, who will be located at PMAM's Las Colinas office,

6. PMAM shall test and integrate the customized ATB system within 4 to 6 weeks from the receipt of all applicable data from the City. Thereafter PMAM's personnel will take care of the daily operations and ensure its smooth functioning.

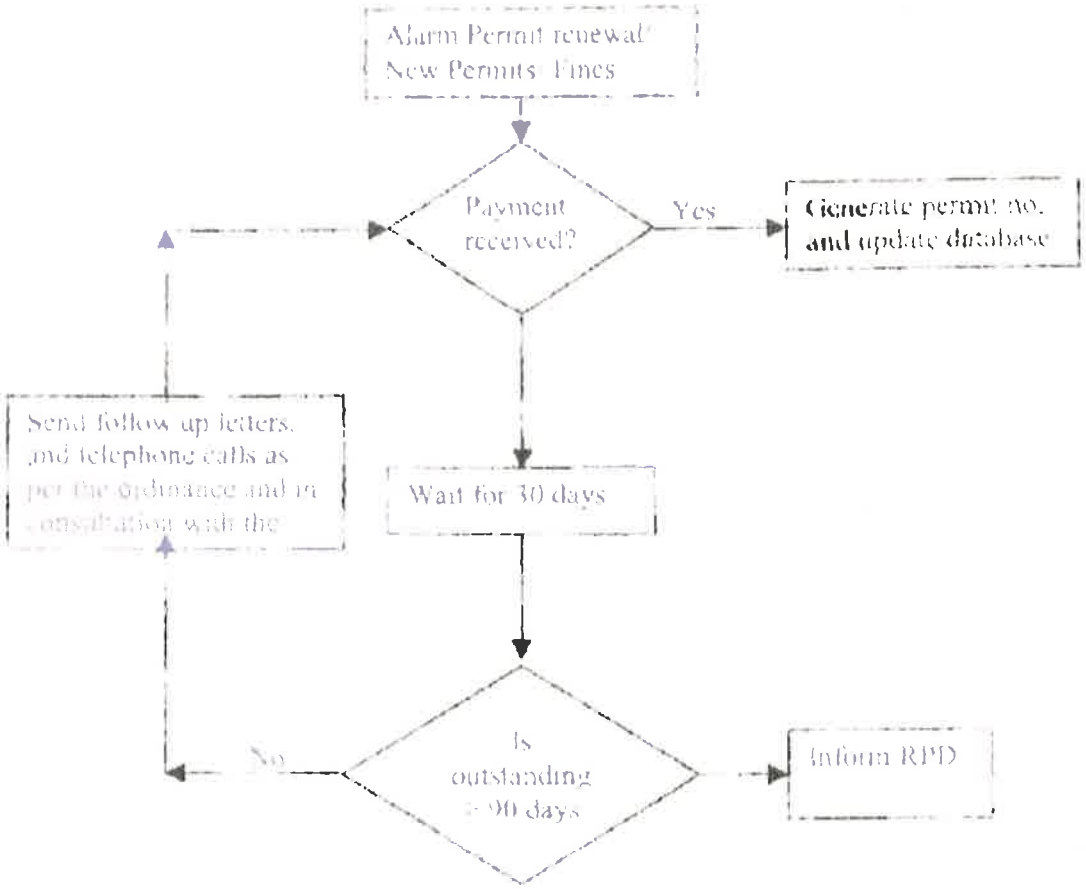
PMAM's Understanding of the ATB System

ATB system can be broadly classified into 3 main processes:

1. Alarm Renewals' new permits/fines and payment follow up.

Whenever a fee or a fine needs to be collected, an invoice is generated and sent to the citizens. If the payment is not received within 30 days, then a reminder notice is sent as per the ordinance and backed by a telephone call. This cycle will be repeated 3 times. If after 90 days the amount is outstanding. PMAM will inform the RPD and the City by written report.

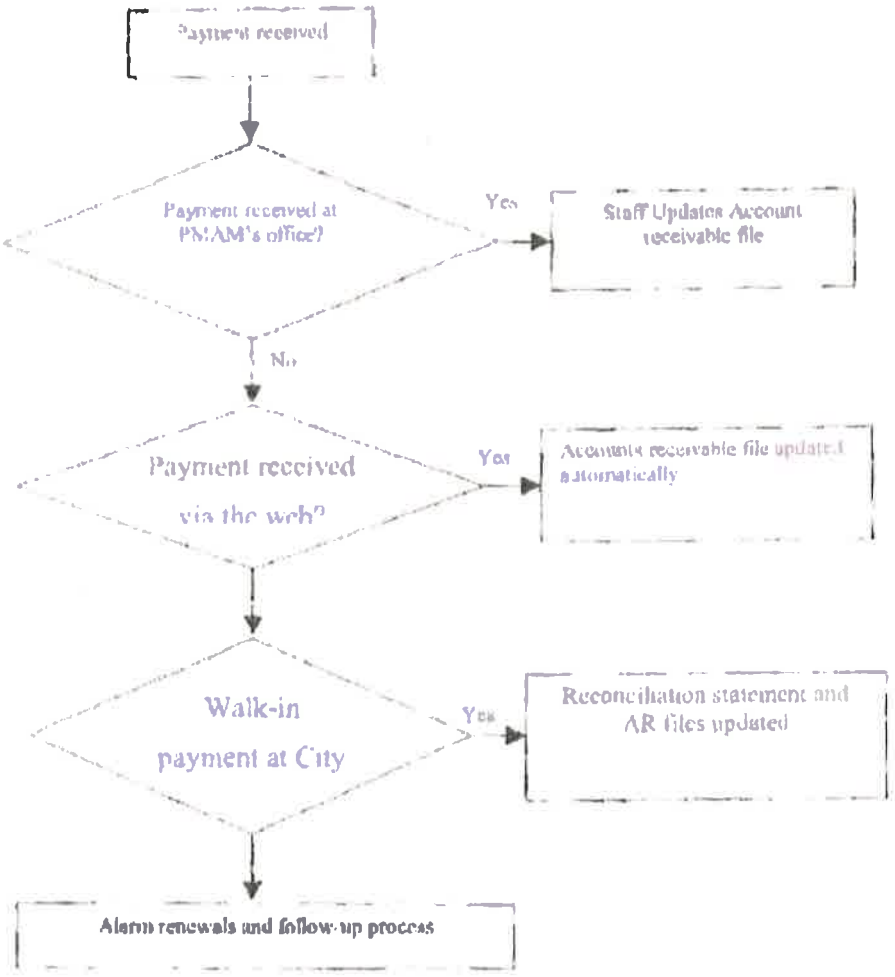
Flow Chart for Alarm Renewals/New Permits/Fines and Payment Follow Up



2. False Alarm fee (Registered and Unregistered users).

When an alarm is received, the CAD dispatches the RPD officers. The police officer returns and updates the status of the alarm disposition. The ATB system will pick up this information from the CAD once a day. The ATB system will determine whether there exists a permit number for the location. If the citizen did not have a permit number then a permit application and an application fee invoice is sent as per the Ordinance. If the citizen had a permit number, however it was a false alarm, then the system will determine the total number of false alarms that have been generated by that permit number in the past 12 months. If the count is more than 3, then the citizen is fined as per the Ordinance.

Flow Chart for False Alarm Fee



3. Payment and Collection Process.

There are 3 ways that the citizen can pay the permit fees/fines. (1) The citizen can send the check payment to PMAM's office and the staff will update the A/R file. (2) If the payment is received via the web then the account receivable file is automatically updated after the payment is approved. (3) The citizen can also walk in to the City office and make the payment. In that case PMAM will collect the payments from the City office and generate reconciliation statement and update the A/R file.

PMAM's Suggestions/Enhancements

PMAM'S ATB system will have full compliance with all the features described in this contract. PMAM can also generate the following additional reports. These reports will help the City and the management of PMAM to analyze the new system and make improvements or take corrective actions as necessary.

1. Report for number of inbound calls received from customers seeking clarification. It is PMAM's intent to bring down the number of inbound calls from the current volume that the RPD and City receive.
2. Report for number of outbound calls to follow up for collections. This will help analyze the effort put in by PMAM for collections.
3. Report for the type of calls received. This can also be linked to the area, or individual, so that the citizens are aware of what corrective action to take to avoid false alarms.
4. Citizens can also be informed that they have generated 3 false alarms within a calendar year and the next one will attract a fine as outlined in the ordinance. This will enable the citizens to take notice and take preventive action to reduce the number of false alarms.
5. A Report can also be generated which shows the revenue collected at different points of time, example, more than 3 alarm defaulters, non registered users fine, renewal fees, new permit fees.
6. All the reports generated in point 5 above can also be viewed by effort; that is the payment as received after how many follow up reminders.
7. PMAM can have login for the citizens. The citizens will have to login using their permit numbers and a password which is known only to them. Citizens can then maintain their own accounts. They can change the address, telephone number and any other personal information. The citizens will be able to view their history of alarms online. The citizens will be able to pay their bills online. This self-service option will reduce the number of calls to PMAM office and hence increase the efficiency.

Database Conversion

PMAM will accurately convert all pertinent data downloaded from the City's current primary alarm database (New World Systems) and accounts receivable (AR) databases (AS/400) to populate the ATB system. This will be a one-time activity. PMAM will take current record layout and the details of the

- Field name
- Type
- Length
- Business rules associated with the fields

PMAM will map the fields with its own database structure and then write SQL procedures to convert and upload the database from New World Systems and AS/400 to PMAM's ATB system.

Based on the uploaded database PMAM will generate important reports and check the accuracy of these reports with the existing reports of the current ATB system.

PMAM will provide ATB system interface to upload data from RPO New World Systems on a daily basis. This will be accomplished by running an SQL query on the CAD database as is currently being done. PMAM will provide an interface to upload the relevant data from the ATB system to CAD (this phase is e pected to take about 1 week).

Compensation

Revenue sharing will commence when PMAM talces over revenue collection activity. Revenue is defined as all fees related to alarms but not fines (which will accrue fully to the City of Rockwall).

Revenue sharing of alarm fees:	City of Rockwall to receive	60%
	PMAM to receive	40%

PMAM shall provide and pay for all facilities, products, labor, materials, maintenance, tools, delivery, transportation and other facilities and services necessary to implement the ATB system and perform the work required under this agreement.

Mode of Collections

1. Currently PMAM banks with "Bank of America".
2. Payments collected by PMAM from the citizens of Rockwall for the purpose of new permit, renewals, false alarms fines will be deposited in a separate account opened for the False Alarm Reduction Program. The account shall be in the name of PMAM Corporation.
3. Any payment made through the website will also be deposited to this account.
4. Any alarm payment made at the City office will remain with the City and be deducted from their rortion of the revenue sharing.
5. On the 1st day of the subsequent month, PMAM will run a report to determine the total collections for the previous month. For example, for the month of July, the collections report wiII be ran on August 15th.
6. The City's share will then be determined as shown by the table above. PMAM will deliver the check to the City and the share of PMAM shall be deposited in the corporate account PMAM.

PMAM shall provide to the City all written and oral citizen correspondence for review and approval by the City representative before such correspondence is delivered to the citizens.

MEMORANDUM

TO: **Rick Crowley – City Manager**

FROM: **Brad Griggs – Assistant City Manager**

DATE: **January 29, 2018**

SUBJECT: **2018 Founders Day Festival**

In preparation for the 2018 Founders Day Festival scheduled for Saturday, May 19, staff is requesting that the City Council to authorize the City Manager to enter into an agreement with WME for festival headline entertainment. The contract amount is $45,000 plus rider requirements to be paid from the Hotel/Motel Tax revenue. These funds were appropriated in the 2017-2018 fiscal year budget. We can begin to publish the name of the headline entertainment beginning the third week of April.

Similar to the past three or four years, there will be a daytime stage featuring regional acts and the main stage will begin at 6:00pm with a support act followed by the headline entertainment. There will be close to one hundred vendor booths and a variety of food vendors open throughout the festival as well as a large children's area.

Staff will be available to answer any questions at the meeting.

City of Rockwall
The New Horizon

MEMORANDUM

TO: **Honorable Mayor and City Council Members**

FROM: **Kristy Cole, City Secretary / Assistant to the City Manager**

DATE: **February 2, 2018**

SUBJECT: **Resolution calling May 5, 2018 General Election**

The attached resolution serves as the city's "election order" to call the May 5, 2018 General Election. City Council Member Places 2, 4, and 6 will appear on the ballot. The application period for those seeking local elected office runs from January 17 thru February 16, 2018. In the coming weeks, staff will work with Chris Lynch, Rockwall County Elections Administrator, to prepare and bring forth a contract regarding administering the city's election on its behalf. The city attorney has reviewed the draft resolution.

CITY OF ROCKWALL, TEXAS

RESOLUTION NO. 18-01

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, CALLING A GENERAL ELECTION TO BE HELD JOINTLY WITH THE ROCKWALL INDEPENDENT SCHOOL DISTRICT AND ADMINISTERED BY THE ROCKWALL COUNTY ELECTIONS ADMINISTRATOR ON SATURDAY, MAY 5, 2018 FOR THE PURPOSE OF ELECTING THREE (3) COUNCIL MEMBERS - ONE (1) FOR PLACE 2, ONE (1) FOR PLACE 4, AND ONE (1) FOR PLACE 6 - EACH FOR TWO (2) YEAR TERMS; DESIGNATING THE ENTIRE CITY AS ONE ELECTION PRECINCT; DESIGNATING THE POLLING PLACE; DESIGNATING FILING DEADLINES: ORDERING NOTICES OF ELECTION TO BE POSTED AND PUBLISHED AS PRESCRIBED BY LAW IN CONNECTION WITH SAID ELECTION; PROVIDNG A SEVERABILITY CLAUSE; AND PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, Section 41.001(a) of the Texas Election Code, as amended (the "Code") specifies that each general or special election in this state shall be held on the first Saturday in May in an even-numbered year and that a general election of a city may be held on such day; and

WHEREAS, the City Council of the City of Rockwall, Texas (hereinafter referred to as the "City"), in accordance with its City Charter, Section 5.01, has determined that the City shall conduct general municipal elections on the first Saturday in May 2018; and

WHEREAS, Section 271.002(a) of the Texas Election Code authorizes two or more political subdivisions to enter into an agreement to hold elections jointly in the election precincts that can be served by common polling places; and

WHEREAS, the City of Rockwall and Rockwall Independent School District desire that a joint election be held in order to provide a convenient, simple, and cost-saving election to the voters in their respective jurisdictions; and

WHEREAS, the City of Rockwall and Rockwall County Elections Administrator will enter into an agreement setting out their respective duties and responsibilities for the May 5, 2018 election; and

WHEREAS, by this Resolution, it is the intention of the City Council to: (i) call for said election to be held on said date, (ii) designate the entire City as one election precinct, (iii) designate the Rockwall County Library as the polling place for the election and (iv) establish and set forth procedures for conducting said election.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:

Section 1. Incorporation of Premises. That all of the above premises are found to be true and correct and are incorporated into the body of this Resolution as if copied in their entirety.

Section 2. Election Date, Purpose of Election, Officers and Terms of Office. That a general election is hereby ordered to be held in and throughout the City of Rockwall on Saturday, May 5, 2018, for the purpose of electing three (3) Council Members - one (1) for Place 2, one (1) for Place 4, and one (1) for Place 6 - each for two (2) year terms.

Section 3. Eligibility for Candidacy. That in accordance with Section 22.032 of the Texas Local Government Code and Section 5.02 of the City Charter of the City of Rockwall, no person shall be eligible for the office of Council Member, unless he/she is a registered voter who shall have resided within the corporate limits of the City, or recently annexed territory, for at least twelve (12) months prior to the filing deadline, shall be twenty-one years old and not be in arrears in payment of taxes or other liabilities due the City. In accordance with Section 5.04 of the City Charter, a plurality vote is required to be elected and declared the winner.

Section 4. Application for a Place on the Ballot. That in accordance with Section 143.007 of the Code, any eligible and qualified person may have his/her name printed upon the official ballot as a candidate for the offices herein before set forth by filing his/her sworn application with the City Secretary not earlier than 8:00 a.m., January 17, 2018 and not later than 5:00 p.m., February 16, 2018. Each such application shall be on a form as prescribed by Section 141.031 of the Code. The order in which the names of the candidates are to be printed on the ballot shall be determined by a drawing by the City Secretary as provided by Section 52.094 of the Code. Notice of the time and place for such drawing shall be given in accordance with the Code.

Section 5. Election Precinct, Polling Place, and Election Hours. That the entire City of Rockwall, Texas shall constitute one (1) election precinct for the election, and the polling place is hereby designated to be located at the Rockwall County Library – 1215 E. Yellow Jacket Lane, Rockwall, TX 75087. In accordance with and pursuant to the requirements of the Code, said polling place shall be open from 7:00 a.m. until 7:00 p.m. on the date of the election.

Section 6. Early Voting. That early voting by personal appearance shall also be conducted at the Rockwall County Library - 1215 E. Yellow Jacket Lane Rockwall, TX 75087, Heath City Hall – 200 Laurence Drive, Heath TX, Fate City Hall – 1900 CD Boren Parkway, Fate, TX, Royse City Hall – 305 N. Arch St., Royse, TX, Cullins Lake Pointe Elementary – 5701 Scenic Drive, Rowlett, TX and McLendon Chisholm City Hall – 1371 W. FM 550, Rockwall, TX- on the following dates at the specified times:

Monday, April 23 through Friday, April 27 from 8:00 a.m. until 5:00 p.m.;
Saturday, April 28 from 10:00 a.m. until 3:00 p.m.; and
Monday, April 30 and Tuesday, May 1 from 7:00 a.m. until 7:00 p.m.

Applications for ballot by mail shall be requested from and mailed to the Rockwall County Election Administrator at 915 Whitmore Drive, Suite D Rockwall, TX 75087. The last day to receive an application by mail for a ballot to be voted by mail is no later than the close of business on April 24, 2018.

Section 7. Method of Voting. That ES&S' ExpressVote System shall be used for early voting by personal appearance and for Election Day voting. Optical scan ballots shall be used for early voting by mail. The City Secretary, acting as chief elections officer, shall ensure at least one (1) ES&S ExpressVote "ADA" approved voting machine is provided at the polling place as required by Section 61.012, of the Texas Election Code.

Section 8. Governing Law and Qualified Voters. That the election shall be held in accordance with the constitution of the State of Texas and the Code, and all resident, qualified electors of the city, shall be eligible to vote at the election.

Section 9. Publication and Posting of the Notice. That notice of the election in English and Spanish shall be given by posting a notice of election on the City Hall bulletin board used for posting notices of the meetings of the City Council not less than twenty-one (21) days prior to the date upon which the election is to be held, and by publication of said notice at least once in a newspaper of general circulation in accordance with Section 2051.44 of the Texas Government Code, the date of said publication to be not less than ten (10) days and not more than thirty (30) days prior to the date set for the election.

Section 10. That the Rockwall County Elections Administrator shall serve as the Administrator of the election. The Elections Administrator shall appoint a sufficient number of judges and clerks in accordance with Chapter 32 Texas Elections Code to assist in the proper conduct of the election.

Section 11. Delivery of Returns: Preservation of Election Records. That in accordance with the Code and the City's contract with the Rockwall County Elections Administrator, immediately after the closing of the poll on the day of the election, the election officers shall make and deliver the returns of the election in triplicate as follows: one copy shall be retained by the Presiding Election Judge and by the Presiding Election Judge of the Early Voting Ballot Board, one copy shall be delivered to the Mayor of the City, and one copy of the returns, together with the ballot boxes and all election supplies, shall be delivered to the Rockwall County Elections Administrator. All election records and supplies shall be preserved in accordance with the Code.

Section 12. Representatives. That the following slate of officials and other designated persons are hereby authorized to be present to observe the election counting process:

- the Mayor and members of the City Council of the City of Rockwall;
- candidates for the City Council of the City of Rockwall; and
- the Rockwall City Secretary or her designated representative.

Section 13. Canvassing of Returns. That the City Council of the City shall convene between May 8, 2018 and May 16, 2018 to canvass the returns of the election in accordance with the Texas Election Code.

Section 14. Necessary Action. That the Mayor and the City Secretary of the City, in consultation with the City Attorney, are hereby authorized and directed to take any and all actions necessary to comply with the provisions of the Code in carrying out and conducting the election, whether or not expressly authorized herein.

Section 15. Severability. That should any part, section, subsection, paragraph, sentence, clause or phrase contained in this resolution be held to be unconstitutional or of no force and effect, such holding shall not affect the validity of the remaining portion of this resolution, but in all respects said remaining portion shall be and remain in full force and effect.

Section 16. Effective Date. That this resolution shall be in force and effect from and after its passage, and it is accordingly so resolved.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS 5th DAY OF FEBRUARY, 2018.

City of Rockwall
The New Horizon

MEMORANDUM

TO: **Rick Crowley, City Manager**

FROM: **Mary Smith, Assistant City Manager**

DATE: **February 2, 2018**

SUBJECT: **Bond Election May 2018**

Bond Election Resolution

Bond Counsel, Leroy Grawunder, McCall, Parkhurst & Horton has prepared a couple of versions of the resolution calling the bond election for May 2018. As the Council finalizes discussions, resolutions are in the packet to allow for Streets and Parks propositions and or just one proposition for Streets. In addition, more descriptive and less descriptive language can be selected. Bond Counsel will explain how the recent changes in state law regarding failed propositions causes him to lean toward less descriptive language on propositions. IN addition, the dollar amounts are left blank and will be filled in as the Council makes decisions regarding the projects.

Ability to Absorb New Issues as Debt Levels Drop

This information was previously provided to Council and is included here for reference purposes.

Fiscal Year 2019 – $4.7 million dollars
Fiscal Year 2020 – $9.1 million dollars running total $13.8million
Fiscal Year 2021 – $9.6 million dollars running total $23.4million
Fiscal Year 2024 – $2.6 million dollars running total $26.0million
Fiscal Year 2026 – $6.6 million dollars running total $32.6million
Fiscal Year 2027 – $20.5 million dollars running total $53.1million
Fiscal Year 2028 – $6.9 million dollars running total $60.0million

Impact of Accelerated Issuance – Increased Assessed Values

In order to accelerate the issuances to attempt to complete the road improvements over a five-year rather than a ten-year period could at first analysis require a potential 6-cent tax rate increase. Various scenarios have been run which looked at value increases from a minimum of 5% annually to a maximum of 8% in the early years. The most recent five-year average is 8.63% so these increases should be more than conservative enough for this purpose. This level of value growth should allow the City to either issue the debt for $60million in projects within 7-8 years rather than 10 years or provide opportunity for an additional $20-$25million of additional debt during the 10 year period without a tax rate increase.

For each additional $1million to be issued we would assume $78,000 per year in debt service payable over twenty years. The current assessed value allows the City to fund approximately $500,000 in debt service per penny on the tax rate. This factor will improve as assessed values increase. All of the scenarios that have been run anticipate keeping the debt rate near its current amount of 17.82 cents which is about 40% of the city's current rate.

Conclusion

Looking at a number of scenarios its seems very likely that the City should be able to absorb $60million in new debt within 7-8 years or issue an additional $20million above this level without a tax rate impact. A desire on the part of future Councils to either further accelerate project timelines or pursue other projects could cause a need for a higher debt rate which could result in a tax rate increase.

CITY OF ROCKWALL
RESOLUTION NO. ____

A RESOLUTION BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, CALLING A BOND ELECTION TO BE HELD WITHIN SAID CITY; MAKING PROVISION FOR THE CONDUCT OF THE ELECTION; AND CONTAINING OTHER PROVISIONS INCIDENT AND RELATED TO THE PURPOSE OF THIS RESOLUTION

WHEREAS, this City Council finds and determines that it is necessary and advisable to call and hold an election (the "Election") within the City on the propositions hereinafter set forth;

WHEREAS, this City Council deems it advisable and in the best interest of the City and the health, welfare and safety of its residents to present propositions in the Election hereinafter ordered to provide needed park and recreational improvements and street and road projects in the City;

WHEREAS, the Election is subject to the provisions of Texas Election Code (the "Code") and the City is contracting with Rockwall County, Texas (the "County") for the administration of the Election pursuant to an interlocal agreement with the County (the "Election Contract") and the Code; and

WHEREAS, the County, acting through the County Elections Administrator (the "Elections Administrator") in accordance with the Election Contract, will provide for the administration of the Election; and

WHEREAS, it is hereby officially found and determined that said meeting was open to the public, and public notice of the time, place and purpose of said meeting was given, all as required by Chapter 551, Texas Government Code;

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:

Section 1. Findings. The statements contained in the preamble of this Resolution are true and correct and are adopted as findings of fact hereby, which findings are conclusive and incontestable.

Section 2. Election Date; Polling Places. An election shall be held in the City of Rockwall, Texas, between the hours of 7:00 a.m. and 7:00 p.m. on May 5, 2018 ("Election Day"). Election Day voting is to be administered by the Elections Administrator, as provided in the Election Contract and the Code. Voting on Election Day shall occur during the hours and at the designated polling places designated in the Election Contract and as set forth in Exhibit "A" attached hereto, which exhibit shall be modified to include additional or different Election Day polling places required to conform to the Election Contract and the Code.

Section 3. Early Voting. (a) Early Voting is to be administered by the Elections Administrator as set forth in the Election Contract and the Code. Early voting shall be conducted by personal appearance at the locations and during the period early voting is required or permitted by law, being April 23, 2018 through May 1, 2018, on the dates and at the times as set forth in Exhibit "B" attached hereto, which exhibit shall be modified to include additional or different early voting polling places, dates and times required to conform to the Election Contract and the Code. The Elections Administrator shall serve as the early voting clerk in accordance with the Election Contract and the Code.

(b) Applications for early voting by mail must be received (not postmarked) by April 24, 2018 at the following address: Christopher J. Lynch, Rockwall County Elections Administrator and Early Voting Clerk, 915 Whitmore Dr., Suite D, Rockwall, Texas 75087; email: clynch@rockwallcountytexas.com.

If application to vote by mail is made by personal delivery, the application must be delivered by the close of business on April 20, 2018.

Section 4. Propositions. At the Election, the following propositions shall be submitted in accordance with law:

CITY OF ROCKWALL, TEXAS PROPOSITION A

Shall the City Council of the City of Rockwall, Texas, be authorized to issue and sell the bonds of said City, in one or more series or issues, in the aggregate principal amount of $_____, for the purpose of constructing and equipping improvements and additions to City parks, including recreational and sports facilities and related infrastructure; with said bonds to be issued in one or more series or issues, to mature serially or otherwise not to exceed 40 years from their date and bear interest at such rate or rates, not to exceed the respective limits prescribed by law at the time of issuance, and to be sold at such price or prices, as the City Council in its discretion shall determine; and shall there be levied and pledged, assessed and collected annually ad valorem taxes on all taxable property in said City in an amount sufficient, within the limits prescribed by law, to pay the annual interest on said bonds and provide a sinking fund to pay said bonds at maturity?

CITY OF ROCKWALL, TEXAS PROPOSITION B

Shall the City Council of the City of Rockwall, Texas, be authorized to issue and sell the bonds of said City, in one or more series or issues, in the aggregate principal amount of $_____, for the purpose of reconstruction and rehabilitation of existing streets, roads and thoroughfares in the City, including related drainage, utility relocation and landscaping; with said bonds to be issued in one or more series or issues, to mature serially or otherwise not to exceed 40 years from their date and bear interest at such rate or rates, not to exceed the respective limits prescribed by law at the time of issuance, and to be sold at such price or prices, as the City Council in its discretion shall determine; and shall there be levied and pledged, assessed and collected annually ad valorem taxes on all taxable property in said City in an amount sufficient, within the limits prescribed by law, to pay the annual interest on said bonds and provide a sinking fund to pay said bonds at maturity?

Section 5. Official Ballots. The official ballots for the Election shall be prepared in accordance with the Code, so as to permit the electors to vote "FOR" or "AGAINST" the aforesaid propositions which shall be set forth in substantially the following form:

CITY OF ROCKWALL, TEXAS SPECIAL ELECTION
CITY OF ROCKWALL, TEXAS PROPOSITION A

FOR	( )	THE ISSUANCE OF $_____ TAX BONDS BY THE CITY OF ROCKWALL, TEXAS FOR IMPROVEMENTS AND ADDITIONS TO CITY PARKS, INCLUDING RECREATIONAL AND SPORTS FACILITIES AND LEVYING THE TAX IN PAYMENT THEREOF
AGAINST	( )	

CITY OF ROCKWALL, TEXAS SPECIAL ELECTION
CITY OF ROCKWALL, TEXAS PROPOSITION B

FOR	( )	THE ISSUANCE OF $_____ TAX BONDS BY THE CITY OF ROCKWALL, TEXAS FOR STREET AND ROAD RECONSTRUCTION
AGAINST	( )	AND LEVYING THE TAX IN PAYMENT THEREOF

Section 6. Persons Qualified to Vote. All resident qualified electors of the City shall be permitted to vote in the Election.

Section 7. Notice and Conduct of Election. Proper notice of the Election shall be given and, in all respects, the Election shall be conducted in accordance with the Code.

Section 8. Election Officers. That the Elections Administrator, early ballot board, voting judges, voting clerks and all other election officers and officials designated or to be designated pursuant to law and the Election Contract are hereby appointed and confirmed to hold the Election at said polling places and all early voting places. The Elections Administrator, the City and the County may employ other personnel necessary for the proper administration of the Election, including such part-time help as is necessary for the Election, to ensure the timely delivery of supplies during early voting and on Election Day.

Section 9. Further Procedures. The City Council hereby authorizes and directs the Mayor, City Manager, Assistant City Manager, City Secretary, and all other officers, employees and agents of the City, in consultation with the City Attorney, if necessary, to do and perform all such acts and to execute, acknowledge and deliver in the name and on behalf of the City such documents, agreements, certificates and other instruments, whether or not mentioned in this Resolution, as may be necessary or desirable in order to carry out the terms, provisions and actions provided for in this Resolution.

Section 10. Required Information. In accordance with the provisions of Section 3.009(b), Texas Election Code, it is hereby found and determined that:

(a) The proposition language that will appear on the ballot is set forth in Section 5 hereof.

(b) The purpose for which the bonds are to be authorized is set forth in Section 4 hereof.

(c) The principal amount of the bonds to be authorized is set forth in Sections 4 and 5 hereof.

(d) As set forth in Sections 4 and 5 hereof, if the bonds are approved by the voters, the City Council will be authorized to levy annual ad valorem taxes on all taxable property in the City, sufficient, within the limits prescribed by law, to pay the annual principal of and interest on the bonds and provide a sinking fund to pay the bonds at maturity.

(e) Based upon the bond market conditions at the date of adoption of this Resolution, the maximum interest rate for any series of the bonds is estimated to be 5.00% as calculated in accordance with applicable law. Such estimate takes into account a number of factors, including the issuance schedule, maturity schedule and the expected bond ratings of the proposed bonds. Such estimated maximum interest rate is provided as a matter of information, but is not a limitation on the interest rate at which the bonds, or any series thereof, may be sold.

(f) As set forth in Section 4 hereof, if the bonds are approved, they may be issued in one or more series over a period not to exceed 40 years from the date of issuance of each series of bonds.

(g) The aggregate amount of the outstanding principal of the City's debt obligations which are secured by ad valorem taxes as of the beginning of the City's 2017-2018 fiscal year is $135,140,000.

(h) The aggregate amount of the outstanding interest of the City's debt obligations which are secured by ad valorem taxes as of the beginning of the City's 2017-2018 fiscal year is $39,751,996.00.

(i) The ad valorem debt service tax rate for the City for the 2017-2018 fiscal year is $0.1782 per $100 of taxable assessed valuation.

Section 11. Effective Date. This Resolution shall be in full force and effect from and after its passage and it is accordingly so resolved.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, this 5th day of FEBRUARY, 2018.

RESOLUTION NO. ____

A RESOLUTION BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, CALLING A BOND ELECTION TO BE HELD WITHIN SAID CITY; MAKING PROVISION FOR THE CONDUCT OF THE ELECTION; AND CONTAINING OTHER PROVISIONS INCIDENT AND RELATED TO THE PURPOSE OF THIS RESOLUTION

WHEREAS, this City Council finds and determines that it is necessary and advisable to call and hold an election (the "Election") within the City on the proposition hereinafter set forth;

WHEREAS, this City Council deems it advisable and in the best interest of the City and the health, welfare and safety of its residents to present the proposition in the Election hereinafter ordered to provide needed street and road projects in the City;

WHEREAS, the Election is subject to the provisions of Texas Election Code (the "Code") and the City is contracting with Rockwall County, Texas (the "County") for the administration of the Election pursuant to an interlocal agreement with the County (the "Election Contract") and the Code; and

WHEREAS, the County, acting through the County Elections Administrator (the "Elections Administrator") in accordance with the Election Contract, will provide for the administration of the Election; and

WHEREAS, it is hereby officially found and determined that said meeting was open to the public, and public notice of the time, place and purpose of said meeting was given, all as required by Chapter 551, Texas Government Code;

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:

Section 1. Findings. The statements contained in the preamble of this Resolution are true and correct and are adopted as findings of fact hereby, which findings are conclusive and incontestable.

Section 2. Election Date; Polling Places. An election shall be held in the City of Rockwall, Texas, between the hours of 7:00 a.m. and 7:00 p.m. on May 5, 2018 ("Election Day"). Election Day voting is to be administered by the Elections Administrator, as provided in the Election Contract and the Code. Voting on Election Day shall occur during the hours and at the designated polling places designated in the Election Contract and as set forth in Exhibit "A" attached hereto, which exhibit shall be modified to include additional or different Election Day polling places required to conform to the Election Contract and the Code.

Section 3. Early Voting. (a) Early Voting is to be administered by the Elections Administrator as set forth in the Election Contract and the Code. Early voting shall be conducted by personal appearance at the locations and during the period early voting is required or permitted by law, being April 23, 2018 through May 1, 2018, on the dates and at the times as set forth in Exhibit "B" attached hereto, which exhibit shall be modified to include additional or different early voting polling places, dates and times required to conform to the Election Contract and the Code. The Elections Administrator shall serve as the early voting clerk in accordance with the Election Contract and the Code.

(b) Applications for early voting by mail must be received (not postmarked) by April 24, 2018 at the following address: Christopher J. Lynch, Rockwall County Elections Administrator and Early Voting Clerk, 915 Whitmore Dr., Suite D, Rockwall, Texas 75087; email: clynch@rockwallcountytexas.com.

If application to vote by mail is made by personal delivery, the application must be delivered by the close of business on April 20, 2018.

Section 4. Propositions. At the Election, the following proposition shall be submitted in accordance with law:

CITY OF ROCKWALL, TEXAS PROPOSITION A

Shall the City Council of the City of Rockwall, Texas, be authorized to issue and sell the bonds of said City, in one or more series or issues, in the aggregate principal amount of $_____, for the purpose of reconstruction and rehabilitation of existing streets, roads and thoroughfares in the City, including related drainage, utility relocation and landscaping; with said bonds to be issued in one or more series or issues, to mature serially or otherwise not to exceed 40 years from their date and bear interest at such rate or rates, not to exceed the respective limits prescribed by law at the time of issuance, and to be sold at such price or prices, as the City Council in its discretion shall determine; and shall there be levied and pledged, assessed and collected annually ad valorem taxes on all taxable property in said City in an amount sufficient, within the limits prescribed by law, to pay the annual interest on said bonds and provide a sinking fund to pay said bonds at maturity?

Section 5. Official Ballots. The official ballot for the Election shall be prepared in accordance with the Code, so as to permit the electors to vote "FOR" or "AGAINST" the aforesaid proposition which shall be set forth in substantially the following form:

CITY OF ROCKWALL, TEXAS SPECIAL ELECTION
CITY OF ROCKWALL, TEXAS PROPOSITION A

FOR	( )	THE ISSUANCE OF $_____ TAX BONDS BY THE CITY OF ROCKWALL, TEXAS FOR STREET AND ROAD RECONSTRUCTION
AGAINST	( )	AND LEVYING THE TAX IN PAYMENT THEREOF

Section 6. Persons Qualified to Vote. All resident qualified electors of the City shall be permitted to vote in the Election.

Section 7. Notice and Conduct of Election. Proper notice of the Election shall be given and, in all respects, the Election shall be conducted in accordance with the Code.

CITY OF ROCKWALL, TEXAS
MEMORANDUM

TO: **Brad Griggs, Assistant City Manager**

FROM: **Andy Hesser, Parks and Recreation Director**

DATE: **January 31, 2018**

SUBJECT: **APPOINTMENT WITH PARK BOARD CHAIRMAN BRAD BASSETT**

At the January 22nd special Council meeting, Park Board Chairman Brad Bassett presented a request that Council consider including certain park projects on the proposed upcoming bond election ballot. After much discussion, Council asked that the Park Board provide additional detail regarding their requests. To facilitate that direction, Park Board held a special meeting on Monday January 29th and voted unanimously of the four present that Council consider the following for the upcoming bond election:

- Phase 2 neighborhood parks construction - $ $2,200,000
- Renovations of Myers ballfields and Yellowjacket ballfields - $1,500,000
- Authorize funding a feasibility study for an athletic complex in this year's budget for consideration of a bond program at the next possible general election.
- Consider funding the completion of concept plans for the remaining identified projects in the 2017 Strategic Plan (Alma Williams Howard Park, a south community, The Lakeside Park and The Lakes of Squabble Creek)

I have included a summary of what was discussed for the neighborhood park phase 2 construction that identifies suggested parks, amenities and associated costs. The spreadsheet lists the cost estimates to renovate and light Myers ballfields to game and tournament quality as well as lighting the fields at Yellowjacket and additional parking. There are also maps of each proposed neighborhood park that show the boundaries and existing amenities.

Mr. Bassett will be available to present the Park Board recommendations. Staff will be available to answer any questions.

Northshore Park - District 4		**$450,000.00**
	1/3 mile trail loop

CITY OF ROCKWALL, TEXAS
MEMORANDUM

TO: Mayor and City Council

CC: Rick Crowley, *City Manager*
Brad Griggs, *Assistant City Manager*

FROM: Ryan Miller, *Director of Planning and Zoning*

DATE: February 5, 2018

SUBJECT: Appointment with Ed Hicks, Jr. of Clay Cooley Automotive

Ed Hicks, Jr. of Clay Cooley Automotive is requesting an appointment with the City Council to discuss amending S-131 [*Ordinance No. 15-05*] (*in the attached packet*) to allow for the demolition of the metal building that currently exists at 1530 E. IH-30. Under *Ordinance No. 15-05*, the applicant is required to meet certain benchmarks associated with improvements on the property to keep the current SUP active. This SUP allows for limited outside storage of new automobiles on the subject property, and has the ability for the applicant to convert this use to a *New Automotive Dealership* (*without amending the SUP*) if all phases of the improvements outlined in the ordinance are completed. Currently, the applicant has finished *Phases 1 & 2* -- *which include various paving and drainage requirements* -- and is proceeding to commence with *Phase 3*, which requires the exterior of the metal building be clad in an Aluminum Composite Material (ACM). The applicant has indicated to staff that they are working on closing a deal with a new automotive dealership and will be demolishing the building to accommodate the new user. Based on this they would like to amend the S-131 to allow for the demolition of the metal building as opposed to improving a building they will be later demolishing; however, if they submit an application to amend the SUP ordinance the case would not be heard by the City Council until March 19, 2018 and the ordinance would not be approved until April 2, 2018. This approval date would be after the March 2, 2018 date that they would need to have completed *Phase 3*.

After conferring with the City Attorney, staff has determined that the City Council cannot indicate whether or not they would approve the requested SUP amendment -- *since this would be a zoning request* --; however, the City Council could allow for deferred action of the SUP ordinance, which would allow the applicant to submit an application. The application would need to be submitted to staff by February 16, 2018 and would not be complete until April 2, 2018. In the event that the City Council chooses not to approve the applicant's SUP amendment request on March 19, 2018, the Council could set a new benchmark date for the *Phase 3* improvements at that meeting. Should the City Council have any questions concerning the schedule or the attached SUP ordinance, staff will be available at the meeting on February 5, 2018.

CITY OF ROCKWALL

ORDINANCE NO. 15-05

SPECIFIC USE PERMIT NO. S-131

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, TEXAS, AS PREVIOUSLY AMENDED, SO AS TO AMEND SPECIFIC USE PERMIT NO. S-107 TO ALLOW FOR A NEW MOTOR VEHICLE DEALERSHIP ON A TEN (10) ACRE TRACT OF LAND IDENTIFIED AS TRACTS 4 & 4-02 OF THE N. M. BALLARD SURVEY, ABSTRACT NO. 24, AND THE A. HANNA SURVEY, ABSTRACT NO. 99, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OR FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, a request has been made by Zack Amick of Gordon Rockwall Investments, LLC on behalf of Keith Young for the purpose of amending Specific Use Permit No. 107 to allow a *New Motor Vehicle Dealership* on a ten (10) acre tract of land identified as Tracts 4 & 4-02 of the N. M. Ballard Survey, Abstract No. 24 and the A. Hanna Survey, Abstract No. 99, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, located within the IH-30 Overlay (IH-30 OV) District, and more specifically described in *Exhibit 'A'* of this ordinance, which herein after shall be referred to as the *Subject Property* and incorporated by reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall, in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall, have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally, and to all persons interested in and situated in the affected area and in the vicinity thereof, the governing body in the exercise of its legislative discretion has concluded that the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall should be amended as follows:

NOW AND THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:

SECTION 1. That the enactment of this Specific Use Permit (SUP) Ordinance shall supersede all requirements stipulated in *Ordinance No. 13-13*;

SECTION 2. That the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall, as heretofore amended, be and the same is hereby amended so as to grant a Specific Use Permit (SUP) allowing for the establishment of a *New Motor Vehicle Dealership* within a Light Industrial (LI) District as stipulated by Article IV, *Permissible Uses*, of the Unified Development Code on the *Subject Property*;

SECTION 3. That the *Subject Property* shall be developed and/or used only in the manner and for the purposes described in this Specific Use Permit (SUP) ordinance and as stipulated by Section 2.1.10, *Distribution and Storage,* of Article IV, *Permissible* Uses; Section 5.1, *General Industrial District Standards*; Section 5.3, *Light Industrial (LI) District*, of Article IV, *District Development Standards*; Section 6.6, *IH-30 Overlay (IH-30 OV) District* of the Unified Development Code [*Ordinance No. 04-38*] as heretofore amended, as amended herein by granting of this zoning change, and as may be amended in the future, and shall be subject to the additional following operational conditions and compliance standards:

3.1 COMPLIANCE STANDARDS

Approval of this ordinance in accordance with Section 8.3, *Council Approval or Denial*, of Article II, *Authority and Administrative Procedures*, of the Unified Development Code (UDC) will require compliance to the following standards:

1) This Specific Use Permit (SUP) shall be subject to review by Planning Department staff and/or the Planning and Zoning Commission and City Council within three (3) years of the effective date of the ordinance. At the time of review, Planning Department staff shall be required to review the completeness of the improvements outline in the applicant's letter contained in *Exhibit 'B'* of this ordinance and listed as follows:

   (i) *Phase 1.* Engineering plans addressing paving, drainage, and etcetera shall be approved by the Engineering Department. The storm water/drainage and detention pond shall be permitted and accepted by the City.
   (ii) *Phase 2.* All concrete paving depicted on the *Concept Plan* in *Exhibit 'C'* of this ordinance shall be permitted and accepted by the City.
   (iii) *Phase 3.* Remodel of existing building façade in conformance with the *Building Elevations* contained in *Exhibit 'D'* of this ordinance shall be permitted and accepted by the City.

   Should the improvements be complete staff shall provide a report to the Planning and Zoning Commission and City Council indicating conformance to the requirements of this ordinance, and operation of the *New Motor Vehicle Dealership* shall be permitted to continue under the requirements of this ordinance and the Unified Development Code (UDC). Should the improvements be incomplete this SUP ordinance shall automatically expire.

2) Should the *Subject Property* continued to be operated as an outside storage/outside display lot for new vehicles in conjunction with the adjacent *New Motor Vehicle Dealership* (*i.e. S-094*) then no Certificate of Occupancy (CO) shall be required. Upon changing the use to a standalone *New Motor Vehicle Dealership*, a Certificate of Occupancy (CO) shall be required for the change of use.

3) Should any business or establishment operating under the guidelines of this ordinance fail to meet the minimum operational requirements set forth herein and outline in the Unified Development Code (UDC), the City Council may -- *after proper notice* -- initiate proceedings before the City Council to revoke this SUP ordinance.

3.2 OPERATIONAL CONDITIONS

The following conditions pertain to the operation of a *New Motor Vehicle Dealership* on the *Subject Property*, and conformance to these operational conditions is required for continued operation:

1) All development on the *Subject Property* shall be in conformance to the *Concept Plan* depicted in *Exhibit 'C'* of this ordinance;

2) The rehabilitation of the existing structure on the *Subject Property* shall conform to the *Concept Building Elevations* depicted in *Exhibit 'D'* of this ordinance;

3) Should the use of the subject property become independent of the adjacent *New Motor Vehicle Dealership* [*Young Hyundai*] (*i.e. any event that would require a separate Certificate of Occupancy [CO] to be issued*) and development not conforming to *Exhibits 'C'* and *'D'* of this ordinance is proposed, a new site plan submittal shall be required to be submitted, reviewed and approved by the Planning and Zoning Commission and/or City Council in accordance with the requirements of the Unified Development Code;

4) All motor vehicles shall be required to be parked on an all-weather surface (*i.e. concrete or asphalt*) upon the completion of the three (3) year time period established in *Section 3.1* of this SUP ordinance.;

5) The redevelopment of the *Subject Property* shall generally be in conformance with the timeline established by the applicant's letter contained in *Exhibit 'B'* of this ordinance, and shall be reviewed by staff for compliance upon receipt of an application for renewal; and,

6) The operation of the *Subject Property* shall conform to all federal, state and local standards.

SECTION 4. That the official zoning map of the City of Rockwall be corrected to reflect the changes described herein.

SECTION 5. That all ordinances of the City of Rockwall in conflict with the provisions of this ordinance be, and the same are hereby repealed to the extent of that conflict.

SECTION 6. Any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *TWO THOUSAND DOLLARS* ($2,000.00) for each offence and each and every day such offense shall continue shall be deemed to constitute a separate offense.

SECTION 7. If any section of provision of this ordinance or the application of that section or provision to any person, firm, cooperation, situation or circumstance is for any reason judged invalid, the adjudication shall not affect any other section or provision of this ordinance or the application of any other section or provision to any other person, firm, corporation, situation or circumstance, and the City Council declares that it would have to adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions of this ordinance shall remain in full force and effect.

SECTION 8. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 2ND DAY OF MARCH, 2015.

Jim Pruitt, Mayor

BEING a 10.000 acre tract or parcel of land lying and being situated in the N. M. BALLARD SURVEY, Abstract 24, and the A. HANNA SURVEY, Abstract 99, in the City of Rockwall, Rockwall County, Texas and being that certain tract described in Special Warranty Deed to Gordon Rockwall Investments, LLC, recorded in Volume 6959, Page 100, Deed Records, Rockwall County, Texas (D.R.R.C.T.) and a portion of that certain tract described in deed to Thomas Real Estate, LP, recorded in Volume 1507, Page 203, D.R.R.C.T.; and being more particularly described by metes and bounds as follows:

BEGINNING at an aluminum TxDOT monument at the southern end of a corner clip located at the intersection of the southerly right-of-way line of Interstate Highway 30 (a variable width right-of-way) and the west right-of-way line of Commerce Street (a 60-foot wide right-of-way per Cabinet F, Slide 379, Map Records, Rockwall County, Texas);

THENCE South 00 degrees 40 minutes 20 seconds East, along the east line of said Gordon Rockwall tract and said west right-of-way line, a distance of 707.36 feet to a *3/8* inch iron rod found for the southeast corner of said Gordon Rockwall tract and the southwest corner of said right-of-way of Commerce Street; said found iron rod also being located at an angle point in the north line of said Thomas Real Estate tract;

THENCE South 00 degrees 35 minutes 03 seconds East, crossing said Thomas Real Estate tract, a distance of 469.11 feet to a point for corner;

THENCE South 89 degrees 24 minutes 57 seconds West, continuing to cross said Thomas Real Estate tract, a distance of 472.60 feet to a point on the west line of said Thomas Real Estate tract;

THENCE North 00 degrees 21 minutes 13 seconds West, along the west line of said Thomas Real Estate tract, a distance of 468.78 feet to a 112 inch iron rod found for the northwest corner of said Thomas Real Estate tract and the southwest corner of that certain tract described in General Warranty Deed to Rockwall Credit Services, L.C., recorded in Volume 4314, Page 34, D.R.R.C.T;

THENCE North 89 degrees 22 minutes 30 seconds East along the common line of the said Thomas Real Estate tract and said Rockwall Credit Services, L.C. tract, a distance of 153.71 feet to a point for corner; said point being the southeast corner of the Rockwall Credit Services, L.C. tract and the southwest corner of the Gordon Rockwall tract;

THENCE North 00 degrees 41 minutes 38 seconds West, continuing along the common line of said Rockwall Credit tract and Gordon Rockwall tract, a distance of 629.40 feet to a point for corner in the south right-of-way line of the aforementioned Interstate Highway 30, same point being the northeast corner of said Rockwall Credit tract and the northwest corner of said Gordon Rockwall tract;

THENCE North 72 degrees 46 minutes 00 seconds East, continuing along said south right-of-way line and along the north line of said Gordon Rockwall tract, a distance of 308.48 feet to a point for the northern end of the aforementioned corner clip;

THENCE South 65 degrees 17 minutes 09 seconds East, along said comer clip, a distance of 23.86 feet to the Point of Beginning and containing 10.000 Acres (435,600 Square Feet) of land.

NOTE: The Basis of Bearings for this description is the deed to Thomas Real Estate, LP, recorded in Volume 1507, Page 203, D.R.R.C.T. This description is based upon a compilation of public records.

Robert LaCroix, AICP
Director of Planning
Planning and Zoning
City of Rockwall
385 South Goliad Street
Rockwall, TX 75087

Subject: 1530 IH-30 East, Rockwall, Texas Special Use Permit

Dear Mr. LaCroix,

The purpose of this letter is to request a change to our existing Specific Use Permit. As you know, this property currently has an SUP that was approved by City Council on 06/03/2013 allowing outside storage and display of motor vehicles. This SUP has a time limitation of 3 years. Our business is growing and we would like to expand.

The capital investment required to improve the property for our use is significant and we respectfully request a Specific Use Permit allowing for a "Motor Vehicle Dealership, New" on the subject 10.00-acre tract of land with existing buildings located at 1530 Interstate Highway 30 East, Rockwall, Texas.

Listed below is an outline of planned improvements for the property. We intend to complete the work in 3 phases over a 3 year period of time.

Phase 1: Engage a civil engineer to provide plans meeting city approval for phased development that address paving, drainage, utilities etc. Complete storm drainage and detention pond within 12 months of receiving counsel approved SUP.
Phase 2: Concrete paving improvements will be completed within 24 months of receiving counsel approved SUP.
Phase 3: Within 36 months of receiving counsel approved SUP. Remodel the existing building façade with new exterior elevations that includes masonry, storefront glazing and other items that would be similar to our existing dealership.

Sincerely,

Zack Amick

CITY OF ROCKWALL, TEXAS
MEMORANDUM

TO: Mayor and City Council

CC: Rick Crowley, *City Manager*
Brad Griggs, *Assistant City Manager*

FROM: Ryan Miller, *Director of Planning and Zoning*

DATE: February 5, 2018

SUBJECT: Request for Release of Extraterritorial Jurisdiction (ETJ)

Wayne Hunter, PE of RPS Group has requested an appointment with the City Council to discuss releasing approximately 288.50-acres of land situated within the City of Rockwall's Extraterritorial Jurisdiction (ETJ) to the City of Royse City. The request is being made on behalf of Camden Homes for the purpose of allowing the Royse City CCN to serve wastewater service in the capacity needed to support a 322.34-acre development (*i.e. ~288.50-acres is situated within the City of Rockwall's ETJ and the remainder situated within the City of Royse City ETJ*). According to the applicant's letter, this development will consist of 763 single-family lots, 20.30-acres of senior living, 22.00-acres of multi-family, 17.80-acres of commercial/retail and an 8.40-acre storage facility. Staff has included the applicant's letter requesting the appointment, and a map and concept plan provided by the applicant showing the proposed development. In addition, staff has received an email from the City Manager of the City of Royse City stating, "…concerns regarding the high density plans for the area and the associated impacts on an already strained transportation system." Should the City Council have any questions Mr. Hunter will be available at the meeting on February 5, 2018.

Mr. Ryan Miller, AICP
Director of Planning
City of Rockwall
385 S. Goliad
Rockwall, Texas 75087

Re: Camden Homes- Request for Removal from Rockwall ETJ

Dear Mr. Miller,

Camden Homes has acquired a 322.34 Acre tract of land situated south of interstate 30 approximately 2.8 miles contiguous with the eastern right of way of FM 548, in Rockwall County. Given the considerable investment for this tract of land, the owner, Camden Homes, represented by Ted Zadeh, has engaged the engineering firm of RPS to assist in the development of the tract. A Concept Master Plan has been prepared on a preliminary basis, attached herewith, that identifies a mixed land use of 763 residential lots, and areas planned conceptually for multi-family, senior living, and commercial/retail land uses.

Our research to date shows the majority of this tract of land lying within the southernmost reach of the City of Rockwall's ETJ. In researching the access to utilities as identified in the attached map, existing utilities in the City of Rockwall are approximately four miles away from this tract.

The map also shows a wastewater treatment plant located down gradient from the entire Camden Homes tract (meaning the entire Camden Homes tract drains toward the treatment plant) on an adjacent tract being developed as the Waterscapes development immediately east of and contiguous with this development. The treatment plant is owned by the Cities of Royse City and Fate. The City of Royse City also has extended a 20-inch water main to provide potable water service to this Waterscapes development.

Recognizing the City of Royse City's water and wastewater facilities are less than 2,000 feet away from this tract, we requested Royse City's views on how we might most expediently secure utilities for our proposed development. Royse City noted the existence of the City of Rockwall's ETJ for most of the tract and recommended that we approach the City of Rockwall to determine if the City of Rockwall would consider releasing our development from the City of Rockwall's ETJ in a cooperative manner, in which case, the City of Royse City offered to then consider the extension of the City of Royse City's utilities to this development.

We recognize that there is an extreme difference in the economics and likely timeline that would result in our development awaiting service from the City of Rockwall so we are respectfully requesting, on behalf of Camden Homes, that the City of Rockwall consider releasing this tract of land from the City's ETJ to allow us to initiate development of our tract. We understand this process requires consideration by the City Council for the City of Rockwall and we will be prepared to support this request before this body when it can be scheduled. Please let me know if there is any additional information required.

Sincerely,

Wayne Hunter, PE
Infrastructure Department Manager, RPS

CITY OF ROCKWALL, TEXAS
MEMORANDUM

TO: Mayor and City Council

CC: Rick Crowley, *City Manager*
Brad Griggs, *Assistant City Manager*
Ryan Miller, *Director of Planning and Zoning*

FROM: David Gonzales, *Senior Planner*

DATE: February 5, 2018

SUBJECT: A2017-001; *Voluntary Annexation of 4028 N. Goliad Street*

As you may recall, on July 17, 2017, the City Council approved a motion to annex the subject property [*Lot 1, Block 1, Valk Rockwall Addition*] in accordance with the terms of the 212 Development Agreement. The agreement expired on December 9, 2017. Staff has provided notice to the property owner (*i.e. Mr. Rick Jones of ADV Rockwall Platimum Property Owner, LLC*) of the impending annexation proceedings. The subject property is located within the City's Extraterritorial Jurisdiction (ETJ), and is addressed as 4028 N. SH-205, Rockwall, Texas 75087. Annexation proceedings for subject property will involve two (2) public hearings, scheduled for *Monday, February 5, 2018*. The annexation schedules -- (*per the requirements of Chapter 43 of the Texas Local Government Code*) -- are as follows:

- ☑ *January 8, 2018:* The preliminary service plan was provided to the property owner.
- ☑ *January 19, 2018:* Notice of the first and second public hearings were posted in the Herald Banner and on the City's website.
- ☑ *February 5, 2018:* The first (*6:00 PM*) and second (*6:30 PM*) public hearing will be held in the City Council Chambers.
- ☑ *March 5, 2018:* The City Council will hold the first reading of the annexation ordinance.
- ☑ *March 19, 2018:* The City Council will hold the second reading of the annexation ordinance.

It should be noted that once the first reading of the ordinance takes place the City Council will have 90 days to approve the annexation ordinance (*i.e. June 3, 2018*). Attached to this memorandum is a location map showing the subject property, the legal description, and a copy of the service plan.

Said description is intended to adjoin existing city limits of the City of Rockwall and incorporate all of the 4.264-acre tract of land identified as Tract 25-09 of the J. Strickland Survey, Abstract No. 187, Rockwall County, Texas and addressed as 4028 N. Goliad Street [SH-205].

125

SERVICE PLAN FOR ANNEXED AREA

Annexation Case No. A2018-001
City and County of Rockwall, Texas

Acreage Annexed: 4.264-Acres

Survey Abstract and County: Lot 1, Block 1, Valk Rockwall Addition, Rockwall County, Texas

Date of Adoption of Annexation Ordinance: March 19, 2018

Municipal services to the acreage described above shall be furnished by or on behalf of the City of Rockwall, Texas, at the following levels and in accordance with the following schedule:

(A) Police Services

(1) Patrolling, responses to calls, and other routine police services, within the limits of existing personnel and equipment, will be provided within 60 days of the effective date of annexation.

(2) As development and construction commence within this area, sufficient police personnel and equipment will be provided to continue to furnish this area the level of police services consistent with police services available in other parts of the City with land uses and population densities similar to those projected in the annexed area.

(B) Fire Services

(1) Fire protection by the present personnel and the present equipment of the fire Department, within the limitations of available water and distances from existing fire stations, will be provided to this area within 60 days of the effective date of annexation.

(2) As development and construction commences within this area, sufficient fire personnel and equipment will be provided to continue to furnish this area the level of fire services consistent with fire service available in other parts of the City with land uses and population densities similar to those projected in the annexed area.

(C) Health and Code Compliance Services

(1) Enforcement of the City's health ordinances and regulations including, but not limited to, weed and brush ordinances, junked and abandoned vehicle ordinances, food handlers ordinances and animal control ordinances, shall be provided within this area on the effective date of the annexation ordinance. These ordinances and regulations will be enforced through the use of existing personnel. *Complaints of ordinance or regulation violations within this area will be responded and investigated by existing personnel beginning with the effective date of the annexation ordinance.*

(2) The City's building, plumbing, electrical, gas heating, air conditioning and all other construction codes will be enforced within this area beginning with the effective date of the annexation ordinance. Existing personnel will be used to provide these services.

(3) The City's zoning, subdivision, and other ordinances shall be enforced in this area beginning on the effective date of the annexation ordinance.

126

(4) All inspection services furnished by the City of Rockwall, but not mentioned above, will be provided to this area beginning on the effective date of the annexation ordinance. Any property owner or his/her assigns who in good faith has a new building or structure, as defined in the Comprehensive Zoning Ordinance, under construction on the effective date of annexation shall be exempted from these inspections for that building or structure under construction for a period of one year from the effective date of annexation. For the purpose of this ordinance "under construction" shall mean any work that requires a building permit from the City of Rockwall.

(5) As development and construction commence within this area, sufficient personnel will be provided to continue to furnish this area the same level of Health and Code compliance services as are furnished throughout the City.

(D) Planning and Zoning Services

(1) The planning and zoning jurisdiction of the City will extend to this area on the effective date of the annexation ordinance. City planning will thereafter encompass this property, and it shall be entitled to consideration for zoning in accordance with the City's Comprehensive Plan, Zoning Ordinance, Landscape Ordinance and Code of Ordinances.

(E) Recreation and Leisure Services

(1) Residents of this property may utilize all existing recreational and leisure services facilities and sites throughout the City beginning with the effective date of the annexation ordinance.

(2) Existing parks, playgrounds, swimming pools and other recreation and leisure facilities within this property shall, upon dedication to and acceptance by the City, be maintained and operated by the City of Rockwall.

(F) Solid Waste Collection

(1) Solid waste collection shall be provided to the property owner in accordance with existing City policies as to frequency and charges, beginning on the effective date of annexation except for properties that are served by a privately owned solid waste management service provider. Such properties will be allowed to continue private service for a period of two years from the effective date of annexation at which time the property will be required to begin service with a franchised solid waste contractor within the City of Rockwall.

(G) Streets

(1) The City of Rockwall's existing policies with regard to street maintenance, applicable throughout the entire City, shall apply to this property beginning immediately as of the effective date of the annexation ordinance.

(2) As development, improvements or construction of streets to the City standards commence within this property, the policies of the City of Rockwall with regard to impact fees and participation in the cost thereof, acceptance upon completion, and maintenance after completion, shall apply.

(3) The same level of maintenance shall be provided to streets within this property that have been accepted by the City of Rockwall as is provided to like City streets throughout the City.

(H) Water Services

(1) Connection to existing City water mains for water services for domestic, commercial and industrial use within this property will be provided in accordance with existing City policies. Upon connection to existing mains, water will be provided at rates established by City ordinance for such services throughout the City.

(2) Water mains of the City will be extended in accordance with provisions of the Code of Ordinances and other applicable ordinances and regulations. City participation in the costs of these extensions shall be in accordance with applicable City ordinances and regulations and will be provided as otherwise available in other parts of the City with topography, land uses, population densities similar to those reasonably contemplated or projected in the annexed area.

(3) Water mains which are within the annexed area and are owned and operated by the City shall be maintained beginning with the effective date of the annexation ordinance or upon acquisition by the City.

(4) Private water lines within this property shall be maintained by their owners, in accordance with existing policies applicable throughout the City.

(I) Sanitary Sewer Services

(1) Connections to existing City sanitary sewer mains for sanitary sewage service in this area will be provided in accordance with the existing City policies. Upon connection, sanitary sewage service will be provided at rates established by City ordinances for such services throughout the City.

(2) Sanitary sewer mains and/or lift stations which are within the annexed area and are connected to City mains shall be maintained by the City of Rockwall beginning with the effective date of the annexation ordinance or upon acquisition by the City.

(3) Sanitary sewer mains of the City will be extended in accordance with the provisions of the Code of Ordinances and engineering standards and other applicable ordinances and regulations. City participation in the costs of these extensions shall be in accordance with applicable City ordinances and regulations and will be provided as otherwise availably in other parts of the City with topography, land uses, and population densities similar to those reasonably contemplated or projected in the area.

(4) Previously granted exceptions to the requirements of connections to the city's sanitary sewer treatment system shall be continued until such alternate systems are determined to no longer function to meet the sanitary sewer needs of the subdivision granted the exception.

(J) Public Utilities

(1) Other public utilities will be provided by the City's franchisee or a provider holding a certificate of convenience issued by the state to serve that area.

(K) Miscellaneous

(1) General municipal administration services of the City shall be available to the annexed area beginning with the effective date of the annexation ordinance.

129

CITY OF ROCKWALL, TEXAS
MEMORANDUM

TO: Mayor and City Council

CC: Rick Crowley, *City Manager*
Brad Griggs, *Assistant City Manager*

FROM: Ryan Miller, *Director of Planning and Zoning*

DATE: February 5, 2018

SUBJECT: Z2017-059; *Amendment to PD-8 for Townhomes*

On December 18, 2017, the City Council remanded *Case No. Z2017-059* back to the Planning and Zoning Commission to allow the applicant to make changes to concept plan. Following this action the applicant submitted a request to postpone the public hearing for this case to ***January 30, 2017*** to allow time to modify the request to address the concerns stated in the City Council meeting and to meet with the Chandler's Landing Homeowner's Association (HOA). The Planning and Zoning Commission approved this request on December 26, 2017.

Since the City Council meeting, the applicant has changed the request reducing the number of units from 48 to 40. This reduces the requested density from 6.98 to 5.81 units per acre. This does not have an effect on the future land use map, which already designates the subject property for ***High Density Residential*** land uses (*i.e. any development that exceeds three [3] units per gross acre*). In addition, the applicant has removed the request for additional cementaceous materials and is proposing to meet or exceed the material requirements of the Unified Development Code. After reviewing these changes and holding a public hearing on January 30, 2017, the Planning and Zoning Commission approved a motion to recommend approval of the amendment to Planned Development District 8 (PD-8) by a vote of 7-0.

Staff has provided an updated case memo and draft ordinance for the City Council's review. Should the City Council have any questions the applicant and staff will be available at the meeting on February 5, 2018.

CITY OF ROCKWALL
CITY COUNCIL MEMO

AGENDA DATE: 02/05/2018

APPLICANT: ED Cavendish, *Cavendish Homes/VPS Construction*

AGENDA ITEM: **Z2017-059**; *Amendment to PD-8 for Townhomes*

SUMMARY:

Hold a public hearing to discuss and consider a request by Ed Cavendish of Ed Cavendish Homes/VPS Construction on behalf of Jal Kumar of Rockwall Marina Development, LLC for the approval of an amendment to Planned Development District 8 (PD-8) [*Ordinance No. 92-39*] for the purpose of allowing townhomes on a 6.88-acre tract of land identified as Lot 4, Block A, Spyglass Hill #4 Addition and Tract 134-12 of the E. Teal Survey, Abstract No. 207, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 8 (PD-8) [*Ordinance No. 92-39*] for Zero Lot Line (ZL-5) District land uses, generally located south on the south side of Henry M. Chandler Drive west of Ridge Road [*FM-740*], and take any action necessary.

PURPOSE AND BACKGROUND:

The subject property was annexed into the City of Rockwall and zoned Agricultural (AG) District on October 29, 1973 (*Ordinance No. 73-43*). On November 12, 1973, the subject property was rezoned to Planned Development District 8 (PD-8) and designated for a *Multi-Family Structure or Condominium* by *Ordinance No. 73-48*. This designation was amended on October 19, 1992 by *Ordinance No. 92-39* (*Case No. PZ1992-008-01*), which re-designated the subject property to allow 36 *zero-lot-line*, single-family homes. The subject property is an un-platted 6.88-acre tract of land located on Henry M. Chandler Drive, adjacent to the Chandler's Landing Marina and the Spyglass Condominiums, in the Chandler's Landing community.

On October 13, 2017, the applicant requested to reinstate the preliminary plat that was approved in 1992 in accordance with *Ordinance No. 92-39*. This preliminary plat depicted the proposed layout for the 36 *zero-lot-line*, single-family homes. The Planning and Zoning Commission approved the reinstatement request October 24, 2017; however, the applicant ultimately choose to submit an application on November 17, 2017 requesting to amend *Ordinance No. 92-39* to allow for a 48-unit townhome development.

ADJACENT LAND USES AND ACCESS:

The subject property is located on the south side of Henry M. Chandler Drive west of the intersection of Henry M. Chandler Drive and Ridge Road [*FM-740*]. The land uses adjacent to the subject property are as follows:

North: Directly north of the subject property is Henry M. Chandler Drive, which is identified as a *Minor Collector* on the City's *Master Thoroughfare Plan* contained in the Comprehensive Plan. Beyond this are *Phases 1 & 2* of the Harbor Landing Subdivision, which are located within the Chandler's Landing Community and zoned Planned Development District 8 (PD-8).

South: Directly south of the subject property is the corporate boundary between the City of Rockwall and the City of Heath. Situated in the City of Heath adjacent to the subject property are several single-family homes.

East: Directly east of the subject property is *Phase 3* of the Spyglass Hill Subdivision, which is composed of 46-condominiums and zoned Planned Development District 8 (PD-8). Beyond this are *Phases 1 & 2* of the Spyglass Hill Subdivision, which are composed of 110-condominiums (*i.e. Phase 1 has 67-condominiums and Phase 2 has 43-condominiums*) and zoned Planned Development District 8 (PD-8).

West: Directly west of the subject property is the Chandler's Landing Marina, which is located within the *takeline* for Lake Ray Hubbard (*i.e. owned by the City of Dallas and leased by the City of Rockwall*). Beyond this is Lake Ray Hubbard.

CHARACTERISTICS OF THE REQUEST:

According to the concept plan provided by the applicant the proposed townhome development will consist of 40-single family attached lots that will be broken up into blocks of three (3) to five (5) homes. The development will incorporate approximately 42% open space, the majority of which will be used to create a buffer between the proposed development and *Spyglass, Phase 3* (*which is located directly east of the subject property*). The concept plan also shows that half of the proposed lots will have *front entry* garages. The remainder of the lots will incorporate rear entry garages (*i.e. accessible from an alleyway*). Staff should note that the applicant has requested that the streets be private and maintained by the Homeowner's Association (HOA). Staff has included this condition in the proposed draft ordinance with the stipulation that the applicant provide a 29-foot *back-to-back* concrete street built to the City's standards. A summary of the proposed density and dimensional requirements for this project are as follows:

Table 2: Lot Dimensional Requirements

Minimum Lot Width	24'
Minimum Lot Depth	55'
Minimum Lot Area	2,250 SF
Minimum Front Yard Setback [1]	15'
Minimum Side Yard Setback [2]	0'/25'
Minimum Side Yard Setback (Adjacent to a Street)	15'
Minimum Length of Driveway Pavement from Rear Property Line	20'
Maximum Height [3]	30'
Minimum Rear Yard Setback	10'
Minimum Area/Dwelling Unit (SF) [Sum of All Floor Area's]	1,900 SF
Maximum Lot Coverage	90%

General Notes:

[1]: Porches, stoops, bay windows, balconies, eaves and similar architectural features may encroach beyond the *Front Yard Building Setback* by up to five (5) feet for any property; however, the encroachment shall not exceed five (5) feet on *Side Yard Setbacks* where appropriate for such use and shall not encroach into the private right-of-way.

[2]: The side yard setback on the attached side maybe zero (0) if directly abutting a structure on an adjacent lot.

[3]: The Maximum Height shall be measured to the midpoint of the roof of the single family home, and in no case should any home exceed an elevation of 508-feet above sea level.

The applicant has not provided examples of the proposed building elevations; however, staff has incorporated anti-monotony standards that require a minimum of two (2) intervening homes of differing appearance be used before the same material blend/building elevation is utilized. In addition, staff should note that when *Ordinance No. 92-39* was approved, the City Council established maximum finished floor elevations for each building pad on the proposed concept plan. The purpose of these maximums was to ensure that the views of the properties located directly east (*i.e. Spyglass, Phase 3*) of the subject property would not be affected by the proposed development. In conformance with these requirements the applicant has stated that the highest roof elevation of any townhome will be at an elevation of 500-feet above sea level. This is eight (8) feet below the

highest elevation permitted under *Ordinance No. 92-39*. Staff has included this in the conditions of approval for this case.

CONFORMANCE WITH THE CODE OF ORDINANCES:

It should be noted that the development standards contained within the PD Ordinance deviate from the requirements of the Unified Development Code (UDC) and the Engineering Department's *Standards of Design and Construction* Manual in the following ways:

- ☑ *Garages.* The applicant is proposing to incorporate approximately 50% front entry garages (*i.e. 20 of the 40 townhomes requested*). The remaining garages will be accessible from an alleyway or rear entry garage. According to the Engineering Department's *Standards of Design and Construction* Manual, "(t)he City Council may waive the residential alley requirement upon determination by the Council, if it is in the best interest of the City." In addition, the UDC requires all garages accessible from the street be configured in a *J-Swing* (*Traditional Swing*) or recessed garage format (*i.e. the garage is setback a minimum of 20-feet from the front façade of the primary structure*).

- ☑ *Lot Size.* Currently, the City of Rockwall does not have standards or a zoning district that would permit a townhome product with the exception of the Two Family (2F) or Multi-Family 14 (MF-14) Districts. In addition, the City's smallest single-family lot size permitted by the UDC is 5,000 SF, which is permitted in the Zero Lot Line (ZL-5) District. The Two Family (2F) District -- *which could accommodate a Townhouse based on the permitted side yard setbacks* -- requires a minimum lot size of 7,000 SF. In this case, the applicant is proposing a minimum lot size of 2,250 SF.

By approving the proposed Planned Development District, the City Council is waiving these standards.

CONFORMANCE WITH THE COMPREHENSIVE PLAN:

The Future Land Use Map contained in the Comprehensive Plan, designates the subject property for *High Density Residential* land uses, which is defined as any development that exceeds three (3) units per gross acre. In this case, the applicant is proposing a density of 5.81 dwelling units per gross acre, which is conformance with the *High Density Residential* land use designation. Staff should note that the proposed density would be a 0.58 unit increase to the current density of 5.23 dwelling units per gross acre. The Comprehensive Plan states that "(h)igh density residential [*land uses*] should be used as a transitional use from commercial (*or [an] existing retail*) use, or where it will serve as a logical extension of an existing high density development." (*Land Use; Page 17; Policy #9.e*) The proposed development is adjacent to the Spyglass Condominiums (*adjacent to the eastern property line*), which carry the following densities by phase: (1) *Phase 1*: 18.99 dwelling units per gross acre, (2) *Phase 2*: 14.23 dwelling units per gross acre, and (3) *Phase 3*: 15.38 dwelling units per gross acre. These densities may warrant a consideration of the proposed development; however, any increase in density is a discretionary decision for the City Council. Should the City Council approve the applicant's request no change would be required to the Future Land Use Map.

NOTIFICATION:

On November 30, 2017, staff mailed 269 notices to property owners and residents within 500-feet of the subject property. Staff also sent a notice to the Chandler's Landing, The Cabana's at Chandler's Landing, Matchpoint Townhomes, Cutter Hill (*Phases 1-3*), and the Spyglass Homeowner's Associations (HOA's), which are the only HOA/Neighborhood Organizations located within 1,500 feet of the subject property. Additionally, staff posted a sign along Henry M. Chandler Drive as required by the Unified Development Code (UDC). At the time this case memo was drafted staff had received nine (9) notices and one (1) email in opposition of the applicant's request.

RECOMMENDATIONS:

If the Planning and Zoning Commission chooses to recommend approval of the applicant's request to amend Planned Development District 8 (PD-8) to allow townhomes, then staff would propose the following conditions of approval:

1) The applicant shall be responsible for maintaining compliance with the conditions contained within the *Planned Development District* ordinance;

2) The highest roof elevation permitted for all townhomes in the development shall be 500-feet above sea level; and,

3) Any construction resulting from the approval of this *zoning change* shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

PLANNING AND ZONING COMMISSION:

On December 12, 2017, the Planning and Zoning Commission approved a motion to recommend approval of the amendment to Planned Development District 8 (PD-8) by a vote of 5-1, with Commissioner Moeller dissenting and Commissioner Fishman absent.

On January 30, 2018, the Planning and Zoning Commission approved a motion to recommend approval of the amendment to Planned Development District 8 (PD-8) by a vote of 7-0.

CITY COUNCIL:

On December 18, 2017, the City Council approved a motion to remand the case back to the Planning and Zoning Commission by a vote of 5-1, with Council Member Lewis dissenting and Mayor Pruitt absent.

NOTICE OF PUBLIC HEARING
CITY OF ROCKWALL, PLANNING & ZONING DEPARTMENT

PHONE: (972) 771-7745
EMAIL: PLANNING@ROCKWALL.COM

To Whom It May Concern:

You are hereby notified that the City of Rockwall Planning and Zoning Commission and City Council will consider the following application:

Case No. Z2017-059: Amendment to PD 8 for Townhomes

Hold a public hearing to discuss and consider a request by Ed Cavendish of Ed Cavendish Homes/VPS Construction on behalf of Jal Kumar of Rockwall Marina Development, LLC for the approval of an amendment to Planned Development District 8 (PD-8) [Ordinance No. 92-39] for the purpose of allowing townhomes on a 6.88-acre tract of land identified as Lot 4, Block A, Spyglass Hill #4 Addition and Tract 134-12 of the E. Teal Survey, Abstract No. 207, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 8 (PD-8) [Ordinance No. 92-39] for Zero Lot Line (ZL-5) District land uses, generally located south on the south side of Henry M. Chandler Drive west of Ridge Road [FM-740], and take any action necessary.

For the purpose of considering the effects of such a request, the Planning and Zoning Commission will hold a public hearing on **Tuesday, 12/12/2017 at 6:00 p.m.,** and the City Council will hold a public hearing on **Monday, 12/18/2017 at 6:00 p.m.** These hearings will be held in the City Council Chambers at City Hall, 385 S. Goliad Street.

As an interested property owner, you are invited to attend these meetings. If you prefer to express your thoughts in writing please return the form to:

Ryan Miller
Rockwall Planning and Zoning Dept.
385 S. Goliad Street
Rockwall, TX 75087

You may also email your comments to the Planning Department at planning@rockwall.com. If you choose to email the Planning Department please include your name and address for identification purposes.

Your comments must be received by **12/18/2017** to ensure they are included in the information provided to the City Council.

Sincerely,

Ryan Miller, AICP
Director of Planning & Zoning

MORE INFORMATION ON THIS CASE CAN BE FOUND ON THE CITY'S WEBSITE: HTTPS://SITES.GOOGLE.COM/SITE/ROCKWALLPLANNING/DEVELOPMENT-CASES

PLEASE RETURN THE BELOW FORM

Case No. Z2017-059: Amendment to PD 8 for Townhomes

Please place a check mark on the appropriate line below:

☐ I am in favor of the request for the reasons listed below.

☐ I am opposed to the request for the reasons listed below.

Name:

Address:

Tex. Loc. Gov. Code, Sec. 211.006 (d) If a proposed change to a regulation or boundary is protested in accordance with this subsection, the proposed change must receive, in order to take effect, the affirmative vote of at least three-fourths of all members of the governing body. The protest must be written and signed by the owners of at least 20 percent of either: (1) the area of the lots or land covered by the proposed change; or (2) the area of the lots or land immediately adjoining the area covered by the proposed change and extending 200 feet from that area.

PLEASE SEE LOCATION MAP OF SUBJECT PROPERTY ON THE BACK OF THIS NOTICE

Dear P&Z,

I am opposed to this because I prefer zero lot line homes vs townhomes.

I find zero lot line homes more visually appealing.

Thanks,

Jeff Macalik

PROJECT MANAGEMENT · ARCHITECTS · PLANNERS

Project : 6.88 ACRES on Henry M. Chandler Dr., Rockwall, Texas 75032

Owner: Ed Cavendish

Development Standards

Houses are scheduled to be from 1,900 sq. ft. to 2,200 sq. ft., and will sell from $325,000 to $375,000, producing a taxable value of approximately **$16,800,000.**

Description

Project will contain 48 houses - single lots and in groups of 3,4, and 5 with adjacent side walls.

Lot sizes:	Mostly 24' – 27' wide x 105' deep
Units per lot:	(1) One unit per lot
Lot setbacks:	Front - 20' Rear – 10' Side – (Varies) Zero – 25' Maintenance – 5' Minimum
Landscape:	(1) One tree per every 50' along Henry M. Chandler Dr. Wrought Iron Fence along perimeter of site.

The site is 6.88 acres with 2.88 acres of community park and open space (42%).

Highest top of roof elevation is 500' above sea level which is 8'-0" below the 1992 P&Z recommendation of 508' above sea level.

CITY OF ROCKWALL

ORDINANCE NO. 18-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING PLANNED DEVELOPMENT DISTRICT 8 (PD-8) [*ORDINANCE NO. 92-39*] AND THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, BY AMENDING THE PLANNED DEVELOPMENT CONCEPT PLAN AND THE DEVELOPMENT STANDARDS APPROVED WITH *ORDINANCE NO. 92-39*, BEING A 6.88-ACRE TRACT OF LAND IDENTIFIED AS LOT 4, BLOCK A, SPYGLASS HILL #4 ADDITION AND TRACT 134-12 OF THE E. TEAL SURVEY, ABSTRACT NO. 207, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS AND MORE FULLY DESCRIBED HEREIN BY *EXHIBIT 'A'*; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City has received a request by Ed Cavendish of Cavendish Homes/VPS Construction on behalf of Jal Kumar of Rockwall Marina Development, LLC for an amendment to the *Planned Development Concept Plan* and *Development Standards* contained within Planned Development District 8 (PD-8) [*specifically contained within Ordinance No. 92-39*] and the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall, for a 6.88-acre tract of land identified as Lot 4, Block A, Spyglass Hill #4 Addition and Tract 134-12 of the E. Teal Survey, Abstract No. 207, City of Rockwall, Rockwall County, Texas and more fully described in *Exhibit 'A'* of this ordinance, which hereinafter shall be referred to as the *Subject Property* and incorporated by reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the affected area, and in the vicinity thereof, and the governing body in the exercise of its legislative discretion, has concluded that Planned Development District 8 (PD-8) [*Ordinance No. 92-39*] and the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:**

SECTION 1. That the approval of this ordinance shall supersede all requirements stipulated in *Ordinance No. 92-39*;

SECTION 2. That the *Subject Property* shall be used only in the manner and for the purposes authorized by this Planned Development District Ordinance and the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall as heretofore amended, as amended herein by granting this zoning change, and as maybe amended in the future;

SECTION 3. That development of the *Subject Property* shall generally be in accordance with the *Planned Development Concept Plan*, depicted in *Exhibit 'B'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'B'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*;

SECTION 4. That development of the *Subject Property* shall generally be in accordance with the *Development Standards*, described in *Exhibit 'C'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'C'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*;

DRAFT 09.19.18

SECTION 5. That development of the *Subject Property* shall be in conformance with the schedule listed below (*except as set forth below with regard to simultaneous processing and approvals*).

(a) The procedures set forth in the City's subdivision regulations on the date this ordinance is approved by the City, as amended by this ordinance (*including Subsections 5(b) through 5(d) below*), shall be the exclusive procedures applicable to the subdivision and platting of the *Subject Property*.

(b) The following plans and plats shall be required in the order listed below (*except as set forth below with regard to simultaneous processing and approvals*). The City Council shall act on an application for an *Open Space Master Plan* in accordance with the time period specified in Section 212.009 of the Texas Local Government Code.

1. Open Space Master Plan
2. Master Plat
3. Preliminary Plat
4. PD Site Plan
5. Final plats

(c) A *Master Plat* application covering all of the *Subject Property* shall be submitted. No master plat application shall be approved until the *Open Space Master Plan* for all of the *Subject Property* has been approved; however, the *Open Space Master Plan* may be processed by the City concurrently with the *Master Plat* and *Preliminary Plat* application. If only one (1) phase is being proposed, the applicant may submit a letter stating the timing of the phase with the *Preliminary Plat* application to satisfy the *Master Plat* requirement.

(d) A *PD Site* Plan application, including a site plan application for improvements for parkland or trails, may be processed by the City concurrently with the *Final Plat* application for the development.

SECTION 6. That the official zoning map of the City of Rockwall shall be corrected to reflect the changes in zoning as described herein.

SECTION 7. That any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *Two Thousand Dollars* ($2,000.00) for each offense and each and every day such offense shall continue shall be deemed to constitute a separate offense;

SECTION 8. That if any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable;

SECTION 9. The standards in this ordinance shall control in the event of a conflict between this ordinance and any provision of the Unified Development Code or any provision of the City Code, ordinance, resolution, rule, regulation, or procedure that provides a specific standard that is different from and inconsistent with this ordinance. References to zoning district regulations or other standards in the Unified Development Code (including references to the *Unified Development Code*), and references to overlay districts, in this ordinance or any of the Exhibits hereto are those in effect on the date this ordinance was passed and approved by the City Council of the City of Rockwall, Texas;

SECTION 10. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides;

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 19TH DAY OF FEBRUARY, 2018.

DRAFT ORDINANCE 02.19.2018

Exhibit 'A':
Legal Description

BEING a tract of land situated in the E. *TEAL SURVEY, ABSTRACT NO. 207*, City of Rockwall, Rockwall County, Texas, and being a part of that 285.2916 acre tract as conveyed to Clarke-Frates Corporation, as recorded in Volume 102, Page 895, Deed Records, Rockwall County, Texas, and being more particularly described as follows:

BEGINNING at a point on the South line of Henry M. Chandler Drive, said point being the Northwest corner of Spyglass Hill Condominiums, Phase Three, an addition to the City of Rockwall, as recorded in Slide B, page 175, Map Records, Rockwall County, Texas, a ½" iron stake set for corner;

THENCE Along the Westerly lines of said Spyglass Hill Condominiums, the following:

South 03 deg. 27' 05" East a distance of 39.65 feet to a ½" iron stake set for corner;
South 48 deg. 27' 05" East a distance of 160.16 feet to a ½" iron stake set for corner;
South 37 deg. 16' 05" West a distance of 180.50 feet to a ½" iron stake set for corner;
South 03 deg. 27' 05" East a distance of 142.73 feet to a ½" iron stake set for corner;
South 48 deg. 23' 55" West a distance of 95.59 feet to a ½" iron stake set for corner;
South 41 deg. 23 '55" West a distance of 56.00 feet to a ½" iron stake set for corner;
South 48 deg. 27' 05" East a distance of 203.00 feet to a ½" iron stake set for a corner;

THENCE South 41 deg. 32' 55" West, along the Northerly line of Windward Slope Addition, and addition to the city of Heath, Rockwall County, Texas, a distance of 480.10 feet to a ½" iron stake found for corner;

THENCE North 14 deg. 35' 26" West, a distance of 407.29 feet to a ½" iron stake set for corner;

THENCE North 1 deg. 33' 59" West a distance of 70.75 feet to a ½" iron stake set for corner;

THENCE North 20 deg. 51' 59" West a distance of 156.54 feet to a ½" iron stake set for corner;

THENCE North 31 deg. 30' 08" West a distance of 109.80 feet to a ½" iron stake found for corner;

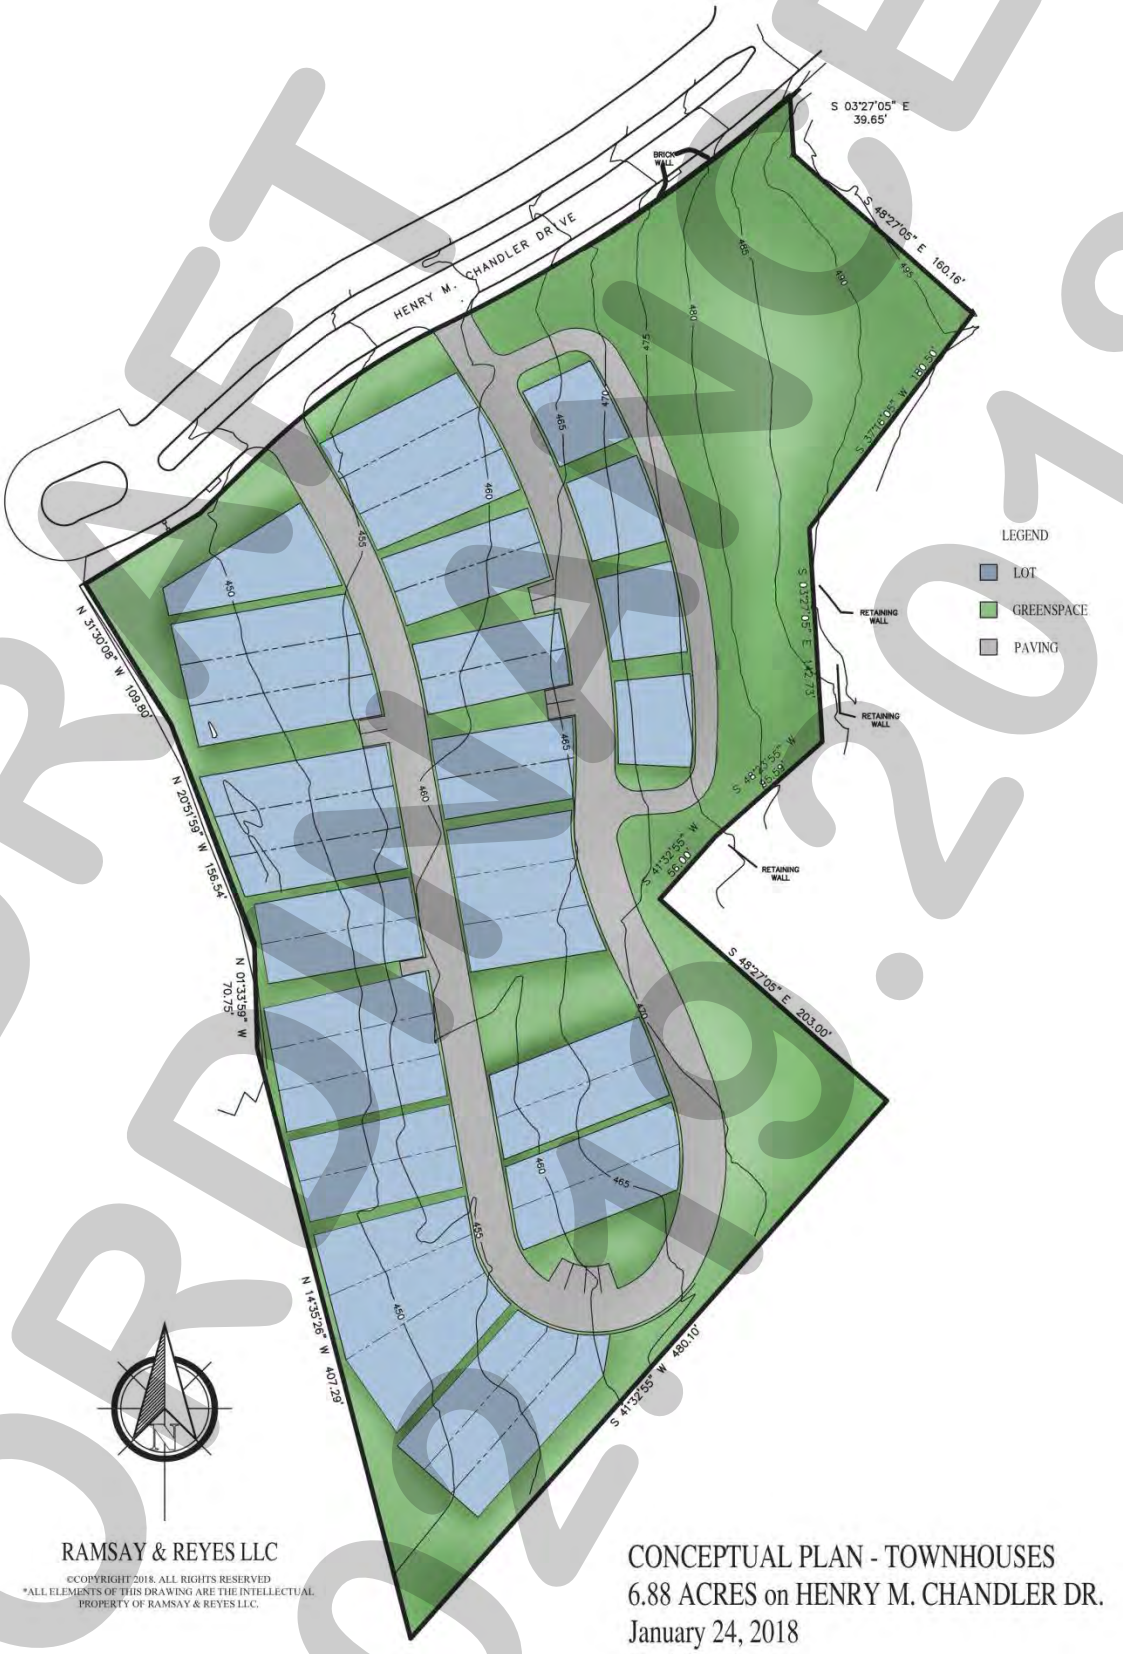
THENCE along the Southerly line of Henry M. Chandler Drive, the following:

North 58 deg. 29' 50" East a distance of 90.00 feet to a ½" iron stake set for corner;
North 45 deg. 29' 10" East a distance of 54.37 feet to the beginning of a curve to the right having a central angle of 18 deg. 36' 41", and a radius of 471.19 feet, a ½" iron stake set for corner;
Around said curve, a distance of 153.06 feet to the beginning of a curve to the left having a central angle of 15 deg. 20' and a radius of 1,040.00 feet, a ½" iron stake set for corner;

Around said curve a distance of 278.32 feet to the *PLACE OF BEGINNING* and containing 6.88 acres of land. This description is based on the Land Title Survey and Plat made by Kenneth E. Brown, Registered Professional Land Surveyor on February 25, 1992.

DRAFT ORDINANCE 02.19.2018

Exhibit 'B':
Concept Plan



DRAFT ORDINANCE 02.05.2018

Exhibit 'C':
PD Development Standards

PD Development Standards.

(1) *Permitted Uses.* Unless specifically provided by this Planned Development ordinance, only those uses permitted within the Two Family (2F) District, as stipulated by the *Permissible Use Charts* contained in Article IV, *Permissible Uses*, of the Unified Development Code (UDC) [*Ordinance No. 04-38*] as heretofore amended, as amended herein by granting this zoning change, and as maybe amended in the future are permitted on the *Subject Property*; however, the following additional land uses shall be permitted *by-right*:

☑ Townhomes/Townhouses

(2) *Density and Dimensional Standards.* Unless specifically provided by this Planned Development ordinance, any development on the *Subject Property* shall be subject to the density and dimensional requirements required for a Two Family (2F) District, as stipulated by Article V, *District Development Standards*, of the Unified Development Code (UDC) [*Ordinance No. 04-38*] as heretofore amended, as amended herein by granting this zoning change, and as maybe amended in the future. In addition, the maximum permissible density for the *Subject Property* shall be seven (7) dwelling units per gross acre of land; however, in no case should the proposed development exceed 40-units. All development on the *Subject Property* shall conform to the standards stipulated by *Table 2: Lot Dimensional Requirements* below, and generally conform to the lot layout depicted in *Exhibit 'B'* of this ordinance.

Table 2: Lot Dimensional Requirements

Minimum Lot Width	24'
Minimum Lot Depth	55'
Minimum Lot Area	2,250 SF
Minimum Front Yard Setback [(1)]	15'
Minimum Side Yard Setback [(2)]	0'/25'
Minimum Side Yard Setback (Adjacent to a Street)	15'
Minimum Length of Driveway Pavement from Rear Property Line	20'
Maximum Height [(3)]	30'
Minimum Rear Yard Setback	10'
Minimum Area/Dwelling Unit (SF) [Sum of All Floor Area's]	1,900 SF
Maximum Lot Coverage	90%

General Notes:

[1]: Porches, stoops, bay windows, balconies, eaves and similar architectural features may encroach beyond the *Front Yard Building Setback* by up to five (5) feet for any property; however, the encroachment shall not exceed five (5) feet on *Side Yard Setbacks* where appropriate for such use and shall not encroach into the private right-of-way.

[2]: The side yard setback on the attached side maybe zero (0) if directly abutting a structure on an adjacent lot.

[3]: The Maximum Height shall be measured to the midpoint of the roof of the single family home, and in no case should any home exceed an elevation of 500-feet above sea level.

(3) *Garage Orientation.* Garages adjacent to the Marina (*i.e. adjacent to the western property line*) shall be permitted to be forward facing (*i.e. facing onto the private street in a front entry configuration*) with a minimum driveway length of 20-feet. All other garages shall be rear entry or accessible from an alleyway with a minimum driveway length of 20-feet.

(4) *Building Standards.* The building elevations shall differ in appearance through the use of varying entry features, use of detail and trim, use of materials, articulation and setback, and shall conform to the following requirements:

(i) *Masonry Requirements.* The minimum masonry requirement for the exterior façades of all buildings shall be 90%. For the purposes of this ordinance, the masonry requirement shall be limited to full width brick, natural stone, and cast stone. Cementaceous fiberboard horizontal lap-siding (*e.g. HardiBoard or Hardy Plank*) and, stucco (*i.e. three [3] part stucco or a comparable -- to be determined by staff*) may be used for up to 50% of the exterior of the building and shall be limited to the anti-monotony restrictions as outlined in this ordinance.

