Nationwide Permit 39 - Commercial and Institutional Developments

255

NATIONWIDE PERMIT 39
Commercial and Institutional Developments
Effective Date: March 19, 2017
(NWP Final Notice, 82 FR 4)

39. Commercial and Institutional Developments. Discharges of dredged or fill material into non-tidal waters of the United States for the construction or expansion of commercial and institutional building foundations and building pads and attendant features that are necessary for the use and maintenance of the structures. Attendant features may include, but are not limited to, roads, parking lots, garages, yards, utility lines, storm water management facilities, wastewater treatment facilities, and recreation facilities such as playgrounds and playing fields. Examples of commercial developments include retail stores, industrial facilities, restaurants, business parks, and shopping centers. Examples of institutional developments include schools, fire stations, government office buildings, judicial buildings, public works buildings, libraries, hospitals, and places of worship. The construction of new golf courses and new ski areas is not authorized by this NWP.

The discharge must not cause the loss of greater than 1/2-acre of non-tidal waters of the United States. The discharge must not cause the loss of more than 300 linear feet of stream bed, unless for intermittent and ephemeral stream beds the district engineer waives the 300 linear foot limit by making a written determination concluding that the discharge will result in no more than minimal adverse environmental effects. The loss of stream bed plus any other losses of jurisdictional wetlands and waters caused by the NWP activity cannot exceed 1/2-acre. This NWP does not authorize discharges into non-tidal wetlands adjacent to tidal waters.

Notification: The permittee must submit a pre-construction notification to the district engineer prior to commencing the activity. (See general condition 32.) (Authorities: Sections 10 and 404)

Note: For any activity that involves the construction of a wind energy generating structure, solar tower, or overhead transmission line, a copy of the PCN and NWP verification will be provided to the Department of Defense Siting Clearinghouse, which will evaluate potential effects on military activities.

Nationwide Permit General Conditions

Note: To qualify for NWP authorization, the prospective permittee must comply with the following general conditions, as applicable, in addition to any regional or case-specific conditions imposed by the division engineer or district engineer. Prospective permittees should contact the appropriate Corps district office to determine if regional conditions have been imposed on an NWP. Prospective permittees should also contact the appropriate Corps district office to determine the status of Clean Water Act Section 401 water quality certification and/or Coastal Zone Management Act consistency for an NWP. Every person who may wish to obtain permit authorization under one or more NWPs, or who is currently relying on an existing or prior permit authorization under one or more NWPs, has been and is on notice that all of the provisions of 33 CFR 330.1 through 330.6 apply to every NWP authorization. Note especially 33 CFR 330.5 relating to the modification, suspension, or revocation of any NWP authorization.

1. Navigation. (a) No activity may cause more than a minimal adverse effect on navigation.

(b) Any safety lights and signals prescribed by the U.S. Coast Guard, through regulations or otherwise, must be installed and maintained at the permittee's expense on authorized facilities in navigable waters of the United States.

(c) The permittee understands and agrees that, if future operations by the United States require the removal, relocation, or other alteration, of the structure or work herein authorized, or if, in the opinion of the Secretary of the Army or his authorized representative, said structure or work shall cause unreasonable obstruction to the free navigation of the navigable waters, the permittee will be required, upon due notice from the Corps of Engineers, to remove, relocate, or alter the structural work or obstructions caused thereby, without expense to the United States. No claim shall be made against the United States on account of any such removal or alteration.

2. Aquatic Life Movements. No activity may substantially disrupt the necessary life cycle movements of those species of aquatic life indigenous to the waterbody, including those species that normally migrate through the area, unless the activity's primary purpose is to impound water. All permanent and temporary crossings of waterbodies shall be suitably culverted, bridged, or otherwise designed and constructed to maintain low flows to sustain the movement of those aquatic species. If a bottomless culvert cannot be used, then the crossing should be designed and constructed to minimize adverse effects to aquatic life movements.

3. Spawning Areas. Activities in spawning areas during spawning seasons must be avoided to the maximum extent practicable. Activities that result in the physical destruction (e.g., through excavation, fill, or downstream smothering by substantial turbidity) of an important spawning area are not authorized.

4. Migratory Bird Breeding Areas. Activities in waters of the United States that serve as breeding areas for migratory birds must be avoided to the maximum extent practicable.

5. Shellfish Beds. No activity may occur in areas of concentrated shellfish populations, unless the activity is directly related to a shellfish harvesting activity authorized by NWPs 4 and 48, or is a shellfish seeding or habitat restoration activity authorized by NWP 27.

6. Suitable Material. No activity may use unsuitable material (e.g., trash, debris, car bodies, asphalt, etc.). Material used for construction or discharged must be free from toxic pollutants in toxic amounts (see section 307 of the Clean Water Act).

7. Water Supply Intakes. No activity may occur in the proximity of a public water supply intake, except where the activity is for the repair or improvement of public water supply intake structures or adjacent bank stabilization.

8. Adverse Effects From Impoundments. If the activity creates an impoundment of water, adverse effects to the aquatic system due to accelerating the passage of water, and/or restricting its flow must be minimized to the maximum extent practicable.

9. Management of Water Flows. To the maximum extent practicable, the pre-construction course, condition, capacity, and location of open waters must be maintained for each activity, including stream channelization, storm water management activities, and temporary and permanent road crossings, except as provided below. The activity must be constructed to withstand expected high flows. The activity must not restrict or impede the passage of normal or high flows, unless the primary purpose of the activity is to impound water or manage high flows. The activity may alter

the pre-construction course, condition, capacity, and location of open waters if it benefits the aquatic environment (e.g., stream restoration or relocation activities).

10. Fills Within 100-Year Floodplains. The activity must comply with applicable FEMA-approved state or local floodplain management requirements.

11. Equipment. Heavy equipment working in wetlands or mudflats must be placed on mats, or other measures must be taken to minimize soil disturbance.

12. Soil Erosion and Sediment Controls. Appropriate soil erosion and sediment controls must be used and maintained in effective operating condition during construction, and all exposed soil and other fills, as well as any work below the ordinary high water mark or high tide line, must be permanently stabilized at the earliest practicable date. Permittees are encouraged to perform work within waters of the United States during periods of low-flow or no-flow, or during low tides.

13. Removal of Temporary Fills. Temporary fills must be removed in their entirety and the affected areas returned to pre-construction elevations. The affected areas must be revegetated, as appropriate.

14. Proper Maintenance. Any authorized structure or fill shall be properly maintained, including maintenance to ensure public safety and compliance with applicable NWP general conditions, as well as any activity-specific conditions added by the district engineer to an NWP authorization.

15. Single and Complete Project. The activity must be a single and complete project. The same NWP cannot be used more than once for the same single and complete project.

16. Wild and Scenic Rivers. (a) No NWP activity may occur in a component of the National Wild and Scenic River System, or in a river officially designated by Congress as a "study river" for possible inclusion in the system while the river is in an official study status, unless the appropriate Federal agency with direct management responsibility for such river, has determined in writing that the proposed activity will not adversely affect the Wild and Scenic River designation or study status.

(b) If a proposed NWP activity will occur in a component of the National Wild and Scenic River System, or in a river officially designated by Congress as a "study river" for possible inclusion in the system while the river is in an official study status, the permittee must submit a pre-construction notification (see general condition 32). The district engineer will coordinate the PCN with the Federal agency with direct management responsibility for that river. The permittee shall not begin the NWP activity until notified by the district engineer that the Federal agency with direct management responsibility for that river has determined in writing that the proposed NWP activity will not adversely affect the Wild and Scenic River designation or study status.

(c) Information on Wild and Scenic Rivers may be obtained from the appropriate Federal land management agency responsible for the designated Wild and Scenic River or study river (e.g., National Park Service, U.S. Forest Service, Bureau of Land Management, U.S. Fish and Wildlife Service). Information on these rivers is also available at: http://www.rivers.gov/.

17. Tribal Rights. No NWP activity may cause more than minimal adverse effects on tribal rights (including treaty rights), protected tribal resources, or tribal lands.

18. Endangered Species. (a) No activity is authorized under any NWP which is likely to directly or indirectly jeopardize the continued existence of a threatened or endangered species or a species proposed for such designation, as identified under the Federal Endangered Species Act (ESA), or which will directly or indirectly destroy or adversely modify the critical habitat of such species. No activity is authorized under any NWP which "may affect" a listed species or critical habitat, unless ESA section 7 consultation addressing the effects of the proposed activity has been completed. Direct effects are the immediate effects on listed species and critical habitat caused by the NWP activity. Indirect effects are those effects on listed species and critical habitat that are caused by the NWP activity and are later in time, but still are reasonably certain to occur.

(b) Federal agencies should follow their own procedures for complying with the requirements of the ESA. If pre-construction notification is required for the proposed activity, the Federal permittee must provide the district engineer with the appropriate documentation to demonstrate compliance with those requirements. The district engineer will verify that the appropriate documentation has been submitted. If the appropriate documentation has not been submitted, additional ESA section 7 consultation may be necessary for the activity and the respective federal agency would be responsible for fulfilling its obligation under section 7 of the ESA.

(c) Non-federal permittees must submit a pre-construction notification to the district engineer if any listed species or designated critical habitat might be affected or is in the vicinity of the activity, or if the activity is located in designated critical habitat, and shall not begin work on the activity until notified by the district engineer that the requirements of the ESA have been satisfied and that the activity is authorized. For activities that might affect Federally-listed endangered or threatened species or designated critical habitat, the pre-construction notification must include the name(s) of the endangered or threatened species that might be affected by the proposed activity or that utilize the designated critical habitat that might be affected by the proposed activity. The district engineer will determine whether the proposed activity "may affect" or will have "no effect" to listed species and designated critical habitat and will notify the non-Federal applicant of the Corps' determination within 45 days of receipt of a complete pre-construction notification. In cases where the non-Federal applicant has identified listed species or critical habitat that might be affected or is in the vicinity of the activity, and has so notified the Corps, the applicant shall not begin work until the Corps has provided notification that the proposed activity will have "no effect" on listed species or critical habitat, or until ESA section 7 consultation has been completed. If the non-Federal applicant has not heard back from the Corps within 45 days, the applicant must still wait for notification from the Corps.

(d) As a result of formal or informal consultation with the FWS or NMFS the district engineer may add species-specific permit conditions to the NWPs.

(e) Authorization of an activity by an NWP does not authorize the "take" of a threatened or endangered species as defined under the ESA. In the absence of separate authorization (e.g., an ESA Section 10 Permit, a Biological Opinion with "incidental take" provisions, etc.) from the FWS or the NMFS, the Endangered Species Act prohibits any person subject to the jurisdiction of the United States to take a listed species, where "take" means to harass, harm, pursue, hunt, shoot, wound, kill, trap, capture, or collect, or to attempt to engage in any such conduct. The word "harm" in the definition of "take" means an act which actually kills or injures wildlife. Such an act may include significant habitat modification or degradation where it actually kills or injures wildlife by significantly impairing essential behavioral patterns, including breeding, feeding or sheltering.

(f) If the non-federal permittee has a valid ESA section 10(a)(1)(B) incidental take permit with an approved Habitat Conservation Plan for a project or a group of projects that includes the proposed NWP activity, the non-federal applicant should provide a copy of that ESA section 10(a)(1)(B) permit with the PCN required by paragraph (c) of this general condition. The district engineer will coordinate with the agency that issued the ESA section 10(a)(1)(B) permit to determine whether the proposed NWP activity and the associated incidental take were considered in the internal ESA section 7 consultation conducted for the ESA section 10(a)(1)(B) permit. If that coordination results in concurrence from the agency that the proposed NWP activity and the associated incidental take were considered in the internal ESA section 7 consultation for the ESA section 10(a)(1)(B) permit, the district engineer does not need to conduct a separate ESA section 7 consultation for the proposed NWP activity. The district engineer will notify the non-federal applicant within 45 days of receipt of a complete pre-construction notification whether the ESA section 10(a)(1)(B) permit covers the proposed NWP activity or whether additional ESA section 7 consultation is required.

(g) Information on the location of threatened and endangered species and their critical habitat can be obtained directly from the offices of the FWS and NMFS or their world wide web pages at http://www.fws.gov/ or http://www.fws.gov/ipac and http://www.nmfs.noaa.gov/pr/species/esa/ respectively.

19. Migratory Birds and Bald and Golden Eagles. The permittee is responsible for ensuring their action complies with the Migratory Bird Treaty Act and the Bald and Golden Eagle Protection Act. The permittee is responsible for contacting appropriate local office of the U.S. Fish and Wildlife Service to determine applicable measures to reduce impacts to migratory birds or eagles, including whether "incidental take" permits are necessary and available under the Migratory Bird Treaty Act or Bald and Golden Eagle Protection Act for a particular activity.

20. Historic Properties. (a) In cases where the district engineer determines that the activity may have the potential to cause effects to properties listed, or eligible for listing, in the National Register of Historic Places, the activity is not authorized, until the requirements of Section 106 of the National Historic Preservation Act (NHPA) have been satisfied.

(b) Federal permittees should follow their own procedures for complying with the requirements of section 106 of the National Historic Preservation Act. If pre-construction notification is required for the proposed NWP activity, the Federal permittee must provide the district engineer with the appropriate documentation to demonstrate compliance with those requirements. The district engineer will verify that the appropriate documentation has been submitted. If the appropriate documentation is not submitted, then additional consultation under section 106 may be necessary. The respective federal agency is responsible for fulfilling its obligation to comply with section 106.

(c) Non-federal permittees must submit a pre-construction notification to the district engineer if the NWP activity might have the potential to cause effects to any historic properties listed on, determined to be eligible for listing on, or potentially eligible for listing on the National Register of Historic Places, including previously unidentified properties. For such activities, the pre-construction notification must state which historic properties might have the potential to be affected by the proposed NWP activity or include a vicinity map indicating the location of the historic properties or the potential for the presence of historic properties. Assistance regarding information on the location of, or potential for, the presence of historic properties can be sought from the State Historic Preservation Officer, Tribal Historic Preservation Officer, or designated tribal representative, as appropriate, and the National Register of Historic Places (see 33 CFR

260

330.4(g)). When reviewing pre-construction notifications, district engineers will comply with the current procedures for addressing the requirements of section 106 of the National Historic Preservation Act. The district engineer shall make a reasonable and good faith effort to carry out appropriate identification efforts, which may include background research, consultation, oral history interviews, sample field investigation, and field survey. Based on the information submitted in the PCN and these identification efforts, the district engineer shall determine whether the proposed NWP activity has the potential to cause effects on the historic properties. Section 106 consultation is not required when the district engineer determines that the activity does not have the potential to cause effects on historic properties (see 36 CFR 800.3(a)). Section 106 consultation is required when the district engineer determines that the activity has the potential to cause effects on historic properties. The district engineer will conduct consultation with consulting parties identified under 36 CFR 800.2(c) when he or she makes any of the following effect determinations for the purposes of section 106 of the NHPA: no historic properties affected, no adverse effect, or adverse effect. Where the non-Federal applicant has identified historic properties on which the activity might have the potential to cause effects and so notified the Corps, the non-Federal applicant shall not begin the activity until notified by the district engineer either that the activity has no potential to cause effects to historic properties or that NHPA section 106 consultation has been completed.

(d) For non-federal permittees, the district engineer will notify the prospective permittee within 45 days of receipt of a complete pre-construction notification whether NHPA section 106 consultation is required. If NHPA section 106 consultation is required, the district engineer will notify the non-Federal applicant that he or she cannot begin the activity until section 106 consultation is completed. If the non-Federal applicant has not heard back from the Corps within 45 days, the applicant must still wait for notification from the Corps.

(e) Prospective permittees should be aware that section 110k of the NHPA (54 U.S.C. 306113) prevents the Corps from granting a permit or other assistance to an applicant who, with intent to avoid the requirements of section 106 of the NHPA, has intentionally significantly adversely affected a historic property to which the permit would relate, or having legal power to prevent it, allowed such significant adverse effect to occur, unless the Corps, after consultation with the Advisory Council on Historic Preservation (ACHP), determines that circumstances justify granting such assistance despite the adverse effect created or permitted by the applicant. If circumstances justify granting the assistance, the Corps is required to notify the ACHP and provide documentation specifying the circumstances, the degree of damage to the integrity of any historic properties affected, and proposed mitigation. This documentation must include any views obtained from the applicant, SHPO/THPO, appropriate Indian tribes if the undertaking occurs on or affects historic properties on tribal lands or affects properties of interest to those tribes, and other parties known to have a legitimate interest in the impacts to the permitted activity on historic properties.

21. Discovery of Previously Unknown Remains and Artifacts. If you discover any previously unknown historic, cultural or archeological remains and artifacts while accomplishing the activity authorized by this permit, you must immediately notify the district engineer of what you have found, and to the maximum extent practicable, avoid construction activities that may affect the remains and artifacts until the required coordination has been completed. The district engineer will initiate the Federal, Tribal, and state coordination required to determine if the items or remains warrant a recovery effort or if the site is eligible for listing in the National Register of Historic Places.

22. Designated Critical Resource Waters. Critical resource waters include, NOAA-managed marine sanctuaries and marine monuments, and National Estuarine Research Reserves. The district

261

engineer may designate, after notice and opportunity for public comment, additional waters officially designated by a state as having particular environmental or ecological significance, such as outstanding national resource waters or state natural heritage sites. The district engineer may also designate additional critical resource waters after notice and opportunity for public comment.

(a) Discharges of dredged or fill material into waters of the United States are not authorized by NWPs 7, 12, 14, 16, 17, 21, 29, 31, 35, 39, 40, 42, 43, 44, 49, 50, 51, and 52 for any activity within, or directly affecting, critical resource waters, including wetlands adjacent to such waters.

(b) For NWPs 3, 8, 10, 13, 15, 18, 19, 22, 23, 25, 27, 28, 30, 33, 34, 36, 37, 38, and 54, notification is required in accordance with general condition 32, for any activity proposed in the designated critical resource waters including wetlands adjacent to those waters. The district engineer may authorize activities under these NWPs only after it is determined that the impacts to the critical resource waters will be no more than minimal.

23. Mitigation. The district engineer will consider the following factors when determining appropriate and practicable mitigation necessary to ensure that the individual and cumulative adverse environmental effects are no more than minimal:

(a) The activity must be designed and constructed to avoid and minimize adverse effects, both temporary and permanent, to waters of the United States to the maximum extent practicable at the project site (i.e., on site).

(b) Mitigation in all its forms (avoiding, minimizing, rectifying, reducing, or compensating for resource losses) will be required to the extent necessary to ensure that the individual and cumulative adverse environmental effects are no more than minimal.

(c) Compensatory mitigation at a minimum one-for-one ratio will be required for all wetland losses that exceed 1/10-acre and require pre-construction notification, unless the district engineer determines in writing that either some other form of mitigation would be more environmentally appropriate or the adverse environmental effects of the proposed activity are no more than minimal, and provides an activity-specific waiver of this requirement. For wetland losses of 1/10-acre or less that require pre-construction notification, the district engineer may determine on a case-by-case basis that compensatory mitigation is required to ensure that the activity results in only minimal adverse environmental effects.

(d) For losses of streams or other open waters that require pre-construction notification, the district engineer may require compensatory mitigation to ensure that the activity results in no more than minimal adverse environmental effects. Compensatory mitigation for losses of streams should be provided, if practicable, through stream rehabilitation, enhancement, or preservation, since streams are difficult-to-replace resources (see 33 CFR 332.3(e)(3)).

(e) Compensatory mitigation plans for NWP activities in or near streams or other open waters will normally include a requirement for the restoration or enhancement, maintenance, and legal protection (e.g., conservation easements) of riparian areas next to open waters. In some cases, the restoration or maintenance/protection of riparian areas may be the only compensatory mitigation required. Restored riparian areas should consist of native species. The width of the required riparian area will address documented water quality or aquatic habitat loss concerns. Normally, the riparian area will be 25 to 50 feet wide on each side of the stream, but the district engineer may require slightly wider riparian areas to address documented water quality or habitat loss concerns. If it is not possible to restore or maintain/protect a riparian area on both sides of a

262

stream, or if the waterbody is a lake or coastal waters, then restoring or maintaining/protecting a riparian area along a single bank or shoreline may be sufficient. Where both wetlands and open waters exist on the project site, the district engineer will determine the appropriate compensatory mitigation (e.g., riparian areas and/or wetlands compensation) based on what is best for the aquatic environment on a watershed basis. In cases where riparian areas are determined to be the most appropriate form of minimization or compensatory mitigation, the district engineer may waive or reduce the requirement to provide wetland compensatory mitigation for wetland losses.

(f) Compensatory mitigation projects provided to offset losses of aquatic resources must comply with the applicable provisions of 33 CFR part 332.

(1) The prospective permittee is responsible for proposing an appropriate compensatory mitigation option if compensatory mitigation is necessary to ensure that the activity results in no more than minimal adverse environmental effects. For the NWPs, the preferred mechanism for providing compensatory mitigation is mitigation bank credits or in-lieu fee program credits (see 33 CFR 332.3(b)(2) and (3)). However, if an appropriate number and type of mitigation bank or in-lieu credits are not available at the time the PCN is submitted to the district engineer, the district engineer may approve the use of permittee-responsible mitigation.

(2) The amount of compensatory mitigation required by the district engineer must be sufficient to ensure that the authorized activity results in no more than minimal individual and cumulative adverse environmental effects (see 33 CFR 330.1(e)(3)). (See also 33 CFR 332.3(f)).

(3) Since the likelihood of success is greater and the impacts to potentially valuable uplands are reduced, aquatic resource restoration should be the first compensatory mitigation option considered for permittee-responsible mitigation.

(4) If permittee-responsible mitigation is the proposed option, the prospective permittee is responsible for submitting a mitigation plan. A conceptual or detailed mitigation plan may be used by the district engineer to make the decision on the NWP verification request, but a final mitigation plan that addresses the applicable requirements of 33 CFR 332.4(c)(2) through (14) must be approved by the district engineer before the permittee begins work in waters of the United States, unless the district engineer determines that prior approval of the final mitigation plan is not practicable or not necessary to ensure timely completion of the required compensatory mitigation (see 33 CFR 332.3(k)(3)).

(5) If mitigation bank or in-lieu fee program credits are the proposed option, the mitigation plan only needs to address the baseline conditions at the impact site and the number of credits to be provided.

(6) Compensatory mitigation requirements (e.g., resource type and amount to be provided as compensatory mitigation, site protection, ecological performance standards, monitoring requirements) may be addressed through conditions added to the NWP authorization, instead of components of a compensatory mitigation plan (see 33 CFR 332.4(c)(1)(ii)).

(g) Compensatory mitigation will not be used to increase the acreage losses allowed by the acreage limits of the NWPs. For example, if an NWP has an acreage limit of 1/2-acre, it cannot be used to authorize any NWP activity resulting in the loss of greater than 1/2-acre of waters of the United States, even if compensatory mitigation is provided that replaces or restores some of the lost waters. However, compensatory mitigation can and should be used, as necessary, to ensure that an

NWP activity already meeting the established acreage limits also satisfies the no more than minimal impact requirement for the NWPs.

(h) Permittees may propose the use of mitigation banks, in-lieu fee programs, or permittee-responsible mitigation. When developing a compensatory mitigation proposal, the permittee must consider appropriate and practicable options consistent with the framework at 33 CFR 332.3(b). For activities resulting in the loss of marine or estuarine resources, permittee-responsible mitigation may be environmentally preferable if there are no mitigation banks or in-lieu fee programs in the area that have marine or estuarine credits available for sale or transfer to the permittee. For permittee-responsible mitigation, the special conditions of the NWP verification must clearly indicate the party or parties responsible for the implementation and performance of the compensatory mitigation project, and, if required, its long-term management.

(i) Where certain functions and services of waters of the United States are permanently adversely affected by a regulated activity, such as discharges of dredged or fill material into waters of the United States that will convert a forested or scrub-shrub wetland to a herbaceous wetland in a permanently maintained utility line right-of-way, mitigation may be required to reduce the adverse environmental effects of the activity to the no more than minimal level.

24. Safety of Impoundment Structures. To ensure that all impoundment structures are safely designed, the district engineer may require non-Federal applicants to demonstrate that the structures comply with established state dam safety criteria or have been designed by qualified persons. The district engineer may also require documentation that the design has been independently reviewed by similarly qualified persons, and appropriate modifications made to ensure safety.

25. Water Quality. Where States and authorized Tribes, or EPA where applicable, have not previously certified compliance of an NWP with CWA section 401, individual 401 Water Quality Certification must be obtained or waived (see 33 CFR 330.4(c)). The district engineer or State or Tribe may require additional water quality management measures to ensure that the authorized activity does not result in more than minimal degradation of water quality.

26. Coastal Zone Management. In coastal states where an NWP has not previously received a state coastal zone management consistency concurrence, an individual state coastal zone management consistency concurrence must be obtained, or a presumption of concurrence must occur (see 33 CFR 330.4(d)). The district engineer or a State may require additional measures to ensure that the authorized activity is consistent with state coastal zone management requirements.

27. Regional and Case-By-Case Conditions. The activity must comply with any regional conditions that may have been added by the Division Engineer (see 33 CFR 330.4(e)) and with any case specific conditions added by the Corps or by the state, Indian Tribe, or U.S. EPA in its section 401 Water Quality Certification, or by the state in its Coastal Zone Management Act consistency determination.

28. Use of Multiple Nationwide Permits. The use of more than one NWP for a single and complete project is prohibited, except when the acreage loss of waters of the United States authorized by the NWPs does not exceed the acreage limit of the NWP with the highest specified acreage limit. For example, if a road crossing over tidal waters is constructed under NWP 14, with associated bank stabilization authorized by NWP 13, the maximum acreage loss of waters of the United States for the total project cannot exceed 1/3-acre.

29. Transfer of Nationwide Permit Verifications. If the permittee sells the property associated with a nationwide permit verification, the permittee may transfer the nationwide permit verification to the new owner by submitting a letter to the appropriate Corps district office to validate the transfer. A copy of the nationwide permit verification must be attached to the letter, and the letter must contain the following statement and signature:

"When the structures or work authorized by this nationwide permit are still in existence at the time the property is transferred, the terms and conditions of this nationwide permit, including any special conditions, will continue to be binding on the new owner(s) of the property. To validate the transfer of this nationwide permit and the associated liabilities associated with compliance with its terms and conditions, have the transferee sign and date below."

_____

(Transferee)

_____

(Date)

30. Compliance Certification. Each permittee who receives an NWP verification letter from the Corps must provide a signed certification documenting completion of the authorized activity and implementation of any required compensatory mitigation. The success of any required permittee-responsible mitigation, including the achievement of ecological performance standards, will be addressed separately by the district engineer. The Corps will provide the permittee the certification document with the NWP verification letter. The certification document will include:

(a) A statement that the authorized activity was done in accordance with the NWP authorization, including any general, regional, or activity-specific conditions;

(b) A statement that the implementation of any required compensatory mitigation was completed in accordance with the permit conditions. If credits from a mitigation bank or in-lieu fee program are used to satisfy the compensatory mitigation requirements, the certification must include the documentation required by 33 CFR 332.3(l)(3) to confirm that the permittee secured the appropriate number and resource type of credits; and

(c) The signature of the permittee certifying the completion of the activity and mitigation.

The completed certification document must be submitted to the district engineer within 30 days of completion of the authorized activity or the implementation of any required compensatory mitigation, whichever occurs later.

31. Activities Affecting Structures or Works Built by the United States. If an NWP activity also requires permission from the Corps pursuant to 33 U.S.C. 408 because it will alter or temporarily or permanently occupy or use a U.S. Army Corps of Engineers (USACE) federally authorized Civil Works project (a "USACE project"), the prospective permittee must submit a pre-construction notification. See paragraph (b)(10) of general condition 32. An activity that requires section 408 permission is not authorized by NWP until the appropriate Corps office issues the section 408 permission to alter, occupy, or use the USACE project, and the district engineer issues a written NWP verification.

32. Pre-Construction Notification. (a) Timing. Where required by the terms of the NWP, the prospective permittee must notify the district engineer by submitting a pre-construction notification (PCN) as early as possible. The district engineer must determine if the PCN is complete within 30 calendar days of the date of receipt and, if the PCN is determined to be incomplete, notify the prospective permittee within that 30 day period to request the additional information necessary to make the PCN complete. The request must specify the information needed to make the PCN complete. As a general rule, district engineers will request additional information necessary to make the PCN complete only once. However, if the prospective permittee does not provide all of the requested information, then the district engineer will notify the prospective permittee that the PCN is still incomplete and the PCN review process will not commence until all of the requested information has been received by the district engineer. The prospective permittee shall not begin the activity until either:

(1) He or she is notified in writing by the district engineer that the activity may proceed under the NWP with any special conditions imposed by the district or division engineer; or

(2) 45 calendar days have passed from the district engineer's receipt of the complete PCN and the prospective permittee has not received written notice from the district or division engineer. However, if the permittee was required to notify the Corps pursuant to general condition 18 that listed species or critical habitat might be affected or are in the vicinity of the activity, or to notify the Corps pursuant to general condition 20 that the activity might have the potential to cause effects to historic properties, the permittee cannot begin the activity until receiving written notification from the Corps that there is "no effect" on listed species or "no potential to cause effects" on historic properties, or that any consultation required under Section 7 of the Endangered Species Act (see 33 CFR 330.4(f)) and/or section 106 of the National Historic Preservation Act (see 33 CFR 330.4(g)) has been completed. Also, work cannot begin under NWPs 21, 49, or 50 until the permittee has received written approval from the Corps. If the proposed activity requires a written waiver to exceed specified limits of an NWP, the permittee may not begin the activity until the district engineer issues the waiver. If the district or division engineer notifies the permittee in writing that an individual permit is required within 45 calendar days of receipt of a complete PCN, the permittee cannot begin the activity until an individual permit has been obtained. Subsequently, the permittee's right to proceed under the NWP may be modified, suspended, or revoked only in accordance with the procedure set forth in 33 CFR 330.5(d)(2).

(b) Contents of Pre-Construction Notification: The PCN must be in writing and include the following information:

(1) Name, address and telephone numbers of the prospective permittee;

(2) Location of the proposed activity;

(3) Identify the specific NWP or NWP(s) the prospective permittee wants to use to authorize the proposed activity;

(4) A description of the proposed activity; the activity's purpose; direct and indirect adverse environmental effects the activity would cause, including the anticipated amount of loss of wetlands, other special aquatic sites, and other waters expected to result from the NWP activity, in acres, linear feet, or other appropriate unit of measure; a description of any proposed mitigation measures intended to reduce the adverse environmental effects caused by the proposed activity; and any other NWP(s), regional general permit(s), or individual permit(s) used or intended to be used to authorize any part of the proposed project or any related activity, including other separate and

266

distant crossings for linear projects that require Department of the Army authorization but do not require pre-construction notification. The description of the proposed activity and any proposed mitigation measures should be sufficiently detailed to allow the district engineer to determine that the adverse environmental effects of the activity will be no more than minimal and to determine the need for compensatory mitigation or other mitigation measures. For single and complete linear projects, the PCN must include the quantity of anticipated losses of wetlands, other special aquatic sites, and other waters for each single and complete crossing of those wetlands, other special aquatic sites, and other waters. Sketches should be provided when necessary to show that the activity complies with the terms of the NWP. (Sketches usually clarify the activity and when provided results in a quicker decision. Sketches should contain sufficient detail to provide an illustrative description of the proposed activity (e.g., a conceptual plan), but do not need to be detailed engineering plans);

(5) The PCN must include a delineation of wetlands, other special aquatic sites, and other waters, such as lakes and ponds, and perennial, intermittent, and ephemeral streams, on the project site. Wetland delineations must be prepared in accordance with the current method required by the Corps. The permittee may ask the Corps to delineate the special aquatic sites and other waters on the project site, but there may be a delay if the Corps does the delineation, especially if the project site is large or contains many wetlands, other special aquatic sites, and other waters. Furthermore, the 45 day period will not start until the delineation has been submitted to or completed by the Corps, as appropriate;

(6) If the proposed activity will result in the loss of greater than 1/10-acre of wetlands and a PCN is required, the prospective permittee must submit a statement describing how the mitigation requirement will be satisfied, or explaining why the adverse environmental effects are no more than minimal and why compensatory mitigation should not be required. As an alternative, the prospective permittee may submit a conceptual or detailed mitigation plan.

(7) For non-Federal permittees, if any listed species or designated critical habitat might be affected or is in the vicinity of the activity, or if the activity is located in designated critical habitat, the PCN must include the name(s) of those endangered or threatened species that might be affected by the proposed activity or utilize the designated critical habitat that might be affected by the proposed activity. For NWP activities that require pre-construction notification, Federal permittees must provide documentation demonstrating compliance with the Endangered Species Act;

(8) For non-Federal permittees, if the NWP activity might have the potential to cause effects to a historic property listed on, determined to be eligible for listing on, or potentially eligible for listing on, the National Register of Historic Places, the PCN must state which historic property might have the potential to be affected by the proposed activity or include a vicinity map indicating the location of the historic property. For NWP activities that require pre-construction notification, Federal permittees must provide documentation demonstrating compliance with section 106 of the National Historic Preservation Act;

(9) For an activity that will occur in a component of the National Wild and Scenic River System, or in a river officially designated by Congress as a "study river" for possible inclusion in the system while the river is in an official study status, the PCN must identify the Wild and Scenic River or the "study river" (see general condition 16); and

(10) For an activity that requires permission from the Corps pursuant to 33 U.S.C. 408 because it will alter or temporarily or permanently occupy or use a U.S. Army Corps of Engineers federally authorized civil works project, the pre-construction notification must include a statement

267

confirming that the project proponent has submitted a written request for section 408 permission from the Corps office having jurisdiction over that USACE project.

(c) Form of Pre-Construction Notification: The standard individual permit application form (Form ENG 4345) may be used, but the completed application form must clearly indicate that it is an NWP PCN and must include all of the applicable information required in paragraphs (b)(1) through (10) of this general condition. A letter containing the required information may also be used. Applicants may provide electronic files of PCNs and supporting materials if the district engineer has established tools and procedures for electronic submittals.

(d) Agency Coordination: (1) The district engineer will consider any comments from Federal and state agencies concerning the proposed activity's compliance with the terms and conditions of the NWPs and the need for mitigation to reduce the activity's adverse environmental effects so that they are no more than minimal.

(2) Agency coordination is required for: (i) all NWP activities that require pre-construction notification and result in the loss of greater than 1/2-acre of waters of the United States; (ii) NWP 21, 29, 39, 40, 42, 43, 44, 50, 51, and 52 activities that require pre-construction notification and will result in the loss of greater than 300 linear feet of stream bed; (iii) NWP 13 activities in excess of 500 linear feet, fills greater than one cubic yard per running foot, or involve discharges of dredged or fill material into special aquatic sites; and (iv) NWP 54 activities in excess of 500 linear feet, or that extend into the waterbody more than 30 feet from the mean low water line in tidal waters or the ordinary high water mark in the Great Lakes.

(3) When agency coordination is required, the district engineer will immediately provide (e.g., via e-mail, facsimile transmission, overnight mail, or other expeditious manner) a copy of the complete PCN to the appropriate Federal or state offices (FWS, state natural resource or water quality agency, EPA, and, if appropriate, the NMFS). With the exception of NWP 37, these agencies will have 10 calendar days from the date the material is transmitted to notify the district engineer via telephone, facsimile transmission, or e-mail that they intend to provide substantive, site-specific comments. The comments must explain why the agency believes the adverse environmental effects will be more than minimal. If so contacted by an agency, the district engineer will wait an additional 15 calendar days before making a decision on the pre-construction notification. The district engineer will fully consider agency comments received within the specified time frame concerning the proposed activity's compliance with the terms and conditions of the NWPs, including the need for mitigation to ensure the net adverse environmental effects of the proposed activity are no more than minimal. The district engineer will provide no response to the resource agency, except as provided below. The district engineer will indicate in the administrative record associated with each pre-construction notification that the resource agencies' concerns were considered. For NWP 37, the emergency watershed protection and rehabilitation activity may proceed immediately in cases where there is an unacceptable hazard to life or a significant loss of property or economic hardship will occur. The district engineer will consider any comments received to decide whether the NWP 37 authorization should be modified, suspended, or revoked in accordance with the procedures at 33 CFR 330.5.

(4) In cases of where the prospective permittee is not a Federal agency, the district engineer will provide a response to NMFS within 30 calendar days of receipt of any Essential Fish Habitat conservation recommendations, as required by section 305(b)(4)(B) of the Magnuson-Stevens Fishery Conservation and Management Act.

(5) Applicants are encouraged to provide the Corps with either electronic files or multiple copies of pre-construction notifications to expedite agency coordination.

D. District Engineer's Decision

1. In reviewing the PCN for the proposed activity, the district engineer will determine whether the activity authorized by the NWP will result in more than minimal individual or cumulative adverse environmental effects or may be contrary to the public interest. If a project proponent requests authorization by a specific NWP, the district engineer should issue the NWP verification for that activity if it meets the terms and conditions of that NWP, unless he or she determines, after considering mitigation, that the proposed activity will result in more than minimal individual and cumulative adverse effects on the aquatic environment and other aspects of the public interest and exercises discretionary authority to require an individual permit for the proposed activity. For a linear project, this determination will include an evaluation of the individual crossings of waters of the United States to determine whether they individually satisfy the terms and conditions of the NWP(s), as well as the cumulative effects caused by all of the crossings authorized by NWP. If an applicant requests a waiver of the 300 linear foot limit on impacts to streams or of an otherwise applicable limit, as provided for in NWPs 13, 21, 29, 36, 39, 40, 42, 43, 44, 50, 51, 52, or 54, the district engineer will only grant the waiver upon a written determination that the NWP activity will result in only minimal individual and cumulative adverse environmental effects. For those NWPs that have a waivable 300 linear foot limit for losses of intermittent and ephemeral stream bed and a 1/2-acre limit (i.e., NWPs 21, 29, 39, 40, 42, 43, 44, 50, 51, and 52), the loss of intermittent and ephemeral stream bed, plus any other losses of jurisdictional waters and wetlands, cannot exceed 1/2-acre.

2. When making minimal adverse environmental effects determinations the district engineer will consider the direct and indirect effects caused by the NWP activity. He or she will also consider the cumulative adverse environmental effects caused by activities authorized by NWP and whether those cumulative adverse environmental effects are no more than minimal. The district engineer will also consider site specific factors, such as the environmental setting in the vicinity of the NWP activity, the type of resource that will be affected by the NWP activity, the functions provided by the aquatic resources that will be affected by the NWP activity, the degree or magnitude to which the aquatic resources perform those functions, the extent that aquatic resource functions will be lost as a result of the NWP activity (e.g., partial or complete loss), the duration of the adverse effects (temporary or permanent), the importance of the aquatic resource functions to the region (e.g., watershed or ecoregion), and mitigation required by the district engineer. If an appropriate functional or condition assessment method is available and practicable to use, that assessment method may be used by the district engineer to assist in the minimal adverse environmental effects determination. The district engineer may add case-specific special conditions to the NWP authorization to address site-specific environmental concerns.

3. If the proposed activity requires a PCN and will result in a loss of greater than 1/10-acre of wetlands, the prospective permittee should submit a mitigation proposal with the PCN. Applicants may also propose compensatory mitigation for NWP activities with smaller impacts, or for impacts to other types of waters (e.g., streams). The district engineer will consider any proposed compensatory mitigation or other mitigation measures the applicant has included in the proposal in determining whether the net adverse environmental effects of the proposed activity are no more than minimal. The compensatory mitigation proposal may be either conceptual or detailed. If the district engineer determines that the activity complies with the terms and conditions of the NWP and that the adverse environmental effects are no more than minimal, after considering mitigation, the district engineer will notify the permittee and include any activity-specific conditions in the

NWP verification the district engineer deems necessary. Conditions for compensatory mitigation requirements must comply with the appropriate provisions at 33 CFR 332.3(k). The district engineer must approve the final mitigation plan before the permittee commences work in waters of the United States, unless the district engineer determines that prior approval of the final mitigation plan is not practicable or not necessary to ensure timely completion of the required compensatory mitigation. If the prospective permittee elects to submit a compensatory mitigation plan with the PCN, the district engineer will expeditiously review the proposed compensatory mitigation plan. The district engineer must review the proposed compensatory mitigation plan within 45 calendar days of receiving a complete PCN and determine whether the proposed mitigation would ensure the NWP activity results in no more than minimal adverse environmental effects. If the net adverse environmental effects of the NWP activity (after consideration of the mitigation proposal) are determined by the district engineer to be no more than minimal, the district engineer will provide a timely written response to the applicant. The response will state that the NWP activity can proceed under the terms and conditions of the NWP, including any activity-specific conditions added to the NWP authorization by the district engineer.

4. If the district engineer determines that the adverse environmental effects of the proposed activity are more than minimal, then the district engineer will notify the applicant either: (a) that the activity does not qualify for authorization under the NWP and instruct the applicant on the procedures to seek authorization under an individual permit; (b) that the activity is authorized under the NWP subject to the applicant's submission of a mitigation plan that would reduce the adverse environmental effects so that they are no more than minimal; or (c) that the activity is authorized under the NWP with specific modifications or conditions. Where the district engineer determines that mitigation is required to ensure no more than minimal adverse environmental effects, the activity will be authorized within the 45-day PCN period (unless additional time is required to comply with general conditions 18, 20, and/or 31, or to evaluate PCNs for activities authorized by NWPs 21, 49, and 50), with activity-specific conditions that state the mitigation requirements. The authorization will include the necessary conceptual or detailed mitigation plan or a requirement that the applicant submit a mitigation plan that would reduce the adverse environmental effects so that they are no more than minimal. When compensatory mitigation is required, no work in waters of the United States may occur until the district engineer has approved a specific mitigation plan or has determined that prior approval of a final mitigation plan is not practicable or not necessary to ensure timely completion of the required compensatory mitigation.

E. Further Information

1. District Engineers have authority to determine if an activity complies with the terms and conditions of an NWP.

2. NWPs do not obviate the need to obtain other federal, state, or local permits, approvals, or authorizations required by law.

3. NWPs do not grant any property rights or exclusive privileges.

4. NWPs do not authorize any injury to the property or rights of others.

5. NWPs do not authorize interference with any existing or proposed Federal project (see general condition 31).

F. Definitions

Best management practices (BMPs): Policies, practices, procedures, or structures implemented to mitigate the adverse environmental effects on surface water quality resulting from development. BMPs are categorized as structural or non-structural.

Compensatory mitigation: The restoration (re-establishment or rehabilitation), establishment (creation), enhancement, and/or in certain circumstances preservation of aquatic resources for the purposes of offsetting unavoidable adverse impacts which remain after all appropriate and practicable avoidance and minimization has been achieved.

Currently serviceable: Useable as is or with some maintenance, but not so degraded as to essentially require reconstruction.

Direct effects: Effects that are caused by the activity and occur at the same time and place.

Discharge: The term "discharge" means any discharge of dredged or fill material into waters of the United States.

Ecological reference: A model used to plan and design an aquatic habitat and riparian area restoration, enhancement, or establishment activity under NWP 27. An ecological reference may be based on the structure, functions, and dynamics of an aquatic habitat type or a riparian area type that currently exists in the region where the proposed NWP 27 activity is located. Alternatively, an ecological reference may be based on a conceptual model for the aquatic habitat type or riparian area type to be restored, enhanced, or established as a result of the proposed NWP 27 activity. An ecological reference takes into account the range of variation of the aquatic habitat type or riparian area type in the region.

Enhancement: The manipulation of the physical, chemical, or biological characteristics of an aquatic resource to heighten, intensify, or improve a specific aquatic resource function(s). Enhancement results in the gain of selected aquatic resource function(s), but may also lead to a decline in other aquatic resource function(s). Enhancement does not result in a gain in aquatic resource area.

Ephemeral stream: An ephemeral stream has flowing water only during, and for a short duration after, precipitation events in a typical year. Ephemeral stream beds are located above the water table year-round. Groundwater is not a source of water for the stream. Runoff from rainfall is the primary source of water for stream flow.

Establishment (creation): The manipulation of the physical, chemical, or biological characteristics present to develop an aquatic resource that did not previously exist at an upland site. Establishment results in a gain in aquatic resource area.

High Tide Line: The line of intersection of the land with the water's surface at the maximum height reached by a rising tide. The high tide line may be determined, in the absence of actual data, by a line of oil or scum along shore objects, a more or less continuous deposit of fine shell or debris on the foreshore or berm, other physical markings or characteristics, vegetation lines, tidal gages, or other suitable means that delineate the general height reached by a rising tide. The line encompasses spring high tides and other high tides that occur with periodic frequency but does not include storm surges in which there is a departure from the normal or predicted reach of the tide due to the piling up of water against a coast by strong winds such as those accompanying a hurricane or other intense storm.

271

Historic Property: Any prehistoric or historic district, site (including archaeological site), building, structure, or other object included in, or eligible for inclusion in, the National Register of Historic Places maintained by the Secretary of the Interior. This term includes artifacts, records, and remains that are related to and located within such properties. The term includes properties of traditional religious and cultural importance to an Indian tribe or Native Hawaiian organization and that meet the National Register criteria (36 CFR part 60).

Independent utility: A test to determine what constitutes a single and complete non-linear project in the Corps Regulatory Program. A project is considered to have independent utility if it would be constructed absent the construction of other projects in the project area. Portions of a multi-phase project that depend upon other phases of the project do not have independent utility. Phases of a project that would be constructed even if the other phases were not built can be considered as separate single and complete projects with independent utility.

Indirect effects: Effects that are caused by the activity and are later in time or farther removed in distance, but are still reasonably foreseeable.

Intermittent stream: An intermittent stream has flowing water during certain times of the year, when groundwater provides water for stream flow. During dry periods, intermittent streams may not have flowing water. Runoff from rainfall is a supplemental source of water for stream flow.

Loss of waters of the United States: Waters of the United States that are permanently adversely affected by filling, flooding, excavation, or drainage because of the regulated activity. Permanent adverse effects include permanent discharges of dredged or fill material that change an aquatic area to dry land, increase the bottom elevation of a waterbody, or change the use of a waterbody. The acreage of loss of waters of the United States is a threshold measurement of the impact to jurisdictional waters for determining whether a project may qualify for an NWP; it is not a net threshold that is calculated after considering compensatory mitigation that may be used to offset losses of aquatic functions and services. The loss of stream bed includes the acres or linear feet of stream bed that are filled or excavated as a result of the regulated activity. Waters of the United States temporarily filled, flooded, excavated, or drained, but restored to pre-construction contours and elevations after construction, are not included in the measurement of loss of waters of the United States. Impacts resulting from activities that do not require Department of the Army authorization, such as activities eligible for exemptions under section 404(f) of the Clean Water Act, are not considered when calculating the loss of waters of the United States.

Navigable waters: Waters subject to section 10 of the Rivers and Harbors Act of 1899. These waters are defined at 33 CFR part 329.

Non-tidal wetland: A non-tidal wetland is a wetland that is not subject to the ebb and flow of tidal waters. Non-tidal wetlands contiguous to tidal waters are located landward of the high tide line (i.e., spring high tide line).

Open water: For purposes of the NWPs, an open water is any area that in a year with normal patterns of precipitation has water flowing or standing above ground to the extent that an ordinary high water mark can be determined. Aquatic vegetation within the area of flowing or standing water is either non-emergent, sparse, or absent. Vegetated shallows are considered to be open waters. Examples of "open waters" include rivers, streams, lakes, and ponds.

Ordinary High Water Mark: An ordinary high water mark is a line on the shore established by the fluctuations of water and indicated by physical characteristics, or by other appropriate means that consider the characteristics of the surrounding areas.

Perennial stream: A perennial stream has flowing water year-round during a typical year. The water table is located above the stream bed for most of the year. Groundwater is the primary source of water for stream flow. Runoff from rainfall is a supplemental source of water for stream flow.

Practicable: Available and capable of being done after taking into consideration cost, existing technology, and logistics in light of overall project purposes.

Pre-construction notification: A request submitted by the project proponent to the Corps for confirmation that a particular activity is authorized by nationwide permit. The request may be a permit application, letter, or similar document that includes information about the proposed work and its anticipated environmental effects. Pre-construction notification may be required by the terms and conditions of a nationwide permit, or by regional conditions. A pre-construction notification may be voluntarily submitted in cases where pre-construction notification is not required and the project proponent wants confirmation that the activity is authorized by nationwide permit.

Preservation: The removal of a threat to, or preventing the decline of, aquatic resources by an action in or near those aquatic resources. This term includes activities commonly associated with the protection and maintenance of aquatic resources through the implementation of appropriate legal and physical mechanisms. Preservation does not result in a gain of aquatic resource area or functions.

Protected tribal resources: Those natural resources and properties of traditional or customary religious or cultural importance, either on or off Indian lands, retained by, or reserved by or for, Indian tribes through treaties, statutes, judicial decisions, or executive orders, including tribal trust resources.

Re-establishment: The manipulation of the physical, chemical, or biological characteristics of a site with the goal of returning natural/historic functions to a former aquatic resource. Re-establishment results in rebuilding a former aquatic resource and results in a gain in aquatic resource area and functions.

Rehabilitation: The manipulation of the physical, chemical, or biological characteristics of a site with the goal of repairing natural/historic functions to a degraded aquatic resource. Rehabilitation results in a gain in aquatic resource function, but does not result in a gain in aquatic resource area.

Restoration: The manipulation of the physical, chemical, or biological characteristics of a site with the goal of returning natural/historic functions to a former or degraded aquatic resource. For the purpose of tracking net gains in aquatic resource area, restoration is divided into two categories: re-establishment and rehabilitation.

Riffle and pool complex: Riffle and pool complexes are special aquatic sites under the 404(b)(1) Guidelines. Riffle and pool complexes sometimes characterize steep gradient sections of streams. Such stream sections are recognizable by their hydraulic characteristics. The rapid movement of water over a course substrate in riffles results in a rough flow, a turbulent surface,

273

and high dissolved oxygen levels in the water. Pools are deeper areas associated with riffles. A slower stream velocity, a streaming flow, a smooth surface, and a finer substrate characterize pools.

Riparian areas: Riparian areas are lands next to streams, lakes, and estuarine-marine shorelines. Riparian areas are transitional between terrestrial and aquatic ecosystems, through which surface and subsurface hydrology connects riverine, lacustrine, estuarine, and marine waters with their adjacent wetlands, non-wetland waters, or uplands. Riparian areas provide a variety of ecological functions and services and help improve or maintain local water quality. (See general condition 23.)

Shellfish seeding: The placement of shellfish seed and/or suitable substrate to increase shellfish production. Shellfish seed consists of immature individual shellfish or individual shellfish attached to shells or shell fragments (i.e., spat on shell). Suitable substrate may consist of shellfish shells, shell fragments, or other appropriate materials placed into waters for shellfish habitat.

Single and complete linear project: A linear project is a project constructed for the purpose of getting people, goods, or services from a point of origin to a terminal point, which often involves multiple crossings of one or more waterbodies at separate and distant locations. The term "single and complete project" is defined as that portion of the total linear project proposed or accomplished by one owner/developer or partnership or other association of owners/developers that includes all crossings of a single water of the United States (i.e., a single waterbody) at a specific location. For linear projects crossing a single or multiple waterbodies several times at separate and distant locations, each crossing is considered a single and complete project for purposes of NWP authorization. However, individual channels in a braided stream or river, or individual arms of a large, irregularly shaped wetland or lake, etc., are not separate waterbodies, and crossings of such features cannot be considered separately.

Single and complete non-linear project: For non-linear projects, the term "single and complete project" is defined at 33 CFR 330.2(i) as the total project proposed or accomplished by one owner/developer or partnership or other association of owners/developers. A single and complete non-linear project must have independent utility (see definition of "independent utility"). Single and complete non-linear projects may not be "piecemealed" to avoid the limits in an NWP authorization.

Stormwater management: Stormwater management is the mechanism for controlling stormwater runoff for the purposes of reducing downstream erosion, water quality degradation, and flooding and mitigating the adverse effects of changes in land use on the aquatic environment.

Stormwater management facilities: Stormwater management facilities are those facilities, including but not limited to, stormwater retention and detention ponds and best management practices, which retain water for a period of time to control runoff and/or improve the quality (i.e., by reducing the concentration of nutrients, sediments, hazardous substances and other pollutants) of stormwater runoff.

Stream bed: The substrate of the stream channel between the ordinary high water marks. The substrate may be bedrock or inorganic particles that range in size from clay to boulders. Wetlands contiguous to the stream bed, but outside of the ordinary high water marks, are not considered part of the stream bed.

Stream channelization: The manipulation of a stream's course, condition, capacity, or location that causes more than minimal interruption of normal stream processes. A channelized stream remains a water of the United States.

Structure: An object that is arranged in a definite pattern of organization. Examples of structures include, without limitation, any pier, boat dock, boat ramp, wharf, dolphin, weir, boom, breakwater, bulkhead, revetment, riprap, jetty, artificial island, artificial reef, permanent mooring structure, power transmission line, permanently moored floating vessel, piling, aid to navigation, or any other manmade obstacle or obstruction.

Tidal wetland: A tidal wetland is a jurisdictional wetland that is inundated by tidal waters. Tidal waters rise and fall in a predictable and measurable rhythm or cycle due to the gravitational pulls of the moon and sun. Tidal waters end where the rise and fall of the water surface can no longer be practically measured in a predictable rhythm due to masking by other waters, wind, or other effects. Tidal wetlands are located channelward of the high tide line.

Tribal lands: Any lands title to which is either: 1) held in trust by the United States for the benefit of any Indian tribe or individual; or 2) held by any Indian tribe or individual subject to restrictions by the United States against alienation.

Tribal rights: Those rights legally accruing to a tribe or tribes by virtue of inherent sovereign authority, unextinguished aboriginal title, treaty, statute, judicial decisions, executive order or agreement, and that give rise to legally enforceable remedies.

Vegetated shallows: Vegetated shallows are special aquatic sites under the 404(b)(1) Guidelines. They are areas that are permanently inundated and under normal circumstances have rooted aquatic vegetation, such as seagrasses in marine and estuarine systems and a variety of vascular rooted plants in freshwater systems.

Waterbody: For purposes of the NWPs, a waterbody is a jurisdictional water of the United States. If a wetland is adjacent to a waterbody determined to be a water of the United States, that waterbody and any adjacent wetlands are considered together as a single aquatic unit (see 33 CFR 328.4(c)(2)). Examples of "waterbodies" include streams, rivers, lakes, ponds, and wetlands.

Note: To qualify for NWP authorization, the prospective permittee must comply with the following general conditions, as applicable, in addition to any regional or case-specific conditions imposed by the division engineer or district engineer. Prospective permittees should contact the appropriate Corps district office to determine if regional conditions have been imposed on an NWP. Prospective permittees should also contact the appropriate Corps district office to determine the status of Clean Water Act Section 401 water quality certification and/or Coastal Zone Management Act consistency for an NWP. Every person who may wish to obtain permit authorization under one or more NWPs, or who is currently relying on an existing or prior permit authorization under one or more NWPs, has been and is on notice that all of the provisions of 33 CFR 330.1 through 330.6 apply to every NWP authorization. Note especially 33 CFR 330.5 relating to the modification, suspension, or revocation of any NWP authorization.

1. Navigation. (a) No activity may cause more than a minimal adverse effect on navigation.

(b) Any safety lights and signals prescribed by the U.S. Coast Guard, through regulations or otherwise, must be installed and maintained at the permittee's expense on authorized facilities in navigable waters of the United States.

275

(c) The permittee understands and agrees that, if future operations by the United States require the removal, relocation, or other alteration, of the structure or work herein authorized, or if, in the opinion of the Secretary of the Army or his authorized representative, said structure or work shall cause unreasonable obstruction to the free navigation of the navigable waters, the permittee will be required, upon due notice from the Corps of Engineers, to remove, relocate, or alter the structural work or obstructions caused thereby, without expense to the United States. No claim shall be made against the United States on account of any such removal or alteration.

2. Aquatic Life Movements. No activity may substantially disrupt the necessary life cycle movements of those species of aquatic life indigenous to the waterbody, including those species that normally migrate through the area, unless the activity's primary purpose is to impound water. All permanent and temporary crossings of waterbodies shall be suitably culverted, bridged, or otherwise designed and constructed to maintain low flows to sustain the movement of those aquatic species. If a bottomless culvert cannot be used, then the crossing should be designed and constructed to minimize adverse effects to aquatic life movements.

3. Spawning Areas. Activities in spawning areas during spawning seasons must be avoided to the maximum extent practicable. Activities that result in the physical destruction (e.g., through excavation, fill, or downstream smothering by substantial turbidity) of an important spawning area are not authorized.

4. Migratory Bird Breeding Areas. Activities in waters of the United States that serve as breeding areas for migratory birds must be avoided to the maximum extent practicable.

5. Shellfish Beds. No activity may occur in areas of concentrated shellfish populations, unless the activity is directly related to a shellfish harvesting activity authorized by NWPs 4 and 48, or is a shellfish seeding or habitat restoration activity authorized by NWP 27.

6. Suitable Material. No activity may use unsuitable material (e.g., trash, debris, car bodies, asphalt, etc.). Material used for construction or discharged must be free from toxic pollutants in toxic amounts (see section 307 of the Clean Water Act).

7. Water Supply Intakes. No activity may occur in the proximity of a public water supply intake, except where the activity is for the repair or improvement of public water supply intake structures or adjacent bank stabilization.

8. Adverse Effects From Impoundments. If the activity creates an impoundment of water, adverse effects to the aquatic system due to accelerating the passage of water, and/or restricting its flow must be minimized to the maximum extent practicable.

9. Management of Water Flows. To the maximum extent practicable, the pre-construction course, condition, capacity, and location of open waters must be maintained for each activity, including stream channelization, storm water management activities, and temporary and permanent road crossings, except as provided below. The activity must be constructed to withstand expected high flows. The activity must not restrict or impede the passage of normal or high flows, unless the primary purpose of the activity is to impound water or manage high flows. The activity may alter the pre-construction course, condition, capacity, and location of open waters if it benefits the aquatic environment (e.g., stream restoration or relocation activities).

10. Fills Within 100-Year Floodplains. The activity must comply with applicable FEMA-approved state or local floodplain management requirements.

11. Equipment. Heavy equipment working in wetlands or mudflats must be placed on mats, or other measures must be taken to minimize soil disturbance.

12. Soil Erosion and Sediment Controls. Appropriate soil erosion and sediment controls must be used and maintained in effective operating condition during construction, and all exposed soil and other fills, as well as any work below the ordinary high water mark or high tide line, must be permanently stabilized at the earliest practicable date. Permittees are encouraged to perform work within waters of the United States during periods of low-flow or no-flow, or during low tides.

13. Removal of Temporary Fills. Temporary fills must be removed in their entirety and the affected areas returned to pre-construction elevations. The affected areas must be revegetated, as appropriate.

14. Proper Maintenance. Any authorized structure or fill shall be properly maintained, including maintenance to ensure public safety and compliance with applicable NWP general conditions, as well as any activity-specific conditions added by the district engineer to an NWP authorization.

15. Single and Complete Project. The activity must be a single and complete project. The same NWP cannot be used more than once for the same single and complete project.

16. Wild and Scenic Rivers. (a) No NWP activity may occur in a component of the National Wild and Scenic River System, or in a river officially designated by Congress as a "study river" for possible inclusion in the system while the river is in an official study status, unless the appropriate Federal agency with direct management responsibility for such river, has determined in writing that the proposed activity will not adversely affect the Wild and Scenic River designation or study status.

(b) If a proposed NWP activity will occur in a component of the National Wild and Scenic River System, or in a river officially designated by Congress as a "study river" for possible inclusion in the system while the river is in an official study status, the permittee must submit a pre-construction notification (see general condition 32). The district engineer will coordinate the PCN with the Federal agency with direct management responsibility for that river. The permittee shall not begin the NWP activity until notified by the district engineer that the Federal agency with direct management responsibility for that river has determined in writing that the proposed NWP activity will not adversely affect the Wild and Scenic River designation or study status.

(c) Information on Wild and Scenic Rivers may be obtained from the appropriate Federal land management agency responsible for the designated Wild and Scenic River or study river (e.g., National Park Service, U.S. Forest Service, Bureau of Land Management, U.S. Fish and Wildlife Service). Information on these rivers is also available at: http://www.rivers.gov/.

17. Tribal Rights. No NWP activity may cause more than minimal adverse effects on tribal rights (including treaty rights), protected tribal resources, or tribal lands.

18. Endangered Species. (a) No activity is authorized under any NWP which is likely to directly or indirectly jeopardize the continued existence of a threatened or endangered species or a species proposed for such designation, as identified under the Federal Endangered Species Act (ESA), or which will directly or indirectly destroy or adversely modify the critical habitat of such

277

species. No activity is authorized under any NWP which “may affect” a listed species or critical habitat, unless ESA section 7 consultation addressing the effects of the proposed activity has been completed. Direct effects are the immediate effects on listed species and critical habitat caused by the NWP activity. Indirect effects are those effects on listed species and critical habitat that are caused by the NWP activity and are later in time, but still are reasonably certain to occur.

(b) Federal agencies should follow their own procedures for complying with the requirements of the ESA. If pre-construction notification is required for the proposed activity, the Federal permittee must provide the district engineer with the appropriate documentation to demonstrate compliance with those requirements. The district engineer will verify that the appropriate documentation has been submitted. If the appropriate documentation has not been submitted, additional ESA section 7 consultation may be necessary for the activity and the respective federal agency would be responsible for fulfilling its obligation under section 7 of the ESA.

(c) Non-federal permittees must submit a pre-construction notification to the district engineer if any listed species or designated critical habitat might be affected or is in the vicinity of the activity, or if the activity is located in designated critical habitat, and shall not begin work on the activity until notified by the district engineer that the requirements of the ESA have been satisfied and that the activity is authorized. For activities that might affect Federally-listed endangered or threatened species or designated critical habitat, the pre-construction notification must include the name(s) of the endangered or threatened species that might be affected by the proposed activity or that utilize the designated critical habitat that might be affected by the proposed activity. The district engineer will determine whether the proposed activity “may affect” or will have “no effect” to listed species and designated critical habitat and will notify the non-Federal applicant of the Corps’ determination within 45 days of receipt of a complete pre-construction notification. In cases where the non-Federal applicant has identified listed species or critical habitat that might be affected or is in the vicinity of the activity, and has so notified the Corps, the applicant shall not begin work until the Corps has provided notification that the proposed activity will have “no effect” on listed species or critical habitat, or until ESA section 7 consultation has been completed. If the non-Federal applicant has not heard back from the Corps within 45 days, the applicant must still wait for notification from the Corps.

(d) As a result of formal or informal consultation with the FWS or NMFS the district engineer may add species-specific permit conditions to the NWPs.

(e) Authorization of an activity by an NWP does not authorize the “take” of a threatened or endangered species as defined under the ESA. In the absence of separate authorization (e.g., an ESA Section 10 Permit, a Biological Opinion with “incidental take” provisions, etc.) from the FWS or the NMFS, the Endangered Species Act prohibits any person subject to the jurisdiction of the United States to take a listed species, where "take" means to harass, harm, pursue, hunt, shoot, wound, kill, trap, capture, or collect, or to attempt to engage in any such conduct. The word “harm” in the definition of “take" means an act which actually kills or injures wildlife. Such an act may include significant habitat modification or degradation where it actually kills or injures wildlife by significantly impairing essential behavioral patterns, including breeding, feeding or sheltering.

(f) If the non-federal permittee has a valid ESA section 10(a)(1)(B) incidental take permit with an approved Habitat Conservation Plan for a project or a group of projects that includes the proposed NWP activity, the non-federal applicant should provide a copy of that ESA section 10(a)(1)(B) permit with the PCN required by paragraph (c) of this general condition. The district engineer will coordinate with the agency that issued the ESA section 10(a)(1)(B) permit to

278

determine whether the proposed NWP activity and the associated incidental take were considered in the internal ESA section 7 consultation conducted for the ESA section 10(a)(1)(B) permit. If that coordination results in concurrence from the agency that the proposed NWP activity and the associated incidental take were considered in the internal ESA section 7 consultation for the ESA section 10(a)(1)(B) permit, the district engineer does not need to conduct a separate ESA section 7 consultation for the proposed NWP activity. The district engineer will notify the non-federal applicant within 45 days of receipt of a complete pre-construction notification whether the ESA section 10(a)(1)(B) permit covers the proposed NWP activity or whether additional ESA section 7 consultation is required.

(g) Information on the location of threatened and endangered species and their critical habitat can be obtained directly from the offices of the FWS and NMFS or their world wide web pages at http://www.fws.gov/ or http://www.fws.gov/ipac and http://www.nmfs.noaa.gov/pr/species/esa/ respectively.

19. Migratory Birds and Bald and Golden Eagles. The permittee is responsible for ensuring their action complies with the Migratory Bird Treaty Act and the Bald and Golden Eagle Protection Act. The permittee is responsible for contacting appropriate local office of the U.S. Fish and Wildlife Service to determine applicable measures to reduce impacts to migratory birds or eagles, including whether "incidental take" permits are necessary and available under the Migratory Bird Treaty Act or Bald and Golden Eagle Protection Act for a particular activity.

20. Historic Properties. (a) In cases where the district engineer determines that the activity may have the potential to cause effects to properties listed, or eligible for listing, in the National Register of Historic Places, the activity is not authorized, until the requirements of Section 106 of the National Historic Preservation Act (NHPA) have been satisfied.

(b) Federal permittees should follow their own procedures for complying with the requirements of section 106 of the National Historic Preservation Act. If pre-construction notification is required for the proposed NWP activity, the Federal permittee must provide the district engineer with the appropriate documentation to demonstrate compliance with those requirements. The district engineer will verify that the appropriate documentation has been submitted. If the appropriate documentation is not submitted, then additional consultation under section 106 may be necessary. The respective federal agency is responsible for fulfilling its obligation to comply with section 106.

(c) Non-federal permittees must submit a pre-construction notification to the district engineer if the NWP activity might have the potential to cause effects to any historic properties listed on, determined to be eligible for listing on, or potentially eligible for listing on the National Register of Historic Places, including previously unidentified properties. For such activities, the pre-construction notification must state which historic properties might have the potential to be affected by the proposed NWP activity or include a vicinity map indicating the location of the historic properties or the potential for the presence of historic properties. Assistance regarding information on the location of, or potential for, the presence of historic properties can be sought from the State Historic Preservation Officer, Tribal Historic Preservation Officer, or designated tribal representative, as appropriate, and the National Register of Historic Places (see 33 CFR 330.4(g)). When reviewing pre-construction notifications, district engineers will comply with the current procedures for addressing the requirements of section 106 of the National Historic Preservation Act. The district engineer shall make a reasonable and good faith effort to carry out appropriate identification efforts, which may include background research, consultation, oral history interviews, sample field investigation, and field survey. Based on the information

279

submitted in the PCN and these identification efforts, the district engineer shall determine whether the proposed NWP activity has the potential to cause effects on the historic properties. Section 106 consultation is not required when the district engineer determines that the activity does not have the potential to cause effects on historic properties (see 36 CFR 800.3(a)). Section 106 consultation is required when the district engineer determines that the activity has the potential to cause effects on historic properties. The district engineer will conduct consultation with consulting parties identified under 36 CFR 800.2(c) when he or she makes any of the following effect determinations for the purposes of section 106 of the NHPA: no historic properties affected, no adverse effect, or adverse effect. Where the non-Federal applicant has identified historic properties on which the activity might have the potential to cause effects and so notified the Corps, the non-Federal applicant shall not begin the activity until notified by the district engineer either that the activity has no potential to cause effects to historic properties or that NHPA section 106 consultation has been completed.

(d) For non-federal permittees, the district engineer will notify the prospective permittee within 45 days of receipt of a complete pre-construction notification whether NHPA section 106 consultation is required. If NHPA section 106 consultation is required, the district engineer will notify the non-Federal applicant that he or she cannot begin the activity until section 106 consultation is completed. If the non-Federal applicant has not heard back from the Corps within 45 days, the applicant must still wait for notification from the Corps.

(e) Prospective permittees should be aware that section 110k of the NHPA (54 U.S.C. 306113) prevents the Corps from granting a permit or other assistance to an applicant who, with intent to avoid the requirements of section 106 of the NHPA, has intentionally significantly adversely affected a historic property to which the permit would relate, or having legal power to prevent it, allowed such significant adverse effect to occur, unless the Corps, after consultation with the Advisory Council on Historic Preservation (ACHP), determines that circumstances justify granting such assistance despite the adverse effect created or permitted by the applicant. If circumstances justify granting the assistance, the Corps is required to notify the ACHP and provide documentation specifying the circumstances, the degree of damage to the integrity of any historic properties affected, and proposed mitigation. This documentation must include any views obtained from the applicant, SHPO/THPO, appropriate Indian tribes if the undertaking occurs on or affects historic properties on tribal lands or affects properties of interest to those tribes, and other parties known to have a legitimate interest in the impacts to the permitted activity on historic properties.

21. Discovery of Previously Unknown Remains and Artifacts. If you discover any previously unknown historic, cultural or archeological remains and artifacts while accomplishing the activity authorized by this permit, you must immediately notify the district engineer of what you have found, and to the maximum extent practicable, avoid construction activities that may affect the remains and artifacts until the required coordination has been completed. The district engineer will initiate the Federal, Tribal, and state coordination required to determine if the items or remains warrant a recovery effort or if the site is eligible for listing in the National Register of Historic Places.

22. Designated Critical Resource Waters. Critical resource waters include, NOAA-managed marine sanctuaries and marine monuments, and National Estuarine Research Reserves. The district engineer may designate, after notice and opportunity for public comment, additional waters officially designated by a state as having particular environmental or ecological significance, such as outstanding national resource waters or state natural heritage sites. The district engineer may also designate additional critical resource waters after notice and opportunity for public comment.

(a) Discharges of dredged or fill material into waters of the United States are not authorized by NWPs 7, 12, 14, 16, 17, 21, 29, 31, 35, 39, 40, 42, 43, 44, 49, 50, 51, and 52 for any activity within, or directly affecting, critical resource waters, including wetlands adjacent to such waters.

(b) For NWPs 3, 8, 10, 13, 15, 18, 19, 22, 23, 25, 27, 28, 30, 33, 34, 36, 37, 38, and 54, notification is required in accordance with general condition 32, for any activity proposed in the designated critical resource waters including wetlands adjacent to those waters. The district engineer may authorize activities under these NWPs only after it is determined that the impacts to the critical resource waters will be no more than minimal.

23. Mitigation. The district engineer will consider the following factors when determining appropriate and practicable mitigation necessary to ensure that the individual and cumulative adverse environmental effects are no more than minimal:

(a) The activity must be designed and constructed to avoid and minimize adverse effects, both temporary and permanent, to waters of the United States to the maximum extent practicable at the project site (i.e., on site).

(b) Mitigation in all its forms (avoiding, minimizing, rectifying, reducing, or compensating for resource losses) will be required to the extent necessary to ensure that the individual and cumulative adverse environmental effects are no more than minimal.

(c) Compensatory mitigation at a minimum one-for-one ratio will be required for all wetland losses that exceed 1/10-acre and require pre-construction notification, unless the district engineer determines in writing that either some other form of mitigation would be more environmentally appropriate or the adverse environmental effects of the proposed activity are no more than minimal, and provides an activity-specific waiver of this requirement. For wetland losses of 1/10-acre or less that require pre-construction notification, the district engineer may determine on a case-by-case basis that compensatory mitigation is required to ensure that the activity results in only minimal adverse environmental effects.

(d) For losses of streams or other open waters that require pre-construction notification, the district engineer may require compensatory mitigation to ensure that the activity results in no more than minimal adverse environmental effects. Compensatory mitigation for losses of streams should be provided, if practicable, through stream rehabilitation, enhancement, or preservation, since streams are difficult-to-replace resources (see 33 CFR 332.3(e)(3)).

(e) Compensatory mitigation plans for NWP activities in or near streams or other open waters will normally include a requirement for the restoration or enhancement, maintenance, and legal protection (e.g., conservation easements) of riparian areas next to open waters. In some cases, the restoration or maintenance/protection of riparian areas may be the only compensatory mitigation required. Restored riparian areas should consist of native species. The width of the required riparian area will address documented water quality or aquatic habitat loss concerns. Normally, the riparian area will be 25 to 50 feet wide on each side of the stream, but the district engineer may require slightly wider riparian areas to address documented water quality or habitat loss concerns. If it is not possible to restore or maintain/protect a riparian area on both sides of a stream, or if the waterbody is a lake or coastal waters, then restoring or maintaining/protecting a riparian area along a single bank or shoreline may be sufficient. Where both wetlands and open waters exist on the project site, the district engineer will determine the appropriate compensatory mitigation (e.g., riparian areas and/or wetlands compensation) based on what is best for the aquatic environment on a watershed basis. In cases where riparian areas are determined to be the most

281

appropriate form of minimization or compensatory mitigation, the district engineer may waive or reduce the requirement to provide wetland compensatory mitigation for wetland losses.

(f) Compensatory mitigation projects provided to offset losses of aquatic resources must comply with the applicable provisions of 33 CFR part 332.

(1) The prospective permittee is responsible for proposing an appropriate compensatory mitigation option if compensatory mitigation is necessary to ensure that the activity results in no more than minimal adverse environmental effects. For the NWPs, the preferred mechanism for providing compensatory mitigation is mitigation bank credits or in-lieu fee program credits (see 33 CFR 332.3(b)(2) and (3)). However, if an appropriate number and type of mitigation bank or in-lieu credits are not available at the time the PCN is submitted to the district engineer, the district engineer may approve the use of permittee-responsible mitigation.

(2) The amount of compensatory mitigation required by the district engineer must be sufficient to ensure that the authorized activity results in no more than minimal individual and cumulative adverse environmental effects (see 33 CFR 330.1(e)(3)). (See also 33 CFR 332.3(f)).

(3) Since the likelihood of success is greater and the impacts to potentially valuable uplands are reduced, aquatic resource restoration should be the first compensatory mitigation option considered for permittee-responsible mitigation.

(4) If permittee-responsible mitigation is the proposed option, the prospective permittee is responsible for submitting a mitigation plan. A conceptual or detailed mitigation plan may be used by the district engineer to make the decision on the NWP verification request, but a final mitigation plan that addresses the applicable requirements of 33 CFR 332.4(c)(2) through (14) must be approved by the district engineer before the permittee begins work in waters of the United States, unless the district engineer determines that prior approval of the final mitigation plan is not practicable or not necessary to ensure timely completion of the required compensatory mitigation (see 33 CFR 332.3(k)(3)).

(5) If mitigation bank or in-lieu fee program credits are the proposed option, the mitigation plan only needs to address the baseline conditions at the impact site and the number of credits to be provided.

(6) Compensatory mitigation requirements (e.g., resource type and amount to be provided as compensatory mitigation, site protection, ecological performance standards, monitoring requirements) may be addressed through conditions added to the NWP authorization, instead of components of a compensatory mitigation plan (see 33 CFR 332.4(c)(1)(ii)).

(g) Compensatory mitigation will not be used to increase the acreage losses allowed by the acreage limits of the NWPs. For example, if an NWP has an acreage limit of 1/2-acre, it cannot be used to authorize any NWP activity resulting in the loss of greater than 1/2-acre of waters of the United States, even if compensatory mitigation is provided that replaces or restores some of the lost waters. However, compensatory mitigation can and should be used, as necessary, to ensure that an NWP activity already meeting the established acreage limits also satisfies the no more than minimal impact requirement for the NWPs.

(h) Permittees may propose the use of mitigation banks, in-lieu fee programs, or permittee-responsible mitigation. When developing a compensatory mitigation proposal, the permittee must consider appropriate and practicable options consistent with the framework at 33 CFR 332.3(b).

282

For activities resulting in the loss of marine or estuarine resources, permittee-responsible mitigation may be environmentally preferable if there are no mitigation banks or in-lieu fee programs in the area that have marine or estuarine credits available for sale or transfer to the permittee. For permittee-responsible mitigation, the special conditions of the NWP verification must clearly indicate the party or parties responsible for the implementation and performance of the compensatory mitigation project, and, if required, its long-term management.

(i) Where certain functions and services of waters of the United States are permanently adversely affected by a regulated activity, such as discharges of dredged or fill material into waters of the United States that will convert a forested or scrub-shrub wetland to a herbaceous wetland in a permanently maintained utility line right-of-way, mitigation may be required to reduce the adverse environmental effects of the activity to the no more than minimal level.

24. Safety of Impoundment Structures. To ensure that all impoundment structures are safely designed, the district engineer may require non-Federal applicants to demonstrate that the structures comply with established state dam safety criteria or have been designed by qualified persons. The district engineer may also require documentation that the design has been independently reviewed by similarly qualified persons, and appropriate modifications made to ensure safety.

25. Water Quality. Where States and authorized Tribes, or EPA where applicable, have not previously certified compliance of an NWP with CWA section 401, individual 401 Water Quality Certification must be obtained or waived (see 33 CFR 330.4(c)). The district engineer or State or Tribe may require additional water quality management measures to ensure that the authorized activity does not result in more than minimal degradation of water quality.

26. Coastal Zone Management. In coastal states where an NWP has not previously received a state coastal zone management consistency concurrence, an individual state coastal zone management consistency concurrence must be obtained, or a presumption of concurrence must occur (see 33 CFR 330.4(d)). The district engineer or a State may require additional measures to ensure that the authorized activity is consistent with state coastal zone management requirements.

27. Regional and Case-By-Case Conditions. The activity must comply with any regional conditions that may have been added by the Division Engineer (see 33 CFR 330.4(e)) and with any case specific conditions added by the Corps or by the state, Indian Tribe, or U.S. EPA in its section 401 Water Quality Certification, or by the state in its Coastal Zone Management Act consistency determination.

28. Use of Multiple Nationwide Permits. The use of more than one NWP for a single and complete project is prohibited, except when the acreage loss of waters of the United States authorized by the NWPs does not exceed the acreage limit of the NWP with the highest specified acreage limit. For example, if a road crossing over tidal waters is constructed under NWP 14, with associated bank stabilization authorized by NWP 13, the maximum acreage loss of waters of the United States for the total project cannot exceed 1/3-acre.

29. Transfer of Nationwide Permit Verifications. If the permittee sells the property associated with a nationwide permit verification, the permittee may transfer the nationwide permit verification to the new owner by submitting a letter to the appropriate Corps district office to validate the transfer. A copy of the nationwide permit verification must be attached to the letter, and the letter must contain the following statement and signature:

283

"When the structures or work authorized by this nationwide permit are still in existence at the time the property is transferred, the terms and conditions of this nationwide permit, including any special conditions, will continue to be binding on the new owner(s) of the property. To validate the transfer of this nationwide permit and the associated liabilities associated with compliance with its terms and conditions, have the transferee sign and date below."

_____

(Transferee)

_____

(Date)

30. Compliance Certification. Each permittee who receives an NWP verification letter from the Corps must provide a signed certification documenting completion of the authorized activity and implementation of any required compensatory mitigation. The success of any required permittee-responsible mitigation, including the achievement of ecological performance standards, will be addressed separately by the district engineer. The Corps will provide the permittee the certification document with the NWP verification letter. The certification document will include:

(a) A statement that the authorized activity was done in accordance with the NWP authorization, including any general, regional, or activity-specific conditions;

(b) A statement that the implementation of any required compensatory mitigation was completed in accordance with the permit conditions. If credits from a mitigation bank or in-lieu fee program are used to satisfy the compensatory mitigation requirements, the certification must include the documentation required by 33 CFR 332.3(l)(3) to confirm that the permittee secured the appropriate number and resource type of credits; and

(c) The signature of the permittee certifying the completion of the activity and mitigation.

The completed certification document must be submitted to the district engineer within 30 days of completion of the authorized activity or the implementation of any required compensatory mitigation, whichever occurs later.

31. Activities Affecting Structures or Works Built by the United States. If an NWP activity also requires permission from the Corps pursuant to 33 U.S.C. 408 because it will alter or temporarily or permanently occupy or use a U.S. Army Corps of Engineers (USACE) federally authorized Civil Works project (a "USACE project"), the prospective permittee must submit a pre-construction notification. See paragraph (b)(10) of general condition 32. An activity that requires section 408 permission is not authorized by NWP until the appropriate Corps office issues the section 408 permission to alter, occupy, or use the USACE project, and the district engineer issues a written NWP verification.

32. Pre-Construction Notification. (a) Timing. Where required by the terms of the NWP, the prospective permittee must notify the district engineer by submitting a pre-construction notification (PCN) as early as possible. The district engineer must determine if the PCN is complete within 30 calendar days of the date of receipt and, if the PCN is determined to be incomplete, notify the prospective permittee within that 30 day period to request the additional information necessary to make the PCN complete. The request must specify the information needed to make the PCN

complete. As a general rule, district engineers will request additional information necessary to make the PCN complete only once. However, if the prospective permittee does not provide all of the requested information, then the district engineer will notify the prospective permittee that the PCN is still incomplete and the PCN review process will not commence until all of the requested information has been received by the district engineer. The prospective permittee shall not begin the activity until either:

(1) He or she is notified in writing by the district engineer that the activity may proceed under the NWP with any special conditions imposed by the district or division engineer; or

(2) 45 calendar days have passed from the district engineer's receipt of the complete PCN and the prospective permittee has not received written notice from the district or division engineer. However, if the permittee was required to notify the Corps pursuant to general condition 18 that listed species or critical habitat might be affected or are in the vicinity of the activity, or to notify the Corps pursuant to general condition 20 that the activity might have the potential to cause effects to historic properties, the permittee cannot begin the activity until receiving written notification from the Corps that there is "no effect" on listed species or "no potential to cause effects" on historic properties, or that any consultation required under Section 7 of the Endangered Species Act (see 33 CFR 330.4(f)) and/or section 106 of the National Historic Preservation Act (see 33 CFR 330.4(g)) has been completed. Also, work cannot begin under NWPs 21, 49, or 50 until the permittee has received written approval from the Corps. If the proposed activity requires a written waiver to exceed specified limits of an NWP, the permittee may not begin the activity until the district engineer issues the waiver. If the district or division engineer notifies the permittee in writing that an individual permit is required within 45 calendar days of receipt of a complete PCN, the permittee cannot begin the activity until an individual permit has been obtained. Subsequently, the permittee's right to proceed under the NWP may be modified, suspended, or revoked only in accordance with the procedure set forth in 33 CFR 330.5(d)(2).

(b) Contents of Pre-Construction Notification: The PCN must be in writing and include the following information:

(1) Name, address and telephone numbers of the prospective permittee;

(2) Location of the proposed activity;

(3) Identify the specific NWP or NWP(s) the prospective permittee wants to use to authorize the proposed activity;

(4) A description of the proposed activity; the activity's purpose; direct and indirect adverse environmental effects the activity would cause, including the anticipated amount of loss of wetlands, other special aquatic sites, and other waters expected to result from the NWP activity, in acres, linear feet, or other appropriate unit of measure; a description of any proposed mitigation measures intended to reduce the adverse environmental effects caused by the proposed activity; and any other NWP(s), regional general permit(s), or individual permit(s) used or intended to be used to authorize any part of the proposed project or any related activity, including other separate and distant crossings for linear projects that require Department of the Army authorization but do not require pre-construction notification. The description of the proposed activity and any proposed mitigation measures should be sufficiently detailed to allow the district engineer to determine that the adverse environmental effects of the activity will be no more than minimal and to determine the need for compensatory mitigation or other mitigation measures. For single and complete linear projects, the PCN must include the quantity of anticipated losses of wetlands, other special aquatic

285

sites, and other waters for each single and complete crossing of those wetlands, other special aquatic sites, and other waters. Sketches should be provided when necessary to show that the activity complies with the terms of the NWP. (Sketches usually clarify the activity and when provided results in a quicker decision. Sketches should contain sufficient detail to provide an illustrative description of the proposed activity (e.g., a conceptual plan), but do not need to be detailed engineering plans);

(5) The PCN must include a delineation of wetlands, other special aquatic sites, and other waters, such as lakes and ponds, and perennial, intermittent, and ephemeral streams, on the project site. Wetland delineations must be prepared in accordance with the current method required by the Corps. The permittee may ask the Corps to delineate the special aquatic sites and other waters on the project site, but there may be a delay if the Corps does the delineation, especially if the project site is large or contains many wetlands, other special aquatic sites, and other waters. Furthermore, the 45 day period will not start until the delineation has been submitted to or completed by the Corps, as appropriate;

(6) If the proposed activity will result in the loss of greater than 1/10-acre of wetlands and a PCN is required, the prospective permittee must submit a statement describing how the mitigation requirement will be satisfied, or explaining why the adverse environmental effects are no more than minimal and why compensatory mitigation should not be required. As an alternative, the prospective permittee may submit a conceptual or detailed mitigation plan.

(7) For non-Federal permittees, if any listed species or designated critical habitat might be affected or is in the vicinity of the activity, or if the activity is located in designated critical habitat, the PCN must include the name(s) of those endangered or threatened species that might be affected by the proposed activity or utilize the designated critical habitat that might be affected by the proposed activity. For NWP activities that require pre-construction notification, Federal permittees must provide documentation demonstrating compliance with the Endangered Species Act;

(8) For non-Federal permittees, if the NWP activity might have the potential to cause effects to a historic property listed on, determined to be eligible for listing on, or potentially eligible for listing on, the National Register of Historic Places, the PCN must state which historic property might have the potential to be affected by the proposed activity or include a vicinity map indicating the location of the historic property. For NWP activities that require pre-construction notification, Federal permittees must provide documentation demonstrating compliance with section 106 of the National Historic Preservation Act;

(9) For an activity that will occur in a component of the National Wild and Scenic River System, or in a river officially designated by Congress as a "study river" for possible inclusion in the system while the river is in an official study status, the PCN must identify the Wild and Scenic River or the "study river" (see general condition 16); and

(10) For an activity that requires permission from the Corps pursuant to 33 U.S.C. 408 because it will alter or temporarily or permanently occupy or use a U.S. Army Corps of Engineers federally authorized civil works project, the pre-construction notification must include a statement confirming that the project proponent has submitted a written request for section 408 permission from the Corps office having jurisdiction over that USACE project.

(c) Form of Pre-Construction Notification: The standard individual permit application form (Form ENG 4345) may be used, but the completed application form must clearly indicate that it is an NWP PCN and must include all of the applicable information required in paragraphs (b)(1)

286

through (10) of this general condition. A letter containing the required information may also be used. Applicants may provide electronic files of PCNs and supporting materials if the district engineer has established tools and procedures for electronic submittals.

(d) Agency Coordination: (1) The district engineer will consider any comments from Federal and state agencies concerning the proposed activity's compliance with the terms and conditions of the NWPs and the need for mitigation to reduce the activity's adverse environmental effects so that they are no more than minimal.

(2) Agency coordination is required for: (i) all NWP activities that require pre-construction notification and result in the loss of greater than 1/2-acre of waters of the United States; (ii) NWP 21, 29, 39, 40, 42, 43, 44, 50, 51, and 52 activities that require pre-construction notification and will result in the loss of greater than 300 linear feet of stream bed; (iii) NWP 13 activities in excess of 500 linear feet, fills greater than one cubic yard per running foot, or involve discharges of dredged or fill material into special aquatic sites; and (iv) NWP 54 activities in excess of 500 linear feet, or that extend into the waterbody more than 30 feet from the mean low water line in tidal waters or the ordinary high water mark in the Great Lakes.

(3) When agency coordination is required, the district engineer will immediately provide (e.g., via e-mail, facsimile transmission, overnight mail, or other expeditious manner) a copy of the complete PCN to the appropriate Federal or state offices (FWS, state natural resource or water quality agency, EPA, and, if appropriate, the NMFS). With the exception of NWP 37, these agencies will have 10 calendar days from the date the material is transmitted to notify the district engineer via telephone, facsimile transmission, or e-mail that they intend to provide substantive, site-specific comments. The comments must explain why the agency believes the adverse environmental effects will be more than minimal. If so contacted by an agency, the district engineer will wait an additional 15 calendar days before making a decision on the pre-construction notification. The district engineer will fully consider agency comments received within the specified time frame concerning the proposed activity's compliance with the terms and conditions of the NWPs, including the need for mitigation to ensure the net adverse environmental effects of the proposed activity are no more than minimal. The district engineer will provide no response to the resource agency, except as provided below. The district engineer will indicate in the administrative record associated with each pre-construction notification that the resource agencies' concerns were considered. For NWP 37, the emergency watershed protection and rehabilitation activity may proceed immediately in cases where there is an unacceptable hazard to life or a significant loss of property or economic hardship will occur. The district engineer will consider any comments received to decide whether the NWP 37 authorization should be modified, suspended, or revoked in accordance with the procedures at 33 CFR 330.5.

(4) In cases of where the prospective permittee is not a Federal agency, the district engineer will provide a response to NMFS within 30 calendar days of receipt of any Essential Fish Habitat conservation recommendations, as required by section 305(b)(4)(B) of the Magnuson-Stevens Fishery Conservation and Management Act.

(5) Applicants are encouraged to provide the Corps with either electronic files or multiple copies of pre-construction notifications to expedite agency coordination.

D. District Engineer's Decision

1. In reviewing the PCN for the proposed activity, the district engineer will determine whether the activity authorized by the NWP will result in more than minimal individual or cumulative adverse environmental effects or may be contrary to the public interest. If a project

287

proponent requests authorization by a specific NWP, the district engineer should issue the NWP verification for that activity if it meets the terms and conditions of that NWP, unless he or she determines, after considering mitigation, that the proposed activity will result in more than minimal individual and cumulative adverse effects on the aquatic environment and other aspects of the public interest and exercises discretionary authority to require an individual permit for the proposed activity. For a linear project, this determination will include an evaluation of the individual crossings of waters of the United States to determine whether they individually satisfy the terms and conditions of the NWP(s), as well as the cumulative effects caused by all of the crossings authorized by NWP. If an applicant requests a waiver of the 300 linear foot limit on impacts to streams or of an otherwise applicable limit, as provided for in NWPs 13, 21, 29, 36, 39, 40, 42, 43, 44, 50, 51, 52, or 54, the district engineer will only grant the waiver upon a written determination that the NWP activity will result in only minimal individual and cumulative adverse environmental effects. For those NWPs that have a waivable 300 linear foot limit for losses of intermittent and ephemeral stream bed and a 1/2-acre limit (i.e., NWPs 21, 29, 39, 40, 42, 43, 44, 50, 51, and 52), the loss of intermittent and ephemeral stream bed, plus any other losses of jurisdictional waters and wetlands, cannot exceed 1/2-acre.

2. When making minimal adverse environmental effects determinations the district engineer will consider the direct and indirect effects caused by the NWP activity. He or she will also consider the cumulative adverse environmental effects caused by activities authorized by NWP and whether those cumulative adverse environmental effects are no more than minimal. The district engineer will also consider site specific factors, such as the environmental setting in the vicinity of the NWP activity, the type of resource that will be affected by the NWP activity, the functions provided by the aquatic resources that will be affected by the NWP activity, the degree or magnitude to which the aquatic resources perform those functions, the extent that aquatic resource functions will be lost as a result of the NWP activity (e.g., partial or complete loss), the duration of the adverse effects (temporary or permanent), the importance of the aquatic resource functions to the region (e.g., watershed or ecoregion), and mitigation required by the district engineer. If an appropriate functional or condition assessment method is available and practicable to use, that assessment method may be used by the district engineer to assist in the minimal adverse environmental effects determination. The district engineer may add case-specific special conditions to the NWP authorization to address site-specific environmental concerns.

3. If the proposed activity requires a PCN and will result in a loss of greater than 1/10-acre of wetlands, the prospective permittee should submit a mitigation proposal with the PCN. Applicants may also propose compensatory mitigation for NWP activities with smaller impacts, or for impacts to other types of waters (e.g., streams). The district engineer will consider any proposed compensatory mitigation or other mitigation measures the applicant has included in the proposal in determining whether the net adverse environmental effects of the proposed activity are no more than minimal. The compensatory mitigation proposal may be either conceptual or detailed. If the district engineer determines that the activity complies with the terms and conditions of the NWP and that the adverse environmental effects are no more than minimal, after considering mitigation, the district engineer will notify the permittee and include any activity-specific conditions in the NWP verification the district engineer deems necessary. Conditions for compensatory mitigation requirements must comply with the appropriate provisions at 33 CFR 332.3(k). The district engineer must approve the final mitigation plan before the permittee commences work in waters of the United States, unless the district engineer determines that prior approval of the final mitigation plan is not practicable or not necessary to ensure timely completion of the required compensatory mitigation. If the prospective permittee elects to submit a compensatory mitigation plan with the PCN, the district engineer will expeditiously review the proposed compensatory mitigation plan. The district engineer must review the proposed compensatory mitigation plan within 45 calendar

288

days of receiving a complete PCN and determine whether the proposed mitigation would ensure the NWP activity results in no more than minimal adverse environmental effects. If the net adverse environmental effects of the NWP activity (after consideration of the mitigation proposal) are determined by the district engineer to be no more than minimal, the district engineer will provide a timely written response to the applicant. The response will state that the NWP activity can proceed under the terms and conditions of the NWP, including any activity-specific conditions added to the NWP authorization by the district engineer.

4. If the district engineer determines that the adverse environmental effects of the proposed activity are more than minimal, then the district engineer will notify the applicant either: (a) that the activity does not qualify for authorization under the NWP and instruct the applicant on the procedures to seek authorization under an individual permit; (b) that the activity is authorized under the NWP subject to the applicant's submission of a mitigation plan that would reduce the adverse environmental effects so that they are no more than minimal; or (c) that the activity is authorized under the NWP with specific modifications or conditions. Where the district engineer determines that mitigation is required to ensure no more than minimal adverse environmental effects, the activity will be authorized within the 45-day PCN period (unless additional time is required to comply with general conditions 18, 20, and/or 31, or to evaluate PCNs for activities authorized by NWPs 21, 49, and 50), with activity-specific conditions that state the mitigation requirements. The authorization will include the necessary conceptual or detailed mitigation plan or a requirement that the applicant submit a mitigation plan that would reduce the adverse environmental effects so that they are no more than minimal. When compensatory mitigation is required, no work in waters of the United States may occur until the district engineer has approved a specific mitigation plan or has determined that prior approval of a final mitigation plan is not practicable or not necessary to ensure timely completion of the required compensatory mitigation.

E. Further Information

1. District Engineers have authority to determine if an activity complies with the terms and conditions of an NWP.

2. NWPs do not obviate the need to obtain other federal, state, or local permits, approvals, or authorizations required by law.

3. NWPs do not grant any property rights or exclusive privileges.

4. NWPs do not authorize any injury to the property or rights of others.

5. NWPs do not authorize interference with any existing or proposed Federal project (see general condition 31).

F. Definitions

Best management practices (BMPs): Policies, practices, procedures, or structures implemented to mitigate the adverse environmental effects on surface water quality resulting from development. BMPs are categorized as structural or non-structural.

Compensatory mitigation: The restoration (re-establishment or rehabilitation), establishment (creation), enhancement, and/or in certain circumstances preservation of aquatic resources for the purposes of offsetting unavoidable adverse impacts which remain after all appropriate and practicable avoidance and minimization has been achieved.

Currently serviceable: Useable as is or with some maintenance, but not so degraded as to essentially require reconstruction.

Direct effects: Effects that are caused by the activity and occur at the same time and place.

Discharge: The term "discharge" means any discharge of dredged or fill material into waters of the United States.

Ecological reference: A model used to plan and design an aquatic habitat and riparian area restoration, enhancement, or establishment activity under NWP 27. An ecological reference may be based on the structure, functions, and dynamics of an aquatic habitat type or a riparian area type that currently exists in the region where the proposed NWP 27 activity is located. Alternatively, an ecological reference may be based on a conceptual model for the aquatic habitat type or riparian area type to be restored, enhanced, or established as a result of the proposed NWP 27 activity. An ecological reference takes into account the range of variation of the aquatic habitat type or riparian area type in the region.

Enhancement: The manipulation of the physical, chemical, or biological characteristics of an aquatic resource to heighten, intensify, or improve a specific aquatic resource function(s). Enhancement results in the gain of selected aquatic resource function(s), but may also lead to a decline in other aquatic resource function(s). Enhancement does not result in a gain in aquatic resource area.

Ephemeral stream: An ephemeral stream has flowing water only during, and for a short duration after, precipitation events in a typical year. Ephemeral stream beds are located above the water table year-round. Groundwater is not a source of water for the stream. Runoff from rainfall is the primary source of water for stream flow.

Establishment (creation): The manipulation of the physical, chemical, or biological characteristics present to develop an aquatic resource that did not previously exist at an upland site. Establishment results in a gain in aquatic resource area.

High Tide Line: The line of intersection of the land with the water's surface at the maximum height reached by a rising tide. The high tide line may be determined, in the absence of actual data, by a line of oil or scum along shore objects, a more or less continuous deposit of fine shell or debris on the foreshore or berm, other physical markings or characteristics, vegetation lines, tidal gages, or other suitable means that delineate the general height reached by a rising tide. The line encompasses spring high tides and other high tides that occur with periodic frequency but does not include storm surges in which there is a departure from the normal or predicted reach of the tide due to the piling up of water against a coast by strong winds such as those accompanying a hurricane or other intense storm.

Historic Property: Any prehistoric or historic district, site (including archaeological site), building, structure, or other object included in, or eligible for inclusion in, the National Register of Historic Places maintained by the Secretary of the Interior. This term includes artifacts, records, and remains that are related to and located within such properties. The term includes properties of traditional religious and cultural importance to an Indian tribe or Native Hawaiian organization and that meet the National Register criteria (36 CFR part 60).

Independent utility: A test to determine what constitutes a single and complete non-linear project in the Corps Regulatory Program. A project is considered to have independent utility if it would be constructed absent the construction of other projects in the project area. Portions of a multi-phase project that depend upon other phases of the project do not have independent utility.

290

Phases of a project that would be constructed even if the other phases were not built can be considered as separate single and complete projects with independent utility.

Indirect effects: Effects that are caused by the activity and are later in time or farther removed in distance, but are still reasonably foreseeable.

Intermittent stream: An intermittent stream has flowing water during certain times of the year, when groundwater provides water for stream flow. During dry periods, intermittent streams may not have flowing water. Runoff from rainfall is a supplemental source of water for stream flow.

Loss of waters of the United States: Waters of the United States that are permanently adversely affected by filling, flooding, excavation, or drainage because of the regulated activity. Permanent adverse effects include permanent discharges of dredged or fill material that change an aquatic area to dry land, increase the bottom elevation of a waterbody, or change the use of a waterbody. The acreage of loss of waters of the United States is a threshold measurement of the impact to jurisdictional waters for determining whether a project may qualify for an NWP; it is not a net threshold that is calculated after considering compensatory mitigation that may be used to offset losses of aquatic functions and services. The loss of stream bed includes the acres or linear feet of stream bed that are filled or excavated as a result of the regulated activity. Waters of the United States temporarily filled, flooded, excavated, or drained, but restored to pre-construction contours and elevations after construction, are not included in the measurement of loss of waters of the United States. Impacts resulting from activities that do not require Department of the Army authorization, such as activities eligible for exemptions under section 404(f) of the Clean Water Act, are not considered when calculating the loss of waters of the United States.

Navigable waters: Waters subject to section 10 of the Rivers and Harbors Act of 1899. These waters are defined at 33 CFR part 329.

Non-tidal wetland: A non-tidal wetland is a wetland that is not subject to the ebb and flow of tidal waters. Non-tidal wetlands contiguous to tidal waters are located landward of the high tide line (i.e., spring high tide line).

Open water: For purposes of the NWPs, an open water is any area that in a year with normal patterns of precipitation has water flowing or standing above ground to the extent that an ordinary high water mark can be determined. Aquatic vegetation within the area of flowing or standing water is either non-emergent, sparse, or absent. Vegetated shallows are considered to be open waters. Examples of "open waters" include rivers, streams, lakes, and ponds.

Ordinary High Water Mark: An ordinary high water mark is a line on the shore established by the fluctuations of water and indicated by physical characteristics, or by other appropriate means that consider the characteristics of the surrounding areas.

Perennial stream: A perennial stream has flowing water year-round during a typical year. The water table is located above the stream bed for most of the year. Groundwater is the primary source of water for stream flow. Runoff from rainfall is a supplemental source of water for stream flow.

Practicable: Available and capable of being done after taking into consideration cost, existing technology, and logistics in light of overall project purposes.

291

Pre-construction notification: A request submitted by the project proponent to the Corps for confirmation that a particular activity is authorized by nationwide permit. The request may be a permit application, letter, or similar document that includes information about the proposed work and its anticipated environmental effects. Pre-construction notification may be required by the terms and conditions of a nationwide permit, or by regional conditions. A pre-construction notification may be voluntarily submitted in cases where pre-construction notification is not required and the project proponent wants confirmation that the activity is authorized by nationwide permit.

Preservation: The removal of a threat to, or preventing the decline of, aquatic resources by an action in or near those aquatic resources. This term includes activities commonly associated with the protection and maintenance of aquatic resources through the implementation of appropriate legal and physical mechanisms. Preservation does not result in a gain of aquatic resource area or functions.

Protected tribal resources: Those natural resources and properties of traditional or customary religious or cultural importance, either on or off Indian lands, retained by, or reserved by or for, Indian tribes through treaties, statutes, judicial decisions, or executive orders, including tribal trust resources.

Re-establishment: The manipulation of the physical, chemical, or biological characteristics of a site with the goal of returning natural/historic functions to a former aquatic resource. Re-establishment results in rebuilding a former aquatic resource and results in a gain in aquatic resource area and functions.

Rehabilitation: The manipulation of the physical, chemical, or biological characteristics of a site with the goal of repairing natural/historic functions to a degraded aquatic resource. Rehabilitation results in a gain in aquatic resource function, but does not result in a gain in aquatic resource area.

Restoration: The manipulation of the physical, chemical, or biological characteristics of a site with the goal of returning natural/historic functions to a former or degraded aquatic resource. For the purpose of tracking net gains in aquatic resource area, restoration is divided into two categories: re-establishment and rehabilitation.

Riffle and pool complex: Riffle and pool complexes are special aquatic sites under the 404(b)(1) Guidelines. Riffle and pool complexes sometimes characterize steep gradient sections of streams. Such stream sections are recognizable by their hydraulic characteristics. The rapid movement of water over a course substrate in riffles results in a rough flow, a turbulent surface, and high dissolved oxygen levels in the water. Pools are deeper areas associated with riffles. A slower stream velocity, a streaming flow, a smooth surface, and a finer substrate characterize pools.

Riparian areas: Riparian areas are lands next to streams, lakes, and estuarine-marine shorelines. Riparian areas are transitional between terrestrial and aquatic ecosystems, through which surface and subsurface hydrology connects riverine, lacustrine, estuarine, and marine waters with their adjacent wetlands, non-wetland waters, or uplands. Riparian areas provide a variety of ecological functions and services and help improve or maintain local water quality. (See general condition 23.)

Shellfish seeding: The placement of shellfish seed and/or suitable substrate to increase shellfish production. Shellfish seed consists of immature individual shellfish or individual shellfish

292

attached to shells or shell fragments (i.e., spat on shell). Suitable substrate may consist of shellfish shells, shell fragments, or other appropriate materials placed into waters for shellfish habitat.

Single and complete linear project: A linear project is a project constructed for the purpose of getting people, goods, or services from a point of origin to a terminal point, which often involves multiple crossings of one or more waterbodies at separate and distant locations. The term "single and complete project" is defined as that portion of the total linear project proposed or accomplished by one owner/developer or partnership or other association of owners/developers that includes all crossings of a single water of the United States (i.e., a single waterbody) at a specific location. For linear projects crossing a single or multiple waterbodies several times at separate and distant locations, each crossing is considered a single and complete project for purposes of NWP authorization. However, individual channels in a braided stream or river, or individual arms of a large, irregularly shaped wetland or lake, etc., are not separate waterbodies, and crossings of such features cannot be considered separately.

Single and complete non-linear project: For non-linear projects, the term "single and complete project" is defined at 33 CFR 330.2(i) as the total project proposed or accomplished by one owner/developer or partnership or other association of owners/developers. A single and complete non-linear project must have independent utility (see definition of "independent utility"). Single and complete non-linear projects may not be "piecemealed" to avoid the limits in an NWP authorization.

Stormwater management: Stormwater management is the mechanism for controlling stormwater runoff for the purposes of reducing downstream erosion, water quality degradation, and flooding and mitigating the adverse effects of changes in land use on the aquatic environment.

Stormwater management facilities: Stormwater management facilities are those facilities, including but not limited to, stormwater retention and detention ponds and best management practices, which retain water for a period of time to control runoff and/or improve the quality (i.e., by reducing the concentration of nutrients, sediments, hazardous substances and other pollutants) of stormwater runoff.

Stream bed: The substrate of the stream channel between the ordinary high water marks. The substrate may be bedrock or inorganic particles that range in size from clay to boulders. Wetlands contiguous to the stream bed, but outside of the ordinary high water marks, are not considered part of the stream bed.

Stream channelization: The manipulation of a stream's course, condition, capacity, or location that causes more than minimal interruption of normal stream processes. A channelized stream remains a water of the United States.

Structure: An object that is arranged in a definite pattern of organization. Examples of structures include, without limitation, any pier, boat dock, boat ramp, wharf, dolphin, weir, boom, breakwater, bulkhead, revetment, riprap, jetty, artificial island, artificial reef, permanent mooring structure, power transmission line, permanently moored floating vessel, piling, aid to navigation, or any other manmade obstacle or obstruction.

Tidal wetland: A tidal wetland is a jurisdictional wetland that is inundated by tidal waters. Tidal waters rise and fall in a predictable and measurable rhythm or cycle due to the gravitational pulls of the moon and sun. Tidal waters end where the rise and fall of the water surface can no

longer be practically measured in a predictable rhythm due to masking by other waters, wind, or other effects. Tidal wetlands are located channelward of the high tide line.

Tribal lands: Any lands title to which is either: 1) held in trust by the United States for the benefit of any Indian tribe or individual; or 2) held by any Indian tribe or individual subject to restrictions by the United States against alienation.

Tribal rights: Those rights legally accruing to a tribe or tribes by virtue of inherent sovereign authority, unextinguished aboriginal title, treaty, statute, judicial decisions, executive order or agreement, and that give rise to legally enforceable remedies.

Vegetated shallows: Vegetated shallows are special aquatic sites under the 404(b)(1) Guidelines. They are areas that are permanently inundated and under normal circumstances have rooted aquatic vegetation, such as seagrasses in marine and estuarine systems and a variety of vascular rooted plants in freshwater systems.

Waterbody: For purposes of the NWPs, a waterbody is a jurisdictional water of the United States. If a wetland is adjacent to a waterbody determined to be a water of the United States, that waterbody and any adjacent wetlands are considered together as a single aquatic unit (see 33 CFR 328.4(c)(2)). Examples of "waterbodies" include streams, rivers, lakes, ponds, and wetlands.

ADDITIONAL INFORMATION

This nationwide permit is effective March 19, 2017, and expires on March 18, 2022.

Information about the U.S. Army Corps of Engineers regulatory program, including nationwide permits, may also be found at http://www.swf.usace.army.mil/Missions/Regulatory.aspx and http://www.usace.army.mil/Missions/CivilWorks/RegulatoryProgramandPermits.aspx

2017 NATIONWIDE PERMIT (NWP) REGIONAL CONDITIONS

FOR THE STATE OF TEXAS

The following regional conditions apply within the entire State of Texas:

1. For all discharges proposed for authorization under Nationwide Permits (NWP) 3, 6, 7, 12, 14, 18, 19, 21, 23, 25, 27, 29, 39, 40, 41, 42, 43, 44, 49, 51, and 52, into the following habitat types or specific areas, the applicant shall notify the appropriate District Engineer in accordance with the NWP General Condition 32, Pre-Construction Notification (PCN). The Corps of Engineers (Corps) will coordinate with the resource agencies as specified in NWP General Condition 32(d) (PCN). The habitat types or areas are:

    a. Pitcher Plant Bogs: Wetlands typically characterized by an organic surface soil layer and include vegetation such as pitcher plants (*Sarracenia* spp.) and/or sundews (*Drosera* spp.).

    b. Bald Cypress-Tupelo Swamps: Wetlands dominated by bald cypress (*Taxodium distichum*) and/or water tupelo (*Nyssa aquatic*).