DRAFT ORDINANCE 02.13.2018

(ii) *Roof Design Requirements*. All buildings shall be designed such that no roof mounted mechanical equipment (*i.e. HVAC, satellite, vents, etc.*) shall be visible from any direction.

Note: Screening of mechanical equipment is necessary for all equipment regardless of location (*i.e. roof mounted, ground mounted, or otherwise attached to the building and/or located on the site*).

(iii) *Architectural Requirements*. All units shall be architecturally finished on all sides of the building with the same materials, detailing and features.

(5) *Anti-Monotony Restrictions*. All development shall adhere to the following anti-monotony restrictions:

(i) Identical brick blends, paint colors and, cementaceous products (*i.e. Hardy Plank lap siding, etc.*) may not occur on adjacent (*i.e. side-by-side*) properties within the development without at least two (2) intervening townhomes of differing materials on the same side of the adjacent townhome beginning with the adjacent property.

(ii) Front building elevations shall not repeat along any block face without at least two (2) intervening homes of differing appearance on the same block face within the development.

(iii) The rear elevation of homes shall not repeat without at least two (2) (*i.e. side-by-side*) intervening homes of differing appearance. Homes are considered to have a differing appearance if any of the following two (2) items deviate:

a) Front Encroachment (*i.e. Porch and/or Sunroom*) Type and Layout
b) Roof Type and Layout
c) Articulation of the Front Façade
d) Differing Primary Exterior Materials

(6) *Landscaping Standards.*

(i) *Landscape Requirements*. Landscaping shall be reviewed and approved with the *PD Site Plan*. All *Canopy/Shade Trees* planted within this development shall be a minimum of four (4) caliper inches in size and all *Accent/Ornamental/Under-Story Trees* shall be a minimum of four (4) feet in total height.

(ii) Landscape Buffers. A minimum of a ten (10) foot landscape buffer shall be provided along the frontage of Henry M. Chandler Drive, and shall incorporate a minimum of one (1) canopy tree per 50-feet of linear frontage.

(iii) Irrigation Requirements. Irrigation shall be installed for all required landscaping located within common areas, landscape buffers and/or open space. Irrigation installed in these areas shall be designed by a Texas licensed irrigator or landscape architect.

(7) *Trash Dumpster Enclosure.* If proposed trash dumpster enclosures shall be four (4) sided, with eight (8) foot walls constructed and cladded with materials matching the primary structures of the townhomes, and have a self-latching opaque gate. All trash dumpster enclosures shall be internal to the site and not be situated within any established building setbacks or landscape buffers.

(8) *Fence Standards.* All fences shall be required to be wrought iron or a tubular steel fence. Wrought iron/tubular steel fences shall be a minimum of four (4) feet in height; however, may not exceed a maximum of eight (8) feet in height.

(9) *Open Space.* A minimum of 42% open space shall be provided which generally conforms to the *Concept Plan* contained in *Exhibit 'B'* of this ordinance. The Homeowner's Association (HOA) shall be responsible for maintaining all open space areas.

(10) *Private Right-of-Way.* The proposed private right-of-way shall incorporate a minimum of a 29-foot *back-to-back* concrete street built to the City's standards.

DRAFT ORDINANCE 02.19.2018

(11) *Homeowner's Association (HOA).* A Homeowner's Association shall be created to enforce the restrictions established in accordance with the requirements of *Section 38-15* of the Subdivision Regulations contained within the Municipal Code of Ordinances of the City of Rockwall. The HOA shall also maintain all neighborhood parks, open space and common areas, irrigation, landscaping, screening fences and the private roadways, drive aisles and drive approaches for the subject property associated with this development.

(12) *Variances.* The variance procedures and standards for approval that are set forth in the UDC shall apply to any application for variances to this ordinance

CITY OF ROCKWALL
CITY COUNCIL MEMO

AGENDA DATE: 02/05/2017

APPLICANT: Pat Atkins, *Saddlestar Land Development*

AGENDA ITEM: **Z2017-052**; *The Enclave (AG, C & HC to PD)*

SUMMARY:

Hold a public hearing to discuss and consider a request by Pat Atkins of Saddlestar Land Development on behalf of the Stagliano Family Trust for the approval of a zoning change from an Agricultural (AG) District, Commercial (C) District and Heavy Commercial (HC) District to a Planned Development District for commercial/retail, single-family and townhome land uses on a 63.72-acre tract of land identified as Tract 3 of the W. H. Barnes Survey, Abstract No. 26, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, Commercial (C) District and Heavy Commercial (HC) District, situated within the SH-205 Overlay (SH-205 OV) District, located at the northwest corner of S. Goliad Street [*SH-205*] and Mims Road, and take any action necessary.

PURPOSE AND BACKGROUND:

The subject property was annexed into the City of Rockwall and zoned Agricultural (AG) District on May 19, 1986 by *Case No. A1986-005* (*Ordinance No. 1986-37*). The *subject property* is currently zoned Agricultural (AG), Heavy Commercial (HC), and Commercial (C) Districts, with the Agricultural (AG) District being located east of Mims Road, the Commercial (C) District designation being located adjacent to Mims Road and S. Goliad Street [*SH-205*] and the Heavy Commercial (HC) District designation being located on the interior of the *subject property*. In 2016, the Texas Department of Transportation (TXDOT) established a staging area for the SH-205 improvements at the southwestern corner of the subject property (*i.e. at the corner of Mims Road and S. Goliad Street*).

On October 13, 2017, the applicant -- *Pat Atkins of Saddlestar Land Development* -- submitted an application requesting to rezone the property from Agricultural (AG), Heavy Commercial (HC), and Commercial (C) Districts to a Planned Development District for single-family, townhome and commercial land uses. Based on the concept plan, this will establish a horizontal mixed use development with commercial/retail on the northwest quadrant of S. Goliad Street and Mims Road, while transitioning to a 198 lot townhome (*i.e. 22' x 75' min. lot size*) development and continuing west to a 65 single-family lot (*i.e. 50' x 120' min. lot size*) development creating the Planned Development District.

ADJACENT LAND USES AND ACCESS:

The subject property is located on the west side of S. Goliad Street [*SH-205*] at the northwest corner of the intersection of S. Goliad Street [*SH-205*] and Mims Road. A more detailed description of the adjacent land uses is as follows:

North: Directly north of the subject property is a vacant, 24.818-acre tract of land zoned Heavy Commercial (HC) and Commercial (C) District. This property is owned by Rayburn Electric Cooperative, Inc. Beyond this are industrial/office/warehouse facilities for Rayburn Electric Cooperation and S&A Systems, and a trucking facility owned by Transam Trucking. These properties are zoned Heavy Commercial (HC), Planned Development District 43 (PD-43), and Planned Development District 44 (PD-44).

South: Directly south of the subject property is Mims Road, which is identified as a M4U (*major collector, four [4] lane, undivided roadway*) on the City's *Master Thoroughfare Plan*. Beyond this thoroughfare is a 140.50-acre tract of land (*i.e. Tract 3 of the G. Wells Survey, Abstract No. 219*) that is zoned Agricultural (AG) District. Also south of Mims Road are several industrial buildings zoned Heavy Commercial (HC) District.

East: Directly east of the subject property is S. Goliad Street [*SH-205*], which is identified as a TXDOT 6D on the City's Master Thoroughfare Plan. Beyond this thoroughfare is Hickory Ridge, Phase 1, which is a 139-lot single-family subdivision, zoned Planned Development District 10 (PD-10).

West: Directly west of the subject property is Highland Meadows, Phase 1, which is a 101-lot single-family subdivision, zoned Single Family 7 (SF-7) District. Beyond this are additional phases of the Highland Meadows and Lynden Park Estates subdivisions.

CHARACTERISTICS OF THE REQUEST:

Along with the application, the applicant has submitted a concept plan and development standards outlining the proposed development. The concept plan shows that an approximately 5.30-acre tract of commercial/retail land -- *identified as Tract 1 on the concept plan* -- will be situated at the hard corner of Mims Road and S. Goliad Street. North and west of the non-residential land uses will be a 16.89-acre tract of land designated for 198, 22' x 75' townhome lots. This is identified as *Tract 2* on the concept plan. Parking for the townhomes will be to the rear of the properties. Additionally, niche parking will be located at the front of the townhomes. East of the townhomes is *Tract 3* on the concept plan, which is composed of a 12.60-acre tract of land and a 2.21-acre tract of land reserved for the construction of 65 single-family home lots that will measure 50' x 150'. This portion of the development will be located adjacent to the Highland Meadows Subdivision.

In addition, the concept plan shows that approximately 21.5-acres of open space will be provided; however, staff should note that the majority of this open space is situated within existing floodplain and would only count at a rate of ½-acre for every acre (*i.e. 50%*) of the 20% open space requirement. The floodplain totals 17.6-acres and will equate to 8.8-acres total open space based on the 50% maximum allowed by the UDC; therefore, the adjusted acreage of open space for the development will equal 12.7-acres (*i.e. 19.9%*) and require a *waiver* to the Unified Development Code (UDC) for not meeting the minimum 20% requirement. Additionally, the applicant has indicated an amenity center at the northeast quadrant, and a proposed eight (8) foot hike and bike trail along the outer edge of the development, which provides access to SH-205 and Mims Road and is generally in conformance with the City Master Trail Plan. A summary of the proposed density and dimensional requirements for the single-family and townhome lots are as follows:

Table 1: Lot Composition

Lot Type	*Minimum Lot Size (FT)*	*Minimum Lot Size (SF)*	*Dwelling Units (#)*	*Dwelling Units (%)*
Tract 2	22' x 75'	1,650 SF	198	75.29%
Tract 3	50' x 120'	6,000 SF	65	24.71%
		Maximum Permitted Units:	*263*	*100.00%*

Table 2: Lot Dimensional Requirements

Lot Type (see Concept Plan) ►	***Tract 2***	***Tract 3***
Minimum Lot Width [1]	22'	50'
Minimum Lot Depth	75'	120'
Minimum Lot Area	1,650 SF	6,000 SF
Minimum Front Yard Setback [2]	5'	20'
Minimum Side Yard Setback	0'	5'

Minimum Side Yard Setback (Adjacent to a Street) [2]	5'	10'
Minimum Length of Driveway Pavement	20'	20'
Maximum Height [3]	35'	35'
Minimum Rear Yard Setback [4]	5'	10'
Minimum Area/Dwelling Unit (SF)	1,600 SF	2,000 SF
Maximum Lot Coverage	90%	70%

General Notes:

[1]: The minimum lot width shall be measured at the *Front Yard Building Setback*.
[2]: The location of the *Front Yard Building Setback* as measured from the front property line.
[3]: The *Maximum Height* shall be measured to the eave or top plate (whichever is greater) of the structure.
[4]: As measured from the rear yard property line.

Staff should note that the requested overall density for this development would be 4.50-dwelling units per acre (*i.e. 263-units/63.72-acres – 5.30-commercial acres = 4.50 dwelling units/acre*), with the density of *Tract 2* (*i.e. the Townhomes*) being an estimated 7.50-dwelling units per acre and the density of *Tract 3 (i.e. Single-Family Residential)* being an estimated 2.68 dwelling units per acre.

On *Tract 1* the applicant is requesting limited General Retail (GR) District land uses. However, the applicant is also requesting that a Retail Store with Gasoline Product Sales be allowed as a use by right for this tract of land. It should be noted that the General Retail (GR) District allows a Retail Store with Gasoline Sales use as of right with a maximum of two (2) dispensers. If more than two (2) dispensers are requested, approval of a Specific Use Permit (SUP) would be required. The applicant is requesting the ability to provide more than two (2) dispensers. If approved, the draft ordinance has language establishing the use as of right, which would not require an SUP for more than two (2) dispensers. With this being said, the applicant is specifically proposing to prohibit the following land uses, which are currently permitted *by-right* or by Specific Use Permit (SUP) within the General Retail (GR) District:

- ☑ Convent or Monastery
- ☑ Hotel or Motel
- ☑ Hotel, Residence
- ☑ Cemetery/Mausoleum
- ☑ Mortuary or Funeral Chapel
- ☑ Social Service Provider
- ☑ Billiard Parlor or Pool Hall
- ☑ Carnival, Circus, or Amusement Ride
- ☑ Commercial Amusement/Recreation (*Outside*)
- ☑ Garden Supply/Plant Nursery
- ☑ Gun Club, Skeet or Target Range (*Indoor*)
- ☑ Astrologer, Hypnotist, or Psychic Art and Science
- ☑ Night Club, Discotheque, or Dance Hall
- ☑ Secondhand Dealer
- ☑ Car Wash, Self Service
- ☑ Service Station
- ☑ Mining and Extraction (*Sand, Gravel, Oil & Other*)
- ☑ Helipad
- ☑ Railroad Yard or Shop
- ☑ Transit Passenger Facility

This property would be subject to the density and development standards for the General Retail (GR) District and the SH-205 Overlay (SH-205 OV) District. Following is a summary of the proposed density and development standards for this development:

Ordinance Provisions	*Zoning District Standards*
Minimum Lot Area	*6,000 Sq. Ft.*
Minimum Lot frontage	*60-Feet*

Ordinance Provisions	*Zoning District Standards*
Minimum Lot Depth	*100-Feet*
Minimum Front Yard Setback	*15-Feet*
Minimum Rear Yard Setback	*10-Feet*[1]
Minimum Side Yard Setback	*10-Feet*[2]
Maximum Building Height	*36-Ft w/o SUP*[3]
Max Building/Lot Coverage	*40%*
Minimum Masonry Requirement	*90%*
Floor Area Ratio	*2:1*
Minimum Number of Parking Spaces	*28*
Minimum Stone Requirement (SH205 OV)	*20% ea facade*
Minimum Landscaping Percentage	*15%*
Maximum Impervious Coverage	*85 to 90%*

CONFORMANCE WITH THE UNIFIED DEVELOPMENT CODE AND CODE OF ORDINANCES:

It should be noted that the development standards contained within the PD Ordinance deviate from the requirements of the Unified Development Code (UDC) and the Engineering Department's *Standards of Design and Construction* Manual in the following ways:

☑ According to the Engineering Department's *Standards of Design and Construction* Manual, "(t)he City Council may waive the residential alley requirement upon determination by the Council, if it is in the best interest of the City." In addition, the UDC requires all garages accessible from the street be configured in a *J-Swing* (*Traditional Swing*) or recessed garage format (*i.e. the garage is setback a minimum of 20-feet from the front façade of the primary structure*). Currently, the applicant is requesting to allow 100% *Flat Front Entry* garages (*i.e. even with the front façade of the primary structure*) in lieu of alleyways, *J-Swing* and/or recessed garage formats.

☑ According to Section 1.2.B Open Space Standards, of Nature of PD Districts and Minimum Standards, of Article X, Planned Development Regulations, of the Unified Development Code (UDC), states:

- *Public and private open space. Unless otherwise provided by the PD ordinance, a minimum of 20 percent of the gross land area within the entire PD District shall be devoted to open space, except where a floodplain exists in the proposed development in which case the dedicated floodplain shall be allowed to count for up to 50 percent of the 20 percent open space requirement, and shall be consistent with the open space requirements of the city's parks and open space plan. Open space for PD Districts may be satisfied by either public or by a combination of public and private open space. Open space requirements specified in this subsection are in addition to requirements for site landscaping and buffering. Public open space shall be dedicated to the city.*

The applicant is proposing a total of 12.7-acres of open space (*i.e. 19.9%*), which is primarily flood plain. It should be noted that if the floodplain were calculated at 100% (*as opposed to 50%*) the development would exceed the minimum 20% requirement. With this being said, the proposed open space standard is a discretionary decision for the City Council.

By approving the proposed Planned Development District, the City Council is waiving these standards. Attached to this case memo is a draft ordinance for the City Council's review.

CONFORMANCE WITH THE COMPREHENSIVE PLAN:

The *subject property* is zoned for Agricultural (AG), Commercial (C) and Heavy Commercial (HC) land uses. The Future Land Use Map, adopted with the Comprehensive Plan, designates the majority of the *subject property* for *Commercial/Industrial* land uses and a portion of *Tract 3 (i.e. 2.21-acres) located east of Mims Road* for *Medium Density Residential* land uses. The proposed zoning change would necessitate that the designation of *Tract 1* be changed from a *Commercial/Industrial* designation to a *Commercial* designation, *Tract 2* be changed from a *Commercial/Industrial* designation to a *High Density Residential* designation, and a portion of *Tract 3 (i.e. 12.60-acre)* from a *Commercial/Industrial* designation to a *Medium Density Residential* designation. The 2.21-acre portion of *Tract 3,* located east of Mims Road, would maintain its current designation as *Medium Density Residential*.

With regard to *Tract 1*, and according to the Comprehensive Plan, a *Commercial* land use is defined as an area "where commercial is indicated at the intersection of major roadways and development have not occurred." The Comprehensive Plan goes on to state that "(z)oning should only be allowed where the commercial use is eminent and where it would be planned and integrated with the adjacent residential neighborhoods. Furthermore, the Comprehensive Plan states "(t)he amount of retail and the size of the area to be designated for commercial or mixed use development may be large or small depending on the service area it will serve and the style and quality of development." In this case, the proposed development is adjacent to heavy commercial and single-family residential land uses, which is east of the *subject property* and buffered by S. Goliad Street. These existing land uses may warrant a transition of land uses.

With regard to *Tract 2,* and according to the Comprehensive Plan, a *High Density Residential* land use is defined as any development that exceeds three (3) units per gross acre. In this case, the density of the proposed townhome use is at 7.5-units per gross acre. The Comprehensive Plan goes on to state that "(h)igh density residential [*land uses*] should be used as a transitional use from commercial (*or existing retail*) use, or where it will serve as a logical extension of an existing high density development". In this case, the proposed development is adjacent to the proposed commercial/retail land use. Townhomes "should differ in appearance through the use of varying entry features, use of detail and trim, use of materials, articulation and setback."

With regard to *Tract 3*, and according to the Comprehensive Plan, a Medium Density Residential land use is defined as an area consisting of residential developments "that have typically been built in Rockwall. They may be 2-3 units per acre, but generally about 3 units per acre." In this case, the density of the proposed single-family lots is at 2.68-units per gross acre. The zoning proposal conforms to the majority of the residential policies and guidelines contained in the Comprehensive Plan for a single-family residential development and the *Medium Density Residential* land use.

With regard to the overall development, the applicant's proposal of a townhome product provides a transition between the commercial/retail land use and the proposed single-family residential home lots. With this being said, the approval of any changes to the Future Land Use Map or the approval of an increased density would be a discretionary decision for the City Council. Should the City Council choose to approve the applicant's request staff has included a condition of approval that would amend the Future Land Use Map to reflect the requested designations.

NOTIFICATION:

On October 27, 2017, staff mailed 160 notices to property owners and residents within 500-feet of the *subject property*. Staff also sent a notice to the Flagstone Estates, Lynden Park, Hickory Ridge, and Hickory Ridge East Homeowner's Association (HOA), which are the only HOA/Neighborhood Organizations located within 1,500 feet of the *subject property*. Additionally, staff posted a sign along S. Goliad Street -- *adjacent to the subject property* -- as required by the Unified Development

Code (UDC). At the time this case memo was drafted staff had received two (2) notices opposed to the applicant's request.

RECOMMENDATIONS:

If the Planning and Zoning Commission chooses to recommend approval of the applicant's request to change the zoning of the subject property from an Agricultural (AG) District, Commercial (C) District, and Heavy Commercial (HC) District to a Planned Development District for limited General Retail (GR) District, Single-Family 7 (SF-7) District and Townhome land uses, then staff would propose the following conditions of approval:

1) The applicant shall be responsible for maintaining compliance with the conditions contained within the *Planned Development District* ordinance;

2) By approving this zoning change, the City Council will effectively be approving changes to the Comprehensive Plan and Future Land Use Map. Specifically, this will change the designation of *Tract 1* from a *Commercial/Industrial* designation to a *Commercial* designation, *Tract 2* from a *Commercial/Industrial* designation to a *High Density Residential* designation, and a portion of *Tract 3 (i.e. 12.60-acre)* from a *Commercial/Industrial* designation to a *Medium Density Residential* designation; and,

3) Any construction resulting from the approval of this *zoning change* shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

PLANNING AND ZONING COMMISSION RECOMMENDATION:

On January 30, 2018, the Planning and Zoning Commission approved a motion to recommend denial of the proposed Planned Development District by a vote of 4 to 3 with Commissions Lyons, Trowbridge, and Fishman dissenting. According to Section 8.4, *Protest of Proposed Change in Zoning*, of Article II, *Authority and Administrative Procedures*, of the Unified Development Code (UDC), "(i)f such change [zoning change] is recommended for denial by the Planning and Zoning Commission, such change in zoning shall require a favorable vote of three-fourths [¾] of all eligible members of the Council."

Subject: Neighborhood Notification Program: Notice of zoning request
Attachments: PUBLIC NOTICE.pdf

To whom it may concern:

Per your participation in the Neighborhood Notification Program, you are receiving this notification to inform your organization and residents of a request for a zoning change that lies within 1,500 feet of the boundaries of your neighborhood or subdivision. As the primary contact for the organization, you are encouraged to share this information with the residents of your subdivision. Please find attached a map detailing the location of the subject property requesting the zoning change in relation to your subdivision boundaries. Additionally, below is a summary of the zoning request that will also be published in the Rockwall Herald Banner ***October 27, 2017***. The Planning and Zoning Commission will hold a public hearing on ***Tuesday 11/14/2017at 6:00 p.m.***, and the City Council will hold a public hearing on ***Monday, 11/20/2017 at 6:00 p.m***. These hearings will be held in the City Council Chambers at City Hall, 385 S. Goliad Street. These hearings will be held in the City Council Chambers at City Hall, 385 S. Goliad Street. If you have any questions or comments regarding this request, the contact information for the Planning Department is listed below. Additional information can also be found at https://sites.google.com/site/rockwallplanning/development-cases

Z2017-052- Zoning Change C & HC to PD
Hold a public hearing to discuss and consider a request by Pat Atkins of Saddlestar Land Development on behalf of the Stagliano Family Trust for the approval of a zoning change from a Commercial (C) District and Heavy Commercial (HC) District to a Planned Development District for commercial/retail, single-family and townhome land uses on a 63.72-acre tract of land identified as Tract 3 of the W. H. Barnes Survey, Abstract No. 26, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) and Heavy Commercial (HC) District, situated within the SH-205 Overlay (SH-205 OV) District, located at the northwest corner of S. Goliad Street [SH-205] and Mims Road, and take any action necessary.

If this email is reaching you in error, please forward it to your HOA or neighborhood group representative and update the contact information at http://www.rockwall.com/planning/hoa.asp.

Sincerely,

Laura Morales

NOTICE OF PUBLIC HEARING
CITY OF ROCKWALL, PLANNING & ZONING DEPARTMENT

PHONE: (972) 771-7745
EMAIL: PLANNING@ROCKWALL.COM

To Whom It May Concern:

You are hereby notified that the City of Rockwall Planning and Zoning Commission and City Council will consider the following application:

Case No. Z2017-052: The Enclave (C and HC to PD)

Hold a public hearing to discuss and consider a request by Pat Atkins of Saddlestar Land Development on behalf of the Stagliano Family Trust for the approval of a zoning change from a Commercial (C) District and Heavy Commercial (HC) District to a Planned Development District for commercial/retail, single-family and townhome land uses on a 63.72-acre tract of land identified as Tract 3 of the W. H. Barnes Survey, Abstract No. 26, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) and Heavy Commercial (HC) District, situated within the SH-205 Overlay (SH-205 OV) District, located at the northwest corner of S. Goliad Street [SH-205] and Mims Road, and take any action necessary.

For the purpose of considering the effects of such a request, the Planning and Zoning Commission will hold a public hearing on **Tuesday, 11/14/2017 at 6:00 p.m.,** and the City Council will hold a public hearing on **Monday, 11/20/2017 at 6:00 p.m.** These hearings will be held in the City Council Chambers at City Hall, 385 S. Goliad Street.

As an interested property owner, you are invited to attend these meetings. If you prefer to express your thoughts in writing please return the form to:

David Gonzales
Rockwall Planning and Zoning Dept.
385 S. Goliad Street
Rockwall, TX 75087

You may also email your comments to the Planning Department at planning@rockwall.com. If you choose to email the Planning Department please include your name and address for identification purposes.

Your comments must be received by **11/20/2017** to ensure they are included in the information provided to the City Council.

Sincerely,

Ryan Miller, AICP
Director of Planning & Zoning

MORE INFORMATION ON THIS CASE CAN BE FOUND ON THE CITY'S WEBSITE: HTTPS://SITES.GOOGLE.COM/SITE/ROCKWALLPLANNING/DEVELOPMENT-CASES

PLEASE RETURN THE BELOW FORM

Case No. Z2017-052: The Enclave (C and HC to PD)

Please place a check mark on the appropriate line below:

☐ I am in favor of the request for the reasons listed below.

☐ I am opposed to the request for the reasons listed below.

Name:

Address:

Tex. Loc. Gov. Code, Sec. 211.006 (d) If a proposed change to a regulation or boundary is protested in accordance with this subsection, the proposed change must receive, in order to take effect, the affirmative vote of at least three-fourths of all members of the governing body. The protest must be written and signed by the owners of at least 20 percent of either: (1) the area of the lots or land covered by the proposed change; or (2) the area of the lots or land immediately adjoining the area covered by the proposed change and extending 200 feet from that area.

PLEASE SEE LOCATION MAP OF SUBJECT PROPERTY ON THE BACK OF THIS NOTICE

Cc: Miller, Ryan
Subject: RE: Proposed Zoning Change -- Case No. Z2017-052: The Enclave

I plan to attend the P&Z meeting on the 14th but, in reading the instructions again, it looks like I need to email my comments to the Planning Department in general.

Rayburn's address is 950 Sids Road, Rockwall. We own almost all of the property that will be immediately to the north of the proposed subdivision. As described below, we are not currently taking a position on the proposed development but we would like to ensure there are sufficient security measures between us.

Thanks.

David Naylor

To: Miller, Ryan
Subject: Proposed Zoning Change -- Case No. Z2017-052: The Enclave

Good afternoon Ryan,

We received the notice of the zoning change regarding the property to the south of us. While Rayburn is not necessarily opposed to the development, we do have security concerns with our shared property line. With the various regulatory and compliance requirements we have, we will need to make sure that there is a sufficient barrier between our properties to minimize our security concerns. We are already in the process of constructing a wrought iron fence; however, for a planned development, that may not be sufficient. We would like to visit with the developer to try and address these concerns.

I can attend the PNZ meeting if that would be the best course of action; however, I wasn't sure the proper way to voice our concerns.

Thanks.

David Naylor

PLEASE SEE LOCATION MAP OF SUBJECT PROPERTY ON THE BACK OF THIS NOTICE

DEVELOPMENT OUTLINE

The property consists of 63.72 Acres of Land, adjacent to S.H 205 a 120' Major Thoroughfare, also Mims Road a 65' Major Collector , South of and adjacent to Buffalo Creek consisting of 19 acres of open space. The property is sparsely vegetated on the southern 63 acres with native tree's. The Planned Development will create a pedestrian oriented neighborhood allowing for residential access to retail office and opens pace amenity areas. New homes construction will range from $250K Enclave Villas Townhouse and Enclave Urban Housing $350k and up. The homes will be marketed towards young families, young professionals and empty nesters lifestyle. Creating an additional 129 million dollars to the City of Rockwall tax base. There will be a Master H.O.A. required within the development of the property. We are excited to bring this upscale residential retail-office development to this area which surpasses expectations required in your Comprehensive Master Plan . A master trail system , along with the required Landscape Buffer along S.H. 205 , Mims Road and Buffalo Creek will be implemented which will encourage pedestrian access to all uses.

TRAFFIC IMPACT ANALYSIS

FOR

THE ENCLAVE SUBDIVISION

IN

ROCKWALL, TEXAS

Prepared for:

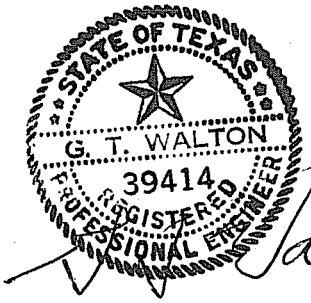
ENGINEERING CONCEPTS & DESIGN LP

Representing:

SADDLE STAR LAND DEVELOPMENT LLC

Prepared By:

G.T. (Tom) Walton, P.E.
Consulting Traffic Engineer



DECEMBER, 2017

201

Executive Summary

Saddle Star Land Development is planning to build The Enclave in the City of Rockwall Texas. The Enclave will be on the west side of SH 205 and the north side on Mims Rd. The development will be made up of 198 Townhouses, 65 single family lots and a retail tract along the SH 205 frontage and at the intersection of the two roads.

SH 205 is a two lane, two way asphalt TxDOT roadway. There are no improvements planned for the roadway adjacent to the site in the next ten years. An improvement to the SH 205 and John King Pkwy to the south may affect the volume of traffic past the site and the new signal at the Sids Rd intersection to the north may be beneficial. Mims Rd will be paved by the developer from SH 205 to Sids Rd.

In order to obtain approval of the plans for the new development by the City of Rockwall, a Traffic Impact Analysis (TIA) must be completed. This TIA investigates the traffic operations on the roadways and intersections near the site.

Traffic counts were conducted on SH 205, Mims Rd and at their intersection. Existing conditions were analyzed to determine the level of congestion on the roadways and the intersection in 2017. Due to the fact that the Enclave is expected to take 7 years to fully develop, the traffic volumes for the year 2024 were calculated and the congestion situation analyzed.

Trip generation calculations were completed for the proposed residential homes and retail businesses to determine the amount of traffic increase the development will create. The increase in traffic was applied to the roadways and intersections and the resulting traffic congestion situation analyzed.

The Traffic Impact Analysis investigations produced the following results:

- The construction of Mims Rd from SH 205 to Sids Rd at the beginning of development will provide smooth, free flow access for the residential portion of the project.
- When the retail portion of the development is constructed, separate right turn lanes should be built into each of the driveways on the SH 205 frontage.
- An effort should be made by the City of Rockwall and TxDOT to improve the geometry of the portion of SH 205 from Sids Rd to John King Pkwy.

202

INTRODUCTION

Saddle Star Land Development is the owner of the THE ENCLAVE subdivision in Rockwall Texas. The project is along the west side of SH 205 and the north side of Mims Rd in the northwest quadrant of their intersection. The Enclave will contain 198 Townhouse lots, 65 Single Family lots and 5.30 acres of general retail including a convenience store with gas pumps at the Mims Rd/SH 205 intersection. The Retail area will have 46,000 sq ft of office retail and a 3000 sq ft convenience store with gas pumps. The entire development will be built together and buildout is expected in 7 years in late 2024. The City of Rockwall staff has required that a Traffic Impact Analysis (TIA) be completed as part of the submittal of plans for The Enclave. ENGINEERING CONCEPTS & DESIGN LP is the Engineer for the owners of THE Enclave. G.T. (Tom) Walton, P.E. Consulting Traffic Engineer has been hired to conduct the needed study.

PURPOSE

The following study will evaluate the traffic situation on the existing roadways and intersections in the area of the development. It will then impose the traffic created by the proposed development on the existing roadway system to determine the effect the new traffic will have on the operation of the existing system and if any roadway improvements are needed to accommodate the traffic additions. Any problems identified will be addressed and mitigation steps recommended.

SCOPE

The Enclave will make use of 8 street intersections and three driveways to access both SH 205 and Mims Rd. The intersection of Street A and two driveways from the retail area and the Mims intersection will provide access to and from SH 205. One driveway from the retail area and 7 street intersections alphabetically C through I will provide access to and from Mims Rd. The location of the site is shown in FIGURE I.

The analysis will include the study of existing conditions on SH205 and Mims Rd adjacent to the development As mentioned above, the developer expects that the build out of the entire project will occur by 2024. The traffic volumes on both SH 205 and Mims Rd will be counted and the existing conditions on SH 205, Mims Rd and their intersection will be analyzed. The traffic volume conditions will be grown to those expected in 2024. The amount of new traffic to be created by the development will be calculated and the new trips created will be added to the 2024 traffic and the buildout conditions analyzed. The analysis will include a link analysis on SH 205 and on Mims Rd and an unsignlized intersection analysis on the intersection of the two streets and each of the driveways and street intersections created by the development. These analyses will include both AM and PM peak hour conditions and will apply the entire traffic loading

from the development at the same time. The analyses will be done for the AM and PM peak hour generation rates during the peak traffic hour on the roadways.

METHODOLOGY

The methodology for the study will include the following steps;

- definition of the roadways and intersections under consideration,
- counting of the existing traffic volumes on the subject roadways and the turning movements at their intersection,
- the analysis of existing traffic conditions on the subject roadways and their intersection,
- the generation of traffic from the proposed development,
- the distribution of site traffic to the roadways and intersections
- growth of the SH 205 and Mims Rd traffic to the 2024 conditions
- the analysis of build out traffic conditions including the loading from the entire development,
- comparison of turning traffic at the intersections with the TxDOT turn lane criteria
- the identification of any problems caused by the new development and
- the recommendation of mitigation efforts to deal with identified problems.

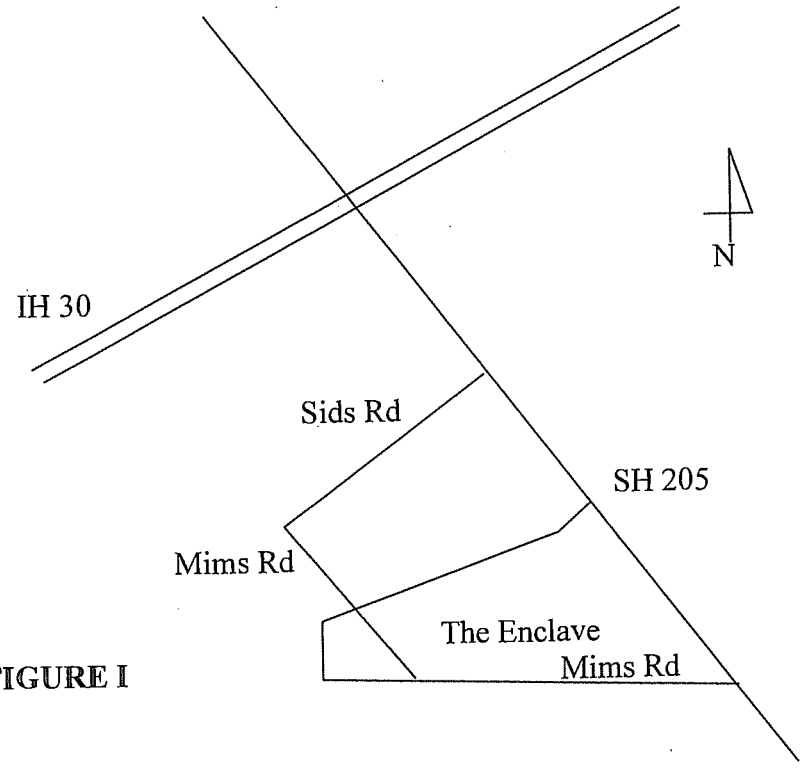


FIGURE I

AREA ROADWAYS AND INTERSECTIONS

SH 205 extends from SH 78 on the north to US 80 in the City of Terrell to the south. The section abutting the Enclave is a 25 foot wide, two lane, two way asphalt TxDOT roadway with a double yellow centerline and a 45 MPH speed limit. The roadway is widened to 36 feet wide at the intersection with Walnut Ridge Rd. and at the intersections with Timber Ridge and Mims roads. No improvements are planned for this section of SH 205 in the next 10 years. To the north of the site, a project is to begin by TxDOT in the immediate future to realign SH 276 to intersect SH 205 at the Sids Rd intersection and include the construction of a traffic signal at the intersection. To the south of the site the intersection of SH 205 and John King Pkwy is to be realigned to smooth the flow from 205 to John King in the next 5 to 10 years.

Mims Rd. is a 20 foot wide, two lane, two way asphalt roadway. The asphalt pavement extends from the Mims/SH 205 intersection to the west approximately 1400 feet. The roadway then turns to gravel and extends west and then north to intersect with Sids Rd and on north to Ralph Hall Pkwy. As part of the building of the Enclave, the developer will construct Mims as at least a 24 foot wide concrete roadway from its intersection with SH 205 to its intersection with Sids Rd.

The intersection of SH 205 and Mims Rd has one southbound lane and one right turn lane on SH205, one eastbound lane on Mims Rd and one through and one left turn lane on northbound SH 205. The intersection is controlled by a stop sign and a STOP line for eastbound Mims Rd. The curve radii on both sides of Mims are large to ease right turns from south bound to west bound and from east bound to south bound.

At the intersection of Street A and SH 205 the street A approach will be divided with one west bound lane and separate east bound left and right turn lanes.

Two driveways will be built in the retail frontage on SH 205 complying with the TxDOT spacing requirements.

One driveway will be built in the retail frontage on Mims Rd.

Three street intersections will be built in the Townhouse frontage on Mims Rd. These will be the streets C, D, and E intersections with Mims Rd. Each intersecting street will have one entering and one exiting lane.

In the Single Family area, streets F, G, and H will intersect Mims Rd. There will also be an intersection of Mims with streets A and I with A on the east and I on the west. The intersecting streets will all have one entering and one exiting lane.

Street A will be a collector street running from an intersection with SH 205 on the east to an intersection with Mims Rd. on the west. Streets C through H will run north-south from Street A to Mims.

EXISTING TRAFFIC VOLUMES

The existing traffic volumes on SH 205 and Mims Rd were measured by making two directional 24 hour machine counts on each roadway approximately 300 ft. from their intersection. An AM and PM peak hour turning movement count was also done at the SH 205 and Mims Rd. intersection. The details of the traffic counts are given in Appendix A.

EXISTING TRAFFIC CONDITIONS

The quality and safety of the operation of traffic is measured by quantifying the level of congestion that drivers are experiencing. The term that is used to describe traffic conditions is Level of Service (LOS). In Traffic Engineering analysis, LOS on a section of roadway is calculated by comparing the volume of traffic measured on the road to the capacity of the roadway. LOS is described by alphabetic designations. LOS ranges from A to F. The various levels are as follows:

- Volume/Capacity ratio is <= 0.25 is LOS "A" or "B"
- Volume/Capacity ratio is 0.25<x,<=0.40 is LOS "C"
- Volume/Capacity ratio is 0.40<x,<=0.75 is LOS "D"
- Volume/Capacity ratio is 0.75<x,<=1.0 is LOS "E"
- Volume/Capacity Ratio is > 1.0 is LOS "F"

LOS A or B are referred to as "Free" flow conditions, LOS C is "Stable" flow, LOS D is "Forced" flow, LOS E is "Capacity" flow and LOS F is "Failure" conditions.

The existing traffic volume count information was used with the HCS + software which uses the Highway Capacity Manual methodology to analyze the operation of roadway links and intersections. A two way link analysis was conducted on the existing SH 205 and Mims Rd. for both the AM and PM Peak Hour conditions. An unsignalized intersection analysis was also done for existing AM and PM peak hour conditions at the SH 205 and Mims Rd. intersection.

The results of the analyses of existing conditions are as follows:

- The roadway link analysis

206

Link	LOS
SH205 north of Mims Rd A.M.	C
SH205 north of Mims Rd P.M.	D

Mims Rd west of SH 205 A.M.	A
Mims Rd west of SH 205 P.M.	A

- The unsignalized intersection analysis

Intersection	Approach LOS North b	South b	East b	West b
SH 205 at Mims Rd AM	A	A	C	
SH 205 at Mims Rd PM	A	A	D	

The details of the existing conditions analyses are given in Appendix B.

SITE TRAFFIC GENERATION

The amount of traffic that a development will generate can be calculated for an average day or for the peak traffic periods of a day. The number of vehicle trips generated or trip generation will be used to project the effect that the new development will have on the serving roadways. The amount of traffic generated during both the AM and PM Peak Hour will be considered.

Trip generation information is found in Trip Generation published by the Institute of Transportation Engineers. This is a standard reference to determine the trip generation characteristics of particular land use types and densities. Rates are established for specific land use types including residential, office, commercial, industrial and institutional. Trip generation rates are given for a number of development measurement units and at various times of day and days of the week. The percentage of the generated traffic that enters and leaves the site is also indicated. For residential development the dwelling unit (DU) is the measurement unit while 1,000 square feet of gross floor area is used for office, commercial, industrial and general retail uses.

As was noted above, the The Enclave will have 65 single family lots or 65 dwelling units (D.U.)s and 198 townhouse lots or 198 dwelling units (D.U)s. The retail area will have 46,000 sq ft of office retail and 3000 sq ft of convenience store with gas pumps. The P.M. Peak Hour rate for single family residential development from Trip Generation is 1.00 trips per dwelling unit with 63% entering and 37% exiting the site. The AM Peak Hour rate is 0.75 trips per dwelling unit with 25% entering and 75% exiting. The PM Peak Hour rate for townhouse development is 0.52 trips per DU with 67% entering and 33% exiting. The AM Peak Hour rate for townhouse is 0.44 trips per DU with 17%

207

entering and 83% exiting. The AM Peak Hour rate for office retail is 6.84 trips per 1000 sq ft with 48% entering and 52% exiting. The PM Peak Hour rate for office retail is 5.02 trips per 1000 sq ft with 56% entering and 44% exiting. The AM Peak Hour rate for convenience store with gas pumps is 40.92 trips per 1000 sq ft with 50% entering and 50% exiting. The PM Peak Hour rate is 50.92 trips per 1000 sq ft with 50% entering and 50% exiting. A copy of the pages from Trip Generation is given in Appendix C.

The total traffic to be expected from the development during the each Peak Hour is as follows:

USE	Dev Unit	P.H.	Rate	Size	Trips	Enter	Exit
Single Family	D.U.	A.M.	.75/DU	65 DU	49	13	36
Single Family	D.U.	P.M.	1.0/DU	65 DU	65	44	25
Townhouse	D.U.	A.M.	.44/DU	198 DU	87	15	72
Townhouse	D.U.	P.M.	.52/DU	198 DU	103	68	35
Office Retail	K sq ft	A.M.	6.84/K	46 K	315	151	164
Office Retail	K sq ft	P.M.	5.02/K	46 K	231	129	102
Conven. w Pump	K sq ft	A.M.	40.92/K	3 K	123	62	61
Conven. w Pump	K sq ft	P.M.	50.92/K	3 K	153	77	76

TRAFFIC DISTRIBUTION

The distribution of traffic moving to and from a proposed development is based upon the type of development and the distribution of attractors around the site. In addition, the ease of access to available serving roadways will affect the driver's choice of which to use. The LOS problems being experienced for the eastbound approach to the SH205 at Mims intersection are caused by the difficulty of making an eastbound to northbound left turn onto SH205. The stop control on Mims and the relatively high volume of traffic on SH 205 create the problem. This problem will continue for the Mims intersection and also the two retail drives and the Street A intersection with SH205.

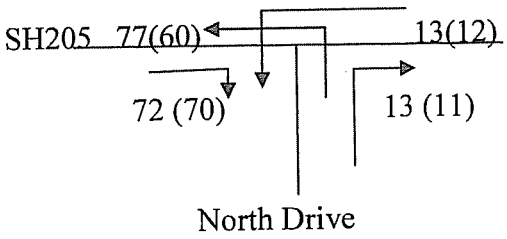
Based upon information provided by the City of Rockwall staff, 85% of the traffic created by the development will go to and from the north and 15% will go to and from the south. Since Mims Rd will be connected to Sids Rd and points north, it can be expected to be to be the route of choice for most of the residential development. Therefore, 20% of the residential traffic will use SH 205 through the Street A intersection and 80% will make use of Mims Rd. 80% of the traffic from each of the streets, C through G, will use their intersection with Mims Rd. All traffic on streets H and I will use their Mims intersection. Similar to the situation on SH 205, 85% of the traffic using Mims will go west and then north and 15% will go east and then south.

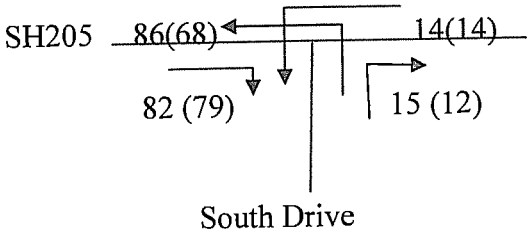
In the retail area, 40% of the traffic will enter and leave by the northern drive, 45% by the southern drive on SH 205 and 15% by the drive on Mims.

208

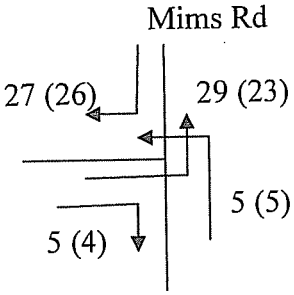
The distribution of generated traffic to the various intersections are shown in FIGURE II

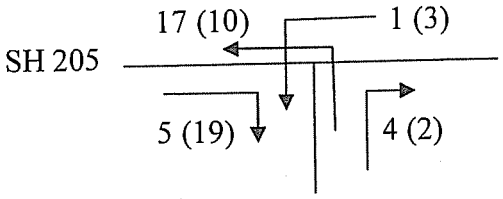
Retail area turning movements at driveways:

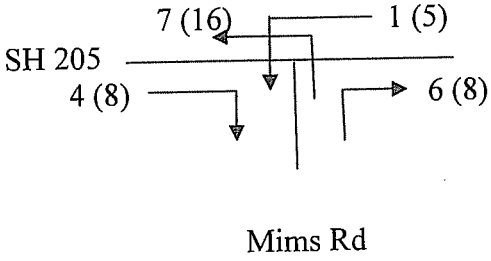




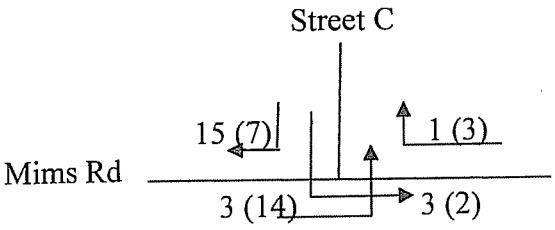
xx = AM
(xx) = PM

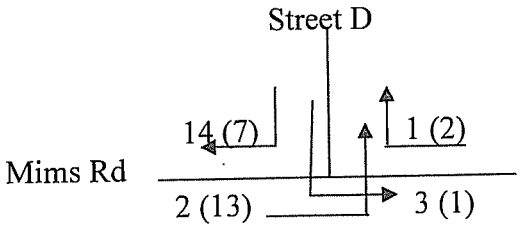


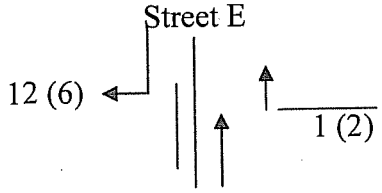


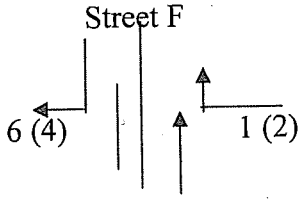


Residential street intersections on Mims Rd









209

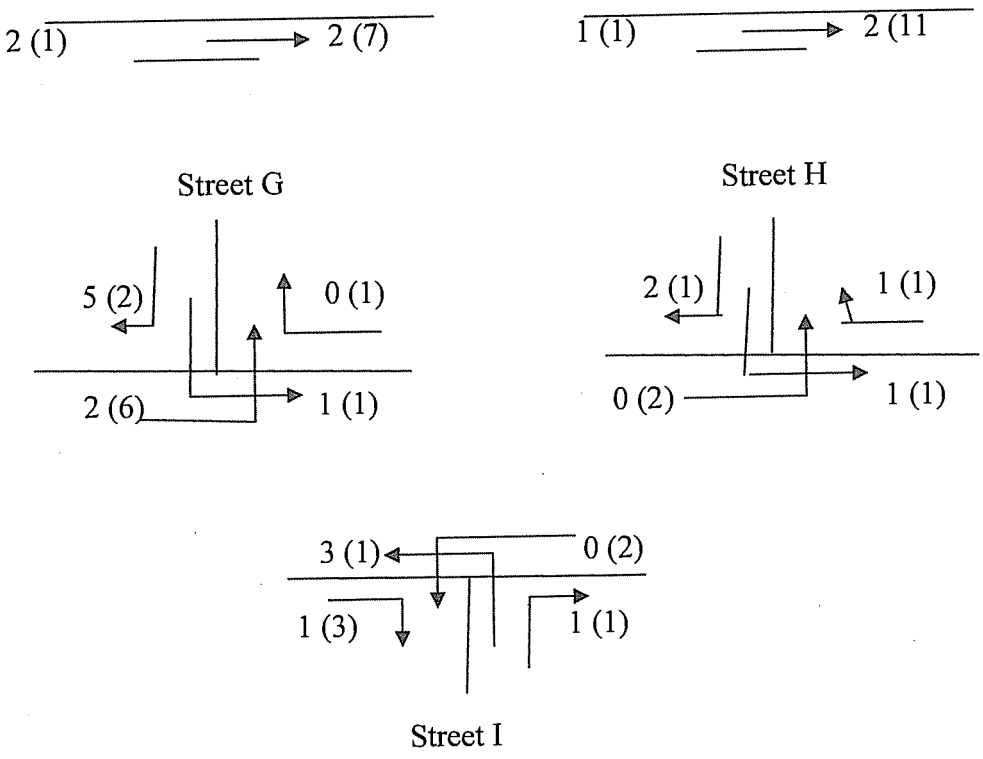


FIGURE II

FUTURE BACKGROUND TRAFFIC CONDITIONS

Analysis of future conditions created by the new development will involve the addition of the site generated traffic to the traffic existing on the roadways at the time of build-out of the development. Due to the fact that it is expected to take seven years for the development to build out, the existing traffic on the roadways will be grown by an agreed upon growth rate for the area. Discussion with the City's staff produced an expected growth rate of 4% per year. Therefore, the background traffic volumes on Mims Rd. and SH 205 in 2024 at build-out will be 28% higher than the current volumes on each section of the road. In the case of this section of SH 205 the intersection of SH 205 and John King Pkwy to the south will be realigned by TxDOT by the buildout date. The realignment will divert part of the SH 205 traffic onto John King. TxDOT staff indicates that 85% of the SH 205 traffic will continue to use the section adjacent to the Enclave development. Therefore the expected traffic increase in volume at buildout will be 85% of 1.28% or 1.08% on SH 205. The operation of the roadway sections under the 2024 volumes was analyzed. The results are as follows:

- The roadway link analysis:

Link	LOS
Mims west of SH 205 A.M.	A

210

Mims west of SH 205 P.M.	A
SH 205 north of Mims Rd A.M.	C
SH 205 north of Mims Rd P.M.	D

The insignalized intersection analysis:

	Approach LOS			
Intersection	North b	South b	East b	West b
SH 205 at Mims Rd AM	A	A	C	
SH 205 at Mims Rd PM	B	B	F	

The details of the 2024 background analyses are given in Appendix D.

BUILDOUT TRAFFIC CONDITIONS

Adding the traffic generated by the development to the background traffic will produce the volumes that can be expected on SH 205, Mims Rd and the intersections in 2024 when the Enclave is built out. The results of the link analyses and the unsignalized Intersection analyses under build out conditions are as follows:

- The roadway link analyses:

Link	LOS
Mims Rd west of SH205 AM	A
Mims Rd west of SH 205 PM	A
SH 205 north of Mims Rd AM	D
SH 205 north of Mims Rd PM	E

- The unsignalized intersection analyses:

	Approach LOS			
Intersection	North b	South b	East b	West b
SH 205 at Street A AM	A	A	C	
SH 205 at Street A PM	B	B	E	
SH 205 at North Drive AM	A	A	E	
SH 205 at North Drive PM	B	B	F	
SH 205 at South Drive AM	A	A	E	
SH 205 at South Drive PM	A	A	F	
SH 205 at Mims Rd AM	A	A	C	
SH 205 at Mims Rd PM	B	B	F	
Mims at Retail Drive AM		A	A	A

211

Mims at Retail Drive PM		A	A	A
Mims at Street C AM		A	A	A
Mims at Street C PM		A	A	A
Mims at Street D AM		A	A	A
Mims at Street D PM		A	A	A
Mims at Street E AM		A	A	A
Mims at Street E PM		A	A	A

Mims at Street F AM		A	A	A
Mims at Street F PM		A	A	A
Mims at Street G AM		A	A	A
Mims at Street G PM		A	A	A
Mims at Street H AM		A	A	A
Mims at Street H PM		A	A	A
Mims at Street I AM	A		A	A
Mims at Street I PM	A		A	A

The details of the link analyses and the unsignalized intersection analyses under build out conditions are given in Appendix E.

TXDOT ACCESS MANAGEMENT CRITERIA

The Texas Department of Transportation (TxDOT) Access Management Manual provides criteria concerning the need to provide a separate right turn lane when building a driveway or street intersection with a TxDOT roadway. The thresholds for the need for these lanes is given in Table 2-3 of the Access Management Manual. The thresholds depend upon the volume of right turning traffic and the speed of the roadway.

For a roadway with a speed of 45 MPH, the threshold for the need for a turn lane is over 50 vehicles per hour during the peak hour.

CONCLUSIONS

The analyses above indicate that a problem exists with the congestion level on SH 205 and at the intersections with it. The problems are seen to worsen with the normal growth of traffic on the roadways. The delays are especially felt by those trying to turn left onto the road. The poor level of service indicated on all of the SH205 intersections is caused by long delays for left turns onto the roadway.

212

The connection of Mims Rd to Sids Rd and points north provides an attractive alternate access for the residential portion of the Enclave. Mims Rd and all of its residential intersections are found to operate at "free flow" LOS A condition.

The intersection traffic movement volume information projected indicates that the right turn movements into the site at both of the retail driveways on SH 205 exceed the TxDOT threshold to require a separate right turn lane. The new turn lanes can be expected to ease the flow of southbound traffic on SH 205 and improve the operation of the driveways.

RECOMMENDATIONS

When the retail portion of the Enclave is developed separate right turn lanes should be built at the driveways from SH 205 into the site.

The construction of Mims Rd from SH 205 to Sids Rd should be completed as the first step in the development of the residential portion of the Enclave.

An effort should be pursued by the City of Rockwall and TxDOT to improve the capacity and operation of SH 205 from Sids Rd to John King Pkwy.

Two-Way Two-Lane Highway Segment Analysis

Analyst	Tom Walton
Agency/Co.	Rockwall TX
Date Performed	12/28/2017
Analysis Time Period	AM Peak Hour
Highway	Mims Rd
From/To	SH 205 to Sids Rd
Jurisdiction	Rockwall
Analysis Year	2017
Description	The Enclave Mims Existing AM

Input Data

Highway class	Class 2				
Shoulder width	6.0	ft	Peak-hour factor, PHF	0.88	
Lane width	12.0	ft	% Trucks and buses	14	%
Segment length	0.0	mi	% Recreational vehicles	4	%
Terrain type	Level		% No-passing zones	0	%
Grade: Length		mi	Access points/mi	8	/mi
Up/down		%			

Two-way hourly volume, V	73		veh/h
Directional split	60 /	40	%

Average Travel Speed

Grade adjustment factor, fG	1.00	
PCE for trucks, ET	1.7	
PCE for RVs, ER	1.0	
Heavy-vehicle adjustment factor,	0.911	
Two-way flow rate, (note-1) vp	91	pc/h
Highest directional split proportion (note-2)	55	pc/h
Free-Flow Speed from Field Measurement:		
Field measured speed, SFM	-	mi/h
Observed volume, Vf	-	veh/h
Estimated Free-Flow Speed:		
Base free-flow speed, BFFS	45.0	mi/h
Adj. for lane and shoulder width, fLS	0.0	mi/h
Adj. for access points, fA	2.0	mi/h
Free-flow speed, FFS	43.0	mi/h
Adjustment for no-passing zones, fnp	0.0	mi/h
Average travel speed, ATS	42.3	mi/h

Percent Time-Spent-Following

Grade adjustment factor, fG	1.00	
PCE for trucks, ET	1.1	
PCE for RVs, ER	1.0	
Heavy-vehicle adjustment factor, fHV	0.986	
Two-way flow rate,(note-1) vp	84	pc/h
Highest directional split proportion (note-2)	50	
Base percent time-spent-following, BPTSF	7.1	%
Adj.for directional distribution and no-passing zones, fd/np	2.2	
Percent time-spent-following, PTSF	9.4	%

Level of Service and Other Performance Measures

Level of service, LOS	A	
Volume to capacity ratio, v/c	0.03	
Peak 15-min vehicle-miles of travel, VMT15	0	veh-mi
Peak-hour vehicle-miles of travel, VMT60	0	veh-mi
Peak 15-min total travel time, TT15	0.0	veh-h

Notes:
1. If vp >= 3200 pc/h, terminate analysis-the LOS is F.
2. If highest directional split vp >= 1700 pc/h, terminate analysis-the LOS is F.

APPENDIX C

Trip Generation Sheet

231

Single-Family Detached Housing
(210)

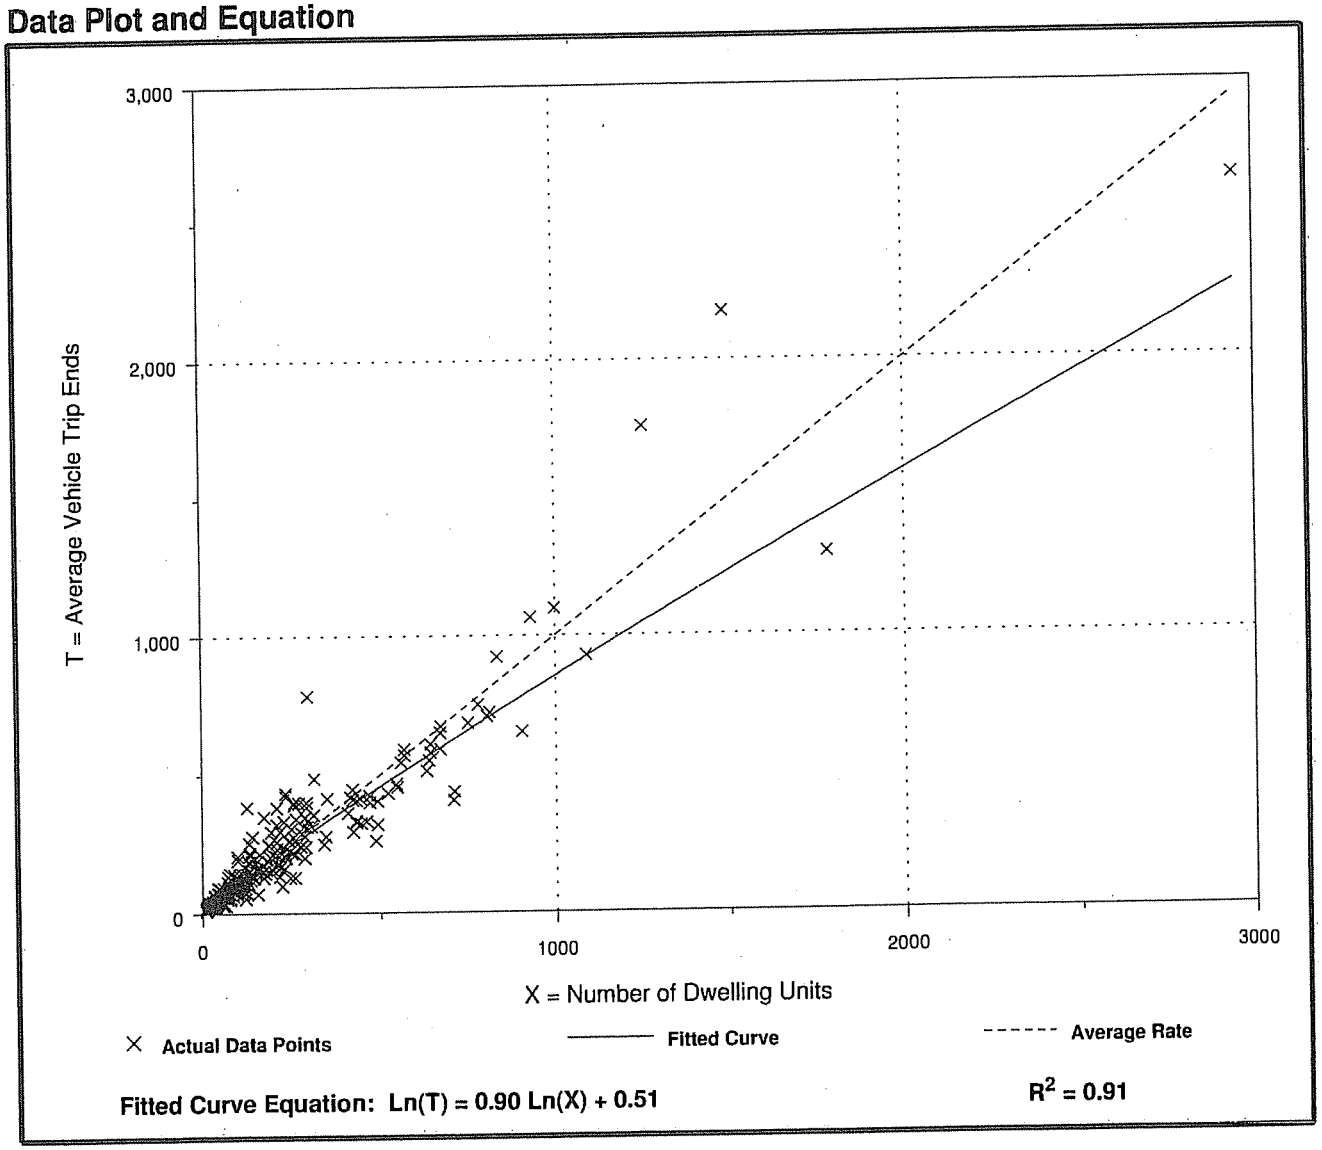
Average Vehicle Trip Ends vs: **Dwelling Units**
On a: **Weekday,**
Peak Hour of Adjacent Street Traffic,
One Hour Between 4 and 6 p.m.

Number of Studies: 321
Avg. Number of Dwelling Units: 207
Directional Distribution: 63% entering, 37% exiting

Trip Generation per Dwelling Unit

Average Rate	Range of Rates	Standard Deviation
1.00	0.42 - 2.98	1.05

Data Plot and Equation



Fitted Curve Equation: Ln(T) = 0.90 Ln(X) + 0.51

R^2 = 0.91

Single-Family Detached Housing
(210)

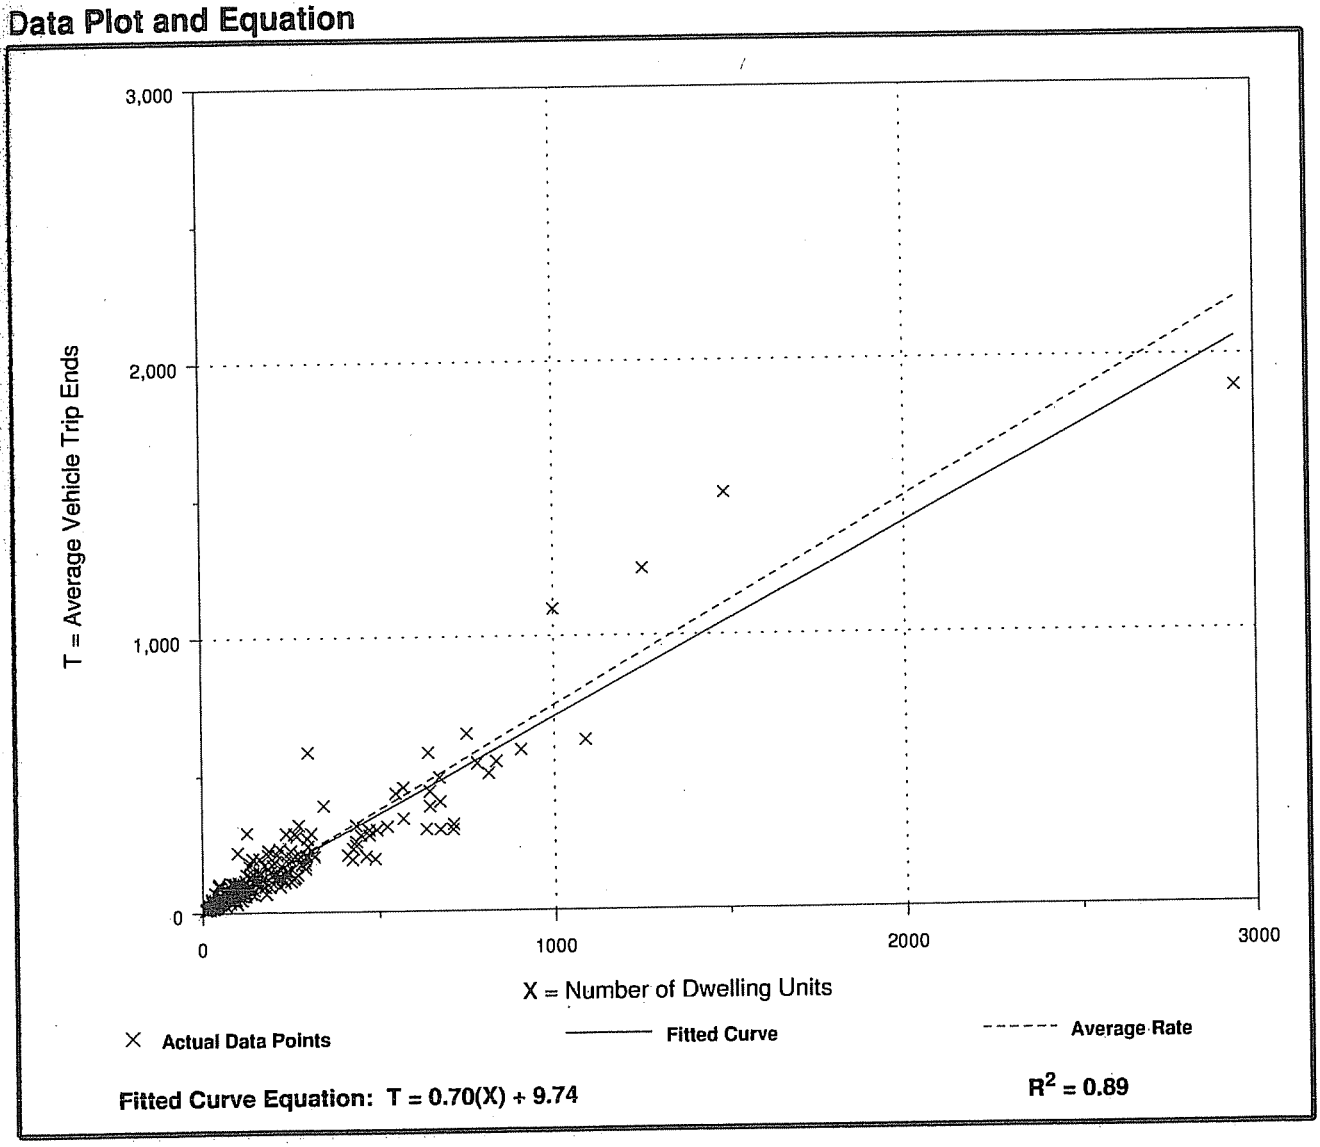
Average Vehicle Trip Ends vs: **Dwelling Units**
On a: **Weekday,**
Peak Hour of Adjacent Street Traffic,
One Hour Between 7 and 9 a.m.

Number of Studies: 292
Avg. Number of Dwelling Units: 194
Directional Distribution: 25% entering, 75% exiting

Trip Generation per Dwelling Unit

Average Rate	Range of Rates	Standard Deviation
0.75	0.33 - 2.27	0.90

Data Plot and Equation



Fitted Curve Equation: T = 0.70(X) + 9.74

R^2 = 0.89

Residential Condominium/Townhouse
(230)

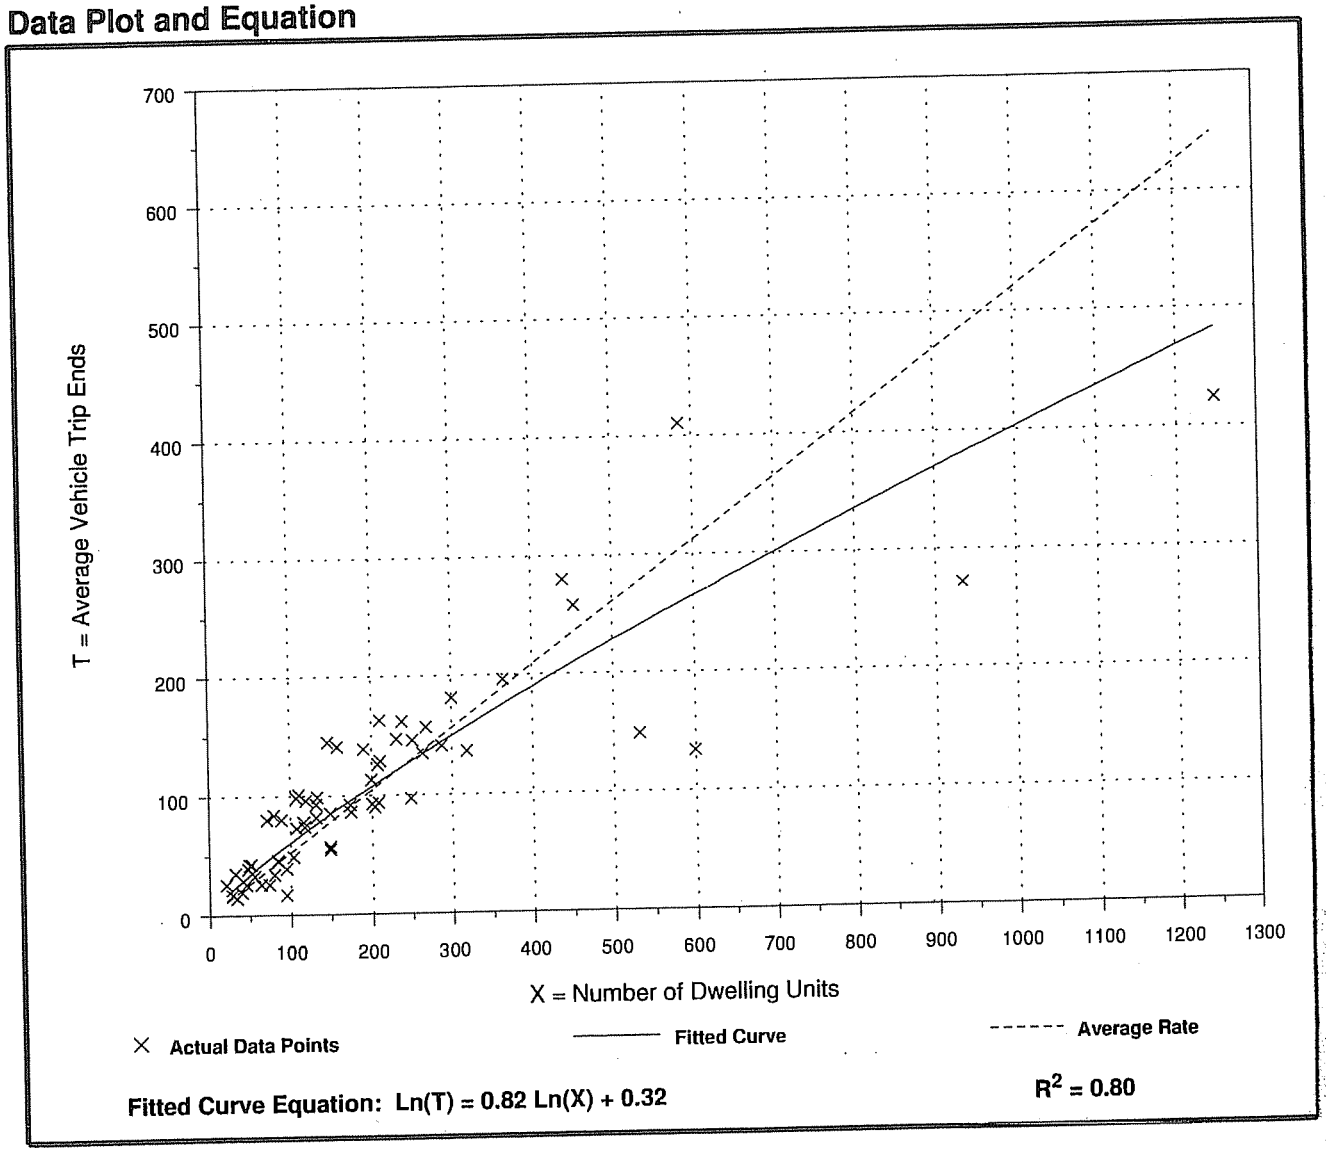
Average Vehicle Trip Ends vs: **Dwelling Units**
On a: **Weekday,**
Peak Hour of Adjacent Street Traffic,
One Hour Between 4 and 6 p.m.

Number of Studies: 62
Avg. Number of Dwelling Units: 205
Directional Distribution: 67% entering, 33% exiting

Trip Generation per Dwelling Unit

Average Rate	Range of Rates	Standard Deviation
0.52	0.18 - 1.24	0.75

Data Plot and Equation



Fitted Curve Equation: $Ln(T) = 0.82\ Ln(X) + 0.32$

$R^2 = 0.80$

Residential Condominium/Townhouse
(230)

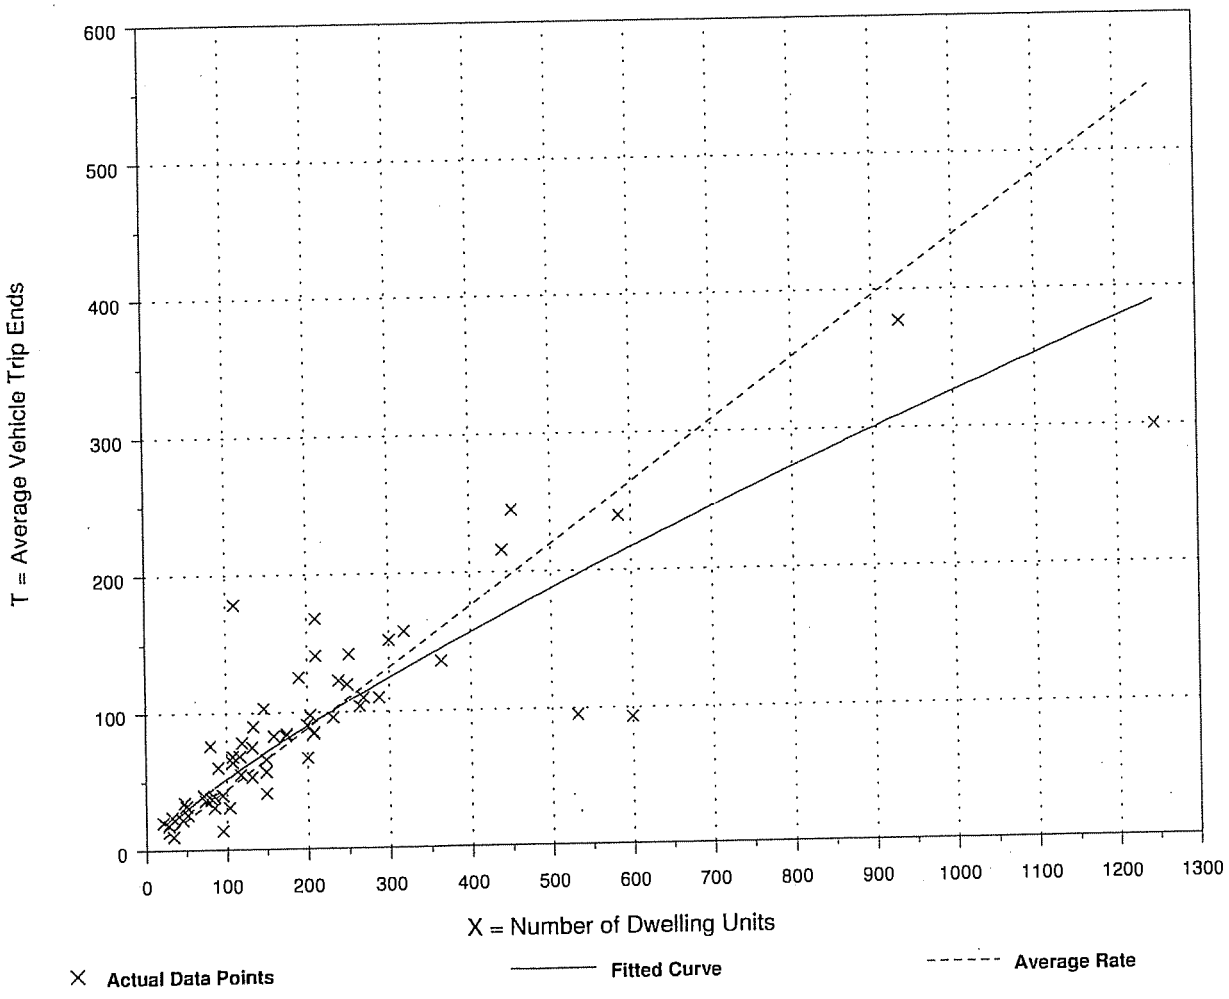
Average Vehicle Trip Ends vs: **Dwelling Units**
On a: **Weekday,**
Peak Hour of Adjacent Street Traffic,
One Hour Between 7 and 9 a.m.

Number of Studies: 59
Avg. Number of Dwelling Units: 213
Directional Distribution: 17% entering, 83% exiting

Trip Generation per Dwelling Unit

Average Rate	Range of Rates	Standard Deviation
0.44	0.15 - 1.61	0.69

Data Plot and Equation



Fitted Curve Equation: $Ln(T) = 0.80\ Ln(X) + 0.26$

$R^2 = 0.76$

Specialty Retail Center
(826)

Average Vehicle Trip Ends vs: **1000 Sq. Feet Gross Leasable Area**
On a: **Weekday,**
P.M. Peak Hour of Generator

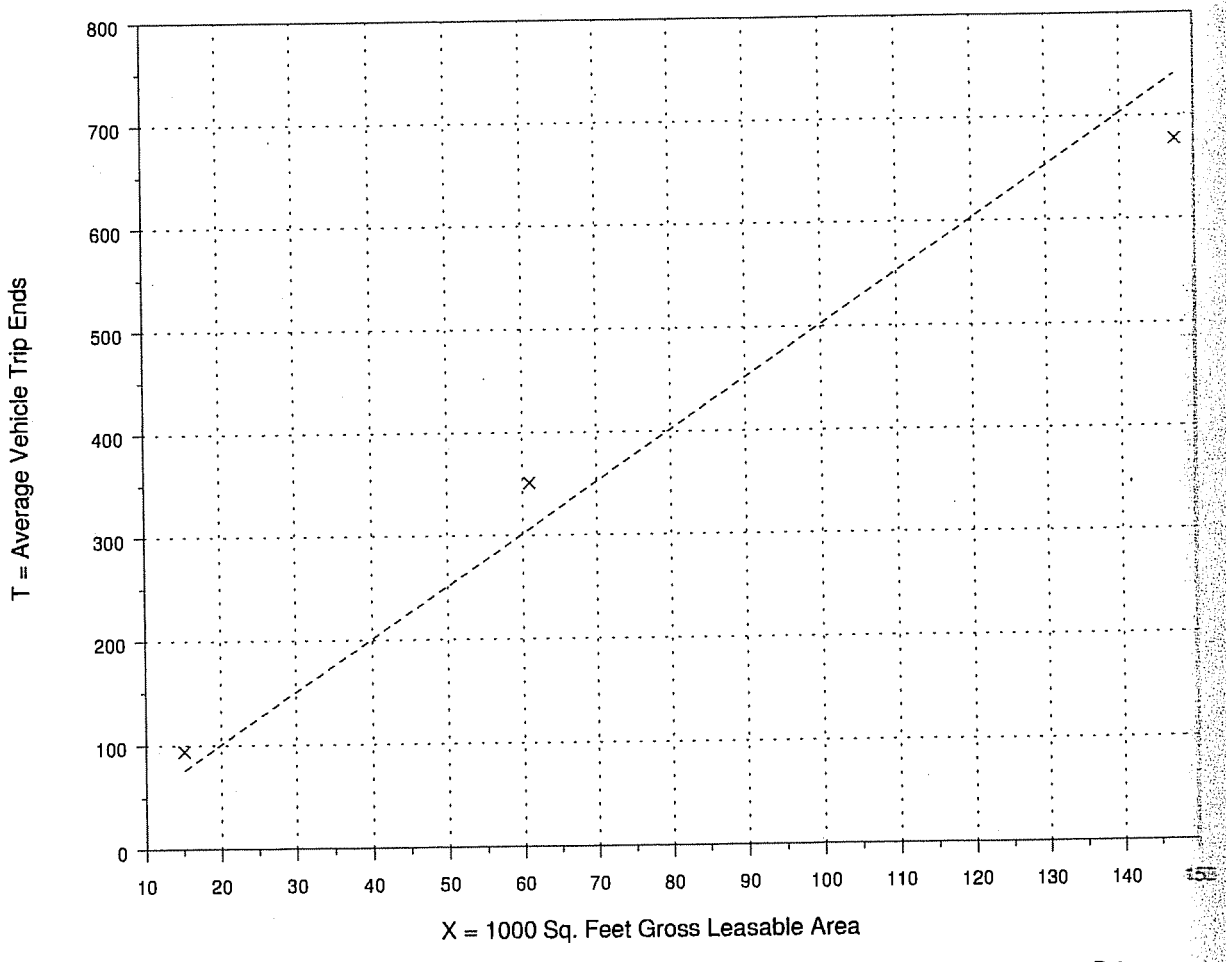
Number of Studies: 3
Average 1000 Sq. Feet GLA: 75
Directional Distribution: 56% entering, 44% exiting

Trip Generation per 1000 Sq. Feet Gross Leasable Area

Average Rate	Range of Rates	Standard Deviation
5.02	4.59 - 6.18	2.31

Data Plot and Equation

Caution - Use Carefully - Small Sample Size



Fitted Curve Equation: Not given

R^2 = ****

Specialty Retail Center
(826)

Average Vehicle Trip Ends vs: **1000 Sq. Feet Gross Leasable Area**
On a: **Weekday,**
A.M. Peak Hour of Generator

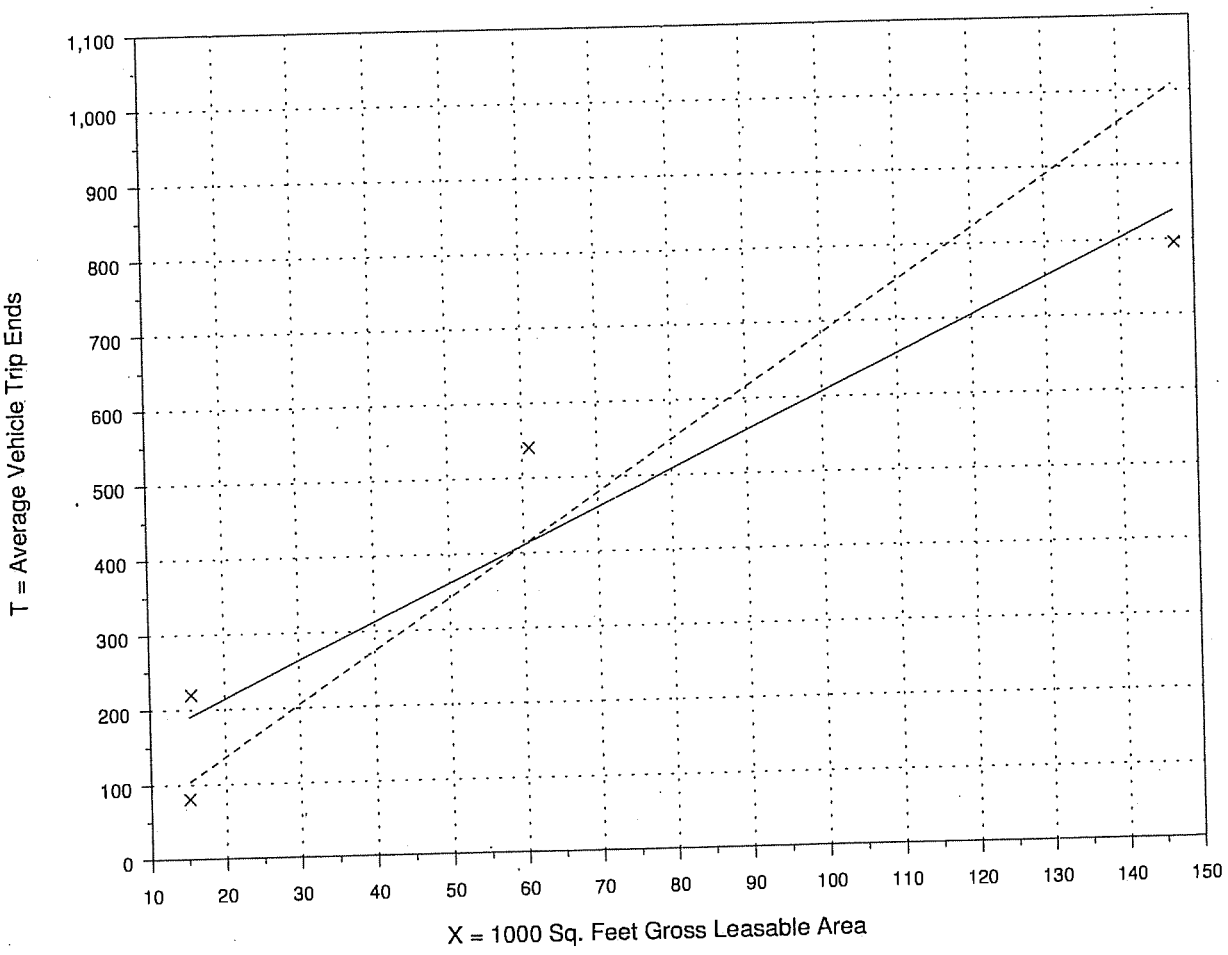
Number of Studies: 4
Average 1000 Sq. Feet GLA: 60
Directional Distribution: 48% entering, 52% exiting

Trip Generation per 1000 Sq. Feet Gross Leasable Area

Average Rate	Range of Rates	Standard Deviation
6.84	5.33 - 14.08	3.55

Data Plot and Equation

Caution - Use Carefully - Small Sample Size



Fitted Curve Equation: $T = 4.91(X) + 115.59$

$R^2 = 0.90$

Convenience Market with Gasoline Pumps
(853)

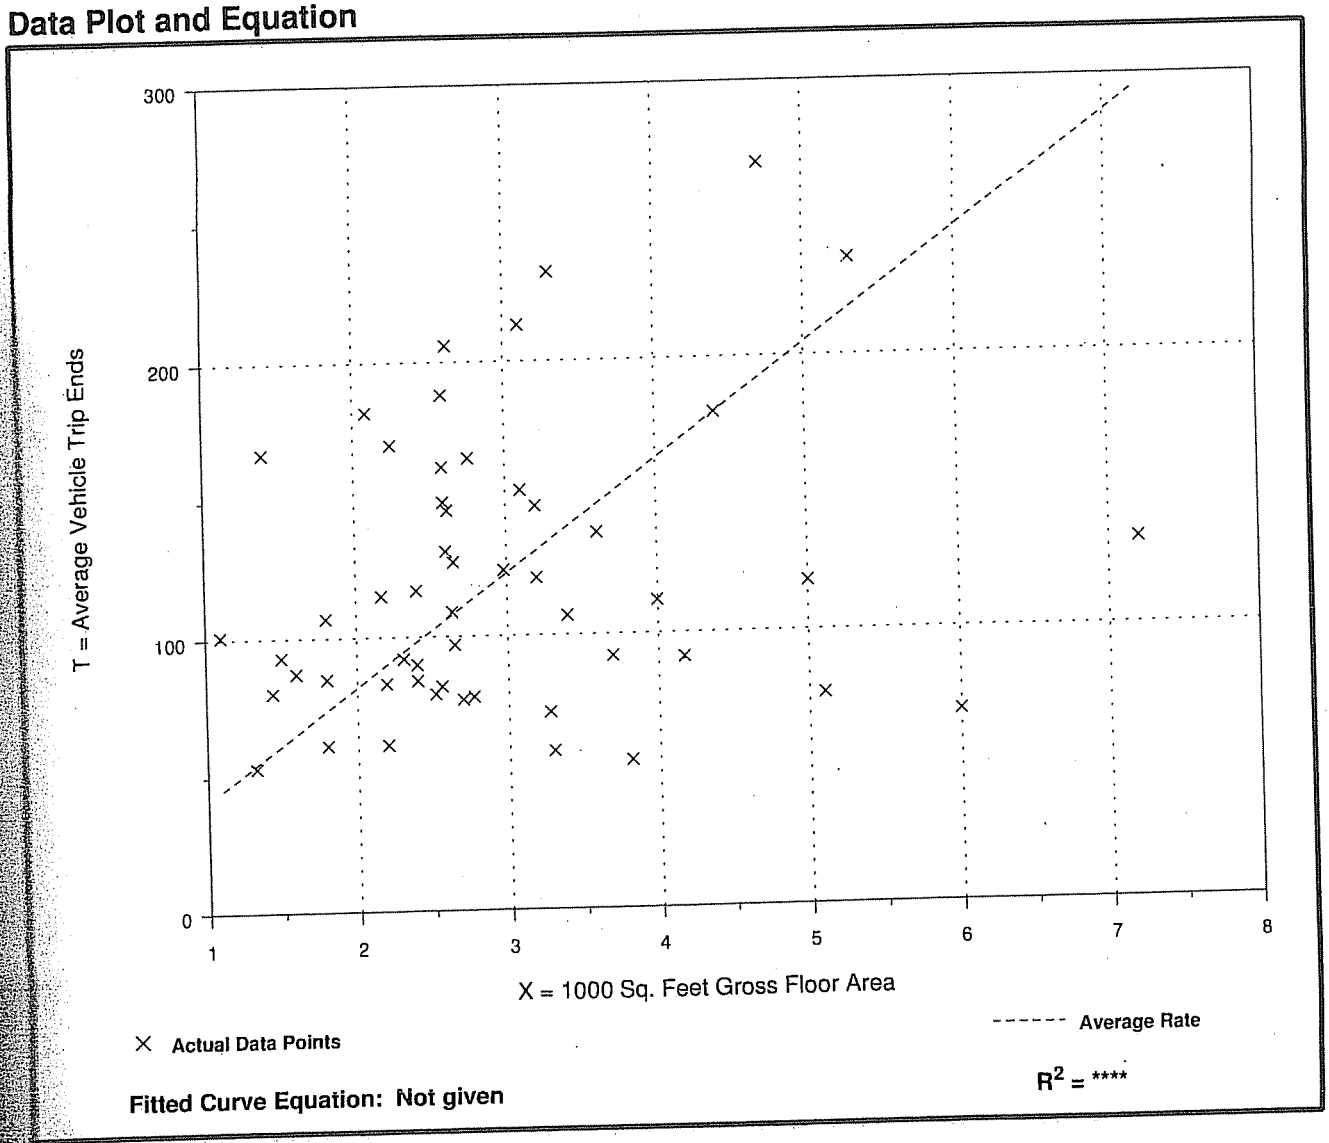
Average Vehicle Trip Ends vs: **1000 Sq. Feet Gross Floor Area**
On a: **Weekday,**
Peak Hour of Adjacent Street Traffic,
One Hour Between 7 and 9 a.m.

Number of Studies: 53
Average 1000 Sq. Feet GFA: 3
Directional Distribution: 50% entering, 50% exiting

Trip Generation per 1000 Sq. Feet Gross Floor Area

Average Rate	Range of Rates	Standard Deviation
40.92	11.67 - 119.29	20.75

Data Plot and Equation



Fitted Curve Equation: Not given

R^2 = ****

Convenience Market with Gasoline Pumps
(853)

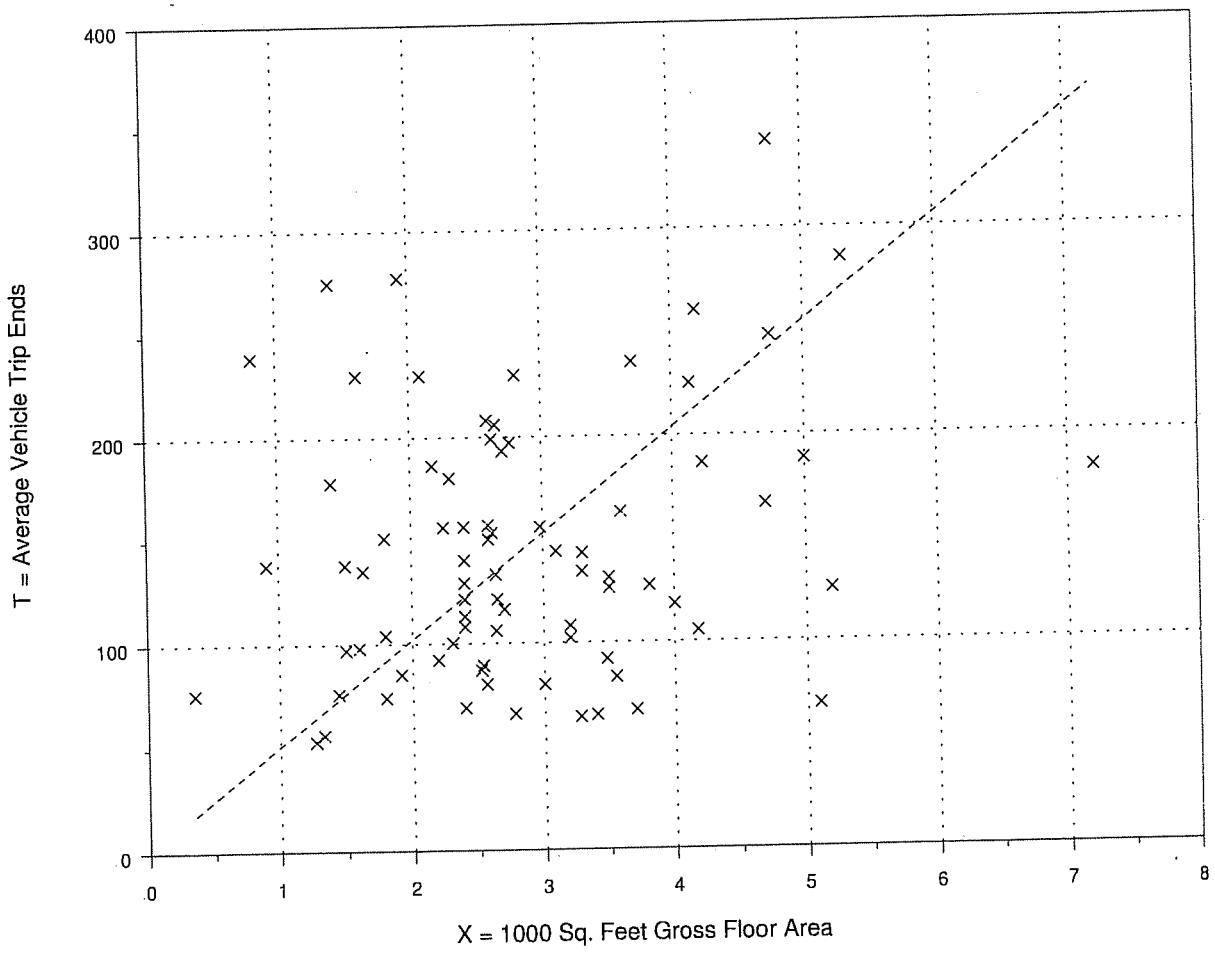
Average Vehicle Trip Ends vs: **1000 Sq. Feet Gross Floor Area**
On a: **Weekday,**
Peak Hour of Adjacent Street Traffic,
One Hour Between 4 and 6 p.m.