2. For all activities proposed for authorization under any Nationwide Permit (NWP) at sites approved as compensatory mitigation sites (either permittee-responsible, mitigation bank and/or in-lieu fee) under Section 404 of the Clean Water Act and/or Section 10 of the Rivers and Harbors Act of 1899, the applicant shall notify the appropriate District Engineer in accordance with the NWP General Condition 32 - Pre-Construction Notification prior to commencing the activity.

3. For all activities proposed for authorization under NWP 16, the applicant shall notify the appropriate District Engineer in accordance with the NWP General Condition 32 (Pre-Construction Notification) and must obtain an individual water quality certification (WQC) from the TCEQ. Work cannot begin under NWP 16 until the applicant has received written approval from the Corps and WQC.

NOTE: For all activities proposing to use equipment that has operated or been stored in a water body on the Texas list of zebra mussel (*Dreissena polymorpha*) infected water bodies, equipment should be decontaminated prior to relocation in accordance with Texas Administrative Code, Title 31, Part 2, Chapter 57, Subchapter A. The following decontamination Best Management Practices (BMPs), as a minimum, are indicated:

    a. Clean: Clean both the inside and outside of equipment and gear, by removing all plants, animals, and mud and thoroughly washing the equipment using a high pressure spray nozzle.

    b. Drain: Drain all water from receptacles before leaving the area, including livewells, bilges, ballast, and engine cooling water on boats.

    c. Dry: Allow time for your equipment to dry completely before relocating in other waters. Equipment should be dried prior to relocation. High temperature pressure washing (greater than or equal to 140F) or professional cleaning may be substituted for drying time.

The following regional condition only applies within the Albuquerque, Fort Worth, and Galveston Districts:

4. For all activities proposed for authorization under Nationwide Permit (NWP) 12 that involve a discharge of fill material associated with mechanized land clearing of wetlands dominated by native woody shrubs, the applicant shall notify the appropriate District Engineer in accordance with the NWP General Condition 32 – Pre-Construction Notification prior to commencing the activity. For the purpose of this regional condition, a shrub dominated wetland is characterized by woody vegetation less than 3.0 inches in diameter at breast height but greater than 3.2 feet in height, which covers 20% or more of the area. Woody vines are not included.

The following regional conditions apply within the Albuquerque District.

5. Nationwide Permit (NWP) 23 – Approved Categorical Exclusions. A pre-construction notification (PCN) to the District Engineer in accordance with General Condition 32 - PCN is required for all proposed activities under NWP 23.

6. Nationwide Permit (NWP) 27 – Aquatic Habitat Restoration, Establishment, and Enhancement Activities. For all proposed activities under NWP 27 that require pre-construction notification, a monitoring plan commensurate with the scale of the proposed restoration project and the potential for risk to the aquatic environment must be submitted to the Corps. (See “NWP 27 Guidelines” at http://www.spa.usace.army.mil/Missions/RegulatoryProgramandPermits/NWP.aspx).

7. Channelization. Nationwide Permit (NWP) General Condition 9 for Management of Water Flows is amended to add the following: Projects that would result in permanent channelization to previously un-channelized streams require pre-construction notification to the Albuquerque District Engineer in accordance with NWP General Condition 32 – Pre-Construction Notification.

8. Dredge and Fill Activities in Intermittent and Perennial Streams, and Special Aquatic Sites: For all activities subject to regulation under the Clean Water Act Section 404 in intermittent and perennial streams, and special aquatic sites (including wetlands, riffle and pool complexes, and sanctuaries and refuges), pre-construction notification (PCN) to the Albuquerque District Engineer is required in accordance with Nationwide Permit General Condition 32 - PCN.

9. Springs. For all discharges of dredged or fill material within 100 feet of the point of groundwater discharge of natural springs located in an aquatic resource, a pre-construction notification (PCN) is required to the Albuquerque District Engineer in accordance with Nationwide Permit General Condition 32 - PCN. A natural spring is defined as any location where ground water emanates from a point in the ground and has a defined surface water connection to another waters of the United States. For purposes of this regional condition, springs do not include seeps or other groundwater discharges which lack a defined surface water connection.

10. Suitable Fill. Use of broken concrete as fill or bank stabilization material is prohibited unless the applicant demonstrates that its use is the only practicable material (with respect to cost, existing technology, and logistics). Any applicant who wishes to use broken concrete as bank stabilization must provide notification to the Albuquerque District Engineer in accordance with Nationwide Permit General Condition 32 - Pre-Construction Notification along with justification for such use. Use of broken concrete with rebar or used tires (loose or formed into bales) is prohibited in all waters of the United States.

The following regional conditions apply only within the Fort Worth District.

11. For all discharges proposed for authorization under all Nationwide Permits (NWP) into the area of Caddo Lake within Texas that is designated as a "Wetland of International Importance" under the Ramsar Convention, the applicant shall notify the Fort Worth District Engineer in accordance with the NWP General Condition 32 – Pre-Construction Notification (PCN). The Fort Worth District will coordinate with the resource agencies as specified in NWP General Condition 32(d) - PCN.

12. Compensatory mitigation is generally required for losses of waters of the United States that exceed 1/10 acre and/or for all losses to streams that exceed 300 linear feet. Loss is defined in Section F of the Nationwide Permits (NWP). Mitigation thresholds are cumulative irrespective of aquatic resource type at each single and complete crossing. Compensatory mitigation requirements will be determined in accordance with the appropriate district standard operating procedures and processes. The applicant shall notify the Fort Worth District Engineer in accordance with the NWP General Condition 32 - Pre-Construction Notification prior to commencing the activity.

13. For all activities proposed for authorization under Nationwide Permits (NWP) 12, 14 and/or 33 that involve a temporary discharge of fill material into 1/2 acre or more of emergent wetland OR 1/10 acre of scrub-shrub/forested wetland, the applicant shall notify the Fort Worth District Engineer in accordance with the NWP General Condition 32 - Pre-Construction Notification prior to commencing the activity.

14. For all discharges proposed for authorization under Nationwide Permits (NWP) 51 and 52, the Fort Worth District will provide the pre-construction notification (PCN) to the U.S. Fish and Wildlife Service as specified in NWP General Condition 32(d)(2) - PCN for its review and comments.

The following regional conditions apply only within the Galveston District.

15. No Nationwide Permits (NWP), except NWP 3, shall be used to authorize discharges into the habitat types or specific areas listed in paragraphs a through c, below. The applicant shall notify the Galveston District Engineer in accordance with the NWP General Condition 32 - Pre-Construction Notification prior to commencing the activity under NWP 3.

a. Mangrove Marshes. For the purpose of this regional condition, Mangrove marshes are those waters of the United States that are dominated by mangroves (*Avicennia* spp., *Laguncuaria* spp., *Conocarpus* spp., and *Rhizophora* spp.).
b. Coastal Dune Swales. For the purpose of this regional condition, coastal dune swales are wetlands and/or other waters of the United States located within the backshore and dune areas in the coastal zone of Texas. They are formed as depressions within and among multiple beach ridge barriers, dune complexes, or dune areas adjacent to beaches fronting tidal waters of the United States.
c. Columbia Bottomlands. For the purpose of this regional condition, Columbia bottomlands are defined as waters of the United States that are dominated by bottomland hardwoods in the Lower Brazos and San Bernard River basins identified in the 1997 Memorandum of Agreement between the U.S. Environmental Protection Agency, U.S. Fish and Wildlife Service, Natural Resource Conservation Service, and Texas Parks and Wildlife Department for bottomland hardwoods in Brazoria County. (For further information, see http://www.swg.usace.army.mil/Business-With-Us/Regulatory/Permits/Nationwide-General-Permits/)

16. A Compensatory Mitigation Plan is required for all special aquatic site losses, as defined in Section F of the Nationwide Permits (NWP), that exceed 1/10 acre and/or for all losses to streams that exceed 200 linear feet. Compensatory mitigation requirements will be determined in accordance with the appropriate district standard operating procedures and processes. The applicant shall notify the Galveston District Engineer in accordance with the NWP General Condition 32 - Pre-Construction Notification prior to commencing the activity.

17. For all seismic testing activities proposed for authorization under Nationwide Permit (NWP) 6, the applicant shall notify the Galveston District Engineer in accordance with the NWP General Condition 32 - Pre-Construction Notification (PCN). The PCN must state the time period for which the temporary fill is proposed, and must include a restoration plan for the special aquatic sites. For seismic testing under NWP 6 within the Cowardin Marine System, Subtidal Subsystem; as defined by the U.S. Fish and Wildlife Service, Classification of Wetlands and Deepwater Habitats of the United States, December 1979/Reprinted 1992, the Corps will coordinate with the resource agencies in accordance with NWP General Condition 32(d) - PCN.

18. For all activities proposed under Nationwide Permits (NWP) 10 and 11 located in vegetated shallows and coral reefs; as defined by 40 CFR 230.43 and 230.44 respectively, the applicant shall notify the Galveston District Engineer in accordance with the NWP General Condition 32 - Pre-Construction Notification. Examples include, but are not limited to: seagrass beds, oyster reefs, and coral reefs.

19. Nationwide Permit 12 shall not be used to authorize discharges within 500 feet of vegetated shallows and coral reefs; as defined by 40 CFR 230.43 and 230.44 respectively. Examples include, but are not limited to: seagrass beds, oyster reefs, and coral reefs.

20. For all activities proposed for authorization under Nationwide Permit 12 that involve underground placement below a non-navigable river bed and/or perennial stream bed there shall a minimum cover of 48 inches (1,219 millimeters) of soil below the river and/or perennial stream thalweg.

21. For all discharges and work proposed below the high tide line under Nationwide Permits (NWP) 14 and 18, the applicant shall notify the Galveston District Engineer in accordance with the NWP General Condition 32 - Pre-Construction Notification (PCN). The Galveston District will coordinate with the resource agencies in accordance with NWP General Condition 32(d) - PCN.

22. For all activities proposed for authorization under Nationwide Permit (NWP) 33 the applicant shall notify the Galveston District Engineer in accordance with the NWP General Condition 32 – Pre-Construction Notification (PCN). The PCN must include a restoration plan showing how all temporary fills and structures will be removed and the area restored to pre-project conditions. Activities causing the temporary loss, as defined in Section F of the NWPs, of more than 0.5 acres of tidal waters and/or 200 linear feet of stream will be coordinated with the agencies in accordance with NWP General Condition 32(d) - PCN.

23. No Nationwide Permits (NWP), except NWPs 3, 16, 20, 22, 37, shall be used to authorize discharges, structures, and/or fill within the standard setback and high hazard zones of the Sabine-Neches Waterway as defined in the Standard Operating Procedure - Permit Setbacks along the Sabine-Neches Waterway. The applicant shall notify the Galveston District Engineer in accordance with NWP General Condition 32 - Pre-Construction Notification for all discharge, structures and/or work in medium hazard zones and all NWP 3 applications within the standard setback and high hazard zones of the Sabine-Neches Waterway.

24. No Nationwide Permits (NWP), except 20, 22, and 37, shall be used to authorize discharges, structures, and/or fill within the standard setback exemptions of the Gulf Intracoastal Waterway as defined in the Standard Operating Procedure- Department of the Army Permit Evaluation Setbacks along the Gulf Intracoastal Waterway. The applicant shall notify the Galveston District Engineer in accordance with NWP General Condition 32 (Pre-Construction Notification) for all discharges, structures and/or work within the standard setback, shoreward of the standard setback, and/or standard setback exemption zones.

25. The use of Nationwide Permits in the San Jacinto River Waste Pits Area of Concern are revoked. (For further information, see http://www.swg.usace.army.mil/Business-With-Us/Regulatory/Permits/Nationwide-General-Permits/)

26. The use of Nationwide Permits 51 and 52 are revoked within the Galveston District boundaries.

27. Nationwide Permit (NWP) 53 pre-construction notifications will be coordinated with resource agencies as specified in NWP General Condition 32(d) – Pre-construction Notification.

28. For all activities proposed under Nationwide Permits (NWP) 21, 29, 39, 40, 42, 43, 44, and 50 that result in greater than 300 feet of loss in intermittent and/or ephemeral streams, as defined in Section F of the NWPs, require evaluation under an Individual Permit.

The following regional conditions apply only within the Tulsa District.

29. Upland Disposal: Except where authorized by Nationwide Permit 16, material disposed of in uplands shall be placed in a location and manner that prevents discharge of the material and/or return water into waters or wetlands unless otherwise authorized by the Tulsa District Engineer.

30. Major Rivers: The prospective permittee shall notify the Tulsa District Engineer for all Nationwide Permit 14 verifications which cross major rivers within Tulsa District. For the purposes of this condition, major rivers include the following: Canadian River, Prairie Dog Town Fork of the Red River, and Red River.

NOTICE OF PUBLIC HEARING
CITY OF ROCKWALL, PLANNING & ZONING DEPARTMENT

PHONE: (972) 771-7745
EMAIL: PLANNING@ROCKWALL.COM

To Whom It May Concern:

You are hereby notified that the City of Rockwall Planning and Zoning Commission and City Council will consider the following application:

Case No. Z2018-016: Waterview Ridge (C to PD)

Hold a public hearing to discuss and consider a request by Clark Staggs on behalf of Vinod Miranda for the approval of a zoning change from a Commercial (C) District to a Planned Development District for an age-restricted multi-family apartment complex and limited Commercial (C) District land uses on a on 9.699-acre tract of land identified as Tract 15 of the E. P. G. Chisum Survey, Abstract No. 64, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the Scenic Overlay (SOV) District, located at the southwestern corner of the intersection of Ridge Road [FM-740] and Turtle Cove Boulevard, and take any action necessary.

For the purpose of considering the effects of such a request, the Planning and Zoning Commission will hold a public hearing on **Tuesday, 4/10/2018 at 6:00 p.m.,** and the City Council will hold a public hearing on **Monday, 4/16/2018 at 6:00 p.m.** These hearings will be held in the City Council Chambers at City Hall, 385 S. Goliad Street.

As an interested property owner, you are invited to attend these meetings. If you prefer to express your thoughts in writing please return the form to:

David Gonzales
Rockwall Planning and Zoning Dept.
385 S. Goliad Street
Rockwall, TX 75087

You may also email your comments to the Planning Department at planning@rockwall.com. If you choose to email the Planning Department please include your name and address for identification purposes.

Your comments must be received by **4/16/2018** to ensure they are included in the information provided to the City Council.

Sincerely,

Ryan Miller, AICP
Director of Planning & Zoning

No to Apartments! We moved to Rockwall from Garland many years ago to get away from a declining area surrounded by apartments. Apartments always decline over time and crime goes up, surrounding home values go down. Not to mention the effect on an already bad traffic situation.

NOTICE OF PUBLIC HEARING
CITY OF ROCKWALL, PLANNING & ZONING DEPARTMENT

PHONE: (972) 771-7745
EMAIL: PLANNING@ROCKWALL.COM

To Whom It May Concern:

You are hereby notified that the City of Rockwall Planning and Zoning Commission and City Council will consider the following application:

Case No. Z2018-016: Waterview Ridge (C to PD)

Hold a public hearing to discuss and consider a request by Clark Staggs on behalf of Vinod Miranda for the approval of a zoning change from a Commercial (C) District to a Planned Development District for an age-restricted multi-family apartment complex and limited Commercial (C) District land uses on a on 9.699-acre tract of land identified as Tract 15 of the E. P. G. Chisum Survey, Abstract No. 64, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the Scenic Overlay (SOV) District, located at the southwestern corner of the intersection of Ridge Road [FM-740] and Turtle Cove Boulevard, and take any action necessary.

For the purpose of considering the effects of such a request, the Planning and Zoning Commission will hold a public hearing on **Tuesday, 4/10/2018 at 6:00 p.m.**, and the City Council will hold a public hearing on **Monday, 4/16/2018 at 6:00 p.m.** These hearings will be held in the City Council Chambers at City Hall, 385 S. Goliad Street.

As an interested property owner, you are invited to attend these meetings. If you prefer to express your thoughts in writing please return the form to:

David Gonzales
Rockwall Planning and Zoning Dept.
385 S. Goliad Street
Rockwall, TX 75087

You may also email your comments to the Planning Department at planning@rockwall.com. If you choose to email the Planning Department please include your name and address for identification purposes.

Your comments must be received by **4/16/2018** to ensure they are included in the information provided to the City Council.

Sincerely,

Ryan Miller, AICP
Director of Planning & Zoning

To Mr. David Gonzales
Rockwall Planning and Zoning

As a twenty year resident of Turtle Cove, I have build up a lot of equity in my home. A change in zoning of the property that is situated at the corner of Turtle Cove and Ridge Road to planned development for a senior residential apartment complex with villas and a senior memory care unit will drastically reduce the value of my home since the city can not enforce the deed restrictions that are being proposed by the developer.

I am not opposed to a well designed commercial business on this piece of property. The current businesses on Turtle Cove Blvd have been good neighbors to our community.

In conclusion, I am NOT in favor of the zoning change from commercial to planned development.

Thank You,

Gina Celii

Dear David Gonzales,

We live in the Turtle Cove subdivision and wish to register our strong opposition to rezoning property adjoining our subdivision from Commercial to Planned Development.

We understood when we bought our home that the adjoining undeveloped property was zoned Commercial but were not aware that the property was subject to rezoning for other purposes. If we had known, we would not have purchased in Turtle Cove and possibly not in Rockwall at all. This will have a very negative affect on our community and will put many people here in a difficult situation. There are many young families who chose to live here will suffer because of it.

Mr Gonzales, I live in the Turtle Cove subdivision. I am writing regarding my major concern of the possible rezoning to an adjoining property. Sir, we moved to this area in July from Dallas because of the quaint neighbor feel and to be closer to our aging fathers. We invested a lot of our retirement money into this property and if this happens I feel we will lose our life's hard work. To think this could be rezoned for investors vs homeowners is beyond our reasoning. We understand progress when it helps all, not hurts one side. I ask you to please consider the many hard working families in this quiet community.

Sincerely,

Debbie Hinkle

Subject: Proposed rezoning of property at Turtle Cove Blvd. and Ridge Rd.

Mr. Gonzales and Mr. Miller:

My name is Marion Duhamel and I live at 656 Turtle Cove Blvd. in Turtle Cove. I have lived here for the past 11 years. I realize that the property that is being considered for re-zoning is presently zoned commercial and that eventually something will be built on that site. I'm not looking forward to that but as I'm told the owner of the property can build whatever he wants within the zoning requirements.

I want to state my objection to re-zoning that property from commercial to residential. I am not in favor of the "senior" housing development that is currently planned. It is my understanding that once the property is re-zoned it will stay that way forever. Therefore if the present owner eventually sells the property, the new owner can use it in whatever way the changed zoning states. Also my understanding is that there is a "cut-thru" road planned that would go from LaJola to Turtle Cove. If this is a fact, I am definitely against that happening. Right now Turtle Cove is a pleasant, peaceful subdivision and I would not like to see that changed by more housing - especially on a piece of property that doesn't look suitable for 4-story buildings. I, along with other Turtle Cove residents, are very concerned about our property values decreasing if the proposed property is re-zoned.

Thank you for your attention and to my concerns.

Marion Duhamel

As a resident of Turtle Cove I am writing to express my opposition to the rezoning of the 9+ acre property adjacent to my neighborhood. My understanding is that the proposed rezoning from Commercial to Planned Development would allow construction of multi family apartments.

This property was zoned Commercial when my husband and I purchased our home 15 years ago. One of my concerns is the existing creek and how that would be preserved and managed to avoid flooding of Turtle Cove. Another major concern of mine is that if the zoning is changed the proposed deed restriction for older residents could later be removed without public input.

My husband and I are opposed to changing the tract of land adjacent to Turtle Cove from Commercial to Planned Development. Please leave the land as it was zoned--Commercial.

Dear Mr. Gonzalez,

We are writing to express our opposition to the rezoning of the 9+ acre property adjacent to my neighborhood from Commercial (C) to Planned Development (PD) so that multifamily apartments can be constructed.

This property was zoned Commercial when we purchased our home and we have looked forward to seeing responsible commercial development of this land into something that will benefit those of us who have made a long-term commitment to the community of Rockwall. Had this land been zoned for multifamily residential we would not have purchased our home in Rockwall.

We understand that the proposed apartments will be deed restricted for older residents. We also understand that once this zoning is changed those restrictions can be removed without public input and any facilities constructed on this site could be used as unrestricted housing. Multi-family apartments are never beneficial to homeowners in a neighborhood of single-family homes. We have lived through this nearly exact scenario once before and it was a **NIGHTMARE**! It is in large part what drove us out of our prior community and led us to establish our family here in Rockwall.

Other properties near our neighborhood have nice buildings with medical and professional offices and we would like to keep it that way per the current zoning. Please help us maintain our high quality of living here in Turtle Cove by keeping the current zoning in place.

Sincerely,

John & Robin Gibson

Mr. Gonzales,

As a resident of Rockwall and the Turtle Cove community, I wish to voice my strong opposition to the re-zoning of the property at the corner of Ridge Road and Turtle Cove Boulevard from Commercial to Planned Development.

My family and I have lived in Rockwall for 25 years. We moved here to be in a community that places value in its residents and their welfare. I fully support the continuation of the Commercial zoning at Ridge Road and Turtle Cove Boulevard. It is important to remain mindful of our residents and the decisions which are detrimental to their wellbeing and the stability of the community. A change of zoning from Commercial to Planned Development would indeed be detrimental to us as residents of Rockwall and in the Turtle Cove community.

Thank you for your time and attention to this issue.

Dear Mr. Gonzales,
I am a resident of Turtle Cove and wish to express my concerns regarding the rezoning of the 9.6 acre parcel between the subdivision and Ridge Road. As a local real estate agent with over a decade of experience serving Rockwall, the zoning change will negatively affect property values in the neighborhood. When showing homes to buyers, adjacent multi-family units are often a deal breaker. The neighborhood already faces buyer objections over the railroad track and the single entry/exit. I also worry about unintended use once the zoning change is made and the fact that traffic studies have not been performed.

Respectfully submitted,

ATTN: David Gonzales
I live in Turtle Cove at 951 Briar Oak Drive. I am concerned about the proposed zoning change from C to PD for the property adjacent to me and Ridge Road.
I moved here in March, 2017 and chose Turtle Cove due to the location and the safety of the neighborhood and the potential for my property value to increase.
I have been a resident of Rockwall, on and off, since 1984. I have seen many changes and most have been beneficial to the community. Rockwall can stand proud for becoming the prestigious city it is today. However, Rockwall didn't become this wonderful thriving area without the opinions of the property owners. Who would know better what is more beneficial for their town than those who are proud property owners, so thank you for listening to us.
ON my street, Briar Oak Drive, five homes have been for sale this past year and, so far, only two have sold, and that was months after being on the market with price reductions. This may be due partly to a railroad track running behind the houses. But, I feel assured the proposed zoning change has raised concern.
The Traffic on Turtle Cove Drive has remained consistent but manageable. I would think commercial building of doctor's offices, etc would still remain manageable. However, an apartment complex, whether age monitored or not, would substantially increase traffic to cause backups not only on Turtle Cove Drive, but coming and going out of our gate. No matter how nice the apartment community, it will still attract transients and people of questionable nature, even prior sex offenders. I think the safety of my neighborhood will be jeopardized. I am a senior citizen and live alone. I would like to continue to feel safe in my home.
Flooding is also a large concern for me. Not only will home insurance policies increase for flood insurance, but water damage can be devastating. Our homes have been built to withstand drainoff to the lake. Occasionally, someone will receive excessive rainwater, due to the railroad ditches not being maintained. Any changes, especially as large as apartments, will change the terrain and water will do exactly what it wants, which may include flooding.
Please keep this area of Rockwall consistent with the present trend. I have seen the decline of many areas in other towns, due to apartment buildings, such as Mesquite and Greenville, just to name a few. And, surely you will agree that Rockwall stands exemplary to other towns nearby.
Thank you for listening and careful consideration to keep the above mentioned area zoned C.

Mr. Gonzales,

My wife Patsy and I live in Turtle Cove. We would like to voice our extreme opposition to the proposal for change in zoning on the tract just outside our gates to Planned Development from commercial. We love our community, but ingress and egress from Ridge Rd is already a problem. It not only will devalue our home prices, but make it next to impossible to get in and out of our subdivision. I strongly request that each city official involved drive to the area and take a firsthand look at the situation I am describing. The property should continue to be zoned commercial, or should be a nice city park, which we need more of. We appreciate the job you are doing and know that your first priority is the quality of life for our citizens. This project would make an extreme negative change to our quality of life.
Thank you,

Good morning, Mr. Gonzales:

I am opposed to a change in zoning for the Case number referenced above.

There are several reasons for my opposition. However, the major reason is I don't want **ANY** non-government owned property subsidized by the federal government. The developer is a private business enterprise and needs to use private funds to develop and maintain the property. If the developer needs to be subsidized by federal or state government funding **AT ANY LEVEL**, we say NO to a zoning change.

Importance: High

Mr. Gonzales – I am sending you this email to strongly protest and reject the proposed rezoning changes that will adversely affect my neighborhood, Turtle Cove.

My wife and I purposely chose Rockwall and, more specifically, the Turtle Cove neighborhood as our place of choice to live. We have made important changes in our lives and have made significant investments to ensure we have the ability to enjoy our home and our neighborhood.

The changes that would rezone property adjoining our subdivision from Commercial to Planned Development will have a negative effect on my neighborhood and my home. Should the planning commission and the city council approve the zoning changes we will have no other recourse than to move since our investment will be considered worthless.

I hope the city government will respond in the appropriate way that supports its voting citizens in the community.

Attention: David Gonzales

Dear Mr. Gonzales,

I live in the Turtle Creek neighborhood at 956 Bluffview Drive (Rockwall, Texas 75087). My wife and I have owned our home there since 2009 and have enjoyed the neighborhood the entire time. We are one of the "prime" home owners that have received notification of a zoning change request. I believe that the city has the parcel on Ridge Road and Turtle Cove Drive properly zoned. There are numerous reasons not to grant this requested zoning change of which my neighbors and I are happy to present to the zoning board and city council.

Surely the purchaser of that parcel of land knew that it was zoned Commercial when he purchased the property. It would be nice if the city held him to that.

I am also happy to provide a more detailed explanation of my opposition to the change via email before or outside of the planned meetings if needed.

I would appreciate an acknowledgement of your receipt of this correspondence.

Sincerely,

Ron

Dear David Gonzales,

When I moved to the Turtle Cove subdivision almost 6 years ago, I was totally captivated by the location, the quiet gated community and the neatness of the subdivision. Those of us who live here take great pride in our "little piece of heaven"! However, now someone wants to spoil it with multi-level and multi-family apartments!! They may not start out as these, being presented as "age-restricted", but we all know that it will only be a matter of time before they become subsidized housing. I realize that the land is currently zoned commercial and even though I am not thrilled with that, zoning it multi family apartments would be so much worse! The added traffic alone would be awful. Often times you can barely get out on Ridge Road, the traffic is backed up so much!

I want to state my STRONG opposition to rezoning the property adjoining our subdivision from Commercial to Planned Development for multi-family apartments.

Thank you,
Cathy Boewe

Good morning, Mr. Gonzales:

I am opposed to a change in zoning for the Case number referenced above.

There are several reasons for my opposition. However, the major reason is I don't want **ANY** non-government owned property subsidized by the federal government. The developer is a private business enterprise and needs to use private funds to develop and maintain the property. If the developer needs to be subsidized by federal or state government funding **AT ANY LEVEL**, we say NO to a zoning change.

Dear Mr. Gonzales -
I am writing to you to oppose the subject case to rezone the plot of land adjacent to the Turtle Cove subdivision. This area was zoned commercial when we purchased our home at 956 Bluffview Dr. in 2009 and we expected it to stay that way. Note, our home is in the "notification" zone. The city zoned it correctly and should hold the purchaser of the land to the zoning as it stood when they knowingly purchased the land. We do not appreciate the thought of a large multi-family (senior citizen or not) development being built on that land. The problems associated with that type of development are numerous. I have always appreciated the zoning committee's thoughtfulness in developing Rockwall. In fact, I know that your group won a state award for its thoughtfulness and I hope that it continues by disallowing, yet again, another inappropriate development on the land next to Turtle Cove. I can tell you that we have one way in and one way out of our neighborhood. This is often different from other neighborhoods when it comes to development. The realtors can't avoid driving prospective buyers past that plot of land and regardless of what the owner of the land is "promising", it is very unlikely that that could or would change anytime soon. Please oppose the building of this zoning change. Enough is enough. Thank you.

Subject: Case No. Z2018-016 Waterview Ridge (C to PD

Dear Mr. Gonzales,

My family and I have lived in Turtle Cove for the last 12 years. It is a great place to live. The families here keep up their properties and we, as a community, take pride in the upkeep of our neighborhood. Our home owners dues go toward front lawn and common area lawn maintenance to ensure a clean, manicured landscape throughout the community. We do not allow cars to park along the streets. We care about increasing the value of our property.

I never tell people that I live in Turtle Cove without someone commenting on what a nice neighborhood it is. People know Turtle Cove homes as highly sought after real estate. This has been a well respected Rockwall neighborhood for many years.

As you probably know, Turtle Cove is a one entrance/exit neighborhood. That does increase the vulnerability of the area. The less traffic coming down Turtle Cove Blvd, the less opportunity for undesirable activity to make its way down into our neighborhood.

So, I'm respectfully petitioning you not to make a zoning change that would reduce the desirability of our neighborhood as a place to live in this great town. There can be no question that a change in zoning would have a detrimental impact on property values, safety and the general appeal of our neighborhood. Please, deny the application for a zoning change.

Respectfully,
Jennifer Courbier
Turtle Cove Resident

Subject: Case No. Z2018-016. Waterview Ridge C to PD

Mr. Gonzales: We are very much opposed to changing the above case from C to PD. As senior residents in Turtle Cove, the proposed development would overburden traffic on a short two lane street that is the only access/egress for residents. The problem of water drainage and possible flooding from the proposed development is a risk the City of Rockwall must avoid. These are only two of the issues that would harm this residential area. We would appreciate any assistance in not allowing this zoning change.

Respectfully submitted, Marlene and Lenny McKinney

Dear Mr. Gonzales,

I am Martha Galli and live at 645 Stafford Circle in the Turtle Cove Neighborhood in Rockwall.

I'm informed about the nature of the subject development and am against changing the zoning to allow High Density Residential development on this property. I believe there are many more suitable locations for developments of this nature in our city. Moreover, there are many permitted use commercial developments that are suitable improvements for this land. Mr. Miranda purchased this land knowing its commercial classification. He has the right to develop it in compliance with the commercial code. However, if he wants to re-zone the land, City Ordinances allow me to express my view. And I choose not to support the re-zoning from Commercial to Planned Development High Density Residential.

Sincerely,

Martha Galli

Dear Mr. Golzales,

I am Tom Galli and live at 645 Stafford Circle in the Turtle Cove Neighborhood.

I stand opposed to rezoning the 9.6 acres of land fronting my neighborhood from Commercial to Planned Development — High Density Residential. Such a development would not mesh well with existing commercial properties along the Ridge Road commercial corridor. It would look and feel very much out of place both architecturally and functionally.

That said, I have no objection to development of this land for a commercial purpose as delineated in our Unified Development Plan and code.

Sincerely,

Tom Galli

David,
Thank you for your response.
How much influence does the plan that has been presented by the developer to the P & Z have to do with the zoning change ?
If the zoning change is made can the developer change the plan to a different type of housing?
Is the street that is on the plan next to the rail road tracks is that already been approved to run and exit onto LaJolla st. ?

Subject: RE: document # Z2018-016

Mr. Salazar,

Thank you for your e-mail regarding the proposed age restricted multi-family apartment complex being requested. Yes, the property is currently zoned as Commercial, and will remain that way as an underlying zoning for the property; however, if approved, the property will allow for the multi-family apartment complex on the commercial zoned property. Also, the applicant is requesting to limit the commercial uses available within the remainder of the property. These uses will be listed in the proposed ordinance for the Planning Commission and City Council to review, and to consider for approval at their discretion.

These are the responses to your questions:

1. If granted, the uses on the property will be allowed indefinitely as prescribed by the Planned Development District Ordinance (or until a request is made to change the zoning).
2. I do not have an answer for this question as this does not pertain to the zoning case for this particular property. As a suggestion, you may do a search through the internet to located additional holdings by Mr. Miranda.
3. There is no provision in the Planned Development District Ordinance relating to a period of time for the development to occur.

If you have any additional questions, please feel free to contact me.

Thank you,

To: Gonzales, David
Subject: Turtle Cove Zoning Change

I live in the Turtle Cove neighborhood and have several concerns with the proposed zoning change. Last year, when the developer sent out a questionnaire to the neighborhood asking if we would support a retirement community at that location, I called the city's planning department. I wanted to make sure that this development would stay a senior facility and not convert to apartments after the zoning was approved. I learned that the city could not enforce a retirement age only facility and it could indeed become an apartment complex.

This, of course, gave me great concerns. Then the Rowlett developer who got the city to sell him the park land reneged on his proposed plan so this reinforced my concerns.

I am also concerned that this property can not handle the excess runoff especially since there already is a flooding issue due to the blocked railroad culvert.

Finally, four stories is way too tall of a proposal. Most of the property is on a hill and with that extra height, residents will be able to look into everyone's backyards.

Thanks so much.

Sincerely,

Sarah Carter

Subject: Independent Living Project

Hello. My name is Marcel Clark and I live in Turtle Cove. I approve of the Independent Living Project. I had my reservations about it in the beginning. Bu,t unlike the others, I like to go to the source of the problem, I had a sit down with Mr. Clark and the developer to find out exactly what Independent Living Project is all about. After talking to them, I got a clear understanding of what the project is about. But still yet,I was still not convinced that they were telling me everything. For instance, what if the project were sold to another contractor and it turned into apartments? Number 2, will it become section 8 apartment? Number 3, is the age limit truly 60 and over? Number 4, what is the number of people able to live in the apartments? Number 5, the beautification of the property, and Number 6, his honesty and his integrity. After several meetings with Mr. Clark, I see that he is a honest man and I feel he is straight forward with me. So yes, I approve of this Project. Thank You Marcel Clark.

To: Miller, Ryan
Subject: Re-zoning of Turtle Cove @ Ridge Rd

Mr. Miller,

My name is Lisa Goodson. My husband and I just moved to the Turtle Cove subdivision two weeks ago. I found out Sunday night that there is a proposed re-zoning right next to the entrance of our neighborhood.

Unfortunately, I do not know all of the details.
I do know that we just moved from our home in Lake Highlands of 26 years due to apartment nightmares. They were nice when we bought our house. . Now, they are run down. They are riddled with crime and drugs. The crime has migrated into our neighborhood to the point you did not want to go out for walks. Our 75 year old next door neighbor had a home invasion about 6 months ago. The rest of the neighborhood is constantly having issues. Apartments always start nice but, they do run down after a while. There is always trash around and you can not control the noise level.

We chose to move to Rockwall and Turtle Cove specifically because it is so beautiful, quiet and there is a lot of wildlife around. The people are so friendly and the crime was so low. I especially was happy that there was not any apartments near by. We bought our home at a premium knowing that our home value would only go up. This HOA community really takes care of this property.

Please do not let developers come in and build apartments here. We bought this house to retire in at some point. It would devastate our home values. The traffic is already heavy on that part of the Ridge Road. It will only make things worse.

Thanks for your time,

Planning

Subject: Case No z2018-016 Waterview Ridge (C to PD)

Attn: David Gonzales,

Re: Case No z2018-016 Waterview Ridge (C to PD)

I am opposed to the rezoning of the 9+ acre property adjacent to my neighborhood from Commercial (C) to Planned Development (PD) so that multi-family apartments can be constructed. This property was zoned commercial when our home was purchased. I have looked forward to seeing responsible commercial development of this land.

Other properties near our neighborhood have nice buildings with medical offices and other businesses. Please help us by keeping the Commercial zoning. It is the best plan for our neighborhood.

The plan proposed by the applicant does not explain how the existing creek will be preserved and managed. I'm concerned that it will cause Turtle Cove to become a flood zone. That would be a tragedy.

Multi-family apartments are never beneficial to homeowners in a neighborhood of single family homes. Well planned and designed commercial property can be an asset to the neighborhood. I understand the proposed apartments will be deed restricted for older residents, but those restrictions can be removed without public input once the zoning is changed.

Please deny the rezoning request.

Sincerely,

Alexandria West

To: David Gonzales,
I oppose the construction of any apartment type dwellings built on this property not only because the additional traffic brought to our Turtle Cove addition, but we also expect with apartments, either senior dwelling or standard, this will be rental property and a real concern of decline in our property value. In addition, we also oppose commercial buildings, if the only in and out access is from turtle cove blvd. We have heard that a access rd from Laguna Dr may be built and if so, that would be huge difference maker in my decision for not only myself but for many other turtle cove residences.
Thank you,
Elaine Eubanks

Dear Mr. Gonzales,

My family recently moved into Turtle Cove this past Spring as a part of a relocation with American Airlines. The decision to be so far from the airport was not an easy one but was easily offset by what this community offered.

Had we been aware of the planned rezoning to something remotely similar to high density housing we would've move elsewhere.

We love the City of Rockwall and I am writing you today to register my strong opposition to the proposed rezoning of the property that fronts my community of Turtle Cove.

David,

Thank you for the notice you mailed about the subject case. My wife Shirley Floeter and I live at 926 Briar Oaks Dr., and we are both opposed to the request.

We purchased our home two years ago with the full knowledge that the 9-acre property was zoned Commercial.

Had this property been zoned for multi-family apartments, we would not have purchased a home in Turtle Cove. We can tell you from personal experience that apartments are never good for single-family neighborhoods. And the age 62+ deed restrictions proposed by the applicant are useless because they cannot be enforced.

We believe that responsible development of this property using Commercial zoning will be better for our neighborhood over the long term. Anyone can see several good examples of how this property might be developed by looking at the adjacent office and medical buildings. So please protect us and our neighbors.

We are also very concerned about flooding during heavy rainstorms. The plans shown for the apartment development appear to be inadequate in terms of water management. The stream that runs through this property is likely to fill the proposed detention pond, which will render it useless during storms.

Thank you.

Subject: Rezoning in Turtle Cove

Mr. Gonzales, I am a resident in Turtle Cove and have lived here since 2003. We are all very concerned with the property owners/ developer's desire to re-zone the property on Turtle Cove . These are my concerns : 1. Our homes will lose the natural water drainage and place us at risk for flood water and run off . That will greatly affect the value of this greatly desired community . The city should protect the existing residence over new development . 2. Turtle Cove Blvd is and will remain the only exit for the residents and any business. It can not serve the population he projects and the current volume. 3. I don't just speak for myself when I state this neighborhood will suffer greatly. I for one will move, if the value of our property declines and the sale of homes is greatly affected. We send a strong plea to our city electives to decline any and all of his current request to rezone and build the current housing project or any similar project. That land and our street cannot accommodate the volume of people, cars, and dwelling. Thank you for your time , concern, and attention to this matter.

We live in the Turtle Cove subdivision and wish to register our strong opposition to rezoning property adjoining our subdivision from Commercial to Planned Development.

We understood when we bought our home that the adjoining undeveloped property was zoned Commercial and understood that eventually there may be a commercial building built on it. If we had known that the city of Rockwall would entertain apartments by greedy developers, we would not have purchased in Turtle Cove and possibly not in Rockwall at all. These developers are not concerned with the damage that apartments do to a community over time. Just look at Garland for example. It's not fair to the residents of Rockwall to allow this to happen.

Mr. Gonzales,

Please find attached my response to the Notice of Public Hearing regarding the subject zoning change request. I am strongly opposed to the requested change. The original planning with this property zoned for commercial use was the correct choice and in the best interest of the city and our community. I respectfully urge you to deny this request for a change in zoning.

To be clear, I have no issue whatsoever with well planned commercial development in this area. I have been in my home for 20 years and am very concerned that a zoning change will forever change the character of our neighborhood, not to mention the inevitable decrease in our property values.

I plan to attend both upcoming public hearings addressing this issue as well.

Thank you for your time,

To: Gonzales, David
Subject: Turtle Cove - Independent Living project

Dear David ,

Thank you for your service to the citizens of Rockwall .

Regarding the proposed Independent Living project on Turtle Cove and Ridge.

I am in favor of the Independent Living project that will be coming up for your approval soon.

I have been a home owner and resident of 655 Turtle Cove Blvd. since me, my wife and children moved from Dallas to Rockwall in Oct of 1994.

We are one of the few homeowners who have been in this Turtle Cove neighborhood since 1994.

We as a family has seen many changes since we moved here, some good and much needed and some not so good in our neighborhood and in the city, and county.

The land for the Independent Living has been empty since we moved here in 1994, and seems over the last 24 years a few developments have proposed to develop , but seems that they were not either viable or not welcomed .

The current zoning on the land and all the possible uses and parking ,traffic vs. the proposed change , to me seems it is better to change and approve the zoning request.

The use of the independent living in this area and community to me seems a much better use than more box stores, traffic count , retail and more restaurants, etc..

As we have been living here over 24 years and are getting older, as we love the area, seems like a more logical area to move to independent as/if we may need the physical help based on our health in the future.

The potential to have the Rockwall EMS have a presence in this development is a great plus to my family and would also think to the community response time around us.

The potential new feeder road from Turtle Cove by the railroad track to freeway to help with the traffic flow also is a positive that may or not come with the existing zoning.

So recap , I am in favor of the zoning change request for the Independent living project on Ridge and Turtle Cove.

Thank you again for your service to the citizens of Rockwall,

Jameson Titus

Good evening to all. Our Church, First Presbyterian Church of Rockwall, received notification of the Public Hearings before the Planning and Zoning Commission and the City Council as pertaining to the subject Zoning Change Request. I currently serve as one of the Church's Ruling Elders and as the Church Treasurer.

Our Pastor, Rev. Cheryl Taylor, and I had a discussion earlier today regarding this request and, unfortunately, neither of us are able to attend the March 10, 2018 P&Z Meeting. But we wish to assure the members of the Planning and Zoning Commission and the City Council that First Presbyterian Church of Rockwall has no objection to this zoning change and we fully support any effort undertaken to improve living opportunities for the community's Senior Citizens.

Please feel free to contact me if you have any questions or if I can be of service.

Sincerely,

Bob Cotti, 214-957-6150

Subject: Proposed Zoning Change

Gentlemen:

I live at 935 Briar Oaks Dr. in Turtle Cove, and I strongly oppose the zoning change request from C to PD. The front of my house faces the adjacent property, and I don't want to look out my windows and see a four story building. A four story building will actually look five story building due to the elevation change. If I wanted that, I would move to Uptown Dallas. Please be prepared for a packed house tonight.

Sincerely,

Kenneth Hood

CITY OF ROCKWALL
CITY COUNCIL MEMO

AGENDA DATE: 04/16/2018

APPLICANT: Pat Atkins, *Saddlestar Land Development*

AGENDA ITEM: **Z2018-017**; *The Enclave (AG, C & HC to PD)*

SUMMARY:

Hold a public hearing to discuss and consider a request by Pat Atkins of Saddlestar Land Development on behalf of the Stagliano Family Trust for the approval of a zoning change from an Agricultural (AG) District, Commercial (C) District and Heavy Commercial (HC) District to a Planned Development District for commercial/retail, single-family and townhome land uses on a 63.72-acre tract of land identified as Tract 3 of the W. H. Barnes Survey, Abstract No. 26, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, Commercial (C) District and Heavy Commercial (HC) District, situated within the SH-205 Overlay (SH-205 OV) District, located at the northwest corner of S. Goliad Street [SH-205] and Mims Road, and take any action necessary.

PURPOSE AND BACKGROUND:

The subject property was annexed into the City of Rockwall and zoned Agricultural (AG) District on May 19, 1986 by *Case No. A1986-005* (*Ordinance No. 1986-37*). The *subject property* is currently zoned Agricultural (AG), Heavy Commercial (HC), and Commercial (C) Districts, with the Agricultural (AG) District being located east of Mims Road, the Commercial (C) District designation being located adjacent to Mims Road and S. Goliad Street [*SH-205*] and the Heavy Commercial (HC) District designation being located on the interior of the *subject property*. In 2016, the Texas Department of Transportation (TXDOT) established a staging area for the SH-205 improvements at the southwestern corner of the subject property (*i.e. at the corner of Mims Road and S. Goliad Street*).

On March 16, 2018, the applicant submitted an application requesting to rezone the property from Agricultural (AG), Heavy Commercial (HC), and Commercial (C) Districts to a Planned Development District for single-family, townhome and commercial land uses. Based on the concept plan, this would establish a horizontal mixed use development with commercial/retail at the northwest corner of S. Goliad Street and Mims Road, while transitioning to a 196 lot townhome (*i.e. 22' x 75' min. lot size*) development and continuing west to a 65 single-family lot (*i.e. 50' x 120' min. lot size*) development. As you may recall, the applicant submitted a similar zoning change request in October 2017. After postponing the public hearings on two (2) separate occasions -- *one (1) meeting in which the Planning and Zoning Commission requested a traffic impact analysis* -- the Planning and Zoning Commission ultimately denied the case on January 30, 2018. The applicant then requested that the City Council withdraw the case. Since the original case was withdrawn, the applicant was not restricted from submitting the same request. However, the applicant has made some minor modifications to the concept plan and has provided a letter from their traffic engineer, G.T. (Tom) Walton, P.E., whom has provided an updated traffic counts performed in March 2018, updating the Traffic Impact Analysis (TIA) that was performed in December of 2017.

ADJACENT LAND USES AND ACCESS:

The subject property is located on the west side of S. Goliad Street [*SH-205*] at the northwest corner of the intersection of S. Goliad Street [*SH-205*] and Mims Road. A more detailed description of the adjacent land uses is as follows:

North: Directly north of the subject property is a vacant, 24.818-acre tract of land zoned Heavy Commercial (HC) and Commercial (C) District. This property is owned by Rayburn Electric Cooperative, Inc. Beyond this are industrial/office/warehouse facilities for Rayburn Electric Cooperation and S&A Systems, and a trucking facility owned by Transam Trucking. These properties are zoned Heavy Commercial (HC) District, Planned Development District 43 (PD-43), and Planned Development District 44 (PD-44).

South: Directly south of the subject property is Mims Road, which is identified as a M4U (*major collector, four [4] lane, undivided roadway*) on the City's *Master Thoroughfare Plan*. Beyond this thoroughfare is a 140.50-acre tract of land (*i.e. Tract 3 of the G. Wells Survey, Abstract No. 219*) that is zoned Agricultural (AG) District. Also south of Mims Road are several industrial buildings zoned Heavy Commercial (HC) District.

East: Directly east of the subject property is S. Goliad Street [*SH-205*], which is identified as a TXDOT 6D on the City's Master Thoroughfare Plan. Beyond this thoroughfare is Hickory Ridge, Phase 1, which is a 139-lot single-family subdivision, zoned Planned Development District 10 (PD-10).

West: Directly west of the subject property is Highland Meadows, Phase 1, which is a 101-lot single-family subdivision, zoned Single Family 7 (SF-7) District. Beyond this are additional phases of the Highland Meadows and Lynden Park Estates subdivisions.

CHARACTERISTICS OF THE REQUEST:

Along with the application, the applicant has submitted a concept plan and development standards outlining the proposed development. The concept plan shows that an approximately 5.30-acre tract of commercial/retail land -- *identified as Tract 1 on the concept plan* -- will be situated at the hard corner of Mims Road and S. Goliad Street. North and west of the non-residential land uses will be a 16.89-acre tract of land designated for 196, 22' x 75' townhome lots. This is identified as *Tract 2* on the concept plan. Parking for the townhomes will be to the rear of the properties. Additionally, niche parking will be located at the front of the townhomes. East of the townhomes is *Tract 3* on the concept plan, which is composed of a 12.60-acre tract of land and a 2.21-acre tract of land reserved for the construction of 65 single-family home lots that will measure 50' x 150'. This portion of the development will be located adjacent to the Highland Meadows Subdivision.

In addition, the concept plan shows that approximately 20.88-acres of open space will be provided; however, staff should note that the majority of this open space is situated within existing floodplain and would only count at a rate of ½-acre for every acre (*i.e. 50%*) of the 20% open space requirement. The floodplain totals 17.6-acres and will equate to 8.8-acres total open space based on the 50% maximum allowed by the UDC; therefore, the adjusted acreage of open space for the development will equal to 12.08-acres (*i.e. 20.67%*), which meets the minimum 20% requirement stipulated by the Unified Development Code (UDC). Additionally, the applicant has indicated an amenity center will be constructed at the northeast quadrant of the property, and a proposed eight (8) foot hike and bike trail which will be situated along the outer edge of the development. This will provide access to SH-205 and Mims Road and is generally in conformance with the City Master Trail Plan. A summary of the proposed density and dimensional requirements for the single-family and townhome lots are as follows:

Table 1: Lot Composition

Lot Type	*Minimum Lot Size (FT)*	*Minimum Lot Size (SF)*	*Dwelling Units (#)*	*Dwelling Units (%)*
Tract 2	22' x 75'	1,650 SF	196	75.10%
Tract 3	50' x 120'	6,000 SF	65	24.901%
		Maximum Permitted Units:	*261*	*100.00%*

Table 2: Lot Dimensional Requirements

Lot Type (see Concept Plan) ►	***Tract 2***	***Tract 3***
Minimum Lot Width [1]	22’	50’
Minimum Lot Depth	75’	120’
Minimum Lot Area	1,650 SF	6,000 SF
Minimum Front Yard Setback [2]	5’	20’
Minimum Side Yard Setback	0’	5’
Minimum Side Yard Setback (Adjacent to a Street) [2]	5’	10’
Minimum Length of Driveway Pavement	20’	20’
Maximum Height [3]	35’	35’
Minimum Rear Yard Setback [4]	5’	10’
Minimum Area/Dwelling Unit (SF)	1,600 SF	2,000 SF
Maximum Lot Coverage	90%	70%

General Notes:

[1]: The minimum lot width shall be measured at the *Front Yard Building Setback*.
[2]: The location of the *Front Yard Building Setback* as measured from the front property line.
[3]: The *Maximum Height* shall be measured to the eave or top plate (whichever is greater) of the structure.
[4]: As measured from the rear yard property line.

Staff should note that the requested overall density for this development would be 4.47-dwelling units per acre (*i.e. 261-units/63.72-acres – 5.30-commercial acres = 4.47 dwelling units/acre*), with the density of *Tract 2* (*i.e. the Townhomes*) being an estimated 8.08-dwelling units per acre and the density of *Tract 3 (i.e. Single-Family Residential)* being an estimated 2.37 dwelling units per acre.

On *Tract 1* the applicant is requesting limited General Retail (GR) District land uses. Specifically, the applicant is proposing to prohibit the following land uses, which are currently permitted *by-right* or by Specific Use Permit (SUP) within the General Retail (GR) District, with the exception of the following:

Permitted by Specific Use Permit (SUP). The following use shall require approval of a Specific Use Permit (SUP):

☑ Retail Store with Gasoline Product Sales [More than two (2) *Dispensers*]

Prohibited Uses. The following uses shall be prohibited.

☑ Convent or Monastery
☑ Hotel or Motel
☑ Hotel, Residence
☑ Cemetery/Mausoleum
☑ Mortuary or Funeral Chapel
☑ Social Service Provider
☑ Billiard Parlor or Pool Hall
☑ Carnival, Circus, or Amusement Ride
☑ Commercial Amusement/Recreation (*Outside*)
☑ Garden Supply/Plant Nursery
☑ Gun Club, Skeet or Target Range (*Indoor*)
☑ Astrologer, Hypnotist, or Psychic Art and Science
☑ Night Club, Discotheque, or Dance Hall
☑ Secondhand Dealer
☑ Car Wash, Self Service
☑ Service Station
☑ Mining and Extraction (*Sand, Gravel, Oil & Other*)
☑ Helipad
☑ Railroad Yard or Shop
☑ Transit Passenger Facility

This property would be subject to the density and development standards for the General Retail (GR) District and the SH-205 Overlay (SH-205 OV) District. The following is a summary of the proposed density and development standards for Tract I:

Ordinance Provisions	*Zoning District Standards*
Minimum Lot Area	*6,000 Sq. Ft.*
Minimum Lot frontage	*60-Feet*
Minimum Lot Depth	*100-Feet*
Minimum Front Yard Setback	*15-Feet*
Minimum Rear Yard Setback	*10-Feet*[1]
Minimum Side Yard Setback	*10-Feet*[2]
Maximum Building Height	*36-Ft w/o SUP*[3]
Max Building/Lot Coverage	*40%*
Minimum Masonry Requirement	*90%*
Floor Area Ratio	*2:1*
Minimum Number of Parking Spaces	*28*
Minimum Stone Requirement (SH205 OV)	*20% ea facade*
Minimum Landscaping Percentage	*15%*
Maximum Impervious Coverage	*85 to 90%*

INFRASTRUCTURE:

Based on the request for a (*i.e. high density development*) the Engineering Department has contacted the City's engineering consultant, Birkhoff, Hendricks & Carter, LLP to review the City's 2014 Water Distribution and Wastewater Collection System Master Plan and determine the capacity necessary for the existing water and sanitary sewer system necessary to serve the proposed planned development. Staff requires this infrastructure study for any zoning change proposing a more intense land use than what is depicted on the City's Future Land Use Plan because it could have implications for the City's existing infrastructure (*i.e. streets, water, and wastewater*) capacities. Based on the applicant's submittal the following infrastructure is required:

Water Improvements
The water distribution system can provide adequate service for the proposed development.

Sewer Improvements
The existing gravity sewer lines will have adequate capacity for the proposed development; however, the Mims Lift Station will require a third pump to be installed by the applicant in order to meet the increased capacity requirements to serve this development.

Roadways
The Master Thoroughfare Plan indicates Mims Road as M4D (*i.e. minor collector, four [4] lane divided highway*), which requires a minimum of a 60-foot right-of-way with a 45-foot, back-to-back roadway. The applicant is responsible for dedicating the ROW for this roadway and paving twenty-four (24) feet of the proposed roadway where the property abuts one portion of the roadway. The applicant will also be responsible for all of the right-of-way and the entire road section where the property abuts both sides of the roadway.

SH-205 Facilities Agreement
The two (2) lane bypass along the western portion of SH-205 adjacent to the development and as shown on the Paving Concept Plan as presented by the applicant requires a facilities agreement with the Texas Department of Transportation (TXDOT) and the City for the purpose of constructing this roadway section. The street section shall be constructed to TXDOT standards prior to the development of any lots.

CONFORMANCE WITH THE UNIFIED DEVELOPMENT CODE AND CODE OF ORDINANCES:

It should be noted that the development standards contained within the PD Ordinance deviate from the requirements of the Unified Development Code (UDC) and the Engineering Department's *Standards of Design and Construction* Manual in the following ways:

- ☑ According to the Engineering Department's *Standards of Design and Construction* Manual, "(t)he City Council may waive the residential alley requirement upon determination by the Council, if it is in the best interest of the City." In addition, the UDC requires all garages accessible from the street be configured in a *J-Swing* (*Traditional Swing*) or recessed garage format (*i.e. the garage is setback a minimum of 20-feet from the front façade of the primary structure*). Currently, the applicant is requesting to allow 100% *Flat Front Entry* garages with a minimum of a five (5)-foot off-set from the front façade of the primary structure in lieu of alleyways, *J-Swing* and/or recessed garage formats.

- ☑ According to the Section 3.9, of Article V, of the UDC, the minimum lot area required for an individual unit (*i.e. townhome*) is 2,000 SF per the Multi-Family (MF-14) District. This is the smallest lot size defined within the UDC. Currently, the applicant is requesting to allow the townhome product be situated on 1,650 SF [*i.e. 22' x 75'*] lots. This would deviate from the UDC's minimum requirement by 350 SF per lot.

By approving the proposed Planned Development District, the City Council is waiving these standards. Attached to this case memo is a draft ordinance for the City Council's review.

CONFORMANCE WITH THE COMPREHENSIVE PLAN:

The *subject property* is zoned for Agricultural (AG), Commercial (C) and Heavy Commercial (HC) land uses. The Future Land Use Map, adopted with the Comprehensive Plan, designates the majority of the *subject property* for *Commercial/Industrial* land uses and a portion of *Tract 3 (i.e. 2.21-acres) located east of Mims Road* for *Medium Density Residential* land uses. The proposed zoning change would necessitate that the designation of *Tract 1* be changed from a *Commercial/Industrial* designation to a *Commercial* designation, *Tract 2* be changed from a *Commercial/Industrial* designation to a *High Density Residential* designation, and a portion of *Tract 3 (i.e. 12.60-acre)* from a *Commercial/Industrial* designation to a *Medium Density Residential* designation. The 2.21-acre portion of *Tract 3,* located east of Mims Road, would maintain its current designation as *Medium Density Residential*.

With regard to *Tract 1*, and according to the Comprehensive Plan, a *Commercial* land use is defined as an area "where commercial is indicated at the intersection of major roadways and development have not occurred." The Comprehensive Plan goes on to state that "(z)oning should only be allowed where the commercial use is eminent and where it would be planned and integrated with the adjacent residential neighborhoods. Furthermore, the Comprehensive Plan states "(t)he amount of retail and the size of the area to be designated for commercial or mixed use development may be large or small depending on the service area it will serve and the style and quality of development." In this case, the proposed development is adjacent to heavy commercial and single-family residential land uses, which is east of the *subject property* and buffered by S. Goliad Street. These existing land uses may warrant a transition of land uses.

With regard to *Tract 2,* and according to the Comprehensive Plan, a *High Density Residential* land use is defined as any development that exceeds three (3) units per gross acre. In this case, the density of the proposed townhome use is at 8.08-units per gross acre. The Comprehensive Plan goes on to state that "(h)igh density residential [*land uses*] should be used as a transitional use from commercial (*or existing retail*) use, or where it will serve as a logical extension of an existing high density development". In this case, the proposed development is adjacent to the proposed commercial/retail land use. Townhomes, "should differ in appearance through the use of varying

entry features, use of detail and trim, use of materials, articulation and setback." The applicant has not provided staff with conceptual elevations meeting these standards; however, photo examples provided example photos for review. If approved, the building elevations require the Architectural Review Board to provide a recommendation to the Planning and Zoning Commission for approval, conditional approval, or denial.

With regard to *Tract 3*, and according to the Comprehensive Plan, a Medium Density Residential land use is defined as an area consisting of residential developments "that have typically been built in Rockwall. They may be 2-3 units per acre, but generally about 3 units per acre." In this case, the density of the proposed single-family lots is at 2.37-units per gross acre. The zoning proposal conforms to the majority of the residential policies and guidelines contained in the Comprehensive Plan for a single-family residential development and the ***Medium Density Residential*** land use.

With regard to the overall development, the applicant's proposal of a townhome product provides a transition between the commercial/retail land use and the proposed single-family residential home lots; however, this would decrease the amount of land zoned Heavy Commercial (HC) District within the City. With this being said, the approval of any changes to the Future Land Use Map or the approval of an increased density would be a discretionary decision for the City Council. Should the City Council choose to approve the applicant's request staff has included a condition of approval that would amend the Future Land Use Map to reflect the requested designations.

NOTIFICATION:

On March 28, 2018, staff mailed 155 notices to property owners and residents within 500-feet of the *subject property*. Staff also sent a notice to the Flagstone Estates, Lynden Park, Hickory Ridge, and Hickory Ridge East Homeowner's Association (HOA), which are the only HOA/Neighborhood Organizations located within 1,500 feet of the *subject property*. Additionally, staff posted a sign along S. Goliad Street -- *adjacent to the subject property* -- as required by the Unified Development Code (UDC). At the time this case memo was drafted staff has received two (2) notices opposed to the applicant's request.

RECOMMENDATIONS:

If the Planning and Zoning Commission chooses to recommend approval of the applicant's request to change the zoning of the subject property from an Agricultural (AG) District, Commercial (C) District, and Heavy Commercial (HC) District to a Planned Development District for limited General Retail (GR) District, Single-Family 7 (SF-7) District and Townhome land uses, then staff would propose the following conditions of approval:

1) The applicant shall be responsible for maintaining compliance with the conditions contained within the *Planned Development District* ordinance;

2) By approving this zoning change, the City Council will effectively be approving changes to the Comprehensive Plan and Future Land Use Map. Specifically, this will change the designation of *Tract 1* from a ***Commercial/Industrial*** designation to a ***Commercial*** designation, *Tract 2* from a ***Commercial/Industrial*** designation to a ***High Density Residential*** designation, and a portion of *Tract 3 (i.e. 12.60-acre)* from a ***Commercial/Industrial*** designation to a ***Medium Density Residential*** designation;

3) The developer and/or property owner shall enter into a facilities agreement with the Texas Department of Transportation (TXDOT) and the City for the purpose of constructing a two (2) lane bypass along the western portion of SH-205 adjacent to the development and as shown on the Paving Concept Plan depicted in *Exhibit 'D''* of the PD Ordinance. The street section shall be constructed to TXDOT standards prior to the development of any lots.

4) Any construction resulting from the approval of this *zoning change* shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

PLANNING AND ZONING COMMISSION RECOMMENDATION:

On April 10, 2018, the Planning and Zoning Commission's motion to recommend approval of the applicant's request failed by a vote of 2-3 with Commissioners Trowbridge, Chodun, and Welch dissenting and Commissioners Moeller and Fishman absent. Since the motion to approve failed, the action is considered to be a recommendation for denial. According to Section 8.4, *Protest of Proposed Change in Zoning*, of Article II, *Authority and Administrative Procedures*, of the Unified Development Code (UDC), "(i)f such change [*zoning change*] is recommended for denial by the Planning and Zoning Commission, such change in zoning shall require a favorable vote of three-fourths [¾] of all eligible members of the Council."

Subject: Neighborhood Notification Program: Notice of zoning request
Attachments: Z2018-017 HOA Map.pdf

To whom it may concern:

Per your participation in the Neighborhood Notification Program, you are receiving this notification to inform your organization and residents of a request for a zoning change that lies within 1,500 feet of the boundaries of your neighborhood or subdivision. As the primary contact for the organization, you are encouraged to share this information with the residents of your subdivision. Please find attached a map detailing the location of the subject property requesting the zoning change in relation to your subdivision boundaries. Additionally, below is a summary of the zoning request that was published in the Rockwall Herald Banner ***March 23, 2018***. The Planning and Zoning Commission will hold a public hearing on ***Tuesday 4/10/2018 at 6:00 p.m.***, and the City Council will hold a public hearing on ***Monday, 4/16/2018 at 6:00 p.m***. These hearings will be held in the City Council Chambers at City Hall, 385 S. Goliad Street. These hearings will be held in the City Council Chambers at City Hall, 385 S. Goliad Street. If you have any questions or comments regarding this request, the contact information for the Planning Department is listed below. Additional information can also be found at https://sites.google.com/site/rockwallplanning/development/development-cases/03162018

Z2018-017- Hold a public hearing to discuss and consider a request by Pat Atkins of Saddlestar Land Development on behalf of the Stagliano Family Trust for the approval of a zoning change from an Agricultural (AG) District, Commercial (C) District and Heavy Commercial (HC) District to a Planned Development District for commercial/retail, single-family and townhome land uses on a 63.72-acre tract of land identified as Tract 3 of the W. H. Barnes Survey, Abstract No. 26, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, Commercial (C) District and Heavy Commercial (HC) District, situated within the SH-205 Overlay (SH-205 OV) District, located at the northwest corner of S. Goliad Street [SH-205] and Mims Road, and take any action necessary.

If this email is reaching you in error, please forward it to your HOA or neighborhood group representative and update the contact information at http://www.rockwall.com/planning/hoa.asp.

Sincerely,

Laura Morales

NOTICE OF PUBLIC HEARING
CITY OF ROCKWALL, PLANNING & ZONING DEPARTMENT

PHONE: (972) 771-7745
EMAIL: PLANNING@ROCKWALL.COM

To Whom It May Concern:

You are hereby notified that the City of Rockwall Planning and Zoning Commission and City Council will consider the following application:

Case No. Z2018-017: The Enclave (C and HC to PD)

Hold a public hearing to discuss and consider a request by Pat Atkins of Saddlestar Land Development on behalf of the Stagliano Family Trust for the approval of a zoning change from an Agricultural (AG) District, Commercial (C) District and Heavy Commercial (HC) District to a Planned Development District for commercial/retail, single-family and townhome land uses on a 63.72-acre tract of land identified as Tract 3 of the W. H. Barnes Survey, Abstract No. 26, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, Commercial (C) District and Heavy Commercial (HC) District, situated within the SH-205 Overlay (SH-205 OV) District, located at the northwest corner of S. Goliad Street [SH-205] and Mims Road, and take any action necessary.

For the purpose of considering the effects of such a request, the Planning and Zoning Commission will hold a public hearing on **Tuesday, 4/10/2018 at 6:00 p.m.,** and the City Council will hold a public hearing on **Monday, 4/16/2018 at 6:00 p.m.** These hearings will be held in the City Council Chambers at City Hall, 385 S. Goliad Street.

As an interested property owner, you are invited to attend these meetings. If you prefer to express your thoughts in writing please return the form to:

David Gonzales
Rockwall Planning and Zoning Dept.
385 S. Goliad Street
Rockwall, TX 75087

You may also email your comments to the Planning Department at planning@rockwall.com. If you choose to email the Planning Department please include your name and address for identification purposes.

Your comments must be received by **4/16/2018** to ensure they are included in the information provided to the City Council.

Sincerely,

Ryan Miller, AICP
Director of Planning & Zoning

ENCLAVE ROCKWALL

63.72 ACRES-Z2017-052

ROCKWALL , TEXAS

RE: Enclave Zoning –Re-Submittal

DEAR MR. GONZALES , MRS. MORALES

AS AUTHORIZED REPRESENATIVE AND APPLICANT FOR THE 63.72 ACRES , WE ARE HEREBY FORMALLY RESUBMITTING OUR APLLICATION , WITH THE FOLLOWING MODIFICATIONS TO THE ORIGINAL SUBMITTAL.

1. **REQUUIREMENT OF CONSTRUCTION OF THE WESTERN TWO LANES OF S.H. 205 WITH FACILITIES AGREEMENT**
2. **REQUIREMENT OF THE MINIMUM OF 20% OPEN SPACE.**
3. **SINGLE FAMILY GARAGE ORIENTATION TO BE A MINIMUM OF 5' OFFSET FROM THE MAIN STRUCTURE**
4. **TOWNHOUSE AND C-3 DISTRICT REQUIRING ROCKWALL ARCHITECURAL REVIEW COMMITTEE APPROVAL BEFORE BUILDING PERMIT.**
5. **UPDATED TRAFFIC REPORT REFLECTING COUNTS DURING SCHOOL TIMES.**
6. **SUP REQUIREMENT FOR GASOINE SERVICE USES IN GENERAL RETAIL DISTRICT.**

SINCERELY-PAT ATKINS – DIRECTOR

SADDLESTAR LAND DEVELOPMENT LLC

DEVELOPMENT OUTLINE

The property consists of 63.72 Acres of Land, adjacent to S.H 205 a 120' Major Thoroughfare, also Mims Road a 65' Major Collector , South of and adjacent to Buffalo Creek consisting of 19 acres of open space. The property is sparsely vegetated on the southern 63 acres with native tree's. The Planned Development will create a pedestrian oriented neighborhood allowing for residential access to retail office and opens pace amenity areas. New homes construction will range from $250K Enclave Villas Townhouse and Enclave Urban Housing $350k and up. The homes will be marketed towards young families, young professionals and empty nesters lifestyle. Creating an additional 129 million dollars to the City of Rockwall tax base. There will be a Master H.O.A. required within the development of the property. We are excited to bring this upscale residential retail-office development to this area which surpasses expectations required in your Comprehensive Master Plan . A master trail system , along with the required Landscape Buffer along S.H. 205 , Mims Road and Buffalo Creek will be implemented which will encourage pedestrian access to all uses.

CITY OF ROCKWALL

ORDINANCE NO. 18-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, SO AS TO CHANGE THE ZONING FROM AN AGRICULTURAL (AG), COMMERCIAL (C) AND HEAVY COMMERCIAL (HC) DISTRICT TO A PLANNED DEVELOPMENT DISTRICT FOR GENERAL RETAIL (GR), TWO FAMILY (2F) AND SINGLE FAMILY 7 (SF-7) DISTRICT LAND USES ON THE *SUBJECT PROPERTY*, BEING A 63.72-ACRE TRACT OF LAND IDENTIFIED AS TRACT 3 OF THE W. H. BARNES SURVEY, ABSTRACT NO. 26, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS AND MORE FULLY DESCRIBED HEREIN BY *EXHIBIT 'A'*; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the City has received a request by Pat Atkins of Saddlestar Land Development on behalf of the Stagliano Family Trust for the approval of a zoning change from an Agricultural (AG), Commercial (C) and Heavy Commercial (HC) District to a Planned Development District for General Retail (GR), Two Family (2F) and Single Family 7 (SF-7) District land uses on a 63.72-acre tract of land identified as Tract 3 of the W. H. Barnes Survey, Abstract No. 26, City of Rockwall, Rockwall County, Texas and more fully described in *Exhibit 'A'* of this ordinance, which hereinafter shall be referred to as the *Subject Property* and incorporated by reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the affected area, and in the vicinity thereof, and the governing body in the exercise of its legislative discretion, has concluded that the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:**

SECTION 1. That the *Subject Property* shall be used only in the manner and for the purposes authorized by this Planned Development District Ordinance and the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall as heretofore amended, as amended herein by granting this zoning change, and as maybe amended in the future;

SECTION 2. That development of the *Subject Property* shall generally be in accordance with the *Planned Development Concept Plan*, depicted in *Exhibit 'B'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'B'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*;

SECTION 3. That development of the *Subject Property* shall generally be in accordance with the *Development Standards*, described in *Exhibit 'C'* of this ordinance, attached hereto and incorporated herein by reference as *Exhibit 'C'*, which is deemed hereby to be a condition of approval of the amended zoning classification for the *Subject Property*;

SECTION 4. That development of the *Subject Property* shall be in conformance with the schedule listed below (*except as set forth below with regard to simultaneous processing and approvals*).

DRAFT ORDINANCE 04.16.2018

(a) The procedures set forth in the City's subdivision regulations on the date this ordinance is approved by the City, as amended by this ordinance (*including Subsections 4(b) through 4(d) below*), shall be the exclusive procedures applicable to the subdivision and platting of the *Subject Property*.

(b) The following plans and plats shall be required in the order listed below (*except as set forth below with regard to simultaneous processing and approvals*). The City Council shall act on an application for an *Open Space Master Plan* in accordance with the time period specified in Section 212.009 of the Texas Local Government Code.

1. Open Space Master Plan (*Tracts 2 & 3 Only)*
2. Master Plat (*Tracts 2 & 3 Only)*
3. Preliminary Plat (*Tracts 2 & 3 Only)*
4. PD Site Plan (*All Tracts*)
5. Final Plats (*All Tracts*)

(c) A *Master Plat* application covering all of the *Subject Property* shall be submitted. No master plat application shall be approved until the *Open Space Master Plan* for all of the *Subject Property* has been approved; however, the *Open Space Master Plan* may be processed by the City concurrently with the *Master Plat* and *Preliminary Plat* application. If only one (1) phase is being proposed, the applicant may submit a letter stating the timing of the phase with the *Preliminary Plat* application to satisfy the *Master Plat* requirement.

(d) A *PD Site* Plan application, including a site plan application for improvements for parkland or trails, may be processed by the City concurrently with the *Final Plat* application for the development.

SECTION 5. That the official zoning map of the City of Rockwall shall be corrected to reflect the changes in zoning as described herein.

SECTION 6. That any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *Two Thousand Dollars* ($2,000.00) for each offense and each and every day such offense shall continue shall be deemed to constitute a separate offense;

SECTION 7. That if any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable;

SECTION 8. The standards in this ordinance shall control in the event of a conflict between this ordinance and any provision of the Unified Development Code or any provision of the City Code, ordinance, resolution, rule, regulation, or procedure that provides a specific standard that is different from and inconsistent with this ordinance. References to zoning district regulations or other standards in the Unified Development Code (including references to the *Unified Development Code*), and references to overlay districts, in this ordinance or any of the Exhibits hereto are those in effect on the date this ordinance was passed and approved by the City Council of the City of Rockwall, Texas;

SECTION 10. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides;

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 7TH DAY OF MAY, 2018.

DRAFT 04.20.18

Jim Pruitt, *Mayor*

ATTEST:

Kristy Cole, *City Secretary*

APPROVED AS TO FORM:

Frank J. Garza, *City Attorney*

1st Reading: *April 16, 2018*

2nd Reading: *May 7, 2018*

DRAFT ORDINANCE 04.16.2018

Exhibit 'A':
Legal Description

BEING a 63.708 acre tract of land situated in the W. H. Barnes Survey, Abstract No. 26, City of Rockwall, Rockwall County, Texas, and being all of that called 63.72 acre tract of land described in a deed to Stagliano Family Trust recorded as Instrument No. 20150000018059, Deed Records of Rockwall County, Texas (DRRCT) and this tract being more particularly described as follows:

BEGINNING at a 5/8" iron rod with yellow plastic cap stamped "RPLS 3963" set for corner in the west right-of-way line of State Highway No. 205 at the most northern corner of said 63.72 acre tract common to the most eastern corner of a called 24.96 acre tract described in a deed to Rayburn Country Electric Cooperative, Inc., recorded as Instrument No. 20170000005360 (DRRCT), from which a 1/2" iron rod with a yellow plastic cap found for reference bears S 35°54'40" W a distance of 2.19 feet.

THENCE along the easterly lines of said 63.72 acre tract and the westerly lines of said Highway right-of-way as follows:

S 31°06'54" E, a distance of 92.45 feet to a 5/8" iron rod with yellow plastic cap stamped "RPLS 3963", set for corner;
N 58°56'40" E, a distance of 10.00 feet to a 5/8" iron rod with yellow plastic cap stamped "RPLS 3963", set for corner;
S 31°03'20" E a distance of 447.60 feet to a 5/8" iron rod with yellow plastic cap stamped "RPLS 3963" set for corner at the beginning of a curve to the left having a radius of 5779.60 feet, and a chord which bears South 36 deg. 39 min. 10 sec. East, a distance of 1127.44 feet;
In a Southeasterly direction, continuing along said curve to the left having a central angle of 11°11'41", an arc distance of 1129.24 to a 5/8" iron rod with yellow plastic cap stamped "RPLS 3963", set for corner; at the southeast corner of said 63.72 acre tract and being near the south edge of Mims Road (an asphalt surface at this location);

THENCE along the south side of said Mims road and the south lines of said 63.72 acre tract as follows:

S 88°36'12" W, a distance of 1352.05 feet to a point for corner from which a 3/8" iron rod found for reference bears S 53°33'24" W a distance of 0.74 feet;
S 89°30'36" W , a distance of 1324.38 feet to a point for corner from which a 5/8" iron rod set for reference bears S 43°31'32" E a distance of 28.57 feet;

THENCE S 89°35'55" W, now departing from the south margin of Mims Road and continuing with a south line of said 63.72 acre tract a distance of 1560.75 feet to a 1/2" iron rod found at the southwest corner thereof;

THENCE N 43°51'06" E , along a western boundary of said 63.72 acre tract a distance of 1133.75 feet to a 1/2" iron rod set for corner at a northern corner thereof;

THENCE S 54°43'46" E, along a boundary line of said 63.72 acre tract a distance 183.64 feet to a point for corner near the center of Mims Road and near the southeast side of Sids Road, said point being the most western corner of a called 1.50 acre tract described in a deed to Richard Slaughter recorded in Vol. 1531, Pg. 145 (DRRCT);

THENCE S 43°28'02" E along a boundary line of said 63.72 acre tract and the southwest line of said 1.50 acre tract a distance of 353.08 feet to an "X" set in a concrete bridge for corner at the most southern corner thereof;

THENCE N 42°26'36" E, continuing with the common line of last mentioned tracts a distance of 96.95 feet to a 1/2" iron rod found for corner at the most western corner of said 24.96 acre tract and an exterior "ell" corner of said 63.72 acre tract;

THENCE along the common lines of said 24.96 acre and 63.72 acre tracts as follows:

S 43°25'10" E, a distance of 85.05 feet to a 1/2" iron rod found for corner;
N 79°16'39" E, a distance of 276.11 feet to a point for corner from which a 1/2" iron rod found for reference bears S 60°54'11" E, a distance of 0.21 feet;
N 71°07'55"E, a distance of 1106.71 feet to a 1/2" iron rod found for corner;
N 72°30'03" E, a distance of 356.82 feet to a 1/2" iron rod with a yellow cap stamped "5560" found for corner;
N 35°54'40" E, a distance of 537.75 feet to the **POINT OF BEGINNING** and containing 63.708 acres or 2,775,128 square feet of land.

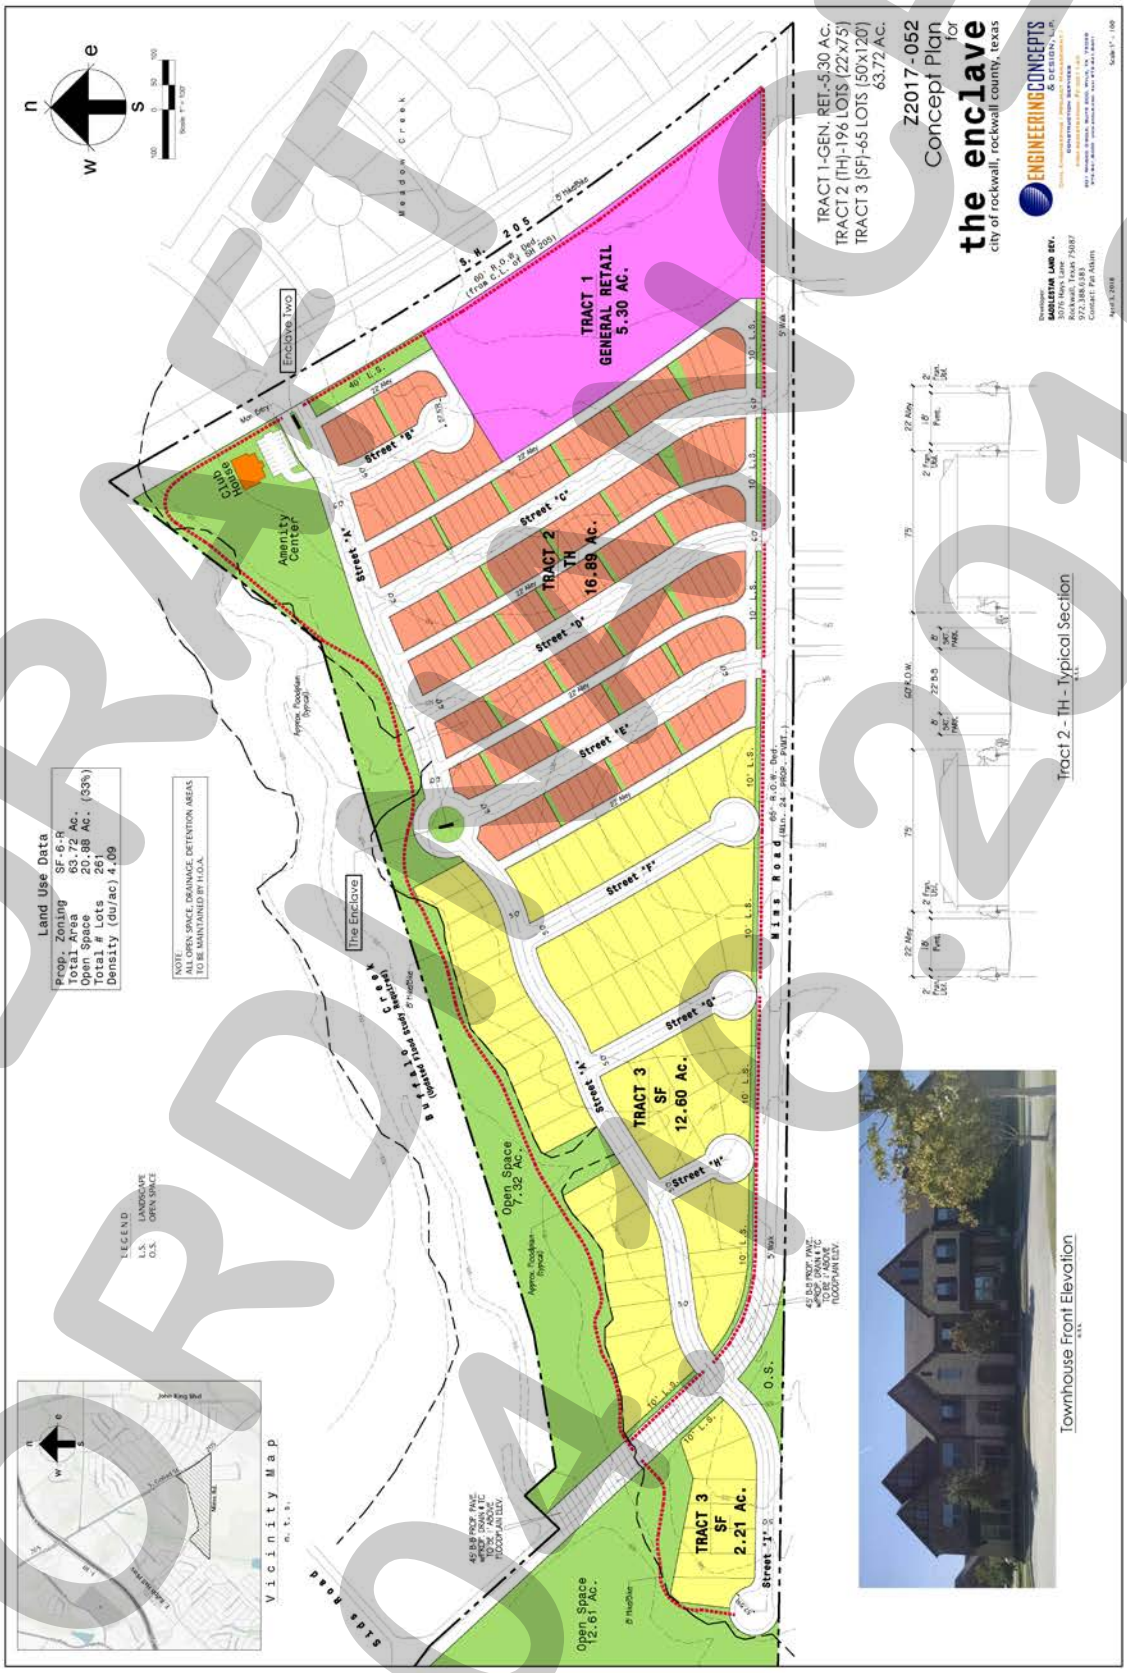
DRAFT ORDINANCE 04.16.2018

Exhibit 'B':
Concept Plan



DRAFT
ORDINANCE
04.30.2018

Exhibit 'C':
PD Development Standards

PD DEVELOPMENT STANDARDS.

GENERAL PD STANDARDS

(1) *Residential Lot Composition and Layout.* The lot layout and composition shall generally conform to the *Concept Plan* depicted in *Exhibit 'B'* of this ordinance and stated in *Table 1* below. Allowances for changes to the quantity and location of the single family lot type are permitted in conformance with the requirements listed below; however in no case shall the proposed development exceed 263-units (*townhome and single family*) or a density of 4.5-dwelling units per acre.

Table 1: Unit Composition

Lot Type	Lot Dimensions	Minimum Lot Size (SF)	Dwelling Units (#)	Dwelling Units (%)
Tract 2	22' x 75'	1,650 SF	198	75.29%
Tract 3	50' x 120'	6,000 SF	65	24.71%
		Maximum Permitted Units:	263	100.00%

(2) *Residential Deviation Provisions.* The allocation of single-family dwellings

(3) *Trash Dumpster Enclosure.* All trash dumpsters enclosures shall be four (4) sided, with eight (8) foot walls constructed and cladded with materials matching the adjacent structure, and have a self-latching opaque gate. All trash dumpster enclosures shall be internal to the site and not be situated within any established building setbacks or landscape buffers, and not be visible from a public street or open space.

(4) *Lighting.* Light poles shall not exceed 20-feet in total height (*i.e. base and lighting standard*). All fixtures shall be directed downward and be positioned to contain all light within the development area.

(5) *Buried Utilities.* New distribution power-lines required to serve the *Subject Property* shall be placed underground, whether such lines are located internally or along the perimeter of the *Subject Property*, unless otherwise authorized by the City Council. The *Developer* shall not be required to re-locate existing overhead power-lines along the perimeter of the *Subject Property*. Temporary power-lines constructed across undeveloped portions of the *Subject Property* to facilitate development phasing and looping may be allowed above ground, but shall not be considered existing lines at the time the area is developed, and if they are to become permanent facilities, such lines shall be placed underground pursuant to this paragraph. Franchise utilities shall be placed within a ten (10) foot public utility easement behind the sidewalk, between the home/structure and the property line.

(6) *Open Space.* The development shall consist of a minimum of 17.9% open space (*or 11.39-acres*), and generally conform to the *Planned Development Concept Plan* contained in *Exhibit 'B'* of this ordinance. The Homeowner's Association (HOA) shall be responsible for maintaining all open space areas.

(7) *Neighborhood Signage.* Permanent subdivision identification signage shall be permitted at all major entry points for the proposed subdivision. Final design and location of any entry features shall be reviewed and approved during the site plan review process.

(8) *Homeowner's Association (HOA).* A Homeowner's Association shall be created to enforce the restrictions established in accordance with the requirements of *Section 38-15* of the *Subdivision Regulations* contained within the *Municipal Code of Ordinances* of the City of Rockwall. The HOA or HOA's shall also maintain all neighborhood parks, open space and common areas, irrigation, landscaping, screening fences private roadway, drive aisles and drive approaches for the areas identified as *Tracts 1 & 2* on the *Concept Plan* depicted in *Exhibit 'B'* of this ordinance.

(9) *Street.* All streets (*excluding drives, fire lanes and private parking areas*) shall be built according to City street standards.

(10) *SH-205 Two (2) Lane Addition*. Prior to the development of any lots and/or property [i.e. Tract 1, Tract 2, and/or Tract 3], the developer and/or property owner shall enter into a facilities agreement

DRAFT ORDINANCE 10.15.2018

with the Texas Department of Transportation (TXDOT) and the City for the purpose of constructing a two (2) lane bypass along the western portion of SH-205 adjacent to the development and as shown on the Paving Concept Plan depicted in *Exhibit 'D"* of the PD Ordinance. The street section shall be constructed to TXDOT standards.

(11) *Variances.* The variance procedures and standards for approval that are set forth in the UDC shall apply to any application for variances to this ordinance.

DRAFT ORDINANCE 04.16.2018

Exhibit 'C':
PD Development Standards

TRACT 1: GENERAL RETAIL

(1) *Permitted Uses.* Unless specifically provided by this Planned Development ordinance, only those uses permitted within the General Retail (GR) District, as stipulated by the *Permissible Use Charts* contained in Article IV, *Permissible Uses*, of the Unified Development Code (UDC) [*Ordinance No. 04-38*] as heretofore amended, as amended herein by granting this zoning change, and as maybe amended in the future are permitted on the area identified as *Tract 1* on the *Concept Plan* depicted in *Exhibit 'B'* of this ordinance; however, the following shall apply:

Permitted by Specific Use Permit (SUP). The following uses shall require approval of a Specific Use Permit (SUP):

❒ Retail Store with Gasoline Product Sales [M*ore than two (2) Dispensers*]

Prohibited Uses. The following uses shall be prohibited:

❒ Convent or Monastery
❒ Hotel or Motel
❒ Hotel, Residence
❒ Cemetery/Mausoleum
❒ Mortuary or Funeral Chapel
❒ Social Service Provider
❒ Billiard Parlor or Pool Hall
❒ Carnival, Circus, or Amusement Ride
❒ Commercial Amusement/Recreation (*Outside*)
❒ Gun Club, Skeet or Target Range (*Indoor*)
❒ Astrologer, Hypnotist, or Psychic Art and Science
❒ Night Club, Discotheque, or Dance Hall
❒ Secondhand Dealer
❒ Car Wash, Self Service
❒ Service Station
❒ Mining and Extraction (*Sand, Gravel, Oil & Other*)
❒ Helipad
❒ Railroad Yard or Shop
❒ Transit Passenger Facility
❒ Garden Supply/Plant Nursery

(2) *Density and Dimensional Requirements.* Any development on the area identified as *Tract 1* on the *Concept Plan* depicted in *Exhibit 'B'* of this ordinance shall be subject to the development standards required for properties in a General Retail (GR) District and within the SH-205 Overlay (SH-205 OV) District as stipulated by Article V, *District Development Standards*, of the Unified Development Code (UDC) [*Ordinance No. 04-38*] as heretofore amended, as amended herein by granting this zoning change, and as maybe amended in the future.

(3) *Connectivity and Design.* The area identified as *Tract 1* on the *Concept Plan* depicted in *Exhibit 'B'* of this ordinance shall be designed to be pedestrian oriented and easily accessible to the adjacent residential land uses. In addition, the non-residential land uses shall be designed in a manner that reduces physical barriers between the residential land uses by incorporating cross connectivity in the form of walking paths and pedestrian scale elements. Buildings constructed in this area should be designed to a pedestrian scale with architectural elements that complement the adjacent residential land uses.

(4) *Landscape Requirements*. All *Canopy/Shade Trees* planted within *Tract 1* shall be a minimum of four (4) caliper inches in size and all *Accent/Ornamental/Under-Story Trees* shall be a minimum of four (4) feet in total height.

DRAFT ORDINANCE 06.26.2018

(5) *Landscape Buffers.* All landscape buffers and plantings located within the buffers adjacent to the area identified as *Tract 1* on the *Concept Plan* depicted in *Exhibit 'B'* of this ordinance shall adhere to the following:

(a) *Landscape Buffer (SH-205).* A minimum of a 20-foot landscape buffer shall be provided along the frontage of SH-205 (*outside of and beyond any required right-of-way dedication*), and shall incorporate ground cover, a built-up berm and/or shrubbery or a combination thereof along the entire length of the frontage. Berms and/or shrubbery shall have a minimum height of 30-inches and a maximum height of 48-inches. In addition, two (2) canopy trees and four (4) accent trees shall be planted per 100-feet of linear frontage. The developer shall also be responsible for the construction of a eight (8) foot trail situated within the 20-foot landscape buffer adjacent to SH-205.

(b) *Landscape Buffer (Mims Road).* A minimum of a ten (10) foot landscape buffer shall be provided along the frontage of Mims Road (*outside of and beyond any required right-of-way dedication*). In addition, one (1) canopy tree shall be planted per 50-feet of linear frontage. The developer shall also be responsible for the construction of a five (5) foot sidewalk situated within the ten (10) foot landscape buffer adjacent to Mims Road.

(c) *Landscape Buffer (Adjacent to Residential).* A minimum of a 50-foot landscape buffer shall be provided adjacent to all residential land uses. The landscape buffer shall incorporate a built-up berm with ground cover and/or shrubbery or a combination thereof along the entire length of the adjacency for the purpose of screening the commercial areas from the residential areas without using a physical barrier. In addition, the landscape buffer shall incorporate canopy trees planted on 20-foot centers along the entire length of the adjacency.

TRACT 2: TOWNHOMES

(1) *Permitted Uses.* Unless specifically provided by this Planned Development ordinance, only those uses permitted within the Two Family (2F) District, as stipulated by the *Permissible Use Charts* contained in Article IV, *Permissible Uses*, of the Unified Development Code (UDC) [*Ordinance No. 04-38*] as heretofore amended, as amended herein by granting this zoning change, and as maybe amended in the future are permitted on the area identified as *Tract 2* on the *Concept Plan* depicted in *Exhibit 'B'* of this ordinance; however, the following additional land uses shall be permitted *by-right*:

- ❒ Townhomes/Townhouses

(2) *Density and Dimensional Standards.* Unless specifically provided by this Planned Development ordinance, any development on the area identified as *Tract 2* on the *Concept Plan* depicted in *Exhibit 'B'* of this ordinance shall be subject to the density and dimensional requirements required for a Two Family (2F) District, as stipulated by Article V, *District Development Standards*, of the Unified Development Code (UDC) [*Ordinance No. 04-38*] as heretofore amended, as amended herein by granting this zoning change, and as maybe amended in the future. All development on the *Subject Property* shall conform to the standards stipulated by *Table 2: Lot Dimensional Requirements* below, and generally conform to the lot layout depicted in *Exhibit 'B'* of this ordinance.

Table 2: Lot Dimensional Requirements

Minimum Lot Width	22'
Minimum Lot Depth	75'
Minimum Lot Area	1,650 SF
Minimum Front Yard Setback	5'
Minimum Side Yard Setback [1]	0'/20'
Minimum Side Yard Setback (Adjacent to a Street)	5'
Minimum Length of Driveway Pavement from Rear Property Line	20'
Maximum Height [2]	36'
Minimum Rear Yard Setback	5'
Minimum Area/Dwelling Unit (SF) [Sum of All Floor Area's]	1,600 SF
Maximum Lot Coverage	90%

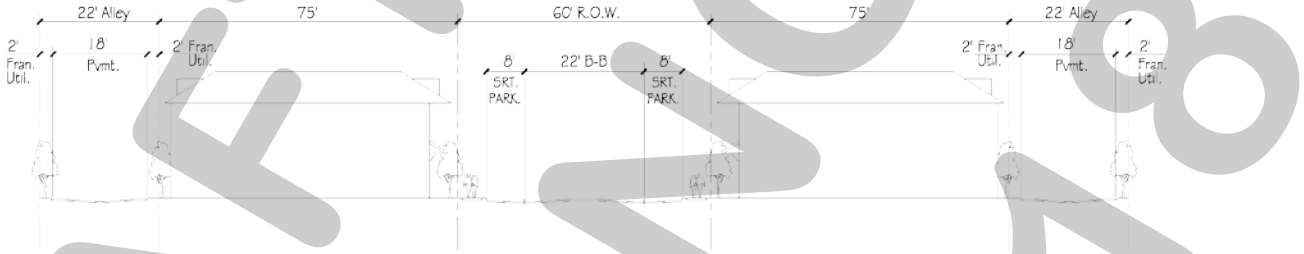
General Notes:

DRAFT
04.16.18

[1]: The side yard setback on the attached side maybe zero (0) if directly abutting a structure on an adjacent lot.
[2]: The Maximum Height shall be measured to the eave or top plate (*whichever is greater*) of the single family home.

(3) *Garage Orientation.* All garages shall be rear entry and accessible from an alleyway adjacent to the rear of the subject properties as depicted in the typical cross section below. Front entry garages shall be prohibited in *Tract 2* of the proposed development.

Typical Townhome Cross Section



(4) *Building Standards.* The building elevations shall differ in appearance through the use of varying entry features, use of detail and trim, use of materials, articulation and setback, and shall conform to the following requirements:

(i) *Masonry Requirements.* The minimum masonry requirement for the exterior façades of all buildings shall be 100%. For the purposes of this ordinance, the masonry requirement shall be limited to full width brick, natural stone, and cast stone. Cementaceous fiberboard horizontal lap-siding (*e.g. HardiBoard or Hardy Plank*) and, stucco (*i.e. three [3] part stucco or a comparable -- to be determined by staff*) may be used for up to 50% of the exterior of the building and shall be limited to the anti-monotony restrictions as outlined in this ordinance. Stucco may not be used within the first four (4) feet above grade on a façade visible from a public street or open space.

(ii) *Roof Design Requirements*. All buildings shall be designed such that no roof mounted mechanical equipment (*i.e. HVAC, satellite, vents, etc.*) shall be visible from any direction. If ground mounted equipment is proposed, landscape screening shall be required to impair visibility of the units from a public right-of-way or open space.

Note: Screening of mechanical equipment is necessary for all equipment regardless of location (*i.e. roof mounted, ground mounted, or otherwise attached to the building and/or located on the site*).

(iii) *Architectural Requirements*. All units shall be architecturally finished on all sides of the building with the same materials, detailing and features and generally conform to the example depicted below. In addition, the design of the proposed townhomes shall require review and recommendation from the Architectural Review Board (ARB) during the site plan review process.

Example of Townhome Elevations

DRAFT 10.15.18

(5) *Anti-Monotony Restrictions.* All development shall adhere to the following anti-monotony restrictions:

(i) Identical brick blends, paint colors and, cementaceous products (*i.e. Hardy Plank lap siding, etc.*) may not occur on adjacent (*i.e. side-by-side*) properties within the development without at least two (2) intervening townhomes of differing materials on the same side of the adjacent townhome beginning with the adjacent property.

(ii) Front building elevations shall not repeat along any block face without at least two (2) intervening homes of differing appearance on the same block face within the development.

(iii) The rear elevation of homes shall not repeat without at least two (2) (*i.e. side-by-side*) intervening homes of differing appearance. Homes are considered to have a differing appearance if any of the following two (2) items deviate:

a) Front Encroachment (*i.e. Porch and/or Sunroom*) Type and Layout
b) Roof Type and Layout
c) Articulation of the Front Façade
d) Differing Primary Exterior Materials

(6) *Landscaping Standards.*

(i) *Landscape Requirements*. Landscaping shall be reviewed and approved during the site plan review process. All *Canopy/Shade Trees* planted within this development shall be a minimum of four (4) caliper inches in size and all *Accent/Ornamental/Under-Story Trees* shall be a minimum of four (4) feet in total height.

(ii) *Landscape Buffers* (*Mims Road*). A minimum of a ten (10) foot landscape buffer shall be provided along the frontage of Mims Road, and shall incorporate a minimum of one (1) canopy tree per 50-feet of linear frontage.

(iii) *Landscape Buffer (SH-205).* A minimum of a 40-foot landscape buffer shall be provided along the frontage of SH-205 (*outside of and beyond any required right-of-way dedication*), and shall incorporate ground cover, a built-up berm and/or shrubbery or a combination thereof along the entire length of the frontage. Berms and/or shrubbery shall have a minimum height of 30-inches and a maximum height of 48-inches. In addition, two (2) canopy trees and four (4) accent trees shall be planted per 100-feet of linear frontage. The developer shall also be responsible for the construction of a eight (8) foot trail situated within the 40-foot landscape buffer adjacent to SH-205.

(iv) Irrigation Requirements. Irrigation shall be installed for all required landscaping located within common areas, landscape buffers and/or open space. Irrigation installed in these areas shall be designed by a Texas licensed irrigator or landscape architect.

(7) *Fencing Standards.* All individual residential fencing and walls shall be architecturally compatible with the design, materials and colors of the primary structure on the same lot, and meet the following standards:

(i) *Wrought Iron/Tubular Steel.* All fences shall be required to be wrought iron or a tubular steel fence. Wrought iron/tubular steel fences shall be a minimum of four (4) feet in height; however, may not exceed a maximum of eight (8) feet in height.

(ii) *Corner Lots.* Corner lots fences (i.e. adjacent to the street) shall provide masonry columns at 45-feet off center spacing that begins at the rear of the property line. A maximum of six (6) wrought iron/tubular steel fencing shall be allowed between the masonry columns along the side and/or rear lot adjacent to a street. In addition, the fencing shall be setback from the side property line adjacent to a street a minimum of five (5) feet. The property owner shall be required to maintain both sides of the fence.

DRAFT ORDINANCE 04-16-2018

(iii) *Fencing Adjacent to Roadways.* All fencing adjacent to a roadway shall incorporate shrubbery adjacent to the wrought iron/tubular steel fencing to screen the rear/side yard.

TRACT 3: SINGLE FAMILY

(1) *Permitted Uses.* Unless specifically provided by this Planned Development ordinance, only those uses permitted within the Single Family 7 (SF-7) District, as stipulated by the *Permissible Use Charts* contained in Article IV, *Permissible Uses*, of the Unified Development Code (UDC) [*Ordinance No. 04-38*] as heretofore amended, as amended herein by granting this zoning change, and as maybe amended in the future are permitted on the area identified as *Tract 3* on the *Concept Plan* depicted in *Exhibit 'B'* of this ordinance.

(2) *Density and Dimensional Standards.* Unless specifically provided by this Planned Development ordinance, any development on the area identified as *Tract 3* on the *Concept Plan* depicted in *Exhibit 'B'* of this ordinance shall be subject to the density and dimensional requirements required for a Single Family 7 (SF-7) District, as stipulated by Article V, *District Development Standards*, of the Unified Development Code (UDC) [*Ordinance No. 04-38*] as heretofore amended, as amended herein by granting this zoning change, and as maybe amended in the future. All development on the *Subject Property* shall conform to the standards stipulated by *Table 3: Lot Dimensional Requirements* below, and generally conform to the lot layout depicted in *Exhibit 'B'* of this ordinance.

Table 3: Lot Dimensional Requirements

Minimum Lot Width	50'
Minimum Lot Depth	100'
Minimum Lot Area	6,000 SF
Minimum Front Yard Setback	20'
Minimum Side Yard Setback	5'
Minimum Side Yard Setback (Adjacent to a Street)	10'
Minimum Length of Driveway Pavement from Rear Property Line	20'
Maximum Height [1]	36'
Minimum Rear Yard Setback	10'
Minimum Area/Dwelling Unit (SF) [Sum of All Floor Area's]	2,000 SF
Maximum Lot Coverage	70%

General Notes:

[1]: The Maximum Height shall be measured to the eave or top plate (*whichever is greater*) of the single family home.

(3) *Building Standards.* The building elevations shall differ in appearance through the use of varying entry features, use of detail and trim, use of materials, articulation and setback, and shall conform to the following requirements:

(i) *Masonry Requirements.* The minimum masonry requirement for the exterior façades of all buildings shall be 100%. For the purposes of this ordinance, the masonry requirement shall be limited to full width brick, natural stone, and cast stone. Cementaceous fiberboard horizontal lap-siding (*e.g. HardiBoard or Hardy Plank*) and, stucco (*i.e. three [3] part stucco or a comparable -- to be determined by staff*) may be used for up to 50% of the exterior of the building and shall be limited to the anti-monotony restrictions as outlined in this ordinance. Stucco may not be used within the first four (4) feet above grade on a façade visible from a public street or open space.

(ii) *Roof Pitch.* A minimum of an *8:12* roof pitch is required on all structures with the exception of sunrooms and porches, which shall have a minimum of a *4:12* roof pitch.

(iii) *Garage Orientation.* Garages maybe oriented toward the street in a front entry configuration; however, the front façade of the garage must be set a minimum of 5-feet behind the front building façade of the primary structure. All garage configurations that are not front entry shall meet the requirements of Article IV, Parking and Loading, of the Unified Development Code.

(4) *Anti-Monotony Restrictions.* All development shall adhere to the following anti-monotony restrictions:

(i) Identical brick blends or paint colors may not occur on adjacent (*side-by-side*) properties along

DRAFT ORD. 2018

any block face without at least five (5) intervening homes of differing materials on the same side of the street beginning with the adjacent property and six (6) intervening homes of differing materials on the opposite side of the street.

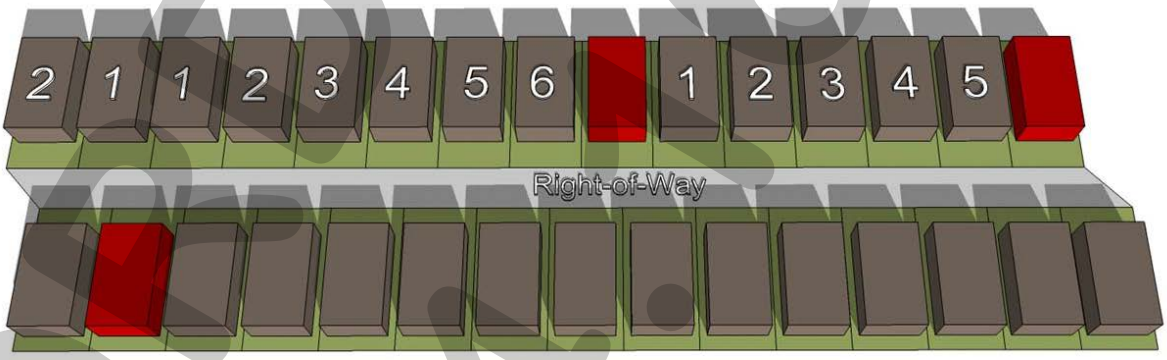
(ii) Front building elevations shall not repeat along any block face without at least five (5) intervening homes of differing appearance on the same side of the street and six (6) intervening homes of differing appearance on the opposite side of the street. The rear elevation of homes backing to open spaces or on SH-205 shall not repeat without at least five (5) intervening homes of differing appearance. Homes are considered to have a differing appearance if any of the following two (2) items deviate:

(a) Number of Stories
(b) Roof Type and Layout
(c) Articulation of the Front Façade

(iii) Each phase of the subdivision will allow for a maximum of four (4) compatible roof colors, and all roof shingles shall be an architectural or dimensional shingle (*i.e. 3-Tab Roofing Shingles are prohibited*).

Illustration 1: Properties line up on the opposite side of the street. Where RED is the subject

Illustration 2: Properties do not line up on opposite side of the street. Where RED is the subject



(5) *Landscape and Hardscape Standards.*

(i) Landscape. *Landscape Requirements*. Landscaping shall be reviewed and approved during the site plan review process. All *Canopy/Shade Trees* planted within this development shall be a minimum of four (4) caliper inches in size and all *Accent/Ornamental/Under-Story Trees* shall be a minimum of four (4) feet in total height.

(ii) *Landscape Buffers* (*Mims Road*). A minimum of a ten (10) foot landscape buffer shall be

DRAFT
ORDINANCE
04.30.18

provided along the frontage of Mims Road, and shall incorporate a minimum of one (1) canopy tree per 50- feet of linear frontage.

(iii) *Streetscape Landscaping.* Prior to the issuance of a Certificate of Occupancy (CO), all residential, single family lots situated within the proposed subdivision shall be landscaped with canopy trees in the following sizes and proportions:

(i) Two (2), three (3) inch trees measured six (6) inches above the root ball shall be planted in the front yard of an interior lot.

(ii) Two (2), three (3) inch trees measured six (6) inches above the root ball shall be planted in

the front yard of a corner lot and two (2), three (3) inch caliper trees shall be planted in the side yard facing the street.

Note: For the purposes of this section only the term "front yard" includes the area within the dedicated right-of-way for a parkway immediately adjoining the front yard of the lot.

(iv) *Irrigation Requirements.* Irrigation shall be installed for all required landscaping located within common areas, landscape buffers and/or open space. Irrigation installed in these areas shall be designed by a Texas licensed irrigator or landscape architect and shall be maintained by the Homeowner's Association.

(v) *Hardscape.* Hardscape plans indicating the location of all sidewalks and trails shall be reviewed and approved during the site plan review process.

(6) *Fencing Standards.* All individual residential fencing and walls shall be architecturally compatible with the design, materials and colors of the primary structure on the same lot, and meet the following standards:

(i) *Wood Fences.* All wood fences shall be constructed of a standard fencing material (*minimum of ½" thickness or better; spruce fencing will not be allowed*), and use fasteners that are hot dipped galvanized or stainless steel. Wood fences facing onto a street shall be painted and/or stained and sealed with all pickets being placed on the public side facing the street. All wood fences shall be smooth-finished, free of burs and splinters, and be a maximum of six (6) feet in height.

(ii) *Wrought Iron/Tubular Steel.* Lots located along the perimeter of roadways, abutting open spaces, greenbelts and parks shall be required to install a wrought iron or tubular steel fence. Wrought iron/tubular steel fences can be a maximum of six (6) feet in height.

(iii) *Corner Lots.* Corner lots fences (i.e. adjacent to the street) shall provide masonry columns at 45-feet off center spacing that begins at the rear of the property line. A maximum of six (6) foot solid board-on-board panel fence constructed utilizing cedar fencing shall be allowed between the masonry columns along the side and/or rear lot adjacent to a street. In addition, the fencing shall be setback from the side property line adjacent to a street a minimum of five (5) feet. The property owner shall be required to maintain both sides of the fence.

(iv) *Solid Fences (including Wood Fences).* All solid fences shall incorporate a decorative top rail or cap detailing into the design of the fence.

Rockwall, Texas 75087

RE: SH 205 Traffic Counts for The Enclave development in Rockwall, Texas

Dear Mr. Atkins,

In December 2017, 24 hour machine traffic counts were done on SH 205 by the Enclave development area. Per your request additional machine counts were done in late March 2018. The 2017 daily traffic volume total was 19,871 vehicle trips. The 2018 daily traffic volume total was 17,539 vehicle trips. The difference in volume was 2332 trips.

Enclosed please find the reports of the two traffic counts.

Please let me know if I can be of further assistance.

Sincerely,

G. T. Walton P.E.

G.T. (Tom) Walton, P.E.

TRAFFIC IMPACT ANALYSIS

FOR

THE ENCLAVE SUBDIVISION

IN

ROCKWALL, TEXAS

Prepared for:

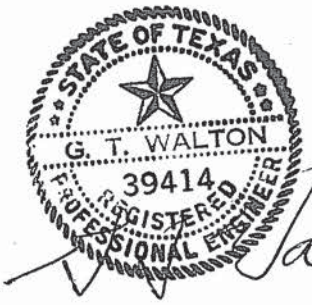
ENGINEERING CONCEPTS & DESIGN LP

Representing:

SADDLE STAR LAND DEVELOPMENT LLC

Prepared By:

G.T. (Tom) Walton, P.E.
Consulting Traffic Engineer



DECEMBER, 2017

465

Executive Summary

Saddle Star Land Development is planning to build The Enclave in the City of Rockwall Texas. The Enclave will be on the west side of SH 205 and the north side on Mims Rd. The development will be made up of 198 Townhouses, 65 single family lots and a retail tract along the SH 205 frontage and at the intersection of the two roads.

SH 205 is a two lane, two way asphalt TxDOT roadway. There are no improvements planned for the roadway adjacent to the site in the next ten years. An improvement to the SH 205 and John King Pkwy to the south may affect the volume of traffic past the site and the new signal at the Sids Rd intersection to the north may be beneficial. Mims Rd will be paved by the developer from SH 205 to Sids Rd.

In order to obtain approval of the plans for the new development by the City of Rockwall, a Traffic Impact Analysis (TIA) must be completed. This TIA investigates the traffic operations on the roadways and intersections near the site.

Traffic counts were conducted on SH 205, Mims Rd and at their intersection. Existing conditions were analyzed to determine the level of congestion on the roadways and the intersection in 2017. Due to the fact that the Enclave is expected to take 7 years to fully develop, the traffic volumes for the year 2024 were calculated and the congestion situation analyzed.

Trip generation calculations were completed for the proposed residential homes and retail businesses to determine the amount of traffic increase the development will create. The increase in traffic was applied to the roadways and intersections and the resulting traffic congestion situation analyzed.

The Traffic Impact Analysis investigations produced the following results:

- The construction of Mims Rd from SH 205 to Sids Rd at the beginning of development will provide smooth, free flow access for the residential portion of the project.
- When the retail portion of the development is constructed, separate right turn lanes should be built into each of the driveways on the SH 205 frontage.
- An effort should be made by the City of Rockwall and TxDOT to improve the geometry of the portion of SH 205 from Sids Rd to John King Pkwy.

466

INTRODUCTION

Saddle Star Land Development is the owner of the THE ENCLAVE subdivision in Rockwall Texas. The project is along the west side of SH 205 and the north side of Mims Rd in the northwest quadrant of their intersection. The Enclave will contain 198 Townhouse lots, 65 Single Family lots and 5.30 acres of general retail including a convenience store with gas pumps at the Mims Rd/SH 205 intersection. The Retail area will have 46,000 sq ft of office retail and a 3000 sq ft convenience store with gas pumps. The entire development will be built together and buildout is expected in 7 years in late 2024. The City of Rockwall staff has required that a Traffic Impact Analysis (TIA) be completed as part of the submittal of plans for The Enclave. ENGINEERING CONCEPTS & DESIGN LP is the Engineer for the owners of THE Enclave. G.T. (Tom) Walton, P.E. Consulting Traffic Engineer has been hired to conduct the needed study.

PURPOSE

The following study will evaluate the traffic situation on the existing roadways and intersections in the area of the development. It will then impose the traffic created by the proposed development on the existing roadway system to determine the effect the new traffic will have on the operation of the existing system and if any roadway improvements are needed to accommodate the traffic additions. Any problems identified will be addressed and mitigation steps recommended.

SCOPE

The Enclave will make use of 8 street intersections and three driveways to access both SH 205 and Mims Rd. The intersection of Street A and two driveways from the retail area and the Mims intersection will provide access to and from SH 205. One driveway from the retail area and 7 street intersections alphabetically C through I will provide access to and from Mims Rd. The location of the site is shown in FIGURE I.

The analysis will include the study of existing conditions on SH205 and Mims Rd adjacent to the development As mentioned above, the developer expects that the build out of the entire project will occur by 2024. The traffic volumes on both SH 205 and Mims Rd will be counted and the existing conditions on SH 205, Mims Rd and their intersection will be analyzed. The traffic volume conditions will be grown to those expected in 2024. The amount of new traffic to be created by the development will be calculated and the new trips created will be added to the 2024 traffic and the buildout conditions analyzed. The analysis will include a link analysis on SH 205 and on Mims Rd and an unsignlized intersection analysis on the intersection of the two streets and each of the driveways and street intersections created by the development. These analyses will include both AM and PM peak hour conditions and will apply the entire traffic loading

467

from the development at the same time. The analyses will be done for the AM and PM peak hour generation rates during the peak traffic hour on the roadways.

METHODOLOGY

The methodology for the study will include the following steps;

- definition of the roadways and intersections under consideration,
- counting of the existing traffic volumes on the subject roadways and the turning movements at their intersection,
- the analysis of existing traffic conditions on the subject roadways and their intersection,
- the generation of traffic from the proposed development,
- the distribution of site traffic to the roadways and intersections
- growth of the SH 205 and Mims Rd traffic to the 2024 conditions
- the analysis of build out traffic conditions including the loading from the entire development,
- comparison of turning traffic at the intersections with the TxDOT turn lane criteria
- the identification of any problems caused by the new development and
- the recommendation of mitigation efforts to deal with identified problems.

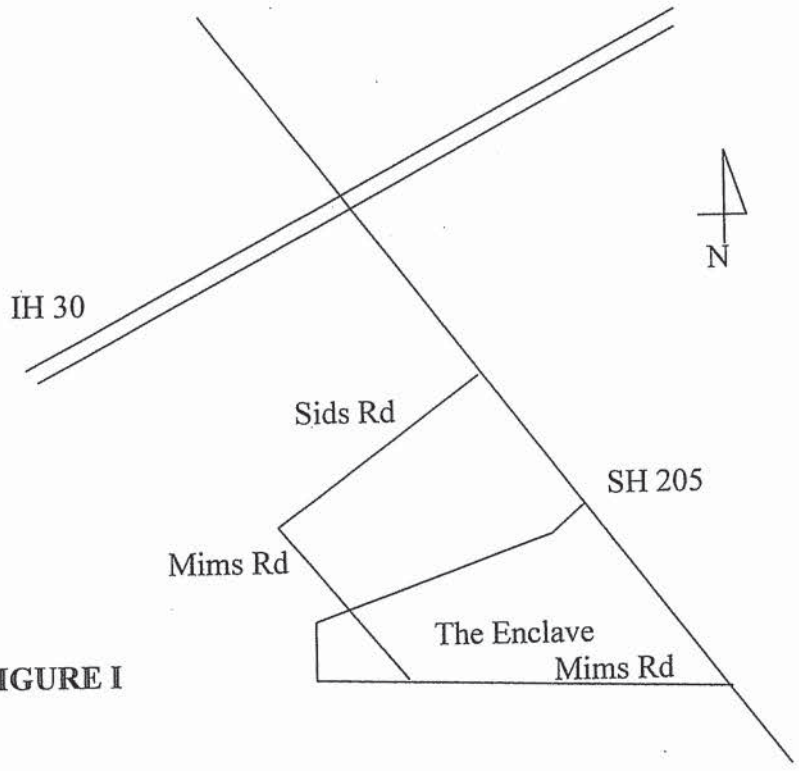


FIGURE I

468

AREA ROADWAYS AND INTERSECTIONS

SH 205 extends from SH 78 on the north to US 80 in the City of Terrell to the south. The section abutting the Enclave is a 25 foot wide, two lane, two way asphalt TxDOT roadway with a double yellow centerline and a 45 MPH speed limit. The roadway is widened to 36 feet wide at the intersection with Walnut Ridge Rd. and at the intersections with Timber Ridge and Mims roads. No improvements are planned for this section of SH 205 in the next 10 years. To the north of the site, a project is to begin by TxDOT in the immediate future to realign SH 276 to intersect SH 205 at the Sids Rd intersection and include the construction of a traffic signal at the intersection. To the south of the site the intersection of SH 205 and John King Pkwy is to be realigned to smooth the flow from 205 to John King in the next 5 to 10 years.

Mims Rd. is a 20 foot wide, two lane, two way asphalt roadway. The asphalt pavement extends from the Mims/SH 205 intersection to the west approximately 1400 feet. The roadway then turns to gravel and extends west and then north to intersect with Sids Rd and on north to Ralph Hall Pkwy. As part of the building of the Enclave, the developer will construct Mims as at least a 24 foot wide concrete roadway from its intersection with SH 205 to its intersection with Sids Rd.

The intersection of SH 205 and Mims Rd has one southbound lane and one right turn lane on SH205, one eastbound lane on Mims Rd and one through and one left turn lane on northbound SH 205. The intersection is controlled by a stop sign and a STOP line for eastbound Mims Rd. The curve radii on both sides of Mims are large to ease right turns from south bound to west bound and from east bound to south bound.

At the intersection of Street A and SH 205 the street A approach will be divided with one west bound lane and separate east bound left and right turn lanes.

Two driveways will be built in the retail frontage on SH 205 complying with the TxDOT spacing requirements.

One driveway will be built in the retail frontage on Mims Rd.

Three street intersections will be built in the Townhouse frontage on Mims Rd. These will be the streets C, D, and E intersections with Mims Rd. Each intersecting street will have one entering and one exiting lane.

469

In the Single Family area, streets F, G, and H will intersect Mims Rd. There will also be an intersection of Mims with streets A and I with A on the east and I on the west. The intersecting streets will all have one entering and one exiting lane.

Street A will be a collector street running from an intersection with SH 205 on the east to an intersection with Mims Rd. on the west. Streets C through H will run north-south from Street A to Mims.

EXISTING TRAFFIC VOLUMES

The existing traffic volumes on SH 205 and Mims Rd were measured by making two directional 24 hour machine counts on each roadway approximately 300 ft. from their intersection. An AM and PM peak hour turning movement count was also done at the SH 205 and Mims Rd. intersection. The details of the traffic counts are given in Appendix A.

EXISTING TRAFFIC CONDITIONS

The quality and safety of the operation of traffic is measured by quantifying the level of congestion that drivers are experiencing. The term that is used to describe traffic conditions is Level of Service (LOS). In Traffic Engineering analysis, LOS on a section of roadway is calculated by comparing the volume of traffic measured on the road to the capacity of the roadway. LOS is described by alphabetic designations. LOS ranges from A to F. The various levels are as follows:

- Volume/Capacity ratio is <= 0.25 is LOS "A" or "B"
- Volume/Capacity ratio is 0.25<x,<=0.40 is LOS "C"
- Volume/Capacity ratio is 0.40<x,<=0.75 is LOS "D"
- Volume/Capacity ratio is 0.75<x,<=1.0 is LOS "E"
- Volume/Capacity Ratio is > 1.0 is LOS "F"

LOS A or B are referred to as "Free" flow conditions, LOS C is "Stable" flow, LOS D is "Forced" flow, LOS E is "Capacity" flow and LOS F is "Failure" conditions.

The existing traffic volume count information was used with the HCS + software which uses the Highway Capacity Manual methodology to analyze the operation of roadway links and intersections. A two way link analysis was conducted on the existing SH 205 and Mims Rd. for both the AM and PM Peak Hour conditions. An unsignalized intersection analysis was also done for existing AM and PM peak hour conditions at the SH 205 and Mims Rd. intersection.

The results of the analyses of existing conditions are as follows:

- The roadway link analysis

470

Link	LOS
SH205 north of Mims Rd A.M.	C
SH205 north of Mims Rd P.M.	D

Mims Rd west of SH 205 A.M.	A
Mims Rd west of SH 205 P.M.	A

- The unsignalized intersection analysis

Intersection	Approach LOS North b	South b	East b	West b
SH 205 at Mims Rd AM	A	A	C	
SH 205 at Mims Rd PM	A	A	D	

The details of the existing conditions analyses are given in Appendix B.

SITE TRAFFIC GENERATION

The amount of traffic that a development will generate can be calculated for an average day or for the peak traffic periods of a day. The number of vehicle trips generated or trip generation will be used to project the effect that the new development will have on the serving roadways. The amount of traffic generated during both the AM and PM Peak Hour will be considered.

Trip generation information is found in Trip Generation published by the Institute of Transportation Engineers. This is a standard reference to determine the trip generation characteristics of particular land use types and densities. Rates are established for specific land use types including residential, office, commercial, industrial and institutional. Trip generation rates are given for a number of development measurement units and at various times of day and days of the week. The percentage of the generated traffic that enters and leaves the site is also indicated. For residential development the dwelling unit (DU) is the measurement unit while 1,000 square feet of gross floor area is used for office, commercial, industrial and general retail uses.

As was noted above, the The Enclave will have 65 single family lots or 65 dwelling units (D.U.)s and 198 townhouse lots or 198 dwelling units (D.U)s. The retail area will have 46,000 sq ft of office retail and 3000 sq ft of convenience store with gas pumps. The P.M. Peak Hour rate for single family residential development from Trip Generation is 1.00 trips per dwelling unit with 63% entering and 37% exiting the site. The AM Peak Hour rate is 0.75 trips per dwelling unit with 25% entering and 75% exiting. The PM Peak Hour rate for townhouse development is 0.52 trips per DU with 67% entering and 33% exiting. The AM Peak Hour rate for townhouse is 0.44 trips per DU with 17%

471

entering and 83% exiting. The AM Peak Hour rate for office retail is 6.84 trips per 1000 sq ft with 48% entering and 52% exiting. The PM Peak Hour rate for office retail is 5.02 trips per 1000 sq ft with 56% entering and 44% exiting. The AM Peak Hour rate for convenience store with gas pumps is 40.92 trips per 1000 sq ft with 50% entering and 50% exiting. The PM Peak Hour rate is 50.92 trips per 1000 sq ft with 50% entering and 50% exiting. A copy of the pages from Trip Generation is given in Appendix C.

The total traffic to be expected from the development during the each Peak Hour is as follows:

USE	Dev Unit	P.H.	Rate	Size	Trips	Enter	Exit
Single Family	D.U.	A.M.	.75/DU	65 DU	49	13	36
Single Family	D.U.	P.M.	1.0/DU	65 DU	65	44	25
Townhouse	D.U.	A.M.	.44/DU	198 DU	87	15	72
Townhouse	D.U.	P.M.	.52/DU	198 DU	103	68	35
Office Retail	K sq ft	A.M.	6.84/K	46 K	315	151	164
Office Retail	K sq ft	P.M.	5.02/K	46 K	231	129	102
Conven. w Pump	K sq ft	A.M.	40.92/K	3 K	123	62	61
Conven. w Pump	K sq ft	P.M.	50.92/K	3 K	153	77	76

TRAFFIC DISTRIBUTION

The distribution of traffic moving to and from a proposed development is based upon the type of development and the distribution of attractors around the site. In addition, the ease of access to available serving roadways will affect the driver's choice of which to use. The LOS problems being experienced for the eastbound approach to the SH205 at Mims intersection are caused by the difficulty of making an eastbound to northbound left turn onto SH205. The stop control on Mims and the relatively high volume of traffic on SH 205 create the problem. This problem will continue for the Mims intersection and also the two retail drives and the Street A intersection with SH205.

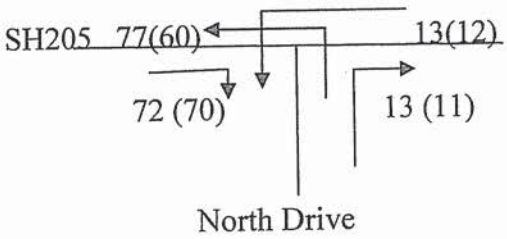
Based upon information provided by the City of Rockwall staff, 85% of the traffic created by the development will go to and from the north and 15% will go to and from the south. Since Mims Rd will be connected to Sids Rd and points north, it can be expected to be to be the route of choice for most of the residential development. Therefore, 20% of the residential traffic will use SH 205 through the Street A intersection and 80% will make use of Mims Rd. 80% of the traffic from each of the streets, C through G, will use their intersection with Mims Rd. All traffic on streets H and I will use their Mims intersection. Similar to the situation on SH 205, 85% of the traffic using Mims will go west and then north and 15% will go east and then south.

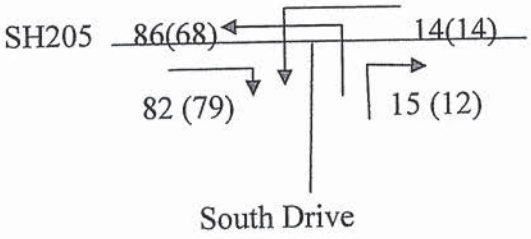
In the retail area, 40% of the traffic will enter and leave by the northern drive, 45% by the southern drive on SH 205 and 15% by the drive on Mims.

472

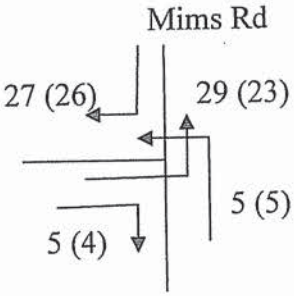
The distribution of generated traffic to the various intersections are shown in FIGURE II

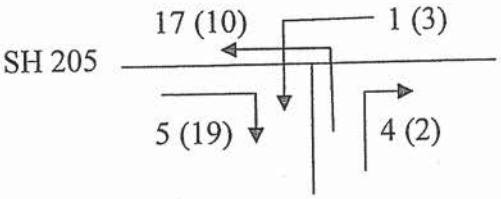
Retail area turning movements at driveways:

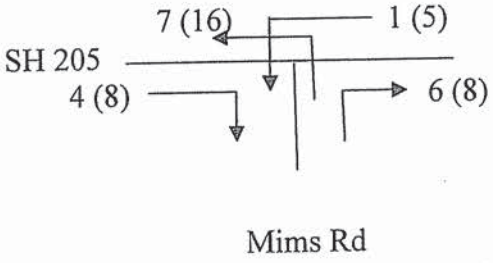




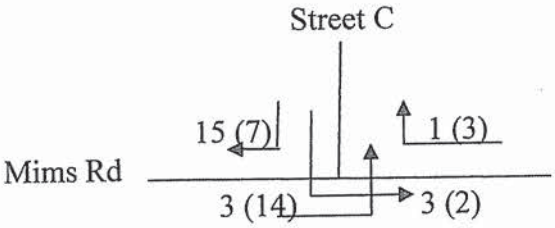
xx = AM
(xx) = PM

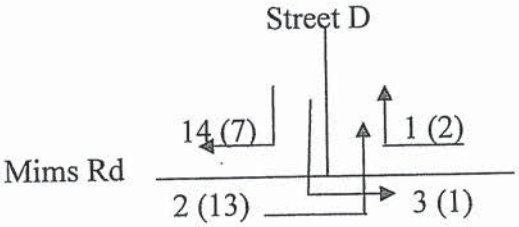


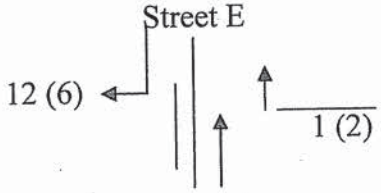


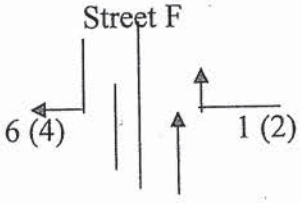


Residential street intersections on Mims Rd









473

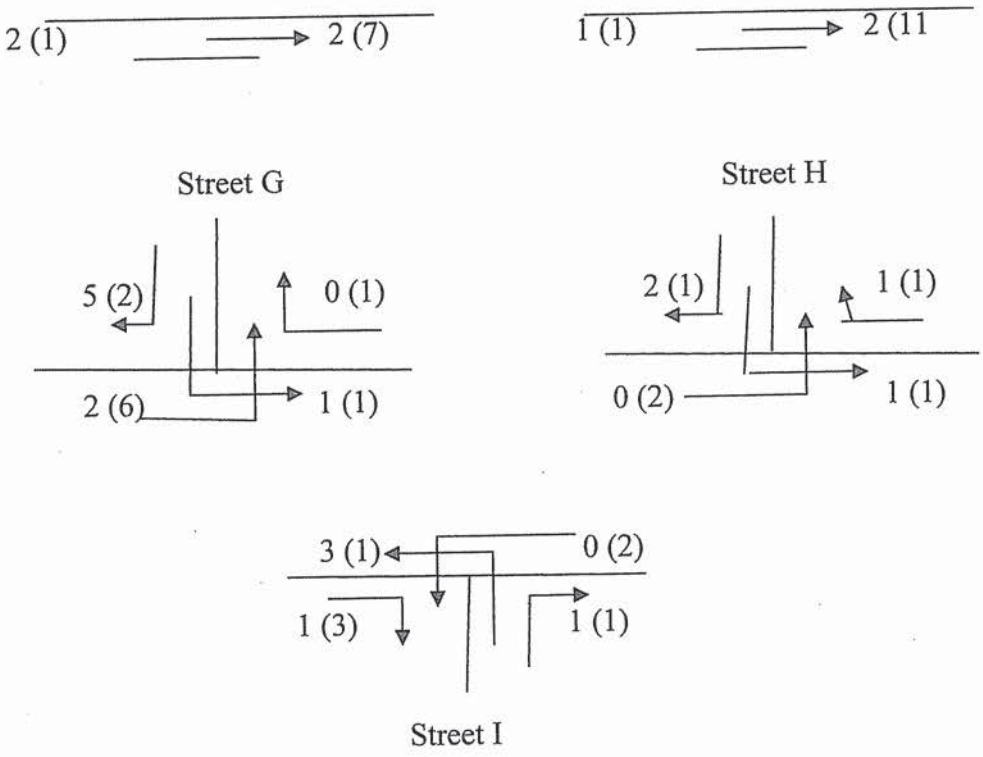


FIGURE II

FUTURE BACKGROUND TRAFFIC CONDITIONS

Analysis of future conditions created by the new development will involve the addition of the site generated traffic to the traffic existing on the roadways at the time of build-out of the development. Due to the fact that it is expected to take seven years for the development to build out, the existing traffic on the roadways will be grown by an agreed upon growth rate for the area. Discussion with the City's staff produced an expected growth rate of 4% per year. Therefore, the background traffic volumes on Mims Rd. and SH 205 in 2024 at build-out will be 28% higher than the current volumes on each section of the road. In the case of this section of SH 205 the intersection of SH 205 and John King Pkwy to the south will be realigned by TxDOT by the buildout date. The realignment will divert part of the SH 205 traffic onto John King. TxDOT staff indicates that 85% of the SH 205 traffic will continue to use the section adjacent to the Enclave development. Therefore the expected traffic increase in volume at buildout will be 85% of 1.28% or 1.08% on SH 205. The operation of the roadway sections under the 2024 volumes was analyzed. The results are as follows:

- The roadway link analysis:

Link	LOS
Mims west of SH 205 A.M.	A

474

Mims west of SH 205 P.M.	A
SH 205 north of Mims Rd A.M.	C
SH 205 north of Mims Rd P.M.	D

The insignalized intersection analysis:

Intersection	Approach LOS North b	South b	East b	West b
SH 205 at Mims Rd AM	A	A	C	
SH 205 at Mims Rd PM	B	B	F	

The details of the 2024 background analyses are given in Appendix D.

BUILDOUT TRAFFIC CONDITIONS

Adding the traffic generated by the development to the background traffic will produce the volumes that can be expected on SH 205, Mims Rd and the intersections in 2024 when the Enclave is built out. The results of the link analyses and the unsignalized Intersection analyses under build out conditions are as follows:

- The roadway link analyses:

Link	LOS
Mims Rd west of SH205 AM	A
Mims Rd west of SH 205 PM	A
SH 205 north of Mims Rd AM	D
SH 205 north of Mims Rd PM	E

- The unsignalized intersection analyses:

Intersection	Approach LOS North b	South b	East b	West b
SH 205 at Street A AM	A	A	C	
SH 205 at Street A PM	B	B	E	
SH 205 at North Drive AM	A	A	E	
SH 205 at North Drive PM	B	B	F	
SH 205 at South Drive AM	A	A	E	
SH 205 at South Drive PM	A	A	F	
SH 205 at Mims Rd AM	A	A	C	
SH 205 at Mims Rd PM	B	B	F	
Mims at Retail Drive AM		A	A	A

475

Mims at Retail Drive PM		A	A	A
Mims at Street C AM		A	A	A
Mims at Street C PM		A	A	A
Mims at Street D AM		A	A	A
Mims at Street D PM		A	A	A
Mims at Street E AM		A	A	A
Mims at Street E PM		A	A	A

Mims at Street F AM		A	A	A
Mims at Street F PM		A	A	A
Mims at Street G AM		A	A	A
Mims at Street G PM		A	A	A
Mims at Street H AM		A	A	A
Mims at Street H PM		A	A	A
Mims at Street I AM	A		A	A
Mims at Street I PM	A		A	A

The details of the link analyses and the unsignalized intersection analyses under build out conditions are given in Appendix E.

TXDOT ACCESS MANAGEMENT CRITERIA

The Texas Department of Transportation (TxDOT) Access Management Manual provides criteria concerning the need to provide a separate right turn lane when building a driveway or street intersection with a TxDOT roadway. The thresholds for the need for these lanes is given in Table 2-3 of the Access Management Manual. The thresholds depend upon the volume of right turning traffic and the speed of the roadway.

For a roadway with a speed of 45 MPH, the threshold for the need for a turn lane is over 50 vehicles per hour during the peak hour.

CONCLUSIONS

The analyses above indicate that a problem exists with the congestion level on SH 205 and at the intersections with it. The problems are seen to worsen with the normal growth of traffic on the roadways. The delays are especially felt by those trying to turn left onto the road. The poor level of service indicated on all of the SH205 intersections is caused by long delays for left turns onto the roadway.

476

The connection of Mims Rd to Sids Rd and points north provides an attractive alternate access for the residential portion of the Enclave. Mims Rd and all of its residential intersections are found to operate at "free flow" LOS A condition.

The intersection traffic movement volume information projected indicates that the right turn movements into the site at both of the retail driveways on SH 205 exceed the TxDOT threshold to require a separate right turn lane. The new turn lanes can be expected to ease the flow of southbound traffic on SH 205 and improve the operation of the driveways.

RECOMMENDATIONS

When the retail portion of the Enclave is developed separate right turn lanes should be built at the driveways from SH 205 into the site.

The construction of Mims Rd from SH 205 to Sids Rd should be completed as the first step in the development of the residential portion of the Enclave.

An effort should be pursued by the City of Rockwall and TxDOT to improve the capacity and operation of SH 205 from Sids Rd to John King Pkwy.

Two-Way Two-Lane Highway Segment Analysis

Analyst	Tom Walton
Agency/Co.	Rockwall TX
Date Performed	12/28/2017
Analysis Time Period	AM Peak Hour
Highway	Mims Rd
From/To	SH 205 to Sids Rd
Jurisdiction	Rockwall
Analysis Year	2017
Description	The Enclave Mims Existing AM

Input Data

Highway class	Class 2				
Shoulder width	6.0	ft	Peak-hour factor, PHF	0.88	
Lane width	12.0	ft	% Trucks and buses	14	%
Segment length	0.0	mi	% Recreational vehicles	4	%
Terrain type	Level		% No-passing zones	0	%
Grade: Length		mi	Access points/mi	8	/mi
Up/down		%			

Two-way hourly volume, V	73		veh/h
Directional split	60 /	40	%

Average Travel Speed

Grade adjustment factor, fG	1.00	
PCE for trucks, ET	1.7	
PCE for RVs, ER	1.0	
Heavy-vehicle adjustment factor,	0.911	
Two-way flow rate, (note-1) vp	91	pc/h
Highest directional split proportion (note-2)	55	pc/h
Free-Flow Speed from Field Measurement:		
Field measured speed, SFM	-	mi/h
Observed volume, Vf	-	veh/h
Estimated Free-Flow Speed:		
Base free-flow speed, BFFS	45.0	mi/h
Adj. for lane and shoulder width, fLS	0.0	mi/h
Adj. for access points, fA	2.0	mi/h
Free-flow speed, FFS	43.0	mi/h
Adjustment for no-passing zones, fnp	0.0	mi/h
Average travel speed, ATS	42.3	mi/h

Percent Time-Spent-Following

Grade adjustment factor, fG	1.00	
PCE for trucks, ET	1.1	
PCE for RVs, ER	1.0	
Heavy-vehicle adjustment factor, fHV	0.986	
Two-way flow rate,(note-1) vp	84	pc/h
Highest directional split proportion (note-2)	50	
Base percent time-spent-following, BPTSF	7.1	%
Adj.for directional distribution and no-passing zones, fd/np	2.2	
Percent time-spent-following, PTSF	9.4	%

Level of Service and Other Performance Measures

Level of service, LOS	A	
Volume to capacity ratio, v/c	0.03	
Peak 15-min vehicle-miles of travel, VMT15	0	veh-mi
Peak-hour vehicle-miles of travel, VMT60	0	veh-mi
Peak 15-min total travel time, TT15	0.0	veh-h

Notes:
1. If vp >= 3200 pc/h, terminate analysis-the LOS is F.
2. If highest directional split vp >= 1700 pc/h, terminate analysis-the LOS is F.

APPENDIX C

Trip Generation Sheet

495

Single-Family Detached Housing
(210)

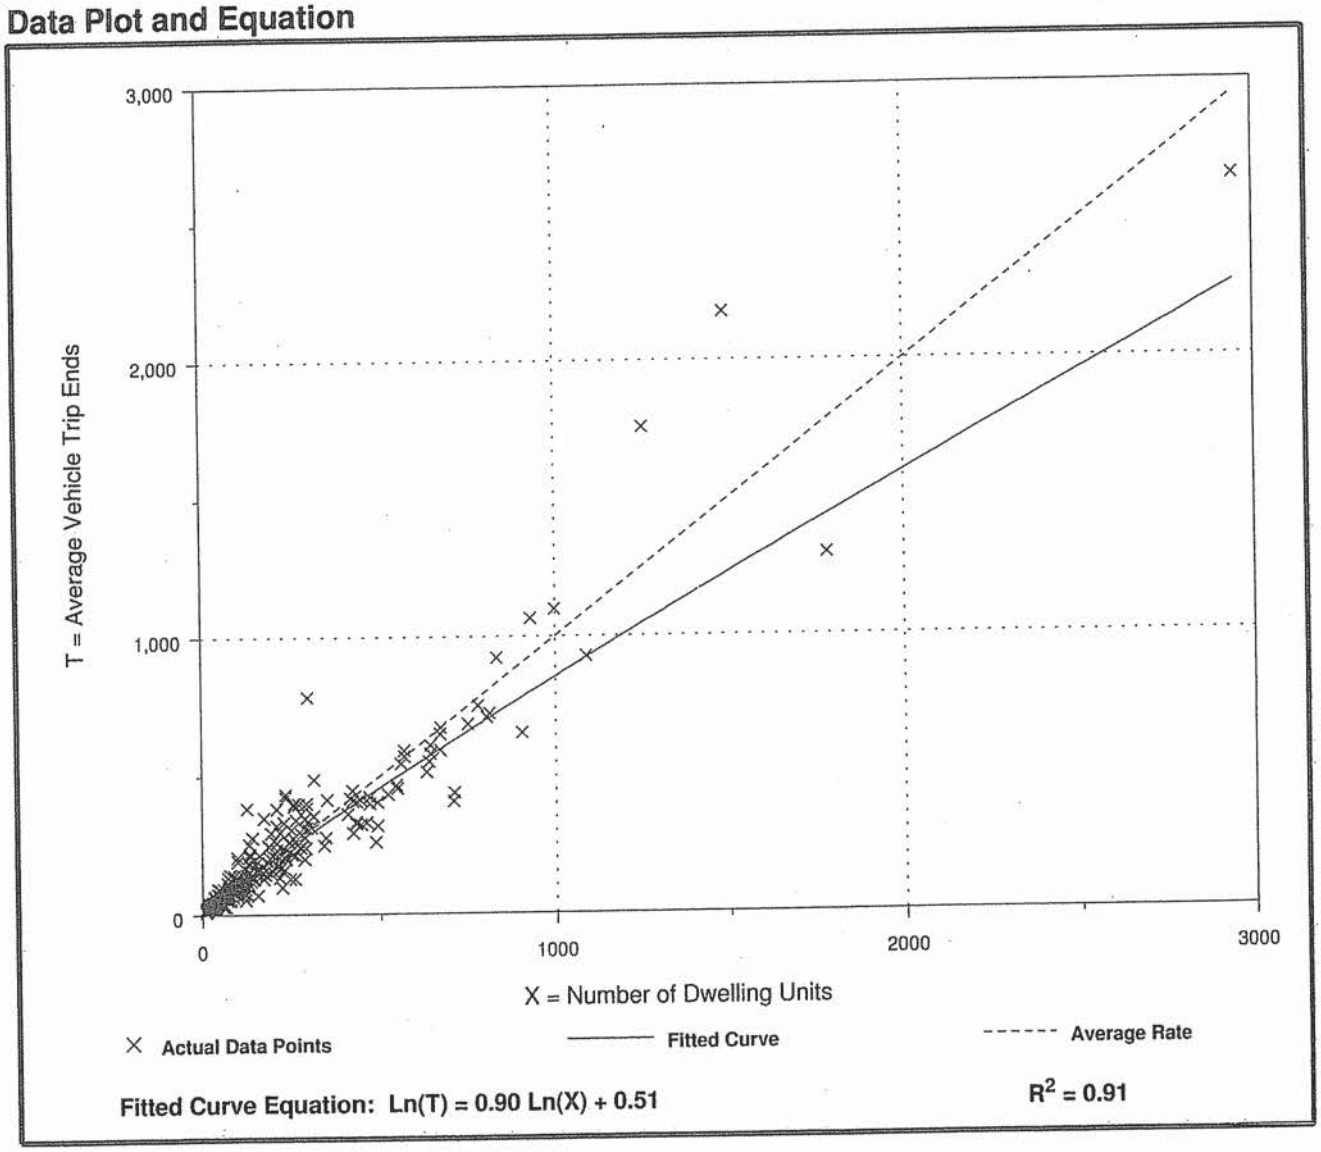
Average Vehicle Trip Ends vs: **Dwelling Units**
On a: **Weekday,**
Peak Hour of Adjacent Street Traffic,
One Hour Between 4 and 6 p.m.

Number of Studies: 321
Avg. Number of Dwelling Units: 207
Directional Distribution: 63% entering, 37% exiting

Trip Generation per Dwelling Unit

Average Rate	Range of Rates	Standard Deviation
1.00	0.42 - 2.98	1.05

Data Plot and Equation



Fitted Curve Equation: Ln(T) = 0.90 Ln(X) + 0.51

R^2 = 0.91

Single-Family Detached Housing
(210)

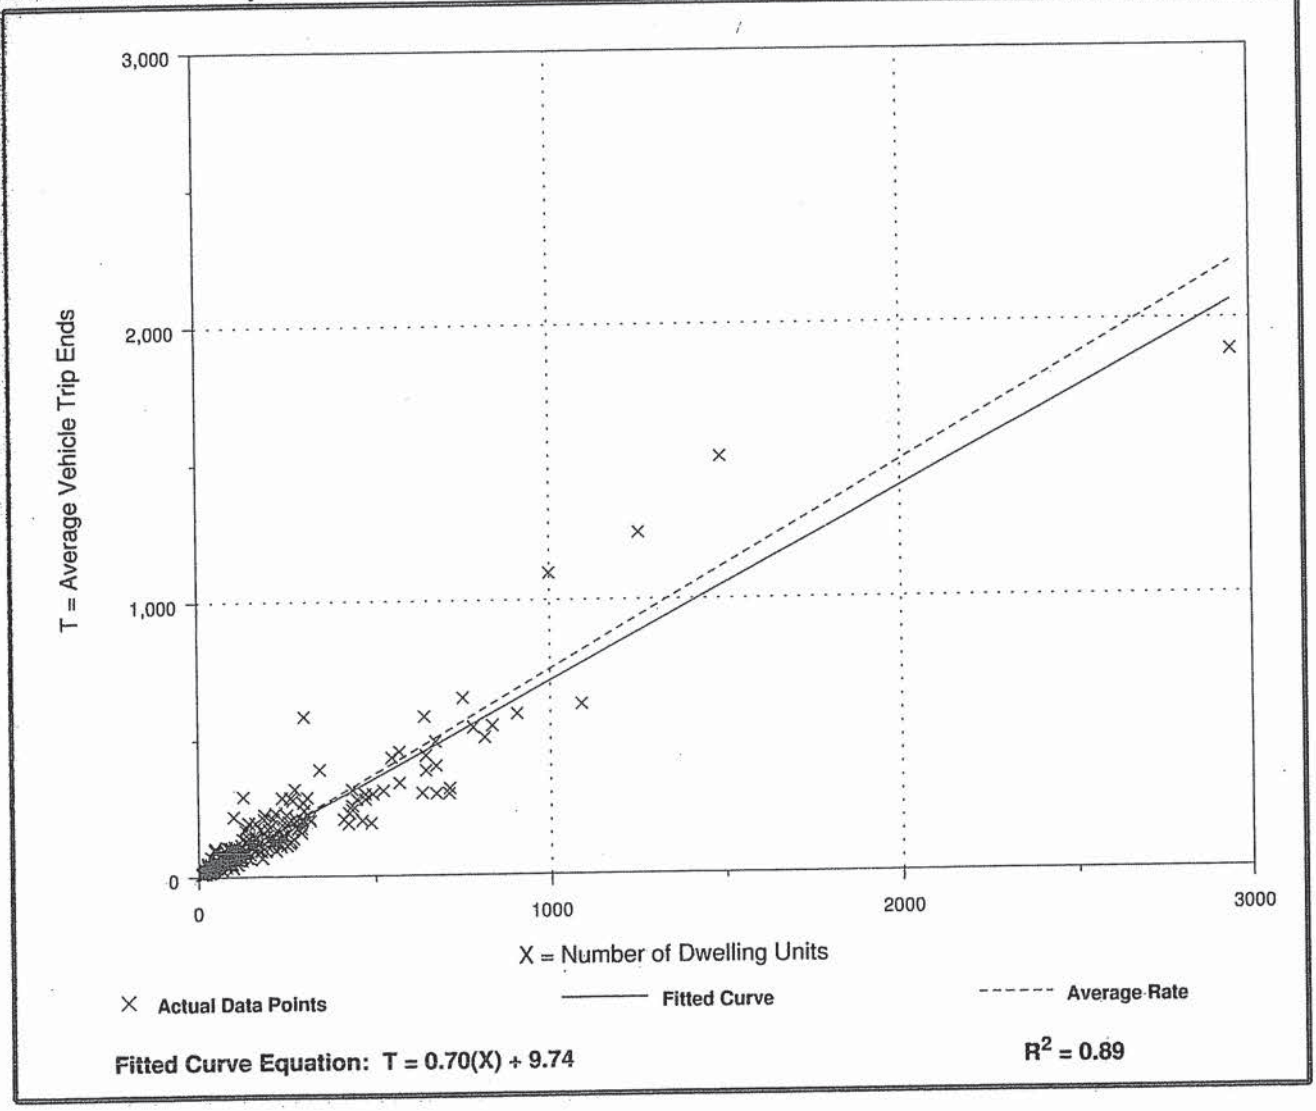
Average Vehicle Trip Ends vs: **Dwelling Units**
On a: **Weekday,**
Peak Hour of Adjacent Street Traffic,
One Hour Between 7 and 9 a.m.

Number of Studies: 292
Avg. Number of Dwelling Units: 194
Directional Distribution: 25% entering, 75% exiting

Trip Generation per Dwelling Unit

Average Rate	Range of Rates	Standard Deviation
0.75	0.33 - 2.27	0.90

Data Plot and Equation



Fitted Curve Equation: T = 0.70(X) + 9.74

R^2 = 0.89

Residential Condominium/Townhouse
(230)

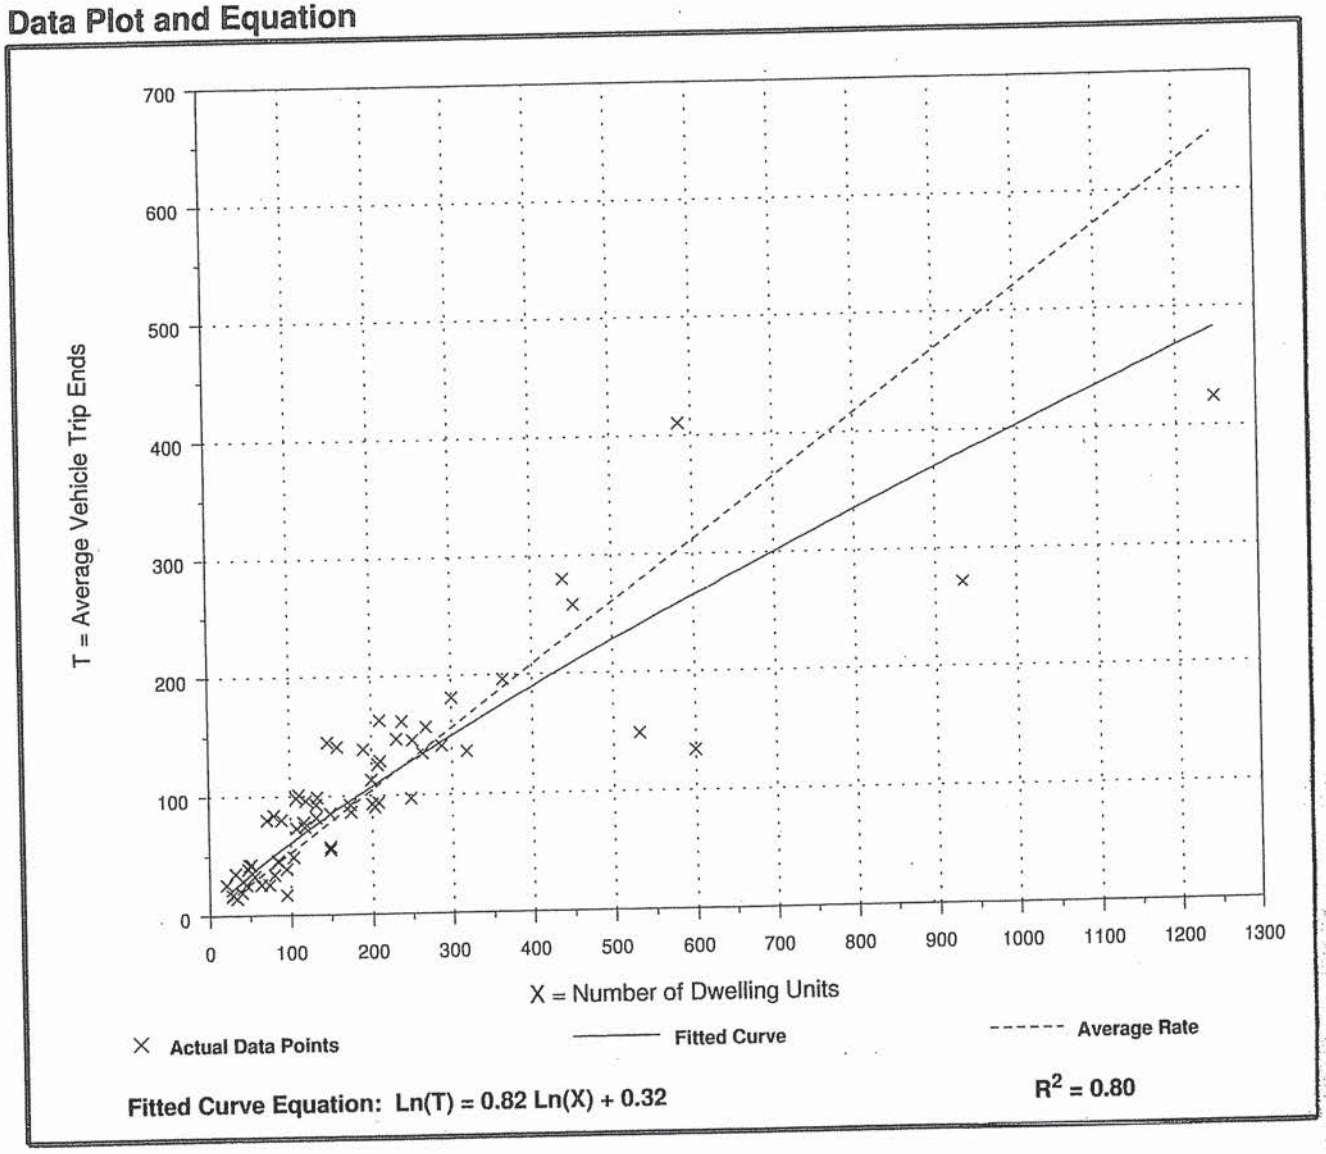
Average Vehicle Trip Ends vs: **Dwelling Units**
On a: **Weekday,**
Peak Hour of Adjacent Street Traffic,
One Hour Between 4 and 6 p.m.

Number of Studies: 62
Avg. Number of Dwelling Units: 205
Directional Distribution: 67% entering, 33% exiting

Trip Generation per Dwelling Unit

Average Rate	Range of Rates	Standard Deviation
0.52	0.18 - 1.24	0.75

Data Plot and Equation



Fitted Curve Equation: $Ln(T) = 0.82\ Ln(X) + 0.32$

$R^2 = 0.80$

Residential Condominium/Townhouse
(230)

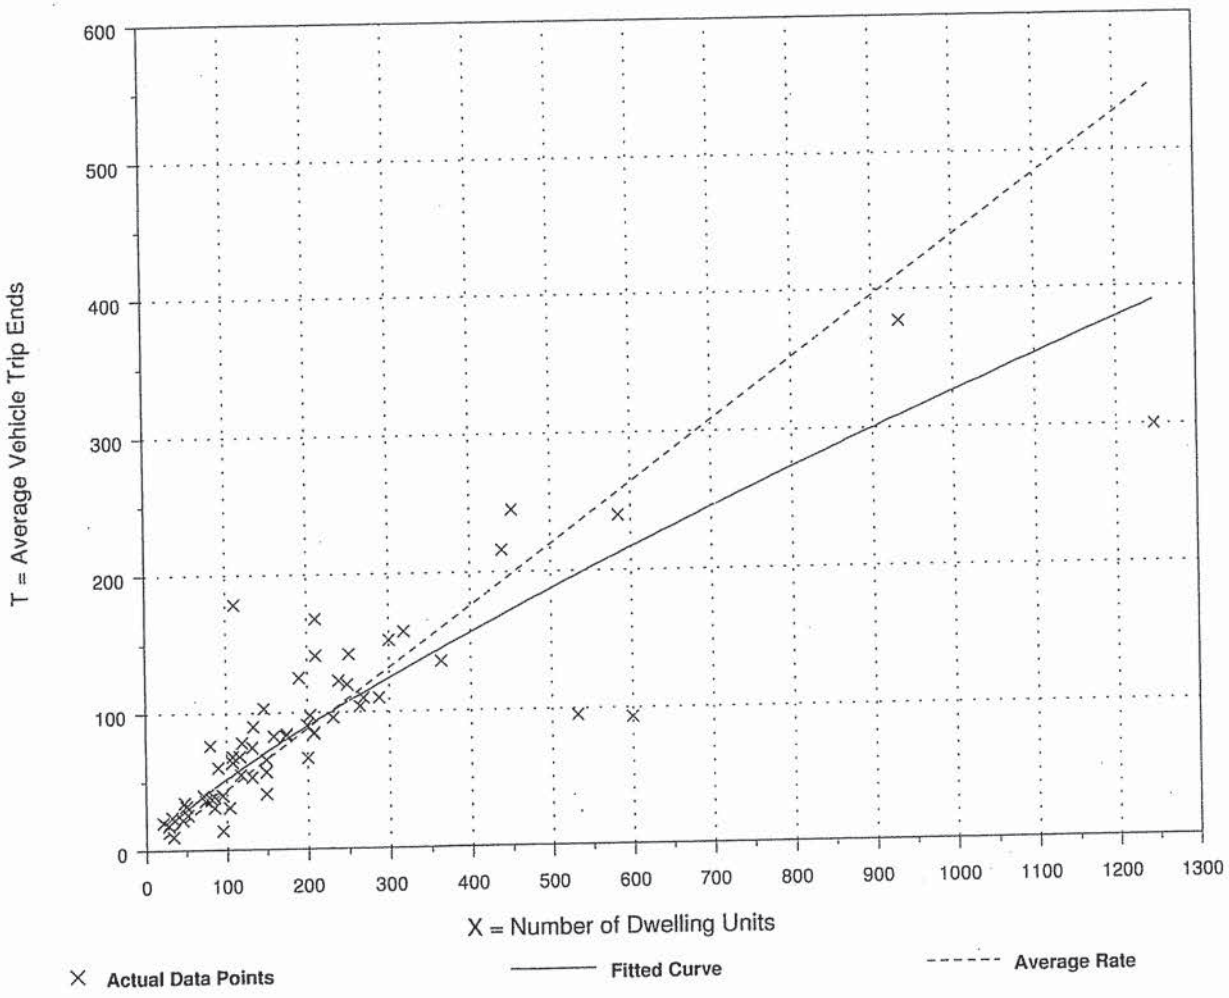
Average Vehicle Trip Ends vs: **Dwelling Units**
On a: **Weekday,**
Peak Hour of Adjacent Street Traffic,
One Hour Between 7 and 9 a.m.

Number of Studies: 59
Avg. Number of Dwelling Units: 213
Directional Distribution: 17% entering, 83% exiting

Trip Generation per Dwelling Unit

Average Rate	Range of Rates	Standard Deviation
0.44	0.15 - 1.61	0.69

Data Plot and Equation



Fitted Curve Equation: $Ln(T) = 0.80\ Ln(X) + 0.26$

$R^2 = 0.76$

Specialty Retail Center
(826)

Average Vehicle Trip Ends vs: **1000 Sq. Feet Gross Leasable Area**
On a: **Weekday,**
P.M. Peak Hour of Generator

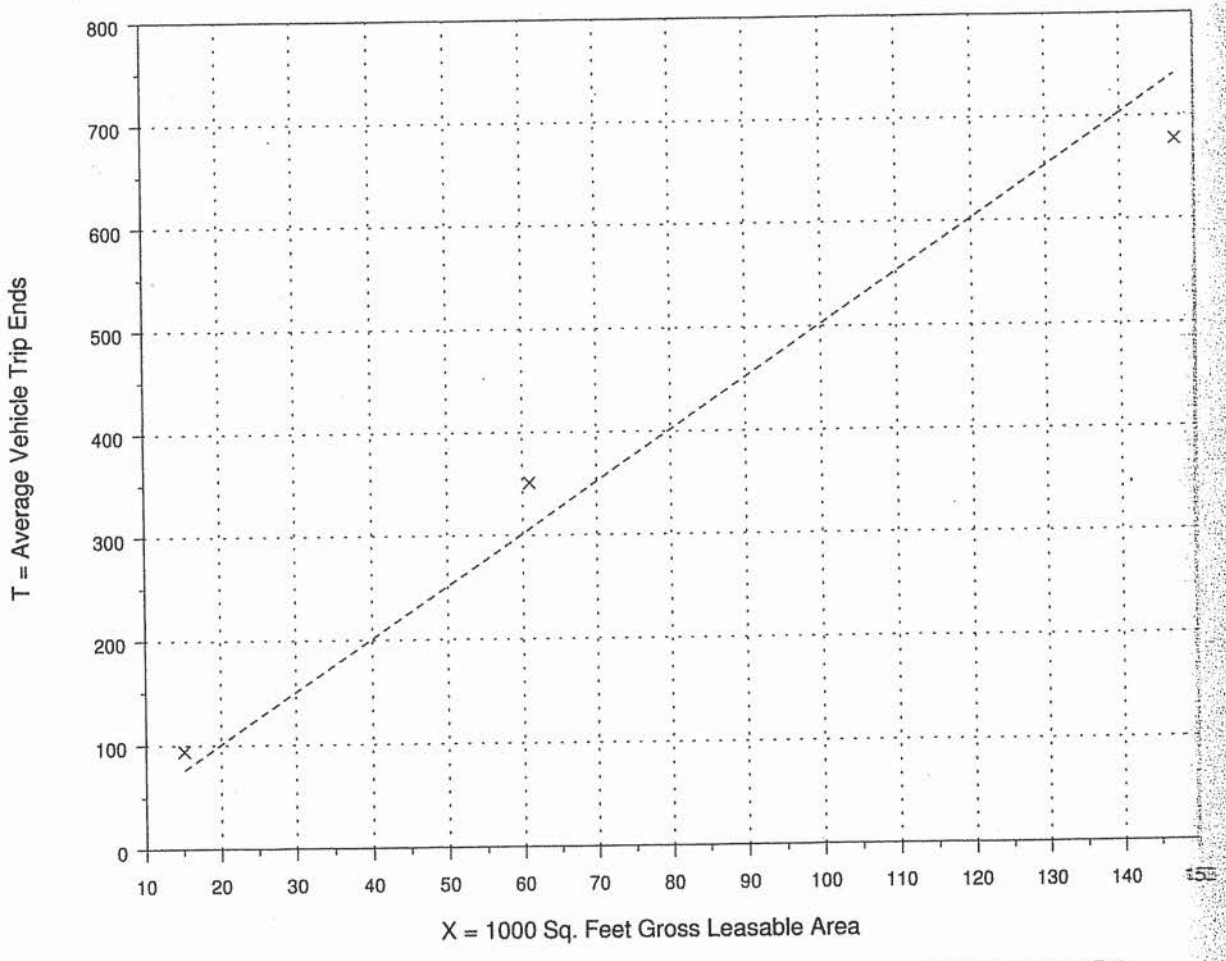
Number of Studies: 3
Average 1000 Sq. Feet GLA: 75
Directional Distribution: 56% entering, 44% exiting

Trip Generation per 1000 Sq. Feet Gross Leasable Area

Average Rate	Range of Rates	Standard Deviation
5.02	4.59 - 6.18	2.31

Data Plot and Equation

Caution - Use Carefully - Small Sample Size



Fitted Curve Equation: Not given

R^2 = ****

Specialty Retail Center
(826)

Average Vehicle Trip Ends vs: **1000 Sq. Feet Gross Leasable Area**
On a: **Weekday,**
A.M. Peak Hour of Generator

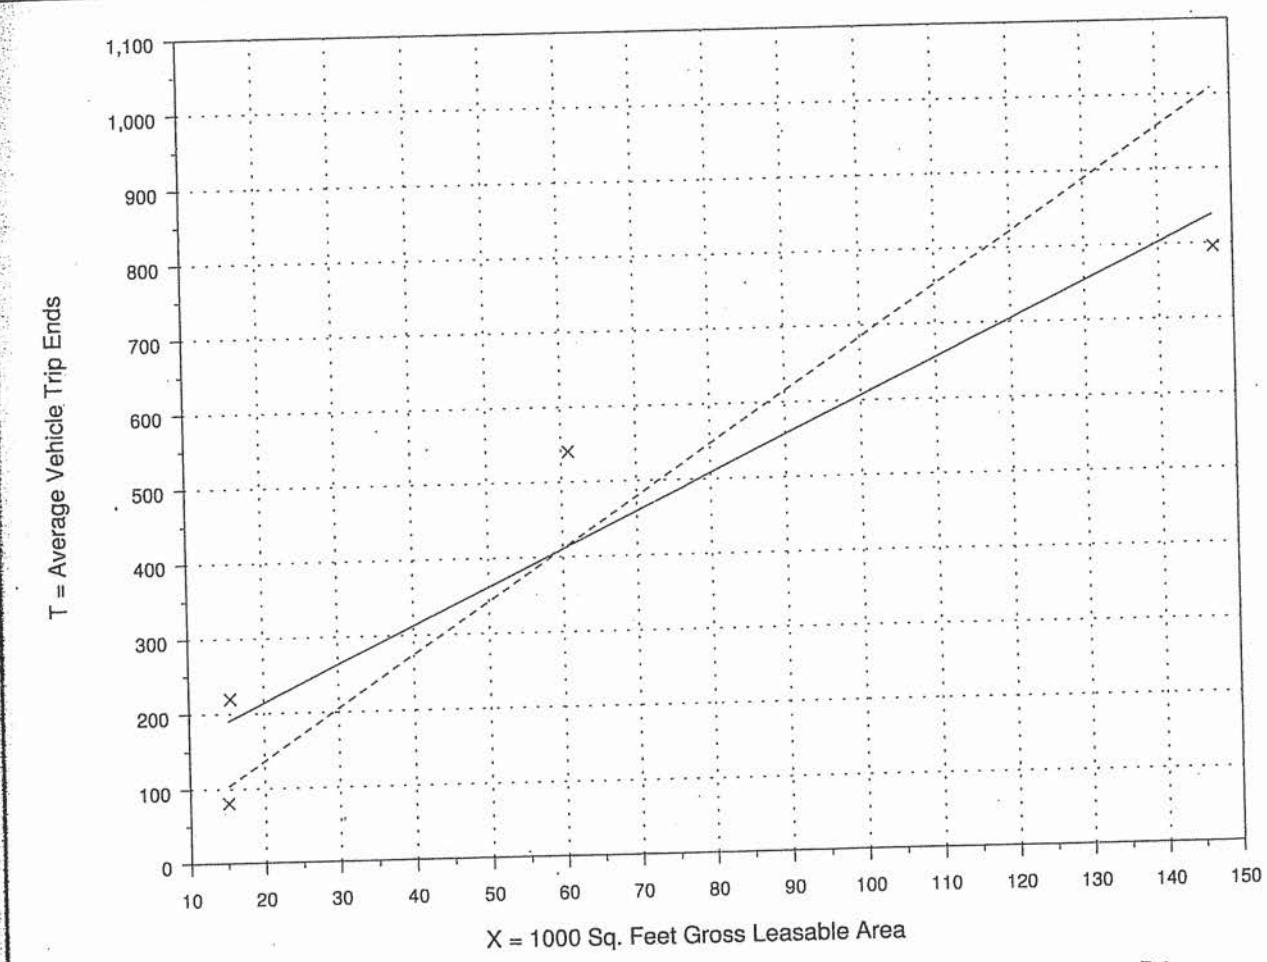
Number of Studies: 4
Average 1000 Sq. Feet GLA: 60
Directional Distribution: 48% entering, 52% exiting

Trip Generation per 1000 Sq. Feet Gross Leasable Area

Average Rate	Range of Rates	Standard Deviation
6.84	5.33 - 14.08	3.55

Data Plot and Equation

Caution - Use Carefully - Small Sample Size



Fitted Curve Equation: $T = 4.91(X) + 115.59$

$R^2 = 0.90$

Convenience Market with Gasoline Pumps
(853)

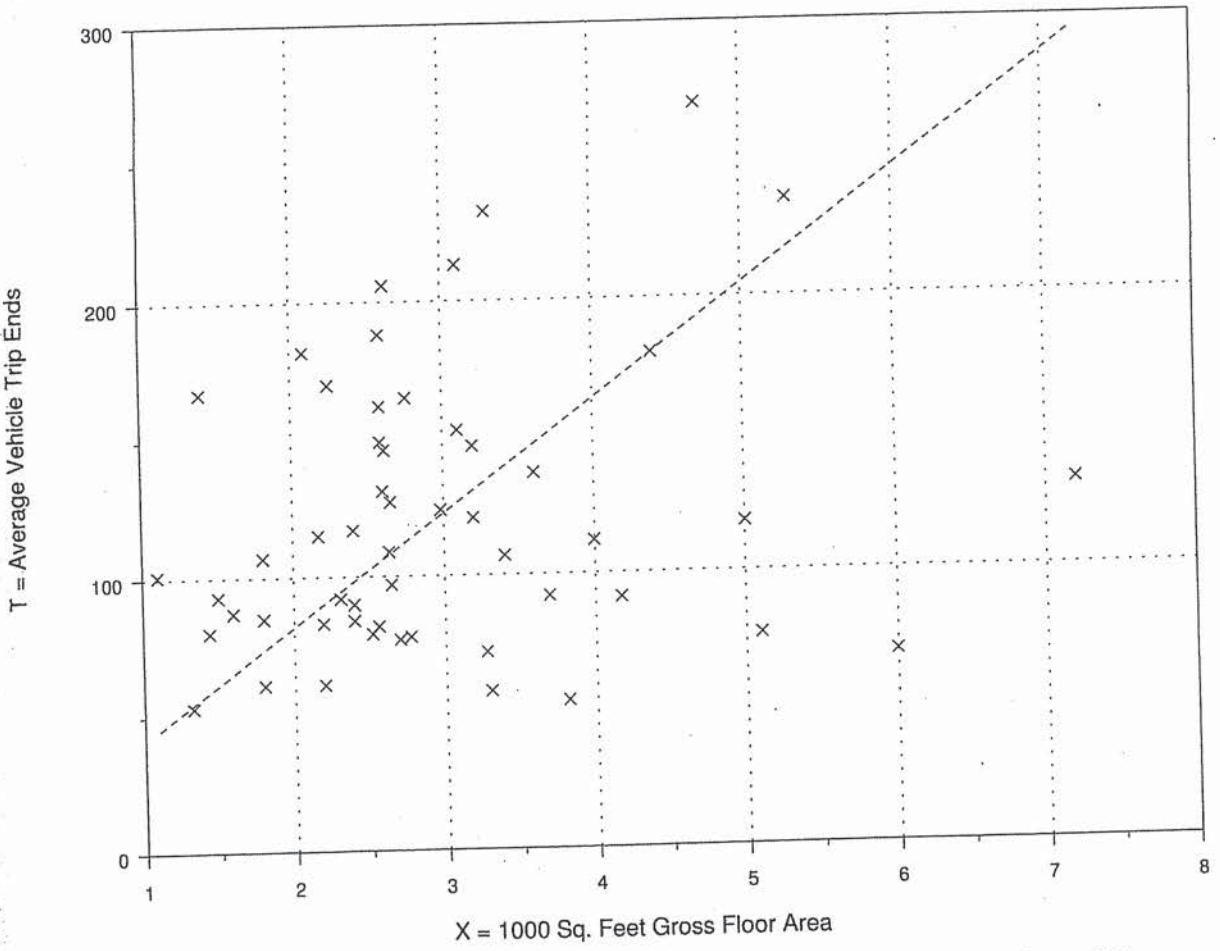
Average Vehicle Trip Ends vs: **1000 Sq. Feet Gross Floor Area**
On a: **Weekday,**
Peak Hour of Adjacent Street Traffic,
One Hour Between 7 and 9 a.m.

Number of Studies: 53
Average 1000 Sq. Feet GFA: 3
Directional Distribution: 50% entering, 50% exiting

Trip Generation per 1000 Sq. Feet Gross Floor Area

Average Rate	Range of Rates	Standard Deviation
40.92	11.67 - 119.29	20.75

Data Plot and Equation



Fitted Curve Equation: Not given

R^2 = ****

Convenience Market with Gasoline Pumps
(853)

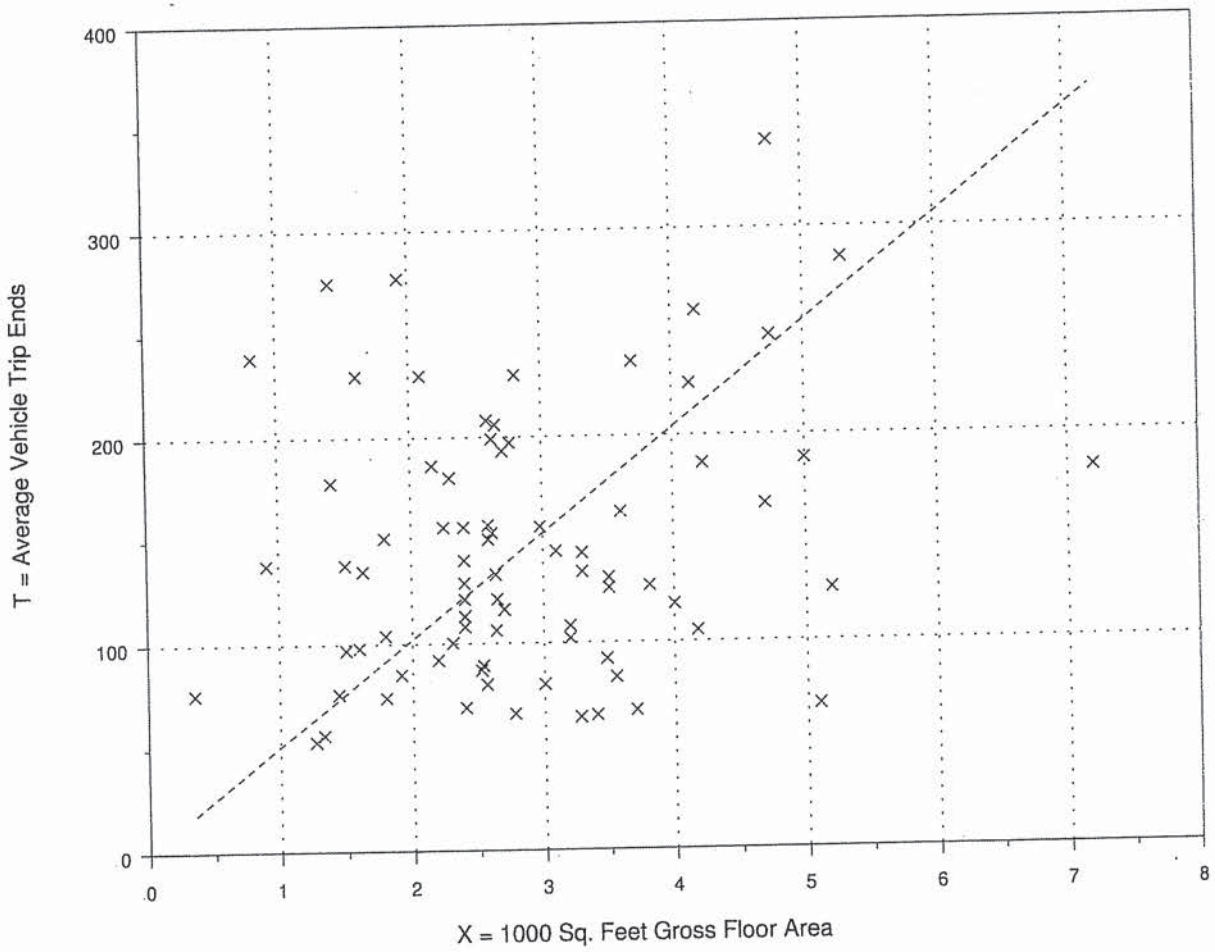
Average Vehicle Trip Ends vs: **1000 Sq. Feet Gross Floor Area**
On a: **Weekday,**
Peak Hour of Adjacent Street Traffic,
One Hour Between 4 and 6 p.m.

Number of Studies: 78
Average 1000 Sq. Feet GFA: 3
Directional Distribution: 50% entering, 50% exiting

Trip Generation per 1000 Sq. Feet Gross Floor Area

Average Rate	Range of Rates	Standard Deviation
50.92	13.53 - 292.89	32.15

Data Plot and Equation



Fitted Curve Equation: Not given

R^2 = ****

Two-Way Two-Lane Highway Segment Analysis

Analyst	Tom Walton
Agency/Co.	Rockwall TX
Date Performed	12/28/2017
Analysis Time Period	AM Peak Hour
Highway	Mims Rd
From/To	SH 205 to Sids Rd
Jurisdiction	Rockwall
Analysis Year	2024
Description	The Enclave Mims 2024 AM

Input Data

Highway class	Class 2				
Shoulder width	6.0	ft	Peak-hour factor, PHF	0.88	
Lane width	12.0	ft	% Trucks and buses	14	%
Segment length	0.0	mi	% Recreational vehicles	4	%
Terrain type	Level		% No-passing zones	0	%
Grade: Length		mi	Access points/mi	8	/mi
Up/down		%			

Two-way hourly volume, V	93		veh/h
Directional split	60 /	40	%

Average Travel Speed

Grade adjustment factor, fG	1.00	
PCE for trucks, ET	1.7	
PCE for RVs, ER	1.0	
Heavy-vehicle adjustment factor,	0.911	
Two-way flow rate, (note-1) vp	116	pc/h
Highest directional split proportion (note-2)	70	pc/h
Free-Flow Speed from Field Measurement:		
Field measured speed, SFM	-	mi/h
Observed volume, Vf	-	veh/h
Estimated Free-Flow Speed:		
Base free-flow speed, BFFS	45.0	mi/h
Adj. for lane and shoulder width, fLS	0.0	mi/h
Adj. for access points, fA	2.0	mi/h
Free-flow speed, FFS	43.0	mi/h
Adjustment for no-passing zones, fnp	0.0	mi/h
Average travel speed, ATS	42.1	mi/h

505

Percent Time-Spent-Following

Grade adjustment factor, fG	1.00	
PCE for trucks, ET	1.1	
PCE for RVs, ER	1.0	
Heavy-vehicle adjustment factor, fHV	0.986	
Two-way flow rate,(note-1) vp	107	pc/h
Highest directional split proportion (note-2)	64	
Base percent time-spent-following, BPTSF	9.0	%
Adj.for directional distribution and no-passing zones, fd/np	2.1	
Percent time-spent-following, PTSF	11.1	%

Level of Service and Other Performance Measures

Level of service, LOS	A	
Volume to capacity ratio, v/c	0.04	
Peak 15-min vehicle-miles of travel, VMT15	0	veh-mi
Peak-hour vehicle-miles of travel, VMT60	0	veh-mi
Peak 15-min total travel time, TT15	0.0	veh-h

Notes:
1. If vp >= 3200 pc/h, terminate analysis-the LOS is F.
2. If highest directional split vp >= 1700 pc/h, terminate analysis-the LOS is F.

Free-flow speed, FFS	43.0	mi/h
Adjustment for no-passing zones, fnp	0.0	mi/h
Average travel speed, ATS	40.4	mi/h

518

Percent Time-Spent-Following

Grade adjustment factor, fG	1.00	
PCE for trucks, ET	1.1	
PCE for RVs, ER	1.0	
Heavy-vehicle adjustment factor, fHV	0.986	
Two-way flow rate,(note-1) vp	304	pc/h
Highest directional split proportion (note-2)	182	
Base percent time-spent-following, BPTSF	23.4	%
Adj.for directional distribution and no-passing zones, fd/np	1.0	
Percent time-spent-following, PTSF	24.5	%

Level of Service and Other Performance Measures

Level of service, LOS	A	
Volume to capacity ratio, v/c	0.10	
Peak 15-min vehicle-miles of travel, VMT15	0	veh-mi
Peak-hour vehicle-miles of travel, VMT60	0	veh-mi
Peak 15-min total travel time, TT15	0.0	veh-h

Notes:
1. If vp >= 3200 pc/h, terminate analysis-the LOS is F.
2. If highest directional split vp >= 1700 pc/h, terminate analysis-the LOS is F.

CITY OF ROCKWALL, TEXAS
MEMORANDUM

TO: Mayor and City Council

CC: Rick Crowley, *City Manager*
Brad Griggs, *Assistant City Manager*

FROM: Ryan Miller, *Director of Planning and Zoning*

DATE: April 16, 2018

SUBJECT: *Z2018-014; Proposed Changes to Section 6, Overlay Districts, of Article V, UDC*

At the March 5, 2018 City Council meeting, the City Council directed staff to prepare a text amendment amending Section 6, *Overlay Districts*, of Article V, *District Development Standards*, of the Unified Development Code (UDC) for the purpose of removing the ability to request signage variances through the zoning code. Currently, all signage variances are required to submit in accordance with the requirements of Chapter 32, *Signs*, of the Municipal Code of Ordinances, which lays out specific criteria for variances to the sign code; however, if a property is situated within an established overlay district the applicant can circumvent these requirements and submit a request that is outside the typical criteria for requesting a variance. The proposed changes would make all properties in the City subject to the same criteria when requesting variances to the signage requirements. Staff has kept the ¾-majority vote requirement for approving signage variances in overlay districts to maintain the restrictive approval process for properties in these areas.

In accordance, with Section 4.2 of Article XI, *Zoning Related Applications*, of the UDC staff brought the proposed amendment forward to the Planning and Zoning Commission for recommendation to the City Council. On April 10, 2018, the Planning and Zoning Commission approved a motion to recommend approval of the text amendment by a vote of 5-0, with Commissioners Fishman and Moeller absent. Attached to this case memo is a copy of the proposed amendment to the UDC and a draft ordinance. Staff has sent a 15-day notice to the Rockwall Herald Banner in accordance with all applicable state laws and Section 6.1 of Article II, *Authority and Administrative Procedures*, of the UDC.

ARTICLE V, *DISTRICT DEVELOPMENT STANDARDS*, OF THE UDC

SECTION 6. OVERLAY DISTRICTS

SECTION 6.6: IH-30 OVERLAY (IH-30 OV) DISTRICT

(F) *Signs.* All signage requirements and variances to these requirements shall conform to ~~[~~*Chapter 32, Signs, of the Code of Ordinances*~~] (sign ordinance).~~; however, approval of any variance to the sign standards for property included in the IH-30 ~~Corridor~~ Overlay (IH-30 OV) District shall require City Council approval by a three-quarter majority vote.

SECTION 6.7: SH-205 OVERLAY (SH-205 OV) DISTRICT

(G) *Signs.* ~~All permanent freestanding signs located in the SH-205 Corridor Overlay District shall be monument signs adhering to the City of Rockwall sign ordinance (chapter 32 of the Code of Ordinances) as heretofore amended and as maybe amended in future. Building materials and colors utilized for construction of the monument base shall be the same as the primary building materials and colors found on the main building, unless otherwise approved by the city council. Approval of any variance to the sign ordinance for property included the SH-205 Corridor Overlay District shall require city council approval by a three-quarter majority vote.~~ All signage requirements and variances to these requirements shall conform to *Chapter 32, Signs, of the Code of Ordinances*; however, approval of any variance to the sign standards for property included in the SH-205 Overlay (SH-205 OV) District shall require City Council approval by a three-quarter majority vote.

SECTION 6.8: SCENIC OVERLAY (SOV) DISTRICT

(G) *Signs.* ~~All permanent freestanding signs located in the Scenic Overlay District shall be monument signs (except at the intersection with Interstate 30) adhering to the City of Rockwall sign ordinance (chapter 32 of the Code of Ordinances) as heretofore amended and as may be amended in future. Building materials and colors utilized for construction of the monument base shall be the same as the primary building materials and colors found on the main building, unless otherwise approved by the city council. Approval of any variance to the sign ordinance for property included in the Scenic Overlay District shall require city council approval by a three-quarter majority vote.~~ All signage requirements and variances to these requirements shall conform to *Chapter 32, Signs, of the Code of Ordinances*; however, approval of any variance to the sign standards for property included in the Scenic Overlay (SOV OV) District shall require City Council approval by a three-quarter majority vote.

SECTION 6.9: SH-66 OVERLAY (SH-66 OV) DISTRICT

(G) *Signs.* ~~All permanent freestanding signs located in the SH-66 Overlay District shall be monument signs (except at the intersection with Interstate 30) adhering to the City of Rockwall sign ordinance (chapter 32 of the Code of Ordinances) as heretofore amended and as may be amended in future. Building materials and colors utilized for construction of the monument base shall be the same as the primary building materials and colors found on the main building, unless otherwise approved by the city council. Approval of any variance to the sign ordinance for property included in the SH-66 Overlay District shall require city council approval by a three-quarter majority vote.~~ All signage requirements and variances to these requirements shall conform to *Chapter 32, Signs, of the Code of Ordinances*; however, approval of any variance to the sign standards for property included in the SH-66 Overlay (SH-66 OV) District shall require City Council approval by a three-quarter majority vote.

SECTION 6.10: 205 BY-PASS ~~CORRIDOR~~ OVERLAY (205 BY-OV) DISTRICT

(F) *Signs ~~standards~~.* ~~All permanent freestanding signs located in the 205 Bypass Corridor Overlay District shall be monument signs (except at the intersection with Interstate 30) adhering to the City of Rockwall sign ordinance as heretofore amended and as may be amended in future. Building materials and colors utilized for construction of the monument base shall be the same as the primary building materials and colors found on the main building, unless otherwise approved by the city council. Approval of any variance to the sign ordinance for property included in the 205 By-Pass Corridor Overlay District shall require city council approval by a three-quarter majority vote.~~ All signage requirements and variances to these requirements shall conform to *Chapter 32, Signs, of the Code of*

Ordinances; however, approval of any variance to the sign standards for property included in the 205 By-Pass Overlay (205 BY-OV) District shall require City Council approval by a three-quarter majority vote.

SECTION 6.11: NORTH SH-205 ~~CORRIDOR~~ OVERLAY (N. SH-205 OV) DISTRICT

(F) *Signs ~~standards~~.* ~~All permanent freestanding signs located in the SH 205 Corridor Overlay District shall be monument signs adhering to the City of Rockwall sign ordinance (chapter 32 of the Code of Ordinances) as heretofore amended and as may be amended in future. Building materials and colors utilized for construction of the monument base shall be the same as the primary building materials and colors found on the main building, unless otherwise approved by the city council. Approval of any variance to the sign ordinance for property included in the North SH 205 Corridor Overlay District shall require city council approval by a three-quarter majority vote.~~ All signage requirements and variances to these requirements shall conform to *Chapter 32, Signs, of the Code of Ordinances*; however, approval of any variance to the sign standards for property included in the North SH-205 Overlay (N. SH-205 OV) District shall require City Council approval by a three-quarter majority vote.

SECTION 6.12: EAST SH-66 ~~CORRIDOR~~ OVERLAY (E. SH-66 OV) DISTRICT

(F) *Signs ~~standards~~.* ~~All permanent freestanding signs located in the East SH 66 Corridor Overlay District shall be monument signs adhering to the City of Rockwall sign ordinance (chapter 32 of the Code of Ordinances) as heretofore amended and as maybe amended in future. Building materials and colors utilized for construction of the monument base shall be the same as the primary building materials and colors found on the main building, unless otherwise approved by the city council. Approval of any variance to the sign ordinance for property included in the East SH 66 Corridor Overlay District shall require city council approval by a three-quarter majority vote.~~ All signage requirements and variances to these requirements shall conform to *Chapter 32, Signs, of the Code of Ordinances*; however, approval of any variance to the sign standards for property included in the East SH-66 Overlay (E. SH-66 OV) District shall require City Council approval by a three-quarter majority vote.

SECTION 6.13: FM-549 ~~CORRIDOR~~ OVERLAY (FM-549 OV) DISTRICT

(F) *Signs ~~standards~~.* ~~All permanent freestanding signs located in the FM 549 Corridor Overlay District shall be monument signs (except at the intersection with Interstate 30) adhering to the City of Rockwall sign ordinance (chapter 32 of the Code of Ordinances) as heretofore amended and as maybe amended in future. Building materials and colors utilized for construction of the monument base shall be the same as the primary building materials and colors found on the main building, unless otherwise approved by the city council. Approval of any variance to the sign ordinance for property included the FM 549 Corridor Overlay District shall require city council approval by a three-quarter majority vote.~~ All signage requirements and variances to these requirements shall conform to *Chapter 32, Signs, of the Code of Ordinances*; however, approval of any variance to the sign standards for property included in the FM-549 Overlay (FM-549 OV) District shall require City Council approval by a three-quarter majority vote.

SECTION 6.14: SH-276 ~~CORRIDOR~~ OVERLAY (SH-276 OV) DISTRICT

(F) *Signs ~~standards~~.* ~~All permanent freestanding signs located in the SH 276 Corridor Overlay District shall be monument signs adhering to the City of Rockwall sign ordinance (chapter 32 of the Code of Ordinances) as heretofore amended and as maybe amended in future. Building materials and colors utilized for construction of the monument base shall be the same as the primary building materials and colors found on the main building, unless otherwise approved by the city council. Approval of any variance to the sign ordinance for property included the SH 276 Corridor Overlay District shall require city council approval by a three-quarter majority vote.~~ All signage requirements and variances to these requirements shall conform to *Chapter 32, Signs, of the Code of Ordinances*; however, approval of any variance to the sign standards for property included in the SH-276 Overlay (SH-276 OV) District shall require City Council approval by a three-quarter majority vote.

CITY OF ROCKWALL

ORDINANCE NO. 18-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, BY AMENDING SECTION 6, *OVERLAY DISTRICTS*, OF ARTICLE V, *DISTRICT DEVELOPMENT STANDARDS*; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, an amendment to the City of Rockwall's Unified Development Code [*Ordinance No. 04-38*] has been initiated by the City Council of the City of Rockwall to amend Section 6, *Overlay Districts,* of Article V, *District Development Standards*, of the Unified Development Code [*Ordinance No. 04-38*]; and,

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the city's corporate boundaries, and the governing body in the exercise of its legislative discretion, has concluded that the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:**

SECTION 1. That Section 6, *Overlay Districts,* of Article V, *District Development Standards,* of the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall, as heretofore amended, be and the same is hereby amended as specifically described in *Exhibit 'A'* of this ordinance.

SECTION 2. That any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *Two Thousand Dollars ($2,000.00*) for each offense and each and every day such offense shall continue shall be deemed to constitute a separate offense;

SECTION 3. That if any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code [*Ordinance No. 04-38*], and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable;

SECTION 4. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides;

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 7TH DAY OF MAY, 2018.

CITY OF ROCKWALL, TEXAS
MEMORANDUM

TO: Mayor and City Council

CC: Rick Crowley, *City Manager*
Brad Griggs, *Assistant City Manager*

FROM: Ryan Miller, *Director of Planning and Zoning*

DATE: April 16, 2018

SUBJECT: *Z2018-015; Proposed Changes to Article II, Authority and Administrative Procedures, UDC*

At the March 5, 2018 City Council meeting, the City Council directed staff to prepare a text amendment amending Article II, *Authority and Administrative Procedures*, of the Unified Development Code (UDC) for the purpose of establishing criteria for the resubmittal of an application which has previously been denied by the City Council. Under the City's current ordinances, if an applicant's request is denied -- *regardless of being denied with or without prejudice* -- by the City Council the applicant can resubmit the same application without prohibition for all non-zoning related cases. The proposed text amendment would change this requirement by prohibiting applicants from resubmitting an application -- *that was denied with prejudice* -- without [*1*] a one (1) year waiting period, or [*2*] a ruling of substantial change by the Planning and Zoning Commission. Applications that are denied without prejudice would be exempt from these criteria and could be resubmitted without prohibition. This is the same procedure that zoning related applications are currently required to follow.

In accordance, with Section 4.2 of Article XI, *Zoning Related Applications*, of the UDC staff brought the proposed amendment forward to the Planning and Zoning Commission for recommendation to the City Council. On April 10, 2018, the Planning and Zoning Commission approved a motion to recommend approval of the text amendment by a vote of 5-0, with Commissioners Fishman and Moeller absent. Attached to this case memo is a copy of the proposed amendment to the UDC and a draft ordinance. Staff has sent a 15-day notice to the Rockwall Herald Banner in accordance with all applicable state laws and Section 6.1 of Article II, *Authority and Administrative Procedures*, of the UDC.

ARTICLE II, *AUTHORITY AND ADMINISTRATIVE PROCEDURES*, OF THE UDC

SECTION 7. ~~PUBLIC HEARING~~ PLANNING AND ZONING COMMISSION AUTHORITY

SECTION 7.1: APPROVAL AUTHORITY

The Planning and Zoning Commission shall make decisions, or make recommendations to the City Council, on the following matters:

(A) Decisions on site plans, building elevations, lighting plans, landscape plans and tree preservation plans as may be required.
(B) Recommendations to City Council on plats as required by the subdivision ordinance, [*Chapter 38 of Part II, Code of Ordinances*].
(C) Recommendations ~~on~~ to City Council on replats, when such public hearing is required by the provisions of *V.T.C.A., Local Government Code Chapter 212*.
(D) Recommendations to City Council regarding text amendments to this ~~[~~*Unified Development Code*~~]~~.
(E) Recommendations to City Council regarding zoning changes and map amendments, including reclassification of the zoning designations on land, specific use permits, and planned developments.
(F) Recommendations to City Council regarding special exceptions to this ~~[~~*Unified Development Code*~~]~~.
(G) Recommendations to City Council regarding amendments to the Comprehensive Plan.
(H) Recommendations to City Council regarding amendments to the Thoroughfare Plan.
(I) Recommendations to City Council regarding amendments to ~~the~~ a Master Open Space Plan.

SECTION 7.2: RECOMMENDATION AUTHORITY

Upon closure of the public hearing, and when required to make a recommendation to the City Council, the Planning and Zoning Commission ~~commission~~ may recommend:

(A) That the request or amendment be approved or enacted; or
(B) That the request or amendment be approved or enacted as modified to a more restrictive classification or subject to appropriate conditions as permitted by law; or
(C) That the request or amendment be denied.

SECTION 8. ~~PUBLIC HEARING~~ CITY COUNCIL AUTHORITY

SECTION 8.1: AUTHORITY

The City Council shall hold a meeting, conduct a public hearing~~,~~ -- *if required by this* ~~[~~*Unified Development Code*~~]~~, -- and make determinations on the following matters:

(A) Text amendments to this ~~[~~*Unified Development Code*~~]~~.
(B) Zoning changes and map amendments, including reclassification of the zoning designations on land, specific use permits, and planned developments.
(C) Special exceptions or waivers related to site plans for development.
(D) Amendments to the Comprehensive Plan.
(E) Amendments to the Master Thoroughfare Plan.
(F) Amendments to the Master Open Space Plan.
(G) Variances, special exceptions and appeals as set out in this ~~[~~*Unified Development Code*~~]~~.

(Ordinance No. 06-14, 4-17-2006)

SECTION 8.2: JOINT PUBLIC HEARINGS

The City Council may hold a public hearing, after publishing the required notice, jointly and with any public hearing required to be held by the Planning and Zoning Commission, but the City Council shall not take action until it has received a final report from the planning and zoning commission.

SECTION 8.3: CITY COUNCIL APPROVAL OR DENIAL

~~Following closure of the public hearing, t~~The council may take the following actions concerning the matters outlined in Section 8.1:

(A) *Approval of an item.* The City Council may approve the request or amendment either as requested, or in the form of a more restrictive district, and subject to such appropriate conditions as are allowed by law. Such approval of any request for a text amendment to this [*Unified Development Code*] or a zoning change and map amendment shall be granted only if the City Council determines that the request or amendment is consistent with the Comprehensive Plan and the purposes of this [*Unified Development Code*]. In the event the request or amendment concerns a text amendment to this [*Unified Development Code*] or a zoning change and map amendment, the City Council shall enact an ordinance amending this [*Unified Development Code*] or amending the official zoning map, whichever is applicable.

(B) *Denial of an item.* The City Council may deny ~~the~~ a request or amendment with prejudice. If a request or amendment is denied with prejudice, a new application may be submitted for the same lot or tract of land, or any portion thereof, within one (1) year only if the new request is for a more restrictive or less intense use or development. ~~Unless the new proposal is more restrictive or less intense than the previously denied proposal, then no other application pertaining to a change of zoning and map amendment may be submitted on the same lot or tract of land, or any portion thereof, for a period of one year from the date of its denial by the Council.~~ For applications pertaining to a change of zoning and map amendment, a new proposal may not be submitted unless it is more restrictive or less intense than the previously denied proposal for any tract of land, or any portion thereof, for a period of one (1) year from the denial date. If a request or amendment is denied by the City Council without an indication of "with" or "without" prejudice, then the action shall be considered to be "denied with prejudice."

(C) *Denial without prejudice.* The City Council may deny the request or amendment without prejudice, in which case an application for the same request ~~a change in zoning and map amendment other than that which was requested on the original application~~ may be filed at the applicant's discretion.

(D) *Reapplication due to changed conditions.* A ~~proposal to rezone a tract or parcel of land~~ request or amendment, which has been previously rejected with prejudice by the City Council, may be resubmitted within one (1) year only if there is an actual change in conditions relating to ~~zoning principles of~~ the tract or parcel of land or the property surrounding it. In ~~that~~ this event, the applicant must submit to the Director of Planning and Zoning, in writing, a ~~resume~~ request describing such changed conditions. The Director of Planning and Zoning shall investigate ~~the property or cause such an investigation to be made and~~ the claim and ~~shall~~ report to the Planning and Zoning Commission whether or not such change~~d~~ of conditions exist. Upon hearing this report, the Planning and Zoning Commission shall either grant or deny the request to refile the ~~proposal for rezoning~~ request or amendment.

SECTION 8.4: PROTEST OF PROPOSED CHANGE IN ZONING

Property owners adjacent to and within a radius of 200 feet of a property for which a change in zoning is being considered have the right to file a written protest against the request. The land area of this 200 foot ~~feet~~ radius includes streets, alleys and other public right-of-way.

Whenever such written protest is signed by the owners of 20 percent or more of the area of the lots or land included in such zoning change, or of the lots or land immediately adjoining the same and within the above mentioned 200-foot radius, or if such change is recommended for denial by the Planning and Zoning Commission, such change in zoning shall require a favorable vote of three-fourths of all eligible members of the City Council.

For purposes of determining representation on this written protest, the written protest of any one (1) owner of land owned by two or more persons shall be presumed to be the protest of all owners.

(Ordinance No. 06-14, 4-17-2006)

SECTION 8.5: CRITERIA FOR GRANTING SPECIAL EXCEPTIONS

The City Council may make special exceptions to the standards in this [*Unified Development Code*] that are consistent with the general purpose and intent of the [*Unified Development Code*]. The Planning and Zoning Commission shall make recommendations on special exceptions.

Special exceptions are subject to appropriate conditions and safeguards to ensure that the special exceptions are consistent with the general purpose and intent of this [*Unified Development Code*] and the City's Comprehensive Plan.

The City Council, pursuant to the powers conferred upon it by state law, the ordinances of the City and this article may grant special exceptions to the provisions of this ~~[~~*Unified Development Code*~~]~~ upon finding that:

(A) Such special exception will not substantially or permanently injure the appropriate use of adjacent property in the same district;
(B) Such special exception will not adversely affect the health, safety or general welfare of the public;
(C) Such special exception will not be contrary to the public interest;
(D) Such special exception will not authorize the operation of a use other than those uses specifically authorized for the district in which the property for which the exception is sought is located, except as provided elsewhere in this ~~[~~*Unified Development Code*~~]~~;
(E) Such special exception will be in harmony with the spirit and purpose of this ~~[~~*Unified Development Code*~~]~~;
(F) Such special exception will not alter the essential character of the district in which the property is located ~~the property~~ for which the exception is sought;
(G) Such special exception will not substantially weaken the general purposes of the zoning regulations established for the district in which the property is located; and
(H) Such special exception is within the spirit and intent of the City's Comprehensive Plan and other policies.

CITY OF ROCKWALL

ORDINANCE NO. 18-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, BY AMENDING ARTICLE II, *AUTHORITY AND ADMINISTRATIVE PROCEDURES*; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, an amendment to the City of Rockwall's Unified Development Code [*Ordinance No. 04-38*] has been initiated by the City Council of the City of Rockwall to amend Article II, *Authority and Administrative Procedures*, of the Unified Development Code [*Ordinance No. 04-38*]; and,

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the city's corporate boundaries, and the governing body in the exercise of its legislative discretion, has concluded that the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:**

SECTION 1. That Article II, *Authority and Administrative Procedures,* of the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall, as heretofore amended, be and the same is hereby amended as specifically described in *Exhibit 'A'* of this ordinance.

SECTION 2. That any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *Two Thousand Dollars ($2,000.00*) for each offense and each and every day such offense shall continue shall be deemed to constitute a separate offense;

SECTION 3. That if any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code [*Ordinance No. 04-38*], and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable;

SECTION 4. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides;

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 7TH DAY OF MAY, 2018.

ARTICLE II, *AUTHORITY AND ADMINISTRATIVE PROCEDURES*, OF THE UDC

SECTION 7. ~~PUBLIC HEARING~~ PLANNING AND ZONING COMMISSION AUTHORITY

SECTION 7.1: APPROVAL AUTHORITY

The Planning and Zoning Commission shall make decisions, or make recommendations to the City Council, on the following matters:

(A) Decisions on site plans, building elevations, lighting plans, landscape plans and tree preservation plans as may be required.
(B) Recommendations to City Council on plats as required by the subdivision ordinance, [*Chapter 38 of Part II, Code of Ordinances*].
(C) Recommendations ~~on~~ to City Council on replats, when such public hearing is required by the provisions of *V.T.C.A., Local Government Code Chapter 212*.
(D) Recommendations to City Council regarding text amendments to this ~~[~~*Unified Development Code*~~]~~.
(E) Recommendations to City Council regarding zoning changes and map amendments, including reclassification of the zoning designations on land, specific use permits, and planned developments.
(F) Recommendations to City Council regarding special exceptions to this ~~[~~*Unified Development Code*~~]~~.
(G) Recommendations to City Council regarding amendments to the Comprehensive Plan.
(H) Recommendations to City Council regarding amendments to the Thoroughfare Plan.
(I) Recommendations to City Council regarding amendments to ~~the~~ a Master Open Space Plan.

SECTION 7.2: RECOMMENDATION AUTHORITY

Upon closure of the public hearing, and when required to make a recommendation to the City Council, the Planning and Zoning Commission ~~commission~~ may recommend:

(A) That the request or amendment be approved or enacted; or
(B) That the request or amendment be approved or enacted as modified to a more restrictive classification or subject to appropriate conditions as permitted by law; or
(C) That the request or amendment be denied.

SECTION 8. ~~PUBLIC HEARING~~ CITY COUNCIL AUTHORITY

The City Council shall hold a meeting, conduct a public hearing~~,~~ -- *if required by this* ~~[~~*Unified Development Code*~~]~~, -- and make determinations on the following matters:

(A) Text amendments to this ~~[~~*Unified Development Code*~~]~~.
(B) Zoning changes and map amendments, including reclassification of the zoning designations on land, specific use permits, and planned developments.
(C) Special exceptions or waivers related to site plans for development.
(D) Amendments to the Comprehensive Plan.
(E) Amendments to the Master Thoroughfare Plan.
(F) Amendments to the Master Open Space Plan.
(G) Variances, special exceptions and appeals as set out in this ~~[~~*Unified Development Code*~~]~~.

(Ordinance No. 06-14, 4-17-2006)

DRAFT ORDINANCE 07.16.18

SECTION 8.2: JOINT PUBLIC HEARINGS

The City Council may hold a public hearing, after publishing the required notice, jointly and with any public hearing required to be held by the Planning and Zoning Commission, but the City Council shall not take action until it has received a final report from the planning and zoning commission.

SECTION 8.3: CITY COUNCIL APPROVAL OR DENIAL

~~Following closure of the public hearing, t~~The council may take the following actions concerning the matters outlined in Section 8.1:

(A) *Approval of an item.* The City Council may approve the request or amendment either as requested, or in the form of a more restrictive district, and subject to such appropriate conditions as are allowed by law. Such approval of any request for a text amendment to this ~~[~~*Unified Development Code*~~]~~ or a zoning change and map amendment shall be granted only if the City Council determines that the request or amendment is consistent with the Comprehensive Plan and the purposes of this ~~[~~*Unified Development Code*~~]~~. In the event the request or amendment concerns a text amendment to this ~~[~~*Unified Development Code*~~]~~ or a zoning change and map amendment, the City Council shall enact an ordinance amending this ~~[~~*Unified Development Code*~~]~~ or amending the official zoning map, whichever is applicable.

(B) *Denial of an item.* The City Council may deny ~~the~~ a request or amendment with prejudice. If a request or amendment is denied with prejudice, a new application may be submitted for the same lot or tract of land, or any portion thereof, within one (1) year only if the new request is for a more restrictive or less intense use or development. ~~Unless the new proposal is more restrictive or less intense than the previously denied proposal, then no other application pertaining to a change of zoning and map amendment may be submitted on the same lot or tract of land, or any portion thereof, for a period of one year from the date of its denial by the Council.~~ For applications pertaining to a change of zoning and map amendment, a new proposal may not be submitted unless it is more restrictive or less intense than the previously denied proposal for any tract of land, or any portion thereof, for a period of one (1) year from the denial date. If a request or amendment is denied by the City Council without an indication of "with" or "without" prejudice, then the action shall be considered to be "denied with prejudice."

(C) *Denial without prejudice.* The City Council may deny the request or amendment without prejudice, in which case an application for the same request ~~a change in zoning and map amendment other than that which was requested on the original application~~ may be filed at the applicant's discretion.

(D) *Reapplication due to changed conditions.* A ~~proposal to rezone a tract or parcel of land~~ request or amendment, which has been previously rejected with prejudice by the City Council, may be resubmitted within one (1) year only if there is an actual change in conditions relating to ~~zoning principles of~~ the tract or parcel of land or the property surrounding it. In ~~that~~ this event, the applicant must submit to the Director of Planning and Zoning, in writing, a ~~resume~~ request describing such changed conditions. The Director of Planning and Zoning shall investigate ~~the property or cause such an investigation to be made and~~ the claim and ~~shall~~ report to the Planning and Zoning Commission whether or not such change~~d~~ of conditions exist. Upon hearing this report, the Planning and Zoning Commission shall either grant or deny the request to refile the ~~proposal for rezoning~~ request or amendment.

DRAFT ORDINANCE 04.16.18

SECTION 8.4: PROTEST OF PROPOSED CHANGE IN ZONING

Property owners adjacent to and within a radius of 200 feet of a property for which a change in zoning is being considered have the right to file a written protest against the request. The land area of this 200 foot ~~feet~~ radius includes streets, alleys and other public right-of-way.

Whenever such written protest is signed by the owners of 20 percent or more of the area of the lots or land included in such zoning change, or of the lots or land immediately adjoining the same and within the above mentioned 200-foot radius, or if such change is recommended for denial by the Planning and Zoning Commission, such change in zoning shall require a favorable vote of three-fourths of all eligible members of the City Council.

For purposes of determining representation on this written protest, the written protest of any one (1) owner of land owned by two or more persons shall be presumed to be the protest of all owners.

(Ordinance No. 06-14, 4-17-2006)

SECTION 8.5: CRITERIA FOR GRANTING SPECIAL EXCEPTIONS

The City Council may make special exceptions to the standards in this ~~[~~*Unified Development Code*~~]~~ that are consistent with the general purpose and intent of the ~~[~~*Unified Development Code*~~]~~. The Planning and Zoning Commission shall make recommendations on special exceptions.

Special exceptions are subject to appropriate conditions and safeguards to ensure that the special exceptions are consistent with the general purpose and intent of this ~~[~~*Unified Development Code*~~]~~ and the City's Comprehensive Plan.

The City Council, pursuant to the powers conferred upon it by state law, the ordinances of the City and this article may grant special exceptions to the provisions of this ~~[~~*Unified Development Code*~~]~~ upon finding that:

(A) Such special exception will not substantially or permanently injure the appropriate use of adjacent property in the same district;
(B) Such special exception will not adversely affect the health, safety or general welfare of the public;
(C) Such special exception will not be contrary to the public interest;
(D) Such special exception will not authorize the operation of a use other than those uses specifically authorized for the district in which the property for which the exception is sought is located, except as provided elsewhere in this ~~[~~*Unified Development Code*~~]~~;
(E) Such special exception will be in harmony with the spirit and purpose of this ~~[~~*Unified Development Code*~~]~~;
(F) Such special exception will not alter the essential character of the district in which the property is located ~~the property~~ for which the exception is sought;
(G) Such special exception will not substantially weaken the general purposes of the zoning regulations established for the district in which the property is located; and

Such special exception is within the spirit and intent of the City's Comprehensive Plan and other policies.

CITY OF ROCKWALL, TEXAS
MEMORANDUM

TO: Mayor and City Council

CC: Rick Crowley, *City Manager*
Brad Griggs, *Assistant City Manager*

FROM: Ryan Miller, *Director of Planning and Zoning*

DATE: April 16, 2018

SUBJECT: MIS2018-006; *Amendment to Master Thoroughfare Plan*

Rockwall County is currently in the process of updating the County's Master Thoroughfare Plan (MTP) and has requested that the City of Rockwall review the proposed changes and provide comments. Through staff's review, two (2) changes on the City's current MTP were identified. In order to assure that the City Council had a chance to review the proposed changes prior to the adoption of the County's plan, staff brought the proposed changes before the City Council on March 19, 2018. At this meeting, staff was directed to proceed with making the following changes to the City's MTP: [*1*] a change showing the realignment of Breezy Hill Road to follow existing right-of-way, and [*2*] increasing Horizon Road from a M4D (*minor collector, four [4] lane, divided roadway*) to a TXDOT4D (*i.e. four [4] lane TXDOT roadway*).

According to Section 213.003 of the *Texas Local Government Code*, *"(a) comprehensive plan may be adopted or amended by ordinance following:*

1) *A hearing at which the public is given the opportunity to give testimony and present written evidence; and*
2) *Review by the municipality's planning commission or department, if one exists."*

Additionally, Section 9.03 of the City's *Home Rule Charter* states that "(r)ecommended changes to the Master Plan shall be submitted to the City Manager after the Planning and Zoning Commission holds at least one public hearing on the proposed change." Furthermore, Section 9.04 states that the "City Manager shall submit the proposed changes to the Council, together with any recommendations. The Council, after a public hearing, shall adopt or reject such proposed revisions or any part thereof as submitted within sixty (60) days following its submission by the City Manager. If the proposed revision or part thereof should be rejected by the Council, the Planning and Zoning Commission may make modifications and again forward it to the City Manager for submission to the Council." In accordance with this section, staff brought the proposed amendment forward to the Planning and Zoning Commission for recommendation to the City Council. On April 10, 2018, the Planning and Zoning Commission approved a motion to recommend approval of the amendment by a vote of 5-0, with Commissioners Fishman and Moeller absent. Attached to this case memo is a map showing the proposed amendment to the City's MTP and a draft ordinance. Staff has sent a notice to the Rockwall Herald Banner in accordance with all applicable state laws and Section 6.1 of Article II, *Authority and Administrative Procedures*, of the UDC.

CITY OF ROCKWALL

ORDINANCE NO. 18-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, ADOPTING REVISIONS TO THE MASTER THOROUGHFARE PLAN CONTAINED WITHIN THE *TRANSPORTATION* SECTION OF THE COMPREHENSIVE PLAN IN ACCORDANCE WITH THE CITY'S HOME RULE CHARTER.

WHEREAS, the *Home Rule Charter* of the City of Rockwall, Texas, states that the Comprehensive Plan will contain recommendations for the growth, development and beautification of the City and its Extraterritorial Jurisdiction (ETJ); and

WHEREAS, the City Council of the City of Rockwall has previously authorized a study to update the Comprehensive Plan, also referred to as the Master Plan; and

WHEREAS, the citizens of the City of Rockwall were involved in the development of the Comprehensive Plan through participation in committee and public meetings; and

WHEREAS, the Comprehensive Plan shall serve as a guide to all future City Council action concerning land use and development regulations and expenditures for capital improvements; and

WHEREAS, Section 213.003, *Adoption or Amendment of Comprehensive Plan*, of Chapter 213, *Municipal Comprehensive Plans*, of the *Texas Local Government Code* states that the adoption of or amendment to a Comprehensive Plan requires a hearing at which the public is given the opportunity to give testimony and present written evidence, and as required by the *Home Rule Charter of the City of Rockwall* a public hearing has been held on the proposed revisions to the Comprehensive Plan, and the governing body -- *in the exercise of its legislative discretion* -- has concluded that the Comprehensive Plan should be amended as follows:

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:

Section 1. The Master Thoroughfare Plan contained within the *Transportation* section of the City's Comprehensive Plan be amended as depicted in *Exhibit 'A'* of this ordinance; and,

Section 2. The Comprehensive Plan shall be used by the City Staff in planning and as a guide for future development of the City of Rockwall; and,

Section 3. This ordinance shall take effect immediately from and after its passage, and the publication of the caption of said ordinance as the law in such cases provides.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 7TH DAY OF MAY, 2018.

ROCKWALL CENTRAL APPRAISAL DISTRICT

PROPOSED BUILDING ADDITION
ROCKWALL, TEXAS

574

Sec. 6.051. Ownership or Lease of Real Property.

(a) The board of directors of an appraisal district may purchase or lease real property and may construct improvements as necessary to establish and operate the appraisal office or a branch appraisal office.

(b) The acquisition or conveyance of real property or the construction or renovation of a building or other improvement by an appraisal district must be approved by the governing bodies of three-fourths of the taxing units entitled to vote on the appointment of board members.

a. The board of directors by resolution may propose a property transaction or other action for which this subsection requires approval of the taxing units.

b. The chief appraiser shall notify the presiding officer of each governing body entitled to vote on the approval of the proposal by delivering a copy of the board's resolution, together with information showing the costs of other available alternatives to the proposal.

c. On or before the 30th day after the date the presiding officer receives notice of the proposal, the governing body of a taxing unit by resolution may approve or disapprove the proposal. If a governing body fails to act on or before that 30th day or fails to file its resolution with the chief appraiser on or before the 10th day after that 30th day, the proposal is treated as if it were disapproved by the governing body.

(c) The board of directors may convey real property owned by the district, and the proceeds shall be credited to each taxing unit that participates in the district in proportion to the unit's allocation of the appraisal district budget in the year in which

PROPOSAL, HISTORY & BACKGROUND

Executive Summary

The Rockwall Central Appraisal District (RCAD) office building has stood in its existing location for 20 years. In that time the population of Rockwall County has almost tripled and continues to grow at an ever increasing rate. While our building remains structurally sound, it now lacks the space and parking capacity to adequately serve our employees and, more importantly, our citizens.

The Texas Tax Code authorizes the Board of Directors of an appraisal district, with the approval of its taxing units, to purchase, lease, or renovate a building as necessary to operate the appraisal office. A search of existing properties for sale or lease within Rockwall County has been conducted and no suitable facility was found. All properties either lacked the appropriate space, parking, or were far too costly to renovate. Details of those properties is available upon request.

The Board of Directors has determined that the most logical and fiscally responsible approach to address our immediate needs and prepare for the future is to build an expansion to our current facility for the following reasons:

- Office space is very limited, with some appraisers having to double up. The Texas adopted manual "Property Appraisal and Assessment Administration" recommends one appraiser for every 3,000 to 3,500 parcels. Currently there are eight appraisers, each appraiser managing 4,000-6,000 parcels. The District is currently three appraisers short.
- Storage space for files is overflowing into the workspace. Off-site climate controlled storage is now leased every month to fill this immediate need.
- The public waiting area is very small and easily becomes overcrowded and uncomfortable. The District expects the number of protests to double in eight years.
- The parking lot is also very small with only one entrance and exit. Citizens must park in other business parking lots down the street, or on the street some distance away.
- There is only one conference room for the Appraisal Review Board (ARB) to hear citizen protests. Increasing demand now requires conducting two boards simultaneously. The second board is held in the Assistant Chief Appraiser's office, who is then forced to double up in another office for those three months.
- The District Office is centrally located in Rockwall County. The Taxing Entities already own this building and the land on a corner lot, which is large enough to easily accommodate this building and parking lot expansion.

The planned 12,000 square foot Two Story Addition, expanded parking lot and some updates to the current building will not exceed $4,000,000. The estimated annual budget for each entity is included in this packet.

This space and redesign will greatly enlarge and enhance the comfort in the public areas. The parking area will triple and with a one-way flow of traffic, will accommodate all visitors and make access to the building safer. It will allow for the hiring of additional employees to more closely reach the recommended workload levels. This project will provide the opportunity to better serve the citizens of Rockwall County now and for many years to come.