Number of Studies: 78
Average 1000 Sq. Feet GFA: 3
Directional Distribution: 50% entering, 50% exiting

Trip Generation per 1000 Sq. Feet Gross Floor Area

Average Rate	Range of Rates	Standard Deviation
50.92	13.53 - 292.89	32.15

Data Plot and Equation



Fitted Curve Equation: Not given

R^2 = ****

CITY OF ROCKWALL

ORDINANCE NO. 18-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, SO AS TO CHANGE THE ZONING FROM AN AGRICULTURAL (AG), COMMERCIAL (C) AND HEAVY COMMERCIAL (HC) DISTRICT TO A PLANNED DEVELOPMENT DISTRICT FOR GENERAL RETAIL (GR), TWO FAMILY (2F) AND SINGLE FAMILY 7 (SF-7) DISTRICT LAND USES ON THE *SUBJECT PROPERTY*, BEING A 63.72-ACRE TRACT OF LAND IDENTIFIED AS TRACT 3 OF THE W. H. BARNES SURVEY, ABSTRACT NO. 26, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS AND MORE FULLY DESCRIBED HEREIN BY *EXHIBIT 'A'*; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City has received a request by Pat Atkins of Saddlestar Land Development on behalf of the Stagliano Family Trust for the approval of a zoning change from an Agricultural (AG), Commercial (C) and Heavy Commercial (HC) District to a Planned Development District for General Retail (GR), Two Family (2F) and Single Family 7 (SF-7) District land uses on a 63.72-acre tract of land identified as Tract 3 of the W. H. Barnes Survey, Abstract No. 26, City of Rockwall, Rockwall County, Texas and more fully described in *Exhibit 'A'* of this ordinance, which hereinafter shall be referred to as the *Subject Property* and incorporated by reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the affected area, and in the vicinity thereof, and the governing body in the exercise of its legislative discretion, has concluded that the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:**

SECTION 1. That the *Subject Property* shall be used only in the manner and for the purposes authorized by this Planned Development District Ordinance and the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall as heretofore amended, as amended herein by granting this zoning change, and as maybe amended in the future;

SECTION 2. That development of the *Subject Property* shall generally be in accordance with the *Planned Development Concept Plan*, depicted in *Exhibit 'B'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'B'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*;

SECTION 3. That development of the *Subject Property* shall generally be in accordance with the *Development Standards*, described in *Exhibit 'C'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'C'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*;

SECTION 4. That development of the *Subject Property* shall be in conformance with the schedule listed below (*except as set forth below with regard to simultaneous processing and approvals*).

DRAFT 03.30.18

(a) The procedures set forth in the City's subdivision regulations on the date this ordinance is approved by the City, as amended by this ordinance (*including Subsections 4(b) through 4(d) below*), shall be the exclusive procedures applicable to the subdivision and platting of the *Subject Property*.

(b) The following plans and plats shall be required in the order listed below (*except as set forth below with regard to simultaneous processing and approvals*). The City Council shall act on an application for an *Open Space Master Plan* in accordance with the time period specified in Section 212.009 of the Texas Local Government Code.

1. Open Space Master Plan (*Tracts 2 & 3 Only)*
2. Master Plat (*Tracts 2 & 3 Only)*
3. Preliminary Plat (*Tracts 2 & 3 Only)*
4. PD Site Plan (*All Tracts*)
5. Final Plats (*All Tracts*)

(c) A *Master Plat* application covering all of the *Subject Property* shall be submitted. No master plat application shall be approved until the *Open Space Master Plan* for all of the *Subject Property* has been approved; however, the *Open Space Master Plan* may be processed by the City concurrently with the *Master Plat* and *Preliminary Plat* application. If only one (1) phase is being proposed, the applicant may submit a letter stating the timing of the phase with the *Preliminary Plat* application to satisfy the *Master Plat* requirement.

(d) A *PD Site* Plan application, including a site plan application for improvements for parkland or trails, may be processed by the City concurrently with the *Final Plat* application for the development.

SECTION 5. That the official zoning map of the City of Rockwall shall be corrected to reflect the changes in zoning as described herein.

SECTION 6. That any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *Two Thousand Dollars* ($2,000.00) for each offense and each and every day such offense shall continue shall be deemed to constitute a separate offense;

SECTION 7. That if any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable;

SECTION 8. The standards in this ordinance shall control in the event of a conflict between this ordinance and any provision of the Unified Development Code or any provision of the City Code, ordinance, resolution, rule, regulation, or procedure that provides a specific standard that is different from and inconsistent with this ordinance. References to zoning district regulations or other standards in the Unified Development Code (including references to the *Unified Development Code*), and references to overlay districts, in this ordinance or any of the Exhibits hereto are those in effect on the date this ordinance was passed and approved by the City Council of the City of Rockwall, Texas;

SECTION 10. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides;

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 5TH DAY OF FEBRUARY, 2018.

DRAFT 02.05.2018

Jim Pruitt, *Mayor*

ATTEST:

Kristy Cole, *City Secretary*

APPROVED AS TO FORM:

Frank J. Garza, *City Attorney*

1st Reading: *February 5, 2018*

2nd Reading: *February 19, 2018*

DRAFT ORDINANCE 02.05.2018

Exhibit 'A':
Legal Description

All that certain lot, tract or parcel of land situated in the W. H. BARNES SURVEY, ABSTRACT NO. 26, City of Rockwall, Rockwall County, Texas, and being part of that tract of land as described in a deed 10 Edward B. Tomlinson II recorded in *Volume 173, Page 984* of the Deed Records of Rockwall County, Texas and being more particularly described as follows:

BEGINNING at a 1/2" iron rod with yellow plastic cap stamped "R.S.C.L RPLS 5034" set for corner in the Southwest right-of-way of State Highway 205, at the intersection of the North line of a 20' sanitary sewer easement to the City of Rockwall, Texas, and being in the Northeast line of said Tomlinson tract, said point bears S. 29 Deg. 35 Min. 09 Sec. E., 283.84-feet, S. 58 Deg. 34 Min. 49 Sec. W., 8.85-feet and S. 29 Deg. 47 Min. 09 Sec. E., 207.28-feet from a fence corner post at the East corner of a tract of land as described in a Deed to Kip Estep, as recorded in *Volume 1098, Page 164* of the Real Property Records of Rockwall County, Texas;

THENCE S. 29 Deg. 47 Min. 09 Sec. E. along said right-of-way line, a distance of 92.89-feet to a 3/8" iron rod found for corner;

THENCE N. 53 Deg. 03 Min. 52 Sec. E. along said right-of-way line, a distance of 9.20-feet to a concrete highway monument round for corner;

THENCE S. 29 Deg. 52 Min. 01 Sec. E. (*CONTROLLING SEARING LINE*) along said highway a distance of 447.12 feet to a concrete highway monument found for corner;

THENCE in a southeasterly direction along a curve to the left having a central angle of 10 Deg. 37 Min. 17 Sec., a radius of 5,779.60-feet, a tangent of 537.25 feet, a chord of S. 34 Deg. 56 Min. 28 Sec. E., 1,069.88-feet to a 1/2" iron rod with yellow plastic cap stamped "R.S.C.L. RPLS 5034" set for corner on the Southeast margin of Mims Road at the Southeast corner of said Tomlinson tract;

THENCE S. 89 Deg. 58 Min. 37 Sec. W. along the South margin of Mims Road, a distance of 1,352.05-feet to a 1/2" iron rod with yellow plastic cap stamped "R.S.C.I. RPLS 5034" set for corner;

THENCE N. 89 Deg. 07 Min. 24 Sec. W. along the South margin of Mims Road, a distance of 1,324.28-feet to a 1/2" iron rod with yellow plastic cap stamped "R.S.C.I. RPLS 5034" set for corner;

THENCE N. 89 Deg. 01 Min. 20 Sec. W. a distance of 1,560.85-feet to a 1/2" iron rod found for corner;

THENCE N. 45 Deg. 13 Min. 31 Sec. E. a distance of 1,133.75-feet to 1/2" iron rod found in a creek for corner and being in the Southwest margin of Mims Road;

THENCE S. 53 Deg. 21 Min. 21 Sec. E. a distance of 183.64-feet to a 1/2" iron rod found for corner in the center of Mims Road;

THENCE S. 42 Deg. 05 Min. 37 Sec. E. along the center of Mims Road, a distance of 353.08-feet to an "X" set in concrete bridge for comer at the South corner of a 1.54-acres tract of land as described in a Deed to Richard Slaughter as recorded in *Volume 1531, Page 145* of the Real Property Records of Rockwall County, Texas;

THENCE N. 43 Deg. 52 Min. 17 Sec. E. a distance of 97.27-feet to a 1/2" iron rod found for corner;

THENCE along the Northeast line of a 20' sanitary sewer easement to the City of Rockwall, Texas, as recorded in *Volume 1825, Page 143* of the Real Property Records of Rockwall County, Texas, as follows:

S. 42 Deg. 00 Min. 04 Sec. E. a distance of 84.73-feet to a 1/2" iron rod found for corner;
N. 80 Deg. 40 Min. 17 Sec. E. a distance of 276.11-feet to a 1/2" iron rod found for corner;
N. 72 Deg. 31 Min. 33 Sec. E. a distance of 1,106.75-feet to a 1/2" iron rod found for corner;
N. 73 Deg. 54 Min. 13 Sec. E. a distance of 356.75-feet to a 1/2" iron rod found for corner;
N. 37 Deg. 15 Min. 36 Sec. E. a distance of 537.91-feet to the *POINT OF BEGINNING* and containing 63.72-acres of land, of which 5.0-acres lies within the margins of Mims Road and approximate 21-acres lies within the 100-year floodplain, leaving a net area of 40.62-acres of land.

Exhibit 'B':
Concept Plan

DRAFT ORDINANCE 03.05.2018

Exhibit 'C':
PD Development Standards

PD DEVELOPMENT STANDARDS.

GENERAL PD STANDARDS

(1) *Residential Lot Composition and Layout.* The lot layout and composition shall generally conform to the *Concept Plan* depicted in *Exhibit 'B'* of this ordinance and stated in *Table 1* below. Allowances for changes to the quantity and location of the single family lot type are permitted in conformance with the requirements listed below; however in no case shall the proposed development exceed 263-units (*townhome and single family*) or a density of 4.5-dwelling units per acre.

Table 1: Unit Composition

Lot Type	Lot Dimensions	Minimum Lot Size (SF)	Dwelling Units (#)	Dwelling Units (%)
Tract 2	22' x 75'	1,650 SF	198	75.29%
Tract 3	50' x 120'	6,000 SF	65	24.71%
		Maximum Permitted Units:	263	100.00%

(2) *Residential Deviation Provisions.* The allocation of single-family dwellings

(3) *Trash Dumpster Enclosure.* All trash dumpsters enclosures shall be four (4) sided, with eight (8) foot walls constructed and cladded with materials matching the adjacent structure, and have a self-latching opaque gate. All trash dumpster enclosures shall be internal to the site and not be situated within any established building setbacks or landscape buffers, and not be visible from a public street or open space.

(4) *Lighting.* Light poles shall not exceed 20-feet in total height (*i.e. base and lighting standard*). All fixtures shall be directed downward and be positioned to contain all light within the development area.

(5) *Buried Utilities.* New distribution power-lines required to serve the *Subject Property* shall be placed underground, whether such lines are located internally or along the perimeter of the *Subject Property*, unless otherwise authorized by the City Council. The *Developer* shall not be required to re-locate existing overhead power-lines along the perimeter of the *Subject Property*. Temporary power-lines constructed across undeveloped portions of the *Subject Property* to facilitate development phasing and looping may be allowed above ground, but shall not be considered existing lines at the time the area is developed, and if they are to become permanent facilities, such lines shall be placed underground pursuant to this paragraph. Franchise utilities shall be placed within a ten (10) foot public utility easement behind the sidewalk, between the home/structure and the property line.

(6) *Open Space.* A minimum of 20% open space shall be provided which generally conforms to the *Concept Plan* contained in *Exhibit 'B'* of this ordinance. The Homeowner's Association (HOA) shall be responsible for maintaining all open space areas.

(7) *Neighborhood Signage.* Permanent subdivision identification signage shall be permitted at all major entry points for the proposed subdivision. Final design and location of any entry features shall be reviewed and approved during the site plan review process.

(8) *Homeowner's Association (HOA).* A Homeowner's Association shall be created to enforce the restrictions established in accordance with the requirements of *Section 38-15* of the *Subdivision Regulations* contained within the *Municipal Code of Ordinances* of the City of Rockwall. The HOA or HOA's shall also maintain all neighborhood parks, open space and common areas, irrigation, landscaping, screening fences private roadway, drive aisles and drive approaches for the areas identified as *Tracts 1 & 2* on the *Concept Plan* depicted in *Exhibit 'B'* of this ordinance.

(9) *Street.* All streets (*excluding drives, fire lanes and private parking areas*) shall be built according to City street standards.

(10) *Variances.* The variance procedures and standards for approval that are set forth in the UDC shall apply to any application for variances to this ordinance.

DRAFT ORDINANCE 02.13.18

Exhibit 'C':
PD Development Standards

TRACT 1: GENERAL RETAIL

(1) *Permitted Uses.* Unless specifically provided by this Planned Development ordinance, only those uses permitted within the General Retail (GR) District, as stipulated by the *Permissible Use Charts* contained in Article IV, *Permissible Uses*, of the Unified Development Code (UDC) [*Ordinance No. 04-38*] as heretofore amended, as amended herein by granting this zoning change, and as maybe amended in the future are permitted on the area identified as *Tract 1* on the *Concept Plan* depicted in *Exhibit 'B'* of this ordinance; however, the following shall apply:

Permitted by-Right. The following uses shall be permitted by right:

- ❒ Retail Store with Gasoline Product Sales [More than two (2) *Dispensers*]

Prohibited Uses. The following uses shall be prohibited:

- ❒ Convent or Monastery
- ❒ Hotel or Motel
- ❒ Hotel, Residence
- ❒ Cemetery/Mausoleum
- ❒ Mortuary or Funeral Chapel
- ❒ Social Service Provider
- ❒ Billiard Parlor or Pool Hall
- ❒ Carnival, Circus, or Amusement Ride
- ❒ Commercial Amusement/Recreation (*Outside*)
- ❒ Gun Club, Skeet or Target Range (*Indoor*)
- ❒ Astrologer, Hypnotist, or Psychic Art and Science
- ❒ Night Club, Discotheque, or Dance Hall
- ❒ Secondhand Dealer
- ❒ Car Wash, Self Service
- ❒ Service Station
- ❒ Mining and Extraction (*Sand, Gravel, Oil & Other*)
- ❒ Helipad
- ❒ Railroad Yard or Shop
- ❒ Transit Passenger Facility
- ❒ Garden Supply/Plant Nursery

(2) *Density and Dimensional Requirements.* Any development on the area identified as *Tract 1* on the *Concept Plan* depicted in *Exhibit 'B'* of this ordinance shall be subject to the development standards required for properties in a General Retail (GR) District and within the SH-205 Overlay (SH-205 OV) District as stipulated by Article V, *District Development Standards*, of the Unified Development Code (UDC) [*Ordinance No. 04-38*] as heretofore amended, as amended herein by granting this zoning change, and as maybe amended in the future.

(3) *Connectivity and Design.* The area identified as *Tract 1* on the *Concept Plan* depicted in *Exhibit 'B'* of this ordinance shall be designed to be pedestrian oriented and easily accessible to the adjacent residential land uses. In addition, the non-residential land uses shall be designed in a manner that reduces physical barriers between the residential land uses by incorporating cross connectivity in the form of walking paths and pedestrian scale elements. Buildings constructed in this area should be designed to a pedestrian scale with architectural elements that complement the adjacent residential land uses.

(4) *Landscape Requirements*. All *Canopy/Shade Trees* planted within *Tract 1* shall be a minimum of four (4) caliper inches in size and all *Accent/Ornamental/Under-Story Trees* shall be a minimum of four (4) feet in total height.

DRAFT ORDINANCE 05.15.2018

(5) *Landscape Buffers.* All landscape buffers and plantings located within the buffers adjacent to the area identified as *Tract 1* on the *Concept Plan* depicted in *Exhibit 'B'* of this ordinance shall adhere to the following:

(a) *Landscape Buffer (SH-205).* A minimum of a 20-foot landscape buffer shall be provided along the frontage of SH-205 (*outside of and beyond any required right-of-way dedication*), and shall incorporate ground cover, a built-up berm and/or shrubbery or a combination thereof along the entire length of the frontage. Berms and/or shrubbery shall have a minimum height of 30-inches and a maximum height of 48-inches. In addition, two (2) canopy trees and four (4) accent trees shall be planted per 100-feet of linear frontage. The developer shall also be responsible for the construction of a eight (8) foot trail situated within the 20-foot landscape buffer adjacent to SH-205.

(b) *Landscape Buffer (Mims Road).* A minimum of a ten (10) foot landscape buffer shall be provided along the frontage of Mims Road (*outside of and beyond any required right-of-way dedication*). In addition, one (1) canopy tree shall be planted per 50-feet of linear frontage. The developer shall also be responsible for the construction of a five (5) foot sidewalk situated within the ten (10) foot landscape buffer adjacent to Mims Road.

(c) *Landscape Buffer (Adjacent to Residential).* A minimum of a 50-foot landscape buffer shall be provided adjacent to all residential land uses. The landscape buffer shall incorporate a built-up berm with ground cover and/or shrubbery or a combination thereof along the entire length of the adjacency for the purpose of screening the commercial areas from the residential areas without using a physical barrier. In addition, the landscape buffer shall incorporate canopy trees planted on 20-foot centers along the entire length of the adjacency.

TRACT 2: TOWNHOMES

(1) *Permitted Uses.* Unless specifically provided by this Planned Development ordinance, only those uses permitted within the Two Family (2F) District, as stipulated by the *Permissible Use Charts* contained in Article IV, *Permissible Uses*, of the Unified Development Code (UDC) [*Ordinance No. 04-38*] as heretofore amended, as amended herein by granting this zoning change, and as maybe amended in the future are permitted on the area identified as *Tract 2* on the *Concept Plan* depicted in *Exhibit 'B'* of this ordinance; however, the following additional land uses shall be permitted *by-right*:

- ❒ Townhomes/Townhouses

(2) *Density and Dimensional Standards.* Unless specifically provided by this Planned Development ordinance, any development on the area identified as *Tract 2* on the *Concept Plan* depicted in *Exhibit 'B'* of this ordinance shall be subject to the density and dimensional requirements required for a Two Family (2F) District, as stipulated by Article V, *District Development Standards*, of the Unified Development Code (UDC) [*Ordinance No. 04-38*] as heretofore amended, as amended herein by granting this zoning change, and as maybe amended in the future. All development on the *Subject Property* shall conform to the standards stipulated by *Table 2: Lot Dimensional Requirements* below, and generally conform to the lot layout depicted in *Exhibit 'B'* of this ordinance.

Table 2: Lot Dimensional Requirements

Minimum Lot Width	22'
Minimum Lot Depth	75'
Minimum Lot Area	1,650 SF
Minimum Front Yard Setback	5'
Minimum Side Yard Setback [(1)]	0'/20'
Minimum Side Yard Setback (Adjacent to a Street)	5'
Minimum Length of Driveway Pavement from Rear Property Line	20'
Maximum Height [(2)]	36'
Minimum Rear Yard Setback	5'
Minimum Area/Dwelling Unit (SF) [Sum of All Floor Area's]	1,600 SF
Maximum Lot Coverage	90%

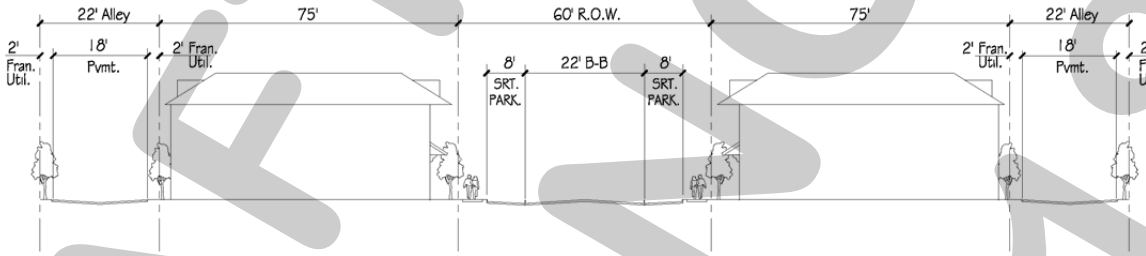
General Notes:

DRAFT
02.05.18

[1]: The side yard setback on the attached side maybe zero (0) if directly abutting a structure on an adjacent lot.
[2]: The Maximum Height shall be measured to the eave or top plate (*whichever is greater*) of the single family home.

(3) *Garage Orientation.* All garages shall be rear entry and accessible from an alleyway adjacent to the rear of the subject properties as depicted in the typical cross section below. Front entry garages shall be prohibited in *Tract 2* of the proposed development.

Typical Townhome Cross Section



(4) *Building Standards.* The building elevations shall differ in appearance through the use of varying entry features, use of detail and trim, use of materials, articulation and setback, and shall conform to the following requirements:

(i) *Masonry Requirements.* The minimum masonry requirement for the exterior façades of all buildings shall be 100%. For the purposes of this ordinance, the masonry requirement shall be limited to full width brick, natural stone, and cast stone. Cementaceous fiberboard horizontal lap-siding (*e.g. HardiBoard or Hardy Plank*) and, stucco (*i.e. three [3] part stucco or a comparable -- to be determined by staff*) may be used for up to 50% of the exterior of the building and shall be limited to the anti-monotony restrictions as outlined in this ordinance. Stucco may not be used within the first four (4) feet above grade on a façade visible from a public street or open space.

(ii) *Roof Design Requirements*. All buildings shall be designed such that no roof mounted mechanical equipment (*i.e. HVAC, satellite, vents, etc.*) shall be visible from any direction. If ground mounted equipment is proposed, landscape screening shall be required to impair visibility of the units from a public right-of-way or open space.

Note: Screening of mechanical equipment is necessary for all equipment regardless of location (*i.e. roof mounted, ground mounted, or otherwise attached to the building and/or located on the site*).

(iii) *Architectural Requirements*. All units shall be architecturally finished on all sides of the building with the same materials, detailing and features and generally conform to the example depicted below. In addition, the design of the proposed townhomes shall require review and recommendation from the Architectural Review Board (ARB) during the site plan review process.

Example of Townhome Elevations

DRAFT ORDINANCE

(5) *Anti-Monotony Restrictions.* All development shall adhere to the following anti-monotony restrictions:

(i) Identical brick blends, paint colors and, cementaceous products (*i.e. Hardy Plank lap siding, etc.*) may not occur on adjacent (*i.e. side-by-side*) properties within the development without at least two (2) intervening townhomes of differing materials on the same side of the adjacent townhome beginning with the adjacent property.

(ii) Front building elevations shall not repeat along any block face without at least two (2) intervening homes of differing appearance on the same block face within the development.

(iii) The rear elevation of homes shall not repeat without at least two (2) (*i.e. side-by-side*) intervening homes of differing appearance. Homes are considered to have a differing appearance if any of the following two (2) items deviate:

a) Front Encroachment (*i.e. Porch and/or Sunroom*) Type and Layout
b) Roof Type and Layout
c) Articulation of the Front Façade
d) Differing Primary Exterior Materials

(6) *Landscaping Standards.*

(i) *Landscape Requirements*. Landscaping shall be reviewed and approved during the site plan review process. All *Canopy/Shade Trees* planted within this development shall be a minimum of four (4) caliper inches in size and all *Accent/Ornamental/Under-Story Trees* shall be a minimum of four (4) feet in total height.

(ii) *Landscape Buffers* (*Mims Road*). A minimum of a ten (10) foot landscape buffer shall be provided along the frontage of Mims Road, and shall incorporate a minimum of one (1) canopy tree per 50-feet of linear frontage.

(iii) *Landscape Buffer (SH-205).* A minimum of a 40-foot landscape buffer shall be provided along the frontage of SH-205 (*outside of and beyond any required right-of-way dedication*), and shall incorporate ground cover, a built-up berm and/or shrubbery or a combination thereof along the entire length of the frontage. Berms and/or shrubbery shall have a minimum height of 30-inches and a maximum height of 48-inches. In addition, two (2) canopy trees and four (4) accent trees shall be planted per 100-feet of linear frontage. The developer shall also be responsible for the construction of a eight (8) foot trail situated within the 40-foot landscape buffer adjacent to SH-205.

(iv) Irrigation Requirements. Irrigation shall be installed for all required landscaping located within common areas, landscape buffers and/or open space. Irrigation installed in these areas shall be designed by a Texas licensed irrigator or landscape architect.

(7) *Fencing Standards.* All individual residential fencing and walls shall be architecturally compatible with the design, materials and colors of the primary structure on the same lot, and meet the following standards:

(i) *Wrought Iron/Tubular Steel.* All fences shall be required to be wrought iron or a tubular steel fence. Wrought iron/tubular steel fences shall be a minimum of four (4) feet in height; however, may not exceed a maximum of eight (8) feet in height.

(ii) *Corner Lots.* Corner lots fences (i.e. adjacent to the street) shall provide masonry columns at 45-feet off center spacing that begins at the rear of the property line. A maximum of six (6) wrought iron/tubular steel fencing shall be allowed between the masonry columns along the side and/or rear lot adjacent to a street. In addition, the fencing shall be setback from the side property line adjacent to a street a minimum of five (5) feet. The property owner shall be required to maintain both sides of the fence.

DRAFT ORDINANCE 02.05.2018

(iii) *Fencing Adjacent to Roadways.* All fencing adjacent to a roadway shall incorporate shrubbery adjacent to the wrought iron/tubular steel fencing to screen the rear/side yard.

TRACT 3: SINGLE FAMILY

(1) *Permitted Uses.* Unless specifically provided by this Planned Development ordinance, only those uses permitted within the Single Family 7 (SF-7) District, as stipulated by the *Permissible Use Charts* contained in Article IV, *Permissible Uses*, of the Unified Development Code (UDC) [*Ordinance No. 04-38*] as heretofore amended, as amended herein by granting this zoning change, and as maybe amended in the future are permitted on the area identified as *Tract 3* on the *Concept Plan* depicted in *Exhibit 'B'* of this ordinance.

(2) *Density and Dimensional Standards.* Unless specifically provided by this Planned Development ordinance, any development on the area identified as *Tract 3* on the *Concept Plan* depicted in *Exhibit 'B'* of this ordinance shall be subject to the density and dimensional requirements required for a Single Family 7 (SF-7) District, as stipulated by Article V, *District Development Standards*, of the Unified Development Code (UDC) [*Ordinance No. 04-38*] as heretofore amended, as amended herein by granting this zoning change, and as maybe amended in the future. All development on the *Subject Property* shall conform to the standards stipulated by *Table 3: Lot Dimensional Requirements* below, and generally conform to the lot layout depicted in *Exhibit 'B'* of this ordinance.

Table 3: Lot Dimensional Requirements

Minimum Lot Width	50'
Minimum Lot Depth	100'
Minimum Lot Area	6,000 SF
Minimum Front Yard Setback	20'
Minimum Side Yard Setback	5'
Minimum Side Yard Setback (Adjacent to a Street)	10'
Minimum Length of Driveway Pavement from Rear Property Line	20'
Maximum Height [(1)]	36'
Minimum Rear Yard Setback	10'
Minimum Area/Dwelling Unit (SF) [Sum of All Floor Area's]	2,000 SF
Maximum Lot Coverage	70%

General Notes:

[1]: The Maximum Height shall be measured to the eave or top plate (*whichever is greater*) of the single family home.

(3) *Building Standards.* The building elevations shall differ in appearance through the use of varying entry features, use of detail and trim, use of materials, articulation and setback, and shall conform to the following requirements:

(i) *Masonry Requirements.* The minimum masonry requirement for the exterior façades of all buildings shall be 100%. For the purposes of this ordinance, the masonry requirement shall be limited to full width brick, natural stone, and cast stone. Cementaceous fiberboard horizontal lap-siding (*e.g. HardiBoard or Hardy Plank*) and, stucco (*i.e. three [3] part stucco or a comparable -- to be determined by staff*) may be used for up to 50% of the exterior of the building and shall be limited to the anti-monotony restrictions as outlined in this ordinance. Stucco may not be used within the first four (4) feet above grade on a façade visible from a public street or open space.

(ii) *Roof Pitch.* A minimum of an *8:12* roof pitch is required on all structures with the exception of sunrooms and porches, which shall have a minimum of a *4:12* roof pitch.

(iii) *Garage Orientation.* All garages are permitted to be accessed from the street in a front entry format (*i.e. facing the street even with the front façade of the primary structure*).

(4) *Anti-Monotony Restrictions.* All development shall adhere to the following anti-monotony restrictions:

(i) Identical brick blends or paint colors may not occur on adjacent (*side-by-side*) properties along any block face without at least five (5) intervening homes of differing materials on the same side of the street beginning with the adjacent property and six (6) intervening homes of differing materials on the opposite side of the street.

DRAFT ORDINANCE 02-15-18

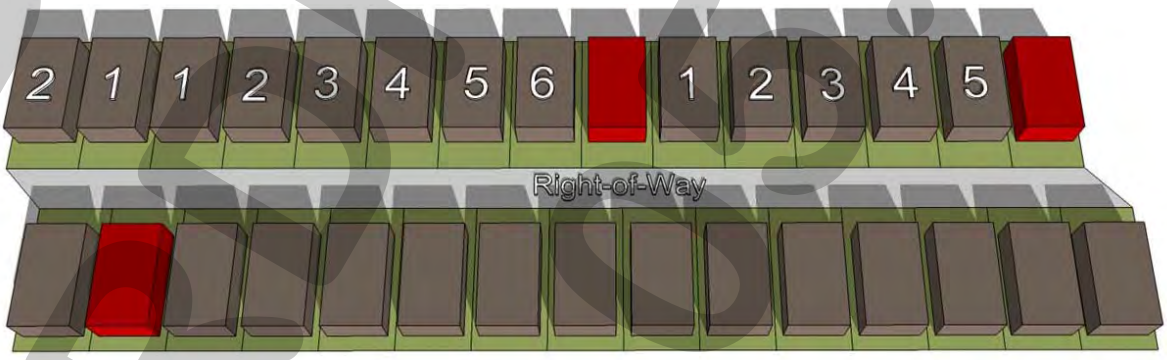
(ii) Front building elevations shall not repeat along any block face without at least five (5) intervening homes of differing appearance on the same side of the street and six (6) intervening homes of differing appearance on the opposite side of the street. The rear elevation of homes backing to open spaces or on SH-205 shall not repeat without at least five (5) intervening homes of differing appearance. Homes are considered to have a differing appearance if any of the following two (2) items deviate:

(a) Number of Stories
(b) Roof Type and Layout
(c) Articulation of the Front Façade

(iii) Each phase of the subdivision will allow for a maximum of four (4) compatible roof colors, and all roof shingles shall be an architectural or dimensional shingle (*i.e. 3-Tab Roofing Shingles are prohibited*).

Illustration 1: Properties line up on the opposite side of the street. Where RED is the subject

Illustration 2: Properties do not line up on opposite side of the street. Where RED is the subject



(5) *Landscape and Hardscape Standards.*

(i) Landscape. *Landscape Requirements*. Landscaping shall be reviewed and approved during the site plan review process. All *Canopy/Shade Trees* planted within this development shall be a minimum of four (4) caliper inches in size and all *Accent/Ornamental/Under-Story Trees* shall be a minimum of four (4) feet in total height.

(ii) *Landscape Buffers* (*Mims Road*). A minimum of a ten (10) foot landscape buffer shall be provided along the frontage of Mims Road, and shall incorporate a minimum of one (1) canopy tree per 50- feet of linear frontage.

(iii) *Streetscape Landscaping.* Prior to the issuance of a Certificate of Occupancy (CO), all

DRAFT ORDINANCE 02.05.18

residential, single family lots situated within the proposed subdivision shall be landscaped with canopy trees in the following sizes and proportions:

(i) Two (2), three (3) inch trees measured six (6) inches above the root ball shall be planted in the front yard of an interior lot.

(ii) Two (2), three (3) inch trees measured six (6) inches above the root ball shall be planted in

the front yard of a corner lot and two (2), three (3) inch caliper trees shall be planted in the side yard facing the street.

Note: For the purposes of this section only the term "front yard" includes the area within the dedicated right-of-way for a parkway immediately adjoining the front yard of the lot.

(iv) *Irrigation Requirements.* Irrigation shall be installed for all required landscaping located within common areas, landscape buffers and/or open space. Irrigation installed in these areas shall be designed by a Texas licensed irrigator or landscape architect and shall be maintained by the Homeowner's Association.

(v) *Hardscape.* Hardscape plans indicating the location of all sidewalks and trails shall be reviewed and approved during the site plan review process.

(6) *Fencing Standards.* All individual residential fencing and walls shall be architecturally compatible with the design, materials and colors of the primary structure on the same lot, and meet the following standards:

(i) *Wood Fences.* All wood fences shall be constructed of a standard fencing material (*minimum of ½" thickness or better; spruce fencing will not be allowed*), and use fasteners that are hot dipped galvanized or stainless steel. Wood fences facing onto a street shall be painted and/or stained and sealed with all pickets being placed on the public side facing the street. All wood fences shall be smooth-finished, free of burs and splinters, and be a maximum of six (6) feet in height.

(ii) *Wrought Iron/Tubular Steel.* Lots located along the perimeter of roadways, abutting open spaces, greenbelts and parks shall be required to install a wrought iron or tubular steel fence. Wrought iron/tubular steel fences can be a maximum of six (6) feet in height.

(iii) *Corner Lots.* Corner lots fences (i.e. adjacent to the street) shall provide masonry columns at 45-feet off center spacing that begins at the rear of the property line. A maximum of six (6) foot solid board-on-board panel fence constructed utilizing cedar fencing shall be allowed between the masonry columns along the side and/or rear lot adjacent to a street. In addition, the fencing shall be setback from the side property line adjacent to a street a minimum of five (5) feet. The property owner shall be required to maintain both sides of the fence.

(iv) *Solid Fences (including Wood Fences).* All solid fences shall incorporate a decorative top rail or cap detailing into the design of the fence.

City of Rockwall
The New Horizon

MEMORANDUM

TO: **Rockwall Mayor and City Council**

FROM: **Jeffrey Widmer, Building Official**

DATE: **02/05/18**

SUBJECT: **Show Cause Hearing for 373 Renee Dr.**

The owner, or any other responsible party of the property and structures located at 373 Renee Dr. have been ordered to appear before the Rockwall City Council to show cause, if any, why the structures at this address should not be repaired, removed, or demolished.

This manufactured home and (2) accessory buildings at this address are vacant and unsecured. Neighbors have complained about it being an attractive nuisance for kids as well as vermin. These structures are in dilapidated condition, and seemingly beyond repair (see included photos).

The Rockwall County Appraisal District as well as a title search show the owner to be Juanita McIntire, who is deceased. The Neighborhood Improvement Services Department has been unable to locate any responsible party to hold accountable for the condition of the structures at this address. On 01/24/18, in accordance with the Texas Local Government Code, and Rockwall City Code of Ordinances, a notice for the show cause hearing was posted on the manufactured home at 373 Renee Dr. Also, a public notice referencing the show cause hearing was placed in the Rockwall County Herald Banner which was published on Friday, 01/26/18.

Staff requests the Council order the manufactured home and accessory structures be removed or demolished. The demolition cost is $4,800.00. The NIS department currently has enough funds allocated in their budget to cover this task.

CITY OF ROCKWALL, TEXAS
MEMORANDUM

TO: Mayor and City Council

CC: Rick Crowley, *City Manager*
Brad Griggs, *Assistant City Manager*

FROM: Ryan Miller, *Director of Planning and Zoning*

DATE: February 5, 2018

SUBJECT: Right-of-Way Abandonment for Ellis Centre, Phase 3

The applicant, David Ellis of Ellis Companies, is requesting that the City Council abandon a 1.24-acre tract of unimproved right-of-way being a portion of Alpha Road and all of Gamma Court for the purpose of reassembling Lot 2, Block A and Lots 3, 4 & 5 Block C of the Ellis Centre, Phase 2 Addition. The applicant is requesting this abandonment in order to accommodate a potential development that would take up the majority of the land. In addition, the applicant has indicated intent to construct a cul-de-sac at the end of Alpha Road. The right-of-way in question was dedicated on February 15, 1985 with the final plat for Ellis Centre, Phase 2 Addition. At the time of platting, Alpha Road was indicated on the City's Master Thoroughfare Plan as a *Minor Collector*, and was intended to connect IH-30 to the Justin Road. Alpha Road was later removed from the Master Thoroughfare Plan in favor of upgrading Industrial Boulevard to a M4U (*i.e. minor collector, four [4] lane, undivided roadway*).

Currently, both the subject property and the property directly north of the subject property (*i.e. 71.022-acre tract of land identified as a portion of Tract 20-1 of the A. Hanna Survey, Abstract No. 99*) remain vacant and no development plans for either property have been submitted to staff. In addition, the property to the north is served by both Industrial Boulevard and Justin Road, and would not be affected by the removal of the right-of-way. Taking this into consideration and the fact that the City's Master Thoroughfare Plan has changed, the City Attorney has stated that the City Council could abandon the right-of-way without charging the applicant the fair market value of the land (*i.e. returning the dedicated land to the applicant without compensation*). In accordance with this request, staff has prepared a resolution in the attached packet should the City Council choose to approve the right-of-way abandonment. Staff has also included a copy of the applicant's letter and a location map of the proeprty. Should the City Council have any questions concerning this request staff and the applicant will be available at the meeting on February 5, 2018.

Mr. Ryan Miller
Director of Planning and Zoning
City of Rockwall
385 S. Goliad
Rockwall, TX 75087

January 29, 2018

Dear Mr. Miller,

In 1982, Ellis Centre was developed as an office-flex business park. It was designed to attract clean manufacturing, technology and office warehouse users to the City of Rockwall. The initial development consisted of 25,000 s.f. of speculative office warehouse space along with another 47,000 s.f. of user owned buildings. It was originally designed in three phases. Phase I & II were completed by 1986, but Phase III (7.25 acres), see below, was platted and right-of-way deeded to the City of Rockwall, but never built out.

Today Phase III has interest from two developers. The developers have agreed to subdivide the 7.25 acre track. The Dallas developer plans to build two 30,000 sf speculative office warehouse buildings. The Louisiana developer will build a 30,000 s.f. regional distribution center for the nation's largest wholesale distributor of swimming pool supplies, equipment and related products.

In today's commercial real estate environment, due to market factors, Phase III can't financially be developed as originally platted. Our request to the City of Rockwall is to abandon the original plat and right-of-way. This will enhance the marketability of the property along with the flexibly for subdividing and development.

Thank you for your time and consideration.

David M. Ellis

ELLIS CENTRE PHASE TWO

A. HANNA SURVEY — ABSTRACT No. 99
City of Rockwall — Rockwall County, TEXAS
Richard Ellis, 116 A. E Rush St. — OWNER, Rockwall, Texas

CITY OF ROCKWALL

RESOLUTION NO. 18-XX

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, ABANDONING AND CONVEYING A 1.24-ACRE PORTION OF RIGHT-OF-WAY BEING A PORTION OF ALPHA DRIVE AND ALL OF GAMMA COURT TO DAVID M. ELLIS OF ELLIS COMPANIES; IDENTIFYING A MUNICIPAL PURPOSE AND AN EFFECTIVE DATE.

WHEREAS, David M. Ellis of Ellis Companies (*i.e. David M. Ellis*) has requested that the City Council of the City of Rockwall abandon and convey a 1.24-acre portion of the right-of-way being a portion of Alpha Road and all of Gamma Court, abutting property owned by David M. Ellis and described as Lot 2, Block A and Lots 3, 4 & 5, Block C of Ellis Centre, Phase 2 Addition, City of Rockwall, Rockwall County, Texas (*i.e. Property*), and which is more particularly described by metes and bounds in *Exhibit 'A'* of this resolution; and,

WHEREAS, *Section 272.001(b)* of the *Texas Local Government Code* provides that land, including streets or alleys, owned in fee or used by easement by a political subdivision of the state, may be conveyed, sold or exchanged for less than fair market value with one or more of the abutting property owners who own the underlying fee; and,

WHEREAS, the City Council finds that it is in the best interest of the City to convey the *Property* to *David M. Ellis* the abutting property owner; and

WHEREAS, the City of Rockwall wishes to abandon this city property subject to the terms and conditions set forth below; now

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:

SECTION 1. PROPERTY. The following portions of the *Right-of-Way* of land more or less and described as:

> *a 1.24-acre tract of unimproved right-of-way being a portion of Alpha Road and all of Gamma Court, abutting property owned by David M. Ellis and described as Lot 2, Block A and Lots 3, 4 & 5, Block C of the Ellis Centre, Phase 2 Addition, City of Rockwall, Rockwall County, Texas, and which is more particularly described by metes and bounds in Exhibit 'A' (Property), save and except any utility easements used for municipal purposes.*

SECTION 2. QUITCLAIM. *Section 272.001(b)* of the Texas Local Government Code allows the city to convey city-owned property at less than fair market value to the abutting property owner. The Mayor of the City or the City Manager as the case may be are authorized to quitclaim the *Property* described in *Section 1* hereof to *David M. Ellis*.

SECTION 3. LIMITATIONS. The abandonment of the *Property* shall extend only to the public right, title and easement in and to the tracts of land described in *Exhibit 'A'* of this resolution, and shall be construed only to that interest the governing body of the City may legally and lawfully abandon.

SECTION 4. MUNICIPAL PURPOSE. The *Property* described in *Section 1*, save and

DRAFT RESOLUTION 05-2018

except the municipal utility easements located thereon, is no longer needed for municipal purposes and it is in the public interest of the City, to abandon said described portions of the right-of-way to *David M. Ellis*.

SECTION 5. EXCEPTIONS. In addition to the express reservations provided for in *Section 1* hereof, the conveyance is made subject to any and all valid, conditions, easements, restrictions and the like, whether or record or not in the real property records of Rockwall County Texas.

SECTION 6. INCORPORATION OF RECITALS. The City Council finds the recitals contained in the preamble to this *Resolution* are true and correct and incorporates them as findings of fact.

SECTION 7. EFFECTIVE DATE. This *Resolution* shall be effective immediately following its passage and approval by the City Council.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, ON THIS THE 5TH DAY OF FEBRUARY, 2018.

APPROVED:

CITY OF ROCKWALL
CITY COUNCIL MEMO

AGENDA DATE: 02/05/2018

APPLICANT: Kris Green

AGENDA ITEM: **MIS2018-001**; *Masonry Exception*

SUMMARY:

Discuss and consider a request by Kris Green for the approval of an exception to the minimum masonry requirements stipulated in Section 3.1, *General Residential District Standards*, of Article V, *District Development Standards*, of the Unified Development Code, for a 0.255-acre parcel of land identified as Lot 7, Block A, Eagle Point Estates, City of Rockwall, Rockwall County, Texas, zoned Single-Family 10 (SF-10) District, addressed as 1507 South Alamo Drive, and take any action necessary.

CHARACTERISTICS OF REQUEST:

The applicant has submitted a request for an exception to the minimum masonry requirements for the purpose of constructing an ~3,100 SF home on the subject property. According to the applicant's letter, the proposed home will be constructed in a modern farmhouse style. The applicant is proposing to utilize 100% fiber-cement [*e.g. Hardie Board*] siding in a vertical *board-and-baton* pattern that will be painted white.

According to Subsection 3.1.A.1, *Exterior Wall Material*s, of Section 3*, Residential Districts*, of Article V, *District Development Standards*, of the Unified Development Code (UDC), all buildings 120 SF or more and over ten (10) feet in height shall have exterior walls constructed of at least 80% masonry materials with no more than 50% being Hardie Board or other similar cementitious material. Buildings not meeting this requirement shall require approval of the Planning and Zoning Commission and City Council. According to Subsection 3.1.A.3*, Exterior Wall Materials*, of Section 3*, Residential Districts*, of Article V*, District Development Standards*, of the Unified Development Code (UDC), exceptions to these requirement may be permitted on a case-by-case basis by the City Council upon submission and approval of elevation drawings of the subject structure and material samples. In this case, the applicant has provided examples of the style of home and siding proposed for the home in the attached packet.

RECOMMENDATIONS:

If the Planning & Zoning Commission and City Council choose to approve the applicant's request staff would recommend the following conditions:

1) Any construction or building allowed by this request must conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

PLANNING AND ZONING COMMISSION:

On January 30, 2018, the Planning and Zoning Commission's motion to recommend approval of the exception to the minimum masonry requirements stipulated in the Unified Development Code (UDC) with staff recommendations passed by a vote of 5-2 with Commissioners Lyons and Welch dissenting.

Dear P&Z Department,

I am in the planning stages of building a home at 1507 South Alamo Rd., Eagle Point Estates Lot 7, block A.

We would like to build a modern 2 story farm house. For the exterior we would like to use the concrete Hardie siding and Hardie board and batten. Our home size will approximately be 3100 a/c square footage.

I have a provided a photo of the home that was the inspiration for our design.

Thanks in advance for allowing us to build our dream home in Rockwall.

330

CITY OF ROCKWALL, TEXAS
MEMORANDUM

TO: Mayor and City Council

CC: Rick Crowley, *City Manager*
Brad Griggs, *Assistant City Manager*

FROM: Ryan Miller, *Director of Planning and Zoning*

DATE: February 5, 2018

SUBJECT: *Sign Exception for 1903 S. Goliad Street*

On August 29, 2017, the Planning and Zoning Commission approved a motion to recommend *denial* of *Case No. MIS2017-009* by a vote of 4-3, with Commissioners Fishman, Chodun and Lyons dissenting. This was a request for a variance to the sign requirements stipulated by the SH-205 Overlay (SH-205 OV) District to allow the replacement of a message reader board with a *Changeable Electronic Variable Message Sign* (CEVMS) on a legally non-conforming pole sign at 1903 S. Goliad Street. Subsequently, the City Council denied the request with prejudice on September 5, 2017 by a vote of 4-2, with Mayor Pruitt and Council Member Macalik dissenting and Council Member Hohenshelt absent.

On January 12, 2018, the applicant resubmitted the application proposing no changes to the original submittal. Since the applicant is not proposing any changes to the original submittal staff has placed a copy of the case memo from *Case No. MIS2017-009* in the attached packet along with all exhibits submitted by the applicant. Staff should point out that the applicant was not subject to the one (1) year prohibition on similar requests associated with cases that are denied with prejudice because this case does not require a public hearing. Staff should also note that this request could not be made under the current sign code, and would require the applicant to convert the sign to a monument sign to allow for the CEVMS installation.

On January 30, 2018, the Planning and Zoning Commission reviewed the applicant's request and approved a motion to recommend approval by a vote of 5-2, with Commissioners Logan and Trowbridge dissenting. According to the SH-205 Overlay (SH-205 OV) District the City Council has the power to, "…grant a variance to any provision of this section [*i.e. Section 6.7; Article V of the UDC*] where unique or extraordinary conditions exist or where strict adherence to the provisions of this section would create a hardship." In order to approve a variance under this section of the code the City Council is required to hold a super majority vote requiring a minimum of ¾ [*three fourths*] of all City Council members present to vote in the affirmative.

CITY OF ROCKWALL
CITY COUNCIL MEMO

AGENDA DATE: 09/05/2017

APPLICANT: Kay Uhlig, *Sabrina's Flowers and Gifts*

AGENDA ITEM: **MIS2017-009**; *Sign Exception*

SUMMARY:

Discuss and consider a request by Kay Uhlig of Sabrina's Flowers and Gifts for the approval of a variance to the district development standards of the SH-205 Overlay (SH-205 OV) District for the approval of a LED message sign on an existing pole sign on a 0.407-acre parcel of land identified as the J. J. Jones Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the SH-205 Overlay (SH-205 OV) District, addressed as 1903 S. Goliad Street [*SH-205*], and take any action necessary.

CHARACTERISTICS OF REQUEST:

The applicant, Kay Uhlig, is requesting to convert the message reader board on the existing pole sign in front of Sabrina's Flowers and Gifts (*i.e. 1903 S. Goliad Street*) to a LED message board. This would be a retrofit of the existing four (4) foot by eight (8) foot message reader board and would not increase the size or height of the existing sign. In addition, the applicant's letter states that they will be upgrading the landscaping and repainting the existing pole. The sign as it sits today is considered to be a legally non-conforming sign (*i.e. the City does not allow pole signs along SH-205*), and according to Division 4, *Non-Conforming Signs*, of Article II, *Administration*, of Chapter 32, *Signs*, of the Municipal Code of Ordinances non-conforming signs "…shall not be moved, altered, repaired, expanded, or the use intensified unless it is made to comply with all the provisions of this chapter." In addition, according to Section 6.7, *SH-205 Overlay (SH-205 OV) District*, of Article V, *District Development Standards*, of the Unified Development Code (UDC), signs must adhere to the following requirements in the SH-205 Overlay (SH-205 OV) district:

G. Signs. All permanent freestanding signs located in the SH 205 Corridor Overlay District shall be monument signs adhering to the City of Rockwall sign ordinance (chapter 32 of the Code of Ordinances) as heretofore amended and as maybe amended in future. Building materials and colors utilized for construction of the monument base shall be the same as the primary building materials and colors found on the main building, unless otherwise approved by the city council. Approval of any variance to the sign ordinance for property included the SH 205 Corridor Overlay District shall require city council approval by a three-quarter majority vote.

Based on this any changes to the sign would necessitate the applicant to convert the sign to a monument sign, and the *Sign Code* does not grant the ability for the City Council to approve a variance for a non-conforming sign; however, the SH-205 Overlay (SH-205 OV) District does go on to state that the City Council has the power to, "…grant a variance to any provision of this section [*i.e. Section 6.7; Article V of the UDC*] where unique or extraordinary conditions exist or where strict adherence to the provisions of this section would create a hardship." In order to approve a variance under this section of the code the City Council is required to hold a super majority vote requiring a minimum of ¾ [*three fourths*] of all City Council members present to vote in the affirmative. Staff should note that the applicant would be permitted to establish an LED message board under the requirements of Chapter 32, *Signs*, of the Municipal Code of

Ordinances if the pole sign was converted to a monument sign and staff could not identify a hardship in this case; however, this matter is a discretionary decision for the City Council.

For the City Council's review, the applicant has prepared an exhibit showing the proposed changes to the sign, and for comparison staff has included a current picture of the sign. These along with the applicant's request letter have been placed in the attached packet. As a condition of approval staff is requesting the if approved the applicant be required to meet the current requirements of the *Sign Code* for *Changeable Electronic Variable Message (CEVM) Signs* when applicable (*this will regulate items like brightness, message duration, etc.*).

RECOMMENDATIONS:

If the Planning & Zoning Commission and City Council choose to approve the applicant's request staff would recommend the following conditions:

1) The sign shall adhere to all applicable requirements for CEVM signs as stipulated in Chapter 32, Signs, of the Municipal Code of Ordinances.

2) Any construction or building allowed by this request must conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

PLANNING AND ZONING COMMISSION:

On August 29, 2017, the Planning and Zoning Commission approved a motion to recommend denial of the applicant's request by a vote of 4-3, with Commissioners Fishman, Chodun and Lyons dissenting.

385 South Goliad

Rockwall, TX.

75087

City of Rockwall

We at Signature Signs & Graphics are writing to request a variance for a sign located 1903 S. Goliad Sabrina's Flowers.

Let me preface my appeal by a brief description of the proposed sign development.

The plan would be to update the outdated letter board sign that is old and in disrepair with a new LED message center on their existing Grandfathered pole sign. Our company will be removing the faces, using the existing cabinet and installing a retrofit 4' x 8' LED message center. We will also be painting the poles and cabinets, customer will update landscaping & flowerbeds.

The new sign will not have any negative effects on the surrounding business community or the City as others already have LED message centers. We feel the projected sign development will be an important asset to the City of Rockwall and improving characteristics to the properties in Rockwall.

Signs are intended to identify location of various services and the proposed sign does by supplementing the existing sign that is out of date and in disrepair.

We respectfully request this variance, and we appreciate you giving this request your earnest consideration. Please see attached renderings of before and after. If you have any questions please contact us at 972-771-7818

Sincerely,

Jamison Kahler Owner

Signature Signs & Graphics

336

Before: corrugated acrylic message board that is rotted and yellowed, with multiple broken letter tracks.

After: freshly painted pole and cabinets, new led lighting inside upper cabinet, retro-fit existing message board with led message center, update flower bed surround and landscape flower bed and yard

City of Rockwall
The New Horizon

MEMORANDUM

TO: **Rick Crowley, City Manager**

FROM: **Joey Boyd, Director of Internal Operations**

DATE: **January 31, 2018**

SUBJECT: **County Wide Interoperability Radio Network Update**

The new County-wide P25 Interoperability Radio Network is constructed, tested, and carrying communications for the agencies of Fate DPS, Royse City PD & FD, Rockwall County Sheriff's Office, and McClendon Chisolm Fire Department. The integration of the City of Rockwall's Police and Fire Departments, as well as Heath DPS, is currently slated to take place beginning in the 1st and 2nd week in March 2018. Several task items will take place prior to this:

- Harris Corporation's Tactical Assistance Center (TAC), in Lynchburg, VA, is writing code for a problem found in the portable radio's screen brightness. While this has delayed getting radios to Rockwall, staff is being told that the new code is expected to be released on February 19th and will be programmed into all radios.

- Portable radio user training is currently slated to begin the last week of February. All agencies within the network will schedule times for officers and firefighters, and other users to be trained on functionality of the radios.

- Once user training is complete, crews will be onsite and installation of mobile radios will begin on police vehicles and fire apparatus in the first week of March.

- While users will have new P25 Portable Radios, they will still operate, as needed, on the existing EDACS mobiles until the new installs are complete. The old system and new system will be tied together via a migration gateway, which will enable communications between old mobiles and new portables.

- Interoperability control stations should be deployed for connectivity to public safety agencies in Garland, Mesquite, Rowlett, Sachse, Plano, Allen, Wylie, Murphy, Collin Co, and Kaufman County in the February / March timeframe.

Please let me know if you have any questions.

H. B. Jones Survey, Abstract No. 124, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 69 (PD-69) for Residential-Office (RO) District land uses, situated within the North SH-205 Overlay (N. SH-205 OV) District, addressed as 1201 N. Goliad Street [SH-205], and take any action necessary.

p.58 **4.** Consider approval of an **ordinance** repealing Ch. 10, Article II, Division 3. Construction Advisory Appeals Board of the Code of Ordinances and transferring those duties to the Board of Adjustments under Article II, Section 11 of the Unified Land Development Code, and take any action necessary. **(1st reading)**

p.63 **5.** Consider a Park Board recommendation concerning approval of a resolution associated with the annual update of the Mandatory Park Land Dedication Ordinance regulations regarding neighborhood park development pro-rata equipment fees, and take any action necessary.

p.67 **6.** Consider a Park Board recommendation concerning approval of a resolution associated with the annual update of the Mandatory Park Land Dedication Ordinance regulations regarding the per acre value of land for

the purpose of calculating cash-in-lieu of land fees, and take any action necessary.

p.107 **7.** Consider authorizing the City Manager to execute an amendment to an existing contract with Verizon Wireless to install additional equipment on the City-owned communication tower located at 305 E. Boydstun Avenue, and take any action necessary.

p.190 **8.** Consider approval of a budget amendment in the amount of $38,000 from the city's Tree Mitigation Fund for planting of trees and shrubs in City facilities and rights-of-way, and take any action necessary.

XI. APPOINTMENTS

1. Appointment with the Planning and Zoning Chairman to discuss and answer any questions regarding cases on the agenda and related issues and take any action necessary.

p.192 **2.** Appointment with County Commissioner David Magness to hear update pertaining to countywide roadway projects (County of Rockwall Traffic Consortium), and take any action necessary.

p.194 **3.** Appointment with Richard Martin, Director, Gov't Relations & Real Estate with Primary Media to hear request associated with replacing one static billboard face with a digital billboard face for a sign located on the north side of IH-30 approximately 1000 feet east of John King Blvd., and take any action necessary.

p.198 **4.** Appointment with Rockwall Police Chief to hear the 2017 Racial Profiling Report, and take any action necessary.

XII. PUBLIC HEARING ITEMS

p.308 **1.** **Z2018-001** - Hold a public hearing to discuss and consider a request by Cameron Slown of F. C. Cuny, Corporation on behalf of Phillip McNeill, Jr. of McNeill Hotel Company and Jason Lentz of Atticus Summer Lee Townhomes for the approval of an **ordinance** for a PD Development Plan amending Ordinance No.'s 16-48 & 16-54 and in accordance with Ordinance No. 10-21, for a 9.081-acre tract of land identified as Lot 2A of the Isaac Brown Addition, and Lots 1 & 2, Block A, Harbor Village Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 32 (PD-32), situated within the Scenic Overlay (SOV) District and the Interior and Residential Subdistricts of Planned Development District 32 (PD-32), located adjacent to Summer Lee Drive southwest of the intersection of Horizon Road [FM-3097] and Summer Lee Drive, and take any action necessary. **(1st Reading)**

p.343 **2.** **Z2018-002** - Hold a public hearing to discuss and consider a request by David Naylor of Rayburn Country Electric Cooperative for the approval of an **ordinance** for a Specific Use Permit (SUP) for the replacement of a telecommunications tower exceeding 125-feet in a Heavy Commercial (HC) District on a 5.053-acre tract of land identified as Lot 1, Block A, Rayburn Country Addition and a portion of Tract 3-13 of the W. H. Barnes

Survey, Abstract No. 26, City of Rockwall, Rockwall County, Texas, zoned Heavy Commercial (HC) District, addressed as 950 & 980 Sids Road, and take any action necessary. **(1st Reading)**

p.358 **3.** **Z2018-003** - Hold a public hearing to discuss and consider a request by Randy Eardley, P.E. of Wier & Associates, Inc. on behalf Getra Thomason-Saunders of Chick-Fil-A, Inc. for the approval of an **ordinance** for a Specific Use Permit (SUP) for a restaurant with a drive-through or drive-in on a 0.656-acre tract of land being identified as Lots 1 & 2, Block A, Billy Peoples #1 Addition, City of Rockwall, Rockwall County, Texas, zoned General Retail (GR) District, situated within the SH-205 Overlay (SH-205 OV) District, addressed as 1902 & 2000 S. Goliad Street [SH-205], and take any action necessary. **(1st Reading)**

p.427 **4.** Hold a public hearing to discuss and consider approval of a resolution readopting local standards of care for the city parks and recreation youth programs as originally adopted by Ordinance 17-42 and as required by Chapter 42 of the Texas Human Resources Code, and take any action necessary.

XIII. ACTION ITEMS

p.444 **1.** **SP2018-001** - Discuss and consider a request by Larae Tucker of Verdad Real Estate for the approval of a site plan with variances for a retail store with gasoline sales on a 1.67-acre tract of land identified as Tract 11-1 of the W. B. Bowles Survey, Abstract No. 12, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 48 (PD-48) for General Retail (GR) District land uses, situated within the SH-66 Overlay (SH-66 OV) District, situatued west of the intersection of W. Rusk Street [SH-66] and N. Lakeshore Drive, and take any action necessary.

p.474 **2.** **SP2018-002** - Discuss and consider a request by Matthew Peterson of D. B. Contractors, Inc. on behalf of Jeff Fleming of J. R. Investments, LLC for the approval of an exception and variances in conjunction with an approved site plan for a manufacturing facility on an 11.155-acre parcel of land identified as a portion of Lot 6 and all of Lot 7, Block D, Rockwall Technology Park Addition, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, located at the southwest corner of the intersection of Innovation Drive and Observation Trail, and take any action necessary.

p.485 **3.** **MIS2018-001** - Discuss and consider a request by Kris Green for the approval of an exception to the minimum masonry requirements stipulated in Section 3.1, General Residential District Standards, of Article V, District Development Standards, of the Unified Development Code, for a 0.255-acre parcel of land identified as Lot 7, Block A, Eagle Point Estates, City of Rockwall, Rockwall County, Texas, zoned Single-Family 10 (SF-10) District, addressed as 1507 S. Alamo Drive, and take any action necessary.

p.493 **4.** **MIS2018-003** - Discuss and consider a request by Jim Lawson of the Rockwall Independent School District (RISD) for the approval of an exception to the minimum masonry requirements for the purpose of constructing an accessory building on a 25.569-acre parcel of land

identified as Lot 1, Block 1, Rockwall Middle School No. 4 Addition, City of Rockwall, Rockwall County, Texas, zoned Single Family 16 (SF-16), situated within the SH-205 By-Pass Overlay (SH-205 BY OV) District, addressed as 625 FM-552, and take any action necessary.

p.500 **5.** **MIS2018-004** - Discuss and consider a request by Tom Kirkland of TEKMAK Development Company on behalf of Randall Noe of Rockwall Rental Properties, LP for the approval of an extension to a Specific Use Permit [S-161; Ordinance No. 17-07] that allows a Residence Hotel on a three (3) acre portion of a larger 8.613-acre tract of land identified as Tract 4 of the J. D. McFarland Survey, Abstract No. 145, and Lot 1, Block B, Goldencrest Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the IH-30 Overlay (IH-30 OV) District, situated north of the intersection of Greencrest Boulevard and the IH-30 Frontage Road, and take any action necessary.

p.512 **6.** **MIS2018-005** - Discuss and consider a request by John Delin of R. W. Ladera, LLC for the approval of variances to Planned Development District 85 (PD-85) [Ordinance No. 17-18] on a 28.011-acre tract of land identified as Tract 5 of the M. B. Jones Survey, Abstract No. 122, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 85 (PD-85), situated within the 205 By-Pass Overlay (205 BY-OV) and the East SH-66 Overlay (E. SH-66 OV) District, located at the northeast corner of the intersection of SH-66 and John King Boulevard, and take any action necessary.

p.521 **7.** Discuss and consider authorizing City staff to secure proposals for conducting a feasibility study related to ballfields and provide associated budget amendments related to revising or creating concept plans and construction estimates for the north community park, south community park, Lakes of Squabble Creek Park and Lakeside Park and take any action necessary.

p.523 **8.** Discuss and consider approval of an **ordinance** in amending Chapter 44. Utilities of the Code of Ordinances to add a new article, Article VI. for the purpose of adopting Storm Water Management provisions in accordance with the City of Rockwall's MS4 Permit, and take any action necessary. **(1st reading)**

XIV. EXECUTIVE SESSION

THE CITY OF ROCKWALL CITY COUNCIL WILL RECESS INTO EXECUTIVE SESSION TO DISCUSS THE FOLLOWING MATTERS AS AUTHORIZED BY CHAPTER 551 OF THE TEXAS GOVERNMENT CODE:

1. Discussion regarding legal issues pertaining to potential annexation pursuant to Section §551.071 (Attorney/Client Consultation)
2. Discussion regarding the appeal to the Public Utility Commission filed by the cities of Garland, Mesquite, Plano and Richardson against the North Texas Municipal Water District (NTMWD) regarding water rates pursuant to §Section 551.071 (Consultation with Attorney).

XV. RECONVENE PUBLIC MEETING & TAKE ANY ACTION AS RESULT OF EXECUTIVE SESSION

XVI. ADJOURNMENT

This facility is wheelchair accessible and accessible parking spaces are available. Request for accommodations or interpretive services must be made 48 hours prior to this meeting. Please contact the City Secretary's Office at (972) 771-7700 or FAX (972) 771-7727 for further information.

The City of Rockwall City Council reserves the right to adjourn into executive session at any time to discuss any of the matters listed on the agenda above, as authorized by Texas Government Code § 551.071 (Consultation with Attorney) § 551.072 (Deliberations about Real Property) § 551.074 (Personnel Matters) and § 551.086 (Economic Development)

I, Kristy Cole, City Secretary for the City of Rockwall, Texas, do hereby certify that this Agenda was posted at City Hall, in a place readily accessible to the general public at all times, on the 16Th day of February, 2018 at 4:00 p.m. and remained so posted for at least 72 continuous hours preceding the scheduled time of said meeting.

MEMORANDUM

TO: **Mayor and City Council**

FROM: **Rick Crowley, City Manager**

DATE: **February 16, 2018**

SUBJECT: "**Aesthetic Package" Related to I-30 Project**

TxDoT has met with Rockwall, Fate, Royse City, and Rockwall County regarding the need to make certain decisions related to an "Aesthetic Package" for inclusion in plans for the I-30 improvements. This package is generally made available to cities with a considerable amount of the total cost being the responsibility of the cities – depending on what the City wants to see included. As a part of the TxDoT design contract, the TxDoT consulting design engineer has certain schematic design assistance responsibility. We have inquired as to the scope of that work and have received several examples from them in advance of the next meeting that we will have with the design group.

Cities generally have the option to include, within TxDoT design standards, the type of entryway of gateway "monument signage" and aesthetic improvements that each city may find appropriate in terms of achieving their desired entry features which may "mark" entry into the city. These can range from no special aesthetic treatment of entryways and along the length of the project to those that are quite substantial both in terms of construction and costs.

At the work session on Monday, we hope to get general guidance from the Council as to how the City of Rockwall will want to approach the package. Options, within TxDoT guidelines, are quite numerous as the Council has surely observed in travel throughout D-FW and the state.

The attachment contains several options which may be of assistance as we discuss the matter in the work session. Several examples have been provided by TxDoT, we have had drawings prepared which provide yet other alternatives for general consideration. These will be discussed with the Council at the work session. There are several process options as the City proceeds with providing our proposals to TxDoT.

Note: The City costs for the Lewisville aesthetics shown on the following pages are $1,494,776. The improvements in the photos are under construction by TxDoT for the City of Lewisville. This information was provided by TxDoT.

IH 30 ROCKWALL ENHANCEMENT BUDGET ESTIMATES

Horizon Bridge Area Elements

Bridge “Rockwall” Sign, $ 36,000.00

Corten Sign faced 35 feet long sign, 6 feet high, aluminum box and frame. Cut out letters with Lexan surfaces to diffuse the light. LED light source behind. Color changing programable. Source 240 watt power to be provided within 100 feet.

Bridge “Torche” Light Bollards $ 6,000.00 each at $24,00.00

Corten Sign faced 2 feet square, 9 feet high, aluminum box and frame. With curved Aluminum reflector. LED light source from top of Bollard. Color changing programable. Source 240 watt power to be provided within 100 feet.

South Side “Rockwall” Sign $ 30,000.00

Corten Sign faced 20 feet long sign, 4 feet high, aluminum box and frame. Cut out letters with Lexan surfaces to diffuse the light. LED light source behind. Color changing programable. Source 240 watt power to be provided within 100 feet. Including foundation, piers, required paving for service access.

South Side “Arched Forms with Lighted Edge” $120,000.00

Aluminum Brushed finish with hand rubbed pattern and clear coat finish, 20, 25 and 30 feet high, 6 feet wide at bottom, aluminum box and frame. On angled side and outside edge of Arch is a 8” wide Clear Lexan lens cover with LED light source behind. Color changing programable. Source 240 watt power to be provided within 100 feet.

South Side Landscape $70,000.00

Large Live Oak trees behind the sign with drift of native shrubs along the 200-250 foot long landscape area around the sign. With Irrigation System.

FM 3549 Area Elements

Below roadway surface “Rockwall” Sign $ 40,000.00

Corten Sign faced 28 feet high sign, 5 feet wide, aluminum box and frame. Cut out letters with Lexan surfaces to diffuse the light. LED light source behind. Color changing programable. Source 240 watt power to be provided within 100 feet. Including foundation, piers, required paving for service access. May require retaining walls to raise the mounting height to be visible from Highway elevation

One “Arched Forms with Lighted Edge” $60,000.00

Aluminum Brushed finish with hand rubbed pattern and clear coat finish, 25 feet high, 6 feet wide at bottom, aluminum box and frame. On angled side and outside edge of Arch is 8” wide Clear Lexan lens cover with LED light source behind. Color changing programable. Source 240 watt power to be provided within 100 feet. May require retaining walls to raise the mounting height to be visible from Highway elevation

Landscape $20,000.00

Large Live Oak trees installed at grade or in raised beds below roadway elevation. With Irrigation System.

Total Budget $400,000.00

Budgeted as all item priced as Standard Ready Installation

Rockwall, Texas

Proclamation

Whereas, Shriners Hospitals for Children is a national non-profit organization committed to giving children the opportunity to live a more normal life; and

Whereas, Shriners Hospitals for Children provides children the opportunity to receive treatment for orthopedic problems, severe burns and spinal cord injuries and provides them with a head start in developing a normal life, regardless of the patient's ability to pay, that is essential to becoming successful and contributing adults; and

Whereas, Shriners Hospitals have provided medical and rehabilitative care to millions of children at their many orthopedic hospitals, treating scoliosis, brittle bone disease, hand and back problems, limb deficiencies and growth problems; and

Whereas, on February 27, 2018, Shriners Hospitals for Children and IHOP will join together to encourage people to donate to these worthy causes.

Now, Therefore, I, Jim Pruitt, Mayor of the City of Rockwall, Texas, do hereby proclaim February 27, 2018 as

IHOP'S NATIONAL PANCAKE & SHRINERS HOSPITALS FOR CHILDREN DAY

in the City of Rockwall and urge all citizens to participate in this important campaign to help transform a stack of pancakes into free treatment for children with orthopedic problems and severe burns within our city.

In Witness Whereof, I hereunto set my hand and official seal this 19th day of February, 2018.

Jim Pruitt, Mayor

Rockwall, Texas

Proclamation

Whereas, engineers provide the talents and skills necessary to analyze and solve complex problems and create infrastructure for the high quality of life which citizens enjoy; and

Whereas, the support of an understanding and informed citizenry is vital to the efficient planning, design, construction and operation of the public infrastructure, which includes water, sanitary and storm sewers, streets and highways, bridges, public buildings, communications, and electricity and natural gas distribution; and

Whereas, the health, safety, welfare, comfort and economic vitality of this community greatly depends on sound public infrastructure; and

Whereas, engineers address the major technological challenges of our time from rebuilding towns devastated by natural disasters to designing infrastructure that will take our country through the 21st century; and

Whereas, the quality and effectiveness of the public infrastructure is vitally dependent upon the effort, talent and skill of public and private sector engineers; and

Whereas, the City of Rockwall has a small cadre of highly qualified and dedicated engineers whose professionalism materially influences the people's attitude and understanding of the importance of the work they perform; and

Now, Therefore, I, Jim Pruitt, Mayor of the City of Rockwall, so hereby proclaim the week of February 18-24, 2018, as:

ENGINEERS APPRECIATION WEEK

in the City of Rockwall, and call upon all citizens and civic organizations to acquaint themselves with the issues involved in providing quality infrastructure and to recognize the significant contributions which our engineers make every day to our health, safety, comfort and quality of life.

In Witness Whereof, I hereunto set my hand and official seal this 19th day of February, 2018.

Jim Pruitt, Mayor

MINUTES
ROCKWALL CITY COUNCIL
Monday, February 05, 2018
4:00 p.m. Regular City Council Meeting
City Hall - 385 S. Goliad, Rockwall, Texas 75087

I. CALL PUBLIC MEETING TO ORDER

Mayor Pruitt called the meeting to order at 4:02 p.m. Present were Mayor Jim Pruitt, Mayor Pro Tem John Hohenshelt and Council Members Dana Macalik, Mike Townsend, and Kevin Fowler. Councilmember Dennis Lewis joined the meeting at 4:04 p.m. Also present were City Manager Rick Crowley, Assistant City Managers Mary Smith and Brad Griggs, and City Attorney Frank Garza. The city's bond counsel, Leroy Grawunder was also present. Councilmember Bennie Daniels was absent from the entirety of the meeting.

II. WORK SESSION

1. Hold a work session to consider potential capital improvement projects associated with future bond election.

Mary Smith, Assistant City Manager, briefed the Council on a memo she has provided to the Council concerning options related to calling a bond election. Council members generally indicated that they are comfortable with $85 million dollars being issued and paid for over a ten year period for roadway improvements. It is estimated that this is the amount and timeframe for which debt may be issued and not result in a tax rate increase to the citizens. City Manager Rick Crowley introduced Leroy Grawunder, the city's bond (legal) counsel.

Mayor Pruitt expressed a desire to possibly include verbiage on the ballot language that will show the voters how much outstanding debt the city current has, as well as how much will be added to that debt should the roadway-related bond proposition pass. Mr. Grawunder advised that the election code does not contain provisions that would allow for the bond proposition language itself to contain information concerning the city's current amount of debt. However, he advised that the city is allowed to publish factual information to educate voters in advance of the bond election. Mayor Pruitt generally expressed concern about voters potentially not being sufficiently informed about the city's current debt status and what any further debt issuance will equate to for the city and its taxpayers.

Regarding the possibility of including parks or ball field related bond propositions on a May election ballot, Councilmember Macalik shared that five or six constituents contacted her and expressed a desire to not include either of these things on the ballot. Both Councilmember Lewis and Councilmember Townsend shared that they have each received indication from constituents that they do in fact wish to have parks and ball field-related propositions on the bond election ballot.

Mayor Pruitt called forth Brad Bassett, current Park Board Chairman, to brief Council on the recent discussions Park Board has had pertaining to possible bond proposals. The Park Board held a special meeting on Monday January 29th and voted unanimously (of the four in attendance) that City Council consider the following for the upcoming bond election:

- **Phase 2 neighborhood parks construction - $2,200,000**
- **Renovations of Myers ball fields and Yellowjacket ball fields - $1,500,000**

- **Authorize funding a feasibility study for an athletic complex in this year's budget for consideration of a bond program at the next possible general election.**
- **Consider funding the completion of concept plans for the remaining identified projects in the 2017 Strategic Plan (Alma Williams Howard Park, a south community, The Lakeside Park and The Lakes of Squabble Creek)**

Mr. Bassett generally expressed a desire for staff and the Park Board to further evaluate some of these items and perhaps consider them on a subsequent bond election (perhaps in November of 2018). He would like the Council to consider authorizing some funding in order to retain a consultant(s) to assist staff and the Park Board with further evaluating and pricing some of these items. Mr. Crowley indicated that a budget request that would have funded these studies was previously submitted; however, it was not approved in the current fiscal year budget.

Discussion ensued pertaining to potential, future improvements within neighborhood parks. Mayor Pruitt encouraged the Park Board to prioritize neighborhood park improvements and come up with a phased plan to implement those improvements over the course of a five year period.

Mayor Pruitt pointed out that normally a committee of voters/citizens is assembled in order to discuss and prioritize items for inclusion in a bond proposition package. However, regarding roadway improvements, there was no need to establish a citizen committee because no one questions that the city's roads are in disrepair and need improvements. He urged the Council to consider waiting on all other items, such as parks, the airport, ball fields, etc. until a citizen committee can be formed to consider all of those types of wants and needs and prioritize them in advance of putting forth a bond proposition package to the Council for consideration.

Regarding the municipal airport, staff has been working with the Airport Advisory Board and has recently taken steps to meet with TXDOT Aviation to further discuss things such as the possibility of land acquisition.

Mayor Pruitt read the below listed discussion items into the public record before recessing the meeting to go into Executive Session at 4:49 p.m.

III. EXECUTIVE SESSION.

THE CITY OF ROCKWALL CITY COUNCIL WILL RECESS INTO EXECUTIVE SESSION TO DISCUSS THE FOLLOWING MATTERS AS AUTHORIZED BY CHAPTER 551 OF THE TEXAS GOVERNMENT CODE:

1. Discussion regarding legal review of deed records pertaining to public access on Breezy Hill Lane pursuant to Section §551.071 (Attorney/Client Consultation)
2. Discussion regarding claim by former police employee pursuant to Section §551.071 (Attorney/Client Consultation)
3. Discussion regarding the appeal to the Public Utility Commission filed by the cities of Garland, Mesquite, Plano and Richardson against the North Texas Municipal Water District (NTMWD) regarding water rates pursuant to §Section 551.071 (Consultation with Attorney).

IV. ADJOURN EXECUTIVE SESSION

Council adjourned from Executive Session at 5:15 p.m.

V. RECONVENE PUBLIC MEETING

Mayor Pruitt reconvened the public meeting at 6:01 p.m.

VI. TAKE ANY ACTION AS A RESULT OF EXECUTIVE SESSION

It was announced that no action would be taken as a result of Executive Session.

VII. INVOCATION AND PLEDGE OF ALLEGIANCE – MAYOR PRO TEM HOHENSHELT

Mayor Pro Tem Hohenshelt delivered the invocation and led the Pledge of Allegiance.

VIII. OPEN FORUM

Mayor Pruitt explained how Open Forum is conducted and asked if anyone would like to come forth and speak at this time.

Mr. Bruce Foith
1087 Shady Lane Drive
Rockwall, TX 75087

Mr. Foith came forth and expressed concern about a pond near his home that is in need of some clean-up. He showed a photo of the pond, pointing out that there is a great deal of litter, and it needs to be cleaned up. He also has concerns about erosion on the other side of the pond at the dam area. He suggested that the Council consider cleaning it up and perhaps adding a trail near the dam area. Mayor Pruitt asked the Parks Department to report on these concerns at the next Council meeting.

There being no one else wishing to come forth and speak at this time, Mayor Pruitt then closed Open Forum.

IX. CONSENT AGENDA

1. Consider approval of the minutes from the January 16, 2018 regular city council meeting, and take any action necessary.
2. Consider approval of the minutes from the January 22, 2018 special city council meeting, and take any action necessary.
3. **Z2017-066** - Consider a request by Trent Hyde for the approval of an **ordinance** for a Specific Use Permit (SUP) to allow for a detached garage that does not meet the minimum requirements as stipulated by Article IV, Permissible Uses, of the Unified Development Code for a 0.830-acre tract of land identified as the Wilson Addition, City of Rockwall, Rockwall County, Texas, zoned Single-Family 10 (SF-10) District, addressed as 218 W. Quail Run Road, and take any action necessary. **(2nd Reading)**
4. Consider awarding a bid to Utility Truck Equipment Company and authorizing the City Manager to execute a purchase order for a used crane truck in the amount of $125,000 to be funded out of the Water and Sewer Fund, Wastewater Operations Budget, and take any action necessary.

5. Consider awarding a bid to Love Field Chrysler Dodge and authorizing the City Manager to execute a purchase order for a 2018 Police Pursuit Dodge Charger in the amount of $25,736 to be funded out of the General Fund, Police Patrol Operations Budget, and take any action necessary.

6. Consider authorizing the City Manager to execute an amendment to the agreement with PMAM Corporation for Police and Fire Alarm Tracking and Billing services, and take any action necessary.

7. Consider authorizing the City Manager to enter into an agreement with WME for Founders Day headliner entertainment, and take any action necessary.

8. Consider approval of a resolution calling a General Election to be held on Saturday, May 5, 2018 for the purpose of electing City Council Members for Place 2, Place 4, and Place 6, and take any action necessary.

Mayor Pruitt reconvened the public meeting at 7:41 p.m. City Secretary Kristy Cole provided brief comments pertaining to this agenda item, indicating that Section 6 of the resolution was slightly modified this afternoon, in collaboration with the city attorney.

Mayor Pro Tem Hohenshelt moved to approve the resolution (as revised). Councilmember Macalik seconded the motion, which passed by a vote of 6 ayes with 1 absence (Daniels).

9. Consider approval of a resolution by the City Council of the City of Rockwall, Texas, calling a Bond Election to be held on Saturday, May 5, 2018 within said City; making provision for the conduct of the Election; containing other provisions incident and related to the purpose of this Resolution, and take any action necessary.

Mayor Pruitt indicated that the Council had discussions pertaining to this agenda item during the work session that took place earlier this afternoon.

Mayor Pro Tem Hohenshelt moved to approve a resolution calling a bond election to be held on May 5, 2018, putting forth only a roadway-related proposition in the amount of $85 million and allowing up to 40 years for maturity of said debt. Mayor Pruitt seconded the motion.

Mayor Pruitt then expressed that he would like to see the maturity date of the debt to be set at twenty years instead of forty years. Mr. Leroy Grawunder, the city's bond counsel, came forth and clarified the meaning and level of specificity of the proposed bond proposition language regarding reconstruction and rehabilitation of existing streets. He also asked that the Council be sure to specify and vote on the desired "maturity date" as part of the motion.

Councilmember Lewis expressed that he would at least like the Council to authorize staff to fund the feasibility study associated with the Park Board Chairman's recommendation.

The motion passed by a vote of 4 in favor, 2 against (Pruitt and Fowler), and 1 absence (Daniels).

Mayor Pruitt clarified that he and Councilmember Fowler did not vote against this motion because they don't want roads to be fixed. Instead, they voted against the motion because they do not believe in the philosophical differences associated with a twenty versus forty year issuance pertaining to maturity of the bond(s).

Mayor Pruitt expressed that he would like to pull Consent Agenda items #8 and #9 for further discussion later on during the meeting. Councilmember Lewis then moved to approve the remaining Consent Agenda Items (#s 1, 2, 3, 4, 5, 6, and 7). Mayor Pro Tem Hohenshelt seconded the motion. The ordinance was read as follows:

CITY OF ROCKWALL
ORDINANCE NO. 18-11
SPECIFIC USE PERMIT NO. S-184

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, TEXAS, AS PREVIOUSLY AMENDED, SO AS TO GRANT A SPECIFIC USE PERMIT (SUP) TO ALLOW A DETACHED GARAGE THAT DOES NOT MEET THE MINIMUM REQUIREMENTS, ON A 0.830-ACRE TRACT OF LAND ZONED SINGLE-FAMILY 10 (SF-10) DISTRICT AND IDENTIFIED AS THE WILSON ADDITION, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OR FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

The motion passed by a vote of 6 ayes with 1 absent (Daniels).

X. APPOINTMENTS

1. Appointment with Chris Lynch, Rockwall County Elections Administrator, to hear update regarding new electronic voting system and other items of interest pertaining to countywide elections, and take any action necessary.

Mr. Lynch came forth and shared details with the city council concerning a new voting system that the County of Rockwall recently purchased for use in upcoming elections. He explained that the new voting machines will affect about 33% of the voters in the County who have traditionally voted on paper ballots. He explained that all voters will cast their votes electronically on a machine. Then, the ballot containing the person's votes will be printed out, the voter may review the paper print out, and then he or she may submit their ballot to be formally cast.

Mr. Lynch went on to share details pertaining to the upcoming May elections, indicating that it is likely that the Rockwall Independent School District will end up canceling its election. So, if that happens, he explained that the City of Rockwall will then bear the full cost of the Rockwall County Elections Office administering said election.

Mayor Pruitt asked some clarifying questions pertaining to a Rockwall city voter's ability to 'early vote' at any early voting polling location throughout Rockwall County.

Council took no action as a result of this appointment item.

2. Appointment with the Planning and Zoning Chairman to discuss and answer any questions regarding cases on the agenda and related issues and take any action necessary.

Johnny Lyons, current chairman of the Planning & Zoning Commission, came forth and briefed the Council on recommendations of the Commission relative to planning-related items on tonight's agenda. The Council took no action following Mr. Lyons' comments.

3. Appointment with Park Board Chairman Brad Bassett to hear recommendations regarding potential funding of park initiatives, and take any action necessary.

Mayor Pruitt indicated that the Council held discussions with Mr. Bassett related to this topic earlier this afternoon during a work session. The Council will consider this matter when it discusses Consent Agenda Item #9 above.

4. Appointment with Ed Hicks of Clay Cooley Automotive to discuss an alternative to the requirements of S-131 (Ordinance No. 15-05), and take any action necessary.

Mr. Hicks came forth and requested that the Council consider allowing him to demolish the building in lieu of installing some materials to the exterior façade of the existing building. The applicant indicated that the owners are working on closing a deal with a new automotive dealership and will be demolishing the building to accommodate the new company. He believes that they will likely have a new franchise agreement in place by fall of this year.

Following brief comments and clarification from the city attorney, Mayor Pruitt moved to grant Mr. Cooley a deferred action of the SUP Ordinance to allow for the demolition of the metal building located at 1530 E. IH-30. Councilmember Lewis seconded the motion, which passed by a vote of 6 ayes with 1 absence (Daniels).

5. Appointment with Wayne Hunter, PE of RPS Group on behalf Camden Homes to discuss the removal of a portion of a 322.34-acre tract of land from the City of Rockwall's Extraterritorial Jurisdiction (ETJ), allowing the City of Royse City to serve the property to facilitate a mixed-use development, and take any action necessary.

Mr. Hunter came forth and made a presentation to the City Council, briefly explaining that this request is being made on behalf of Camden Homes for the purpose of allowing the Royse City CCN to serve wastewater service in the capacity needed to support a 322.34-acre development (~288.50-acres is situated within the City of Rockwall's ETJ with the remainder being situated within the City of Royse City ETJ). According to the applicant's letter, this development will consist of 763 single-family lots, 20.30-acres of senior living, 22.00-acres of multi-family, 17.80-acres of commercial/retail and a 8.40-acre storage facility.

The Council took no action pertaining to this agenda item.

XI. PUBLIC HEARING ITEMS

1. **A2018-001 [A2017-001] (6:00 PM)** – Hold a public hearing to discuss and consider a request by Rick Jones of ADV Rockwall Platinum Property Owner, LLC for the approval of a voluntary annexation of a 4.264-acre tract of land identified as Lot 1, Block 1, Valk Rockwall Addition, Rockwall County, Texas, situated within the Extraterritorial Jurisdiction (ETJ) of the City of Rockwall, contiguous to the existing city limits, and take any action necessary.

Mayor Pruitt opened the public hearing at 6:34 p.m., asking if anyone would like to come forth and speak at this time. There being no one indicating such, Mayor Pruitt then closed the public hearing. The city attorney explained that there is an Attorney General's opinion that states that when the two required public hearings are held on the same date pertaining to annexation, then those two public hearings must be held at least 30 minutes apart. Mr. Crowley explained that two public hearings regarding annexation are never held on the same date when it is a "forced annexation." However, because this one is a voluntary annexation, the two public hearings are being held on the same date in order to accommodate speeding up the annexation on the applicant's behalf.

2. **A2018-001 [A2017-001] (6:30 PM)** – Hold a public hearing to discuss and consider a request by Rick Jones of ADV Rockwall Platinum Property Owner, LLC for the approval of a voluntary annexation of a 4.264-acre tract of land identified as Lot 1, Block 1, Valk Rockwall Addition, Rockwall County, Texas, situated within the Extraterritorial Jurisdiction (ETJ) of the City of Rockwall, contiguous to the existing city limits, and take any action necessary.

Mayor Pruitt skipped over this item for now and came back to it later on in the meeting.

Mayor Pruitt opened the public hearing at 7:15 p.m., asking if anyone would like to come forth and speak at this time. There being no one indicating such, he then closed the public hearing. No action was taken by Council at this time.

3. **Z2017-059** - Hold a public hearing to discuss and consider a request by Ed Cavendish of Ed Cavendish Homes/VPS Construction on behalf of Jal Kumar of Rockwall Marina Development, LLC for the approval of an **ordinance** amending Planned Development District 8 (PD-8) [Ordinance No. 92-39] for the purpose of allowing townhomes on a 6.88-acre tract of land identified as Lot 4, Block A, Spyglass Hill #4 Addition and Tract 134-12 of the E. Teal Survey, Abstract No. 207, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 8 (PD-8) [Ordinance No. 92-39] for Zero Lot Line (ZL-5) District land uses, generally located south on the south side of Henry M. Chandler Drive west of Ridge Road [FM-740], and take any action necessary **(1st Reading).**

Mayor Pruitt opened the public hearing, asking if anyone would like to come forth and speak at this time. On December 18, 2017, the City Council remanded Case No. Z2017-059 back to the Planning and Zoning Commission to allow the applicant to make changes to the concept plan. Following this action the applicant submitted a request to postpone the public hearing for this case to January 30, 2017 to allow time to modify the request to address the concerns stated in the City Council meeting and to meet with the Chandler's Landing Homeowner's Association (HOA). The Planning and Zoning Commission approved this request on December 26, 2017.

Since the City Council meeting, the applicant has changed the request reducing the number of units from 48 to 40. This reduces the requested density from 6.98 to 5.81 units per acre. This does not have an effect on the future land use map, which already designates the subject property for High Density Residential land uses (i.e. any development that exceeds three [3] units per gross acre). In addition, the applicant has removed the request for additional cementaceous materials and is proposing to meet or exceed the material requirements of the Unified Development Code. After reviewing these changes and holding a public hearing on January 30, 2017, the Planning and

Zoning Commission approved a motion to recommend approval of the amendment to Planned Development District 8 (PD-8) by a vote of 7-0.

Mayor Pruitt then opened the public hearing and asked if anyone from the Chandler's Landing Homeowner's Association (HOA) would like to come forth and speak at this time.

Jeff Macalik
6102 Volunteer Place
Rockwall, TX 75032

Mr. Macalik indicated that he is the Chairman of the Chandler's Landing Homeowner's Association's Environmental Committee. He came forth and shared a letter with the Council, on behalf of the HOA, generally indicating that the HOA is not in favor of any high density multi-family development. He also pointed out that ten neighbors have all expressed opposition to this development. He wonders who will own the streets within this development, pointing out that the Chandler's HOA maintains its own, private streets. He also questions if this development will be gated or not. He overall indicated that the HOA board does not want a lot density of any more than 36 lots.

Councilmember Fowler questioned if this land area is or is not part of the Chandler's subdivision and HOA. Mr. Miller, Planning Director, shared that he is not sure – that is more of a question for the Chandler's HOA.

Mr. Macalik shared that, although he is not totally certain, he does know that Chandler's HOA board members have generally indicated a belief that this area would be in the Chandler's HOA. Mr. Garza, the city's legal counsel, generally explained that the city is not to consider any deed restrictions which may or may not be in place.

After additional, brief discussion pertaining to density, Mayor Pruitt called the next speaker forward.

Phil Bishop
333 Columbia Drive
Rockwall, TX

Mr. Bishop came forth and expressed that he lives in Chandler's Landing. He went on to explain that, up until recently, he managed Spyglass Hill. He shared that the three phases of Spyglass are much denser because they are condominiums. Also, they do not have setback rules, and the streets are not repaired by Chandler's Landing. He shares that her currently manages Spyglass Hill, Phase 3, and, up until recently, he managed Phase 2 as well. He went on to speak about "the 12' rule," that had, in part, been discussed this evening, sharing that this rule never applied to Spyglass Hill Phase I, Phase II, or Phase III. Also, the rule only applies to certain lots on certain streets within Chandler's Landing. He mentioned that, as a result of a past lawsuit, some areas have height restrictions in place which dictate how tall a home may be (above sea level). Each of the three phases of Spyglass is essentially "self-governed," and residents can pay for the ability to utilize amenities within the Chandler's subdivision; however, there is also an "opt out" option for each Phase. He shared that Phase II did so (opted out) a couple of years ago, so residents within Phase II no longer pay dues to Chandler's landing. Mr. Bishop went on to share his own, personal opinion, indicating that this particular project proposal seems to be the best one for protecting view corridors and minimizing the overall heights of the homes.

Scott Mason
275 Henry M. Chandler Drive
Rockwall, TX

Mr. Mason shared that he owns one of the condos that would be in direct view of some of these proposed townhomes. Mr. Mason generally expressed that he believes what is being proposed now by Mr. Cavendish is in the best scenario for development of these lots.

Dennis Vierling
1121 Bayshore Drive
Rockwall, TX

Mr. Vierling came forth and generally expressed that he believes what is being proposed by Mr. Ross Ramsay and Mr. Cavendish does allow for the best views (of the lake) to be experienced by all. He generally expressed support for approval of this request.

Mr. Ross Ramsay, the architect associated with development of this property, came forth and briefed the Council on this revised proposal.

Mayor Pruitt asked if anyone else would like to come forth and speak during the public hearing.

Mr. Ed Cavendish with Cavendish Homes came forth and addressed the Council. He generally expressed that he does not believe this council meeting is the proper time or place to be discussing things such as Chandler's Landing's "twelve foot rule." He believes that said issue should be discussed at a separate time and is something that is solely between him and the HOA if/when he actually begins constructing the townhomes.

Mr. Macalik, who previously spoke, came back before the council and offered additional, brief comments regarding the "12' rule,' clarifying that he cannot speak as to if this proposal would or would not be in compliance with said rule. He went on to talk about the huge change in elevation that exists within this area, sharing that he does not feel the "open space" that would be part of this development would truly be useable (because it is so steep).

There being no one else wishing to come forth and speak at this time, Mayor Pruitt then closed the public hearing.

Mayor Pruitt shared that he has received a lot of input from residents, mainly those living in Spyglass, who have expressed opposition to this proposal. Councilmember Lewis generally shared that he has received a lot of input from various residents pertaining to this request. Chandler's changed their bylaws last year to restrict the number of rental units within the subdivision to 15%. He believes that zero lot line homes tend to be more 'owner occupied,' while townhomes tend to be more 'renter occupied.'

Mayor Pruitt summarized that the Council should focus tonight on the following two factors - (1) if townhomes or zero lot line homes are what should be allowed and (2) should the units be allowed to increase from 36 to 40 units? Mr. Garza clarified that, if there are deed restrictions in place, it will not be the city's responsibility to enforce those. Instead, that would be something that would need to be addressed between the developer and the HOA.

Councilmember Macalik expressed that most of these units will sell between $325k and $350k. So, she pointed out that most of the other existing townhomes and condos, both in Chandler's and Spyglass, are not in this price range. So, this will be a different housing product for the HOA. She expressed a desire to be sure that all of the expressed issues are being addressed.

Following additional, brief comments, Mayor Pro Tem Hohenshelt moved to approve Z2017-059. Councilmember Townsend seconded the motion. The ordinance was read as follows:

CITY OF ROCKWALL
ORDINANCE NO. 18-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING PLANNED DEVELOPMENT DISTRICT 8 (PD-8) [*ORDINANCE NO. 92-39*] AND THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, BY AMENDING THE PLANNED DEVELOPMENT CONCEPT PLAN AND THE DEVELOPMENT STANDARDS APPROVED WITH *ORDINANCE NO. 92-39*, BEING A 6.88-ACRE TRACT OF LAND IDENTIFIED AS LOT 4, BLOCK A, SPYGLASS HILL #4 ADDITION AND TRACT 134-12 OF THE E. TEAL SURVEY, ABSTRACT NO. 207, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS AND MORE FULLY DESCRIBED HEREIN BY *EXHIBIT 'A'*; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

The motion failed by a vote of 2 ayes with 4 against (Pruitt, Fowler, Lewis, and Macalik) and 1 absent (Daniels).

4. **Z2017-052** - Hold a public hearing to discuss and consider a request by Pat Atkins of Saddlestar Land Development on behalf of the Stagliano Family Trust for the approval of an **ordinance** for a zoning change from an Agricultural (AG) District, Commercial (C) District and Heavy Commercial (HC) District to a Planned Development District for commercial/retail, single-family and townhome land uses on a 63.72-acre tract of land identified as Tract 3 of the W. H. Barnes Survey, Abstract No. 26, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, Commercial (C) District and Heavy Commercial (HC) District, situated within the SH-205 Overlay (SH-205 OV) District, located at the northwest corner of S. Goliad Street [SH-205] and Mims Road, and take any action necessary **(1st Reading).**

Mr. Miller, Planning Director, indicated that Mr. Atkins, the applicant, has asked to withdraw this case at this time. No action was taken by Council at this time.

XII. ACTION ITEMS

1. Hold a Show Cause Hearing to discuss and consider demolition of a dangerous building located at 373 Renee Drive, legally described as Rockwall Lake Estates #2, Lot 1434, and take any action necessary.

Building Official, Jeffrey Widmer, provided brief comments pertaining to this agenda item. Councilmember Lewis moved to approve the demolition of the dangerous building located at 373 Renee Drive, legally described as Rockwall Lake Estates #2, Lot 1434. Mayor Pro Tem Hohenshelt seconded the motion, which passed by a vote of 6 ayes with 1 absent (Daniels).

2. Discuss and consider a request by David Ellis of Ellis Companies for the approval of a resolution abandoning the right-of-way adjacent to Lot 2, Block A and Lots 4 & 5, Block C, Ellis Centre, Phase Two Addition, City of Rockwall, Rockwall County, Texas, and take any action necessary.