POPULATON CENSUS CHART

2123	111,202
2024	114,539
2025	117,975
2026	121,514
2027	125,159
2028	128,914

Using information provided by North Central Texas Council of Governments NCTCOG a 3% compounded population growth is calculated.

PROTEST & INQUIRY STATUS

Year	Protest
2013	2,545
2014	4,114
2015	3,773
2016	6,333
2017	8,087
2018	8,896
2019	9,785
2020	10,764
2021	11,840
2022	13,024
2023	14,327
2024	15,759
2025	17,335
2026	19,069
2027	20,976
2028	23,073

With the number of new homes being built annually and property taxes continuing to rise, it is projected protest will increase approximately 10% per year.

RECOMMENDATION LETTERS

Sept 17, 2017

To: All Rockwall County, City, and School Taxing Entities

I have had the honor of serving on the Appraisal Review Board for four years and I am currently serving as the ARB Chairman.

With the rapid growth and forecasts of population, homes being built and updated, and additional business expansion we need to expand our CAD office space. Next year we will probably need two or more panels and need additional hearing rooms with adequate space to conduct open hearings that comply with state laws. At the current time, we only have one hearing room that can provide seating for the public to attend our hearings. Office space also needs to be provided for additional appraisers and staff as needed.

I am certain we all have the same common interests to comply with state laws to have all properties appraised at fair market values, and, to provide a fair and timely hearing for all protesters to have an unbiased review of their appraisal by the APB.

Please call me if I can provide any additional information or help.

Hal Hutchins

972-771-4927
ARB Board Chairman

To Whom It May Concern September 16, 2017

As a member of the Appraisal Review Board during 2017, I had the opportunity to closely observe the personnel and facilities of the Rockwall County Central Appraisal District.

First, no one feels comfortable with their Property Tax Assessment. Thus they have at least three options: complain, protest, or do nothing. The majority, unfortunately, do not understand the laws imposed by our State Legislators on how Property Taxes are determined nor do they understand the various components of the assessment. Accordingly, since they do not understand how the assessment is done, the villain in the process is the Appraisal District. This gives them the target for their complaint, protest, or even doing nothing.

Second, my personal observation over the experiences of this year and of four years as County Judge, is that the personnel of the Central Appraisal District apply the laws as written, follow all of the procedures detailed by the Legislators, go out of their way to be helpful to tax payers, and provide a service to both the citizens and the taxing entities. While it is easy to complain and find a "whipping boy", in my opinion it should not be the personnel of the Central Appraisal District. The proper avenue for complaint should be to your local State Representatives as they are the ones who make the laws we all must follow as citizens.

Third, the facilities of the Central Appraisal District badly need to be expanded. Storage space for their operation is almost non-existent; office space is so limited that appraisers who meet with the public are now being forced to share offices which limit their ability to actually interface with the citizens; only one room is currently available for citizens to meet with Appraisal Review Board members, however because of the number of protests resulting from the expanding population growth, it is necessary to divide the Review Board into Panels to accommodate the protests. This required one panel to meet in the coroner of one office jammed into a space too tight to allow public observers as necessitated by law. Because of the increase in the number of protests, the waiting time for many citizens who must sit in a very small, hot reception room is frustrating.

Finally, as you may know, I am not one to argue for expansion of government, adding more people, or building bigger and better facilities. However in this case, to meet the needs of an expanding population and to serve our citizens, I do recommend the Central Appraisal District building be expanded to meet the basic needs of that organization. The need is real.

Jerry H. Hogan

Rockwall County Judge (Retired)

9/15/2017

To the Officials of the Entities Served by the Rockwall Central Appraisal District

Dear Sirs and Mesdames,

I am writing in support of the Rockwall Central Appraisal District in requesting funding for an additional building to accommodate the continued growth of the organization. Having served on the RCAD Appraisal Review Board for the last three years, I am personally familiar with the lack of adequate space even for existing needs. Currently, the Appraisal District has insufficient space for storing all the records that must be kept on hand, leading to filing cabinets lining the hallways, which could be considered a safety issue. Also, the Appraisal Review Board this year instituted the practice of using two panels of three members in order to accommodate all the taxpayers wishing to protest their appraisals. Because the current RCAD facility has only one meeting room, one panel had to meet with taxpayers in the Assistant Chief Appraiser's office. While it did suffice, it was a rather cramped environment for the proceedings. I know that an additional appraiser position has been approved for next year, and with Rockwall County growing at a very rapid pace, the need for additional personnel can only increase in the foreseeable future. Please review positively the Rockwall Central Appraisal District's appeal for the funding needed to construct an additional building. It is sorely needed. Thank you for your consideration.

Submitted respectively,

Thom Loafman

Thom Loafman
Vice Chairman
Rockwall County Appraisal Review Board

PROJECT SCHEDULE
Rockwall County Appraisal District

RCAD Board,

I have prepared a preliminary Time Line Schedule determining the process for planning, designing, construction drawings, various city approvals, Bidding, and construction time.

This Building Phase includes +/- 12,000 SF Two Story Office building with new parking areas.

Time Line Schedule:

Schematic concept package	Approved 3-24-17
Design Development package/ construction budget	Completed 4-19-17
RCAD finance approval process	4 weeks
Civil Engineering, Landscape Design	6 weeks
City "Site Plan Approval" process (Site plan, Building Elevations, Civil, Landscape)	8 weeks
Building Contract Documents Drawings	8 weeks
City Building Permit Submittal	6 weeks
Contractor pricing (this is during permit review)	4 weeks
Construction time	10 months

TIME LINE SCHEDULE = 5 months for drawings & approvals + 10 months of construction

The Time line would look like this starting April 2018:

Design Development package; (15%completed plans)	April 19, 2017
RCAD – Board of Dir. Resolution Adoption	March 21, 2018
RCAD – Approvals from various Entities	Month of April 2018
Civil & Landscaping drawing documents	April 9 – May 21, 2018
City "Site Plan Approval" Process; submittal / approval	May 15 – Jun 18, 2018
Building Contract Documents (CD's)	May 15 – July 10, 2018
City Building Permit; Submittal / approval	July 17 – Aug 28, 2018
Contractor's Final Pricing	July 17 – Aug 21, 2018
Construction Start / Finish	Sept, 2018 – July 2019

Finished Project July 2019

Carroll Architects appreciates the opportunity to be apart of the new building vision for RCAD and seeing it become a reality.

Sincerely,

Jeff Carroll
President / CEO

Rockwall CAD Search for Lease or Rental Property Within Rockwall County

No buildings for rent or lease to meet the square footage requirements for the district's needs for present or future growth. RCAD's current building square footage is 6,008 sq. ft.

The three largest buildings are:

A. The largest building the district could find was a 6,067 sq. ft. space at $22.75 sq. ft. + electric. Limited parking
B. The second largest building the district could find was a 3,200 sq. ft. at $25.00 sq. ft. nnn. Limited parking
C. The 3rd largest building was 3,000 sq. ft. at $28.00 sq. ft. nnn. Limited parking.

There are no properties in Rockwall large enough to meet the requirements of the CAD, all rentals would need finish out if there were.

The RCAD searched for sale properties within Rockwall County and there were no properties that met the requirements and only two for sale.

A. Office Medical Building built in 1986, 15,766 sq. ft. Asking price $3,389,000, Wood, two story. City of Rowlett.
B. Commercial Building built in 2003, 13,200 sq. ft. Asking price $ 13,200. Outside City, warehouse type building.

Transaction Notes

Colliers International is pleased to exclusively offer to qualified investors a 100% fee-simple interest in CityView (the Property), located in the Dallas suburb of Plano, Texas near the new State Farm Regional Headquarters campus. CityView is comprised of the Tower, a ten-story, 183,159 square foot multi-tenant office building, and two adjacent four-story office buildings (CityView Corporate Center I and CityView Corporate Center II) containing 56,668 square feet and 54,409 square feet, respectively.

Strategically positioned to capitalize on the significant recent development in the Plano submarket, CityView offers classic design, exceptional value, and a unique lease-up opportunity for value-add, opportunistic investors.

Transaction Notes

The information for this report has been verified with a listing broker and a buyer.

On July 21, 2017 a joint venture between The Canada Pension Plan Investment Board and GIC Real Estate International sold the 92,547 square foot office building located at 1101 East Arapaho Road in Richardson, TX to a joint venture between JP Realty Partners and Sooner National Property Management, LP. At the time of sale the subject property was called Corporate Place of Richardson.

The buyer bought the property because it fit their investment criteria.

The property was approximately 46% occupied at the time of sale.

The buyer financed this acquisition with a $5.73 million loan provided by Liberty Bankers Life Insurance Company.

The sales price was not disclosed.

Calls were made to the seller but they were unavailable for comment at the time of publication.

12606 Greenville Ave - Northpoint Medical Arts — SOLD

118,876 SF Class B Medical Building Built in 1980, Renov 2007 (con't)

Document No: **20170357727**

Sale History: **Sold for $19,250,000 ($161.93/SF) on 12/7/2017**
Sold on 4/30/2015
Portfolio sale of 2 properties sold on 12/18/2003

Transaction Notes

The buyer reported, in a quarterly filing, that it acquired the Northpoint Medical Arts building, +/-119,000square feet, for $19.25 million, or approximately $162 per square foot, in the fourth quarter.

The property was approximately 82% occupied at time of sale, with asking rents at $23-25 modified gross. The seller, who acquired the asset at 60% occupancy in 2015, had always intended it to be a short-term hold.

The asset was widely marketed and sold with no unusual conditions.

The buyer reported its 2017 acquisitions at 5-5.5% cap rate, but this included a number of large portfolios, mostly of on-campus or campus adjacent medical office, that sold at very low cap rates. It was reported that the buyer had additional capital that it wished to use before the year was over.

An earlier investor presentation from Healthcare Trust of America reported the purchase price at $19.8 million; we are not certain of the discrepancy between the buyer's filings.

Transaction Notes

2280 N Greenville Avenue in Richardson was sold on May 25, 2017 for $52.6 million. The 228,506 square foot, single tenant office building is triple-net leased to Geico through 2027.

The seller acquired the building, vacant at the time, in 2014. The building renovations were completed in January 2016 when Geico's 12 year lease commenced. The renovation of the building for Geico included an expansion of the 2nd floor by 34,000 square feet. In addition, a former warehouse on the site was converted to climate-controlled covered parking.

A party to the transaction confirmed the information in the report. The cap rate was 6.06% based on a net operating income of about $3.19 million.

The buyers obtained financing in the amount of $20 million through Branch Banking & Trust.

Transaction Notes

The newly renovated, approximately 152,969 square foot Class A office building boasts attractive finishes, an impressive 5:1,000 parking ratio, and a superior location benefiting from record corporate expansion, relocation and investment in the area.

Greenway Plaza II, located in the North Dallas submarket of Richardson, Texas, is an outstanding Class A asset situated in the well-established business-friendly Telecom Corridor so named for the abundance of telecommunications heavy hitters that lined its streets in the 1990s, including MCI, Nortel and Verizon.

Document No:	**000000128339**
Sale History:	**Sold for $3,850,000 ($67.97/SF) on 5/5/2017** **Sold for $2,600,000 ($45.90/SF) on 9/16/2004** **Sold on 2/27/2004 Non-Arms Length**

Transaction Notes

This 56,640 square foot property was sold to a non-profit user for $3,850,000. Initially the buyer will occupy 50% of the building with existing law firm tenant occupying the balance. Once their lease expires, the buyer will then occupy the entirety of the property. Although a fairly dated property (1983 construction), the building was reported to be in good condition and well maintained. Escrow was extended in this transaction due to supplemental paperwork but the overall transaction was reported to be super clean and straight forward. Seller motivation and future plans were undisclosed per confidentiality agreement.

CITY OF ROCKWALL, TEXAS

RESOLUTION NO. 18-09

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, GRANTING APPROVAL OF THE ROCKWALL CENTRAL APPRAISAL DISTRICT'S (RCAD) PLAN TO RENOVATE AND EXPAND THE PROPERTY SITUATED AT 841 JUSTIN ROAD, ROCKWALL, TEXAS; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, § 6.051, TEX. TAX CODE authorizes the Board of Directors of an appraisal district to construct or renovate a building or other improvements as necessary to establish and operate the appraisal office; and

WHEREAS, the Board of Directors of the Rockwall Central Appraisal District has delivered a copy of Resolution #2018-001 to the City of Rockwall setting forth the desire to renovate and expand the property situated at 841 Justin Road, Rockwall, Texas; and

WHEREAS, the Board of Directors of the Rockwall Central Appraisal District has also delivered information to the City of Rockwall, showing the costs of available alternatives to the renovation of the property situated at 841 Justin Road, Rockwall, Texas; and

WHEREAS, § 6.051, TEX. TAX CODE requires that an appraisal district's construction or renovation of such real property and improvements must be approved by three-fourths (3/4) of the taxing units entitled to vote on the appointment of board members; and

WHEREAS, the referenced provisions of the Texas Property Tax Code authorize the following action.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:

Section 1. That the Rockwall City Council, as a result of its regular city council meeting on the 16th day of April, 2018 hereby **APPROVES** the Rockwall Central Appraisal District's proposal to renovate the property situated at 841 Justin Road, Rockwall, Texas; and

Section 2. That this Resolution shall become effective from and after its adoption and it is so resolved.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, this 16th day of April, 2018.

CITY OF ROCKWALL
CITY COUNCIL MEMO

AGENDA DATE: 04/16/2018

APPLICANT: Chase Finch; *Corwin Engineering*

AGENDA ITEM: **P2018-001;** *Breezy Hill, Phase VIII*

SUMMARY:

Discuss and consider a request by Chase Finch of Corwin Engineering, Inc. on behalf of John Arnold of BH Phase 8, LLC for the approval of a preliminary plat for Breezy Hill, Phase VIII containing 72 single-family residential lots on 30.785-acres of land identified as Tract 7 of the J. Strickland Survey, Abstract No. 187, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 74 (PD-74) for Single Family 10 (SF-10) District land uses, located along the eastern side of Breezy Hill Lane, and take any action necessary.

PLAT INFORMATION:

☑ The Breezy Hill Subdivision is a master planned community that will provide approximately 405-acres of residential and commercial development. The residential subdivision will be composed of 750 single-family lots on 371.45-acres of land, and to be broken down per the lot mix indicated in Planned Development District 74 (PD-74). The lot mix in this Planned Development District is as follows.

Lot Types	*A*	*B*	*C*	*D*	*E*	*F*	*G*
Typical Lot Frontage (Feet)	*60'*	*70'*	*80'*	*100'*	*60'*	*100'*	*70'*
Typical Lot Depth (Feet)	*120'*	*120'*	*125'*	*200'*	*110'*	*180'*	*120'*
Minimum Lot Size (Sq. Ft.)	*7,200 SF*	*8,400 SF*	*10,000 SF*	*20,000 SF*	*7,200 SF*	*18,000 SF*	*8,400 SF*
Number of Units	*164*	*131*	*137*	*140*	*40*	*44*	*94*
Dwelling Unit %	*21.86%*	*17.46%*	*18.27%*	*18.67%*	*5.34%*	*5.87%*	*12.53%*

☑ The applicant is requesting to preliminary plat Phase VIII of the Breezy Hill Subdivision for the purpose of laying 72 of the 750 lots. Of the 72 proposed lots, three (3) lots will be constructed to the Type "C" standards, 43 will be constructed to the Type "F" standards, and 26 will be constructed to the Type "G" standards (*all standards are displayed in the above table*) and be situated on approximately 30.785 acres. In addition to the preliminary plat, the applicant has also submitted a preliminary water, sanitary sewer storm water, and drainage plans establishing that the developer can provide adequate utilities to service the proposed phase.

☑ On March 8, 2018, the Board of Adjustments approved a variance [*Order No. BOA 2018-2-V*] to the zoning requirements for Planned Development District 74 (PD-74) to reduce the required lot depth from 180-feet to 175-feet for eight (8) lots [*i.e. Lots 101-108, Block R*] to allow for the required 10-foot landscape buffer adjacent to Breezy Hill Lane.

☑ On April 9, 2018 the Parks Board reviewed the *Preliminary Plat* and made a recommendation to approve the plat with the following conditions:

1) The developer is to pay the pro-rata equipment fees required in the amount of $18,360 [*i.e. 72 Lots @ $255.00 Per Lot*].

- ☑ With the exception of the variance to the lot depth for eight (8) lots, the proposed preliminary plat generally conforms to the revised concept plan approved by the City Council on July 7, 2014 under *Case No. Z2014-007* [*Ordinance No 14-26*].

- ☑ The surveyor has completed the majority of the technical revisions requested by staff, and this plat, conforming to the requirements for preliminary plats as stated in the *Subdivision Ordinance* in the *Municipal Code of Ordinances*, is recommended for conditional approval pending the completion of final technical modifications and submittal requirements.

- ☑ Conditional approval of this plat by the City Council shall constitute approval subject to the conditions stipulated in the *Recommendation* section below.

- ☑ With the exception of the items listed in the *Recommendation* section of this case memo, this plat is in substantial compliance with the requirements of the *Subdivision Ordinance* in the *Municipal Code of Ordinances*.

RECOMMENDATIONS:

Should the City Council choose to approve the *preliminary plat* for *Breezy Hill, Phase VIII,* staff would recommend the following conditions:

1) All technical comments from the Engineering, Planning and Fire Departments shall be addressed prior to the filing of this plat;

2) The development shall adhere to the recommendations of the Park Board;

3) Any construction resulting from the approval of this *preliminary plat* shall conform to the requirements set forth by the Unified Development Code, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

PLANNING AND ZONING COMMISSION:

On April 10, 2017, the Planning and Zoning Commission's motion to recommend approval of the preliminary plat with staff recommendations pass by a vote of 5-0 with Commissioners Fishman and Moeller absent.

CITY OF ROCKWALL
CITY COUNCIL MEMO

AGENDA DATE: 04/16/2018

APPLICANT: Todd Winters, P.E. of *Engineering Concepts and Design, L.P.*

AGENDA ITEM: **SP2018-003;** Amended Site Plan for *Maverick Ranch Retail Building*

SUMMARY:

Discuss and consider a request by Todd Winters, P.E. of Engineering Concepts and Design, L.P. for the approval of a variance in conjunction with an approved plan for a retail center on a 2.113-acre tract of land identified as Lot 6, Block A, Maverick Ranch Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, located at the northwest corner of the intersection of Ranch Trail Road and Horizon Road [FM-3097], and take any action necessary.

PURPOSE AND BACKGROUND:

The applicant is requesting the approval of a variance to the required ten (10)-foot landscape buffer along Horizon Road [FM-3097]. The request is in conjunction with an approved *amended site plan* for the purpose of allowing 12 parking spaces to be located within the required ten (10)-foot landscape buffer adjacent to Horizon Road [FM-3097]. As a note, a site plan was originally approved administratively for the *subject property* on April 11, 2012 [*Case No. SP2011-017*]. The original site plan had expired and was subsequently resubmitted and approved on February 13, 2018 [*i.e. SP2018-003*] for the construction of a single-story, 10,998 SF retail building; however, the approval did not include a request for a variance to allow parking spaces within the landscape buffer. The proposed retail building will be situated on a 2.113-acre parcel of land identified as a Lot 6, Block A, Maverick Ranch Addition that is located at the northwest corner of the intersection of Ranch Trail and Horizon Road [*FM-3097*], and is zoned *Commercial* (C) *District*.

DENSITY AND DIMENSIONAL REQUIREMENTS:

According to Section 1, *Land Use Schedule,* of Article IV, *Permissible Uses*, of the Unified Development Code (*UDC*), a retail operation is a use permitted by-right within the Commercial (C) District. With the exception of the landscape buffer as depicted on the amended site plan and landscape plan, these documents conform to the technical requirements contained within the Unified Development Code (*UDC*) and the Commercial (C) District and is listed as a condition of approval. A summary of the density and dimensional requirements for the subject property are as follows:

Ordinance Provisions	*Zoning District Standards*	*Conformance to the Standards*
Minimum Lot Area	*10,000 SF*	*x=2.113-Acres; In Conformance*
Minimum Lot Frontage	*60-Feet*	*x>60-Feet; In Conformance*
Minimum Lot Depth	*100-Feet*	*x>100-Feet; In Conformance*
Minimum Front Yard Setback	*15-Feet*	*x>15-Feet; In Conformance*
Minimum Rear Yard Setback	*0-Feet*[2]	*x>49-Feet; In Conformance*

Ordinance Provisions	*Zoning District Standards*	*Conformance to the Standards*
Minimum Side Yard Setback	*0-Feet*[2]	*x=75-Feet; In Conformance*
Maximum Building Height	*36-Ft w/o SUP*[3]	*x=18-Feet; In Conformance*
Max Building/Lot Coverage	*60%*	*x=19.1%; In Conformance*
Minimum Masonry Requirement	*90%*	*x>90%; In Conformance*
Minimum Number of Parking Spaces	*71*	*86 Provided; In Conformance*
Minimum Stone Requirement	*20% ea facade*	*x≥ 20%; In Conformance*
Minimum Landscaping Percentage	*15%*	*x =28.6%; In Conformance*
Maximum Impervious Coverage	*85-90%*	*x=71.4%; In Conformance*

NOTES: 1 Without fire retardant wall, or alley: ten feet, or as required by building and/or fire codes.
2. Abutting non-residentially zoned property, with fire retardant wall and alley separating: zero feet.
3. Maximum building height: 240 feet. Any structure over 60 feet shall require a specific use permit.

VARIANCE REQUEST:

The applicant is requesting approval of a variance to the landscape buffer requirements of the Unified Development Code (UDC) for the purpose of allowing 12 parking spaces to be located within the required ten (10)-foot landscape buffer along Horizon Road [FM-3097]. This would allow the development to line up with the existing property located east of the proposed development that is on the same lot. It should be noted that the applicant is providing the appropriate number of canopy trees [*i.e. one (1) per 50 linear feet*] within the landscape buffer [*i.e. tree wells and buffer strip west of the parking spaces*] as well as providing shrubbery for head light screening purposes.

According to Section 5.7, of Article VIII, of the Unified Development Code (UDC):

> *"A street landscape buffer-strip with a minimum width of ten feet, must be provided along the entire length of the property to be developed that is adjacent to a major arterial or collector street, as defined in the city's thoroughfare plan, exclusive of driveways and access-ways. Large trees, as herein defined, shall be provided in the required buffer in numbers equal to one tree for each 50 feet of street frontage."*

Granting the approval of a variance to the required ten (10)-foot landscape buffer is a discretionary decision for the City Council. The approval requires passage by a simple majority vote of the City Council.

RECOMMENDATIONS:

If the Planning & Zoning Commission chooses to approve the applicant's request then staff would recommend the following conditions of approval:

1) All technical comments provided by the Planning, Engineering and Fire Department must be addressed prior to the submittal of a building permit;

2) Approval of a variance by the City Council to allow for 12 parking spaces to be located within the required ten (10)-foot landscape buffer along Horizon Road [FM-3097].

3) Any construction or building necessary to complete this Site Plan request must conform to the requirements set forth by the UDC, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

668

PLANNING AND ZONING COMMISSION RECOMMENDATION:

On April 10, 2018, the Planning and Zoning Commission's motion to approve the amended site plan with staff conditions passed by a vote of 5 to 0 with Commissioners Moeller and Fishman absent. Additionally, the motion included a recommendation of approval for the variance to allow for the 12 parking spaces to be located within the 10-foot landscape buffer.

David Gonzales
Senior Planner
City of Rockwall, TX

Re: Variance Requests. SP 2018-003
Ranch Trail Retail Center, Rockwall, TX

Dear David,

We are hereby requesting a variance to the requirement of a 10 foot wide Landscape Buffer along Horizon Road (FM 3097) on this project, for which the Site Plan was Conditionally Approved on February 13, 2018, Case no. SP 2018-003.

The condition of dedicating 10 feet of Right Of Way for FM 3097, contained in comments dated 1/25/18, overlaps the planned 10 foot wide Landscape Buffer along FM 3097. Due to the fact that approximately half of this site is built out and that this required Right-of Way absorbs the existing Landscape Buffer there, providing for a ten foot (10') buffer outside of the dedication would cause a 10 foot offset in the fire lane, parking and building and this could never be accomplished completely, and would provide for a highly irregular site, and causing a complete reconfiguration of the plan.

The developer proposes a variable width landscape buffer of approximately, one foot to three feet wide along the proposed parking, widening to 10 feet on the northwest corner of the site past the required proposed parking. Proposed landscape plantings and irrigation can occur in that strip without substantive change to the Conditionally Approved Landscape Plan.

Please do not hesitate to call if you have any questions or comments.

Sincerely,

Todd D. Wintters, P.E.

CITY OF ROCKWALL
CITY COUNCIL MEMO

AGENDA DATE: 04/16/2018

APPLICANT: Worth Williams; *Moore Worth Investment, LLC*

AGENDA ITEM: **SP2018-007**; Starbucks

SUMMARY:

Discuss and consider a request by Worth Williams of Moore Worth Investment, LLC for the approval of a site plan for a restaurant with drive-through facilities on a 0.81-acre parcel of land identified as Lot 3, Block A, Lakeshore Commons Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 65 (PD-65) for General Retail (GR) District land uses, situated within the North SH-205 Overlay (N. SH-205 OV) District, addressed as 1945 N. Goliad Street, and take any action necessary.

PURPOSE AND BACKGROUND:

The applicant is requesting approval of variances associated with an approved site plan for a restaurant with drive-through facilities [*i.e. Starbucks*]. The proposed restaurant is ~2,418 SF and situated on a 0.81-acre tract of land [*i.e. Lot 3, Block A, Lakeshore Commons Addition*], is zoned Planned Development District 65 (PD-65) for General Retail (GR) District land uses, situated within the North SH-205 Overlay (N SH-205 OV) District and is addressed as 1945 N. Goliad Street.

According to the submitted site plan, the restaurant will be constructed utilizing a flat roof design and cultured stone. The purpose of this design is to match the design and building materials of the existing retail strip center located on the adjacent property located to the northeast.

VARIANCES:

Based on the applicant's submittal, staff has identified the following variances:

A) *North SH 205 Corridor Overlay (N SH-205 OV) District Standards.*

a. *Pitched Roof*. According to Subsection 2, *Roof Design Standards*, of Subsection C, *Architectural Standards*, of Section 6.11, *North SH 205 Corridor Overlay (N SH-205 OV) District*, of Article V, *District Development Standards*, of the Unified Development Code (UDC) structures having a footprint of 6,000 SF or less shall be constructed with a pitched roof system. In this case, the applicant is proposing to utilize a flat roof design to match the existing retail strip center located on the adjacent property. This request shall require a variance to be approved by the City Council.

b. *Architectural Standards*. According to Subsection C, *Architectural Standards,* of Section 6.11, *SH North SH 205 Corridor Overlay (N SH-205 OV) District*, of Article V, *District Development Standards*, of the Unified Development Code (UDC) each exterior wall of a structure shall consist of 90% masonry including a minimum of 20% natural of quarried stone on each façade. In this case, the applicant is providing ~40-49% stone on each facade, however, the applicant is proposing to utilize cultured stone to match the cultured stone on the

existing retail strip center located on the adjacent property. This request shall require a variance to be approved by the City Council.

All variances will require a ***¾ majority*** vote of the City Council members present to be approved.

ARCHITECTURAL REVIEW BOARD

On March 27, the Architectural Review Board (ARB) reviewed the proposed building elevations and requested that the applicant raise the stone on the building façade. In addition, the Architectural Review Board (ARB) expressed agreement with the requested variances to the pitched roof requirement and the natural stone requirement.

On April 10, 2018 the Architectural Review Board (ARB) reviewed the revised building elevations and made a recommendation to approve the variance to allow a flat roof and cultured stone with the condition that the applicant increase the stone to the top of the tower element containing the drive-through window and to lower the stone on the side elevations so that the stone terminates at the top of the door located on the rear elevation.

RECOMMENDATIONS:

Should the City Council choose to approve the applicant's request then staff would recommend the following conditions of approval:

1) All comments provided by the Planning, Engineering and Fire Department must be addressed prior to the submittal of a building permit;

2) Any construction or building necessary to complete this *Site Plan* request must conform to the requirements set forth by the UDC, Planned Development District 65 (PD-65), Specific Use Permit No. S-188 [Ordinance No. 18-21], the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

PLANNING AND ZONING COMMISSION:

On April 10, 2018, the Planning and Zoning Commission's motion to approve the site plan and recommend approval of the variance to the pitched roof requirement and the natural stone requirement passed by a vote of 5-0 with Commissioners Fishman and Moeller absent.

CITY OF ROCKWALL, TEXAS
MEMORANDUM

TO: Mayor and City Council

CC: Rick Crowley, *City Manager*
Brad Griggs, *Assistant City Manager*

FROM: Ryan Miller, *Director of Planning and Zoning*

DATE: April 16, 2018

SUBJECT: Gateway Monument Signage for SH-66

On February 19, 2018, the City Council approved a site plan for a convenience store with gasoline sales (*i.e. 7-11*) on a portion of the property located at the northeast corner of Willow Bend and W. Rusk Street [*SH-66*]. As part of the zoning ordinance for this property (*i.e. Planned Development District 48 [PD-48]*), the applicant was required to design and build a gateway monument sign and place it on the property. The applicant has completed the design of the sign -- *which was approved by the Architectural Review Board on March 27, 2018 and is attached to this memorandum* --, and is requesting that the sign be placed within public right-of-way in lieu of being placed on the subject property. The reason for this request is to prevent potential conflicts with any on-site signage for the 7-11 and/or visibility problems with the gateway monument sign due to the landscaping required by City ordinances. This issue was also raised by the City Council at the meeting on February 19, 2018. In addition, the City Council noted that due to the location of the subject property the gateway monument sign would only be adjacent to the westbound lanes of W. Rusk Street [*SH-66*] and therefore only visible to people exiting the City. In light of the City Council's observation and the applicant's request, staff is bringing forward several options for potential new locations for the proposed signage; however, the City Council is not limited to the options provided by staff. Staff should point out that sign locations on the south side of the right-of-way line are challenging due to drainage and grade issues, and that any location in the right-of-way will have to be vetted by the Texas Department of Transportation (TXDOT). Should the City Council have any questions staff will be available at the meeting on April 16, 2018.

City of Rockwall
The New Horizon

MEMORANDUM

TO: **Rockwall City Council**

FROM: **Joey Boyd, Director of Internal Operations**

DATE: **April 11, 2018**

SUBJECT: **Texas Aviation Conference and Future Airport Planning**

Mayor Pruitt, City Council members Fowler and Macalik, and city staff attended the Texas Aviation Conference on March 27-29, 2018. Dave Fulton, Director of TXDOT Aviation gave an update on the status of aviation in Texas. Mr. Fulton stated that the funding situation remains relatively similar to previous years. Purchasing power is at 49% today compared to 2001. The State has not received an increase in funding since 1998. The Ralph M Hall / Rockwall Municipal Airport receives $150,000 per year in federal grant funds through the Non-Primary Entitlement Fund at a 90/10 percent participation and the State of Texas funds projects through the Routine Airport Maintenance Program at a 50/50 percent cost share up to $100,000 per year. These are the two main programs used by the City to maintain the airport. There are also discretionary funds allocated to the Texas airport system that Rockwall must compete for with all other airports in the state and across the country.

Mr. Fulton discussed the $1.3 trillion omnibus spending bill President Trump signed on March 23, 2018 funding the federal government through the remainder of the fiscal year. The bill included $18 billion to the FAA—an increase of $1.6 billion from 2017. It provides $1.3 billion for NextGen programs, which is an increase of $239 million. The bill also provides $165 million for the federal contract tower program and $100 million to integrate drone policies.

In addition to the $3.35 billion for the Airport Improvement Program (AIP), the bill provides an additional $1 billion in airport discretionary grants targeted at small and rural airports used mainly by general aviation pilots. The funding is available through 2020. There will be more information on how the $1 billion will be distributed at a later date. With this new funding coming available specifically for smaller general aviation airports, the Airport Subcommittee has asked that an item be placed on the agenda to discuss future airport planning efforts, including discussions regarding a potential regional approach for providing aviation services.

AGENDA
ROCKWALL CITY COUNCIL
Monday, May 07, 2018
4:00 p.m. Regular City Council Meeting
City Hall - 385 S. Goliad, Rockwall, Texas 75087

I. CALL PUBLIC MEETING TO ORDER

II. WORK SESSION

p.10 **1.** Hold work session to discuss the S. Lakeshore Dr./Summit Ridge Drive Reconstruction project 100% construction plans for the Pavement (Street, Sidewalks and Driveways) Improvements.

III. EXECUTIVE SESSION.

THE CITY OF ROCKWALL CITY COUNCIL WILL RECESS INTO EXECUTIVE SESSION TO DISCUSS THE FOLLOWING MATTERS AS AUTHORIZED BY CHAPTER 551 OF THE TEXAS GOVERNMENT CODE:

1. Discussion regarding an application to establish a MUD (municipal utility district) pursuant to Section 551.071 (Consultation with Attorney)

2. Discussion regarding legal advice associated with homeowners association (HOA) regulations within the city pursuant to Section 551.071 (Consultation with Attorney).

3. Discussion regarding proposed agreement pertaining to Rockwall Convention & Visitor's Bureau pursuant to Section 551.071 (Consultation with Attorney)

4. Discussion regarding Breezy Hill Road pursuant to § Section 551.071 (Consultation with Attorney)

5. Discussion regarding purchase, acquisition, or lease of real property in the vicinity of County Line Rd. and the municipal airport pursuant to Section §551.072 (Real Property) and Section §551.071 (Consultation with Attorney).

6. Discussion regarding (re)appointments to city regulatory boards, commissions, and committees - specifically the N. TX Municipal Water District (NTMWD) and the Board of Adjustments - pursuant to Section 551.074 (personnel matters) and possible removal of board member(s) – pursuant to Section 551.071 (Consultation with Attorney)

7. Discussion regarding potential employee claim pursuant to Section 551.071 (Consultation with Attorney).

8. Discussion regarding the appeal to the Public Utility Commission filed by the cities of Garland, Mesquite, Plano and Richardson against the North Texas Municipal Water District (NTMWD) regarding water rates pursuant to §Section 551.071 (Consultation with Attorney).

IV. ADJOURN EXECUTIVE SESSION

AGENDA
ROCKWALL CITY COUNCIL
Monday, May 07, 2018
6:00 p.m. Regular City Council Meeting
City Hall, 385 S. Goliad, Rockwall, Texas 75087

V. RECONVENE PUBLIC MEETING

VI. TAKE ANY ACTION AS A RESULT OF EXECUTIVE SESSION

VII. INVOCATION AND PLEDGE OF ALLEGIANCE – COUNCILMEMBER LEWIS

VIII. PROCLAMATIONS / AWARDS

p.36 **1.** Police Memorial Week
p.38 **2.** Recognition of Youth Advisory Council's (YAC) graduating high school seniors
3. Recognition of outgoing city council members, Mike Townsend and Dennis Lewis

IX. OPEN FORUM

X. CONSENT AGENDA

p.40 **1.** Consider approval of the minutes from the April 16, 2018 regular city council meeting, and take any action necessary

p.54 **2.** **Z2018-014** - Consider a City initiated zoning request for the approval of an **ordinance** for a text amendment to various sections of Article V, District Development Standards, of the Unified Development Code [Ordinance No. 04-38] for the purpose of amending the variance process relating to signage for properties in an overlay district, and take any action necessary **(2nd Reading).**

p.60 **3.** **Z2018-015** - Consider a City initiated zoning request for the approval of an **ordinance** for a text amendment to various sections of Article II, Authority and Administrative Procedures, of the Unified Development Code [Ordinance No. 04-38] for the purpose of clarifying the reapplication procedures for applications that have been denied by the City Council, and take any action necessary **(2nd Reading).**

p.66 **4.** Consider approval of a Facilities Agreement with Somerset Park Development, LLC and Arcadia Realty Corp. for the reimbursement of the on-site oversized gravity sanitary sewer system expenses associated with the development, and take any action necessary.

p.71 **5.** P2018-009 - Consider a request by Mitchell Lenamond, PE on behalf of Eric L. Davis Engineering, Inc. for the approval of a replat for Lot 7, Block A, Bodin Industrial Addition being a 2.029-acre parcel of land identified as Lot 1B, Block A, Bodin Industrial Addition, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, addressed as 2040 Kristy Lane, and take any action necessary.

XI. APPOINTMENTS

p.77 **1.** Appointment with members of the city's Youth Advisory Council (YAC) to hear year-end program report, and take any action necessary.

p.79 **2.** Appointment with Greta Mittman of WRS Marine LLC to request that Council authorize the City Manager to execute a franchise agreement with the City to operate The Harbor Lights passenger boat from The Harbor boat docks, and take any action necessary.

S. LAKESHORE DRIVE / SUMMIT RIDGE DRIVE RECONSTRUCTION PROJECT

CITY COUNCIL MEETING

City of Rockwall, Texas

May 7, 2018

12

CIP No.:	CIP 2015-006	**Start Engineering:**	October 6, 2015
Limits (From):	SH 66 (W Rusk St)	**Public Input Complete:**	November 2017
(To):	FM 740 (Ridge Rd)	**Schematic Approval:**	November 2017
Engr. Design Firm:	Kimley-Horn & Associates, Inc.	**100% Plans:**	June 2018 *
		Franchise Utility Relocation Begin:	Summer 2018 *
Funding:	2012 Road Bonds & Water/Sewer Bonds	**Franchise Utility Relocation End:**	Fall 2018 *
		Bid Date:	Summer 2018 *
		Construction Start:	Fall/Winter 2018 *
		Construction Complete:	Summer 2020 *
Project Description:	Existing: - Lakeshore: 36' wide concrete roadway with no sidewalks - Summit Ridge: 26' wide concrete roadway with no sidewalks Proposed: - 2-11 foot lanes - Staggered parallel parking stalls on S. Lakeshore Dr. - Small traffic circles at cross-streets. - 5' concrete sidewalks (both) - Water line & wastewater line replacements (both) - Storm sewer improvements (both) - Alley reconstruction (select areas)		

* Anticipated Dates

13

Project Timeline

- October 2015
  - Public Input Surveys (Adjacent Property Owners)
    - 93 surveys sent – to adjacent property owners
    - 34 responses to survey (36.5%)
    - 64.7% of respondents were in favor of implementing sidewalks
    - 79.4% of respondents in favor of traffic calming to slow or discourage cut through traffic
- December 12, 2015
  - Public Input Meeting (Adjacent Property Owners)
    - Discuss Survey Results, Traffic Calming Measures, and Traffic Study
    - Gathered additional input from comment cards.
- July 20, 2016
  - Public Meeting (Entire Neighborhood)
    - Present Preliminary Design Schematic based on survey results and public meeting
- October 2017
  - City Council Presentation
    - Typical Section and Schematic approved by City Council
- December 1, 2017
  - Public Meeting (Entire Neighborhood) – Hosted by Councilman Mike Townsend
    - Present Final Design Schematic based on survey results and public meeting

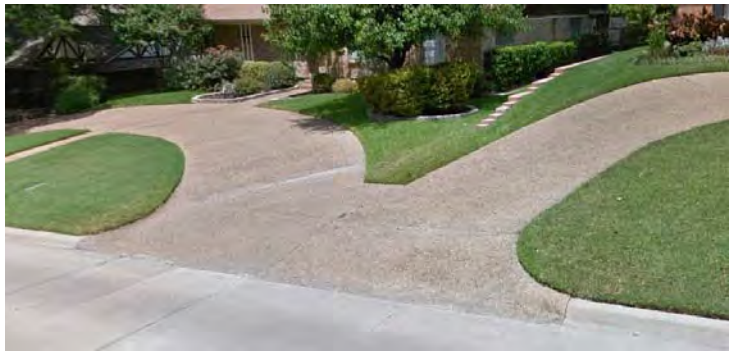
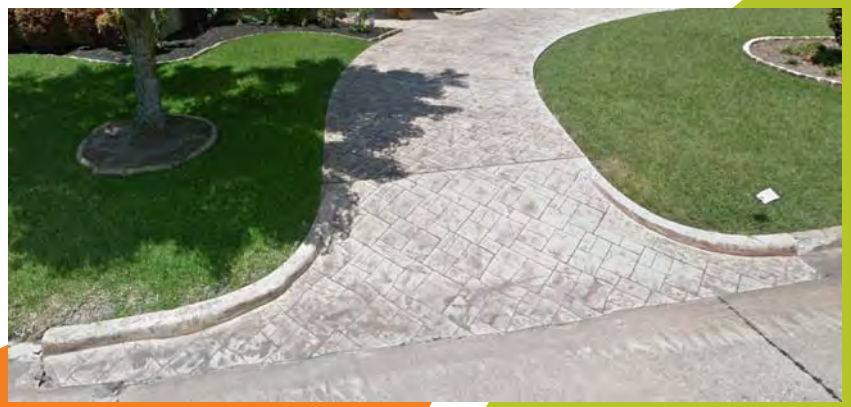
23

Project Information

- On-street parallel parking (6 Locations)

- Existing driveway and leadwalks will match existing finish type (Concrete, Exposed Aggregate, Pavers, Stamped/Stained Concrete, etc.)

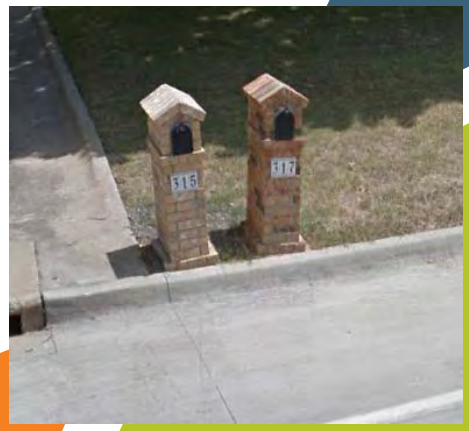




24

Project Information

- Existing irrigation systems to be relocated out of the way of proposed improvements. Any damage irrigation systems will be repaired to same or better condition.
- Mailboxes will be salvaged where possible and relocated to new location, if damaged, mailboxes will be reconstructed to match existing to type, material (to extent possible) and style.
- Right of Entries will be acquired to reconstruct driveways and leadwalks (58 properties)



25

Tree Removal

(10 Total – 8 crape Myrtles, 1 Magnolia, & 1 ornamental shrub)

Note:
Survey Responses provided in COLOR

1. During a large rainfall event, how would you rate the current Drainage Facilities (i.e. Storm Drain Inlets, Flumes, etc.)?

   Poor (23.5%) Fair (14.7%) Good (41.2%) Excellent (17.6 %)

   If not excellent, what improvements do you recommend?

   ---

2. How would you rate the driving experience as you travel along S. Lakeshore Drive and Summit Ridge Drive?

   Poor (32.4%) Fair (50.0%) Good (5.9%) Excellent (5.9%)

   Please rank the following improvements in order of preference that would provide the most improvement to your answer to Question 2. (1 – Most Important / 5 – Least Important)

   1 Implementation of Sidewalks
   2 Implementation of Traffic Calming Techniques (i.e. Speed Bumps, Narrower Lanes, Roundabouts, etc.)
   3 Implementation of On-Street Parking
   4 Implementation of Bike Lanes
   5 Driving Lane Width

3. How would you rate your experience as a pedestrian/cyclist traveling along S. Lakeshore Drive?

   Poor (41.2%) Fair (32.4%) Good (14.7%) Excellent (5.9%)

   Please rank the following improvements in order of preference that would provide the most improvement to your answer to Question 3. (1 – Most Important / 5 – Least Important)

   1 Implementation of Sidewalks
   2 Implementation of Traffic Calming Techniques (i.e. Speed Bumps, Narrower Lanes, Roundabouts, etc.)
   3 Implementation of Pedestrian Crosswalks
   4 Implementation of Bike Lanes
   5 Speed Limit

City of Rockwall
The New Horizon

Note:
Survey Responses provided in COLOR

4. How would you rate your experience <u>as a pedestrian/cyclist</u> traveling along Summit Ridge Drive?

Poor (70.6%) Fair (8.8%) Good (11.8%) Excellent (2.9%)

Please rank the following improvements in order of preference that would provide the most improvement to your answer to Question 4. (1 – Most Important / 5 – Least Important)

1 Implementation of Sidewalks
2 Implementation of Bike Lanes
3 Implementation of Traffic Calming Techniques (i.e. Speed Bumps, Narrower Lanes, Roundabouts, etc.)
4 Implementation of Pedestrian Crosswalks
5 Vehicle Speed Limit

5. As a resident, do you believe there is an issue with drivers utilizing this street to by-pass traffic along S. Goliad Street and State Highway 66?

Please select <u>one</u> of the following:

Yes (88.2%) No (5.9%)

6. How would you rate the overall aesthetics of the S. Lakeshore Drive and Summit Ridge Drive neighborhood corridor?

Poor (14.7%) Fair (38.2%) Good (29.4%) Excellent (8.8%)

Please rank the following improvements in order of preference that would provide the most improvement to your answer to Question 6? (1 – Most Important / 4 – Least Important)

1 Sidewalks
2 Street Lighting
3 On-Street Parking
4 Bike Lanes

City of Rockwall
The New Horizon

Note:
Survey Responses provided in COLOR

7. In summary, as a resident, would you be in favor of the following improvements?

Decreased Lane Widths in the spirit of slowing traffic

Please select one of the following:

Yes (44.1%) No (52.9%)

Implementing other traffic calming techniques to slow or discourage cut-through traffic

Please select one of the following:

Yes (79.4%) No (14.7%) If so, which one(s): _____

Implementing on-street bike lanes

Please select one of the following:

Yes (58.8%) No (35.3%)

Implementing sidewalks

Please select one of the following:

Yes (64.7%) No (29.4%)

Implementing storm drainage improvements to reduce localized flooding

Please select one of the following:

Yes (64.7%) No (23.5%)

Any other recommendations?

_____

8. Is there anything else you want the City to consider? Please provide comments below:

Note:
Survey Responses provided in COLOR

Question #1 Feedback:

During a large rainfall event, how would you rate the current Drainage Facilities (i.e. Storm Drain Inlets, Flumes, etc.)? What improvements do you recommend?

- Drainage from Forest Trace is inadequate
- Higher Curb
- I would need an Engineer to recommend improvements, so I am satisfied as is.
- More Storm Drain
- I'm at the top of Summit & Alamo – No problem w/ drainage
- Large amounts of rain are not too often. No storm drains along Summit Ridge
- Need to keep water off the roads
- Storm drains needed on Summit Ridge
- Larger drain openings
- Since most of the water comes from uphill from us, should be able to catch more before it reaches Lakeshore
- My home flooded this past April because there is inadequate run off during large rains. This is the second time. I had to spend significant dollars in repairs and now adding French drains, all because the city didn't plan properly and our neighbor's yards for three streets behind us drain down into ours.
- More storm drain
- More Storm Drains addressing the water rushing down the hilly part of the street, especially at the curve. It runs into my yard over the curb and washes out the landscaping.
- In some areas, street needs to be sloped so water runs to storm drain and doesn't pool.
- Eliminate low spots in pavement to prevent pooling in streets and gutters
- We desperately need additional storm drains on Lakeshore Dr and surrounding streets. In addition to our own drainage issues (our house has flooded twice since we purchased in May 2015), I am aware of many other homes with similar issues.
- Lakeshore Dr is impacted during heavy rains. A study would have to be done relative to the details and an appropriate engineered fix. In addition, there is a grade issue at Summit Ridge and Springcreek where there is always standing water.
- There seems to be a low spot about two block north. It looks like the houses have sandbags on their porch to keep the water out.
- Additional Storm Drain(s) on Springcreek between Summit Ridge & Rockbrook.

Note:
Survey Responses provided in COLOR

Question #7 Feedback:

Any other recommendations?

Traffic Calming Recommendations:

- Chicane
- Speed Bumps
- Stop Signs
- Speed Bumps
- Speed Bumps
- On-Street Bike Lanes - Possibly - If you can give it a residential look. Sidewalks - Watch the Pedestrians. That will tell who uses the street or lawns.
- Center Turn lanes or On Street Parking; or combination which alternates.
- Stop Sign on Summit Ridge & Spring Creek & speed bumps on Summit Ridge speed bumps
- Street Bumps
- Roundabouts, Speed Bumps
- More Stop Signs. Even people who speed, still seem to stop at the stop signs that are currently in place. Roundabouts with speed bumps. I would be happy with any measure possible to discourage cut through traffic.
- Slow traffic as much as possible around the curve and on the hill. Please lose control when its wet and slippery.
- Provide wider lanes in some areas where very narrow for walking and biking. Need lanes for above on Summit Ridge
- Maybe one more STOP sign along the street at some point. If pedestrian crossing is implemented, the corner of Lakeshore/Summit Ridge at the STOP sign would be a great place. If adding Add'l speed bumps, the area around Summit Ridge and Spring Creek would be a good place. Cars tend to be flying down that hill. Thanks!
- Narrow Lanes
- Speed Bumps
- Roundabouts, Speed Bumps
- Both, This had success in the early 90s when I was on the traffic task force for this issue.
- Roundabouts, hated speed humps but, gated access
- Speed Bumps

Other Comments:

- Resurfacing the road is most urgent problem.
- Improvement of the overall quality of the road surface. In addition, enforcement of the speed limit by the local police department.

Note:
Survey Responses provided in COLOR

Question #8 Feedback:

Is there anything else you want the City to consider? Please provide comments below:

- Permanent speed radars showing your speed
- Crumbling Curbs - Mine at Mailbox (312) is in pieces and I fear a Delivery Person, Company, or Me may fall.
- Improve the East bound 66-205 intersection with an additional turn lane.
- If you maintain the existing speed limit - people unlawfully pass you. None resident traffic early AM and PM using street to avoid traffic pass thru.
- Creating another alternate route from I-30 to Hwy 66 would be very good. Resurfacing most important! Sidewalk and street parking would be a vast improvement! At night, hard to see because of inadequate street lights.
- Alternate route could be John King Blvd. Electronic Signs alert of accident ahead.
- Enforcement of existing speed limit
- Biggest Issue!! I-30 back-up west or east bound. Most people use to connect w/ 60 or I-30
- More Lighting would give appearance Summit Ridge is a thoroughfare and the same for Lake Shore. This route is not a boulevard. Unless you build it which would increase the residential traffic.
- That this is good start to improve these two residential streets. Less thru traffic would be very beneficial to less street/roadway damages conditions.
- How about routine maintenance? The road is in terrible shape. Lots of potholes
- A traffic reroute system when there is an accident on I-30. Or make LSD 4 lanes, Summit Ridge 3 (center lane), Forest Trace/Boydstun 3 and Lake Meadows 3 to ease congestion. Retime the Boydstun/Ridge traffic light during I30 accidents.
- Lawn workers blow leaves & lawn debris into street instead of bagging up which causes further problems with drainage. Ordinance to mandate lawn materials must be bagged up!
- Speed could be controlled by enforcement. In 20+ years at this address, I have observed police enforcement on this street once.
- Please resurface the entire roadway-repair holes, cracks, and crumbled pavement. Make sure the work is permanent and not just a temporary fix soon to wear out.
- Also when I30 traffic backs up, Summit Ridge becomes bumper to bumper traffic and people turn around in my circle drive and often drive into my yard, knocking over potted plants and breaking sprinkler heads.
- Sidewalks would be nice but probably too expensive and up driveways.
- Just please be mindful of all the beautiful trees so that they will not be destroyed with any "improvements". Add'l lighting near ally entrances might be a good idea.
- Would like to see drainage plans and hear what others think about drainage if the City is considering any improvements. I would like to know what the overall plan is for access to 66. South of 66 in the proposed area is all residential, no schools or retail like the North side of 66.

Note:
Survey Responses provided in COLOR

Question #8 Feedback Continued:

- I would be willing to share what was learned in 1993-1994 when we implemented traffic calming on Summit Ridge/Lakeshore. I was on the task force committee.
- Traffic is only going to get worse. Lakeshore has become a bypass.
- Fill Potholes
- More Police patrolling against DUI's, Speeders ignoring existing speed limit signs, tailgaters, folks passing on Summit Ridge Dr. when you are observing speed limits - even 18-wheeled trucks!
- I have lived on Summit Ridge since 1970. It is time to repave Summit Ridge. Way overdue.

Rockwall, Texas

Proclamation

Whereas, in 1962, President Kennedy proclaimed May 15 as National Peace Officers Memorial Day and Congress established National Police Week to pay special recognition to officers who have lost their lives in the line of duty for the safety and protection of others; and

Whereas, approximately 900,000 law enforcement officers serve in communities across the U.S., including the more than 80 sworn, dedicated members of the Rockwall Police Department; and

Whereas, most recent statistics show that there were 58,627 assaults against law enforcement officers in 2016, resulting in approximately 16,677 injuries; and

Whereas, 21,541 names of officers killed in the line of duty are currently inscribed on the National Law Enforcement Officers Memorial in Washington, DC, with the first known recorded death dating back to 1791; and

Whereas, 360 new names of fallen heroes are being added to the National Law Enforcement Officers Memorial this spring, including 129 officers killed in 2017 and 231 officers killed in previous years.

Now, Therefore, I, Jim Pruitt, Mayor of the City of Rockwall, Texas, do hereby proclaim May 14 - 18, 2018 as

POLICE MEMORIAL WEEK

in the City of Rockwall, and urge all citizens to publicly salute and applaud the service of law enforcement officers, both in our own community and around the nation.

In Witness Whereof, I hereunto set my hand and official seal this 7th day of May, 2018.

Jim Pruitt, Mayor

MEMORANDUM

TO: **Honorable Mayor and City Council Members**

FROM: **Kristy Cole, City Secretary / Assistant to the City Manager**

DATE: **May 7, 2018**

SUBJECT: **Recognizing graduating YAC seniors**

We have five (5) YAC members who will soon be celebrating their high school graduation.

Aidan Culp has served on the Rockwall YAC since his junior year. After high school he plans on attending two years at Collin County College taking ROTC. He then will be transferring to Texas A&M to continue ROTC. After receiving his degree, he will graduate as a second lieutenant in the Army.

Molly Kate Evans has served on the Rockwall YAC since her junior year. After graduating from Rockwall High School, she will be attending the University of Arkansas to study marketing at the Walton School of Business.

Jonathan Naylor has served on the Rockwall YAC since his junior year. After graduating from Rockwall High School, he will be attending the Oral Roberts University in Tulsa, OK to major in accounting with a minor in psychology, all with the end-goal of going into Corporate Law.

Thomas Milder as served on the Rockwall YAC since his junior year. After graduating from Rockwall High School, he will be attending the Savannah College of Art & Design in Savannah, GA to major in Film Production.

Bethany Villalobos has served on the Rockwall YAC since her freshman year. After graduating from Rockwall High School, she will be attending Tarleton State University in Stephenville, TX to major in Nursing.

We will be recognizing each of these seniors at Monday evening's city council meeting.

39

MINUTES
ROCKWALL CITY COUNCIL
Monday, April 16, 2018
4:00 p.m. Regular City Council Meeting
City Hall, 385 S. Goliad, Rockwall, Texas 75087

I. CALL PUBLIC MEETING TO ORDER

Mayor Pruitt called the meeting to order at 4:00 p.m. Present were Mayor Jim Pruitt, Mayor Pro Tem John Hohenshelt, and Council Members Dana Macalik, Mike Townsend, Kevin Fowler, Bennie Daniels and Dennis Lewis. Also present were City Manager Rick Crowley, Assistant City Manager Mary Smith and City Attorney Frank Garza.

II. EXECUTIVE SESSION.

THE CITY OF ROCKWALL CITY COUNCIL WILL RECESS INTO EXECUTIVE SESSION TO DISCUSS THE FOLLOWING MATTERS AS AUTHORIZED BY CHAPTER 551 OF THE TEXAS GOVERNMENT CODE:

1. Discussion regarding City Manager performance evaluation pursuant to Section 551.074 (Personnel Matters).
2. Discussion regarding Breezy Hill Road pursuant to § Section 551.071 (Consultation with Attorney)
3. Discussion regarding purchase or lease of real property in the vicinity of County Line Rd. pursuant to Section §551.072 (Real Property) and Section §551.071 (Consultation with Attorney).
4. Discussion regarding (re)appointments to city regulatory boards, commissions, and committees - specifically the Board of Adjustments - pursuant to Section 551.074 (personnel matters) and possible removal of board member(s) – pursuant to Section 551.071 (Consultation with Attorney).
5. Discussion regarding the appeal to the Public Utility Commission filed by the cities of Garland, Mesquite, Plano and Richardson against the North Texas Municipal Water District (NTMWD) regarding water rates pursuant to §Section 551.071 (Consultation with Attorney).

III. ADJOURN EXECUTIVE SESSION

Council adjourned Executive Session at 5:52 p.m.

IV. RECONVENE PUBLIC MEETING

Mayor Pruitt reconvened the public meeting at 6:00 p.m.

V. TAKE ANY ACTION AS A RESULT OF EXECUTIVE SESSION

Mayor Pro Tem Hohenshelt moved to approve all right-of-way acquisition and temporary construction easements for County Line Road per the cost identified in Attachment "A" that Council reviewed in Executive Session. Councilmember Lewis seconded the motion, which passed by a vote of 7 ayes to 0 nays.

Mayor Pro Tem Hohenshelt moved to approve a 2.8% pay raise and total compensation for the City Manager, effective immediately. Councilmember Lewis seconded the motion, which passed unanimously (7 ayes to 0 nays).

VI. INVOCATION AND PLEDGE OF ALLEGIANCE – COUNCILMEMBER MACALIK

Councilmember Macalik delivered the invocation and led the Pledge of Allegiance.

VII. PROCLAMATIONS / AWARDS

1. Motorcycle Safety and Awareness Month

Mayor Pruitt called forth guests who were in attendance for this proclamation. He urged drivers to be cognizant of motorcyclists driving on roadways and practice driving habits that will ensure the safety of motorcyclists. He then read and presented the proclamation for "Motorcycle Safety and Awareness Month." A representative of the guests who were present to receive the proclamation thanked the community for welcoming their promotion of "safety and awareness." She went on to share a few safety tips concerning lane changes, left turns and loud pipes (which, she pointed out are used by motorcyclist as a safety precaution).

2. Public Safety Telecommunications Week

Mayor Pruitt called forth Police Chief Kirk Riggs. Chief Riggs then introduced (dispatch) Supervisor Christina Williams, Supervisor Travis Lites, and dispatcher Chris Minkler. Mayor Pruitt then read and presented staff with a proclamation recognizing "Public Safety Telecommunications Week" and thanking them for all that they do to help keep our residents and community safe. Chief Riggs shared that our city dispatchers not only dispatch for Rockwall Police and Fire, but they also dispatch for Fate DPS and Heath DPS. Following a short video that was shared, Mayor Pruitt and Chief Riggs thanked the dispatch staff for all that they do.

3. National Day of Prayer

Mayor Pruitt shared that each year, all of the mayors within Rockwall County host a mayors' prayer breakfast. This year it will be held the morning of May 3rd at The Center. In addition, a prayer meeting will be held that same day at The Center at 11:30 a.m. He then read the proclamation, highlighting this year's theme, which is "Unity."

VIII. OPEN FORUM

Mayor Pruitt explained how Open Forum is conducted and asked if anyone would like to come forth and speak at this time.

Melba Jeffus
1903 South FM 549
Rockwall, TX 75032

Mrs. Jeffus came forth and indicated that she spent the weekend reading the informational packet for today's council meeting. She shared that she read all of the information within the packet pertaining to the Rockwall Central Appraisal District's (RCAD's) request to expand its building. She strongly urged the Rockwall City Council to not approve the RCAD's request, especially after the appraisal district recently sent out very high tax appraisal assessments.

There being no one else wishing to come forth and speak at this time, Mayor Pruitt then closed Open Forum. He then briefly recognized and thanked two Boy Scouts who were in attendance at the meeting.

IX. CONSENT AGENDA

1. Consider approval of the minutes from the March 19, 2018 and the April 2, 2019 regular City Council meetings, and take any action necessary

2. Consider authorizing the City Manager to execute a ground lease agreement between City of Rockwall and the Cain Revocable Family Trust for a parking lot located near the intersection of N. Fannin and E. Rusk Street, and take any action necessary.

3. Consider a resolution denying approval of a Distribution Cost Recover Factor to increase distribution rates filed by Oncor Electric Delivery, approving cooperation with the Steering Committee of Cities served by Oncor to evaluate the filing, to negotiate with Oncor on the City's behalf, and take any action necessary.

4. Consider awarding a bid to Buyers Barricades Inc. and authorizing the City Manager to execute a Purchase Order for two new Mobile Message Boards in the amount of $31,317.40 to be funded out of the General Fund Streets Operations Budget, and take any action necessary.

5. **P2018-007** - Consider a request by Johnathan Fitzgerald of Binkley & Barfield, Inc. for the approval of a final plat for Park Place West, Phase III containing 82 single-family residential lots on a 25.291-acre tract of land being identified as Tracts 55-1 & 55-2 of the R. Ballard Survey, Abstract No. 29, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 59 (PD-59) for Single Family 7 (SF-7) District land uses, generally located at the terminus of Park Place Boulevard, and take any action necessary.

6. Consider approval of a Facilities Agreement with Billy Self on behalf of Pro-Soap of Rockwall to grant a variance regarding the storm water detention improvements and allowing the property owner a three (3) year period to build the required detention pond, and take any action necessary.

Mayor Pro Tem Hohenshelt pulled item #6 for further discussion, and Mayor Pruitt pulled item #4 for further discussion. Councilmember Lewis then moved to approve the remaining Consent Agenda items (#1, 2, 3, and 5). Mayor Pro Tem Hohenshelt seconded the motion, which passed by a vote of 7 ayes to 0 nays.

Regarding item #4, Mayor Pruitt shared that he has received some citizen feedback, in general, from people wondering why we are purchasing these mobile message boards. City Engineer Amy Williams clarified the various circumstances and events for which these mobile message boards are utilized. She shared that these newly purchased signs will replace ten year old signs that have technology that is now obsolete and/or have parts that are old and are not able to be replaced (i.e. light bulbs that are no longer available on the market). Police Chief Kirk Riggs shared that these signs are also utilized by the city's police department as part of its "holiday crime initiative." It was pointed out that these signs were included and approved in the fiscal year budget, and at that time, the existing signs were nine years old; however, now they are ten years old. Following lengthy comments, Mayor Pruitt then moved to approve

Consent Agenda item #4. Councilmember Macalik seconded the motion, which passed by a vote of 7 ayes to 0 nays.

Regarding Consent Agenda item #6, Mayor Pro Tem Hohenshelt moved to approve the Facilities Agreement with certain revisions being reflected within Section 2. Councilmember Townsend seconded the motion, which passed by a vote of 7 ayes to 0 nays.

X. APPOINTMENTS

1. Appointment with the Planning and Zoning Chairman to discuss and answer any questions regarding cases on the agenda and related issues and take any action necessary.

Johnny Lyons, Chair of the Planning & Zoning Commission, came forth and briefed the Council on recommendations of the Council pertaining to planning-related items on tonight's city council meeting agenda. The Council took no action as a result of Mr. Lyons' briefing.

XI. PUBLIC HEARING ITEMS

1. **Z2018-013** - Hold a public hearing to discuss and consider a request by John Arnold of the Skorburg Company on behalf of BH Balance 405, LTD for the approval of an **ordinance** amending Planned Development District 74 (PD-74) [Ordinance No. 17-60] to amend the concept plan and for the purpose of incorporating changes to the lot composition and land uses stipulated by the development standards and concept plan contained in Exhibits 'B' & 'C' of Ordinance No. 17-60 for a 405.184-acre tract of land identified as the Breezy Hill Subdivision and situated within the J. Strickland Survey, Abstract No. 187, the T. R. Bailey Survey, Abstract No. 30, and the J. Simmons Survey, Abstract No. 190, Rockwall, Rockwall County, Texas, generally located north of FM-552 and west of Breezy Hill Road, and take any action necessary **(1st Reading).**

Mayor Pruitt made a motion to table this item until the city receives its own survey back concerning Breezy Hill Road. Councilmember Lewis seconded the motion. Staff then clarified that this item is a public hearing case. Pruitt and Lewis then withdrew their motions. Planning Director Ryan Miller then briefed the Council on this agenda item. Currently, Planned Development District 74 (PD-74) [*Ordinance No. 17-60*] allows the applicant to construct 40, 60' x 120' [i.e. Type '*E*'] lots. The applicant is requesting to increase this to 84, 60' x 120' lots for the purpose of adding 44 lots and decreasing the commercial tract from 19.4- acres to 8.99-acres. These changes will increase the overall lot count from 750 lots to 794 lots, increasing the overall density of the development from ~1.85-units/acre to ~1.95-units/acre. Additionally, Type '*E*' lots allow for a maximum of 50% flat-front entry garages. The proposed changes will increase the maximum number of allowable flat-front entry garages for Type '*E*' lots from 20 lots to 42 [*i.e. 22 additional allowable flat-front entry*] lots. Five hundred thirty-nine (539) notice were mailed out to adjacent property owners and residents located within 500' of the subject property. In addition, the Breezy Hill HOA was also notified. Staff has received five notices and 7 emails in opposition of the request and one notice and 4 emails in favor of the request.

Adam Buczek
8214 Westchester Drive. Suite 710
Dallas, TX 75225

Mr. Buczek came forth and provided a presentation to Council concerning Skorburg Company's current request. He generally explained that retail and commercial 'box stores' are closing more and more locations, and many notable retailers are filing bankruptcy; therefore,

there is not a large market for these types of businesses. More and more retailers are moving to online sales instead.

Councilmember Lewis pointed out that five months ago (in November 2017), Mr. Buczek indicated that 20 acres was the lowest that the retail area could go. He expressed strong concern for what previously occurred, sharing that if Mr. Buczek had not previously answered the way that he answered questions back then, Councilmember Lewis would not have voted in favor of that previous request. Mr. Buczek attempted to clarify the discussions that occurred when he previously came before the Council, sharing that the demand for the sale of retail space simply does not exist.

Councilmember Macalik shared that she echoes Councilmember Lewis' concerns. She agrees that businesses like Toys 'R Us would not be viable in a location like this; however, she strongly believes that there is demand for retail space for smaller, independent retailers. Mr. Buczek shared that the company has had this property on the market for six or seven years at this point, and it has been reasonably priced; however, there have been no buyers.

Councilmember Fowler shared concerns that neighbors are "at odds" with one another because some of the residents who live there are in favor of lowering the retail space, and some of the residents are in opposition of it. Mr. Buczek again reiterated that the demand for retail space is simply not there. Councilmember Fowler expressed strong concern about Skorburg Company repeatedly coming forth to change what this development will look like. He believes that residents who have purchased homes in the neighborhood cannot trust what they are buying because the developer keeps on changing it. Mr. Buczek shared that he does not believe that anyone wants to see and look at failed retail space.

Mayor Pruitt opened the public hearing, asking if anyone would like to come forth and speak at this time.

Erin Neill
3410 Ridgecross Drive
Rockwall, TX 75087

Ms. Neill came forth and shared that she and her husband recently purchased a home that actually backs up to this proposed retail area. She went on to provide some clarification and observations pertaining to opposition that has been expressed by some who responded to the public notices. She generally expressed support for approval of this request.

Ronda Gunther
985 Lazy Brook Drive
Rockwall, TX 75087

Mrs. Gunther shared that she and her husband are relatively new to Rockwall. They are in favor of limiting some of the retail area because they feel that, at this point, they have plenty of services available to service their area. However, they would like to see some nice restaurants perhaps come in.

Jessie Wilkins
1218 Marilyn Jane Lane

Mr. Wilkins generally expressed the belief that perhaps the developer is going on "hypotheticals" pertaining to the possibility of small retailers having an interest in this retail

space, should it be built. He believes that more research and information is needed before making a decision.

Kristin Bota
840 Lazy Brooke Drive
Rockwall, TX

Mrs. Bota came forth and shared that she and her husband are generally in favor of Skorburg's request this evening.

There being no one else wishing to come forth and speak at this time, Mayor Pruitt then closed the Public Hearing.

Patrick Trowbridge
601 Parks Avenue
Rockwall, TX

Mr. Trowbridge shared that he is on the city's Planning & Zoning Commission, and he voted against recommending approval of this request. Mr. Trowbridge clarified that a lot of small businesses – nail salons, donut shops, etc. – do very well in retail areas that are located by neighborhoods. They provide services and goods that are not impacted by "Amazon" type sales. As such, he explained that he voted against this request because he believes the retail area could be occupied by smaller businesses.

Mayor Pruitt shared that this piece of property has come before the Council more times than any other property during his tenure on Council. He expressed general concern about this potentially resulting in strip shopping centers that are not desirable and/or do not result in the types of businesses that would be viable for this area (i.e. a veterinarian clinic). He generally expressed that he does not have a problem with allowing Skorburg to reduce the amount of retail space.

Mr. Buczek shared that, for the record, he will not be coming forth again in the future to request a reduction in the retail area (again).

Councilmember Townsend generally expressed concern about Skorburg perhaps not using a different, perhaps better, strategy to market to and secure retailers for this area (i.e. perhaps four smaller retailers instead of one, larger retail buyer).

Councilmember Daniels expressed that he does not agree with the gentlemen in the video clip that Mr. Buczek shared in that he believes that "nothing is a 'forever thing.'" He believes that, in general, citizens in Rockwall do not want increased density. He shared that he has no confidence at all when Mr. Buczek says that he will never ever come back again and request additional, residential lots.

Mayor Pro Tem Hohenshelt echoed the sentiments of Councilmember Fowler, Daniels and Lewis. Councilmember Townsend generally expressed that he wishes that four or five smaller retailers could be located to occupy the space. So, he is overall not crazy about approving this request tonight. Councilmember Fowler shared that he is not necessarily opposed to reducing the retail space. More than anything, he is more aggrivated that the Council is repeatedly being asked to deal with this.

Mayor Pruitt moved to approve Z2018-013. Councilmember Fowler seconded the motion. The ordinance was read as follows:

CITY OF ROCKWALL
ORDINANCE NO. ___

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING PLANNED DEVELOPMENT DISTRICT 74 (PD-74) [*ORDINANCE NO. 16-59*] AND THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, BY AMENDING THE PLANNED DEVELOPMENT CONCEPT PLAN AND THE DEVELOPMENT STANDARDS APPROVED WITH ORDINANCE NO. 16-59, BEING A 405.184-ACRE TRACT OF LAND SITUATED IN THE J. STRICKLAND SURVEY, ABSTRACT NO. 187, T. R. BAILEY SURVEY, ABSTRACT NO. 30 AND THE J. SIMMONS SURVEY, ABSTRACT NO. 190, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS AND MORE FULLY DESCRIBED HEREIN BY EXHIBIT 'A'; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

The motion failed by a vote of 2 ayes with 5 nays (Macalik, Townsend, Hohenshelt, Daniels and Lewis).

2. **Z2018-016** - Hold a public hearing to discuss and consider a request by Clark Staggs on behalf of Vinod Miranda for the approval of an **ordinance** for a zoning change from a Commercial (C) District to a Planned Development District for an age-restricted multi-family apartment complex and limited Commercial (C) District land uses on a on 9.70-acre tract of land identified as Tract 15 of the E. P. G. Chisum Survey, Abstract No. 64, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the Scenic Overlay (SOV) District, located at the southwestern corner of the intersection of Ridge Road [FM-740] and Turtle Cove Boulevard, and take any action necessary **(1st Reading).**

Planning Director Ryan Miller provided background information pertaining to this agenda item. On April 11, 2018, the applicant, Clark Staggs requested to withdraw Case No. Z2018-016. According Section 5, Application Withdrawal, of the Article II, Authority and Administrative Procedures, of the Unified Development Code (UDC), any case that has been published in the paper and notifications of a public hearing sent out must be placed on the public hearing agenda and acted upon by the applicable body. Should the City Council have any questions staff will be available at the meeting. Mayor Pruitt generally announced that the case has been withdrawn and moved on to the next agenda item.

3. **Z2018-017** - Hold a public hearing to discuss and consider a request by Pat Atkins of Saddlestar Land Development on behalf of the Stagliano Family Trust for the approval of an **ordinance** for a zoning change from an Agricultural (AG) District, Commercial (C) District and Heavy Commercial (HC) District to a Planned Development District for commercial/retail, single-family and townhome land uses on a 63.72-acre tract of land identified as Tract 3 of the W. H. Barnes Survey, Abstract No. 26, City of Rockwall, Rockwall County, Texas, zoned Agricultural (AG) District, Commercial (C) District and Heavy Commercial (HC) District, situated within the SH-205 Overlay (SH-205 OV) District, located at the northwest corner of S. Goliad Street [SH-205] and Mims Road, and take any action necessary **(1st Reading).**

Pat Atkins came forth and provided a very lengthy presentation to Council concerning this agenda item / request.

CITY OF ROCKWALL

ORDINANCE NO. 18-____

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, SO AS TO CHANGE THE ZONING FROM AN AGRICULTURAL (AG), COMMERCIAL (C) AND HEAVY COMMERCIAL (HC) DISTRICT TO A PLANNED DEVELOPMENT DISTRICT FOR GENERAL RETAIL (GR), TWO FAMILY (2F) AND SINGLE FAMILY 7 (SF-7) DISTRICT LAND USES ON THE *SUBJECT PROPERTY*, BEING A 63.72-ACRE TRACT OF LAND IDENTIFIED AS TRACT 3 OF THE W. H. BARNES SURVEY, ABSTRACT NO. 26, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS AND MORE FULLY DESCRIBED HEREIN BY *EXHIBIT 'A'*; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

Mayor Pruitt opened the public hearing, asking if anyone would like to address this item.

David Schoen
2844 Deer Ridge Drive
Rockwall, TX

Mr. Schoen came forth and expressed concerns about the traffic and the related traffic study. He also has concerns about where children living in this proposed development would attend school.

Mrs. Melba Jeffus
1903 South FM 549
Rockwall, TX 75032

Mrs. Jeffus came forth and generally expressed that she and her husband love Rockwall, and they live on nearly five acres in their dream home. She has attended many Planning & Zoning Commission and City Council meetings, and she has heard a lot of passionate dedication to "no multifamily" housing developments. She pointed out that even though these are townhomes, they are still "multifamily," so she is passionately opposed to the Council approving this request.

Mayor Pruitt asked if anyone else would like to come forth and speak at this time. There being no one indicating such, he then closed the public hearing.

Mayor Pruitt moved to deny this request with prejudice. Councilmember Macalik seconded the motion, which passed by a vote of 7 ayes to 0 nays.

4. **Z2018-014** - Hold a public hearing to discuss and consider a City initiated zoning request for the approval of an **ordinance** for a text amendment to various sections of Article V, District Development Standards, of the Unified

Development Code [Ordinance No. 04-38] for the purpose of amending the variance process relating to signage for properties in an overlay district, and take any action necessary **(1st Reading).**

Planning Director Ryan Miller provided background information pertaining to this agenda item. The Planning & Zoning Commission voted 5-0 to recommend approval of this request to the City Council. Proper notices, in accordance with state law, were given. Mayor Pruitt opened the public hearing, asking if anyone would like to come forth and speak at this time. There being no one indicating such, he then closed the public hearing.

Mayor Pro Tem Hohenshelt moved to approve Z2018-014. Councilmember Lewis seconded the motion. The ordinance was read as follows:

CITY OF ROCKWALL
ORDINANCE NO. 18-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, BY AMENDING SECTION 6, *OVERLAY DISTRICTS*, OF ARTICLE V, *DISTRICT DEVELOPMENT STANDARDS*; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

The motion passed by a vote of 7 ayes to 0 nays.

5. **Z2018-015** - Hold a public hearing to discuss and consider a City initiated zoning request for the approval of an **ordinance** for a text amendment to various sections of Article II, Authority and Administrative Procedures, of the Unified Development Code [Ordinance No. 04-38] for the purpose of clarifying the reapplication procedures for applications that have been denied by the City Council, and take any action necessary **(1st Reading).**

Mr. Miller provided brief background information pertaining to this agenda item. Mayor Pruitt opened the public hearing, asking if anyone would like to come forth and speak at this time. There being no one indicating such, he then closed the public hearing.

Mayor Pro Tem Hohenshelt moved to approve Z2018-015. Councilmember Townsend seconded the motion. The ordinance was read as follows:

CITY OF ROCKWALL
ORDINANCE NO. 18-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, BY AMENDING ARTICLE II, *AUTHORITY AND ADMINISTRATIVE PROCEDURES*; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

The motion passed by a vote of 7 ayes to 0 nays.

6. **MIS2018-006** - Hold a public hearing to discuss and consider a City initiated request to amend the Comprehensive Plan by approving an **ordinance** changing to the Master Thoroughfare Plan Map contained within the Transportation section of the plan for the purpose of [1] reclassifying Horizon Road [FM-3097] from a M4U (minor arterial, four [4] lane, undivided roadway) to a TXDOT4D (TXDOT, four [4] lane, roadway) and [2] realigning Breezy Hill Road to reflect existing public right-of-way, and take any action necessary **(1st Reading).**

Councilmember Fowler moved to table this item until the city receives the traffic study back. Mayor Pruitt seconded the motion, which passed by a vote of 7 ayes to 0 nays.

Mayor Pruitt called for a brief break and recessed the public meeting at 8:00 p.m. He then reconvened the meeting at 8:10 p.m.

XII. ACTION ITEMS

1. Discuss and consider approval of a resolution pertaining to the Rockwall Central Appraisal District's request to build an additional building adjacent to the existing building (located at 841 Justin Road), and take any action necessary.

Mayor Pro Tem Hohenshelt shared that the RCAD Board of Directors voted on Saturday to "pull" the resolution pertaining to the building expansion. He pointed out that the issue will likely be brought up again in about four months. Council took no action concerning this agenda item.

2. **P2018-001** - Discuss and consider a request by Chase Finch of Corwin Engineering, Inc. on behalf of John Arnold of BH Phase 8, LLC for the approval of a preliminary plat for Breezy Hill, Phase VIII containing 72 single-family residential lots on 30.785-acres of land identified as Tract 7 of the J. Strickland Survey, Abstract No. 187, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 74 (PD-74) for Single Family 10 (SF-10) District land uses, located along the eastern side of Breezy Hill Lane, and take any action necessary.

Mayor Pruitt moved to table this item until the survey comes back in. Councilmember Fowler seconded the motion, which passed by a vote of 7 ayes to 0 nays.

3. **SP2018-003** - Discuss and consider a request by Todd Winters, P.E. of Engineering Concepts and Design, L.P. for the approval of a variance in conjunction with an approved plan for a retail center on a 2.113-acre tract of land identified as Lot 6, Block A, Maverick Ranch Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, located at the northwest corner of the intersection of Ranch Trail Road and Horizon Road [FM-3097], and take any action necessary.

Mr. Miller provided background information pertaining to this agenda item. There is an existing shopping center on half the property. The Planning & Zoning Commission recently approved an approximately 11k square foot shopping center adjacent to this one. As part of that request, there was a variance to the 10' landscape buffer to allow for twelve parking spaces to encroach into the landscape buffer, which will match the existing shopping center.

Bill Thomas

Engineering Concepts and Design
201 Windco Circle
Wylie, TX

Mr. Thomas shared that he is speaking on behalf of Todd Winters. He explained that this site plan was previously approved back in February with the condition of an additional 10' right-of-way because of the plan change to Horizon (change from being an undivided to a divided TXDOT roadway). In order to accomplish this, the right-of-way acquisition will encroach on the 10' landscape buffer, and that would in turn cause problems with the required parking. So, he respectfully requested approval of this request.

Councilmember Lewis moved to approve SP2018-003. Councilmember Townsend seconded the motion, which passed by a vote of 7 ayes to 0 nays.

4. **SP2018-007** - Discuss and consider a request by Worth Williams of Moore Worth Investment, LLC for the approval of variances in conjunction with an approved site plan for a restaurant with drive-through facilities on a 0.81-acre parcel of land identified as Lot 3, Block A, Lakeshore Commons Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 65 (PD-65) for General Retail (GR) District land uses, situated within the North SH-205 Overlay (N. SH-205 OV) District, addressed as 1945 N. Goliad Street, and take any action necessary.

Mr. Miller, Planning Director, provided brief background information pertaining to this agenda item. This property is located right across from the existing Kroger grocery store. The applicant is seeking variances associated with the roof pitch and with the city's stone requirements. Essentially they would like to utilize a flat roof and cultured (instead of natural) stone. They will meet the city's 20% stone requirement on all four sides of the building, however, if approved, it will be cultured stone.

Worth Williams of Moore Worth Investment, LLC
7700 Eastern Avenue
Dallas, TX

Mr. Williams came forth and shared that he is happy to answer any questions the Council may have concerning this matter. There being no questions, Councilmember Townsend moved to approve all variances associated with SP2018-007. Mayor Pro Tem Hohenshelt seconded the motion, which passed by a vote of 7 ayes to 0 nays.

5. Discuss and consider potential locations for gateway monument signage along SH-66, and take any action necessary.

Staff generally asked if Council is in favor of evaluating some alternative locations (off of the 7-11 convenience store site) for the monument sign to be placed. Mr. Crowley pointed out that the alternate locations would be in public right-of-way. Council members generally expressed that they are in favor of staff moving forward with exploring "Option 2" as depicted in their meeting packet. However, no formal action was taken by Council concerning this agenda item at this time.

6. Discuss and consider a report from the Airport Subcommittee related to the Texas Aviation Conference and discuss potential future airport planning efforts, and take any necessary action.

Director of Internal Operations, Joey Boyd, shared that the Airport Subcommittee and he attended the statewide aviation conference in March. They learned that the President recently

set aside about $1 billion in discretionary grant funding to target small and rural airports. However, it is not yet clear how / where that money might be spent. So, members of the subcommittee would like to evaluate future planning efforts as well as, potentially, a regional approach. Mayor Pruitt agreed that the Council should at least have the conversations about a regional airport, perhaps around Caddo Mills. He expressed a desire to further discuss this topic with the Airport Subcommittee members. Council took no action pertaining to this agenda item.

7. Discuss and consider board member appointments on the city's Park Board, and take any action necessary.

Councilmember Townsend expressed that our city charter has a provision that pertains to a board member being replaced if he or she miss three or more meetings. Therefore, he would like to make a motion to replace Jeremy Standifer and Wayne Larson with new board members Kevin Johnson and Brandon Morris to finish out Mr. Standifer and Mr. Larson's term (thru August of 2018) as a result of absences. Mayor Pro Tem Hohenshelt seconded the motion, which passed by a vote of 7 ayes to 0 nays.

Councilmember Townsend then moved to allow the two, newly appointed board members – Kevin Johnson and Brandon Morris – to thereafter serve an additional, two-year term on the Park Board after they finish out the existing term (so, a full term that will expire in August of 2020). Mayor Pro Tem Hohenshelt seconded the motion, which passed by a vote of 7 ayes to 0 nays.

XIII. EXECUTIVE SESSION

THE CITY OF ROCKWALL CITY COUNCIL WILL RECESS INTO EXECUTIVE SESSION TO DISCUSS THE FOLLOWING MATTERS AS AUTHORIZED BY CHAPTER 551 OF THE TEXAS GOVERNMENT CODE:

1. Discussion regarding City Manager performance evaluation pursuant to Section 551.074 (Personnel Matters).

2. Discussion regarding Breezy Hill Road pursuant to § Section 551.071 (Consultation with Attorney)

3. Discussion regarding purchase or lease of real property in the vicinity of County Line Rd. pursuant to Section §551.072 (Real Property) and Section §551.071 (Consultation with Attorney).

4. Discussion regarding (re)appointments to city regulatory boards, commissions, and committees - specifically the Board of Adjustments - pursuant to Section 551.074 (personnel matters) and possible removal of board member(s) – pursuant to Section 551.071 (Consultation with Attorney).

5. Discussion regarding the appeal to the Public Utility Commission filed by the cities of Garland, Mesquite, Plano and Richardson against the North Texas Municipal Water District (NTMWD) regarding water rates pursuant to §Section 551.071 (Consultation with Attorney).

XIV. RECONVENE PUBLIC MEETING & TAKE ANY ACTION AS RESULT OF EXECUTIVE SESSION

Council did not reconvene in Executive Session following the close of the public meeting.

XV. ADJOURNMENT

Mayor Pruitt adjourned the meeting at 8:25 p.m.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS 7th DAY OF MAY, 2018.

CITY OF ROCKWALL

ORDINANCE NO. 18-23

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, BY AMENDING SECTION 6, *OVERLAY DISTRICTS*, OF ARTICLE V, *DISTRICT DEVELOPMENT STANDARDS*; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, an amendment to the City of Rockwall's Unified Development Code [*Ordinance No. 04-38*] has been initiated by the City Council of the City of Rockwall to amend Section 6, *Overlay Districts,* of Article V, *District Development Standards*, of the Unified Development Code [*Ordinance No. 04-38*]; and,

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the city's corporate boundaries, and the governing body in the exercise of its legislative discretion, has concluded that the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:**

SECTION 1. That Section 6, *Overlay Districts,* of Article V, *District Development Standards,* of the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall, as heretofore amended, be and the same is hereby amended as specifically described in *Exhibit 'A'* of this ordinance.

SECTION 2. That any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *Two Thousand Dollars ($2,000.00*) for each offense and each and every day such offense shall continue shall be deemed to constitute a separate offense;

SECTION 3. That if any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code [*Ordinance No. 04-38*], and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable;

SECTION 4. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides;

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 7TH DAY OF MAY, 2018.

Jim Pruitt, *Mayor*

CITY OF ROCKWALL

ORDINANCE NO. 18-24

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, BY AMENDING ARTICLE II, *AUTHORITY AND ADMINISTRATIVE PROCEDURES*; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, an amendment to the City of Rockwall's Unified Development Code [*Ordinance No. 04-38*] has been initiated by the City Council of the City of Rockwall to amend Article II, *Authority and Administrative Procedures*, of the Unified Development Code [*Ordinance No. 04-38*]; and,

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the city's corporate boundaries, and the governing body in the exercise of its legislative discretion, has concluded that the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:**

SECTION 1. That Article II, *Authority and Administrative Procedures,* of the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall, as heretofore amended, be and the same is hereby amended as specifically described in *Exhibit 'A'* of this ordinance.

SECTION 2. That any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *Two Thousand Dollars ($2,000.00*) for each offense and each and every day such offense shall continue shall be deemed to constitute a separate offense;

SECTION 3. That if any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code [*Ordinance No. 04-38*], and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable;

SECTION 4. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides;

SECTION 7. ~~PUBLIC HEARING~~ PLANNING AND ZONING COMMISSION AUTHORITY

SECTION 7.1: APPROVAL AUTHORITY

The Planning and Zoning Commission shall make decisions, or make recommendations to the City Council, on the following matters:

(A) Decisions on site plans, building elevations, lighting plans, landscape plans and tree preservation plans as may be required.
(B) Recommendations to City Council on plats as required by the subdivision ordinance, [*Chapter 38 of Part II, Code of Ordinances*].
(C) Recommendations ~~on~~ to City Council on replats, when such public hearing is required by the provisions of *V.T.C.A., Local Government Code Chapter 212*.
(D) Recommendations to City Council regarding text amendments to this ~~[~~*Unified Development Code*~~]~~.
(E) Recommendations to City Council regarding zoning changes and map amendments, including reclassification of the zoning designations on land, specific use permits, and planned developments.
(F) Recommendations to City Council regarding special exceptions to this ~~[~~*Unified Development Code*~~]~~.
(G) Recommendations to City Council regarding amendments to the Comprehensive Plan.
(H) Recommendations to City Council regarding amendments to the Master Thoroughfare Plan.
(I) Recommendations to City Council regarding amendments to ~~the~~ a Master Open Space Plan.

SECTION 7.2: RECOMMENDATION AUTHORITY

Upon closure of the public hearing, and when required to make a recommendation to the City Council, the Planning and Zoning Commission ~~commission~~ may recommend:

(A) That the request or amendment be approved or enacted; or
(B) That the request or amendment be approved or enacted as modified to a more restrictive classification or subject to appropriate conditions as permitted by law; or
(C) That the request or amendment be denied.

SECTION 8. ~~PUBLIC HEARING~~ CITY COUNCIL AUTHORITY

The City Council shall hold a meeting, conduct a public hearing~~,~~ -- *if required by this* ~~[~~*Unified Development Code*~~],~~ -- and make determinations on the following matters:

(A) Text amendments to this ~~[~~*Unified Development Code*~~]~~.
(B) Zoning changes and map amendments, including reclassification of the zoning designations on land, specific use permits, and planned developments.
(C) Special exceptions or waivers related to site plans for development.
(D) Amendments to the Comprehensive Plan.
(E) Amendments to the Master Thoroughfare Plan.
(F) Amendments to the Master Open Space Plan.
(G) Variances, special exceptions and appeals as set out in this ~~[~~*Unified Development Code*~~]~~.

(Ordinance No. 06-14, 4-17-2006)

SECTION 8.2: JOINT PUBLIC HEARINGS

The City Council may hold a public hearing, after publishing the required notice, jointly and with any public hearing required to be held by the Planning and Zoning Commission, but the City Council shall not take action until it has received a final report from the planning and zoning commission.

SECTION 8.3: CITY COUNCIL APPROVAL OR DENIAL

~~Following closure of the public hearing, t~~The council may take the following actions concerning the matters outlined in Section 8.1:

(A) *Approval of an item.* The City Council may approve the request or amendment either as requested, or in the form of a more restrictive district, and subject to such appropriate conditions as are allowed by law. Such approval of any request for a text amendment to this ~~[~~*Unified Development Code*~~]~~ or a zoning change and map amendment shall be granted only if the City Council determines that the request or amendment is consistent with the Comprehensive Plan and the purposes of this ~~[~~*Unified Development Code*~~]~~. In the event the request or amendment concerns a text amendment to this ~~[~~*Unified Development Code*~~]~~ or a zoning change and map amendment, the City Council shall enact an ordinance amending this ~~[~~*Unified Development Code*~~]~~ or amending the official zoning map, whichever is applicable.

(B) *Denial of an item.* The City Council may deny ~~the~~ a request or amendment with prejudice. If a request or amendment is denied with prejudice, a new application may be submitted for the same lot or tract of land, or any portion thereof, within one (1) year only if the new request is for a more restrictive or less intense use or development. ~~Unless the new proposal is more restrictive or less intense than the previously denied proposal, then no other application pertaining to a change of zoning and map amendment may be submitted on the same lot or tract of land, or any portion thereof, for a period of one year from the date of its denial by the Council.~~ For applications pertaining to a change of zoning and map amendment, a new proposal may not be submitted unless it is more restrictive or less intense than the previously denied proposal for any tract of land, or any portion thereof, for a period of one (1) year from the denial date. If a request or amendment is denied by the City Council without an indication of "with" or "without" prejudice, then the action shall be considered to be "denied with prejudice."

(C) *Denial without prejudice.* The City Council may deny the request or amendment without prejudice, in which case an application for the same request ~~a change in zoning and map amendment other than that which was requested on the original application~~ may be filed at the applicant's discretion.

(D) *Reapplication due to changed conditions.* A ~~proposal to rezone a tract or parcel of land~~ request or amendment, which has been previously rejected with prejudice by the City Council, may be resubmitted within one (1) year only if there is an actual change in conditions relating to ~~zoning principles of~~ the tract or parcel of land or the property surrounding it. In ~~that~~ this event, the applicant must submit to the Director of Planning and Zoning, in writing, a ~~resume~~ request describing such changed conditions. The Director of Planning and Zoning shall investigate ~~the property or cause such an investigation to be made and~~ the claim and ~~shall~~ report to the Planning and Zoning Commission whether or not such change~~d~~ of conditions exist. Upon hearing this report, the Planning and Zoning Commission shall either grant or deny the request to refile the ~~proposal for rezoning~~ request or amendment.

SECTION 8.4: PROTEST OF PROPOSED CHANGE IN ZONING

Property owners adjacent to and within a radius of 200 feet of a property for which a change in zoning is being considered have the right to file a written protest against the request. The land area of this 200 foot ~~feet~~ radius includes streets, alleys and other public right-of-way.

Whenever such written protest is signed by the owners of 20 percent or more of the area of the lots or land included in such zoning change, or of the lots or land immediately adjoining the same and within the above mentioned 200-foot radius, or if such change is recommended for denial by the Planning and Zoning Commission, such change in zoning shall require a favorable vote of three-fourths of all eligible members of the City Council.

For purposes of determining representation on this written protest, the written protest of any one (1) owner of land owned by two or more persons shall be presumed to be the protest of all owners.

(Ordinance No. 06-14, 4-17-2006)

SECTION 8.5: CRITERIA FOR GRANTING SPECIAL EXCEPTIONS

The City Council may make special exceptions to the standards in this ~~[~~*Unified Development Code*~~]~~ that are consistent with the general purpose and intent of the ~~[~~*Unified Development Code*~~]~~. The Planning and Zoning Commission shall make recommendations on special exceptions.

Special exceptions are subject to appropriate conditions and safeguards to ensure that the special exceptions are consistent with the general purpose and intent of this ~~[~~*Unified Development Code*~~]~~ and the City's Comprehensive Plan.

The City Council, pursuant to the powers conferred upon it by state law, the ordinances of the City and this article may grant special exceptions to the provisions of this ~~[~~*Unified Development Code*~~]~~ upon finding that:

(A) Such special exception will not substantially or permanently injure the appropriate use of adjacent property in the same district;
(B) Such special exception will not adversely affect the health, safety or general welfare of the public;
(C) Such special exception will not be contrary to the public interest;
(D) Such special exception will not authorize the operation of a use other than those uses specifically authorized for the district in which the property for which the exception is sought is located, except as provided elsewhere in this ~~[~~*Unified Development Code*~~]~~;
(E) Such special exception will be in harmony with the spirit and purpose of this ~~[~~*Unified Development Code*~~]~~;
(F) Such special exception will not alter the essential character of the district in which the property is located ~~the property~~ for which the exception is sought;
(G) Such special exception will not substantially weaken the general purposes of the zoning regulations established for the district in which the property is located; and

Such special exception is within the spirit and intent of the City's Comprehensive Plan and other policies.

City of Rockwall
The New Horizon

MEMORANDUM

TO: **Rick Crowley, City Manager**

FROM: **Amy Williams, Director of Public Works/City Engineer**

DATE: **May 1, 2018**

SUBJECT: **Facility Agreement for Somerset Park Subdivision**

The Somerset Park Subdivision, Phase One project is located on FM 549 east of SH 205. As a requirement of the development, the Developer installed a 15 inch diameter sanitary sewer line through the subdivision. The City's Master Water Plan requires a 15 inch diameter sanitary sewer line to be installed to meet future sewer needs. Wherever the City requires a sewer line greater than 12 inches in diameter to be installed with a development, the City will pay the difference in material cost of the two lines.

The developer estimates the difference of cost will be $4,727.54. Funding is currently available to pay for the City's share of this construction.

Staff requests City Council consideration to approve the Facilities Agreement for the Somerset Park sanitary sewer line installation and allow the City Manager to execute the agreement.

STATE OF TEXAS
COUNTY OF ROCKWALL
CITY OF ROCKWALL

FACILITY AGREEMENT

This Agreement is entered into on the 7th day of May 2018, by and between the **City of Rockwall**, **Texas** ("City") and **Somerset Park Development, LLC and Arcadia Realty Corp.** ("Developer").

WITNESSETH:

Section 1. That in consideration of the construction of lift station and force main improvements in conjunction with the Somerset Park Phase One Development located in Rockwall, Texas, the parties agree as follows:

Developer agrees to the following:

a. To install the 15" diameter gravity sanitary sewer line through the Somerset Park Development per the City Master Plan and the City approved plans stamped February 16, 2017.

Section 2. The City agrees to the following:

a. Reimburse the Developer, the difference between the material cost for a 12" and 15" diameter gravity sanitary sewer line which equates to $4,727.54. The sanitary sewer line is fully installed, tested and accepted. The Somerset Gravity Sanitary Sewer Worksheet (Exhibit A) is attached and made part of this Agreement.

Section 3. Nothing contained herein shall be considered as a waiver of the provisions of the City's Comprehensive Zoning Ordinance and subdivision regulations as the case may be.

Section 4. Severability Clause. If any sections or provisions of this Ordinance or the application of that section or provision to any person, firm, corporation, situation or circumstance is for reason judged invalid, the adjudication shall not affected any other section or provision of this ordinance or the application of any other section or provision to any other person, firm, corporation, situation, or circumstance, and the City Council declares that it would have adopted the valid portions and applications of the Ordinance without the invalid parts and to this end the provisions of this ordinance shall remain in full force and effect.

Section 5. Venue for this agreement shall be in Rockwall County, Texas.

Section 6. Notice of this Agreement shall be in writing and addressed to the following:

CITY OF ROCKWALL
CITY COUNCIL MEMO

AGENDA DATE: 05/07/2018

APPLICANT: Mitchell Lenamond, PE *on behalf of Eric L. Davis Engineering, Inc.*

AGENDA ITEM: **P2018-009;** *Lot 7, Block A, Bodin Industrial Addition*

SUMMARY:

Consider a request by Mitchell Lenamond, PE on behalf of Eric L. Davis Engineering, Inc. for the approval of a replat for Lot 7, Block A, Bodin Industrial Addition being a 2.029-acre parcel of land identified as Lot 1B, Block A, Bodin Industrial Addition, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, addressed as 2040 Kristy Lane, and take any action necessary.

PLAT INFORMATION:

- ☑ The objective of this request is to replat Lot 1B, Block A, of the Bodin Industrial Addition for the purpose of constructing an approximate 11,300 SF office/warehouse facility, and to add the necessary fire lane and utility easements for this development. The property is a 2.029-acre parcel of land and will be identified as Lot 7, Block A, Bodin Industrial Addition. The site is addressed as 2040 Kristy Lane and zoned Light Industrial (LI) District.

- ☑ A site plan (*i.e. SP2017-026*) for the office/warehouse facility was approved on October 2, 2017.

- ☑ The surveyor has completed the majority of the technical revisions requested by staff, and this plat, conforming to the requirements for replats as stated in the *Subdivision Ordinance* in the Municipal Code of Ordinances, is recommended for conditional approval pending the completion of final technical modifications and submittal requirements.

- ☑ Conditional approval of this plat by the City Council shall constitute approval subject to the conditions stipulated in the *Recommendation* section below.

- ☑ With the exception of the items listed in the *Recommendation* section of this case memo, this plat is in substantial compliance with the requirements of the Subdivision Ordinance in the Municipal Code of Ordinances.

RECOMMENDATIONS:

If the Planning and Zoning Commission and City Council choose to recommend approval of the *replat* for *Lot 7, Block A, Bodin Industrial Addition,* staff would recommend the following conditions:

1) All technical comments from the Engineering, Planning and Fire Departments shall be addressed prior to the filing of this plat;

2) Any construction resulting from the approval of this *final plat* shall conform to the requirements set forth by the Unified Development Code, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

PLANNING AND ZONING COMMISSION RECOMMENDATION:

On April 24, 2018, the Planning and Zoning Commission's motion to recommend approval of the replat with staff conditions passed by a vote of 6 to 0 with Commissioner Trowbridge absent.

CITY OF ROCKWALL, TEXAS
MEMORANDUM

TO: **Brad Griggs, Assistant City Manager**

FROM: **Andy Hesser, Parks and Recreation Director**

DATE: **May 3, 2018**

SUBJECT: **FRANCHISE AGREEMENT FOR WRS BOATS – HARBOR LIGHTS**

Greta and Michael Mittman of WRS Boats LLC has purchased The Harbor Lights passenger tour boat and has scheduled an appointment with City Council to hear a request for a franchise agreement to operate from The Harbor boat docks. They currently operate a catamaran sail boat for passenger tours on White Rock Lake, known as The Spirit of Dallas.

Park Board heard this request at the May 2nd meeting and voted unanimously to recommend that City Council consider approval of the franchise agreement between the City and the entity to be known as WRS Boats LLC. As part of the agreement Park Board also recommended that WRS Boats exclusively operate The Harbor Lights from The Harbor docks or Chandlers Marina and not incorporate scheduled tours from adjacent cities or dock facilities.

A draft of the franchise agreement has been prepared and attached for your review and is pending City Attorney review and comments. Contingent on approval, WRS Boats will be required to submit proof of adequate insurance and proper Coast Guard captain license

79

STATE OF TEXAS §
COUNTY OF ROCKWALL §
CITY OF ROCKWALL §

FRANCHISE AGREEMENT

THIS FRANCHISE AGREEMENT ("Agreement") is made and entered into by and between **WRS Marine, LLC** ("Service Provider"), and the City of Rockwall, Texas ("City").

WHEREAS, the City, subject to the terms and conditions set forth herein, desires to grant to the Service Provider the non-exclusive franchise, license and privilege to conduct boat tours and charters of Lake Ray Hubbard from the docks located at the Harbor;

NOW THEREFORE, in consideration of the premises and the mutual promises, covenants and agreements set forth herein, the Service Provider and the City hereby agree as follows:

Section 1. The City hereby grants to the Service Provider the non-exclusive franchise, license and privilege to conduct boat tours and charters of Lake Ray Hubbard from the dock area at the Harbor.

Section 2. The Service Provider shall file with the City's Park and Recreation Department a description of the boats and watercraft to be used in the conduct of the tours plus an inspection certificate that the vessels are fit for use by the public. Any additional vessels or boats that are desired to be added to the fleet permitted by this document in addition to the powered dual level boat Harbor Lights must be approved by the City of Rockwall. All maintenance and repairs of the vessels shall be the responsibility of the Service Provider. The Service Provider shall observe all federal and state rules and or regulations regarding safety measures. The City reserves the right to conduct a routine safety inspection on the vessels on a monthly basis.

Section 3. The Service Provider shall provide to the City's Park and Recreation Department a schedule of fees to be charged for the tours, and any increase in fees from those established as of the date of this Agreement shall first be approved by the City's Park and Recreation Director and Park Board, whose approval shall not be unreasonably withheld. In addition, a schedule of the sailing times or hours of operation shall be furnished to the City's Park and Recreation Department. **The service provider agrees to schedule tours to embark exclusively from The Harbor and/or Chandlers Landing Marina in the City of Rockwall**. Use of other marinas or docks in other city limits is expressly prohibited. Any signage advertising the tours shall be in conformance with the City's sign code.

Section 4. The Service Provider agrees to remit to the City, on a monthly basis, a concession fee of:

- 4.75% of gross revenue up to $100,000 collected from patrons either embarking or disembarking at the Harbor dock area.
- 6.25% of gross revenue between $100,101 and 199,999 collected from patrons either embarking or disembarking at the Harbor dock area.
- 7.25% of gross revenue of $200,000 and above collected from patrons either embarking or disembarking at the Harbor dock area.

The Service Provider shall maintain at his respective place of business adequate books and records relating to the fees collected for the boat tour and charter service. Such books and records shall be available at any time during normal business hours for inspection by the City, at the City's expense, upon reasonable advance notice. In consideration of the City of Dallas' consent to this agreement, the City agrees to remit to the City of Dallas its share of the concession fee collected from the Service provider as provided for in Exhibit B, attached hereto and made part of this agreement.

Section 5. The Service Provider and the City agree that should any modification or alteration of the dock be necessary to accommodate the service provided herein, such modification or alteration shall be done at the sole expense of the Service Provider, contingent upon the plans and specifications being reviewed by the City's engineer. Any modification or alteration of the dock area shall be ADA compliant. If the Service Provider ceases operation of the tours, or should this Agreement be terminated for any reason, the Service Provider, at its sole expense, will remove any structures and appurtences and return the docks so altered to their original condition within thirty (30) days of said cessation of operations or termination.

Section 6. The term for this Agreement shall be for a period of five (5) years from the date hereof, with the ability to renew for additional five (5) year periods, upon the written mutual consent of both parties. Any failure by the Service Provider, or his successors and assigns, to observe the terms and conditions of this Agreement shall, if continuing or persisting without remedy for more than thirty (30) days after the receipt of due written notice from the City, constitute grounds for forfeiture and immediate termination of all the Service Provider's rights under this Agreement, and all such rights shall become null and void.

Section 7. The Service Provider shall not deny employment to any person on the basis of race, creed, gender, or religion, and will insure that all federal and state laws pertaining to salaries, wages and operating requirements are met or exceeded.

Section 8. The Service Provider shall carry at all times during the term of this Agreement, or any extensions thereof, at a minimum, comprehensive liability insurance for bodily injury, including death, and property damage in the amounts of $1,000,000 per person, and $3,000,000 per occurrence, with the City and the City of Dallas being named as an additional insured. Such certificates of insurance shall be filed with the City Secretary, a copy of which shall also be submitted by the City to the Director of Water Utilities Department of the City of Dallas for its records.

Section 9. The Service Provider assumes all risks of loss or injury to property or persons arising from its performance of the services provided herein. The Service Provider agrees to indemnify and hold harmless the City and the City of Dallas, its agents, officers, and employees from and against any band all suits, actions, legal proceedings, claims, demands, costs, liabilities, losses or expenses (including, but not limited to, reasonable attorneys' fees) incident to the services provided under this Agreement. It shall be understood that the City of Dallas is a third party beneficiary of this agreement and shall have the right to enforce the terms of this agreement.

Section 10. Notices under this Agreement shall be deemed sufficient if sent to the following:

Service Provider:	City of Rockwall:
WRS Marine, LLC 9540 Garland Road, Suite 381-368 Dallas, Texas 75218	Rick Crowley, City Manager 385 S. Goliad Rockwall, Texas 75087

Section 11. This Agreement shall be governed by the laws of the State of Texas, and venue for this Agreement shall be in Rockwall County, Texas.

Section 12. The City shall not be liable or responsible for any loss of revenue because of suspension or inability to provide the service at the docking area due to causes beyond the reasonable control of either the City or Service Provider. Such causes shall include, but not be limited to, acts of God, acts of war, accident, explosion, fire, flood, riot, sabotage, or unusually severe weather conditions.

Section 13: This **FRANCHISE AGREEMENT** is not assignable or transferable to any other party.

This Agreement shall be effective as of the last date signed by either party below.

CITY OF ROCKWALL, TEXAS
MEMORANDUM

TO: **Brad Griggs, Assistant City Manager**

FROM: **Andy Hesser, Parks and Recreation Director**

DATE: **May 3, 2018**

SUBJECT: **FRANCHISE AGREEMENT FOR TOW BOATS LAKE RAY HUBBARD**

Scott Self has scheduled an appointment with Council to request a franchise agreement for the purpose of operating a tow boat service on Lake Ray Hubbard. Mr. Self has purchased a boat specifically designed for towing stranded vessels from open water back to safety. He has indicated he will provide boat operators who are properly licensed, trained and insured.

Park Board heard his request at the May 2nd meeting and voted unanimously to recommend that City Council consider approval of the franchise agreement between the City and the entity to be known as Tow Boats Lake Ray Hubbard. A draft of the franchise agreement has been prepared and attached for your review and is pending City Attorney review and comments.

STATE OF TEXAS §
COUNTY OF ROCKWALL §
CITY OF ROCKWALL §

FRANCHISE AGREEMENT

THIS FRANCHISE AGREEMENT ("Agreement") is made and entered into by and between **Tow Boats of Lake Ray Hubbard** ("Service Provider"), and the City of Rockwall, Texas ("City").

WHEREAS, the City, subject to the terms and conditions set forth herein, desires to grant to the Service Provider the non-exclusive franchise, license and privilege to conduct tow boat services on Lake Ray Hubbard from the docks located at Chandlers Landing Marina;

NOW THEREFORE, in consideration of the premises and the mutual promises, covenants and agreements set forth herein, the Service Provider and the City hereby agree as follows:

Section 1. The City hereby grants to the Service Provider the non-exclusive franchise, license and privilege to conduct tow boat services on Lake Ray Hubbard from the dock area at Chandlers Landing Marina.

Section 2. The Service Provider shall file with the City's Park and Recreation Department a description of the boats and watercraft to be used in the conduct of the towing services plus an inspection certificate that the vessels are fit for use for the public. Any additional vessels or boats that are desired to be added to the fleet permitted by this document must be approved by the City of Rockwall. All maintenance and repairs of the vessels shall be the responsibility of the Service Provider. The Service Provider shall observe all federal and state rules and or regulations regarding safety measures. The City reserves the right to conduct a routine safety inspection on the vessels on a monthly basis.