Mr. Miller, the city's Planning Director, generally explained that the applicant is requesting this abandonment in order to accommodate a potential development that would take up the majority of the land. In addition, the applicant has indicated intent to construct a cul-de-sac at the end of Alpha Road. The right- of-way in question was dedicated on February 15, 1985 with the final plat for Ellis Centre, Phase 2 Addition. At the time of platting, Alpha Road was indicated on the City's Master Thoroughfare Plan as a Minor Collector, and was intended to connect IH-30 to the Justin Road. Alpha Road was later removed from the Master Thoroughfare Plan in favor of upgrading Industrial Boulevard to a M4U (i.e. minor collector, four [4] lane, undivided roadway).

Currently, both the subject property and the property directly north of the subject property (i.e. 71.022-acre tract of land identified as a portion of Tract 20-1 of the A. Hanna Survey, Abstract No. 99) remain vacant and no development plans for either property have been submitted to staff. In addition, the property to the north is served by both Industrial Boulevard and Justin Road, and would not be affected by the removal of the right-of-way. Taking this into consideration and the fact that the City's Master Thoroughfare Plan has changed, the City Attorney has stated that the City Council could abandon the right-of-way without charging the applicant the fair market value of the land (i.e. returning the dedicated land to the applicant without compensation). In accordance with this request, staff has prepared a resolution in the attached packet should the City Council choose to approve the right-of-way abandonment.

Following brief comments by Mr. Ellis, Mayor Pro Tem Hohenshelt moved to approve the resolution abandoning the right-of-way adjacent to Lot 2, Block A and Lots 4 & 5, Block C, Ellis Centre, Phase Two Addition, City of Rockwall, Rockwall County, Texas. Councilmember Fowler seconded the motion, which passed by a vote of 6 ayes with 1 absence (Daniels).

3. **MIS2018-001** - Discuss and consider a request by Kris Green for the approval of an exception to the minimum masonry requirements stipulated in Section 3.1, General Residential District Standards, of Article V, District Development Standards, of the Unified Development Code, for a 0.2421-acre parcel of land identified as Lot 11, Block B, Chandler's Landing, Phase 10, Section 1, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 8 (PD-8) for residential land uses, addressed as 5107 S. Alamo Drive, and take any action necessary.

Mayor Pruitt announced that MIS2018-001 is going to be reset to the February 19 city council meeting. Council did not discuss this item, and no action was taken at this time.

4. **MIS2018-002** - Discuss and consider a request by Kay Uhlig of Sabrina's Flowers and Gifts for the approval of a variance to the district development standards of the SH-205 Overlay (SH-205 OV) District for the approval of a LED message sign on an existing pole sign on a 0.407-acre parcel of land identified as the J. J. Jones Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the SH-205 Overlay (SH-205 OV) District, addressed as 1903 S. Goliad Street [SH-205], and take any action necessary.

Mr. Miller, the city's Planning Director, explained that this is a request for a variance to the sign requirements stipulated by the SH-205 Overlay (SH-205 OV) District to allow the replacement of a message reader board with a Changeable Electronic Variable Message Sign (CEVMS) on a legally non-conforming pole sign at 1903 S. Goliad Street. Subsequently, the City Council denied the request with prejudice on September 5, 2017 by a vote of 4-2, with Mayor Pruitt and Council Member Macalik dissenting and Council Member Hohenshelt absent.

He went on to explain that on January 12, 2018, the applicant resubmitted the application proposing no changes to the original submittal. Therefore, since the applicant is not proposing any changes to the original submittal, staff has provided a copy of the (original) case memo from Case No. MIS2017-009 along with all exhibits submitted by the applicant. Staff should point out that the applicant was not subject to the one (1) year prohibition on similar requests associated with cases that are denied with prejudice because this case does not require a public hearing. Staff should also note that this request could not be made under the current sign code, and would require the applicant to convert the sign to a monument sign to allow for the CEVMS installation.

Mayor Pro Tem Hohenshelt moved to deny MIS2018-002. Councilmember Fowler seconded the motion. Councilmember Fowler then explained that he believes the existing sign looks awful, so he feels like anything to enhance it would be an improvement. The motion failed by a vote of 3 in favor with 3 against (Macalik, Fowler and Lewis).

Mayor Pruitt then called for a brief break at 7:29 p.m. before addressing Consent Agenda item #8 and #9.

XIII. CITY MANAGER'S REPORT TO DISCUSS CURRENT CITY ACTIVITIES, UPCOMING MEETINGS, FUTURE LEGISLATIVE ACTIVITIES, AND OTHER RELATED MATTERS.

1. Departmental Reports
   Building Inspections Monthly Report - December 2017
   Fire Department Monthly Report - December 2017
   Fire Marshal Monthly Report - December 2017
   GIS Monthly Report - December 2017
   Harbor PD Monthly Report - December 2017
   Internal Operations Department Monthly Report - December 2017
   PARD Monthly Report - November 2017
   PARD Monthly Report - December 2017
   Police Department Monthly Report - December 2017
   Quarterly Report for Rockwall Meals on Wheels / Senior Services
   Rockwall Animal Adoption Center Monthly Report - December 2017
   STAR Transit Report - December 2017
2. City Manager's Report

XIV. EXECUTIVE SESSION

THE CITY OF ROCKWALL CITY COUNCIL WILL RECESS INTO EXECUTIVE SESSION TO DISCUSS THE FOLLOWING MATTERS AS AUTHORIZED BY CHAPTER 551 OF THE TEXAS GOVERNMENT CODE:

1. Discussion regarding legal review of deed records pertaining to public access on Breezy Hill Lane pursuant to Section §551.071 (Attorney/Client Consultation)
2. Discussion regarding claim by former police employee pursuant to Section §551.071 (Attorney/Client Consultation)
3. Discussion regarding the appeal to the Public Utility Commission filed by the cities of Garland, Mesquite, Plano and Richardson against the North Texas Municipal Water District (NTMWD) regarding water rates pursuant to §Section 551.071 (Consultation with Attorney).

XV. RECONVENE PUBLIC MEETING & TAKE ANY ACTION AS RESULT OF EXECUTIVE SESSION

Council did not reconvene in Executive Session following the end of the public meeting agenda.

XVI. ADJOURNMENT

Mayor Pruitt adjourned the meeting at 7:57 p.m.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS 19th DAY OF FEBRUARY, 2018.

City of Rockwall
The New Horizon

MEMORANDUM

TO: **Rick Crowley, City Manager**

FROM: **Mary Smith, Assistant City Manager**

DATE: **February 15, 2018**

SUBJECT: **Water/Wastewater Rate Study**

It has been a few years since the City last conducted a comprehensive study of our water and wastewater wholesale and retail rates. The previous studies have each set a framework for rates to be followed for several years with the ability to adapt to significant factors like the drop consumption and corresponding drop in reserves due to very successful conservation efforts.

An independent rate study will look at the breakdown of our revenues by meter size and volumes of consumption per customer class. They will also look at the rate projections provided by NTMWD for treated water over the next ten years, maintenance and operations, and plans for capital projects in that timeframe. The consultant will then devise a rate structure which will generate sufficient revenues to meet those costs.

After reviewing our options for rate consultants, staff is proposing to contract with Willdan/Economists.com for this project. We've had their principal, Dan Jackson, work with the City over the last decade on system valuation projects as we acquired the right to serve neighborhoods such as Lake Rockwall Estates and Oaks of Buffalo Way. Mr. Jackson's firm will work extensively with City management and operations employees to ensure that the current and long-term needs of the utility system are met. We've found this process in the past to be very enlightening regarding both our system and other area cities rate structures and best practices.

The Willdan proposal for this study is $39,000 and funds were included in the Water operations budget for this purpose. Staff asks Council to consider authorizing the rate study. As the process progresses the consultant will make presentations to the Council regarding his findings.

January 19 2018

Ms. Mary Smith
Assistant City Manager
City of Rockwall
385 S. Goliad
Rockwall TX 75087

Dear Ms. Smith:

Thank you for allowing Willdan Financial Services/Economists.com the opportunity to present this proposal to provide a water and wastewater rate analysis and long-term financial plan for the City of Rockwall ("The City"). Willdan Financial Services is one of the largest public sector financial consulting firms in the United States. Our company has helped over 800 public agencies across the United States successfully address a broad range of financial challenges, such as financing the costs of growth and generating revenues to fund desired services.

On April 6, 2015, Willdan merged with Economists.com, a Texas-based economic and financial consulting firm established in October 1997. Our combined firm specializes in municipal and public sector utilities and our principal clients are national, state and local governments. Each of our clients is served directly by our senior level professionals with decades of experience in utility consulting and economic/financial management. We are proud of our history of building long term relationships with clients based on affordability, professionalism and performance. We have served as consultants to the City of Rockwall for various projects since 2005 and are grateful for the opportunity to continue to provide service to the City.

Our specific services include:

- Water and Wastewater Rate Studies
- Sanitation Rate Studies
- Economic evaluation of water resources
- Water Planning and Management
- Connection and Impact Fee Studies
- Privatization Analysis
- Expert Witness Testimony on Reasonableness of Rate Structure
- Resource Allocation Studies
- Economic Impact and Development Studies

More information is available on our firm and professionals at our web sites, www.economists.com and www.willdan.com.

In the past five years, we have performed similar rate studies for Frisco, Plano, Richardson, Garland, McKinney, Princeton, Fairview, Rowlett, Little Elm, Coppell, Cedar Hill, Midlothian, Balch Springs, Hutchins and Royse City, along with 50 other cities in Texas and other cities across the USA. I have managed every one of these projects, and as Vice President of Willdan/Economists.com, I will manage and have primary responsibility for preparing this study for the City. I will be assisted by Mr. Dan Lanning, Project Analyst, and Mr. Dennis Goral, Project Analyst.

It is our understanding that the City is interested in developing a water and wastewater financial and rate plan that will enable the City to fund all ongoing operating expenses as well as funding long-term water and wastewater capital improvement projects. Our objective is to develop a long-term rate plan that will enable the City to fund these obligations and any assumed debt service and coverage requirements, while at the same time minimizing the impact of any potential rate adjustments on the ratepayers. We will work closely with City staff and council to ensure that the rate plan alternatives reflect the preferences of the ratepayers of the City.

Our workplan includes the following specific assistance:

1) A detailed analysis and comparison of the City's current and proposed rates to the state average as well as other surrounding communities.

2) Using current budget, volume and CIP data, the project team will prepare a comprehensive ten-year water and wastewater cost of service forecast model. The model will identify current and forecast operating expenses, capital outlays and debt service for the period 2018 – 2027. The model will functionalize costs between water treatment, distribution, administration and customer billing, and wastewater treatment, collection, administration and customer billing. The model will contain an interactive dashboard for ease of use in evaluating alternative rate and funding scenarios. The model will adhere to AWWA ratemaking standards to ensure that the cost of service is just, reasonable and accurate. An electronic, executable copy of the model will be provided to City staff at the conclusion of this engagement for staff's use in future updates.

3) The project team will prepare a water and wastewater long-term rate plan for the City Council to consider. The rate plan will enable the City to recover sufficient revenues to fund operating and capital costs. The project team will prepare additional alternatives and scenarios should the staff or council so desire in order to choose which is the most just and reasonable.

4) The project team will present its analysis in the form of a PowerPoint presentation that will provide background analysis, along with relevant documentation supporting the calculations and rate alternatives. The project team will prepare a detailed written report that will document all findings and conclusions.

5) We will conduct the following meetings: an initial meeting with City staff to review data and objectives for the analysis, a meeting with staff to go over preliminary findings and recommendations, a workshop with the City Council to review our findings and results, and a final meeting at which the chosen rate plan is adopted. Any meetings beyond these four identified meetings will be on a time and expense basis.

Attached is a request for the information we will require to complete the initial analysis.

Table 1 presents a summary of hours and estimated professional fees by team member for each task associated with this project. As the table reveals, we project that approximately 264 hours of effort will be required for this engagement. Further, we are proposing to complete this engagement for professional fees and expenses not to exceed $39,000. This total represents a discount of approximately 12.0% and is less than or equal to our fees for the similar studies we prepared for Rowlett, Coppell, Frisco, McKinney, Plano and other similar cities.

Table 1

City of Rockwall
Water and Wastewater Rate Study
Proposed Project Team Hours and Professional Fees

	D. Jackson Project Manager	D. Lanning Financial Analyst	D. Goral Project Analyst	Total

Production Expenses				$ 500
Total Cost				44,100
Less Discount				$ (5,100)
				-11.6%
Official Bid – Not to Exceed				**$ 39,000**

Attached is a Request for Information for the data we will need to complete this study. Assuming that the City commences with the study in February 2018, and assuming the timely receipt of requested data, we propose to have draft results completed by May 2018.

Willdan/Economists.com reserves the right to invoice for services on a monthly basis. Payment is requested 30 days after receipt of each invoice.

If this proposal is acceptable to you, please execute one copy of this letter and return it to our Dallas office. Thank you for this opportunity; we look forward to working with you on this engagement.

Respectfully submitted,
WILLDAN FINANCIAL SERVICES

Dan V. Jackson
Vice President

CITY OF ROCKWALL
2018 RATE STUDY AND LONG-TERM FINANCIAL PLAN
INITIAL REQUEST FOR INFORMATION

1. Please provide a copy of the City's FY 2018 Water and Wastewater Utility Budget.

2. Please provide a copy of the City's most recent audited financial statement (CAFR).

3. Please provide water billed consumption by customer class by month from October 2014 to the present.

4. Please provide water active accounts by customer class by month from October 2014 to the present.

5. Please provide water billed revenues by customer class by month from October 2014 to the present.

6. Please provide wastewater active accounts by customer class by month from October 2014 to the present.

7. Please provide wastewater billing units by customer class by month from October 2014 to the present.

8. Please provide wastewater billed revenues by customer class by month from October 2014 to the present.

9. Please provide the City's most up to date Capital Improvement Plan for the Water and Wastewater utility.

10. Please provide debt service schedules for all outstanding debt.

11. Please provide any wholesale contracts for water and wastewater service currently in place by the City.

12. Please provide an electronic copy of the City's logo.

CITY OF ROCKWALL
CITY COUNCIL MEMO

AGENDA DATE: 02/19/2018

APPLICANT: Lizanrdo Ormeno

AGENDA ITEM: **P2018-002;** *Lot 1, Block A, Lizandro Ormeno Addition*

SUMMARY:

Consider a request by Lizandro Ormeno on behalf of Livay, LLC for the approval of a final plat for Lot 1, Block A, Lizandro Ormeno Addition being a 1.24-acre tract of land identified as Tract 3 of the H. B. Jones Survey, Abstract No. 124, City of Rockwall, Rockwall County, Texas, situated within the N. SH-205 Overlay (N SH 205 OV) District, zoned Planned Development District 69 (PD-69), addressed as 1201 N. Goliad, and take any action necessary.

PLAT INFORMATION:

- ☑ The objective of this request is to final plat a 1.24-acre tract of land [*i.e. Tract 3 of the H. B. Jones Survey, Abstract No. 124*] into one (1) parcel of land [*Lot 1, Block A, Lizandro Ormeno Addition*] for the purpose of establishing the necessary firelane, cross access, utility, and drainage easements for the conversion of a single-family home into an office building.
- ☑ On February 28, 2016, the Planning and Zoning Commission approved a site plan for the purpose of converting a single-family home into an office building.
- ☑ The surveyor has completed the majority of the technical revisions requested by staff, and this plat, conforming to the requirements for final plats as stated in the *Subdivision Ordinance* in the *Municipal Code of Ordinances*, is recommended for conditional approval pending the completion of final technical modifications and submittal requirements.
- ☑ Conditional approval of this plat by the City Council shall constitute approval subject to the conditions stipulated in the *Recommendation* section below.
- ☑ With the exception of the items listed in the *Recommendation* section of this case memo, this plat is in substantial compliance with the requirements of the *Subdivision Ordinance* in the *Municipal Code of Ordinances*.

RECOMMENDATIONS:

If the City Council chooses to approve the *final plat* for *Lot 1 Block A, Lizandro Ormeno Addition,* staff would recommend the following conditions:

1) All technical comments from the Engineering, Planning and Fire Departments shall be addressed prior to the filing of this plat;
2) Any construction resulting from the approval of this *final plat* shall conform to the requirements set forth by the Unified Development Code, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

PLANNING AND ZONING COMMISSION:

On February 13, 2018, the Planning and Zoning Commission's motion to recommend approval of the final plat with staff recommendations passed by a vote of 5-0 with Commissioners Fishman and Chodun absent.

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS:

STATE OF TEXAS

COUNTY OF ROCKWALL

I the undersigned owner of the land shown on this plat, and designated herein as the **LIZANDRO ORMENO ADDITION** subdivision to the City of Rockwall, Texas, and whose name is subscribed hereto, hereby dedicate to the use of the public forever all streets, alleys, parks, water courses, drains, easements and public places thereon shown on the purpose and consideration therein expressed. I further certify that all other parties who have a mortgage or lien interest in the **LIZANDRO ORMENO ADDITION** subdivision have been notified and signed this plat. I understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same. I also understand the following;

1. No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.

2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of their respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maintaining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.

3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.

4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.

5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.

6. All detention/drainage systems to be maintained, repaired, and replaced by property owner.

7. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Rockwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, storm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall; or Until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer and/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as progress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or Until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall. I further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the Subdivision upon the public services required in order that the development will comport with the present and future growth needs of the City; I, my successors and assigns hereby waive any claim, damage, or cause of action that I may have as a result of the dedication of exactions made herein.

City of Rockwall
The New Horizon

MEMORANDUM

TO: **Honorable Mayor and City Council Members**

FROM: **Kristy Cole, City Secretary / Assistant to the City Manager**

DATE: **February 14, 2018**

SUBJECT: **Dissolving Construction Advisory Appeals Board**

In accordance with previous direction given by Council, City Attorney Frank Garza has drafted the enclosed ordinance for consideration. The ordinance essentially dissolves the current Construction Advisory Appeals Board (a board that has not met in many years) and transfers pertinent duties to the city's Board of Adjustments instead.

Mr. Garza will be available to answer any questions of Council at Monday's meeting.

CITY OF ROCKWALL, TEXAS
ORDINANCE NO. 18-____

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS AMENDING THE CODE OF ORDINANCES TO REPEAL CHAPTER 10. BUILDINGS AND BUILDING REGULATIONS, ARTICLE II. ADMINISTRATION AND ENFORCEMENT, DIVISION 3. CONSTRUCTION ADVISORY APPEALS BOARD AND TRANSFERING THOSE DUTIES TO THE BOARD OF ADJUSTMENT UNDER ARTICLE II, SECTION 11 OF THE UNIFIED LAND DEVELOPMNT CODE AND INCORPORATING RECITALS; PROVIDING REPEALING, SAVINGS, AND SEVERABILITY CLAUSES; PROVIDING FOR PUBLICATION; AND PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City Council of the City of Rockwall, Texas ("City Council") has determined that it would be advantageous and beneficial to the City of Rockwall, Texas ("City") to transfer the duties of the Construction Advisory and Appeals Board to the City's Board of Adjustment; and

WHEREAS, the Construction Advisory and Appeals Board hears and decides appeals of orders, decisions or determinations made by the building official, fire official or city engineer relative to the application and interpretation of the 2015 International Residential Code, International Building Code, International Plumbing Code, International Mechanical Code, International Energy Conservation Code, International Fuel Gas Code, International Fire Code, International Existing Building Code , 2014 National Electrical Code and City of Rockwall Standards of Design and Construction (Engineering Standards); and

WHEREAS, the current Board of Adjustment has jurisdiction to hear appeals from any person aggrieved by a decision of any administrative officer with authority over any matter regulated by the Unified Development Code or by any officer, department, board or division of the city affected by any decision of the administrative officer; and

WHEREAS, the City Council has determined that it is in the best interest of the City to repeal Chapter 10, Article II., Division 3, "Construction Advisory Board" and transfer all duties and responsibilities to the Board of Adjustment under Article II, Section 11 of the Unified Land Development Code.

NOW THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL:

SECTION 1. REPEAL. That the Code of Ordinances of the City of Rockwall, Texas is hereby amended by repealing Chapter 10, Article II., Division 3, "Construction Advisory Board," specifically Sections 10-61 through 10-69.

SECTION 2. AMENDMENT. That Article II, Section 11 of the Unified Land Development Code, "Board of Adjustment" shall hereinafter read as follows:

UNIFIED DEVELOPMENT CODE
ARTICLE II. - AUTHORITY AND ADMINISTRATIVE PROCEDURES
SECTION 11. - BOARD OF ADJUSTMENT

Sec. 11-3. – Jurisdiction.

When in its judgment, the public convenience and welfare will be substantially served and the appropriate use of the neighboring property will not be substantially or permanently injured, the board of adjustment may, in specific cases, after public notice and public hearing, and subject to appropriate conditions and safeguards, authorize the following special exceptions to the regulations herein established:

A1. ***Appeal of an administrative decision.*** Consider an appeal from any person aggrieved by a decision of any administrative officer with authority over any matter regulated by this [Unified Development Code] or by any officer, department, board or division of the city affected by any decision of the administrative officer. Such appeal shall be received within 15 calendar days after the decision has been rendered by the administrative officer, by filing with the officer whose decision is being appealed and with the board of adjustment, a notice of appeal specifying the grounds of the appeal and the city's required fee.

A2. ***Appeal of a Code decision.*** Consider an appeal from any person aggrieved by orders, decisions or determinations made by the building official, fire official or city engineer relative to the application and interpretation of the 2015 International Residential Code, International Building Code, International Plumbing Code, International Mechanical Code, International Energy Conservation Code, International Fuel Gas Code, International Fire Code, International Existing Building Code , 2014 National Electrical Code and City of Rockwall Standards of Design and Construction (Engineering Standards).

The officer from whom the appeal is taken shall forthwith transmit to the board, all papers constituting the record from which the action appealed was taken.

An appeal shall stay all proceedings of the action which has been appealed, unless the officer from whom the appeal is taken, certifies to the board that a stay would, in the officer's opinion, cause imminent peril to life or property.

SECTION 3. That the remainder of Chapter 10 in the City's Code of Ordinances remains unchanged. The Code of the City of Rockwall, Texas, as amended, shall remain in full force and effect, save and except as amended by this ordinance.

SECTION 4. That all ordinances or parts of ordinances in conflict herewith are hereby repealed to the extent of such conflict with all remaining portions not conflicting being saved from repeal herein.

SECTION 5. That if any section, subsection, sentence, clause or phrase of this ordinance is for any reason held to be unconstitutional or illegal, such decision shall not affect the validity of the remaining sections of this ordinance. The City Council hereby declares that it would have passed this ordinance, and each section, subsection, clause, or phrase thereof, irrespective of the fact that any one or more sections, subsections, sentences, clauses or phrases be declared void.

SECTION 6. That it is hereby found and determined that the meeting at which this ordinance was passed was open to the public as required by Section 551.001 et seq., Texas Government Code and that advance public notice of the time, place and purpose of said meeting was given.

SECTION 7. That this Ordinance shall take effect immediately upon its second reading as required by the City Charter, Section 3.11 and the publication of the caption of said ordinance as the law in such cases provides.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS THIS 5th DAY OF MARCH, 2018.

CITY OF ROCKWALL, TEXAS
MEMORANDUM

TO: City Council
CC: Rick Crowley, City Manager
Brad Griggs, Assistant City Manager

FROM: Andy Hesser, Parks and Recreation Director

DATE: February 13, 2018

SUBJECT: MANDATORY PARK LAND DEDICATION ORDINANCE

A component of our Mandatory Park Land Dedication Ordinance is the cash in lieu of land fee. This fee is applied when the Park Board feels that it is in the best interest of the City to accept cash-in-lieu of land for neighborhood parkland. According to our Mandatory Parkland Dedication Ordinance, the Park Board shall annually make a recommendation to the City Council and Council will set the fee by resolution. The fee is based on the average cost of neighborhood park land across the entire City.

Bryan E. Humphries and Associates completed their appraisal in January of 2018 to determine the average cost per acre of land and provided a final report. To establish comparable parcels, the properties evaluated must have easy access to utilities, public street, not be within the 100 year flood plain and not possess any unusual topography rendering the land useless for organized recreational activities. According to Mr. Humphries' report, the average cost of one acre of neighborhood park land with the above restrictions within the City limits is **$46,200**. I have attached the appraisal report completed by Mr. Humphries.

In accordance with the Mandatory Park Land Dedication Ordinance, each year the cost to develop an 11 acre neighborhood park should be considered and set by Council resolution as well. In 2017 MHS Planning and Design recommended it be raised from $1,050,000 to $1,250,000 to account for increased construction costs. Park Board voted unanimously to recommend that Council consider adopting $1,250,000 for calendar year 2018 as the cost basis to develop an 11 acre neighborhood park for the purpose of calculating the pro-rata equipment fees owed by residential developers at the time of final plat.

CITY OF ROCKWALL, TEXAS

RESOLUTION NO. 18-05

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS ADOPTING THE PER NEIGHBORHOOD PARK DEVELOPMENT COST TO BE USED IN CALCULATION OF A NEW DEVELOPMENT'S PRO RATA SHARE CONTRIBUTION FOR NEIGHBORHOOD PARK DEVELOPMENT EQUIPMENT FEES; PROVIDING AN EFFECTIVE DATE

WHEREAS, the City of Rockwall desires to provide a park system which includes adequately sized and appropriately equipped Neighborhood Parks, and

WHEREAS, the City of Rockwall has adopted a Park and Recreation Master Plan designed to facilitate development of its Park Systems; and

WHEREAS, in Chapter 38. "Subdivisions," Article II. "Parkland Dedication" of the Code of Ordinances, the City of Rockwall has adopted Mandatory Neighborhood Parkland Dedication regulations designed to facilitate participation by developers (on a pro-rata basis) in acquisition and development of neighborhood parks; and

WHEREAS, said ordinance provisions provide that the City Council shall annually adopt a resolution establishing the "per neighborhood park development cost" to be used in calculation of a new development's pro-rata share contribution for neighborhood park development equipment fees.

NOW THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THAT:

Section 1. Based upon a recommendation of the City of Rockwall Parks and Recreation Board, $625,000.00 per neighborhood park is hereby adopted as the "per neighborhood park" park development cost to be used in calculation of pro-rata neighborhood park development equipment fees;

Section 2. This resolution shall be in force and effect from and after its passage and it is accordingly so resolved.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS THIS 19th day of February, 2018.

Mr. Andy Hesser,

We are pleased to transmit this gross market study/real property appraisal consulting report that was prepared for the purpose of valuing typical parkland in the City of Rockwall, This parkland is typically five acres and in the early stages of development. Please refer to identification of project on page 4 for further explanation of the project scope. This report is a gross market study (real property appraisal consulting report) and does not involve analysis of or the inspection of a physical subject property. The purpose of this gross market study is to derive an opinion of a fee simple market value of the average price per-acre of land in the City of Rockwall, as set forth in the City of Rockwall Park Land Dedication Ordinance, Section 24-45 (b). The effective date of this gross market study is January 1, 2018.

The client should not conclude that an appraisal has been prepared, and this report should not be used for condemnation purposes. This consulting report is only intended to assist the City of Rockwall, in establishing a general value trend and current market value of the average price per- acre of land in the City of Rockwall.

CERTIFICATE

I certify that, to the best of my knowledge and belief,...

The statements of fact contained in this report are true and correct.

The reported analyses, opinions, and conclusions are limited only by the reported assumptions and limiting conditions, and are my personal, impartial, unbiased professional analyses, opinions, and conclusions.

As of the date of the appraisal only, I have no present or prospective interest in the property that is the subject of this report, and I have no personal interest or bias with respect to the parties involved.

We have no bias with respect to the property that is the subject of this report or to the parties involved with this assignment.

My engagement in this assignment was not contingent upon developing or reporting predetermined results.

My compensation for completing this assignment is not contingent on the development or reporting of a predetermined value or direction in value that favors the cause of the client, the amount of the value opinion, the attainment of a stipulated result, or the occurrence of a subsequent event directly related to the intended use of this appraisal.

Bryan Humphries has made a personal inspection of the property that is the subject of this report.

No one provided significant real property appraisal assistance to the persons signing this certificate.

I have performed a previous appraisal (1/1/13, 1/1/14, 1/1/15, 1/1/16, and 1/1/17) involving the subject property within the three years prior to this assignment.

The report analysis, opinions, and conclusions were developed, and this report has been prepared, in conformity with the requirements of the Code of Professional Ethics and the Uniform Standards of Professional Appraisal Practice of the Appraisal Institute.

The use of this report is subject to the requirements of the Appraisal Institute relating to review by its duly authorized representatives.

As of the date of this Study, I have completed the requirements of the continuing education program of the Appraisal Institute.

Bryan Humphries, MAI, TX-1320676-G

GENERAL INFORMATION & SCOPE OF WORK

Identification of Subject and Project

The subject property is a typical, underdeveloped, Parcel in the City of Rockwall. The parcel represents the average in the City of Rockwall, as set forth in the City of Rockwall Park Land Dedication Ordinance, Section 24-45 (b). According to the ordinance, from time to time, developers must dedicate land to the City of Rockwall in order to meet the need for park land in the area. If the dedication is not feasible, the developers must then give the City cash in lieu of land that is reflective of typical residential land in Rockwall. The client has indicated that this average residential land is typically 5 acres and in the early stages of development.

Inspection Information, Effective Date and Date of Report

This analysis does not involve a physical subject property, only a hypothetical property, thus no inspection is required. The effective date of the assignment is January 1, 2018. The date of the report is the date of the signature on the first page of this report. Unless otherwise stated, all factors pertinent to a determination of value are considered as of this date.

Identification of the Client/Intended User

This real property appraisal consulting report is prepared for the City of Rockwall, Mr. Andy Hesser, 108 E. Washington, Rockwall, Texas 75087. Any other use or users are not intended or authorized.

Objective of the Assignment/Intended Use

This consulting assignment is only intended to assist the client in establishing an average price per-acre of land. The client should not conclude that an appraisal has been prepared, and this report should not be used for condemnation purposes.

74

Appraisal Report Option

This is a real property appraisal consulting assignment that complies with the reporting requirements set forth under Standard 5 of the *Uniform Standards of professional Appraisal Practices (USPAP).* As such, it presents sufficient information to enable the client and other intended users, as identified, to understand it properly. The depth of discussion contained in this report is specific to the needs of the client and the intended users of this property appraisal consulting report.

Analysis Overview

As part of this consulting assignment, we have completed the following steps to gather, confirm, and analyze the data.

- Physically inspected the subject markets and the surrounding neighborhoods.
- Collected factual information about the surrounding market and confirmed that information with various sources.
- Collected market information needed to consider the three traditional approaches to value: Cost approach, sales comparison approach and income capitalization approach (if applicable).
- Prepared a real property appraisal consulting report setting forth the conclusion derived in this analysis as well as a summary of the information upon which the conclusions are based.

Extraordinary Assumptions

An extraordinary assumption is something that is assumed to be true, but it is not certain. If it turns out to be untrue, the value conclusion could be impacted. Extraordinary assumptions are those assumptions that are specific to the assignment, as opposed to general assumptions, which could be applicable to any assignment. In this assignment, we have assumed typical general assumptions and limiting conditions as cited above. In this particular assignment, the following extraordinary assumptions were made:

- Sales and listing data obtained from the Multiple Listing Service is deemed to be sufficiently reliable data to establish overall market trends and the current market value of an average, price per-acre of land. While some knowledgeable real estate brokers and salespeople have been contacted to obtain and confirm data, the reader should be aware that not all of the sales and listing data analyzed was independently confirmed.

75

- The client should not conclude than an appraisal has been prepared, and this consulting report should not be used for condemnation purposes. This gross market study (real property appraisal consulting report) is only intended to assist the City of Rockwall in establishing a general value trend and current market value of an average price per-acre in the City of Rockwall.

- The purpose of this consultation report is to establish the average price per acre of land in the City of Rockwall. As set forth in the City of Rockwall, Park Land Dedication Ordinance, Section 24-45(b). However, it is beyond the scope of this consultation report to estimate the actual costs of adjacent street and site utilities as stated in the ordinance (see addenda).

Jurisdictional Exceptions

The Jurisdictional Exception Rule provides for severability preserving the balance of the *Uniform Standards of Professional Appraisal Practice (USPAP).* If one or more parts of *USPAP* are "contrary to the law or public policy of any jurisdiction, only that part shall be void and of no force or effect in that jurisdiction." According to *USPAP*, "A law means a body of rules with binding legal force established by the controlling governmental authority." This includes federal and state constitutions, legislative and court made law, administrative rules, regulations and ordinances. In this assignment, there are no known conflicts of law or public policy that disregard the *USPAP*.

Hypothetical Conditions

A hypothetical condition is that which is contrary to what exists but is supposed for the purpose of analysis. In this particular assignment, the following hypothetical condition was made:

> For purposes of this analysis, the subject property is a hypothetical, undeveloped, parcel in the City of Rockwall.

Residential Market Analysis

Boundaries

The neighborhood boundaries are generally defined as follows:
City of Rockwall (Urban)
Outlying areas of the City of Rockwall (Suburban)

Development Activities and Trends

Residential development comprises approximately ±80% of the development in Rockwall. According to ESRI, the median 2017 home value within a 1-mile, 3-mile, and 5-mile radius of the Subject is $224,639; $231,808 and $226,471 respectively.

Recent single family building permit activity in Rockwall County summarized as follows:

Rockwall County Single Family Building Permits[1]				
Year	**Units**	**% Change**	**Average Value**	**% Change**
2000	955	-	$194,400	-
2001	1.267	32.7%	$171,000	-12%
2002	1,224	-3.4%	$171,000	0.0%
2003	1,219	-0.4%	$168,500	-1.5%
2004	1,598	31.1%	$168,100	-0.2%
2005	1,756	9.9%	$183,400	9.1%
2006	1,190	-32.2%	$201,800	10.0%
2007	759	-36.2%	$240,200	19.0%
2008	589	-22.4%	$192,800	-19.7%
2009	545	-7.5%	$166,500	-13.6%
2010	489	-10.3%	$200,800	20.6%

2015	1046	+8.4	$284,600	-1.5%
2016	1116	+6.7	$317,000	11.4
YTD Nov 2017	1144		$306,982	

1 Data provided by Texas A&M Real Estate Center

As indicated by the preceding chart, new single family home activity peaked in 2005 at 1,756 permits. Building permit activity dropped significantly in 2006, 2007, and 2008, but slowed to 7.5% in 2009. New construction continued to decline in 2010, but appears to have bottomed in 2011 with 411 homes as 487 building permits were issued through September 2012. For 2012, 2013, 2014, 2015, 2016 and 2017 permits have rebounded significantly, being up over + 178% from 2011 levels.

78

Demographic Trends

Population growth in Rockwall County had been slow in relation to the Dallas-Fort Worth CMSA after Lake Ray Hubbard was impounded in the 1960's. That changed when IH-30 was upgraded and the bridge widened in the 1990s. While the entire county has benefited, most of the growth has taken place along or near IH-30, and from west to east. Access remains an important factor in Rockwall County's growth pattern.

Area	1980	1990	2000	2010	2010 to 2017 Compounded Annual %Change	Estimated 2017
City of Fate	NA	477	463	6,357	8.67%	11,380
City of Heath	1,459	2,108	4,149	6,921	1.75%	7,820
City of Rockwall	5,939	10,486	17,976	37,490	1.68%	42,120
City of Rowlett	7,522	23,260	44,503	56,199	.41%	57,840
City of Royse City	1,566	2,206	2,957	9,349	3.05%	11,540
Rockwall County	14,528	25,600	43,080	78,337	2.5%	93,130

Source: U.S. Bureau of the Census & State of Texas

The population in the City of Rockwall increased 1.68% compounded annually from 2010 to its 2017 level of 42,120. The Rockwall County grew 2.50% annually to 93,130 during the same period.

Demographics

The following chart summarizes demographic data in the Subject Neighborhood. The data was provided by ESRI, Inc., and is based on demographics in a 1,3, and 5-mile radius from the Subject Property.

2010-2016 Demographic Data (Source, ERSI, Inc.)			
Item	**1 Mile**	**3 Mile**	**5 Mile**
2010 Population	6,945	32,537	82,777

2017 Median Home Value	$225,639	$231,808	$226,471

The following data is compiled from the North Texas Real Estate Information Systems and analyzed by the Real Estate Center at Texas A&M University. According to the data as of December 2017 (includes residential, commercial and farm and ranch) the number of closed transactions year-to-date for lots and vacant land in the Rockwall market area has decreased 22% and the average price has increased 33%. The average sold to list price has remained at ±92% and the average days on market has decreased 37%. Pending sales have decreased by 19% and months inventory has remained 14.2 months. The decrease in pending sales is an indicator of possible decrease transaction levels in the coming months.

Conclusions

Rockwall has shown strong population growth over the past twenty years and employment trends are positive. The area is rapidly being developed with commercial and residential uses. In the future, Rockwall County is anticipated to be a strong growing area of the Metropolex. The neighborhood is considered to be in a growth life stage and the overall aspects are considered to be good.

82

DATA ANALYSIS

Description and Analysis of the Subject

For purposes of this analysis, the subject property is a typical, undeveloped, parcel in the City of Rockwall. According to the client, the City of Rockwall will be using the data to value parklands ranging in size from 1 to 10 acres. The client instructed the appraisers to base adjustments on a typical 5 acre residential parcel.

Description of the Data and Analysis

The purpose of this analysis is to determine the average value of a residential, undeveloped, parcel within the City of Rockwall. The parcel is assumed to have paved street access, utilities and to be in the early stages of development.

Sales and listing data was obtained from the NTREIS Multiple Listing Service. Our queried data included all residential land sales from one tenth of an acre to twenty acres in the City of Rockwall. Included within the data are land sales of parcels improved with typical subdivision infra-structure (i.e. paved streets, utilities, engineering, platting, etc.) and those that do not have these improvements. These sales have been adjusted to reflect their condition above and below the average undeveloped parcel. Within our analysis we have also considered historical land sale prices and trends as these are good indicators of current prices and prices going forward and provide a helpful frame of reference for the overall market. Other factors considered and adjusted for within the sales data include parcel size and location.

Our queries presented the following raw data. The data is not adjusted to reflect the average, undeveloped parcel. The raw average price per acre is heavily biased and influenced by sales of lake front lots.

	2010	2011	2012	2013	2014	2015	2016	2017
Total Sales	51	79	90	97	68	92	84	61
Sale to List Ratio	83%	85%	88%	92%	92%	97%	93	93
Avg. Price Per Acre	$139,558	$75,231	$59,877	$89,958	$67,148	$80,105	$84,744	170,548
Avg. Days on Market	304	371	90	282	154	255	247	184
Percentage of Sale Under 1 Acre	33.33%	45.57%	36.67%	41.1%	53%	57%	48%	41%

Data Analysis, continued

A trend analysis of the raw price per acre of lot sales listed in MLS from 2010 to 2017 suggests the price trend is to be to slightly increasing. The Trend Line graph is shown on page 1. However, little weight should be given in this data as it is heavily upward biased because of small lots located on or near the lake which sale at a premium price due to location and higher unit prices due to economies of scale. Likewise, at the other end of the spectrum, a few sales sold for $300,000+. Only lot sales stated by MLS to be in the City of Rockwall were considered. In an attempt to reduce the skewing for the 2010 thru 2017 time period, the data set is narrowed to sales greater than 1.00 acres and up to 20 acres with a price ± less than $100,000. The following chart reflects the trend of these sales. The data indicates that the lots sales from 2010 to 2017 had an increasing trend. From 2010, the typical price per acre was ± $20,000, the price per acre increase to ± $40,500 in 2017. The average per acre price was $29,417 for 2010 to 2017.

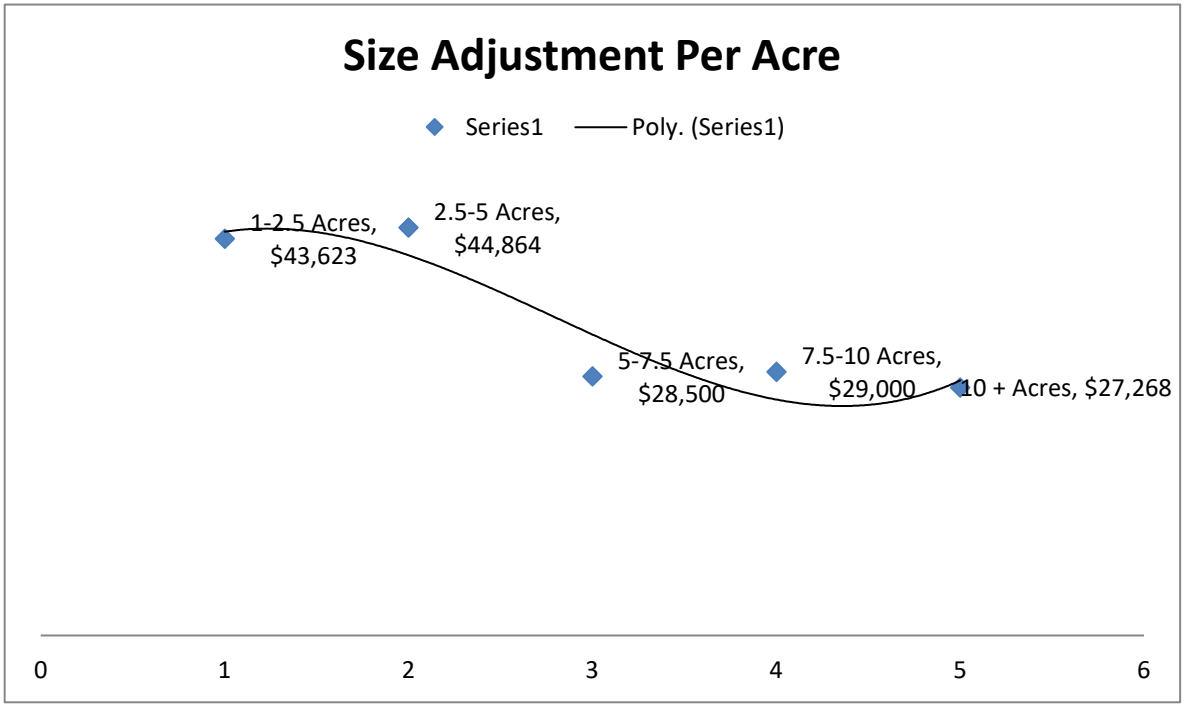
85

The most recent sales of lots is the 2017 data set and our analysis will focus on the 2017 sales. This data set contains 35 sales that MLS lists as in the City of Rockwall. The sales are all greater than 1.00 Acre up to 20 Acre and less than $100,000/acre.

The data will first be adjusted for location and in infrastructure. These adjustments considered information included in the detail MLS write up sheets. The next adjustment is a lot size adjustment. The following chart represents the size adjustment of the data set.



86

Approximately 83% of the data is between 1 to 5 Acres, with 57% being between 1 & 2.5 Acres. Thus, the majority of the data is within the target size range, no size adjustment will be applied to the analysis.

Following are two charts. The first shows the 2017 per acre raw lot sales date unadjusted. This chart shows the data between ±$7,500 per acre price to a $83,142 per acre price. The average 2017 per acre price was $40,479/Acre. The trend line indicates that the Acre price to be approximately $34,000/Acre at the beginning of 2017 and around $46,000/Acre at the end of 2017.

Data Analysis, continued

Conclusions

Over the last seven years lot sales actively has been improving for both the number of sales as well as the price.

The following list a summary of our data findings over the past three years.

Average Per Acre Price 2010 to 2017 Unadjusted:	$29,417/Acre
Average Per Acre Price 2017 Unadjusted:	$40,479/Acre
Average per Acre Price 2017 Adjusted for Location, Infrastructure and Size:	$46,199/Acre

The adjusted 2017 data represents the most recent range of lot sales. The trend line of the data indicates per acre lot sales increased during 2017 from ±$42,000/Acre to ±$50,000/Acre at the end of the year.

Based upon our analysis and conclusions, subject to parameters defined, my opinion of the average market value price per acre of residential land in the City of Rockwall as of 1/1/2018 is:

$46,200/Acre

Respectfully Submitted,

Bryan Humphries, MAI, TX-1320676-G

SUMMARY OF QUALIFICATIONS - Bryan E. Humphries, MAI

Currently

Owner, BRYAN E. HUMPHRIES, INC.

Experience

Over 39 years experience in the appraisal of real properties, including commercial, multi-family, industrial, and special purpose properties, for mortgage bankers, savings and loan associations, insurance companies, attorneys, private individuals, public utilities, and governmental agencies.

Education

Graduated from Texas Tech University in 1974: B.B.A. Business

Graduated from Texas Tech University in 1976: M.S. Finance

Completed college, SREA, and AIREA courses in real estate appraisal

Qualified as "Expert" in real estate valuation in various courts

Professional Designations and Affiliations

MAI	Member (#6514), Appraisal Institute
AI	Admissions Committee, North Texas Chapter 17, 1983-1992 (Chairman, 1989-1990); National Admissions Review (1994-1996); Education Committee (1988); Region 8 Representative (1994, 1996, 1997, 2002); North Texas Chapter 17 Board of Directors (1993 - 1995; 1999 – 2001)
	Appraisal Institute National Screener (1996-2005)
Broker	Licensed Broker (#216136-12), Texas Real Estate Commission
State Certified	Texas State Certified - General Real Estate Appraiser (#TX 1320676-G)
State Certified	Texas State Certified – Property Tax Consultant (00003440)
Member	North Texas Commercial Association of Realtors
Member	Real Estate Financial Executive Association

ASSUMPTIONS AND LIMITING CONDITIONS

1. It is assumed that title to the property herein appraised is good and merchantable, and in fee simple. The value is reported without regard to questions of title, boundaries, encroachments, environmental regulations, licenses, or other matters of a legal nature unless noncompliance has been stated, defined, and considered in the appraisal report.

2. The value is estimated under the assumption that there will be no international or domestic political, economic, or military actions that will seriously affect real estate values throughout the country.

3. Certain information concerning market and operating data was obtained from others. This information is verified and checked, where possible, and is used in this appraisal only if it is believed to be accurate and correct. However, such information is not guaranteed. Dimensions and areas of the Subject Property and of the comparables were obtained by various means and are not guaranteed to be exact.

4. Real estate values are influenced by a number of external factors. The information contained herein is all of the data we consider necessary to support the value estimate. We have not knowingly withheld any pertinent facts, but we do not guarantee that we have knowledge of all factors, which might influence the value of the Subject Property. Due to rapid changes in external factors, the value estimate is considered to be reliable only as of the date of the appraisal.

5. Opinions of value contained herein are estimates. This is the definition of an appraisal. There is no guarantee, written or implied, that the Subject Property will sell for the estimated value. The estimated value assumes that the property is under responsible ownership and has competent and prudent management.

6. The appraiser will not be required to provide testimony or attendance in court or before other legal authority by reason of this appraisal without prior agreement and arrangement between the employer and the appraiser.

7. Disclosure of the contents of this appraisal report is governed by the By-Laws and Regulations of the Appraisal Institute. Neither all nor any part of the contents of this report (especially any opinions, analyses, or conclusions concerning value, the identity of the appraiser or the firm with which he is connected, or any reference to the Appraisal Institute or the M.A.I. or SRA Designation) shall be disseminated to the public through advertising media, public relations media, news media, sales media, prospectus for securities, or any other public means of communication without prior written consent and approval of the undersigned.

94

8. It is assumed that there are no hidden or unapparent conditions of the property, subsoil, or structures which would render it more or less valuable, except as stated in this report. No responsibility is assumed for such conditions or for engineering, which may be required to discover them. It is assumed that a prudent owner/buyer would allow inspection of the property by a qualified soils or structure engineer if conditions so required.

9. The distribution of the total valuation in this report between land and improvements applies only under the reported highest and best use of the land. The allocation of value for land and improvements, if presented, must not be used in conjunction with any other appraisal and are invalid if so used.

10. Estimates of costs to cure deferred maintenance are difficult at best. Contractors approach such problems in various ways. The estimates, if any, provided within this report are probable costs given current market conditions, available information, and the appraiser's expertise.

11. No environmental impact studies were requested or made in conjunction with this appraisal, and the appraiser hereby reserves the right to alter, amend, revise, and/or rescind the value opinions based upon any subsequent environmental impact studies, research, or investigation.

12. This appraisal was prepared by Bryan E. Humphries & Associates and consists of trade secrets and commercial or financial information, which is privileged and confidential and is exempted from disclosure under 5 U.S.C. 552 (b) (4). Please notify Bryan E. Humphries & Associates of any request of reproduction of this appraisal.

13. Unless otherwise stated in this report, the existence of hazardous substances, including without limitation asbestos, polychlorinated biphenyl, petroleum leakage, or agricultural chemicals, which may or may not be present on the property or other environmental conditions, were not called to the attention of nor did the appraiser become aware of such during the appraiser's inspection. The appraiser has no knowledge of the existence of such materials on or in the property unless otherwise stated. The appraiser, however, is not qualified to test such substances or conditions. If the presence of such substances, such as asbestos, urea formaldehyde foam insulation, or other hazardous substances or environmental conditions, may affect the value of the property, the value estimated is predicated on the assumption that there is

95

no such condition on or in the property or in such proximity thereto that it would cause a loss in value. No responsibility is assumed for any such conditions, or for any expertise or engineering knowledge required to discover them.

14. Anyone acting in reliance upon the opinions, judgments, conclusions, or data contained herein, who has the potential for monetary loss due to the reliance thereon, is advised to secure an independent review and verification of all such conclusions and/or facts.

    The user agrees to notify the appraiser prior to any irrevocable loan or investment decision of any error, which would reasonably be determined from a thorough and knowledgeable review.

15. By acceptance and use of this report, the user agrees that any liability for errors, omissions or judgment of the appraiser is limited to the amount of the fee charged.

16. The limiting condition relating to the ADA is as follows:

    > This appraisal has not considered the effects of the enactment of the Americans with Disabilities Act of 1990 (ADA), which initially became effective January 26, 1992. We have not made a specific compliance survey and analysis of this property to determine whether or not it is in conformity with the various detailed requirements of the ADA. Standards of this act are designed to provide access to all public facilities to all persons, regardless of mobility limitations. The act provides forceful encouragement for commercial establishments to enhance their accessibility and requires that renovations after this date fully comply with the access standards established by the Architectural and Transportation Barriers Compliance Board. Enhancements to buildings must be readily achievable and able to be carried out without much difficulty or expense. The act recognizes that "readily achievable" is different for companies depending on their resources. The first priority is to provide access from sidewalks, parking and transportation areas, with the second priority being to provide access to areas where goods and services are available to the public. Finally, access to restroom facilities must accommodate all persons. The modifications and costs that may be necessary for the property to conform to ADA can be ascertained only by a qualified architect. Should such a study be undertaken, and should the retrofit costs, if any, become known, then the appraisers reserve the right to re-evaluate the Subject Property.

CITY OF ROCKWALL, TEXAS

ORDINANCE NO. ___

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING ARTICLE II. PARK LAND DEDICATION OF THE SUBDIVISION REGULATIONS OF THE CODE OF ORDINANCES AS SET FORTH HEREIN; PROVIDING FOR A PENALTY OF A FINE NOT TO EXCEED THE SUM OF FIVE HUNDRED DOLLARS ($500.00); PROVIDING A SEVERABILITY CLAUSE; PROVIDING AN EFFECTIVE DATE.

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:

Section 1. That the Subdivision Regulations of the Code of Ordinances shall be amended in Article II. Park Land Dedication, which shall hereafter read in its entirety as follows:

"ARTICLE II. PARK LAND DEDICATION

Sec. 24-41. Purpose.

(a) This article [Ordinance Number 87-1] is adopted to provide recreational areas in the form of neighborhood parks as a function of subdivision development in the City of Rockwall, Texas.This article is enacted in accordance with the Home Rule powers of the City of Rockwall, granted under the Texas Constitution, in statutes of the State of Texas, including but not by way of limitation, articles 974a and 1175. It is hereby declared by the city council that recreation areas in the form of neighborhood parks are necessary and in the public welfare, and that the only adequate procedure to provide for same is by integrating such a requirement into the procedure for planning and developing property or subdivisions in the city, whether such development consists of new construction on vacant land or rebuilding structures on existing residential property.

(b) Neighborhood parks are those parks providing for a variety of outdoor recreational opportunities, be a minimum of ten acres, and be within convenient distances for a majority of the residents to be served thereby. Park districts are established by the official park plan for the City of Rockwall, Texas, and shall be prima facie proof that any park located therein is within such convenient distance from any residence located therein. Primary cost of neighborhood parks shall be borne by the ultimate residential property owners, who, by reason of the proximity of their property to such parks, shall be the primary beneficiary of such facilities. Therefore, the following requirements are adopted to effect the purposes stated. (Ord. No. 87-1, § I, 1-5-87)

Sec. 24-42. Definitions.

For the purposes of this article, the following definitions shall apply:

Develop (VJ: The act of subdividing a parcel or tract of land and installation of community facilities in accordance with and as defined by the City of Rockwall Subdivision Ordinance.

Development (NJ: A parcel or tract of land proposed for subdivision in accordance with and as defined by the City of Rockwall Subdivision Ordinance.

Park development. The development of a park site by construction of streets, drainage, utilities, and recreational improvements to serve a neighborhood park district.

Recreational Improvements - Facilities: The park features set forth for a neighborhood park in the Activity Menu of the Park Plan. A uniform cost shall be prepared annually for these features and adopted by resolution by the City Council. The dedication factor shall be applied to this cost to determine the pro rata share per new dwelling unit for recreational improvements - facilities.

Pro rata share of required dedication. The amount of land that shall be dedicated (or the acreage figure used to calculate cash in lieu of land donation) as prescribed within this article. The pro rata share of required dedication in a neighborhood park district shall be calculated as follows: Pro rata share of required acreage dedication per new dwelling unit is the factor obtained when the 10 "acre area of park is divided by the ultimate residential dwelling unit holding capacity for park district in which the unit(s) is located.

The total number of residential units which a *neighborhood park district is projected to have when fully developed* shall be determined by the Impact Fee Land Use Assumptions as set forth in Table 1, Park Dedication Acreage Factor per Dwelling Unit, below. (Ord. No. 87-1, § II, 1-5-87)

TABLE 1

Sec. 24-43. General Requirement for SF-16, SF-10, SF-7, ZL-5, 2-F and MF-15, to be used for single-family, zero lot line, duplex, and/or apartment multi family residential purposes.

(a) Whenever a final plat is filed of record with the county clerk of Rockwall County for development of a residential area in accordance with the planning and zoning ordinances of the City of Rockwall, such plat shall contain a clear fee simple dedication of an area of land to the City of Rockwall for park purposes, which area shall be equal to or greater than the property being subdivided's pro rata share of neighborhood park property required for the neighborhood park district in which the property being platted or subdivided is located as shown by the Park Master Plan. In addition, the developer shall make payment of money for pro-rata share and recreational improvement facilities as defined in this article. Any proposed plat submitted to the city for approval shall show the area proposed to be dedicated under this article. The requirement for dedication under this article may be met by a payment of money in lieu of land when permitted or required by the other provisions of this article.

(b) The city council declares the development of an area smaller than one acre for public park purposes to be impractical. Therefore, if less than one acre is calculated to be the pro rata share of a development plat filed for approval, the developer shall be required to pay the applicable cash in lieu of land amount provided for by Section 24-45(c) of this article, rather than dedicate any land area. No plat showing a dedication of less than one acre shall be approved.

(c) In instances where an area of less than six (6) acres but more than one acre is calculated to be the pro rata share of a development the city council shall have the option of requiring land dedication or cash in lieu of land in accordance with Section 24-45(c) of this article after consideration of the recommendation of the planning and zoning commission and the parks and recreation board. If the City determines that sufficient park area is already in the public domain in the area of the proposed development or the neighborhood park district, or if the recreation potential for that zone would be better served by

expanding or improving an existing park, dedication may also be refused and cash in lieu of land may, likewise, be required.

(d) The dedication required by this article shall be made by filing of final plat or contemporaneously by separate instrument. If the actual number of completed dwelling units exceeds the figures upon which the original dedication is based, additional dedication shall be required and shall be made by payment in lieu of land amount described by Section 24-45(c) of this article, or by the conveyance of an entire numbered lot to the city. (Ord. No.87-1, § III, 1-5-87)

Sec. 24-44. Prior dedication; absence of prior dedication.

At the discretion of the city council, any former gift of land to the city may be credited on a per acre basis toward the eventual land dedication requirements imposed on the donor of such land. The city council shall consider recommendations of the planning and zoning commission and the parks and recreation board in exercising its discretion under this section. (Ord. No. 87-1, § IV, 1-5-87)

Sec. 24-45. Money in lieu of land.

(a) Subject to the veto of the city council and the terms of Section 24-43 of this article, a land owner responsible for dedication under this article may elect to meet the requirements of Section 24-43 in whole or in part by a cash payment in lieu of land, in an amount set forth in Section 24-45(c). Such payment in lieu of land shall be made at or prior to final plat approval.

(b) The city may from time to time decide to purchase land for parks in or near the area of actual or potential development. If the city does purchase park land in a neighborhood park district and said land purchased is used to meet the need for a neighborhood park, subsequent land dedications for that district shall be in cash only and calculated on a pro rata share basis to reimburse the city's actual cost of acquisition and development of such land for parks. The cash amount shall be equal to the sum of (1) the average price per acre of such land, and (2) the actual cost of adjacent streets and site utilities, or an estimate of such actual costs provided by the city engineer and the recreation improvement costs for facilities as set forth in the Park Master Plan for neighborhood parks. Once the city has been reimbursed entirely for all park land within a park zone, this section shall cease to apply and the other sections of this article shall be applicable.

(c) To the extent that Section 24-45(b) is not applicable, the dedication requirements shall be met by a cash payment in lieu of land on the basis of a per acre price. Said per acre price shall be determined annually by the city council and shall be based on current land values within the City. . Once established the Council shall adopt the value(s) by resolution for appreciation as required in this subsection. Cash payments may be used only for acquisition or improvement of neighborhood parks located within the same neighborhood park district as the development in accordance with the Park Master Plan. (Ord. No. 87-1, § V, 1-5-87)

Sec. 24-46. Dedication of more than the pro rata share of park land.

The developer of a residential subdivision which is subject to the terms of this article may dedicate more land than the pro rata share calculated for the development if approved by the city council. If the developer dedicates an amount equal to or greater than the total required park land area for the neighborhood park district in which his subdivision is located, the city and the developer shall execute a pro rata refunding agreement in accordance with the City of Rockwall Subdivision Regulations which shall recover the cost of land dedicated in excess of the developer's pro rata share after streets, drainage, and utilities are constructed on the dedicated property.

The developer shall install the streets, drainage, and utilities to serve the neighborhood park, and the cost of same shall be included in the pro rata refunding agreement. The pro rata refunding agreement shall provide that future developers in the same neighborhood park district shall pay their pro rata share of the actual cost of park development which shall be calculated based on the per acre cash in lieu of land cost in effect at the time of dedication, plus the costs of streets, drainage, utilities, and recreational facilities installed to serve the dedicated neighborhood park. The cost of streets, drainage and utilities installed to serve the park shall be certified by the city engineer. In no case shall the developer receive pro rata payments after he has recovered an amount equal to the number of acres actually dedicated in excess of his pro rata share multiplied by the per acre cash in lieu of land figure in effect at the time of actual dedication, plus the costs of streets, drainage, and utilities as certified by the city engineer necessary to serve the neighborhood park. In no case shall the term of any pro rata agreement provided by this article be for a period in excess of five (5) years from the date of dedication. (Ord. No. 87-1, § VI, 1-5-87)

Sec. 24-47. Special fund established; right to refund.

(a) There is hereby established a special fund for the deposit of all cash funds in lieu of land dedication under this article, which fund shall be known as the "Park Land Dedication Fund."

(b) The city shall account for all sums paid in lieu of land dedication under this article referenced to individual plats involved. Any funds paid for such purposes must be expended by the city within eight (8) years from the date received by the city for acquisition and development of a neighborhood park as defined herein. Such funds shall be considered to be spent on a first/in first/out basis. If not so expended, the owners of the property on the last day of such period shall be entitled to a pro rata refund of such funds, calculated on a square footage basis. The owners of such property must request such refund within one year of entitlement; in writing, or such rights shall be barred. (Ord. No. 87-1, § VII, 1-5-87)

Sec. 24-48. Additional requirements and provisions.

(a) Any land dedicated to the city under this article shall be suitable for park and recreation use. The following characteristics of a proposed area are generally unsuitable:

(1) Any area located in the one hundred-year floodplain;

(2) Any area of unusual topography or slope which renders same unusable for organized recreational activities.

The above characteristics of park land dedication area may be grounds for refusal of a plat.

(b) Each park must have ready access to a public street.

(c) Unless provided otherwise herein, action by the city shall be by the city council after consideration of the recommendations of the planning and zoning commission and the parks and recreation board. Any proposal considered by the planning and zoning commission under this article shall have been reviewed by the parks and recreation board and its recommendation given to the commission. The commission may make a decision contrary to such recommendation only by a vote of at least five (5) members. Should the commission be unable to get this vote, the matter shall then be referred to the city council for final decision.

(d) If any provision of this article or the application thereof to any person or circumstances is held invalid, such invalidity shall not affect any other provisions or applications of this article which can be given effect without the invalid provision or application, and to this end the provisions of this article are declared to be severable.

(e) This article shall become effective upon adoption by the city council. (Ord. No. 87-1, § VIII, 1-5-87)

Sec. 24-49. Review and updating park master plan.

The City of Rockwall Parks and Recreation Department shall consider the need to update the Park Master Plan at least annually to insure that the plan remains current and provides an equitable, effective framework from which to pursue the acquisition and development of neighborhood park services for each neighborhood park district.

(Ord. No. 87-1, § XI, 1-5-87)

Sec. 24-50. Waiver of mandatory neighborhood park land dedication in the case of private developments.

If a development is proposed to be a private development where no public streets are dedicated for use by the public the city shall:

(1) Calculate the pro rata share of the proposed private development as if it were to be a development where public streets were to be dedicated.

(2) Waive the requirement for mandatory dedication if the private amenities of the proposed development meet or exceed the calculated pro rata share as calculated under Section 24-50(1) above.

(3) Decrease the total acreage shown in the Park Master Plan as being required to meet the ultimate need for neighborhood parks in the applicable neighborhood park district by the acreage calculated under Section 24-50(1) above (for the purpose of future calculations of pro rata shares for future developments).

(4) In a private development within a park district or a private development encompassing an entire park district, the park property within the private development must be easily accessible to the general public either through the use of the city trail system or public roadways. If the private development encompasses the entire park district and the ten acres of park land is not continuous, each separate section of park property must be accessible to the general public and connected by way of a minimum eight foot wide trail.

(Ord. No. 87-1, § IX, 1-5-87)

Sec. 24-51. Waiver of article requirements by city council.

The city council of the City of Rockwall, Texas may waive the requirements of this article upon a finding by the city council that said waiver is clearly in the best interest of the City of Rockwall. (Ord. No. 87-13, § I, 3-16-87)"

Section 2. Any person violating the provisions of this Ordinance shall be deemed guilty of a misdemeanor and upon conviction be subject to a fine in accordance with the general provisions of the Code of Ordinances.

Section 3. If any section or provision of this ordinance or the application of that section or provision to any person, firm, corporation, situation or circumstance is for any reason judged invalid, the adjudication shall not affect any other section or provision of this ordinance or the application of any other section or provision to any other person, firm, corporation, situation or circumstance, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions of this ordinance shall remain in full force and effect.

Section 4. That this ordinance shall take effect immediately from and after its passage and approval, and it is so ordained.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, this day of , 1999.

MEMORANDUM

TO: **City Council**

FROM: **Joey Boyd, Director of Internal Operations**

DATE: **February 14, 2018**

SUBJECT: **Verizon Wireless Contract Amendment**

In 2004, the City of Rockwall and Verizon Wireless entered into an agreement to construct a communication tower at the Fire Station 1 site on Boydstun Avenue. Verizon then conveyed ownership of the tower to the City to use for its public safety radio system. Verizon placed its wireless equipment on the tower and received rent abatement from the City for the first 180 months. The City still uses this site for the radio system and also subleases space to other wireless companies for revenue. In 2011, Verizon and the City amended the original agreement to allow for installation of additional wireless equipment for further compensation.

Since then, the City and Rockwall County have entered into an agreement to use this same tower for a new county-wide radio system. The new radio system equipment has been installed and is now in the testing phase of the project. Verizon is now requesting to place additional equipment on the tower but due to multiple users, including Verizon, the City, and other wireless providers, the structural loading is reaching its capacity. Verizon is proposing to perform structural improvement modifications to the tower (such as additional bracing, strengthening of cross beams, etc.) in order to accommodate their additional equipment and to lower the overall structural load of the tower. Verizon anticipates a cost between $30,000 and $40,000 for the structural modifications.

The City recently studied deconstructing the old water tower on Boydstun that was taken off the water system many years ago. This old water tower has two separate wireless carriers attached to the structure: Clearwire and AT&T. In order to dismantle the water tower, the City would have to move Clearwire and AT&T onto the structural tower, causing the City to spend an estimated $36,000 to $41,000 for modifications, engineering, and consulting. Verizon's proposed modifications are mutually beneficial to the City as well should the City choose to proceed at a later date with moving carriers to the communication tower and deconstructing the water tower.

Verizon Wireless is requesting the following with the proposed amendment:

- That the City Council approve the structural modifications to the tower to increase the load capacity to accommodate additional equipment.
- In order to recuperate the costs of the modifications, Verizon is requesting rent abatement for the first 36 months and to begin paying an additional $200.00 per month beginning on the 37th month upon installation of equipment.

The second amendment with exhibits, the original agreement, and first amendment are attached for the City Council's review and reference. The City's consultants have reviewed what Verizon proposes for equipment and for tower modifications and are satisfied that no radio system interference should occur and that the structural load levels are within appropriate levels.

If these terms are acceptable, the City Council is asked to authorize the City Manager to execute the agreement on behalf of the City of Rockwall.

Lessee Contract #: 58825

SECOND AMENDMENT TO TOWER LEASE AGREEMENT

This Second Amendment to Tower Lease Agreement (this "**Amendment**") is made and entered into this ____ day of _____, 20__, by and between the City of Rockwall, a Texas municipal corporation ("**Lessor**"), and Dallas MTA, L.P. d/b/a Verizon Wireless ("**Lessee**"), with its principal office located at One Verizon Way, Mail Stop 4AW100, Basking Ridge, New Jersey 07920.

WHEREAS, Lessor and Lessee entered into the Tower Lease Agreement dated May 12, 2004, as amended by the September 15, 2011 First Amendment to Tower Lease Agreement (collectively, the "**Agreement**") for the lease of tower space on Lessor's tower and ground space on Lessor's Property located at Boydstun Avenue, Rockwall, Rockwall County, Texas (the "**Premises**"); and

WHEREAS, Lessor and Lessee desire to amend the Agreement to permit Lessee to modify portions of Lessee's equipment.

NOW THEREFORE, in consideration of the mutual promises contained herein, and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Lessor and Lessee mutually agree as follows:

1. Lessee's Equipment. Exhibit B-1 to the Agreement is hereby deleted in its entirety and replaced with **Exhibit B-2**, attached hereto and incorporated by reference herein. All references to Exhibit B or Exhibit B-1 in the Agreement are hereafter references to Exhibit B-2.

2. Tower Modifications. Lessee agrees to modify the New Tower to provide structural capacity of 85% after the addition of Lessee's new equipment, as stated in the November 6, 2017 Rigorous Structural Analysis Report, and depicted in the Structural Drawings, both attached to this Amendment as Exhibit E.

3. Rent Increase. Beginning on the 1st day of the 37th month after Lessee commences installation of its modified equipment outlined in Exhibit B-2, rent shall increase by $200.00 per month (the "**Rent Increase**"). Thereafter, the Rent Increase shall escalate as provided in Section 5 of the Agreement, as amended in this Amendment.

4. Acknowledgment of Installation Commencement. Lessee and Lessor agree to acknowledge in writing the date that that Lessee commences installation of its modified equipment. Lessee's initial payment of the Rent Increase shall not be due until at least 90 days after Lessee's receipt of the required written acknowledgment.

5. Extension Rentals. Section 5 of the Lease is deleted in its entirety, and replaced with the following:

> EXTENSION RENTALS. Subject to Section 2.7 herein, the annual rental for each five (5) year extension term shall increase by 15% of the rental for the preceding five (5) year term.

6. Signing Authority. Lessor and Lessee each hereby warrant to the other that the person executing this Amendment on behalf of the warranting party has the full right, power and authority to enter into, and execute, this Amendment on that party's behalf, and that no consent from any other person or entity is necessary as a condition precedent to the legal effect of this Amendment.

7. Additional Provisions. Except as specifically modified by this Amendment, the parties agree that all of the terms and conditions of the Agreement are in full force and effect and remain unmodified. In the event of a conflict between any term or provision of the Agreement and this Amendment, the terms and provisions of this Amendment shall control. Except as otherwise stated in this Amendment, all capitalized terms have the same defined meaning as stated in the Agreement.

EXECUTIVE SUMMARY:

Malouf Engineering Int'l (MEI), as requested, has performed a structural analysis and modification design of the above mentioned structure to assess the impact of the changed condition as noted in Table 1.

Based on the stress analysis performed, the existing structure **is in conformance** with the Int'l Building Code (IBC) / ANSI/TIA-**222-G** Standard for the loading considered under the criteria listed and referenced in the report sections **after proper installation of the recommended structural strengthening modifications outlined** – tower rated at 82.6% - Horizontals (meets owner requirement of max. stress of 85%).

The addition of the proposed changed condition as noted in Table 1 is structurally acceptable after proper installation of the proposed strengthening modifications. Please refer to modification drawings for details.

MEI appreciates the opportunity of providing our continuing professional services to you. If you have any questions or need further assistance on this or other projects please contact us.

Respectfully submitted,

MALOUF ENGINEERING INT'L, INC.

This report is not to be reproduced or copied in whole or in part without MEI's written consent. **2017, MEI, Inc. ©**

1. INTRODUCTION & SCOPE

A rigorous structural analysis and modification design were performed by Malouf Engineering Int'l (MEI), as requested and authorized by Ms. Amanda Eastin, Verizon Wireless, on behalf of Verizon Wireless, to determine the acceptance of the proposed changed conditions in conformance with the IBC / ANSI/TIA-222-G Standard, *"Structural Standard for Antenna Supporting Structures and Antennas"*.

The scope of this independent analysis is to determine the overall stability and the adequacy of structural members, foundations, and member connections, as available and stated. This analysis considers the structure to have been properly installed and maintained with no structural defects. Installation procedures and related loading are not within the scope of this analysis and should be performed and evaluated by a competent person of the erection contractor.

The different report sections detail the applicable information used in this evaluation, relating to the tower data, the appurtenances configuration and the wind and ice loading considered.

2. SOURCE OF DATA

The following information has been used in this evaluation as source data that accurately represent the existing structure and the related appurtenances:

	Source	Information	Reference
STRUCTURE			
Tower	MEI Records	Previous Structural Analysis	ID TX00042S-17V1 Dated 10/11/2017
Foundation	MEI Records	Previous Structural Analysis / Mods	ID TX00042S-17V1 Dated 10/11/2017
Material Grade	Available from supplied documents noted above-refer to Appendix		
CURRENT APPURTENANCES			
	MEI Records	Previous Structural Analysis / Mods	ID TX00042S-17V1 Dated 10/11/2017
CHANGED CONDITION			
	CA Bass Ms. Kira Bauman	VzW RFDS Sheet / Email Instructions	Dated 07/21/2017 Received 10/02/2017

Background Information:

Based on available information, the following is known regarding this structure:

DESIGNER / FABRICATOR	FWT / SST
ORIGINAL DESIGN CRITERIA	TIA/EIA 222-F – 110/95 Mph + 0/0.50" Ice
PRIOR STRUCTURAL MODIFICATIONS	MEI Drawings ID TX00042S-13V1 dated 07/03/2013 & TX00042S-11V4 dated 06/08/2011 - considered properly installed.

This report is not to be reproduced or copied in whole or in part without MEI's written consent. **2017, MEI, Inc.** ©

3. ANALYSIS CRITERIA

The structural analysis performed used the following criteria:

CODE / STANDARD	2015 Int'l Building Code / ANSI/TIA-222-G-2 Standard	
LOADING CASES	*Full Wind:*	120 Mph ultimate gust [equiv. 93 Mph (3-sec gust)] w/No Radial Ice**
	Iced Case:	30 Mph + 0.75" Radial Ice
	Service:	60 Mph
	Seismic:	S_s = 0.104 / S_1 = 0.055 / Site Class: D – Stiff Soil
STRUCTURE CRITERIA	*Structure Classification:* **III** / Risk Category **III**– Essential Communications	
	Exposure Category: '**D**' – *Topographic Category:* 1

Notes:

1. **As per 2015 IBC for ultimate 3-sec gust wind speed converted to nominal 3-sec gust wind speed as per Sect. 1609.3.1 as required to be used in ANSI/TIA-222-G Standard per exception 5 of Sect. 1609.1.1.
2. All elevations are measured from tower base.
3. Please note appurtenances not listed above are to be removed/not present as per data supplied.
4. (I) = Internal; (E) = External; (FZ) = Within Face Zone; (OFZ) = Outside Face Zone - as per TIA-222-G.
5. The above appurtenances represent MEI's understanding of the appurtenances configuration. If different than above, the analysis is invalid. Please contact MEI if any discrepancies are found.

This report is not to be reproduced or copied in whole or in part without MEI's written consent. **2017, MEI, Inc.** ©

4. ANALYSIS PROCEDURE

The subject structure is analyzed for feasibility of the installation of the proposed changed condition previously noted. The data records furnished were reviewed and a computer stress analysis was performed in accordance with the TIA-222 Standard provisions and with the agreed scope of work terms and the results of this analysis are reported.

Analysis Program

The computer program used to model the structure is a rigorous Finite Element Analysis program, tnxTower (ver. 7.08), a commercially available program by Tower Numerics Inc. The latticed structures members are modeled using beam/truss and cable members and the pole members using tubular beam elements. The structural parameters and geometry of the members are included in the model. The dead and temperature loads and the wind loads are internally calculated by the program for the different wind directions and then applied as external loads on the structure. Any applicable exemptions, as per Section 15.6 of the TIA-222-G Standard for existing structures originally designed in accordance with a previous revision of the TIA-222 Standard, have been taken.

Assumptions

This engineering study is based on the theoretical capacity of the members and is not a condition assessment of the structure. This analysis is based on information supplied, and therefore, its results are based on and as accurate as that supplied data. MEI has made no independent determination, nor is it required to, of its accuracy. The following assumptions were made for this structural stress analysis:

- This existing tower is assumed, for the purpose of this analysis, to have been properly maintained and to be in good condition with no structural defects and with no deterioration to its member capacities ('as-new' condition).
- The tower member sizes and configuration are considered accurate as supplied. The material grade is as per data supplied and/or as assumed and as stated.
- The appurtenances configuration is as supplied and/or as stated in the report. It is assumed to be complete and accurate. All antennas, mounts, coax and waveguides are assumed to be properly installed and supported as per manufacturer requirements.
- Some assumptions are made regarding antennas and mounts sizes and their projected areas based on best interpretation of data supplied and of best knowledge of antenna type & industry practice.
- Mounts/Platforms are considered adequate to support the loading. No actual analysis of the platform/mount itself is performed, with the analysis being limited to analyzing the structure.
- The soil parameters are as per data supplied or as assumed and stated in the calculations. Refer to the Appendix. If no data is available, the foundation system is assumed to support the structure with its new reactions.
- All welds and connections are assumed to develop at least the member capacity, unless determined otherwise and explicitly stated in this report.
- All prior structural modifications, if any, are assumed to be as per data supplied/available, and to have been properly installed and to be fully effective.

If any of the above assumptions are not valid or have been made in error, this analysis results may be invalided, MEI should be contacted to review any contradictory information to determine its effect.

This report is not to be reproduced or copied in whole or in part without MEI's written consent. **2017, MEI, Inc. ©**

5. ANALYSIS RESULTS

The structure will require structural strengthening as follows: (Refer to the attached drawings for details.)

Note: The Wind loading controls over the Seismic loading as per TIA Section 2.7.

STRUCTURAL STRENGTHENING REQUIRED	
1	Add internal Hip horizontals at elevation 20 to 60ft and 80 to 120ft (4 Sections Total)
2	Add internal Hip diagonals at elevation 0 to 120ft (6 Sections Total)
3	Add quarter point internal bracing horizontal at elevation 70ft (1 Bay Total)
4	Reinforce horizontal as shown at elevation 50ft (1 Bay Total)
5	Reinforce Sub-Horizontals as shown at elevation 0 to 20ft (1 Section Total)
6	Provide temporary bracing as required for stability of structure during reinforcement / replacement of members / bolts. Replace one member / bolt at a time.
7	Perform any Maintenance work as required to have structure in good operational condition.
8	Contractor to perform field determination/verification before fabrication.

Prior to implementation of the changed conditions and modifications, the data designated on the design documents requiring field verification shall be validated. Rigging and temporary supports required for the erection/modification shall be determined, documented, furnished and installed by the erector/contractor accounting for the loads imposed on the structure due to the proposed construction method.

Table 3: Stress Analysis Results– AFTER PROPER INSTALLATION OF MODS

Component Type	Maximum Stress Ratio	Controlling Elev. (ft) / Component	Pass/Fail	Comment
LEGS	79.2%	40 - 20	Pass	
DIAGONALS	69.8%	160 - 140	Pass	
HORIZONTALS	**82.6%**	**20 - 0**	Pass	
BRACING	82.4%	80 - 60	Pass	
FOUNDATION	77.0%	Uplift	Pass	

Table 4: Serviceability Requirements

	Maximum Value	TIA Requirement (10dB)	Pass/Fail	Comment
TWIST/SWAY	0.1942 Deg.	1.0787 Deg.	Pass	(SC3-W100A) Elev. 184.000ft
	0.217 Deg.	0.9409 Deg.	Pass	(PAD6-65B) Elev. 201.000ft
	0.1716 Deg.	1.8568 Deg.	Pass	24" Canopy Dish Elev. 167.000ft
	0.2871 Deg.	4 Deg. from Vert. or Horiz. Axis	Pass	
HORIZONTAL DISPLACEMENT	7.661 In./ 0.24% of Ht.	3.0% of Height	Pass	

Notes:
1. The Maximum Stress Ratio is the percentage that the maximum load in the member is relative to the allowable load as determined by Code requirements.
2. Refer to the Appendix 1 for more details on the member loads.
3. A maximum stress ratio between 100% and 105% may be considered as *Acceptable* according to industry standard practice.

This report is not to be reproduced or copied in whole or in part without MEI's written consent. **2017, MEI, Inc.** ©

6. FINDINGS & RECOMMENDATIONS

- Based on the rigorous stress analysis results, the subject structure is **rated at 82.6%** of its support capacity (controlling component: Horizontals) with the proposed changed condition considered after strengthening. Please refer to Table 3 and to Appendix 1 for more details of the analysis results.
- Based on the stress analysis performed, the existing structure **is in conformance** with the IBC / ANSI/TIA **222-G** Standard for the loading considered under the criteria listed and referenced in the report sections **after proper installation of the recommended structural strengthening modifications outlined**. *The new maximum stress meets the owner requirement of maximum stress of 85%.*
- *Please note that the Verizon mounts have been analyzed and recommendations provided in a separate report. Refer to separate report MEI ID TX00042S-17V2 for details.*
- ***The addition of the proposed changed condition as noted in Table 1 is structurally acceptable after proper installation of the proposed strengthening modifications.*** Please refer to modification drawings for details.
- This superstructure (above grade) would have limited additional support capacity for the appurtenances and loading criteria considered, after its modification. Therefore, no changes to the configuration considered should be made without performing a new proper evaluation.

Rigging and temporary supports required for the erection/modification shall be determined, documented, furnished and installed by the erector/contractor accounting for the loads imposed on the structure due to the proposed construction method.

7. REPORT DISCLAIMER

The engineering services rendered by **M**alouf **E**ngineering **I**nternational, Inc. *('MEI') in connection with this Structural Analysis are limited to a computer analysis of the tower structure, size and capacity of its members. MEI does not analyze the fabrication, including welding and connection capacities, except as included in this Report.*

The analysis performed and the conclusions contained herein are based on the assumption that the tower has been properly installed and maintained, including, but not limited to the following:

1. Proper alignment and plumbness.
2. Correct guy tensions, as applicable.
3. Correct bolt tightness or slip jacking of sleeved connections.
4. No significant deterioration or damage to any structural component.

Furthermore, the information and conclusions contained in this Report were determined by application of the current "state-of-the-art" engineering and analysis procedures and formulae. MALOUF ENGINEERING INTERNATIONAL, INC. assumes no obligation to revise any of the information or conclusions contained in this Report in the event that such engineering and analysis procedures and formulae are hereafter modified or revised. In addition, under no circumstances will MALOUF ENGINEERING INTERNATIONAL, INC. have any obligation or responsibility whatsoever for or on account of consequential or incidental damages sustained by any person, firm or organization as a result of any information or conclusions contained in the Report, and the maximum liability of MALOUF ENGINEERING INTERNATIONAL, INC., if any, pursuant to this Report shall be limited to the total funds actually received by MALOUF ENGINEERING INTERNATIONAL, INC. for preparation of this Report.

Customer has requested MALOUF ENGINEERING INTERNATIONAL, INC. to prepare and submit to Customer an engineering analysis with respect to the Subject Tower and has further requested MALOUF ENGINEERING INTERNATIONAL, INC. to make appropriate recommendations regarding suggested structural modifications and changes to the Subject Tower. In making such request of MALOUF ENGINEERING INTERNATIONAL, INC., Customer has informed MALOUF ENGINEERING INTERNATIONAL, INC. that Customer will make a determination as to whether or not to implement any of the changes or modifications which may be suggested by MALOUF ENGINEERING INTERNATIONAL, INC. and that Customer will have any such changes or modifications made by riggers, erectors and other subcontractors of Customer's choice. MALOUF ENGINEERING INTERNATIONAL, INC. shall have the right to rely upon the accuracy of the information supplied by the customer and shall not be held responsible for the Customer's misrepresentation or omission of relevant fact whether intentional or otherwise.

Customer hereby agrees and acknowledges that MALOUF ENGINEERING INTERNATIONAL, INC. shall have no liability whatsoever to Customer or to others for any work or services performed by any persons other than MALOUF ENGINEERING INTERNATIONAL, INC. in connection with the implementation of services including but not limited to any services rendered for Customer or for others by riggers, erectors or other subcontractors. Customer acknowledges and agrees that any riggers, erectors or subcontractors retained or employed by Customer shall be solely responsible to Customer and to others for the quality of work performed by them and that MALOUF ENGINEERING INTERNATIONAL, INC. shall have no liability or responsibility whatsoever as a result of any negligence or breach of contract by any such rigger, erector or subcontractor and that Customer and rigger, erector, or subcontractor will provide MALOUF ENGINEERING INTERNATIONAL, INC. with a Certificate of Insurance naming MALOUF ENGINEERING INTERNATIONAL, INC. as additional insured.

TOWER DESIGN NOTES

1. Tower is located in Rockwall County, Texas.
2. Tower designed for Exposure D to the TIA-222-G Standard.
3. Tower designed for a 93 mph basic wind in accordance with the TIA-222-G Standard.
4. Tower is also designed for a 30 mph basic wind with 0.75 in ice. Ice is considered to increase in thickness with height.
5. Deflections are based upon a 60 mph wind.
6. Tower Structure Class III.
7. Topographic Category 1 with Crest Height of 0.000 ft
8. 2015 IBC / ASCE 7-10 / TIA-222-G
9. Ultimate Wind Speed 120 Mph / Risk Category III
10. OWNER - CITY OF ROCKWALL - FIRE STATION #1 SITE
11. TOWER RATING: 82.6%

Tower Input Data

The main tower is a 3x free standing tower with an overall height of 260.000 ft above the ground line.
The base of the tower is set at an elevation of 0.000 ft above the ground line.
The face width of the tower is 4.000 ft at the top and 28.000 ft at the base.
This tower is designed using the TIA-222-G standard.
The following design criteria apply:

Tower is located in Rockwall County, Texas.
ASCE 7-10 Wind Data is used (wind speeds converted to nominal values).
Basic wind speed of 93 mph.
Structure Class III.
Exposure Category D.
Topographic Category 1.
Crest Height 0.000 ft.
Nominal ice thickness of 0.750 in.
Ice thickness is considered to increase with height.
Ice density of 56 pcf.
A wind speed of 30 mph is used in combination with ice.
Deflections calculated using a wind speed of 60 mph.
2015 IBC / ASCE 7-10 / TIA-222-G.
Ultimate Wind Speed 120 Mph / Risk Category III.
OWNER - CITY OF ROCKWALL - FIRE STATION #1 SITE.
A non-linear (P-delta) analysis was used.
Pressures are calculated at each section.
Stress ratio used in tower member design is 1.
Local bending stresses due to climbing loads, feed line supports, and appurtenance mounts are not considered.

VICINITY MAP

CODE COMPLIANCE

ALL WORK SHALL BE PERFORMED AND MATERIAL INSTALLED IN ACCORDANCE WITH THE CURRENT EDITIONS OF THE FOLLOWING CODES AS ADOPTED BY THE LOCAL GOVERNING AUTHORITIES.

STRUCTURAL CODE:	IBC 2015
DESIGN STANDARD:	ANSI/TIA-222-G

SCOPE OF WORK

1. THESE DRAWINGS INDICATE THE MAJOR OPERATIONS TO BE PERFORMED, BUT DO NOT SHOW EVERY FIELD CONDITION THAT MAY BE ENCOUNTERED. THEREFORE, PRIOR TO BEGINNING OF WORK, THE CONTRACTOR SHALL GET FAMILIARIZED WITH THE WORK NOTED AND SHALL PERFORM A FIELD SITE VISIT TO SURVEY THE STRUCTURE FOR FIELD VERIFICATION / DETERMINATION OF REQUIRED WORK AND THE JOB SITE THOROUGHLY TO MINIMIZE FUTURE FIELD PROBLEMS.
2. THE MODIFICATION WORK SCHEDULE IS AS SHOWN ON SHEET S01 WITH THE FOLLOWING MAIN ITEMS:
   - ADD INTERNAL HIP HORIZONTALS AT ELEVATION 20 TO 60FT AND 80 TO 120FT (4 SECTIONS TOTAL)
   - ADD INTERNAL HIP DIAGONALS AT ELEVATION 0 TO 120FT (6 SECTIONS TOTAL)
   - ADD QUARTER POINT INTERNAL BRACING HORIZONTAL AT ELEVATION 70FT (1 BAY TOTAL)
   - REINFORCE HORIZONTAL AS SHOWN AT ELEVATION 50FT (1 BAY TOTAL)
   - REINFORCE SUB-HORIZONTALS AS SHOWN AT ELEVATION 0 TO 20FT (1 SECTION TOTAL)
   - PROVIDE TEMPORARY BRACING AS REQUIRED FOR STABILITY OF STRUCTURE DURING REINFORCEMENT / REPLACEMENT OF MEMBERS / BOLTS. REPLACE ONE MEMBER / BOLT AT A TIME.
   - PERFORM ANY MAINTENANCE WORK AS REQUIRED & APPLICABLE TO BRING THE STRUCTURE INTO GOOD OPERATIONAL CONDITION.
   - CONTRACTOR TO PERFORM FIELD DETERMINATION/VERIFICATION BEFORE FABRICATION.

ALL RIGHTS RESERVED. THIS DRAWING SET IS THE PROPERTY OF MALOUF ENGINEERING INTERNATIONAL, INC. AND IS NOT TO BE USED IN WHOLE OR IN PART, FOR ANY PROJECT OTHER THAN THE ONE FOR WHICH IT WAS SPECIFICALLY PREPARED BY MEI, WITHOUT THE WRITTEN PERMISSION OF MEI, INC.

GENERAL NOTES

1. STRUCTURAL MODIFICATIONS HAVE BEEN DESIGNED IN CONFORMANCE WITH THE NOTED BUILDING CODE & STANDARD. MATERIALS, FABRICATION, INSTALLATION, AND ALL OTHER SERVICES PROVIDED BY THE CONTRACTOR SHALL CONFORM TO THE NOTED CODES / STANDARDS AND THE CONTRACT SPECIFICATIONS.
2. SOURCE DATA REGARDING SUBJECT STRUCTURE HAVE BEEN OBTAINED FROM SUPPLIED / OBTAINED DOCUMENTS. ACTUAL SITE DIMENSIONS SHOULD BE DETERMINED / VERIFIED PRIOR TO FABRICATION OF ANY MATERIAL OR PROVISION FOR FIELD ADAPTATION SHOULD BE MADE. THIS DESIGN IS BEING PROVIDED WITHOUT A CONDITION ASSESSMENT BY THE ENGINEER. CONTRACTOR SHALL PERFORM A COMPLETE CONDITION ASSESSMENT PRIOR TO ORDERING ANY REINFORCING MATERIALS AND NOTIFY ENGINEER OF ANY CONDITION THAT WOULD AFFECT THE DESIGN OR THE WORK SPECIFIED. ANY CHANGES, DISCREPANCIES &/OR MODIFICATIONS THAT MAY BE REQUIRED DUE TO THE EXISTING CONDITIONS SHALL NEED TO BE RESOLVED BEFORE PROCEEDING WITH THE WORK.
3. ALL CONSTRUCTION WORK SHALL BE PERFORMED AND INSTALLED BY A CONTRACTOR WITH MIN. 5 YEARS EXPERIENCE IN SIMILAR WORK. ALL WORK SHALL BE PERFORMED IN A WORKMANLIKE MANNER IN ACCORDANCE WITH ACCEPTED CONSTRUCTION AND INDUSTRY PRACTICE.
4. CONTRACTOR SHALL PERFORM A SITE VISIT TO CONFIRM RELEVANT EXISTING STRUCTURE DIMENSIONS, PROPOSED REINFORCING DIMENSIONS, CLEARANCES AND DETERMINE ANY INTERFERENCES, SITE CONSTRAINTS, UTILITIES AND ALL OTHER INFORMATION NECESSARY TO PERFORM THE WORK. THE CONTRACTOR SHALL NOT START FABRICATION OR CONSTRUCTION PRIOR TO PERFORMING THIS SITE VISIT AND VALIDATING THE INFORMATION ON THESE DRAWINGS AND ANY ADDITIONAL INFORMATION REQUIRED TO SUCCESSFULLY PERFORM THE WORK.
5. MATERIAL QUANTITIES AND LENGTH ARE FOR BIDDING PURPOSE - CONTRACTOR TO BE RESPONSIBLE FOR REQUIRED QUANTITIES AND PROPER FIT AND CLEARANCES OF NEW MATERIAL.
6. ALL MATERIAL SPECIFIED MUST BE NEW AND FREE OF ANY DEFECTS. ANY MATERIAL SUBSTITUTIONS, INCLUDING BUT NOT LIMITED TO ALTERED SIZES AND/OR STRENGTHS, MUST BE APPROVED BY THE OWNER AND ENGINEER IN WRITING PRIOR TO FABRICATION / ORDERING / INSTALLATION. CONTRACTOR SHALL PROVIDE DOCUMENTATION TO ENGINEER FOR DETERMINING IF SUBSTITUTE IS SUITABLE FOR USE AND MEETS THE ORIGINAL DESIGN CRITERIA. DIFFERENCES FROM THE ORIGINAL DESIGN, INCLUDING MAINTENANCE, REPAIR AND REPLACEMENT, SHALL BE NOTED. COSTS ASSOCIATED WITH THE SUBSTITUTION (INCLUDING REVIEW & RE-DESIGN COSTS) SHALL BE THE RESPONSIBILITY OF THE CONTRACTOR.
7. ALL PERMITS, LICENSES, APPROVALS, AND OTHER REQUIREMENTS FOR CONSTRUCTION SHALL BE THE RESPONSIBILITY OF THE CONTRACTOR OR AS DESIGNATED BY THE OWNER. THE CONTRACTOR SHALL BE RESPONSIBLE FOR PROVIDING AMPLE NOTICE TO BUILDING INSPECTION DEPARTMENT TO SCHEDULE ANY REQUIRED INSPECTIONS.
8. CONTRACTOR, INCLUDING LOWER TIER CONTRACTORS, SHALL ASSUME SOLE AND COMPLETE RESPONSIBILITY FOR MEANS AND METHODS OF CONSTRUCTION AND OF JOB SITE CONDITIONS DURING THE CONSTRUCTION WORK, INCLUDING SAFETY OF ALL PERSONS AND PROPERTY AND INCLUDING BUT NOT LIMITED TO, ERECTION PLANS, RIGGING PLANS, CLIMBING PLANS, AND RESCUE PLANS. THIS REQUIREMENT SHALL APPLY CONTINUOUSLY AND NOT BE LIMITED TO NORMAL WORKING HOURS.
9. CONTRACTOR IS RESPONSIBLE FOR ENGAGING A MODIFICATION INSPECTOR AT THE TIME OF AWARD TO COORDINATE AN INSPECTION SCHEDULE AND ENSURE PROPER DOCUMENTATION IS RETAINED THROUGHOUT THE PROJECT. FOUNDATION WORK REQUIRES INSPECTION PRIOR TO THE CONCRETE POUR AND MAY INVOLVE A SEPARATE INSPECTION VISIT. REFER TO TABLE FOR MODIFICATION INSPECTION CHECKLIST. CONTACT ENGINEER TO OBTAIN PRICING TO COMPLETE FINAL AND/OR FOUNDATION INSPECTION SERVICES, IF NOT ALREADY COORDINATED WITH THE OWNER / CARRIER. INSTALLATION OF PROPOSED LOADING PRIOR TO COMPLETION OF POST MODIFICATION INSPECTION IS PROHIBITED WITHOUT PRIOR APPROVAL FROM OWNER AND ENGINEER OF RECORD.
10. EXISTING STRUCTURE IS ASSUMED TO BE IN GOOD CONDITION AND FREE FROM STRUCTURAL DEFECTS. AT MINIMUM ANSI/TIA-222 RECOMMENDED INSPECTIONS AND ALL MAINTENANCE TYPE & DEFICIENCY REPAIR WORK IS ASSUMED COMPLETED. INSPECTION & MAINTENANCE OF NEW REINFORCEMENTS SHALL BE IMPLEMENTED SUCH AS TO AVOID ANY DETERIORATION OR CORROSION OF REINFORCEMENT.
11. REFER TO OWNER REQUIREMENTS FOR NEW MEMBERS PAINT, OTHERWISE PAINT NEW MEMBERS WITH A FINISH COAT OF ACRYLIC PAINT TO MATCH EXISTING PAINT AT THAT ELEVATION.
12. ALL EXISTING PAINTED GALVANIZED SURFACES DAMAGED DURING REHAB WORK SHALL BE WIRE BRUSHED CLEAN, REPAIRED BY COLD GALVANIZING BRUSH APPLIED PAINT (ZINGA OR EQUAL), AND REPAINTED TO MATCH THE EXISTING FINISH (AS APPLICABLE).