Section 3. The Service Provider shall provide to the City's Park and Recreation Department a schedule of fees to be charged for the tow boat services, and any increase in fees from those established as of the date of this Agreement shall first be approved by the City's Park and Recreation Director and Park Board, whose approval shall not be unreasonably withheld. In addition, a schedule of the sailing times or hours of operation shall be furnished to the City's Park and Recreation Department. Any signage advertising the tow boat service shall be in conformance with the City's sign code.

Section 4. The Service Provider agrees to remit to the City, on a monthly basis, a concession fee of:

- 4.75% of gross revenue up to $100,000 collected from patrons either embarking or disembarking at the Harbor dock area.
- 6.25% of gross revenue between $100,101 and 199,999 collected from patrons either embarking or disembarking at the Harbor dock area.
- 7.25% of gross revenue of $200,000 and above collected from patrons either embarking or disembarking at the Harbor dock area.

The Service Provider shall maintain at his respective place of business adequate books and records relating to the fees collected for the boat tour and charter service. Such books and records shall be available at any time during normal business hours for inspection by the City, at the City's expense, upon reasonable advance notice. In consideration of the City of Dallas' consent to this agreement, the City agrees to remit to the City of Dallas its share of the concession fee collected from the Service provider as provided for in Exhibit B, attached hereto and made part of this agreement.

Section 5. The Service Provider and the City agree that should any modification or alteration of the dock be necessary to accommodate the service provided herein, such modification or alteration shall be done at the sole expense of the Service Provider, contingent upon the plans and specifications being reviewed by the City's engineer. Any modification or alteration of the dock area shall be ADA compliant. If the Service Provider ceases operation of the tours, or should this Agreement be terminated for any reason, the Service Provider, at its sole expense, will return the docks so altered to their original condition within thirty (30) days of said cessation of operations or termination.

Section 6. The term for this Agreement shall be for a period of five (5) years from the date hereof, with the ability to renew for additional five (5) year periods, upon the written mutual consent of both parties. Any failure by the Service Provider, or his successors and assigns, to observe the terms and conditions of this Agreement shall, if continuing or persisting without remedy for more than thirty (30) days after the receipt of due written notice from the City, constitute grounds for forfeiture and immediate termination of all the Service Provider's rights under this Agreement, and all such rights shall become null and void.

Section 7. The Service Provider shall not deny employment to any person on the basis of race, creed, gender, or religion, and will insure that all federal and state laws pertaining to salaries, wages and operating requirements are met or exceeded.

Section 8. The Service Provider shall carry at all times during the term of this Agreement, or any extensions thereof, at a minimum, comprehensive liability insurance for bodily injury, including death, and property damage in the amounts of $1,000,000 per person, and $3,000,000 per occurrence, with the City and the City of Dallas being named as an additional insured. Such certificates of insurance shall be filed with the City Secretary, a copy of which shall also be submitted by the City to the Director of Water Utilities Department of the City of Dallas for its records.

Section 9. The Service Provider assumes all risks of loss or injury to property or persons arising from its performance of the services provided herein. The Service Provider agrees to indemnify and hold harmless the City and the City of Dallas, its agents, officers, and employees from and against any band all suits, actions, legal proceedings, claims, demands, costs, liabilities, losses or expenses (including, but not limited to, reasonable attorneys' fees) incident to the services provided under this Agreement. It shall be understood that the City of Dallas is a third party beneficiary of this agreement and shall have the right to enforce the terms of this agreement.

Section 10. Notices under this Agreement shall be deemed sufficient if sent to the following:

Service Provider:	City of Rockwall:
Tow Boats of Lake Ray Hubbard c/o Scott Self 319 Harborview Drive Rockwall, Texas 75032	Rick Crowley, City Manager 385 S. Goliad Rockwall, Texas 75087

Section 11. This Agreement shall be governed by the laws of the State of Texas, and venue for this Agreement shall be in Rockwall County, Texas.

Section 12. The City shall not be liable or responsible for any loss of revenue because of suspension or inability to provide the service at the docking area due to causes beyond the reasonable control of either the City or Service Provider. Such causes shall include, but not be limited to, acts of God, acts of war, accident, explosion, fire, flood, riot, sabotage, or unusually severe weather conditions.

Section 13: This **FRANCHISE AGREEMENT** is not assignable or transferable to any other party.

This Agreement shall be effective as of the last date signed by either party below.

CITY OF ROCKWALL, TEXAS
MEMORANDUM

TO: Mayor and City Council

CC: Rick Crowley, *City Manager*
Brad Griggs, *Assistant City Manager*

FROM: Ryan Miller, *Director of Planning and Zoning*

DATE: May 7, 2018

SUBJECT: MIS2018-006; *Amendment to Master Thoroughfare Plan*

Rockwall County is currently in the process of updating the County's Master Thoroughfare Plan (MTP) and has requested that the City of Rockwall review the proposed changes and provide comments. Through staff's review, two (2) changes on the City's current MTP were identified. In order to assure that the City Council had a chance to review the proposed changes prior to the adoption of the County's plan, staff brought the proposed changes before the City Council on March 19, 2018. At this meeting, staff was directed to proceed with making the following changes to the City's MTP: [*1*] a change showing the realignment of Breezy Hill Road to follow existing right-of-way, and [*2*] increasing Horizon Road from a M4D (*minor collector, four [4] lane, divided roadway*) to a TXDOT4D (*i.e. four [4] lane TXDOT roadway*).

According to Section 213.003 of the *Texas Local Government Code*, *"(a) comprehensive plan may be adopted or amended by ordinance following:*

1) *A hearing at which the public is given the opportunity to give testimony and present written evidence; and*
2) *Review by the municipality's planning commission or department, if one exists."*

Additionally, Section 9.03 of the City's *Home Rule Charter* states that "(r)ecommended changes to the Master Plan shall be submitted to the City Manager after the Planning and Zoning Commission holds at least one public hearing on the proposed change." Furthermore, Section 9.04 states that the "City Manager shall submit the proposed changes to the Council, together with any recommendations. The Council, after a public hearing, shall adopt or reject such proposed revisions or any part thereof as submitted within sixty (60) days following its submission by the City Manager. If the proposed revision or part thereof should be rejected by the Council, the Planning and Zoning Commission may make modifications and again forward it to the City Manager for submission to the Council." In accordance with this section, staff brought the proposed amendment forward to the Planning and Zoning Commission for recommendation to the City Council. On April 10, 2018, the Planning and Zoning Commission approved a motion to recommend approval of the amendment by a vote of 5-0, with Commissioners Fishman and Moeller absent. Attached to this case memo is a map showing the proposed amendment to the City's MTP and a draft ordinance. Staff has sent a notice to the Rockwall Herald Banner in accordance with all applicable state laws and Section 6.1 of Article II, *Authority and Administrative Procedures*, of the UDC.

CITY OF ROCKWALL

ORDINANCE NO. 18-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, ADOPTING REVISIONS TO THE MASTER THOROUGHFARE PLAN CONTAINED WITHIN THE *TRANSPORTATION* SECTION OF THE COMPREHENSIVE PLAN IN ACCORDANCE WITH THE CITY'S HOME RULE CHARTER.

WHEREAS, the *Home Rule Charter* of the City of Rockwall, Texas, states that the Comprehensive Plan will contain recommendations for the growth, development and beautification of the City and its Extraterritorial Jurisdiction (ETJ); and

WHEREAS, the City Council of the City of Rockwall has previously authorized a study to update the Comprehensive Plan, also referred to as the Master Plan; and

WHEREAS, the citizens of the City of Rockwall were involved in the development of the Comprehensive Plan through participation in committee and public meetings; and

WHEREAS, the Comprehensive Plan shall serve as a guide to all future City Council action concerning land use and development regulations and expenditures for capital improvements; and

WHEREAS, Section 213.003, *Adoption or Amendment of Comprehensive Plan*, of Chapter 213, *Municipal Comprehensive Plans*, of the *Texas Local Government Code* states that the adoption of or amendment to a Comprehensive Plan requires a hearing at which the public is given the opportunity to give testimony and present written evidence, and as required by the *Home Rule Charter of the City of Rockwall* a public hearing has been held on the proposed revisions to the Comprehensive Plan, and the governing body -- *in the exercise of its legislative discretion* -- has concluded that the Comprehensive Plan should be amended as follows:

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:

Section 1. The Master Thoroughfare Plan contained within the *Transportation* section of the City's Comprehensive Plan be amended as depicted in *Exhibit 'A'* of this ordinance; and,

Section 2. The Comprehensive Plan shall be used by the City Staff in planning and as a guide for future development of the City of Rockwall; and,

Section 3. This ordinance shall take effect immediately from and after its passage, and the publication of the caption of said ordinance as the law in such cases provides.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 7TH DAY OF MAY, 2018.

CITY OF ROCKWALL, TEXAS
MEMORANDUM

TO: Mayor and City Council

CC: Brad Griggs, Assistant City Manager
Rick Crowley, City Manager

FROM: Andy Hesser, Director of Parks and Recreation

DATE: May 3, 2018

SUBJECT: RAYMOND CAMERON LAKE MAINTENANCE REQUEST

At the February 5th meeting, Council requested that staff address Mr. Bruce Foith's request made during the open forum regarding pond maintenance behind his home in the Lakes of Squabble Creek area. The pond in question receives storm water flow from the neighborhood which then flows into Cameron Lake. The pond was in its current condition prior to the construction of the Caruth Lakes subdivision and has been left as such since that time.

In February of 2017, Council adopted Park Maintenance Standards that prescribe the expected maintenance levels of parks and city owned areas. The subject area, shown in the attached map is adopted as Level F which is the designation for natural open space areas. These areas will typically receive no mowing or pruning so as to preserve the natural condition of the property. Removal of floatable trash is set for one time per year.

The Lakes of Squabble Creek area also has annually scheduled volunteer work days to help remove litter and debris from the lakes, ponds and wetland areas. The next one was scheduled for Saturday March 3rd. but has been postponed due to flooding. During these volunteer events, staff directs volunteers to the areas that need the most attention. This area will be included in those efforts.

As a result of the March 5th Council meeting direction, staff obtained a quote from a contractor to perform the work necessary to fulfill Mr. Foith's request. The scope of work was to remove all debris, saplings, poison ivy, brambles, deadfall around the pond. Specimen trees would remain in place. The cost for this work is estimated to be $49,670. An additional cost of $7,450 was estimated to grind stumps of the trees removed.

Since this scope of work is significant and will open up new ground for weeds and invasive plants to thrive, a monthly cost of approximately $500 will be required for up to 10 months annually to maintain it at the new expectations. Funding has not been identified for these estimated costs in the FY2018 budget.

Client Care Guarantee

We use quality products that are administered by trained personnel. We guarantee to deliver what we have contracted to deliver. If we do not, we will work with you until you are satisfied, or you will not be charged for the disputed item. Our Client Care Guarantee demonstrates our commitment to creating lifelong client relationships.

Tree Care

PRUNING: Performed by trained arborists using industry and Tree Care Industry Association (TCIA) approved methods.
TREE REMOVAL: Removal to within 6" of ground level and cleanup of debris.
STUMP REMOVAL: Mechanical grinding of the visible tree stump to at or just below ground level. Stump area will be backfilled with stump chips and a mound of remaining chips will be left on site unless otherwise stated in the contract. Chip removal, grading and soil backfill are available.
CLEAN-UP: Logs, brush, and leaves, and twigs large enough to rake are removed. Sawdust and other small debris will not be removed.
CABLING/BRACING: Cabling and bracing of trees is intended to reduce damage potential. It does not permanently remedy structural weaknesses, is not a guarantee against failure and requires periodic inspection.

Tree and Shrub Fertilization/SoilCare

Your arborist will assess your property's overall soil conditions either through physical assessment or through soil testing and will recommend a soil management program to help the soil become a better medium to enable healthy plants to thrive or unhealthy plants to regain their vitality. SoilCare programs will include fertilizers, organic humates, fish emulsions and other organic soil conditioners.
Our advanced formula, Arbor Green PRO, works with nature to fertilize without burning delicate roots, building stronger root systems and healthier foliage. It contains no chlorides or nitrates. It is hydraulically injected into the root zone and the nutrients are gradually released over time. Research and experience shows the dramatic benefits Arbor Green PRO provides: greater resistance to insects and diseases, greater tolerance to drought stress, increased vitality, and healthier foliage.

Tree and Shrub Fertilization

Our advanced formula, Arbor Green PRO, works with nature to fertilize without burning delicate roots, building stronger root systems and healthier foliage. It contains no chlorides or nitrates. It is injected into the root zone and the nutrients are gradually released over time. Research and experience shows the dramatic benefits Arbor Green PRO provides: greater resistance to insect and disease, greater tolerance to drought stress, increased vigor, and healthier foliage.

Tree and Shrub Plant Health Care

PRESCRIPTION PEST MANAGEMENT: Customized treatments to manage disease and insect problems specific to plant variety and area conditions. Due to the short term residual of available pesticides, repeat applications may be required.
INSECT MANAGEMENT: Inspection and treatment visits are scheduled at the proper time to achieve management of destructive pests. Pesticides are applied to label specifications.
DISEASE MANAGEMENT: Specific treatments designed to manage particular disease problems. Whether preventative or curative, the material used, the plant variety being treated, and the environmental conditions all dictate what treatment is needed.
EPA approved materials will be applied in accordance with State and Federal regulations.

Lawn Care

FERTILIZER AND MECHANICAL SERVICES: Balanced fertilizer treatments applied throughout the growing season help provide greener turf color and denser root development. To help bring about a better response to these applications, we also provide aerification, lime, overseeding, and lawn renovation.
WEED CONTROL AND PEST MANAGEMENT: Broadleaf weed control is spot-applied during the active growing periods of the year. It is not broadcast over the entire lawn. Granular weed management may be broadcast. We also offer pre-emergent crabgrass management in the spring and, if needed, a postemergent application later in the year. Our surface insect management is timed to reduce chinchbugs, sod webworms, and billbugs. We also offer a grub management application. Disease management materials and treatments are matched to particular disease problems. This usually requires repeat applications.

Other Terms and Contract Conditions

INSURANCE: Our employees are covered by Worker's Compensation. The company is insured for personal injury and property damage liability. Proof of insurance can be verified by requesting a copy of our Certificate of Insurance.
WORKING WITH LIVING THINGS: As trees and other plant life are living, changing organisms affected by factors beyond our control, no guarantee on tree, plant or general landscape safety, health or condition is expressed or implied and is disclaimed in this contract unless that guarantee is specifically stated in writing by the company. Arborists cannot detect or anticipate every condition or event that could possibly lead to the structural failure of a tree or guarantee that a tree will be healthy or safe under all circumstances. Trees can be managed but not controlled. When elevated risk conditions in trees are observed and identified by our representatives and a contract has been signed to proceed with the remedial work we have recommended, we will make a reasonable effort to proceed with the job promptly. However, we will not assume liability for any accident, damage or injury that may occur on the ground or to any other object or structure prior to us beginning the work. Site inspections do not include internal or structural considerations unless so noted. Unless otherwise specified, tree assessment will not include investigations to determine a tree's structural integrity or stability. We may recommend a Risk Assessment be conducted for an additional charge.
TREE CARE STANDARDS: All work is to be performed in accordance with current American National Standards Institute (ANSI) Standard Practices for Tree Care Operations.
OWNERSHIP OF TREES/PROPERTY: Acceptance constitutes a representation and warranty that the trees and property referenced in this quote are either owned by the signee or that written permission has been received to work on trees which are not on the signee's property.
TIME & MATERIAL (T&M): Jobs performed on a T&M basis will be billed for the time on the job (not including lunch break), travel to and from the job, and materials used.
BILLING & SALES TAX: All amounts deposited with us will either be credited to your account or applied against any amounts currently due. Our invoices are due net 30 days from invoice date. Services may be delayed or cancelled due to outstanding account balances. Sales tax will be added as per local jurisdiction. Clients claiming any tax exempt status must submit a copy of their official exempt status form including their exemption number in order to waive the sales or capital improvement tax.
PAYMENT: We accept checks and credit cards. Credit card payments may be made online at our web site. Paying by check authorizes us to send the information from your check to your bank for payment.
UNDERGROUND PROPERTY: We are not responsible for any underground property unless we have been informed by you or the appropriate underground location agency.
SCHEDULING: Job scheduling is dependent upon weather conditions and work loads.

City of Rockwall
The New Horizon

MEMORANDUM

TO: **Rick Crowley, City Manager**

FROM: **Amy Williams, P.E., Public Work Director/City Engineer**

DATE: **May 2, 2018**

SUBJECT: **S. Lakeshore Drive Bridge at SH 66 (W. Rusk Street)**
Bridge Scour/Erosion Mitigation

Engineering Staff was made aware by TXDOT in their recent update of their Bridge Inventory, Inspection and Appraisal Program (BRINSAP) of an eroded area under the existing S. Lakeshore Drive Bridge Structure at SH 66 (S. Rusk Street). City of Rockwall consulted Kimley-Horn and Associates, Inc. (the consultant Engineer for the S. Lakeshore Drive/Summit Ridge Drive Reconstruction Project) to perform a site visit and preliminary hydraulic modeling to recommend improvements for the eroded area under the bridge structure. As a result of the Engineer's assessment the Engineer recommends proceeding with the repair for bridge erosion mitigation. The repair consists of constructing concrete and grouted rock riprap with toe walls under the bridge and extending up and down stream of the bridge.

Staff has requested that the consultant engineer for the S. Lakeshore Dr./Summit Ridge Drive Reconstruction Project, Kimley–Horn and Associates, Inc., provide additional engineering services, Amendment Number Six, for the engineering design and construction document preparation of the recommended bridge erosion mitigation and incorporate the improvements into the Lakeshore Drive/Summit Ridge Drive Reconstruction Project.

Staff is requesting City Council consideration for approval Contract Amendments Number Six for the total additional contract amount of $76,950.00 with Kimley–Horn and Associates, Inc.. for the S. Lakeshore Dr./Summit Ridge Dr. Reconstruction Project. If you have any questions, please advise.

AMENDMENT NUMBER 6 TO THE AGREEMENT BETWEEN THE CLIENT AND KIMLEY-HORN AND ASSOCIATES, INC.

AMENDMENT NUMBER 6 DATED May 1, 2018 to the agreement between City of Rockwall, ("CITY") and Kimley-Horn and Associates, Inc., ("ENGINEER") dated February 23, 2016 ("the Agreement") concerning S Lakeshore Drive/Summit Ridge Drive Reconstruction Project (the "Project").

The ENGINEER has entered into the Agreement with CITY for the furnishing of professional services, and the parties now desire to amend the Agreement.

Therefore, it is mutually agreed that the Agreement is amended to include Additional Services to be performed by ENGINEER and provisions for additional compensation by the CITY to the ENGINEER, all as set forth in Exhibit A hereto. The parties ratify the terms and conditions of the Agreement not inconsistent with this Amendment, all of which are incorporated by reference.

CITY OF ROCKWALL

By: _____

Title: _____

Date: _____

KIMLEY-HORN AND ASSOCIATES, INC.

By: _____

Title: SENIOR VICE PRESIDENT

Date: 5·1·18

ENGINEER shall perform the following Additional Services:

ENGINEER will provide services for the design of channel lining of Stream No. 4 beneath the S. Lakeshore Bridge in accordance with the Option #2 recommendations outlined in the Memorandum – S. Lakeshore Drive Bridge Assessment, Stream No. 4 provided by Kimley-Horn & Associates, Inc. dated March 20, 2018.

Task 24: Construction Documents

ENGINEER will perform the following:

- ENGINEER will rely on topographic and boundary information obtained under previous contract dated February 15, 2016 between ENGINEER and CITY.
- Develop drawings for construction, effort associated with the development of this design may consist of the following:
  - Cover/Index Sheet
  - General Notes/Project Control
  - Erosion Protection Plan and Profile (Riprap, Toe walls, etc.)
  - Detail Sheets
- Prepare quantity take-offs and develop bid items for opinion of probable construction cost and project manual.
- Compile applicable CITY standard details. Modify standard details as needed.
- Develop project manual in CITY standard format to include:
  - Contract document (provided by CITY)
    - Notice to Bidders
    - Proposal
    - General Conditions
    - Bonds (Performance, Payment, Maintenance, Bid, etc.)
  - Bid Form
  - Special Conditions
  - Technical Specification
- Submit contract documents to CITY for one round of comments.
  - Design submittal (90%)
    - Submit two (2) full size (22” x 34”) and five (5) (11” x 17”) copies to the CITY for one round of review and comment
    - Submittal shall include the following:
      - Final design plans
      - Contract documents, including the following:
        - City of Rockwall standard construction contract forms
        - Notice to bidders
        - Special instructions to bidders
        - Bid form
        - Standard construction contract
        - Performance bond
        - Payment bond
        - Maintenance bond
        - Certificate of insurance
        - General conditions
        - Special provisions
        - Technical specifications
      - Opinion of probable construction cost
- Update contract documents and resubmit to CITY.
  - Final design submittal (100%)
    - CITY shall provide approved for construction stamp to ENGINEER

- Submit two (2) full size (22" x 34") and five (5) half size (11" x 17") sets of plans and specifications to CITY
- Submit the final opinion of probable construction cost
- Submit a letter of notification to the CITY stating completion of the design of the project

Task 25: Bidding Phase Services

- Final bid documents submittal
  - Print ten (10) sets for bidder distribution
  - Print two (2) full size sets for CITY use
  - Print five (2) half size sets for CITY use
  - Provide electronic document for CITY use, PDF format
  - Submittal shall include the following:
    - Final plans
    - Final contract documents
    - Final opinion of probable construction cost
  - Furnishing additional copies of review documents and/or bid documents in excess of the number of the same identified above will be considered as *Additional Services*
- Issue bid documents to prospective bidders, distribution will occur from ENGINEER's office.
- Maintain a list of bidders to whom bidding documents have been issued
- Prepare for and conduct a pre-bid meeting with prospective bidders
- Issue addenda as appropriate to interpret, clarify, or expand the bidding documents
- Attend the Bid Opening at Rockwall City Hall
- Tabulate the bids received and evaluate the compliance of the bids received with the bidding documents. Check references of compliant bidders.
- Prepare a written summary of this tabulation and evaluation together with a letter addressing ENGINEER's recommendation for the award of the construction contract

Task 26: Construction Contract Administration

The scope of services listed below may or may not be performed as part of our construction phase services. ENGINEER's role during construction is limited and services are only provided upon request of the CITY and billed on a reimbursable basis as labor and direct expenses are incurred. The budgeted fee for this task is based upon approximately 40 hours of labor. We will not proceed with performance of services beyond the hours budgeted without written authorization by the CITY.

- Project Management
  - Project Communication
    - Conduct progress/coordination meetings with the CITY and/or Contractor during the Construction phase of the project.
  - Project Administration
    - Prepare project correspondence and invoice documents.
- *Pre-Construction Conference*. Prepare for and conduct the Pre-Construction Conference prior to commencement of Work at the Site.
- *Visits to Site and Observation of Construction*. Provide on-site construction observation services during the construction phase of the subject project. Observations will vary depending on the type of services being performed by the contractors, the location, and the contractors' schedules. Make visits to the Site at intervals as directed by CITY in order to observe the progress of the Work. Such visits and observations by ENGINEER are not intended to be exhaustive or to extend to every aspect of Contractor's work in progress. Observations are to be limited to spot checking, selective measurement, and similar methods of general observation of the Work based on ENGINEER's exercise of professional judgment. Based on information obtained during such visits and such observations, ENGINEER will determine if Contractor's work is generally proceeding in accordance with the Contract Documents, and ENGINEER shall keep CITY informed of the general progress of the Work.
  - The purpose of ENGINEER's visits to the site will be to enable ENGINEER to better carry out the duties and responsibilities assigned in this Agreement to ENGINEER during the construction phase by CITY, and, in addition, by the exercise of ENGINEER's efforts, to provide CITY a greater degree of confidence that the completed Work will conform in general to the Contract Documents and that the integrity of the design concept of the

completed Project as a functioning whole as indicated in the Contract Documents has been implemented and preserved by Contractor. ENGINEER shall not, during such visits or as a result of such observations of Contractor's work in progress, supervise, direct, or have control over Contractor's work, nor shall ENGINEER have authority over or responsibility for the means, methods, techniques, equipment choice and usage, sequences, schedules, or procedures of construction selected by Contractor, for safety precautions and programs incident to Contractor's work, nor for any failure of Contractor to comply with laws and regulations applicable to Contractor's furnishing and performing the Work. Accordingly, ENGINEER neither guarantees the performance of any Contractor nor assumes responsibility for any Contractor's failure to furnish and perform its services in accordance with the Contract Documents.

- *Recommendations with Respect to Defective Work*. Recommend to CITY that Contractor's services be disapproved and rejected while it is in progress if, on the basis of such observations, ENGINEER believes that such services will not produce a completed Project that conforms generally to Contract Documents or that it will prejudice the integrity of the design concept of the completed Project as a functioning whole as indicated in the Contract Documents.
- *Clarifications and Interpretations*. Issue clarifications and interpretations of the Contract Documents to CITY as appropriate to the orderly completion of Contractor's services. Such clarifications and interpretations will be consistent with the intent of the Contract Documents. Field Orders authorizing variations from the requirements of the Contract Documents will be made by CITY.
- *Change Orders*. Recommend Change Orders to CITY, as appropriate. Review and make recommendations related to Change Orders submitted or proposed by the Contractor.
- *Shop Drawings and Samples*. Review and provide observation of compliance to contract specifications, of or take other appropriate action in respect to Shop Drawings and Samples and other data which Contractor is required to submit, but only for conformance with the information given in the Contract Documents and compatibility with the design concept of the completed Project as a functioning whole as indicated in the Contract Documents. Such review and approvals or other action will not extend to means, methods, techniques, equipment choice and usage, sequences, schedules, or procedures of construction or to related safety precautions and programs.
- *Substitutes and "or-equal."* Evaluate and determine the acceptability of substitute or "or-equal" materials and equipment proposed by Contractor in accordance with the Contract Documents, but subject to the provisions of applicable standards of state or local government entities.
- *Inspections and Tests*. Require such special inspections or tests of Contractor's services as ENGINEER deems appropriate, and receive and review certificates of inspections within ENGINEER's area of responsibility or of tests and approvals required by laws and regulations or the Contract Documents. ENGINEER's review of such certificates will be for the purpose of determining that the results certified indicate compliance with the Contract Documents and will not constitute an independent evaluation that the content or procedures of such inspections, tests, or approvals comply with the requirements of the Contract Documents. ENGINEER shall be entitled to rely on the results of such tests and the facts being certified.
- *Disagreements between CITY and Contractor*. Render written decision on all claims of CITY and Contractor relating to the acceptability of Contractor's services or the interpretation of the requirements of the Contract Documents pertaining to the progress of Contractor's services. In rendering such decisions, ENGINEER shall be fair and not show partiality to CITY or Contractor and shall not be liable in connection with any decision rendered in good faith in such capacity.
- *Applications for Payment*. Based on ENGINEER's observations and on review of applications for payment and accompanying supporting documentation: Determine the amounts that ENGINEER recommends Contractor be paid. Such recommendations of payment will be in writing and will constitute ENGINEER's representation to CITY, based on such observations and review, that, to the best of ENGINEER's knowledge, information and belief, Contractor's services have progressed to the point indicated, such work-in-progress is generally in accordance with the Contract Documents (subject to an evaluation of the Work as a functioning whole prior to or upon Substantial Completion, to the results of any subsequent

tests called for in the Contract Documents, and to any other qualifications stated in the recommendation), and the conditions precedent to Contractor's being entitled to such payment appear to have been fulfilled insofar as it is ENGINEER's responsibility to so determine. In the case of unit price services, ENGINEER's recommendations of payment will include final determinations of quantities and classifications of Contractor's services, based on observations and measurements of quantities provided with pay requests.

- By recommending any payment, ENGINEER shall not thereby be deemed to have represented that observations made by ENGINEER to check Contractor's services as it is performed and furnished have been exhaustive, extended to every aspect of Contractor's work in progress, or involved detailed inspections of the Work beyond the responsibilities specifically assigned to ENGINEER in this Agreement. Neither ENGINEER's review of Contractor's services for the purposes of recommending payments nor ENGINEER's recommendation of any payment including final payment will impose on ENGINEER responsibility to supervise, direct, or control Contractor's work in progress or for the means, methods, techniques, equipment choice and usage, sequences, or procedures of construction of safety precautions or programs incident thereto, nor Contractor's compliance with Laws and Regulations applicable to Contractor's furnishing and performing the Work. It will also not impose responsibility on ENGINEER to make any examination to ascertain how or for what purposes Contractor has used the moneys paid on account of the Contract Price, nor to determine that title to any portion of the work in progress, materials, or equipment has passed to CITY free and clear of any liens, claims, security interests, or encumbrances, nor that there may not be other matters at issue between CITY and Contractor that might affect the amount that should be paid.

- *Substantial Completion*. Promptly after notice from Contractor that Contractor considers the entire Work ready for its intended use, in company with CITY and Contractor, conduct a site visit to determine if the Work is substantially complete. Work will be considered substantially complete following satisfactory completion of all items with the exception of those identified on a final punch list. If after considering any objections of CITY, ENGINEER considers the Work substantially complete, ENGINEER shall notify CITY and Contractor.
- *Final Notice of Acceptability of the Work*. Conduct a final site visit to determine if the completed Work of Contractor is generally in accordance with the Contract Documents and the final punch list so that ENGINEER may recommend, in writing, final payment to Contractor. Accompanying the recommendation for final payment, ENGINEER shall also provide a notice that the Work is generally in accordance with the Contract Documents to the best of ENGINEER's knowledge, information, and belief and based on the extent of the services provided by ENGINEER under this Agreement and based upon information provided to ENGINEER upon which it is entitled to rely.
- *Limitation of Responsibilities*. ENGINEER shall not be responsible for the acts or omissions of any Contractor, or of any of their subcontractors, suppliers, or of any other individual or entity performing or furnishing the Work. ENGINEER shall not have the authority or responsibility to stop the work of any Contractor.
- *Record Drawings.* Prepare project "Record Drawings" based on information provided by the Contractor and/or CITY as to the actual field placement of the work including any changes or deletions. ENGINEER is not responsible for the accuracy of the information provided by the Contractor and/or the CITY. ENGINEER will provide the following deliverables:
  - One (1) set of .pdf file Record Drawings (each sheet will be a separate .pdf file)
  - One (1) set of CAD drawings in .dwg format (each sheet will be a separate .dwg file)

Task 27: Post-Construction Hydraulic Analysis

Survey

ENGINEER, through a subconsultant, will provide topographic survey of the erosion protection measures beneath S. Lakeshore Drive bridge crossing over Stream No. 4 after the completion of construction. The survey will reflect as-built conditions of the bridge crossing and will support LOMR task.

- Perform field survey to identify any of the following within the bridge crossing and channel grading construction limits:
  - Pavement, curbs, sidewalks, and barrier free ramps, etc.
  - Storm Drain outfalls, bridges, and erosion control
  - Guardrail

- Abutment grading
- Bridge low chord, top of deck, and high chord elevations
- Channel grading and flowline
- Retaining walls
- Fence limits and material types

Post-Construction Hydraulic Analysis

Engineer to perform updates to the existing conditions model for Stream No. 4 to include information obtained during post-construction survey.

- ENGINEER will update existing conditions model with as-built conditions and analyze erosion protection impacts on Stream No. 4.
- ENGINEER will provide as-built conditions model to CITY and CITY's H&H consultant for review of these updates.
- ENGINEER will attend up to two (2) meetings to discuss the findings of this model update.
- ENGINEER will address up to one (1) round of comments related to the as-built conditions model.

Letter of Map Revision (LOMR)

After construction has been completed, ENGINEER will prepare a Letter of Map Revision (LOMR) for the erosion protection measures beneath S. Lakeshore Drive bridge. The LOMR will be prepared in accordance with FEMA requirements. The following tasks may rely upon results of the Hydraulic Assessment/Scour Analysis (Pre-Construction) and Post-Construction Survey tasks:

- The LOMR will consist of the following items:
  - Report text
  - Effective hydraulic model
  - Pre-construction model
  - Post-construction hydraulic model
  - Bridge survey exhibit
  - Floodplain workmaps
  - Applicable FEMA forms and applications
  - Digital files
- ENGINEER will submit the results of this study to the CITY for comment.
- ENGINEER will submit the LOMR to FEMA for review.
- ENGINEER will submit up to two hard copies of the LOMR submittal to the CITY and FEMA for review.
- ENGINEER will respond up to one round of CITY comments and two rounds of FEMA comments as part of this task. Response to additional rounds of comments will be considered *Additional Services.*
- ENGINEER will endeavor to obtain FEMA approval of the LOMR; however, that approval is not guaranteed.

Task 28A: U.S. Army Corps of Engineers (USACE) Permitting Analysis Memorandum

Kimley-Horn will review the project plans and specifications available and the results of the Aquatic Resources Delineation to assess the approximate impacts associated with the project to Waters of the United States (WOUS).

The review will result in documenting potential permitting options and scenarios based on the different permitting routes which may include:

- No Permit Required (NPR) action
- Nationwide Permit (NWP) not requiring formal notification and authorization from the USACE
- NWP requiring formal notification and authorization from the USACE
- Individual Permit (IP)

At this time, the NWP not requiring formal notification is anticipated.

Kimley-Horn will prepare a memorandum which may include the following:

- Brief description of the project and summary of Aquatic Resources Delineation results;
- Analysis of potential applicable USACE permitting scenarios;

- Regulatory language for potential applicable permits with General Conditions;
- State Water Quality Certifications and Conditions; and
- USACE Regional Conditions.

This scope assumes that another site visit will not be required.

It is important for the CITY to understand that the EPA and the USACE occasionally issue guidance concerning what they intend to exert jurisdiction over. Changes that impact our strategy or scope will cause additional work and will be addressed as an additional service amendment to this letter agreement. Observations will be made under the applicable regulatory guidance at the time of the observations.

Task 28B: U.S. Army Corps of Engineers (USACE) Permitting Pre-Construction Notification (PCN)

This Task is for preparing and submitting, to the Corps, a permit application/request for authorization under Nationwide Permit (NWP) 3 (Maintenance) for the proposed construction activities. NWP 3 authorizes the repair, rehabilitation, or replacement of any previously authorized, currently serviceable structure or fill, or of any currently serviceable structure or fill authorized by 33 CFR 330.3, provided that the structure or fill is not to be put to uses differing from those uses specified or contemplated for it in the original permit or the most recently authorized modification. Minor deviations in the structure's configuration or filled area are authorized. The Corps may require that the applicant show avoidance and minimization of impacts to aquatic resources.

- ENGINEER will prepare a Corps Section 404 Permit Pre-Construction Notification. The ENGINEER anticipates providing, at a minimum, the following information in the permit application:
  - Permit Application Contents
    - Aquatic Resources Delineation Report
    - Project Description (input from CITY will be necessary)
    - Purpose and Need (input from CITY will be necessary)
    - Plan and Profile Drawings
    - Threatened and Endangered Species information from readily available databases. This does not include a formal Threatened and Endangered Species survey.
    - Cultural Resources information from readily available databases. This does not include a formal archeological survey.
- Submit, to the CITY, the 404 Permit Pre-Construction Notification for review and minor comments, one time.
- Make minor revisions based upon the CITY's review of the 404 Permit Pre-Construction Notification.
- This Task is based on the ability to receive authorization under the current Nationwide Permit Program (2017-2022).

This task does not include a functional assessment or assistance with assessing mitigation costs as mitigation is not anticipated.

Additional Services

Any services not specifically provided for in the above additional services scope will be billed as new additional services and performed at our then current hourly rates.

Schedule:

Kimley-Horn will perform the tasks above within a mutually agreed upon schedule once authorized by the CITY to proceed.

Method of Compensation:

For the Additional Services set forth above, CITY shall pay ENGINEER the following additional compensation:

Reimbursable:

Task 24: Construction Documents	$19,200
Task 25: Bid Phase Services	$6,000
Task 26: Construction Contract Administration	$8,700
Task 27: Post-Construction Hydraulic Analysis	$30,950
Task 28A: USACE Permitting Analysis Memorandum	$5,600
Task 28B: USACE Permitting Pre-Construction Notification (PCN)	$6,500
Subtotal Reimbursable Fee	**$76,950**
Net Change in Contract Amount	**$76,950**
Revised Total Contract	***$346,450***

ENGINEER will not exceed the total maximum Reimbursable fee shown without authorization from the CITY. Individual task amounts are provided for budgeting purposes only. ENGINEER reserves the right to reallocate amounts among tasks as necessary. The budgeted fee for Task 26 (Construction Contract Administration) is based upon approximately 40 hours of labor. We will not proceed with performance of services beyond the hours budgeted without written authorization by the CITY.

Kimley»Horn

MEMORANDUM

TO: **Honorable Mayor and City Council Members**

FROM: **Kristy Cole, City Secretary / Assistant to the City Manager**

DATE: **May 7, 2018**

SUBJECT: **TEX-21 Membership Discussion**

Mayor Pruitt would like to discuss the city's potential participation in TEX-21 at the council meeting Monday evening.

TEX-21 Transportation EXcellence for the 21st Century

Better Mobility Through Better Policy

WHO WE ARE

TEX-21 is a 20+ year old collective, grassroots effort to improve the transportation infrastructure in the States of Texas and Oklahoma. With its growing membership of cities, counties, ports and other entities, TEX-21 creates strategies to increase investment in transportation infrastructure, improve the planning and management of our transportation facilities, and increase public awareness of the importance of multi-modal transportation that is required for efficient economic development and sustainability.

One of TEX-21's biggest strengths has been development and maintenance of Congressional and Legislative Transportation caucuses. During times of political transitions, the "voice" of TEX-21 will provide stabilizing advocacy efforts for multi-modal transportation policy. Our cooperative approach has consistently gained praise from policymakers at each level of government as we collaborate for effective transportation policy and tackle the challenges.

Click here for a full history and achievements list!

MEMBERSHIP BENEFITS

- Opportunities to create productive relationships with like-minded transportation advocates from across the States of Texas and Oklahoma.
- High-level access to transportation decision makers at the Federal and State levels through TEX-21's strong Legislative Caucuses, Texas Department of Transportation (TxDOT), Texas Transportation Commission, Oklahoma Department of Transportation, and the USDOT.
- Opportunities to raise awareness of transportation needs in your region and collaborate with representatives from the State and Federal legislative and executive branches.
- Focused attention on key transportation corridors in Texas and Oklahoma through Corridor Task Forces including IH-30, US 75/ IH-45, US 287, IH-35 and also a key initiative, the Third Coast Initiative which focuses on opportunities created by the expanded Panama Canal.
- Up-to-date information and analysis of key transportation policy issues, TEX-21 is currently focused on the highway funding crisis, with passage last fall of the Federal surface re-authorization bill, and the State's proposals to increase funding. Through TEX-21 research, a new funding proposal called the Expiring revenue Enhancement (ERE) is being proposed, based on future growth of state sales tax dollars for a limited time.
- Become part of a successful organization with many transportation achievements. Click here for a full list of achievements!
- Dues based on most recent census numbers (cities and counties) or annual revenue (private businesses), so it fits any size budget!

HISTORY & ACHIEVEMENTS

Transportation EXcellence for the 21st Century (TEX-21) was founded in 1999, as a result of the Transportation Summit hosted by the City of Irving. Summit attendees repeatedly lamented that "transportation is such a critical issue; we need to meet more than once a year." This concept became TEX-21. We are a non-profit organization made up of cities, counties, economic development corporations and private business that met on a monthly basis in various locations around the state in order to educate ourselves on diverse infrastructure needs and their cost, at the same time educating others on policy issues that needed change. In 1999, when TEX-21 began, we had five successful legislative points.

The first issue that TEX-21 undertook was transportation funding. In the past, each individual community or area of the state would fight to get funding for their specific project. The problem was that the funding was incredibly limited, so they were fighting over a "sliver from a very small pie."

TEX-21 adopted the theory that, "a rising tide raises all ships." The communities that banded together under TEX-21 worked to increase the size of the "pie" itself. At that time the transportation budget in Texas was only $4 billion per biennium. Through various efforts, TEX-21 achieved their goal of raising awareness of the importance of mobility to individuals within communities throughout the state. They also educated them on how much tax revenue was raised, where it came from, and where the dollars raised were spent. In 2001, TEX-21 promoted the Mobility Fund Initiative and it passed. In 2003, TEX-21 passed ten Legislative Initiatives.

Of course, transportation funding continued to be a major imperative for TEX-21. We developed numerous tools adopted by the legislature that added additional dollars to the TxDOT budget. On the federal level, Texas has always been a donor state. We send more gas tax dollars to Washington, so TEX-21 worked with Senator Kay Bailey Hutchison to get a guaranteed percentage return to all states and allowing the remaining percentage to be used by states that do not generate enough gas tax dollars to maintain the interstate system. We also supported exemption from gas taxes for transit entities, a common sense initiative, because it was one taxing entity paying another taxing entity.

Through this process, several other initiatives were adopted. From the inception of TEX-21, one of the top priorities was to end diversions from Fund VI, which is the transportation funding account. The major diversion, besides the constitutional education funding portion (25% of the gas tax), was Department of Public Safety funding. We realized the need to end that diversion and instead fund DPS through the general fund. We protected taxpayers by leading an initiative requiring that before any type of tax increase was passed by the Legislature, all diversions from the transportation fund must be ended. Since the creation of TEX-21, there has not been a single tax increase. Our initiative is not solely responsible, however it did play a large role, as it seemed reasonable to most legislators and was heard repeatedly when the subject of a gas tax increase or indexing the gas tax came up.

One initiative that the municipal members brought forward and was adopted by the full membership early on was to reduce the municipal responsibility for utility relocation costs. This initiative was successful, and was renewed once again in later years.

Another TEX-21 objective was to streamline legislative processes, and over the years TEX-21 has generated ideas for several streamlined processes that have been adopted into practice. For example, it was TEX-21's initiative to streamline and simplify vehicle registrations, which has now been successfully implemented.

TEX-21 has long advocated a multi-year reauthorization of the Federal Transportation Bill and Airport Bill (and others) so that the states would have long term funding continuity instead of passing a continuing resolution fix or a short term bill. This is critical because most projects take more than a year to plan, design and build. It is impossible to authorize a project if you are unsure that funding will be available the next year to complete the design process or the construction. We also accomplished modifications in each reauthorization bill,

streamlining the processes to build a road and eliminating some of the many "silos" created which had unnecessarily specific federal requirements for their use.

TEX-21 began coalitions along various corridors in Texas. For example, a task force on IH-30 that led directly to an official TxDOT Corridor Study, successfully accomplishing our goal. We currently maintain several Corridor Task Forces.

TEX-21 also pushed the State to use their bonding capacity authorized by the voters to the full extent possible instead of leaving the dollars unspent in years that projects were needed and other funding was not available. This was also accepted by TXDOT.

Toll road authorities in Texas operate under different rules for each entity. TEX-21 worked toward equality across all toll entities so all Texans would be treated fairly by these authorities. While not every aspect is alike, several of these differences were adjusted across the authorities. We also supported a universal toll system that allowed drivers to go from one area of the state to another and through the airports using only one toll tag.

We supported a successful initiative that if toll roads were to be built, the tolls should remain in the area they were generated, not used to build projects in other areas of the State. We fought unrealistic tenets of a public-private partnership which would not allow other roads to be built parallel or crossing a toll road that might reduce the return on investment to the toll authority, and successfully got a temporary moratorium on toll roads that gave ultimate granting authority to the Legislature.

TEX-21 also supported additional security and efficiency at the border, decreasing the illicit drug trafficking and human traffickers across the border.

TEX-21 has always supported commuter rail in Texas. We worked hard to ensure the cities that had been members of DART for many years finally received the rail service they were promised. This included Irving, Carrollton and Rowlett, and today they all have successful commuter rail systems.

We also supported expanding the rail division within TxDOT to more than one person, because multi-modal systems are essential for mobility, you cannot simply cover the state in concrete. TxDOT increased from one person to three, a marked improvement. We also supported the creation of the Rail Relocation and Improvement Fund in hopes of eliminating at grade rail crossings. The fund was created but unfortunately it was not funded.

TEX-21 was the first group to discuss high speed rail, with a goal to bring high speed rail to Texas. Our vision in the beginning was called the Texas T-Bone, which would be a line running from Houston to San Antonio, then north to DFW. We felt it would be the cheapest route that would cover the major cities because it eliminated the need for two independent lines running essentially parallel, Houston to DFW and San Antonio to DFW. We also were the first group to speak to the Japanese, French, and German Rail Companies about coming to Texas. At least one of those entities is planning to build high speed rail in Texas currently.

We began our research on the expansion of the Panama Canal long before we began making the annual TEX-21 Mission to Panama in 2009. TEX-21 realized that the expansion of the Panama Canal could jeopardize the usefulness of Texas gulf ports because the major shipping companies would be using ships with a wider body and deeper draft. At the time, Texas ports could not accommodate the vast sizes of these new vessels. Numerous legislators have traveled with us on these research missions to Panama.

We brought the research to the Texas Legislature and it was given a subcommittee hearing, but until recently, nothing moved forward. However this year, Texas Lieutenant Governor Dan Patrick and Speaker of the House Joe Straus realized through TEX-21's efforts that Texas is a Maritime State, and that billions of dollars in trade passes through these ports annually. They also understood that no one along the Gulf had prepared for the new ships, meaning Texas could be the first. Texas has a huge advantage over the West coast ports because it is a right to work state, eliminating the possibility of our gulf ports having the numerous labor problems that West Coast ports have historically been plagued with. The delays at West Coast ports can cost a big box store $1.5 billion a day.

The Lieutenant Governor and Speaker both created a Select Committee on Ports to study the sea and inland ports to determine what would need to be done to keep them competitive. Kudos to Lt. Governor Patrick and Speaker Joe Straus for having the vision to establish the committees and to TEX-21 for continuing to present the information until someone took notice. Click to read more about our Third Coast Initiative.

IH-30 CORRIDOR TASK FORCE

MISSION

The mission of the TEX-21 IH-30 Corridor Task Force is to provide all Corridor stakeholders with the appropriate tools and avenues to improve, sustain, and further its viability as a preeminent national corridor.

VISION

The TEX-21 IH-30 Corridor Task Force will bring together key stakeholders along the entire IH-30 Corridor in Texas and Arkansas tasked with the creation of a focus on reinvigorating and greatly enhancing the commerce of transportation along one of the most vibrant and fastest-growing transportation Corridors in the country. In addition, TEX-21 will seek to educate and communicate the needs of the IH-30 corridor at all levels.

GOALS

The members of the TEX-21 IH-30 Corridor Task Force will pursue policies and infrastructure improvements along the Corridor that will better enable the safe, fast, and efficient movement of goods to and along the Corridor, thereby enhancing ongoing efforts to attract and retain world-class corporate residents to this growing region. By fostering and encouraging an informed and energized effort at the federal and state levels focused on the importance and potential of the IH-30 Corridor, the Corridor will be positioned to better provide for the mobility needs of the region's corporate and residential citizens.

OBJECTIVES

- The TEX-21 IH-30 Corridor Task Force will better position its members to obtain a greater percentage of all available resources at the federal and state levels for the improvement of Interstate 30.
- Through a coordinated effort of all stakeholders the Task Force will identify and maximize available transportation assets by undertaking the Task Force strategies such as a comprehensive survey of the entire IH-30 Corridor and creating a complete inventory of mobility resources.
- TEX-21 will identify ways by which the IH-30 corridor will not only attract further funding but have increased national visibility.

TEX-21
Transportation EXcellence for the 21st Century

Better Mobility Through Better Policy

The Third Coast Initiative

The Third Coast Initiative seeks to increase economic development throughout the state following expansion of our Texas Gulf (The Third Coast, after West and East Coast) seaports and the supporting railroads, docks, cranes and roads necessary to handle the additional movement of freight occasioned by the expansion of the Panama Canal, which allows the giant post-Panamax ships to transit the Canal, which began in June 2016.

Texas currently spends almost no money on Texas ports, leaving it to local government entities to pay for with local taxes, while other states on the Gulf Coast are dredging their shallow ports deeper, and making other capital improvements to handle huge ships laden with containers for retail stores, primarily from Asia, and enable U.S. exports to transit the Canal. The Texas Senate has appointed a Select Committee on Ports, and some members recently traveled to Panama with TEX-21 in early June to study the Canal expansion firsthand.

Click here for more information.

Expiring Revenue Enhancement (ERE) Initiative

Almost certainly, toll roads and Comprehensive Development Agreement (CDA) funding opportunities that TxDOT has used in the past will not be allowed going forward, leaving Texas with a deficit in maintenance and new road construction. To fill this enormous gap, TEX-21 has conceived an idea embraced by both sides of the aisle called ERE's that will NOT be a new tax, will not reduce current state or local revenues, and does NOT require tolls or reduction of the "rainy day fund" to be effective. We focus on the Commerce of Transportation and the growth of future state revenues to pay for projects.

If created by the Legislature, an ERE would allow TxDOT to develop new highway projects by creating state sales tax increment zones around transportation projects for funding. This way, the future state-portion only of sales tax growth would pay for the project. After a period of time the state sales tax growth would revert to the general fund as it does now. TEX-21 members created this idea, and have done sales tax research to show the Legislature how beneficial this approach will be.

Click here for more information.

Right of Way Preservation Initiative

TEX-21 is also researching the opportunity to preserve right of way (ROW) for future transportation projects without additional cost and without constituting a taking, so that there would be less need to condemn land or purchase land already developed. This approach would allow cities, counties, and the state to preserve right of way before development happens and impedes a needed road or highway expansion, or makes it more expensive to acquire. If the transportation project is not developed within a set period of time, then the ROW would be released for use to the owner. TEX-21 is looking for a solution that would be mutually beneficial to the land owner/developer and to the State.

Property Taxes Initiative

With the public desire to limit property tax growth in Texas, TEX-21 is committed to working with the Legislature to make sure sensible proposals are discussed in the upcoming Legislative session that will help and not harm TEX-21 members.

CITY OF ROCKWALL, TEXAS
MEMORANDUM

TO: Mayor and City Council

CC: Rick Crowley, *City Manager*
Brad Griggs, *Assistant City Manager*

FROM: Ryan Miller, *Director of Planning and Zoning*

DATE: May 7, 2018

SUBJECT: Request for a Facilities Agreement for Rodeo Goat (2095 Summer Lee Drive)

On April 6, 2018, a remodel permit was submitted for 2095 Summer Lee Drive, which is located within the Harbor Retail development. According to the plans submitted to the Building Inspections Department, the proposed user will be a restaurant with outdoor dining (*i.e. Rodeo Goat Ice House and Patio Restaurant*). When the Harbor Retail development was constructed portions of the patios facing Lake Ray Hubbard were constructed within the takeline (*i.e. not on the Harbor Retail property*), which is owned by the City of Dallas and sub-leased by the City of Rockwall. In this case, the restaurant is proposing to expand the outdoor dining space into portions of the patio that are within this subleased area. In addition, the plans show that the proposed tenant would like to (1) remove pavers in this area of the patio to utilize decomposed granite, and (2) incorporate additional planters that will act as a barrier along the boundaries of the outdoor dining space. Since this request deals with physical changes to the patio space on the City's subleased land, staff suggested that the applicant -- *Jim Zeigler of PegasusAblon* -- approach the City Council to request a facilities agreement for the affected areas.

Attached to this memorandum is a copy of Mr. Zeigler's request. If approved, City staff will work with the City Attorney to draft a facilities agreement that allows the pavers to be removed and replaced with decomposed granite. The applicant has indicated a willingness to include a clause in the agreement that would require the area to be returned to its current condition should the restaurant discontinue the use of the patio. In addition to the applicant's request staff has included exhibits showing the location of the proposed outdoor dining area and the proposed improvements. Should the City Council have any questions staff and the applicant will be available at the May 7, 2018 City Council meeting.

Ryan,
Let me know if you need anything else to put us on next Mondays council meeting agenda to request the approval of a facilities agreement. The agreement should allow us to remove the concrete and pavers in the defined area along with the understanding that we would be responsible for replacing what we remove should the restaurant cease using the area as a patio.
Thanks

Jim Ziegler

MEMORANDUM

TO: **Honorable Mayor and City Council**

FROM: **Jeffrey Widmer, Building Official**

DATE: **5/7/2018**

SUBJECT: **Setback variance request for a sign to be moved at 102 N. Fannin**

Ms. Annette Lall, representing The Shops at Legacy Village has asked to appear before the City Council to request a variance to allow an existing sign to be relocated on the property, which would not meet the City's setback requirement of 10' from a property line.

Ms. Lall believes they need their sign to be more visible, and therefore is asking to move the sign closer to the street with a 0' setback.

This property is historic and changes or improvements on the property require approval from the Historic Preservation Advisory Board. Ms. Lall has taken her request to relocate the sign to the HPAB and the Board approved her request.

City of Rockwall
The New Horizon

MEMORANDUM

TO: **Mayor and City Council**

FROM: **Bethany Browning, Main Street Manager**

DATE: **May 3, 2018**

SUBJECT: **Art in Public Places**

The City of Rockwall allocates 1% of CIP project costs, excluding land acquisition and utilities, for fine arts projects. Two CIP's were passed in 2012, one for downtown improvements, the other for road improvements. The art commission has completed one project downtown and is considering another proposal. The art fund balance for the DT CIP is $64,000.00.

Once road improvements are completed, the commission will consider art projects in those areas. The Texas Government code states funds shall be used for fine arts projects at or near the site of the construction project. In consideration of future art projects, staff is seeking council direction in defining "near the site of construction."

Approximately $175,000.00 will be available once all road improvement projects are complete. Included is a map of road improvement areas for your review.

MEMORANDUM

TO: **Rick Crowley, City Manager**

FROM: **Cheryl Dunlop - Director, Administrative Services**

DATE: **May 4, 2018**

SUBJECT: **Amendment to Ordinance-Pre-65 Retiree Health Care Insurance**

Council is asked to consider approval of the ordinance amendment which will provide additional levels of benefit coverage for longer tenured employees as they approach retirement age. Staff will be available to answer any questions Council may have.

CITY OF ROCKWALL, TEXAS
ORDINANCE NO. 18-___

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS AMENDING ORDINANCE 10-37 REVISING THE OFFERING OF HEALTH BENEFITS COVERAGE TO CITY OF ROCKWALL PRE-65 RETIREES; REPEALING ALL ORDINANCES AND OR PROVISIONS IN CONFLICT; AND PROVIDING FOR AN EFFECTIVE DATE

WHEREAS, the *City of Rockwall* of Rockwall County ("City of Rockwall") adopted Ordinance 10-37 on December 20, 2010 to provide health benefits coverage to its retirees prior to age 65 ("retirees"); and

WHEREAS, TML Intergovernmental Employee Benefits Pool is a health risk pool established pursuant to Texas Local Government Code Chapter 172, Texas Government Code Chapter 791, and the Texas Trust Code to provide health benefits coverage for employees and retirees and dependents of employees and retirees, of Texas political subdivisions under an Interlocal agreement; and

WHEREAS, the *City of Rockwall* is currently offering health benefits coverage through the TML Intergovernmental Employee Benefits Pool pursuant to Interlocal Agreement and Chapters 172 and 175 of the Texas Local Government Code, both of which would allow the extension of benefits to retirees of the *City of Rockwall*; and

WHEREAS, the *City of Rockwall* desires to revise the retiree medical contribution for under age 65 retirees through the TML Intergovernmental Employee Benefits Pool and that the cost for such coverage be paid for by the individual retiree; and

WHEREAS, providing retiree coverage under the TML Intergovernmental Employee Benefits Pool Interlocal Agreement is in the best interest of the *City of Rockwall*, its retirees, and the public generally.

THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS THAT:

SECTION 1: The foregoing recitals are incorporated into this Ordinance as findings of fact.

SECTION 2: The *City of Rockwall* hereby elects to revise Ordinance 10-37 the retiree medical contribution for under age 65 to repeal Section 4 of that Ordinance and for the new Section to read as follows:

The Interlocal Agreement in effect between the *City of Rockwall* and the TML Intergovernmental Employee Benefits Pool provides that the Board of Trustees may adopt rules and regulations. The rules and regulations of the TML Intergovernmental Employee Benefits Pool allow the participating member entity to provide retiree medical coverage at the same contribution as charged to active employees, to select a contribution level which is an elevated percentage (150%, 160%, etc. which may change from time to time) of the active employee contribution or to offer over age 65 retirees a Medicare Supplement.

The *City of Rockwall* elects to have the retiree medical contribution for under age 65 retirees be that which is established annually by TML IEBP.

- Retirees that have been with the *City of Rockwall* less than 20 years of employment, the City will pay 25% of the Bronze Plan per month for the retiree coverage regardless of what plan is selected.
- Retirees that have been with the City for 20 years but less than 25, the City will pay 60% of the Bronze Plan per month for the retiree coverage regardless of what plan is selected.
- Retirees that have been with the City for 25 years or more, the City will pay 75% of the Bronze Plan per month for the retiree coverage regardless of what plan is selected.

At the age of 65 the retiree is no longer eligible to continue coverage through the TML Intergovernmental Employee Benefits Pool.

SECTION 3: All other provisions found in Ordinance 10-37 shall remain in effect unless repealed by this Ordinance.

SECTION 4: The City of Rockwall shall continue to adopt on an annual basis any additional or alternative retiree benefit plans to be provided through TML Intergovernmental Employee Benefits Pool. The cost of these plans shall be paid for entirely by the retiree.

SECTION 5: This ordinance will only apply to individuals retiring after its effective date or to employees, which retired under a previous ordinance. For individuals retiring after the effective date of this ordinance to qualify they must enroll for this coverage within thirty (30) days of their retirement.

SECTION 6 This ordinance may be repealed or modified at any time, but will remain in effect for any employee retiring while it is in effect.

SECTION 7: All existing *City of Rockwall* ordinances in conflict with the provisions of this Ordinance are repealed to the extent of the conflict.

SECTION 8: The Ordinance shall take effect immediately upon its second reading as required by the City Charter, Section 3.11 and the publication of the caption of said ordinance as the law in such cases provides.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS THIS 21ST DAY OF MAY, 2018.

Jim Pruitt, Mayor

ATTEST:

Kristy Cole, City Secretary

MEALS on WHEELS
SENIOR SERVICES
of Rockwall County
950 Williams St
Bldg. C Ste. 200
Rockwall, TX 75087
972-771-9514

April 10, 2018

Dear City of Rockwall Council Members,

May is National Older Americans Month, a federally proclaimed annual celebration. Meals on Wheels Senior Services are honoring Rockwall County seniors, programs, and volunteers serving our elderly community. The National Theme this Year is: **Engage at Every Age**!! Enclosed is the information from the Federal Website. Please submit two nominees for an award for an outstanding senior who is making a difference in the senior community. Please call the office at:

972-771-9514 or send e-mail to:
rockwallmow@hotmail.com

We are having the proclamations and awards presented at a reception on Thursday, May 10th, 1:00p.m. at the Rockwall County Library, 1215 Yellowjacket Lane, Rockwall, TX 75087. Thank you for your time! The Seniors of Rockwall County really appreciate all your efforts.

Sincerely,

Margie VerHagen
Executive Director

150

OLDER AMERICANS MONTH
ENGAGE AT EVERY AGE: MAY 2018

Older Americans Month 2018: Engage at Every Age

Across the country, older Americans – a rapidly growing population – are taking part in activities that promote wellness and social connection. They are sharing their wisdom and experience with future generations, and they are giving back to make enrich their communities. They're working and volunteering, mentoring and learning, leading and engaging.

For 55 years, Older Americans Month (OAM) has been observed to recognize older Americans and their contributions to our communities. Led by the Administration for Community Living's Administration on Aging, every May offers opportunity to hear from, support, and celebrate our nation's elders. This year's OAM theme, "**Engage at Every Age**," emphasizes the importance of being active and involved, no matter where or when you are in life. You are never too old (or too young) to participate in activities that can enrich your physical, mental, and emotion well-being.

It is becoming more apparent that remaining socially engaged can improve the quality of life for older adults. Meals on Wheels Senior Services will use OAM 2018 to focus on how older adults in our area are engaging with friends and family, and through various community activities. Throughout the month MOWSS will conduct activities and share information designed to highlight supportive services.

AGENDA
ROCKWALL CITY COUNCIL
Monday, May 14, 2018
5:00 p.m. Special City Council Meeting
City Hall - 385 S. Goliad, Rockwall, Texas 75087

I. Call Public Meeting to Order

II. Discuss and consider adoption of a resolution canvassing the returns and declaring the results of the May 5, 2018 City of Rockwall General Election, and take any action necessary

III. Discuss and consider adoption of a resolution canvassing the returns and declaring results of the May 5, 2018 City of Rockwall Bond Election, and take any action necessary.

IV. Adjournment

This facility is wheelchair accessible and accessible parking spaces are available. Request for accommodations or interpretive services must be made 48 hours prior to this meeting. Please contact the City Secretary's Office at (972) 771-7700 or FAX (972) 771-7727 for further information.

The City of Rockwall City Council reserves the right to adjourn into executive session at any time to discuss any of the matters listed on the agenda above, as authorized by Texas Government Code § 551.071 (Consultation with Attorney) § 551.072 (Deliberations about Real Property) § 551.074 (Personnel Matters) and § 551.086 (Economic Development)

I, Kristy Cole, City Secretary for the City of Rockwall, Texas, do hereby certify that this Agenda was posted at City Hall, in a place readily accessible to the general public at all times, on the 11th day of May, 2018 at 4:00 p.m. and remained so posted for at least 72 continuous hours preceding the scheduled time of said meeting.

CITY OF ROCKWALL

RESOLUTION NO. 18-11

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, ACCEPTING AND CONFIRMING THE CANVASSING OF THE ELECTION RETURNS, INCLUDING THE RETURNS OF EARLY VOTING BALLOTS CAST IN CONNECTION THEREWITH, AND ACCEPTING THE DECLARATION OF THE RESULTS OF THE GENERAL MUNICIPAL ELECTION, WHICH WAS HELD ON MAY 5, 2018, FOR THE PURPOSE OF ELECTING THREE COUNCILMEMBERS FOR PLACES 2, 4 AND 6, EACH FOR A TWO-YEAR TERM; ACCEPTING ISSUANCE OF CERTIFICATES OF ELECTION; ACCEPTING ISSUANCE OF THE CANVASS OF GENERAL MUNICIPAL ELECTION WHICH WAS HELD MAY 5, 2018; PROVIDING FOR A SEVERABILITY CLAUSE AND PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, on February 5, 2018, the City Council of the City of Rockwall, Texas (hereinafter referred to as the "City") passed and approved Resolution No. 18-01, which ordered a general municipal election (hereinafter referred to as the "General Municipal Election") to be held on May 5, 2018, for the purpose of electing three (3) Council Members for Places 2, 4 and 6, each for two-year terms; and

WHEREAS, the City Council of the City of Rockwall has heretofore caused to be posted and published in accordance with the election laws of the State of Texas, notices of the General Municipal Election held on May 5, 2018; and

WHEREAS, the Rockwall City Secretary and Rockwall County Election Administrator have obtained said affidavits of the posting and publication of the notices of the General Municipal Election; and

WHEREAS, the General Municipal Election was duly and legally held on May 5, 2018, in the City and in conformity with the election laws of the State of Texas, and the results of the General Municipal Election, including the early voting results, have been certified and returned by the proper judges and clerks thereof; and

WHEREAS, the City Secretary, acting as general custodian of the election records, presented the official returns of the presiding judge of the General Municipal Election, including the returns of early voting ballots cast in connection therewith, to the Canvassing Board; and

WHEREAS, the City Council of the City of Rockwall, acting in its capacity as the Canvassing Board for the General Municipal Election, considered the returns of said General Municipal Election, including the returns of early voting ballots cast in connection therewith in a meeting of the Canvassing Board, held at a Special Rockwall City Council Meeting, held on May 14, 2018 in the City Council Chambers at Rockwall City Hall, said date being in accord with Section 67.003 Texas Election Code; and

WHEREAS, the returns of the General Municipal Election, including the returns of early voting ballots cast in connection therewith, duly and legally made, showed the total valid and legal

votes reflected in and attached as **"Exhibit A"** to this resolution, which were read into the record and canvassed by the Canvassing Board on May 14, 2018; and

WHEREAS, pursuant to state law and Section 5.04(1) of the City Charter, the candidate for elective office receiving a plurality of the votes cast will be declared the winner.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:

SECTION 1. INCORPORATION OF PREMISES. That all of the above premises are found and determined to be true and correct and are incorporated into the body of this resolution as if copied in their entirety.

SECTION 2. CONFIRMATION OF VOTE TABULATIONS. That it is further found and determined that the results of the General Municipal Election, as canvassed and tabulated in the preamble of this resolution and approved by the Canvassing Board on May 14, 2018 during a Special Rockwall City Council meeting, reflect the expressed desires of the resident, qualified electors of the City.

SECTION 3. ELECTED OFFICIALS; TERMS OF OFFICE. That the duly elected members of the City Council of the City of Rockwall, elected May 5, 2018, for Places 2, 4, and 6 and the corresponding terms of office, subject to the taking of the oaths of office as required by the laws of the State of Texas, are as follows (see also **"EXHIBIT A"**):

OFFICE	NAME	TERM
Place 2	**John Hohenshelt**	**Two (2) Years – ending May 2020**
Place 4	**Trace Johannesen**	**Two (2) Years – ending May 2020**
Place 6	**Patrick Trowbridge**	**Two (2) Years – ending May 2020**

SECTION 4. ISSUANCE OF CERTIFICATES OF ELECTION. That the Mayor has been authorized and directed to execute and deliver Certificates of Election to the successful candidates elected at the General Municipal Election as specified in Section 3 of this resolution.

SECTION 5. ISSUANCE OF CANVASS OF GENERAL MUNICIPAL ELECTION. That the Mayor has executed and delivered the Canvass of the General Municipal Election in accordance with the election laws of the State of Texas and as attached hereto as **"Exhibit B."**

SECTION 6. DECLARING AN EFFECTIVE DATE. This resolution shall be in full force and effect from and after its passage, and it is accordingly so resolved.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS (THE CANVASSING AUTHORITY / BOARD) ON THIS 14th DAY OF MAY, 2018.

I, Christopher J. Lynch, the undersigned Elections Administrator of Rockwall County, do hereby certify that I have made the actual check and comparison of all the ballots tabulated as voted with Return Sheets, and the unused ballots as recorded on the Register of Official Ballots. I, therefore make the following finding from the May 5, 2018 City Election that was held in Rockwall County, Texas.

A Ballot Board was convened on 9 May at the Rockwall County Elections Administrators office; as a result, 12 additional ballots were accepted and reconciled. The results are as follows: (7) additional votes were cast for John Hohenshelt, (5) additional votes were cast for Trace Johannsen and (6) additional votes were cast for Enid Reyes. (3) additional votes were cast for Andrew Greenberg (9) additional votes were cast for Patrick Trowbridge. (8) additional votes were cast for Proposition A and 4 votes were cast against Proposition A

I, hereby certify the results to be full, true and correct tabulation, audit and count of the votes cast in the said election.

WITNESSED, by my hand on this 8th day May 2018.

CITY OF ROCKWALL

RESOLUTION NO. 18-12

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, CANVASSING RETURNS AND DECLARING THE RESULTS OF A BOND ELECTION WHICH WAS HELD ON MAY 5, 2018; PROVIDING FOR AN EFFECTIVE DATE; AND CONTAINING PROVISIONS NECESSARY AND INCIDENTAL THERETO.

WHEREAS, on February 5, 2018, through passage of Resolution No. 18-03, the Rockwall City Council duly authorized an election to be held within the City of Rockwall, Texas (the "City") on May 5, 2018 (the "Election"), for the purpose of submitting to the resident qualified electors of the City the proposition hereinafter set forth; and

WHEREAS, this City Council has investigated all matters pertaining to said Election; and

WHEREAS, the Election officers who held said Election have duly made the return of the results thereof, and said returns have been duly delivered to this City Council; and

WHEREAS, the City Council finds and declares that the meeting at which this Resolution is considered is open to the public as required by law, and that the public notice of the time, place and purpose of the meeting was given as required by Texas Government Code, Section 551.041, as amended;

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS THAT:

Section 1. It is officially found and determined that said Election was duly ordered; that proper notice thereof was duly given; that proper Election officers were duly appointed prior to said Election; that said Election was duly and lawfully held; that due returns of the result of said Election have been made and delivered; and that this City Council has duly canvassed said returns, all in accordance with law and the Resolution calling said Election; and

Section 2. It is officially found and determined that the following votes were cast at said Election on the submitted proposition by the resident qualified electors of the City who voted at said Election (see also **"EXHIBIT A"**):

CITY OF ROCKWALL, TEXAS SPECIAL ELECTION
CITY OF ROCKWALL, TEXAS PROPOSITION A

1,197	VOTES FOR	THE ISSUANCE OF $85,000,000 TAX BONDS BY THE CITY OF ROCKWALL, TEXAS FOR STREET AND ROAD
537	VOTES AGAINST	RECONSTRUCTION AND LEVYING THE TAX IN PAYMENT THEREOF

Section 3. As a result of said Election, and in conformity with law, this City Council is authorized to issue the bonds on behalf of the City in the manner and to the extent set forth in the proceedings calling said Election, and as and to the extent authorized by said Election; and

Section 4. This Resolution shall be in full force and effect from and after its passage and it is accordingly so resolved.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, this 14th day of MAY, 2018.

1. Appointment with the Planning and Zoning Chairman to discuss and answer any questions regarding cases on the agenda and related issues and take any action necessary.

XIII. PUBLIC HEARING ITEMS

p.159 **1.** **MIS2018-006** - Hold a public hearing to discuss and consider a City initiated request to amend the Comprehensive Plan by approving an **ordinance** changing to the Master Thoroughfare Plan Map contained within the Transportation section of the plan for the purpose of [1] reclassifying Horizon Road [FM-3097] from a M4U (minor arterial, four [4] lane, undivided roadway) to a TXDOT4D (TXDOT, four [4] lane, roadway) and [2] realigning Breezy Hill Road to reflect existing public right-of-way, and take any action necessary **(1st Reading).**

p.166 **2.** **Z2018-020** - Hold a public hearing to discuss and consider a request by Chris Tarrant for the approval of an **ordinance** for a Specific Use Permit (SUP) for an accessory building that does not meet the requirements stipulated by the Unified Development Code (UDC) on a 1.5087-acre tract of land identified as Lot 22, Block A, Sterling Farms Addition, City of Rockwall, Rockwall County, Texas, zoned Single Family Estate 1.5 (SFE-1.5) District, addressed as 3075 Golden Trail, and take any action necessary **(1st Reading).**

p.187 **3.** **Z2018-021** - Hold a public hearing to discuss and consider a request by Stephanie Marshall and Natalie Kirkley on behalf of Susan Gamez for the approval of an **ordinance** for a Specific Use Permit (SUP) for a daycare facility in a Residential-Office (RO) District on a 0.23-acre parcel of land identified as Lot 1, Block A, Gamez Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 53 (PD-53) for Residential-Office (RO) District land uses, addressed as 1024 Ridge Road [FM-740], and take any action necessary **(1st Reading).**

p.212 **4.** **Z2018-018** - Hold a public hearing to discuss and consider a City initiated zoning request for the approval of an **ordinance** for a text amendment to the Permissible Use Charts contained in Article IV, Permissible Uses, of the Unified Development Code [Ordinance No. 04-38] for the purpose of allowing the Furniture Upholstery, Refinishing or Resale land use by Specific Use Permit (SUP) in the Commercial (C) District, and take any action necessary **(1st Reading).**

p.218 **5.** **Z2018-019** - Hold a public hearing to discuss and consider a City initiated zoning request for the approval of an **ordinance** for a text amendment to the Permissible Use Charts and Use Standards contained in Article IV, Permissible Uses, of the Unified Development Code [Ordinance No. 04-38] for the purpose of allowing the Brewery or Distillery (Excluding Brew Pub) land use by Specific Use Permit (SUP) in the Downtown (DT) District, and take any action necessary **(1st Reading).**

XIV. ACTION ITEMS

p.241 **1.** **MIS2018-009** - Discuss and consider a request by John Arnold of BH Phase 8, LLC for the approval of a variance to the minimum landscape buffer requirements stipulated by Planned Development District 74 (PD-74) [Ordinance No. 17-60] for Breezy Hill, Phase VIII on 30.785-acres of land identified as Tract 7 of the J. Strickland Survey, Abstract No. 187, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 74 (PD-74) for Single Family 10 (SF-10) District land uses, located along the eastern side of Breezy Hill Lane, and take any action necessary.

p.248 **2.** **P2018-001** - Discuss and consider a request by Chase Finch of Corwin Engineering, Inc. on behalf of John Arnold of BH Phase 8, LLC for the approval of a preliminary plat for Breezy Hill, Phase VIII containing 72 single-family residential lots on 30.785-acres of land identified as Tract 7 of the J. Strickland Survey, Abstract No. 187, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 74 (PD-74) for Single Family 10 (SF-10) District land uses, located along the eastern side of Breezy Hill Lane, and take any action necessary.

p.253 **3.** **SP2018-011** - Discuss and consider a request by Andy Sebacher of Forum Studio Architects, Inc. on behalf of Alan Yu of Lollicup USA, Inc. for the approval of a variance in conjunction with an approved site plan for a manufacturing facility on a 34.23-acre tract of land identified as a portion of Lot 1, Block A, Rockwall, Technology Park, Phase 2 and Tract 2-01 of the J. H. B. Jones Survey, Abstract No. 125, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, located at the southeast corner of the intersection of Corporate Crossing [FM-3549] and Capital Boulevard, situated within the FM-549 Overlay (FM-549 OV) District, and take any action necessary.

p.269 **4.** **SP2018-008** - Discuss and consider a request by Worth Williams of Moore Worth Investment, LLC for the approval of variances in conjuction with an approved site plan for a restaurant on a 0.778-acre parcel of land identified as Lot 4, Block A, Lakeshore Commons Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 65 (PD-65) for General Retail (GR) District land uses, situated within the North SH-205 Overlay (N. SH-205 OV) District, addressed as 1901 N. Goliad Street, and take any action necessary.

p.279 **5.** **A2018-002** - Discuss and consider the expiration of existing 212 Development Agreements for two (2) areas contiguous with the City of Rockwall's corporate limits and being identified as: (Area 1) approximately 177.47-acres of land generally located southeast of Hanby Lane and Buffalo Way Road; and (Area 2) approximately 24.98-acres of land located along the southeast side of FM550, south of SH276; and take any action necessary.

p.303 **6.** Discuss and consider appointments to the city's Architectural Review Board, and take any action necessary.

XV. EXECUTIVE SESSION

THE CITY OF ROCKWALL CITY COUNCIL WILL RECESS INTO EXECUTIVE SESSION TO DISCUSS THE FOLLOWING MATTERS AS AUTHORIZED BY CHAPTER 551 OF THE TEXAS GOVERNMENT CODE:

1. Discussion regarding appointments to city regulatory boards, commissions, and committees - specifically the Planning & Zoning Commission and Building & Standards Commission - pursuant to Section 551.074 (Personnel Matters)
2. Discussion regarding purchase or lease of real property in the vicinity of County Line Rd. pursuant to Section §551.072 (Real Property) and Section §551.071 (Consultation with Attorney)
3. Discussion regarding appointment of city council subcommittees, board liaisons and designation of Mayor Pro Tem pursuant to Section, §551.074 (Personnel Matters)
4. Discussion regarding process and nomination to fill vacancy on Rockwall Central Appraisal District Board pursuant to Section 551.074 (Personnel Matters)
5. Discussion regarding the appeal to the Public Utility Commission filed by the cities of Garland, Mesquite, Plano and Richardson against the North Texas Municipal Water District (NTMWD) regarding water rates pursuant to §Section 551.071 (Consultation with Attorney)

6. Discussion regarding legal issues pertaining to potential annexation pursuant to Section §551.071 (Consultation with Attorney)
7. Discussion regarding Breezy Hill Road pursuant to § Section 551.071 (Consultation with Attorney)

XVI. RECONVENE PUBLIC MEETING & TAKE ANY ACTION AS RESULT OF EXECUTIVE SESSION

XVII. ADJOURNMENT

This facility is wheelchair accessible and accessible parking spaces are available. Request for accommodations or interpretive services must be made 48 hours prior to this meeting. Please contact the City Secretary's Office at (972) 771-7700 or FAX (972) 771-7727 for further information.

The City of Rockwall City Council reserves the right to adjourn into executive session at any time to discuss any of the matters listed on the agenda above, as authorized by Texas Government Code § 551.071 (Consultation with Attorney) § 551.072 (Deliberations about Real Property) § 551.074 (Personnel Matters) and § 551.086 (Economic Development)

I, Kristy Cole, City Secretary for the City of Rockwall, Texas, do hereby certify that this Agenda was posted at City Hall, in a place readily accessible to the general public at all times, on the 18th day of May, 2018 at 4:00 p.m. and remained so posted for at least 72 continuous hours preceding the scheduled time of said meeting.

MEMORANDUM

TO: **Mayor and City Council**

FROM: **Bethany Browning, Main Street Manager**

DATE: **May 3, 2018**

SUBJECT: **Art in Public Places**

The City of Rockwall allocates 1% of CIP project costs, excluding land acquisition and utilities, for fine arts projects. Two CIP's were passed in 2012, one for downtown improvements, the other for road improvements. The art commission has completed one project downtown and is considering another proposal. The art fund balance for the DT CIP is $64,000.00.

Once road improvements are completed, the commission will consider art projects in those areas. The Texas Government code states funds shall be used for fine arts projects at or near the site of the construction project. In consideration of future art projects, staff is seeking council direction in defining "near the site of construction."

Approximately $175,000.00 will be available once all road improvement projects are complete. Included is a map of road improvement areas for your review.

TITLE 4. EXECUTIVE BRANCH

SUBTITLE D. HISTORY, CULTURE, AND EDUCATION

CHAPTER 444. TEXAS COMMISSION ON THE ARTS

SUBCHAPTER A. GENERAL PROVISIONS AND ADMINISTRATION

Sec. 444.001. COMMISSION. The Texas Commission on the Arts is an agency of the state.

Acts 1987, 70th Leg., ch. 147, Sec. 1, eff. Sept. 1, 1987.

Sec. 444.002. APPLICATION OF SUNSET, OPEN MEETINGS, AND ADMINISTRATIVE PROCEDURES LAWS. (a) The Texas Commission on the Arts is subject to Chapter 325 (Texas Sunset Act). Unless continued in existence as provided by that chapter, the commission is abolished and this chapter expires September 1, 2025.

(b) The commission is subject to the open meetings law, Chapter 551, and the administrative procedure law, Chapter 2001.

Acts 1987, 70th Leg., ch. 147, Sec. 1, eff. Sept. 1, 1987. Amended by Acts 1991, 72nd Leg., 1st C.S., ch. 17, Sec. 2.12, eff. Nov. 12, 1991; Acts 1995, 74th Leg., ch. 76, Sec. 5.95(50), (83), eff. Sept. 1, 1995; Acts 1995, 74th Leg., ch. 108, Sec. 1, eff. Sept. 1, 1995.
Amended by:

Acts 2007, 80th Leg., R.S., Ch. 1232 (H.B. 2460), Sec. 1, eff. September 1, 2007.

Acts 2013, 83rd Leg., R.S., Ch. 68 (S.B. 202), Sec. 1, eff. August 26, 2013.

See Acts 2013, 83rd Leg., R.S., Ch. 68 (S.B. 202), Sec. 5(e), for provisional temporary suspension of the residency requirement of Subsection (a) until September 1, 2015.

Sec. 444.003. COMPOSITION; TERMS. (a) The commission is composed of nine members appointed by the governor with the advice and consent of the senate. The members must represent a diverse cross-section of the fields of the arts and be widely known for their professional competence and

experience in connection with the arts. At least two members must be residents of a county with a population of less than 50,000. Appointments to the commission shall be made without regard to the race, color, disability, sex, religion, age, or national origin of the appointees.

(b) A person may not be a member of the commission if the person or the person's spouse:

(1) is employed by or participates in the management of a business entity or other organization receiving money from the commission;

(2) owns or controls, directly or indirectly, more than a 10 percent interest in a business entity or other organization receiving money from the commission; or

(3) uses or receives a substantial amount of tangible goods, services, or money from the commission, other than compensation or reimbursement authorized by law for commission membership, attendance, or expenses.

(c) Members of the commission serve staggered terms of six years.

Acts 1987, 70th Leg., ch. 147, Sec. 1, eff. Sept. 1, 1987. Amended by Acts 1995, 74th Leg., ch. 108, Sec. 2, eff. Sept. 1, 1995; Acts 2003, 78th Leg., ch. 1170, Sec. 3.01, eff. Sept. 1, 2003.

Amended by:

Acts 2007, 80th Leg., R.S., Ch. 1232 (H.B. 2460), Sec. 2, eff. September 1, 2007.

Acts 2013, 83rd Leg., R.S., Ch. 68 (S.B. 202), Sec. 2, eff. August 26, 2013.

Acts 2013, 83rd Leg., R.S., Ch. 68 (S.B. 202), Sec. 3, eff. August 26, 2013.

Sec. 444.004. COMPENSATION. (a) A member of the commission is entitled to per diem as set by legislative appropriation for each day that the member engages in commission business.

(b) A member is not entitled to other compensation for service on the commission but is entitled to reimbursement for travel and other necessary expenses in the performance of commission business in an amount not exceeding the amount authorized to be paid a member of the legislature for similar expenses.

Acts 1987, 70th Leg., ch. 147, Sec. 1, eff. Sept. 1, 1987.

Sec. 444.005. OFFICERS. The governor shall designate a member of the commission as the presiding officer of the commission to serve in that

capacity at the pleasure of the governor. The commission may elect from its members other officers.

Acts 1987, 70th Leg., ch. 147, Sec. 1, eff. Sept. 1, 1987. Amended by Acts 1995, 74th Leg., ch. 108, Sec. 3, eff. Sept. 1, 1995.

Sec. 444.006. CONFLICT OF INTEREST; REMOVAL PROVISIONS. (a) A person may not be a member of the commission or act as the general counsel to the commission if the person is required to register as a lobbyist under Chapter 305 because of the person's activities for compensation on behalf of a profession related to the operation of the commission.

(b) A person may not be a member of the commission and may not be a commission employee employed in a "bona fide executive, administrative, or professional capacity," as that phrase is used for purposes of establishing an exemption to the overtime provisions of the federal Fair Labor Standards Act of 1938 (29 U.S.C. Section 201 et seq.) if:

(1) the person is an officer, employee, or paid consultant of a Texas trade association in the field of art; or

(2) the person's spouse is an officer, manager, or paid consultant of a Texas trade association in the field of art.

(c) Repealed by Acts 2007, 80th Leg., R.S., Ch. 1232, Sec. 9, eff. September 1, 2007.

(d) It is a ground for removal from the commission that a member:

(1) does not have at the time of taking office the qualifications required by Section 444.003(a);

(2) does not maintain during service on the commission the qualifications required by Section 444.003(a);

(3) is ineligible for membership under Subsection (a) or (b);

(4) cannot because of illness or disability discharge the member's duties for a substantial part of the member's term; or

(5) is absent from more than half of the regularly scheduled commission meetings that the member is eligible to attend during a calendar year without an excuse approved by majority vote of the commission.

(e) The validity of an action of the commission is not affected by the fact that it is taken when a ground for removal of a commission member exists.

(f) If the executive director has knowledge that a potential ground for removal exists, the executive director shall notify the presiding officer of the commission of the potential ground. The presiding officer shall then notify the governor and the attorney general that a potential

ground for removal exists. If the potential ground for removal involves the presiding officer, the executive director shall notify the next highest ranking officer of the commission, who shall then notify the governor and the attorney general that a potential ground for removal exists.

(g) In this section, "Texas trade association" means a cooperative and voluntarily joined statewide association of business or professional competitors in this state designed to assist its members and its industry or profession in dealing with mutual business or professional problems and in promoting their common interest.

Acts 1987, 70th Leg., ch. 147, Sec. 1, eff. Sept. 1, 1987. Amended by Acts 1995, 74th Leg., ch. 108, Sec. 4, eff. Sept. 1, 1995.
Amended by:

Acts 2007, 80th Leg., R.S., Ch. 1232 (H.B. 2460), Sec. 3, eff. September 1, 2007.

Acts 2007, 80th Leg., R.S., Ch. 1232 (H.B. 2460), Sec. 9, eff. September 1, 2007.

Sec. 444.007. RESPONSIBILITIES OF COMMISSION, EXECUTIVE DIRECTOR AND STAFF. (a) The commission may employ an executive director. The executive director shall hire the staff of the commission.

(b) The commission shall develop and implement policies that clearly separate the policy-making responsibilities of the commission and the management responsibilities of the executive director and the staff of the commission.

Acts 1987, 70th Leg., ch. 147, Sec. 1, eff. Sept. 1, 1987. Amended by Acts 1995, 74th Leg., ch. 108, Sec. 5, eff. Sept. 1, 1995.

Sec. 444.008. MEETINGS. (a) The commission may meet at the times and places within the state that the commission designates.

(b) The commission shall develop and implement policies that provide the public with a reasonable opportunity to appear before the commission and to speak on any issue under the jurisdiction of the commission.

Acts 1987, 70th Leg., ch. 147, Sec. 1, eff. Sept. 1, 1987. Amended by Acts 1995, 74th Leg., ch. 108, Sec. 6, eff. Sept. 1, 1995.

Sec. 444.009. RULES. The commission may adopt rules to govern itself, its officers, and its committees and may prescribe the duties of its officers, consultants, and employees.

Acts 1987, 70th Leg., ch. 147, Sec. 1, eff. Sept. 1, 1987.

Sec. 444.010. EMPLOYMENT PRACTICES. (a) The executive director or the executive director's designee shall develop an intra-agency career ladder program that addresses opportunities for mobility and advancement for employees within the commission. The program must require intra-agency posting of all positions concurrently with any public posting.

(b) The executive director or the executive director's designee shall develop a system of annual performance evaluations that are based on documented employee performance. All merit pay for commission employees must be based on the system established under this section.

(c) The executive director or the executive director's designee shall prepare and maintain a written policy statement to assure implementation of a program of equal employment opportunity under which all personnel transactions are made without regard to race, color, disability, sex, religion, age, or national origin. The policy statement must include:

(1) personnel policies, including policies relating to recruitment, evaluation, selection, appointment, training, and promotion of personnel that are in compliance with the requirements of Chapter 21, Labor Code;

(2) a comprehensive analysis of the commission's work force that meets federal and state guidelines;

(3) procedures by which a determination can be made about the extent of underuse in the commission work force of all persons for whom federal or state guidelines encourage a more equitable balance; and

(4) reasonable methods to address those areas of underuse appropriately.

(d) A policy statement prepared under Subsection (c) must cover an annual period, be updated annually and reviewed by the Commission on Human Rights for compliance with Subsection (c)(1), and be filed with the governor's office.

(e) The governor's office shall deliver a biennial report to the legislature based on the information received under Subsection (d). The report may be made separately or as a part of other biennial reports made to the legislature.

Acts 1987, 70th Leg., ch. 147, Sec. 1, eff. Sept. 1, 1987. Amended by Acts 1995, 74th Leg., ch. 108, Sec. 7, eff. Sept. 1, 1995.

Sec. 444.011. STANDARDS OF CONDUCT. The executive director or the executive director's designee shall provide to members of the commission and to commission employees, as often as necessary, information regarding their qualification for office or employment under this chapter and their responsibilities under applicable laws relating to standards of conduct for state officers or employees.

Acts 1987, 70th Leg., ch. 147, Sec. 1, eff. Sept. 1, 1987. Amended by Acts 1995, 74th Leg., ch. 108, Sec. 8, eff. Sept. 1, 1995.

Sec. 444.012. COMPLAINTS. (a) The commission shall maintain a system to promptly and efficiently act on complaints filed with the commission. The commission shall maintain information about parties to the complaint, the subject matter of the complaint, a summary of the results of the review or investigation of the complaint, and its disposition.

(b) The commission shall make information available describing its procedures for complaint investigation and resolution.

(c) The commission shall periodically notify the complaint parties of the status of the complaint until final disposition.

Acts 1987, 70th Leg., ch. 147, Sec. 1, eff. Sept. 1, 1987. Amended by Acts 1995, 74th Leg., ch. 108, Sec. 9, eff. Sept. 1, 1995.
Amended by:

Acts 2007, 80th Leg., R.S., Ch. 1232 (H.B. 2460), Sec. 4, eff. September 1, 2007.

Sec. 444.013. ACCESSIBILITY. The commission shall comply with federal and state laws related to program and facility accessibility. The executive director shall also prepare and maintain a written plan that describes how a person who does not speak English can be provided reasonable access to the commission's programs and services.

Added by Acts 1995, 74th Leg., ch. 108, Sec. 11, eff. Sept. 1, 1995.

Sec. 444.014. TRAINING. (a) The commission shall establish a training program for commission members.

(b) A person who is appointed to and qualifies for office as a member of the commission may not vote, deliberate, or be counted as a member in attendance at a meeting of the commission until the person completes a training program that complies with this section.

(c) The training program must provide the person with information regarding:

(1) the legislation that created the commission; its programs, functions, rules, and budget;

(2) the results of the most recent formal audit of the commission;

(3) the requirements of laws relating to open meetings, public information, administrative procedure, and conflict of interest; and

(4) any applicable ethics policies adopted by the commission or the Texas Ethics Commission.

(d) A person appointed to the commission is entitled to reimbursement, as provided by the General Appropriations Act, for the travel expenses incurred in attending the training program regardless of whether the attendance at the program occurs before or after the person qualifies for office.

Added by Acts 1995, 74th Leg., ch. 108, Sec. 11, eff. Sept. 1, 1995.
Amended by:

Acts 2007, 80th Leg., R.S., Ch. 1232 (H.B. 2460), Sec. 5, eff. September 1, 2007.

Sec. 444.015. USE OF TECHNOLOGY. The commission shall implement a policy requiring the commission to use appropriate technological solutions to improve the commission's ability to perform its functions. The policy must ensure that the public is able to interact with the commission on the Internet.

Added by Acts 2007, 80th Leg., R.S., Ch. 1232 (H.B. 2460), Sec. 6, eff. September 1, 2007.

Sec. 444.016. NEGOTIATED RULEMAKING AND ALTERNATIVE DISPUTE RESOLUTION POLICY. (a) The commission shall develop and implement a policy to encourage the use of:

(1) negotiated rulemaking procedures under Chapter 2008 for the adoption of commission rules; and

(2) appropriate alternative dispute resolution procedures under Chapter 2009 to assist in the resolution of internal and external disputes under the commission's jurisdiction.

(b) The commission's procedures relating to alternative dispute resolution must conform, to the extent possible, to any model guidelines

issued by the State Office of Administrative Hearings for the use of alternative dispute resolution by state agencies.

(c) The commission shall designate a trained person to:

(1) coordinate the implementation of the policy adopted under Subsection (a);

(2) serve as a resource for any training needed to implement the procedures for negotiated rulemaking or alternative dispute resolution; and

(3) collect data concerning the effectiveness of those procedures, as implemented by the commission.

Added by Acts 2007, 80th Leg., R.S., Ch. 1232 (H.B. 2460), Sec. 6, eff. September 1, 2007.

SUBCHAPTER B. POWERS AND DUTIES; FUNDING

Sec. 444.021. GENERAL DUTIES. (a) The commission shall:

(1) foster the development of a receptive climate for the arts that will culturally enrich and benefit state citizens in their daily lives;

(2) make visits and vacations to the state more appealing to the world;

(3) attract, through appropriate programs of publicity and education, additional outstanding artists to become state residents;

(4) direct activities such as the sponsorship of lectures and exhibitions and the central compilation and dissemination of information on the progress of the arts in the state;

(5) provide advice to the comptroller, Texas Historical Commission, Texas State Library, Texas Tourist Development Agency, Texas Department of Transportation, and other state agencies to provide a concentrated state effort in encouraging and developing an appreciation for the arts in the state;

(6) provide advice relating to the creation, acquisition, construction, erection, or remodeling by the state of a work of art; and

(7) provide advice, on request of the governor, relating to the artistic character of buildings constructed, erected, or remodeled by the state.

(b) The commission shall not knowingly foster, encourage, promote, or fund any project which includes obscene material as defined in Section 43.21, Penal Code.

Acts 1987, 70th Leg., ch. 147, Sec. 1, eff. Sept. 1, 1987. Amended by Acts 1995, 74th Leg., ch. 108, Sec. 10, eff. Sept. 1, 1995; Acts 1995, 74th Leg., ch. 165, Sec. 22(35), eff. Sept. 1, 1995.

Amended by:

Acts 2007, 80th Leg., R.S., Ch. 937 (H.B. 3560), Sec. 1.48, eff. September 1, 2007.

Sec. 444.022. GATHERING OF INFORMATION. The commission may conduct research, investigations, and inquiries necessary to inform the commission of the development of the arts in the state.

Acts 1987, 70th Leg., ch. 147, Sec. 1, eff. Sept. 1, 1987.

Sec. 444.023. COMMITTEES; CONSULTANTS. (a) The commission may appoint committees from its membership and prescribe their duties.

(b) The commission may appoint consultants to the commission. In appointing consultants, the commission shall attempt to achieve representation from each geographic area of the state and from the various racial and ethnic groups present in the state.

Acts 1987, 70th Leg., ch. 147, Sec. 1, eff. Sept. 1, 1987.

Sec. 444.024. GRANTS. (a) The commission may award grants in accordance with the commission's mission to advance the state economically and culturally by investing in the arts in this state.

(a-1) An applicant for a grant of money from the commission shall specify in the grant application a minimum and maximum amount of money requested.

(b) Before making a grant of money, the commission shall submit the grant application to a panel of commission consultants for its recommendations. The panel shall include in its recommendations its determination of the reasonableness of the proposed amounts of funding.

(c) The commission by rule shall adopt equitable procedures for the distribution of grants to recipients who reflect the geographical, cultural, and ethnic diversity of the state's population.

(d) The commission shall adopt rules to govern the review, approval, and oversight of special initiative grants. The rules must provide for:

(1) commission approval of special initiative grants, including expedited approval of the grants in limited circumstances for cases requiring immediate action;

(2) criteria to be used in reviewing and evaluating special initiative grant applications; and

(3) procedures to be used in determining the amounts of the special initiative grants.

Acts 1987, 70th Leg., ch. 147, Sec. 1, eff. Sept. 1, 1987. Amended by Acts 1993, 73rd Leg., ch. 951, Sec. 2, eff. Sept. 1, 1993.
Amended by:

Acts 2007, 80th Leg., R.S., Ch. 1232 (H.B. 2460), Sec. 7, eff. September 1, 2007.

Acts 2013, 83rd Leg., R.S., Ch. 68 (S.B. 202), Sec. 4, eff. August 26, 2013.

Sec. 444.025. DONATIONS; APPROPRIATIONS; LICENSING AND SALES REVENUE; AUDIT. (a) The commission may accept on behalf of the state donations of money, property, and art objects as it determines best further the orderly development of the artistic resources of the state. Money paid to the commission under this chapter shall be deposited in the Texas Commission on the Arts operating fund.

(b) The commission may solicit donations from an appropriate source.

(c) The commission by rule shall establish an acquisition policy for accepting property and art objects.

(d) The legislature may make appropriations to the commission to carry out the purposes of this chapter.

(e) The commission may license for a fee the use of its name or logo and any other artwork or graphics developed by the commission to a private vendor for the promotion of the arts in Texas, for fundraising for the commission, or for any other lawful purpose of the commission. The commission shall require that the use of the licensed property be consistent with the mission of the commission. The licensing fees shall be deposited in the Texas Commission on the Arts operating fund.

(f) The commission may purchase and resell such items described in Subsection (e) as it determines appropriate for the promotion of the arts in Texas, provided that the value of commission inventory, as determined by generally accepted accounting principles, shall not exceed $50,000 at the end of any fiscal year. The net profits from those sales shall be deposited in the Texas Commission on the Arts operating fund.

(g) The financial transactions of the commission are subject to audit by the state auditor in accordance with Chapter 321, Government Code.

(h) Repealed by Acts 2011, 82nd Leg., R.S., Ch. 1083, Sec. 25(45), eff. June 17, 2011.

(i) All money paid to the commission under this chapter is subject to Subchapter F, Chapter 404.

(j) The commission shall adopt rules to govern its acceptance of private gifts, grants, and donations to ensure that the use of the money or property supports the commission's primary functions. At a minimum, the rules must:

(1) require the commission to evaluate a gift, grant, or donation before acceptance to ensure that the purpose of the gift, grant, or donation supports the commission's priorities as established by statute and the commission's appropriations pattern;

(2) prohibit the commission from creating and directly administering programs for the purpose of qualifying for or complying with a condition for the acceptance of private funding; and

(3) require the commission, before acceptance of a gift, grant, or donation, to evaluate any obligations the commission would have to meet in order to accept the gift, grant, or donation, including required matching funds, the amount of staff time and effort, and any other additional costs.

Acts 1987, 70th Leg., ch. 147, Sec. 1, eff. Sept. 1, 1987. Amended by Acts 1989, 71st Leg., ch. 584, Sec. 94, eff. Sept. 1, 1989; Acts 1993, 73rd Leg., ch. 951, Sec. 3, eff. Sept. 1, 1993; Acts 1995, 74th Leg., ch. 108, Sec. 12, eff. Sept. 1, 1995; Acts 1997, 75th Leg., ch. 346, Sec. 1, eff. Sept. 1, 1997.

Amended by:

Acts 2007, 80th Leg., R.S., Ch. 1232 (H.B. 2460), Sec. 8, eff. September 1, 2007.

Acts 2009, 81st Leg., R.S., Ch. 666 (H.B. 2242), Sec. 1, eff. June 19, 2009.

Acts 2011, 82nd Leg., R.S., Ch. 1083 (S.B. 1179), Sec. 25(45), eff. June 17, 2011.

Sec. 444.027. TEXAS COMMISSION ON THE ARTS OPERATING FUND. (a) The Texas Commission on the Arts operating fund is a special fund in the state treasury.

(b) Money deposited to the credit of the operating fund may be appropriated only to carry out the commission's powers and duties under

this chapter and for necessary administrative costs incurred by the commission under this chapter.

(c) The operating fund is exempt from the application of Sections 403.095 and 404.071. Interest received from investments of money in the operating fund shall be allocated monthly by the comptroller to the operating fund.

Added by Acts 1993, 73rd Leg., ch. 951, Sec. 4, eff. Sept. 1, 1993. Amended by Acts 1997, 75th Leg., ch. 1423, Sec. 8.16, eff. Sept. 1, 1997.

Sec. 444.029. EXPENDITURES FOR FINE ARTS PROJECTS ON CERTAIN PUBLIC CONSTRUCTION PROJECTS. (a) Any using agency exempt from Chapter 2166 under Section 2166.003 and any county, municipality, or other political subdivision of this state undertaking a public construction project estimated to cost more than $250,000 may specify that a percentage not to exceed one percent of the cost of the construction project shall be used for fine arts projects at or near the site of the construction project.

(b) The using agency or the governing body of a political subdivision may consult and cooperate with the commission for advice in determining how to use the portion of the cost set aside for fine arts purposes.

(c) The commission shall place emphasis on works by living Texas artists whenever feasible and, when consulting with the governing body of a political subdivision, shall place emphasis on works by artists who reside in or near the political subdivision. Consideration shall be given to artists of all ethnic origins.

(d) In this section, "construction," "cost of a project," "project," and "using agency" have the meanings assigned by Section 2166.001.

Acts 1979, 66th Leg., p. 1908, ch. 773, Sec. 5.19, eff. Sept. 1, 1979. Amended by Acts 1991, 72nd Leg., 2nd C.S., ch. 8, Sec. 2.20, eff. Sept. 1, 1991. Redesignated from Vernon's Ann.Civ.St. art. 601b, Sec. 5.19 and amended by Acts 1995, 74th Leg., ch. 41, Sec. 2, eff. Sept. 1, 1995.

Sec. 444.030. MEMORANDA OF UNDERSTANDING WITH OTHER STATE AGENCIES. (a) The commission shall initiate negotiations for and enter into a memorandum of understanding with each state agency involved in the arts to cooperate in program planning and budgeting.

(b) The commission shall enter into an agreement as required by Subsection (a) with the:

(1) Central Education Agency regarding the arts in education program in the public schools;

(2) Music, Film, Television, and Multimedia Office in the governor's office regarding work with the state's music and film industries; and

(3) Texas Department of Commerce, Texas Department of Transportation, and Parks and Wildlife Department regarding state tourism promotion efforts.

(c) Each agency listed in Subsection (b) may enter into memoranda of understanding in areas other than those listed for the respective agency.

(d) A memorandum of understanding between the commission and another state agency must be adopted by the governing bodies of the commission and the other state agency.

(e) After a memorandum of understanding is adopted, the commission shall publish the memorandum of understanding in the Texas Register.

Added by Acts 1995, 74th Leg., ch. 108, Sec. 13, eff. Sept. 1, 1995. Renumbered from Government Code Sec. 444.029 by Acts 1997, 75th Leg., ch. 165, Sec. 31.01(38), eff. Sept. 1, 1997.

Sec. 444.031. CULTURAL AND FINE ARTS DISTRICT PROGRAM. (a) The commission shall develop a cultural and fine arts district program to designate districts that significantly contribute to the culture and fine arts of this state.

(b) The commission shall develop:

(1) eligibility criteria for a designation under this section; and

(2) procedures to administer the program created under this section.

(c) A designated district or, if necessary to comply with federal eligibility requirements, a municipality or county in which a designated district is located on behalf of the district may apply for state incentives, funding, grants, and loans from state agencies, including the:

(1) Department of Agriculture;

(2) Texas Department of Transportation; and

(3) office of the governor.

(d) The commission shall assist designated districts, municipalities, and counties in applying under Subsection (c).

(e) The commission may amend the boundaries of a designated district to include private sector development.

Added by Acts 2005, 79th Leg., Ch. 219 (H.B. 2208), Sec. 1, eff. September 1, 2005.

Amended by:

Acts 2013, 83rd Leg., R.S., Ch. 1031 (H.B. 2718), Sec. 1, eff. September 1, 2013.

Sec. 444.032. TEXAS MUSIC PROJECT. (a) The commission shall develop and implement a Texas music compact disc project under which the commission shall create, promote, and distribute a series of compact discs that feature the work of established and emerging music artists of this state.

(b) The commission shall seek donations of time, talent, and property from music artists and other persons to help facilitate the project.

(c) All proceeds from the sale of compact discs under the project shall be deposited in the Texas Commission on the Arts operating fund under Section 444.027.

(d) In accordance with this chapter and commission policy, the commission shall use part of the interest earned on the proceeds of the project to fund grants of money that promote music education through the commission's arts education grant program.

Added by Acts 2003, 78th Leg., ch. 686, Sec. 1, eff. June 20, 2003.
Amended by:

Acts 2009, 81st Leg., R.S., Ch. 666 (H.B. 2242), Sec. 2, eff. June 19, 2009.

Rockwall, Texas

Proclamation

Whereas, Emergency Medical Services is a vital public service with members of EMS teams providing lifesaving care to those in need 24 hours a day, seven days a week; and

Whereas, access to quality emergency care dramatically improves the survival and recovery rate of those who experience sudden illness or injury; and

Whereas, emergency medical services has grown to fill a gap by providing important, out of hospital care, including preventative medicine, follow-up care, and access to telemedicine; and

Whereas, the EMS system consists of first responders, emergency medical technicians, paramedics, emergency medical dispatchers, firefighters, police officers, educators, administrators, pre-hospital nurses, emergency nurses, emergency physicians, trained members of the public, and other out of hospital medical care providers; and

Whereas, the members of EMS teams, whether career or volunteer, engage in thousands of hours of specialized training and continuing education to enhance their lifesaving skills.

Now, Therefore, I, Jim Pruitt, Mayor of the City of Rockwall, Texas, do hereby proclaim May 20, 2018 thru May 26, 2018 as

EMERGENCY MEDICAL SERVICES WEEK

in the City of Rockwall, Texas, highlighting this year's theme of "EMS Strong: Stronger Together" and encouraging all citizens to extend appreciation to all EMS team members who provide these vital services within our community.

In Witness Whereof, I hereunto set my hand and official seal this 21st day of May, 2018.

Jim Pruitt, Mayor

Rockwall, Texas

Proclamation

Whereas, for nearly 90 million Americans, boating continues to be a popular recreational activity, with people from coast to coast taking to the water to enjoy time together while boating, sailing, paddling and fishing; and

Whereas, National Safe Boating Week is observed to bring attention to important life-saving tips for recreational boaters so that they can have a safer, more fun experience out on the water throughout the year; and

Whereas, on average, 650 people die annually in boating-related accidents in the U.S., with approximately 80 percent of them being caused by drowning; and

Whereas, the vast majority of these accidents are caused by human error or poor judgment and not by the boat, equipment or environmental factors; and

Whereas, a significant number of boaters who lose their lives by drowning each year would be alive today had they worn their life jackets.

Now, Therefore, I, Jim Pruitt, Mayor of the City of Rockwall, do hereby proclaim the week of **May 19-25, 2018**, as:

NATIONAL SAFE BOATING WEEK

in the City of Rockwall and encourage all those who boat, sail, paddle or fish to practice good life safety habits and be sure to wear a life jacket at all times.

In Witness Whereof, I hereunto set my hand and official seal of the city this 21st day of May, 2018.

Jim Pruitt, Mayor

Rockwall, Texas

Proclamation

Whereas, Public Works-related services in our community are an integral part of our citizens' everyday lives; and

Whereas, the support of understanding, informed citizens is vital to the efficient operation of public works systems and programs such as water, sanitary and storm sewers, streets and alleyways, as well as staff support that Public Works provides to various other city departments; and

Whereas, the quality and effectiveness of Public Works facilities, as well as their planning, design and construction, are dependent on the efforts and skill of public works officials; and

Whereas, the efficiency of the qualified, dedicated personnel who staff public works departments is influenced by the people's attitude and understanding of the importance of the work they perform; and

Whereas, tens of thousands of men and women in North America provide and maintain the infrastructure and services that are collectively known as "Public Works."

Now, Therefore, I, Jim Pruitt, Mayor of the City of Rockwall, do hereby proclaim the week of **May 20-26, 2018**, as:

PUBLIC WORKS WEEK

in the City of Rockwall, and urge all citizens to applaud our public works staff and services and recognize the contributions that public works officials make every day to the health, safety, comfort and quality of life we enjoy in our great city.

In Witness Whereof, I hereunto set my hand and official seal of the city this 21st day of May, 2018.

Jim Pruitt, Mayor

MINUTES
ROCKWALL CITY COUNCIL
Monday, May 07, 2018
4:00 p.m. Regular City Council Meeting
City Hall - 385 S. Goliad, Rockwall, Texas 75087

I. CALL PUBLIC MEETING TO ORDER

Mayor Pruitt called the public meeting to order at 4:00 p.m. Present were Mayor Jim Pruitt, Mayor Pro Tem John Hohenshelt and Council Members Dana Macalik, Mike Townsend, Kevin Fowler, Bennie Daniels and Dennis Lewis. Also present were City Manager Rick Crowley, Assistant City Managers Mary Smith and Brad Griggs, and City Attorney Frank Garza.

II. WORK SESSION

1. Hold work session to discuss the S. Lakeshore Dr./Summit Ridge Drive Reconstruction project 100% construction plans for the Pavement (Street, Sidewalks and Driveways) Improvements.

City Engineer, Amy Williams, briefed the City Council on current construction plans associated with this reconstruction improvement project. Following the work session, no action was taken by Council.

Mayor Pruitt then read the below listed discussion items into the record before recessing the public meeting to go into Executive Session at 4:19 p.m.