INSTALLATION NOTES

1. ALL INSTALLATION PROCEDURES, SAFEGUARDS AND MEANS AND METHODS OF CONSTRUCTION ARE THE SOLE RESPONSIBILITY OF THE CONTRACTOR. ALL WORK SHALL FOLLOW SAFE WORK PRACTICES WITH APPROPRIATE FALL PROTECTION AND SHALL BE PERFORMED IN ACCORDANCE WITH ANSI/ASSE A10.48 AND ANSI/TIA-322 OR ANSI/TIA1019-A CONSTRUCTION STANDARDS, OSHA REQUIREMENTS, INDUSTRY PRACTICE AND NATE GUIDELINES. RIGGING PLANS SHALL BE PREPARED IN ACCORDANCE WITH NOTED STANDARDS. ALL ERECTION STRESSES SHALL BE THE RESPONSIBILITY OF THE CONTRACTOR AND SHALL BE REVIEWED/PERFORMED BY A COMPETENT PROFESSIONAL EXPERIENCED IN SIMILAR WORK.
2. MINIMUM RECOMMENDED WEATHER CONDITION THAT INSURES A SAFE WORKING CONDITION SHOULD BE OBSERVED: WIND SPEED NOT TO EXCEED 10-15 MPH AT GROUND LEVEL, NO THUNDERSTORMS FORECASTED, AND WITH TOWER STEEL TEMPERATURE BETWEEN 20 F & 95 F. FOLLOW ALL APPLICABLE INDUSTRY AND OSHA SAFETY GUIDELINES.
3. CONTRACTOR SHALL WORK WITHIN THE LIMITS OF THE SITE COMPOUND/ OWNER'S PROPERTY OR LEASE AREA AND APPROVED EASEMENTS. IT IS THE RESPONSIBILITY OF THE CONTRACTOR TO VERIFY WORK IS WITHIN THESE BOUNDARIES. ANY WORK OUTSIDE THESE BOUNDARIES SHALL BE APPROVED IN WRITING BY THE LAND OWNER PRIOR TO MOBILIZATION.
4. FAA / FCC FILING AND LIGHTING MAY BE REQUIRED. ALL GOVERNMENTAL REGULATORY DETERMINATIONS AND FILINGS ARE TO BE COMPLIED WITH AND SHALL BE BY OTHERS.
5. TOWER SHALL BE PROPERLY BRACED AND CARE SHALL BE TAKEN IN THE REMOVAL AND REPLACEMENT OF ANY TOWER MEMBER IN ACCORDANCE WITH RECOGNIZED INDUSTRY STANDARDS AND PROCEDURES.
6. ALL PRECAUTIONS AND EFFORTS SHALL BE TAKEN TO INSURE THE STRUCTURE STABILITY DURING THE MODIFICATIONS WORK. BRACING MEMBERS / FRAMES WITH CAPACITY MATCHING MEMBERS BEING WORKED ON SHALL BE REQUIRED AND USED. CONTRACTOR IS RESPONSIBLE FOR ALL TEMPORARY LOCAL AND GLOBAL SHORING OF THE STRUCTURE AND ALL SHORING OF SURROUNDING BUILDINGS, PADS, AND OTHER OUTDOOR SITE OBSTRUCTIONS.
7. IN AREAS TO BE MODIFIED, CONTRACTOR IS RESPONSIBLE FOR TEMPORARILY REMOVING ANY COAXES, T-BRACKETS, MOUNTS, OR ANY OTHER APPURTENANCES INTERFERING WITH THE WORK. ALL APPURTENANCES MUST BE REPLACED AND/OR RESTORED TO ORIGINAL LOCATION, AS APPLICABLE, RE-WORK ATTACHMENTS THAT REQUIRE MODIFICATIONS TO PROPERLY FIT MODIFIED MEMBERS. THESE CUSTOMIZATIONS ARE TO BE DESIGNED BY OTHERS AND MAINTAIN ORIGINAL CAPACITY. ANY CARRIER DOWNTIME MUST BE COORDINATED WITH THE OWNER / CARRIER IN WRITING.
8. CAULKING SHALL BE PROVIDED AROUND PERIMETER OF ALL MODIFICATION MEMBERS TO ENSURE COMPLETE SEAL BETWEEN EXISTING STRUCTURE AND REINFORCING MEMBERS IN FULL CONTACT WITH EXISTING STEEL. SEALANT IS TO BE EXTERIOR GRADE, PAINTABLE SILICONE CAULKING AS MANUFACTURED BY DOW OR EQUIVALENT.
9. THE CLIMBING FACILITIES, SAFETY CLIMB AND ALL ASSOCIATED HARDWARE SHALL NOT BE IMPEDED OR MODIFIED WITHOUT THE WRITTEN CONSENT OF THE OWNER.
10. ALL SAFETY EQUIPMENT SHALL BE INSPECTED ACCORDING TO ALL OSHA AND INDUSTRY SCHEDULED INTERVALS AND ALL INSPECTIONS SHALL BE DOCUMENTED PER APPLICABLE CODES AND STANDARDS.
11. FASTENERS SHALL BE INSTALLED IN PROPERLY ALIGNED HOLES. ALL BOLTS AT EVERY CONNECTION SHALL BE INSTALLED SNUG FIT UNTIL THE SECTION IS FULLY COMPACTED, AND THEN TIGHTENED ADDITIONALLY IN ACCORDANCE WITH THE AISC "TURN-OF-THE-NUT" METHOD. TIGHTENING SHALL PROGRESS SYSTEMATICALLY.
12. BOLT LENGTHS UP TO AND INCLUDING FOUR DIAMETERS SHALL BE TENSIONED 1/3 TURN BEYOND SNUG FIT. BOLT LENGTHS OVER 4 DIAMETERS SHALL BE 1/2 TURN BEYOND SNUG TIGHT.
13. NO WELDING, TORCH CUTTING, OR OPEN FLAME OF ANY TYPE IS PERMITTED ON THIS STRUCTURE AND ON THIS CONSTRUCTION SITE UNLESS DIRECTLY SPECIFIED WITHIN THESE DRAWINGS.
14. ALL MANUFACTURERS HARDWARE AND ASSEMBLY INSTRUCTIONS SHALL BE FOLLOWED. DEVIATION FROM THE INSTRUCTIONS IS UNACCEPTABLE AND REQUIRES WRITTEN APPROVAL FROM THE ENGINEER.
15. FOR ANY STEEL MEMBER DAMAGED DURING MODS WORK AND AFTER ANY FIELD HOLE PUNCHING/DRILLING OR CUTTING HAS BEEN COMPLETED, WIRE BRUSH CLEAN THESE SURFACES AND REPAIR USING COLD GALVANIZING BRUSH APPLIED PAINT (TWO COATS OF ZINGA OR EQUAL), AND REPAINT TO MATCH THE EXISTING FINISH (AS APPLICABLE).
16. UPON COMPLETION OF ALL WORK, THE SITE SHALL BE CLEANED OF ALL DEBRIS AS REQUIRED. ANY SURPLUS MATERIALS NOT REMOVED FROM THE SITE SHALL BE NEATLY STORED IN AN AREA DESIGNATED BY THE OWNER REPRESENTATIVE.

STEEL / FABRICATION NOTES

1. ALL STEEL FABRICATION AND INSTALLATION SHALL BE PERFORMED IN ACCORDANCE WITH THE LATEST EDITION OF THE AMERICAN INSTITUTE OF STEEL CONSTRUCTION (AISC) MANUAL AND SPECIFICATIONS "SPECIFICATIONS FOR THE DESIGN, FABRICATION AND ERECTION OF STRUCTURAL STEEL FOR BUILDINGS".
2. THESE DRAWINGS SHOW RELATED DETAILS BUT ARE NOT SHOP DRAWINGS. SHOP DRAWINGS SHALL BE PREPARED IN ACCORDANCE WITH AISC DETAILING REQUIREMENTS. DIMENSIONAL TOLERANCES SHALL BE IN ACCORDANCE WITH THE AISC CODE OF STANDARD PRACTICE AND ASTM A7 REQUIREMENTS.
3. ALL NEW MEMBERS, UNLESS NOTED OTHERWISE, SHALL MAINTAIN THE EXISTING MEMBER WORK LINES AND NOT INTRODUCE ECCENTRICITIES INTO THE STRUCTURE.
4. ALL CONNECTIONS NOT FULLY DETAILED ON THESE PLANS SHALL BE DETAILED BY THE STEEL FABRICATOR IN ACCORDANCE WITH THE AISC STEEL CONSTRUCTION MANUAL, AISC 360-10 LRFD.
5. ALL WELDING SHALL BE PERFORMED BY AWS CERTIFIED WELDERS AND BE IN ACCORDANCE WITH AWS D1.1/D1.1M, "STRUCTURAL WELDING CODE-STEEL"(LATEST EDITION).
6. FOR ALL WELDING, UNLESS NOTED OTHERWISE, USE E70XX ELECTRODES FOR SMAW PROCESS AND E7XT-XX ELECTRODES FOR FCAW PROCESS.
7. FOR WELDING ON MONOPOLE SHAFTS, USE 80 KSI LOW HYDROGEN ELECTRODES. ELECTRODES SHALL BE APPROPRIATE FO THE WELDING POSITION REQUIRED TO MAKE THE JOINT.
8. COOLING EFFECTS OF THE WELDED MATERIAL SHALL BE TAKEN INTO CONSIDERATION (I.E. EXPANSION OF HOT MATERIAL AND CONTRACTION OF COOLED MATERIAL).
9. ALL NEW STEEL SHALL BE HOT-DIPPED GALVANIZED PER ASTM A123, ASTM A153/A153M, OR ASTM A653 G90, AS APPLICABLE FOR FULL WEATHER PROTECTION. FOR HIGH STRENGTH STEEL FASTENERS WHERE HOT-DIPPED GALVANIZING IS NOT PERMITTED, DACROMET F1136 GRADE 3 COATING (OR ENGINEER APPROVED EQUIVALENT) SHALL BE USED.
10. PRIOR TO GALVANIZING, ALL FABRICATED STEEL SHALL BE THOROUGHLY SHOP INSPECTED AND QUANTITIES COUNTED ACCORDING TO THE BEST QUALITY CONTROL AND INSPECTION METHODS.
11. MATERIAL MAY BE CUT BY SHEARING, SAWING, OR CUTTING WITH A ROUTER OR GAS CUT. MATERIAL GREATER THAN 1/2" THICKNESS SHALL NOT BE SHEARED.
12. CUT EDGES SHALL BE TRUE AND SMOOTH, AND FREE FROM EXCESSIVE BURRS AND RAGGED BREAKS. SHEARED EDGES OF THICK PLATES SHALL BE PLANED TO A DEPTH OF 1/4". RE-ENTRANT CUTS SHALL BE AVOIDED. IF USED, THEY SHALL BE FILLETED BY DRILLING PRIOR TO CUTTING.
13. ALL BOLTS, WASHERS AND ANCO LOCKNUTS SHALL BE NEW DOMESTIC HIGH STRENGTH GALVANIZED BOLTS AS NOTED BELOW.
14. ALL BOLT ASSEMBLIES FOR STRUCTURAL MEMBERS WILL REQUIRE LOCKING DEVICES TO BE INSTALLED IN CONFORMANCE WITH NOTED STANDARDS/SPECIFICATIONS.
15. THE FINISHED DIAMETER OF BOLT HOLES SHALL NOT BE MORE THAN 1/16" LARGER THAN THE NOMINAL BOLT DIAMETER AND SHALL NOT BE FLAME CUT THROUGH STEEL, UNLESS OTHERWISE NOTED.
16. ANY BOLT REMOVED FROM EXISTING TOWER STRUCTURE SHALL BE REPLACED WITH A NEW DOMESTIC ASTM A325 HIGH STRENGTH BOLT OF EQUAL DIAMETER SIZE AND OF SUFFICIENT LENGTH TO EXCLUDE THE THREADS, UNLESS NOTED OTHERWISE.
17. ALL BOLT HOLES EDGE DISTANCES SHALL BE 1 1/2" UNLESS OTHERWISE NOTED.
18. FIELD PUNCH / DRILL HOLES AS REQUIRED FOR ACCURATE FIT OF MODIFICATION MEMBER.
19. NEW STEEL MATERIAL SHALL BE DOMESTIC AND SHALL CONFORM TO THE FOLLOWING STEEL SPECIFICATIONS UNLESS NOTED OTHERWISE:

MATERIAL	ASTM SPECS
U-BOLTS	A193 B7, A449 OR SAE J429 (GR. 5 - 1/2" DIA. & GR. 8 - 5/8" DIA.)
BOLTS - 1/2" DIA. & GREATER	A325 TYPE X
BOLTS - 1/2" DIA.	SAE J429 GRADE 5 TYPE X
BOLTS - 3/8" DIA.	A307 OR SAE J429 GRADE 5
ANGLES, GUSSET & TAB PLATES	A36

BOLT TIGHTENING PROCEDURE

1. TIGHTEN BOLTS BY AISC "TURN OF THE NUT" METHOD USING THE CHART BELOW:
   BOLT LENGTHS UP TO AND INCLUDING FOUR DIAMETERS:
   + 1/3 TURN BEYOND SNUG TIGHT
   BOLT LENGTHS OVER FOUR AND UP TO EIGHT DIAMETERS:
   + 1/2 TURN BEYOND SNUG TIGHT

2. ALL ONE-SIDED BOLTS SHALL BE TIGHTENED IN ACCORDANCE WITH MANUFACTURER RECOMMENDATIONS

3. SPLICE BOLTS SUBJECT TO DIRECT TENSION SHALL BE INSTALLED AND TIGHTENED AS PER SECTION 8(D)(1) OF THE AISC MANUAL OF STEEL CONSTRUCTION. THE INSTALLATION PROCEDURE IS AS FOLLOWS:

"FASTENERS SHALL BE INSTALLED IN PROPERLY ALIGNED HOLES AND BE TIGHTENED BY ONE OF THE METHODS DESCRIBED IN SUBSECTION 8(D)(1) THROUGH 8(D)(4).

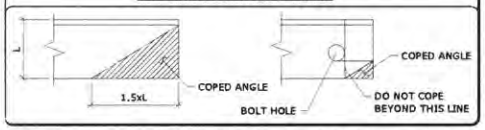
8(D)(1) TURN-OF-THE-NUT TIGHTENING:

BOLTS SHALL BE INSTALLED IN ALL HOLES OF THE CONNECTION AND BROUGHT TO A SNUG TIGHT CONDITION. SNUG TIGHT IS DEFINED AS THE TIGHTNESS THAT EXISTS WHEN THE PLIES OF A JOINT ARE IN FIRM CONTACT. THIS MAY BE OBTAINED BY A FEW IMPACTS OF AN IMPACT WRENCH OR THE FULL EFFORT OF A MAN USING AN ORDINARY SPUD WRENCH. SNUG TIGHTENING SHALL PROGRESS SYSTEMATICALLY...UNTIL ALL THE BOLTS ARE SIMULTANEOUSLY SNUG TIGHT AND THE CONNECTION IS FULLY COMPACTED. FOLLOWING THIS INITIAL OPERATION, ALL BOLTS IN THE CONNECTION SHALL BE TIGHTENED FURTHER BY THE APPLICABLE AMOUNT OF ROTATION SPECIFIED ABOVE. DURING THE TIGHTENING OPERATION, THERE SHALL BE NO ROTATION OF THE PART NOT TURNED BY THE WRENCH. TIGHTENING SHALL PROGRESS SYSTEMATICALLY.

BEFORE 1/3 TURN

AFTER 1/3 TURN

ALLOWABLE ANGLE COPE



1. ALL DIMENSIONS REPRESENTED IN THE ABOVE TABLES ARE AISC MINIMUM REQUIREMENTS. CONTRACTOR SHALL VERIFY EXISTING CONDITIONS IN FIELD AND NOTIFY ENGINEER IF DISTANCES ARE LESS THAN THOSE PROVIDED.

2. THE DIMENSIONS PROVIDED ARE MINIMUM REQUIREMENTS. ACTUAL DIMENSIONS OR PROPOSED MEMBERS WITHIN THESE DRAWINGS MAY VARY FROM THE AISC MINIMUM REQUIREMENTS.

USUAL GAGES FOR ANGLES IN INCHES

g1	3	2 1/2	2 1/4	2										
g2	3	3	2 1/2	1 3/4										

POST-MODIFICATION INSPECTION NOTES

GENERAL

THE POST-MODIFICATION INSPECTION (PMI) IS A VISUAL INSPECTION OF TOWER MODIFICATIONS AND A REVIEW OF CONSTRUCTION INSPECTIONS AND OTHER REPORTS TO ENSURE THE INSTALLATION WAS PERFORMED IN ACCORDANCE WITH THE MODIFICATION DESIGN DRAWINGS BY THE ENGINEER OF RECORD (EOR).

ALL PMI'S SHALL BE CONDUCTED BY A QUALIFIED TOWER INSPECTION VENDOR (QTIV) THAT IS APPROVED TO PERFORM ELEVATED WORK AND HAS QUALIFIED RELATED EXPERIENCE.

TO ENSURE THAT THE REQUIREMENTS OF THE PMI ARE MET, IT IS VITAL THAT THE GENERAL CONTRACTOR (GC) AND THE PMI INSPECTOR BEGIN COMMUNICATING AND COORDINATING AS SOON AS APPROVAL IS RECEIVED TO DEVELOP A SCHEDULE TO CONDUCT ON-SITE INSPECTIONS.

GENERAL CONTRACTOR

THE GC IS REQUIRED TO, AT A MINIMUM:
- REVIEW THE REQUIREMENTS OF THE PMI CHECKLIST
- WORK WITH THE PMI INSPECTOR TO DEVELOP A SCHEDULE TO CONDUCT ON-SITE PMI INSPECTIONS, INCLUDING FOUNDATION INSPECTIONS.
- BETTER UNDERSTAND ALL INSPECTION AND TESTING REQUIREMENTS.

THE GC SHALL PERFORM AND RECORD THE TEST AND INSPECTION RESULTS IN ACCORDANCE WITH THE REQUIREMENTS OF THE PMI CHECKLIST.

RECOMMENDATIONS

THE FOLLOWING RECOMMENDATIONS AND SUGGESTIONS ARE OFFERED TO ENHANCE THE EFFICIENCY AND EFFECTIVENESS OF DELIVERING A PMI REPORT:
- IT IS SUGGESTED THAT THE GC PROVIDE A MINIMUM OF 5 BUSINESS DAYS NOTICE, PREFERABLY 10, TO THE PMI INSPECTOR AS TO WHEN THE SITE WILL BE READY FOR THE MI TO BE CONDUCTED.
- IT MAY BE BENEFICIAL TO INSTALL ALL TOWER MODIFICATIONS PRIOR TO CONDUCTING THE FOUNDATION INSPECTIONS TO ALLOW FOUNDATION AND MI INSPECTION(S) TO COMMENCE WITH ONE SITE VISIT.
- WHEN POSSIBLE, IT IS PREFERRED TO HAVE THE GC AND PMI INSPECTOR ON-SITE DURING THE PMI TO HAVE ANY DEFICIENCIES CORRECTED DURING THE INITIAL PMI. THEREFORE, THE GC MAY CHOOSE TO COORDINATE THE PMI CAREFULLY TO ENDURE ALL CONSTRUCTION FACILITIES ARE AT THEIR DISPOSAL WHEN THE PMI INSPECTOR IS ON SITE.

CORRECTION OF FAILING PMI'S

IF THE POST-MODIFICATION INSTALLATION WOULD FAIL THE PMI ("FAILED MI"), THE GC SHALL WORK TO COORDINATE A REMEDIATION PLAN IN ONE OF TWO WAYS:
- CORRECT FAILING ISSUES TO COMPLY WITH THE SPECIFICATIONS CONTAINED IN THE ORIGINAL CONTRACT DOCUMENTS AND COORDINATE A SUPPLEMENT PMI.
- OR, WITH OWNER'S APPROVAL, THE GC MAY WORK WITH THE EOR TO RE-ANALYZE THE MODIFICATION/REINFORCEMENT USING THE AS-BUILT CONDITION

REQUIRED PHOTOS

BETWEEN THE GC AND THE PMI INSPECTOR THE FOLLOWING PHOTOGRAPHS, AT A MINIMUM, ARE TO BE TAKEN AND INCLUDED IN THE PMI REPORT:

- PRE-CONSTRUCTION GENERAL SITE CONDITION
- PHOTOGRAPHS DURING THE REINFORCEMENT MODIFICATION CONSTRUCTION.
  - RAW MATERIALS
  - PHOTOS OF ALL CRITICAL DETAILS
  - FOUNDATION MODIFICATIONS
  - WELD PREPARATION
  - BOLT INSTALLATION AND TORQUE
  - FINAL INSTALLED CONDITION
  - SURFACE COATING REPAIR
- POST CONSTRUCTION PHOTOGRAPHS
- FINAL IN-FIELD CONDITION

SPECIAL INSPECTION & PMI CHECKLIST

REQ'D	REPORT ITEM	BRIEF DESCRIPTION
		PRE-CONSTRUCTION
X	MI CHECKLIST	THIS CHECKLIST SHALL BE INCLUDED IN THE MI REPORT
X	EOR APPROVED SHOP DRAWINGS	FABRICATION DRAWINGS SHALL BE SUBMITTED TO THE ENGINEER OF RECORD FOR REVIEW. THE CONTRACTOR SHALL PROVIDE APPROVED SHOP DRAWINGS TO THE MI INSPECTOR FOR INCLUSION IN THE MI REPORT.
N/A	FABRICATOR CERTIFIED WELD INSPECTION	A LETTER FROM THE FABRICATOR, STATING THAT THE WORK WAS PREFORMED IN ACCORDANCE WITH INDUSTRY STANDARDS AND THE CONTRACT DOCUMENTS SHALL BE PROVIDED TO THE MI INSPECTOR FOR INCLUSION IN THE MI REPORT.
X	MATERIAL CERT. REPORT (MTR)	MILL CERTIFICATION SHALL BE PROVIDED FOR ALL STEEL AS SPECIFIED IN THE MODIFICATION DRAWINGS AND THIS DOCUMENTATION SHALL BE PROVIDED TO THE MI INSPECTOR FOR INCLUSION IN THE MI REPORT.
N/A	FABRICATOR NDE INSPECTION	CRITICAL SHOP WELDS THAT REQUIRE TESTER ARE NOTED ON THESE CONTRACT DRAWINGS. A CERTIFIED WELD INSPECTOR SHALL PERFORM NON-DESTRUCTIVE EXAMINATION AND REPORT SHALL BE PROVIDED TO THE MI INSPECTOR FOR INCLUSION IN THE MI REPORT.
N/A	NDE REPORT OF MONOPOLE BASE PLATE	A NDE OF THE POLE TO BASE PLATE CONNECTION IS REQUIRED AND WRITTEN REPORT SHALL BE PROVIDED TO THE MI INSPECTOR FOR INCLUSION IN THE MI REPORT.
X	PACKING SLIPS	THE MATERIAL SHIPPING LIST SHALL BE PROVIDED TO THE MI INSPECTOR FOR INCLUSION IN THE MI REPORT.
		CONSTRUCTION
X	CONSTRUCTION INSPECTIONS	A LETTER FROM THE GENERAL CONTRACTOR STATING THAT THE WORKMANSHIP WAS PERFORMED IN ACCORDANCE WITH INDUSTRY STANDARDS AND THESE CONTRACT DRAWINGS SHALL BE PROVIDED TO THE MI INSPECTOR FOR INCLUSION IN THE MI REPORT.
N/A	FOUNDATION INSPECTIONS	A VISUAL OBSERVATION OF THE EXCAVATION AND REBAR SHALL BE PERFORMED BEFORE PLACING THE CONCRETE. A WRITTEN REPORT SHALL BE PROVIDED TO THE MI INSPECTOR FOR INCLUSION IN THE MI REPORT.
N/A	CONCRETE COMP. STRENGTH AND SLUMP TESTS	THE CONCRETE MIX DESIGN, SLUMP TEST, AND COMPRESSIVE STRENGTH TESTS SHALL BE PROVIDED TO THE MI INSPECTOR FOR INCLUSION IN THE MI REPORT.
N/A	POST INSTALLED ANCHOR ROD VERIFICATION	POST INSTALLED ANCHOR ROD VERIFICATION SHALL BE PERFORMED IN ACCORDANCE WITH ACI318 AND MANUFACTURERS REQUIREMENTS AND A REPORT SHALL BE PROVIDED TO THE MI INSPECTOR FOR INCLUSION IN THE MI REPORT.
N/A	BASE PLATE GROUT VERIFICATION	THE GENERAL CONTRACTOR SHALL PROVIDE DOCUMENTATION TO THE MI INSPECTOR THAT VERIFIES THAT THE GROUT WAS INSTALLED IN ACCORDANCE WITH MEI SPECS FOR INCLUSION IN THE MI REPORT.
N/A	CONTRACTOR'S CERTIFIED WELD INSPECTION	A CERTIFIED WELD INSPECTOR SHALL INSPECT AND TEST AS NECESSARY ALL FIELD WELDS. A REPORT SHALL BE PROVIDED TO THE MI INSPECTOR FOR INCLUSION IN THE MI REPORT.
N/A	EARTHWORK: LIFT AND DENSITY	FOUNDATION SUB-GRADES SHALL BE INSPECTED AND APPROVED BY A GEOTECHNICAL ENGINEER AND A REPORT SHALL BE PROVIDED TO THE MI INSPECTOR FOR INCLUSION IN THE MI REPORT.
X	ON SITE COLD GALVANIZING VERIFICATION	THE GENERAL CONTRACTOR SHALL PROVIDE DOCUMENTATION TO MI INSPECTOR VERIFYING THAT ANY ON-SITE COLD GALVANIZING WAS APPLIED IN ACCORDANCE WITH MANUF. INSTRUCTIONS.
N/A	GUY WIRE TENSION REPORT	THE GENERAL CONTRACTOR SHALL PROVIDE A REPORT TO THE MI INSPECTOR INDICATING THE TEMPERATURE AND TENSION IN EVERY GUY CABLE AS PART OF PLUMB AND TENSION PROCEDURE FOR INCLUSION IN THE MI REPORT.
X	GC AS-BUILT DOCUMENTS	THE GENERAL CONTRACTOR SHALL SUBMIT A COPY OF THE CONTRACT DRAWINGS EITHER STATING "INSTALLED AS DESIGNED" OR NOTING ANY CHANGES THAT WERE REQUIRED AND APPROVED BY THE ENGINEER OF RECORD DUE TO FIELD CONDITIONS.
		POST-CONSTRUCTION
X	MI INSPECTOR REDLINE OF RECORD DRAWING(S)	THE MI INSPECTOR SHALL OBSERVE AND REPORT ANY DISCREPANCIES BETWEEN THE CONTRACTORS REDLINE DRAWING AND THE ACTUAL COMPLETED INSTALLATION.
N/A	POST INSTALLED ANCHOR ROD PULL-OUT TESTING	POST-INSTALLED ANCHOR RODS SHALL BE TESTED IN ACCORDANCE WITH MANUF. REQUIREMENTS AND A REPORT SHALL BE PROVIDED TO THE MI INSPECTOR FOR INCLUSION IN THE MI REPORT.
X	PHOTOGRAPHS	PHOTOGRAPHS SHALL BE SUBMITTED TO THE MI WHICH DOCUMENT ALL PHASES OF THE CONSTRUCTION. THE PHOTOS SHALL BE ORGANIZED IN A MANNER THAT EASILY IDENTIFIES THE EXACT LOCATION OF THE PHOTO.
ADDITIONAL TESTING AND INSPECTIONS:		

NOTES: X DENOTES A DOCUMENT NEEDED FOR THE MI REPORT
N/A DENOTES A DOCUMENT THAT IS NOT REQUIRED FOR THE MI REPORT

Original Tower Lease Agreement &
First Amendment

TOWER LEASE AGREEMENT

This Agreement, made this 12 day of May, 2004 between the City of Rockwall, a Texas Municipal Corporation, with its principal mailing address of 385 South Goliad Street, Rockwall, Texas 75087, Tax ID #1-756000652, hereinafter designated LESSOR and Dallas MTA, L.P. d/b/a Verizon Wireless, with its principal office located at 180 Washington Valley Road, Bedminster, New Jersey 07921, hereinafter designated LESSEE. The LESSOR and LESSEE are at times collectively referred to hereinafter as the "Parties" or individually as the "Party".

WITNESSETH

In consideration of the mutual covenants contained herein and intending to be legally bound hereby, the Parties hereto agree as follows:

1. PREMISES. LESSOR hereby leases to the LESSEE a portion of that certain space on the LESSOR's New Tower, as defined in Section 2 herein, located at Boydstun Avenue, Rockwall, Rockwall County, Texas 75087, and being a tract out of the B.F. Boydstun Survey, Abstract No. 14 and the B.J.T. Lewis Survey, Abstract No. 225, and being all of Lot 1, Block A of the Central Fire Station Addition, an addition to the city of Rockwall as recorded in Cabinet B, Slide 48 of the Plat records, Rockwall County, Texas, (the entirety of LESSOR's property is referred to hereinafter as the "Property"), together with three (3) parcels of land measuring 20' by 25' and containing 500 square feet for the installation of LESSEE's equipment building, and 5' by 15' and containing 75 square feet for the installation of LESSEE's generator, and 35' x 35' containing 1,225 square feet for the installation of the New Tower, all totaling 1,800 square feet, as shown on Exhibit "A", attached hereto and made a part hereof together with the non-exclusive right for ingress and egress, seven (7) days a week, twenty-four (24) hours a day, on foot or motor vehicle, including trucks, and for the installation and maintenance of utility wires, poles, cables, conduits, and pipes over, under, or along a fifteen (15) foot wide right-of-way extending from the nearest public right-of-way, Boydstun Avenue, to the demised premises, said demised premises and right-of-way for access being substantially as described herein in Exhibit "A" and attached hereto and made a part hereof which tower space, demised premises and right-of-way are collectively referred to hereinafter as the "Premises".

In the event any public utility is unable to use the aforementioned right-of-way, the LESSOR hereby agrees to grant an additional right-of-way either to the LESSEE or to the public utility at no cost to the LESSEE.

LESSOR hereby grants permission to LESSEE to install, maintain and operate the radio communications equipment, antennas and appurtenances described in Exhibits "B" and "C1" attached hereto.

LESSEE reserves the right to replace the aforementioned equipment with similar and comparable equipment provided said replacement does not increase tower loading of said New Tower.

LESSOR also hereby grants to LESSEE the right to survey the Property and Premises, and said survey shall then become Exhibit "D" which shall be attached hereto and made a part hereof, and shall control in the event of boundary and access discrepancies between it and Exhibit "A". Cost for such work shall be borne by the LESSEE.

2. NEW TOWER. Notwithstanding anything contained herein, LESSEE agrees to build a new self-support tower, ("New Tower") and to convey said New Tower to LESSOR upon completion according to the following terms and conditions:

2.1 Building of New Tower. The New Tower shall be of sufficient structural capacity to accommodate three (3) wireless communications carrier's antennas and cables, in addition to LESSEE'S antennas and cables and as such New Tower is more fully described in Exhibit "C1". The parties agree that the location of the New Tower on the Property and the location of LESSEE's facilities on the New Tower and the Premises are as depicted on the Construction Drawing, as defined in Section 2.3 herein. LESSEE shall construct the New Tower in accordance with all terms and conditions of the Agreement, including without limitation, Sections 2.1, 2.2, 2.3, 2.4 and 7 of the Agreement for purposes of which, communications facility shall include the New Tower.

2.2 Government Approvals. Prior to commencing construction of the New Tower, LESSEE shall obtain and submit to LESSOR copies of all certificates, permits, licenses, and other approvals that may be required by any federal, state, or local authorities, including, without limitation, the FCC and FAA, relating to LESSEE's construction of the New Tower (collectively the "Governmental Approvals"). Nothing contained in the Agreement shall be construed as imposing upon LESSOR the obligation to seek or obtain such approvals. LESSOR, at no cost to LESSOR, shall cooperate with LESSEE's reasonable business efforts to obtain Governmental Approvals.

2.3 Approval of LESSOR. Prior to commencing the construction of the New Tower, LESSEE will obtain the approval of LESSOR for the construction drawing ("Construction Drawing"), which shall be attached to Exhibit "C1" and made a part hereof, and which shall detail the planned location and specifications of (i) the New Tower, (ii) all ground based equipment, and (iii) all equipment which is to be installed upon the New Tower and its elevation. LESSOR's approval shall not be unreasonably withheld, conditioned or delayed. In the event LESSEE is not able to obtain such approval, LESSEE may in its sole discretion terminate this Agreement without further obligation or penalty.

2.4 Construction Schedule. LESSEE agrees to use its reasonable business efforts to: (1) obtain all Governmental Approvals with respect to the New Tower on or before September 1, 2004; (2) obtain all building permits with respect to the New Tower on or before September 1, 2004; and (3) obtain Final Completion, as defined below, of the New Tower on or before September 1, 2004 (the "Final Completion Date"). In addition, LESSEE will prepare or cause to be prepared any and all Federal regulatory filings, and deliver same to LESSOR for filing in LESSOR's name. LESSOR and LESSEE agree that the time periods set forth above, including the Final Completion Date, shall be extended on a day-to-day basis for a reasonable period of time if the completion of the New Tower is delayed through no fault of LESSEE and if the delay is a result of: (a) delays in obtaining Governmental Approvals from the applicable governmental jurisdiction, or (b) extraordinary weather conditions or Acts of God. LESSEE shall provide written notice to LESSOR upon the occurrence of any event that LESSEE believes may result in a delay of the completion of construction. The notice shall include the nature of the event causing the delay, the date upon which the event occurred, and the anticipated period of delay.

As used in this section, "Final Completion" shall occur when the local jurisdiction in which the New Tower is located has inspected the New Tower and has issued a final unconditioned certificate of occupancy or equivalent certification with respect to the New Tower. If LESSEE is unable to obtain Final Completion of the New Tower by the Final Completion Date, LESSOR shall have the right at its option to: (a) complete the New Tower, the cost of completion to be at LESSEE's expense, in which event, the LESSEE shall convey all right, title and interest in the uncompleted tower to LESSOR and LESSEE will not claim any interest in the New Tower; or (b) proceed under this Agreement and further extend the time for Final Completion.

2.5 Conveyance of New Tower. Upon Final Completion, LESSEE shall provide LESSOR with personal and real property title searches, a final certificate of occupancy, an as-built survey of the New Tower, and all other documents reasonably requested by LESSOR evidencing that the New Tower is free of all liens and encumbrances and that the New Tower complies with all applicable local, state and federal laws and regulations. Upon LESSOR's written acknowledgment of receipt of such documentation in a form reasonably acceptable to LESSOR, LESSEE shall convey title to the New Tower to LESSOR by bill of sale in a form substantially similar to Exhibit "C2" to this Agreement.

2.6 Payment of Costs. LESSEE shall pay all costs associated with the construction of the New Tower, including without limitation: the cost of the New Tower; freight to the Site; foundation installation costs; tower erection costs; costs associated with the construction of a fence or other provisions for security; the cost of drawing telephone and electric services to the New Tower; tower grounding costs; the cost of building and other permits and performance bonds or payments; the costs of erosion control and drainage; landscaping costs; the cost of environmental and geotechnical studies; the costs of all design and engineering plans and specifications and surveys; title examination and title commitment costs; zoning costs including without limitation, filing and application fees;

recording costs; and costs incurred regarding FAA and FCC compliance, and any and all other required Federal regulatory filings.

2.7 Rent Abatement. In consideration for LESSEE's conveyance of New Tower to LESSOR, LESSEE shall receive rent abatements equal to one hundred eighty (180) months as per Sections 3 and 5 of this Agreement. LESSEE shall begin actual rental payments in the one hundred eighty-first (181st) month following the Commencement Date.

3. TERM. This Agreement shall be effective as of the date of execution by both parties, provided, however, the initial term shall be for five (5) years and shall commence on the Commencement Date (as hereinafter defined) at which time rental payments, subject to Section 2.7 herein, will be due at an annual rental of Seven Thousand Eight Hundred and no/100 Dollars ($7,800.00) to be paid in equal monthly installments on the first day of the month, in advance, to LESSOR or to such other person, firm or place as the LESSOR may, from time to time, designate in writing at least thirty (30) days in advance of any rental payment date. The Commencement Date is defined as the first (1st) day of the month following the date this Agreement is executed by the parties or the first (1st) day of the month following the date LESSEE is granted a building permit by the governmental agency charged with issuing such permits, whichever event occurs last.

If permitted by the local utility company servicing the Property, LESSEE shall furnish and install an electrical submeter at the Property for the measurement of electrical power used by LESSEE's installation. LESSEE shall pay for its own power consumption used thirty (30) days after receipt of an invoice from LESSOR indicating the usage amount.

4. EXTENSIONS. This Agreement shall automatically be extended for four (4) additional five (5) year terms unless the LESSEE terminates it at the end of the then current term by giving the LESSOR written notice of the intent to terminate at least six (6) months prior to the end of the then current term.

5. EXTENSION RENTALS. Subject to Section 2.7 herein, the annual rental for the first (1st) five (5) year extension term shall be increased to Eight Thousand Nine Hundred Seventy and no/100 Dollars ($8,970.00); the second (2nd) five (5) year extension term shall be increased to Ten Thousand Three Hundred Fifteen and 50/100 Dollars ($10,315.50); the third (3rd) five (5) year extension term shall be increased to Eleven Thousand Eight Hundred Sixty-Two and 83/100 Dollars ($11,862.83); and the fourth (4th) five (5) year extension shall be increased to Thirteen Thousand Six Hundred Forty- Two and 25/100 Dollars ($13,642.25).

6. ADDITIONAL EXTENSIONS. If at the end of the fourth (4th) five (5) year extension term this Agreement has not been terminated by either Party by giving to the other written notice of an intention to terminate it at least six (6) months prior to the end of such term, this Agreement shall continue in force upon the same covenants, terms and conditions for a further term of five (5) years and for five (5) year terms thereafter until terminated by either Party by giving to the other written notice of its intention to so terminate at least six (6) months prior to the end of such term. Annual rental for each such additional five (5) year term shall be equal to 115% of the annual rental payable with respect to the immediately preceding five (5) year term.

7. USE; GOVERNMENTAL APPROVALS. LESSEE shall use the Premises for the purpose of constructing, maintaining and operating a communications facility and uses incidental and all necessary appurtenances. A security fence consisting of chain link construction or similar but comparable construction may be placed around the perimeter of the Premises at the discretion of LESSEE (not including the access easement). All improvements shall be at LESSEE's expense and the installation of all improvements shall be at the discretion and option of the LESSEE. LESSEE shall have the right to replace, repair, add or otherwise modify its equipment or any portion thereof, whether the equipment is specified or not on any exhibit attached hereto, during the term of this Agreement. LESSEE will maintain the Premises in a good condition reasonable wear and tear excepted. LESSOR will maintain the Property, excluding the Premises, in good condition, reasonable wear and tear excepted. It is understood and agreed that LESSEE's ability to use the Property is contingent upon its obtaining after the execution date of this Agreement all of the certificates, permits and other approvals (collectively the "Governmental Approvals") that may be required by any

Federal, State or Local authorities as well as satisfactory soil boring tests which will permit LESSEE use of the Premises as set forth above. LESSOR shall cooperate with LESSEE in its effort to obtain such approvals and shall take no action which would adversely affect the status of the Property with respect to the proposed use by LESSEE. In the event that any of such applications for such Governmental Approvals should be finally rejected or LESSEE determines that such Governmental Approvals may not be obtained in a timely manner or any Governmental Approval issued to LESSEE is canceled, expires, lapses, or is otherwise withdrawn or terminated by governmental authority or soil boring tests are found to be unsatisfactory so that LESSEE in its sole discretion will be unable to use the Premises for its intended purposes or the LESSEE determines that the Property is no longer technically compatible for its intended use, LESSEE shall have the right to terminate this Agreement. Notice of the LESSEE's exercise of its right to terminate shall be given to LESSOR in writing by certified mail, return receipt requested, and shall be effective upon the mailing of such notice by the LESSEE. All rentals paid to said termination date shall be retained by the LESSOR. Upon such termination, this Agreement shall become null and void and all the Parties shall have no further obligations including the payment of money, to each other.

8. ACCESS TO NEW TOWER. LESSOR agrees the LESSEE shall have free access to the New Tower at all times for the purpose of installing and maintaining the said equipment. LESSOR shall furnish LESSEE with necessary means of access for the purpose of ingress and egress to this site and New Tower location. It is agreed, however, that only authorized engineers, employees or properly authorized contractors of LESSEE or persons under their direct supervision will be permitted to enter said premises.

9. NEW TOWER COMPLIANCE. LESSOR covenants that it will keep the New Tower in good repair as required by all federal, state, county and local laws. The LESSOR shall also comply with all rules and regulations enforced by the Federal Communications Commission with regard to the lighting, marking and painting of towers. If the LESSOR fails to make such repairs including maintenance the LESSEE may make the repairs and the costs thereof shall be payable to the LESSEE by the LESSOR on demand. If the LESSOR does not make payment to the LESSEE within ten (10) days after such demand, the LESSEE shall have the right to deduct the costs of the repairs from the succeeding monthly rental amounts normally due from the LESSEE to the LESSOR.

No materials may be used in the installation of the antennas or transmission lines that will cause corrosion or rust or deterioration of the New Tower structure or its appurtenances.

All antenna(s) on the New Tower must be identified by a marking fastened securely to its bracket on the New Tower and all transmission lines are to be tagged at the conduit opening where it enters any user's equipment space.

10. INTERFERENCE. LESSEE agrees to have installed radio equipment of the type and frequency which will not cause measurable interference to the equipment of the LESSOR, including LESSOR's planned installation of additional equipment, or other lessees of the Property existing as of the date this Agreement is executed by the Parties. In the event LESSEE's equipment causes such interference, and after LESSOR has notified LESSEE of such interference, LESSEE will take all steps necessary to correct and eliminate the interference. LESSOR agrees that LESSOR and any other tenants of the property who currently have or in the future take possession of the Property will be permitted to install only such radio equipment that is of the type and frequency which will not cause measurable interference to the existing equipment of the LESSEE. The Parties acknowledge that there will not be an adequate remedy at law for non-compliance with the provisions of this paragraph and therefore, either Party shall have the right to specifically enforce the provisions of this paragraph in a court of competent jurisdiction.

11. LESSEE COMPLIANCE. All installations and operation in connection with this Agreement by LESSEE shall meet with all applicable Rules and Regulations of the Federal Communications Commission, Federal Aviation Agency and all applicable codes and regulations of the township, county and state concerned. Under this Agreement, the LESSOR assumes no responsibility for the licensing, operation, and/or maintenance of LESSEE's radio equipment.

12. INDEMNIFICATION. To the extent permitted by law, each Party shall indemnify and hold the other harmless against any claim of liability or loss from personal injury or property damage resulting from or arising out

of the use and occupancy of the Premises or the Property by the Party, its servants or agents, excepting, however, such claims or damages as may be due to or caused by the acts or omissions of the other Party, or its servants or agents.

13. INSURANCE. The Parties hereby waive any and all rights of action for negligence against the other which may hereafter arise on account of damage to the premises or to property, resulting from any fire, or other casualty of the kind covered by standard fire insurance policies with extended coverage, regardless of whether or not, or in what amounts, such insurance is now or hereafter carried by the Parties, or either of them. LESSOR and LESSEE each agree that at its own cost and expense, each will maintain comprehensive general liability and property liability insurance with liability limits of not less than $1,000,000 for injury to or death of one or more persons in any one occurrence and $500,000 for damage or destruction to property in any one occurrence. LESSOR agrees that LESSEE may self-insure against any loss or damage which could be covered by a comprehensive general public liability insurance policy.

14. ANNUAL TERMINATION. Not withstanding anything to the contrary contained herein, provided LESSEE is not in default hereunder and shall have paid all rents and sums due and payable to the LESSOR by LESSEE, LESSEE shall have the right to terminate this Agreement upon the annual anniversary of this Agreement provided that three (3) months prior notice is given the LESSOR.

15. REMOVAL UPON TERMINATION. LESSEE, upon termination of the Agreement, shall, within ninety (90) days, remove its building(s), antenna structure(s) (except footings), fixtures and all personal property and otherwise restore the Property to its original condition, reasonable wear and tear excepted. LESSOR agrees and acknowledges that all of the equipment, fixtures and personal property of the LESSEE shall remain the personal property of the LESSEE and the LESSEE shall have the right to remove the same, whether or not said items are considered fixtures and attachments to real property under applicable law. If such time for removal causes LESSEE to remain on the Premises after termination of this Agreement, LESSEE shall pay rent at the then existing monthly rate or on the existing monthly pro-rata basis if based upon a longer payment term, until such time as the removal of the building, antenna structure, fixtures and all personal property are completed.

16. RIGHT OF FIRST REFUSAL. [INTENTIONALLY DELETED]

17. RIGHTS UPON SALE. Should the LESSOR, at any time during the term of this Agreement, decide to sell all or any part of the Property to a purchaser other than LESSEE, such sale shall be under and subject to this Agreement and LESSEE's rights hereunder, and any sale by the LESSOR of the portion of this Property underlying the right-of-way herein granted shall be under and subject to the right of the LESSEE in and to such right-of-way.

18. QUIET ENJOYMENT. LESSOR covenants that LESSEE, on paying the rent and performing the covenants shall peaceably and quietly have, hold and enjoy the Premises.

19. TITLE. LESSOR covenants that LESSOR is seized of good and sufficient title and interest to the Property and has full authority to enter into and execute this Agreement. LESSOR further covenants that there are no other liens, judgments or impediments of title on the Property, or affecting LESSOR's title to the same. and that there are no covenants, easements or restrictions which prevent the use of the Premises by the LESSEE as set forth above.

20. INTEGRATION. It is agreed and understood that this Agreement contains all agreements, promises and understandings between the LESSOR and LESSEE and that no verbal or oral agreements, promises or understandings shall be binding upon either the LESSOR or LESSEE in any dispute, controversy or proceeding at law, and any addition, variation or modification to this Agreement shall be void and ineffective unless made in writing signed by the Parties. In the event any provision of the Agreement is found to be invalid or unenforceable, such finding shall not affect the validity and enforceability of the remaining provisions of this Agreement. The failure of either Party to insist upon strict performance of any of the terms or conditions of this Agreement or to exercise any of its rights under the Agreement shall not waive such rights and such Party shall have the right to enforce such rights at any time and take such action as may be lawful and authorized under this Agreement, either in law or in equity.

21. GOVERNING LAW. This Agreement and the performance thereof shall be governed, interpreted, construed and regulated by the laws of the State in which the Property is located.

22. ASSIGNMENT. This Agreement may be sold, assigned or transferred by the LESSEE without any approval or consent of the LESSOR to the LESSEE's principal, affiliates, subsidiaries of its principal or to any entity which acquires all or substantially all of LESSEE's assets in the market defined by the Federal Communications Commission in which the Property is located by reason of a merger, acquisition or other business reorganization. As to other parties, this Agreement may not be sold, assigned or transferred without the written consent of the LESSOR, which such consent will not be unreasonably withheld or delayed.

23. NOTICES. All notices hereunder must be in writing and shall be deemed validly given if sent by certified mail, return receipt requested or by commercial courier, provided the courier's regular business is delivery service and provided further that it guarantees delivery to the addressee by the end of the next business day following the courier's receipt from the sender, addressed as follows (or any other address that the Party to be notified may have designated to the sender by like notice):

LESSOR: City of Rockwall
385 S. Goliad
Rockwall, Texas 75087
ATTN: Assistant City Manager

LESSEE: Dallas MTA, L.P.
d/b/a Verizon Wireless
180 Washington Valley Road
Bedminster, New Jersey 07921
Attention: Network Real Estate

Notice shall be effective upon mailing or delivering the same to a commercial courier, as permitted above.

24. DEFAULT. In the event there is a default by the LESSEE with respect to any of the provisions of this Agreement or its obligations under it, including the payment of rent, the LESSOR shall give LESSEE written notice of such default. After receipt of such written notice, the LESSEE shall have fifteen (15) days in which to cure any monetary default and thirty (30) days in which to cure any non-monetary default, provided the LESSEE shall have such extended period as may be required beyond the thirty (30) days if the nature of the cure is such that it reasonably requires more than thirty (30) days and the LESSEE commences the cure within the thirty (30) day period and thereafter continuously and diligently pursues the cure to completion. The LESSOR may not maintain any action or effect any remedies for default against the LESSEE unless and until the LESSEE has failed to cure the same within the time periods provided in this paragraph.

25. SUCCESSORS. This Agreement shall extend to and bind the heirs, personal representatives, successors and assigns of the Parties hereto.

26. SUBORDINATION AND NON-DISTURBANCE. At LESSOR's option, this Agreement shall be subordinate to any mortgage or other security interest by LESSOR which from time to time may encumber all or part of the Property or right-of-way; provided, however, every such mortgage or other security interest shall recognize the validity of this Agreement in the event of a foreclosure of LESSOR's interest and also LESSEE's right to remain in occupancy of and have access to the Premises as long as LESSEE is not in default of this Agreement. LESSEE shall execute whatever instruments may reasonably be required to evidence this subordination clause. In the event the Property is encumbered by a mortgage or other security interest, the LESSOR immediately after this Agreement is

executed, will obtain and furnish to LESSEE, a non-disturbance agreement for each such mortgage or other security interest in recordable form. In the event the LESSOR defaults in the payment and/or other performance of any mortgage or other security interest encumbering the Property, LESSEE, may, at its sole option and without obligation, cure or correct LESSOR's default and upon doing so, LESSEE shall be subrogated to any and all rights, titles, liens and equities of the holders of such mortgage or security interest and the LESSEE shall be entitled to deduct and setoff against all rents that may otherwise become due under this Agreement the sums paid by LESSEE to cure or correct such defaults.

27. RECORDING. LESSOR agrees to execute a Memorandum of this Lease Agreement which LESSEE may record with the appropriate Recording Officer The date set forth in the Memorandum of Lease is for recording purposes only and bears no reference to commencement of either term or rent payments.

28. ENVIRONMENTAL.

a. LESSOR will be responsible for all obligations of compliance with any and all environmental and industrial hygiene laws, including any regulations, guidelines, standards, or policies of any governmental authorities regulating or imposing standards of liability or standards of conduct with regard to any environmental or industrial hygiene conditions or concerns as may now or at any time hereafter be in effect, that are or were in any way related to activity now conducted in, on, or in any way related to the Property, unless such conditions or concerns are caused by the activities of the LESSEE.

b. To the extent permitted by law, LESSOR shall hold LESSEE harmless and indemnify the LESSEE from and assume all duties, responsibility and liability at LESSOR's sole cost and expense, for all duties, responsibilities, and liability (for payment of penalties, sanctions, forfeitures, losses, costs, or damages) and for responding to any action, notice, claim, order, summons, citation, directive, litigation, investigation or proceeding, including without limitation any claims in strict liability, which is in any way related to: a) failure to comply with any environmental or industrial hygiene law, including without limitation any regulations, guidelines, standards, or policies of any governmental authorities regulating or imposing standards of liability or standards of conduct with regard to any environmental or industrial hygiene concerns or conditions as may now or at any time hereafter be in effect, unless such compliance results from conditions caused by the LESSEE; and b) any environmental or industrial hygiene conditions arising out of or in any way related to the condition of the Property or activities conducted thereon, unless such environmental conditions are caused by the LESSEE.

29. CASUALTY. In the event of damage by fire or other casualty to the Premises that cannot reasonably be expected to be repaired within forty-five (45) days following same or, if the Property is damaged by fire or other casualty so that such damage may reasonably be expected to disrupt LESSEE's operations at the Premises for more than forty-five (45) days, then LESSEE may at any time following such fire or other casualty, provided LESSOR has not completed the restoration required to permit LESSEE to resume its operation at the Premises, terminate this Lease upon fifteen (15) days written notice to LESSOR. Any such notice of termination shall cause this Lease to expire with the same force and effect as though the date set forth in such notice were the date originally set as the expiration date of this Lease and the parties shall make an appropriate adjustment, as of such termination date, with respect to payments due to the other under this Lease. Notwithstanding the foregoing, all rental shall abate during the period of such fire or other casualty.

30. CONDEMNATION. In the event of any condemnation of the Property, LESSEE may terminate this Lease upon fifteen (15) days written notice to LESSOR if such condemnation may reasonably be expected to disrupt LESSEE's operations at the Premises for more than forty-five (45) days. LESSEE may on its own behalf make a claim in any condemnation proceeding involving the Premises for losses related to the antennas, equipment, its relocation costs and its damages and losses (but not for the loss of its leasehold interest). Any such notice of termination shall cause this Lease to expire with the same force and effect as though the date set forth in such notice were the date originally set as the expiration date of this Lease and the parties shall make an appropriate adjustment as of such termination date with respect to payments due to the other under this Lease.

31. SUBMISSION OF LEASE. The submission of this Lease for examination does not constitute an offer to lease the Premises and this Lease becomes effective only upon the full execution of this Lease by the Parties. If any provision herein is invalid, it shall be considered deleted from this Lease and shall not invalidate the remaining provisions of this Lease. Each of the Parties hereto warrants to the other that the person or persons executing this Lease on behalf of such party has the full right, power and authority to enter into and execute this Lease on such Party's behalf and that no consent from any other person or entity is necessary as a condition precedent to the legal effect of this Lease.

32. APPLICABLE LAWS. LESSEE shall use the Premises as may be required or as permitted by applicable laws, rules and regulations. LESSOR agrees to keep the Property in conformance with all applicable, laws, rules and regulations and agrees to reasonably cooperate with the LESSEE regarding any compliance required by the LESSEE in respect to its use of the Premises.

33. SURVIVAL. The provisions of the Agreement relating to indemnification from one Party to the other Party shall survive any termination or expiration of this Agreement. Additionally, any provisions of this Agreement which require performance subsequent to the termination or expiration of this Agreement shall also survive such termination or expiration.

34. CAPTIONS. The captions contained in this Agreement are inserted for convenience only and are not intended to be part of the Agreement. They shall not affect or be utilized in the construction or interpretation of the Agreement.

[SIGNATURE PAGE TO FOLLOW]

IN WITNESS WHEREOF, the Parties hereto have set their hands and affixed their respective seals the day and year first above written.

Exhibit "A"

DESCRIPTION PARENT PARCEL:

BEING a tract of land situated in the B.J.T. Lewis Survey, Abstract No. 225, and the B.F. Boydstun Survey, Abstract No. 14, City of Rockwall, Rockwall County, Texas, also being situated in Lot 1, Block A, Central Fire Station Addition, an addition to the City of Rockwall, Rockwall County, Texas, as recorded in Cabinet B, Slide 48, Plat Records, Rockwall County, Texas, and being out of and a portion of that certain tract of land conveyed to the City of Rockwall by Deed dated October 29, 1976, and recorded in Volume 124, Page 449, Deed Records, Rockwall County, Texas.

DESCRIPTION LEASE AREA:

BEING a tract of land situated in the B.J.T. Lewis Survey, Abstract No. 225, City of Rockwall, Rockwall County, Texas, also being situated in Lot 1, Block A, Central Fire Station Addition, an addition to the City of Rockwall, Rockwall County, Texas, as recorded in Cabinet B, Slide 48, Plat Records, Rockwall County, Texas, and being out of and a portion of that certain tract of land conveyed to the City of Rockwall by Deed dated October 29, 1976, and recorded in Volume 124, Page 449, Deed Records, Rockwall County, Texas, and being more particularly described by metes and bounds as follows:

COMMENCING at a 1/2" iron rod found for the southwest corner of said Lot 1, Block A, Central Fire Station Addition, same being the most southerly southeast corner of Lot 1, Block A, Rockwall Main Post Office Addition, an addition to the City of Rockwall, Rockwall County, Texas, as recorded in Cabinet B, Slide 369, Plat Records, Rockwall County, Texas, and being on the north right-of-way line of Boydstun Avenue (60' right-of-way);

THENCE along the west line of said Lot 1, Block A, Central Fire Station Addition, also being the most southerly east line of Lot 1, Block A, Rockwall Main Post Office Addition, North 00 degrees 30 minutes 31 seconds West, a distance of 18.46 feet to a Point;

THENCE through the interior of said Lot 1, Block A, Central Fire Station Addition, North 89 degrees 29 minutes 29 seconds East, a distance of 42.20 feet to a 5/8" iron rod set with cap marked "WEBB-4125" for the POINT OF BEGINNING hereof;

THENCE continuing through the interior of said Lot 1, Block A, Central Fire Station Addition the following four (4) courses:

1. South 89 degrees 29 minutes 29 seconds West, a distance of 20.00 feet to a 5/8" iron rod set with cap marked "WEBB-4125";
2. North 00 degrees 30 minutes 31 seconds West, a distance of 25.00 feet to a 5/8" iron rod set with cap marked "WEBB-4125";
3. North 89 degrees 29 minutes 29 seconds East, a distance of 20.00 feet to a 5/8" iron rod set with cap marked "WEBB-4125";
4. South 00 degrees 30 minutes 31 seconds East, a distance of 25.00 feet to the POINT OF BEGINNING hereof and containing 0.0115 acres or 500 square feet of land, more or less.

171

DESCRIPTION GENERATOR PAD AREA:

BEING a tract of land situated in the B.J.T. Lewis Survey, Abstract No. 225, City of Rockwall, Rockwall County, Texas, also being situated in Lot 1, Block A, Central Fire Station Addition, an addition to the City of Rockwall, Rockwall County, Texas, as recorded in Cabinet B, Slide 48, Plat Records, Rockwall County, Texas, and being out of and a portion of that certain tract of land conveyed to the City of Rockwall by Deed dated October 29, 1976, and recorded in Volume 124, Page 449, Deed Records, Rockwall County, Texas, and being more particularly described by metes and bounds as follows:

COMMENCING at a 1/2" iron rod found for the southwest corner of said Lot 1, Block A, Central Fire Station Addition, same being the most southerly southeast corner of Lot 1, Block A, Rockwall Main Post Office Addition, an addition to the City of Rockwall, Rockwall County, Texas, as recorded in Cabinet B, Slide 369, Plat Records, Rockwall County, Texas, and being on the north right-of-way line of Boydstun Avenue (60' right-of-way);

THENCE along the west line of said Lot 1, Block A, Central Fire Station Addition, also being the most southerly east line of Lot 1, Block A, Rockwall Main Post Office Addition, North 00 degrees 30 minutes 31 seconds West, a distance of 18.46 feet to a Point;

THENCE through the interior of said Lot 1, Block A, Central Fire Station Addition, North 89 degrees 29 minutes 29 seconds East, a distance of 12.20 feet to the POINT OF BEGINNING hereof;

THENCE continuing through the interior of said Lot 1, Block A, Central Fire Station Addition the following four (4) courses:

1. North 89 degrees 29 minutes 29 seconds East, a distance of 5.00 feet to a Point;
2. South 00 degrees 30 minutes 31 seconds East, a distance of 15.00 feet to a Point;
3. South 89 degrees 29 minutes 29 seconds West, a distance of 5.00 feet to a Point;
4. North 00 degrees 30 minutes 31 seconds West, a distance of 15.00 feet to the POINT OF BEGINNING hereof and containing 0.0017 acres or 75 square feet of land, more or less.

DESCRIPTION 5' UTILITY EASEMENT:

BEING a tract of land situated in the B.J.T. Lewis Survey, Abstract No. 225, City of Rockwall, Rockwall County, Texas, also being situated in Lot 1, Block A, Central Fire Station Addition, an addition to the City of Rockwall, Rockwall County, Texas, as recorded in Cabinet B, Slide 48, Plat Records, Rockwall County, Texas, and being out of and a portion of that certain tract of land conveyed to the City of Rockwall by Deed dated October 29, 1976, and recorded in Volume 124, Page 449, Deed Records, Rockwall County, Texas, and being more particularly described by metes and bounds as follows:

COMMENCING at a 1/2" iron rod found for the southwest corner of said Lot 1, Block A, Central Fire Station Addition, same being the most southerly southeast corner of Lot 1, Block A, Rockwall Main Post Office Addition, an addition to the City of Rockwall, Rockwall County, Texas, as recorded in Cabinet B, Slide 369, Plat Records, Rockwall County, Texas, and being on the north right-of-way line of Boydstun Avenue (60' right-of-way);

THENCE along the west line of said Lot 1, Block A, Central Fire Station Addition, also being the most southerly east line of Lot 1, Block A, Rockwall Main Post Office Addition, North 00 degrees 30 minutes 31 seconds West, a distance of 18.46 feet to the POINT OF BEGINNING hereof;

THENCE continuing along the west line of said Lot 1, Block A, Central Fire Station Addition, also being the most southerly east line of Lot 1, Block A, Rockwall Main Post Office Addition, North 00 degrees 30 minutes 31 seconds West, a distance of 5.00 feet to a Point;

THENCE through the interior of said Lot 1, Block A, Central Fire Station Addition the following three (3) courses:

1. North 89 degrees 29 minutes 29 seconds East, a distance of 22.20 feet to a Point, same being on the west line of the lease area described hereon;
2. Along the west line of said lease area, South 00 degrees 30 minutes 31 seconds East, a distance of 5.00 feet to a 5/8" iron rod set with cap marked "WEBB-4125" for the southwest corner thereof;
3. South 89 degrees 29 minutes 29 seconds West, a distance of 22.20 feet to the POINT OF BEGINNING hereof and containing 0.0025 acres or 111 square feet of land, more or less.

DESCRIPTION 15' ACCESS EASEMENT:

BEING a tract of land situated in the B.J.T. Lewis Survey, Abstract No. 225, City of Rockwall, Rockwall County, Texas, also being situated in Lot 1, Block A, Central Fire Station Addition, an addition to the City of Rockwall, Rockwall County, Texas, as recorded in Cabinet B, Slide 48, Plat Records, Rockwall County, Texas, and being out of and a portion of that certain tract of land conveyed to the City of Rockwall by Deed dated October 29, 1976, and recorded in Volume 124, Page 449, Deed Records, Rockwall County, Texas, and being more particularly described by metes and bounds as follows:

COMMENCING at a 1/2" iron rod found for the southwest corner of said Lot 1, Block A, Central Fire Station Addition, same being the most southerly southeast corner of Lot 1, Block A, Rockwall Main Post Office Addition, an addition to the City of Rockwall, Rockwall County, Texas, as recorded in Cabinet B, Slide 369, Plat Records, Rockwall County, Texas, and being on the north right-of-way line of Boydstun Avenue (60' right-of-way);

THENCE along the north right-of-way line of Boydstun Avenue, North 88 degrees 41 minutes 23 seconds East, a distance of 114.53 feet to the POINT OF BEGINNING hereof;

THENCE through the interior of said Lot 1, Block A, Central Fire Station Addition the following ten (10) courses:

1. North 00 degrees 30 minutes 31 seconds West, a distance of 37.54 feet to a Point;
2. South 89 degrees 45 minutes 47 seconds West, a distance of 65.92 feet to a Point;
3. South 38 degrees 09 minutes 04 seconds West, a distance of 10.25 feet to a Point, same being on the east line of the lease area described hereon;
4. Along the east line of said lease area, North 00 degrees 30 minutes 31 seconds West, a distance of 12.01 feet to a 5/8" iron rod set with cap marked "WEBB-4125" for the northeast corner thereof;
5. Along the north line of said lease area, South 89 degrees 29 minutes 29 seconds West, a distance of 14.54 feet to a Point;
6. North 24 degrees 09 minutes 29 seconds West, a distance of 20.41 feet to a Point, same being on the south line of the tower area described hereon;
7. Along the south line of said tower area, North 89 degrees 29 minutes 29 seconds East, a distance of 15.53 feet to a Point for the southeast corner thereof;
8. South 40 degrees 25 minutes 45 seconds East, a distance of 10.00 feet to a Point;
9. North 89 degrees 45 minutes 47 seconds East, a distance of 88.10 feet to a Point;
10. South 00 degrees 30 minutes 31 seconds East, a distance of 52.26 feet to a Point, same being on the north right-of-way line of Boydstun Avenue (60' right-of-way);

THENCE along the north right-of-way line of Boydstun Avenue, South 88 degrees 41 minutes 23 seconds West, a distance of 15.00 feet to the POINT OF BEGINNING hereof and containing 0.0508 acres or 2214 square feet of land, more or less.

DESCRIPTION TOWER AREA:

BEING a tract of land situated in the B.J.T. Lewis Survey, Abstract No. 225, City of Rockwall, Rockwall County, Texas, also being situated in Lot 1, Block A, Central Fire Station Addition, an addition to the City of Rockwall, Rockwall County, Texas, as recorded in Cabinet B, Slide 48, Plat Records, Rockwall County, Texas, and being out of and a portion of that certain tract of land conveyed to the City of Rockwall by Deed dated October 29, 1976, and recorded in Volume 124, Page 449, Deed Records, Rockwall County, Texas, and being more particularly described by metes and bounds as follows:

COMMENCING at a 1/2" iron rod found for the southwest corner of said Lot 1, Block A, Central Fire Station Addition, same being the most southerly southeast corner of Lot 1, Block A, Rockwall Main Post Office Addition, an addition to the City of Rockwall, Rockwall County, Texas, as recorded in Cabinet B, Slide 369, Plat Records, Rockwall County, Texas, and being on the north right-of-way line of Boydstun Avenue (60 right-of-way);

THENCE along the west line of said Lot 1, Block A, Central Fire Station Addition, also being the most southerly east line of Lot 1, Block A, Rockwall Main Post Office Addition, North 00 degrees 30 minutes 31 seconds West, a distance of 62.16 feet to the POINT OF BEGINNING hereof;

THENCE continuing along the west line of said Lot 1, Block A, Central Fire Station Addition, also being the most southerly east line of Lot 1, Block A, Rockwall Main Post Office Addition, North 00 degrees 30 minutes 31 seconds West, a distance of 35.00 feet to a Point;

THENCE through the interior of said Lot 1, Block A, Central Fire Station Addition, the following three (3) courses:

1. North 89 degrees 29 minutes 29 seconds East, a distance of 35.00 feet to a Point;
2. South 00 degrees 30 minutes 31 seconds East, a distance of 35.00 feet to a Point;
3. South 89 degrees 29 minutes 29 seconds West, a distance of 35.00 feet to the POINT OF BEGINNING hereof and containing 0.0281 acres or 1,225 square feet of land, more or less.

DESCRIPTION 5' COAX EASEMENT:

BEING a tract of land situated in the B.J.T. Lewis Survey, Abstract No. 225, City of Rockwall, Rockwall County, Texas, also being situated in Lot 1, Block A, Central Fire Station Addition, an addition to the City of Rockwall, Rockwall County, Texas, as recorded in Cabinet B, Slide 48, Plat Records, Rockwall County, Texas, and being out of and a portion of that certain tract of land conveyed to the City of Rockwall by Deed dated October 29, 1976, and recorded in Volume 124, Page 449, Deed Records, Rockwall County, Texas, and being more particularly described by metes and bounds as follows:

COMMENCING at a 1/2" iron rod found for the southwest corner of said Lot 1, Block A, Central Fire Station Addition, same being the most southerly southeast corner of Lot 1, Block A, Rockwall Main Post Office Addition, an addition to the City of Rockwall, Rockwall County, Texas, as recorded in Cabinet B, Slide 369, Plat Records, Rockwall County, Texas, and being on the north right-of-way line of Boydstun Avenue (60' right-of-way);

THENCE along the west line of said Lot 1, Block A, Central Fire Station Addition, also being the most southerly east line of Lot 1, Block A, Rockwall Main Post Office Addition, North 00 degrees 30 minutes 31 seconds West, a distance of 18.46 feet to a Point;

THENCE through the interior of said Lot 1, Block A, Central Fire Station Addition the following two (2) courses:

North 89 degrees 29 minutes 29 seconds East, a distance of 22.20 feet to a 5/8" iron rod set with cap marked "WEBB-4125" for the southwest corner of the lease area described hereon;

Along the west line of said lease area, North 00 degrees 30 minutes 31 seconds West, a distance of 25.00 feet to a 5/8" iron rod set with cap marked "WEBB-4125" for the northwest corner of said lease area for the POINT OF BEGINNING hereof;

THENCE continuing through the interior of said Lot 1, Block A, Central Fire Station Addition the following four (4) courses:

1. North 24 degrees 09 minutes 29 seconds West, a distance of 20.41 feet to a Point, same being on the south line of the tower area described hereon;
2. Along the south line of said tower area, North 89 degrees 29 minutes 29 seconds East, a distance of 5.46 feet to a Point;
3. South 24 degrees 09 minutes 29 seconds East, a distance of 20.41 feet to a Point, same being on the north line of said lease area;
4. Along the north line of said lease area, South 89 degrees 29 minutes 29 seconds West, a distance of 5.46 feet to the POINT OF BEGINNING hereof and containing 0.0023 acres or 102 square feet of land, more or less.

Rockwall Central 16-7551B

LESSEE is authorized to install and maintain the following equipment:

ANTENNA INFORMATION

ANTENNAS: (6) PCS1065-19-2 @ 190'
Orientation: 350, 110, 230

( ) _____ Solid dish
below _____', Azimuth: _____ NA

Diameter of transmission line: Not to exceed 1 5/8 "

Exhibit "C1" to Agreement

New Tower Description and Specifications

Construction Drawings to be attached

Proposed 260' (height above ground level) self support tower

New Tower Description and Specifications

General

LESSOR will utilize the proposed New Tower structure to mount antennas and associated transmission lines for a proposed trunked radio system and various conventional radio systems. The proposed New Tower structure must be suitable for the intended purpose and shall meet or exceed all applicable FAA and FCC regulations, structural standards of TIA/EIA-222, and shall comply with all codes of the City of Rockwall, Texas.

Tower Description

The proposed New Tower will be a self-supporting structure with a height above ground of 260 feet. Top mounted antennas will have a tip height of up to 284 feet above ground. All work and materials pertaining to the New Tower shall meet or exceed the standards to TIA/EIA-222. LESSEE will submit a complete New Tower design to LESSOR for review and approval. With its design, LESSEE shall include a complete description of the New Tower and foundation designs based upon the soil analysis provided by the LESSOR. The New Tower design shall include 1.) New Tower structure with required foundation, 2.) New Tower and foundation strength analysis, 3.) grounding ring network for the New Tower structure and New Tower mounted antennas and coaxial cables, 4.) cable support ladderway with cable mounting hardware to support the coaxial cables on the New Tower, and 5.) an ice bridge to support the coaxial cables from the New Tower to the equipment shelter.

Marking and Lighting

The New Tower shall conform to the marking and lighting requirements specified by the respective FAA Aeronautical Studies and FAA/FCC requirements.

Drainage

The New Tower installation shall provide drainage for rainwater in accordance with applicable City of Rockwall Code.

Soil Samples and Treatment

The LESSOR has commissioned a soil sample analysis, for the proposed tower location. LESSEE shall review the soil analysis report and perform any treatment necessary to convert the existing soil to adequate bearing and stable soil. The New Tower foundation shall be designed based upon the soil analysis report.

LESSEE shall specify the concrete mix to be used. In addition, LESSEE shall submit to the LESSOR, a core sample of the concrete mix used for the foundation.

Exhibit "C1" to Agreement (continued)

Foundation
The New Tower foundation shall be designed based upon the soil conditions which prevail at the installation site for the maximum combined dead and live load expected from the structure.

New Tower Structural Materials
All steel members shall be of structural quality and shall meet ASTM and AISC standards. New Tower sections shall be of welded or bolted construction. All welds shall meet AWS standards. Bracing for New Tower sections shall be either of X-type or K-type configuration. All braces shall be manufactured from steel which has a minimum yield strength of 50,000 psi. All material shall be of hot dip galvanized construction, with minimum zinc coating of 2 oz per square foot. All material shall be hot dip galvanized after fabrication. All galvanizing shall be done in compliance with TIA and ASTM specifications.

New Tower Access
The New Tower shall be provided with a climbing ladder and safety climbing device, which meets the design requirements of the ANSI standard for Safety Code for Fixed Ladders.

Loading
The New Tower shall be designed in accordance with TIA/EIA-222 for a basic wind speed of 110 miles per hour with 0.5 inches of radial ice. The New Tower shall be designed to support the loading as required for the LESSOR's proposed antenna systems and anticipated future growth. All side-mounted antennas will utilize an antenna standoff of 6 feet. The following is a list of the antennas and based mounting heights.

Antenna Make/Model	Base Height (AGL)	Status
Decibel Products DB638C	260 ft.	Planned
Decibel Products ASP682	260 ft.	Planned
Decibel Products DB638C	260 ft.	Future
Decibel Products DB638C	230 ft.	Planned
Decibel Products DB638C	230 ft.	Planned
Decibel Products DB638C	230 ft.	Future
Decibel Products ASP682	200 ft.	Planned
Decibel Products ASP682	200 ft.	Planned
Decibel Products ASP682	200 ft.	Future
Decibel Products ASP680	200 ft.	Future

Grounding
The New Tower structure shall be grounded in accordance with the Motorola R-56 grounding standard for antenna towers. The complete grounding plan and design shall be submitted to the LESSOR for review and approval.

Exhibit "C2" to Agreement

BILL OF SALE

THIS BILL OF SALE (the "Bill of Sale") is made as of the ____ day of _____, 200__, (the "Effective Date") by DALLAS MTA, L.P., d/b/a Verizon Wireless, with its offices at 180 Washington Valley Road, Bedminster, New Jersey 07921 ("Verizon Wireless") in favor of the City of Rockwall, a Texas Municipal Corporation, with its principal mailing address of 385 South Goliad Street, Rockwall, Texas 75087 ("City").

For good and valuable consideration received by Verizon Wireless, the receipt and sufficiency of which are hereby acknowledged, and intending to be legally bound hereby:

1. Verizon Wireless hereby sells, assigns, transfers, conveys and delivers to City all of Verizon Wireless' right, title and interest in and to the _____ foot tower more particularly described and constructed on the land described in Exhibit A to Bill of Sale attached hereto and incorporated herein by this reference and each and every component thereof (collectively, "New Tower").

2. Verizon Wireless hereby represents and warrants as follows:

   (a) Verizon Wireless owns and has merchantable title to the New Tower free and clear of any and all liens, encumbrances and rights of third parties; and

   (b) The New Tower complies with all applicable laws and was constructed in strict accordance with the plans and specifications approved by City.

IN WITNESS WHEREOF, Verizon Wireless has executed this Bill of Sale as of the day and year first written above.

Legal Description

BEING, a tract of land in the B.F. Boydstun Survey, Abstract No. 14, and the B.J.T. Lewis Survey, Abstract No.225, City of Rockwall, Rockwall County, Texas and being more particularly described as follows:

BEGINNING, at the point of intersection of the North line of Boydstun Avenue (a 60 foot R.O.W.) with the west line of Fannin Street, (a 50 foot R.O.W.) an iron stake for corner;

THENCE, N. 89° 35' W., along the North line of Boydstun Avenue, a distance of 224.86 feet to an iron stake for corner;

THENCE, North, leaving the North line of Boydstun Avenue, a distance of 145.00 feet to an iron stake for corner;

THENCE, S. 89° 35' E., a distance of 224.86 feet to a point on the West line of Fannin Street, to an iron stake for corner;

THENCE, South, along the West line of Fannin Street, a distance of 145.00 feet to the PLACE OF BEGINNING and containing 0.732 acres of land.

LEASE AREA

BEING a tract of land situated in the B.J.T. Lewis Survey, Abstract No. 225, City of Rockwall, Rockwall County, Texas, also being situated in Lot 1, Block A, Central Fire Station Addition, an addition to the City of Rockwall, Rockwall County, Texas, as recorded in Cabinet B, Slide 48, Plat Records, Rockwall County, Texas, and being out of and a portion of that certain tract of land conveyed to the City of Rockwall by Deed dated October 29, 1976, and recorded in Volume 124, Page 448, Deed Records, Rockwall County, Texas, and being more particularly described by metes and bounds as follows:

COMMENCING at a 1/2" iron rod found for the southwest corner of said Lot 1, Block A, Central Fire Station Addition, same being the most southerly southeast corner of Lot 1, Block A, Rockwall Main Post Office Addition, an addition to the City of Rockwall, Rockwall County, Texas, as recorded in Cabinet B, Slide 369, Plat Records, Rockwall County, Texas, and being on the north right-of-way line of Boydstun Avenue (80' right-of-way);

THENCE along the west line of said Lot 1, Block A, Central Fire Station Addition, also being the most southerly east line of Lot 1, Block A, Rockwall Main Post Office Addition, North 00 degrees 30 minutes 31 seconds West, a distance of 18.46 feet to a Point;

THENCE through the interior of said Lot 1, Block A, Central Fire Station Addition, North 89 degrees 29 minutes 29 seconds East, a distance of 42.20 feet to a 5/8" iron rod set with cap marked "WEBB-4125" for the POINT OF BEGINNING hereof;

THENCE continuing through the interior of said Lot 1, Block A, Central Fire Station Addition the following four (4) courses:

1. South 88 degrees 29 minutes 29 seconds West, a distance of 20.00 feet to a 5/8" iron rod set with cap marked "WEBB-4125";

2. North 00 degrees 30 minutes 31 seconds West, a distance of 25.00 feet to a 5/8" iron rod set with cap marked "WEBB-4125";

3. North 89 degrees 29 minutes 29 seconds East, a distance of 20.00 feet to a 5/8" iron rod set with cap marked "WEBB-4125";

4. South 00 degrees 30 minutes 31 seconds East, a distance of 25.00 feet to the POINT OF BEGINNING hereof and containing 0.0115 acres or 500 square feet of land, more or less.

GENERATOR PAD AREA

BEING a tract of land situated in the B.J.T. Lewis Survey, Abstract No. 225, City of Rockwall, Rockwall County, Texas, also being situated in Lot 1, Block A, Central Fire Station Addition, an addition to the City of Rockwall, Rockwall County, Texas, as recorded in Cabinet B, Slide 48, Plat Records, Rockwall County, Texas, and being out of and a portion of that certain tract of land conveyed to the City of Rockwall by Deed dated October 29, 1976, and recorded in Volume 124, Page 448, Deed Records, Rockwall County, Texas, and being more particularly described by metes and bounds as follows:

COMMENCING at a 1/2" iron rod found for the southwest corner of said Lot 1, Block A, Central Fire Station Addition, same being the most southerly southeast corner of Lot 1, Block A, Rockwall Main Post Office Addition, an addition to the City of Rockwall, Rockwall County, Texas, as recorded in Cabinet B, Slide 369, Plat Records, Rockwall County, Texas, and being on the north right-of-way line of Boydstun Avenue (80' right-of-way);

THENCE along the west line of said Lot 1, Block A, Central Fire Station Addition, also being the most southerly east line of Lot 1, Block A, Rockwall Main Post Office Addition, North 00 degrees 30 minutes 31 seconds West, a distance of 18.46 feet to a Point;

THENCE through the interior of said Lot 1, Block A, Central Fire Station Addition, North 89 degrees 29 minutes 29 seconds East, a distance of 12.20 feet to a 5/8" iron rod set with cap marked "WEBB-4125" for the POINT OF BEGINNING hereof;

THENCE continuing through the interior of said Lot 1, Block A, Central Fire Station Addition the following four (4) courses:

1. North 89 degrees 29 minutes 29 seconds East, a distance of 5.00 feet to a Point;

2. South 00 degrees 30 minutes 31 seconds East, a distance of 15.00 feet to a Point;

3. South 89 degrees 29 minutes 29 seconds West, a distance of 5.00 feet to a Point;

4. North 00 degrees 30 minutes 31 seconds West, a distance of 15.00 feet to the POINT OF BEGINNING hereof and containing 0.0017 acres or 75 square feet of land, more or less.

TOWER AREA

BEING a tract of land situated in the B.J.T. Lewis Survey, Abstract No. 225, City of Rockwall, Rockwall County, Texas, also being situated in Lot 1, Block A, Central Fire Station Addition, an addition to the City of Rockwall, Rockwall County, Texas, as recorded in Cabinet B, Slide 48, Plat Records, Rockwall County, Texas, and being out of and a portion of that certain tract of land conveyed to the City of Rockwall by Deed dated October 29, 1976, and recorded in Volume 124, Page 448, Deed Records, Rockwall County, Texas, and being more particularly described by metes and bounds as follows:

COMMENCING at a 1/2" iron rod found for the southwest corner of said Lot 1, Block A, Central Fire Station Addition, same being the most southerly southeast corner of Lot 1, Block A, Rockwall Main Post Office Addition, an addition to the City of Rockwall, Rockwall County, Texas, as recorded in Cabinet B, Slide 369, Plat Records, Rockwall County, Texas, and being on the north right-of-way line of Boydstun Avenue (80' right-of-way);

THENCE along the west line of said Lot 1, Block A, Central Fire Station Addition, also being the most southerly east line of Lot 1, Block A, Rockwall Main Post Office Addition, North 00 degrees 30 minutes 31 seconds West, a distance of 62.16 feet to the POINT OF BEGINNING hereof;

THENCE continuing along the west line of said Lot 1, Block A, Central Fire Station Addition, also being the most southerly east line of Lot 1, Block A, Rockwall Main Post Office Addition, North 00 degrees 30 minutes 31 seconds West, a distance of 35.00 feet to a Point;

THENCE through the interior of said Lot 1, Block A, Central Fire Station Addition, the following three (3) courses:

1. North 89 degrees 29 minutes 29 seconds East, a distance of 35.00 feet to a Point;

2. South 00 degrees 30 minutes 31 seconds East, a distance of 35.00 feet to a Point;

3. South 89 degrees 29 minutes 29 seconds West, a distance of 35.00 feet to the POINT OF BEGINNING hereof and containing 0.0281 acres or 1,225 square feet of land, more or less.

15' ACCESS EASEMENT

BEING a tract of land situated in the B.J.T. Lewis Survey, Abstract No. 225, City of Rockwall, Rockwall County, Texas, also being situated in Lot 1, Block A, Central Fire Station Addition, an addition to the City of Rockwall, Rockwall County, Texas, as recorded in Cabinet B, Slide 48, Plat Records, Rockwall County, Texas, and being out of and a portion of that certain tract of land conveyed to the City of Rockwall by Deed dated October 29, 1976, and recorded in Volume 124, Page 448, Deed Records, Rockwall County, Texas, and being more particularly described by metes and bounds as follows:

COMMENCING at a 1/2" iron rod found for the southwest corner of said Lot 1, Block A, Central Fire Station Addition, same being the most southerly southeast corner of Lot 1, Block A, Rockwall Main Post Office Addition, an addition to the City of Rockwall, Rockwall County, Texas, as recorded in Cabinet B, Slide 369, Plat Records, Rockwall County, Texas, and being on the north right-of-way line of Boydstun Avenue (80' right-of-way);

THENCE along the north right-of-way line of Boydstun Avenue, North 88 degrees 41 minutes 23 seconds East, a distance of 114.53 feet to the POINT OF BEGINNING hereof;

THENCE through the interior of said Lot 1, Block A, Central Fire Station Addition the following ten (10) courses:

1. North 00 degrees 30 minutes 31 seconds West, a distance of 37.54 feet to a Point;

2. South 89 degrees 48 minutes 47 seconds West, a distance of 65.92 feet to a Point;

3. South 38 degrees 09 minutes 04 seconds West, a distance of 10.25 feet to a Point, same being on the east line of the lease area described hereon;

4. Along the east line of said lease area, North 00 degrees 30 minutes 31 seconds West, a distance of 12.01 feet to a 5/8" iron rod set with cap marked "WEBB-4125" for the northeast corner thereof;

5. Along the north line of said lease area, South 89 degrees 29 minutes 29 seconds West, a distance of 14.54 feet to a Point;

6. North 24 degrees 08 minutes 29 seconds West, a distance of 20.41 feet to a Point, same being on the south line of the tower area described hereon;

7. Along the south line of said tower area, North 89 degrees 29 minutes 29 seconds East, a distance of 15.53 feet to a Point for the southeast corner thereof;

8. South 40 degrees 25 minutes 45 seconds East, a distance of 10.00 feet to a Point;

9. North 89 degrees 48 minutes 47 seconds East, a distance of 68.10 feet to a Point;

10. South 00 degrees 30 minutes 31 seconds East, a distance of 52.26 feet to a Point, same being on the north right-of-way line of Boydstun Avenue (80' right-of-way);

THENCE along the north right-of-way line of Boydstun Avenue, South 88 degrees 41 minutes 23 seconds West, a distance of 15.00 feet to the POINT OF BEGINNING hereof and containing 0.0508 acres or 2214 square feet of land, more or less.

5' UTILITY EASEMENT

BEING a tract of land situated in the B.J.T. Lewis Survey, Abstract No. 225, City of Rockwall, Rockwall County, Texas, also being situated in Lot 1, Block A, Central Fire Station Addition, an addition to the City of Rockwall, Rockwall County, Texas, as recorded in Cabinet B, Slide 48, Plat Records, Rockwall County, Texas, and being out of and a portion of that certain tract of land conveyed to the City of Rockwall by Deed dated October 29, 1976, and recorded in Volume 124, Page 448, Deed Records, Rockwall County, Texas, and being more particularly described by metes and bounds as follows:

COMMENCING at a 1/2" iron rod found for the southwest corner of said Lot 1, Block A, Central Fire Station Addition, same being the most southerly southeast corner of Lot 1, Block A, Rockwall Main Post Office Addition, an addition to the City of Rockwall, Rockwall County, Texas, as recorded in Cabinet B, Slide 369, Plat Records, Rockwall County, Texas, and being on the north right-of-way line of Boydstun Avenue (80' right-of-way);

THENCE along the west line of said Lot 1, Block A, Central Fire Station Addition, also being the most southerly east line of Lot 1, Block A, Rockwall Main Post Office Addition, North 00 degrees 30 minutes 31 seconds West, a distance of 18.46 feet to the POINT OF BEGINNING hereof;

THENCE continuing along the west line of said Lot 1, Block A, Central Fire Station Addition, also being the most southerly east line of Lot 1, Block A, Rockwall Main Post Office Addition, North 00 degrees 30 minutes 31 seconds West, a distance of 18.46 feet to a Point;

THENCE through the interior of said Lot 1, Block A, Central Fire Station Addition the following three (3) courses:

1. North 89 degrees 29 minutes 29 seconds East, a distance of 22.20 feet to a Point, same being on the west line of the lease area described hereon;

2. Along the west line of said lease area, South 00 degrees 30 minutes 31 seconds East, a distance of 5.00 feet to a 5/8" iron rod set with cap marked "WEBB-4125" for the southwest corner thereof;

3. South 89 degrees 29 minutes 29 seconds West, a distance of 22.20 feet to the POINT OF BEGINNING hereof and containing 0.0023 acres or 111 square feet of land, more or less.

5' COAX EASEMENT

BEING a tract of land situated in the B.J.T. Lewis Survey, Abstract No. 225, City of Rockwall, Rockwall County, Texas, also being situated in Lot 1, Block A, Central Fire Station Addition, an addition to the City of Rockwall, Rockwall County, Texas, as recorded in Cabinet B, Slide 48, Plat Records, Rockwall County, Texas, and being out of and a portion of that certain tract of land conveyed to the City of Rockwall by Deed dated October 29, 1976, and recorded in Volume 124, Page 448, Deed Records, Rockwall County, Texas, and being more particularly described by metes and bounds as follows:

COMMENCING at a 1/2" iron rod found for the southwest corner of said Lot 1, Block A, Central Fire Station Addition, same being the most southerly southeast corner of Lot 1, Block A, Rockwall Main Post Office Addition, an addition to the City of Rockwall, Rockwall County, Texas, as recorded in Cabinet B, Slide 369, Plat Records, Rockwall County, Texas, and being on the north right-of-way line of Boydstun Avenue (80' right-of-way);

THENCE along the west line of said Lot 1, Block A, Central Fire Station Addition, also being the most southerly east line of Lot 1, Block A, Rockwall Main Post Office Addition, North 00 degrees 30 minutes 31 seconds West, a distance of 18.46 feet to a Point;

THENCE through the interior of said Lot 1, Block A, Central Fire Station Addition the following two (2) courses:

North 89 degrees 29 minutes 29 seconds East, a distance of 22.20 feet to a 5/8" iron rod set with cap marked "WEBB-4125" for the southeast corner of the lease area described hereon;

Along the east line of said lease area, North 00 degrees 30 minutes 31 seconds West, a distance of 25.00 feet to a 5/8" iron rod set with cap marked "WEBB-4125" for the northeast corner of said lease area for the POINT OF BEGINNING hereof;

THENCE continuing through the interior of said Lot 1, Block A, Central Fire Station Addition the following four (4) courses:

1. North 24 degrees 08 minutes 29 seconds West, a distance of 20.41 feet to a Point, same being on the south line of the tower area described hereon;

2. Along the south line of said tower area, North 89 degrees 29 minutes 29 seconds East, a distance of 5.46 feet to a Point;

3. South 24 degrees 09 minutes 29 seconds East, a distance of 20.41 feet to a Point, same being on the north line of said lease area;

4. Along the north line of said lease area, South 89 degrees 29 minutes 29 seconds West, a distance of 5.46 feet to the POINT OF BEGINNING hereof and containing 0.0023 acres or 102 square feet of land, more or less.

FIRST AMENDMENT TO TOWER LEASE AGREEMENT

This First Amendment to Tower Lease Agreement (this "Amendment") is being made this 15 day of September 2011, between the City of Rockwall, a Texas Municipal Corporation ("LESSOR"), and Dallas MTA, L.P. d/b/a Verizon Wireless ("LESSEE"). LESSOR and LESSEE are at times collectively referred to hereinafter as the "Parties" or individually as the "Party".

WHEREAS, LESSOR and LESSEE entered into that certain Tower Lease Agreement, dated May 12, 2004 (the "Lease"), for the lease of land and tower space by LESSEE as more particularly described therein;

WHEREAS, the Parties now desire to amend the Lease as herein set forth;

NOW, THEREFORE, in consideration of the foregoing premises and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the Parties hereby agree as follows:

1. Exhibit B-1 attached hereto hereby replaces Exhibit B of the Lease in its entirety.

2. Commencing on October 1, 2011, the current annual rental under the Lease shall increase by Two Thousand Four Hundred and No/100 Dollars ($2,400.00), from Eight Thousand Nine Hundred Seventy and No/100 Dollars ($8,970.00) to Eleven Thousand Three Hundred Seventy and No/100 Dollars ($11,370.00).

3. Section 2.7 of the Lease is revised to read in its entirety as follows:

   "2.7 **Rent Abatement**. In consideration for LESSEE's conveyance of New Tower to LESSOR, LESSEE shall receive rent abatement equal to one hundred eighty (180) months as per Sections 3 and 5 of this Agreement; provided, however, commencing on October 1, 2011 until such time as the expiration of said one hundred eighty (180) month rent abatement period, LESSEE shall pay to LESSOR partial rent payments equal to Two Hundred and No/100 Dollars ($200.00) per month. LESSEE shall begin actual rental payments in the one hundred eighty-first (181st) month following the Commencement Date."

4. Section 5 of the Lease is revised to reflect that the annual rental for the second (2nd) five (5) year extension term shall be increased to Thirteen Thousand Seventy-Five and 50/100 Dollars ($13,075.50); the third (3rd) five (5) year extension term shall be increased to Fifteen Thousand Thirty-Six and 83/100 Dollars ($15,036.83); and the fourth (4th) five (5) year extension term shall be increased to Seventeen Thousand Two Hundred Ninety-Two and 36/100 Dollars ($17,292.36).

IN WITNESS WHEREOF, the Parties intend that this Amendment shall be effective as the date first set forth above.

CITY OF ROCKWALL, TEXAS
MEMORANDUM

TO: **Brad Griggs, Assistant City Manager**

FROM: **Andy Hesser, Parks and Recreation Director**

DATE: **February 14, 2018**

SUBJECT: **BUDGET AMENDMENT FOR TREE MITIGATION FUNDS**

Staff is requesting a budget amendment to transfer $38,000 from the Tree Mitigation escrow fund to the Parks Department agricultural supplies account for the purpose of replacing trees throughout City facilities and rights-of-way. Developers pay into this escrow fund if they choose to mitigate the value of trees removed as a result of development.

Approximately 20 crepe myrtles have been removed along FM 740, SH 66 and SH 205 due to vehicular accidents and need to be replanted during the cool time of the year. Other tree plantings will take place in City parks and other City facilities to replace unsafe trees that were removed due to disease or storm damage.

Contingent on Council approval, competitive bids will be solicited to provide and plant specific tree species and is anticipated to begin immediately. Staff will be available to answer any questions.

PRIMARY MEDIA
OUTDOOR ADVERTISING

February 16, 2018

Rockwall City Council & Staff
365 South Goliad Street
Rockwall, Texas 75087

Re: Primary Media Digital Sign at 1785 East I-30

Council & Staff:

Primary Media Outdoor Advertising hereby requests to appear as an Appointment Item on the agenda for the Monday, February 19th Rockwall City Council meeting.

We ask the Council to allow us to convert one face of an existing static off-premise advertising sign to digital. The sign faces both eastbound and westbound traffic on Interstate 30. Our request is to convert the side that faces westbound traffic to digital. We further propose to promote city events at no charge on this sign and elsewhere in our growing North Texas digital advertising network.

We propose no other changes to the sign unless directed to do so by Council or Staff. We have attached a mock-up of the sign with a digital face.

This proposal enjoys the support of the Rockwall Chamber of Commerce and our advertisers, many of whom are Rockall business owners. A digital face looks better and better serves the City, its citizens and the local business community. For these reasons we ask that you carefully consider and approve our request.

Respectfully Submitted,

Richard Martin

RE: Primary Media Work with Frisco Chamber of Commerce

Dear Dana,

It has come to my attention that a vendor we have done a great deal of good business with is interested in working with the Rockwall Chamber of Commerce. As such, I felt it would be of benefit to you to be aware of the working relationship we are currently enjoying with Primary Media and the benefits the Frisco Chamber of Commerce is reaping as a result.

Primary Media first approached us in early 2016 and inquired about possible need in using their services for a billboard on Highway 380, on the northern boundary of Frisco. They were very willing to listen to our needs/abilities and work with us accordingly on a structure that would benefit both entities.

We have been able to utilize the billboard to advertise our advocacy efforts, promote our events, thank our upper level sponsors, as well as educate the community about the role of the Frisco Chamber of Commerce.

While the specific return on this investment/arrangement is still being measured and determined, I can say that our exposure in the community, our branding, and our message have all been greatly magnified given our relationship with Primary Media. It is very common to hear a mention by members or those in the community of "seeing the Frisco Chamber" on Highway 380.

It is my understanding they are interested in working with you to possibly discuss a similar working arrangement. I would encourage to at least visit with them and see what might work for you and the Rockwall Chamber of Commerce. Please let me know if you have any questions and/or wish to discuss in more detail.

Sincerely,

Tony Felker- CCE, IOM
President/CEO Frisco Chamber of Commerce

City of Rockwall
The New Horizon

MEMORANDUM

TO: **Rick Crowley, City Manager**

FROM: **Kirk H. Riggs, Chief of Police**

DATE: **February 5, 2018**

SUBJECT: **2017 Racial Profiling Report**

To comply with Article 2.132 of the Texas Code of Criminal Procedure addressing racial profiling, each law enforcement agency must collect information relating to motor vehicle stops where a citation has been issued or an arrest been made. The law enforcement agency must also report this information to the governing body no later than March 1st of the following year and must submit the report to the Texas Commission on Law Enforcement (TCOLE) who is the designated central depository for all reports in the state.

There were no complaints of racial profiling made against any Rockwall Police Officer this past year.

Attached is our annual contact report that was prepared by Del Carmen Consulting LLC, and submitted to TCOLE on the racial breakdown for citations issued, searches conducted, and arrests made resulting from motor vehicle stops by the Rockwall Police Department for 2017.

Opening Statement

201

January 26, 2018

Rockwall City Council
385 S. Goliad St.
Rockwall, Texas 75087

Dear Distinguished Members of the City Council,

The Texas Legislature, with the intent of addressing the issue of racial profiling in policing, enacted in 2001 the Texas Racial Profiling Law. Since then, the Rockwall Police Department, in accordance with the law, has collected and reported traffic and motor vehicle-related contact data for the purpose of identifying and addressing (if necessary) areas of concern regarding racial profiling practices. In the 2009 Texas legislative session, the Racial Profiling Law was modified and additional requirements were implemented. Moreover, in 2017, the Sandra Bland Act was passed and signed into law (along with HB 3051 which introduced new racial and ethnic designations). The Sandra Bland Law requires for all law enforcement agencies in the state to collect additional data and provide a more detailed analysis.

This particular report contains three sections with information on traffic and motor vehicle- related contact data. In addition, when appropriate, documentation is also a component of this report, aiming at demonstrating the manner in which the Rockwall Police Department has complied with the Texas Racial Profiling Law. In section 1, you will find the table of contents in addition to the Texas Senate Bill (SB1074); which later became the Texas Racial Profiling Law. In addition, you will find the Texas HB 3389, which, in 2009, introduced new requirements relevant to racial profiling as well as the Sandra Bland Act. Also, in this section, a list of requirements relevant to the Racial Profiling Law as established by TCOLE (Texas Commission on Law Enforcement) is included. In addition, you will find, in sections 2 and 3 documentation which demonstrates compliance by the Rockwall Police Department relevant to the requirements as established in the Texas Racial Profiling Law. That is, you will find documents relevant to the implementation of an institutional policy banning racial profiling, the incorporation of a racial profiling complaint process and the training administered to all law enforcement personnel.

The last section of this report provides statistical data relevant to contacts, made during the course of motor vehicle stops, between 1/1/17 and 12/31/17. In addition, this section contains the TCOLE Tier 1 form, which is required to be submitted to this particular organization by March 1st of each year. The data in this report has been analyzed and compared to data derived from the U.S. Census Bureau's Fair Roads Standard. The final analysis and recommendations are also included in this report. The findings in this report serve as evidence of the Rockwall Police Department's commitment to comply with the Texas Racial Profiling Law.

Sincerely,

Alex del Carmen, Ph.D.

TCOLE GUIDELINES

205

Guidelines for Compiling and Reporting Data under Senate Bill 1074

Background

Senate Bill 1074 of the 77th Legislature established requirements in the Texas Code of Criminal Procedure (TCCP) for law enforcement agencies. The Commission developed this document to assist agencies in complying with the statutory requirements.

The guidelines are written in the form of standards using a style developed from accreditation organizations including the Commission on Accreditation for Law Enforcement Agencies (CALEA). The standards provide a description of ***what*** must be accomplished by an agency but allows wide latitude in determining ***how*** the agency will achieve compliance with each applicable standard.

Each standard is composed of two parts: the standard statement and the commentary. The *standard statement* is a declarative sentence that places a clear-cut requirement, or multiple requirements, on an agency. The commentary supports the standard statement but is not binding. The commentary can serve as a prompt, as guidance to clarify the intent of the standard, or as an example of one possible way to comply with the standard.

Standard 1

Each law enforcement agency has a detailed written directive that:

- clearly defines acts that constitute racial profiling;
- strictly prohibits peace officers employed by the agency from engaging in racial profiling;
- implements a process by which an individual may file a complaint with the agency if the individual believes a peace officer employed by the agency has engaged in racial profiling with respect to the individual filing the complaint;
- provides for public education relating to the complaint process;
- requires appropriate corrective action to be taken against a peace officer employed by the agency who, after investigation, is shown to have engaged in racial profiling in violation of the agency's written racial profiling policy; and
- requires the collection of certain types of data for subsequent reporting.

Commentary

Article 2.131 of the TCCP prohibits officers from engaging in racial profiling, and article 2.132 of the TCCP now requires a written policy that contains the elements listed in this standard. The article also specifically defines a law enforcement agency as it applies to this statute as an " agency of the state, or of a county, municipality, or other political subdivision of the state, that employs peace officers who make traffic stops in the routine performance of the officers' official duties."

The article further defines race or ethnicity as being of "a particular descent, including Caucasian, African, Hispanic, Asian, or Native American." The statute does not limit the required policies to just these ethnic groups.

This written policy is to be adopted and implemented no later than January 1, 2002.

Standard 2

Each peace officer who stops a motor vehicle for an alleged violation of a law or ordinance regulating traffic, or who stops a pedestrian for any suspected offense reports to the employing law enforcement agency information relating to the stop, to include:

- a physical description of each person detained, including gender and the person's race or ethnicity, as stated by the person, or, if the person does not state a race or ethnicity, as determined by the officer's best judgment;
- the traffic law or ordinance alleged to have been violated or the suspected offense;
- whether the officer conducted a search as a result of the stop and, if so, whether the person stopped consented to the search;
- whether any contraband was discovered in the course of the search, and the type of contraband discovered;
- whether probable cause to search existed, and the facts supporting the existence of that probable cause;
- whether the officer made an arrest as a result of the stop or the search, including a statement of the offense charged;
- the street address or approximate location of the stop; and
- whether the officer issued a warning or citation as a result of the stop, including a description of the warning or a statement of the violation charged.

Commentary

The information required by 2.133 TCCP is used to complete the agency reporting requirements found in Article 2.134. A peace officer and an agency may be exempted from this requirement under Article 2.135 TCCP Exemption for Agencies Using Video and Audio Equipment. An agency may be exempt from this reporting requirement by applying for the funds from the Department of Public Safety for video and audio equipment and the State does not supply those funds. Section 2.135 (a)(2) states, "the governing body of the county or municipality served by the law enforcement agency, in conjunction with the law enforcement agency, certifies to the Department of Public Safety, not later than the date specified by rule by the department, that the law enforcement agency needs funds or video and audio equipment for the purpose of installing video and audio equipment as described by Subsection (a) (1) (A) and the agency does not receive from the state funds for video and audio equipment sufficient, as determined by the department, for the agency to accomplish that purpose."

Standard 3

The agency compiles the information collected under 2.132 and 2.133 and analyzes the information identified in 2.133.

Commentary

Senate Bill 1074 from the 77th Session of the Texas Legislature created requirements for law enforcement agencies to gather specific information and to report it to each county or municipality served. New sections of law were added to the Code of Criminal Procedure regarding the reporting of traffic and pedestrian stops. Detained is defined as when a person stopped is not free to leave.

Article 2.134 TCCP requires the agency to compile and provide and analysis of the information collected by peace officer employed by the agency. The report is provided to the governing body of the municipality or county no later than March 1 of each year and covers the previous calendar year.

There is data collection and reporting required based on Article 2.132 CCP (tier one) and Article 2.133 CCP (tier two).

The minimum requirements for "tier one" data for traffic stops in which a citation results are:

1) the race or ethnicity of individual detained (race and ethnicity as defined by the bill means of "a particular descent, including Caucasian, African, Hispanic, Asian, or Native American");
2) whether a search was conducted, and if there was a search, whether it was a consent search or a probable cause search; and
3) whether there was a custody arrest.

The minimum requirements for reporting on "tier two" reports include traffic and pedestrian stops. Tier two data include:

1) the detained person's gender and race or ethnicity;
2) the type of law violation suspected, e.g., hazardous traffic, non-hazardous traffic, or other criminal investigation (the Texas Department of Public Safety publishes a categorization of traffic offenses into hazardous or non-hazardous);
3) whether a search was conducted, and if so whether it was based on consent or probable cause;
4) facts supporting probable cause;
5) the type, if any, of contraband that was collected;
6) disposition of the stop, e.g., arrest, ticket, warning, or release;
7) location of stop; and
8) statement of the charge, e.g., felony, misdemeanor, or traffic.

Tier one reports are made to the governing body of each county or municipality served by the agency an annual report of information if the agency is an agency of a county, municipality, or other political subdivision of the state. Tier one and two reports are reported to the county or municipality not later than March 1 for the previous calendar year beginning March 1, 2003. Tier two reports include a comparative analysis between the race and ethnicity of persons detained to see if a differential pattern of treatment can be discerned based on the disposition of stops including searches resulting from the stops. The reports also include information relating to each complaint filed with the agency alleging that a peace officer employed by the agency has engaged in racial profiling. An agency may be exempt from the tier two reporting requirement by applying for the funds from the Department of Public Safety for video and audio equipment and the State does not supply those funds [See 2.135 (a)(2) TCCP].

Reports should include both raw numbers and percentages for each group. Caution should be exercised in interpreting the data involving percentages because of statistical distortions caused by very small numbers in any particular category, for example, if only one American Indian is stopped and searched, that stop would not provide an accurate comparison with 200 stops among Caucasians with 100 searches. In the first case, a 100% search rate would be skewed data when compared to a 50% rate for Caucasians.

Standard 4

If a law enforcement agency has video and audio capabilities in motor vehicles regularly used for traffic stops, or audio capabilities on motorcycles regularly used to make traffic stops, the agency:

- adopts standards for reviewing and retaining audio and video documentation; and
- promptly provides a copy of the recording to a peace officer who is the subject of a complaint on written request by the officer.

Commentary

The agency should have a specific review and retention policy. Article 2.132 TCCP specifically requires that the peace officer be promptly provided with a copy of the audio or video recordings if the officer is the subject of a complaint and the officer makes a written request.

Standard 5

Agencies that do not currently have video or audio equipment must examine the feasibility of installing such equipment.

Commentary
None

Standard 6
Agencies that have video and audio recording capabilities are exempt from the reporting requirements of Article 2.134 TCCP and officers are exempt from the reporting requirements of Article 2.133 TCCP provided that:

- the equipment was in place and used during the proceeding calendar year; and
- video and audio documentation is retained for at least 90 days.

Commentary
The audio and video equipment and policy must have been in place during the previous calendar year. Audio and video documentation must be kept for at least 90 days or longer if a complaint has been filed. The documentation must be retained until the complaint is resolved. Peace officers are not exempt from the requirements under Article 2.132 TCCP.

Standard 7
Agencies have citation forms or other electronic media that comply with Section 543.202 of the Transportation Code.

Commentary
Senate Bill 1074 changed Section 543.202 of the Transportation Code requiring citations to include:

- race or ethnicity, and
- whether a search of the vehicle was conducted and whether consent for the search was obtained.

The Texas Law on Racial Profiling

210

S.B. No. 1074

AN ACT

relating to the prevention of racial profiling by certain peace officers.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF TEXAS:

SECTION 1. Chapter 2, Code of Criminal Procedure, is amended by adding Articles 2.131 through 2.138 to read as follows:

Art. 2.131. RACIAL PROFILING PROHIBITED. A peace officer may not engage in racial profiling.

Art. 2.132. LAW ENFORCEMENT POLICY ON RACIAL PROFILING. (a) In this article:

(1) "Law enforcement agency" means an agency of the state, or of a county, municipality, or other political subdivision of the state, that employs peace officers who make traffic stops in the routine performance of the officers' official duties.

(2) "Race or ethnicity" means of a particular descent, including Caucasian, African, Hispanic, Asian, or Native American descent.

(b) Each law enforcement agency in this state shall adopt a detailed written policy on racial profiling. The policy must:

(1) clearly define acts constituting racial profiling;

(2) strictly prohibit peace officers employed by the agency from engaging in racial profiling;

(3) implement a process by which an individual may file a complaint with the agency if the individual believes that a peace officer employed by the agency has engaged in racial profiling with respect to the individual;

(4) provide public education relating to the agency's complaint process;

(5) require appropriate corrective action to be taken against a peace officer employed by the agency who, after an investigation, is shown to have engaged in racial profiling in violation of the agency's policy adopted under this article;

(6) require collection of information relating to traffic stops in which a citation is issued and to arrests resulting from those traffic stops, including information relating to:

(A) the race or ethnicity of the individual detained; and

(B) whether a search was conducted and, if so, whether the person detained consented to the search; and

(7) require the agency to submit to the governing body of each county or municipality served by the agency an annual report of the information collected under Subdivision (6) if the agency is an agency of a county, municipality, or other political subdivision of the state.

(c) The data collected as a result of the reporting requirements of this article shall not constitute prima facie evidence of racial profiling.

(d) On adoption of a policy under Subsection (b), a law enforcement agency shall examine the feasibility of installing video camera and transmitter-activated equipment in each agency law enforcement motor vehicle regularly used to make traffic stops and transmitter-activated equipment in each agency law enforcement motorcycle regularly used to make traffic stops. If a law enforcement agency installs video or audio equipment as provided by this subsection, the policy adopted by the agency under Subsection (b) must include standards for reviewing video and audio documentation.

(e) A report required under Subsection (b)(7) may not include identifying information about a peace officer who makes a traffic stop or about an individual

who is stopped or arrested by a peace officer. This subsection does not affect the collection of information as required by a policy under Subsection (b)(6).

(f) On the commencement of an investigation by a law enforcement agency of a complaint described by Subsection (b)(3) in which a video or audio recording of the occurrence on which the complaint is based was made, the agency shall promptly provide a copy of the recording to the peace officer who is the subject of the complaint on written request by the officer.

Art. 2.133. REPORTS REQUIRED FOR TRAFFIC AND PEDESTRIAN STOPS. (a) In this article:

(1) "Race or ethnicity" has the meaning assigned by Article 2.132(a).

(2) "Pedestrian stop" means an interaction between a peace officer and an individual who is being detained for the purpose of a criminal investigation in which the individual is not under arrest.

(b) A peace officer who stops a motor vehicle for an alleged violation of a law or ordinance regulating traffic or who stops a pedestrian for any suspected offense shall report to the law enforcement agency that employs the officer information relating to the stop, including:

(1) a physical description of each person detained as a result of the stop, including:

(A) the person's gender; and

(B) the person's race or ethnicity, as stated by the person or, if the person does not state the person's race or ethnicity, as determined by the officer to the best of the officer's ability;

(2) the traffic law or ordinance alleged to have been violated or the suspected offense;

(3) whether the officer conducted a search as a result of the stop and, if so, whether the person detained consented to the search;

(4) whether any contraband was discovered in the course of the search and the type of contraband discovered;

(5) whether probable cause to search existed and the facts supporting the existence of that probable cause;

(6) whether the officer made an arrest as a result of the stop or the search, including a statement of the offense charged;

(7) the street address or approximate location of the stop; and

(8) whether the officer issued a warning or a citation as a result of the stop, including a description of the warning or a statement of the violation charged.

Art. 2.134. COMPILATION AND ANALYSIS OF INFORMATION COLLECTED. (a) In this article, "pedestrian stop" means an interaction between a peace officer and an individual who is being detained for the purpose of a criminal investigation in which the individual is not under arrest.

(b) A law enforcement agency shall compile and analyze the information contained in each report received by the agency under Article 2.133. Not later than March 1 of each year, each local law enforcement agency shall submit a report containing the information compiled during the previous calendar year to the governing body of each county or municipality served by the agency in a manner approved by the agency.

(c) A report required under Subsection (b) must include:

(1) a comparative analysis of the information compiled under Article 2.133 to:

(A) determine the prevalence of racial profiling by peace officers employed by the agency; and

(B) examine the disposition of traffic and pedestrian stops made by officers employed by the agency, including searches resulting from the stops; and

(2) information relating to each complaint filed with the agency alleging that a peace officer employed by the agency has engaged in racial profiling.

(d) A report required under Subsection (b) may not include identifying information about a peace officer who makes a traffic or pedestrian stop or about an individual who is stopped or arrested by a peace officer. This subsection does not affect the reporting of information required under Article 2.133(b)(1).

(e) The Commission on Law Enforcement Officer Standards and Education shall develop guidelines for compiling and reporting information as required by this article.

(f) The data collected as a result of the reporting requirements of this article shall not constitute prima facie evidence of racial profiling.

Art. 2.135. EXEMPTION FOR AGENCIES USING VIDEO AND AUDIO EQUIPMENT. (a) A peace officer is exempt from the reporting requirement under Article 2.133 and a law enforcement agency is exempt from the compilation, analysis, and reporting requirements under Article 2.134 if:

(1) during the calendar year preceding the date that a report under Article 2.134 is required to be submitted:

(A) each law enforcement motor vehicle regularly used by an officer employed by the agency to make traffic and pedestrian stops is equipped with video camera and transmitter-activated equipment and each law enforcement motorcycle regularly used to make traffic and pedestrian stops is equipped with transmitter-activated equipment; and

(B) each traffic and pedestrian stop made by an officer employed by the agency that is capable of being recorded by video and audio or audio equipment, as appropriate, is recorded by using the equipment; or

(2) the governing body of the county or municipality served by the law enforcement agency, in conjunction with the law enforcement agency, certifies to the Department of Public Safety, not later than the date specified by rule by the department, that the law enforcement agency needs funds or video and audio equipment for the purpose of installing video and audio equipment as described by Subsection (a)(1)(A) and the agency does not receive from the state funds or video and audio equipment sufficient, as determined by the department, for the agency to accomplish that purpose.

(b) Except as otherwise provided by this subsection, a law enforcement agency that is exempt from the requirements under Article 2.134 shall retain the video and audio or audio documentation of each traffic and pedestrian stop for at least 90 days after the date of the stop. If a complaint is filed with the law enforcement agency alleging that a peace officer employed by the agency has engaged in racial profiling with respect to a traffic or pedestrian stop, the agency shall retain the video and audio or audio record of the stop until final disposition of the complaint.

(c) This article does not affect the collection or reporting requirements under Article 2.132.

Art. 2.136. LIABILITY. A peace officer is not liable for damages arising from an act relating to the collection or reporting of information as required by Article 2.133 or under a policy adopted under Article 2.132.

Art. 2.137. PROVISION OF FUNDING OR EQUIPMENT. (a) The Department of Public Safety shall adopt rules for providing funds or video and audio equipment to law enforcement agencies for the purpose of installing video and audio equipment as described by Article 2.135(a)(1)(A), including specifying criteria to prioritize funding or equipment provided to law enforcement agencies. The criteria may include consideration of tax

effort, financial hardship, available revenue, and budget surpluses. The criteria must give priority to:

(1) law enforcement agencies that employ peace officers whose primary duty is traffic enforcement;

(2) smaller jurisdictions; and

(3) municipal and county law enforcement agencies.

(b) The Department of Public Safety shall collaborate with an institution of higher education to identify law enforcement agencies that need funds or video and audio equipment for the purpose of installing video and audio equipment as described by Article 2.135(a)(1)(A). The collaboration may include the use of a survey to assist in developing criteria to prioritize funding or equipment provided to law enforcement agencies.

(c) To receive funds or video and audio equipment from the state for the purpose of installing video and audio equipment as described by Article 2.135(a)(1)(A), the governing body of a county or municipality, in conjunction with the law enforcement agency serving the county or municipality, shall certify to the Department of Public Safety that the law enforcement agency needs funds or video and audio equipment for that purpose.

(d) On receipt of funds or video and audio equipment from the state for the purpose of installing video and audio equipment as described by Article 2.135(a)(1)(A), the governing body of a county or municipality, in conjunction with the law enforcement agency serving the county or municipality, shall certify to the Department of Public Safety that the law enforcement agency has installed video and audio equipment as described by Article 2.135(a)(1)(A) and is using the equipment as required by Article 2.135(a)(1).

Art. 2.138. RULES. The Department of Public Safety may adopt rules to implement Articles 2.131-2.137.

SECTION 2. Chapter 3, Code of Criminal Procedure, is amended by adding Article 3.05 to read as follows:

Art. 3.05. RACIAL PROFILING. In this code, "racial profiling" means a law enforcement-initiated action based on an individual's race, ethnicity, or national origin rather than on the individual's behavior or on information identifying the individual as having engaged in criminal activity.

SECTION 3. Section 96.641, Education Code, is amended by adding Subsection (j) to read as follows:

(j) As part of the initial training and continuing education for police chiefs required under this section, the institute shall establish a program on racial profiling. The program must include an examination of the best practices for:

(1) monitoring peace officers' compliance with laws and internal agency policies relating to racial profiling;

(2) implementing laws and internal agency policies relating to preventing racial profiling; and

(3) analyzing and reporting collected information.

SECTION 4. Section 1701.253, Occupations Code, is amended by adding Subsection (e) to read as follows:

(e) As part of the minimum curriculum requirements, the commission shall establish a statewide comprehensive education and training program on racial profiling for officers licensed under this chapter. An officer shall complete a program established under this subsection not later than the second anniversary of the date the officer is licensed under this chapter or the date the officer applies for an intermediate proficiency certificate, whichever date is earlier.

SECTION 5. Section 1701.402, Occupations Code, is amended by adding Subsection (d) to read as follows:

(d) As a requirement for an intermediate proficiency certificate, an officer must complete an education and training program on racial profiling established by the commission under Section 1701.253(e).

SECTION 6. Section 543.202, Transportation Code, is amended to read as follows:

Sec. 543.202. FORM OF RECORD. (a) In this section, "race or ethnicity" means of a particular descent, including Caucasian, African, Hispanic, Asian, or Native American descent.

(b) The record must be made on a form or by a data processing method acceptable to the department and must include:

(1) the name, address, physical description, including race or ethnicity, date of birth, and driver's license number of the person charged;

(2) the registration number of the vehicle involved;

(3) whether the vehicle was a commercial motor vehicle as defined by Chapter 522 or was involved in transporting hazardous materials;

(4) the person's social security number, if the person was operating a commercial motor vehicle or was the holder of a commercial driver's license or commercial driver learner's permit;

(5) the date and nature of the offense, including whether the offense was a serious traffic violation as defined by Chapter 522;

(6) whether a search of the vehicle was conducted and whether consent for the search was obtained;

(7) the plea, the judgment, and whether bail was forfeited;

(8) [~~(7)~~] the date of conviction; and

(9) [~~(8)~~] the amount of the fine or forfeiture.

SECTION 7. Not later than January 1, 2002, a law enforcement agency shall adopt and implement a policy and begin collecting information under the policy as required by Article 2.132, Code of Criminal Procedure, as added by this Act. A local law enforcement agency shall first submit information to the governing body of each county or municipality served by the agency as required by Article 2.132, Code of Criminal Procedure, as

added by this Act, on March 1, 2003. The first submission of information shall consist of information compiled by the agency during the period beginning January 1, 2002, and ending December 31, 2002.

SECTION 8. A local law enforcement agency shall first submit information to the governing body of each county or municipality served by the agency as required by Article 2.134, Code of Criminal Procedure, as added by this Act, on March 1, 2004. The first submission of information shall consist of information compiled by the agency during the period beginning January 1, 2003, and ending December 31, 2003.

SECTION 9. Not later than January 1, 2002:

(1) the Commission on Law Enforcement Officer Standards and Education shall establish an education and training program on racial profiling as required by Subsection (e), Section 1701.253, Occupations Code, as added by this Act; and

(2) the Bill Blackwood Law Enforcement Management Institute of Texas shall establish a program on racial profiling as required by Subsection (j), Section 96.641, Education Code, as added by this Act.

SECTION 10. A person who on the effective date of this Act holds an intermediate proficiency certificate issued by the Commission on Law Enforcement Officer Standards and Education or has held a peace officer license issued by the Commission on Law Enforcement Officer Standards and Education for at least two years shall complete an education and training program on racial profiling established under Subsection (e), Section 1701.253, Occupations Code, as added by this Act, not later than September 1, 2003.

SECTION 11. An individual appointed or elected as a police chief before the effective date of this Act shall complete a program on racial profiling established under Subsection (j), Section 96.641, Education Code, as added by this Act, not later than September 1, 2003.

SECTION 12. This Act takes effect September 1, 200

_____ _____

President of the Senate Speaker of the House

I hereby certify that S.B. No. 1074 passed the Senate on April 4, 2001, by the following vote: Yeas 28, Nays 2; May 21, 2001, Senate refused to concur in House amendments and requested appointment of Conference Committee; May 22, 2001, House granted request of the Senate; May 24, 2001, Senate adopted Conference Committee Report by a viva-voce vote.

_____

Secretary of the Senate

I hereby certify that S.B. No. 1074 passed the House, with amendments, on May 15, 2001, by a non-record vote; May 22, 2001, House granted request of the Senate for appointment of Conference Committee; May 24, 2001, House adopted Conference Committee Report by a non-record vote.

221

Modifications to the Original Law (H.B. 3389)

222

Amend CSHB 3389 (Senate committee report) as follows:

(1) Strike the following SECTIONS of the bill:

(A) SECTION 8, adding Section 1701.164, Occupations Code (page 4, lines 61-66);

(B) SECTION 24, amending Article 2.132(b), Code of Criminal Procedure (page 8, lines 19-53);

(C) SECTION 25, amending Article 2.134(b), Code of Criminal Procedure (page 8, lines 54-64);

(D) SECTION 28, providing transition language for the amendments to Articles 2.132(b) and 2.134(b), Code of Criminal Procedure (page 9, lines 40-47).

(2) Add the following appropriately numbered SECTIONS to the bill and renumber subsequent SECTIONS of the bill accordingly:

SECTION _____. Article 2.132, Code of Criminal Procedure, is amended by amending Subsections (a), (b), (d), and (e) and adding Subsection (g) to read as follows:

(a) In this article:

(1) "Law enforcement agency" means an agency of the state, or of a county, municipality, or other political subdivision of the state, that employs peace officers who make motor vehicle [~~traffic~~] stops in the routine performance of the officers' official duties.

(2) "Motor vehicle stop" means an occasion in which a peace officer stops a motor vehicle for an alleged violation of a law or ordinance.

(3) "Race or ethnicity" means of a particular descent, including Caucasian, African, Hispanic, Asian, [~~or~~] Native American, or Middle Eastern descent.

(b) Each law enforcement agency in this state shall adopt a detailed written policy on racial profiling. The policy must:

(1) clearly define acts constituting racial profiling;

(2) strictly prohibit peace officers employed by the agency from engaging in racial profiling;

(3) implement a process by which an individual may file a complaint with the agency if the individual believes that a peace officer employed by the agency has engaged in racial profiling with respect to the individual;

(4) provide public education relating to the agency's complaint process;

(5) require appropriate corrective action to be taken against a peace officer employed by the agency who, after an investigation, is shown to have engaged in racial profiling in violation of the agency's policy adopted under this article;

(6) require collection of information relating to motor vehicle [~~traffic~~] stops in which a citation is issued and to arrests made as a result of [~~resulting from~~] those [~~traffic~~] stops, including information relating to:

(A) the race or ethnicity of the individual detained; and

(B) whether a search was conducted and, if so,

223

whether the individual [~~person~~] detained consented to the search; and

(C) whether the peace officer knew the race or ethnicity of the individual detained before detaining that individual; and

(7) require the chief administrator of the agency, regardless of whether the administrator is elected, employed, or appointed, to submit [~~to the governing body of each county or municipality served by the agency~~] an annual report of the information collected under Subdivision (6) to:

(A) the Commission on Law Enforcement Officer Standards and Education; and

(B) the governing body of each county or municipality served by the agency, if the agency is an agency of a county, municipality, or other political subdivision of the state.

(d) On adoption of a policy under Subsection (b), a law enforcement agency shall examine the feasibility of installing video camera and transmitter-activated equipment in each agency law enforcement motor vehicle regularly used to make motor vehicle [~~traffic~~] stops and transmitter-activated equipment in each agency law enforcement motorcycle regularly used to make motor vehicle [~~traffic~~] stops. If a law enforcement agency installs video or audio equipment as provided by this subsection, the policy adopted by the agency under Subsection (b) must include standards for reviewing video and audio documentation.

(e) A report required under Subsection (b)(7) may not include identifying information about a peace officer who makes a motor vehicle [~~traffic~~] stop or about an individual who is stopped or arrested by a peace officer. This subsection does not affect the collection of information as required by a policy under Subsection (b)(6).

(g) On a finding by the Commission on Law Enforcement Officer Standards and Education that the chief administrator of a law enforcement agency intentionally failed to submit a report required under Subsection (b)(7), the commission shall begin disciplinary procedures against the chief administrator.

SECTION ____. Article 2.133, Code of Criminal Procedure, is amended to read as follows:

Art. 2.133. REPORTS REQUIRED FOR MOTOR VEHICLE [~~TRAFFIC AND PEDESTRIAN~~] STOPS. (a) In this article, "race[~~:~~

[~~(1) "Race~~] or ethnicity" has the meaning assigned by Article 2.132(a).

[~~(2) "Pedestrian stop" means an interaction between a peace officer and an individual who is being detained for the purpose of a criminal investigation in which the individual is not under arrest.~~]

(b) A peace officer who stops a motor vehicle for an alleged violation of a law or ordinance [~~regulating traffic or who stops a pedestrian for any suspected offense~~] shall report to the law enforcement agency that employs the officer information relating to the stop, including:

(1) a physical description of any [~~each~~] person operating the motor vehicle who is detained as a result of the stop, including:

(A) the person's gender; and

(B) the person's race or ethnicity, as stated by the person or, if the person does not state the person's race or

ethnicity, as determined by the officer to the best of the officer's ability;

(2) the initial reason for the stop [~~traffic law or ordinance alleged to have been violated or the suspected offense~~];

(3) whether the officer conducted a search as a result of the stop and, if so, whether the person detained consented to the search;

(4) whether any contraband or other evidence was discovered in the course of the search and a description [~~the type~~] of the contraband or evidence [~~discovered~~];

(5) the reason for the search, including whether:

(A) any contraband or other evidence was in plain view;

(B) any probable cause or reasonable suspicion existed to perform the search; or

(C) the search was performed as a result of the towing of the motor vehicle or the arrest of any person in the motor vehicle [~~existed and the facts supporting the existence of that probable cause~~];

(6) whether the officer made an arrest as a result of the stop or the search, including a statement of whether the arrest was based on a violation of the Penal Code, a violation of a traffic law or ordinance, or an outstanding warrant and a statement of the offense charged;

(7) the street address or approximate location of the stop; and

(8) whether the officer issued a written warning or a citation as a result of the stop[~~, including a description of the warning or a statement of the violation charged~~].

SECTION ____. Article 2.134, Code of Criminal Procedure, is amended by amending Subsections (a) through (e) and adding Subsection (g) to read as follows:

(a) In this article:

(1) "Motor vehicle[~~, "pedestrian~~] stop" has the meaning assigned by Article 2.132(a) [~~means an interaction between a peace officer and an individual who is being detained for the purpose of a criminal investigation in which the individual is not under arrest~~].

(2) "Race or ethnicity" has the meaning assigned by Article 2.132(a).

(b) A law enforcement agency shall compile and analyze the information contained in each report received by the agency under Article 2.133. Not later than March 1 of each year, each [~~local~~] law enforcement agency shall submit a report containing the incident-based data [~~information~~] compiled during the previous calendar year to the Commission on Law Enforcement Officer Standards and Education and, if the law enforcement agency is a local law enforcement agency, to the governing body of each county or municipality served by the agency [~~in a manner approved by the agency~~].

(c) A report required under Subsection (b) must be submitted by the chief administrator of the law enforcement agency, regardless of whether the administrator is elected, employed, or appointed, and must include:

(1) a comparative analysis of the information compiled under Article 2.133 to:

(A) evaluate and compare the number of motor

vehicle stops, within the applicable jurisdiction, of persons who are recognized as racial or ethnic minorities and persons who are not recognized as racial or ethnic minorities [~~determine the prevalence of racial profiling by peace officers employed by the agency~~]; and

(B) examine the disposition of motor vehicle [~~traffic and pedestrian~~] stops made by officers employed by the agency, categorized according to the race or ethnicity of the affected persons, as appropriate, including any searches resulting from [~~the~~] stops within the applicable jurisdiction; and

(2) information relating to each complaint filed with the agency alleging that a peace officer employed by the agency has engaged in racial profiling.

(d) A report required under Subsection (b) may not include identifying information about a peace officer who makes a motor vehicle [~~traffic or pedestrian~~] stop or about an individual who is stopped or arrested by a peace officer. This subsection does not affect the reporting of information required under Article 2.133(b)(1).

(e) The Commission on Law Enforcement Officer Standards and Education, in accordance with Section 1701.162, Occupations Code, shall develop guidelines for compiling and reporting information as required by this article.

(g) On a finding by the Commission on Law Enforcement Officer Standards and Education that the chief administrator of a law enforcement agency intentionally failed to submit a report required under Subsection (b), the commission shall begin disciplinary procedures against the chief administrator.

SECTION ____. Article 2.135, Code of Criminal Procedure, is amended to read as follows:

Art. 2.135. PARTIAL EXEMPTION FOR AGENCIES USING VIDEO AND AUDIO EQUIPMENT. (a) A peace officer is exempt from the reporting requirement under Article 2.133 and the chief administrator of a law enforcement agency, regardless of whether the administrator is elected, employed, or appointed, is exempt from the compilation, analysis, and reporting requirements under Article 2.134 if:

(1) during the calendar year preceding the date that a report under Article 2.134 is required to be submitted:

(A) each law enforcement motor vehicle regularly used by an officer employed by the agency to make motor vehicle [~~traffic and pedestrian~~] stops is equipped with video camera and transmitter-activated equipment and each law enforcement motorcycle regularly used to make motor vehicle [~~traffic and pedestrian~~] stops is equipped with transmitter-activated equipment; and

(B) each motor vehicle [~~traffic and pedestrian~~] stop made by an officer employed by the agency that is capable of being recorded by video and audio or audio equipment, as appropriate, is recorded by using the equipment; or

(2) the governing body of the county or municipality served by the law enforcement agency, in conjunction with the law enforcement agency, certifies to the Department of Public Safety, not later than the date specified by rule by the department, that the law enforcement agency needs funds or video and audio equipment for the purpose of installing video and audio equipment as described by Subsection (a)(1)(A) and the agency does not receive from the state funds or video and audio equipment sufficient, as

determined by the department, for the agency to accomplish that purpose.

(b) Except as otherwise provided by this subsection, a law enforcement agency that is exempt from the requirements under Article 2.134 shall retain the video and audio or audio documentation of each motor vehicle [~~traffic and pedestrian~~] stop for at least 90 days after the date of the stop. If a complaint is filed with the law enforcement agency alleging that a peace officer employed by the agency has engaged in racial profiling with respect to a motor vehicle [~~traffic or pedestrian~~] stop, the agency shall retain the video and audio or audio record of the stop until final disposition of the complaint.

(c) This article does not affect the collection or reporting requirements under Article 2.132.

(d) In this article, "motor vehicle stop" has the meaning assigned by Article 2.132(a).

SECTION ____. Chapter 2, Code of Criminal Procedure, is amended by adding Article 2.1385 to read as follows:

Art. 2.1385. CIVIL PENALTY. (a) If the chief administrator of a local law enforcement agency intentionally fails to submit the incident-based data as required by Article 2.134, the agency is liable to the state for a civil penalty in the amount of $1,000 for each violation. The attorney general may sue to collect a civil penalty under this subsection.

(b) From money appropriated to the agency for the administration of the agency, the executive director of a state law enforcement agency that intentionally fails to submit the incident-based data as required by Article 2.134 shall remit to the comptroller the amount of $1,000 for each violation.

(c) Money collected under this article shall be deposited in the state treasury to the credit of the general revenue fund.

SECTION ____. Subchapter A, Chapter 102, Code of Criminal Procedure, is amended by adding Article 102.022 to read as follows:

Art. 102.022. COSTS ON CONVICTION TO FUND STATEWIDE REPOSITORY FOR DATA RELATED TO CIVIL JUSTICE. (a) In this article, "moving violation" means an offense that:

(1) involves the operation of a motor vehicle; and

(2) is classified as a moving violation by the Department of Public Safety under Section 708.052, Transportation Code.

(b) A defendant convicted of a moving violation in a justice court, county court, county court at law, or municipal court shall pay a fee of 10 cents as a cost of court.

(c) In this article, a person is considered convicted if:

(1) a sentence is imposed on the person;

(2) the person receives community supervision, including deferred adjudication; or

(3) the court defers final disposition of the person's case.

(d) The clerks of the respective courts shall collect the costs described by this article. The clerk shall keep separate records of the funds collected as costs under this article and shall deposit the funds in the county or municipal treasury, as appropriate.

(e) The custodian of a county or municipal treasury shall:

(1) keep records of the amount of funds on deposit collected under this article; and

(2) send to the comptroller before the last day of the first month following each calendar quarter the funds collected under this article during the preceding quarter.

(f) A county or municipality may retain 10 percent of the funds collected under this article by an officer of the county or municipality as a collection fee if the custodian of the county or municipal treasury complies with Subsection (e).

(g) If no funds due as costs under this article are deposited in a county or municipal treasury in a calendar quarter, the custodian of the treasury shall file the report required for the quarter in the regular manner and must state that no funds were collected.

(h) The comptroller shall deposit the funds received under this article to the credit of the Civil Justice Data Repository fund in the general revenue fund, to be used only by the Commission on Law Enforcement Officer Standards and Education to implement duties under Section 1701.162, Occupations Code.

(i) Funds collected under this article are subject to audit by the comptroller.

SECTION ____. (a) Section 102.061, Government Code, as reenacted and amended by Chapter 921 (H.B. 3167), Acts of the 80th Legislature, Regular Session, 2007, is amended to conform to the amendments made to Section 102.061, Government Code, by Chapter 1053 (H.B. 2151), Acts of the 80th Legislature, Regular Session, 2007, and is further amended to read as follows:

Sec. 102.061. ADDITIONAL COURT COSTS ON CONVICTION IN STATUTORY COUNTY COURT: CODE OF CRIMINAL PROCEDURE. The clerk of a statutory county court shall collect fees and costs under the Code of Criminal Procedure on conviction of a defendant as follows:

(1) a jury fee (Art. 102.004, Code of Criminal Procedure) . . . $20;

(2) a fee for services of the clerk of the court (Art. 102.005, Code of Criminal Procedure) . . . $40;

(3) a records management and preservation services fee (Art. 102.005, Code of Criminal Procedure) . . . $25;

(4) a security fee on a misdemeanor offense (Art. 102.017, Code of Criminal Procedure) . . . $3;

(5) a juvenile delinquency prevention and graffiti eradication fee (Art. 102.0171, Code of Criminal Procedure) . . . $50 [~~$5~~]; [~~and~~]

(6) a juvenile case manager fee (Art. 102.0174, Code of Criminal Procedure) . . . not to exceed $5; and

(7) a civil justice fee (Art. 102.022, Code of Criminal Procedure) . . . $0.10.

(b) Section 102.061, Government Code, as amended by Chapter 1053 (H.B. 2151), Acts of the 80th Legislature, Regular Session, 2007, is repealed. Section 102.061, Government Code, as reenacted and amended by Chapter 921 (H.B. 3167), Acts of the 80th Legislature, Regular Session, 2007, to reorganize and renumber that section, continues in effect as further amended by this section.

SECTION ____. (a) Section 102.081, Government Code, as amended by Chapter 921 (H.B. 3167), Acts of the 80th Legislature, Regular Session, 2007, is amended to conform to the amendments made to Section 102.081, Government Code, by Chapter 1053 (H.B. 2151), Acts of the 80th Legislature, Regular Session, 2007, and is further amended to read as follows:

Sec. 102.081. ADDITIONAL COURT COSTS ON CONVICTION IN

COUNTY COURT: CODE OF CRIMINAL PROCEDURE. The clerk of a county court shall collect fees and costs under the Code of Criminal Procedure on conviction of a defendant as follows:

(1) a jury fee (Art. 102.004, Code of Criminal Procedure) . . . $20;

(2) a fee for clerk of the court services (Art. 102.005, Code of Criminal Procedure) . . . $40;

(3) a records management and preservation services fee (Art. 102.005, Code of Criminal Procedure) . . . $25;

(4) a security fee on a misdemeanor offense (Art. 102.017, Code of Criminal Procedure) . . . $3;

(5) a juvenile delinquency prevention and graffiti eradication fee (Art. 102.0171, Code of Criminal Procedure) . . . $50 [~~$5~~]; [~~and~~]

(6) a juvenile case manager fee (Art. 102.0174, Code of Criminal Procedure) . . . not to exceed $5; and

(7) a civil justice fee (Art. 102.022, Code of Criminal Procedure) . . . $0.10.

(b) Section 102.081, Government Code, as amended by Chapter 1053 (H.B. 2151), Acts of the 80th Legislature, Regular Session, 2007, is repealed. Section 102.081, Government Code, as amended by Chapter 921 (H.B. 3167), Acts of the 80th Legislature, Regular Session, 2007, to reorganize and renumber that section, continues in effect as further amended by this section.

SECTION ____. Section 102.101, Government Code, is amended to read as follows:

Sec. 102.101. ADDITIONAL COURT COSTS ON CONVICTION IN JUSTICE COURT: CODE OF CRIMINAL PROCEDURE. A clerk of a justice court shall collect fees and costs under the Code of Criminal Procedure on conviction of a defendant as follows:

(1) a jury fee (Art. 102.004, Code of Criminal Procedure) . . . $3;

(2) a fee for withdrawing request for jury less than 24 hours before time of trial (Art. 102.004, Code of Criminal Procedure) . . . $3;

(3) a jury fee for two or more defendants tried jointly (Art. 102.004, Code of Criminal Procedure) . . . one jury fee of $3;

(4) a security fee on a misdemeanor offense (Art. 102.017, Code of Criminal Procedure) . . . $4;

(5) a fee for technology fund on a misdemeanor offense (Art. 102.0173, Code of Criminal Procedure) . . . $4;

(6) a juvenile case manager fee (Art. 102.0174, Code of Criminal Procedure) . . . not to exceed $5;

(7) a fee on conviction of certain offenses involving issuing or passing a subsequently dishonored check (Art. 102.0071, Code of Criminal Procedure) . . . not to exceed $30; [~~and~~]

(8) a court cost on conviction of a Class C misdemeanor in a county with a population of 3.3 million or more, if authorized by the county commissioners court (Art. 102.009, Code of Criminal Procedure) . . . not to exceed $7; and

(9) a civil justice fee (Art. 102.022, Code of Criminal Procedure) . . . $0.10.

SECTION ____. Section 102.121, Government Code, is amended to read as follows:

Sec. 102.121. ADDITIONAL COURT COSTS ON CONVICTION IN MUNICIPAL COURT: CODE OF CRIMINAL PROCEDURE. The clerk of a

municipal court shall collect fees and costs on conviction of a defendant as follows:

(1) a jury fee (Art. 102.004, Code of Criminal Procedure) . . . $3;

(2) a fee for withdrawing request for jury less than 24 hours before time of trial (Art. 102.004, Code of Criminal Procedure) . . . $3;

(3) a jury fee for two or more defendants tried jointly (Art. 102.004, Code of Criminal Procedure) . . . one jury fee of $3;

(4) a security fee on a misdemeanor offense (Art. 102.017, Code of Criminal Procedure) . . . $3;

(5) a fee for technology fund on a misdemeanor offense (Art. 102.0172, Code of Criminal Procedure) . . . not to exceed $4; [~~and~~]

(6) a juvenile case manager fee (Art. 102.0174, Code of Criminal Procedure) . . . not to exceed $5; and

(7) a civil justice fee (Art. 102.022, Code of Criminal Procedure) . . . $0.10.

SECTION ____. Subchapter D, Chapter 1701, Occupations Code, is amended by adding Section 1701.164 to read as follows:

Sec. 1701.164. COLLECTION OF CERTAIN INCIDENT-BASED DATA SUBMITTED BY LAW ENFORCEMENT AGENCIES. The commission shall collect and maintain incident-based data submitted to the commission under Article 2.134, Code of Criminal Procedure, including incident-based data compiled by a law enforcement agency from reports received by the law enforcement agency under Article 2.133 of that code. The commission in consultation with the Department of Public Safety, the Bill Blackwood Law Enforcement Management Institute of Texas, the W. W. Caruth, Jr., Police Institute at Dallas, and the Texas Police Chiefs Association shall develop guidelines for submitting in a standard format the report containing incident-based data as required by Article 2.134, Code of Criminal Procedure.

SECTION ____. Subsection (a), Section 1701.501, Occupations Code, is amended to read as follows:

(a) Except as provided by Subsection (d), the commission shall revoke or suspend a license, place on probation a person whose license has been suspended, or reprimand a license holder for a violation of:

(1) this chapter;

(2) the reporting requirements provided by Articles 2.132 and 2.134, Code of Criminal Procedure; or

(3) a commission rule.

SECTION ____. (a) The requirements of Articles 2.132, 2.133, and 2.134, Code of Criminal Procedure, as amended by this Act, relating to the compilation, analysis, and submission of incident-based data apply only to information based on a motor vehicle stop occurring on or after January 1, 2010.

(b) The imposition of a cost of court under Article 102.022, Code of Criminal Procedure, as added by this Act, applies only to an offense committed on or after the effective date of this Act. An offense committed before the effective date of this Act is covered by the law in effect when the offense was committed, and the former law is continued in effect for that purpose. For purposes of this section, an offense was committed before the effective date of this Act if any element of the offense occurred before that date.

Racial and Ethnic Designations (H.B. 3051)

H.B. No. 3051

AN ACT

relating to the categories used to record the race or ethnicity of persons stopped for or convicted of traffic offenses.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF TEXAS:

SECTION 1. Article 2.132(a)(3), Code of Criminal Procedure, is amended to read as follows:

(3) "Race or ethnicity" means the following categories:

(A) Alaska native or American Indian;

(B) [~~of a particular descent, including Caucasian, African, Hispanic,~~] Asian or Pacific Islander;

(C) black;

(D) white; and

(E) Hispanic or Latino [~~, Native American, or Middle Eastern descent~~].

SECTION 2. Section 543.202(a), Transportation Code, is amended to read as follows:

(a) In this section, "race or ethnicity" means the following categories:

(1) Alaska native or American Indian;

231

(2) [~~of a particular descent, including Caucasian, African, Hispanic,~~] Asian or Pacific Islander;

(3) black;

(4) white; and

(5) Hispanic or Latino [~~, or Native American descent~~].

SECTION 3. This Act takes effect September 1, 2017.

The Sandra Bland Act (S.B. 1849)

233

S.B. No. 1849

AN ACT

relating to interactions between law enforcement and individuals detained or arrested on suspicion of the commission of criminal offenses, to the confinement, conviction, or release of those individuals, and to grants supporting populations that are more likely to interact frequently with law enforcement.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF TEXAS:

ARTICLE 1. SHORT TITLE

SECTION 1.01. SHORT TITLE. This Act shall be known as the Sandra Bland Act, in memory of Sandra Bland.

ARTICLE 2. IDENTIFICATION AND DIVERSION OF AND SERVICES FOR PERSONS SUSPECTED OF HAVING A MENTAL ILLNESS, AN INTELLECTUAL DISABILITY, OR A SUBSTANCE ABUSE ISSUE

SECTION 2.01. Article 16.22, Code of Criminal Procedure, is amended to read as follows:

Art. 16.22. EARLY IDENTIFICATION OF DEFENDANT SUSPECTED OF HAVING MENTAL ILLNESS OR INTELLECTUAL DISABILITY [MENTAL RETARDATION]. (a)(1) Not later than 12 [72] hours after receiving credible information that may establish reasonable cause to believe that a defendant committed to the sheriff's custody has a mental illness or is a person with an intellectual disability [mental retardation], including observation of the defendant's behavior immediately before, during, and after the defendant's arrest and the results of any previous assessment of the defendant, the sheriff shall provide written or electronic notice of the information to the magistrate. On a determination that there is reasonable cause to believe that the defendant has a mental illness or is a person with an intellectual disability [mental

retardation], the magistrate, except as provided by Subdivision (2), shall order the local mental health or intellectual and developmental disability [mental retardation] authority or another qualified mental health or intellectual disability [mental retardation] expert to:

(A) collect information regarding whether the defendant has a mental illness as defined by Section 571.003, Health and Safety Code, or is a person with an intellectual disability [mental retardation] as defined by Section 591.003, Health and Safety Code, including information obtained from any previous assessment of the defendant; and

(B) provide to the magistrate a written assessment of the information collected under Paragraph (A).

(2) The magistrate is not required to order the collection of information under Subdivision (1) if the defendant in the year preceding the defendant's applicable date of arrest has been determined to have a mental illness or to be a person with an intellectual disability [mental retardation] by the local mental health or intellectual and developmental disability [mental retardation] authority or another mental health or intellectual disability [mental retardation] expert described by Subdivision (1). A court that elects to use the results of that previous determination may proceed under Subsection (c).

(3) If the defendant fails or refuses to submit to the collection of information regarding the defendant as required under Subdivision (1), the magistrate may order the defendant to submit to an examination in a mental health facility determined to be appropriate by the local mental health or intellectual and developmental disability [mental retardation] authority for a reasonable period not to exceed 21 days. The magistrate may order a defendant to a facility operated by the Department of State Health Services or the Health and Human Services Commission [Department of

235

Aging and Disability Services] for examination only on request of the local mental health or intellectual and developmental disability [mental retardation] authority and with the consent of the head of the facility. If a defendant who has been ordered to a facility operated by the Department of State Health Services or the Health and Human Services Commission [Department of Aging and Disability Services] for examination remains in the facility for a period exceeding 21 days, the head of that facility shall cause the defendant to be immediately transported to the committing court and placed in the custody of the sheriff of the county in which the committing court is located. That county shall reimburse the facility for the mileage and per diem expenses of the personnel required to transport the defendant calculated in accordance with the state travel regulations in effect at the time.

(b) A written assessment of the information collected under Subsection (a)(1)(A) shall be provided to the magistrate not later than the 30th day after the date of any order issued under Subsection (a) in a felony case and not later than the 10th day after the date of any order issued under that subsection in a misdemeanor case, and the magistrate shall provide copies of the written assessment to the defense counsel, the prosecuting attorney, and the trial court. The written assessment must include a description of the procedures used in the collection of information under Subsection (a)(1)(A) and the applicable expert's observations and findings pertaining to:

(1) whether the defendant is a person who has a mental illness or is a person with an intellectual disability [mental retardation];

(2) whether there is clinical evidence to support a belief that the defendant may be incompetent to stand trial and should undergo a complete competency examination under Subchapter B, Chapter 46B; and

236

(3) recommended treatment.

(c) After the trial court receives the applicable expert's written assessment relating to the defendant under Subsection (b) or elects to use the results of a previous determination as described by Subsection (a)(2), the trial court may, as applicable:

(1) resume criminal proceedings against the defendant, including any appropriate proceedings related to the defendant's release on personal bond under Article 17.032;

(2) resume or initiate competency proceedings, if required, as provided by Chapter 46B or other proceedings affecting the defendant's receipt of appropriate court-ordered mental health or intellectual disability [mental retardation] services, including proceedings related to the defendant's receipt of outpatient mental health services under Section 574.034, Health and Safety Code; or

(3) consider the written assessment during the punishment phase after a conviction of the offense for which the defendant was arrested, as part of a presentence investigation report, or in connection with the impositions of conditions following placement on community supervision, including deferred adjudication community supervision.

(d) This article does not prevent the applicable court from, before, during, or after the collection of information regarding the defendant as described by this article:

(1) releasing a defendant who has a mental illness [mentally ill] or is a person with an intellectual disability [mentally retarded defendant] from custody on personal or surety bond; or

(2) ordering an examination regarding the defendant's competency to stand trial.

SECTION 2.02. Chapter 16, Code of Criminal Procedure, is

237

amended by adding Article 16.23 to read as follows:

Art. 16.23. DIVERSION OF PERSONS SUFFERING MENTAL HEALTH CRISIS OR SUBSTANCE ABUSE ISSUE. (a) Each law enforcement agency shall make a good faith effort to divert a person suffering a mental health crisis or suffering from the effects of substance abuse to a proper treatment center in the agency's jurisdiction if:

(1) there is an available and appropriate treatment center in the agency's jurisdiction to which the agency may divert the person;

(2) it is reasonable to divert the person;

(3) the offense that the person is accused of is a misdemeanor, other than a misdemeanor involving violence; and

(4) the mental health crisis or substance abuse issue is suspected to be the reason the person committed the alleged offense.

(b) Subsection (a) does not apply to a person who is accused of an offense under Section 49.04, 49.045, 49.05, 49.06, 49.065, 49.07, or 49.08, Penal Code.

SECTION 2.03. Section 539.002, Government Code, is amended to read as follows:

Sec. 539.002. GRANTS FOR ESTABLISHMENT AND EXPANSION OF COMMUNITY COLLABORATIVES. (a) To the extent funds are appropriated to the department for that purpose, the department shall make grants to entities, including local governmental entities, nonprofit community organizations, and faith-based community organizations, to establish or expand community collaboratives that bring the public and private sectors together to provide services to persons experiencing homelessness, substance abuse issues, or [and] mental illness. [The department may make a maximum of five grants, which must be made in the most populous municipalities in this state that are located in counties with a population of more than one million.] In awarding grants,

the department shall give special consideration to entities:

(1) establishing [a] new collaboratives; or

(2) establishing or expanding collaboratives that serve two or more counties, each with a population of less than 100,000 [collaborative].

(b) The department shall require each entity awarded a grant under this section to:

(1) leverage additional funding from private sources in an amount that is at least equal to the amount of the grant awarded under this section; [and]

(2) provide evidence of significant coordination and collaboration between the entity, local mental health authorities, municipalities, local law enforcement agencies, and other community stakeholders in establishing or expanding a community collaborative funded by a grant awarded under this section; and

(3) provide evidence of a local law enforcement policy to divert appropriate persons from jails or other detention facilities to an entity affiliated with a community collaborative for the purpose of providing services to those persons.

SECTION 2.04. Chapter 539, Government Code, is amended by adding Section 539.0051 to read as follows:

Sec. 539.0051. PLAN REQUIRED FOR CERTAIN COMMUNITY COLLABORATIVES. (a) The governing body of a county shall develop and make public a plan detailing:

(1) how local mental health authorities, municipalities, local law enforcement agencies, and other community stakeholders in the county could coordinate to establish or expand a community collaborative to accomplish the goals of Section 539.002;

(2) how entities in the county may leverage funding from private sources to accomplish the goals of Section 539.002 through the formation or expansion of a community collaborative;

and

(3) how the formation or expansion of a community collaborative could establish or support resources or services to help local law enforcement agencies to divert persons who have been arrested to appropriate mental health care or substance abuse treatment.

(b) The governing body of a county in which an entity that received a grant under Section 539.002 before September 1, 2017, is located is not required to develop a plan under Subsection (a).

(c) Two or more counties, each with a population of less than 100,000, may form a joint plan under Subsection (a).

ARTICLE 3. BAIL, PRETRIAL RELEASE, AND COUNTY JAIL STANDARDS

SECTION 3.01. The heading to Article 17.032, Code of Criminal Procedure, is amended to read as follows:

Art. 17.032. RELEASE ON PERSONAL BOND OF CERTAIN [MENTALLY ILL] DEFENDANTS WITH MENTAL ILLNESS OR INTELLECTUAL DISABILITY.

SECTION 3.02. Articles 17.032(b) and (c), Code of Criminal Procedure, are amended to read as follows:

(b) A magistrate shall release a defendant on personal bond unless good cause is shown otherwise if the:

(1) defendant is not charged with and has not been previously convicted of a violent offense;

(2) defendant is examined by the local mental health or intellectual and developmental disability [mental retardation] authority or another mental health expert under Article 16.22 [of this code];

(3) applicable expert, in a written assessment submitted to the magistrate under Article 16.22:

(A) concludes that the defendant has a mental illness or is a person with an intellectual disability [mental retardation] and is nonetheless competent to stand trial; and

(B) recommends mental health treatment or

240

intellectual disability treatment for the defendant, as applicable; and

(4) magistrate determines, in consultation with the local mental health or intellectual and developmental disability [mental retardation] authority, that appropriate community-based mental health or intellectual disability [mental retardation] services for the defendant are available through the [Texas] Department of State [Mental] Health Services [and Mental Retardation] under Section 534.053, Health and Safety Code, or through another mental health or intellectual disability [mental retardation] services provider.

(c) The magistrate, unless good cause is shown for not requiring treatment, shall require as a condition of release on personal bond under this article that the defendant submit to outpatient or inpatient mental health or intellectual disability [mental retardation] treatment as recommended by the local mental health or intellectual and developmental disability [mental retardation] authority if the defendant's:

(1) mental illness or intellectual disability [mental retardation] is chronic in nature; or

(2) ability to function independently will continue to deteriorate if the defendant is not treated.

SECTION 3.03. Article 25.03, Code of Criminal Procedure, is amended to read as follows:

Art. 25.03. IF ON BAIL IN FELONY. When the accused, in case of felony, is on bail at the time the indictment is presented, [it is not necessary to serve him with a copy, but] the clerk shall [on request] deliver a copy of the indictment [same] to the accused or the accused's [his] counsel[,] at the earliest possible time.

SECTION 3.04. Article 25.04, Code of Criminal Procedure, is amended to read as follows:

Art. 25.04. IN MISDEMEANOR. In misdemeanors, the clerk

241

shall deliver a copy of the indictment or information to the accused or the accused's counsel at the earliest possible time before trial [it shall not be necessary before trial to furnish the accused with a copy of the indictment or information; but he or his counsel may demand a copy, which shall be given as early as possible

SECTION 3.05. Section 511.009(a), Government Code, as amended by Chapters 281 (H.B. 875), 648 (H.B. 549), and 688 (H.B. 634), Acts of the 84th Legislature, Regular Session, 2015, is reenacted and amended to read as follows:

(a) The commission shall:

(1) adopt reasonable rules and procedures establishing minimum standards for the construction, equipment, maintenance, and operation of county jails;

(2) adopt reasonable rules and procedures establishing minimum standards for the custody, care, and treatment of prisoners;

(3) adopt reasonable rules establishing minimum standards for the number of jail supervisory personnel and for programs and services to meet the needs of prisoners;

(4) adopt reasonable rules and procedures establishing minimum requirements for programs of rehabilitation, education, and recreation in county jails;

(5) revise, amend, or change rules and procedures if necessary;

(6) provide to local government officials consultation on and technical assistance for county jails;

(7) review and comment on plans for the construction and major modification or renovation of county jails;

(8) require that the sheriff and commissioners of each county submit to the commission, on a form prescribed by the commission, an annual report on the conditions in each county jail

242

within their jurisdiction, including all information necessary to determine compliance with state law, commission orders, and the rules adopted under this chapter;

(9) review the reports submitted under Subdivision (8) and require commission employees to inspect county jails regularly to ensure compliance with state law, commission orders, and rules and procedures adopted under this chapter;

(10) adopt a classification system to assist sheriffs and judges in determining which defendants are low-risk and consequently suitable participants in a county jail work release program under Article 42.034, Code of Criminal Procedure;

(11) adopt rules relating to requirements for segregation of classes of inmates and to capacities for county jails;

(12) require that the chief jailer of each municipal lockup submit to the commission, on a form prescribed by the commission, an annual report of persons under 17 years of age securely detained in the lockup, including all information necessary to determine compliance with state law concerning secure confinement of children in municipal lockups;

(13) at least annually determine whether each county jail is in compliance with the rules and procedures adopted under this chapter;

(14) require that the sheriff and commissioners court of each county submit to the commission, on a form prescribed by the commission, an annual report of persons under 17 years of age securely detained in the county jail, including all information necessary to determine compliance with state law concerning secure confinement of children in county jails;

(15) schedule announced and unannounced inspections of jails under the commission's jurisdiction using the risk assessment plan established under Section 511.0085 to guide the

243

inspections process;

(16) adopt a policy for gathering and distributing to jails under the commission's jurisdiction information regarding:

(A) common issues concerning jail administration;

(B) examples of successful strategies for maintaining compliance with state law and the rules, standards, and procedures of the commission; and

(C) solutions to operational challenges for jails;

(17) report to the Texas Correctional Office on Offenders with Medical or Mental Impairments on a jail's compliance with Article 16.22, Code of Criminal Procedure;

(18) adopt reasonable rules and procedures establishing minimum requirements for jails to:

(A) determine if a prisoner is pregnant; and

(B) ensure that the jail's health services plan addresses medical and mental health care, including nutritional requirements, and any special housing or work assignment needs for persons who are confined in the jail and are known or determined to be pregnant;

(19) provide guidelines to sheriffs regarding contracts between a sheriff and another entity for the provision of food services to or the operation of a commissary in a jail under the commission's jurisdiction, including specific provisions regarding conflicts of interest and avoiding the appearance of impropriety; [and]

(20) adopt reasonable rules and procedures establishing minimum standards for prisoner visitation that provide each prisoner at a county jail with a minimum of two in-person, noncontact visitation periods per week of at least 20

minutes duration each;

(21) [(20)] require the sheriff of each county to:

(A) investigate and verify the veteran status of each prisoner by using data made available from the Veterans Reentry Search Service (VRSS) operated by the United States Department of Veterans Affairs or a similar service; and

(B) use the data described by Paragraph (A) to assist prisoners who are veterans in applying for federal benefits or compensation for which the prisoners may be eligible under a program administered by the United States Department of Veterans Affairs;

(22) [(20)] adopt reasonable rules and procedures regarding visitation of a prisoner at a county jail by a guardian, as defined by Section 1002.012, Estates Code, that:

(A) allow visitation by a guardian to the same extent as the prisoner's next of kin, including placing the guardian on the prisoner's approved visitors list on the guardian's request and providing the guardian access to the prisoner during a facility's standard visitation hours if the prisoner is otherwise eligible to receive visitors; and

(B) require the guardian to provide the sheriff with letters of guardianship issued as provided by Section 1106.001, Estates Code, before being allowed to visit the prisoner; and

(23) adopt reasonable rules and procedures to ensure the safety of prisoners, including rules and procedures that require a county jail to:

(A) give prisoners the ability to access a mental health professional at the jail through a telemental health service 24 hours a day;

(B) give prisoners the ability to access a health professional at the jail or through a telehealth service 24 hours a

245

day or, if a health professional is unavailable at the jail or through a telehealth service, provide for a prisoner to be transported to access a health professional; and

(C) if funding is available under Section 511.019, install automated electronic sensors or cameras to ensure accurate and timely in-person checks of cells or groups of cells confining at-risk individuals.

SECTION 3.06. Section 511.009, Government Code, is amended by adding Subsection (d) to read as follows:

(d) The commission shall adopt reasonable rules and procedures establishing minimum standards regarding the continuity of prescription medications for the care and treatment of prisoners. The rules and procedures shall require that a qualified medical professional shall review as soon as possible any prescription medication a prisoner is taking when the prisoner is taken into custody.

SECTION 3.07. Chapter 511, Government Code, is amended by adding Sections 511.019, 511.020, and 511.021 to read as follows:

Sec. 511.019. PRISONER SAFETY FUND. (a) The prisoner safety fund is a dedicated account in the general revenue fund.

(b) The prisoner safety fund consists of:

(1) appropriations of money to the fund by the legislature; and

(2) gifts, grants, including grants from the federal government, and other donations received for the fund.

(c) Money in the fund may be appropriated only to the commission to pay for capital improvements that are required under Section 511.009(a)(23).

(d) The commission by rule may establish a grant program to provide grants to counties to fund capital improvements described by Subsection (c). The commission may only provide a grant to a county for capital improvements to a county jail with a capacity of

246

not more than 96 prisoners.

Sec. 511.020. SERIOUS INCIDENTS REPORT. (a) On or before the fifth day of each month, the sheriff of each county shall report to the commission regarding the occurrence during the preceding month of any of the following incidents involving a prisoner in the county jail:

(1) a suicide;

(2) an attempted suicide;

(3) a death;

(4) a serious bodily injury, as that term is defined by Section 1.07, Penal Code;

(5) an assault;

(6) an escape;

(7) a sexual assault; and

(8) any use of force resulting in bodily injury, as that term is defined by Section 1.07, Penal Code.

(b) The commission shall prescribe a form for the report required by Subsection (a).

(c) The information required to be reported under Subsection (a)(8) may not include the name or other identifying information of a county jailer or jail employee.

(d) The information reported under Subsection (a) is public information subject to an open records request under Chapter 552.

Sec. 511.021. INDEPENDENT INVESTIGATION OF DEATH OCCURRING IN COUNTY JAIL. (a) On the death of a prisoner in a county jail, the commission shall appoint a law enforcement agency, other than the local law enforcement agency that operates the county jail, to investigate the death as soon as possible.

(b) The commission shall adopt any rules necessary relating to the appointment of a law enforcement agency under Subsection (a), including rules relating to cooperation between law enforcement agencies and to procedures for handling evidence.

247

SECTION 3.08. The changes in law made by this article to Article 17.032, Code of Criminal Procedure, apply only to a personal bond that is executed on or after the effective date of this Act. A personal bond executed before the effective date of executed, and the former law is continued in effect for that purpose.

SECTION 3.09. Not later than January 1, 2018, the Commission on Jail Standards shall:

(1) adopt the rules and procedures required by Section 511.009(d), Government Code, as added by this article, and the rules required by Section 511.021(b), Government Code, as added by this article; and

(2) prescribe the form required by Section 511.020(b), Government Code, as added by this article.

SECTION 3.10. Not later than September 1, 2018, the Commission on Jail Standards shall adopt the rules and procedures required by Section 511.009(a)(23), Government Code, as added by this article. On and after September 1, 2020, a county jail shall comply with any rule or procedure adopted by the Commission on Jail Standards under that subdivision.

SECTION 3.11. To the extent of any conflict, this Act prevails over another Act of the 85th Legislature, Regular Session, 2017, relating to nonsubstantive additions to and corrections in enacted codes.

ARTICLE 4. PEACE OFFICER AND COUNTY JAILER TRAINING

SECTION 4.01. Chapter 511, Government Code, is amended by adding Section 511.00905 to read as follows:

Sec. 511.00905. JAIL ADMINISTRATOR POSITION; EXAMINATION REQUIRED. (a) The Texas Commission on Law Enforcement shall develop and the commission shall approve an examination for a person assigned to the jail administrator position overseeing a county jail.

248

(b) The commission shall adopt rules requiring a person, other than a sheriff, assigned to the jail administrator position overseeing a county jail to pass the examination not later than the 180th day after the date the person is assigned to that position. The rules must provide that a person who fails the examination may be immediately removed from the position and may not be reinstated until the person passes the examination.

(c) The sheriff of a county shall perform the duties of the jail administrator position at any time there is not a person available who satisfies the examination requirements of this section.

(d) A person other than a sheriff may not serve in the jail administrator position of a county jail unless the person satisfies the examination requirement of this section.

SECTION 4.02. Section 1701.253, Occupations Code, is amended by amending Subsection (j) and adding Subsection (n) to read as follows:

commission shall require an officer to complete a 40-hour statewide education and training program on de-escalation and crisis intervention techniques to facilitate interaction with persons with mental impairments. An officer shall complete the program not later than the second anniversary of the date the officer is licensed under this chapter or the date the officer applies for an intermediate proficiency certificate, whichever date is earlier. An officer may not satisfy the requirements of this subsection [section] or Section 1701.402(g) by taking an online course on de-escalation and crisis intervention techniques to facilitate interaction with persons with mental impairments.

(n) As part of the minimum curriculum requirements, the commission shall require an officer to complete a statewide education and training program on de-escalation techniques to facilitate interaction with members of the public, including

techniques for limiting the use of force resulting in bodily injury.

SECTION 4.03. Section 1701.310(a), Occupations Code, is amended to read as follows:

(a) Except as provided by Subsection (e), a person may not be appointed as a county jailer, except on a temporary basis, unless the person has satisfactorily completed a preparatory training program, as required by the commission, in the operation of a county jail at a school operated or licensed by the commission. The training program must consist of at least eight hours of mental health training approved by the commission and the Commission on Jail Standards.

SECTION 4.04. Section 1701.352(b), Occupations Code, is amended to read as follows:

(b) The commission shall require a state, county, special district, or municipal agency that appoints or employs peace officers to provide each peace officer with a training program at least once every 48 months that is approved by the commission and consists of:

(1) topics selected by the agency; and

(2) for an officer holding only a basic proficiency certificate, not more than 20 hours of education and training that contain curricula incorporating the learning objectives developed by the commission regarding:

(A) civil rights, racial sensitivity, and cultural diversity;

(B) de-escalation and crisis intervention techniques to facilitate interaction with persons with mental impairments; [and]

(C) de-escalation techniques to facilitate interaction with members of the public, including techniques for limiting the use of force resulting in bodily injury; and

250

(D) unless determined by the agency head to be inconsistent with the officer's assigned duties:

(i) the recognition and documentation of cases that involve child abuse or neglect, family violence, and sexual assault; and

(ii) issues concerning sex offender characteristics.

SECTION 4.05. Section 1701.402, Occupations Code, is amended by adding Subsection (n) to read as follows:

(n) As a requirement for an intermediate proficiency certificate or an advanced proficiency certificate, an officer must complete the education and training program regarding de-escalation techniques to facilitate interaction with members of the public established by the commission under Section 1701.253(n).

SECTION 4.06. Not later than March 1, 2018, the Texas Commission on Law Enforcement shall develop and the Commission on Jail Standards shall approve the examination required by Section 511.00905, Government Code, as added by this article.

SECTION 4.07. (a) Not later than March 1, 2018, the Texas Commission on Law Enforcement shall establish or modify training programs as necessary to comply with Section 1701.253, Occupations Code, as amended by this article.

(b) The minimum curriculum requirements under Section 1701.253(j), Occupations Code, as amended by this article, apply only to a peace officer who first begins to satisfy those requirements on or after April 1, 2018.

SECTION 4.08. (a) Section 1701.310, Occupations Code, as amended by this article, takes effect January 1, 2018.

(b) A person in the position of county jailer on September 1, 2017, must comply with Section 1701.310(a), Occupations Code, as amended by this article, not later than August 31, 2021.

ARTICLE 5. MOTOR VEHICLE STOPS, RACIAL PROFILING, AND ISSUANCE OF

CITATIONS

SECTION 5.01. Article 2.132, Code of Criminal Procedure, is amended by amending Subsections (b) and (d) and adding Subsection (h) to read as follows:

(b) Each law enforcement agency in this state shall adopt a detailed written policy on racial profiling. The policy must:

(1) clearly define acts constituting racial profiling;

(2) strictly prohibit peace officers employed by the agency from engaging in racial profiling;

(3) implement a process by which an individual may file a complaint with the agency if the individual believes that a peace officer employed by the agency has engaged in racial profiling with respect to the individual;

(4) provide public education relating to the agency's compliment and complaint process, including providing the telephone number, mailing address, and e-mail address to make a compliment or complaint with respect to each ticket, citation, or warning issued by a peace officer;

(5) require appropriate corrective action to be taken against a peace officer employed by the agency who, after an investigation, is shown to have engaged in racial profiling in violation of the agency's policy adopted under this article;

(6) require collection of information relating to motor vehicle stops in which a ticket, citation, or warning is issued and to arrests made as a result of those stops, including information relating to:

(A) the race or ethnicity of the individual detained;

(B) whether a search was conducted and, if so, whether the individual detained consented to the search; [and]

(C) whether the peace officer knew the race or ethnicity of the individual detained before detaining that individual;

(D) whether the peace officer used physical force that resulted in bodily injury, as that term is defined by Section 1.07, Penal Code, during the stop;

(E) the location of the stop; and

(F) the reason for the stop; and

(7) require the chief administrator of the agency, regardless of whether the administrator is elected, employed, or appointed, to submit an annual report of the information collected under Subdivision (6) to:

(A) the Texas Commission on Law Enforcement; and

(B) the governing body of each county or municipality served by the agency, if the agency is an agency of a county, municipality, or other political subdivision of the state.

(d) On adoption of a policy under Subsection (b), a law enforcement agency shall examine the feasibility of installing video camera and transmitter-activated equipment in each agency law enforcement motor vehicle regularly used to make motor vehicle stops and transmitter-activated equipment in each agency law enforcement motorcycle regularly used to make motor vehicle stops. The agency also shall examine the feasibility of equipping each peace officer who regularly detains or stops motor vehicles with a body worn camera, as that term is defined by Section 1701.651, Occupations Code. If a law enforcement agency installs video or audio equipment or equips peace officers with body worn cameras as provided by this subsection, the policy adopted by the agency under Subsection (b) must include standards for reviewing video and audio documentation.

(h) A law enforcement agency shall review the data collected

253

under Subsection (b)(6) to identify any improvements the agency could make in its practices and policies regarding motor vehicle stops.

SECTION 5.02. Article 2.133, Code of Criminal Procedure, is amended by amending Subsection (b) and adding Subsection (c) to read as follows:

(b) A peace officer who stops a motor vehicle for an alleged violation of a law or ordinance shall report to the law enforcement agency that employs the officer information relating to the stop, including:

(1) a physical description of any person operating the motor vehicle who is detained as a result of the stop, including:

(A) the person's gender; and

(B) the person's race or ethnicity, as stated by the person or, if the person does not state the person's race or ethnicity, as determined by the officer to the best of the officer's ability;

(2) the initial reason for the stop;

(3) whether the officer conducted a search as a result of the stop and, if so, whether the person detained consented to the search;

(4) whether any contraband or other evidence was discovered in the course of the search and a description of the contraband or evidence;

(5) the reason for the search, including whether:

(A) any contraband or other evidence was in plain view;

(B) any probable cause or reasonable suspicion existed to perform the search; or

(C) the search was performed as a result of the towing of the motor vehicle or the arrest of any person in the motor

vehicle;

(6) whether the officer made an arrest as a result of the stop or the search, including a statement of whether the arrest was based on a violation of the Penal Code, a violation of a traffic law or ordinance, or an outstanding warrant and a statement of the offense charged;

(7) the street address or approximate location of the stop; [and]

(8) whether the officer issued a verbal or written warning or a ticket or citation as a result of the stop; and

(9) whether the officer used physical force that resulted in bodily injury, as that term is defined by Section 1.07, Penal Code, during the stop.

(c) The chief administrator of a law enforcement agency, regardless of whether the administrator is elected, employed, or appointed, is responsible for auditing reports under Subsection (b) to ensure that the race or ethnicity of the person operating the motor vehicle is being reported.

SECTION 5.03. Article 2.134(c), Code of Criminal Procedure, is amended to read as follows:

(c) A report required under Subsection (b) must be submitted by the chief administrator of the law enforcement agency, regardless of whether the administrator is elected, employed, or appointed, and must include:

(1) a comparative analysis of the information compiled under Article 2.133 to:

(A) evaluate and compare the number of motor vehicle stops, within the applicable jurisdiction, of persons who are recognized as racial or ethnic minorities and persons who are not recognized as racial or ethnic minorities; [and]

(B) examine the disposition of motor vehicle

stops made by officers employed by the agency, categorized according to the race or ethnicity of the affected persons, as appropriate, including any searches resulting from stops within the applicable jurisdiction; and

(C) evaluate and compare the number of searches resulting from motor vehicle stops within the applicable jurisdiction and whether contraband or other evidence was discovered in the course of those searches; and

(2) information relating to each complaint filed with the agency alleging that a peace officer employed by the agency has engaged in racial profiling.

SECTION 5.04. Article 2.137, Code of Criminal Procedure, is amended to read as follows:

Art. 2.137. PROVISION OF FUNDING OR EQUIPMENT. (a) The Department of Public Safety shall adopt rules for providing funds or video and audio equipment to law enforcement agencies for the purpose of installing video and audio equipment in law enforcement motor vehicles and motorcycles or equipping peace officers with body worn cameras [as described by Article 2.135(a)(1)(A)], including specifying criteria to prioritize funding or equipment provided to law enforcement agencies. The criteria may include consideration of tax effort, financial hardship, available revenue, and budget surpluses. The criteria must give priority to:

(1) law enforcement agencies that employ peace officers whose primary duty is traffic enforcement;

(2) smaller jurisdictions; and

(3) municipal and county law enforcement agencies.

(b) The Department of Public Safety shall collaborate with an institution of higher education to identify law enforcement agencies that need funds or video and audio equipment for the purpose of installing video and audio equipment in law enforcement motor vehicles and motorcycles or equipping peace officers with

256

body worn cameras [as described by Article 2.135(a)(1)(A)]. The collaboration may include the use of a survey to assist in developing criteria to prioritize funding or equipment provided to law enforcement agencies.

(c) To receive funds or video and audio equipment from the state for the purpose of installing video and audio equipment in law enforcement motor vehicles and motorcycles or equipping peace officers with body worn cameras [as described by Article 2.135(a)(1)(A)], the governing body of a county or municipality, in conjunction with the law enforcement agency serving the county or municipality, shall certify to the Department of Public Safety that the law enforcement agency needs funds or video and audio equipment for that purpose.

(d) On receipt of funds or video and audio equipment from the state for the purpose of installing video and audio equipment in law enforcement motor vehicles and motorcycles or equipping peace officers with body worn cameras [as described by Article 2.135(a)(1)(A)], the governing body of a county or municipality, in conjunction with the law enforcement agency serving the county or municipality, shall certify to the Department of Public Safety that the law enforcement agency has taken the necessary actions to use and is using [installed] video and audio equipment and body worn cameras for those purposes [as described by Article 2.135(a)(1)(A) and is using the equipment as required by Article 2.135(a)(1)].

SECTION 5.05. Article 2.1385(a), Code of Criminal Procedure, is amended to read as follows:

(a) If the chief administrator of a local law enforcement agency intentionally fails to submit the incident-based data as required by Article 2.134, the agency is liable to the state for a civil penalty in an [the] amount not to exceed $5,000 [of $1,000] for each violation. The attorney general may sue to collect a civil penalty under this subsection.

257

SECTION 5.06. Article 2.135, Code of Criminal Procedure, is repealed.

SECTION 5.07. Articles 2.132 and 2.134, Code of Criminal Procedure, as amended by this article, apply only to a report covering a calendar year beginning on or after January 1, 2018.

SECTION 5.08. Not later than September 1, 2018, the Texas Commission on Law Enforcement shall:

(1) evaluate and change the guidelines for compiling and reporting information required under Article 2.134, Code of Criminal Procedure, as amended by this article, to enable the guidelines to better withstand academic scrutiny; and

(2) make accessible online:

(A) a downloadable format of any information submitted under Article 2.134(b), Code of Criminal Procedure, that is not exempt from public disclosure under Chapter 552, Government Code; and

(B) a glossary of terms relating to the information to make the information readily understandable to the public.

this Act takes effect September 1, 2017.

Institutional Policy on Racial Profiling

261

412.00 BIAS BASED PROFILING

The purpose of this policy is to reaffirm the Rockwall Police Department's commitment to unbiased policing in all its encounters between officer and any person, to reinforce procedures that serve to ensure public confidence and mutual trust through the provision of services in a fair and equitable fashion, and to protect our officers from unwarranted accusations of misconduct when they act within the dictates of departmental policy and the law.

A. It is the policy of this department to police in a proactive manner and, to aggressively investigate suspected violations of the law. Officers shall actively enforce state and federal laws in a responsible and professional manner, without regard to race, ethnicity or national origin. Officers are strictly prohibited from engaging in bias based profiling, and especially bias based profiling as defined in this policy. Bias based profiling is an unacceptable police tactic and will not be condoned.

B. This General Order is adopted in compliance with requirements of Articles 2.131 through 2.138, Texas Code of Criminal Procedure, which prohibits Texas peace officers from engaging in bias based profiling.

412.01 DEFINITIONS

A. Bias Based Profiling - A law enforcement-initiated action based on an individual's cultural group, sexual orientation, economic status, age, gender, background, or any other identifiable group rather than on the individual's behavior or on information identifying the individual as having engaged in criminal activity. Bias based profiling pertains to persons who are viewed as suspects or potential suspects of criminal behavior. The term is not relevant as it pertains to witnesses, complainants, persons needing assistance or other citizen contacts.

B. Race or Ethnicity – Persons of particular descent, including white, black, Hispanic or Latino, Asian or Pacific Islander, Alaska native or American Indian.

C. Acts Constituting Bias based profiling – Acts initiating law enforcement action, such as a traffic stop, a detention, a search, issuance of a citation or an arrest based solely upon an individual's race, ethnicity or national origin or on the basis of racial or ethnic stereotypes, rather than upon the individual's behavior, information identifying the individual as having possibly engaged in criminal activity, or other lawful reasons for the law enforcement action.

D. Motor Vehicle Contacts – Means an occasion in which a peace officer stops a motor vehicle for an alleged violation of law or ordinance.

412.02 PROHIBITION

A. Officers of the Rockwall Police Department are strictly prohibited from engaging in bias based profiling. The prohibition against bias based profiling does not preclude the use of race, ethnicity or national origin as factors in such a decision when used as part of a description of a suspect or witness for whom an officer is searching.

B. Officers of the Rockwall Police Department shall not engage in profiling based solely on gender, sexual orientation, religion, economic status, age, culture or any other identifiable group.

412.03 COMPLAINT PROCESS

A. No person shall be discouraged, intimidated or coerced from filing a complaint, nor discriminated against because they filed such a complaint.

B. Any person who believes that a peace officer employed by the Rockwall Police Department has engaged in bias based profiling with respect to that person, may file a complaint in accordance with the provisions of General Order 507, Complaint Processing and Investigation.

1. An employee who is contacted regarding a complaint against an officer shall follow the procedures set forth in General Orders 507, Section 507.01, Action upon Receipt of Complaint.
2. Citizens who appear in person wishing to file a complaint shall be provided with a departmental brochure, “Bias Based Profiling Complaint Procedures”. Brochures are maintained in the Rockwall Police Department lobby and at Rockwall City Hall. Citizens may also be directed to the departmental website to file a complaint.

C. Any supervisor who becomes aware of an alleged or suspected violation of the General Order shall report the alleged violation in accordance with General Order 504, Responsibilities in Internal Complaints, Section 504.01, Supervisors Responsibilities.

D. Complaints of bias based profiling shall be investigated by the Internal Affairs Division, unless otherwise directed by the Chief of Police. A log of all Bias based profiling Complaints will be maintained by the Internal Affairs Division.

412.04 DISCIPLINARY AND CORRECTIVE ACTIONS

A. Any officer of this department, who is found, after investigation, to have engaged in bias based profiling in violation of the General Order, may be subject to disciplinary action, up to and including termination. Disciplinary or corrective actions may include diversity, sensitivity or other appropriate training or counseling, as determined by the Chief of Police.

412.05 PUBLIC EDUCATION

A. This department shall provide education to the public concerning the bias based profiling complaint process. The primary method of public education shall be through a brochure, “Bias Based Profiling Complaint Procedures”, which are maintained in the lobby of the Rockwall Police Department and at the Rockwall City Hall. These brochures are available in both English and Spanish versions. Other education methods may be utilized to inform the public include local newspapers, news media, service or civic presentations, the Internet, as well as City Council Meetings.

B. This department shall provide public education relating to our agency’s compliment and complaint process, including providing the:

1. Telephone number
2. Mailing address
3. Email address

412.06 COLLECTION OF INFORMATION AND ANNUAL REPORT WHEN CITATION ISSUED, ARREST MADE, OR WARNING ISSUED

A. For each motor vehicle contact in which a citation or warning is issued and/or for each arrest resulting from a motor vehicle contact, an officer involved in the stop shall collect the following information:

1. The physical description of any person operating the motor vehicle who is being detained as well as a result of the stop, including:

a. Gender
b. Race or Ethnicity (as stated by the person or as determined by the officer to the best of the officer's ability)

2. Race or Ethnicity means the following categories:

a. White
b. Black
c. Hispanic or Latino
d. Asian or Pacific Islander
e. Alaska Native or American Indian

3. Initial reason for the stop:

a. Violation of the law
b. Pre-existing knowledge (i.e. warrant)
c. Moving Traffic Violation
d. Vehicle Traffic Violation (Equipment, Inspection, Registration)

4. If a search was conducted as a result of the stop?

a. If so, did the person detained consent to the search?

5. Was contraband or other evidence discovered as a result of the search?
6. Description of the contraband or evidence found?

a. Illegal drugs/drug paraphernalia
b. Currency
c. Weapons
d. Alcohol
e. Stolen Property
f. Other

7. Reason for search:

a. Consent
b. Contraband/Evidence in Plain Sight
c. Probable Cause or Reasonable Suspicion
d. Inventory Search Performed as a Result of Towing
e. Incident to Arrest/Warrant

8. Information on arrests:

a. Did officer make an arrest as a result of the stop or search?
b. Reasons for Arrest:
    i. Violation of Penal Code
    ii. Violation of Traffic Law
    iii. Violation of City Ordinance
    iv. Outstanding Warrant

9. Street address or approximate location of the stop:

a. City Street
b. US Highway
c. County Road
d. Private Property or Other

10. Verbal or Written Warning or a Ticket or Citation as a result of the stop?

11. Whether the peace officer used physical force that resulted in bodily injury, as that term is defined by Section 1.07, Penal Code ("means physical pain, illness, or any impairment of physical condition"), during the stop;

    a. The location of the stop, and
    b. The reason for the stop

B. The information collected shall be entered in to a database by entering Bias Based Profiling data utilizing the in-car Mobile Data Computer (MDC) or the computers available in the department. All contacts requiring Bias Based Profiling data collection must be entered.

    1. In the event the data is unable to be collected electronically, the data will be recorded on temporary forms and entered in the database at a later date.

C. The Assistant Chief of Police shall ensure all Bias Based Profiling Data is collected and reported to the Chief of Police. The data collected shall be compiled in an annual report covering the period January 1 through December 31 of each year, and shall be submitted to the governing body of the City of Rockwall no later than March 1 of the following year. The report must include:

    1. A comparative analysis of the information compiled (under Article 2.133):

        a. Evaluate and compare the number of motor vehicle stops, within the applicable jurisdiction, of persons who are recognized as racial or ethnic minorities and persons who are not recognized as racial or ethnic minorities;
        b. Examine the disposition of motor vehicle stops made by officers employed by the agency, categorized according to the race or ethnicity of the affected persons, as appropriate, including any searches resulting from stops within the applicable jurisdiction;
        c. Evaluate and compare the number of searches resulting from motor vehicle stops within the applicable jurisdiction and whether contraband or other evidence was discovered in the course of those searches (SEARCH ANALYSIS).

    2. Information related to each complaint filed with the agency alleging that a peace officer employed by the agency has engaged in racial profiling.
    3. Number of searches that were consensual;
    4. Number of citations that resulted in custodial arrest; and
    5. Public education efforts concerning the Bias Based Profiling complaint process.

D. The annual report shall not include identifying information about any individual stopped or arrested, and shall not include identifying information about any peace officer involved in a stop or arrest.

E. Bias based profiling Data will also be reported to the Texas Commission on Law Enforcement (TCOLE) by March 1 of each year, following the Commission's prescribed format.

412.07 AUDIO AND VIDEO EQUIPMENT

A. Each motor vehicle regularly used by this department to make motor vehicle contacts shall be equipped with a mobile video camera system capable of recording video and audio, and each motorcycle regularly used by this department to make motor vehicle contacts shall be equipped with video and audio recording equipment.

B. Each motor vehicle contact made by an officer of this department capable of being recorded by video and audio, shall be recorded, both on the in car video and issued body worn camera.

C. Supervisors and officers shall ensure that mobile video camera equipment and/or audio equipment is properly functioning prior to commencing their tour of duty. Police units with malfunctioning or inoperable mobile video camera equipment shall not be utilized under normal circumstances.

D. This department shall retain the video and audiotape of each motor vehicle stop.. If a complaint is filed with this department alleging that one of our officers has engaged in bias based profiling with respect to a motor vehicle contact, this department shall retain the video and audiotapes, or the audiotape of the stop until final disposition of the complaint.

412.08 REVIEW OF VIDEO AND AUDIO DOCUMENTATION

A. The Patrol Lieutenants shall ensure that all audio and recordings are properly stored and retained in accordance with applicable laws and this General Order.

B. If a complaint is received alleging that an officer has engaged in bias based profiling, the audio/video recording shall be forwarded through the Chain of Command to the Internal Affairs Division. The Internal Affairs Division shall retain the video until final disposition of the complaint has been made.

C. Supervisors will ensure officers of this department are recording their motor vehicle contacts. A recording of each officer will be reviewed at least once every thirty (30) days.

1. Written documentation shall include:

   a. The names of the officers whose contacts were reviewed;
   b. The date(s) of the videos reviewed;
   c. The date the actual review was conducted; and
   d. The name of the person conducting the review.

2. The Patrol Division Lieutenants shall forward the required documentation to the Internal Affairs Division.
3. The Internal Affairs Division shall maintain a file of all video review documentation performed, in compliance with this General Order.

D. In reviewing audio and video recordings, the Patrol Division Lieutenant or his designee, shall seek to determine if the officer(s) reviewed have engaged in a pattern of Bias Based Profiling, which includes multiple acts constituting bias based profiling for which there no reasonable, credible explanation is based on established police and law enforcement procedures.

E. This agency shall review the data collected to identify any improvements this agency could make in its practices and policies regarding motor vehicle stops.

412.09 TRAINING

A. Each peace officer employed by the department shall complete the comprehensive education and training program on bias based profiling established by the Texas Commission of Law Enforcement (TCOLE) no later than the second anniversary of the date the officer was licensed, or the date the officer applies for an Intermediate Proficiency Certificate, whichever date is earlier. A person, who on September 1, 2001, held a TCOLE Intermediate Proficiency Certificate, or who had held a peace officer license issued by TCOLE for at least two years, shall complete a TCOLE training and education program on bias based profiling not later than September 1, 2003.

B. The Chief of Police shall, in completing the training required by Section 96.941, Texas Education Code, complete the program on Bias Based Profiling established by the Bill Blackwood Law Enforcement Management Institute of Texas (LEMIT), not later than September 1, 2003.

Complaint Process: Informing the Public and Addressing Allegations of Racial Profiling Practices

267

Informing the Public on the Process of Filing a Racial Profiling Complaint with the Rockwall Police Department

The Texas Racial Profiling Law requires that police agencies provide information to the public regarding the manner in which to file a racial profiling complaint. In an effort to comply with this particular component, the Rockwall Police Department launched an educational campaign aimed at informing the public on issues relevant to the racial profiling complaint process.

The police department made available, in the lobby area and on its web site, information relevant to filing a complaint on a racial profiling violation by a Rockwall Police officer. It is believed that through these efforts, the community has been properly informed of the new policies and the complaint processes relevant to racial profiling.

Racial Profiling Training

269

Racial Profiling Training

Since 2002, all Rockwall Police officers have been instructed, as specified in the Texas Racial Profiling Law, to adhere to all Texas Commission on Law Enforcement (TCOLE) training and the Law Enforcement Management Institute of Texas (LEMIT) requirements. To date, all sworn officers of the Rockwall Police Department have completed the TCOLE basic training on racial profiling. The main outline used to train the officers of Rockwall has been included in this report.

It is important to recognize that the Chief of the Rockwall Police Department has also met the training requirements, as specified by the Texas Racial Profiling Law, in the completion of the LEMIT program on racial profiling. The satisfactory completion of the racial profiling training by the sworn personnel of the Rockwall Police Department fulfills the training requirement as specified in the Education Code (96.641) of the Texas Racial Profiling Law.

Texas Commission on Law Enforcement
September 2001

Racial Profiling 3256

Instructor's Note:
You may wish to teach this course in conjunction with Asset Forfeiture 3255 because of the related subject matter and applicability of the courses. If this course is taught in conjunction with Asset Forfeiture, you may report it under Combined Profiling and Forfeiture 3257 to reduce data entry.

Abstract

This instructor guide is designed to meet the educational requirement for racial profiling established by
legislative mandate: 77R-SB1074.

Target Population: Licensed law enforcement personnel in Texas

Prerequisites: Experience as a law enforcement officer

Length of Course: A suggested instructional time of 4 hours

Material Requirements: Overhead projector, chalkboard and/or flip charts, video tape player,
handouts, practical exercises, and demonstrations

Instructor Qualifications: Instructors should be very knowledgeable about traffic stop procedures and law enforcement issues

Evaluation Process and Procedures

An examination should be given. The instructor may decide upon the nature and content of the
examination. It must, however, sufficiently demonstrate the mastery of the subject content by the
student.

271

Reference Materials
Reference materials are located at the end of the course. An electronic copy of this instructor guide
may be downloaded from our web site at http://www.tcleose.state.tx.us.

Racial Profiling 3256

1.0 RACIAL PROFILING AND THE LAW

1.1 UNIT GOAL: The student will be able to identify the legal aspects of racial profiling.

1.1.1 LEARNING OBJECTIVE: The student will be able to identify the legislative requirements placed upon peace officers and law enforcement agencies regarding racial profiling.

Racial Profiling Requirements:
Racial profiling CCP 3.05
Racial profiling prohibited CCP 2.131
Law enforcement policy on racial profiling CCP 2.132
Reports required for traffic and pedestrian stops CCP 2.133
Liability CCP 2.136
Racial profiling education for police chiefs Education Code 96.641
Training program Occupations Code 1701.253
Training required for intermediate certificate Occupations Code 1701.402
Definition of "race or ethnicity" for form Transportation Code 543.202

A. Written departmental policies
1. Definition of what constitutes racial profiling
2. Prohibition of racial profiling
3. Complaint process
4. Public education
5. Corrective action
6. Collection of traffic-stop statistics
7. Annual reports

B. Not prima facie evidence

C. Feasibility of use of video equipment

D. Data does not identify officer

E. Copy of complaint-related video evidence to officer in question

F. Vehicle stop report
1. Physical description of detainees: gender, race or ethnicity
2. Alleged violation

272

3. Consent to search
4. Contraband
5. Facts supporting probable cause
6. Arrest
7. Warning or citation issued

G. Compilation and analysis of data

H. Exemption from reporting – audio/video equipment

I. Officer non-liability

J. Funding

K. Required training in racial profiling
1. Police chiefs
2. All holders of intermediate certificates and/or two-year-old licenses as of 09/01/2001 (training to be completed no later than 09/01/2003) – see legislation 77R-SB1074

1.1.2 LEARNING OBJECTIVE: The student will become familiar with Supreme Court decisions and other court decisions involving appropriate actions in traffic stops.

A. Whren v. United States, 517 U.S. 806, 116 S.Ct. 1769 (1996)
1. Motor vehicle search exemption
2. Traffic violation acceptable as pretext for further investigation
3. Selective enforcement can be challenged

B. Terry v. Ohio, 392 U.S. 1, 88 S.Ct. 1868 (1968)
1. Stop & Frisk doctrine
2. Stopping and briefly detaining a person
3. Frisk and pat down

C. Other cases
1. Pennsylvania v. Mimms, 434 U.S. 106, 98 S.Ct. 330 (1977)
2. Maryland v. Wilson, 117 S.Ct. 882 (1997)
3. Graham v. State, 119 MdApp 444, 705 A.2d 82 (1998)
4. Pryor v. State, 122 Md.App. 671 (1997) cert. denied 352 Md. 312, 721 A.2d 990 (1998)
5. Ferris v. State, 355 Md. 356, 735 A.2d 491 (1999)
6. New York v. Belton, 453 U.S. 454 (1981)

2.0 RACIAL PROFILING AND THE COMMUNITY

2.1 UNIT GOAL: The student will be able to identify logical and social arguments against racial profiling.

2.1.1 LEARNING OBJECTIVE: The student will be able to identify logical and social arguments against racial profiling.

A. There are appropriate reasons for unusual traffic stops (suspicious behavior, the officer's intuition, MOs, etc.), but police work must stop short of cultural stereotyping and racism

B. Racial profiling would result in criminal arrests, but only because it would target all members of a race randomly – the minor benefits would be far outweighed by the distrust and anger towards law enforcement by minorities and the public as a whole

C. Racial profiling is self-fulfilling bad logic: if you believed that minorities committed more crimes, then you might look for more minority criminals, and find them in disproportionate numbers

D. Inappropriate traffic stops generate suspicion and antagonism towards officers and make future stops more volatile – a racially-based stop today can throw suspicion on tomorrow's legitimate stop

E. By focusing on race, you would not only be harassing innocent citizens, but overlooking criminals of all races and backgrounds – it is a waste of law enforcement resources

3.0 RACIAL PROFILING VERSUS REASONABLE SUSPICION

3.1 UNIT GOAL: The student will be able to identify the elements of both inappropriate and appropriate traffic stops.

3.1.1 LEARNING OBJECTIVE: The student will be able to identify elements of a racially motivated traffic stop.

A. Most race-based complaints come from vehicle stops, often since race is used as an inappropriate substitute for drug courier profile elements

B. "DWB" – "Driving While Black" – a nickname for the public perception that a Black person may be stopped solely because of their race (especially with the suspicion that they are a drug
courier), often extended to other minority groups or activities as well ("Driving While Brown," "Flying While Black," etc.)

C. A typical traffic stop resulting from racial profiling
1. The vehicle is stopped on the basis of a minor or contrived traffic violation which is used as a pretext for closer inspection of the vehicle, driver, and passengers
2. The driver and passengers are questioned about things that do not relate to the traffic violation

3. The driver and passengers are ordered out of the vehicle
4. The officers visually check all observable parts of the vehicle
5. The officers proceed on the assumption that drug courier work is involved by detaining the driver and passengers by the roadside
6. The driver is asked to consent to a vehicle search – if the driver refuses, the officers use other procedures (waiting on a canine unit, criminal record checks, license-plate checks, etc.), and intimidate the driver (with the threat of detaining him/her, obtaining a warrant, etc.)