III. EXECUTIVE SESSION.

THE CITY OF ROCKWALL CITY COUNCIL WILL RECESS INTO EXECUTIVE SESSION TO DISCUSS THE FOLLOWING MATTERS AS AUTHORIZED BY CHAPTER 551 OF THE TEXAS GOVERNMENT CODE:

1. Discussion regarding an application to establish a MUD (municipal utility district) pursuant to Section 551.071 (Consultation with Attorney)
2. Discussion regarding legal advice associated with homeowners association (HOA) regulations within the city pursuant to Section 551.071 (Consultation with Attorney).
3. Discussion regarding proposed agreement pertaining to Rockwall Convention & Visitor's Bureau pursuant to Section 551.071 (Consultation with Attorney)
4. Discussion regarding Breezy Hill Road pursuant to § Section 551.071 (Consultation with Attorney)
5. Discussion regarding purchase, acquisition, or lease of real property in the vicinity of County Line Rd. and the municipal airport pursuant to Section §551.072 (Real Property) and Section §551.071 (Consultation with Attorney).
6. Discussion regarding (re)appointments to city regulatory boards, commissions, and committees - specifically the N. TX Municipal Water District (NTMWD) and the Board of Adjustments - pursuant to Section 551.074 (personnel matters) and possible removal of board member(s) – pursuant to Section 551.071 (Consultation with Attorney)

7. Discussion regarding potential employee claim pursuant to Section 551.071 (Consultation with Attorney).

8. Discussion regarding the appeal to the Public Utility Commission filed by the cities of Garland, Mesquite, Plano and Richardson against the North Texas Municipal Water District (NTMWD) regarding water rates pursuant to §Section 551.071 (Consultation with Attorney).

IV. ADJOURN EXECUTIVE SESSION

Council adjourned Executive Session at 5:30 p.m.

V. RECONVENE PUBLIC MEETING

Mayor Pruitt reconvened the public meeting at 6:00 p.m. with all seven city council members being present.

VI. TAKE ANY ACTION AS A RESULT OF EXECUTIVE SESSION

Mayor Pro Tem Hohenshelt made a motion to reappoint Larry Parks to serve on the North Texas Municipal Water District Board (for an additional two-year term, ending on May 31, 2020). Councilmember Fowler seconded the motion, which passed by a vote of 7 ayes to 0 nays.

Mayor Pro Tem Hohenshelt made a motion to appoint the following to serve as 'alternates' on the city's Board of Adjustments: Stuart Smith and Shannon Bennett. (Smith's term to expire in August of 2020 and Bennett's to expire in August of 2019). Councilmember Townsend seconded the motion, which passed by a vote of 7 ayes to 0 nays.

VII. INVOCATION AND PLEDGE OF ALLEGIANCE – COUNCILMEMBER LEWIS

Councilmember Lewis delivered the invocation and led the Pledge of Allegiance.

VIII. PROCLAMATIONS / AWARDS

1. Police Memorial Week

Mayor Pruitt called forth Police Chief Kirk Riggs and Police Lieutenant Andy Villarreal. He read and presented them with a proclamation in observance of Police Memorial Week and in honor of those officers who have lost their lives in the line of duty.

2. Recognition of Youth Advisory Council's (YAC) graduating high school seniors

Mayor Pruitt called forth City Secretary Kristy Cole and Councilmember Kevin Fowler. Mrs. Cole briefly described the purpose of the city's YAC program – to teach high school students about municipal government and to help them develop their leadership skills. They then called forth and recognized five high school seniors who serve on the YAC and will soon be graduating (Aidan Culp, Molly Kate Evans, Thomas Milder, Bethany Villalobos, and Jonathan Naylor). Mayor Pruitt, Councilmember Fowler, and Mrs. Cole wished each of these students the very best of luck.

3. Recognition of outgoing city council members, Mike Townsend and Dennis Lewis

Mayor Pruitt called forth Mike Townsend and Dennis Lewis to be recognized for their service on the city council. He presented them with a small gift, explaining that each of them has 'termed out.' So, this is the last city council meeting during which they will serve. Each of the other city council members and the mayor took time to individually speak to acknowledge and thank Councilmember Townsend and Councilmember Lewis for their service on the city council and to the citizens of Rockwall.

IX. OPEN FORUM

Mayor Pruitt explained how Open Forum is conducted and asked if anyone would like to come forth and speak at this time.

William Hyde with the Hyde (Law) Firm
(on behalf of Cory Knowlton, who he said is out of the country but lives at 1460 Anna Cade Road)
Mr. Hyde spoke about the right-of-way and realignment associated with Breezy Hill (roadway). He explained that this road was dedicated back in the 1930s, and the Knowlton family has owned the property located on the southern boundary for quite some time. He shared how several property owners have dedicated right-of-way over the years so that Breezy Hill could be utilized as a public road and widened and so it could be expanded all the way up to Collin County. He stressed that Breezy Hill is not a private road, but, rather, it is a public roadway. He encouraged the right-of-way to be measured from fence line to fence line for the prescriptive easement. He does not want the roadway to be privatized.

Larry Knowlton
324 Myers Road
Heath, TX

Mr. Knowlton came forth and shared that he is here to speak on behalf of his son, Corey, and his wife, Amber, who live at 1460 Anna Cade Road., which is the oldest rock-built house. He explained that the rock house is built from the historic rock wall, for which Rockwall is named, and that same rock was utilized on the downtown historic courthouse as well. Mr. Knowlton read something that he indicated was written by a Mr. P.L. Kennedy back on February 5, 1930. The statement that was read indicated that Mr. Kennedy dedicated some land for the purpose of a county road being constructed for use by the public. In 1998, Mr. Riggs, conveyed property that was to be utilized to compliment and expand the existing right-of-way. He went on to explain that Corey, Amber and he would all like to see this roadway be kept "public."

There being no one else wishing to come forth and speak at this time, Mayor Pruitt then closed Open Forum.

Mayor Pruitt then reordered the city council agenda to address Appointment Item #1 with the city's Youth Advisory Council (YAC) next.

X. CONSENT AGENDA

1. Consider approval of the minutes from the April 16, 2018 regular city council meeting, and take any action necessary

2. **Z2018-014** - Consider a City initiated zoning request for the approval of an **ordinance** for a text amendment to various sections of Article V, District Development Standards, of the Unified Development Code [Ordinance No. 04-38] for the purpose of amending the variance process relating to signage for properties in an overlay district, and take any action necessary **(2nd Reading).**

3. **Z2018-015** - Consider a City initiated zoning request for the approval of an **ordinance** for a text amendment to various sections of Article II, Authority and Administrative Procedures, of the Unified Development Code [Ordinance No. 04-38] for the purpose of clarifying the reapplication procedures for applications that have been denied by the City Council, and take any action necessary **(2nd Reading).**

4. Consider approval of a Facilities Agreement with Somerset Park Development, LLC and Arcadia Realty Corp. for the reimbursement of the on-site oversized gravity sanitary sewer system expenses associated with the development, and take any action necessary.

5. P2018-009 - Consider a request by Mitchell Lenamond, PE on behalf of Eric L. Davis Engineering, Inc. for the approval of a replat for Lot 7, Block A, Bodin Industrial Addition being a 2.029-acre parcel of land identified as Lot 1B, Block A, Bodin Industrial Addition, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, addressed as 2040 Kristy Lane, and take any action necessary.

Councilmember Lewis moved to approve the entire Consent Agenda (#s 1, 2, 3, 4, and 5). Mayor Pro Tem Hohenshelt seconded the motion. The ordinances were read as follows:

CITY OF ROCKWALL
ORDINANCE NO. 18-23

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, BY AMENDING SECTION 6, *OVERLAY DISTRICTS*, OF ARTICLE V, *DISTRICT DEVELOPMENT STANDARDS*; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

CITY OF ROCKWALL
ORDINANCE NO. 18-24

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, BY AMENDING ARTICLE II, *AUTHORITY AND ADMINISTRATIVE PROCEDURES*; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00)

FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

The motion passed by a vote of 7 ayes to 0 nays.

XI. APPOINTMENTS

1. Appointment with members of the city's Youth Advisory Council (YAC) to hear year-end program report, and take any action necessary.

YAC members Bethany Villalobos, Mary Claire Weible, Parker Yarbrough and Aidan Culp came forth and briefed the City Council on various activities in which the YAC participated over the course of the school year. The Council took no action as a result of the YAC members' presentation.

Mayor Pruitt again reordered the agenda to address Appointment Item #4 next.

2. Appointment with Greta Mittman of WRS Marine LLC to request that Council authorize the City Manager to execute a franchise agreement with the City to operate The Harbor Lights passenger boat from The Harbor boat docks, and take any action necessary.

Mr. Mittman came forth to address the Council on behalf of his wife, Greta, who is out captaining a boat right now. He is here to answer any questions the Council may have. Mayor Pruitt asked if he and his wife are willing to work with city staff to come up with a plan to improve the existing boat dock and cause his boat dock to eventually match the city's boat docks (that are currently being improved). Mayor Pruitt would like to see this improvement take place within the next two years; however, he would also like to see some painting or other, more minor improvements, made in the immediate future. Mr. Mittman agreed to make some improvements; however, he does want to further evaluate making his dock look like the pilings on the city's dock. Discussion also took place regarding Mr. and Mrs. Greta working to improve the existing lighting. City Attorney, Frank Garza, proposed and verbalized slight modification to some of the language within the proposed contract (to stipulate that if the company's insurance lapses, then the contract would be temporarily suspended until the insurance is reinstated and to stipulate that the City will have the right to audit the company's books). Brief comments were made pertaining to keeping the business and concession-related revenue solely in Rockwall. Councilmember Townsend then suggested that certain language in Section 5 of the agreement (regarding proposed changes to the dock needing to be "reviewed" by the City Engineer) also be amended. Indication was given that the language will be modified to state that any changes have to be reviewed and approved by the City Engineer.

Mayor Pro Tem Hohenshelt moved to authorize the city manager to execute the franchise agreement, as amended by the city attorney. Councilmember Macalik seconded the motion, which passed by a vote of 7 ayes to 0 nays.

3. Appointment with Scott Self of Tow Boats Lake Ray Hubbard to request that Council authorize the City Manager to execute a franchise agreement with the City to operate tow boats from Chandlers Landing Marina, and take any action necessary.

Eric Oistad came forth and shared that he is Mr. Self's business partner, and he is coming forth to speak on behalf of this proposed boat operation. He would like to pay franchise fees and formalize its relationship with the city. The primary intention of the company will be to professionally operate tow boats on Lake Ray Hubbard. All boat operators will have a U.S. Coast Guard Captains License. They will be affiliated with a company called "Boat US," which is much like "AAA" in the way they operate. If you are a member, your towing is covered. However, if not, you will pay a different rate. It was clarified that this is a non-exclusive franchise agreement. Councilmember Townsend moved to authorize the city manager to authorize a franchise agreement for this tow boat operation. Councilmember Lewis seconded the motion, which passed by a vote of 7 ayes to 0 nays.

4. Appointment with Mrs. Colleen Vick to hear concerns related to the Summit Ridge/Lakeshore reconstruction project, and take any action necessary.

Mayor Pruitt explained that he lives on Lakeshore. So, as a result, he would like to recuse himself from this agenda item. He asked Mayor Pro Tem Hohenshelt to chair the meeting for the duration of this agenda item.

City Engineer, Amy Williams, came forth and provided a presentation to the Council and guests. Ms. Williams explained the past history associated with this project as well as its current status and the plans for the project moving forward. She shared that the schematic design and development of this reconstruction project started in October of 2015. Three public meetings were held from December of 2015 thru December of 2017. The approval of the schematics occurred by City Council in October of 2017. A couple of weeks ago, the City received the 100% construction plans related to the pavement and utilities. The plans associated with the drainage are at about 90% at this point. Franchise should start in the summer of 2018 and end in the fall. The bid date is the summer of 2018 with construction starting sometime in the fall or winter. She indicated that some residents have asked for construction to perhaps be moved to January of 2019 in order to account for the Thanksgiving and Christmas holidays. The approximate timing for completion of the project would be about 18 months to 2 years. The proposed plans call for two 11' lanes, staggered parallel parking stall, small traffic circles, 5'-6' sidewalks, water and sewer line replacements as well as storm water replacement to help with flooding and drainage problems. There will also be some alleyway reconstruction to help with drainage issues. In October of 2015, a public survey went out thru e-mail to 93 residents whose property abuts the actual right-of-way. Of those, 34 responses (about 36%) to the survey were received back. About 64.7% of the respondents expressed that they were in favor of sidewalks, and 79% were in favor of calming / slowing the traffic. In December of 2015, a public meeting was held with the adjacent property owners to go over the results of the survey and to gather additional comment cards. Staff did receive some additional comment cards; however, with the exception of one new person (who was in favor of adding sidewalks), the feedback given was repetitive of feedback already received from residents who originally filled out and submitted the survey. In July of 2016, the entire neighborhood was invited to come and provide feedback / comment cards to staff. Out of the 16 comment cards received, 9 were in favor of sidewalks, and 4 were not in favor of sidewalks. In October of 2017, Council approved the schematics and design, which takes the engineers a while. On December 1, 2017, Councilmember Townsend held an additional neighborhood public meeting at which the schematics and survey results were shared. Now, staff has received the 100% engineer design plans. Mrs. Williams went on to share visual representations and verbal descriptions regarding

what the roadway realignment and reconstruction will look like and be like. She explained that four lots contain trees that will be affected; however, the roadway realignment has been designed such that, as much as possible, it will not impact existing landscaping and trees. She explained that existing irrigation systems will be moved out of the way of the construction; however, each one of these will be replaced and repaired, as necessary, after construction. Mailboxes will be removed and re-located. If any mailboxes are damaged, they will be replaced with (as close as possible) the same style, material and type. The reconstruction of driveways and leadwalks will also take place (on about 58 properties). Four properties have trees that will be impacted – one property contains 1 crape myrtle; one property contains a crape myrtle; one property contains a crape myrtle and a shrub; and the fourth property contains five crape myrtles and one magnolia tree. All of these trees/shrubs are located atop the city's existing utility lines.

Mayor Pro Tem Hohenshelt called forth the first speaker.

Colleen Vick
314 Summit Ridge
Rockwall, TX

Ms. Vick thanked the Council for allowing residents to express their concern about this reconstruction project. She explained that she has worked together with some of her neighbors, including attending meetings, attempting to work with city staff and conducting a neighborhood survey. In February of 2018, forty-nine residents along Summit Ridge received a mailing that showed the proposed narrowing of the street and sidewalks. A stamped, return postcard was included, and 32 residents responded. Of those who responded, 30 expressed opposition to having sidewalks. In addition, in the past week, she and others have gone door-to-door and have acquired over fifty-seven signatures on a petition that expresses a desire for replacement of the infrastructure and replacement of the street as it is now, with no narrowing of the streets and no sidewalks. Based on the results of both the letter and the petition, she expressed a desire to have additional opportunities to work with staff, council and the residents on the proposed reconstruction.

Luther Howard
309 Summit Ridge Drive

Mr. Howard came forth and shared that he has not experienced any safety issues since he moved into his home. He seemed to indicate the belief that installation of sidewalks would invite additional pedestrians into the neighborhood, and doing so could result in safety problems. So, he would like to see the roadway and its current conditions stay the same.

James Fain
312 Summit Ridge

Mr. Fain came forth and shared that excessive water fills the street and rushes down the road during heavy rains, which is concerning. He expressed that drainage is a concern, and mailboxes occasionally get taken out by drivers who come up on the curb. He also has concerns about the narrowing of the street. He is not aware of any major accidents that have occurred along the roadway. He expressed that sidewalks are not wanted by him and many of his other neighbors.

Sid Murphy
602 Stonebridge Drive

Mr. Murphy shared that he lives on the northwest corner of Stonebridge and Lakeshore. He is anxious to get this project done. He acknowledged the importance of getting the project done and getting it done right. He went on to express that he does not believe sidewalks are needed. He does not believe they would improve the safety or the aesthetics. He is concerned about the future maintenance of sidewalks, over time, if they are installed. He believes that many sidewalks throughout the city are currently in disrepair, and when they buckle, they do pose safety concerns. He also does not believe that parallel parking niches are needed either. He commented the curb in front of his home is broken and has yet to be repaired. Also, there has been a lot of asphalt poured over pot holes; however, no new paving has occurred. Mr. Murphy generally urged the city to get this project done and get it done "in the right way."

James Daffron
316 Summit Ridge

Mr. Daffron shared that he lives in the home that has the most trees that will be impacted by the reconstruction. He has lived on Summit Ridge for many years (since the 1970s). He explained that he is very familiar with the road, and it is very steep. He has asked staff and the mayor pro tem about the costs associated with replacing the mailboxes and redoing the circular drives and curbs, etc.; however, he has not received a specific answer to the question. It is his understanding that money to redo the mailboxes and driveways has already been allocated; however, he pointed out that – just because it has been allocated – it does not mean it has to be spent. He shared that he, and many other residents in the area ('the vast majority'), are not in favor of the installation of sidewalks.

James Jack
308 Summit Ridge Drive

Mr. Jack introduced himself and shared his credentials, indicating that he moved to this location four years ago. He travels extensively as part of his job. He urged the Council to not move forward with this project. Instead, he would like further conversations to occur regarding the proposed reconstruction project. He expressed concerns about the possibility of emergency vehicles not being able to navigate the roadways, pointing out that doing so while a moving truck is present would likely pose a real problem.

Tom Walker
902 Lake Meadows Drive

Mr. Walker shared that he is "on the fence" about having sidewalks or not. However, he is concerned about the parking on S. Lakeshore – the overflow parking from the adjacent ASI Gymnastics building, which he said varies between 12-25 cars. He is in favor of these cars being off of Lakeshore, but he is not sure where they would go instead. He generally has concern about the safety aspect of some parents walking their kids down the middle of the street when going to / from the gymnastics business.

William Bennett
109 Summit Ridge

Mr. Bennett shared that he lives at the very top of the street, and he generally has no traffic in front of his particular home. He shared that, for him, flooding is not a concern either. He prefers to see no sidewalks installed as part of the reconstruction project; however, he is in favor of the concrete being redone.

Ellen Giddens
207 Summit Ridge Drive

Mrs. Giddens shared that she and her husband have lived here since the 1980's; however, her grandmother and aunt both lived here. So, she has been coming to Rockwall for many, many years, even before she moved here. She believes that drainage is important, and sewage is important. She explained that residents met with city engineers, who explained that sidewalks are going to be installed for "safety." She wonders whose safety they will be for, as she believes they will bring strangers in front of residents' homes. She is generally opposed to the installation of sidewalks. She believes that installing the sidewalks would be an unnecessary, unwanted expense. She would like the current safety and ambiance to stay in place.

Stephanie King
219 Summit Ridge Drive

Mrs. King shared that she and her husband have lived at this location for nineteen years. She explained the various reasons why she and her husband originally purchased their home. She is opposed to the installation of sidewalks. She did respond to a survey back in 2015; however, she and her husband have never been personally visited by anyone soliciting feedback on the reconstruction of the road or on the topic of sidewalks. She expressed strong opposition to the installation of sidewalks and the narrowing of the streets. She does want drainage fixed, however.

Sol Villasana
809 Village Green Drive
Rockwall, TX

Mr. Villasana thanked each of the speakers for coming forth to express their concerns and frustrations. He believes that this city council has a history of really listening to residents' expressed concerns. However, he pointed out that many of these residents do not feel their concerns are being heard. He went on to summarize the various concerns of the residents who live along this roadway. He asked the City to use its discretion and have the soon-to-be "newly seated Council" further evaluate these reconstruction plans and determine what will be best for the community. He asked that the Council table or postpone any action concerning these reconstruction plans.

Council took no action as a result of this particular appointment (agenda) item.

Mayor Pro Tem Hohenshelt then addressed Action Item #1.

XII. PUBLIC HEARING ITEMS

1. **MIS2018-006** - Hold a public hearing to discuss and consider a City initiated request to amend the Comprehensive Plan by approving an **ordinance** changing to the Master Thoroughfare Plan Map contained within the Transportation section of the plan for the purpose of [1] reclassifying Horizon Road [FM-3097] from a M4U (minor arterial, four [4] lane, undivided roadway) to a TXDOT4D (TXDOT, four [4] lane, roadway) and [2] realigning Breezy Hill Road to reflect existing public right-of-way, and take any action necessary **(1st Reading).**

Mayor Pruitt moved to postpone this public hearing item until the city gets the Summit Ridge and Breezy Hill Roadway situations more settled. Mayor Pro Tem Hohenshelt seconded the motion, which passed unanimously of Council present (7 ayes to 0 nays).

XIII. ACTION ITEMS

1. Discuss and consider authorizing staff to proceed with construction bidding and advertising for the S. Lakeshore Dr./Summit Ridge Dr. Reconstruction Project, and take any action necessary.

It was noted that Mayor Pruitt recused himself from this discussion / action item. Councilmember Lewis asked how long Mr. Villasana would like for Council to delay action concerning this matter. Mr. Villasana shared that he believes a ninety day delay would be sufficient. He would like all of the members and stakeholders associated with this roadway reconstruction project to quickly come together to discuss the plans further. Councilmember Lewis shared that he believes forty-five days would be sufficient enough. Councilmember Lewis shared that he has personally heard from some residents who actually do want sidewalks; however, he believes those residents are intimidated by those who are opposed to the sidewalks being installed.

Councilmember Fowler spoke, indicating that he too has heard from residents who actually do want the sidewalks and are in favor of them being installed as part of this reconstruction project. However, he too generally believes that those residents are intimated by those who are on "the other side" of the issue. He believes that a thirty-day delay would be sufficient time; however, he pointed out that he does not believe there is "middle ground," and a decision will need to be made at some point soon.

Mayor Pro Tem Hohenshelt shared that he too doubts that there is "middle ground" concerning the sidewalks. He clarified that the city is not "taking" anyone's property, pointing out that that is city-owned right-of-way, and it is on city-owned right-of-way that the sidewalks would installed on. He and his wife generally like and enjoy sidewalks. Also, his wife really enjoys walking on hilled areas, and if there were sidewalks along this roadway, she may well walk there too.

Mr. Villasana again petitioned the city council to delay action on this item tonight and allow a few more weeks for the issue to be further evaluated and debated.

Councilmember Daniels indicated that most of the opposition concerning sidewalks appears to be from residents who live along Summit Ridge. He is concerned that allowing extra time before taking a vote on this issue and allowing additional time for "compromise" may essentially be challenging. He pointed out that the city itself does

not want to delay progress in moving forward on this topic, but, rather, in this case it is the citizens that are requesting a delay. Also, he acknowledged that, no matter what decision is made, there will be unhappy residents (both those who live along the street and those who utilize the street). He does not believe there is "enough wiggle room" for it to be worth the delay in the Council putting off taking action until a later date.

Councilmember Macalik stated that she would support a (not more than) thirty-day delay. She believes that the sidewalks would support 'safety,' not take away from it. She pointed out that staff has worked a lot on this project, and many meetings have been held that residents had an opportunity to attend. She too received the email that Councilmember Fowler received (from a resident in favor of the sidewalks), and she has spoken to several friends who live in the neighborhood. So, she also knows that there are residents who are in favor of installing sidewalks.

Councilmember Townsend generally expressed that he believes the city has done a lot of "due diligence" on this reconstruction project. He pointed out that the city has had engineering study after study, and it was started in October of 2015. He knows that "more time" is being requested right now; however, he believes that "more time" could be requested indefinitely. He has seen people walking up and down Summit Ridge, and he has even seen people pushing baby strollers; however, he would never do so – he believes it is not safe to do so. He acknowledged that drainage will be fixed with this project. He pointed out that the width of what the roadway *could be* has been greatly reduced. Also, some of the previous plans called for a lot more trees to be taken out; however, staff and the Council have worked and worked to reduce the number of trees that would be impacted. He does not wish to pass this issue along to future council members to address, as he does not believe there will ever be consensus among residents. So, therefore, he made the following motion:

Councilmember Townsend moved to pass the design specs as they are currently designed and presented and move forward with putting the project out to bid. Mayor Pro Tem Hohenshelt seconded the motion. Following additional, brief comments, the motion passed by a vote of 3 in favor, 3 against (Fowler, Daniels and Lewis) and 1 abstention (Pruitt).

Councilmember Fowler moved to postpone action on this item for a period not to exceed thirty days. Councilmember Lewis seconded the motion, which passed by a vote of four ayes, 2 against (Townsend and Hohenshelt), and 1 abstention (Pruitt).

City Manager Rick Crowley asked what role the city council would like staff to play concerning this matter over the course of the next thirty days. Extensive discussion took place concerning this question.

Councilmember Townsend shared that to change the current design plans would end up costing $656,000. So, whatever change is proposed, if any, had better be good and worth that kind of expense.

Councilmember Fowler shared that he will reluctantly volunteer to be the Council liaison to serve as part of the "negotiating" team that will work with staff and residents on both sides of the "sidewalks issue" and return back to Council within no more than thirty days.

Mayor Pro Tem Hohenshelt called for a break and recessed the meeting at 8:12 p.m. Mayor Pruitt reconvened the public meeting at 8:23 p.m. and addressed Appointment Item #2 next.

2. Discuss and consider changing the adopted park maintenance category and associated costs for the Raymond Cameron Lake natural area, and take any action necessary.

Travis Sales, the city's Parks Superintendent, came forth to address the Council concerning this item, as the Parks Director, Andy Hesser, is out due to an illness. Mr. Sales expressed that this topic is related to the possibility of changing this lake from a natural, non-maintenance type lake to one that would be regularly maintained on a monthly basis. Mr. Sales went on to share several photographs with the Council of the existing pond / lake conditions. He explained that a portion of the quote that staff received to remove the natural vegetation and a lot of the trees and overgrowth amounted to over $49,000. Also, there would be an additional cost of $7,450 for grinding of tree stumps. In addition, it would cost about a $500 per month to maintain it thereafter.

Council took no action as a result of this discussion item at this time.

3. Discuss and consider approval of Contract Amendment Number Six for a total additional contract amount of $76,950.00 with Kimley-Horn and Associates, Inc. for the Lakeshore Dr./Summit Ridge Dr. Reconstruction Project for engineering design and construction plan preparation services for bridge erosion mitigation, and take any action necessary.

Mayor Pruitt clarified that he will not recuse himself from this item because it is not related to the street he lives on in particular, but, rather it relates to the bridge that is located at the other end of the street.

City Engineer Amy Williams provided background information pertaining to this agenda item. Mayor Pro Tem Hohenshelt moved to approve Contract Amendment Number Six for a total additional contract amount of $76,950.00 with Kimley-Horn and Associates, Inc. Councilmember Townsend seconded the motion. Following additional, brief comments, the motion passed by a vote of 7 ayes to 0 nays.

4. Discuss and consider the city's TEX-21 membership, and take any action necessary.

Mayor Pruitt expressed that the City has been a part of this organization, off-and-on, for a number of years. City Manager Rick Crowley provided brief comments regarding the organization, sharing that it, in part, helps with planning of road work along IH-30. It was pointed out that the county has been a part of this organization, off-and-on for years as well. Mayor Pruitt reiterated that this organization is involved with roadway planning along IH-30. Also, the organization has political involvement as well. He went on to briefly touch on some of the benefits associated with being a member of this organization. It was stated that membership for the city will cost about $5,000 per year. Councilmember Lewis shared that, if the city does choose to be a member, then one council liaison needs to be the "point person" who stays involved and attends the meetings (including ones in Austin). Council Members generally indicated the belief that the City should be a member and should be involved in this organization.

5. Discuss and consider a request by Jim Ziegler of PegasusAblon for the approval of a facilities agreement allowing changes to the outdoor dining guidelines established in Resolution 11-25 for the property addressed as 2095 Summer Lee Drive, and take any action necessary.

Mr. Zeigler came forth and requested that the Council approve this request. He provided brief comments explaining what benefits these changes will result in.

Mayor Pruitt shared some photographs of the existing area at The Harbor (where the Rodeo Goat will go in), pointing out that the existing look and feel is very 'Mediterranean' like. He then shared photos of the patio area at the Rodeo Goat in Dallas, which, he pointed out is more Mexican or Hispanic-like in its look and feel. He is not sure that Rodeo Goat's design concept will truly 'fit in' with the existing Mediterranean columns and patio area at this space at The Harbor.

Following additional comments, Mayor Pruitt moved to approve the patio being extended out but deny tearing up the concrete to install decomposed granite. Councilmember Macalik seconded the motion, which passed by a vote of 6 in favor with 1 against (Hohenshelt).

6. Discuss and consider a setback variance request for a sign at the Shops at Legacy Village located at 102 N. Fannin and take any action necessary.

Building Official Jeffrey Widmer came forth to address the Council concerning this agenda item. Councilmember Lewis made a motion to approve the setback variance request. Mayor Pro Tem Hohenshelt seconded the motion, which passed by a vote of 7 ayes to 0 nays.

7. Discuss and consider establishing a policy pertaining to expenditures for fine arts projects associated with certain public construction projects (1% of Capital Improvement Project (CIP) project costs), and take any action necessary.

Assistant City Manager Brad Griggs provided brief comments concerning this agenda item. Essentially, the city's ART Commission is seeking more clear direction from the Council concerning where these funds may be spent. Assistant City Manager Mary Smith shared that there is currently about $64,000 in this art fund; however, approximately $175,000.00 (a "high end" estimate, per Assistant City Manager, Mary Smith) will be available once all road improvement projects are complete in the future. Staff explained that Council is being asked to more clearly define the phrase "at or near" as it pertains to how far from a project that public art may be placed (and associated monies may be spent to do so). Council took no action pertaining to this agenda item at this time, generally indicating that Council will take up this matter at a later date.

8. Discuss and consider an **ordinance** amending Ordinance No. 10-37 pertaining to pre-65 (employee) retiree health benefits coverage, and take any action necessary. **(1st reading)**

City Manager Rick Crowley provided background information pertaining to this agenda item. This ordinance amendment will essentially provide additional levels of benefit coverage for longer tenured employees as they approach retirement age. Mayor Pro Tem Hohenshelt moved to approve the ordinance. Councilmember Lewis seconded the motion. The ordinance was read as follows:

CITY OF ROCKWALL, TEXAS
ORDINANCE NO. 18-___

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS AMENDING ORDINANCE 10-37 REVISING THE OFFERING OF HEALTH BENEFITS COVERAGE TO CITY OF ROCKWALL PRE-65 RETIREES; REPEALING ALL ORDINANCES AND OR PROVISIONS IN CONFLICT; AND PROVIDING FOR AN EFFECTIVE DATE

The motion passed by a vote of 7 ayes to 0 nays.

9. Discuss and consider (2) nominations for an "outstanding senior who is making a difference in the senior community," as requested by Meals on Wheels Senior Services of Rockwall County, and take any action necessary.

Mayor Pruitt indicated that he would like to nominate Francis White, who has done a lot for the community, including working tirelessly at the County Elections Office. Councilmember Townsend indicated that he would like to nominate (Rockwall City Council Member) Bennie Daniels.

XIV. CITY MANAGER'S REPORT TO DISCUSS CURRENT CITY ACTIVITIES, UPCOMING MEETINGS, FUTURE LEGISLATIVE ACTIVITIES, AND OTHER RELATED MATTERS.

1. Departmental Reports
Building Inspections Monthly Report - March 2018
Fire Department Monthly Report - March 2018
GIS Division Monthly Report - March 2018
Harbor PD Monthly Report - March 2018
Internal Operations Monthly Report - March 2018
Police Department Monthly Report - March 2018
Recreation Monthly Report - March 2018
Rockwall Animal Adoption Center Monthly Report - March 2018
Rockwall Meals on Wheels Senior Services - 2nd Quarter Report
STAR Transit Monthly Report - March 2018

2. City Manager's Report

Mayor Pruitt indicated that the city's Concert by the Lake series began last Thursday. He encouraged residents to come out and enjoy future Thursday night concerts. Also, the San Jacinto Music Series is now occurring ever Thurs., Friday and Saturday evenings from 6-9 PM thru the end of October. Mayor Pruitt shared that a Cinco de Mayo celebration was held on Saturday, and the city's election was also held on that day.

City Manager Rick Crowley thanked Councilmembers Lewis and Townsend for the good work they have done while serving on the city council. He generally expressed that it has been a pleasure working with each of them.

XV. EXECUTIVE SESSION

THE CITY OF ROCKWALL CITY COUNCIL WILL RECESS INTO EXECUTIVE SESSION TO DISCUSS THE FOLLOWING MATTERS AS AUTHORIZED BY CHAPTER 551 OF THE TEXAS GOVERNMENT CODE:

1. Discussion regarding an application to establish a MUD (municipal utility district) pursuant to Section 551.071 (Consultation with Attorney)
2. Discussion regarding legal advice associated with homeowners association (HOA) regulations within the city pursuant to Section 551.071 (Consultation with Attorney).
3. Discussion regarding proposed agreement pertaining to Rockwall Convention & Visitor's Bureau pursuant to Section 551.071 (Consultation with Attorney)
4. Discussion regarding Breezy Hill Road pursuant to § Section 551.071 (Consultation with Attorney)
5. Discussion regarding purchase, acquisition, or lease of real property in the vicinity of County Line Rd. and the municipal airport pursuant to Section §551.072 (Real Property) and Section §551.071 (Consultation with Attorney).
6. Discussion regarding (re)appointments to city regulatory boards, commissions, and committees - specifically the N. TX Municipal Water District (NTMWD) and the Board of Adjustments - pursuant to Section 551.074 (personnel matters) and possible removal of board member(s) – pursuant to Section 551.071 (Consultation with Attorney)
7. Discussion regarding potential employee claim pursuant to Section 551.071 (Consultation with Attorney).
8. Discussion regarding the appeal to the Public Utility Commission filed by the cities of Garland, Mesquite, Plano and Richardson against the North Texas Municipal Water District (NTMWD) regarding water rates pursuant to §Section 551.071 (Consultation with Attorney).

XVI. RECONVENE PUBLIC MEETING & TAKE ANY ACTION AS RESULT OF EXECUTIVE SESSION

Council did not go back into Executive Session at the conclusion of the public meeting agenda.

XVII. ADJOURNMENT

Mayor Pruitt adjourned the meeting at 9:27 p.m.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS 21st DAY OF MAY, 2018.

MINUTES
ROCKWALL CITY COUNCIL
Monday, May 14, 2018
5:00 p.m. Special City Council Meeting
City Hall - 385 S. Goliad, Rockwall, Texas 75087

I. Call Public Meeting to Order

Mayor Pruitt called the meeting to order at 5:00 p.m. with himself and Councilmembers Fowler and Daniels being present. He then called upon City Secretary, Kristy Cole.

Mrs. Cole indicated that the City of Rockwall contracted with the Rockwall County Elections Office for administration of the May 5, 2018 General Election and Bond Election. She explained that the Rockwall City Council is convening today to serve as the Canvassing Authority to canvass the official returns associated with each of these elections. Furthermore, Mayor Pruitt, the chief elected official for the city, is serving as the "Presiding Officer" of the Canvassing Authority. She pointed out that the agenda for today's public meeting was duly posted 72-hours or more in advance of today's Special City Council meeting, in accordance with the Open Meetings Act and with provisions of the TX Elections Code. Also, in compliance with Section 67.004 of the TX Elections Code, for purposes of conducting the canvass, only two elected officials are needed to constitute a quorum. Mrs. Cole indicated that she did double checked with the city attorney, Frank Garza, to be sure that two members of Council constitute a quorum for the canvass and passage of the associated resolutions. Mr. Garza did concur that only two members of Council are needed for this purpose. Mrs. Cole then called for the records to show that 3 elected officials are present today, including Mayor Pruitt, Councilmember Daniels and Councilmember Fowler, with Council Members Macalik, Townsend, Hohenshelt and Lewis being absent. Mrs. Cole then turned the meeting back over to Mayor Pruitt so that Agenda Items #2 and #3 could be addressed.

II. Discuss and consider adoption of a resolution canvassing the returns and declaring the results of the May 5, 2018 City of Rockwall General Election, and take any action necessary

Mayor Pruitt indicated that the Rockwall County Elections Administrator, Christopher Lynch, has certified and delivered the Election Returns based on the tabulated ballots for the May 5, 2018 City of Rockwall General Election. Mayor Pruitt shared that the overall, tabulated returns are reported and accepted as follows:

		Total Votes "For"
City Council, Place 2	***John Hohenshelt***	***1,284***
City Council, Place 4	***Trace Johannesen***	***996***
	Enid Reyes	***661***
City Council, Place 6	***Andrew Greenberg***	***691***
	Patrick Trowbridge	***924***

Therefore, Mayor Pruitt announced that those candidates who have been newly elected to serve on the Rockwall City Council include:

- **John Hohenshelt, Place 2**
- **Trace Johannesen, Place 4 and**
- **Patrick Trowbridge, Place 6.**

Mayor Pruitt then made a motion to approve Resolution # 18-11 accepting and confirming the canvassing of the election Returns and accepting the declaration of the results of the General Municipal Election, which was held May 5, 2018. Councilmember Fowler seconded the motion, which passed unanimously of those present (3 in favor with 4 absences (Macalik, Hohenshelt, Townsend and Lewis)).

III. Discuss and consider adoption of a resolution canvassing the returns and declaring results of the May 5, 2018 City of Rockwall Bond Election, and take any action necessary.

Mayor Pruitt requested that the record show that Rockwall County Elections Administrator, Christopher Lynch, has certified and delivered the Election Returns based on the tabulated ballots for the May 5, 2018 City of Rockwall Bond Election. He indicated that the overall, tabulated returns are reported and accepted as follows:

Regarding Proposition A, which appeared on the ballot as follows:

THE ISSUANCE OF $85,000,000 TAX BONDS BY THE CITY OF ROCKWALL, TEXAS FOR STREET AND ROAD RECONSTRUCTION AND LEVYING THE TAX IN PAYMENT THEREOF

total votes cast "For" were 1,197, and total votes "Against" were 537. Therefore, Mayor Pruitt indicated that the record should reflect that "Proposition A" on the May 5, 2018 Bond Election ballot was duly passed.

Mayor Pruitt then moved to approve Resolution # 18-12, canvassing the returns and declaring the results of a Bond Election, which was held on May 5, 2018; providing for an effective date; and containing provisions necessary and incidental thereto. Councilmember Daniels seconded the motion, which passed unanimously of those present (3 in favor with 4 absences (Macalik, Hohenshelt, Townsend and Lewis)).

Mayor Pruitt indicated that newly elected city council members will take their Oaths of Office, which will be administered by the Rockwall Municipal Court Judge, Cathy Penn, on May 21 as part of the regular city council meeting.

IV. Adjournment

Mayor Pruitt adjourned the meeting at 5:05 p.m.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS 21st DAY OF MAY, 2018.

CITY OF ROCKWALL, TEXAS
ORDINANCE NO. 18-25

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS AMENDING ORDINANCE 10-37 REVISING THE OFFERING OF HEALTH BENEFITS COVERAGE TO CITY OF ROCKWALL PRE-65 RETIREES; REPEALING ALL ORDINANCES AND OR PROVISIONS IN CONFLICT; AND PROVIDING FOR AN EFFECTIVE DATE

WHEREAS, the *City of Rockwall* of Rockwall County ("City of Rockwall") adopted Ordinance 10-37 on December 20, 2010 to provide health benefits coverage to its retirees prior to age 65 ("retirees"); and

WHEREAS, TML Intergovernmental Employee Benefits Pool is a health risk pool established pursuant to Texas Local Government Code Chapter 172, Texas Government Code Chapter 791, and the Texas Trust Code to provide health benefits coverage for employees and retirees and dependents of employees and retirees, of Texas political subdivisions under an Interlocal agreement; and

WHEREAS, the *City of Rockwall* is currently offering health benefits coverage through the TML Intergovernmental Employee Benefits Pool pursuant to Interlocal Agreement and Chapters 172 and 175 of the Texas Local Government Code, both of which would allow the extension of benefits to retirees of the *City of Rockwall*; and

WHEREAS, the *City of Rockwall* desires to revise the retiree medical contribution for under age 65 retirees through the TML Intergovernmental Employee Benefits Pool and that the cost for such coverage be paid for by the individual retiree; and

WHEREAS, providing retiree coverage under the TML Intergovernmental Employee Benefits Pool Interlocal Agreement is in the best interest of the *City of Rockwall*, its retirees, and the public generally.

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS THAT:

SECTION 1: The foregoing recitals are incorporated into this Ordinance as findings of fact;

SECTION 2: The *City of Rockwall* hereby elects to revise Ordinance 10-37 the retiree medical contribution for under age 65 to repeal Section 4 of that Ordinance and for the new Section to read as follows;

The Interlocal Agreement in effect between the *City of Rockwall* and the TML Intergovernmental Employee Benefits Pool provides that the Board of Trustees may adopt rules and regulations. The rules and regulations of the TML Intergovernmental Employee Benefits Pool allow the participating member entity to provide retiree medical coverage at the same contribution as charged to active employees, to select a contribution level which is an elevated

percentage (150%, 160%, etc. which may change from time to time) of the active employee contribution or to offer over age 65 retirees a Medicare Supplement.

The *City of Rockwall* elects to have the retiree medical contribution for under age 65 retirees be that which is established annually by TML IEBP.

- Retirees that have been with the *City of Rockwall* less than 20 years of employment, the City will pay 25% of the Bronze Plan per month for the retiree coverage regardless of what plan is selected.
- Retirees that are age 55 and above, that have been with the City for 20 years but less than 25, the City will pay 60% of the Bronze Plan per month for the retiree's coverage regardless of what plan is selected.
- Retirees that are age 55 and above, that have been with the City for 25 years or more, the City will pay 75% of the Bronze Plan per month for the retiree's coverage regardless of what plan is selected.

At the age of 65 the retiree is no longer eligible to continue coverage through the TML Intergovernmental Employee Benefits Pool.

SECTION 3: All other provisions found in Ordinance 10-37 shall remain in effect unless repealed by this Ordinance;

SECTION 4: The City of Rockwall shall continue to adopt on an annual basis any additional or alternative retiree benefit plans to be provided through TML Intergovernmental Employee Benefits Pool. The cost of these plans shall be paid for entirely by the retiree;

SECTION 5: This ordinance will only apply to individuals retiring after its effective date or to employees, which retired under a previous ordinance. For individuals retiring after the effective date of this ordinance to qualify they must enroll for this coverage within thirty (30) days of their retirement;

SECTION 6 This ordinance may be repealed or modified at any time, but will remain in effect for any employee retiring while it is in effect;

SECTION 7: All existing *City of Rockwall* ordinances in conflict with the provisions of this Ordinance are repealed to the extent of the conflict;

SECTION 8: The Ordinance shall take effect immediately upon its second reading as required by the City Charter, Section 3.11 and the publication of the caption of said ordinance as the law in such cases provides.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS ON THIS 21ST DAY OF MAY, 2018.

City of Rockwall
The New Horizon

MEMORANDUM

TO: **Richard Crowley, City Manager**
CC: **Kenneth Cullins, Fire Chief**

FROM: **Lea Ann Ewing, Purchasing Agent**

DATE: **May 11, 2018**

SUBJECT: **Purchase of New Fire Apparatus**

Discussed during the budget work session last August was the purchase of a 2018 Pumper and loose equipment to be funded through Contractual Obligations. The City Manager recommended to Council and Staff that we hold off on purchasing this new Pumper and associated equipment to give the new Fire Chief an opportunity over the next year to evaluate all current trucks and equipment used by our firefighters.

Recently Chief Cullins and ACM Brad Griggs have determined it is in the best interest of the City that the oldest reserved 1999 pumper be replaced with a new 2018 model. By the time we receive the new pumper, the 1999 model will be 20 years old. The new reserve truck will be a 2007 pumper that would be the oldest in the fleet. Build time on the new 2018 pumper is concurrent and will take approximately 435 days or 15 months from now. CO's would be issued when the City next issues debt later in 2018.

The 2018 apparatus has been competitively bid and available for purchase through the Houston-Galveston Area Council of Governments (H-GAC) Cooperative Purchasing Program. The City, as a member and participant in this cooperative program, has met all formal bidding requirements pertaining to the purchase of this new pumper. Cost of the new pumper is $627,647. In addition to the cost of this new truck, the loose equipment cost is approximately $100,000. Majority of the loose equipment (includes hoses, connectors, and tools) would be purchased through this same cooperative purchasing program if available. If necessary staff may solicit competitive sealed bids for this equipment, closer to the delivery date of the new pumper.

For Council consideration is the bid award for this new Pumper to Lone Star Emergency Group $627,647 as well as pre authorization to buy the loose equipment from various vendors and authorize the City Manager to execute purchase orders for this new apparatus and equipment.

City of Rockwall
The New Horizon

MEMORANDUM

TO: **Rick Crowley, City Manager**

FROM: **Amy Williams, P.E., Director of Public Works/City Engineer**

DATE: **May 15, 2018**

SUBJECT: **County Line Road Reconstruction Project**

During the Engineering Design Phase of the Reconstruction of County Line Road staff made the decision to widen County Line Road where the road could be elevated above the 100yr floodplain to current the current City Engineering Standards. Sections of road that could not be elevated would remain asphalt bar ditch road with no sidewalks and be rehabilitated in place at the same elevation and grade not to adversely affect the 100 year floodplain. This asphalt rehabilitation process will be the same process the City has performed on the rest of the Lake Rockwall Estates roadways. The section of County Line Road that was determined not to be elevated is just west of Nicole Drive to the end of County Line Road at Renee Drive (approximately 570 linear feet of roadway).

During the Right-of-Way Acquisition process, which the City is currently in, it was determined that the section of County Line Road that was to remain asphalt should be concrete and the 5 foot sidewalk on the north side of the road be extended to the end of County Line Road at Renee Drive. This would match the proposed roadway material type and provide pedestrian access all the way along County Line Road. The roadway in this section would remain the existing width and have bar ditches. The City has requested the engineering consultant for the project Freese and Nichols, Inc. provide additional services to perform this work within the floodplain. These services are in the attached Contract Amendment and include modification of existing construction plans, construction cost estimate, floodplain impact analysis, additional construction easements and right-of-way acquisition needed. Also included in the amendment are additional services during the right-of-way acquisition phase are construction plan modifications, exhibits, and right-of-way staking.

Staff is requesting City Council consideration for approval Contract Amendments Number Seven for the total additional contract amount of $48,900.00 with Freese and Nichols, Inc. for the County Line Road Reconstruction Project. If you have any questions, please advise.

File

Client:	Amy Williams, P.E. Director of Public Works – City Engineer City of Rockwall 385 S. Goliad Rockwall, TX 75087	FNI Project No.: ROK15508 Client Contract Ref.: Date: May 14, 2018

Project Description: County Line Road from Horizon Road to Renee Drive

Description of Services Added:
Items defined below along with associated compensation amounts are additional effort as requested by the City of Rockwall on 04/11/18:

Modify Plan Sheets and OPCC to Change Typical Section from STA 45+00 to STA 50+73 – Sub total $19,550
Make modifications to the 24 sheets listed below to change pavement from asphalt to concrete; add a 5' sidewalk on the north side approx. 2' off edge of pavement and within existing right of way; upgrade the drainage culvert in the bend near Renee; and modify the roadway fill and roadside drainage swale.

- Sheet 1 – Cover
- Sheet 4 – Project Layout
- Sheet 6 and 8 – Typical Sections
- Sheet 10 – Right of Way
- Sheet 12 – Removal Plan
- Sheet 13 – Traffic Control Narrative
- Sheet 26 – Traffic Control Phase 3
- Sheet 28 – Traffic Control Phase 4
- Sheet 37 and 38 – Paving Plan and Profile
- Sheet 39 – Side Street Profiles
- Sheet 41 – Grading Plan
- Sheet 46 – Signage and Pavement Marking
- Sheet 51 and 55 – Drainage Area Map
- Sheet 57 – Drainage Calculations
- Sheet 66 and 67 – Storm Drain Line SD-B
- Sheet 74 – Erosion Control
- Sheet 85 – Existing Utilities
- Sheet 102, 103, and 104 – Cross Sections

Floodplain Impact Analysis – Sub total $8,450
The proposed improvements consist of a roadway and sidewalk located within the level pool floodplain of Wallace Lake. FNI will prepare a cut/fill analysis and memorandum to document floodplain impacts as follows:

- Identify limits of fill placed within the 100-year floodplain and calculate volumes.
- Identify location for storage mitigation and perform grading to offset fill. Grading will be provided to provide no net fill from project. One (1) mitigation alternative will be considered.
- No hydraulic modeling will be performed. Detailed hydraulic modeling will be considered an additional service.
- Coordination with City and City's H&H consultant
- Draft technical memorandum documenting cut/fill analysis and methodology. (submitted as pdf document for client review)
- Respond up to one (1) round of comments from City and City's H&H consultant
- Final technical memo (one (1) hard copy and pdf document)

Coordination, Exhibits, and Plan Sheet Modifications Related to ROW Acquisition – Sub total $4,950
Assist City with right of way acquisition by preparing exhibits, performing redesign, or providing general assistance for 115 Chris, 384 County Line, 367 County Line, and parcels 1A, 6, 27 and 28.

Right of Way Documents – Sub total $12,250
Prepare up to 5 additional temporary construction easement documents for properties on the north and south sides of County Line Rd from STA 45+00 to STA 50+73 and 2 additional drainage easements for the cross-culvert upgrade near Renee. Also, provides for one (1) staking of easements.

Right of Way Staking – Sub total $3,700
Assist City with right of way acquisition by preparing by staking right of way and providing general assistance for Parcels 1A, 1B, 4, 6, 9, and 26.

Total: $48,900

Deliverables:
- 24 - Revised sheets as listed above
- 1 - Floodplain impact analysis and technical memo
- 7 - Easement documents (metes and bounds descriptions; 2 revised construction, 3 new construction, and 2 drainage)

Compensation shall be adjusted as follows: Amendment #7 will adjust budgets as defined below.

	Original	Amd 1	Amd 2	Amd 3	Amd 4	Amd 5	Amd 6	Amd 7	Revised
Basic Services	$403,949	$5,432		$18,150	$10,791	$2,540	$25,220	$32,950	$499,032
Utility & ROW info.	$74,347	$8,096	$46,750	($18,150)	($10,791)	$20,460		$15,950	$136,662
Geotechnical	$15,480								$15,480
Environmental	$58,219	($13,528)	($26,445)						$18,246
Utilities	$28,445								$28,445
Total	$580,440	$0	$20,305	$0	$0	$23,000	$25,220	$48,900	$697,865

Original Contract	$580,440
Previous Authorizations	$68,525
Amount this Authorization	$48,900
Revised Total Contract	$697,865

Schedule shall be adjusted as follows:
Scope of work for Amendment 7 shall be completed within 4 weeks from Notice to Proceed.

The above described services shall proceed upon return of this Contract Change Authorization. Services will be billed as they are done. All other provisions, terms, and conditions of the agreement for services which are not expressly amended shall remain in full force and effect.

☐ A contract modification will be submitted.
☒ This Contract Change Authorization will serve as contract modification.

CITY OF ROCKWALL, TEXAS
MEMORANDUM

TO: **Richard Crowley, City Manager**

FROM: **Lea Ann Ewing, Purchasing Agent**

DATE: **May 9, 2018**

SUBJECT: **Cooperative Purchasing Agreement with the City of North Richland Hills for the use of a Micro-Surfacing Contract**

A Resolution and Interlocal Purchasing Agreement for participation in a cooperative purchasing program with the City of North Richland Hills (NRH) are attached; along with a bid award for micro-surfacing work for City Council consideration.

The interlocal agreement provides for cooperative purchasing between the City of Rockwall and NRH for goods, materials and services. By participating in this cooperative program, we will realize additional savings through economies of scale when utilizing the coop contracts. Another benefit is the City would meet all the formal bidding requirements pertaining to contract purchases and eliminate the cost of the competitive bidding process for the contracted materials and services. The interlocal agreement would remain in effect until terminated by either the City of Rockwall or NRH.

Currently NRH has competitively bid and awarded a contract for micro-surfacing services. Micro-surfacing is a pavement preservation process using a mixture of polymer modified asphalt emulsion, mineral aggregate, mineral filler, water, and other additives, properly proportioned, mixed and spread on a paved surface in variable thick cross-sections which resists compaction and water penetration. The contractor for this work is Intermountain Slurry Seal Inc. that we would like to piggyback their NRH contract. The estimated City of Rockwall cost for this work is $103,826 that includes cost of material and install for 28,236 SY. Attached is a list of proposed streets to receive this process. General Fund, Streets and Drainage operations construction budget has adequate funds to cover the cost of this micro-surfacing work.

Staff asks City Council to (1) consider joining this purchasing cooperative by authorizing the City Manager to execute the cooperative agreement and (2) Council also consider the bid award to Intermountain Slurry Seal Inc. for micro-surfacing services in the amount of $103,826 and authorize the City Manager to execute a contract for the micro-surfacing.

COOPERATIVE PURCHASING AGREEMENT
BETWEEN
CITY OF NORTH RICHLAND HILLS AND CITY OF ROCKWALL

This Agreement made and entered into by and between the City of North Richland Hills, hereinafter referred to as "NRH", and the City of Rockwall, hereinafter referred to as "Rockwall".

Pursuant to the authority granted by Chapter 271 of the Texas Local Government Code providing for the cooperation between local governmental bodies, the parties hereto, in consideration of the premises and mutual promises contained herein, agree as follows:

NRH and Rockwall desire to enter into an Agreement for the purchase of goods and services from vendors selected through the competitive bidding process. Specifications for said items should be determined in cooperation with the final approval of the entity processing the bid.

The responsibility of each entity shall be as follows:

I.

NORTH RICHLAND HILLS

1. NRH shall be allowed to purchase goods and services from vendors who have been selected by NRH through the competitive bidding process. NRH will place orders directly with and pay directly to the selected vendor for goods and services purchased through a contract.

2. All purchases will be within the specifications and under the terms and conditions that have been agreed to by the parties. NRH shall be responsible for the Vendors compliance with all conditions of delivery, price and quality of the purchased goods or services.

3. NRH shall give a 30-day written notification to all participating agencies of any change or cancellation of participation.

4. The Purchasing Agent shall be designated as the official representative to act for NRH in all matters relating to this cooperative purchasing agreement.

II.

ROCKWALL

1. Rockwall shall be allowed to purchase goods and services from vendors who have been selected by NRH through the competitive bidding process of NRH. Rockwall will place orders directly with and pay directly to the selected vendor for goods and services purchased through a contract.

2. All purchases will be within the specifications and under the terms and conditions that have been agreed to by the parties. Rockwall shall be responsible for the Vendors

compliance with all conditions of delivery, price and quality of the purchased goods or services.

3. Rockwall shall give a 30-day written notification to a participating agency of any change or cancellation of participation.

4. Purchasing Manager, shall be designated as the official representative to act for Rockwall in all matters relating to this cooperative purchasing agreement.

This Agreement shall take effect upon execution by the signatories and shall be in effect from date of execution until terminated by either party with thirty (30) day written notice.

IN WITNESS WHEREOF, the parties hereto have caused this agreement to be executed by their authorized officers.

Item #	Description	Quanity	Unit	Unit Price	Total
1	* Furnish & Install Ty II Micro-surfacing (See Aerial photos of limits - "Red")	28,236	SY	$ 3.50	$ 98,826.00
2	Mobilization	1	LS	$ 5,000.00	$ 5,000.00
	* Work is being structured through an Interlocal Agreement with City of North Richland Hills and in accordance with NRH Contract 15-020				$ 103,826.00

Quote is for Labor, Equipment, and Materials for Micro-surfacing Only

NOTES:

* Micro-surfacing to be placed in one lift at a rate of 22 lbs/SY (Dry)
* Estimated to complete project with one (1) mobilization within the 2018 construction season only.
* Work to performed using Truck Mount pavers or continuous paver.
* City shall be responsible for ensuring that all vegetation is removed from edges and recommend to apply herbicide prior to resurfacing operations.
* It is recommended that the streets be checked for any patching needs and patched accordingly by the City.
* City to provide a staging area for micro-surfacing operations if available.
* City to ensure tree limbs are cut to a minimum vertical clearance of 12' prior to micro-surfacing operations.
* Estimated to complete micro-surfacing in 2 shifts.
* This project to be billed per square yard of actual area covered or area agreed upon in the field.
* Traffic control for Micro-Surfacing operations only.
* ISS to provide 1 week notice prior to starting work, and must have a mutually agreed upon schedule.

EXCLUSIONS:

* Pavement Markings, Temporary Pavement Markings, Striping Layout, Pavement Marking Removal, Crack Sealing, Patching, Heavy Debris Removal, Noise Permits and Herbicide application.

Estimate valid for 30 days.

INTERMOUNTAIN SLURRY SEAL, INC.

PROPOSAL AND CONSTRUCTION CONTRACT

Date of Proposal: **5.3.18**

Proposal Valid Until: **11.31.18**

This Proposal and Construction Contract (including the General Conditions appearing on the reverse side hereof or attached hereto and any additional attachments identified in Section 6 below) (herein "Contract") is entered into as of the Date of Proposal by and between INTERMOUNTAIN SLURRY SEAL, INC., a Wyoming corporation, (herein "Contractor") and City of Rockwall (herein "Owner"). Owner and Contractor agree as follows:

1. **Description and Location of Work.** Contractor agrees to perform the following work (herein, "Work"):
Place approximately 28,236 SY (Micro-surfacing- 22 #/SY) (Dry) per ISSA/TxDOT Specifications.

Located At: (See Attachments "A" – Site Map) Formal Quote: (See Attachment "B"- Quote) Street Summary: (See Attachment "C" - Excel)

2. **Plans and Specifications.** The Work described above shall be performed in accordance with the following plans and specifications:
ISSA/TxDOT Specifications. NRH Contract 15-020.

Such plans and specifications are, by this reference, incorporated herein and made a part of this Contract, but are not attached.

3. **Payment.** Owner shall pay to Contractor, as full compensation for performance by Contractor of the Work (herein, "Contract Amount") the following amount:

A. Payments shall be made in accordance with the provisions of Section 2 on the reverse side hereof. Progress payments shall be 100% of the estimate and the sum of 1.5% per month shall be added to any balance unpaid when due.
B. The Contract amount shall include all applicable Sales, Use, Franchise, Excise and other taxes which may now or hereafter be levied.
C. In the event the above price is a unit price based on quantities, final payment shall be for actual quantities jointly determined by the Owner and Contractor, upon completion of all Work hereunder.
D. Contractor shall have the right to terminate this Contract if Owner is unable to demonstrate to the satisfaction of Contractor prior to commencement of Work (or at any time during the course of the Work in response to the written request of Contractor) Owner's ability to make payments for the Work to be performed hereunder in the manner and at the times set forth herein.

4. **Time.** Contractor shall commence and continue thereafter to diligently perform the Work in accordance with a mutually agreed upon schedule. The mutually agreed upon schedule shall provide for **20** working days in which to perform the Work. A working day is defined as any day except Saturdays, Sundays and legal holidays and except days on which the Contractor is prevented from proceeding with at least ninety percent (90%) of the normal labor and/or equipment force required to perform the Work due to events or circumstances, beyond the control of Contractor including, but not limited to, those events or circumstances identified in Sections 7 and 8 of the General Terms.

5. **Special Conditions. Owner is responsible for all prep work including removal of raised pavement markers, removal of excess gravel from edges, applying herbicide, crack sealing, trimming trees, fog sealing patches and patching. Contractor to sweep streets prior to Slurry Seal and Micro-surfacing operations. Contractor to notify residents by use of "Door Hangers" 24 hours in advance of paving operations. Contractor to be allowed to work on Saturday and Sunday if needed. City to provide a staging area for operations.**

IN REFERENCE TO MICRO-SURFACING / SLURRY SEAL:

A. **Schedule to be mutually agreed upon by owner and contractor.**
B. **Special permits and licensing prices are not included in the contractual price agreement. If permitting or licensing is required for work to be conducted, all costs to obtain permits and licenses will be the responsibility of the owner.**
C. **The complete elimination of any existing drainage problem or reflective cracking is not intended or guaranteed.**
D. **Contractor is not responsible for any damage done to existing asphalt due to weights of machinery during the construction process.**
E. **Sweeping may be required by the Owner approximately two months after micro-surfacing placement to remove any excess aggregate.**
F. **Price excludes quality control besides initial mix design.**

6. **Attachments.** The following documents are attached hereto and incorporated herein and made a part of this contract by this reference: **Attachments "A"- (Site Maps), Attachment "B"- (Quote), Attachment "C" – (Excel Summary) .**

GENERAL CONDITIONS

1. **WORKMANSHIP AND MATERIALS**: Contractor acknowledges that it is familiar with the nature and location of the Work. All Work shall be performed by Contractor in a workmanlike manner, and in accordance with industry standards.
2. **PAYMENTS:** Contractor shall receive progress payments monthly in proportion to the amount of Work performed during the period covered by Contractor's billing. Progress payments will be made within ten (10) days after Owner receives a billing from Contractor setting forth the amount due for the Work performed and covered by the billing. Owner will make payment to Contractor for work performed in the percentage amount set forth under §3.A. appearing on the face page of the Contract. Final payment shall be due Contractor within ten (10) days after **(i)** Owner's receipt of a final billing from Contractor or **(ii)** completion of the Work, whichever shall occur last. The proportionate amount of Work billed on Contractor's progress billings shall be subject to the approval of Owner. Progress payments shall not be construed as an acceptance of any Work, the entire Work being subject to final inspection and approval by Owner. As it would be extremely difficult to fix and ascertain the actual damages the Contractor would sustain by Owner's failure to pay moneys due to Contractor under the terms of this Contract at the times and in the manner specified herein, it is hereby agreed by the parties hereto that the Owner shall pay to the Contractor in addition to all sums due hereunder the sum of the percentage per month set forth under §3.A. appearing on the face of the Contracts a fixed amount of any balance unpaid when due under this Contract. Nothing contained herein shall be deemed consent by the Contractor to extend the due date for payment under this Contract.
3. **CHANGES IN THE WORK:** Owner may, from time to time, by instructions or drawings issued to Contractor, make changes to the scope of the Work, issue additional instructions, request additional work or direct the omission of work previously ordered, and the provisions of this Contract shall apply to all such changes, modifications and additions with the same effect as if they were embodied in the original contract. The price or a formula for establishing the price and any time impacts to the schedule for such work shall be set forth in a written change order either prior to the commencement of work or as soon as practical thereafter and shall be mutually agreed upon with Contractor. Absent the parties' agreement to price and/or time extension for a change in the Work, Owner shall pay Contractor its actual direct costs in completing said extra work plus a mark-up of 15 percent thereon for overhead and profit.
4. **INDEMNITY:** Contractor shall indemnify and hold Owner harmless against all claims, damage suits, actions, recoveries and judgments to the extent caused by the negligence of Contractor, its agents, employees, or subcontractors, in performing the Work. Owner shall indemnify and hold Contractor harmless against all claims, damage suits, actions, recoveries and judgments to the extent caused by the negligence of Owner, its agents, employees, or other contractors.
5. **RESPONSIBILITY FOR WORK:** Except to the extent insured by property insurance provided by Owner, Contractor shall be responsible for and shall bear any loss of or damage to the Work and all materials, supplies and equipment until such time as Contractor has de-mobilized from the Work site. In no event, shall Contractor be liable for such loss or damage that results from the actions, omissions, fault or negligence, either active or passive, of the Owner, Owner's representatives, agents, employees, its other contractors or anyone acting on Owner's behalf or others over whom Contractor has no authority or control.
6. **INSURANCE:** Contractor shall maintain such insurance as will protect it from claims under workers' compensation acts and from claims for damages because of bodily injury, including death, or injury to property which may arise from and during the operation of this Contract. A certificate of such insurance shall be provided to the Owner if the Owner so requests.
7. **DELAYS BEYOND CONTROL OF CONTRACTOR:** In the event Contractor shall be delayed in the performance of the Work under this Contract by causes beyond the control of the Contractor and not caused by Contractor's negligence, including, but not limited to, Change Orders, Acts of God, or of the public enemy, acts of any governmental agency, fire, flood, epidemics, strikes, freight embargoes, inclement weather, over optimum moisture content of ground or base course, unsuitable ground conditions or delays caused by Owner, its other contractors, their subcontractors of any tier and the suppliers to any of the foregoing, Contractor shall have a time extension to the mutually agreed schedule for the time caused by said delay and shall be paid its additional costs incurred as a result of the delay, including labor and material cost or price escalations, and extended jobsite and home office overhead.
8. **DIFFERING SITE CONDITIONS**: (A) Contractor shall promptly, and before the conditions are disturbed, give a written notice to Owner of (1) subsurface or latent physical conditions at the site which differ materially from those indicated in this Contract, including but not limited to any subsurface utilities not accurately shown on plans or drawings, or (2) unknown physical conditions at the site of an unusual nature, which differ materially from those ordinarily encountered and generally recognized as inherent in work of the character provided for in this Contract, or (3) the existence of contaminated, toxic or hazardous materials or conditions not specifically described in type, character, or quantity in this Contract, which existence is deemed to be a differing site condition. (B) Owner shall investigate the site conditions promptly after receiving the notice. If the conditions do materially so differ or are deemed to so differ and cause an increase or decrease in the Contractor's cost of, or the time required for, performing any part of the Work under this Contract, whether or not changed as a result of the conditions, an equitable adjustment shall be made under this clause and the Contract price increased to reflect Contractor's increased costs plus a mark-up of 15 percent, and the mutually agreed schedule extended accordingly.
9. **LAWS AND REGULATIONS:** Contractor shall at all times comply with all applicable safety, licensing, employment and environmental laws, ordinances, statutes, rules and regulations of the Federal Government, State, County, Municipalities or their Agencies of Government (herein "Law" or "Laws").
10. **OWNER:** Owner represents he/she/it is the Owner in fee simple of the real property upon which the construction improvement is to be made.
11. **ACCEPTANCE:** Upon receipt of written notice from Contractor requesting acceptance of the Work being performed hereunder, Owner and Contractor shall promptly inspect the job jointly and, in the event the same has been completed in conformity herewith, provide Contractor with a Notice of Completion in recordable manner and form. In the event the Work performed is subject to further inspection and/or final acceptance by another person or entity, and such inspection and/or final acceptance cannot be obtained through no fault of Contractor, then in such event the Work shall be deemed completed and accepted. Contractor shall warrant its Work against defects in materials and workmanship for a period of one year from the date of completion of the Work.
12. **PERMITS:** Owner will obtain and pay for all permits, inspection fees, soils test, engineering, staking, fees for utility connections, or other such similar items required for the performance of Work hereunder.
13. **SUBCONTRACTING:** Contractor shall have the right to subcontract any portion of the Work hereunder, and all Work performed by subcontractors shall be subject to all of the applicable Contract terms and conditions.
14. **LIENS AND CLAIMS:** Provided Contractor has been, and continues to be, timely paid all amounts due it, Contractor shall promptly pay valid claims of all persons, firms or corporations performing labor or furnishing equipment, materials and other items used in, upon or for the Work done hereunder.
15. **FAILURE TO MAKE PAYMENTS:** In the event Owner shall fail to make payment at the times and in the amounts provided for in this Contract, Contractor shall have the right to stop Work. In such event all amounts due Contractor, including retention, if any, shall immediately become payable and Contractor shall have the right to recover all damages sustained by Contractor as a result of such breach of contract by Owner.
16. **DEFAULT:** In the event Contractor shall fail to timely perform any provision of this Contract and if such failure should continue for thirty (30) days after receipt of written notice from Owner, then Owner may terminate this Contract and cause the balance of the Work to be completed by other parties. In any such event, if the reasonable cost of such completion exceeds the unpaid balance due on the Contract price, Contractor shall promptly pay such difference to Owner; otherwise, the unpaid contract balance shall be paid to Contractor. The Owner and Contractor each waive the right to recover from the other any indirect, incidental or consequential damages regardless of how such damages are caused.
17. **COSTS AND ATTORNEYS' FEES:** Should either party bring suit in court to enforce or interpret any of the terms hereof, or for a breach thereof, and/or to foreclose any mechanic's lien attributable to the Work done hereunder, the prevailing party, to the extent permitted by applicable law, shall be entitled to cost and reasonable attorneys' fees, which may be set by the Court in the same action or in a separate action brought for that purpose, in addition to any other relief to which the prevailing party may be entitled.
18. **NOTICES:** Any notice required or permitted hereunder shall be served personally on Contractor's construction manager or on the representative of Owner at the job site, or may be served by certified mail directed to the address of the party shown on the face of the Contract. Notices shall be effective upon receipt by the intended recipient.
19. **ASSIGNMENT:** Except as provided in Section 13 above, neither party shall assign all or any portion of this Contract without first obtaining the signed written consent of the other party. Subject to the foregoing, this agreement shall be binding upon and inure to the heirs, successors and assigns of the parties hereto.
20. **WAIVER OF RIGHTS:** Failure to enforce any rights hereunder shall not waive any rights in respect of other or future occurrences.
21. **SEVERABILITY**: To the best knowledge and belief of the Parties, this Contract now contains no provision that is contrary to any Laws. In the event that any provision of this Contract shall at any time contravene in whole or in part any applicable Law, then such provision shall remain in effect only to the extent permitted, and the remaining provisions hereof shall remain in full force and effect.
22. **JURISDICTION AND VENUE:** It is understood and agreed that each and every provision of this Contract, including any alleged breach thereof, shall be interpreted in accordance with the laws of the state where the Work is to be performed. Venue for all matters arising under this Contract shall be in the county in which the Work is to be performed. Contractor is authorized to do business in the state in which the Work is performed.
23. **ENTIRE AGREEMENT:** This Contract constitutes the entire agreement between Owner and Contractor and contains all terms and conditions agreed upon by the parties. This Contract supersedes all earlier proposals, discussions, correspondence and oral agreements, if any, between Owner and Contractor.

CITY OF ROCKWALL, TEXAS
MEMORANDUM

TO: Mayor and City Council

CC: Rick Crowley, *City Manager*
Brad Griggs, *Assistant City Manager*

FROM: Ryan Miller, *Director of Planning and Zoning*

DATE: May 21, 2018

SUBJECT: Interlocal Agreement with TXDOT for a Gateway Monument Signage on SH-66

At the April 17, 2018 City Council meeting, the City Council directed staff to proceed with establishing a gateway monument sign in the median of SH-66, west of the intersection of N. Lakeshore Drive and SH-66 (*i.e. see the attached map*). In response to this direction, staff contact the Texas Department of Transportation (TXDOT) seeking information concerning how to proceed with getting this location approved. Brenda Callaway, the Assistant Area Engineer, has indicated that the City would need to enter into an interlocal agreement for a *Gateway Monument Agreement*. Attached to this memorandum is a summary of the program, the application, plans for the gateway monument signage, and a map indicating the location of the proposed gateway signage. Should the City Council approve this request, staff will prepare the required materials and submit them to TXDOT. Staff should note that while the agreement does state all financial responsibilities for the construction of the signage are required to be City funds, there should be no issue with 7/11 providing the materials and constructing the signage (*see attached email*). Should the City Council have any questions concerning this request staff will be available at the May 21, 2018 meeting to discuss.

Gateway Monument Program Guidelines

General

Integration of the transportation system to reflect community values may be achieved through enhancements that include Gateway Monuments. This program provides a method for the Texas Department of Transportation (TxDOT) to permit enhancement of transportation facilities by local entities.

A Gateway Monument is defined as any freestanding structure, nonintegral or nonrequired highway feature that will communicate the name of a city, county, or town (Local Entity) within TxDOT right of way. A Gateway Monument may include the name of the Local Entity and/or the officially adopted seal. The approval of a Gateway Monument proposal shall be made with due consideration to safety (location, potential for motorist distraction, accessibility for maintenance, etc.), aesthetics, community support, and maintainability. Proposals for the placement of Gateway Monuments must comply with these guidelines.

Gateway Monuments differ from aesthetic treatments incorporated into engineered highway features (sound walls, retaining walls, or other highway features).

Guidance

Local Entities often desire transportation facilities to provide identification and a favorable image of the communities in which they are located. TxDOT encourages and promotes enrichment of the cultural and visual environment for transportation system users and local communities by facilitating and coordinating the integration of Gateway Monuments within the operational highway right-of-way, through the Gateway Monument Agreement process.

Gateway Monuments are to be solely funded and maintained by a Local Entity. TxDOT will collaborate with the responsible Local Entity supporting the proposed Gateway Monument.

Gateway Monuments are discretionary features within the transportation corridor. Only one Gateway Monument will be allowed per State route in each direction into a town. The incorporation of a Gateway Monument will be evaluated for its potential for creating a distraction to motorists. TxDOT retains sole discretion for determining the location, appropriate size, content, colors, and other elements of the Gateway Monument. TxDOT shall have responsibility for approval of all Gateway Monuments on the State highway system and in addition, the Federal Highway Administration (FHWA) must approve Gateway Monuments on the interstate system.

Gateway Monuments shall be located beyond the clear recovery zone or otherwise placed to minimize the likelihood of being struck by an errant vehicle.

Other improvements such as landscaping or accent lighting may be considered in conjunction with the Gateway Monument proposal. Any improvements will be the responsibility of the Local Entity. TxDOT will collaborate with the Local Entity for appropriateness of the Gateway Monument proposal in context with existing, proposed, and future improvements.

Review/Approval Process

Gateway Monument submittals shall be reviewed with primary considerations to safety (location), appropriateness, aesthetics and access for maintenance purposes.

The Local Entity shall submit a Gateway Monument proposal to the District Engineer. The District Engineer has approval authority for these proposals. If the Gateway Monument is proposed for the interstate facility, the District shall coordinate with the Maintenance Division for additional processing and FHWA review and approval.

The Gateway Monument Agreement must be fully executed by both TxDOT and the Local Entity prior to the commencement of any construction associated with the project.

Financial Responsibilities

All costs for proposed Gateway Monument design, construction, access for maintenance, maintenance, and if required, removal of the Gateway Monument shall be the responsibility of the Local Entity and stipulated in detail within the Preliminary and Final Gateway Monument submittals.

The Gateway Monument Agreement shall stipulate that the Local Entity shall hold harmless, indemnify, and defend the State against any action associated with a Gateway Monument. TxDOT will assume the administrative costs associated with Gateway Monument proposal reviews, and developing, issuing, and monitoring the Gateway Monument Agreement for approved Gateway Monument projects. All other costs, including labor, materials, supplies, and traffic control (if required) for design, engineering, testing, construction, installation, maintenance, and removal of the Gateway Monument shall be the responsibility of the Local Entity. Coordination and resolution of any utility issues will be the responsibility of the Local Entity.

Maintenance

The Local Entity shall be required to provide for regularly scheduled maintenance, as described in the Gateway Monument Agreement, for its projected lifespan. Maintenance shall include, but not be limited to, restoration work to maintain the integrity of the approved Gateway Monument, maintenance of any associated landscaping or lighting and graffiti removal. Gateway Monuments shall be kept clean, free of graffiti, and in good repair. Graffiti removal shall conform to current TxDOT policies and guidelines, which require prompt removal of offensive messages and timely removal of all other graffiti.

Maintenance access shall be as stipulated by TxDOT in the Gateway Monument Agreement and should be provided from outside the highway right-of-way, wherever possible. For projects located on interstate highways, access shall not be from the mainlanes. Maintenance practices shall protect air and water quality as required by federal and state law.

Removal

The Local Entity shall remove Gateway Monuments, which in the opinion of TxDOT create safety or operational concern due to deterioration or inadequate maintenance. TxDOT will notify the Local Entity when it has determined that the Gateway Monument requires special attention. In the event the Local Entity fails to maintain, repair, rehabilitate, or remove the Gateway Monument in a timely manner, TxDOT may remove the Gateway Monument after 60 days following notification to the Local Entity, and bill the Local Entity for all costs of removal and restoration of the area.

TxDOT reserves the right to remove the Gateway Monument due to construction, rehabilitation, or other necessary activities affecting the transportation facilities without any obligation, compensation to, or approval of the Local Entity. TxDOT will strive to notify the Local Entity of its intent to remove the Gateway Monument to allow for timely removal and salvage by the Local Entity (if possible).

TxDOT reserves the right to remove or alter any Gateway Monument that presents an immediate safety hazard to the public without delay or advanced notification to the Local Entity.

Design and Placement of Gateway Monuments

Proposed Gateway Monuments shall:

1. Be freestanding.
2. Feature only the letters of the community name and/or officially adopted seal.
3. Include, if required by TxDOT, approved protective graffiti coatings.
4. Be appropriate to its proposed setting and community context.
5. Be in proper size and scale with its surroundings. The maximum size of the gateway monument face shall not exceed 400 square feet in total. The height shall not exceed 20 feet above existing grade. Monument widths exceeding 20 feet will not be allowed for gateway monuments on the Interstate, although the FHWA may consider waiving this limitation on a case-by-case basis.
6. Be composed of materials that are durable for the projected life span of the project.
7. Be located beyond the clear zone, for both main lane traffic and frontage road traffic
8. Be located where maintenance can be safely performed, as specified in the Gateway Monument Agreement and in conformance with TxDOT procedures.
9. Be subject to the review and approval of TxDOT in consideration of design, size, and scale for appropriate integration on urban or rural highway features.

Proposed Gateway Monuments shall not:

1. Be allowed within the center median areas of interstate highway right-of-way.
2. Contain religious, political, special interest, private, or commercial messages of any sort, including, but not limited to, symbols, logos, business names, trade names, jingles, or slogans.
3. Contain any displays of any sort, advertising, decorative banners, flags, or flag poles.
4. Display telephone numbers, street addresses, or Internet addresses.
5. Interfere with airspace above the roadway.
6. Create a distraction to the motoring public, for example, the proposed Gateway Monument shall be large enough to interpret at highway speed, but not be so large that it demands attention from the motorist.
7. Include reflective or glaring surface finishes.
8. Include illumination that impairs or distracts the vision of transportation system users. Other lighting may be permitted.
9. Display blinking or intermittent or moving lights, including changeable message signs, digital displays or lighted static displays such as LED. Ground mounted uplights to illuminate the gateway monument itself will be acceptable.
10. Include moving elements (kinetic art) or simulate movement.
11. Include water features of any sort.
12. Interfere with official traffic control devices nor interfere with the operational right-of-way above the roadway.
13. Be placed within State right-of-way upon trees, or painted or drawn upon rocks or other existing natural features.
14. Make use of or simulate colors or combinations of colors usually reserved for official traffic control devices described in the Texas Manual on Uniform Traffic Control

Devices.

15. Require the removal of trees or other vegetation for visibility, or harm trees during construction. Pruning of tree branches or roots, and removal of shrubs should be avoided.
16. Negatively impact existing highway features, including existing signs, irrigation systems, necessary drainage patterns, and facilities.

Submittal Requirements for Gateway Monument Proposals

A Gateway Monument proposal must be supported by the Local Entity that has jurisdiction in the area where the Gateway Monument will be incorporated. The Local Entity shall issue an adopted resolution or other official document recommending approval of the proposed design of the Gateway Monument and requesting installation within the operational highway right-of-way.

The Local Entity shall provide the Department an adopted resolution or other official documentation that describes the Local Entity's:

1. Jurisdiction over the area of the project site.
2. Approval of the Gateway Monument content.
3. Funding responsibility.
4. Commitment to ensure maintenance of the Gateway Monument (and any associated landscaping and/or lighting), including timely graffiti removal/repair, and removal (or restoration) of the Gateway Monument as needed.
5. Proposed schedule for commencing and completing project installation.

A licensed landscape architect, architect, or professional engineer shall professionally prepare, sign and seal submittals for a Gateway Monument Proposal. Exhibits, plans, and details shall include, but are not limited to the following:

1. A full description of the proposed Gateway Monument, including location, construction, and installation techniques, details necessary to convey construction methods, proposed color scheme, proposed materials, including, but not limited to, paint and protective coatings.
2. Specifications for proposed materials, including material data sheets.
3. A scaled drawing indicating the placement of the proposed Gateway Monument.
4. Elevations and details clearly illustrating and dimensioning the proposal (the Gateway Monument must be aesthetically pleasing on all visible sides).
5. Landscape, irrigation and lighting plans if required.
6. Construction schedule.
7. Cost estimate.
8. Traffic control plans and provisions if required.
9. Proposed maintenance plan and schedule (including proposed access for maintenance purposes).
10. Environmental documentation.

The Local Entity shall adhere to and maintain compliance with departmental rules, regulations, state and federal laws, and any additional requirements TxDOT may apply to the project. If, at any time during the process, TxDOT recommends any changes for a proposal that has not yet received final approval, the proposal may be returned to the Local Entity for revision. Once TxDOT approves a Gateway Monument proposal, no changes shall be made to the Gateway Monument without prior written approval of the District Engineer. For Gateway Monuments located on interstate highways, changes must be submitted to FHWA for approval.

GATEWAY MONUMENT AGREEMENT

THE STATE OF TEXAS §

COUNTY OF TRAVIS §

THIS AGREEMENT is made by and between the State of Texas, acting by and through the Texas Department of Transportation, hereinafter called the "State", and the _____ of _____, acting through its duly authorized officials, as evidenced by Resolution or Ordinance Number _____, dated _____, hereinafter called the "Local Entity".

BACKGROUND

The State owns and maintains a system of highways, including _____ in _____ County, Texas, for public use and benefit. The State agrees to allow for the construction of a Gateway Monument within the State's right of way and the Local Entity agrees to construct the Monument and to conduct the long term maintenance for this structure located at _____ from _____ to _____, referred to as the "Gateway Monument," more specifically described in **Attachment "A,"** Project Map, which is attached hereto. The Local Entity will conduct the Monument's long term maintenance activities through the use of Local Entity forces, contractors, or other means satisfactory to the Local Entity and the State.

THEREFORE, in consideration of the mutual promises contained in this Agreement, the parties agree to the following.

A G R E E M E N T

SECTION 1. PERIOD OF THE AGREEMENT

This Agreement becomes effective when finally executed by the State and shall continue unless or until otherwise terminated as provided by this agreement.

SECTION 2. FINANCIAL RESPONSIBILITIES

All costs covered by this agreement including design, engineering, testing, construction, installation, access for maintenance, maintenance, labor, materials, supplies, traffic control, additional improvements, and if required, removal of the Gateway Monument, shall be the responsibility of the Local Entity.

Any administrative costs associated with the Gateway Monument that are incurred by the State, such as those related to proposal review, as well as developing, issuing, and monitoring the Agreement for approved the Gateway Monument project shall be the responsibility of the State.

SECTION 3. RESPONSIBILITY OF THE PARTIES

A. The Local Entity agrees to:

1. Provide Gateway Monument design plans to the State before execution of this agreement according to TxDOT policy and, upon final approval, furnish and construct the Gateway Monument according to plans approved by the State, which are set out more specifically in **Attachment "B,"** Local Entity's Final Gateway Monument Proposal, which is attached to this Agreement, and include any other related installation items that may be required; and

2. Furnish, erect, and maintain any barricades, signs and traffic handling devices, in accordance with the latest Texas Manual of Uniform Traffic Control Devices (MUTCD) and to the satisfaction of the State related to this project, as may be required to protect the safety of the public; and

3. Conduct periodic inspections of the Gateway Monument as deemed necessary; and

4. Provide for the construction and maintenance of all associated appurtenances that are considered by the State to be a part of the project. The Local Entity further agrees to remove such items from the project's location and restore the area to the satisfaction of the State upon termination of this Agreement in accordance with Section 9.

B. The State agrees to:

1. Review and evaluate the Gateway Monument proposal submitted by the Local Entity with due consideration to safety (location, potential for motorist distraction, accessibility for maintenance, etc.), aesthetics, community support and maintainability; and

2. Coordinate with other TxDOT Divisions, as appropriate, as well as interact with the Federal Highway Administration (FHWA) for input, review and approval; and

3. Cooperate with the Local Entity to determine the requirements for barricades, signs, and traffic handling devices to be used by the Local Entity during the construction and maintenance of the Gateway Monument; and

4. Provide maintenance access to the project location for the Local Entity or for its Contractor or group, and if possible, from outside the highway right of way; and

5. Conduct periodic inspections of the Gateway Monument as deemed necessary.

C. The Local Entity and State further agree that nothing contained in this Agreement will be construed to:

1. Give either party the power to direct and control the day-to-day activities of the other; or

2. Constitute the parties as partners, joint venturers, co-owners, or otherwise as participants in a joint or common undertaking; or

3. Allow either party to create or assume any obligation on behalf of the other party for any purpose whatsoever.

SECTION 4. DESIGN AND PLACEMENT OF GATEWAY MONUMENTS

A. Gateway Monuments shall be designed and placed so as to:

1. Be freestanding.

2. Feature only the letters of the community name and/or officially adopted seal.

3. Include, if required by TxDOT, approved protective graffiti coatings.

4. Be appropriate to its proposed setting and community context.

5. Be in proper size and scale with its surroundings.

6. Be composed of materials that are durable for the projected life span of the project.

7. Be located beyond the clear zone, for both main lane traffic and frontage road traffic.

8. Be located where maintenance can be safely performed, as specified in the Gateway Monument Agreement, and in conformance with TxDOT procedures.

9. Be subject to the review and approval of TxDOT in consideration of design, size, and scale for appropriate integration on urban or rural highway features.

B. Gateway Monuments shall not:

1. Be allowed within the center median areas of interstate highway rights-of-way.

2. Contain religious, political, special interest, private, or commercial messages of any sort, including, but not limited to, symbols, logos, business names, trade names, jingles, or slogans.

3. Contain any displays of any sort, advertising, decorative banners, flags, or flag poles.

4. Display telephone numbers, street addresses, or Internet addresses.

5. Interfere with airspace above the roadway.

6. Create a distraction to the motoring public; for example, the Gateway Monument shall be large enough to interpret at highway speed, but not be so large that it demands attention from the motorist.

7. Include reflective or glaring surface finishes.

8. Include illumination that impairs or distracts the vision of transportation system users. Other lighting may be permitted.

9. Display blinking or intermittent or moving lights, including changeable message signs, digital displays, or lighted static displays such as LED.

10. Include moving elements (kinetic art) or simulate movement.

11. Include water features of any sort.

12. Interfere with official traffic control devices, nor interfere with the operational right-of-way above the roadway.

13. Be placed within State right-of-way upon trees, or painted or drawn upon rocks or other existing natural features.

14. Make use of or simulate colors or combinations of colors usually reserved for official traffic control devices described in the Texas Manual on Uniform Traffic Control Devices.

15. Require the removal of trees or other vegetation for visibility, or harm trees during construction. Pruning of tree branches or roots, and removal of shrubs should be avoided.

16. Negatively impact existing highway features, including existing signs, irrigation systems, necessary drainage patterns, and facilities.

SECTION 5. MAINTENANCE

The Local Entity shall provide regularly scheduled maintenance, as described in **Attachment "B,"** the Local Entity's Final Gateway Monument Proposal, for its projected lifespan. Maintenance shall include, but not be limited to, restoration work to maintain the integrity of the approved Gateway Monument, maintenance of any associated landscaping or lighting, and graffiti removal. Gateway Monuments shall be kept clean, free of graffiti, and in good repair. Graffiti removal shall conform to the most current TxDOT policies and guidelines, which require prompt removal of offensive messages and timely removal of all other graffiti. Maintenance practices of the Local Entity or its agent shall protect air and water quality as required by federal and state law.

SECTION 6. MONUMENT REMOVAL

The Local Entity shall remove the Gateway Monument covered by this agreement, if in the opinion of TxDOT, it creates safety or operational concerns due to deterioration or inadequate maintenance or upon termination of the main Gateway Monument Agreement. TxDOT will notify the Local Entity when it has determined that the Gateway Monument requires special attention. In the event the Local Entity fails to maintain, repair, rehabilitate, or remove the Gateway Monument in a timely manner, TxDOT may choose to remove the Gateway Monument after thirty (30) days following notification to the Local Entity, and bill the Local Entity for all costs of removal and restoration of the area.

TxDOT reserves the right to remove the Gateway Monument due to construction, rehabilitation, violation of the terms of this agreement, or other necessary activities affecting the transportation facilities without any obligation, compensation to, or approval of the Local Entity. TxDOT will strive to notify the Local Entity of its intent to remove the Gateway Monument to allow for timely removal and salvage by the Local Entity, if possible.

TxDOT reserves the right to remove or alter any Gateway Monument that presents an immediate safety hazard to the public without delay or advanced notification to the Local Entity.

SECTION 7. USE OF CONTRACTOR OR GROUP

The Local Entity shall have the right to engage any responsible Contractor or group to perform or provide any portion of the Local Entity's Gateway Monument

activities specified in this Agreement. However, notwithstanding this provision, the Local Entity shall continue to remain responsible to the State to ensure performance of all its duties and responsibilities specified in this Agreement. The Local Entity shall ensure that any Contractor or group complies with all provisions of this agreement, and federal, state, and local laws, and regulations as may be applicable.

In the event the Local Entity engages a Contractor to perform Gateway Monument construction or maintenance activities under this Agreement, the Local Entity shall ensure that said Contractor shall indemnify the State for any and all damages and claims for damages by said Contractor, its employees, agents, or representatives, including any claims resulting from bodily injury or death to others, or, for loss of or damage to property of others, arising out of, incident to, or in any manner connected to Gateway Monument construction or maintenance activities, and, for any or all liability arising from the negligent acts of said Contractor, its employees, agents, or representatives.

In the event the Local Entity engages and approves a responsible group to perform Gateway Monument construction or maintenance activities under this Agreement, the Local Entity shall require and ensure that said Contractor or group follow all the terms of this Agreement as well as all Attachments.

SECTION 8. INDEMNIFICATION

A. The Local Entity and the State each acknowledge responsibility for the acts, deeds, errors and omissions of its own employees. The parties agree that the Texas Tort Claims Act pertaining to governmental liability for tortious conduct and/or property damage shall apply to this Agreement.

B. The Local Entity shall also indemnify and save harmless the State from any and all expense, including, but not limited to, attorney fees, which may be incurred by the State in litigation or otherwise resisting a claim or liabilities that may be imposed on the State as a result of error, omission, or act of the Local Entity, its agents, or its employees.

SECTION 9. TERMINATION

This Agreement may be terminated under any of the following conditions:

A. By mutual written agreement and consent of both parties; or

B. By either party upon giving the other party thirty (30) days prior written notice; or

C. By the State, in the event the State determines that the Gateway Monument is not in the best interest of the traveling public.

If either party terminates this Agreement, as provided herein, the Local Entity will be responsible for repair or removal of the Gateway Monument. In the event that the Local Entity does not provide the repair or removal services, the State may remove or repair the Gateway Monument and shall be entitled to reimbursement from the Local Entity for any reasonable costs incurred by the State to restore the State's right of way to its original condition.

SECTION 10. AMENDMENTS
Amendments to this Agreement shall be in writing and shall be executed by both parties.

SECTION 11. AUDIT
The state auditor may conduct an audit or investigation of any entity receiving funds from the state directly under the contract or indirectly through a subcontract under the contract. Acceptance of funds directly under the contract or indirectly through a subcontract under this contract acts as acceptance of the authority of the state auditor, under the direction of the legislative audit committee, to conduct an audit or investigation in connection with those funds. An entity that is the subject of an audit or investigation must provide the state auditor with access to any information the state auditor considers relevant to the investigation or audit.

SECTION 12. SUCCESSORS AND ASSIGNS
Subject to the provisions of Section 7, the Local Entity shall not assign or otherwise transfer its rights and obligations under this Agreement except with prior written consent of the State, and any prohibited assignment or transfer shall be null and void.

SECTION 13. REMEDIES
This Agreement shall not be considered as specifying the exclusive remedy for any default. All legal remedies may be pursued by either party and shall be cumulative.

SECTION 14. INSURANCE
If this agreement authorizes the Local Entity or its contractor to perform any work on State right of way, before beginning work, the entity performing the work shall provide the State with a fully executed copy of the State's Form 1560 Certificate of Insurance verifying the existence of coverage in the amounts and types specified on the Certificate of Insurance for all persons and entities working on the State right of way. This coverage shall be maintained until all work on the State right of way is complete. If coverage is not maintained, all work on State right of way shall cease immediately, and the State may recover damages and all costs of completing the work.

SECTION 15. NOTICES
All notices to either party by the other under this Agreement shall be delivered personally or sent by U.S. mail, postage prepaid, addressed to such party at the following addresses:

STATE : Texas Department of Transportation District Engineer (mailing address) _____ _____ _____, Texas _____	**LOCAL ENTITY:** City of _____ Attn: _____ _____ _____

SECTION 16. GRATUITIES
Texas Transportation Commission policy mandates that employees of the State shall not accept any benefits, gifts, or favors from any person doing business or who reasonably speaking may do business with the State under this Agreement. The only exceptions allowed are ordinary business lunches and items that have received advanced written approval of the Texas Department of Transportation Executive Director. Any person doing business with or who may reasonably speaking do business with the State under this Agreement may not make any offer of benefits, gifts or favors to State employees, except as mentioned here above. Failure on the part of the Local Entity to adhere to this policy may result in the termination of this Agreement.

SECTION 17. SIGNATORY WARRANTY
Each signatory warrants that the signatory has necessary authority to execute this agreement on behalf of the entity represented.

SECTION 18. INCORPORATION OF PROVISIONS
Attachments “A” and “B” are made part of this contract. The parties shall comply with the provisions of Attachments “A” and “B” as if they were set forth in full within the body of this contract.

THEREFORE, the Parties have executed this Agreement in duplicate originals.

CITY OF ROCKWALL

RESOLUTION NO. 18-13

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, FINDING THAT A NECESSITY EXISTS TO ACQUIRE REAL PROPERTY FOR RECONSTRUCTION OF COUNTY LINE ROAD AND OTHER MUNICIPAL PURPOSES; AUTHORIZING THE CITY ATTORNEY TO INSTITUTE EMINENT DOMAIN PROCEEDINGS FOR THE ACQUISITION OF RIGHT-OF-WAY ACROSS CERTAIN HEREINAFTER DESCRIBED TRACTS OF LAND FOR RECONSTRUCTION OF COUNTY LINE ROAD AND OTHER MUNICIPAL PURPOSES; PROVIDING FOR A FINAL OFFER; PROVDING FOR A SEVERABILITY CLAUSE; AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, the City Council has found that public necessity requires the reconstruction of County Line Road; and

WHEREAS, the tracts described on Exhibit A, attached hereto and incorporated herein as if it were copied verbatim, have been determined to be one (1) or more of the tracts needed for the easements necessary for construction of County Line Road and other municipal purposes; and

WHEREAS, there has been extensive negotiations with the property owners for the purchase of the required property by the City; and

WHEREAS, the City has obtained an independent fair market value eminent domain appraisal for each property which forms the basis of the City's negotiations and Offers and has been provided to each landowner; and

WHEREAS, such negotiations have been unsuccessful; and

WHEREAS, the City Council deems the public interest to be best served by the acquisition of the property described in Exhibit A attached hereto;

NOW THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:

Section 1. That all of the above premises are found and determined to be true and correct and are incorporated into the body of this Resolution as if copied in their entirety.

Section 2. That the City Attorney is hereby authorized to extend a final offer to the owners of the tracts of land more specifically described in Exhibit A for the acquisition of said real property for the purpose of reconstructing County Line Road and other municipal purposes.

Section 3. If the said final offer is not accepted by the owner of the tract, the City Attorney is directed to begin eminent domain proceedings pursuant to the laws of the State of Texas.

Section 4. If any section, article, paragraph, sentence, clause, phrase, or word in this Resolution, or application thereof to any persons or circumstances, is held invalid or

unconstitutional by a court of competent jurisdiction such holding shall not affect the validity of the remaining portions of this Resolution; and the City Council hereby declares it would have passed such remain portion of this Resolution despite such invalidity which remaining portions shall remain in full force and effect.

Section 5. That this Resolution shall take effect immediately from and after its adoption and it is so resolved.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, this 21st day of May, 2018.

Jim Pruitt, Mayor

COUNTY LINE ROAD RECONSTRUCTION PROJECT

PARCEL NO. 8
RIGHT-OF-WAY ACQUISITION
JTS ALLIANCE, INC.
WILLIAM W. FORD SURVEY, ABSTRACT NO. 80
CITY ROCKWALL, ROCKWALL COUNTY, TEXAS

Being a Right-of-Way Acquisition tract situated in the William W. Ford Survey, Abstract No. 80, City of Rockwall, Rockwall County, Texas, and being a portion of a 9.76 acre tract of land (by deed) deeded to JTS Alliance, Inc., as recorded in Instrument No. 20130000502056 of the Official Public Records of Rockwall County, Texas, said 9.76 acre tract being further described as all of Lot 18 and part of Lot 19 of Rainbo Acres, an addition to the City of Rockwall, Rockwall County, Texas, as recorded in Cabinet A, Slide 20 of the Plat Records of Rockwall County, Texas, said Right-of-Way Acquisition tract being more particularly described by metes and bounds as follows:

BEGINNING at a point for the northwest corner of said 9.76 acre tract, said point being the intersection of the existing south right-of-way line of County Line Road (a variable width right-of-way) with the existing east right-of-way line of Ranch Trail Road (a variable width right-of-way);

THENCE North 88 degrees 34 minutes 01 seconds East, with the north line of said 9.76 acre tract and with the existing south right-of-way line of said County Line Road, a distance of 457.77 feet to a point for the northeast corner of said 9.76 acre tract, said point being the northwest corner of a 0.281 acre tract of land (by deed) deeded to Crown Castle Towers 09 LLC, as recorded in Instrument No. 20170000004322 of said Official Public Records of Rockwall County, Texas;

THENCE South 01 degrees 51 minutes 09 seconds East, with the east line of said 9.76 acre tract and the west line of said 0.281 acre tract, passing at a distance of 22.69 feet a 1/2 inch iron rod with cap (Illegible) found, in all a distance of 24.38 feet to a 5/8 inch iron rod with cap stamped "GORRONDONA & ASSOCIATES" set for corner in the proposed south right-of-way line of said County Line Road, from which a 1/2 inch iron rod (controlling monument) with cap stamped "PEEDE DATA" found for the southwest corner of said 0.281 acre tract and an interior ell corner of said 9.76 acre tract, bears South 01 degrees 51 minutes 09 seconds East, a distance of 97.58 feet;

THENCE South 88 degrees 42 minutes 53 seconds West, with the proposed south right-of-way line of said County Line Road, a distance of 453.50 feet to a 5/8 inch iron rod with cap stamped "GORRONDONA & ASSOCIATES" set for corner;

THENCE South 61 degrees 23 minutes 55 seconds West, with the proposed south right-of-way line of said County Line Road a distance of 36.38 feet to a 5/8 inch iron rod with cap stamped "GORRONDONA & ASSOCIATES" set for corner in the west line of said 9.76 acre tract, said 5/8 inch iron rod being in the existing east right-of-way line of said Ranch Trail Road, from which a 1/2 inch iron rod (controlling monument) with cap stamped "RSCI 5034" found, bears South 33 degrees 35 minutes 39 seconds West, a distance of 168.97 feet;

GORRONDONA & ASSOCIATES, INC 1701 NORTH MARKET STREET, SUITE 450, LB 5, DALLAS, TEXAS 75202 214-712-0600 FAX 214-712-0604

THENCE North 33 degrees 35 minutes 39 seconds East, with the west line of said 9.76 acre tract and the existing east right-of-way line of said Ranch Trail Road a distance of 48.63 feet to the **POINT OF BEGINNING** and containing 11,255 square feet or 0.258 acres of land, more or less.

VARIABLE WIDTH TEMPORARY CONSTRUCTION EASEMENT

The above described variable width right-of-way acquisition is also subject to a variable width temporary construction easement being parallel and adjacent to said variable width right-of-way acquisition, located and shown on the accompanying survey plat, said variable width temporary construction easement contains 0.096 acres of land, more or less. The said variable width temporary construction easement shall expire as noted in the easement agreement.

NOTES:

1. A plat of same date accompanies this legal description.

2. Bearings are based on the Texas State Plane Coordinate System, North American Datum of 1983, NA2011 (Epoch 2010.00), North Central Zone (4202) and adjusted to surface values using the Texas Department of Transportation Surface Adjustment Factor for Rockwall County of 1.000146135. Distances and areas shown are surface values and in U.S. Survey Feet.

* SURVEYOR'S CERTIFICATE *

TO ALL PARTIES INTERESTED IN TITLE TO THE PREMISES SURVEYED, I DO HEREBY STATE THAT THE ABOVE LEGAL DESCRIPTION WAS PREPARED FROM PUBLIC RECORDS AND FROM AN ACTUAL AND ACCURATE SURVEY UPON THE GROUND AND THAT SAME IS TRUE AND CORRECT.

CITY OF ROCKWALL

RESOLUTION NO. 18-15

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, FINDING THAT A NECESSITY EXISTS TO ACQUIRE REAL PROPERTY FOR RECONSTRUCTION OF COUNTY LINE ROAD AND OTHER MUNICIPAL PURPOSES; AUTHORIZING THE CITY ATTORNEY TO INSTITUTE EMINENT DOMAIN PROCEEDINGS FOR THE ACQUISITION OF RIGHT-OF-WAY ACROSS CERTAIN HEREINAFTER DESCRIBED TRACTS OF LAND FOR RECONSTRUCTION OF COUNTY LINE ROAD AND OTHER MUNICIPAL PURPOSES; PROVIDING FOR A FINAL OFFER; PROVDING FOR A SEVERABILITY CLAUSE; AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, the City Council has found that public necessity requires the reconstruction of County Line Road; and

WHEREAS, the tracts described on Exhibit A, attached hereto and incorporated herein as if it were copied verbatim, have been determined to be one (1) or more of the tracts needed for the easements necessary for construction of County Line Road and other municipal purposes; and

WHEREAS, there has been extensive negotiations with the property owners for the purchase of the required property by the City; and

WHEREAS, the City has obtained an independent fair market value eminent domain appraisal for each property which forms the basis of the City's negotiations and Offers and has been provided to each landowner; and

WHEREAS, such negotiations have been unsuccessful; and

WHEREAS, the City Council deems the public interest to be best served by the acquisition of the property described in Exhibit A attached hereto;

NOW THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:

Section 1. That all of the above premises are found and determined to be true and correct and are incorporated into the body of this Resolution as if copied in their entirety.

Section 2. That the City Attorney is hereby authorized to extend a final offer to the owners of the tracts of land more specifically described in Exhibit A for the acquisition of said real property for the purpose of reconstructing County Line Road and other municipal purposes.

Section 3. If the said final offer is not accepted by the owner of the tract, the City Attorney is directed to begin eminent domain proceedings pursuant to the laws of the State of Texas.

Section 4. If any section, article, paragraph, sentence, clause, phrase, or word in this Resolution, or application thereof to any persons or circumstances, is held invalid or

unconstitutional by a court of competent jurisdiction such holding shall not affect the validity of the remaining portions of this Resolution; and the City Council hereby declares it would have passed such remain portion of this Resolution despite such invalidity which remaining portions shall remain in full force and effect.

Section 5. That this Resolution shall take effect immediately from and after its adoption and it is so resolved.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, this 21st day of May, 2018.

Jim Pruitt, Mayor

CITY OF ROCKWALL

RESOLUTION NO. 18-18

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, FINDING THAT A NECESSITY EXISTS TO ACQUIRE REAL PROPERTY FOR RECONSTRUCTION OF COUNTY LINE ROAD AND OTHER MUNICIPAL PURPOSES; AUTHORIZING THE CITY ATTORNEY TO INSTITUTE EMINENT DOMAIN PROCEEDINGS FOR THE ACQUISITION OF RIGHT-OF-WAY ACROSS CERTAIN HEREINAFTER DESCRIBED TRACTS OF LAND FOR RECONSTRUCTION OF COUNTY LINE ROAD AND OTHER MUNICIPAL PURPOSES; PROVIDING FOR A FINAL OFFER; PROVDING FOR A SEVERABILITY CLAUSE; AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, the City Council has found that public necessity requires the reconstruction of County Line Road; and

WHEREAS, the tracts described on Exhibit A, attached hereto and incorporated herein as if it were copied verbatim, have been determined to be one (1) or more of the tracts needed for the easements necessary for construction of County Line Road and other municipal purposes; and

WHEREAS, there has been extensive negotiations with the property owners for the purchase of the required property by the City; and

WHEREAS, the City has obtained an independent fair market value eminent domain appraisal for each property which forms the basis of the City's negotiations and Offers and has been provided to each landowner; and

WHEREAS, such negotiations have been unsuccessful; and

WHEREAS, the City Council deems the public interest to be best served by the acquisition of the property described in Exhibit A attached hereto;

NOW THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:

Section 1. That all of the above premises are found and determined to be true and correct and are incorporated into the body of this Resolution as if copied in their entirety.

Section 2. That the City Attorney is hereby authorized to extend a final offer to the owners of the tracts of land more specifically described in Exhibit A for the acquisition of said real property for the purpose of reconstructing County Line Road and other municipal purposes.

Section 3. If the said final offer is not accepted by the owner of the tract, the City Attorney is directed to begin eminent domain proceedings pursuant to the laws of the State of Texas.

Section 4. If any section, article, paragraph, sentence, clause, phrase, or word in this Resolution, or application thereof to any persons or circumstances, is held invalid or

unconstitutional by a court of competent jurisdiction such holding shall not affect the validity of the remaining portions of this Resolution; and the City Council hereby declares it would have passed such remain portion of this Resolution despite such invalidity which remaining portions shall remain in full force and effect.

Section 5. That this Resolution shall take effect immediately from and after its adoption and it is so resolved.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, this 21st day of May, 2018.

Jim Pruitt, Mayor

PARCEL NO. 22
RIGHT-OF-WAY ACQUISITION
THE L.D. AND CARLA R. ARCHIBALD REVOCABLE LIVING TRUST
GLOVER WELLS SURVEY, ABSTRACT NO. 219
CITY ROCKWALL, ROCKWALL COUNTY, TEXAS

Being a Right-of-Way Acquisition tract situated in the Glover Wells Survey, Abstract No. 219, City of Rockwall, Rockwall County, Texas, and being a portion of Lot 983A of Rockwall Lake Properties Development No. 2, an addition to the City of Rockwall, Rockwall County, Texas, as recorded in Cabinet A, Slide 79, of the Plat Records of Rockwall County, Texas, said Lot 983A being deeded to The L.D. and Carla R. Archibald Revocable Living Trust, as recorded in Volume 1129, Page 54 of the Deed Records of Rockwall County, Texas, said Right-of-Way Acquisition tract being more particularly described by metes and bounds as follows:

BEGINNING at a 5/8 inch iron rod set (controlling monument) with cap stamped "GORRONDONA & ASSOCIATES" in the west line of said Lot 983A and in the existing west right-of-way line of Lynne Drive (a called 50.0' right-of-way), said 5/8 inch iron rod being in the proposed north right-of-way line of County Line Road, from which a 3/8 inch iron rod found for reference in the existing east right-of-way line of said Lynne Drive, bears North 00 degrees 44 minutes 47 seconds West, a distance of 280.62 feet;

THENCE North 88 degrees 42 minutes 50 seconds East, with the proposed north right-of-way line of said County Line Road a distance of 119.81 feet to a 5/8 inch iron rod set (controlling monument) with cap stamped "GORRONDONA & ASSOCIATES" for corner in the east line of said Lot 983A and being in the existing north right-of-way line of County Line Road (a variable width right-of-way);

THENCE South 00 degrees 44 minutes 47 seconds East, with the east line of said Lot 983A and the existing north right-of-way line of said County Line Road, a distance of 1.85 feet to a point for the southeast corner of said Lot 983A;

THENCE South 88 degrees 45 minutes 33 seconds West, with the south line of said Lot 983A and the existing north right-of-way line of said County Line Road, a distance of 119.81 feet to a point for the southwest corner of said Lot 983A, said point being the intersection of the existing north right-of-way line of County Line Road with the existing east right-of-way line of said Lynne Drive;

THENCE North 00 degrees 44 minutes 47 seconds West, with said east right-of-way line of Lynne Road and the west line of said Lot 983A a distance of 1.76 feet to the **POINT OF BEGINNING,** and containing 216 square feet or 0.005 acres of land, more or less.