3.1.2 LEARNING OBJECTIVE: The student will be able to identify elements of a traffic stop which would constitute reasonable suspicion of drug courier activity.
A. Drug courier profile (adapted from a profile developed by the DEA)
1. Driver is nervous or anxious beyond the ordinary anxiety and cultural communication styles
2. Signs of long-term driving (driver is unshaven, has empty food containers, etc.)
3. Vehicle is rented
4. Driver is a young male, 20-35
5. No visible luggage, even though driver is traveling
6. Driver was over-reckless or over-cautious in driving and responding to signals
7. Use of air fresheners

B. Drug courier activity indicators by themselves are usually not sufficient to justify a stop

3.1.3 LEARNING OBJECTIVE: The student will be able to identify elements of a traffic stop which could constitute reasonable suspicion of criminal activity.
A. Thinking about the totality of circumstances in a vehicle stop

B. Vehicle exterior
1. Non-standard repainting (esp. on a new vehicle)
2. Signs of hidden cargo (heavy weight in trunk, windows do not roll down, etc.)
3. Unusual license plate suggesting a switch (dirty plate, bugs on back plate, etc.)
4. Unusual circumstances (pulling a camper at night, kids' bikes with no kids, etc.)

C. Pre-stop indicators
1. Not consistent with traffic flow
2. Driver is overly cautious, or driver/passengers repeatedly look at police car
3. Driver begins using a car- or cell-phone when signaled to stop
4. Unusual pull-over behavior (ignores signals, hesitates, pulls onto new street, moves objects in car, etc.)

275

D. Vehicle interior
1. Rear seat or interior panels have been opened, there are tools or spare tire, etc.
2. Inconsistent items (anti-theft club with a rental, unexpected luggage, etc.)

Report on Complaints

277

Report on Complaints

The following table contains data regarding officers that have been the subject of a complaint, during the time period of 1/1/17---12/31/17, based on allegations outlining possible violations related to the Texas Racial Profiling Law. The final disposition of the case is also included.

X

A check above indicates that the Rockwall Police Department has not received any complaints, on any members of its police force, for having violated the Texas Racial Profiling Law during the time period of 1/1/17 ---- 12/31/17.

Complaints Filed for Possible Violations of The Texas Racial Profiling Law

Partial Exemption Racial Profiling Reporting (Tier 1)

Department Name: **Rockwall Police Department**

Agency Number: 397204

Chief Administrator Name: Kirk Riggs

Reporting Name: Kirk Riggs

Contact Number: 972-772-6454

E-mail Address: kriggs@rockwall.com

Certification to Report 2.132 (Tier 1) – Partial Exemption

Policy Requirements (2.132(b) CCP): Each law enforcement agency in this state shall adopt a detailed written policy on racial profiling. The policy must:

(1) clearly define acts constituting racial profiling;

(2) strictly prohibit peace officers employed by the agency from engaging in racial profiling;

(3) implement a process by which an individual may file a complaint with the agency if the individual believes that a peace officer employed by the agency has engaged in racial profiling with respect to the individual;

(4) provide public education relating to the agency's complaint process;

(5) require appropriate corrective action to be taken against a peace officer employed by the agency who, after an investigation, is shown

to have engaged in racial profiling in violation of the agency's policy adopted under this article;

(6) require collection of information relating to motor vehicle stops in which a citation is issued and to arrests made as a result of those stops, including information relating to:

(A) the race or ethnicity of the individual detained;

(B) whether a search was conducted and, if so, whether the individual detained consented to the search; and

(C) whether the peace officer knew the race or ethnicity of the individual detained before detaining that individual; and

(7) require the chief administrator of the agency, regardless of whether the administrator is elected, employed, or appointed, to submit an annual report of the information collected under Subdivision (6) to:

(A) the Commission on Law Enforcement Officer Standards and Education; and

(B) the governing body of each county or municipality served by the agency, if the agency is an agency of a county, municipality, or other political subdivision of the state.

These polices are in effect:

Analysis and Interpretation of Data

297

Analysis

In 2001, the Texas legislature passed Senate Bill 1074 which became the Texas Racial Profiling Law. That is, the law came into effect on January 1, 2002 and required all police departments in Texas, to collect traffic-related data and report this information to their local governing authority by March 1st of each year. In 2009, the racial profiling law was modified to include the collection and reporting of all motor vehicle related contacts where a citation was issued or arrest made. In addition, the modification to the law further requires that all police officers indicate whether or not they knew the race or ethnicity of the individual before detaining them. Further, it is required that agencies report motor vehicle related data to their local governing authority and to the Texas Commission on Law Enforcement (TCOLE) by March 1st of each year. The purpose in collecting and presenting this information is to determine if police officers in a particular municipality are engaging in the practice of racially profiling minority motorists.

The Texas Racial Profiling Law also requires police departments to interpret motor vehicle-related data. Even though most researchers would probably agree with the fact that it is within the confines of good practice for police departments to be accountable to the citizenry while carrying a transparent image before the community, it is very difficult to determine if individual police officers are engaging in racial profiling, from a review and analysis of aggregate/institutional data. In other words, it is challenging for a reputable researcher to identify specific “individual” racist behavior from aggregate-level “institutional” data on traffic or motor vehicle-related contacts.

As stated previously, in 2009, the Texas Legislature passed House Bill 3389, which modified the existing Racial Profiling Law by adding new requirements; this took effect on January 1st, 2010. These most recent changes include, but are not exclusive of, the re-definition of a contact to include motor vehicles where a citation was issued or an arrest made. In addition, it requires police officers to indicate if they knew the race or ethnicity of the individual before detaining them. Also, the 2009 law requires adding "middle eastern" to the racial and ethnic category and submitting the annual data report to TCOLE before March 1st of each year. I am pleased to inform you that these additional requirements have been addressed, since 2009, by the Rockwall Police Department as it is demonstrated throughout this report.

In 2017, the Texas Legislators passed H.B. 3051 which removed the Middle Eastern data requirement but standardized the racial and ethnic categories relevant to the individuals that came in contact with the police. In addition, the Sandra Bland Act (S.B. 1849) was passed and became law. That is, the most significant legislative act in Texas history regarding future data requirements on law enforcement contacts, became law and effective January 1, 2018. All future reports will contain more extensive data entries and analysis as well as records regarding audits and the analysis of searches, as required by law.

In an effort to comply with The Texas Racial Profiling Law, the Rockwall Police Department commissioned the analysis of its 2017 motor vehicle contact data. Thus, two different types of data analyses were performed. The first of these involved a careful evaluation of the 2017 motor vehicle-related data. This particular analysis measured, as required by the law, the number and percentage of Caucasians, African Americans, Hispanics, Asians, Native Americans, Middle Easterners and individuals belonging to the "other" category, that came in contact with the police in the course of a motor vehicle related contact, and were either issued a citation or arrested. Further, the analysis included information relevant to the number and percentage of searches (table 1) while indicating the type of search performed (i.e., consensual or probable cause). Also, the data analysis included the number and percentage of individuals who, after they came in contact with the police for a motor vehicle-related reason, were arrested.

The additional data analysis performed was based on a comparison of the 2017 motor vehicle contact data with a specific baseline. When reviewing this particular analysis, it should be noted that there is disagreement, in the literature, regarding the appropriate baseline to be used when analyzing motor vehicle-related contact information. Of the baseline measures available, the Rockwall Police Department opted to adopt, as a baseline measure, the Fair Roads Standard. This particular baseline is based on data obtained through the U.S. Census Bureau (2010) relevant to the number of households that have access to vehicles while controlling for the race and ethnicity of the heads of households.

It is clear that census data presents challenges to any effort made at establishing a fair and accurate racial profiling analysis. That is, census data contains information on all residents of a particular community, regardless of the fact they may or may not be among the driving population. Further, census data, when used as a baseline of comparison, presents the challenge that it captures information related to city residents only. Thus, excluding individuals who may have come in contact with the Rockwall Police Department in 2017 but live outside city limits. In some cases, the percentage of the population that comes in contact with the police but lives outside city limits represents a substantial volume of all motor vehicle-related contacts made in a given year.

Since 2002, several civil rights groups in Texas expressed their desire and made recommendations to the effect that all police departments should rely, in their data analysis, on the Fair Roads Standard. This source contains census data specific to the number of "households" that have access to vehicles. Thus, proposing to compare "households" (which may have multiple residents and only a few vehicles) with "contacts" (an individual-based count). This, in essence, constitutes a comparison that may result in ecological fallacy. Despite this, the Rockwall Police Department made a decision that it would use this form of comparison (i.e., census data relevant to households with vehicles) in an attempt to demonstrate its "good will" and "transparency" before the community. Thus, the Fair Roads Standard data obtained and used in this study is specifically relevant to the Dallas Fort-Worth (DFW) Metroplex.

299

Tier 1 (2017) Motor Vehicle-Related Contact Analysis

When analyzing the Tier 1 data collected in 2017, it was evident that most motor vehicle-related contacts were made with Caucasian drivers. This was followed by Hispanic and African American drivers. With respect to searches, most of them were performed on Caucasian drivers. This was followed by African Americans and Hispanics. It is important to note that the arrest data revealed that Caucasian drivers were arrested the most in motor vehicle-related contacts; this was followed by Hispanics.

Fair Roads Standard Analysis

The data analysis of motor vehicle contacts to the census data relevant to the number of "households" in DFW who indicated, in the 2010 census, that they had access to vehicles, produced interesting findings. Specifically, the percentage of individuals of Caucasian descent that came in contact with the police was higher than the percentage of Caucasian households in DFW that claimed, in the 2010 census, to have access to vehicles. With respect to African Americans, Hispanics and Asians, a lower percentage of contacts were detected. That is, the percentage African Americans, Hispanic and Asian drivers that came in contact with the police in 2017 was the lower than the percentage of African American, Hispanic and Asian households in DFW with access to vehicles.

Summary of Findings

The comparison of motor vehicle contacts showed that the Rockwall Police Department came in contact (in motor vehicle-related incidents) with a smaller percentage of African American, Hispanic and Asian drivers than the percentage that resided in DFW and had access to vehicles. Further, the data suggested that the percentage of Caucasian drivers that came in contact with the police in 2017 was higher than the percentage of Caucasian households in the DFW with access to vehicles. In addition, the data showed that in a large number of instances, officers did not know the race or ethnicity of individuals before detaining them, when compared to instances where officers knew the race/ethnicity of individuals before they were detained.

While considering the findings made in this analysis, it is recommended that the Rockwall Police Department should continue to collect and evaluate additional information on motor vehicle contact data (i.e., reason for probable cause searches, contraband detected) which may prove to be useful when determining the nature of the contacts police officers are making with all individuals. Although this additional data may not be required by state law, it is likely to provide insights regarding the nature and outcome of all motor vehicle contacts made with the public.

As part of this effort, the Rockwall Police Department is now required by law to:

1) Perform an independent search analysis on the search data collected throughout 2018.

2) Commission data audits in 2017 in order to assess data integrity; that is, to ensure that the data collected is consistent with the data being reported.

The Rockwall Police Department complied with recommendations made last year, in a similar report, regarding data audits. In sum, the information and analysis provided in this report serves as evidence that the Rockwall Police Department has, once again, complied with the Texas Racial Profiling Law.

301

(III) Summary

302

Checklist

303

Checklist

The following requirements **were** met by the Rockwall Police Department in accordance with The Texas Racial Profiling Law:

☒ Clearly defined act or actions that constitute racial profiling

☒ Statement indicating prohibition of any peace officer employed by the Rockwall Police Department from engaging in racial profiling

☒ Implement a process by which an individual may file a complaint regarding racial profiling violations

☒ Provide public education related to the complaint process

☒ Implement disciplinary guidelines for officer found in violation of the Texas Racial Profiling Law

☒ Collect data (Tier 1) that includes information on
a) Race and ethnicity of individual detained
b) Whether a search was conducted
c) If there was a search, whether it was a consent search or a probable cause search
d) Whether a custody arrest took place

☒ Indicate total number of officers who knew and did not know, the race/ethnicity of individuals before being detained.

☒ Produce an annual report on police contacts (Tier 1) and present this to local governing body and TCOLE by March 1, 2018.

☒ Adopt a policy, if video/audio equipment is installed, on standards for reviewing video and audio documentation

CITY OF ROCKWALL
CITY COUNCIL MEMO

AGENDA DATE: 02/19/2018

APPLICANT: Cameron Sloan & Jason Lentz; *Atticus Rockwall, LLC*

AGENDA ITEM: **Z2018-001**; *PD Development Plan*

SUMMARY:

Hold a public hearing to discuss and consider a request by Cameron Slown of F. C. Cuny, Corporation on behalf of Phillip McNeill, Jr. of McNeill Hotel Company and Jason Lentz of Atticus Summer Lee Townhomes for the approval of a PD Development Plan amending *Ordinance No.'s 16-48 & 16-54* and in accordance with *Ordinance No. 17-22*, for a 9.081-acre tract of land identified as Lot 2A of the Isaac Brown Addition, and Lots 1 & 2, Block A, Harbor Village Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 32 (PD-32), situated within the Scenic Overlay (SOV) District and the *Interior* and *Residential Subdistricts* of Planned Development District 32 (PD-32), located adjacent to Summer Lee Drive southwest of the intersection of Horizon Road [*FM-3097*] and Summer Lee Drive, and take any action necessary.

BACKGROUND AND REQUEST:

On September 19, 2016, the City Council approved *Ordinance No. 16-48*, which established a *PD Development Plan* for a 36-unit townhome development situated within the *Residential Subdistrict*. At the following meeting on October 3, 2016, the City Council approved *Ordinance No. 16-54*, which established a *PD Development Plan* for a 228-unit condominium development situated within the *Interior Subdistrict*. As part of this approval, the City Council approved an alternative roadway cross section replacing the *Street Type 'G'*, which was called out in the Planned Development District 32 (PD-32) [*Ordinance No. 17-22*] concept plan. Currently, the condominium development and street (*i.e. Glen Hill Way*) are under construction.

On January 2, 2018, the City Council approved a Specific Use Permit (SUP) for a hotel (*i.e. TRU by Hilton*) on a 2.166-acre tract of land, which is directly adjacent to the aforementioned condominium and townhome developments. At the time of approval, the applicant -- *Cameron Slown with F. C. Cuny Corporation* -- was working with the owner of the condominium and townhome development (*i.e. Jason Lentz of Atticus Real Estate Services*) to swap land benefitting all three (3) developments. Now that this land swap is complete, the *Hotel* property is requesting the approval of a *PD Development Plan* as required by *Ordinance No. 17-22*, and since the land area of the townhomes and condominiums have changed from the approved *Ordinance No.'s 16-48 & 16-54* an amended *PD Development Plan* reflecting the changes is required. As part of this request, Jason Lentz of Atticus Real Estate Services is requesting an additional six (6) townhome units be added to the 36-unit townhome development. If approved this would decrease the number of available units within the district from 182 to 176 (*i.e. 1,161 [Available Units] – 450 [Marina Village] – 228 [Harbor Condominiums] – 265 [Harbor Heights Condominiums] – 36 [Harbor Townhomes] – 6 [Requested Units] = 176 [Available Units]*). In addition, new concept plans for the townhome development and hotel have been submitted as part of the request. The condominium development and roadway cross section/alignment have remained the same.

CHARACTERISTICS OF THE REQUEST:

The *PD Development Plan* submitted by the applicant shows the layout for the proposed hotel and townhouse development -- *with regard to the land swap* -- which will provide additional parking and

access to the hotel via Glen Hill Way Drive. The *PD Development Plan* also indicates the addition of six (6) townhomes to the concept plan, increasing the number of approved townhomes from 36 to a total of 42 townhomes. Additionally, the layout of the approved concept plan for the townhomes has changed, having a direct effect on the connectivity of the pedestrian mew and amenities; however, the proposed concept plan provides an acceptable level of walkability and amenities consistent with the intent of the district. This *PD Development Plan* should not have an effect on the condominium development as prescribed in *Ordinance No. 16-54*, as it is currently under construction. With regard to the concept plan approved with the SUP (*i.e. Ord. No. 18-07*) for the hotel, this *PD Development Plan* will establish building placement and form by setting the building closer to the property line, creating articulation, redirecting the parking spaces behind the hotel -- *which is less visible from Summer Lee Drive* --, and with the intent of creating a pedestrian environment.

In granting a *PD Development Plan* within Planned Development District 32 (PD-32) the City Council needs to decide if the proposed development meets the following criteria:

(a) Meets the general intent of the *PD District*; and,
(b) Will result in an improved project which will be an attractive contribution to the *PD District*; and,
(c) Will not prevent the implementation of the intent of this *PD District*.

A *PD Development Plan* is a discretionary approval for the City Council, and should the City Council choose to grant the request this request the applicant will still need to submit a PD site plan that will be reviewed by the Architectural Review Board (ARB) and the Planning and Zoning Commission.

NOTIFICATION:

On January 30, 2018, staff mailed 105 notices to property owners and residents within 500-feet of the subject property. Staff also emailed notices to the Lago Vista, Lakeside Village, and Signal Ridge Homeowner's Associations (HOA), which are the only HOA's located within 1,500-feet of the subject property participating the in the neighborhood notification program. Additionally, staff posted a sign on the subject property along Summer Lee Drive as required by the Unified Development Code (UDC). At the time, this case memo was drafted staff has received two (2) responses opposed to the request.

RECOMMENDATIONS:

If the Planning and Zoning Commission chooses to recommend approval of the applicant's request for a *PD Development Plan* for Planned Development District 32 (PD-32), then staff would propose the following conditions of approval:

1) The applicant shall be responsible for maintaining compliance with the conditions contained within the *Planned Development District* ordinance;

Area 1: Townhomes

(a) Cross access (*as depicted on the concept plan*) shall be provided to the property directly north of the subject property.

(b) Prior to the submittal of a final plat the applicant shall submit and seek approval of a detailed PD site plan that demonstrates compliance with all applicable standards of Planned Development District 32 (PD-32) [*as amended*] and with the guidelines contained in *Resolution No. 10-40*.

(c) The building elevations submitted with the site plan will require a recommendation from the Architectural Review Board (ARB) prior to approval by the Planning and Zoning Commission (*and City Council if necessary*).

(d) An open space master plan will need to be submitted with the PD site plan. The open space master plan will need to be reviewed by the Parks Board.

(e) Prior to the issuance of a building permit, the applicant shall submit and seek approval of a final plat.

Area 2: Condominiums

(a) The north/south public road connecting Summer Lee Drive to the southwest corner of the subject property shall be designed and constructed in accordance with the *Street Type 'G$_1$'* standards stipulated in *Exhibit 'E'* of this ordinance.

(b) The minimum building setback adjacent to *Street Type 'G$_1$'* shall be one (1) foot.

(c) Prior to the submittal of a final plat the applicant shall submit and seek approval of a detailed site plan that demonstrates compliance with all applicable standards of Planned Development District 32 (PD-32) [*as amended*] and this ordinance, and with the guidelines contained in *Resolution No. 10-40*.

(d) The building elevations submitted with the site plan will require a recommendation from the Architectural Review Board (ARB) prior to approval by the Planning and Zoning Commission (*and City Council if necessary*).

(e) An open space master plan will need to be submitted with the site plan. The open space master plan will need to be reviewed by the Parks Board.

(f) Prior to the issuance of a building permit, the applicant shall submit and seek approval of a final plat.

Area 3: Hotel

(a) This *PD Development Plan* shall constitute approval of a structure in excess of 36-feet within the Scenic Overlay (SOV) District, and satisfy the requirements of Subsection C, *Special Use Standards*, of Section 6.8, *Scenic Overlay (SOV) District*, of Article V, *District Development Standards*, of the Unified Development Code [*Ordinance No. 04-38*].

(b) The proposed hotel shall be prohibited from being utilized as an *Extended Stay*, *Transient* or *Residence Hotel*, which are considered to be standard hotel rooms that do not contain kitchen facilities.

(c) The building elevations submitted with the site plan will require a recommendation from the Architectural Review Board (ARB) prior to approval by the Planning and Zoning Commission (and City Council if necessary).

2) Any construction resulting from the approval of this *zoning change* shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

PLANNING AND ZONING COMMISSION:

On February 13, 2018, the Planning and Zoning Commission's motion to recommend approval of the PD Development Plan with staff conditions passed by a vote of 5 to 0 with Commissioners Chodun and Fishman absent.

Subject: Neighborhood Notification Program: Notice of zoning request

To whom it may concern:

Per your participation in the Neighborhood Notification Program, you are receiving this notification to inform your organization and residents of a request for a zoning change that lies within 1,500 feet of the boundaries of your neighborhood or subdivision. As the primary contact for the organization, you are encouraged to share this information with the residents of your subdivision. Please find attached a map detailing the location of the subject property requesting the zoning change in relation to your subdivision boundaries. Additionally, below is a summary of the zoning request that was also published in the Rockwall Herald Banner ***January 26, 2018***. The Planning and Zoning Commission will hold a public hearing on ***Tuesday 2/13/2018 at 6:00 p.m.***, and the City Council will hold a public hearing on ***Monday, 2/19/2018 at 6:00 p.m***. These hearings will be held in the City Council Chambers at City Hall, 385 S. Goliad Street. These hearings will be held in the City Council Chambers at City Hall, 385 S. Goliad Street. If you have any questions or comments regarding this request, the contact information for the Planning Department is listed below. Additional information can also be found at https://sites.google.com/site/rockwallplanning/development-cases

> **Z2018-001- Hold a public hearing to discuss and consider a request by Cameron Slown of F. C. To Whom It May Concern:

You are hereby notified that the City of Rockwall Planning and Zoning Commission and City Council will consider the following application:

Case No. Z2018-001: Amended PD Development Plan (PD-32) Ordinances 16-54 & 16-48

Hold a public hearing to discuss and consider a request by Cameron Slown of F. C. Cuny, Corporation on behalf of Phillip McNeill, Jr. of McNeill Hotel Company and Jason Lentz of Atticus Summer Lee Townhomes for the approval of a PD Development Plan amending Ordinance No.'s 16-48 & 16-54 and in accordance with Ordinance No. 10-21, for a 9.081-acre tract of land identified as Lot 2A of the Isaac Brown Addition, and Lots 1 & 2, Block A, Harbor Village Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 32 (PD-32), situated within the Scenic Overlay (SOV) District and the Interior and Residential Subdistricts of Planned Development District 32 (PD-32), located adjacent to Summer Lee Drive southwest of the intersection of Horizon Road [FM-3097] and Summer Lee Drive, and take any action necessary.

For the purpose of considering the effects of such a request, the Planning and Zoning Commission will hold a public hearing on **Tuesday, 2/13/2018 at 6:00 p.m.,** and the City Council will hold a public hearing on **Monday, 2/19/2018 at 6:00 p.m.** These hearings will be held in the City Council Chambers at City Hall, 385 S. Goliad Street.

As an interested property owner, you are invited to attend these meetings. If you prefer to express your thoughts in writing please return the form to:

David Gonzales
Rockwall Planning and Zoning Dept.
385 S. Goliad Street
Rockwall, TX 75087

You may also email your comments to the Planning Department at planning@rockwall.com. If you choose to email the Planning Department please include your name and address for identification purposes.

Your comments must be received by **2/19/2018** to ensure they are included in the information provided to the City Council.

Sincerely,

Ryan Miller, AICP
Director of Planning & Zoning

☐ I am in favor of the request for the reasons listed below.

☒ I am opposed to the request for the reasons listed below. — Lago Vista Resident —

Noise, Traffic Congestion, Too Densely Populated, etc. — The Harbor is bad enough — When you are able to control the parking on the Street when there is a perfectly good parking lot, theft, and tire Squealing you can revisit. Also, too many people run across the Streets as it is to get to Harbor. Very dangerous — Too much growth for a small area — Bad idea — Safety first —

CITY OF ROCKWALL

ORDINANCE NO. 18-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING PLANNED DEVELOPMENT DISTRICT 32 (PD-32) [*ORDINANCE NO.'S 16-48, 16-54 & 17-22*], SPECIFIC USE PERMIT NO. S-182 [*ORDINANCE NO. 18-07*] AND THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, SO AS TO APPROVE A *PD DEVELOPMENT PLAN* FOR A 9.081-ACRE TRACT OF LAND IDENTIFIED AS LOT 2A OF THE ISAAC BROWN ADDITION AND LOTS 1 & 2, BLOCK A, HARBOR VILLAGE ADDITION, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS AND MORE FULLY DESCRIBED HEREIN BY *EXHIBIT 'A'*; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City has received a request by Cameron Slown of F. C. Cuny Corporation on behalf of Phillip McNeill, Jr. of McNeill Hotel Company and Jason Lentz of Atticus Summer Lee Townhomes for the approval of a *PD Development Plan* for a 42-unit townhome development, 228-unit condominium development, and a hotel development situated within the *Interior* and *Residential Subdistricts* of Planned Development District 32 (PD-32) and being on a 9.081-acre tract of land identified as Lot 2A of the Isaac Brown Addition and Lots 1 & 2, Block A, Harbor Village Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 32 (PD-32), and more fully described in *Exhibit 'A'* of this ordinance, which hereinafter shall be referred to as the *Subject Property* and incorporated by reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the affected area, and in the vicinity thereof, and the governing body in the exercise of its legislative discretion, has concluded that Planned Development District 32 (PD-32) [*Ordinance No.'s 16-48, 16-54 & 17-22*], Specific Use Permit No. S-182 [*Ordinance No. 18-07*] and the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:

Section 1. That the approval of this ordinance shall superseded all requirements stipulated in *Ordinance No.'s 16-48*, *16-54*, & *18-07*; and,

Section 2. That Planned Development District 32 (PD-32) [*Ordinance No. 17-22*] and the Unified Development Code [*Ordinance No. 04-38*], as heretofore amended, shall be further amended by amending the *Concept Plan* approved with *Ordinance No. 17-22* and the official zoning map of the City of Rockwall so as to approve a *PD Development Plan* for the *Subject Property*; and,

DRAFT 02.20.18

Section 2. That the development of the *Subject Property* shall generally be in accordance with the *PD Development Plan*, depicted in *Exhibit 'C'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'C'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*; and,

Section 3. That development of *Areas 1, 2 & 3 of* the *Subject Property -- as depicted in Exhibit 'B' of this ordinance* -- shall generally be in accordance with the *Concept Building Elevations*, depicted in *Exhibit 'D'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'D'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*; and,

Section 4. That *Areas 1, 2 & 3* of the *Subject Property* shall be used only in the manner and for the purposes provided for in Planned Development District 32 (PD-32) [*Ordinance No. 17-22*], the Unified Development Code [*Ordinance No. 04-38*], and in compliance with the following conditions and requirements:

Area 1: Townhomes

1) Cross access (*as depicted in Exhibit 'C' of this ordinance*) shall be provided to the property directly north of the subject property.

2) Prior to the submittal of a final plat the applicant shall submit and seek approval of a detailed site plan that demonstrates compliance with all applicable standards of Planned Development District 32 (PD-32) [*as amended*] and this ordinance, and with the guidelines contained in *Resolution No. 10-40*.

3) The building elevations submitted with the site plan will require a recommendation from the Architectural Review Board (ARB) prior to approval by the Planning and Zoning Commission (*and City Council if necessary*).

4) An open space master plan will need to be submitted with the site plan. The open space master plan will need to be reviewed by the Parks Board.

5) Prior to the issuance of a building permit, the applicant shall submit and seek approval of a final plat.

Area 2: Condominiums

6) The north/south public road connecting Summer Lee Drive to the southwest corner of the subject property shall be designed and constructed in accordance with the *Street Type 'G$_1$'* standards stipulated in *Exhibit 'E'* of this ordinance.

7) The minimum building setback adjacent to *Street Type 'G$_1$'* shall be one (1) foot.

8) Prior to the submittal of a final plat the applicant shall submit and seek approval of a detailed site plan that demonstrates compliance with all applicable standards of Planned Development District 32 (PD-32) [*as amended*] and this ordinance, and with the guidelines contained in *Resolution No. 10-40*.

9) The building elevations submitted with the site plan will require a recommendation from the Architectural Review Board (ARB) prior to approval by the Planning and Zoning Commission (*and City Council if necessary*).

DRAFT ORDINANCE 02.19.2018

10) An open space master plan will need to be submitted with the site plan. The open space master plan will need to be reviewed by the Parks Board.

11) Prior to the issuance of a building permit, the applicant shall submit and seek approval of a final plat.

Area 3: Hotel

1) This *PD Development Plan* shall constitute approval of a structure in excess of 36-feet within the Scenic Overlay (SOV) District, and satisfy the requirements of Subsection C, *Special Use Standards*, of Section 6.8, *Scenic Overlay (SOV) District*, of Article V, *District Development Standards*, of the Unified Development Code [*Ordinance No. 04-38*].

2) The proposed hotel shall be prohibited from being utilized as an *Extended Stay*, *Transient* or *Residence Hotel*, which are considered to be standard hotel rooms that do not contain kitchen facilities.

3) The building elevations submitted with the site plan will require a recommendation from the Architectural Review Board (ARB) prior to approval by the Planning and Zoning Commission (and City Council if necessary).

Section 5. The official zoning map of the City of Rockwall, Texas be corrected to reflect the changes in zoning described in this ordinance;

Section 6. That any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *Two Thousand Dollars* ($2,000.00) for each offense and each and every day such offense shall continue shall be deemed to constitute a separate offense;

Section 7. That if any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable;

Section 8. The standards in this ordinance shall control in the event of a conflict between this ordinance and any provision of the Unified Development Code or any provision of the City Code, ordinance, resolution, rule, regulation, or procedure that provides a specific standard that is different from and inconsistent with this ordinance. References to zoning district regulations or other standards in the Unified Development Code (including references to the *Unified Development Code*), and references to overlay districts, in this ordinance or any of the Exhibits hereto are those in effect on the date this ordinance was passed and approved by the City Council of the City of Rockwall, Texas;

Section 9. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides;

DRAFT ORDINANCE 04.23.18

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 5TH DAY OF MARCH, 2018.

Jim Pruitt, *Mayor*

ATTEST:

Kristy Cole, *City Secretary*

APPROVED AS TO FORM:

Frank J. Garza, *City Attorney*

1st Reading: *February 19, 2018*

2nd Reading: *March 5, 2018*

DRAFT ORDINANCE 02.19.2018

Exhibit 'A':
Legal Description

BEING situated in the Edward Teal Survey, Abstract Number 207, Rockwall County, Texas and being a portion of Lots 2A of Isaac Brown's Land Partitioned to His Heirs, an addition to the City of Rockwall according to the plat thereof recorded in Cabinet J, Slide 235-236, Plat Records, Rockwall County, Texas and Lots 1 and 2 Block A of the Harbor Village Addition an addition to the City of Rockwall according to the plat recorded in County Clerk's File Number 20170000020949, Plat Records, Rockwall County, Texas, and being more particularly described by metes and bounds as follows:

BEGINNING at a 1/2 inch iron rod with cap stamped "RSCI" found at the southerly corner of said Lot 2 block A, said iron rod also being the easterly corner of Lot 6A of said Land Partitioned, and being in the northwest line of Murphy Plaza No. 2, an addition to the City of Rockwall according to the plat thereof recorded in Cabinet G, Slide 255, Plat Records, Rockwall County, Texas;

THENCE North 45 degrees 23 minutes 09 seconds West, 803.96 feet along the southwest line of said Lot 2 block A and the northeast line of said Lot 6A to a 1/2 inch iron rod with cap found at the southernmost corner of that certain tract of land described in Resolution No. 16-19, executed by the City Council of Rockwall, Texas;

THENCE North 45 degrees 23 minutes 09 seconds West, 46.09 feet along the southwest line of said Resolution tract to a 5/8 inch iron rod with cap stamped "REALSEARCH" set in the south right-of-way line of Summer Lee Drive (Variable Width Right-of-Way) and being the beginning of a non-tangent curve to the left;

THENCE 122.34 feet along said southeast right-of-way line of Summer Lee Drive and with said non- tangent curve to the left, having a radius of 532.50 feet, through a central angle of 13 degrees 09 minutes 49 seconds, whose long chord bears North 51 degrees 54 minutes 11 seconds East, 122.07 feet to a point in the southeast right of way of Summer Lee and being the beginning of a compound curve to the left;

THENCE 13.78 feet, continuing along said southeast right-of-way line of Summer Lee Drive and with said compound curve to the left, having a radius of 532.50 feet, through a central angle of 01 degrees 28 minutes 57 seconds, whose long chord bears North 44 degrees 34 minutes 48 seconds East, 13.78 feet to a 1/2 inch iron rod with cap stamped "RDS" found;

THENCE North 43 degrees 50 minutes 20 seconds East, 225.87 feet, continuing along said southeast right-of-way line of Summer Lee Drive to a 1/2 inch iron rod with cap found in the northeast line of said Lot 2 block A;

THENCE South 45 degrees 16 minutes 37 seconds East, 57.05 feet, along said Southeast right of way line of Summer Lee and Northeast line of Lot 2 block A to a point for corner being the Southwest corner of Lot 2a on the southeast right-of-way line of Summer Lee Drive, a variable width right-of-way;

THENCE North 44 degrees 12 minutes 43 seconds East along said right of way line a distance of 120 feet to a point set for corner at the North corner of Lot 2a on the southeast right-of-way line of Summer Lee Drive, a variable width right-of-way;

THENCE South 45 degrees 00 minutes 00 seconds East along the Northeast line of Said Lot 2A, a distance of 785.78 feet to a ½" iron rod with yellow plastic cap stamped "R.S.C.I. RPLS 5034" set for corner at the East corner of said Lot 2A, said point being the Northwest line of Hammer Addition, an Addition to the City of Rockwall, Texas, according to the plat thereof recorded in Cabinet D. Slide 210 of the plat Records of Rockwall County, Texas;

THENCE South 44 degrees 07 minutes 20 seconds West, along the northwest line of Hammer Addition, a distance of 120 feet to a ½" iron rod with yellow plastic cap stamped "R.S.C.I. RPLS 5034" set for corner at the Southeast corner of Lot 2A and the East corner of Lot 2 Block A;

THENCE South 43 Degrees 52 Minutes 09 Seconds West, departing said common lot corner and along the southeast line of said Lot 3A, 4A and 5A, a distance of 359.62 feet, to the POINT OF BEGINNING, and containing 394,828 square feet or 9.06 acres of land, more or less.

CITY OF ROCKWALL
CITY COUNCIL MEMO

AGENDA DATE: 02/19/2018

APPLICANT: David Naylor; *Rayburn Country Electric Cooperative*

AGENDA ITEM: **Z2018-002**; *SUP for Antenna Tower Replacement at 950 Sids Road*

SUMMARY:

Hold a public hearing to discuss and consider a request by David Naylor of Rayburn Country Electric Cooperative for the approval of a Specific Use Permit (SUP) for the replacement of a telecommunications tower exceeding 125-feet in a Heavy Commercial (HC) District on a 5.053-acre tract of land identified as Lot 1, Block A, Rayburn Country Addition and a portion of Tract 3-13 of the W. H. Barnes Survey, Abstract No. 26, City of Rockwall, Rockwall County, Texas, zoned Heavy Commercial (HC) District, addressed as 950 & 980 Sids Road, and take any action necessary.

PURPOSE AND CHARACTERISTICS OF THE REQUEST:

The applicant, David Naylor of *Rayburn Country Electric Cooperative*, is requesting the approval of a Specific Use Permit (*SUP*) to allow for the replacement of an existing 320-foot tall telecommunications tower on a 5.053-acre tract of land identified as Lot 1, Block A, Rayburn Country Addition. The *subject property* is addressed as 950 & 980 Sids Road and is zoned Heavy Commercial (HC) District. The proposed replacement telecommunications tower will be equal in height to the existing tower (*i.e. 320-feet*) and will be a self-supported tower. The replacement tower will be located north of and within the general vicinity of the existing tower, and is depicted on the attached site plan. It should be noted that the existing equipment building will remain in its current location. The equipment building is fenced and has sufficient parking, meeting the standards for antenna towers. According to *Section 2.1.11.2*(*f*), *Antenna Standards*, of Article IV, of the Unified Development Code (UDC), a Specific Use Permit (*SUP*) is required for the replacement of an existing legally non-conforming freestanding commercial antenna that is situated in a Heavy Commercial (HC), Light Industrial (LI) or Heavy Industrial (HI) District. Granting this SUP remains a discretionary act for the City Council. If approved, the applicant will be required to submit a building permit prior to erecting the replacement antenna tower. Contained in the attached packet is a copy of the applicant's letter, a site plan indicating the general location for the replacement antenna, and the draft ordinance.

ADJACENT LAND USES AND ACCESS:

The land uses adjacent to the subject property are as follows:

North: Directly north of the subject property is Sids Road, which is identified as a M4U [*i.e. major collector, 4-lane, undivided highway*] on the City's Master Thoroughfare Plan. Beyond this are several light-industrial businesses [*e.g. Campers 4 Rent, Rodd Hanna's Air Performance, etc.*]. This area is zoned Heavy Commercial (HC) District.

South: Directly south of the subject property is a large vacant tract of land that is zoned Heavy Commercial (HC) District and Commercial (C) District. Beyond this is Mims Road, which is identified as an M4U [*i.e. major collector, 4-lane, undivided highway*] on the City's Master Thoroughfare Plan. This thoroughfare is followed by a large vacant tract of land that is zoned Agricultural (AG) District.

East: Directly east of the subject property is a manufacturing business [*i.e. S&A Systems*] zoned Planned Development District 43 (PD-43) for commercial, warehousing, and light assembly uses. Beyond this is a logistics company [*i.e. Transam Trucking*] followed by SH-205. This area is zoned Planned Development District 44 (PD-44) for commercial, commercial trucking operation, and outdoor storage of vehicles used in association with the trucking operation land uses.

West: Directly west of the subject property is a business that is zoned Planned Development District 38 (PD-38) for Heavy Commercial (HC) District land uses. Beyond this is a large tract of land that is zoned (AG) Agricultural District.

NOTIFICATION:

On January 31, 2018, staff mailed 13 notices to property owners and residents within 500-feet of the subject property. Staff also notified the Flagstone Estates and Lynden Park Homeowner's Associations (HOA's) which are the only HOA's/Neighborhood Associations within 1,500 feet participating in the neighborhood notification program. Additionally, staff posted a sign on the subject property as required by the UDC. At the time this report was drafted, staff had not received any notices regarding the request.

RECOMMENDATIONS:

If the City Council chooses to approve the applicant's request for a Specific Use Permit (SUP) to allow a replacement telecommunications antenna exceeding 125-feet in height on the subject property, staff would recommend the following conditions of approval:

1) The applicant shall be responsible for maintaining compliance with the operational conditions contained in the SUP ordinance and which are summarized as follows:

   (a) The existing antenna installation shall be removed from the property within 14-days of the completion of the proposed replacement telecommunications tower installation.

   (b) The replacement telecommunications tower will be located in the general vicinity of the existing telecommunications tower and as depicted on the site plan attached hereto as *Exhibit 'B'* of the SUP ordinance. The installation shall be setback a minimum of 320-feet from any residential structure or residentially zoned property.

   (c) The height of the replacement telecommunications tower installation shall be equal to or less than the existing antenna installation (*i.e. 320-feet*), and any additional antennas added to the structure shall not exceed the height of the replacement installation.

2) Any construction or building necessary to complete this request must conform to the requirements set forth by the UDC, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

PLANNING AND ZONING COMMISSION:

On February 13, 2018, the Planning and Zoning Commission's motion to recommend approval of the Specific Use Permit (SUP) with staff conditions passed by a vote of 5 to 0 with Commissioners Chodun and Fishman absent.

Subject: Neighborhood Notification Program: Notice of zoning request

To whom it may concern:

Per your participation in the Neighborhood Notification Program, you are receiving this notification to inform your organization and residents of a request for a zoning change that lies within 1,500 feet of the boundaries of your neighborhood or subdivision. As the primary contact for the organization, you are encouraged to share this information with the residents of your subdivision. Please find attached a map detailing the location of the subject property requesting the zoning change in relation to your subdivision boundaries. Additionally, below is a summary of the zoning request that was also published in the Rockwall Herald Banner ***January 26, 2018***. The Planning and Zoning Commission will hold a public hearing on ***Tuesday 2/13/2018 at 6:00 p.m.***, and the City Council will hold a public hearing on ***Monday, 2/19/2018 at 6:00 p.m***. These hearings will be held in the City Council Chambers at City Hall, 385 S. Goliad Street. These hearings will be held in the City Council Chambers at City Hall, 385 S. Goliad Street. If you have any questions or comments regarding this request, the contact information for the Planning Department is listed below. Ryan Miller
Director of Planning
City of Rockwall
Planning and Zoning Department
385 S. Goliad Street
Rockwall, Texas 75087

Dear Ryan:

Attached is a Specific Use Permit (SUP) Application requesting permission for Rayburn Country Electric Cooperative, Inc. (Rayburn) to replace its existing 320' guyed communications tower with a new 320' self-supported communications tower. I have also enclosed the engineering drawings for the proposed tower.

The new tower will be located immediately to the north of the existing tower. Rayburn has contracted with Huffman Communications for the installation of the new tower and removal of the existing tower. Upon approval of the SUP by the City of Rockwall, construction will begin within 30 days and is expected to last 3-5 months, depending on weather and schedules. Once the equipment has been successfully transferred from the old tower to the new tower and is verified to be operating correctly, we will remove the old tower from the site.

Sincerely,

David Naylor
President / CEO
Rayburn Electric Cooperative

CITY OF ROCKWALL

ORDINANCE NO. 18-XX

SPECIFIC USE PERMIT NO. S-1XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, SO AS TO FURTHER AMEND THE ZONING MAP TO ADOPT A SPECIFIC USE PERMIT (SUP) TO ALLOW FOR THE REPLACEMENT OF AN EXISTING *TELECOMMUNICATIONS TOWER* THAT EXCEEDS 125-FEET IN HEIGHT IN A HEAVY COMMERCIAL (HC) DISTRICT, ON A 5.053-ACRE PARCEL OF LAND BEING IDENTIFIED AS LOT 1, BLOCK A, RAYBURN COUNTRY ADDITION, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS AND MORE FULLY DESCRIBED IN *EXHIBIT 'A'* OF THIS ORDINANCE; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City has received a request from David Naylor of Rayburn Country Electric Cooperative, Inc. for the approval of a Specific Use Permit (SUP) to allow for the replacement of an existing telecommunications tower that exceeds 125-feet in height on a 3.466-acre parcel of land, identified as Lot 1, Block A, Rayburn Country Addition, City of Rockwall, Rockwall County, Texas, zoned Heavy Commercial (HC) District, addressed as 950 & 980 Sids Road, and more specifically described in Exhibit 'A' of this ordinance, which herein after shall be referred to as the *Subject Property* and incorporated by reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall, in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall, have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally, and to all persons interested in and situated in the affected area and in the vicinity thereof, the governing body in the exercise of its legislative discretion has concluded that the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall should be amended as follows:

NOW, THEREFORE, BE IT ORDAINED by the City Council of the City of Rockwall, Texas;

Section 1. That the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall, as heretofore amended, be and the same is hereby amended so as to grant a Specific Use Permit (SUP) to allow the replacement of an existing telecommunication tower that exceeds 125-feet in height within a Heavy Commercial (HC) District as stipulated by Subsection 2.1.11, *Utilities, Communications and Transportation*, of Article IV, *Permissible Uses*, of the Unified Development Code [*Ordinance No. 04-38*], on the *Subject Property*; and

Section 2. That the Specific Use Permit (SUP) shall be subject to the conditions set forth in Section 2.1.11(f), and Section 4.7, *Heavy Commercial (HC) District,* of Article V, *District Development Standards,* of the Unified Development Code [*Ordinance No. 04-38*] as heretofore amended and as may be amended in the future, and shall be subject to the additional following conditions:

DRAFT ORD. 2018

2.1 OPERATIONAL CONDITIONS

The following conditions pertain to the replacement of an existing telecommunications tower that exceeds 125-feet in height in a Heavy Commercial (HC) District on the *Subject Property*, and conformance to these operational conditions is required for continued operations:

1) The existing antenna installation shall be removed from the property within 14-days of the completion of the proposed replacement telecommunications tower installation.

2) The replacement telecommunications tower will be located in the generally vicinity of the existing telecommunications tower and as depicted on the site plan attached hereto as *Exhibit 'C'* of this ordinance. The installation shall be setback a minimum distance equal to the height of the proposed structure (*i.e. 320-feet*) from any residential property or residentially zoned property.

3) The height of the replacement telecommunications tower installation shall be equal to or less than the existing antenna installation (*i.e. 320-feet*), and any additional antennas added to the structure shall not exceed the height of the replacement installation.

2.2 COMPLIANCE

Approval of this ordinance in accordance with Section 8.3, *Council Approval or Denial*, of Article II, *Authority and Administrative Procedures*, of the Unified Development Code (UDC) will require compliance to the following:

1) Upon obtaining a Certificate of Occupancy (CO), should any business or establishment operating under the guidelines of this ordinance fail to meet the minimum operational requirements set forth herein and outline in the Unified Development Code (UDC), the City Council may (*after proper notice*) initiate proceedings to revoke the Specific Use Permit (SUP) in accordance with Section 4.4.(3) of Article IV, *Permissible Uses*, of the Unified Development Code (UDC).

Section 3. That the official zoning map of the City be corrected to reflect the changes in zoning described herein.

Section 4. That all ordinances of the City of Rockwall in conflict with the provisions of this ordinance be, and the same are hereby repealed to the extent of that conflict

Section 5. Any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of TWO THOUSAND DOLLARS ($2,000.00) for each offence and each and every day such offense shall continue shall be deemed to constitute a separate offense.

Section 6. If any section or provision of this ordinance or the application of that section or provision to any person, firm, corporation, situation or circumstance is for any reason judged invalid, the adjudication shall not affect any other section or provision of this ordinance or the application of any other section or provision to any other person, firm, corporation, situation or circumstance, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions of this ordinance shall remain in full force and effect.

DRAFT ORDINANCE 02-19-2018

Section 7. That this ordinance shall take effect immediately from and after its passage of the caption of said ordinance as the law in such cases provides;

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 5TH DAY OF MARCH, 2018.

CITY OF ROCKWALL
CITY COUNCIL MEMO

AGENDA DATE: 02/19/2018

APPLICANT: Randy Eardley, P.E.; *Weir & Associates*

AGENDA ITEM: **Z2018-003**; *SUP for Chick-Fil-A Drive-Through*

SUMMARY:

Hold a public hearing to discuss and consider a request by Randy Eardley, P.E. of Wier & Associates, Inc. on behalf Getra Thomason-Saunders of Chick-Fil-A, Inc. for the approval of a Specific Use Permit (SUP) for a restaurant with a drive-through or drive-in on a 0.656-acre tract of land being identified as Lots 1 & 2, Block A, Billy Peoples #1 Addition, City of Rockwall, Rockwall County, Texas, zoned General Retail (GR) District, situated within the SH-205 Overlay (SH-205 OV) District, addressed as 1902 & 2000 S. Goliad Street [SH-205], and take any action necessary.

PURPOSE AND CHARACTERISTICS OF THE REQUEST:

The applicant is requesting approval of a Specific Use Permit (SUP) for a *restaurant, 2,000 SF or more, w/ drive-through* [*i.e. Chick-Fil-A*]. The proposed restaurant will be ~2,200 SF, drive through only [*i.e. no inside seating*] with a walk-up window and five (5) outside tables. The restaurant will be situated on a 0.656-acre tract of land [*i.e. Lots 1 & 2, Block A, Billy Peoples #1 Addition*] that is zoned General Retail (GR) District, and is addressed as 1902 & 2000 S. Goliad Street [SH-205].

On December 12, 2017, the Planning and Zoning Commission unanimously approved a site plan [*Case No. SP2017-037*] for a restaurant with a drive-through on the subject property. Subsequently, the City Council approved variances associated with the approved site plan on December 18, 2017. After the approval of the site plan, staff recognized that the subject property was located in a General Retail (GR) District and would require a Specific Use Permit (SUP) for the drive-through facilities. Staff should note that although the approval of a Specific Use Permit (SUP) is discretionary to the Planning and Zoning Commission and the City Council, there currently exists several other restaurants with drive-through facilities [*e.g. Taco Casa, Braums, and Chicken Express*] located adjacent to the subject property that are zoned General Retail (GR) District.

In December 2017, the applicant submitted a request for a Specific Use Permit (SUP) for a restaurant with a drive-through on the subject property under *Case No. Z2017-065*. On January 9, 2018, the Planning and Commission unanimously approved a motion to recommend approval of *Case No. Z2017-065*. Subsequently, on January 16, 2018, the City Council denied the request without prejudice to allow the applicant to address issues concerning traffic, parking, and cross-access. To address these issues, the applicant has submitted a revised the site plan that incorporates a four (4)-foot wrought-iron fence adjacent to the south and west property lines. Additionally, the applicant has indicated that they are working with the neighboring properties to obtain a parking agreement for 20 spaces for employee parking. This means that all parking spaces on the site plan will be dedicated to customer parking. The parking agreement is in its final stages and staff has included this as an operational condition in the SUP ordinance (*i.e. this is a requirement for the restaurant to operate*). In addition, the applicant has submitted a Traffic Impact Analysis (TIA) that states that the, "(t)raffic generated by the proposed Chick-Fil-A restaurant is predicted to have a minimal impact to the operation of

the Goliad Street (SH-205) and Yellow Jacket Lane intersection." (*Page 24; Conclusions*). Staff is prepared to answer any questions concerning this document and its methodology.

The approval of any Specific Use Permit (SUP) is a discretionary decision for the City Council pending a recommendation from the City Council.

ADJACENT LAND USES AND ACCESS:

The land uses adjacent to the subject property are all follows:

North: North of the subject property is Yellow Jacket Lane, which is identified as an M4D (*major collector, 4-lane, divided roadway*) on the City's Master Thoroughfare Plan. Beyond this are two (2) restaurants with drive-throughs [*i.e. Braums and Chicken Express*]. This area is zoned General Retail (GR) District.

South: South of the subject property is a restaurant [*i.e. Luigi's*]. Beyond this is a parking lot for a shopping center and a restaurant with a drive-through. This area is zoned General Retail (GR) District.

East: East of the subject property is Goliad Street [*SH-205*], which is identified as a P6D (*principal arterial, 6-lane, divided highway)* on the City's Master Thoroughfare Plan. Beyond this is a retail strip center with several retail business as well as a florist [i.e. Sabrina's Flowers]. This area is zoned Commercial (C) District.

West: West of the subject property is an office building [*i.e. Texas Department of Family and Protective Services*]. Beyond this is a car wash [*i.e. Auto Clean*]. This area is zoned General Retail (GR) District.

NOTIFICATION:

On February 1, 2018, staff sent 39 notices to property owners and residents within 500-feet of the subject property. There are no Neighborhood Associations/HOA's located within 1,500-feet of the subject property participating the Neighborhood Notification Program. Additionally, staff posted a sign on the subject property as required by the UDC. At the time this report was drafted, staff had not received any notices concerning this case.

NOTE: The Waterstone Estates HOA does not have contact information in neighborhood notification list.

RECOMMENDATIONS:

Should the City Council choose to recommend approval of the applicant's request then staff would recommend the following conditions of approval:

1) All comments provided by the Planning, Engineering and Fire Department must be addressed prior to the submittal of a building permit;

2) The restaurant shall generally conform to the concept plan depicted in *Exhibit 'B'* and the concept building elevations depicted in *Exhibit 'C'* of the SUP ordinance.

3) The developer is to construct a four (4)-foot wrought-iron fence adjacent to the property line to the southern and western property lines as depicted in *Exhibit 'B'* of the SUP ordinance.

4) At the time of final plat, the developer shall submit a parking agreement indicating the location of the proposed 20 parking spaces on the adjacent property. This document will be required to be approved by the City Council and shall be filed with Rockwall County prior to the issuance of a Building Permit.

5) Any construction or building necessary to complete this *Site Plan* request must conform to the requirements set forth by the UDC, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

PLANNING AND ZONING COMMISSION:

On February 13, 2018, the Planning and Zoning Commission approved a motion to deny the Specific Use Permit (SUP) by a vote of 4-1, with Commissioner Trowbridge dissenting and Commissioners Fishman and Chodun absent. According to Section 8.4, *Protest of Proposed Change in Zoning*, of Article II, *Authority and Administrative Procedures*, of the Unified Development Code (UDC), "(i)f such change [*zoning change*] is recommended for denial by the Planning and Zoning Commission, such change in zoning shall require a favorable vote of three-fourths (¾) of all eligible member of the City Council."

DYNAMIC
DEVELOPMENT COMPANY
DEVELOP • DESIGN • BUILD

Jan. 22, 2018

The Honorable Mayor Jim Pruitt
City of Rockwall
Rockwall Texas

RE: 1902 S. Goliad, Rockwall, Texas 75087

Dear Mr. Mayor,

My firm, Dynamic Development Company (Dynamic), controls the property at the southwest corner of Goliad and Yellow Jacket in Rockwall. Dynamic is a leading single and multi-tenant retail development company with more than 50 years experience and offices in Santa Monica, Calif., Las Vegas and Dallas.

We primarily develop retail and mixed-use projects and work with national, regional and local retailers to create high-quality real estate development projects throughout the Southwest.

One of our strategic development partners, with which we have completed numerous restaurants, is Chick-Fil-A ("CFA"). At 1902 S. Goliad in Rockwall, our intent is to sell this property to CFA so they may construct a limited-service, drive-through-only restaurant.

As you may know, CFA is very successful on the south-west side of Rockwall, and this restaurant should provide Rockwall with another high-quality CFA, while relieving some of the demand on the existing restaurant. In addition, our Company is developing the former Johnny Carino's property at 819 E I-30 frontage road in Rockwall. We also are building a multi-tenant small shopping center and are proud to have Jason's Deli and Sleep Number as our anchor tenants there. That project should be completed by Fall of this year.

We were surprised and disappointed to see Mr. Mario Smajli stir up opposition to a CFA restaurant. I have been in the retail/food-service real estate development for more than 30 years and note that it is rare for there to be opposition to a CFA by a city or community. It just doesn't happen.

That is why I believe it is important that you and city council understand the events of last summer which potentially led to Mr. Smajli's actions and rhetoric at the Jan. 16 public hearing and the story behind his intent to block this new restaurant development. Here are the facts:

- During the summer of 2017, Mr. Smajli and I negotiated for several months his purchase of the subject property. I have written documentation of months of purchase offers and counter offers between Mr. Smajli and myself. He had every opportunity to purchase 1902 S. Goliad St. When he could not meet my asking price, I even offered to lease the property to Mr Smajli, but he would not lease. He insisted on only buying the property so he could build a restaurant on it ;

319 W. Oak St. Suite 105
Denton Texas 76201

the same development Chick-Fil-A intends. I considered all his purchase offers, just as I do with other retailers. Unfortunately, Mr. Smajli's offers were all well below our asking price.

- Mr. Smajli had every opportunity to buy this property by meeting or exceeding the competitive offers that Dynamic had received. Mr. Smajli was simply unwilling to meet the asking sales price or meet the competitive offers that we had in hand.
- Mr. Smalji offers also indicated he was a "contingent buyer" - requiring financing to close on the sale.
- Mr. Smajli indicated he was upset that he was unsuccessful in acquiring the subject property for the development of a new restaurant and has now turned to the City to block the CFA restaurant-related development that happens to be adjacent to his existing property.

I have reviewed the video of Mr. Smalji's testimony at the Jan. 16 city council meeting and believe he demonstrated he has an axe to grind over this proposed development. It appears Mr. Smajli is upset he was not able to come to terms with me and my company on lease or purchase terms for the subject property.

Common sense would indicate Mr. Smajli is concerned that another restaurant may out- position his Luigi's restaurant and create more competition. As you know, competition is good for Rockwall consumers, the free marketplace and for tax revenues. It's likely Mr. Smajli is responsible for recruiting the adjacent property and business owner and several residents to show up and voice opposition to this development project. While this is his prerogative, it is not in the best interest of the community there.

Chick-Fil-A is a leader in the quick-service restaurant industry and a pillar in the communities it serves. It is CFA's intent to design and build an attractive restaurant to serve the residents of the community, greatly improve the appearance of this blighted corner, and deliver maximum tax revenues for the people and the City of Rockwall. This CFA development would:

- provide numerous job opportunities
- create another attractive corner on Hwy 205 Goliad St. in Rockwall
- contribute sales tax revenue for the city, given CFA averages well above the industry average in restaurant sales annually
- add to the city's infrastructure of new assets meeting city guidelines and requirements
- be a catalyst for economic development as CFA attracts other restaurants and stores

I understand Chick-Fil-A has re-applied for approval. We sincerely hope that you as the Mayor and the Rockwall City Council understand what is behind Mr. Smajli's opposition and will review CFA's re-

FIELD NOTES

TRACT 1:
BEING A TRACT OF LAND LOCATED IN THE J. CADLE SURVEY, ABSTRACT No. 65, ROCKWALL COUNTY, TEXAS, ALL OF LOT 1 AND A PORTION OF 2, BILLY PEOPLE'S ADDITION, AN ADDITION TO THE CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS, AS SHOWN ON THE PLAT RECORDED IN CABINET A, SLIDE 277, PLAT RECORDS, ROCKWALL COUNTY, TEXAS (P.R.R.C.T.) AND BEING MORE PARTICULARLY DESCRIBED BY METES AND BOUNDS AS FOLLOWS:

BEGINNING AT A POINT IN THE SOUTHEAST LINE OF WEST YELLOWJACKET LANE, (A VARIABLE WIDTH RIGHT-OF-WAY), SAID POINT BEING THE WEST CORNER OF SAID LOT 2;

THENCE N 45°05'27" E, ALONG THE SOUTHEAST RIGHT-OF-WAY LINE OF SAID WEST YELLOWJACKET LANE AND THE NORTHWEST LINE OF SAID LOT 2, A DISTANCE OF 138.69 FEET TO A POINT, BEING THE WEST END OF A RIGHT-OF-WAY CORNER CLIP AT THE INTERSECTION OF THE SOUTHEAST RIGHT-OF-WAY LINE OF SAID WEST YELLOWJACKET LANE WITH THE SOUTHWEST RIGHT-OF-WAY LINE OF SOUTH GOLIAD STREET (A VARIABLE WIDTH RIGHT-OF-WAY);

THENCE S 83°00'35" E, ALONG SAID RIGHT-OF-WAY CLIP, A DISTANCE OF 19.59 FEET TO A POINT IN THE SOUTHWEST RIGHT-OF-WAY LINE OF SAID SOUTH GOLIAD STREET, AND THE NORTHEAST LINE OF SAID LOT 2, SAID POINT BEING THE EAST END OF SAID RIGHT-OF-WAY CLIP;

THENCE S 30°50'38" E, ALONG THE SOUTHWEST RIGHT-OF-WAY LINE OF SAID SOUTH GOLIAD STREET AND THE NORTHEAST LINE OF SAID LOT 2, AT A DISTANCE OF 94.11 FEET, PASSING THE EAST CORNER OF SAID LOT 2 AND THE NORTH CORNER OF SAID LOT 1, CONTINUING ALONG THE NORTHEAST LINE OF SAID LOT 1, IN ALL A TOTAL DISTANCE OF 194.11 FEET TO A POINT BEING THE EAST CORNER OF SAID LOT 1 AND THE NORTH CORNER OF LOT 2, LORETTA ANDERSON ADDITION, AN ADDITION TO THE CITY OF ROCKWALL, TEXAS, AS SHOWN ON THE PLAT RECORDED IN CABINET C, SLIDE 153, P.R.R.C.T.;

THENCE S 59°08'10" W, DEPARTING THE SOUTHWEST RIGHT-OF-WAY LINE OF SAID SOUTH GOLIAD STREET, ALONG THE SOUTHEAST LINE OF SAID LOT 1 AND THE NORTHWEST LINE OF SAID LOT 2 LORETTA ANDERSON ADDITION, A DISTANCE OF 150.00 FEET TO A POINT, BEING THE SOUTH CORNER OF SAID LOT 1 AND THE EAST CORNER OF LOT 1R MUCKLEROY ADDITION, AN ADDITION TO THE CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS, AS SHOWN ON THE PLAT RECORDED IN CABINET D, SLIDE 185, P.R.R.C.T.;

THENCE N 30°50'38" W, DEPARTING THE NORTHWEST LINE OF SAID LOT 2 LORETTA ANDERSON ADDITION, ALONG THE SOUTHWEST LINE OF SAID LOT 1 AND THE NORTHEAST LINE OF SAID LOT 1R, AT A DISTANCE OF 100.00 FEET, PASSING THE WEST CORNER OF SAID LOT 1 AND THE SOUTH CORNER OF SAID LOT 2, BLOCK A, CONTINUING ALONG THE SOUTHWEST LINE OF SAID LOT 2, BLOCK A, AT A DISTANCE OF 167.31 FEET, PASSING AN "X" CUT FOUND BEING THE NORTH CORNER OF SAID LOT 1R, CONTINUING IN ALL A TOTAL DISTANCE OF 172.47 FEET TO THE PLACE OF BEGINNING AND CONTAINING 0.658 ACRES (28,662 SQUARE FEET) OF LAND, MORE OR LESS.

TITLE NOTES

THIS SURVEY WAS PREPARED WITH BENEFIT OF A COPY OF COMMITMENT FOR TITLE INSURANCE PREPARED BY FIDELITY NATIONAL TITLE INSURANCE COMPANY, GF. No. 4715001926, EFFECTIVE DATE SEPTEMBER 6, 2017, ISSUED DATE SEPTEMBER 19, 2017.

10d. THE 25' BUILDING SETBACK LINE SHOWN ON THE PLAT RECORDED IN CAB. A, SL. 277, P.R.R.C.T., IS LOCATED ON THE SUBJECT TRACT, AND IS SHOWN HEREON.

10e. THE UNIDENTIFIED 10'X10' EASEMENT SHOWN ON THE PLAT RECORDED IN CAB. A, SL. 277, P.R.R.C.T., IS LOCATED ON THE SUBJECT TRACT, AND IS SHOWN HEREON.

10f. THE EASEMENT RECORDED IN VOL. 65, PG. 50, D.R.R.C.T., IS NOT LOCATED ON THE SUBJECT TRACT.

10g. THE SUBJECT TRACT IS A PORTION OF THE LANDS DESCRIBED IN THE DEED RECORDED IN VOL. 46, PG. 41, D.R.R.C.T.

SURVEYOR'S NOTES

1. ACCORDING TO SURVEYOR'S INTERPRETATION OF INFORMATION SHOWN ON THE NATIONAL FLOOD INSURANCE PROGRAM (NFIP) "FLOOD INSURANCE RATE MAP" (FIRM), MAP No. 48397C0040L, MAP REVISED SEPTEMBER 26, 2008, ALL OF THE SUBJECT TRACT LIES WITHIN ZONE "X", DEFINED BY THE U.S. DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT, FEDERAL INSURANCE ADMINISTRATION, OR THE FEDERAL EMERGENCY MANAGEMENT AGENCY AS BEING "AREAS DETERMINED TO BE OUTSIDE THE 0.2% ANNUAL CHANCE FLOOD PLAIN."

2. THE ABOVE REFERENCED "FIRM" MAP IS FOR USE IN ADMINISTERING THE "NFIP"; IT DOES NOT NECESSARILY SHOW ALL AREAS SUBJECT TO FLOODING, PARTICULARLY FROM LOCAL SOURCES OF SMALL SIZE, WHICH COULD BE FLOODED BY SEVERE, CONCENTRATED RAINFALL COUPLED WITH INADEQUATE LOCAL DRAINAGE SYSTEMS. THERE MAY BE OTHER STREAMS, CREEKS, LOW AREAS, DRAINAGE SYSTEMS OR OTHER SURFACE OR SUBSURFACE CONDITIONS EXISTING ON OR NEAR THE SUBJECT PROPERTY WHICH ARE NOT STUDIED OR ADDRESSED AS PART OF THE "NFIP".

3. THE UNDERGROUND UTILITIES SHOWN HEREON ARE FROM FIELD SURVEY INFORMATION MARKED BY UTILITY LOCATORS, VISIBLE IMPROVEMENTS AND/OR EXISTING DRAWINGS. THIS SURVEYOR MAKES NO GUARANTEE THAT THE UNDERGROUND UTILITIES SHOWN COMPRISE ALL SUCH UTILITIES IN THE AREA, EITHER IN SERVICE OR ABANDONED. THIS SURVEYOR FURTHER DOES NOT WARRANT THAT THE UNDERGROUND UTILITIES SHOWN HEREON ARE IN THE EXACT LOCATION INDICATED. THIS SURVEYOR HAS NOT PHYSICALLY LOCATED OR DESIGNATED THE UNDERGROUND UTILITIES.

4. ALL BEARINGS SHOWN HEREON ARE CORRELATED TO THE TEXAS STATE PLANE COORDINATE SYSTEM, NORTH CENTRAL ZONE 4202, NAD OF 1983, AS DERIVED BY FIELD OBSERVATIONS UTILIZING THE RTK NETWORK ADMINISTRATED BY WESTERN DATA SYSTEMS.

5. THIS SURVEY WAS PREPARED WITH BENEFIT OF A COPY OF COMMITMENT FOR TITLE INSURANCE PREPARED BY FIDELITY NATIONAL TITLE INSURANCE COMPANY, GF. No. 4715001926, EFFECTIVE DATE SEPTEMBER 6, 2017, ISSUED DATE SEPTEMBER 19, 2017.

6. THE SUBJECT TRACT CONTAINS STRIPED PARKING SPACES, HOWEVER, AT THE TIME OF THE SURVEY, MANY STRIPES HAVE BECOME TOO OLD AND/OR DESTROYED AND FOR AN ACCURATE COUNT.

7. ACCORDING TO DEVELOPMENT INVESTIGATION REPORT PREPARED FOR CHICK-FIL-A, INC., PREPARED BY SITE DEVELOPMENT, INC., PROJECT No. 04222, DATED OCTOBER, 10, 2017, THE SUBJECT TRACT IS ZONED "GR", GENERAL RETAIL, WITH STATE HIGHWAY 205 OVERLAY. SEE ZONING TABLE SHOWN HEREON.

8. ALL MATTERS SHOWN ON RECORDED PLAT PROVIDED TO THE SURVEYOR ARE SHOWN ON THE SURVEY.

9. AT THE TIME OF THE SURVEY, THERE WAS NO EVIDENCE OF CURRENT EARTH MOVING WORK OBSERVED IN THE PROCESS OF CONDUCTING THE FIELDWORK.

10. AT THE TIME OF THE SURVEY, SURVEYOR WAS NOT AWARE OF ANY PROPOSED CHANGES IN STREET RIGHT-OF-WAY. THERE WAS NO EVIDENCE OF RECENT STREET OR SIDEWALK CONSTRUCTION OBSERVED IN THE PROCESS OF CONDUCTING THE FIELDWORK.

11. AT THE TIME OF THE SURVEY, THERE WAS NO OBSERVABLE EVIDENCE OF SITE USE AS A SOLID WASTE DUMP, SUMP OR SANITARY LANDFILL.

12. THE SUBJECT TRACT HAS ACCESS TO SOUTH GOLIAD STREET ALONG THE SOUTHEAST LINE AND EAST YELLOWJACKET LANE ALONG THE NORTH LINE.

13. PROFESSIONAL LIABILITY INSURANCE POLICY OBTAINED BY THE SURVEYOR IN THE MINIMUM AMOUNT OF $2,000,000 TO BE IN EFFECT THROUGHOUT CONTRACT TERM. CERTIFICATE OF INSURANCE TO BE FURNISHED UPON REQUEST.

14. THE SQUARE FOOTAGE OF THE BUILDING IS BASED ON THE EXTERIOR DIMENSIONS AS MEASURED AT GROUND LEVEL.

ZONING INFORMATION:
THE SUBJECT TRACT IS CURRENTLY ZONED "GR"
GENERAL RETAIL, WITH STATE HIGHWAY 205 OVERLAY

ADJACENT PROPERTIES ARE ZONED:

Front (NW):	GR	W Yellow Jacket Lane
Left Side (NE):	GR	S Goliad Street
Right Side (SW):	GR	Commercial
Rear (SE):	GR	Restaurant

MINIMUM LOT WIDTH IS N/A
MINIMUM LOT DEPTH IS N/A
MAXIMUM FLOOR AREA N/A.
MAXIMUM BUILDING HEIGHT IS 30 FEET.

BUILDING SETBACKS ARE:

Front: (W Yellow Jacket Ln)	15'
Front: (S Goliad Street)	25' (per SH 205 Overlay)
Right Side: (Commercial)	0'
Rear: (Restaurant)	0'

LANDSCAPE SETBACKS ARE:

Front: (W Yellow Jacket Ln)	10'
Left Side: (S Goliad Street)	20'
Right Side: (Commercial)	0'
Rear: (Restaurant)	0'

THE PARKING FORMULA FOR MINIMUM REQUIREMENTS:
one (1) space per each 100 square feet of gross floor area.

POLE SIGNS ARE NOT PERMITTED

CITY OF ROCKWALL

ORDINANCE NO. 18-XX
SPECIFIC USE PERMIT NO. S-XXX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE OF THE CITY OF ROCKWALL, TEXAS, AS PREVIOUSLY AMENDED, SO AS TO GRANT A SPECIFIC USE PERMIT (SUP) TO ALLOW FOR A RESTAURANT WITH A DRIVE-THROUGH IN A GENERAL RETAIL (GR) DISTRICT, ON A 0.656-ACRE TRACT OF LAND BEING IDENTIFIED AS LOTS 1 & 2, BLOCK A, BILLY PEOPLES #1 ADDITION, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE

WHEREAS, the City has received a request from Randy Eardley, P.E. of Wier & Associates, Inc. on behalf of Getra Thomason-Saunders of Chick-Fil-A, Inc. for the approval of a Specific Use Permit (SUP) to allow for a *restaurant, 2,000 SF or more with a drive-through,* in a General Retail (GR) District on a 0.656-acre tract of land being described as a Lots 1 & 2, Block A, Billy Peoples #1 Addition, City of Rockwall, Rockwall County, Texas, zoned General Retail (GR) District, addressed as 1902 & 2000 S. Goliad Street [SH-205], and being more specifically depicted in *Exhibit 'A'* of this ordinance, which herein after shall be referred to as the *Subject Property* and incorporated reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall, in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall, have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally, and to all persons interested in and situated in the affected area and in the vicinity thereof, the governing body in the exercise of its legislative discretion has concluded that the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED** by the City Council of the City of Rockwall, Texas;

SECTION 1. That the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall, as heretofore amended, be and the same is hereby amended so as to grant a Specific Use Permit (SUP) allowing a *restaurant, 2,000 SF or more with a drive-through* as stipulated by Section 1, *Land Use Schedule* of Article IV, *Permissible Uses*, of the Unified Development Code [*Ordinance No. 04-38*] on the *Subject Property*; and

SECTION 2. That the Specific Use Permit (SUP) shall be subject to the conditions set forth in Subsection *4.4, General Retail (GR) District,* Section 4, *Commercial Districts,* of Article V, *District Development Standards,* of the Unified Development Code (UDC) as heretofore amended and as may be amended in the future, and shall be subject to the following:

2.1 OPERATIONAL CONDITIONS

The following conditions pertain to the operation of a *restaurant, 2,000 SF or more with a drive-*

DRAFT ORDINANCE 04.23.18

through on the *Subject Property* and conformance to these stipulations is required for continued operations:

1) The restaurant shall generally conform to the concept plan depicted in *Exhibit 'B'* and the concept building elevations depicted in *Exhibit 'C'* of this ordinance.

2) The developer is to construct a four (4)-foot wrought-iron fence adjacent to the property line to the southern and western property lines as depicted in *Exhibit 'B'* of this ordinance.

3) At the time of final plat, the developer shall submit a parking agreement indicating the location of the proposed 20 parking spaces on the adjacent property. This document will require the approval of the City Council and shall be filed with Rockwall County prior to the issuance of a Building Permit.

2.2 COMPLIANCE

Approval of this ordinance in accordance with Section 8.3, *Council Approval or Denial*, of Article II, *Authority and Administrative Procedures*, of the Unified Development Code (UDC) will require compliance to the following:

1) Upon obtaining a Certificate of Occupancy (CO), should any business or establishment operating under the guidelines of this ordinance fail to meet the minimum operational requirements set forth herein and outline in the Unified Development Code (UDC), the City Council may (*after proper notice*) initiate proceedings to revoke the Specific Use Permit (SUP) in accordance with Section 4.4.(3) of Article IV, *Permissible Uses*, of the Unified Development Code (UDC).

SECTION 3. That the official zoning map of the City be corrected to reflect the changes in zoning described herein.

SECTION 4. That all ordinances of the City of Rockwall in conflict with the provisions of this ordinance be, and the same are hereby repealed to the extent of that conflict.

SECTION 5. Any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *TWO THOUSAND DOLLARS* ($2,000.00) for each offence and each and every day such offense shall continue shall be deemed to constitute a separate offense.

SECTION 6. If any section or provision of this ordinance or the application of that section or provision to any person, firm, corporation, situation or circumstance is for any reason judged invalid, the adjudication shall not affect any other section or provision of this ordinance or the application of any other section or provision to any other person, firm, corporation, situation or circumstance, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions of this ordinance shall remain in full force and effect.

SECTION 7. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides;

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 5TH DAY OF MARCH, 2018.

INTRODUCTION

This traffic study was conducted to analyze the potential traffic impacts of the proposed Chick-fil-A which will be located on the southwest corner of the Goliad Street (SH 205) and Yellowjacket Lane intersection in Rockwall, Texas. A vicinity map of the study area is shown in **Figure 1** and a site plan for this facility is shown in **Figure 2**. The following elements were included in this study:

Data Collection

- Collected weekday AM, Midday and PM peak hour turning movement volumes at the Goliad Street (SH 205) and Yellowjacket Lane intersection on Wednesday, January 24, 2018.
- Obtained historical average daily traffic (ADT) volumes on roadways in the study area.
- Obtained the proposed site plan, information related to planned roadway improvements, and other relevant information.

Traffic Analysis

- Assessed the general accessibility of the site.
- Estimated the number of trips that will be generated by the proposed development.
- Estimated the directional distribution of traffic approaching / departing the proposed development.
- Assigned the estimated traffic to the street network.
- Performed capacity analyses for the critical intersections within the study area.

Recommendations

- Determined if any roadway improvements are needed to accommodate projected traffic generated by the proposed development.

Documentation

- Prepared a report documenting the study procedures and results.

Proposed Site Plan

Figure 2

384

SITE ACCESSIBILITY

Site accessibility describes the ease with which vehicles can get to and from a development. A site's accessibility is affected by the geographical location of the development with respect to other activity areas, the roadway system and physical restraints such as rivers or lakes.

Access to the Chick-fil-A development will be provided by:

- One full access driveway along Yellowjacket Lane approximately 110 feet west of Goliad Street (SH 205)
- One right-in/right-out only driveway on Goliad Street (SH 205) approximately 170 feet south of Yellowjacket Lane.

The existing lane configurations for the roadways and the critical intersection within the study area are provided in **Figure 3**. This figure also shows the new driveways for the Chick-Fil-A development. A description of the study area roadways includes:

Yellowjacket Lane – Yellowjacket Lane borders the proposed Chick-fil-A development to the north and is a four-lane undivided roadway with a posted speed limit of 35 miles per hour (mph) at the intersection with Goliad Street (SH 205). Yellowjacket Lane widens to a four-lane divided section approximately 800 feet west of Goliad Street (SH 205). Yellowjacket Lane is designated as a Major Collector 4 lane Divided (M4D) roadway in the City of Rockwall Thoroughfare Plan.

Goliad Street (SH 205) – Goliad Street (SH 205) borders the proposed facility to the east and currently exists as a six-lane divided roadway with a posted speed limit of 40 miles per hour (mph). Goliad Street (SH 205) is designated as a Principal Arterial 6 Lane Divided (P6D) roadway in the City of Rockwall Thoroughfare Plan. Goliad Street (SH 205) is currently at its ultimate roadway configuration.

Existing and Proposed Intersection Lane Configurations

Figure 3

TRAFFIC VOLUMES

Existing Traffic Volumes

Existing weekday AM (7:00-9:00), Midday (11:30 AM – 1:30 PM) and PM (4:00-6:00) peak period turning movement volumes were collected at the existing intersection of Goliad Street (SH 205) and Yellowjacket Lane on Wednesday, January 24, 2018. **Figure 4** shows the existing (2018) peak hour intersection turning movement volumes and the raw traffic count data is provided in the Appendix.

Background Traffic Volumes

Historical 24-hour traffic volumes in the study area were obtained from TxDOT traffic count maps and are presented in **Table 1**.

Table 1: TxDOT Historical Daily Traffic Counts

Year	Location
	SH 205 – (N of IH 30)
2011	27,000
2012	27,000
2013	26,795
2014	26,180
2015	28,604
2016	32,907
Average Annual Growth	5.1%

The traffic volumes in Table 1 show that traffic on SH 205 north of IH 30 has increased at an average annual rate of approximately five percent (5%).

As part of another traffic project near the Goliad Street (SH 205) and Yellowjacket Lane intersection, weekday AM, Midday and PM peak hour traffic volumes were collected at this intersection in October 2004. **Table 2** shows a comparison of the total entering traffic volumes at this intersection between the 2004 and 2018 traffic volumes.

Table 2: Historical Peak Hour Intersection Traffic Volumes

Goliad Street (SH 205) at Yellowjacket Lane			
	2004	2018	Average Annual Growth
AM	1,914	2,858	3.1%
Midday	1,584	2,464	3.5%
PM	1,830	3,237	4.5%

Based on these pieces of information, an annual growth rate of five percent (5%) was assumed and applied to the existing traffic volumes to obtain the Build-Out Year (2019) Background traffic volumes, which are shown in **Figure 5**.

Build-Out Year (2019) Background
Peak Hour Traffic Volumes

Figure 5

Traffic Volumes for Existing Land Use

At the site of the proposed Chick-fil-A restaurant, two vacant buildings currently occupy the property. The 2,400 ft^2 building on the corner formerly served as an E-Z Mart convenience store with 4 gasoline pumps in front of the building. The 1,890 ft^2 building on the south side of the property most recently served as a Pizza Hut restaurant.

To identify the estimated trips generated by these two land uses when in operation, trip generation characteristics for these land uses were obtained from the publication entitled *Trip Generation Manual, 10th Edition*, produced by the Institute of Transportation Engineers (ITE). Estimates of the number of trips generated by the previous land uses were made for the AM and PM peak hour, as well as on a daily basis. The trip generation characteristics for these land uses are provided in **Table 3**.

Table 3: Trip Generation Characteristics for Existing Land Uses

Land Use		**Rates**[1]		
Description	**ITE Code**	**Average Weekday**	**AM Peak Hour**	**PM Peak Hour**
Convenience Market with Gasoline Pumps	853	T = 322.50*(X)	T = 20.76*(X)	T = 23.04*(X)
High-Turnover (Sit-Down) Restaurant	932	T = 112.18*(Y)	T = 9.94*(Y)	T = 9.77*(Y)

Land Use		**Directional Split**[2]		
Description	**ITE Code**	**Average Weekday**	**AM Peak Hour**	**PM Peak Hour**
Convenience Market with Gasoline Pumps	853	50 / 50	50 / 50	50 / 50
High-Turnover (Sit-Down) Restaurant	932	50 / 50	55 / 45	62 / 38

Land Use	**Variable**	**Number of Trips**								
		Average Weekday			**AM Peak Hour**			**PM Peak Hour**		
		Total	**In**	**Out**	**Total**	**In**	**Out**	**Total**	**In**	**Out**
Convenience Market with Gasoline Pumps	4 vfp[3]	1,290	645	645	84	42	42	94	47	47
High-Turnover (Sit-Down) Restaurant	1,890 ft^2	212	106	106	19	10	9	18	11	7
TOTAL		**1,502**	**751**	**751**	**103**	**52**	**51**	**112**	**58**	**54**

[1]T = Trips Ends; X = Vehicle fueling positions; Y = 1,000 ft^2
[2]XX / YY = % entering vehicles / % exiting vehicles
[3]Vehicle fueling positions

While a direct trip generation rate for the Midday peak of these land uses is not provided in the *Trip Generation Manual*, additional data indicates that the trips generated during the Midday peak hour represents 5.9% of the daily trips for a "Convenience Market with Gasoline Pumps" and 12.2% of the daily trips for a "High-Turnover (Sit Down) Restaurant." Applying these percentages for the two land uses indicate that 76 trips would be predicted to be generated by the convenience market and 26 trips would be predicted to be generated by the restaurant during the Midday peak hour, which would result in an estimated total of 102 trips during the Midday peak hour.

PROPOSED DEVELOPMENT

The proposed development is planned to consist of a 2,173 square foot Chick-fil-A restaurant with dual drive-through lanes and no indoor seating. A window on the exterior of the building will be provided for walk-up orders for the restaurant. Based on discussions with the developer, the Build-Out Year of the proposed restaurant will occur in 2019.

The number of trips generated by the Chick-fil-A restaurant is a function of the type and quantity of land use for the development. The number of vehicle trips generated by the proposed development was estimated based on the trip generation rates and equations provided in the publication entitled *Trip Generation Manual, 10th Edition*, by the Institute of Transportation Engineers (ITE). Estimates of the number of trips generated by the site were made for the AM and PM peak hour, as well as on a daily basis. The trip generation characteristics for this development are shown in **Table 4**. Table 1 also presents the number of trips generated by the proposed development at Build-Out.

Table 4: Trip Generation Characteristics for Proposed Chick-fil-A

Land Use		**Rates**[1]		
Description	**ITE Code**	**Average Weekday**	**AM Peak Hour**	**PM Peak Hour**
Fast-Food Restaurant with Drive-Through Window and No Indoor Seating	935	T = 459.20*(X)	T = 33.76*(X)	T = 42.65*(X)
Land Use		**Directional Split**[2]		
Description	**ITE Code**	**Average Weekday**	**AM Peak Hour**	**PM Peak Hour**
Fast-Food Restaurant with Drive-Through Window and No Indoor Seating	935	50 / 50	48 / 52	51 / 49

Land Use	**Variable**	**Number of Trips**								
		Average Weekday			**AM Peak Hour**			**PM Peak Hour**		
		Total	**In**	**Out**	**Total**	**In**	**Out**	**Total**	**In**	**Out**
Fast-Food Restaurant with Drive-Through Window and No Indoor Seating	2,173 ft²	**998**	**499**	**499**	**74**	**36**	**38**	**93**	**47**	**46**

[1]T = Trips Ends; X = 1,000 ft²
[2]XX / YY = % entering vehicles / % exiting vehicles

In the absence of a dedicated trip generation rate for the Midday peak of a "Fast-Food Restaurant" land use, additional data in the *Trip Generation Manual* indicated trips generated during the Midday peak hour represents 14.3% of the daily trips for this type of land use (144 trips). Based on the estimated trips generated by the previous development and the proposed development, and using information in ITE's *Trip Generation Manual*, the proposed development is predicted to

generate approximately 30% fewer trips during the AM peak hour (-29 trips) and approximately 15% fewer trips during the PM peak hour (-19 trips) than the previous two land uses on this property. During the Midday peak hour, the proposed development is predicted to generate approximately 40% more trips than the previous two land uses on this property (+42 trips).

When a motorist makes an intermediate stop at an adjacent land use during their journey to their primary trip destination, they are said to have made a pass-by trip. Pass-by trips are not new traffic generated by a development as these trips are attracted out of the existing traffic streams adjacent to the site. The ITE *Trip Generation Handbook (3rd Edition)* publishes average pass-by rates for different land uses based on studies at similar types of developments. For a "Fast-Food Restaurant with Drive-Through Window and No Indoor Seating" land use, information in this handbook indicates pass-by percentages of 49 percent during the AM peak hour and 50 percent during the PM peak hour. No pass-by information is provided for the Midday peak hour. As a result, approximately half of the traffic generated by the proposed Chick-fil-A restaurant during the AM and PM peak hours is projected to be traffic that is already traveling on the adjacent roadways and passing by this site. However, pass-by traffic was not removed from the adjacent intersection volumes, which should result in a conservative estimate of traffic impacts.

TRIP DISTRIBUTION AND ASSIGNMENT

Trip Distribution

The existing traffic volumes and roadways in the area, along with the proposed site layout, were used to determine the directions from which traffic would approach and depart the Chick-fil-A development. The assumed directional distribution is provided in **Figure 6**.

Site Traffic Volumes

Traffic volumes expected to be generated by the proposed Chick-fil-A development were assigned to the area roadways and site access points based on the directional distribution identified in Figure 6. The estimated site generated traffic volumes for the weekday AM, Midday and PM peak hours are shown in **Figure 7**. As stated previously, although half of the traffic generated by the proposed restaurant is projected to be traffic that is already traveling on the adjacent roadways and passing by the site, no reduction in the trips generated by the proposed development to account for pass-by traffic was assumed.

Total Traffic Conditions

Total (background + site) peak hour traffic conditions at Build-Out Year (2019) of the Chick-fil-A were obtained by adding the Build-Out Year (2019) Background traffic volumes (Figure 5) to the total site generated traffic volumes (Figure 7) and are shown in **Figure 8**.

INTERSECTION CAPACITY ANALYSES

The Level of Service (LOS) of an intersection is a qualitative measure of capacity and operating conditions and is directly related to vehicle delay. The LOS criteria for a signalized intersection are shown in **Table 5**. LOS is given a letter designation from A to F, with LOS A representing very short delays (less than 10 seconds of average control delay per vehicle) and LOS F representing very long delays (more than 80 seconds of average control delay per vehicle). LOS D, ranging from 35.1 to 55.0 seconds of average control delay per vehicle, is typically considered the minimum acceptable condition.

For unsignalized intersections, the levels of service, as shown in **Table 6**, are defined by average control delay in seconds per vehicle. LOS D (ranging from 25.1 to 35 seconds of average delay per vehicle) is considered the minimum acceptable condition for an unsignalized intersection.

Capacity analyses were conducted for the study area intersections under the following analysis scenarios:

- Existing (2018) Conditions
- Build-Out Year (2019) Background Conditions
- Build-Out Year (2019) Total Conditions

The intersection capacity analyses were conducted using HCM methodologies in the *Synchro 9* traffic analysis software package. The intersection lane configurations provided in Figure 3 were used for these analyses.

Additional performance measures such as volume to capacity (v/c) ratios and queue lengths also provide an indication of operations. For example, at two-way stop controlled intersections, main street traffic volumes may impose longer average delays for a small number of side-street vehicles, thus creating vehicle delays which correspond to a poor level of service.

Table 5: Level of Service Criteria for Signalized Intersections

Level-of-Service (LOS)	Average Control Delay (seconds/vehicle)	Description
A	≤ 10.0	Very low vehicle delays, free flow, signal progression extremely favorable, most vehicles arrive during given signal phase.
B	10.1 to 20.0	Good signal progression, more vehicles stop and experience higher delays than for LOS A.
C	20.1 to 35.0	Stable flow, fair signal progression, significant number of vehicles stop at signals.
D	35.1 to 55.0	Congestion noticeable, longer delays and unfavorable signal progression, many vehicles stop at signals.
E	55.1 to 80.0	Limit of acceptable delay, unstable flow, poor signal progression, traffic near roadway capacity, frequent cycle failures.
F	> 80.0	Unacceptable delays, extremely unstable flow and congestion, traffic exceeds roadway capacity, stop-and-go conditions.

SOURCE: *Highway Capacity Manual, HCM 2010*, Transportation Research Board, 2010

Table 6: Level of Service Criteria for Unsignalized Intersections

Level-of-Service (LOS)	Average Control Delay (seconds/vehicle)	Description
A	≤ 10.0	No delays at intersections with continuous flow of traffic. Uncongested operations: high frequency of long gaps available for all left and right turning traffic. No observable queues.
B	10.1 to 15.0	No delays at intersections with continuous flow of traffic. Uncongested operations: high frequency of long gaps available for all left and right turning traffic. No observable queues.
C	15.1 to 25.0	Moderate delays at intersections with satisfactory to good traffic flow. Light congestion; infrequent backups on critical approaches.
D	25.1 to 35.0	Increased probability of delays along every approach. Significant congestion on critical approaches, but intersection functional. No standing long lines formed.
E	35.1 to 50.0	Heavy traffic flow condition. Heavy delays probable. No available gaps for cross-street traffic or main street turning traffic. Limit of stable flow.
F	> 50.0	Unstable traffic flow. Heavy congestion. Traffic moves in forced flow condition. Average delays greater than one minute highly probable. Total breakdown.

Capacity Analysis Results

Table 7 presents the analysis results for the study intersection under Existing (2018), Build-Out Year (2019) Background, and Build-Out Year (2019) Total traffic conditions. The shaded cells in Table indicate approaches that are currently operating or are predicted to operate below level of service (LOS) D.

[1] Delay in seconds/vehicle (Level of Service)
[2] HCM methodology does not provide intersection-wide delay/level of service for two-way stop-controlled (TWSC) analysis

As shown by the analysis results in Table 7, the intersection of Goliad Street (SH 205) and Yellowjacket Lane currently operates and is predicted to continue operating at acceptable levels of service under Build-Out Year (2019) Background and Total conditions during the AM, Midday and PM peak hours. The approaches and movements at the Chick-fil-A driveways on Yellowjacket Lane and Goliad Street (SH 205) are predicted to operate at acceptable levels of service under Build-Out Year (2019) Total conditions.

The results in Table 7 indicate that at the signalized intersection of Goliad Street (SH 205) and Yellowjacket Lane, the eastbound (AM and PM peak hours) and westbound approaches (PM peak hour) currently operate at levels of service below LOS D. With the additional background and site traffic at this intersection in the Build-Out Year (2019), the levels of service for those approaches are predicted to remain the same with similar delays. Under Build-Out Year (2019) Total conditions, delays at the eastbound and westbound approaches on Yellowjacket Lane at this intersection are predicted to increase by less than two (2) seconds/vehicle during the AM and PM peak hours, when compared to Existing (2018) conditions. Traffic generated by the proposed Chick-fil-A restaurant is predicted to have minimal impact to the operation of the Goliad Street (SH 205) and Yellowjacket Lane intersection.

ACCESS MANAGEMENT ANALYSES

As part of this study, access management analyses were performed to consider the need for deceleration lanes and to determine if adequate driveway spacing and intersection sight distance is provided for the proposed site driveways. Additionally, an analysis of the internal queuing on site was also performed.

Right Turn Deceleration Lane Analysis

The proposed site driveways for the Chick-fil-A development along Yellowjacket Lane and Goliad Street (SH 205) were analyzed to determine the need for right turn deceleration lanes. Guidelines in TxDOT's *Access Management Manual* state that:

- For roadways with a posted speed limit less than or equal to 45 mph, a right turn deceleration lane should be considered when peak right turn volumes are greater than 60 vehicles per hour.

Table 8 summarizes the projected right turn volumes under Build-Out Year (2019) Total traffic conditions.

Table 8: Right Turn Deceleration Lane Analysis Results

Intersection	Approach	Speed Limit (mph)	Threshold (vph)	Volume (vph) AM [Midday] (PM)	Exceeds Threshold? AM [Midday] (PM)
Driveway #1 at Yellowjacket Lane	EB	35	60	5 [11] (7)	No [No] (No)
Driveway #2 at Goliad Street (SH 205)	SB	40	60	9 [18] (12)	No [No] (No)

As shown in Table 8, the eastbound right turn volumes on Yellowjacket Lane at Driveway #1 and the southbound right turn volumes on Goliad Street (SH 205) at Driveway #2 are not predicted to exceed the guidelines for consideration of a right turn deceleration lane during any of the peak hours evaluated. Therefore, right turn deceleration lanes are not recommended for either of these driveway locations.

Intersection Sight Distance

As part of this traffic analysis, the available and required intersection sight distance for motorists accessing the adjacent roadways from the proposed site driveways on Yellowjacket Lane and Goliad Street (SH 205) were analyzed. The sight distance required was estimated using the procedures developed by the American Association of State Highway and Transportation Officials (AASHTO) and published in the 2011 edition of *A Policy on Geometric Design of Highways and Streets*. At this location, the motorist should be able to see if and when adequate gaps exist to

perform their desired maneuver. **Table 9** presents the required and available sight distance for vehicles exiting the proposed Chick-fil-A site driveways.

Table 9: Sight Distance Evaluation

Major Roadway	Yellowjacket Lane	Goliad Street (SH 205)
Posted Speed Limit	35 mph	40 mph
Minor Roadway	Driveway #1	Driveway #2
Design Vehicle	Passenger Car	Passenger Car
Required Intersection Sight Distance	415'	385'
Available Sight Distance to the Left	>500'	>500'
Available Sight Distance to the Right	>500'	N/A [1]
Available > Required		
To the Left	YES	YES
To the Right	YES	N/A

[1] Right-in/right-out exit

As identified in Table 9, the amount of available sight distance for the proposed driveways are predicted to exceed the amount of intersection sight distance required.

Access Spacing

In TxDOT's *Access Management Manual*, required access point spacing is determined based on the posted speed limit of the roadway. For a state highway with a posted speed limit of 40 mph, such as Goliad Street (SH 205), the required spacing between access points is 305 feet. The *Standards of Design and Construction* for the City of Rockwall (October 2016) indicate that the minimum spacing between a driveway on a collector road and the adjacent arterial street is 200 feet with a minimum of 100 feet between driveways.

Driveway #1 on Yellowjacket Lane is planned to be located approximately 110 feet west of Goliad Street (SH 205) and approximately 40 feet east of an existing driveway. The City's minimum driveway spacing is not met between Driveway #1 and the adjacent driveway to the west or the Goliad Street (SH 205) intersection to the east. While the proposed location of Driveway #1 does not meet the City's driveway spacing requirements, the proposed Driveway #1:

- Will replace two existing driveways for the previous development.
- Will be located near the western edge of the property.
- Will be located at approximately the same location as the existing western driveway for the previous development.

Driveway #2 on Goliad Street (SH 205) is planned to be located approximately 170 feet south of Yellowjacket Lane and approximately 160 feet north of an existing driveway. TxDOT's access point spacing requirement (305 feet) is not met between Driveway #2 and the Yellowjacket intersection to the north or the adjacent driveway to the south. While the proposed location of Driveway #2 does not meet TxDOT's driveway spacing requirements, the proposed Driveway #2:

- Will replace two existing driveways for the previous development.
- Will be located near the southern edge of the property.
- Will be located approximately 30 feet further south than the existing southern driveway for the previous development.

Since these driveways do not meet the minimum requirements, a waiver from the City and TxDOT will be necessary for the location of these driveways.

Internal Site Queuing

An analysis of the ability of the site to store drive-through queues within the proposed drive-through lanes was also performed. Since the Midday peak hour had the highest predicted demand (72 entering vehicles), this peak hour was selected as the analysis period.

For this analysis, the following assumptions were made:

- All 72 vehicles would use the drive-through lanes and there would be no customers using the outside walk-up window.
- Based on information provided in the site plan, the drive-through lanes can store a total of 19 vehicles.
- Based on information provided by the developer, an average store services one vehicle every 30 seconds, or two (2) vehicles minute.
- In the 15 minutes before the start peak hour, a total of 18 entering vehicles were assumed, with the final 6 vehicles arriving at the end of the final 5 minute period. As a result, it was assumed that these 6 vehicles would be waiting in the queue at the start of the Midday peak hour assessment.
- 50% of the entering vehicles (36 vehicles) would arrive in the first 15 minutes of the peak hour (arrival rate = 2.4 vehicles/minute).
- 40% of the entering vehicles (29 vehicles) would arrive in the next 15 minutes of the peak hour (arrival rate = 1.9 vehicles/minute).
- Adding the previous two bullets together, 90% of the 72 total entering vehicles (65 vehicles) would arrive in the first 30 minutes of the peak hour.