CITY OF ROCKWALL
COUNTY LINE ROAD RECONSTRUCTION PROJECT

PARCEL NO. 31
RIGHT-OF-WAY ACQUISITION
ROYCE LEE GRIZZEL JR.
GLOVER WELLS SURVEY, ABSTRACT NO. 219
CITY ROCKWALL, ROCKWALL COUNTY, TEXAS

Being a Right-of-Way Acquisition tract situated in the Glover Wells Survey, Abstract No. 219, City of Rockwall, Rockwall County, Texas, and being a portion of Lot 757A of Rockwall Lake Properties Development No. 2, an addition to the City of Rockwall, Rockwall County, Texas, as recorded in Cabinet A, Slide 79, of the Plat Records of Rockwall County, Texas, said Lot 757A being owned by Royce Lee Grizzel (No Deed of Record found), said Right-of-Way Acquisition tract being more particularly described by metes and bounds as follows:

BEGINNING at a 5/8 inch iron rod set with cap stamped "GORRONDONA & ASSOCIATES" in the east line of said Lot 757A and in the existing west right-of-way line of Eva Place (a called 50.0' right-of-way), said 5/8 inch iron rod set with cap stamped "GORRONDONA & ASSOCIATES" being in the proposed north right-of-way line of County Line Road, from which a 1/2 inch iron rod found (controlling monument) for the southeast corner of Lot 759A of said Rockwall Lake Properties Development No. 2, and being deeded to Silva Bertha as recorded in Volume 6681, Page 99 of the Deed Records of Rockwall County, Texas, bears North 03 degrees 02 minutes 31 seconds East, a distance of 100.63 feet, said 1/2 inch iron rod found being in the existing west right-of-way line of said Eva Place;

THENCE South 03 degrees 02 minutes 31 seconds West, with the east line of said Lot 757A and the existing west right-of-way line of said Eva Place, a distance of 19.37 feet to a point for the southeast corner of said Lot 757A, said point being the intersection of the existing west right-of-way line of said Eva Place with the existing north right-of-way line of County Line Road (a variable width right-of-way);

THENCE South 88 degrees 44 minutes 13 seconds West, with the south line of said Lot 757A and the existing north right-of-way line of said County Line Road a distance of 120.00 feet to a point for the southwest corner of said Lot 757A and the southeast corner of Lot 756A of said Rockwall Lake Properties Development No. 2, and being deeded to Teresa Hernandez Jimenez and Luis Torres Galina, as recorded in Volume 5468, Page 201 of said Deed Records of Rockwall County, Texas, from which a 5/8 inch iron rod found (controlling monument) for the southwest corner of said Lot 756A, bears South 88 degrees 44 minutes 13 seconds West, a distance of 60.00 feet;

THENCE North 03 degrees 02 minutes 11 seconds East, with the west line of said Lot 757A and the east line of said Lot 756A, a distance of 9.30 feet to a 5/8 inch iron rod with cap stamped "GORRONDONA & ASSOCIATES" set for corner in the proposed north right-of-way line of County Line Road;

THENCE North 88 degrees 42 minutes 12 seconds East, with the proposed north right-of-way line of said County Line Road a distance of 110.01 feet to a 5/8 inch iron rod with cap stamped "GORRONDONA & ASSOCIATES" set for corner;

GORRONDONA & ASSOCIATES, INC 1701 NORTH MARKET STREET, SUITE 450, LB 5, DALLAS, TEXAS 75202 214-712-0600 FAX 214-712-1768

THENCE North 45 degrees 52 minutes 22 seconds East, with the proposed north right-of-way line of said County Line Road a distance of 14.67 feet to the **POINT OF BEGINNING** and containing 1,167 square feet or 0.027 acres of land, more or less.

VARIABLE WIDTH TEMPORARY CONSTRUCTION EASEMENT

The above described variable width right-of-way acquisition is also subject to a variable width temporary construction easement being parallel and adjacent to said variable width right-of-way acquisition, located and shown on the accompanying survey plat, said variable width temporary construction easement contains 0.005 acres of land, more or less. The said variable width temporary construction easement shall expire as noted in the easement agreement.

NOTES:

1. A plat of same date accompanies this legal description.

2. Bearings are based on the Texas State Plane Coordinate System, North American Datum of 1983, NA2011 (Epoch 2010.00), North Central Zone (4202) and adjusted to surface values using the Texas Department of Transportation Surface Adjustment Factor for Rockwall County of 1.000146135. Distances and areas shown are surface values and in U.S. Survey Feet.

* SURVEYOR'S CERTIFICATE *

TO ALL PARTIES INTERESTED IN TITLE TO THE PREMISES SURVEYED, I DO HEREBY STATE THAT THE ABOVE LEGAL DESCRIPTION WAS PREPARED FROM PUBLIC RECORDS AND FROM AN ACTUAL AND ACCURATE SURVEY UPON THE GROUND AND THAT SAME IS TRUE AND CORRECT.

CITY OF ROCKWALL

RESOLUTION NO. 18-21

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, FINDING THAT A NECESSITY EXISTS TO ACQUIRE REAL PROPERTY FOR RECONSTRUCTION OF COUNTY LINE ROAD AND OTHER MUNICIPAL PURPOSES; AUTHORIZING THE CITY ATTORNEY TO INSTITUTE EMINENT DOMAIN PROCEEDINGS FOR THE ACQUISITION OF RIGHT-OF-WAY ACROSS CERTAIN HEREINAFTER DESCRIBED TRACTS OF LAND FOR RECONSTRUCTION OF COUNTY LINE ROAD AND OTHER MUNICIPAL PURPOSES; PROVIDING FOR A FINAL OFFER; PROVDING FOR A SEVERABILITY CLAUSE; AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, the City Council has found that public necessity requires the reconstruction of County Line Road; and

WHEREAS, the tracts described on Exhibit A, attached hereto and incorporated herein as if it were copied verbatim, have been determined to be one (1) or more of the tracts needed for the easements necessary for construction of County Line Road and other municipal purposes; and

WHEREAS, there has been extensive negotiations with the property owners for the purchase of the required property by the City; and

WHEREAS, the City has obtained an independent fair market value eminent domain appraisal for each property which forms the basis of the City's negotiations and Offers and has been provided to each landowner; and

WHEREAS, such negotiations have been unsuccessful; and

WHEREAS, the City Council deems the public interest to be best served by the acquisition of the property described in Exhibit A attached hereto;

NOW THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:

Section 1. That all of the above premises are found and determined to be true and correct and are incorporated into the body of this Resolution as if copied in their entirety.

Section 2. That the City Attorney is hereby authorized to extend a final offer to the owners of the tracts of land more specifically described in Exhibit A for the acquisition of said real property for the purpose of reconstructing County Line Road and other municipal purposes.

Section 3. If the said final offer is not accepted by the owner of the tract, the City Attorney is directed to begin eminent domain proceedings pursuant to the laws of the State of Texas.

Section 4. If any section, article, paragraph, sentence, clause, phrase, or word in this Resolution, or application thereof to any persons or circumstances, is held invalid or

unconstitutional by a court of competent jurisdiction such holding shall not affect the validity of the remaining portions of this Resolution; and the City Council hereby declares it would have passed such remain portion of this Resolution despite such invalidity which remaining portions shall remain in full force and effect.

Section 5. That this Resolution shall take effect immediately from and after its adoption and it is so resolved.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, this 21st day of May, 2018.

158

CITY OF ROCKWALL, TEXAS
MEMORANDUM

TO: Mayor and City Council

CC: Rick Crowley, *City Manager*
Brad Griggs, *Assistant City Manager*

FROM: Ryan Miller, *Director of Planning and Zoning*

DATE: May 21, 2018

SUBJECT: MIS2018-006; *Amendment to Master Thoroughfare Plan*

Rockwall County is currently in the process of updating the County's Master Thoroughfare Plan (MTP) and has requested that the City of Rockwall review the proposed changes and provide comments. Through staff's review, two (2) changes on the City's current MTP were identified. In order to assure that the City Council had a chance to review the proposed changes prior to the adoption of the County's plan, staff brought the proposed changes before the City Council on March 19, 2018. At this meeting, staff was directed to proceed with making the following changes to the City's MTP: [*1*] a change showing the realignment of Breezy Hill Road to follow existing right-of-way, and [*2*] increasing Horizon Road from a M4D (*minor collector, four [4] lane, divided roadway*) to a TXDOT4D (*i.e. four [4] lane TXDOT roadway*).

According to Section 213.003 of the *Texas Local Government Code*, *"(a) comprehensive plan may be adopted or amended by ordinance following:*

1) *A hearing at which the public is given the opportunity to give testimony and present written evidence; and*
2) *Review by the municipality's planning commission or department, if one exists."*

Additionally, Section 9.03 of the City's *Home Rule Charter* states that "(r)ecommended changes to the Master Plan shall be submitted to the City Manager after the Planning and Zoning Commission holds at least one public hearing on the proposed change." Furthermore, Section 9.04 states that the "City Manager shall submit the proposed changes to the Council, together with any recommendations. The Council, after a public hearing, shall adopt or reject such proposed revisions or any part thereof as submitted within sixty (60) days following its submission by the City Manager. If the proposed revision or part thereof should be rejected by the Council, the Planning and Zoning Commission may make modifications and again forward it to the City Manager for submission to the Council." In accordance with this section, staff brought the proposed amendment forward to the Planning and Zoning Commission for recommendation to the City Council. On April 10, 2018, the Planning and Zoning Commission approved a motion to recommend approval of the amendment by a vote of 5-0, with Commissioners Fishman and Moeller absent. Attached to this case memo is a map showing the proposed amendment to the City's MTP and a draft ordinance. Staff has sent a notice to the Rockwall Herald Banner in accordance with all applicable state laws and Section 6.1 of Article II, *Authority and Administrative Procedures*, of the UDC.

Addendum for May 21, 2018: At the last City Council meeting, the City Council tabled this case without stating a date certain for the public hearing. According to Section 6.2, *Public Hearing Postponement, Recess and Continuations*, of the UDC, a postponement request for a public hearing is required to be held within 30-days of the originally advertised meeting. Should the

City Council choose not take action on this case at the May 21, 2018 meeting, it will be required to be withdrawn and resubmitted to ensure that proper notice is provided in accordance with the UDC.

CITY OF ROCKWALL

ORDINANCE NO. 18-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, ADOPTING REVISIONS TO THE MASTER THOROUGHFARE PLAN CONTAINED WITHIN THE *TRANSPORTATION* SECTION OF THE COMPREHENSIVE PLAN IN ACCORDANCE WITH THE CITY'S HOME RULE CHARTER.

WHEREAS, the *Home Rule Charter* of the City of Rockwall, Texas, states that the Comprehensive Plan will contain recommendations for the growth, development and beautification of the City and its Extraterritorial Jurisdiction (ETJ); and

WHEREAS, the City Council of the City of Rockwall has previously authorized a study to update the Comprehensive Plan, also referred to as the Master Plan; and

WHEREAS, the citizens of the City of Rockwall were involved in the development of the Comprehensive Plan through participation in committee and public meetings; and

WHEREAS, the Comprehensive Plan shall serve as a guide to all future City Council action concerning land use and development regulations and expenditures for capital improvements; and

WHEREAS, Section 213.003, *Adoption or Amendment of Comprehensive Plan*, of Chapter 213, *Municipal Comprehensive Plans*, of the *Texas Local Government Code* states that the adoption of or amendment to a Comprehensive Plan requires a hearing at which the public is given the opportunity to give testimony and present written evidence, and as required by the *Home Rule Charter of the City of Rockwall* a public hearing has been held on the proposed revisions to the Comprehensive Plan, and the governing body -- *in the exercise of its legislative discretion* -- has concluded that the Comprehensive Plan should be amended as follows:

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:

Section 1. The Master Thoroughfare Plan contained within the *Transportation* section of the City's Comprehensive Plan be amended as depicted in *Exhibit 'A'* of this ordinance; and,

Section 2. The Comprehensive Plan shall be used by the City Staff in planning and as a guide for future development of the City of Rockwall; and,

Section 3. This ordinance shall take effect immediately from and after its passage, and the publication of the caption of said ordinance as the law in such cases provides.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 7TH DAY OF MAY, 2018.

CITY OF ROCKWALL
CITY COUNCIL MEMO

AGENDA DATE: 05/21/2018

APPLICANT: Chris Tarrant

AGENDA ITEM: **Z2018-020;** *SUP for an Accessory Building at 3075 Golden Trail*

SUMMARY:

Hold a public hearing to discuss and consider a request by Chris Tarrant for the approval of a Specific Use Permit (SUP) for an accessory building that does not meet the requirements stipulated by the Unified Development Code (UDC) on a 1.5087-acre tract of land identified as Lot 22, Block A, Sterling Farms Addition, City of Rockwall, Rockwall County, Texas, zoned Single Family Estate 1.5 (SFE-1.5) District, addressed as 3075 Golden Trail, and take any action necessary.

PURPOSE AND CHARACTERISTICS OF THE REQUEST:

The applicant Chris Tarrant is requesting the approval of a Specific Use Permit (SUP) to allow a commercial-grade accessory building that does not meet the requirements stipulated by Article VI, *Permissible Uses*, of the Unified Development Code (UDC). The ~1,500 SF structure will stand approximately 15-feet in height, and will be situated behind the primary structure which is ~1,800 SF [*i.e. ~83% the size of the home on the subject property*]. Additionally, the proposed accessory building will have four (4) roll-up doors. The applicant states the purpose of the proposed accessory building is to store go-karts and go-kart trailers. Currently there are two existing accessory buildings on the subject property. One accessory building is a 10' x 20' brick building that was constructed with the primary structure, and meets the masonry and size requirements as stipulated in the Unified Development Code (UDC). The second accessory building is an ~10' x 12' wood shed that was permitted and constructed in 2012, and is used to store lawn mowers and yard equipment. The wood shed, in conjunction with the other existing accessory building, meets the maximum allowable square footage for accessory buildings on the subject property; however, the wood shed does not meet the current masonry requirements stipulated by the Unified Development Code (UDC). If approved, the proposed accessory building would be the third accessory building on the subject property.

According to the UDC, in a Single Family Estate 1.5 (SFE-1.5) District, property owners are permitted to construct no more than two (2) accessory buildings up to 625 SF or a single accessory building no larger than 1,250 SF and 15-feet in height or less, provided the exterior materials of the accessory building are the same materials as found on the primary structure in roughly the same proportions. In this case, the applicant is requesting deviations from the material requirements (*i.e. for a 100% metal building*), to exceed the maximum permissible square footage requirements by 875 SF, and to exceed the maximum permissible number of accessory buildings allowed on a property by one (1) building. The Unified Development Code (UDC) permits the City Council to review deviations from the accessory building requirements on a discretionary basis through a Specific Use Permit (SUP). In this case, the accessory building will be situated ~150 feet behind the main structure and be partially screened by a solid wood fence that will provide limited visibility from any adjacent public right-of-way or open space. Staff should note that the subject property has a history of complaints for operating as a non-residential use. The applicant has indicated that a commercial business was in operation during that time, but has since been discontinued. As a result, staff has included a condition of approval that the subject property shall not be operated as a commercial structure in the draft

ordinance. Should this request be approved, the subject property would have a total of three (3) accessory buildings.

ADJACENT LAND USES AND ACCESS:

The land uses adjacent to the subject property are as follows:

North: Directly north of the subject property are several single-family homes zoned Single-Family Estates 1.5 (SFE-1.5) District [*i.e. Sterling Farms Subdivision*] followed by a vacant tract of land zoned Commercial (C) District. Beyond this is SH-276, which is a TxDOT 6D (six [6] lane, TxDOT roadway) on the City's Master Thoroughfare Plan.

South: Directly south of the subject property are several single-family homes zoned Single-Family Estates 1.5 (SFE-1.5) District [*i.e. Sterling Farms Subdivision*]. Beyond this are two (2) vacant tracts of land zoned Agriculture (AG) District and Planned Development District 82 (PD-82) for Single-Family 10 (SF-10) District land uses.

East: Directly east of the subject property are several single-family homes zoned Single-Family Estates 1.5 (SFE-1.5) District [*i.e. Sterling Farms Subdivision*]. Beyond this are several homes zoned Single-Family 10 (SF-10) District [*i.e. Timber Creek Estates*].

West: Directly west of the subject property is FM-549 which is identified as a TxDOT 4D (four [4] lane, TxDOT roadway) on the City's Master Thoroughfare Plan. Beyond this are several single-family homes zoned Planned Development District 45 (PD-45) [*i.e. Lofland Farms Phase 5B Subdivision*] for Single-Family Residential 8.4 (SF-8.4) District land uses.

NOTIFICATION:

On April 30, 2018 staff mailed 39 notices to property owners and residents within 500-feet of the subject property. Staff also notified the Lofland Farms Homeowner's Association (HOA), which is the only HOA's/Neighborhood Organization that is within 1,500-feet of the subject property participating in the Neighborhood Notification Program. Additionally, staff posted a sign on the subject property as required by the UDC. At the time this report was drafted, staff had received one (1) notice in opposition of the request.

RECOMMENDATIONS:

Should the City Council approve the applicant's request, staff would offer the following conditions of approval:

1) The accessory building shall be subject to the following operational conditions, which are contained in the SUP ordinance:

    a) The accessory building shall generally conform to the approved site plan and building elevations depicted in Exhibits 'B' & 'C' of the attached ordinance;

    b) The accessory building shall not exceed a maximum size of 1,500 SF;

    c) The subject property shall not have more than two (2) accessory buildings;

    d) The accessory building shall not exceed a maximum overall height of 15-feet;

    e) The accessory building shall not be operated as a commercial use;

f) The existing wood shed on the subject property shall be removed; and,

g) The accessory building is subject to administrative review in the event that the Subject Property is sold, conveyed or altered in any manner.

2) Any construction or building necessary to complete this request must conform to the requirements set forth by the *UDC*, the *International Building Code*, the *Rockwall Municipal Code of Ordinances*, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

PLANNING AND ZONING COMMISSION:

On May 8, 2018, the Planning and Zoning Commission's motion to recommend approval of the Specific Use Permit (SUP) for an accessory building that does not meet the requirements stipulated in the Unified Development Code (UDC), with the condition that the existing wood shed be removed, passed by a vote of 4-3 with Commissioners Trowbridge, Chodun, and Logan dissenting.

Re: SUP Permit

To whom it may concern,

I was told that I needed to apply for an SUP Permit in order to build a detached garage on my property. I am proposing to build a 30'x50' garage behind my home, within the current fenced in area. This building will serve several purposes including but not limited to:

1. My youngest son races go karts and 2 go karts, our tools and equipment essentially take up my whole garage at this time. I need more space for this.
2. I currently have a shop that I rent that I keep my hot rods in as well as quite a few tools that I would like to have more supervision over as well as drop that monthly expense.
3. Overall, we need more storage room. The garages on these houses in my area are not large enough for a full size truck to fit into, I cannot pull my dually into the garage to change the oil, it's too tall. I'd like to have somewhere to service my own vehicles.
4. In the future, I'd like to convert my existing garage into a game/media room for my kids.

I understand that I live in a residential neighborhood and that usually a building of this size is frowned upon but I would like for you to understand that my neighborhood is not your normal neighborhood. We are on what I essentially call double lots – ALL the lots are 1.5 acres and up. Most people around here agree with me when I say we all bought these homes to have space and to be able to do what we want. I have a guy at the end of my street that has an old rusted metal building that he repairs cars in, I have several people with gravel driveways going to the rear of their property, people ride 4 wheelers up and down the streets around here, one neighbor has a baseball field in his backyard, there are others with buildings/shops in their backyards. This is not your normal high class Rockwall neighborhood, this is more along the lines of your middle class neighborhood and people around here are less concerned with what each other has going on than your normal Rockwall neighborhood.

I have poured a concrete drive from the side street to the back lot where this building would be located as well as built a sliding gate covered with wood pickets to match my fence. This ensures that everything is completely concealed and hides as much of it as possible. I strive real hard to keep my property clean, neat, and organized anyway but I like to keep things as much out of sight as possible too.

Sincerely,

Chris Tarrant

SURVEY PLAT

TO ALL PARTIES INTERESTED IN PREMISES SURVEYED:
THIS IS TO CERTIFY THAT I HAVE THIS DATE MADE A CAREFUL AND ACCURATE SURVEY ON THE GROUND OF PROPERTY LOCATED AT 2078 GOLDEN TRAIL IN THE CITY OF ROCKWALL, TEXAS, HEREIN DESCRIBED AS FOLLOWS:

CITY OF ROCKWALL

ORDINANCE NO. 18-XX

SPECIFIC USE PERMIT NO. S-XXX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, TEXAS, AS PREVIOUSLY AMENDED, SO AS TO GRANT A SPECIFIC USE PERMIT (SUP) TO ALLOW FOR AN ACCESSORY BUILDING THAT DOES NOT MEET THE REQUIREMENTS ON A 1.5087-ACRE TRACT OF LAND ZONED SINGLE FAMILY ESTATE 1.5 (SFE-1.5) DISTRICT AND IDENTIFIED AS LOT 22, BLOCK A, STERLING FARMS ADDITION, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OR FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, a request has been made by Chris Tarrant for the approval of a Specific Use Permit (SUP) for the purpose constructing an accessory building that does not meet the requirements stipulated by the Unified Development Code (UDC), situated on a 1.5087-acre tract of land, zoned Single Family Estate 1.5 (SFE-1.5) District, and being identified as Lot 22, Block A, Sterling Farms Addition, City of Rockwall, Rockwall County, Texas, addressed as 3075 Golden Trail, and being more specifically depicted in *Exhibit 'A'* of this ordinance, which herein after shall be referred to as the *Subject Property* and incorporated by reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall, in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall, have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally, and to all persons interested in and situated in the affected area and in the vicinity thereof, the governing body in the exercise of its legislative discretion has concluded that the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall should be amended as follows:

NOW, THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:

SECTION 1. That the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall, as heretofore amended, be and the same is hereby amended so as to grant a Specific Use Permit allowing for the establishment of a metal accessory building that does not conform to the minimum masonry requirements for accessory buildings in a Single Family Estate 1.5 (SFE-1.5) District as stipulated by *Article IV, Permissible Uses,* and *Article V, District Development Standards,* of the Unified Development Code [*Ordinance No. 04-38*] on the *Subject Property*; and

SECTION 2. That the *Subject Property* shall be used only in the manner and for the purposes described in this Specific Use Permit (SUP) ordinance and as specifically set forth in *Section 3.2, Single Family Estate 1.5 (SFE 1.5) District, of Article V, District Development Standards,* of the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall as heretofore amended, as amended herein by the granting of this zoning change, and as my be amended in

DRAFT ORD. 05-21-18

the future, and shall be subject to the additional following conditions:

2.1 OPERATIONAL CONDITIONS

The following conditions pertain to the operation of an accessory building on the *Subject Property* and conformance to these requirements is necessary for continued operations:

1) The accessory building shall generally conform to the approved site plan and building elevations depicted in *Exhibits 'B'* & *'C'* of this ordinance.

2) The accessory building shall not exceed a maximum size of 1,500 SF;

3) The subject property shall not have more than two (2) accessory buildings;

4) The accessory building shall not exceed a maximum overall height of 15-feet;

5) The accessory building shall not be operated as a commercial use;

6) The existing wood shed on the subject property shall be removed; and,

7) The accessory building is subject to administrative review in the event that the *Subject Property* is sold, conveyed or altered in any manner.

2.2 COMPLIANCE

Approval of this ordinance in accordance with Section 8.3, *Council Approval or Denial*, of Article II, *Authority and Administrative Procedures*, of the Unified Development Code [*Ordinance No. 04-38*] will require compliance to the following:

1) Upon obtaining a building permit, should the homeowner fail to meet the minimum operational requirements set forth herein and outline in the Unified Development Code [*Ordinance No. 04-38*], the City Council may (*after proper notice*) initiate proceedings to revoke the Specific Use Permit (SUP) in accordance with Section 4.4.(3) of Article IV, *Permissible Uses*, of the Unified Development Code [*Ordinance No. 04-38*].

SECTION 3. That the official zoning map of the City be corrected to reflect the changes in zoning described herein.

SECTION 4. That all ordinances of the City of Rockwall in conflict with the provisions of this ordinance be, and the same are hereby repealed to the extent of that conflict.

SECTION 5. Any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *TWO THOUSAND DOLLARS* (*$2,000.00*) for each offence and each and every day such offense shall continue shall be deemed to constitute a separate offense.

SECTION 6. If any section or provision of this ordinance or the application of that section or provision to any person, firm, corporation, situation or circumstance is for any reason judged invalid, the adjudication shall not affect any other section or provision of this ordinance or the application of any other section or provision to any other person, firm, corporation, situation or circumstance, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions of this ordinance shall remain in full force and effect.

SECTION 7. That this ordinance shall take effect immediately from and after its passage and

DRAFT ORDINANCE 09.24.2018

the publication of the caption of said ordinance as the law in such cases provides.

CITY OF ROCKWALL
CITY COUNCIL MEMO

AGENDA DATE: 05/21/2018

APPLICANT: Stephanie Marshall and Natalie Kirkley

AGENDA ITEM: **Z2018-021**; SUP for Daycare Facility

SUMMARY:

Hold a public hearing to discuss and consider a request by Stephanie Marshall and Natalie Kirkley on behalf of Susan Gamez for the approval of a Specific Use Permit (SUP) for a daycare facility in a Residential-Office (RO) District on a 0.23-acre parcel of land identified as Lot 1, Block A, Gamez Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 53 (PD-53) for Residential-Office (RO) District land uses, addressed as 1024 Ridge Road [FM-740], and take any action necessary.

PURPOSE AND CHARACTERISTICS OF THE REQUEST:

The subject property is a 0.23-acre parcel of land identified as a Lot 1, Block A, Gamez Addition, City of Rockwall, Rockwall County, Texas. The applicants are requesting a Specific Use Permit (SUP) for the purpose of establishing and operating a daycare facility [*i.e. Imagine Pre-K*] on the subject property. According to the applicants, they will have approximately 28 students, aged three (3) to six (6) years old enrolled. The applicants are proposing to provide circulation via a mutual access easement with the property to the north [*i.e. Allstate*] and have provided a circulation plan. According to the applicants, the hours of operation will be Monday-Friday from 8:30 a.m. to 2:30 p.m. with drop off times being staggered from 8:00 a.m. to 8:30 a.m. and pickup times being staggered from 2:30 p.m. to 3:00 p.m. According to the Unified Development Code (UDC) a daycare facility shall provide stacking for at least four (4) vehicles. In this case, the applicants have stated that by utilizing the cross-access easement, the proposed daycare could provide approximately stacking for ten (10) vehicles and accommodates parking for seven (7) vehicles. According to the applicants, they do not foresee any circulation conflicts with their proposed drop-off and pickup times. The applicants have provided a circulation and stacking plan. According to Section 1, *Land Use Schedule*, of Article IV, *Permissible Uses*, of the Unified Development Code (UDC) a daycare facility is allowed with a Specific Use Permit (SUP) in a Residential-Office (RO) District. The intent for Residential-Office (RO) Districts is to allow for ‘”live/work” arrangements to allow flexibility for transitioning structures. According to Subsection 4.2, *Residential-Office*, of Section 4, *Commercial Districts*, of Article V, *District Development Standards*, of the Unified Development Code, a Residential-Office (RO) District is intended to allow low-intensity office uses providing professional, medical, and other office services to residents in adjacent neighborhoods. In this case, the Specific Use Permit (SUP) is intended to allow the Planning and Zoning Commission and the City Council the ability to review the land-use to ensure the operations will not create issues for adjacent businesses or residential properties, or with and adjacent roadways. The approval of a Specific Use Permit is discretionary to the Planning and Zoning Commission and the City Council. Should this request be approved, the applicant would be required to submit a site plan.

ADJACENT LAND USES AND ACCESS:

The land uses adjacent to the subject property are all follows:

North: Directly north of the subject property is a commercial businesses [*i.e. Allstate Insurance*]. Beyond this are several business [*e.g. Dyer Insurance, Ridge Rock office Plaza, and Pregnancy Center*]. All of the commercial businesses are within converted single-family homes. This area is zoned Planned Development 53 (PD-53) District for Residential-Office (RO) District land uses.

South: Directly south of the subject property is an office building followed by a vacant tract

of land. Beyond this are several single-family homes. This area is zoned Single-Family 10 (SF-10) District.

East: Directly east of the subject property is Ridge Road [*FM-740*], which is identified as a TxDOT 6D (six [6] lane TxDOT roadway). Beyond this is a shopping center with several commercial businesses [*e.g. Planet Fitness, Curves, Wally's, etc.*]. This area is zoned Planned Development District 1 (PD-1) for General Retail (GR) District and Multi-Family 12 (MF-14) District land uses.

West: Directly west of the subject property is a single-family home. Beyond this is South Alamo Road followed by several single family homes [*i.e. Ridge Road Village*]. This area is zoned Single-Family 10 (SF-10) District.

NOTIFICATION:

On April 30, 2018, staff sent 50 notices to property owners and residents within 500-feet of the subject property. Staff also notified the Waterstone Estates Homeowner's Association (HOA) which is the only HOA's/Neighborhood Associations within 1,500 feet. Additionally, staff posted a sign on the subject property as required by the UDC. At the time this report was drafted, staff had not received any notices concerning this case.

RECOMMENDATIONS:

Should the City Council approve the applicant's request staff would propose the following conditions of approval:

1) The accessory building shall be subject to the following operational conditions, which are contained in the SUP ordinance:

    a) The daycare facility shall generally conform to the concept plan depicted in Exhibit 'B' of the attached ordinance.

    b) The daycare facility shall generally conform to the traffic circulation plan depicted in *Exhibit* '*C*' of the attached ordinance.

    c) All areas designated for outside play be located at the rear and/or side yards of the subject property. No outside play areas shall be permitted in the front yard of the subject property.

    d) No parking shall be permitted within the 20-foot cross access easement. In addition, parking along, adjacent to or in the right-of-way of Ridge Road [*FM-740*] shall be prohibited. Parking in the front of the building for any reason shall be prohibited.

    e) The facility is not permitted to exceed an enrollment of 28 children or exceed the children to caregiver ratios as stipulated by the Texas Administrative Code.

2) Any construction resulting from the approval of this *zoning change* shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code (IBC), the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

PLANNING AND ZONING COMMISSION:

On May 8, 2018, the Planning and Zoning Commission's motion to recommend approval of the Specific Use Permit (SUP) for a daycare facility passed by a vote of 6-1 with Commissioner Logan dissenting.

From: Tom Walker
To: Planning
Subject: 1024 SUP Ridge Road
Date: Tuesday, May 08, 2018 10:05:16 AM

Ryan Miller/Korey Brooks: In regards to the proposed SUP @ 1024 Ridge Road, I a totally opposed to this zoning change. I own the properties next door at 1020/1022 Ridge road.
Myself, Robert LeCroy, Rockwall P/Z created this new zoning in 2005 to allow development along Ridge Road that was for low impact businesses such as I have. Allstate, RTB Accounting. These were intended to be quiet, residential settings with office type use. Never should a preschool business with 30 children ever be considered as an acceptable use for this property. 1024 has a shortage of parking as it is. There are only 5 parking spaces and one handicap space with striping.
Front driveways were removed to allow for a parking lot with parking spaces in the rear of the properties. Each property has their own allotted spaces determined by the size of the lot.
A circle driveway was constructed between the houses to allow for entering and exiting the properties. After the reconstructing of Ridge Road, backing out of a drive way was no longer an option.
The circle drive was constructed as a fire lane with a 20 ft. width and concrete depth and density to meet code for heavy vehicles such as fire trucks.
It was NEVER meant to be used for parking as Ms. Gamez and her employees did daily, creating a parking problem and made it extremely unsafe trying to enter and exit the common driveway.
So to sum it up:
#1 There is not sufficient parking for the proposed SUP Preschool with 30 children.
#2 The driveway cannot be blocked at times during the day with dropoffs and pickups by the parents.
#3 There is not an acceptable play/recess area for children
#4 The noise will be a disruption for the tenants and homeowners that surround the property.
#5 This is an adult business setting
My current tenants moved there because of the residential quiet office zoning. One has been there 13 years and the other 8 years. This proposed use is light years away from the current proposes SUP.
We collectively do not approve of this change of zoning
Thank you in advance for your careful attention to this proposed SUP request.

Tom Walker

To Whom it May Concern:

Hello, our names are Stephanie Marshall and Natalie Kirkley. We are starting a kindergarten readiness school, Imagine Pre-K, and are hoping to obtain appropriate zoning by the City of Rockwall for the building located at 1024 Ridge Road.

First, here's a little about what our vision is for Imagine. Our main emphasis will center around getting kids aged 3 to 6 ready for their kindergarten year. We are both current teachers in Rockwall ISD and have a combined 22 years of experience teaching Pre-K through 5th grade. We know the standards and expectations of kindergarten (specifically in RISD), and how important it is for children in their Pre-K years to work on and enhance those needed skills beforehand - which is why we are writing our own curriculum that builds the foundational knowledge and skills needed before entering kindergarten. We stand out as a readiness program, not a daycare, that can offer something other Pre-K programs cannot - we are certified teachers that will offer differentiated, teacher-created, student-driven services in a setting with relatively low student-to-teacher ratios.

We believe that a program like ours would greatly benefit the city of Rockwall and its residents. Imagine Pre-K will be a faith-based learning community that will prepare young learners for success by providing meaningful education, purposeful play, and character building life skills in a nurturing environment. Our goal is to provide a child-centered, God-loving, imagination-creating environment that builds a LOVE of learning in our students!

We are very excited about offering this unique and innovative program to the Rockwall community. We would be more than happy to discuss in greater detail our vision for Imagine Pre-K at any time, so please feel free to contact us!

Sincerely,

Stephanie Marshall

OWNER'S CERTIFICATE
(Public Dedication)

STATE OF TEXAS
COUNTY OF ROCKWALL

WHEREAS SUSAN GAMEZ, BEING THE OWNER OF A TRACT OF LAND in the County of Rockwall, State of Texas, said tract being described as follows:

All that certain lot, tract or parcel of land situated in the B.J.T. LEWIS SURVEY, ABSTRACT NO. 255, City of Rockwall, Rockwall County, Texas, and being a part of that 0.24 acres tract of land as described in a Warranty deed from James O. Ritchey to Jeffery Scott Pettigrew and Pamela J. Pettigrew, dated July 23, 1997 and being recorded in Volume 1260, Page 32 of the Real Property Records of Rockwall County, Texas, and being more particularly described as follows:

BEGINNING at a 1/2" iron rod found for corner at the Northwest corner of said 0.24 acres tract and also being at the Southwest corner of a tract of land as described in a Deed to Tom H. Walker and Sue Ann Walker, as recorded in Volume 941, Page 25 of the Real Property Records of Rockwall County, Texas;

THENCE S. 85 deg. 57 min. 11 sec. E. along the common line between said tracts, a distance of 139.63 feet to an "X" chisled in concrete for corner in the West right-of-way line of F.M. Highway 740 (Ridge Road) said right-of-way deed recorded in Volume 1746, Page 140 of the Real Property Records of Rockwall County, Texas;

THENCE S. 04 deg. 25 min. 17 sec. W. along said right-of-way line, a distance of 70.22 feet to a 1/2" iron rod with yellow plastic cap stamped "R.S.C.I. RPLS 5034" set for corner in the South line of said 0.24 acres tract;

THENCE N. 85 deg. 47 min. 18 sec. W. along the South line of said 0.24 acres tract, a distance of 140.65 feet to a 1/2" iron rod found for corner at the Southwest corner of same;

THENCE N. 05 deg. 15 min. 21 sec. E. a distance of 69.84 feet to the POINT OF BEGINNING and containing 0.23 acres of land

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS:

STATE OF TEXAS
COUNTY OF ROCKWALL
I the undersigned owners of the land shown on this plat, and designated herein as GAMEZ ADDITION
an Addition to the City of Rockwall, Texas, and whose name is subscribed hereto, hereby dedicate to the use of the public forever all streets, alleys, parks, water courses, drains, easements and public places thereon shown on the purpose and consideration therein expressed. We further certify that all other parties who have a mortgage or lien interest in the subdivision have been notified and signed this plat.

I understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same.

I also understand the following;

1. No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.

2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of th er respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maint aining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.

3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.

4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.

5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.

6. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Rockwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, sto rm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall; or

Until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer an d/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as p rogress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or

Until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

I further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the subdivision upon the public services required in order that the development will comport with the present and future growth needs of the City; I, my successors and assigns hereby waive any claim, damage, or cause of action that I may have as a result of the dedication of exaction's made herein.

SUSAN GAMEZ

STATE OF TEXAS
COUNTY OF ROCKWALL

Before me, the undersigned authority, on this day personally appeared SUSAN GAMEZ known to me to be the person whose name is subscribed to the foregoing instrument, and acknowledged to me that he executed the same for the purpose and consideration therein stated.

Given upon my hand and seal of office this _____ day of _____, _____.

Notary Public in and for the State of Texas My Commission Expires:

NOTE: It shall be the policy of the City of Rockwall to withhold issuing building permits until all streets, water, sewer and storm drainage systems have been accepted by the City. The approval of a plat by the City does not constitute any representa tion, assurance or guarantee that any building within such plat shall be approved, authorized or permit therefore issued, nor shall such approval constitute any representation, assurance or guarantee by the City of the adequacy and availability for w ater for personal use and fire protection within such plat, as required under Ordinance 83-54.

SURVEYOR'S CERTIFICATE

NOW, THEREFORE KNOW ALL MEN BY THESE PRESENTS:

THAT I, Harold D. Fetty, III, R.P.L.S. No. 5034, do hereby certify that I prepared this plat from an actual and accurate survey of the land, and that the corner monuments shown thereon were properly placed under my personal supervision.

Harold D. Fetty, III
Registered Professional Land Surveyor No. 5034

STATE OF TEXAS REGISTERED HAROLD D. FETTY III 5034 PROFESSIONAL LAND SURVEYOR

CITY OF ROCKWALL

ORDINANCE NO. 18-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] AND *ORDINANCE NO. 02-33* OF THE CITY OF ROCKWALL, TEXAS, AS PREVIOUSLY AMENDED, SO AS TO GRANT A SPECIFIC USE PERMIT (SUP) TO ALLOW FOR A DAYCARE FACILITY IN PLANNED DEVELOPMENT DISTRICT 53 (PD-53), BEING A 0.23-ACRE PARCEL OF LAND SITUATED WITHIN THE SCENIC OVERLAY (SOV) DISTRICT, IDENTIFIED AS LOT 1, BLOCK A, GAMEZ ADDITION, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE

WHEREAS, the City has received a request from Stephanie Marshall and Natalie Kirkley on behalf of Susan Gamez for the approval of a Specific Use Permit (SUP) to allow for a *Daycare Facility* in Planned Development District 53 (PD-53) [*Ordinance No. 02-33*] on a 0.23-acre tract of land being described as Lot 1, Block 1, Gamez Addition, City of Rockwall, Rockwall County, Texas, and zoned Planned Development District 53 (PD-53) for Residential Office (RO) District land uses, situated within the Scenic Overlay (SOV) District, addressed as 1024 Ridge Road [*FM-740*] and being more specifically described in *Exhibit 'A'* of this ordinance, which herein after shall be referred to as the *Subject Property* and incorporated reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall, in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall, have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally, and to all persons interested in and situated in the affected area and in the vicinity thereof, the governing body in the exercise of its legislative discretion has concluded that the Unified Development Code [*Ordinance No. 04-38*] and Planned Development District 53 (PD-53) [*Ordinance No. 02-33*] of the City of Rockwall should be amended as follows:

NOW, THEREFORE, BE IT ORDAINED by the City Council of the City of Rockwall, Texas;

SECTION 1. That the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall, as heretofore amended, be and the same is hereby amended so as to grant a Specific Use Permit (SUP) allowing a *daycare facility* within a Residential Office (RO) District as stipulated by Article IV, *Permissible Uses*, of the Unified Development Code [*Ordinance No. 04-38*] and Planned Development District 53 (PD-53) [*Ordinance No. 02-33*] on the *Subject Property*; and

SECTION 2. That the Specific Use Permit (SUP) shall be subject to the conditions and standards set forth in *Section 4.2, Residential Office (RO) District,* of *Article V, District Development Standards, Section 6.8, Scenic Overlay (SOV) District, of Article V, District Development Standards,* of the Unified Development Code [*Ordinance No. 04-38*] and Planned Development District 53 (PD-53) [*Ordinance No. 02-33*] as heretofore amended and as may be amended in the future, and shall be subject to the following additional operational conditions:

2.1 OPERATIONAL CONDITIONS

DRAFT ORDINANCE 04.24.18

1) CONCEPT PLAN

2) The daycare facility shall generally conform to the traffic circulation plan depicted in *Exhibit* '*B*' of this ordinance.

3) All areas designated for outside play be located at the rear and/or side yards of the subject property. No outside play areas shall be permitted in the front yard of the subject property.

4) No parking shall be permitted within the 20-foot cross access easement. In addition, parking along, adjacent to or in the right-of-way of Ridge Road [*FM-740*] shall be prohibited. Parking in the front of the building for any reason shall be prohibited.

5) The facility is not permitted to exceed an enrollment of _ children or exceed the children to caregiver ratios as stipulated by the Texas Administrative Code.

2.2 COMPLIANCE

Approval of this ordinance in accordance with Section 8.3, *Council Approval or Denial*, of Article II, *Authority and Administrative Procedures*, of the Unified Development Code (UDC) will require compliance to the following:

1) Upon obtaining a Certificate of Occupancy (CO), should any business or establishment operating under the guidelines of this ordinance fail to meet the minimum operational requirements set forth herein and outline in the Unified Development Code (UDC), the City Council may (*after proper notice*) initiate proceedings to revoke the Specific Use Permit (SUP) in accordance with Section 4.4.(3) of Article IV, *Permissible Uses*, of the Unified Development Code (UDC).

SECTION 3. That the official zoning map of the City be corrected to reflect the changes in zoning described herein.

SECTION 4. That all ordinances of the City of Rockwall in conflict with the provisions of this ordinance be, and the same are hereby repealed to the extent of that conflict.

SECTION 5. Any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of TWO THOUSAND DOLLARS ($2,000.00) for each offence and each and every day such offense shall continue shall be deemed to constitute a separate offense.

SECTION 6. If any section or provision of this ordinance or the application of that section or provision to any person, firm, corporation, situation or circumstance is for any reason judged invalid, the adjudication shall not affect any other section or provision of this ordinance or the application of any other section or provision to any other person, firm, corporation, situation or circumstance, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions of this ordinance shall remain in full force and effect.

SECTION 7. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides;

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 4TH DAY OF JUNE, 2018.

DRAFT ORDINANCE 04.24.2018

CITY OF ROCKWALL

ORDINANCE NO. 18-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] AND *ORDINANCE NO. 02-33* OF THE CITY OF ROCKWALL, TEXAS, AS PREVIOUSLY AMENDED, SO AS TO GRANT A SPECIFIC USE PERMIT (SUP) TO ALLOW FOR A DAYCARE FACILITY IN PLANNED DEVELOPMENT DISTRICT 53 (PD-53), BEING A 0.23-ACRE PARCEL OF LAND SITUATED WITHIN THE SCENIC OVERLAY (SOV) DISTRICT, IDENTIFIED AS LOT 1, BLOCK A, GAMEZ ADDITION, CITY OF ROCKWALL, ROCKWALL COUNTY, TEXAS; PROVIDING FOR SPECIAL CONDITIONS; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE

WHEREAS, the City has received a request from Stephanie Marshall and Natalie Kirkley on behalf of Susan Gamez for the approval of a Specific Use Permit (SUP) to allow for a *Daycare Facility* in Planned Development District 53 (PD-53) [*Ordinance No. 02-33*] on a 0.23-acre tract of land being described as Lot 1, Block 1, Gamez Addition, City of Rockwall, Rockwall County, Texas, and zoned Planned Development District 53 (PD-53) for Residential Office (RO) District land uses, situated within the Scenic Overlay (SOV) District, addressed as 1024 Ridge Road [*FM-740*] and being more specifically described in *Exhibit 'A'* of this ordinance, which herein after shall be referred to as the *Subject Property* and incorporated reference herein; and

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall, in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall, have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally, and to all persons interested in and situated in the affected area and in the vicinity thereof, the governing body in the exercise of its legislative discretion has concluded that the Unified Development Code [*Ordinance No. 04-38*] and Planned Development District 53 (PD-53) [*Ordinance No. 02-33*] of the City of Rockwall should be amended as follows:

NOW, THEREFORE, BE IT ORDAINED by the City Council of the City of Rockwall, Texas;

SECTION 1. That the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall, as heretofore amended, be and the same is hereby amended so as to grant a Specific Use Permit (SUP) allowing a *daycare facility* within a Residential Office (RO) District as stipulated by Article IV, *Permissible Uses*, of the Unified Development Code [*Ordinance No. 04-38*] and Planned Development District 53 (PD-53) [*Ordinance No. 02-33*] on the *Subject Property*; and

SECTION 2. That the Specific Use Permit (SUP) shall be subject to the conditions and standards set forth in *Section 4.2, Residential Office (RO) District,* of *Article V, District Development Standards, Section 6.8, Scenic Overlay (SOV) District, of Article V, District Development Standards,* of the Unified Development Code [*Ordinance No. 04-38*] and Planned Development District 53 (PD-53) [*Ordinance No. 02-33*] as heretofore amended and as may be amended in the future, and shall be subject to the following additional operational conditions:

2.1 OPERATIONAL CONDITIONS

DRAFT ORDINANCE 04.24.18

1) CONCEPT PLAN

2) The daycare facility shall generally conform to the traffic circulation plan depicted in *Exhibit* '*B*' of this ordinance.

3) All areas designated for outside play be located at the rear and/or side yards of the subject property. No outside play areas shall be permitted in the front yard of the subject property.

4) No parking shall be permitted within the 20-foot cross access easement. In addition, parking along, adjacent to or in the right-of-way of Ridge Road [*FM-740*] shall be prohibited. Parking in the front of the building for any reason shall be prohibited.

5) The facility is not permitted to exceed an enrollment of _ children or exceed the children to caregiver ratios as stipulated by the Texas Administrative Code.

2.2 COMPLIANCE

Approval of this ordinance in accordance with Section 8.3, *Council Approval or Denial*, of Article II, *Authority and Administrative Procedures*, of the Unified Development Code (UDC) will require compliance to the following:

1) Upon obtaining a Certificate of Occupancy (CO), should any business or establishment operating under the guidelines of this ordinance fail to meet the minimum operational requirements set forth herein and outline in the Unified Development Code (UDC), the City Council may (*after proper notice*) initiate proceedings to revoke the Specific Use Permit (SUP) in accordance with Section 4.4.(3) of Article IV, *Permissible Uses*, of the Unified Development Code (UDC).

SECTION 3. That the official zoning map of the City be corrected to reflect the changes in zoning described herein.

SECTION 4. That all ordinances of the City of Rockwall in conflict with the provisions of this ordinance be, and the same are hereby repealed to the extent of that conflict.

SECTION 5. Any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of TWO THOUSAND DOLLARS ($2,000.00) for each offence and each and every day such offense shall continue shall be deemed to constitute a separate offense.

SECTION 6. If any section or provision of this ordinance or the application of that section or provision to any person, firm, corporation, situation or circumstance is for any reason judged invalid, the adjudication shall not affect any other section or provision of this ordinance or the application of any other section or provision to any other person, firm, corporation, situation or circumstance, and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions of this ordinance shall remain in full force and effect.

SECTION 7. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides;

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 4TH DAY OF JUNE, 2018.

CITY OF ROCKWALL, TEXAS
MEMORANDUM

TO: Planning and Zoning Commission

FROM: Ryan Miller, *Director of Planning and Zoning*

DATE: May 8, 2018

SUBJECT: *Z2018-018; Proposed Amendment to Article IV, Permissible Uses, UDC to Allow Furniture Upholstery, Refinishing or Resale by SUP in a Commercial (C) District*

At the April 2, 2018 City Council meeting, the City Council directed staff to prepare a text amendment amending Article IV, *Permissible Uses*, of the Unified Development Code (UDC) for the purpose of allowing the *Furniture Upholstery/Refinishing and Resale* land use in the Commercial (C) District by a Specific Use Permit (SUP). This direction came as the result of an appointment with Matilyn Vivo -- *the owner of the Rustic Warehouse* --, who was requesting the text amendment to bring her business into compliance with the Unified Development Code (UDC). Currently, the *Furniture Upholstery/Refinishing and Resale* land use is only permitted *by-right* in the Heavy Commercial (HC) and Light Industrial (LI) District. The proposed amendment would extend this use to the Commercial (C) District by Specific Use Permit (SUP) with the condition that the use is ancillary to a general retail store (*i.e. a business whose primary purpose is to sell finished goods*). The purpose of this condition is to prevent a standalone *Furniture Upholstery/Refinishing and Resale* land use (*which is more of an industrial land use*) from locating within an established commercial/retail area, reducing the possibility of creating incompatible land uses.

In accordance, with Section 4.2 of Article XI, *Zoning Related Applications*, of the UDC staff is bringing the proposed amendment forward to the Planning and Zoning Commission for a recommendation to the City Council. Attached to this case memo is a copy of the proposed amendment to the UDC and a draft ordinance. Staff should note that changes to the original draft ordinance have been drafted to address the Planning and Zoning Commission's comments from the April 24, 2018 Planning and Zoning Commission Work Session. Specifically, the Planning and Zoning Commission requested that staff clarify the amount of floor area that can be dedicated to ensure that it remains ancillary to the general retail land use. As a result of this request staff has added a provision to the draft ordinance that would allow these businesses to use up to 30% of the floor area to be dedicated to the *Furniture Upholstery/Refinishing and Resale* land use. This requirement will be assessed on a case-by-case basis by the Planning and Zoning Commission and City Council at the time of the Specific Use Permit (SUP) request.

The schedule for this text amendment is as follows:

Planning and Zoning Commission [Public Hearing]: May 8, 2018
City Council [Public Hearing/1st Reading of the Ordinance]: May 21, 2018
City Council [2nd Reading of the Ordinance]: June 4, 2018

Staff has sent out a 15-day notice to the Rockwall Herald Banner in accordance with all applicable state laws and Section 6.1 of Article II, *Authority and Administrative Procedures*, of the UDC. Should the Planning and Zoning Commission have any questions staff will be available at the meeting on May 8, 2018 to discuss this case.

SECTION 2. USE STANDARDS.

SECTION 2.1.7. COMMERCIAL AND BUSINESS SERVICES.

Furniture Upholstery/Refinishing and Resale. A *Furniture Upholstery Refinishing or Resale* business is a business that engages in the act of reupholstering, repairing, stripping, refinishing, restoring or rebuilding furniture for the purpose of retailing the finished good. In the Commercial (C) District, the *Furniture Upholstery Refinishing or Resale* land use is only permitted as an ancillary use to a general retail store (*i.e. a business whose primary purpose is to sell finished goods*) by Specific Use Permit (SUP).

CITY OF ROCKWALL

ORDINANCE NO. 18-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, BY AMENDING ARTICLE IV, *PERMISSIBLE USES*; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, an amendment to the City of Rockwall's Unified Development Code [*Ordinance No. 04-38*] has been initiated by the City Council of the City of Rockwall to amend Article IV, *Permissible Uses*, of the Unified Development Code [*Ordinance No. 04-38*]; and,

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the city's corporate boundaries, and the governing body in the exercise of its legislative discretion, has concluded that the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:**

SECTION 1. That Article IV, *Permissible Uses,* of the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall, as heretofore amended, be and the same is hereby amended as specifically described in *Exhibit 'A'* of this ordinance.

SECTION 2. That any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *Two Thousand Dollars ($2,000.00*) for each offense and each and every day such offense shall continue shall be deemed to constitute a separate offense;

SECTION 3. That if any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code [*Ordinance No. 04-38*], and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable;

SECTION 4. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides;

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 4TH DAY OF JUNE, 2018.

CITY OF ROCKWALL, TEXAS
MEMORANDUM

TO: Mayor and City Council

CC: Rick Crowley, *City Manager*
Brad Griggs, *Assistant City Manager*

FROM: Ryan Miller, *Director of Planning and Zoning*

DATE: May 21, 2018

SUBJECT: *Z2018-019; Proposed Amendment to Article IV, Permissible Uses, UDC to Allow a Brewery and Distillery (Excluding Brew Pub) in the Downtown (DT) District*

At the April 2, 2018 City Council meeting, the City Council directed staff to prepare a text amendment amending Article IV, *Permissible Uses*, of the Unified Development Code (UDC) for the purpose of allowing the *Brewery and Distillery (Excluding Brewpub)* land use in the Downtown (DT) District by Specific Use Permit (SUP). This direction was the result of an appointment with Lorne Liechty of Liechty & McGinnis, LLP on behalf of Cory and Eva Cannon who are requesting the amendment to establish a brewery in the Downtown (DT) District. Under the City's current ordinances, the *Brewery or Distillery (Excluding Brew Pub)* land use is only permitted *by-right* in the Light Industrial (LI) and Heavy Industrial (HI) Districts. The purpose of these designations is that -- *until recently* -- a brewery or distillery was viewed as a manufacturing or industrial type of use; however, in 2013 the *Texas Alcoholic Beverage Commission (TABC)* passed amendments designed to loosen the restrictions on *microbreweries* or *craft-breweries*.

In response to the City Council's direction, staff brought the proposed text amendment to the Planning and Zoning Commission on April 24, 2018 for discussion. Based on the discussion at this meeting and the questions asked by the Planning and Zoning Commission, staff prepared two (2) options for the proposed text amendment:

Option 1. The first option would simply allow the *Brewery or Distillery (Excluding Brew Pub)* land use in the Downtown (DT) District by Specific Use Permit (SUP). This would rely on the Planning and Zoning Commission and City Council to set regulations on a case-by-case basis through the Specific Use Permit (SUP) process.

Option 2. The second option would create a new land use, *Craft/Micro Brewery, Distillery and/or Winery*, which would be allowed through discretionary approval (*i.e. SUP*) in the Downtown (DT), General Retail (GR) and Commercial (C) Districts and *by-right* in the Light Industrial (LI) and Heavy Industrial (HI) Districts (*i.e. the same districts that allow the current Winery land use and by-right Brewery and/or Distillery [excluding Brewpub] land use*). In addition, the new land use would restrict the size of these types operations (*i.e. 12,000 SF*), the size of their non-manufacturing or retail sales space (*i.e. 40% of total building area*), and the permitted accessory land uses. Under *Option 2*, larger *Brewery or Distillery* land uses would continue to be allowed only in industrial districts and the *Winery* land use would be restricted to the Agricultural (AG) District by Specific Use Permit (SUP), and Light Industrial (LI) and Heavy Industrial (HI) Districts *by-right*. By doing this, the code makes the distinction between smaller wineries (*i.e. which typically do not have vineyards or an agricultural component on premise*) and larger scale wineries (*i.e. which typically have vineyards and an agricultural component on premise*).

Finally, the code amendment would decouple the *Private Club* and *Brewpub* land uses in order to establish a definition of *Brewpub*. The permitted land use districts would not change for either the *Private Club* or *Brewpub* land uses. *Option 2* is designed to make distinctions between the various alcohol related land uses and provide specific regulations for each, but does not increase the districts where these uses are allowed. The only exception is the addition of the *Craft/Micro Brewery, Distillery and/or Winery* in the Downtown (DT) District, which already permits wineries by Specific Use Permit (SUP).

Both text amendments would grant the Planning and Zoning Commission and City Council discretionary oversight and approval authority for any *brewery* land use proposed in the Downtown (DT) District. In addition, both text amendments give the Planning and Zoning Commission and City Council the ability to establish operational conditions for the land use on a *case-by-case* basis through the Specific Use Permit (SUP) in the Downtown (DT) District. *Option 2* is more restrictive than *Option 1*, and would clean up and provide restrictions for other alcohol related land uses; however, both options give the Planning and Zoning Commission and City Council discretionary oversight with regard to the requested land use.

In accordance, with Section 4.2 of Article XI, *Zoning Related Applications*, of the UDC staff brought the proposed amendment options forward to the Planning and Zoning Commission for a recommendation to the City Council. On May 8, 2018, the Planning and Zoning Commission approved a motion to recommend approval of *Option 2* to the City Council by a vote of 7-0. Attached to this case memo is a copy of the proposed amendments to the UDC and corresponding draft ordinances for both of the presented options. In addition, staff has included excerpts from the Texas Alcoholic Beverage Commission's Alcoholic Beverage Code and a copy of the American Planning Association's March 2014 *Zoning Practice* which outlines the issues associated with *Microbreweries.* Staff has sent out a 15-day notice to the Rockwall Herald Banner in accordance with all applicable state laws and Section 6.1 of Article II, *Authority and Administrative Procedures*, of the UDC. Should the City Council have any questions staff will be available at the meeting on May 21, 2018 to discuss this case.

SECTION 2.1.6: RETAIL AND PERSONAL SERVICE USE CONDITIONS

Brewpub. A brewpub is a restaurant that incorporates a craft or microbrewery as an accessory use. The microbrewery in conjunction with the restaurant allows for the manufacturing of beer -- in limited quantities -- for both on premise and off premise consumption.

Craft/Micro Brewery, Distillery and/or Winery. Craft or micro-breweries, distilleries and/or wineries are small scale manufacturing and retail operations that are less than 12,000 square feet in total building area, and where a maximum of 40% of the total floor area can be dedicated to the direct sale of the on-site manufactured product. A craft or micro-brewery, distillery and/or winery may include the following accessory uses (in accordance with any applicable land use standards and requirements): (1) a tasting room to dispense beer for on premise consumption, (2) meeting/banquet facilities, (3) restaurants, and/or (4) retail sales of beer for off-premise consumption. A facility that does not have a manufacturing component (i.e. only provides tasting or retail sales of alcoholic beverages) shall not be considered a craft or micro-brewery, distillery and/or winery and shall be prohibited.

Restaurant with Accessory Private Club ~~or brew pub~~. See "private club" above.

~~*Winery. A winery shall mean the manufacturing, bottling, labeling and packaging of wine containing not more than 24 percent alcohol by volume from grapes, fruits and berries grown on-premises or imported, and to include the manufacturing and importation of grape brandy for fortifying purposes only. Wine sales may be to holders of wholesaler's permits, winery permits, and wine bottler's permits. Retail sales to ultimate consumers in unbroken packages for off-premises consumption may not exceed an amount of 35,000 gallons annually. A winery may include the following accessory uses; a tasting room to dispense wine for on-premises consumption, meeting/banquet facilities, restaurants, and a retail sales area of wine for off-premises consumption.*~~

SECTION 2.1.9: INDUSTRIAL AND MANUFACTURING

Brewery or Distillery. A brewery or distillery is an industrial facility where the primary purpose of the facility is the manufacturing of malt, brewed and/or distilled beverages produced on the premises for sale or distributed for off-premise consumption. A brewery or distillery may include the following accessory uses (in accordance with any applicable land use standards and requirements): (1) a tasting room to dispense beer for on premise consumption.

Winery. A winery is the industrial manufacturing, bottling, labeling and packaging of wine in accordance with the Texas Local Government Code (TLGC). A winery may include the following accessory uses (in accordance with any applicable land use standards and requirements): (1) a tasting room to dispense wine for on premise consumption, (2) meeting/banquet facilities, (3) restaurants, and/or (4) retail sales of wine for off-premise consumption.

Zoning for Small-Scale Alcohol Production: Making Space for Brewpubs, Microbreweries, Microwineries, and Microdistilleries

By David M. Morley, AICP

In communities across the country, beer titans like St. Louis-based Anheuser-Busch and Chicago-based MillerCoors are facing stiff competition from a host of locally owned and operated craft breweries.

The number of brewers is higher today than at any point during the 20th century.

Brewers Association, Boulder, Colorado

Meanwhile, there is parallel growth in craft distilleries and small-volume wineries. While renewed interest in small-scale alcohol production is just one facet of the buy-local movement, it has special relevance for planning and zoning practitioners.

Historically, few communities have used zoning to draw distinctions between alcohol production facilities of different types and sizes. More recently, though, numerous localities have added provisions to their zoning codes that acknowledge the variety of alcohol producers. The primary motivation for these regulatory changes is a desire to make space for smaller producers to operate outside of industrial districts.

The two most common small-scale alcohol production uses to receive special zoning attention are brewpubs (restaurants combined with breweries) and microbreweries (small-volume brewers with or without on-site sales). But references to microdistilleries (small-volume distilleries with or without on-site sales) and microwineries (small-volume wineries without on-site vineyards) are also on the rise.

The purposes of this article are to highlight why the growth in small-scale alcohol production may merit zoning changes and to summarize how communities have amended their codes to add definitions, use permissions, and, in some cases, additional standards to sanction brewpubs and microproducers.

THE BOOM IN SMALL-SCALE ALCOHOL PRODUCTION

According to the Brewers Association, the trade group for small brewers, as of June 2013 there were 1,165 brewpubs and 1,221 microbreweries in the United States. By way of comparison, in the late 1970s there were only 89 commercial brewers of any type (Brewers Association 2013). This boom in small-scale production has spread to spirits and wine too. In April 2012 *Time* reported a 400 percent surge in microdistilleries in the U.S. between 2005 and 2012 (Steinmetz 2012). And according to statistics maintained by trade publisher *Wines & Vines*, the number of wineries producing between 1,000 and 5,000 cases per year grew 16.5 percent between August 2011 and January 2014 alone.

These trends have significant economic development implications for localities across the country. In addition to satisfying demand for locally produced beer, wine, and spirits, microproducers often distribute their product regionally or nationally, bringing new money into their host communities. Furthermore, successful brewpubs and microproducers can help enliven commercial and mixed use districts that would otherwise clear out after conventional retail and office hours. It's no surprise, then, that some communities are actively trying to lure high-profile microbreweries from other states (McConnell 2012).

THE TROUBLE WITH REGULATORY SILENCE

Despite the explosive growth in brewpubs and microproducers, surprisingly few communities explicitly sanction small-scale alcohol pro-

Since 2007 he has contributed to APA research projects on topics including brownfields redevelopment, complete streets, urban agriculture, shrinking cities, solar energy, and disaster recovery. Apart from his contributions to research projects and APA publications, Morley provides customized research on a daily basis for PAS subscribers.

duction facilities through their zoning codes. Without clear definitions and use permissions, planning staff or public officials are forced to make ad hoc use interpretations that can delay or even prevent otherwise desirable development. This regulatory silence creates uncertainty for business owners looking to make location decisions and secure financing, and it may have the effect of scaring away potential applicants. Finally, explicit definitions, use permissions, and use-specific standards allow communities to proactively address the potential negative effects of brewpubs and microproducers on surrounding areas, thereby minimizing future conflicts with neighbors.

DEFINING USES

Clear zoning standards for small-scale alcohol production facilities begin with clear use definitions. Generally speaking, there are two basic schools of thought about defining uses in zoning codes. Some communities try to define every conceivable potential use, while others rely on use groups (or categories) with similar operational requirements and attendant community effects.

The first method can bring clarity and avoid some legal disputes over specific uses, but it may create unnecessarily complex regulations. The second method is part of larger trend away from proscriptive use regulations, as many communities focus more on a prescriptive approach to the form of development. In practice, most conventional new zoning codes use a hybrid of these approaches, with broad use categories, such as household living or general retail, and specific use definitions for a small subset of higher-impact or more contentious uses under each category.

Steve Morgan/Creative Commons 3.0

Since 2008 the federally landmarked G.G. Gerber building in Portland, Oregon's Pearl District has housed a brewpub.

Mirroring this broader conversation about the best approach to classifying and defining uses, communities that have added specific definitions for small-scale alcohol production facilities to their zoning codes generally take one of two approaches. Either they define brewpubs, microbreweries, microdistilleries, and microwineries as distinct uses, or they define an umbrella term that encompasses multiple types of production facilities.

Communities that define microbreweries, microdistilleries, or microwineries as distinct uses often rely on a production volume threshold to distinguish between the "micro" and "conventional" version of a particular use. For microbreweries, 15,000 barrels per year is a common threshold, which corresponds to the American Brewers Association's defined limit for a microbrewery. Given that there are no corresponding industry definitions for microdistillery and microwinery, it is perhaps unsurprising that thresholds for these uses seem to vary more from place to place.

When communities define brewpubs as a distinct use, the intent is usually to distinguish between accessory- and primary-use brewing facilities. Most communities stipulate that beer production in a brewpub must be accessory to a bar or restaurant, and many cap the volume of beer produced annually (usually less than 15,000 barrels). Furthermore, some jurisdictions quantify this subordinate relationship by limiting the percentage of floor area or sales attributable to the brewery component of the business.

Definitions for brewpubs, microbreweries, microdistilleries, and microwineries often include an acknowledgment that the alcohol produced will be consumed both on- and off-site. For "micro" facilities, the presumption is typically that on-site consumption will be

Examples of Use Definitions

Brewpub:

- A retail establishment that manufactures not more than 9,000 barrels of malt liquor on its licensed premises each calendar year. (Aurora, Colorado)
- A restaurant-brewery that sells 25 percent or more of its beer on-site. The beer is brewed primarily for sale in the restaurant and bar. The beer is often dispensed directly from the brewery's storage tanks. Where allowed by law, brewpubs often sell beer "to go" or distribute to off-site accounts. (Brewers Association)

A restaurant with facilities for the brewing of beer for on-site consumption and retail sale at the restaurant. A brewpub must derive at least 40 percent of its gross revenue from the sale of food. (Goodyear, Arizona)

- A restaurant featuring beer that is brewed on-site. (Memphis-Shelby County, Tennessee)
- A restaurant that brews beer as an accessory use, either for consumption on-site or in hand-capped, sealed containers in quantities up to one-half barrel sold directly to the consumer. Production capacity is limited to 5,000 barrels of beverage (all beverages combined) per year. The area used for brewing, bottling, and kegging shall not exceed 30 percent of the total floor area of the commercial space. A barrel is equivalent to 31 gallons. (Plainfield, Illinois)

Microbrewery:

- A small facility for the brewing of beer that produces less than 15,000 barrels per year. It may often include a tasting room and retail space to sell the beer to patrons on the site. (Asheville, North Carolina)
- Any establishment where malt liquors are manufactured and packaged on- or off-premises, manufacturing more than 9,000 but less than 60,000 barrels of malt liquor on its licensed premises each calendar year. (Aurora, Colorado)
- A brewery that produces less than 15,000 barrels of beer per year with 75 percent or more of its beer sold off-site. Microbreweries sell to the public by one or more of the following methods: the traditional three-tier system (brewer to wholesaler to retailer to consumer); the two-tier system (brewer acting as wholesaler to retailer to consumer); and, directly to the consumer through carryouts or on-site taproom or restaurant sales. (Brewers Association)
- A brewery (for malt beverages) that has an annual nationwide production of not less than 100 barrels or more than 10,000 barrels. (Missoula, Montana)
- The production of beer, regardless of the percentage of alcohol by volume, in quantities not to exceed 5,000 barrels per month, with a barrel containing 31 U.S. liquid gallons. (Nashville-Davidson, Tennessee)

Nanobrewery:

- The production of beer, regardless of the percentage of alcohol by volume, in quantities not to exceed 1,250 barrels per month. (Nashville-Davidson, Tennessee)

Microdistillery:

- A combination retail, wholesale, and small-scale artisan manufacturing business that produces and serves alcoholic spirits or food on the premises. (Port Townsend, Washington)
- A facility that produces no more than 15,000 gallons per year of spirituous beverages on-site and shall include a tasting room in which guests/customers may sample the product. (Fort Collins, Colorado)
- A facility that produces alcoholic beverages in quantities not to exceed 35,000 gallons per year and includes an accessory tasting room. A tasting room allows customers to taste samples of products manufactured on-site and purchase related sales items. Sales of alcohols manufactured outside the facility are prohibited. (Evanston, Illinois)

(continued on page 5)

subordinate to off-site consumption. For brewpubs, the opposite is true.

Communities that define an umbrella term for multiple "micro" facilities tend to stress spatial or operational features over production volume limits. In some instances this means a square footage limit on facility size or the proportion of a facility that can be used for alcohol production. In other instances, there are no defined size limits, and the use definition simply describes a set of operational characteristics (e.g., alcohol production and sales for on- and off-site consumption).

USE PERMISSIONS

Defining and regulating small-scale alcohol production facilities allows communities to permit small breweries, distilleries, and wineries in locations that would be inappropriate for conventional, large-scale facilities. Typically, this translates to permitting brewpubs, microbreweries, microdistilleries, and microwineries in one or more commercial or mixed use districts, either by right, with ministerial approval, or subject to a discretionary use permit.

Permitting a use by right sends a clear signal to potential developers and business owners that the use is desirable in a certain zoning district. This approach presents applicants with the fewest hoops to jump through before obtaining zoning approval, but it is important to note that most small-scale production facilities will still be subject to state or local licensing or permitting laws that govern the production or sale of alcoholic beverages.

Requiring a ministerial approval for a use communicates that the community is generally supportive of the use in a certain zoning district, but this support is conditional upon compliance with objective standards intended to minimize negative impacts on proximate uses. This approach gives planning staff an opportunity to review an application before the planning director or zoning administrator issues an "over-the-counter" permit. Often, communities use ministerial approval processes to confirm that a particular application conforms to use-specific standards (see additional standards discussion below).

Permitting a use subject to a discretionary use permit (often referred to as a conditional, special, or special exception use permit) indicates that the community is potentially supportive of the use in a certain zoning district, provided the specific spatial and operational characteristics of the use do not pose compatibility problems. Discretion-

ary approval processes involve one or more public hearings before the local legislative body, planning commission, or zoning board renders a final decision on an application. Because the longer approval time frame and a greater degree of uncertainty can discourage some applicants, it is important for communities to reserve discretionary use permissions for locations or circumstances where objective standards are likely to be insufficient to ensure compatibility.

Since a brewpub typically has more in common with a restaurant than a factory, many communities permit brewpubs either by right or with ministerial approval in a wide range of commercial and mixed use districts. Meanwhile, use permissions for microbreweries, microdistilleries, and microwineries vary considerably from place to place. With that said, though, many cities do permit microproduction facilities either by right or with ministerial approval in at least one commercial or mixed use district. Furthermore, it is relatively common to permit microbreweries, microdistilleries, or microwineries by right in more intense commercial or mixed use districts and subject to a discretionary use permit in less intense districts. (See the table on page 6.)

ADDITIONAL STANDARDS

Many contemporary zoning codes limit use permissions with use-specific development or operational standards. By codifying additional standards for specific uses, the community can permit a wider range of uses without relying on discretionary use permits to ensure compatibility. In some cases, use-specific standards apply only in certain zoning districts, while in other cases the standards apply community-wide.

So far, relatively few communities have adopted additional development or operational standards for small-scale alcohol production facilities. Among those that have, the most common provisions relate to outdoor storage, the size of the facility or volume of production, loading and unloading, and proximity either to sensitive uses or to other similar producers.

Outdoor Storage

Perhaps the most prevalent type of additional standards for brewpubs and microproducers are screening requirements or limitations on the amount of space business owners can use to store equipment, production waste, or product. In some cases these standards take the form of an outright prohibition on outdoor storage.

To illustrate, Covington, Kentucky, flatly prohibits all outdoor equipment and storage for brewpubs and microbreweries (§§6.28.02–03). Meanwhile, Dallas permits microbreweries and microdistilleries to store spent grain outside in silos or containers, provided the storage is screened from view (C51A-4.210(b)(4)(E)(ii)(cc)). And Novi, Michigan, prohibits all outdoor storage for brewpubs and microbreweries, with the exception of storage in tractor trailers for a period less than 24 hours (§§1501.11.b and 1501.12.b).

The two basic rationales for storage restrictions are aesthetics and public health. Outdoor storage can be an uninviting eyesore, especially in pedestrian-oriented areas. And left unattended, production waste may produce foul odors and attract vermin.

Use Definitions *(continued from page 4)*

- Any place or premises wherein any wines or liquors are manufactured for sale, not to exceed 5,000 gallons per year, generally referred to as a craft, boutique, or artisan distillery. Microdistilleries may or may not include an on-site tasting room, and may or may not operate in conjunction with an on-site restaurant or bar. For operation of an on-site tasting room or in conjunction with an on-site restaurant or bar additional permitting may be required. All relevant federal, state, and local regulations apply, including but not limited to TCA Title 57 and Memphis Code of Ordinances Title 7. For on-site sales by manufacturer compliance with TCA 57-3-204 applies. (Memphis-Shelby County, Tennessee)

Microwinery:

- A combination retail, wholesale, and small-scale artisan manufacturing business that produces and serves wine and food on the premises. (Port Townsend, Washington)
- A facility that produces no more than 100,000 gallons per year of vinous beverages on-site and shall include a tasting room in which guests/customers may sample the product. (Fort Collins, Colorado)
- A small wine producer that does not have its own vineyard, and instead sources its grape production from outside suppliers. Microwineries produce wine for sale on- or off-site. For the purposes of this chapter, a microwinery is limited to a production of no more than 2,000 barrels per year. On-site consumption is not allowed, other than sample tasting by customers shopping on-site. (Glenville, New York)

Microbrewery/microdistillery/microwinery:

- A facility with no more than 3,000 square feet of floor area, for the production and packaging of alcoholic beverages for distribution, retail, or wholesale, on- or off-premises and which meets all alcohol beverage control laws and regulations. (Newport News, Virginia)
- An establishment for the manufacture, blending, fermentation, processing, and packaging of alcoholic beverages with a floor area of 10,000 square feet or less that takes place wholly inside a building. A facility that only provides tasting or retail sale of alcoholic beverages is not a microbrewery, microdistillery, or winery use. (Dallas)
- A facility in which beer, wine, or other alcoholic beverages are brewed, fermented, or distilled for distribution and consumption, and which possesses the appropriate license from the State of Maryland. Tasting rooms for the consumption of on-site produced beer, wine, or distilled products are permitted on the premises. (Denton, Maryland)
- An establishment with a primary use as a table service restaurant where beer, liquor, wine, or other alcoholic beverage is manufactured on the premises in a limited quantity subordinate to the primary table service restaurant use. The gross floor area utilized in a microbrewery, microdistillery, or microwinery for the production of beer, liquor, wine, or other alcoholic beverage shall be no greater than the gross floor area utilized for the associated table service restaurant. A microbrewery, microdistillery, or microwinery may include some off-site distribution of its alcoholic beverages consistent with state law. A tasting room or taproom may exist in a microbrewery, microdistillery, or microwinery where patrons may sample the manufacturer's products. (Wooster, Ohio)

EXAMPLES OF DEFINED USES AND PERMISSIONS

					Permitted in One or More Mixed Use or Commercial Districts		
Community	State	2010 Population	Density (pop./square mile)	Defined Uses	By Right or Ministerial Approval	Subject to Discretionary Use Permit	Subject to Additional Standards
Asheville	NC	83,393	1,856	microbrewery	X	X	§7-16-1(c)(43)

Facility Size or Volume of Production

Some communities use additional standards to restrict the size of the facility, scale of production, or the relationship between the alcohol production facility and collocated food or beverage service. This is most common in codes where the use definition does not stipulate a specific production limit or the nature of the relationship between primary and accessory uses. However, communities can also use this type of operational standard to modify defined limits or relationships in lower-intensity zoning districts.

For example, Asheville, North Carolina, limits microbreweries to 4,000 square feet of floor area in two specific office districts (§17-16-1(c)(43)a.3). Columbia, South Carolina, limits microbrewery production to 1,000 barrels per year in three lower-intensity commercial and mixed use districts (§17-290(2)). And Novi, Michigan, stipulates that no more than 50 percent of the gross floor space in a brewpub shall be used for brewing (§1501.11.e).

Loading and Unloading

A few communities have adopted additional standards stipulating the provision or location of loading spaces or prohibiting deliveries during certain hours. Both of these types of delivery restrictions can help brewpubs and microproducers be better neighbors by minimizing traffic congestion or limiting noise during certain times of the day. Still, it's important to note that in some pedestrian-oriented districts it may be infeasible or undesirable to require dedicated loading spaces due to premiums on space or urban design goals.

As one example, Asheville, North Carolina, stipulates that all microbreweries must have an off-street or alley-accessible loading dock (§17-16-1(c)(43)a.4). Meanwhile, St. Petersburg, Florida, discourages microbrewery access and loading from streets and requires any street-facing loading bays to keep their doors closed at all times, except when actively in use. The city also restricts service truck loading and unloading to the hours between 8 a.m. and 8 p.m., Monday through Saturday, and between 11 a.m. and 7 p.m. on Sundays and national holidays (§§16.50.045.4–6).

Distancing Requirements

A small number of communities have adopted distancing requirements that either limit the proximity of small-scale alcohol production facilities to sensitive uses, such as schools or churches, or require a minimum separation between similar uses. For the first type of distancing requirement, the rationale is to limit potential spillover effects on properties where children congregate. The rationale for the second type of requirement is to prevent an overconcentration of brewpubs or microproducers in a specific district.

To illustrate, Novi, Michigan, requires microbreweries to be separated from one another by at least 2,500 feet (§1501.12.h). And Bismarck, North Dakota, requires property owner consent as a condition of approval for microbreweries located within 300 feet of a lot line for any school, church, library, or hospital (§14-03-08.4.u.1).

CONCLUSIONS

When localities choose to define and regulate small-scale alcohol production facilities as one or more distinct uses, it allows them to permit these uses in locations that would be inappropriate for major industrial operations. By doing so, communities can set the stage to capitalize on the economic and placemaking benefits of brewpubs and microproducers.

With that said, the preceding discussion only hints at the variety of approaches localities have taken to regulate brewpubs, microbreweries, microdistilleries, and microwineries. Furthermore, a number of communities with thriving craft brewing and distilling scenes, such as Chicago and Portland, Oregon, have yet to single out small-scale alcohol production facilities for special zoning treatment. Others have made a conscious decision to minimize use-based restrictions in favor of prescriptive standards for the form of development. However, communities that don't thoughtfully consider regulatory alternatives for brewpubs and microproducers run the risk of being caught "flat-footed" by an application for a new facility that may be beneficial to the community but is inconsistent with current zoning.

Finally, as with any significant potential zoning change, it can be helpful to talk to other communities that have taken a similar approach to see what's working and what might need further attention. And, of course it's always important to review both new provisions and the intent behind those provisions with residents, business owners, and other community stakeholders before recommending or taking action.

HOW DOES YOUR ZONING TREAT BREWPUBS, MICROBREWERIES, MICRODISTILLERIES, AND MICROWINERIES?

3

229

(2) obtains from the retailer at the time of delivery a written affirmation, which may be printed or stamped on a sales invoice evidencing the sale or delivery of alcoholic beverages by the permit holder, that the retailer is authorized to purchase and receive the type of alcoholic beverage sold and delivered by the permit holder.

CHAPTER 12. BREWER'S PERMIT (B)

Sec. 12.01. AUTHORIZED ACTIVITIES. (a) The holder of a brewer's permit may:

(1) manufacture, bottle, package, and label malt liquor;

(2) import ale and malt liquor acquired from a holder of a nonresident brewer's permit;

(3) sell the ale and malt liquor only to wholesale permit holders in this state or to qualified persons outside the state;

(4) dispense ale and malt liquor for consumption on the premises;

(5) conduct samplings of ale or malt liquor, including tastings, at a retailer's premises; and

(6) enter into an alternating brewery proprietorship or contract brewing arrangement as provided by Section 12.06.

(b) An agent or employee of the holder of a brewer's permit may open, touch, or pour ale or malt liquor, make a presentation, or answer questions at a sampling event.

Sec. 12.02. FEE. The annual state fee for a brewer's permit is $1,500.

Sec. 12.03. ALE OR MALT LIQUOR FOR EXPORT. Regardless of any other provision of this code, a holder of a brewer's permit may manufacture and package malt beverages, or import them from outside the state, for shipment out of the state, even though the alcohol content, containers, packages, or labels make the beverages illegal to sell within the state. The permittee may export the beverages out of the state or deliver them at his premises for shipment out of the state without being liable for any state tax on beer, ale, or malt liquor sold for resale in the state.

Sec. 12.04. CONTINUANCE OF OPERATION AFTER LOCAL OPTION ELECTION. The right of a brewer's permittee to continue operation after a prohibitory local option election is covered by Section 251.75 of this code.

Sec. 12.052. SALES BY CERTAIN BREWERS TO CONSUMERS. (a) In addition to the activities authorized by Section 12.01, the holder of a brewer's permit whose annual production of ale together with the annual production of beer by the holder of a manufacturer's license at the same premises does not exceed a total of 225,000 barrels may sell ale produced on the brewer's premises under the permit to ultimate consumers on the brewer's premises for responsible consumption on the brewer's premises.

(b) The total combined sales of ale to ultimate consumers under this section, together with the sales of beer to ultimate consumers by the holder of a manufacturer's license under Section 62.122 at the same premises, may not exceed 5,000 barrels annually.

Sec. 12.06. USE OF FACILITIES. (a) The holder of a brewer's or nonresident brewer's permit may contract with the holder of a brewer's permit:

(1) to provide brewing services; or

(2) for the use of the permit holder's brewing facilities under an alternating brewery proprietorship if each party to the proprietorship:

(A) has filed the appropriate Brewer's Notice and Brewer's Bond, as required by the Alcohol and Tobacco Tax and Trade Bureau of the United States Department of the Treasury; and

(B) if applicable, has posted with the commission a bond in an amount determined by the commission under Subsection (e) or (f).

(b) An entity is not required to own its brewing facilities if the entity operates under an alternating brewery proprietorship as provided by Subsection (a).

(c) Each entity that is a party to an alternating brewery proprietorship or contract brewing arrangement must hold a permit at the location where brewing services are conducted under the arrangement.

(d) This section does not authorize a person acting as an agent for a brewery located outside of this state to contract with the holder of a brewer's permit to brew ale or malt liquor on the person's behalf. A contract described by this subsection may only be entered into by the holder of a brewer's permit and another person holding a permit under this code.

(e) Subject to Subsection (f), the commission by rule may require an entity that is a party to an alternating brewery proprietorship or contract brewing arrangement to post with the commission a bond in an amount determined by the commission not to exceed $200,000.

(f) An entity that is a party to an alternating brewery proprietorship or contract brewing arrangement must post with the commission a bond in an amount determined by the commission of not less than $30,000 if the entity does not own a fee interest in a brewing facility.

CHAPTER 12A. BREWER'S SELF-DISTRIBUTION PERMIT(DA)

Sec. 12A.01. ELIGIBILITY FOR PERMIT. A brewer's self-distribution permit may be issued only to the holder of a brewer's permit under Chapter 12 or the holder of a nonresident brewer's permit under Chapter 13.

Sec. 12A.02. AUTHORIZED ACTIVITIES. (a) A holder of a brewer's self-distribution permit whose annual production of ale under the brewer's or nonresident brewer's permit, together with the annual production of beer by the holder of a manufacturer's or nonresident manufacturer's license at the same premises, does not exceed 125,000 barrels may sell ale produced under the brewer's or nonresident brewer's permit to those persons to whom the holder of a general class B wholesaler's permit may sell ale under Section 20.01(3).

(b) The total combined sales of ale under this section, together with the sales of beer by the holder of a manufacturer's self-distribution license under Section 62A.02 at the same premises, may not exceed 40,000 barrels annually.

(c) With regard to a sale under this section, the holder of a brewer's self-distribution permit has the same authority and is subject to the same requirements that apply to a sale made by the holder of a general class B wholesaler's permit.

(d) Ale sold under this section may be shipped only from a brewery in this state.

Sec. 12A.03. FEE. The annual state fee for a brewer's self-distribution permit is $250.

Sec. 12A.04. REPORT OF SALES TO RETAILERS. (a) Not later than the 15th day of each month, the holder of a brewer's self-distribution permit shall file a report with the commission that contains information relating to the sales made by the permit holder to a retailer during the preceding calendar month.

(b) The commission shall by rule determine the information that is required to be reported under this section and the manner in which the report must be submitted to the commission. The commission may require the report to contain the same information reported to the comptroller under Section 151.462, Tax Code [*Refer to Appendix for this citation*].

CHAPTER 13. NONRESIDENT BREWER'S PERMIT (U)

Sec. 13.01. PERMIT REQUIRED. A nonresident brewer's permit is required for any brewer located outside the state before his ale or malt liquor may be imported into Texas or offered for sale in Texas.

Sec. 13.02. FEE. The annual state fee for a nonresident brewer's permit is $1,500.

Sec. 13.03. NONRESIDENT SELLER'S PERMIT REQUIRED. The holder of a nonresident brewer's permit is also required to hold a nonresident seller's permit.

MUNICIPAL CODE OF ORDINANCES

CHAPTER 4: ALCOHOLIC BEVERAGES

SECTION 4-1.: CONSUMPTION OR POSSESSION IN PUBLIC PLACES PROHIBITED

It shall be unlawful for any person to consume or possess any open containers of any alcoholic *beverage on the premises of any public place, street or alley in the city, with the following exceptions in accordance with the policies and guidelines adopted by the city council and on file in the city secretary's office:*

(1) The Center at Rockwall City Place, 108 E. Washington;

(2) The Harbor Public Event Area, 2047 Summer Lee; and

(3) Town Square, bordered by Washington, Fannin, Olive and Alamo Streets.

(Code 1982, § 3-1; Ord. No. 75-7, §§ 1—3, 6-2-1975; Ord. No. 06-49, § 1, 11-6-2006)

CITY OF ROCKWALL

ORDINANCE NO. 18-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, BY AMENDING ARTICLE IV, *PERMISSIBLE USES*; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, an amendment to the City of Rockwall's Unified Development Code [*Ordinance No. 04-38*] has been initiated by the City Council of the City of Rockwall to amend Article IV, *Permissible Uses*, of the Unified Development Code [*Ordinance No. 04-38*]; and,

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the city's corporate boundaries, and the governing body in the exercise of its legislative discretion, has concluded that the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:**

SECTION 1. That Article IV, *Permissible Uses,* of the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall, as heretofore amended, be and the same is hereby amended as specifically described in *Exhibit 'A'* of this ordinance.

SECTION 2. That any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *Two Thousand Dollars ($2,000.00*) for each offense and each and every day such offense shall continue shall be deemed to constitute a separate offense;

SECTION 3. That if any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code [*Ordinance No. 04-38*], and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable;

SECTION 4. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides;

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 4TH DAY OF JUNE, 2018.

Section 2.1.6: Retail and Personal Service Use Conditions

Brewpub. A brewpub is a restaurant that incorporates a craft or microbrewery as an accessory use. The microbrewery in conjunction with the restaurant allows for the manufacturing of beer -- in limited quantities -- for both on premise and off premise consumption.

Craft/Micro Brewery, Distillery and/or Winery. Craft or micro-breweries, distilleries and/or wineries are small scale manufacturing and retail operations that are less than 12,000 square feet in total building area, and where a maximum of 40% of the total floor area can be dedicated to the direct sale of the on-site manufactured product. A craft or micro-brewery, distillery and/or winery may include the following accessory uses (in accordance with any applicable land use standards and requirements): (1) a tasting room to dispense beer for on premise consumption, (2) meeting/banquet facilities, (3) restaurants, and/or (4) retail sales of beer for off-premise consumption. A facility that does not have a manufacturing component (i.e. only provides tasting or retail sales of alcoholic beverages) shall not be considered a craft or micro-brewery, distillery and/or winery and shall be prohibited.

Restaurant with Accessory Private Club ~~*or brew pub*~~. See "private club" above.

~~*Winery. A winery shall mean the manufacturing, bottling, labeling and packaging of wine containing not more than 24 percent alcohol by volume from grapes, fruits and berries grown on premises or imported, and to include the manufacturing and importation of grape brandy for fortifying purposes only. Wine sales may be to holders of wholesaler's permits, winery permits, and wine bottler's permits. Retail sales to ultimate consumers in unbroken packages for off-premises consumption may not exceed an amount of*~~

DRAFT ORDINANCE

~~*35,000 gallons annually. A winery may include the following accessory uses; a tasting room to dispense wine for on-premises consumption, meeting/banquet facilities, restaurants, and a retail sales area of wine for off-premises consumption.*~~

Section 2.1.9: Industrial and Manufacturing

Brewery or Distillery. A brewery or distillery is an industrial facility where the primary purpose of the facility is the manufacturing of malt, brewed and/or distilled beverages produced on the premises for sale or distributed for off-premise consumption. A brewery or distillery may include the following accessory uses (in accordance with any applicable land use standards and requirements): (1) a tasting room to dispense beer for on premise consumption.

Winery. A winery is the industrial manufacturing, bottling, labeling and packaging of wine in accordance with the Texas Local Government Code (TLGC). A winery may include the following accessory uses (in accordance with any applicable land use standards and requirements): (1) a tasting room to dispense wine for on premise consumption, (2) meeting/banquet facilities, (3) restaurants, and/or (4) retail sales of wine for off-premise consumption.

CITY OF ROCKWALL, TEXAS
MEMORANDUM

TO: Mayor and City Council

CC: Rick Crowley, *City Manager*
Brad Griggs, *Assistant City Manager*

FROM: Ryan Miller, *Director of Planning and Zoning*

DATE: May 21, 2018

SUBJECT: MIS2018-009; *Variance Request for Breezy Hill, Phase VIII (PD-74)*

On April 20, 2009, the City Council approved Planned Development District 74 (PD-74) establishing the zoning for a 405.184-acre tract of land identified as the Breezy Hill Subdivision. Contained in this zoning ordinance [*Ordinance No. 09-19*] was a provision that, "(a) landscape buffer strip with a minimum width of ten (10) feet shall be provided between any residential area and Breezy Hill Road." Since this original approval, Planned Development District 74 (PD-74) has been amended four (4) times, but this requirement has not changed. Recently, there has been some dispute over the alignment of Breezy Hill Road, which necessitated the City to hire a surveyor to identify the location of the prescriptive right-of-way of the roadway. Prior to the completion of this survey, the applicant adjusted the lot sizes in Phase VIII of the subdivision -- *which is directly adjacent to the roadway* --, first through rezoning the property to increase the size of the lots [*Case No. Z2017-049*] and then through the Board of Adjustments (BOA) to reduce eight (8) of the lots' width requirements by five (5) feet (*i.e. from 180-feet to 175-feet*) [*Order No. BOA 2018-2-V*]. In addition, the applicant has recently submitted a preliminary plat for Phase VIII [*Case No. P2018*-001] of the subdivision, which was recommended for approval by the Planning and Zoning Commission on April 10, 2018 but was tabled by the City Council on April 16, 2018 in anticipation of this variance request. Now that the survey has been completed, there does appear to be some overlap in the prescriptive right-of-way and the applicant's property line that requires resolution prior to the City Council being able to accept the preliminary plat. Specifically, the width of overlap or encroachment varies from 5.1-feet along the southeastern boundary to 4.1-feet along the northeastern boundary. To remedy this issue staff has suggested -- *that in lieu of going back to the BOA for a further reduction in lot size* -- the applicant request a variance to the landscape buffer requirement in accordance with the procedures contained in Planned Development District 74 (PD-74) [*Ordinance No. 17-60*]. This section reads as follows: "*Variances. The variance procedures and standards for approval set forth in the Unified Development Code (UDC) shall apply to any application for variances to this ordinance…*", and according to the UDC a variance to the landscape buffer requirements can be requested pending a recommendation from the Planning and Zoning Commission. The variance that needs to be requested in this case is to reduce the minimum landscape buffer from ten (10) feet to 4.9-feet along Breezy Hill Road.

In evaluating variance requests, the City Council is asked to review the request to establish if there is a unique or extraordinary condition that would constitute a hardship or that would prohibit an applicant from conforming to the requirements of the zoning. In this case, the applicant was not aware of the prescriptive right-of-way until after the zoning was approved. The applicant's situation may constitute a hardship; however, variance requests are discretionary decisions for the City Council pending a recommendation from the Planning and

Zoning Commission. On May 8, 2018, the Planning and Zoning Commission reviewed the applicant's request and voted 7-0 to recommend approval of this case to the City Council. If approved the variance would only apply to Phase VIII of the subdivision. Should the City Council have any questions staff will be available at the May 21, 2018 meeting to discuss.

CITY OF ROCKWALL
CITY COUNCIL MEMO

AGENDA DATE: 05/21/2018

APPLICANT: Chase Finch; *Corwin Engineering*

AGENDA ITEM: **P2018-001;** *Breezy Hill, Phase VIII*

SUMMARY:

Discuss and consider a request by Chase Finch of Corwin Engineering, Inc. on behalf of John Arnold of BH Phase 8, LLC for the approval of a preliminary plat for Breezy Hill, Phase VIII containing 72 single-family residential lots on 30.785-acres of land identified as Tract 7 of the J. Strickland Survey, Abstract No. 187, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 74 (PD-74) for Single Family 10 (SF-10) District land uses, located along the eastern side of Breezy Hill Lane, and take any action necessary.

PLAT INFORMATION:

☑ The Breezy Hill Subdivision is a master planned community that will provide approximately 405-acres of residential and commercial development. The residential subdivision will be composed of 750 single-family lots on 371.45-acres of land, and to be broken down per the lot mix indicated in Planned Development District 74 (PD-74). The lot mix in this Planned Development District is as follows.

Lot Types	*A*	*B*	*C*	*D*	*E*	*F*	*G*
Typical Lot Frontage (Feet)	*60'*	*70'*	*80'*	*100'*	*60'*	*100'*	*70'*
Typical Lot Depth (Feet)	*120'*	*120'*	*125'*	*200'*	*110'*	*180'*	*120'*
Minimum Lot Size (Sq. Ft.)	*7,200 SF*	*8,400 SF*	*10,000 SF*	*20,000 SF*	*7,200 SF*	*18,000 SF*	*8,400 SF*
Number of Units	*164*	*131*	*137*	*140*	*40*	*44*	*94*
Dwelling Unit %	*21.86%*	*17.46%*	*18.27%*	*18.67%*	*5.34%*	*5.87%*	*12.53%*

☑ The applicant is requesting to preliminary plat Phase VIII of the Breezy Hill Subdivision for the purpose of laying 72 of the 750 lots. Of the 72 proposed lots, three (3) lots will be constructed to the Type "C" standards, 43 will be constructed to the Type "F" standards, and 26 will be constructed to the Type "G" standards (*all standards are displayed in the above table*) and be situated on approximately 30.785 acres. In addition to the preliminary plat, the applicant has also submitted a preliminary water, sanitary sewer storm water, and drainage plans establishing that the developer can provide adequate utilities to service the proposed phase.

☑ On March 8, 2018, the Board of Adjustments approved a variance [*Order No. BOA 2018-2-V*] to the zoning requirements for Planned Development District 74 (PD-74) to reduce the required lot depth from 180-feet to 175-feet for eight (8) lots [*i.e. Lots 101-108, Block R*] to allow for the required 10-foot landscape buffer adjacent to Breezy Hill Lane.

☑ On April 16, 2018, the City Council tabled the approval of this preliminary plat in anticipation of a request for a variance [*Case No. MIS2018-009*] to the landscape buffer adjacent to Breezy Hill Road for Breezy Hill Phase VIII. This variance will be required to be approved prior to the approval of this preliminary plat.

☑ On April 9, 2018 the Parks Board reviewed the *Preliminary Plat* and made a recommendation to approve the plat with the following conditions:

1) The developer is to pay the pro-rata equipment fees required in the amount of $18,360 [*i.e. 72 Lots @ $255.00 Per Lot*].

☑ On May 8, the Planning and Zoning Commission recommended approval of a variance [*Case No. MIS2018-008*] to the ten (10)-foot landscape buffer requirement adjacent to Breezy Hill Lane to 4.9-feet adjacent to Breezy Hill Lane.

☑ With the exception of the variance to the lot depth for eight (8) lots and the landscape buffer adjacent to Breezy Hill Lane, the proposed preliminary plat generally conforms to the revised concept plan approved by the City Council on July 7, 2014 under *Case No. Z2014-007* [*Ordinance No 14-26*].

☑ The surveyor has completed the majority of the technical revisions requested by staff, and this plat, conforming to the requirements for preliminary plats as stated in the *Subdivision Ordinance* in the *Municipal Code of Ordinances*, is recommended for conditional approval pending the completion of final technical modifications and submittal requirements.

☑ Conditional approval of this plat by the City Council shall constitute approval subject to the conditions stipulated in the *Recommendation* section below.

☑ With the exception of the items listed in the *Recommendation* section of this case memo, this plat is in substantial compliance with the requirements of the *Subdivision Ordinance* in the *Municipal Code of Ordinances*.

RECOMMENDATIONS:

Should the City Council choose to approve the *preliminary plat* for *Breezy Hill, Phase VIII,* staff would recommend the following conditions:

1) All technical comments from the Engineering, Planning and Fire Departments shall be addressed prior to the filing of this plat;

2) The development shall adhere to the recommendations of the Park Board;

3) Any construction resulting from the approval of this *preliminary plat* shall conform to the requirements set forth by the Unified Development Code, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

PLANNING AND ZONING COMMISSION:

On April 10, 2018, the Planning and Zoning Commission's motion to recommend approval of the preliminary plat with staff recommendations pass by a vote of 5-0 with Commissioners Fishman and Moeller absent.

CITY OF ROCKWALL
CITY COUNCIL MEMO

AGENDA DATE: 05/21/2018

APPLICANT: Andy Sebacher; *Forum Studio Architects, Inc.*

AGENDA ITEM: **SP2018-011;** Amended Site Plan for *Lollicup USA*.

SUMMARY:

Discuss and consider a request by Andy Sebacher of Forum Studio Architects, Inc. on behalf of Alan Yu of Lollicup USA, Inc. for the approval of a variance in conjunction with an approved site plan for a manufacturing facility on a 34.23-acre tract of land identified as a portion of Lot 1, Block A, Rockwall, Technology Park, Phase 2 and Tract 2-01 of the J. H. B. Jones Survey, Abstract No. 125, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, located at the southeast corner of the intersection of Corporate Crossing [FM-3549] and Capital Boulevard, situated within the FM-549 Overlay (FM-549 OV) District, and take any action necessary.

PURPOSE AND BACKGROUND:

The applicant is requesting approval of a variance to the Unified Development Code (UDC) as outlined in this report. The request is in conjunction with a request for an *amended site plan* for the purpose of allowing a form-liner used to replicate the use of stone rather than using the required stone product that was approved for the north elevation. If approved, the applicant intends to provide integrally cast concrete wall panels that appear as split-face stone. After the site plan was approved by the Planning and Zoning Commission, the City Council approved variances and exceptions associated with an approximately 650,000 SF warehouse/manufacturing [*i.e. Lollicup USA*] facility on January 16, 2018 [*Case No. SP2017-042*]. It should be noted that the approval granted a variance to the FM-549 Overlay (FM-549 OV) Districts' 20% stone requirement by allowing no stone on the east, west, and south elevations, while allowing 12% on the north elevation. The revised building elevations indicate the appearance of a split-face stone (*i.e. form-liner application*) for the north (13%), east (1%), and west (2%) elevations. The proposed warehouse/manufacturing facility will be situated on a 34.23- acre tract of land identified as a portion of Lot 1, Block A, Rockwall Technology Park, Phase 2 and Tract 2-01 of the J. H. B. Jones Survey, Abstract No. 125. The site is located east of Corporate Crossing, between Capital Boulevard and Discovery Boulevard, is within the FM-549 Overlay (SH-276 OV) District, and is zoned Light Industrial (LI) District.

DENSITY AND DIMENSIONAL REQUIREMENTS:

According to Section 1, *Land Use Schedule*, of Article IV, *Permissible Uses*, of the Unified Development Code (UDC), a warehouse is a permitted by right use in a Light Industrial (LI) District.

With the exception of the variance being requested for the use of a form-liner application, the approved site plan [*SP2017-042*], landscape plan, treescape plan, photometric plan, and building elevations have not changed from the originally approved site plan and generally

conform to the technical requirements contained within the Unified Development Code (UDC) for properties located within the FM-549 (FM-549 OV) District, and Light Industrial (LI) zoning district. A summary of the density and dimensional requirements of the subject property are as follows:

Ordinance Provisions	*Zoning District Standards*	*Conformance to the Standards*
Minimum Lot Area	*12,500 SF*	*34.23-Acres; In Conformance*
Minimum Lot frontage	*100-Feet*	*x>100-Feet; In Conformance*
Minimum Lot Depth	*125-Feet*	*x>125-Feet; In Conformance*
Minimum Front Yard Setback	*25-Feet*	*x>25-Feet; In Conformance*
Minimum Rear Yard Setback	*0-Feet + ½ H* [1]	*x>20-Feet; In Conformance*
Minimum Side Yard Setback	*0-Feet + ½ H* [1]	*x>200-Feet; In Conformance*
Maximum Building Height	*120-Ft* [2]	*41'8"; In Conformance*
Max Building/Lot Coverage	*60%*	*~43.6%; In Conformance*
Minimum Masonry Requirement	*90%*	*x>90%; In Conformance*
Minimum Number of Parking Spaces	*1,300*	*206 Provided; Variance Approved*
Minimum Stone Requirement (SH205 OV)	*20% Each Facade*	*X<20%; Variance Approved*
Minimum Landscaping Percentage	*10%*	*x=26%; In Conformance*
Maximum Impervious Coverage	*85-90%*	*x=74%; In Conformance*

VARIANCE REQUESTS:

The applicant is requesting a variance to the Unified Development Code (UDC) for the section outlined below. It should be noted that a variance request to the FM-549 Overlay (FM-549 OV) District requires passage by a ¾ majority vote of those City Council members present. The request is as follows:

1) Section 6.13, C.1, FM-549 OV, of the UDC requires a minimum of 20% natural (or quarried) stone on all facades. The proposed building elevations do not indicate the use of a natural or quarried stone product on any façade (*i.e. north, south, east, & west*), rather the use of a form-liner appearing as split-face stone for the north (13%), east (1%), and west (2%) elevations. A variance to the FM-549 OV would allow for the building elevations to not meet the stone requirement as depicted on the elevations and requires approval of a 3/4 majority vote of the City Council members present.

A request for a variance as outlined above is considered a discretionary decision for the City Council.

ARCHITECTURAL REVIEW BOARD:

On January 9, 2018, the Architectural Review Board (ARB) reviewed the revised building elevations and requested the applicant provide additional stone to the north elevation along the northwest corner of the area (*i.e. office area*). Additionally, the ARB requested the applicant provide landscaping along the southern boundary to better screen this area from Discovery Blvd. The ARB made a motion to recommend approval of the building elevations with these conditions, which passed by a vote of 4 to 0 with Board Members Meyrat, Neill, and Dayman absent. The Architectural Review Board (ARB) will review the proposed change to the building

elevations at their next meeting to be held on May 8, 2018 and will provide a recommendation to the Planning and Zoning Commission.

On May 8, 2018, the Architectural Review Board (ARB) reviewed the proposed request to allow for the use of a form-liner rather than stone. The ARB made a motion to recommend denial of the request, which passed by a vote of 3 to 0 with Board Members Neill, Craddock, Tovar, and Miller absent.

PLANNING AND ZONING COMMISSION:

On May 8, 2018, the Planning and Zoning Commission's motion to recommend denial of the request to allow a form-liner application passed by a vote of 7 to 0.

Project: Lollicup 3201 Capital Blvd.
Permit Number: B:D2018-0688
#601-03049

Dear David,

Please accept this Development Application and supporting documentation for Amended Site Plan to initiate the approval process. We propose substitution of concrete panels that include integrally cast concrete replica stone of size, color and texture similar to the thin-stone product for the previously approved Eldorado Stone man-made thin-stone product. This will be achieved through a special concrete form and a hand applied mineral stain.

The proposed concrete form liner #892 12" Quarry Stone from Architectural Polymers Inc., develops a 'split-face' stone appearance of running bond masonry that is an integral part of the concrete wall panel. This eliminates the possibility of masonry veneer separation issues.

The formed concrete is then provided the realistic color of natural stone and mortar by the hand applied mineral stain product which forms a permanent penetrating, chemical bond with the concrete. The stain is environmentally friendly, durable, odorless, as well as resistant to UV, weather and mold and mildew and comes with a 25 year warranty.

Please advise if there is any other information we can provide to assist your process.

We look forward to working with the City of Rockwall on this project.

Regards,

Andy Sebacher

Commercial Services

Beautiful, natural looking color for brick, block, concrete, mortar, stucco and stone.

Nawkaw®

Changing the color of masonry and concrete!

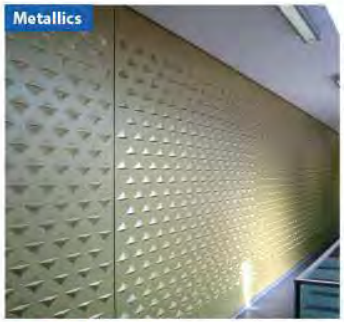
Color—*it's been our passion for more than 30 years!*

It's no wonder that we have come across a number of projects through the years that require specialized services. Not all concrete is created equally (nor bricks for that matter!) That is why we manufacture different types of stain. Some manufacturers have a one-size-fits-all approach to coloring concrete; however, our experience is that every job is different. From our acrylic stains to mineral silicate stains, each has properties that make it well suited for particular applications.

Our installation services teams provide creative color solutions for projects of all sizes.

Nawkaw Services

- Expert installation crews specialize in providing quality services using a variety of application techniques
- Restoration and corrective application
- New Construction, on-site and in-situ, precast, tilt-up
- Color Matching/Blending
- Recoloring
- Creative Application
- Adaptive Reuse
- Commercial projects
- Government projects
- Institutional projects
- Highway projects



Architectural Finishes

The photos below, featuring our "Aged Copper" finish, illustrate how color helps to define the shape and depth of the structure. Without color, the building appears very flat—practically one dimensional. But notice how the color dramatically enhances the dimension, defining the various planes and accentuating the textures inherent in the concrete. For more information about architectural finishes and color for concrete and masonry, please call us today or visit us online at www.Nawkaw.com.

Nawkaw®

Changing the color of masonry and concrete!

370 Commerce Blvd. • Athens, GA 30606 • www.Nawkaw.com • 1-866-4-NAWKAW

264

Architects, contractors, and the world's leading designers look to Nawkaw to transform properties with beautiful colors and tones. We manufacture our stain products and our specially trained crews apply them in order to precisely control the application process and ensure a natural looking and consistent appearance.

Paint vs. Stain

◀ Notice how the stain dramatically enhances the highlights, mid-tones, and shadows created by the wood textured concrete. The semi-translucent color allows the texture to show through rather than being covered up. NawTone™ stains are uniquely formulated for masonry and concrete. Unlike paint, which rests on top of the surface, our products penetrate and bond to masonry and concrete, forming an incredibly durable finish that won't chip, blister, or peel.

Color makes the difference…

Your building's color—it's the ***first*** thing people see, but it can make a ***lasting impression!*** Nawkaw's Certified Stain Technicians are experts at matching and blending color to achieve just the color you are looking for. We can stain project components at a precast facility, on a tilt-up job site, or suspended from a swing stage fifty stories up—all with the same superb results!

Color for National Brands

Nawkaw helps National Brands establish and maintain color consistency throughout their service areas. We store colors in a digital library so they can be quickly retrieved for use at any location across the country and around the world.

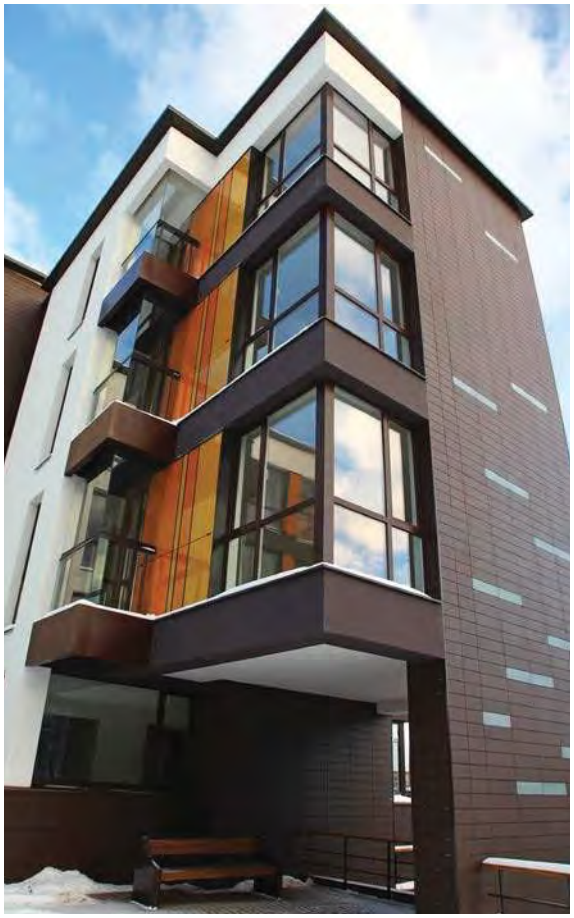
▼ When paints trap moisture beneath the surface, it can lead to unsightly peeling and require multiple reapplications. This is what we call "***Paintenance.***" NawTone stains are a one-and-done finish. Our stains are custom blended, allowing for infinite color control on every project.