Table 10 presents the results of the queuing analysis using the above assumptions. As shown by this analysis, with 90% of the predicted Midday peak hour traffic occurring in the first 30 minutes, the traffic queues are not predicted to exceed the limits of the storage provided (19 queued vehicles) with a maximum predicted queue of 14 vehicles.

Table 10: Queuing Analysis Results

Time	Arrival Rate (veh/min)	Departure Rate (veh/min)	# of Cars in Queue	# of Cars Arriving	# of Cars Departing	# of Cars in Queue	Total Cars Arrived	% of Total

12:29	1.9	2	14	1	2	13	65	90%

CONCLUSIONS

Based on the analysis of the proposed site plan and characteristics of the Chick-fil-A restaurant, the following conclusions can be made:

- The proposed Chick-fil-A restaurant is predicted to generate 998 trips on a daily basis with 74 trips during the AM peak hour, 144 trips during the Midday peak hour and 93 trips during the PM peak hour.

Intersection Capacity Analysis

- Under Existing conditions, the intersection of Goliad Street (SH 205) and Yellowjacket Lane currently operates at acceptable levels of service during the AM, Midday and PM peak hours. The intersection will continue operating at acceptable levels of service under Build-Out Year (2019) Background and Total conditions.
- The eastbound (AM and PM peak hours) and westbound (PM peak hour) approaches at the Goliad Street (SH 205) and Yellowjacket Lane intersection currently operate and are predicted to continue operating at the same level of service (below LOS D) under Build-Out Year (2019) Background and Total conditions. For these approaches, the delays are predicted to increase by less than two (2) seconds/vehicle during the AM and PM peak hours, when compared to Existing (2018) conditions. Traffic generated by the proposed Chick-fil-A restaurant is predicted to have minimal impact to the operation of the Goliad Street (SH 205) and Yellowjacket Lane intersection.
- The approaches to the proposed Driveway #1 (on Yellowjacket Lane) and Driveway #2 (on Goliad Street [SH 205]) are predicted to operate at acceptable levels of service under Build-Out Year (2019) Total traffic conditions.

Access Management Analysis

- The projected eastbound right turn volumes on Yellowjacket Lane at Driveway #1 and the projected southbound right turn volumes on Goliad Street (SH 205) at Driveway #2 are not predicted to exceed TxDOT's guidelines for consideration of right turn deceleration lanes. Right turn deceleration lanes are not recommended for these two driveways as a result of the Chick-fil-A development.
- Based on conditions that existed in the field when the sight distance was measured, the amount of available sight distance for the proposed driveways are predicted to exceed the amount of intersection sight distance required.
- The City's minimum driveway spacing for Driveway #1 on Yellowjacket Lane and TxDOT's minimum driveway spacing for Driveway #2 on Goliad Street (SH 205) are not satisfied. However, each driveway is replacing two driveways which currently exist along the site frontage, are located at similar locations to a previous driveway and are located near the edge of the property line. A waiver will be necessary for the location of these driveways.
- With the assumptions made as part of the queuing analysis, with 90% of the predicted Midday peak hour traffic occurring in the first 30 minutes, traffic queues are not predicted to exceed the limits of the storage provided (19 queued vehicles).

RECOMMENDATIONS

Based on the results of this study, no specific recommendations were identified as a result of the traffic generated by the proposed Chick-fil-A restaurant. Effective and efficient management of the ordering and food delivery process should be undertaken, as necessary, to help minimize any queues generated by the Chick-fil-A restaurant.

CITY OF ROCKWALL, TEXAS
MEMORANDUM

TO: City Council
CC: Rick Crowley, City Manager
Brad Griggs, Assistant City Manager

FROM: Andy Hesser, Parks and Recreation Director

DATE: February 13, 2018

SUBJECT: ANNUAL ADOPTION OF STANDARDS OF CARE FOR DAY CAMP PROGRAMS

During the process of reviewing our Revenue and Pricing Plan in 2017, we learned that our day camp program offerings must comply various State of Texas laws regarding child care services. The law requires that entities that provide certain day care services obtain licensing and meet a variety of other requirements.

Fortunately, the City is exempt from State licensure requirements if we meet specific exemption criteria. The Required license does not apply to:

"an elementary-age (ages 5-13 recreation program operated by a municipality provided the governing body of the municipality annually adopts standards of care by ordinance after a public hearing for such programs, that such standards are provided to the parents of each program participant, and that the ordinances shall include at a minimum, staffing ratios, minimum staff qualifications, minimum facility, health and safety standards, and mechanisms for monitoring and enforcing the adopted local standards; and further provided that parents be informed that the program is not licensed by the state and the program may not be advertised as a child-care facility."

It further exempts an entity from licensure for programs "*in which a child receives direct instruction in a single skill, talent, ability, expertise or proficiency; does not provide services or offerings that are not directly related to the single talent ability, expertise or proficiency; that does not advertise the program as a child-care facility, day-care center or licensed before-school or after-school program; that informs the parent or guardian that the program is not licensed by the state; and about the physical risks of participation; and that conducts background checks for all program employees and volunteers who work with the children in the program using information that is obtained by the Department of Public Safety.*"

Chapter 42 of the Human Resources Code, published by the Texas Department of Family and Protective Services.

Council unanimously voted to adopt the attached standards of care in August of 2017. There are no foreseeable changes that have been recommended in this year's standards, which must be adopted on an annual basis following public hearing input. At the February meeting, the city's Park Board voted unanimously to recommend that Council consider adopting the standards of care ordinance without any changes for the year 2018.

428

CITY OF ROCKWALL, TEXAS

RESOLUTION NO. 18-06

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS APPROVING THE SAME LOCAL STANDARDS OF CARE FOR THE CITY PARKS AND RECREATION YOUTH PROGRAMS AS WERE ORIGINALLY ADOPTED BY ORDINANCE 17-42 AND AS ANNUALLY REQUIRED BY CHAPTER 42 OF THE TEXAS HUMAN RESOURCES CODE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the Human Resources Code, Section 42.041(b)(14), establishes requirements for exempting recreational programs operated by municipalities for elementary age (5-13) children from childcare licensing requirements; and

WHEREAS, in order to receive exempt status for a youth recreation program, the City of Rockwall must adopt standards of care after a public hearing for the program has been held on an annual basis; and

WHEREAS, the City adopted said standards of care by Ordinance 17-42 on August 21, 2017 after a public hearing was held; and

WHEREAS, a public hearing regarding said standards was again held on February 19, 2018; and

WHEREAS, the City of Rockwall Youth Programs Standards of Care provide basic child care regulations for day camp activities operated by the Rockwall Parks and Recreation Department in accordance with Section 42.041(b)(14) of the Human Resources Code.

NOW THEREFORE BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS THAT:

SECTION 1. The City Council of the City of Rockwall hereby (re)adopts the City of Rockwall Youth Programs Standards of Care for providing basic child care regulations for day camp activities operated by the Rockwall Parks and Recreation Department. As required by Section 42.041(b)(14) of the Human Resources Code, the Standards adopted include staffing ratios; minimum staff qualifications; minimum facility, health, and safety standards; and mechanisms for monitoring and enforcing the adopted local standards.

SECTION 2. A copy of the City of Rockwall Youth Programs Standards of Care are attached to Ordinance 17-42 and incorporated herein for all intents and purposes (see "Exhibit A"). A copy of such standards may be obtained from the City Secretary.

SECTION 3. FINDINGS. The City Council finds all of the above recitals to be true and correct and incorporates the same in this resolution as findings of fact.

SECTION 4. EFFECTIVE DATE. This Resolution shall be in full force and effect from and after its passage and it is accordingly so resolved.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS THIS 19th day of FEBRUARY, 2018.

_____

Jim Pruitt, Mayor

ATTEST:

_____

Kristy Cole, City Secretary

EXHIBIT A

CITY OF ROCKWALL YOUTH PROGRAMS

STANDARDS OF CARE

I. GENERAL INFORMATION/ADMINISTRATION

A. Purpose: To provide basic childcare regulations for recreation activities operated by the City of Rockwall Parks and Recreation Department. This permits the City to qualify as exempt status from requirements of the Texas Human Resources Code.

B. Implementation: Program will be the responsibility of the City of Rockwall Parks and Recreation Department, with the Recreation Superintendent supervising the overall program and, Recreation Coordinator, Recreation Leaders, Recreation Aides, and Recreation Instructors administering the program on-site.

C. Programs: Regulations apply to "School Aged Programs" (as defined by Chapter 42 of the State of Texas Human Resources Code) for children attending Prekindergarten through sixth grade in a facility that provides supervision, along with recreation or skills instruction or training and may provide transportation:

- R.O.C.K. Camps during spring break, summer or other extended school holidays
- Other Summer Camp Programs in session for at least two-hours per day, three days a week or more

D. Other: Each site will make available for the public and staff a current copy of the Standards of Care. Standards of Care will also be made available on the Parks and Recreation Website at www.PlayRockwall.com.

E. Program Sites may include:

a. The Center at 108 E. Washington St.
b. Harry Myers Community Center at 815 E. Washington St.
c. Harry Myers Park at 815 E. Washington St.
d. Harry Myers Pool at 815 E. Washington St.
e. Leon Tuttle Athletic Complex 1550 Airport Rd.

F. Day Camp Objectives

1. To provide a wide variety of beneficial and memorable activities for school aged children.
2. To provide a safe environment while promoting physical activity, learning new skills and building self-confidence.

G. Exemption Status: Once an exempt status is established, the Licensing Division of Texas Department of Family and Protective services will not monitor the recreational program. The Licensing Division will be responsible for investigating complaints of unlicensed childcare and for referring other complaints to the municipal authorities or, in the case of abuse/neglect allegation, to the local police authorities.

H. Standards of Care Review: Standards will be reviewed annually and approved by the City Council after a public hearing is held to pass an ordinance regarding section 42.041(b)(14) of the Human Resources Code.

I. Any parent, visitor or staff may register a complaint by calling City of Rockwall Parks and Recreation Administration Offices at 972-771-7761, Monday through Friday, 8:00 a.m. to 5:00 p.m.

II. STAFFING

Recreation Superintendent

ESSENTIAL FUNCTIONS:

A. Provides supervision, motivation and leadership to all Recreation Division personnel.
B. Coordinate and supervise all adult athletic programs.
C. Supervise all aspects of summer aquatic program.
D. Supervise all aspects of special events including sponsorships.
E. Interview, select and hire all seasonal, full and part time personnel related to the Recreation program.
F. Supervises and coordinates the marketing of the Parks and Recreation Department's programs, events and facilities including the production of the department's brochures.
G. Ensures the proper instruction and training of personnel and volunteers under charge in methods and procedures, proper use of equipment, safety procedures, etc.
H. Maintains records, data and other pertinent information relating to the compilation of a variety of reports including the development of an annual report for the Parks and Recreation Department.
I. Serves on a variety of committees to enhance the quality of life for the citizens of Rockwall and to promote the efforts and image of the Parks and Recreation Department.
J. Continually strives to improve every aspect of the Recreation Department to a degree where all programs are dynamic and continually improving.
K. Implement the City's customer centered culture initiative on a departmental wide basis and monitor the compliance.
L. Alignment of programs and events with Strategic Initiatives and Balance Scorecard.
M. Required to report for work punctually, work all scheduled hours, and any required overtime as deemed necessary. Must maintain a physical condition and standards necessary for the proper performance of duties, with or without accommodation.

REQUIREMENTS

Education, Training and Experience

N. Bachelor's Degree in Parks and Recreation or closely related field with a minimum of 3-6 years of progressive recreational program facilitation experience with 2-4 years of related supervisory experience required.
O. CPRP preferred.

P. Certified Pool Operator (CPO) or Aquatic Facility Operator (AFO) required or certification required within 6 months of hire.
Q. Applicant must possess a valid State of Texas Driver's License or attain a TDL within 30 days of hire.

Recreation Coordinator
EXAMPLES OF ESSENTIAL FUNTIONS

- Exercise judgment, creativity and discretion when planning, organizing, budgeting and supervising various recreational programs, activities, projects and special events for all segments of the population, usually with a six to twelve month lead-time prior to the event.
- Provide excellent communication skills to deliver quality customer service at all times. Greets public, answers telephone, provides information and registers participants. Investigates and resolves citizen complaints concerning, instructors, or the facilities.
- Responsible for coordinating and communicating employee wellness activities and programs and creates and implements new programs and special events.
- Communicate various programs with other City and department personnel to inform them of activity involvement and anticipated assistance (i.e. Parks Division, Facility Maintenance, Police and Fire Departments).
- Public Relations, markets and promotes programs through recreation publications, newsletters, flyers and other media.
- Coordinates with City departments, community organizations and school districts regarding facility availability and scheduling.
- Purchase and procures supplies, materials, equipment for programs and special events.
- Hire part-time staff and contractors involved in programs, special events and activities. Trains, supervises and evaluates part-time staff members and contract employees. Makes recommendations as to the advancement, promotion or termination of the part-time staff, or the continued engagement of contractors.
- Supervise and coordinate daily operations and safety of The Center including scheduling staff, rentals, money handling and facility inspections.
- Required to report for work punctually, work all scheduled hours, and any required overtime as deemed necessary. Must maintain a physical condition and standards necessary for the proper performance of duties, with or without accommodation.

REQUIREMENTS

A. Training and Experience:
Bachelor's Degree in Parks and Recreation or related field required, supplemented by a minimum of one (1) year of relevant experience and a minimum of one (1) year supervisory experience preferred. Applicant must possess a valid Texas driver's license or obtain within 30 days of hire.

Recreation Leader III
EXAMPLES OF ESSENTIAL FUNCTIONS

- Attends to the daily operation of facilities and programs including opening and closing duties and supervises Recreation Aides when necessary; assists with various recreation programs, leagues, special events or concession sales as needed.
- Performs program, league, and special event registrations with minimal supervision
- Provides excellent customer service by responding accurately to

customers' questions and needs via phone, e-mail, and face-to-face interactions.

- Performs and supervises general maintenance and housekeeping duties in Parks and Recreation including cleaning restrooms and picking up trash in facilities or parks.
- Ensures the safety of all spectators and participants in programs and facilities. Keeps supervisor informed regarding safety related issues.
- Completes various reports and submits them to the appropriate Supervisor.
- Responsible for monetary transactions and handling on a daily basis
- Must be able to work weekends, nights and holiday shifts.
- Required to report for work punctually, work all scheduled hours, and any required overtime as deemed necessary. Must maintain a physical condition and standards necessary for the proper performance of duties, with or without accommodation.
- Will be responsible for registering teams for tournaments.
- Will be responsible for day of operations including but not limited to bracketing, equipment preparation, and awards ceremonies
- Able to consistently display a high level of responsibility and reliability
- Will function in a supervisory capacity at assigned programs, special events, and rentals such as ; Little Athletes, ROCK Camp, Family Fun Friday, Founder's Day Festival, Concert by the Lake Series, Area Specific Special Event Zone Lead, Easter Egg Hunt, Adult Softball, birthday party Supervisor at The Center, and rental Supervisor at The Center.
- Will primarily work at Leon Tuttle Athletic Complex supervising baseball and softball programs.
- Will be responsible for the punctual opening, closing, and well-being of the Leon Tuttle Athletic Complex.
- Supervise and serve as Ball Fields Supervisor
- Able to function as Camp Manager, Program Manager , Front Desk representative , Special Events Lead, Lead Birthday Party Coordinator.
- Presents reports and program status updates upon request.

REQUIREMENTS

TRAINING AND EXPERIENCE:

- Minimum age is 18 years old.
- High school diploma or GED.
- 2 years' experience as a recreation aide or instructor/lifeguard preferred.

Recreation Leader II

EXAMPLES OF ESSENTIAL FUNCTIONS

- Attends to the daily operation of facilities and programs including opening and closing duties and supervises the positions of Recreation Aides and Recreation Leader I's, when necessary; assists with various recreation programs, leagues, special events or concession sales as needed.
- Performs program, league, and special event registrations with minimal supervision.

- Provides excellent customer service by responding accurately to customers' questions and needs via phone, e-mail, and face-to-face interactions.
- Performs and supervises general maintenance and housekeeping duties in Parks and Recreation including cleaning restrooms and picking up trash in facilities or parks.
- Ensures the safety of all spectators and participants in programs and facilities. Keeps supervisor informed regarding safety related issues.
- Responsible for monetary transactions and handling on a daily basis
- Must be able to work weekends, nights and holiday shifts.
- Will function in a supervisory capacity at assigned programs, special events, and rentals such as; Little Athletes, ROCK Camp, Family Fun Friday, Founder's Day Festival, Concert by the Lake Series, Area Specific Special Event Zone Lead, Easter Egg Hunt, Adult Softball, birthday party Supervisor at The Center, and rental Supervisor at The Center.
- Function as Camp Manager, Program Manager, Front Desk representative, Special Events Lead, Lead Birthday Party Coordinator.
- Presents reports and program status updates upon request.
- Must drive a city vehicle and/or operate motorized equipment.
- Required to report for work punctually, work all scheduled hours, and any required overtime as deemed necessary. Must maintain a physical condition and standards necessary for the proper performance of duties, with or without accommodation.

REQUIREMENTS

TRAINING AND EXPERIENCE:

- Minimum age is 18 years old. Must possess a High school diploma or GED.
- 2 years of experience as a recreation aide/instructor/lifeguard preferred.
- Must have a current valid Texas driver's license and have a good driving record.

Recreation Leader I

EXAMPLES OF ESSENTIAL FUNCTIONS

- Attends to the daily operation of facilities and programs including opening and closing duties and supervises Recreation Aides when necessary; assists with various recreation programs, leagues, special events or concession sales as needed.
- Performs program, league, and special event registrations with minimal supervision.
- Required to safely operate city vehicles and equipment.
- Provides excellent customer service by responding accurately to customers' questions and needs via phone, e-mail, and face-to-face interactions.
- Performs and supervises general maintenance and housekeeping duties in Parks and Recreation including cleaning restrooms and picking up trash in facilities or parks.
- Ensures the safety of all spectators and participants in programs and facilities. Keeps supervisor informed regarding safety related issues.
- Completes various reports and submits them to the appropriate Supervisor.
- Responsible for monetary transactions and handling on a daily basis
- Must be able to work weekends, nights and holiday shifts.
- Required to report for work punctually, work all scheduled hours, and any required overtime as deemed necessary. Must maintain a physical condition and standards necessary for the proper performance of duties, with or without accommodation.
- Must consistently display a high level of responsibility and reliability

- Perform as a leader at assigned programs, special events, and rentals such as ; Little Athletes lead, ROCK Camp lead , Family Fun Friday lead, Founder's Day Festival, Concert by the Lake Series, Area Specific Special Event Zone Lead, Easter Egg Hunt, Adult Softball, birthday party lead at The Center, and rentals at The Center.
- Performs all duties assigned in a timely manner

REQUIREMENTS

TRAINING AND EXPERIENCE:

- Must be 18 years or older to operate a city vehicle or motorized equipment.
- Must have a current valid Texas drivers' license and a good driving record.
- Previous experience in recreation or related field preferred.

Recreation Aide

EXAMPLES OF ESSENTIAL FUNCTIONS

- Assists with various recreation program duties including openings, closings, and operation of programs, special events, or rentals.
- Monitor and clean Parks and Recreation Department facilities during scheduled programs.
- Accurately register patrons for programs and facility bookings.
- Accurately perform cash handling duties
- Provide excellent customer service by responding to customers' questions and needs.
- Keeps supervisor informed regarding all safety related issues.
- Required to report for work punctually, work all scheduled hours, and any required overtime as deemed necessary.
- Must maintain a physical condition and standards necessary for the proper performance of duties, with or without accommodation.
- Will assist programs, camps, special events, rentals at The Center, and birthday parties.
- Examples of work related assignments are as follows: Little Athletes, Family Fun Friday, Founder's Day Festival, Concert by the Lake Series, Easter Egg Hunt, Adult Softball, birthday parties at The Center, rentals at The Center, and
- Position includes morning, evening, weekend and holiday hours.

REQUIREMENTS

B. Training and Experience:

- Minimum age required is 16.
- Ability to understand and follow oral and written instructions
- Must be able to accurately count money and make change and be able to operate a cash register
- Ability to use a calculator and do basic math functions.
- Must be able to lift 80 lbs. and able to work outdoors as required.
- Depending on the position, the incumbent may be required/preferred to have some knowledge of general sport rules (basketball, softball, baseball, soccer and football) and/or be able to operate a cash register, scoreboard or computer.

C. Knowledge, Skills and Abilities:

- Must be able to demonstrate excellent customer service skills.
- Must be computer literate.
- Ability to perform cash handling duties.
- Must have good written and oral communication skills and be able to deal effectively with the public.
- Ability to use a calculator and do basic math functions.
- Must be able to lift up to 80lbs. and work outdoors as required.
- Depending on the position, the incumbent may be required to have some knowledge of general sport rules (basketball, softball, baseball, soccer and football), recreation programming concepts.
- Must be available to work weekends, holidays, and nights/evenings

Recreation Leader I –Camp Assistant

EXAMPLES OF ESSENTIAL FUNCTIONS

- Attends to the daily operation of facilities and programs including opening and closing duties and supervises Recreation Aides when necessary; assists with various recreation programs, leagues, special events or concession sales as needed.
- Performs program, league, and special event registrations with minimal supervision.

- Must have experience working with kids

R. **Criminal Background Checks and Drug Testing**: Before being hired, criminal history and sex offender database checks will be conducted on prospective Day Camp employees.

Applicants may be disqualified if they have a job related criminal conviction. A prospective employee will be subject to a drug test prior to hiring.

S. **Staffing Ratios**: The number of children may not exceed staff by a minimum ratio of 1 staff per 10 children, for school aged participants prekindergarten through sixth grade.

III. FACILITY STANDARDS

A. Emergency evacuation and relocation plans will be posted at each facility.

B. Program employees will inspect sites frequently for any sanitation or safety concerns. Those concerns should be passed on to the Recreation Coordinator or Recreation Superintendent immediately.

C. Each camp must have a fully stocked first aid kit. This shall be checked and stocked on a weekly basis by the Recreation Coordinator.

D. In a situation where evacuation is necessary, the first priority of staff is to make sure all participants are in a safe location.

E. Program sites will be inspected annually by the Fire Marshall. The Recreation Superintendent is responsible for coordinating compliance with Fire Marshall's directives.

F. The recommended number of fire extinguishers shall be inspected annually and available for use.

G. If your child will need prescription or non-prescription medication they will be responsible for keeping up with the medicine and taking it when needed. Our staff is not certified or permitted to dispense any type of medication. Prescription medications shall be kept by the child in their original container, labeled with the child's name, date, directions and physician's name. Medication shall be dispensed only as stated on the bottle, and not past the expiration date.

H. Each site shall have adequate toilets and sinks located such that children can use them independently and program staff can supervise as needed.

I. All participants must wear tennis shoes daily. Sandals or flip-flops will not be allowed.

IV. SERVICE STANDARDS-Day Camp Staff

This information will be provided to each staff as a part of the day camp training:

A. Camp staff shirts, shorts and tennis shoes are to be worn at all times.

B. City issued employee identification should be worn and clearly visible.

C. Camp participants and parents will be treated with respect at all times.

D. Camp staff will take it upon themselves to resolve complaints. Do not refer customer to another staff person. If you are unable to resolve the complaint on the spot, take the customer's name and phone number, investigate complaint resolution and then follow up with the customer. A Customer Comment Form should be filled out whenever a complaint or compliment is received.

E. Camp staff will keep parents continuously informed of camp activities. A daily schedule of activities will be available and kept with the sign in log.

F. Camp staff will note details of behavior of campers (accomplishments, discipline problems, general activities, etc.) and update parents as much as possible.

G. Camp staff will monitor the sign in/out log at all times.

H. Camp staffs will clean rooms and activity areas daily.

I. Camp staff will spend 100% of their time actively involved with campers and/or parents.

V. OPERATIONS

A. Emergency Phone numbers are kept at each program location. Those numbers include fire, police, poison control and ambulance services as well as participant guardian contact numbers.

B. All staff will stay in contact at all times with the Recreation Coordinator and other camp staff through wireless, 2-way radios and cell phones.

C. A Day Camp Manual is given to every staff member, which outlines the following:

1. Conflict resolution and disciplinary procedures
2. City Rules and Regulations
3. Inclement weather guidelines
4. Forms that must be filled out
5. Service Standards
6. Game/activity leadership
7. Ways to interact with children

D. Sign-in/out sheets will be used daily. Only adults listed on sign-in/out release will be allowed to pick up children. An authorized person must enter the building and sign the sheet in order for staff to release the child.

E. Emergency evacuation and relocation plans will be posted at each facility.

F. Enrollment information will be kept and maintained on each child and shall include:
1. Child's name, birth date, home address, home telephone number, physician's phone number and address and phone numbers where parents may be reached during the day.
2. Names, driver's license number and telephone numbers of persons to whom the child can be released.

3. Liability waiver and photo release.
4. Parental consent to administer medication, medical information and release on participant.

G. Staff shall immediately notify the parent or other person authorized by the parent when the child is injured or has been involved in any situation that placed the child at risk.

H. Staff shall notify parents or authorized persons of children in the facility when there is an outbreak of a communicable disease in the facility that is required to be reported to the County Department of Health. Parents will also be notified of an occurrence of head lice.

I. Discipline:

1. Discipline and guidance of children must be consistent and based on an understanding of individual needs and development.

2. There shall be no harsh, cruel, or unusual treatment.
   a. Corporal punishment in any form will not be tolerated.
   b. Children shall not be shaken, bit, hit, or have anything put in or on their mouth as punishment.
   c. Children shall not be humiliated, yelled at or rejected.
   d. Children shall not be subjected to abusive or profane language.
   e. Punishment shall not be associated with food.
   f. Staff may use brief, supervised separation from the group if necessary, but staff shall not place children in a locked room or in a dark room with the door closed.
3. Incident reports will be filled out on any disciplinary cases, and information is to be shared with parents when picking up the child or sooner, when extreme cases occur.
4. Children who show patterns of repeated program distractions or endangerment to themselves, other participants or staff may be asked to leave the program.

J. Illness or Injury
1. Parents shall be notified in cases of illness or injury.
2. An ill child will not be allowed to participate if the child is suspected of having a temperature and/or accompanied by behavior changes or other signs or symptoms until medical evaluation indicates that the child can be included in the activities. In the event an injury cannot be administered through basic first aid, staff will call 911.
3. When an injury occurs, an incident report shall be filled out immediately. The form shall be filled out completely with the original sent to the Programs Supervisor and forwarded to the Recreation Manager and a copy kept in the Day Camp files.

VI. CAMP PARTICIPANT CODE OF CONDUCT

The rules of camp are designed to help create a positive and safe environment for both campers and staff. The rules are presented to campers in a positive way and focus on what campers should do rather than what they should not do. Camp rules are used to help teach our campers to make good, positive choices.

1. Be Respectful

2. Be a Good Friend
3. Be Polite
4. Be a Good Listener
5. Be Kind
6. Be a Good Follower of Directions
7. Be Helpful
8. Be Responsible

Passive and active camp activities are planned according to the participants' ages, interests and abilities. The activities should be flexible and promote social and educational advancement.

VII. ADA COMPLIANCE AND ACCESSIBILITY POLICY

The City of Rockwall facilities are wheelchair accessible and accessible parking spaces are available. For additional requests for accommodations, questions, concerns or complaints, contact the Parks and Recreation administration at 972-771-7761.

VIII. MONITORING AND ENFORCEMENT

Standards of care established by the City of City of Rockwall will be monitored and enforced by city departments responsible for their respective areas as identified:

A. Health and safety standards will be monitored and enforced by the City's Police, Fire, Health and Code Enforcement Departments.

B. Staff and program issues will be monitored and enforced by the City of Rockwall Parks and Recreation Department. The Recreation Superintendent shall visit each site on a bi-monthly basis. Programs Supervisors are responsible for visually checking the camp activities on a daily basis. When staff is not available, another full-time staff person is responsible for the daily check.

CITY OF ROCKWALL
CITY COUNCIL MEMO

AGENDA DATE: 02/19/2018

APPLICANT: Larae Tucker; *Verdad Real Estate*

AGENDA ITEM: **SP2018-001**; *Site Plan for 7-Eleven*

SUMMARY:

Discuss and consider a request by Larae Tucker of Verdad Real Estate for the approval of a site plan with variances for a retail store with gasoline sales on a 1.67-acre tract of land identified as Tract 11-1 of the W. B. Bowles Survey, Abstract No. 12, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 48 (PD-48) for General Retail (GR) District land uses, situated within the SH-66 Overlay (SH-66 OV) District, situatued west of the intersection of W. Rusk Street [SH-66] and N. Lakeshore Drive, and take any action necessary.

PURPOSE AND BACKGROUND:

On June 7, 1999, the City Council adopted Ordinance No. 99-21, which established the development requirements for Planned Development District 48 (PD-48), which allows a *retail store with gasoline sales* by-right. The applicant is requesting approval of a site plan for a gas station [*i.e. 7-Eleven*]. The proposed gas station is ~3,100 SF and situated on a 1.67-acre tract of land [*i.e. Tract 11-1 of the W. B. Bowles Survey, Abstract No. 12*], is zoned Planned Development District 48 (PD-48) for General Retail (GR) District land uses, and is located west of the intersection of W. Rusk Street [SH-66] and N. Lakeshore Drive.

DENSITY AND DIMENSIONAL REQUIREMENTS:

According to Section 1, *Land Use Schedule,* of Article IV, *Permissible Uses*, of the Unified Development Code (UDC), the proposed use *(i.e. a retail store with gasoline sales*) is permitted by-right in Planned Development District 48 (PD-48) with site plan approval by the City Council. The submitted site plan, landscape plan, photometric plan, and building elevations conform to the technical requirements contained within the UDC. A summary of the density and dimensional requirements of the subject property are as follows:

Ordinance Provisions	*Zoning District Standards*	*Conformance to the Standards*
Minimum Lot Area	*6,000 SF*	*X=28,562 SF; In Conformance*
Minimum Lot frontage	*60-Feet*	*X=~140-190-Feet; In Conformance*
Minimum Lot Depth	*100-Feet*	*X=~170-190-Feet; In Conformance*
Minimum Front Yard Setback	*15-Feet*	*X=~15-Feet; In Conformance*
Minimum Rear Yard Setback	*20-Feet*	*X=~20-Feet; In Conformance*
Minimum Side Yard Setback	*10-Feet*	*X=~10-Feet; In Conformance*
Maximum Building Height	*60-Feet*[1]	*X=~19-Feet; In Conformance*
Max Building/Lot Coverage	*40%*	*X=~12%; In Conformance*
Minimum Masonry Requirement	*90%*	*X= 100%; In Conformance*
Minimum Number of Parking Spaces	*15*	*15 Provided; In Conformance*
Minimum Stone Requirement (IH-30 OV)	*20% ea facade*	*X=40-87%-In Conformance*
Minimum Landscaping Percentage	*15%*	*X=~41%; In Conformance*
Maximum Impervious Coverage	*85-90%*	*X=80%; In Conformance*

NOTES: 1. Any structure over 36-feet shall require a Specific Use Permit (SUP).

According to the submitted site plan, the gas station will have six (6) pump islands [*i.e. 12 dispensers*]. According to the Planned Development District 48 (PD-48) development

standards, the development is required to have an eight (8)-foot masonry wall adjacent to the north property line [*i.e. adjacent to North Shore Estates*], and the gas station is restricted from having a car wash. Although Planned Development District 48 (PD-48) requires the roof of the gas station to be designed and constructed in residential character consisting of composition shingles, the Architectural Review Board (ARB) reviewed the proposed building elevations and determined that a flat roof design would be more consistent with the neighboring commercial developments. This will require approval of a variance from the City Council. Planned Development District 48 (PD-48) requires an architectural entryway monument sign on the subject property. At the time this memo was drafted, the applicant had submitted a concept plan for the entryway monument sign that will need to be reviewed and approved by the Architectural Review Board (ARB) prior to the adoption of this site plan. This has been added as a condition of approval for this site plan. Finally, Planned Development District 48 (PD-48) requires the City Council to approve the technical requirements of the site plan, building layout and elevations, building materials and the landscape plan.

VARIANCES:

Based on the applicant's submittal, staff has identified the following variances:

A) *Four (4) Sided Architecture:* According to Section 6.9, *SH-66 Overlay (SH-66 OV) District*, of Article V, *District Development Standards*, of the Unified Development Code (UDC), commercial buildings shall be architecturally finished on all four (4) sides (i.e. incorporating the same materials detailing, and features). Included in the four (4) sided architecture requirements are the following:

   a. *Vertical articulation.* According to Section 4.1, *General Commercial District Standards*, of Article V, *District Development Standards,* of the Unified Development Code (UDC) no horizontal wall shall extend for a distance greater than three (3) times the height of the wall without changing height by a minimum of 25 % of the wall's height. In this case, the change in height would be ~five (5)-feet. Although the front and rear building elevations do not meet this requirement, the applicant is proposing a change in height of two (2)-feet. In addition, the building facades incorporate additional features that provides articulation.

   b. *Horizontal Articulation.* According to Section 4.1, *General Commercial District Standards*, of Article V, *District Development Standards,* of the Unified Development Code (UDC) no vertical wall shall extend for a distance greater than three (3) times the wall's height without having an offset of 25% of the wall's height and that new plane shall extend for a distance of at least 25% of the length of the first plan. In this case, the offset would be 5-feet and extend ~1'2". Although the front and rear building elevations do not meet this requirement, the applicant is proposing a 2-foot offset that extends 40'9" on the front of the building to provide articulation. The rear building elevation will not have any offsets.

B) *SH-66 Overlay (SH-66 OV) District Standards.*

   a. *Pitched Roof*. According to Subsection 6.9, *SH-66 Overlay (SH-66 OV) District*, of Section 6, *Overlay Districts*, of Article V, *District Development Standards*, of the Unified Development Code (UDC), all structures having a footprint of 6,000 SF or less shall be constructed with a pitched roof system. Additionally Planned Development 48 (PD-48) Development stands state that and proposed gas station must have a roof constructed of residential scale and composed of composition shingles. In this case, the applicant is

requesting a variance to the pitched roof requirement as stipulated in the Unified Development Code (UDC) and Planned Development District 48 (PD-48) in order to utilize a flat roof design.

All variances will require a ***¾ majority*** vote of the City Council members present to be approved.

ARCHITECTURAL REVIEW BOARD

On January 30, 2018, the Architectural Review Board (ARB) reviewed the submitted building elevations and made recommendation to utilize a flat roof design rather than the proposed pitched roof. On February 13, 2018, the ARB reviewed revised building elevations and the proposed entryway monument sign. After review, the ARB and made motion to recommend approval of the building elevations with the requested variances, and the condition that the developer make revisions to the monument sign and resubmit for ARB review and approval at the meeting on March 13, 2018.

RECOMMENDATIONS:

If the City Council chooses to approve the applicant's request then staff would recommend the following conditions of approval:

1) All comments provided by the Planning, Engineering and Fire Department must be addressed prior to the submittal of a building permit.

2) The developer is to construct an eight (8)-foot masonry wall adjacent to the north property line [*i.e. adjacent to North Shores Estates*].

3) The developer is to incorporate an architectural entryway monument sign to be approved by the Architectural Review Board (ARB).

4) The gas station shall have no more than six (6) pump islands [*i.e. 12 dispensers*].

5) The entryway signage is to be placed in a maintenance easement to be dedicated to the City at time of final plat.

6) Any construction or building necessary to complete this *Site Plan* request must conform to the requirements set forth by the UDC, Planned Development District 48 (PD-48), the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

PLANNING AND ZONING COMMISSION:

On February 13, 2018, the Planning and Zoning Commission's motion to recommend approval of the site plan and variances with staff recommendations passed by a vote of 4-1 with Commissioner Logan dissenting.

current powered by GE

Calculated light levels are based on specific information that has been supplied to GE. Any differences in luminaire installation, lighted area geometry and obstructions in the lighted area may produce different results from the predicted values. Normal tolerances of voltage, lamp output, and ballast and luminaire manufacture will affect results.

Section 3.3: Light at residential property line. The allowable maximum light intensity measured at the property line of a residentially zoned lot shall be 0.2 of one footcandle. Light at nonresidential property line. The allowable maximum light intensity measured at the property line of any nonresidentially zoned lot shall be 0.2 of one footcandle. For planned shopping centers or other commercial developments that contain more than one lot, the planning and zoning commission may consider lighting plans that are intended to increase lighting efficiency and reduce the number of overall light fixtures, but result in light spillover across common lot lines within the same development. However, in no case shall light levels exceed 0.2 FC at the property lines adjacent to the street and/or along the perimeter of the development.

Due to this ordinance, this design does not meet 7-Eleven spec.

Batten LED Luminaire

Utility Lighting and More.

New **Batten LED Luminaire** gives you more performance in tight, demanding situations where cold and damp conditions along with the outdoor elements come into play. It brings the money-saving benefits of GE LED technology to ATMs, awnings, drive-thru areas... places where dependable utilitarian light is required.

More Lighting Performance

- Maximizes coverage through wide, uniform Lambertian light distribution
- Extruded plastic design protects against moisture, dust and damage
- No decrease of light output in cold settings—as can happen with fluorescent
- Can be used in -40ºC to 60ºC (-40ºF to 140ºF)
- Lumen Output: 400 lumens/foot
- 50,000-hour rated life
- Color Temperatures: 7100K, 5000K, 4000K, 3000K
- Sizes: 2ft, 4ft, 8ft

More Savings on Installation and Operation

- Installation is fast and easy with mounting clips
- Integrated power supply eliminates separate drivers
- Easily daisy chain (jumper wire & end-to-end) up to 40 feet of product
- Energy Consumption: 4.5 System watts/ft
- Input Voltage: 90-277 VAC
- Damp Rated
- IP66 Tested
- For use in damp applications

Applications:

- LED Luminaire Fixture
- Awnings
- ATMs
- Drive-thrus

Batten LED Luminaire comes in 3 sizes 2ft, 4ft & 8ft

Evolve™ LED Area Light

Scalable Area Light (EASC)

current
powered by GE

457

Product Features

The next evolution of the GE Evolve™ EASC LED Area Light continues to deliver outstanding features, while adding greater lumen output, flexibility and style. This latest design focuses on high lumen output and provides photometric combinations with high efficacy, providing the ability to serve demanding area applications where pole spacing is wide and illuminance requirements are high. The EASC Evolve Luminaire comes with a specially designed auto dealership optic for exceptional illuminance on the dealership's front row, while providing an impressive high lumen output. Optional programmable motion sensing for Title 24 compliance is available.

Applications

- Site, area, roadway and general lighting applications utilizing advanced LED optical system providing high uniformity, excellent vertical light distribution, reduced offsite visibility, reduced on-site glare and effective security light levels.
- Ideal for large retailers, commercial to medical properties, and big box retailers. Also suitable for roadways.

Housing

- Die-cast aluminum housing.
- Slim architectural design incorporates an integral heat sink and light engine, ensuring maximum heat transfer, long LED life, and a reduced Effective Projected Area (EPA).
- Meets 3G vibration standards per ANSI C136.31-2010 for Slipfitter and Mounting Arm configurations. Meets 1.5G vibration standards for Knuckle Slipfitter Mounting.

LED & Optical Assembly

- Structured LED arrays for optimized area light photometric distribution.
- Evolve light engine with directional reflectors designed to optimize application efficiency and minimize glare.
- Utilizes high brightness LEDs, 70 CRI at 3000K, 4000K and 5000K typical.

Lumen Maintenance

- Projected L90>50,000 hours per IES TM-21 L5, L4, L3, L2, LA ,V5, M5, M4, M3, M2, MA ,W5
- Projected L90>100,000 hours per IES TM-21 Y5, Y4, Y3, Y2, YA & Z5
- Projected Lxx per IES TM-21 at 25°C for reference:

Optical Codes	Lxx (18k) @ Hours*		
	25,000 hr	50,000 hr	100,000 hr
L5, L4, L3, L2, LA & V5 M5, M4, M3, M2, MA, W5	L94	L90	L82

Optical Codes	Lxx (6k) @ Hours**		
	25,000 hr	50,000 hr	100,000 hr
Y5, Y4, Y3, Y2, YA & Z5	L96	L94	L90

Note: *Projected Lxx based on LM80 (18,000 hour testing). **Projected Lxx based on LM80 (6,000 hour testing).
DOE Lighting Facts Verification Testing Tolerances apply to initial luminous flux and lumen maintenance measurements.

Lumen Ambient Temperature Factors:

Ambient Temperature: (°C)	Initial Flux Factor
10	1.02
20	1.01
25	1.00
30	0.99
35	0.98

Ratings

- UL listed, suitable for wet locations.
- cUL listed with option code "J" SKUs.
- IP65 rated optical enclosure per ANSI C136.25-2009.
- Temperature rated at –40° to 35°C
- Upward Light Output Ratio (ULOR) = 0.
- Title 24 compliant with "H" motion sensor option.
- Compliant with the material restriction of RoHS.
- DLC Premium qualified models available. Please refer to http://www.designlights.org/QPL for complete information.

Mounting

- **Option A** -10-inch (254mm) mounting arm for square pole prewired with 24-inch (610mm) leads.
- **Option B** -10-inch (254mm) mounting arm for round pole prewired with 24-inch (610mm) leads.
- **Option C** -Slipfitter mounting for 2 3/8-inch (60mm) O.D. pipe prewired with 24-inch (610mm) leads.
- **Option D** -10-inch (254mm) mounting arm for round or square pole prewired with 24-inch (610mm) leads.
- **Option S** -Knuckle Slipfitter mounting for 2.3-3" O.D. pipe, pre-wired with 24-inch (610mm) leads.

Finish

- Corrosion resistant polyester powder painted, minimum 2.0 mil. thickness.
- Standard colors: Black & Dark Bronze.
- RAL & custom colors available.

Electrical

- 120-277 VAC and 347-480 VAC available.
- System power factor is >90% and THD <20%.
- ANSI C136.41 7-pin dimming receptacle, standard.
- ANSI photo electric sensors (PE) available for all voltages. Light Grid compatible.
- Dimming/Occupancy:
  - Wired 0-10V continuous dimming
  - DALI digital dimming. Contact manufacturer for availability.
  - Standalone motion sensor based dimming using "H" option code.
- Surge Protection per ANSI C136.2-2015.
  - 6kV/3kA "Basic" surge protection, standard.
  - 10kV/5kA "Enhanced" surge protection optional.

Accessories

- Photoelectric Controls (see page 3).

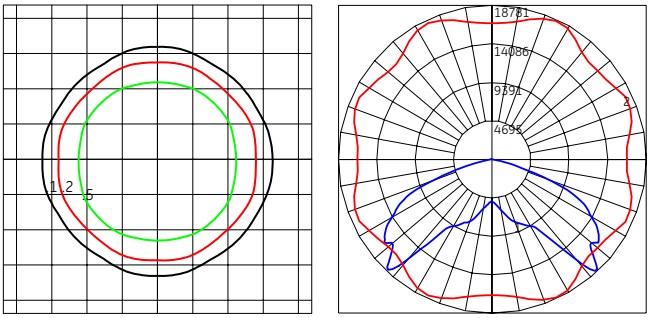
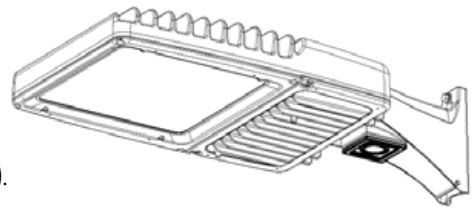
EASC Type VS – Symmetric Short (Z5)
56,500 Lumens, 5000K (EASC_Z5FX50_____.IES)



Grid Distance in Units of Mounting Height at 40' Initial Footcandle Values at Grade

Vertical plane through horizontal angle of maximum candlepower at 65°
Vertical plane through horizontal angle of 44°

H-Motion Sensing Option:



- Intended for high mounting applications, between 15-30ft (4.57-9.14m). For mounting heights exceeding 30ft, pole mounted sensors are recommended.
- Provides a coverage area radius for walking motion of 15-20ft (4.57-6.10m).
- Provides 270° of coverage (~90° is blocked by the pole).
- Comes standard with 50% dimmed light output with no occupancy, and full power at occupancy.
- Comes standard with photocell function. Note: It is not necessary to also purchase PE receptacle or control.
- Comes standard with a 5 minute occupancy time delay and a 5 minute ramp-down to the 50% dimmed level.
- Must order with decorative mounting arm options "A" or "B".
- Fixture power increase of 1W expected with sensor use.

Note: Standard options may be reprogrammed in the field. Reprogramming instructions included in product shipment.

Sensor Pattern:

Sensing Pattern Area Fixture
Up to 30 ft.

Evolve™ LED Area Lighting

Canopy Light (ECB)

imagination at work

465

Product Features

The GE Evolve™ LED Canopy Light family provides an energy-efficient and robust means for lighting areas with canopies, such as gas stations, truck stops and drive-thrus at banks, pharmacies and restaurants. Offering easy installation and maintenance, along with various lumen levels at both 4000K and 5000K color temperatures, this canopy light provides a great LED lighting solution for their outdoor space.

Housing

- Die -cast aluminum housing.
- Integral heat sink for maximum heat transfer.
- Meets 1.5G vibration standards per ANSI C136.31-2010.

LED & Optical Assembly

- Structured LED array for optimized area lighting photometric distributions.
- Evolve™ light engine consisting of reflective technology designed to optimize application efficiency and minimize glare.
- Utilizes high brightness LEDs, 70 CRI at 4000K and 5000K color temperature.
- Drop Lens distribution added for unique applications requiring high angled light and increased visibility to the light source.
- LM-79 tests and reports are performed in accordance with IESNA standards.

Lumen Maintenance

ECBB SKU	Lxx@50Khrs
A5	L90
B5	L90
C5	L85

- Per TM-21 calculator.
- L70 > 100,000 hrs for all power levels.
- Mounted to Sheet Metal per typical canopy install.
- Ambient Operating condition 25°C.

Ratings

- Ⓤ/ⓒⓊ Listed, suitable for wet locations per UL 1598.
- IP66 rated optical enclosure per ANSI C136.25-2009.
- Temperature rated at -40°C to 50°C (C5 SKUs: -40°C to 40°C).
- Upward Light Output Ratio (ULOR) = 0.
- Compliant with the material restriction requirements of RoHS.

Finish

- Corrosion resistant polyester powder paint.
- Standard colors: White, Dark Bronze and Black.

Electrical

- 120-277 volt and 347-480 volt (B5 and C5 optical only), 50/60Hz.
- System power factor is >90% and THD<20%.
- Class "A" Sound rating.
- EMI: Title 47 CFR 15 Class A.
- Motion sensor and integral photo electric sensor available.
- Surge Protection Options: For 120-277VAC and 347-480VAC per IEEE/ANSI C136.2-2015.
  - 6kV/3kA "Basic" standard.
  - 10kV/5kA "Enhanced" R option.

Warranty

- Limited 5-Year Warranty for product launch standard.

Accessories

- Refer to ECB accessories datasheet for more information.
- 24" Escutcheon Plate.
- 32" Escutcheon Plate.
- Shoebox Mounting.

OPTIONS

CL	Cold Location Operation

Also available in black or white finishes

PRODUCT FEATURES

- Attractive, architectural styling
- Low profile design - meets ADA requirements
- Die-cast aluminum housing
- Choice of three decorator color finishes
- Self-diagnostic circuitry standard
- Ultra bright white LED lamps provide superior emergency lighting levels
- Polycarbonate lens and mirrored reflector provide even illumination
- Fast, easy wall mount installation
- Provision for back wiring or surface conduit entry
- Universal 120/277VAC input
- Fully automatic charger standard
- Maintenance-free nickel cadmium battery standard
- 90 minutes of emergency illumination
- Momentary test switch and AC ready indicator
- UL924 and UL Wet Location listed
- Suitable for damp and wet location applications
- Meets NFPA Life Safety Code 101, NEC and OSHA
- UL operating range 32°F to 122°F (0°C to 50°C)
- Cold location option allows operation range of -4°F to 122°F (-20°C to 50°C)

SPECIFICATIONS

Construction	Housings and backplates are constructed of rugged die-cast aluminum finished in scuff resistant, textured powder coat paint standard. All housings are sealed and gasketed for damp and wet location applications. Prismatic Lens: Unit lens is constructed of clear, high impact polycarbonate.
Installation	The housing backplate provides knockouts for mounting the unit to wall surfaces and/or standard 31/2'' and 4'' utility boxes. Wiring: Knockouts in the unit backplate allow rear wiring input from utility boxes. An entry point is also provided on the top of the unit housing to allow connection to rigid surface conduit.
Illumination	Emergency illumination is provided by 4.8V, 5W ultra bright white LED Prismatic lenses provide bright, even, glare-free operation in a wide pattern across the path of egress.
Electronics	• Dual input 120/277VAC, 60 Hz • AC-On indicator light and test switch • Automatic, constant current charger • AC Lockout protection • Low voltage battery disconnect • Automatic brownout protection
Power Consumption	Input Power: 10W (maximum charge), 3.5W ready state
Battery	4.8V nickel cadmium sealed maintenance free battery. Optimum operating temperature range: 32°F to 122°F (0°C to 50°C). Provides a minimum of 90 minutes of full output emergency illumination.
Code Compliance	Listed to UL924. Meets NFPA Life Safety Code 101. Complies with NEC and OSHA.
Warranty	Limited 3-year warranty. 5-year nickel cadmium pro-rata battery warranty.

Evolve™ LED Area Light

Scalable Wall Pack (EWS3)

current
powered by GE

469

Product Features

The GE Evolve LED Scalable Wall Pack is optimized for customers looking for an efficient and reliable LED solution to replace 75W - 250W Metal Halide wall mounted, site, area and general lighting applications.

Depending on the application, Evolve™ LED Scalable Wall Pack can yield up to a 75% reduction in system energy consumption compared with standard HID systems. Standard 0-10V dimming and an optional motion sensor with daylight harvesting can provide additional energy savings. The EWS3 offers a typical 105 LPW and is available in key lumen packages and reflective optics to optimize light output for most applications. This reliable system operates well in cold temperatures and offers more than 11 years of service life to reduce maintenance frequency and expense, based on a 50,000 hour rated life and 12 hours of operation per day. Containing no mercury or lead, this environmentally responsible product is RoHS compliant.

Applications

- Wall mounted, site, area and general lighting utilizing an advanced LED optical system providing uniformity, vertical light distribution, reduced offsite visibility, reduced on-site glare and effective security light levels.

Housing

- Die-cast aluminum housing.
- Sleek architectural design incorporating a heat sink directly into the unit ensuring maximum heat transfer and long LED life.
- Meets 1.5 G vibration standards per ANSI C136.31-2010.

LED & Optical Assembly

- Structured LED array for optimized light distribution.
- Evolve™ LED light engine utilizes reflective technology to optimize application efficiency and minimize glare.
- Utilizes high brightness LEDs, 70 CRI at 3000K, 4000K & 5000K typical.
- LM-79 tests and reports are performed in accordance with IESNA standards.

Lumen Maintenance

- Projected L90>47,000 hours per IES TM-21
- Projected Lxx per IES TM-21 at 25°C for reference:

SKU	LXX (10K)@HOURS		
	25,000 HR	50,000 HR	100,000 HR
EWS3	L94	L89	L80

Note: 1) Projected Lxx based on LM80 (10,000 hour testing). 2) DOE Lighting Facts Verification Testing Tolerances apply to initial Luminous flux and lumen maintenance measurements.

Lumen Ambient Temperature Factors:

AMBIENT TEMPERATURE (°C)	INITIAL FLUX FACTOR
10	1.02
20	1.01
25	1.00
30	0.99
40	0.98
50	0.97

Ratings

- UL listed, suitable for wet locations.
- cUL listed with option code "J" SKUs.
- IP 65 rated optical enclosure per ANSI C136.25-2013.
- Title 24 compliant with motion sensor option.
- Temperature rated at –40° to 50°C. (35°C for high wattage 90W SKU).
- Upward Light Output Ratio (ULOR) = 0
- Complies with the material restrictions of RoHS.

Mounting

- Flush wall mount to "J" box with inspection hole for IP 65.

Finish

- Corrosion resistant polyester powder paint, minimum 2.0 mil. thickness.
- Standard colors: Black and Dark Bronze.
- RAL & custom colors available.

Electrical

- 120-277 volt and 347-480 volt available.
- System power factor is >90% and THD <20%*.
- Surge protection per ANSI C136.2-2015:
  - Exceeds "Basic" (6kV/3kA) (120 strike)
- EMI: FCC Title 47 CFR Part 15 Class A.
- Motion sensor with dimming capability available with "H" option code.
- Button PE Sensitivity: Fixture on-3.5Fc
  Fixture off-11.8 Fc

** System THD <26% for 347-480v supply with A7 power level.*

Accessories

- Escutcheon Plates - See page 6

Warranty

- 5 Year standard

CITY OF ROCKWALL
CITY COUNCIL MEMO

AGENDA DATE: 02/19/2018

APPLICANT: Matthew Peterson; *D. B. Contractors, Inc.*

AGENDA ITEM: **SP2018-002;** Site Plan for *Interstate Wire Co., Inc*.

SUMMARY:

Discuss and consider a request by Matthew Peterson of D. B. Contractors, Inc. on behalf of Jeff Fleming of J. R. Investments, LLC for the approval of an exception and variances in conjunction with an approved site plan for a manufacturing facility on an 11.155-acre parcel of land identified as a portion of Lot 6 and all of Lot 7, Block D, Rockwall Technology Park Addition, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, located at the southwest corner of the intersection of Innovation Drive and Observation Trail, and take any action necessary.

PURPOSE AND BACKGROUND:

The applicant is requesting approval of variances to the Unified Development Code (UDC) as outlined in this report. The request is in conjunction with an approved site plan and would allow for the construction of an approximately 228,421 SF warehouse/manufacturing/office [*i.e. Interstate Wire Co., Inc*.] facility within the REDC Technology Park. The proposed facility will be situated on an 11.155- acre tract of land identified as a portion of Lot 6 and all of Lot 7, Block D, Rockwall Technology Park Addition. The site is located at the southeast corner of the intersection of Innovation Drive and Observation Trail, north of Discovery Boulevard, and is zoned Light Industrial (LI) District.

DENSITY AND DIMENSIONAL REQUIREMENTS:

According to Section 1, *Land Use Schedule*, of Article IV, *Permissible Uses*, of the Unified Development Code (UDC), a warehouse/manufacturing/office is a permitted *by-right* use in a Light Industrial (LI) District. With the exception of the variances being requested the submitted site plan, landscape plan, treescape plan, photometric plan, and building elevations generally conform to the technical requirements contained within the Unified Development Code (UDC) for properties located within the Light Industrial (LI) District. A summary of the density and dimensional requirements for the subject property are as follows:

Ordinance Provisions	*Zoning District Standards*	*Conformance to the Standards*
Minimum Lot Area	*12,500 SF*	*11.155-Acres; In Conformance*
Minimum Lot Frontage	*100-Feet*	*x>943-Feet; In Conformance*
Minimum Lot Depth	*125-Feet*	*x>519-Feet; In Conformance*
Minimum Front Yard Setback	*25-Feet*	*x>25-Feet; In Conformance*
Minimum Rear Yard Setback	*0-Feet + ½ H* [1]	*x>92-Feet; In Conformance*
Minimum Side Yard Setback	*0-Feet + ½ H* [1]	*x>37-Feet; In Conformance*
Maximum Building Height	*120-Ft* [2]	*39-Feet; In Conformance*
Max Building/Lot Coverage	*60%*	*~46.9%; In Conformance*
Minimum Masonry Requirement	*90%*	*x>90%; In Conformance*
Minimum Number of Parking Spaces	*380*	*183 Provided; Variance*
Minimum Stone Requirement (SH205 OV)	*20% Each Facade*	*X<20%; Variance*

Ordinance Provisions	*Zoning District Standards*	*Conformance to the Standards*
Minimum Landscaping Percentage	*10%*	*x>10%; In Conformance*
Maximum Impervious Coverage	*85-90%*	*x=74.6%; In Conformance*

VARIANCE REQUESTS:

The applicant is requesting variances to the Unified Development Code (UDC) for the sections outlined below. It should be noted that an exception and variance requests require passage by a simple majority vote of those City Council members present to the standards of the UDC. The requests are as follows:

1) Section 5.1.A.1, of Article V, of the UDC requires a minimum of 20% stone on all facades which are visible from a public street or open space. The proposed building elevations do not meet the minimum stone requirement on the south, east and west facades. A variance to this section of the UDC would require approval of a *simple majority* vote of the City Council members present.

2) Section 6.5, Table 3, of Article VI, Parking and Loading Standards of the UDC require a minimum of 1/1,000 SF of warehouse space, 1/500 SF of manufacturing space, and 1/300 SF of office space. Based on the proposed site plan, the development of a 228,421 SF facility [*i.e. warehouse/manufacturing/office facility*] has a minimum parking requirement of 380 parking spaces. Currently, the site plan indicates 183 parking spaces are to be provided; however, the applicant has stated that the facility will use less parking than is required based on the maximum number of employees that will be on site. A variance to the parking requirement requires a *simple majority* vote by the City Council for approval.

3) Section 5.1.A.1, of Article. V, of the UDC requires exterior walls consist of 90% masonry materials on walls which are visible from a public street or open space. Exceptions to this requirement, including allowing for the use of concrete tilt-up walls may be permitted on a case-by-case basis by the City Council upon submission and approval of elevation drawings. The applicant is requesting a variance for the purpose of utilizing concrete tilt-up wall construction for this facility. An exception to allow for the use of tilt-up wall construction requires approval of a *simple majority* vote by the City Council.

4) Sections 5.1.C.a & 5.1.C.b, of Article V, of the UDC requires a buildings design to provide horizontal and vertical articulation on all facades. The applicant is requesting to allow for the building design to not meet the intent of these requirements for the south facing facade. A variance to allow for the building design to not meet the intent horizontal and vertical articulation requires approval of a *simple majority* vote by the City Council.

ARCHITECTURAL REVIEW BOARD RECOMMENDATION:

On January 30, 2018, the Architectural Review Board (ARB) reviewed the proposed building elevations for the site. The ARB had no concerns with the elevations as proposed and made a motion to recommend approval of the elevations, which included the exception and variance requests. The motion passed by a vote of 5 to 0 with Board Members Craddock and Neill absent.

RECOMMENDATIONS:

If the City Council chooses to approve the applicant's request then staff would recommend the following conditions of approval:

1) All technical comments provided by the Planning, Engineering and Fire Department must be addressed prior to the submittal of a building permit;

2) Any construction or building necessary to complete this Site Plan request must conform to the requirements set forth by the UDC, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

PLANNING AND ZONING COMMISSION:

On February 13, 2108, the Planning and Zoning Commission's motion to approve the site plan with staff conditions and Architectural Review Board (ARB) recommendations passed by a vote of 5 to 0 with Commissioners Chodun and Fishman absent. Additionally, the motion included a recommendation of approval of the exception and variances being requested as outlined in staff's report.

CITY OF ROCKWALL
CITY COUNCIL MEMO

AGENDA DATE: 02/19/2018

APPLICANT: Kris Green

AGENDA ITEM: **MIS2018-001**; *Masonry Exception*

SUMMARY:

Discuss and consider a request by Kris Green for the approval of an exception to the minimum masonry requirements stipulated in Section 3.1, *General Residential District Standards*, of Article V, *District Development Standards*, of the Unified Development Code, for a 0.255-acre parcel of land identified as Lot 7, Block A, Eagle Point Estates, City of Rockwall, Rockwall County, Texas, zoned Single-Family 10 (SF-10) District, addressed as 1507 S. Alamo Drive, and take any action necessary.

CHARACTERISTICS OF REQUEST:

The applicant has submitted a request for an exception to the minimum masonry requirements for the purpose of constructing an ~3,100 SF home on the subject property. According to the applicant's letter, the proposed home will be constructed in a modern farmhouse style. The applicant is proposing to utilize 100% fiber-cement [*e.g. Hardie Board*] siding in a vertical *board-and-baton* pattern that will be painted white.

According to Subsection 3.1.A.1, *Exterior Wall Material*s, of Section 3*, Residential Districts*, of Article V, *District Development Standards*, of the Unified Development Code (UDC), all buildings 120 SF or more and over ten (10) feet in height shall have exterior walls constructed of at least 80% masonry materials with no more than 50% being Hardie Board or other similar cementitious material. Buildings not meeting this requirement shall require approval of the Planning and Zoning Commission and City Council. According to Subsection 3.1.A.3*, Exterior Wall Materials*, of Section 3*, Residential Districts*, of Article V*, District Development Standards*, of the Unified Development Code (UDC), exceptions to these requirement may be permitted on a case-by-case basis by the City Council upon submission and approval of elevation drawings of the subject structure and material samples. In this case, the applicant has provided examples of the style of home and siding proposed for the home in the attached packet.

RECOMMENDATIONS:

If the Planning & Zoning Commission and City Council choose to approve the applicant's request staff would recommend the following conditions:

1) Any construction or building allowed by this request must conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

PLANNING AND ZONING COMMISSION:

On January 30, 2018, the Planning and Zoning Commission's motion to recommend approval of the exception to the minimum masonry requirements stipulated in the Unified Development Code (UDC) with staff recommendations passed by a vote of 5-0, with Commissioners Lyons and Welch dissenting.

Rockwall, TX 75087

Dear P&Z Department,

I am in the planning stages of building a home at 1507 South Alamo Rd., Eagle Point Estates Lot 7, block A.

We would like to build a modern 2 story farm house. For the exterior we would like to use the concrete Hardie siding and Hardie board and batten. Our home size will approximately be 3100 a/c square footage.

I have a provided a photo of the home that was the inspiration for our design.

Thanks in advance for allowing us to build our dream home in Rockwall.

CITY OF ROCKWALL
CITY COUNCIL MEMO

AGENDA DATE: 02/19/2018

APPLICANT: Jim Lawson; *Rockwall Independent School District (RISD)*

AGENDA ITEM: **MIS2018-003**; *Masonry Exception for Williams Middle School*

SUMMARY:

Discuss and consider a request by Jim Lawson of the Rockwall Independent School District (RISD) for the approval of an exception to the minimum masonry requirements for the purpose of constructing an accessory building on a 25.569-acre parcel of land identified as Lot 1, Block 1, Rockwall Middle School No. 4 Addition, City of Rockwall, Rockwall County, Texas, zoned Single Family 16 (SF-16), situated within the SH-205 By-Pass Overlay (SH-205 BY OV) District, addressed as 625 FM-552, and take any action necessary.

CHARACTERISTICS OF REQUEST:

Jim Lawson of the Rockwall Independent School District (RISD) has submitted a request for an exception to the minimum masonry requirements for the purpose of constructing an accessory building on the property located at 625 FM-552 (*i.e. Nebbie Willilams Middle School*). According to the applicant's letter, the purpose of the storage building will be to store athletic and track equipment, which is currently being stored underneath the bleachers. The applicant states that these items are currently unsecured and susceptible to weather damage, theft, and vandalism. The proposed accessory building will be a 12' x 20' (*i.e. 240 SF*) pre-fabricated metal building manufactured by Tuff Shed. The building will be placed along the east side of the subject property, adjacent to an existing press box (*see site plan*). This structure will be screened from FM-552 by the school and screened from John King Blvd. by an existing treeline.

Nebbie Williams Middle School being situated in a Single-Family 16 (SF-16) District, but not being a residential building is subject to all the development requirements for a general commercial property as stated in the Unified Development Code (UDC). According to Section 4.1, *General Commercial District Standards*, of Article V, *District Development Standards*, of the UDC, "(e)ach exterior wall shall consist of 90 percent masonry materials … including 20 percent stone." The code goes on to state that the City Council can grant exceptions to this requirement on a case-by-case basis after reviewing the building elevations of the proposed structure. The applicant has submitted building elevations and a site plan for the proposed property that staff has included in the attached packet.

RECOMMENDATIONS:

If the City Council chooses to approve the applicant's request staff would recommend the following conditions:

1) Any construction or building allowed by this request must conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

PLANNING AND ZONING COMMISSION:

On February 13, 2018, the Planning and Zoning Commission's motion to recommend approval of the masonry exception with staff recommendations passed by a vote of 5-0 with Commissioners Fishman and Chodun absent.

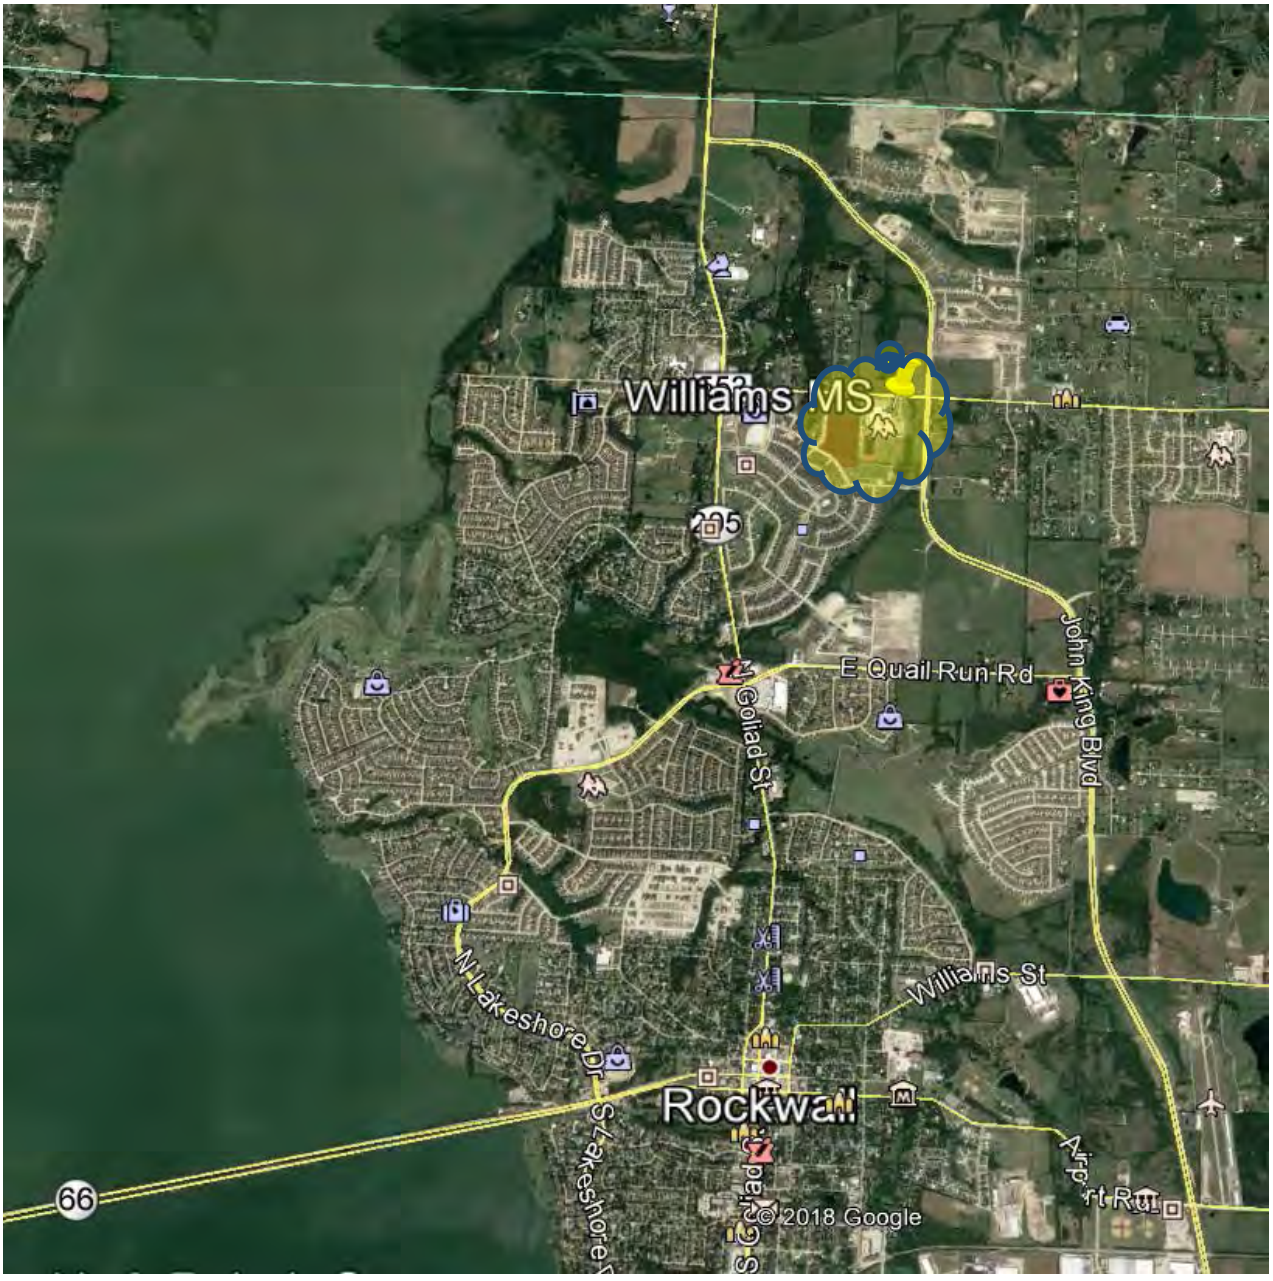
Purpose

The Athletic Department of Rockwall Independent School District proposes to purchase and install a 12' X 20' maufactured storage building at the site of the Williams Middle School football field/track facility to store and protect athletic and track equipment when not in use. Presently these items are stored underneath the bleachers at the site and are susceptible to weather damage, theft and vandalism.

Project Location

Williams Middle School
825 East FM 552, Rockwall TX 75087

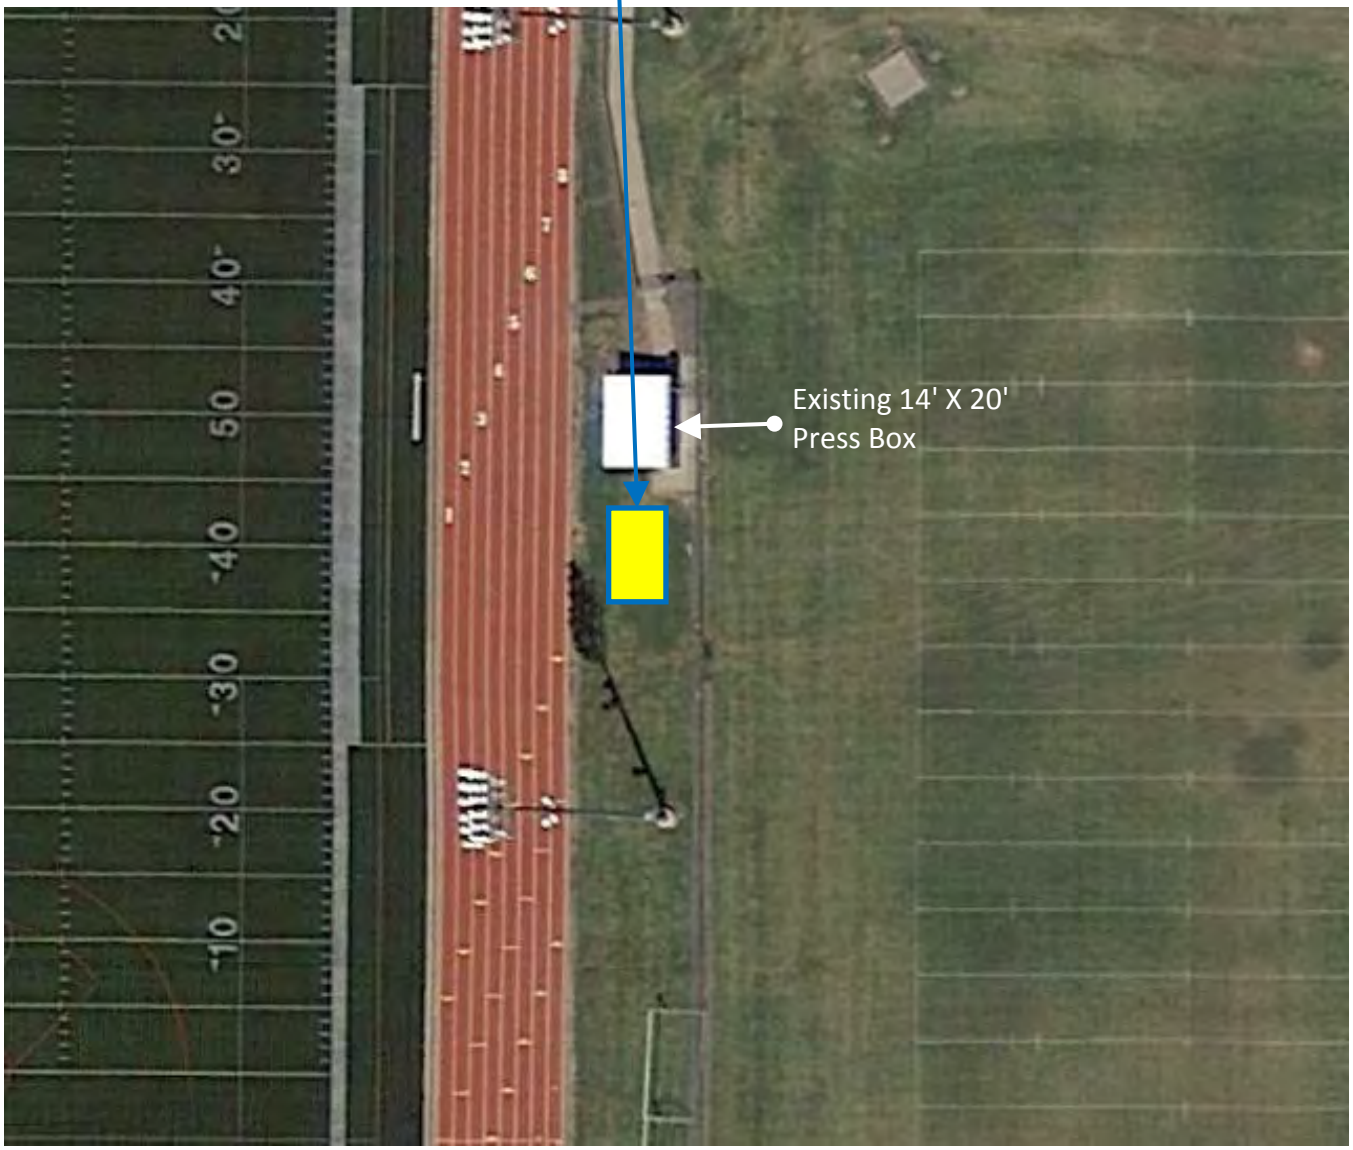


495

Site Plan

Proposed Location

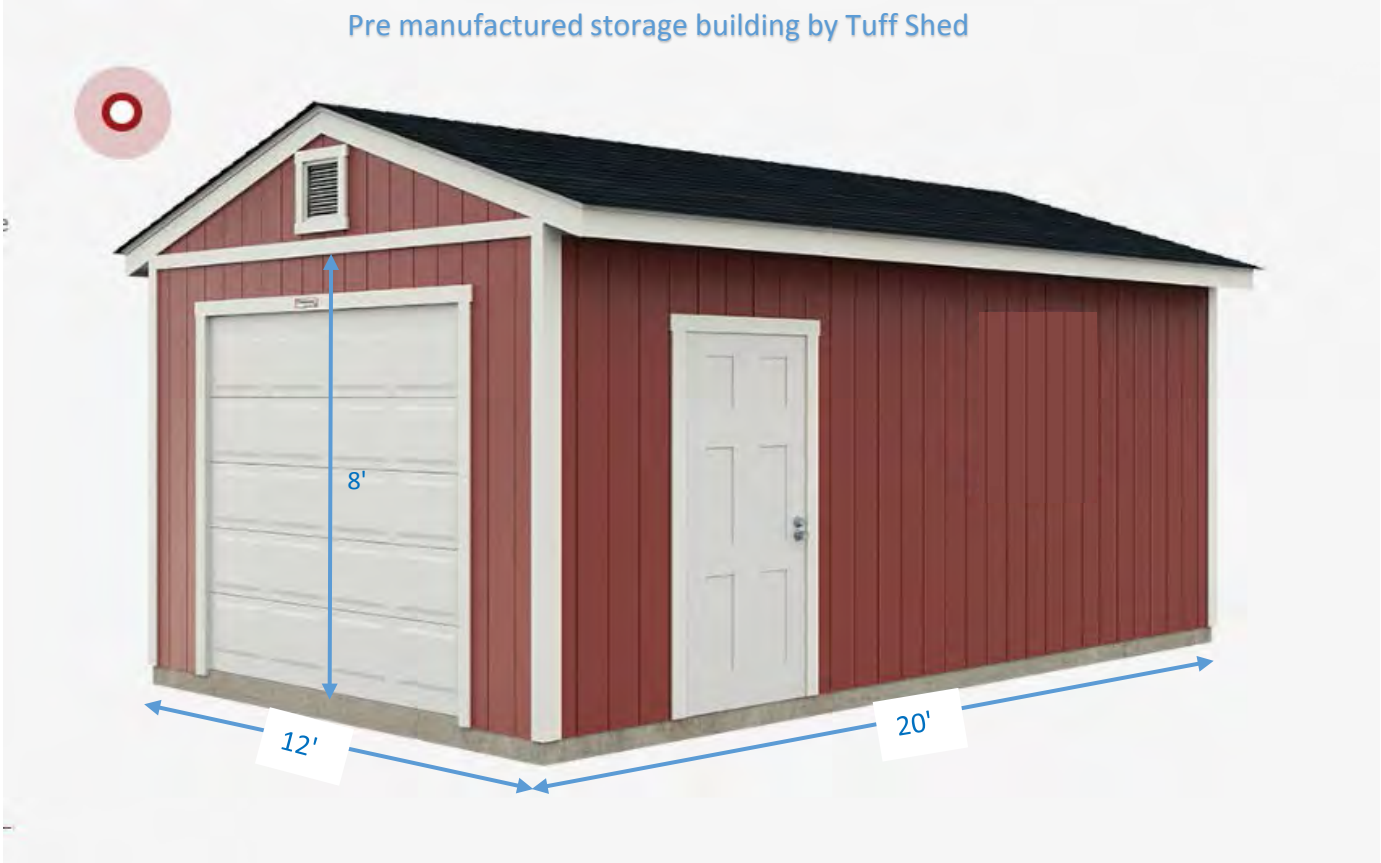
Adjacent to and just south of the existing press box

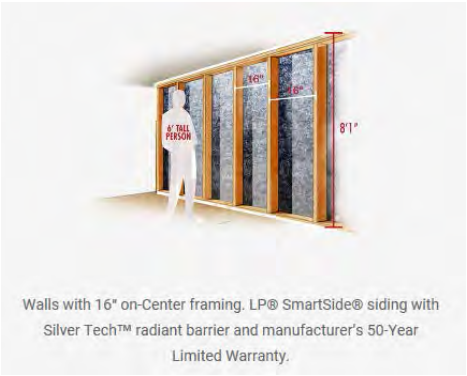


496

Building Type/Specifications

Pre manufactured storage building by Tuff Shed





Walls with 16" on-Center framing. LP® SmartSide® siding with Silver Tech™ radiant barrier and manufacturer's 50-Year Limited Warranty.

25-Year Limited Warranty 3-Tab composition shingles, rated 60 mph, from Owens Corning.

Double top plates on all walls.

The manufacturer offers a framed 16 gauge steel joist and plywood floor system or a concrete slab option. Rockwall ISD will determine the appropriate system based on budget and specific site conditions.

CITY OF ROCKWALL, TEXAS
MEMORANDUM

TO: Mayor and City Council

CC: Rick Crowley, *City Manager*
Brad Griggs, *Assistant City Manager*
Ryan Miller, *Director of Planning and Zoning*

FROM: David Gonzales, *Senior Planner*

DATE: February 19, 2018

SUBJECT: **MIS2018-004**; *Extension of Specific Use Permit No. 161 [Ordinance No. 17-07]*

At the Planning and Zoning Commission meeting on February 13, 2018, the Planning and Zoning Commission reviewed the applicant's request for a one (1) year, one (1) time extension of S-161 [*Ordinance No. 17-07*]. This Specific Use Permit (SUP) allows for a residence hotel on the subject property, which is a three (3)-acre tract of land located at the northeast corner of the intersection of Greencrest Boulevard and the IH-30 Frontage Road. This motion passed by a vote of 5-0 with Commissioners Fishman and Chodun absent. The SUP was originally approved by the City Council on February 6, 2017 [*Case No. Z2016-045*].

On March 20, 2017, the City Council approved a text amendment to Section 4, *Specific Use Permits (SUP)*, of Article IV, *Permissible Uses*, of the Unified Development Code (UDC). The text amendment established requirements and procedures for Specific Use Permits (SUP) to prevent future inactive entitlements from accruing throughout the city once the SUP was approved. This has been accomplished by establishing abandonment, expiration, and revocation procedures of the SUP for certain conditions as outlined in Section 4.4, of Article IV, of the UDC. The text amendment also established the ability of a property owner to request a one (1) time extension of the SUP for a period not to exceed one (1) year.

The applicant, Thomas E. Kirkland of *TEKMAK Development*, is requesting a one (1) time extension of the SUP [*Ord. No. 17-07; SUP No. S-161*], after learning of the impending expiration of his current SUP. Accordingly, *Sec. 4.5*, of *Article IV*, *Permissible Uses*, of the *Unified Development Code* states:

> *Sec. 4.5. - Extension of a specific use permit (SUP).*
>
> *Upon recommendation from the Planning and Zoning Commission, the City Council may grant a one (1) time extension to the expiration requirements stated above for a period not to exceed one (1) year. To apply for an extension a property owner shall file a written request with the Director of Planning or his designee at least ninety (90) days prior to the expiration date. Extension requests shall not require a public hearing. No additional extension shall be granted without complying with the notice and hearing requirements for an initial application for a SUP.*

The applicant has provided a letter of request outlining the purpose for the extension of the SUP. It should be noted that approval of a one (1) time extension of a time period up to one (1) year for a SUP is discretionary upon the City Council. Staff will be available to answer questions at the meeting.

TEKMAK DEVELOPMENT

February 5, 2018

Mr. Ryan C. Miller, AICP

Planning & Zoning Division
City of Rockwall
385 S. Goliad Street
Rockwall, Texas 75087

Re: Ordinance No. 17-07; Special Use Permit No. S-161 ("SUP")

Dear Ryan,

I understand that the above referenced SUP has an expiration date of one (1) year from issuance as the result of an ordinance passed by the City Council following the issuance of our SUP. That being the case, I would request a one-time extension of one (1) year to allow us time to continue the development process for this site. Although I have confidence we will not need the full year, I am requesting that amount of time to cover any unforeseen issues.

Please know that we have been actively working on this development over the past year, including going through the Marriott franchise process which takes time. I am happy to report that the franchise has been approved and that we have paid the $50,000 franchise fee. In addition, we have signed up our architectural design team, including FC Cuny Company, to prepare the necessary civil plans and assist us through the various applications and filings with the City.

At TEKMAK we have a history of developing first rate hotel projects, as I hope you have seen firsthand with our Springhill Suites by Marriott on Lakefront Trail. As a Company we pride ourselves on our attention to detail with custom finishes and features that set apart our developments and make them award winning and successful.

CITY OF ROCKWALL

ORDINANCE NO. 17-07

SPECIFIC USE PERMIT NO. S-161

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE OF THE CITY OF ROCKWALL, TEXAS, AS PREVIOUSLY AMENDED, SO AS TO GRANT A SPECIFIC USE PERMIT (SUP) TO ALLOW FOR A RESIDENCE HOTEL IN A COMMERCIAL (C) DISTRICT WITHIN THE IH-30 OVERLAY (IH-30 OV) DISTRICT, ON A 3.0-ACRE PORTION OF A LARGER 8.613-ACRE TRACT OF LAND BEING IDENTIFIED AS TRACT 4 OF THE J. D. MCFARLAND SURVEY, ABSTRACT NO. 145, AND LOT 1, BLOCK B, GOLDENCREST ADDITION, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE

WHEREAS, the City has received a request from Tom Kirkland of TEKMAK Development on behalf of the owner Randall Noe of Rockwall Rental Properties for the approval of a Specific Use Permit (SUP) to allow for a *Residence Hotel* in a Commercial (C) District on a 3-acre tract of land of a larger 8.613-acre tract of land being described as tract 4 of the J.D. McFarland Survey Abstract No. 145 and Lot 1, Block B, Goldencrest Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the IH-30 Overlay (IH-30 OV) District, which herein after shall be referred to as the *Subject Property* and incorporated reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall, in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall, have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally, and to all persons interested in and situated in the affected area and in the vicinity thereof, the governing body in the exercise of its legislative discretion has concluded that the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall should be amended as follows:

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS;

Section 1. That the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall, as heretofore amended, be and the same is hereby amended so as to grant a Specific Use Permit (SUP) allowing a *residence hotel* within a Commercial (C) District as stipulated by Article IV, *Permissible Uses*, of the Unified Development Code [*Ordinance No. 04-38*] on the *Subject Property*; and

Section 2. That the Specific Use Permit (SUP) shall be subject to the conditions set forth in *Section 4.5, Commercial District; Section 6.6, IH-30 Overlay (IH-30 OV) District of Article V, District Development Standards,* Unified Development Code [*Ordinance No. 04-38*] as heretofore amended and as may be amended in the future, and shall be subject to the additional following additions:

1) The building shall generally conform to the concept plan and building elevations, depicted in *Exhibit 'A'* and *Exhibit 'B'* of this ordinance.

2) The building shall not exceed 60-feet in height;

3) The Specific Use Permit (SUP) is subject to review by the City Council upon change of ownership.

Section 3. That the official zoning map of the City be corrected to reflect the changes in zoning described herein.

Section 4. That all ordinances of the City of Rockwall in conflict with the provisions of this ordinance be, and the same are hereby repealed to the extent of that conflict

Section 5. Any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of TWO THOUSAND DOLLARS ($2,000.00) for each offence and each and every day such offense shall continue shall be deemed to constitute a separate offense.

Section 6. If any section or provision of this ordinance or the application of that section or provision to any person, firm, corporation, situation or circumstance is for any reason judged invalid, the adjudication shall not affect any other section or provision of this ordinance or the application of any other section or provision to any other person, firm, corporation, situation or circumstance, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions of this ordinance shall remain in full force and effect.

Section 7. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides;

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 6TH DAY OF FEBRUARY, 2017.

Jim Pruitt, Mayor

CITY OF ROCKWALL, TEXAS
MEMORANDUM

TO: Mayor and City Council

CC: Rick Crowley, *City Manager*
Brad Griggs, *Assistant City Manager*

FROM: Ryan Miller, *Director of Planning and Zoning*

DATE: February 19, 2018

SUBJECT: *Variance Request for PD-85*

On October 16, 2017, the City Council approved Planned Development District 85 (PD-85) establishing zoning for a 37.932-acre tract of land composed of two (2) separate tracts of land that are situated at the northeast and northwest corners of the intersection of John King Boulevard and SH-66. On the northwest side of the intersection is a 9.894-acre tract of land (*i.e. Tract 1*) and on the northeast side of the intersection is a 28.011-acre tract of land (*i.e. Tract 2*). Upon approval of the zoning *Tract 1* was designated for General Retail (GR) District land uses and *Tract 2* was designated for an age restricted senior living community -- *setup in a condominium regime (i.e. all single family homes will be constructed on a single condominium lot)* -- subject to Single Family 7 (SF-7) District land uses. The proposed age restricted, senior living community was planned to consist of 84-89 single-family homes. On January 16, 2018, the City Council approved a preliminary plat for the condominium lot on *Tract 2*.

On February 6, 2018, the applicant of these cases (*i.e. John Delin of Integrity Groups*) contacted staff to notify them that the title company had missed locating a 30' North Texas Municipal Water District (NTMWD) easement on the survey that runs parallel to SH-66. This easement conflicts with the landscape and hardscape requirements approved with PD-85 [*Section F(2)(a), Exhibit 'C'; Ordinance No. 17-55*], which state, "(a) minimum of a 20-foot landscape buffer shall be provided along the frontage of SH-66 … and shall incorporate ground cover, a *built-up* berm and/or shrubbery or a combination there of … (i)n addition, two (2) canopy trees and four (4) accent trees shall be planted per 100-linear feet." Specifically, the NTMWD has told the applicant that no trees are to be planted within the easement. In addition, PD-85 [*Section E, Exhibit 'C'; Ordinance No. 17-55*] requires that the applicant construct a six (6) foot wrought iron fence with masonry columns a maximum of 45-feet on center. The NTMWD has stated that the masonry columns would not be permitted to be constructed within the easement; however the six (6) wrought iron fence maybe permitted to be constructed within the easement pending approval of the proposed location of the fence by the NTMWD. As of the date of this memorandum, the NTMWD has not granted approval of the fence location. Staff should also note that the easement may reduce the number of units that the applicant can provide on the property.

In response to these developments, the applicant is requesting that the City Council grant variances to the landscape, hardscape and fencing requirements in accordance with the variance procedures outlined in PD-85. These requirements state, "(t)he variance procedures and standards for approval that are set forth in the Unified Development Code [*Ordinance No. 04-38*] shall apply to any application for variances to this ordinance." [*Section N, Exhibit 'C'; Ordinance No. 17-55*] This would translate to the following:

1) *Landscape and Hardscape Requirements*. The landscape and hardscape requirements were inserted into the ordinance in accordance with the SH-66 Overlay (SH-66 OV) District. The variance procedures for this district require that any variance to the overlay district requirements be subject to a three-quarter (¾) majority vote of all City Council members present for approval of the request, with a minimum of four (4) affirmative votes.

2) *Fencing Requirements*. The fencing requirements were inserted in accordance with the typical *Planned Development District* standards contained in Article X, *Planned Development Regulations*, of the Unified Development Code. This section states that all variances shall be subject to the *Criteria for Granting Special Exceptions* contained is Section 8.5 of Article II, *Authority and Administrative Procedures*, of the Unified Development Code. This means that the variance to the fence requirements will require a simple majority vote of all City Council members present.

In lieu of conforming to the landscaping requirements in PD-85, the applicant has submitted an alternative landscape plan showing a three (3) foot berm and increased shrub and ground cover planting. In addition, the applicant has indicated two (2) possible alternatives for the fence location and construction: (1) the fence be located within the easement without the masonry columns (*i.e. not in conformance with PD-85*), and (2) the fence be located outside of the easement with the masonry columns (*i.e. in conformance with PD-85*). The applicant's letter (*contained in the attached packet*) states a preference for *Option 1* due to the separation of the fence from the back of the proposed homes (*see attached alternative landscape plan for a depiction of the two [2] proposed fence locations*).

In evaluating variance requests, the City Council is asked to review the request to establish if there is a unique or extraordinary condition that would constitute a hardship or that would prohibit an applicant from conforming to the requirements of the zoning. In this case, the applicant was not aware of the easement until after the zoning and preliminary plat were approved, and had the intent of complying with the ordinance at the time of adoption. The applicant's situation may constitute a hardship; however, variance requests are discretionary decisions for the City Council pending a recommendation from the Planning and Zoning Commission. On February 13, 2018, the Planning and Zoning Commission reviewed the applicant's request and approved a motion to recommend approval of the variances by a vote of 5-0, with Commissioners Fishman and Chodun absent. Should the City Council have any questions concerning the request the applicant and staff will be available at the February 19, 2018 City Council meeting.

Importance:	High

Ryan,

Last week it was brought to our attention the Title Co in our purchase transaction left off the Easement for North Texas Municipal Water District. This is a 30' easement (see attached before and after surveys) which runs parallel to Hwy 66 from the property line North towards our homes. This is a major miss by the Title Abstract and is causing major issues and also conflicts with the Landscape requirements for Hwy 66.

Also Attached you will find a proposed alternate to the landscape requirement. It features removing the trees and instead berming 3-4' in height, the 30' easement along with the planting of shrubs and other "grass plants" to create what we believe will be a viable alternate. NTMWD will not allow ANY trees in their easement, however they will allow plants. Additionally you will note that the wrought iron fence we proposed with Stone Columns cannot be allowed in the easement. We believe (waiting for their approval) they will allow wrought iron fence without stone columns. So we are proposing 2 fence items. The first and best choice would be to allow the fence without columns in the easement. The 2nd and worse choice would be to move the fence to the North Easement line with Stone Columns. We believe this would be visually VERY unappealing due to the fences proximity to the homes.

Thank you for getting these on the calendars for P&Z and Council that we discussed and let me know if you need any additional information.

Best,

John Delin

City of Rockwall
The New Horizon

MEMORANDUM

TO: **Rick Crowley, City Manager**

FROM: **Amy Williams, P.E., Director of Public Works/City Engineer**

DATE: **January 29, 2018**

SUBJECT: **Municipal Separate Storm Sewer System Permit**
Storm Water Management Ordinance

All cities in the State of Texas are required to obtain a storm water pollution permit through the Texas Commission of Environmental Qualities (TCEQ). The purpose of the permit is to reduce pollutants in our storm water caused by construction activities, dumping chemicals/other hazard waste materials in our storm sewer systems and many other man-made causes. A Phase Two Municipal Separate Storm Sewer System (MS4) Permit was originally issued to the City of Rockwall on August 13, 2007 and recently renewed on December 13, 2013. As a requirement of the permit, five municipal programs must be addressed. Those five programs included (1) Public Education, Outreach and Public Involvement, (2) Illicit Discharge Detection and Elimination, (3) Construction Site Storm Water Run-off Control, (4) Post-Construction Storm Water Management in New Developments and/or Re-Developments and (5) Pollution Prevention and Good Housekeeping for Municipal Operations. These five areas are explained a little more in detail in the attached document.

Per the City of Rockwall MS4 Permit, the City shall adopt a Storm Water Management Ordinance to address compliance to the five programs within the permit before the end of the 2018 permit year. A draft Storm Water Ordinance is attached for management and council review. Staff requests City Council consider adoption of the Storm Water Management Ordinance and take any action necessary.

CITY OF ROCKWALL

ORDINANCE NO. 18-10

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE CODE OF ORDINANCES IN CHAPTER 44. UTILITIES BY CREATING A NEW ARTICLE - ARTICLE VI - TO ADOPT STORM WATER MANAGEMENT REGULATIONS; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, all cities in the State of Texas are required to obtain a storm water pollution permit through the Texas Commission of Environmental Qualities (TCEQ) for the purpose of reducing pollutants in our storm water caused by construction activities, dumping chemicals/other hazard waste materials in our storm sewer systems and many other man-made causes; and

WHEREAS, a Phase Two Municipal Separate Storm Sewer System (MS4) Permit was originally issued to the City of Rockwall on August 13, 2007 and subsequently renewed on December 13, 2013; and

WHEREAS, in order to comply with the City of Rockwall MS4 Permit, the City must adopt a Storm Water Management Ordinance to address compliance to the five prescribed programs within the permit before the end of the 2018 permit year.

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:

Section 1. That the Rockwall Code of Ordinances is hereby amended so as to add a new article within Chapter 44. Utilities for the purpose of adopting storm water management regulations for the city, which shall hereby read as follows:

ARTICLE VI. STORM WATER MANAGEMENT

DIVISION 1. - GENERALLY

Sec. 44-439. - Title.

This article shall be known as the "storm water management ordinance" of the City of Rockwall, Texas.

Sec. 44-440. - Purpose.

The purpose and objectives of this article are as follows:

(a) To protect human life, health, and property;

(b) Minimize the expenditure of public funds for building and maintaining flood control and storm drainage projects and cleaning sediment out of storm drains, streets, sidewalks and watercourses;

(c) To preserve the natural beauty and aesthetics of the community;

(d) To maintain and improve the quality of surface water within the City;

(e) To regulate the contribution of pollutants and prohibit illicit connections to the municipal separate storm sewer system (MS4) and natural waters within the City;