265

Technical Data

Nawkaw®

We change the color of masonry and concrete!



NawTone-K™

NawTone-K is mineral stain that uses silicate as a binding agent to form a permanent chemical bond with substrates. The addition of lightfast, inorganic pigments enables a wide range of colors to be produced. **NawTone-K** exhibits the overall characteristics of being:

- UV resistant
- lightfast
- penetrating
- aspiratory
- durable
- odorless
- weather resistant
- mold & mildew resistant
- environmentally friendly

NawTone-K can be diluted with **NawThinz-C** for concrete surfaces or with **NawThinz-M** for masonry surfaces to create color-wash, semi-transparent, or opaque finishes. Our customized application techniques make **NawTone-K** a superior choice for new construction, renovation, restoration, and preservation.

Because **NawTone-K** chemically binds with concrete, it is ideal for use on precast and tilt-up projects. **NawTone-K** offers consistent color solutions for complete color changes, decorative applications, and solving color problems. This product is also very effective for blending away color variations that naturally occur in the manufacture of concrete. This includes blending away unsightly or mismatching patch repairs and skim coat finishes.

Environmental & Safety Concerns

NawTone-K is water-based, nonflammable, nonhazardous and has **Zero VOC** content. Use of this product may help your projects qualify for L.E.E.D credits.

Typical Specifications:

- **Viscosity:** (72° F) 60°-80° KU
- **pH:** ~11
- **Finish:** flat
- **Nonflammable**
- **VOC:** 0 g/L (ASTM D6886)
- **Abrasion Resistance:** excellent
- **Water Vapor Permeance:** 4.5×10^{-6} g/Pa s m^2
- **Water Diffusion Resistance:** $s_d(H_2O)$<0.01 m
- **UV Resistant–Accelerated Weathering** (ASTM G154) : pass
- **Application Temperature:** 41°-110°F (5°-43°C)

Dry Time for Reapplication (if required):
12 hrs concrete / 24 hrs masonry

- **Shelf Life:** 12 months in factory sealed container

Product Properties

- Penetrating
- Nonflammable
- Nontoxic
- Water-based
- Solvent-free
- Vapor-permeable
- Non-film-forming
- Zero VOC
- Water washup

Color Selection

Nawkaw stains allow you the freedom to choose the colors you want from any color specifiers or actual samples.

Create all levels of color, from completely opaque to just a hint of color.

Ask about our 25-Year Warranty

Nawkaw Corporation | 370 Commerce Blvd - Athens GA 30606 USA | 706-355-3217 | email: info@nawkaw.com | www.Nawkaw.com

Surface Preparation

Prior to application ensure that substrate is clean, dry and free of dust. Remove loose and unstable material as a sound surface is required for external applications. Be sure to check for any presence of mold release residue from concrete forms. If present, remove according to manufacturer's guidelines.

Substrates that have been treated with acid/chemical wash must be neutralized prior to application.

Alkali or efflorescence should be treated with proper neutralizing compounds as recommended by manufacturers before application can begin.

Application

NawTone-K can be applied by brush, roller, sponge and spray equipment. The product should be thoroughly mixed by stirring before use. The choice of application technique depends on the desired color and finish one wishes to achieve.

For translucent finishes, NawTone-K will be customized depending on the level of translucency required for the project. This may involve varying the number of applications required. Opaque finishes may require 2 or 3 applications.

When NawTone-K has been diluted with NawThinz, be sure to keep it well stirred. ONLY DILUTE WITH NAWTHINZ.

It is important to maintain a wet edge at all times, and work to a natural break line.

Limitations

Not suitable for application on synthetic surfaces such as silicone, urethane, epoxy or plastic. Coating sets hard and is not flexible; not recommended for caulking joints.

Coverage

Approximately 200-400 sq ft (60-120m^2). Actual area covered depends on the porosity of the substrate and the application method(s) used.

Cleaning of Application Equipment

Cleanup of equipment with water should be completed before the products have been allowed to dry. Spills or overspray should be cleaned with water and not allowed to dry.

The User of the product assumes all liability for product's use except in situations involving a manufacture's defect. This technical information is offered as advice based on knowledge and practical experience and does not constitute a warranty. Before application, the User shall determine the suitability of the product for its intended use. User should also ensure that the product is thoroughly mixed prior to application as the product may have settled during shipment or storage. Furthermore, it is recommended that the User test the product on a sample area before use. Nawkaw retains the right to make modifications as part of the product's development or improvement of their application; it is the User's duty to ensure they are aware of any such changes. This edition supersedes all earlier editions.

Safety

- Protect eyes and skin from contact with NawTone-K.
- Do not swallow.
- Keep away from children.

AGENDA DATE: 05/21/2018

APPLICANT: Worth Williams; *Moore Worth Investment, LLC*

AGENDA ITEM: **SP2018-008**; ModPizza

SUMMARY:

Discuss and consider a request by Worth Williams of Moore Worth Investment, LLC for the approval of variances in conjunction with an approved site plan for a restaurant on a 0.778-acre parcel of land identified as Lot 4, Block A, Lakeshore Commons Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 65 (PD-65) for General Retail (GR) District land uses, situated within the North SH-205 Overlay (N. SH-205 OV) District, addressed as 1901 N. Goliad Street, and take any action necessary.

PURPOSE AND BACKGROUND:

The applicant is requesting approval of variances associated with an approved site plan for a restaurant [*i.e. ModPizza*]. The proposed restaurant will be situated on a 0.778-acre tract of land [*i.e. Lot 4, Block A, Lakeshore Commons Addition*]. The subject property is zoned Planned Development District 65 (PD-65) for General Retail (GR) District land uses, situated within the North SH-205 Overlay (N SH-205 OV) District and is addressed as 1901 N. Goliad Street.

According to the submitted site plan, the restaurant will be constructed utilizing a flat roof design. The purpose of this design is to match the existing retail strip center located to the northeast and the proposed restaurant located on the adjacent property to the north. Additionally, the proposed restaurant will have an ~1,200 SF patio with outdoor seating. The proposed restaurant will have access to North Lakeshore Drive via a cross-access easement with the parcel located to the north and will have direct access to SH-205.

VARIANCES:

Based on the applicant's submittal, staff has identified the following variances:

A) *North SH 205 Corridor Overlay (N SH-205 OV) District Standards.*

a. *Pitched Roof*. According to Subsection 2, *Roof Design Standards*, of Subsection C, *Architectural Standards*, of Section 6.11, *North SH 205 Corridor Overlay (N SH-205 OV) District*, of Article V, *District Development Standards*, of the Unified Development Code (UDC) structures having a footprint of 6,000 SF or less shall be constructed with a pitched roof system. In this case, the applicant is proposing to utilize a flat roof design to match the existing retail strip center and restaurant located on the adjacent properties. This request will require a ¾ majority vote with the City Council.

b. *Material Standards*. According to Subsection C, *Architectural Standards,* of Section 6.11, *SH North SH 205 Corridor Overlay (N SH-205 OV) District*, of Article V, *District Development Standards*, of the Unified Development Code (UDC) each exterior wall of a structure shall consist of 90% masonry including a minimum of 20% natural or quarried stone on each façade. In this case, the applicant is proposing to utilize ~13.6% cultured stone on the front elevation and ~26% cultured stone on the north elevation. The applicant is not providing stone on the west and south elevations. Additionally, the Unified Development Code (UDC) states that cementitious materials [*e.g. stucco*] shall be limited to

50% of the building's façade. The applicant is proposing to utilize 78% stucco on the west elevation and 82% stucco on the south elevation. To mitigate for this, the applicant is providing a cluster of trees [*i.e. Bald Cypress*] to provide landscape screening to the south and west of the building. Finally, the Unified Development Code (UDC) states that secondary materials [*e.g. metal panels*] shall be less than 10% per façade. In this case, the applicant is proposing to utilize 28% metal panels on the front façade and 38% metal panels on the north façade. The applicant has indicated that the reason for these requests is brand identity for the proposed restaurant. These requests shall require a ¾ majority vote by the City Council for approval.

B) *Parking*

a. *Off-Street Parking Requirement*. According to Section 5, *Off Street Parking Requirements*, of Article VI, *Parking and Loading*, of the Unified Development Code (UDC) restaurants shall have one (1) parking space for every 100 SF of building area. In this case, the restaurant is 2,800 which would require 28 parking spaces. In addition, the applicant is proposing a 1,200 SF outdoor patio with seating. This means the overall restaurant would be 4,000 SF which would require a minimum of 40 parking spaces. In this case, the applicant is requesting a variance to the parking requirement to provide 34 parking spaces [*i.e. 6 spaces below the minimum requirement*]. This request shall require a simple-majority vote to be approved by the City Council.

ARCHITECTURAL REVIEW BOARD

On April 24, 2018 the Architectural Review Board (ARB) reviewed the proposed building elevations and requested that the applicant provide a brick wainscot around the building. In addition, the Architectural Review Board (ARB) expressed agreement with the requested variances to the secondary materials requirement, the pitched roof requirement, and the natural stone requirement. The applicant has submitted revised building elevations in conformance with the Architectural Review Board's recommendations. These will be reviewed prior to the Planning and Zoning Commission on May 8, 2018.

On May 8, 2018, the Architectural Review Board's (ARB's) motion to recommend approval of the revised building elevations passed by a vote of 3-0 with Board Members Tovar, Neill, Miller, and Craddock absent.

RECOMMENDATIONS:

If the City Council chooses the applicant's request then staff would recommend the following conditions of approval:

1) All comments provided by the Planning, Engineering and Fire Department must be addressed prior to the submittal of a building permit;

2) Any construction or building necessary to complete this *Site Plan* request must conform to the requirements set forth by the UDC, Planned Development District 65 (PD-65), the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

PLANNING AND ZONING COMMISSION:

On May 8, 2018, the Planning and Zoning Commission's motion to approve the site plan and to recommend approval of the variances associated with the site plan passed by a vote of 7-0.

CITY OF ROCKWALL, TEXAS
MEMORANDUM

TO: Mayor and City Council

CC: Rick Crowley, *City Manager*
Brad Griggs, *Assistant City Manager*
Ryan Miller, *Director of Planning and Zoning*

FROM: David Gonzales, *Senior Planner*

DATE: May 21, 2018

SUBJECT: A2018-002; *Expiring 212 Development Agreements for Area's '1 & 4'*

On October 18, 2010, the City Council approved an action to execute a *212 Development Agreement* [*Case No. A2010-001*] with various property owners within the two (2) annexation areas depicted in *Exhibit 'A'*. The initial term of the 212 Development Agreement was three (3) years from the date the agreement was executed (*i.e. October 18, 2010*). Prior to the expiration of the three (3) year term (*i.e. October 18, 2013*), the City Council approved a subsequent term of five (5) years, which is due to expire on October 18, 2018. In accordance with Section 12, *Term and Extension*, of the approved *212 Development Agreement,* city staff has mailed a written notification to all qualifying property owners notifying them of the expiration date. Staff should note that additional owners -- *Kelcey and Jami Barnes* -- were added to the notification list in response to the purchase of a six (6) acre tract of land, previously owned by John and Mary White, situated within the agreement area. The notifications were sent via certified mail and first class mail prior to 180 days of the expiration of the agreement. Additionally, staff mailed a second notice (*i.e. certified and 1st class mail*) 150 days prior to the expiration on May 3, 2018 to four (4) property owners who did not respond to the initial 180 day notice. Of the 17 notifications sent out to the affected property owners, staff has received extension requests from all but two (2) of the property owners. A summary for each of the areas is as follows:

Area '1':

Area '1' is composed of approximately 177.47-acres of land and contains 17 properties with ten (10) different property owners. Of the ten (10) property owner's, staff has received eleven (11) extension requests for 16 of the properties. *Exhibit 'B'* depicts a map of *Area '1'*, and the location and owner of each of the 17 properties. The following property owner has yet to submit an extension or annexation request:

1. *Kelcey L. and Jami B. Barnes:*
    a. *Barnes Estate, Block A, Lot 1, Acres 6.000*

Area '4':

Area '4' is composed of approximately 25.00-acres of land and contains two (2) properties with two (2) property owners. Of the two (2) property owners, staff has received one (1) extension request from one (1) owner. *Exhibit 'C'* depicts a map of *Area '4'*, and the location and ownership information for each of the two (2) properties.

2. *Brent and Shannon Nalley:*
    a. *Tract 1-9 of the J W Pitman Survey, Abstract No. 181, 12.49- Acres*

According to Section 12, *Terms and Extension*, of the approved 212 Development Agreement, the agreement permits the City Council to grant a subsequent term. With this being said, the *Texas Local Government Code* further allows the City Council to extend a *212 Development Agreement* for successive time periods not to exceed a period of 15 years, with the total duration of the contract (*i.e. the initial time period plus each successive time period*) not to exceed 45 years. The *212 Development Agreement* was granted a five (5) year extension on October 18, 2013, and is set to expire on October 18, 2018. In accordance with the agreement staff has notified all property owners within *Areas '1' & '4'* of the pending expiration as noted above. In response to staff's notice, all property owners have submitted a letter requesting the City Council to extend the agreement for a subsequent term, with the exception of the two (2) property owners from both areas (i.e*. Kelcey & Jami Barnes and Brent & Shannon Nalley*). It should be noted that if the extension is granted, this would be the 3rd extension granted within an eight (8) year period.

Staff has placed a copy of the extension requests and the 180-day & 150-day expiration notices in the packet for the City Council's review. It should be noted that the City Council has the discretion to continue the *212 Development Agreement* for a subsequent term or elect to annex the *subject properties* at the termination of this agreement. Regardless of the City Council's choice, staff will be required to send a letter via certified mail notifying the affected *property owners* of the City Council's decision by July 20, 2018.

Re: Extension Request of 212 Development Agreement for Tract 17-02 of the W.W. Ford Survey, Abstract No. 80, consisting of approximately 9.75 acres

Dear City Manager:

Pursuant to Section 12 of the 212 Development Agreement for the above referenced property, I respectfully request an extension of the term of the Agreement for a period of 40 years as allowed by Section 212.172(d) Texas Local Government Code (total duration not to exceed 45 years).

It is my family's intent and desire to continue to maintain the property's status as an agricultural use with a single homestead on the property.

Please consider this request as reasonable and made in good faith. I will await a response from the City.

Respectfully,

James Russell Wylie Jr.

RE: Extension for 212 Development Agreement (Case No. A2018-002)
Tract 40-05 of the W.W. Ford Survey, Abstract No. 80, 10.5-Acres

Dear Mr. Miller:

We are requesting an extension of the 212 Development Agreement for properties contiguous with the City of Rockwall's city limits line and being generally located in the following area:

Area 1: Being a 538.90-Acre Tract of Land located West of SH205, South of FM549, and Northeast of Hanby Lane.

Area 4: Being a 92.25-Acre Tract of Land located along the Southeast Side of FM550, South of SH276.

This extension request is in compliance with your letter dated April 13, 2018 and reflects our desire to extend the operation of this Agreement beyond its Term, for an additional 5 years to 2023.

Thank you for our consideration.

Sincerely,

Terry Woods and Sherry Woods

RE: A2018-002; Extension of 212 Development Agreement for property that is generally contiguous with the City of Rockwall's city limits line and being described as follows:

☑ ***Tract 13 of the W. W. Ford Survey, Abstract No. 80, 0.0- Acres***

Dear Property Owner:

On October 18, 2013 (*i.e. the effective date*), the City of Rockwall entered into a *212 Development Agreement (Case No. A2013-001)* with you as authorized by the Texas Local Government Code. The term of this agreement was for five (5) years expiring on *October 18, 2018*. Effectively, the 212 Development Agreement -- *in accordance with Section 212 of the Texas Local Government Code* -- allows a property owner to request an extension or termination of this agreement prior to its expiration and under the following terms:

> *Section 12.* Term and Extension. *The initial term of this Agreement shall be for a period of five (5) years from the Effective Date (the 'Term'). The Effective Date of the agreement shall be the date the agreement is executed by the City. Within 180 days prior to end of the Term of the agreement, the City shall notify the Owner(s) in writing that the agreement is due to expire.*

If the owner(s) desire to extend the operation of this agreement beyond its initial term, the owner(s), at least 150 days prior to the end of the initial term, shall submit a written request to the City for such extension (*i.e. Extension Request*). The City, will at least 90 days prior to the end of the term notify owners in writing, delivered by certified mail, with respect to its decision whether to extend the agreement for an additional term (*referred to as a "Subsequent Term"*). In the event such written notice from the City of its decision is not received by the owner(s) at least 90 days prior to the end of that term such extension request is deemed granted and this agreement continues for another subsequent term. In addition, according to the agreement:

> *Section 13.* Termination. *The Owner(s) shall be deemed to have filed a petition for voluntary annexation as of the end of the Term of this agreement. Any annexation proceedings pursuant to this section shall be commenced within thirty-one (31) days after the end of the Term.*

If the owner(s) does not provide an e*xtension request* pursuant to Section 12, or upon a written decision by the City not to extend the term of this agreement for a subsequent term following the term, then owner(s) shall be deemed to have filed a petition for voluntary annexation as of the end of the term of this agreement. If the owner(s) submitted an extension request, then a notice pursuant to Section 13 by the City stating that it has decided not to extend the term of this agreement shall also include a notification whether it intends -- *subject to the procedures required by law* -- to accept the petition for voluntary annexation. If owner(s) did not submit an extension request then the City, at least 90 days prior to the end of the initial term, shall provide a written notification to owner(s), by certified mail, whether it intends -- *subject to the procedures required by law* -- to accept the petition for voluntary annexation. Any annexation proceedings pursuant to this section shall be commenced within 31 days after the end of the term.

EXAMPLE NOTICE

If you intend to submit an *Extension Request*, <u>the written request must be received by the City no later than May 21, 2018</u> -- *which is 150 days prior to the end of term* -- to be considered by the City Council. If you have already submitted a request for extension, please disregard this requirement.

All extension requests should be submitted to the City of Rockwall Planning Department at 385 South Goliad Street, Rockwall, Texas, 75087. If you have any specific questions about your options under this procedure please feel free to contact the Planning Department staff at (972) 771-7745.

City of Rockwall
The New Horizon

MEMORANDUM

TO: **Honorable Mayor and City Council Members**

FROM: **Kristy Cole, City Secretary / Assistant to the City Manager**

DATE: **May 16, 2018**

SUBJECT: **Vacancies on City Boards & Commissions**

Trace Johannesen has been serving on the City's **Architectural Review Board** since 2017. However, now that he has been elected to serve on City Council, his seat on the ARB will become vacated. **Any newly appointed board member who is selected to fill this vacancy will be serving a partial term through August of 2019**. Thereafter he or she would be considered for reappointment to serve a full, two-year term.

Regarding Patrick Trowbridge's seat on the Planning & Zoning Commission, any newly appointed person would serve to finish out Mr. Trowbridge's term through August of 2019. Any reappointment of said P&Z commissioner thereafter would be for a three-year term (through Aug. of 2022). (Council will have an opportunity to discuss filling this 'regulatory board' vacancy during Executive Session).

In addition, please know that in the coming weeks I will be bringing information to Council regarding additional current and upcoming vacancies and/or reappointments needed on other, various city boards and commissions. These will (mostly) be related to terms that are "up" this August (2018).

AGENDA
ROCKWALL CITY COUNCIL
Monday, June 04, 2018
4:00 p.m. Regular City Council Meeting
City Hall - 385 S. Goliad, Rockwall, Texas 75087

I. CALL PUBLIC MEETING TO ORDER

II. WORK SESSION

p.5 **1.** Hold a work session to discuss reconstruction of Highland Drive and the process associated with implementation of this and other projects related to the 2018 Bond Election.

2. Hold a work session to discuss the selection committee associated with the hiring of a ballpark feasibility study consultant.

p.13 **3.** Hold a work session to discuss the RISD School Resource Officer (SRO) staffing program for the 2018-2019 school year.

III. EXECUTIVE SESSION.

THE CITY OF ROCKWALL CITY COUNCIL WILL RECESS INTO EXECUTIVE SESSION TO DISCUSS THE FOLLOWING MATTERS AS AUTHORIZED BY CHAPTER 551 OF THE TEXAS GOVERNMENT CODE:

1. Discussion regarding interlocal mutual aid agreement(s) pursuant to Section §551.071 (Consultation with Attorney).

2. Discussion regarding legal issues pertaining to potential annexation pursuant to Section §551.071 (Consultation with Attorney)

3. Discussion regarding possible sale of real property / land in PD-32 pursuant to Section §551.072 (Real Property).

4. Discussion regarding process and nomination to fill vacancy on Rockwall Central Appraisal District Board pursuant to Section 551.074 (Personnel Matters)

5. Discussion regarding purchase or lease of real property in the vicinity of County Line Rd. pursuant to Section §551.072 (Real Property) and Section §551.071 (Consultation with Attorney).

6. Discussion regarding options to pursue fees due by franchise utility provider pursuant to Section §551.071 (Consultation with Attorney).

7. Discussion regarding appointments to city regulatory boards, commissions, and committees - specifically the Planning & Zoning Commission and Building & Standards Commission - pursuant to Section 551.074 (Personnel Matters)

8. Discussion regarding the appeal to the Public Utility Commission filed by the cities of Garland, Mesquite, Plano and Richardson against the North Texas Municipal Water District (NTMWD) regarding water rates pursuant to §Section 551.071 (Consultation with Attorney)

IV. ADJOURN EXECUTIVE SESSION

AGENDA
ROCKWALL CITY COUNCIL
Monday, June 04, 2018
6:00 p.m. Regular City Council Meeting
City Hall, 385 S. Goliad, Rockwall, Texas 75087

V. RECONVENE PUBLIC MEETING

VI. TAKE ANY ACTION AS A RESULT OF EXECUTIVE SESSION

VII. INVOCATION AND PLEDGE OF ALLEGIANCE – COUNCILMEMBER DANIELS

VIII. OPEN FORUM

IX. CONSENT AGENDA

p.15 **1.** Consider approval of the minutes from the May 21, 2018 regular city council meeting, and take any action necessary.

p.29 **2.** **MIS2018-006** - Consider a City initiated request to amend the Comprehensive Plan by approving an **ordinance** changing to the Master Thoroughfare Plan Map contained within the Transportation section of the plan for the purpose of [1] reclassifying Horizon Road [FM-3097] from a M4U (minor arterial, four [4] lane, undivided roadway) to a TXDOT4D (TXDOT, four [4] lane, roadway) and [2] realigning Breezy Hill Road to reflect existing public right-of-way, and take any action necessary **(2nd Reading).**

p.33 **3.** **Z2018-018** - Consider the approval of an **ordinance** for a text amendment to the Permissible Use Charts contained in Article IV, Permissible Uses, of the Unified Development Code [Ordinance No. 04-38] for the purpose of allowing the Furniture Upholstery, Refinishing or Resale land use by Specific Use Permit (SUP) in the Commercial (C) District, and take any action necessary **(2nd Reading).**

p.37 **4.** **P2018-010** - Consider a request by Bill Thomas of Engineering Concepts & Design on behalf of David Naylor of Rayburn Country Electric Cooperative for the approval a replat for Lots 8 & 9, Block A, Rayburn Country Addition being a 20.415-acre tract of land identified as Lots 4 & 5, Block A, Rayburn Country Addition, City of Rockwall, Rockwall County, Texas, zoned Heavy Commercial (HC) District, generally located northeast of the intersection of Mims Road and Sids Road, and take any action necessary.

p.43 **5.** **P2018-011** - Consider a request by Billy Duckworth of A & W Surveyors, Inc. for the approval of a replat for Lots 1 & 2, Block A, Kayce Lynn Addition No. 1 being a 0.310-acre tract of land identified as Lots 33 & 34, Canup Addition, City of Rockwall, Rockwall County, Texas, zoned Single Family 7 (SF-7) District, situated within the Southside Residential Neighborhood Overlay (SRO) District, located at the southeast corner of Emma Jane Road and Sam Houston Street, and take any action necessary.

p.48 **6.** **P2018-012** - Consider a request by Billy Duckworth of A & W Surveyors, Inc. for the approval of a replat for Lot 1, Block A, Kayce Lynn Addition No. 2 being a 0.172-acre tract of land identified as a portion of Lot 53 of

the Canup Addition, City of Rockwall, Rockwall County, Texas, zoned Single-Family 7 (SF-7) District, situated within the Southside Residential Neighborhood Overlay (SRO) District, located at the northwest corner of Emma Jane Road and Sam Houston Street, and take any action necessary.

p.53 **7.** **P2018-013** - Consider a request by Bart Tinsley of Adlers Rockwall SIL Property, LLC on behalf of Rob Cameron of Cameron & Cameron for the approval of a conveyance plat for Lots 1 & 2, Block A, Rockwall Seniors Addition being a 12.40-acre tract of land identified as Tract 8 of the B. J. T. Lewis, Abstract No. 255, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 86 (PD-86) for Multi-Family 14 (MF-14) District land uses, situated within the SH-205 Overlay (SH-205 OV) District, generally located south of the intersection of TL Townsend Drive and Justin Road, and take any action necessary.

p.58 **8.** **P2018-014** - Consider a request by Robby Widboom for the approval of a final plat of Lot 1, Block A, Widboom Addition being a one (1) acre tract of land identified as Tract 11-2 of the D. Harr Survey, Abstract No. 102, City of Rockwall, Rockwall County, Texas, zoned Single Family 1 (SF-1) District, situated within the East SH-66 Overlay (E. SH-66 OV) District, addressed as 770 SH-66, and take any action necessary.

p.64 **9.** **P2018-015** - Consider a request by David M. Ellis for the approval of a replat for Lot 1, Block D, Ellis Centre, Phase 2 being a 7.25-acre tract of land identified as Lot 2, Block A and Lots 4 & 5, Block C, Ellis Centre, Phase 2, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, situated at the end of Alpha Drive, and take any action necessary.

p.70 **10.** **P2018-016** - Consider a request by Bassam Ziada for the approval of a replat for Lot 7, Block A, Wal-Mart Supercenter Addition being a 1.0131-acre tract of land identified as Lot 5, Block A, Wal-Mart Supercenter Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the IH-30 Overlay (IH-30 OV) District, addressed as 776 E. IH-30, and take any action necessary.

X. APPOINTMENTS

1. Appointment with the Planning and Zoning Chairman to discuss and answer any questions regarding cases on the agenda and related issues and take any action necessary.

p.76 **2.** Appointment with Sheena Beaver of the Dallas Builder's Association on behalf of Patriot Paws to discuss and consider a request for a waiver to the building permit fees for a proposed residential care facility on a 3.466-acre parcel of land identified as Lot 1, Block A, Patriot Paws Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, addressed as 302 Ranch Trail, and take any action necessary.

XI. ACTION ITEMS

p.79 **1.** **Z2018-019** - Discuss and consider the approval of an **ordinance** for a text amendment to the Permissible Use Charts and Use Standards contained in Article IV, Permissible Uses, of the Unified Development Code [Ordinance No. 04-38] for the purpose of allowing the Brewery or

Distillery (Excluding Brew Pub) land use by Specific Use Permit (SUP) in the Downtown (DT) District, and take any action necessary **(2nd Reading).**

p.84 **2.** **SP2018-011** - Discuss and consider a request by Andy Sebacher of Forum Studio Architects, Inc. on behalf of Alan Yu of Lollicup USA, Inc. for the approval of a variance in conjunction with an approved site plan for a manufacturing facility on a 34.23-acre tract of land identified as a portion of Lot 1, Block A, Rockwall, Technology Park, Phase 2 and Tract 2-01 of the J. H. B. Jones Survey, Abstract No. 125, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, located at the southeast corner of the intersection of Corporate Crossing [FM-3549] and Capital Boulevard, situated within the FM-549 Overlay (FM-549 OV) District, and take any action necessary.

p.100 **3.** Discuss and consider awarding a contract to Teague, Nall, & Perkins in the amount of $329,700 for the engineering design for Highland Drive improvements to be funded by the 2018 bond election, and take any action necessary.

p.136 **4.** Discuss and consider appointments to the city's Architectural Review Board, and take any action necessary.

XII. CITY MANAGER'S REPORT TO DISCUSS CURRENT CITY ACTIVITIES, UPCOMING MEETINGS, FUTURE LEGISLATIVE ACTIVITIES, AND OTHER RELATED MATTERS.

1. Departmental Reports

p.138 Building Inspections Monthly Report - April 2018
p.151 Fire Department Monthly Report - April 2018

p.187 Rockwall Animal Adoption Center Monthly Report - April 2018
p.190 STAR Transit Monthly Report - April 2018

2. City Manager's Report

XIII. EXECUTIVE SESSION

THE CITY OF ROCKWALL CITY COUNCIL WILL RECESS INTO EXECUTIVE SESSION TO DISCUSS THE FOLLOWING MATTERS AS AUTHORIZED BY CHAPTER 551 OF THE TEXAS GOVERNMENT CODE:

1. Discussion regarding interlocal mutual aid agreement(s) pursuant to Section §551.071 (Consultation with Attorney).

2. Discussion regarding legal issues pertaining to potential annexation pursuant to Section §551.071 (Consultation with Attorney)

3. Discussion regarding possible sale of real property / land in PD-32 pursuant to Section §551.072 (Real Property).

4. Discussion regarding process and nomination to fill vacancy on Rockwall Central Appraisal District Board pursuant to Section 551.074 (Personnel Matters)
5. Discussion regarding purchase or lease of real property in the vicinity of County Line Rd. pursuant to Section §551.072 (Real Property) and Section §551.071 (Consultation with Attorney).
6. Discussion regarding options to pursue fees due by franchise utility provider pursuant to Section §551.071 (Consultation with Attorney).
7. Discussion regarding appointments to city regulatory boards, commissions, and committees - specifically the Planning & Zoning Commission and Building & Standards Commission - pursuant to Section 551.074 (Personnel Matters)
8. Discussion regarding the appeal to the Public Utility Commission filed by the cities of Garland, Mesquite, Plano and Richardson against the North Texas Municipal Water District (NTMWD) regarding water rates pursuant to §Section 551.071 (Consultation with Attorney)

XIV. RECONVENE PUBLIC MEETING & TAKE ANY ACTION AS RESULT OF EXECUTIVE SESSION

XV. ADJOURNMENT

This facility is wheelchair accessible and accessible parking spaces are available. Request for accommodations or interpretive services must be made 48 hours prior to this meeting. Please contact the City Secretary's Office at (972) 771-7700 or FAX (972) 771-7727 for further information.

The City of Rockwall City Council reserves the right to adjourn into executive session at any time to discuss any of the matters listed on the agenda above, as authorized by Texas Government Code § 551.071 (Consultation with Attorney) § 551.072 (Deliberations about Real Property) § 551.074 (Personnel Matters) and § 551.086 (Economic Development)

I, Kristy Cole, City Secretary for the City of Rockwall, Texas, do hereby certify that this Agenda was posted at City Hall, in a place readily accessible to the general public at all times, on the 1st day of June, 2018 at 4:00 p.m. and remained so posted for at least 72 continuous hours preceding the scheduled time of said meeting.

MEMORANDUM

TO: **Rick Crowley, City Manager**

FROM: **Mary Smith, Assistant City Manager**
Amy Williams, City Engineer/Public Works Director

DATE: **June 1, 2018**

SUBJECT: **Bond Program Planning Discussion**

Following the successful 2018 bond election for street improvement projects, staff has begun to put a process together for Council consideration so we can move ahead with projects as the funding cycles will allow.

Background

Upon completion of the street assessment work, the initial Pavement Condition Index (PCI) was established, and set the framework for the bond program development. Engineering staff took the lowest bracket of scores and did further examination of those specific streets to find projects also needed water, wastewater, and drainage improvements when the road is being reconstructed and a score was assigned to those aspects. Estimates were prepared for each of those street, drainage, and utility projects. Traffic counts were conducted on the 10 or so streets in worst condition in order to better rank them in order of priority. The worst street may carry very little traffic and therefore not be as urgently in need of repair. The PCI score, utility and drainage score and traffic counts were then applied to each street project and the list was broken into a northern and southern half of the city street network. All of this resulted in a list of street projects ordered from highest priority to lesser priority. This is the list that Council worked from when setting the bond election amount.

Next Steps

Staff is working through a process of preparing to move ahead with the first projects and will need guidance as to the steps Council will want to see taken as we move forward. As outlined for the voters, these projects will be funded with bond issues timed to correspond with debt being paid off and growth in the tax rate. The first issuance will

occur later this summer and will be approximately $4.7million dollars. The first payment on that date will be in FY19. The preliminary estimates from the CAD have been factored in and will allow the issuance to be at least $800,000 more but that will need to be re-examined when the final roll is certified in July. The total certified assessed value may allow this number to increase slightly without impacting the tax rate but that can only be estimated at this time.

Engineering any of the streets projects generally takes six to eight months followed by six to eight weeks to bid and award a construction contract. We likely wouldn't have many, if any, ready to go to bid before the next bond issuance of at least $9.1million in summer 2019 (first payment in FY2020) followed by $9.6million the next year. We would like to proceed through the process to select engineers, hold neighborhood meetings, and design a significant number of the projects to be on the shelf and ready to bid when the construction dollars become available in the next couple of years. We think this will allow the City to be able to coordinate the projects to manage traffic impacts in the neighborhoods and make a real dent in the list in the early years of the ten-year plan.

That being said -

Highland Drive Project

Prior to implementing a process, we want to discuss the Highland Drive project. Highland Drive is on the list for the northern half of the City and is ranked 3rd in priority on that list. The project in totality is 1,880' in length. Beginning shortly, RISD will demolish Reinhardt Elementary which fronts Highland, and during the 18-19 school year will rebuild it from the ground up. It makes sense to plan to reconstruct the stretch of Highland in front of Reinhardt during this time when traffic will be light and mostly construction related. There is only one home that fronts Highland between Driftwood and the northern terminus of the project at Bedford Falls. We have discussed with RISD's construction department and they are in agreement that our contractors and theirs can coordinate the two projects without ours being an impediment to theirs.

We would propose to move forward with engineering the length of the Highland project with the design firm placing an early emphasis on the stretch in front of Reinhardt. We believe that section can be engineered, bid, and constructed before the new Reinhardt opens in August 2019. The engineering contract is on the agenda for Council's consideration and is approximately $329,000. The construction estimate for the proposed section is approximately $1million dollars. Staff will be available to answer questions about the Highland project and begin the discussion of moving forward on the list of projects.

City of Rockwall
The New Horizon

MEMORANDUM

TO: **Rick Crowley, City Manager**

FROM: **Kirk Riggs, Chief of Police**

DATE: **May 22, 2018**

SUBJECT: **Request for Three Additional School Resource Officers**

The Rockwall Independent School District has requested two additional School Resource Officers (SROs). One has been assigned to Rockwall High School for the remainder of the school year, and the second officer's campus will be at the Gene Burton College and Career Academy, opening in August. The request comes from the aftermath of the Marjory Stoneman Douglas High School shooting in Parkland, Florida in February of 2018.

After the Sandy Hook Elementary School shooting in Newton, Connecticut in December of 2012, we requested two additional Elementary School Resource Officers. They were approved in the Police Department's 2013-2014 fiscal budget. The two additional SROs have established a rapport with the students, staff, and administrators, while providing security to the nine elementary schools in the city. Each officer is currently assigned four schools and shares the responsibility for the remaining school. With another tragic school shooting this month in Santé Fe, Texas, we're requesting a third Elementary School Resource Officer. This allocation would provide elementary schools in Rockwall with the same 3 to1ratio of SROs as the schools in Heath, Fate and Royse City.

14

MINUTES
ROCKWALL CITY COUNCIL
Monday, May 21, 2018
4:00 p.m. Regular City Council Meeting
City Hall, 385 S. Goliad, Rockwall, Texas 75087

I. CALL PUBLIC MEETING TO ORDER

Mayor Pruitt called the meeting to order at 4:00 p.m. with the following council members being present: Mayor Jim Pruitt, Mayor Pro Tem John Hohenshelt and City Council Members Patrick Trowbridge, Dana Macalik, John Hohenshelt, Kevin Fowler, Bennie Daniels and Trace Johannesen. City Manager Rick Crowley, Assistant City Manager Mary Smith and City Attorney Frank Garza were also present. Assistant City Manager Brad Griggs was absent from the meeting.

II. WORK SESSION

1. Hold work session to discuss expenditures for fine arts projects associated with certain public construction projects (1% of Capital Improvement Project (CIP) project costs)

City Manager Rick Crowley shared that there are some proceeds that are currently available that have been accumulated from this 1%. The purpose of this work session item is to try and more clearly define the phrase, "near the site of construction" so that there is a better understanding of where said funds may be spent for public art. There is no definition in existence anywhere else in state law or in previously passed city ordinances. When essentially prompted by Mayor Pruitt to provide further clarification regarding defining this phrase, City Attorney Frank Garza shared that Rockwall is a 'home rule' city. This means that it can adopt any ordinances that are not in conflict with state law. He agrees that to define it as "the entire City of Rockwall" would not be advisable; however, as long as it is defined in a way that seems reasonable and associated rationale is provided in the record when doing so, then he believes it would be okay. He clarified for Mayor Pruitt that the council could either choose to define this phrase or not; however, he believes it would be important to be consistent in how the funding is spent, while, at the same time he acknowledged that city councils and council members do change over time (insinuating that sometimes consistency may be challenging).

Mayor Pruitt expressed the belief that defining this phrase would be prudent, especially since there will be thirty or so construction projects going on associated with the $85 million bond proposition that recently passed during the May election. Mr. Crowley shared that there is about $64,000 in funds available now, and there will be about $175,000 by the end of the bond election-related construction projects.

Kathleen Morrow
3418 Lakeside Drive
Rockwall, TX

Mrs. Morrow came forth and indicated that she currently serves on the city's ART Commission, and she has been President of the Rockwall Alliance for the Arts for many years. The intent has been to beautify the city as it has grown. She shared that the Commission's first project was the mural that is on the side of the Pruitt building downtown. The next project is one that is still in the planning stages, and it is a monument of the three men who

discovered the rock wall. This project was started several years ago, and a small version of the project is located in the city hall lobby. It will cost an estimated $250,000 and will be bronze. The monument would appear to be life size. Mrs. Morrow then provided some estimated cost comparisons of murals on a wall compared to monuments as far as art projects are concerned.

Discussion ensued regarding future bond-funded roadway reconstruction projects, and Mrs. Morrow pointed out that the County Line Road project is one that the Commission is struggling with regarding ideas for where and how 1% art monies could be spent.

Councilmember Fowler generally expressed that it would make sense to put public art in areas within the city that receive a lot of visibility, either by those driving by or by those visiting a particular location (i.e. Harry Myers Park).

Mayor Pro Tem Hohenshelt suggested that these art funds be used near any entrances to the city, at any city park, within the downtown district (as already defined), and at any city or county owned property. General discussion continued pertaining to where these types of funds could be spent, including state-owned property and/or property that may be donated for this purpose. Councilmember Macalik asked who would maintain these art projects. Mr. Crowley shared that it would be the city's responsibility to maintain them.

Mrs. Morrow shared that if the life size-like bronze monument of the three men who discovered the rock wall does come to fruition and it is placed on the downtown historic courthouse grounds, the County may agree to maintain it over time.

Mayor Pruitt shared that the city council will need to decide if it is going to keep the ordinance in place that sets aside the 1% of bond-related construction project costs for use for public art. He went on to generally indicate that he is not certain he is in favor of keeping the ordinance in place, as he wonders why art-related projects can't be (or shouldn't be) funded through the normal budgetary process.

Mrs. Smith explained that the $170,000 is an estimated amount that will be derived from the 1%, indicating that there is no way to know a more certain amount until each project is bid. The 1% is only associated with the "above the ground" costs and nothing beneath ground.

James Kuntz
3917 Mediterranean
Rockwall, TX

Mr. Kuntz came forth and sought clarification regarding the approximate, total dollar amount of public art-related funding that has been collected, to date, from contributions through city water bills. Mrs. Smith relayed that the total is just under $5,000. In addition, about $64,000 is what is left from the 1% collected in association with the downtown reconstruction project. There is an additional $7,000 or so from the Boydstun project, and there will be approximately an additional $100,000 more from 2012 bond-related projects (for 2 projects that have not yet been bid).

Following the work session discussions, Mayor Pruitt read the below listed discussion items into the record before recessing the public meeting at 4:49 p.m. to go into Executive Session.

III. EXECUTIVE SESSION.

THE CITY OF ROCKWALL CITY COUNCIL WILL RECESS INTO EXECUTIVE SESSION TO DISCUSS THE FOLLOWING MATTERS AS AUTHORIZED BY CHAPTER 551 OF THE TEXAS GOVERNMENT CODE:

1. Discussion regarding Breezy Hill Road pursuant to § Section 551.071 (Consultation with Attorney)
2. Discussion regarding legal issues pertaining to potential annexation pursuant to Section §551.071 (Consultation with Attorney)
3. Discussion regarding purchase or lease of real property in the vicinity of County Line Rd. pursuant to Section §551.072 (Real Property) and Section §551.071 (Consultation with Attorney)
4. Discussion regarding process and nomination to fill vacancy on Rockwall Central Appraisal District Board pursuant to Section 551.074 (Personnel Matters)
5. Discussion regarding appointment of city council subcommittees, board liaisons and designation of Mayor Pro Tem pursuant to Section, §551.074 (Personnel Matters)
6. Discussion regarding appointments to city regulatory boards, commissions, and committees - specifically the Planning & Zoning Commission and Building & Standards Commission - pursuant to Section 551.074 (Personnel Matters)
7. Discussion regarding the appeal to the Public Utility Commission filed by the cities of Garland, Mesquite, Plano and Richardson against the North Texas Municipal Water District (NTMWD) regarding water rates pursuant to §Section 551.071 (Consultation with Attorney)
8. **From the public meeting agenda: Action Item #5 - A2018-002 -** Discuss and consider the expiration of existing 212 Development Agreements for two (2) areas contiguous with the City of Rockwall's corporate limits and being identified as: (Area 1) approximately 177.47-acres of land generally located southeast of Hanby Lane and Buffalo Way Road; and (Area 2) approximately 24.98-acres of land located along the southeast side of FM550, south of SH276; and take any action necessary.

IV. ADJOURN EXECUTIVE SESSION

Council adjourned from Executive Session at 6:00 p.m.

V. RECONVENE PUBLIC MEETING

Mayor Pruitt reconvened the public meeting at 6:05 with all seven city council members being present (Trowbridge, Macalik, Hohenshelt, Pruitt, Fowler, Daniels and Johannesen).

VI. SWEARING IN OF NEWLY ELECTED CITY COUNCIL MEMBERS - MUNICIPAL COURT JUDGE, CATHY PENN

Judge Penn came forth and (ceremonially) administered the Oath of Office to the following newly elected city council members:

John Hohenshelt, Place 2
Trace Johannesen, Place 4
Patrick Trowbridge, Place 6.

VII. TAKE ANY ACTION AS A RESULT OF EXECUTIVE SESSION

Councilmember John Hohenshelt moved to name Councilmember Kevin Fowler as the new Mayor Pro Tem. Mayor Pruitt seconded the motion, which passed unanimously (7 ayes to 0 nays).

Mayor Pro Tem Fowler made a motion to authorize the city moving forward with offering contracts on parcels 2, 3, 5, 6, 7, 14, 27, 28, and 33 for the County Line Road Project. Councilmember Hohenshelt seconded the motion, which passed by a vote of 7 ayes to 0 nays.

VIII. INVOCATION AND PLEDGE OF ALLEGIANCE – COUNCILMEMBER HOHENSHELT

Councilmember Hohenshelt delivered the invocation and led the Pledge of Allegiance.

IX. PROCLAMATIONS / AWARDS

1. EMS Week

Mayor Pruitt called forth Mitch Ownby of Rockwall County EMS (Medic Rescue). He then read and presented him with this proclamation, which recognizes "EMS (Emergency Medical Services) Week."

2. Safe Boating Week

Mayor Pruitt called forth Randy Greenlee with the U.S. Coast Guard Auxiliary. He then read and presented the proclamation for "Safe Boating Week."

3. Public Works Week

Mayor Pruitt called forth Amy Williams, City Engineer, and members of the city's Public Works staff. He then read and presented the proclamation for "Public Works Week."

X. OPEN FORUM

Mayor Pruitt explained how Open Forum is conducted and asked if anyone would like to come forth and speak at this time. There being no one indicating such, he then closed Open Forum.

XI. CONSENT AGENDA

1. Consider approval of the minutes from the May 7, 2018 regular city council meeting, and take any action necessary
2. Consider approval of the minutes from the May 14, 2018 special city council meeting, and take any action necessary
3. Consider an **ordinance** amending Ordinance No. 10-37 pertaining to pre-65 (employee) retiree health benefits coverage, and take any action necessary. **(2nd reading)**
4. Consider awarding a bid to Lone Star Emergency Group and authorizing the City Manager to execute a contract for a new Fire Pumper totaling $627,647 as well as pre authorization to spend up to $100,000 for Pumper loose equipment bought from various vendors all to be funded with contractual obligations, and take any action necessary.

5. Consider Contract Amendment Number Seven for the total additional contract amount of $48,900.00 with Freese and Nichols, Inc. for the County Line Road Reconstruction Project, and take any action necessary.

6. Consider authorizing the City Manager to enter into a Cooperative Purchasing Agreement with the City of North Richland Hills and awarding a cooperative bid to Intermountain Slurry Seal Inc. for micro-surfacing in the amount of $103,826 and authorizing the City Manager to execute a contract for this work to be funded out of the General Fund Streets and Drainage Operating Budget, Construction Repairs and take any action necessary.

7. Consider directing the City Manager to enter into an Interlocal Agreement with the Texas Department of Transportation (TXDOT) to allow the placement of a gateway monument sign within TXDOT right-of-way on SH-66, and take any action necessary.

8. Consider approval of a resolution of necessity for acquiring of right-of-way for the County Line Road project located at 407 Ranch Trail, and take any action necessary.

9. Consider approval of a resolution of necessity for acquiring of right-of-way for the County Line Road project located at 118 Renee Drive, and take any action necessary.

10. Consider approval of a resolution of necessity for acquiring of right-of-way for the County Line Road project located at 115 Wayne Drive, and take any action necessary.

11. Consider approval of a resolution of necessity for acquiring of right-of-way for the County Line Road project located at 124 Wayne Drive, and take any action necessary.

12. Consider approval of a resolution of necessity for acquiring of right-of-way for the County Line Road project located at 121 Yvonne Drive, and take any action necessary.

13. Consider approval of a resolution of necessity for acquiring of right-of-way for the County Line Road project located at 121 Lynne Drive, and take any action necessary.

14. Consider approval of a resolution of necessity for acquiring of right-of-way for the County Line Road project located at 115 Eva Place, and take any action necessary.

15. Consider approval of a resolution of necessity for acquiring of right-of-way for the County Line Road project located at 124 Eva Place, and take any action necessary.

16. Consider approval of a resolution of necessity for acquiring of right-of-way for the County Line Road project located at 324 County Line Road, and take any action necessary.

Mayor Pruitt pulled item #15 to recuse himself from the vote concerning this item.

Councilmember Hohenshelt moved to approve the Consent Agenda, less item #15. Mayor Pro Tem Fowler seconded the motion. The ordinance was read as follows:

CITY OF ROCKWALL, TEXAS
ORDINANCE NO. 18-25

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS AMENDING ORDINANCE 10-37 REVISING THE OFFERING OF HEALTH BENEFITS COVERAGE TO CITY OF ROCKWALL PRE-65 RETIREES; REPEALING ALL ORDINANCES AND OR PROVISIONS IN CONFLICT; AND PROVIDING FOR AN EFFECTIVE DATE

The motion passed by a vote of 7 ayes to 0 nays.

Mayor Pro Tem Fowler temporarily chaired the meeting for Consent Agenda item #15. Councilmember Hohenshelt moved to approve Consent Agenda item #15. Councilmember Daniels seconded the motion, which passed by a vote of 6 ayes with 1 abstention (Pruitt).

XII. APPOINTMENTS

1. Appointment with the Planning and Zoning Chairman to discuss and answer any questions regarding cases on the agenda and related issues and take any action necessary.

Johnny Lyons, Chairman of the city's Planning & Zoning Commission, came forth and briefed the Council on recommendations of the Commission relative to planning-related items on tonight's meeting agenda. Following brief questions and answers, the Council took no formal action pertaining to this appointment item.

XIII. PUBLIC HEARING ITEMS

1. **MIS2018-006** - Hold a public hearing to discuss and consider a City initiated request to amend the Comprehensive Plan by approving an **ordinance** changing to the Master Thoroughfare Plan Map contained within the Transportation section of the plan for the purpose of [1] reclassifying Horizon Road [FM-3097] from a M4U (minor arterial, four [4] lane, undivided roadway) to a TXDOT4D (TXDOT, four [4] lane, roadway) and [2] realigning Breezy Hill Road to reflect existing public right-of-way, and take any action necessary **(1st Reading).**

Planning Director Ryan Miller provided background information pertaining to this agenda item. The Planning & Zoning Commission voted 5-0 to recommend approval of this item to the Council. If no action is taken by Council this evening, then the case will be automatically withdrawn, and the process will have to restart.

Mayor Pruitt opened the public hearing, asking if anyone would like to come forth and speak. There being no one indicating such, he then closed the Public Hearing.

Councilmember Hohenshelt moved to approve MIS2018-006. Councilmember Trowbridge seconded the motion. The ordinance was read as follows:

CITY OF ROCKWALL
ORDINANCE NO. 18-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, ADOPTING REVISIONS TO THE MASTER THOROUGHFARE PLAN CONTAINED WITHIN THE *TRANSPORTATION* SECTION OF THE COMPREHENSIVE PLAN IN ACCORDANCE WITH THE CITY'S HOME RULE CHARTER.

The motion passed by a vote of 7 ayes to 0 nays.

2. **Z2018-020** - Hold a public hearing to discuss and consider a request by Chris Tarrant for the approval of an **ordinance** for a Specific Use Permit (SUP) for an accessory building that does not meet the requirements stipulated by the Unified Development Code (UDC) on a 1.5087-acre tract of land identified as Lot 22, Block A, Sterling Farms Addition, City of Rockwall, Rockwall County, Texas, zoned Single Family Estate 1.5 (SFE-1.5) District, addressed as 3075 Golden Trail, and take any action necessary **(1st Reading).**

City Planning Director, Ryan Miller, provided background information pertaining to this agenda item. Notices were sent out to all residents and property owners located within 500' of the subject property. A total of seven notices expressing 'opposition' were received back by staff. Notice was also sent to the Lofland Farms HOA. The Planning & Zoning Commission voted 4 - 3 to recommend approval of this SUP to Council.

Mayor Pruitt opened the public hearing, asking if anyone would like to come forth and speak at this time.

Douglas Wygal
1918 Sterling Court
Rockwall, TX

Mr. Wygal came forth and indicated that he is in opposition of the Council approving this request tonight. He shared that several of his neighbors are also in opposition of this request. Furthermore, he indicated that he has provided photos to the Council that show the property owner (who is requesting the SUP) working on race cars in his driveway. He expressed that he is not okay with the property owner wanting to install a metal building in order to save cost. He generally believes it will be an eyesore.

There being no one else wishing to come forth and speak at this time, Mayor Pruitt then closed the public hearing.

Councilmember Daniels moved to deny Z2018-020. Councilmember Macalik seconded the motion, which passed by a vote of 7 ayes to 0 nays.

3. **Z2018-021** - Hold a public hearing to discuss and consider a request by Stephanie Marshall and Natalie Kirkley on behalf of Susan Gamez for the approval of an **ordinance** for a Specific Use Permit (SUP) for a daycare facility in a Residential-Office (RO) District on a 0.23-acre parcel of land identified as Lot 1, Block A, Gamez Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 53 (PD-53) for Residential-Office (RO) District land uses, addressed as 1024 Ridge Road [FM-740], and take any action necessary **(1st Reading).**

Planning Director Ryan Miller provided background information pertaining to this agenda item. Notices were sent out to property owners and residents located within 500' of the property, and the Waterstone Estates HOA was also notified. Staff has received two notices back in opposition of the request and one notice in favor of approval of the request.

Mayor Pruitt opened the public hearing, asking if anyone would like to come forth and address the Council.

Tom & Sue Walker
Mr. Walker shared that he and his wife own the property right adjacent to this location. He and his wife have been Rockwall residents for thirty-nine years. Mr. Walker went on to express opposition to Council approving this SUP request for various reasons. He believes that there will not be ample parking, that it will pose safety-related concerns, and the traffic will not flow well in and out of this location.

Stephanie Marshall and Natalie Kirkley (the applicants) came forth and shared that this proposed business is not a daycare, but, rather, it is a Christian-based Pre-K school. They are

both currently teachers in RISD. They went on to share details of what the business will be like, including sharing that there will be up to twenty-four (24) kids attending the school. They pointed out that the state and the city fire marshal regulations will allow up to thirty-four kids; however, they plan to have fewer. They shared that they plan to mostly follow the same school year calendar as Rockwall ISD follows. They will be open M-F from 8:30 a.m. until 2:30 p.m. They shared the details of their traffic (flow) plan. They also indicated that they plan to have a thirty-minute drop off 'window;' however, they are willing to expand that timing to an hour pickup window (of time), if needed. They do plan to have a small, fenced-in play area outside, and they explained how the noise is not expected to be excessive, and it will only be for about fifteen minutes per day.

Mrs. Terry Kirkly then came forth to speak (no address was given), sharing that she has worked as a Pre-K teacher in Dallas ISD for twenty-one years in a very busy school. She shared that she is coming forth to express support for the approval of this proposed SUP. She has the utmost confidence in the applicants and in their teaching abilities, and she strongly urged the Council to vote in favor of this request.

Amanda Jackson
1277 Waters Edge Drive
Rockwall, TX

Mrs. Jackson came forth on behalf of the applicants. She generally expressed support for the Council approving this proposed SUP. She pointed out that pre-K programs within the city are very limited, especially those that are 'faith-based,' and most of them have long wait lists. She shared that she was an educator for many years, and she has confidence that the applicants are trained to manage "drop offs" and "pick ups" pertaining to the twenty-four students who will be enrolled in the program.

Crystal Shaklee
1525 Firenza Court
(McLendon Chisholm, TX 75032)

Mrs. Shaklee shared that she believes these ladies (the applicants) are phenomenal teachers. She strongly urged the Council to approve this SUP request this evening.

Melba Jeffus
1903 S. FM-549
Rockwall, TX 75032

Mrs. Jeffus shared that her daughter is a kindergarten teacher in Mesquite, and she is very torn about this request. She acknowledged that she believes that this school will greatly benefit young kids who might participate in the school. However, she expressed great concern about having this business located along this stretch of Ridge Road. She shared that she is familiar with discussions that have taken place among staff and council members in past years pertaining to these homes that have been converted to businesses and the appropriate "uses" for occupying these spaces. She has concerns about safety, especially for those parents who might be waiting to turn into the business to drop their kids off. She believes that it is too small a space. She reminded the Council that, if it approves this SUP, then precedence is going to be set. She wished these ladies 'well,' however, she would really like them to find a different location.

Bob Wacker
309 Featherstone
Rockwall, TX

Mr. Wacker seemed to generally express concerns about the Council approving this SUP, as the business owner could possibly expand and begin accepting more than twenty-four students.

There being no one else wishing to come forth and speak at this time, Mayor Pruitt then closed the public hearing.

Councilmember Trowbridge asked for details pertaining to Ridge Road. Staff shared that the speed limit is 45 miles per hour, and it is a state roadway. He asked if it is a traffic violation if cars are backed up on Ridge Road as they are trying to get into the parking lot. Chief Riggs shared that, no, that would not be a traffic violation.

Councilmember Daniels shared that he is greatly in support of a faith-based education program; however, he believes this is a terrible location to do it. He has concerns about the traffic flow as well as safety for those drivers trying to go in and come out of this location. He shared that there is a need to respect the current, adjacent business owners as well.

Councilmember Daniels moved to deny Z2018-021. Mayor Pruitt seconded the motion, which passed by a vote of 7 ayes to 0 nays.

4. **Z2018-018** - Hold a public hearing to discuss and consider a City initiated zoning request for the approval of an **ordinance** for a text amendment to the Permissible Use Charts contained in Article IV, Permissible Uses, of the Unified Development Code [Ordinance No. 04-38] for the purpose of allowing the Furniture Upholstery, Refinishing or Resale land use by Specific Use Permit (SUP) in the Commercial (C) District, and take any action necessary **(1st Reading).**

Planning Director Ryan Miller provided background information pertaining to this agenda item. The Planning & Zoning Commission reviewed this case, and has recommended approval of the request by a vote of 7 to 0.

Mayor Pruitt opened the public hearing, asking if anyone would like to come forth and speak. There being no one indicating such, he then closed the Public Hearing.

Councilmember Macalik moved to approve Z2018-018. Councilmember Trowbridge seconded the motion. The ordinance was read as follows:

CITY OF ROCKWALL
ORDINANCE NO. 18-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, BY AMENDING ARTICLE IV, *PERMISSIBLE USES*; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

The motion passed by a vote of 7 ayes to 0 nays.

Mayor Pruitt called for a break at 7:29 p.m. He then reconvened the meeting at 7:41 p.m.

5. **Z2018-019** - Hold a public hearing to discuss and consider a City initiated zoning request for the approval of an **ordinance** for a text amendment to the Permissible Use Charts and Use Standards contained in Article IV, Permissible Uses, of the Unified Development Code [Ordinance No. 04-38] for the purpose of allowing the Brewery or Distillery (Excluding Brew Pub) land use by Specific Use Permit (SUP) in the Downtown (DT) District, and take any action necessary **(1st Reading).**

Planning Director Ryan Miller provided background information pertaining to this agenda item. This direction was the result of an appointment with Lorne Liechty of Liechty & McGinnis, LLP on behalf of Cory and Eva Cannon who are requesting the amendment to establish a brewery in the Downtown (DT) District. Under the City's current ordinances, the *Brewery or Distillery Excluding Brew Pub)* land use is only permitted *by-right* in the Light Industrial (LI) and Heavy Industrial (HI) Districts. The purpose of these designations is that -- *until recently* -- a brewery or distillery was viewed as a manufacturing or industrial type of use; however, in 2013 the *Texas Alcoholic Beverage Commission (TABC)* passed amendments designed to loosen the restrictions on *microbreweries* or *craft-breweries*. In response to the City Council's direction, staff brought the proposed text amendment to the Planning and Zoning Commission on April 24, 2018 for discussion. Based on the discussion at this meeting and the questions asked by the Planning and Zoning Commission, staff prepared two (2) options for the proposed text amendment. The Planning & Zoning Commission has recommended approval of this item, specifically proposed text amendment Option #2 (as outlined in the staff memo), by a unanimous vote.

Mayor Pruitt opened the public hearing, asking if anyone would like to come forth and speak at this time.

Cory and Eva Cannon, who represent the proposed "Siren Rock Brewing Company," came forth and addressed the Council pertaining to this proposed text amendment. Mrs. Cannon spoke in favor of Council approving this text amendment this evening.

Robert Barton
Ferguson Engineering
307 N. Fannin St.
Rockwall, TX

Robert indicated that he works for the engineering firm that is located at 307 N. Fannin Street. He expressed support for the improvements that have been made to the downtown square in Rockwall, and he believes that this type of business would fit well in this area. He believes the brewery is not a bar, but instead is something more sophisticated. He expressed support for the Council approving this request.

Councilmember Hohenshelt moved to approve Z2018-019 (specifically ordinance language Option #2). Councilmember Trowbridge seconded the motion. Mayor Pruitt then expressed several strong concerns about this text amendment being approved. Councilmember Daniels expressed that he "110% agrees" with all of the concerns that Mayor Pruitt expressed. The ordinance was then read as follows:

CITY OF ROCKWALL
ORDINANCE NO. 18-XX

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, BY AMENDING

ARTICLE IV, *PERMISSIBLE USES*; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

The motion passed by a vote of 5 ayes with 2 nays (Pruitt and Daniels).

XIV. ACTION ITEMS

1. **MIS2018-009** - Discuss and consider a request by John Arnold of BH Phase 8, LLC for the approval of a variance to the minimum landscape buffer requirements stipulated by Planned Development District 74 (PD-74) [Ordinance No. 17-60] for Breezy Hill, Phase VIII on 30.785-acres of land identified as Tract 7 of the J. Strickland Survey, Abstract No. 187, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 74 (PD-74) for Single Family 10 (SF-10) District land uses, located along the eastern side of Breezy Hill Lane, and take any action necessary.

Mr. Miller, Planning Director, shared that there has recently been a dispute over the alignment of Breezy Hill Road, which necessitated the city having to hire a surveyor to establish where the right-of-way is located. The survey, in part, showed that part of the right-of-way encroaches on the Breezy Hill, Phase 8 subdivision, specifically just over 5' into the prescribed 10' landscape buffer. This has caused some issues with the preliminary plat. In lieu of going to the Board of Adjustments to seek reduction in lot sizes, the applicant is requesting a variance to the minimum landscape buffer requirements. Such request is allowed for on a case-by-case basis, essentially when extenuating circumstances exist that could signify that compliance would pose a hardship. Approval of this request is a discretionary decision on the part of the Council.

Following Mr. Miller's comments, Mayor Pruitt called forth Adam Buczek from Skorburg Company. As a requirement for granting this variance, he would like them to acknowledge that the city has a prescriptive right-of-way across this piece of land, and that the company encroached upon it. Mr. Buczek acknowledged this as being correct. Mayor Pruitt indicated that he would like such acknowledgement to be "papered up" as part of granting this variance. Mayor Pruitt then moved to approve MIS2018-009. Councilmember Hohenshelt seconded the motion, which passed by a vote of 7 ayes to 0 nays.

2. **P2018-001** - Discuss and consider a request by Chase Finch of Corwin Engineering, Inc. on behalf of John Arnold of BH Phase 8, LLC for the approval of a preliminary plat for Breezy Hill, Phase VIII containing 72 single-family residential lots on 30.785-acres of land identified as Tract 7 of the J. Strickland Survey, Abstract No. 187, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 74 (PD-74) for Single Family 10 (SF-10) District land uses, located along the eastern side of Breezy Hill Lane, and take any action necessary.

Planning Director Ryan Miller provided background information concerning this agenda item, indicating that this plat is for 72 lots, and it does meet all of the city's technical requirements.

Mayor Pruitt moved to approve P2018-001. Councilmember Fowler seconded the motion, which passed by a vote of 7 ayes to 0 nays.

3. **SP2018-011** - Discuss and consider a request by Andy Sebacher of Forum Studio Architects, Inc. on behalf of Alan Yu of Lollicup USA, Inc. for the approval of a variance in conjunction with an approved site plan for a manufacturing facility on a 34.23-acre tract of land identified as a portion of Lot 1, Block A, Rockwall, Technology Park, Phase 2 and Tract 2-01 of the J. H. B. Jones Survey, Abstract No. 125, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, located at the southeast corner of the intersection of Corporate Crossing [FM-3549] and Capital Boulevard, situated within the FM-549 Overlay (FM-549 OV) District, and take any action necessary.

Planning Director Ryan Miller provided brief comments pertaining to this agenda item. The applicant is essentially asking to replace the natural stone that the city requires with a different product instead. The Architectural Review Board recommended denial of this request, as did the city's Planning & Zoning Commission.

Councilmember Hohenshelt moved to table action on this item. Councilmember Fowler seconded the motion, which passed by a vote of 7 ayes to 0 nays.

4. **SP2018-008** - Discuss and consider a request by Worth Williams of Moore Worth Investment, LLC for the approval of variances in conjunction with an approved site plan for a restaurant on a 0.778-acre parcel of land identified as Lot 4, Block A, Lakeshore Commons Addition, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 65 (PD-65) for General Retail (GR) District land uses, situated within the North SH-205 Overlay (N. SH-205 OV) District, addressed as 1901 N. Goliad Street, and take any action necessary.

Mr. Miller provided background information pertaining to this agenda item. The applicant was approved for a site plan that would allow for a restaurant. They are now asking for variances to the required roof pitch (they would like to have a flat roof, similar to all of the other buildings in this shopping center area), and they would like to have an increase in the stucco material and the use of more than 10% secondary materials (more metal panels on the front and north elevations); and a reduction in the amount of required parking spaces (40 are required, but they are asking for 34 spaces). The City's Architectural Review Board and the city's Planning & Zoning Commission have both recommended approval of all of the variances being requested.

Councilmember Hohenshelt moved to approve SP2018-008. Councilmember Fowler seconded the motion, which passed by a vote of 7 ayes to 0 nays.

5. **A2018-002** - Discuss and consider the expiration of existing 212 Development Agreements for two (2) areas contiguous with the City of Rockwall's corporate limits and being identified as: (Area 1) approximately 177.47-acres of land generally located southeast of Hanby Lane and Buffalo Way Road; and (Area 2) approximately 24.98-acres of land located along the southeast side of FM550, south of SH276; and take any action necessary.

Mayor Pruitt indicated that Councilmember Macalik is recusing herself from the discussion and vote concerning "Area 1" as described above.
Mayor Pruitt moved to approve extending 212 agreements to property owners that the city has heard back from (in "Area 1") and to proceed with voluntary annexation associated with property owners that the city has not yet heard back from (within "Area 1"). Mayor Pruitt clarified that the 212 agreements would be for a period of three years. Councilmember Daniels seconded the motion, which passed by a vote of 6 ayes with 1 abstention (Macalik).

Regarding "Area 2," Mayor Pruitt moved to approve the 212 agreements for a period of three years and then proceed with annexation of the properties that the city did not hear back from. Councilmember Daniels seconded the motion, which passed by a vote of 7 ayes to 0 nays.

6. Discuss and consider appointments to the city's Architectural Review Board, and take any action necessary.

Councilmember Daniels moved to table this agenda item. Councilmember Hohenshelt seconded the motion, which passed by a vote of 7 ayes to 0 nays.

XV. EXECUTIVE SESSION

THE CITY OF ROCKWALL CITY COUNCIL WILL RECESS INTO EXECUTIVE SESSION TO DISCUSS THE FOLLOWING MATTERS AS AUTHORIZED BY CHAPTER 551 OF THE TEXAS GOVERNMENT CODE:

1. Discussion regarding appointments to city regulatory boards, commissions, and committees - specifically the Planning & Zoning Commission and Building & Standards Commission - pursuant to Section 551.074 (Personnel Matters)

2. Discussion regarding purchase or lease of real property in the vicinity of County Line Rd. pursuant to Section §551.072 (Real Property) and Section §551.071 (Consultation with Attorney)

3. Discussion regarding appointment of city council subcommittees, board liaisons and designation of Mayor Pro Tem pursuant to Section, §551.074 (Personnel Matters)

4. Discussion regarding process and nomination to fill vacancy on Rockwall Central Appraisal District Board pursuant to Section 551.074 (Personnel Matters)

5. Discussion regarding the appeal to the Public Utility Commission filed by the cities of Garland, Mesquite, Plano and Richardson against the North Texas Municipal Water District (NTMWD) regarding water rates pursuant to §Section 551.071 (Consultation with Attorney)

6. Discussion regarding legal issues pertaining to potential annexation pursuant to Section §551.071 (Consultation with Attorney)

7. Discussion regarding Breezy Hill Road pursuant to § Section 551.071 (Consultation with Attorney)

XVI. RECONVENE PUBLIC MEETING & TAKE ANY ACTION AS RESULT OF EXECUTIVE SESSION

XVII. ADJOURNMENT

Mayor Pruitt adjourned the meeting at 8:12 p.m.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS 4th DAY OF JUNE, 2018.

ATTEST: **Jim Pruitt, Mayor**

Kristy Cole, City Secretary

CITY OF ROCKWALL

ORDINANCE NO. 18-28

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, ADOPTING REVISIONS TO THE MASTER THOROUGHFARE PLAN CONTAINED WITHIN THE *TRANSPORTATION* SECTION OF THE COMPREHENSIVE PLAN IN ACCORDANCE WITH THE CITY'S HOME RULE CHARTER; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, the *Home Rule Charter* of the City of Rockwall, Texas, states that the Comprehensive Plan will contain recommendations for the growth, development and beautification of the City and its Extraterritorial Jurisdiction (ETJ); and

WHEREAS, the City Council of the City of Rockwall has previously authorized a study to update the Comprehensive Plan, also referred to as the Master Plan; and

WHEREAS, the citizens of the City of Rockwall were involved in the development of the Comprehensive Plan through participation in committee and public meetings; and

WHEREAS, the Comprehensive Plan shall serve as a guide to all future City Council action concerning land use and development regulations and expenditures for capital improvements; and

WHEREAS, Section 213.003, *Adoption or Amendment of Comprehensive Plan*, of Chapter 213, *Municipal Comprehensive Plans*, of the *Texas Local Government Code* states that the adoption of or amendment to a Comprehensive Plan requires a hearing at which the public is given the opportunity to give testimony and present written evidence, and as required by the *Home Rule Charter of the City of Rockwall* a public hearing has been held on the proposed revisions to the Comprehensive Plan, and the governing body -- *in the exercise of its legislative discretion* -- has concluded that the Comprehensive Plan should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS THAT:**

Section 1. The Master Thoroughfare Plan contained within the *Transportation* section of the City's Comprehensive Plan be amended as depicted in *Exhibit 'A'* of this ordinance; and,

Section 2. The Comprehensive Plan shall be used by the City Staff in planning and as a guide for future development of the City of Rockwall; and,

Section 3. This ordinance shall take effect immediately from and after its passage, and the publication of the caption of said ordinance as the law in such cases provides.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 4th DAY OF JUNE, 2018.

CITY OF ROCKWALL

ORDINANCE NO. 18-26

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, BY AMENDING ARTICLE IV, *PERMISSIBLE USES*; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, an amendment to the City of Rockwall's Unified Development Code [*Ordinance No. 04-38*] has been initiated by the City Council of the City of Rockwall to amend Article IV, *Permissible Uses*, of the Unified Development Code [*Ordinance No. 04-38*]; and,

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the city's corporate boundaries, and the governing body in the exercise of its legislative discretion, has concluded that the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:**

SECTION 1. That Article IV, *Permissible Uses,* of the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall, as heretofore amended, be and the same is hereby amended as specifically described in *Exhibit 'A'* of this ordinance.

SECTION 2. That any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *Two Thousand Dollars ($2,000.00*) for each offense and each and every day such offense shall continue shall be deemed to constitute a separate offense;

SECTION 3. That if any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code [*Ordinance No. 04-38*], and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable;

SECTION 4. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides;

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 4TH DAY OF JUNE, 2018.

CITY OF ROCKWALL
CITY COUNCIL MEMO

AGENDA DATE: 06/04/2018

APPLICANT: David Naylor; *Rayburn Country Electric Cooperative*

AGENDA ITEM: **P2018-010**; *Lots 8-9, Block A, Rayburn Country Addition*

SUMMARY:

Consider a request by Bill Thomas of Engineering Concepts & Design on behalf of David Naylor of Rayburn Country Electric Cooperative for the approval a replat for Lots 8 & 9, Block A, Rayburn Country Addition being a 20.415-acre tract of land identified as Lots 4 & 5, Block A, Rayburn Country Addition, City of Rockwall, Rockwall County, Texas, zoned Heavy Commercial (HC) District, generally located northeast of the intersection of Mims Road and Sids Road, and take any action necessary.

PLAT INFORMATION:

- ☑ The objective of this request is to replat two (2) parcels of land [*i.e. Lots 8 & 9, Block A, Rayburn Country Addition*] for the purpose of abandoning and dedicating certain easements on Lots 4 & 5, Block A, Rayburn Country Addition, and establishing the necessary fire lane, utility (e.g. water, sanitary sewer), public access, and drainage easements for the development of the site.

- ☑ On December 4, 2017, the City Council approved a replat for Lots 4-7, Block A, Rayburn Country Addition.

- ☑ The surveyor has completed the majority of the technical revisions requested by staff, and this plat, conforming to the requirements for replats as stated in the *Subdivision Ordinance* in the Municipal Code of Ordinances, is recommended for conditional approval pending the completion of final technical modifications and submittal requirements.

- ☑ Conditional approval of this plat by the City Council shall constitute approval subject to the conditions stipulated in the *Recommendation* section below.

- ☑ With the exception of the items listed in the *Recommendation* section of this case memo, this plat is in substantial compliance with the requirements of the *Subdivision Ordinance* in the Municipal Code of Ordinances.

RECOMMENDATIONS:

If the Planning and Zoning Commission chooses to approve the *replat* for *Lots 8-9, Block A, Rayburn Country Addition,* staff would recommend the following conditions:

1) All technical comments from the Engineering, Planning and Fire Departments shall be addressed prior to the filing of this plat;

2) Any construction resulting from the approval of this *replat* shall conform to the requirements set forth by the Unified Development Code, the International Building Code, the Rockwall Municipal Code of Ordinances, city-adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

PLANNING AND ZONING COMMISSION:

On May 29, 2018, the Planning and Zoning Commission's motion to recommend approval of the replat with staff conditions passed by a vote of 5 to 0 with Commissioner Lyons absent and one (1) vacancy.

OWNER'S CERTIFICATE AND DEDICATION

STATE OF TEXAS
COUNTY OF ROCKWALL

WHEREAS RAYBURN COUNTRY ELECTRIC COOPERATIVE, INC., BEING THE OWNER OF A TRACT of land in the County of Rockwall, State of Texas, said tract being described as follows:

BEING a 20.415 acre tract of land situated in the William H. Barnes Survey, Abstract No. 26, City of Rockwall, Rockwall County, Texas and being all of Lots 4 and Lot 5, Rayburn Country Addition, an addition to the City of Rockwall, as recorded in Cabinet __, Slide ___, Plat Records, Rockwall County, Texas, said 20.415 acre tract being more particularly described by metes and bounds as follows:

BEGINNING at a 5/8–inch iron rod with yellow cap stamped "RPLS 3963" set for the northerly west corner of Lot 5 of said Rayburn Country Addition, said corner being in the northeast boundary line of a 1.50 acre tract of land described in deed to Richard E. Slaughter, Jr., as recorded in Volume 1531, Page 145 of said Deed Records and in the southeast right–of–way line of Sids Road, a 52.5 ft. right–of–way at this point;

THENCE North 44 degrees 03 minutes 02 seconds East, with the common line of said Rayburn Country Addition and said Sids Road, a distance of 1166.34 feet to an "X" set for the north corner of Lot 4 of said Rayburn County Addition;

THENCE South 46 degrees 15 minutes 45 seconds East, passing the west corner of Lot 1, Block 1, Shrigley Addition, an addition to the City of Rockwall, as recorded in Cabinet C, Slide 367 of said Plat Records and continuing with the common line of said Shrigley Addition and said Lot 4 and said Lot 5, a total distance of 338.73 feet to a 1/2–inch iron rod found at the south corner of said Shrigley Addition and the southerly west corner of Lot 6 of said Rayburn Country Addition;

THENCE South 46 degrees 15 minutes 06 seconds East, with the common boundary of said Lot 5 and said Lot 6, a distance of 166.80 feet to a 5/8–inch iron rod with yellow cap stamped "RPLS 3963" set for a common corner thereof, from which a 1/2–inch iron rod with cap stamped "RSCI" found for reference bears North 21 degrees 16 minutes 49 seconds West, a distance of 0.41 feet;

THENCE South 18 degrees 50 minutes 25 seconds East, continuing with the common boundary of said Lot 5 and said Lot 6, a distance of 543.59 feet to a 5/8–inch iron rod with yellow cap stamped "RPLS 3963" set for the common south corner thereof, said corner being in the north boundary line of a 63.72 acre tract of land described in deed to Vincent J. Staglianiio, recorded in Volume 3484, Page 277 of said Deed Records;

THENCE Southwesterly, with the common boundary lines of said Lot 5 and said 63.72 acre tract, the following courses:

South 71 degrees 07 minutes 55 seconds West, a distance of 895.13 feet to a to a point for corner from which a 1/2–inch iron rod found for reference, bears South 60 degrees 54 minutes 11 seconds East, a distance of 0.21 feet;

South 79 degrees 16 minutes 39 seconds West, a distance of 276.11 feet to a 1/2–inch iron rod found for corner;

North 43 degrees 25 minutes 10 seconds West, a distance of 85.04 feet to a 1/2–inch iron rod found for corner in the southeast line of the aforementioned 1.50 acre tract at the southerly most western corner of said Lot 5 ;

THENCE North 44 degrees 22 minutes 56 seconds East, with the common line of said 1.50 acre tract and said Lot 5, a distance of 99.61 feet to a 3/8–inch iron rod found for the east corner of said 1.50 acre tract and an ell corner of said Lot 5;

THENCE North 46 degrees 14 minutes 22 seconds West, with the common line of said 1.50 acre tract and said Lot 5, a distance of 338.24 feet to the POINT OF BEGINNING AND CONTAINING 889,296 square feet or 20.415 acres of land.

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS:

I (we) the undersigned owner(s) of the land shown on this plat, and designated herein as the RAYBURN COUNTRY ADDITION, LOTS 4–7, BLOCK A to the City of Rockwall, Texas, and whose name is subscribed hereto, hereby dedicate to the use of the public forever all streets, alleys, parks, water courses, drains, easements and public places thereon shown on the purpose and consideration therein expressed. I (we) further certify that all other parties who have a mortgage or lien interest in the RAYBURN COUNTRY ADDITION, LOTS 4–7, BLOCK A have been notified and signed this plat. I (we) understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same. I (we) also understand the following;

1. No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.
2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of their respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maintaining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.
3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.
4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.
5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.
6. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Rockwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, storm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall; or

Until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer and/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as progress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or

Until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

I (we) further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the Subdivision upon the public services required in order that the development will comport with the present and future growth needs of the City; I (we), my (our) successors and assigns hereby waive any claim, damage, or cause of action that I (we) may have as a result of the dedication of exactions made herein.

GENERAL NOTES:

1. It shall be the policy of the City of Rockwall to withhold issuing building permits until all streets, water, sewer and storm drainage systems have been accepted by the City. The approval of a plat by the City does not constitute any representation, assurance or guarantee that any building within such plat shall be approved, authorized or permit therefore issued, nor shall such approval constitute any representation, assurance or guarantee by the City of the adequacy and availability for water for personal use and fire protection within such plat, as required under Ordinance 8354.
2. Bearings and state plane coordinates are based on Texas State Plane Coordinates. Projection: State Plane NAD83 Texas North Central Zone 4202, Lambert Conformal Conic, Feet (TX83–NCF).
3. By graphical plotting, part of the parcel described hereon lies within a Special Flood Hazard Area (SPHA) Zone "AE" as delineated on the Rockwall County, Texas and Incorporated Areas, Flood Insurance Rate Map, Map Number 4839C0040L, dated September 26, 2008, as published by the Federal Emergency Management Agency. The Surveyor utilized the above referenced floodplain information for this determination and the Surveyor does not certify that revised floodplain information has or has not been published by the Federal Emergency Management Agency or some other source. This statement shall not create liability on the part of the surveyor.
4. Unless otherwise noted, a 5/8" iron rod with a yellow cap stamped "RPLS 3963" was set at all lot corners.
5. The floodplain section elevations and locations shown on this plat were provided by the City of Rockwall.
6. Property owner is responsible for on–site drainage, maintenance, repair and replacement.
7. The purpose of this replat is to add additional easements and to remove all or parts of easements necessary after the relocation of improvements.

CITY OF ROCKWALL
CITY COUNCIL MEMO

AGENDA DATE: 06/04/2018

APPLICANT: Billy Duckworth; *A & W Surveyors, Inc*.

AGENDA ITEM: **P2018-011;** *Lots 1 & 2, Block A, Kayce Lynn Addition No. 1*

SUMMARY:

Consider a request by Billy Duckworth of A & W Surveyors, Inc. for the approval of a replat for Lots 1 & 2, Block A, Kayce Lynn Addition No. 1 being a 0.310-acre tract of land identified as Lots 33 & 34, Canup Addition, City of Rockwall, Rockwall County, Texas, zoned Single Family 7 (SF-7) District, situated within the Southside Residential Neighborhood Overlay (SRO) District, located at the southeast corner of Emma Jane Road and Sam Houston Street, and take any action necessary.

PLAT INFORMATION:

- ☑ The objective of this request is to replat a 0.310-acre tract of land [*i.e. Lots 33 & 34, Canup Addiition*] into two (2) parcels of land [*Lots 1 & 2, Block A, Kayce Lynn Addition No. 1*] for the purpose of constructing two (2) single-family homes.

- ☑ On December 18, 2017, the City Council approved a special request [*MIS2017-016*] for a deviation from the side setback adjacent to Sam Houston Street on Lot 1 from 20-feet to 10-feet and to construct flat-front entry garages on Lots 1 & 2.

- ☑ The surveyor has completed the majority of the technical revisions requested by staff, and this plat, conforming to the requirements for replats as stated in the Subdivision Ordinance in the Municipal Code of Ordinances, is recommended for conditional approval pending the completion of final technical modifications and submittal requirements.

- ☑ Conditional approval of this plat by the City Council shall constitute approval subject to the conditions stipulated in the *Recommendation* section below.

- ☑ With the exception of the items listed in the *Recommendation* section of this case memo, this plat is in substantial compliance with the requirements of the Subdivision Ordinance in the Municipal Code of Ordinances.

RECOMMENDATIONS:

If the City Council chooses to approve the *replat* for *Lots 1 & 2, Block A, Kayce Lynn Addition No 2,* staff would recommend the following conditions:

1) All technical comments from the Engineering, Planning and Fire Departments shall be addressed prior to the filing of this plat;

2) Any construction resulting from the approval of this *replat* shall conform to the requirements set forth by the Unified Development Code, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

PLANNING AND ZONING COMMISSION:

On May 29, 2018, the Planning and Zoning Commission's motion to recommend approval of the replat with staff recommendations passed by a vote of 5-0 with Chairman Lyons absent and one (1) vacant position.

OWNER'S DEDICATION

STATE OF TEXAS
COUNTY OF ROCKWALL

I Xiasong Chen, the undersigned owner of the land shown on this plat designated herein as ***KAYCE LYNN ADDITION I,*** to the City of Rockwall, Texas, and whose name is subscribed hereto, hereby dedicate to the use of the public forever all streets, alleys, parks, watercourses, drains, easements and public places thereon shown on the purpose and consideration therein expressed. I further certify that there are no other parties who have a mortgage or lien interest in the KAYCE LYNN ADDITION I.

I understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same. I also understand the following;

1. No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.
2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of their respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maintaining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.
3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.
4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.
5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.
6. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Rockwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, storm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall; or Until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer and/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as progress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or Until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.
7. All drainage and detention on site will be maintained, repaired, and replaced by the property owner.

I further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the Subdivision upon the public services required in order that the development will comport with the present and future growth needs of the City; I, my successors and assigns hereby waive any claim, damage, or cause of action that I may have as a result of the dedication of exactions made herein.

CITY OF ROCKWALL
CITY COUNCIL MEMO

AGENDA DATE: 06/04/2018

APPLICANT: Billy Duckworth; *A & W Surveyors, Inc*.

AGENDA ITEM: **P2018-012;** *Lot 1, Block A, Kayce Lynn Addition No. 2*

SUMMARY:

Consider a request by Billy Duckworth of A & W Surveyors, Inc. for the approval of a replat for Lot 1, Block A, Kayce Lynn Addition No. 2 being a 0.172-acre tract of land identified as a portion of Lot 53 of the Canup Addition, City of Rockwall, Rockwall County, Texas, zoned Single-Family 7 (SF-7) District, situated within the Southside Residential Neighborhood Overlay (SRO) District, located at the northwest corner of Emma Jane Road and Sam Houston Street, and take any action necessary.

PLAT INFORMATION:

- ☑ The objective of this request is to replat a 0.172-acre tract of land [*i.e. a portion of Lot 53 of the Canup Addition*] into one (1) parcel of land [*Lot 1, Block A, Kayce Lynn Addition No. 2*] for the purpose of constructing one (1) single-family home.

- ☑ On January 2, 2018, the City Council approved a special request [*MIS2017-017*] to allow a deviation from the minimum front-yard setback adjacent to Emma Jane Street from 20-feet to ten (10) feet, to reduce the minimum rear setback from ten (10) feet to six (6) feet, and to decrease the minimum lot depth from 100-feet to 49-feet.

- ☑ The surveyor has completed the majority of the technical revisions requested by staff, and this plat, conforming to the requirements for replats as stated in the Subdivision Ordinance in the Municipal Code of Ordinances, is recommended for conditional approval pending the completion of final technical modifications and submittal requirements.

- ☑ Conditional approval of this plat by the City Council shall constitute approval subject to the conditions stipulated in the *Recommendation* section below.

- ☑ With the exception of the items listed in the *Recommendation* section of this case memo, this plat is in substantial compliance with the requirements of the Subdivision Ordinance in the Municipal Code of Ordinances.

RECOMMENDATIONS:

If the City Council chooses to approve the *replat* for *Lot 1, Block A, Kayce Lynn Addition No 2,* staff would recommend the following conditions:

1) All technical comments from the Engineering, Planning and Fire Departments shall be addressed prior to the filing of this plat;

2) Any construction resulting from the approval of this *replat* shall conform to the requirements set forth by the Unified Development Code, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

PLANNING AND ZONING COMMISSION:

On May 29, 2018, the Planning and Zoning Commission's motion to recommend approval of the replat with staff recommendations passed by a vote of 5-0 with Chairman Lyons absent and one (1) vacant position.

Notary Public in and for the State of Texas

OWNER'S DEDICATION

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS:

STATE OF TEXAS
COUNTY OF ROCKWALL

W, Cogent Realty Advisors, LLC, acting by and through its authorized agent, Stephen Goldberg, the undersigned owner of the land shown on this plat designated herein as ***KAYCE LYNN ADDITION II,*** to the City of Rockwall, Texas, and whose name is subscribed hereto, hereby dedicate to the use of the public forever all streets, alleys, parks, watercourses, drains, easements and public places thereon shown on the purpose and consideration therein expressed. I further certify that there are no other parties who have a mortgage or lien interest in the KAYCE LYNN ADDITION II. I understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same. I also understand the following;

1. No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.
2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of their respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maintaining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.
3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.
4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.
5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.
6. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Rockwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, storm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall; or

Until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer and/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as progress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or

Until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

I further acknowledge that the dedications and/or exaction's made herein are proportional to the Impact of the Subdivision upon the public services required in order that the development will comport with the present and future growth needs of the City; I, my successors and assigns hereby waive any claim, damage, or cause of action that I may have as a result of the dedication of exactions made herein.

THIS PAGE INTENTIONALLY LEFT BLANK

52

CITY OF ROCKWALL
CITY COUNCIL MEMO

AGENDA DATE: 06/04/2018

APPLICANT: Bart Tinsley of *Alders Rockwall SIL Property, LLC*

AGENDA ITEM: **P2018-013;** *Lots 1 & 2, Block A, Rockwall Seniors Addition*

SUMMARY:

Consider a request by Bart Tinsley of Adlers Rockwall SIL Property, LLC on behalf of Rob Cameron of Cameron & Cameron for the approval of a conveyance plat for Lots 1 & 2, Block A, Rockwall Seniors Addition being a 12.40-acre tract of land identified as Tract 8 of the B. J. T. Lewis, Abstract No. 255, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 86 (PD-86) for Multi-Family 14 (MF-14) District land uses, situated within the SH-205 Overlay (SH-205 OV) District, generally located south of the intersection of TL Townsend Drive and Justin Road, and take any action necessary.

COMMENTS:

☑ The applicant is requesting approval of a final plat for the purpose of subdividing the *subject property* into two (2) lots and conveying *Lot 1* of the proposed subdivision. Staff should note that the site will not be developed and no permits will be issued without first having an approved site plan, civil engineering plans, and a replat of the property in accordance with the development procedures outlined in the Municipal Code of Ordinances and the Unified Development Code (UDC).

☑ Zoning for the *subject property* was approved by the City Council [i.e. *Planned Development District 86* (*PD-86*)] on December 4, 2017, and designates the property allowing a multi-family, apartment complex and a memory care facility.

☑ Concurrently with this request, the applicant has submitted a PD Site Plan (*i.e. SP2018-012 & SP2018-013*) for both lots in accordance with the requirements of Planned Development District 86 (PD-86). These plans indicate an intent to develop the *subject property* as a multi-family, apartment complex and a memory care facility. The applicant has indicated that these developments will take place simultaneously for both lots, which are demarcated by the proposed lot lines (*i.e. Lots 1 & 2, Block A*).

☑ The surveyor has completed the majority of the technical revisions requested by staff, and this plat, conforming to the requirements for final plats as stated in the *Subdivision Ordinance* in the Municipal Code of Ordinances, is recommended for conditional approval pending the completion of final technical modifications and submittal requirements.

☑ Conditional approval of this plat by the City Council shall constitute approval subject to the conditions listed in the *Recommendations* section below.

☑ With the exception of the items listed in the *Recommendation* section of this case memo, this plat is in substantial compliance with the requirements of the *Subdivision Ordinance* in the Municipal Code of Ordinances.

RECOMMENDATIONS:

If the Planning & Zoning Commission and City Council choose to approve the final plat for *Lots 1 & 2, Block A, Rockwall Seniors Addition*, staff would recommend the following conditions of approval:

1) All staff comments provided by the Planning, Engineering and Fire Department must be addressed prior to the submittal of a building permit; and,

2) Any construction resulting from the approval of this replat shall conform to the requirements set forth by the Unified Development Code (UDC), the International Building Code, the Rockwall Municipal Code of Ordinances, City adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

PLANNING AND ZONING COMMISSION:

On May 29, 2018, the Planning and Zoning Commission's motion to recommend approval of the final plat (*conveyance plat*) with staff conditions passed by a vote of 5 to 0 with Commissioner Lyons absent and one (1) vacancy.

STATE OF TEXAS

COUNTY OF ROCKWALL

WHEREAS BRC Family Trust is the current sole owner of a tract of land out of the B. J. Lewis Survey, Abstract No. 225 and situated in the City of Rockwall, Rockwall County, Texas, and surveyed by Miller Surveying, Inc. of Hurst, Texas, in March 2017, said tract being the same tract of land described in the deed to BCR Family Land Trust recorded in Document No. 2012-00480248, of the Official Public Records of Rockwall County, Texas, and being more particularly described as follows:

BEGINNING at a ½ inch capped steel rod found for the most easterly corner of said Cameron tract, said rod being in the southwesterly right-of-way line of North T. L. Townsend Drive, and being the most northerly corner of Lot 8, Block 1, First United Methodist Church Addition, an addition to the City of Rockwall, Rockwall County, Texas, recorded in Cabinet I, Slide 107, of the Plat Records of Rockwall County, Texas;

THENCE South 44 degrees 10 minutes 16 seconds West with the northwesterly boundary line of said Lot 8, a distance of 1098.41 feet to a ½ inch capped "MILLER 5665" steel rod set for the most westerly corner thereof, and also being in the northeasterly boundary line of the same tract of land described in the deed to Teasdale Investments, LLC., recorded in Volume 2015, Page 10884, of the Deed Records of Rockwall County, Texas;

THENCE North 43 degrees 14 minutes 26 seconds West with the northeasterly boundary line of said Teasdale tract a distance of 181.41 feet to a ½ inch capped steel rod found for the most northerly corner of the said Teasdale tract;

THENCE South 44 degrees 07 minutes 44 seconds West a distance of 59.65 feet to a ½ inch capped steel rod found;

THENCE North 44 degrees 03 minutes 31 seconds West a distance of 99.90 feet to a cross in concrete set;

THENCE North 44 degrees 52 minutes 20 seconds East a distance of 103.71 feet to a ½ inch capped steel rod found;

THENCE North 20 degrees 26 minutes 34 seconds West a distance of 126.60 feet to a ½ inch capped steel rod found for the most southerly corner of Lot 5-R, Block A, Justin Drive Professional Park, LTD, an addition to the City of Rockwall, Rockwall County, Texas recorded in Cabinet E, Slide 228 of the Plat Records of Rockwall County, Texas;

THENCE North 28 degrees 27 minutes 41 seconds East with the southeasterly boundary line of said Block A a distance of 594.16 feet to a cross in concrete found for an angle point therein;

THENCE North 46 degrees 06 minutes 22 seconds East continuing with said southeasterly boundary line a distance of 430.00 feet to a ½ inch capped "MILLER 5665" steel rod set for the most easterly corner of Lot 1A-R, Block A, Lofton Industrial Park Addition, an addition to the City of Rockwall, Rockwall County, Texas recorded in Cabinet E, Slide 318 of the Plat Records of Rockwall County, Texas, said rod being in the said southwesterly right-of-way line of North T. L. Townsend Drive;

THENCE South 43 degrees 33 minutes 08 seconds East with said southwesterly right-of-way line a distance of 288.96 feet to a ½ inch capped "MILLER 5665" steel rod set;

THENCE South 45 degrees 30 minutes 06 seconds East continuing with said southwesterly right-of-way line a distance of 251.77 feet to the point of beginning and containing 12.400 acres of land more or less;

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS:

STATE OF TEXAS

COUNTY OF ROCKWALL

I (we) the undersigned owner(s) of the land shown on this plat, and designated herein as Lot 1 and Lot 2, Block 1, Rockwall Senior Addition to the City of Rockwall, Texas, and whose name is subscribed hereto, hereby dedicate to the use of the public forever all streets, alleys, parks, watercourses, drains, easements and public places thereon shown on the purpose and consideration therein expressed. I (we) further certify that all other parties who have a mortgage or lien interest in the subdivision have been notified and signed this plat.

I (we) understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same. I (we) also understand the following;

1. No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.

2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of their respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maintaining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.

3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.

4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.

5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.

6. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Rockwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, storm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall; or

Until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer and/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as progress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

I (we) further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the Subdivision upon the public services required in order that the development will comport with the present and future growth needs of the City; I (we), my (our) successors and assigns hereby waive any claim, damage, or cause of action that I (we) may have as a result of the dedication of exactions made herein.

CITY OF ROCKWALL
CITY COUNCIL MEMO

AGENDA DATE: 06/04/2018

APPLICANT: Bobby Widboom

AGENDA ITEM: **P2017-014;** *Lot 1, Block A, Widboom Addition*

SUMMARY:

Consider a request by Robby Widboom for the approval of a final plat of Lot 1, Block A, Widboom Addition being a one (1) acre tract of land identified as Tract 11-2 of the D. Harr Survey, Abstract No. 102, City of Rockwall, Rockwall County, Texas, zoned Single Family 1 (SF-1) District, situated within the East SH-66 Overlay (E. SH-66 OV) District, addressed as 770 SH-66, and take any action necessary.

PLAT INFORMATION:

☑ The objective of this request is to final plat a 1.002-acre tract of land [*i.e. Tract 11-2 of the D. Harr Survey, Abstract No. 102*] into one (1) parcel of land [*Lot 1, Block A, Widboom Addition*] for the purpose of constructing a single-family home.

☑ The surveyor has completed the majority of the technical revisions requested by staff, and this plat, conforming to the requirements for final plats as stated in the Subdivision Ordinance in the Municipal Code of Ordinances, is recommended for conditional approval pending the completion of final technical modifications and submittal requirements.

☑ Conditional approval of this plat by the City Council shall constitute approval subject to the conditions stipulated in the *Recommendation* section below.

☑ With the exception of the items listed in the *Recommendation* section of this case memo, this plat is in substantial compliance with the requirements of the Subdivision Ordinance in the Municipal Code of Ordinances.

RECOMMENDATIONS:

If the City Council chooses to approve the *final plat* for *Lot 1 Block A, Widboom Addition,* staff would recommend the following conditions:

1) All technical comments from the Engineering, Planning and Fire Departments shall be addressed prior to the filing of this plat;

2) Any construction resulting from the approval of this *final plat* shall conform to the requirements set forth by the Unified Development Code, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

PLANNING AND ZONING COMMISSION:

On May 29, 2018, the Planning and Zoning Commission's motion to recommend approval of the final plat with staff recommendations passed by a vote of 5-0 with Chairman Lyons absent and one (1) vacant position.

STATE OF TEXAS
COUNTY OF ROCKWALL

WHEREAS ROBBY WIDBOOM and KYLIE WIDBOOM, BEING THE OWNER OF A TRACT OF land in the County of Rockwall, State of Texas, said tract being described as follows:

All that certain lot, tract or parcel of land situated in the DAVID HARR SURVEY, ABSTRACT NO. 102, City of Rockwall, Rockwall County, Texas, and being a 1.00 acres tract of land as described in a Deed to Robby Widboom and Kylie Widboom, dated October 31, 2017 abd being recorded in Document number 20170000021455 of the Official Public Records of Rockwall County, Texas, and being more particularly described as follows:

BEGINNING at a 3/8" iron rod found for corner at the southeast corner of said 1.00 acres tract of land and being at the northeast corner of a 1.22 acres tract of land as described in a Warranty deed to Joseph and Mary Renkevich, as recorded in Volume 161, Page 14 of the Real Property Records of Rockwall County, Texas;

THENCE S. 89 deg. 22 min. 18 sec. W. along the south line of said 1.00 acres tract, a distance of 86.97 feet to a 3/8" iron rod found for corner;

THENCE N. 01 deg. 22 min. 59 sec. W. a distance of 370.58 feet to a 1/2" iron rod with yellow plastic cap stamped "RPLS 5034" set for corner in the south right-of-way line of State Highway 66;

THENCE S. 89 deg. 45 min. 52 sec. E. along said right-of-way line, a distance of 78.12 feet to a TXDOT monument found for corner;

THENCE in an easterly direction along a curve to the left having a central angle of 02°27'06", a radius of 1638.98 feet, a tangent of 35.07 feet, a chord of N. 87 deg. 58 min. 20 sec. E., 70.13 feet, along said right-of-way line, an arc distance of 70.13 feet to a 1/2" iron rod with yellow plastic cap stamped "RPLS 5034" set for corner;

THENCE S. 08 deg. 00 min. 31 sec. W. along the east line of said 1.00 acres tract, a distance of 375.34 feet to the POINT OF BEGINNING and containing 43,472 square feet or 1.00 acres of land.

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS:

STATE OF TEXAS
COUNTY OF ROCKWALL

We the undersigned owners of the land shown on this plat, and designated herein as WIDBOOM ADDITION, LOT 1, BLOCK A, an Addition to the City of Rockwall, Texas, and whose name is subscribed hereto, hereby dedicate to the use of the public forever all streets, alleys, parks, water courses, drains, easements and public places thereon shown on the purpose and consideration therein expressed. We further certify that all other parties who have a mortgage or lien interest in the subdivision have been notified and signed this plat.

We understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same.

We also understand the following;

1. No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.

2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of th eir respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maint aining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.

3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.

4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.

5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.

6. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Roc kwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, sto rm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall; or

Until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer an d/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as p rogress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or

Until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

We further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the subdivision upon the public services required in order that the development will comport with the present and future growth needs of the City. We , our successors and assigns hereby waive any claim, damage, or cause of action that we may have as a result of the dedication of exaction's made herein.

CITY OF ROCKWALL
CITY COUNCIL MEMO

AGENDA DATE: 06/04/2018

APPLICANT: David M. Ellis

AGENDA ITEM: **P2018-015;** *Replat for Lot 1, Block D, Ellis Centre, Phase 2*

SUMMARY:

Consider a request by David M. Ellis for the approval of a replat for Lot 1, Block D, Ellis Centre, Phase 2 being a 7.25-acre tract of land identified as Lot 2, Block A and Lots 4 & 5, Block C, Ellis Centre, Phase 2, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, situated at the end of Alpha Drive, and take any action necessary.

COMMENTS:

☑ The objective of this request is to replat three (3) lots [*i.e. Lot 2, Block A, and Lots 4 & 5, Block C, Ellis Centre, Phase 2*], creating one (1) 7.25-acre lot [*i.e. Lot 1, Block D, Ellis Centre, Phase 2*] for the purpose of developing the property. The replat will also abandon an existing 60-ft. right-of-way being a portion of Alpha Drive. The subject property is zoned Light Industrial (LI) District.

☑ The surveyor has completed the majority of the technical revisions requested by staff, and this plat, conforming to the requirements for replats as stated in the *Subdivision Ordinance* in the Municipal Code of Ordinances, is recommended for conditional approval pending the completion of final technical modifications and submittal requirements.

☑ Conditional approval of this plat by the City Council shall constitute approval subject to the conditions listed in the *Recommendations* section below.

☑ With the exception of the items listed in the *Recommendation* section of this case memo, this plat is in substantial compliance with the requirements of the *Subdivision Ordinance* in the Municipal Code of Ordinances.

RECOMMENDATIONS:

If the Planning & Zoning Commission and City Council choose to approve the replat for *Lot 1, Block D, Ellis Centre, Phase 2*, staff would recommend the following conditions of approval:

1) All staff comments provided by the Planning, Engineering and Fire Department must be addressed prior to the submittal of a building permit;

2) Any construction resulting from the approval of this replat shall conform to the requirements set forth by the Unified Development Code, the International Building Code, the Rockwall Municipal Code of Ordinances, City adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

PLANNING AND ZONING COMMISSION:

On May 29, 2018, the Planning and Zoning Commission's motion to recommend approval of the replat with staff conditions passed by a vote of 5 to 0 with Commissioner Lyons absent and one (1) vacancy.

THENCE N. 01 deg. 34 min. 52 sec. E. along the west line of said Lot 2, Block A, a distance of 365.95 feet to the POINT OF BEGINNING and containing 7.25 acres of land.

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS:

STATE OF TEXAS
COUNTY OF ROCKWALL

I the undersigned owner of the land shown on this plat, and designated herein as ELLIS CENTRE, PHASE TWO, LOT 1, BLOCK D, an Addition to the City of Rockwall, Texas, and whose name is subscribed hereto, hereby dedicate to the use of the public forever all streets, alleys, parks, water courses, drains, easements and public places thereon shown on the purpose and consideration therein expressed. I further certify that all other parties who have a mortgage or lien interest in the subdivision have been notified and signed this plat.

I understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same.

I also understand the following;

1. No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.

2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of th eir respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress to, from and upon the said easement strips for purpose of construction, reconstruction, inspecting, patrolling, maint aining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.

3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.

4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.

5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.

6. No house dwelling unit, or other structure shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Roc kwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, sto rm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall; or

Until an escrow deposit, sufficient to pay for the cost of such improvements, as determined by the city's engineer and/or city administrator, computed on a private commercial rate basis, has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer an d/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as p rogress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or

Until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

I further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the subdivision upon the public services required in order that the development will comport with the present and future growth needs of the City; I , my successors and assigns hereby waive any claim, damage, or cause of action that I may have as a result of the dedication of exaction's made herein.

CITY OF ROCKWALL
CITY COUNCIL MEMO

AGENDA DATE: 06/04/2018

APPLICANT: Bassam Ziada

AGENDA ITEM: **P2018-016;** *Replat for Lot 7, Block A, Wal-Mart Supercenter Addition*

SUMMARY:

Consider a request by Bassam Ziada for the approval of a replat for Lot 7, Block A, Wal-Mart Supercenter Addition being a 1.0131-acre tract of land identified as Lot 5, Block A, Wal-Mart Supercenter Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the IH-30 Overlay (IH-30 OV) District, addressed as 776 E. IH-30, and take any action necessary.

COMMENTS:

☑ The objective of this request is to replat Lot 5, Block A, Wal-Mart Supercenter Addition -- *being a 1.0131-acre parcel of land identified as Lot 7, Block A, Wal-Mart Supercenter Addition* -- for the purpose of abandoning an existing 15-ft water-line easement, dedicating firelane and public access easements.

☑ The subject property is zoned Commercial (C) District, is located within the IH-30 OV, and is addressed as 776 E. IH-30. A site plan [*i.e. SP2017-016*] was approved for a retail store with gasoline sales on June 19, 2017.

☑ The surveyor has completed the majority of the technical revisions requested by staff, and this plat, conforming to the requirements for replats as stated in the *Subdivision Ordinance* in the Municipal Code of Ordinances, is recommended for conditional approval pending the completion of final technical modifications and submittal requirements.

☑ Conditional approval of this plat by the City Council shall constitute approval subject to the conditions listed in the *Recommendations* section below.

☑ With the exception of the items listed in the *Recommendation* section of this case memo, this plat is in substantial compliance with the requirements of the *Subdivision Ordinance* in the Municipal Code of Ordinances.

RECOMMENDATIONS:

If the Planning & Zoning Commission and City Council choose to approve the replat for *Lot 7, Block A, Wal-Mart Supercenter Addition*, staff would recommend the following conditions of approval:

1) All staff comments provided by the Planning, Engineering and Fire Department must be addressed prior to the submittal of a building permit;

2) Any construction resulting from the approval of this replat shall conform to the requirements set forth by the Unified Development Code, the International Building Code, the Rockwall Municipal Code of Ordinances, city adopted engineering and fire codes and with all other applicable regulatory requirements administered and/or enforced by the state and federal government.

PLANNING AND ZONING COMMISSION:

On May 29, 2018, the Planning and Zoning Commission's motion to recommend approval of the replat with staff conditions passed by a vote of 5 to 0 with Commissioner Lyons absent and one (1) vacancy.

WHEREAS MURPHY OIL USA, INC., is the sole owner of a 1.0131 acre tract of land located in the E.P. Gaines Chisum Survey, Abstract No. 64, City of Rockwall, Rockwall County, Texas, said 1.0131 acre tract of land being all of **LOT 5, BLOCK A, WAL-MART SUPERCENTER ADDITION**, being an Addition to the said City and State, according to the plat thereof filed for record in Cabinet G, Page 253, Plat Records, Rockwall County, Texas (P.R.R.C.T.), said 1.0131 acre tract of land also being all of that certain tract of land conveyed to **MURPHY OIL USA, INC.**, by deed thereof filed for record in Instrument No. 20080000398905 Deed Records, Rockwall County, Texas, said 1.0131 acre tract of land being more particularly described by metes and bounds as follows:

BEGINNING at an "X" cut in concrete found (Controlling Monument) at the southwest lot corner of said lot 5, same being a southeast lot corner of Lot 6, of said Block A, said "X" cut found also being on the northwest right-of-way line of Interstate Highway No. 35 (being a called 300 feet wide right-of-way), said "X" cut found being North 70°25'27" East, a distance of 21.08 feet from the southeast lot corner of Lot 3B, Block A, Wal-Mart Addition, being an Addition to the said City and State, according to the plat thereof filed for record in Cabinet D, Page 223 and 224, P.R.R.C.T.;

THENCE along the common lot lines of said Lot 5 and 6 the following courses and distances:

North 24°40'14" West, a distance of 219.79 feet to an "X" cut in concrete set;

North 65°19'46" East, a distance of 42.27 feet to an "X" cut in concrete found (Controlling Monument);

South 24°40'28" East, a distance of 29.88 feet to an "X" cut in concrete found;

North 65°18'20" East, a distance of 149.87 feet to an "X" cut in concrete found (Controlling Monument);

South 24°41'37" East, a distance of 93.90 feet to an "X" cut in concrete found;

North 65°22'09" East, a distance of 41.16 feet to an "X" cut in concrete set;

South 24°37'51" East, a distance of 116.32 feet to a 5/8 inch iron rod with a cap stamped "CEI" found (Controlling Monument) at the southeast lot corner of said Lot 5, same being a south lot corner of said Lot 6, said iron rod found also being on the said existing northwest right-of-way line of Interstate Highway No. 30, and being at the beginning of a non-tangent curve to the right having a radius of 3,665.14 feet;

THENCE along the southeast lot line of said Lot 5 and along the said existing right-of-way line, with said curve to the right, an arc length of 63.97 feet, and across a chord which bears South 69°55'57" West, a chord length of 63.97 feet to a 5/8 inch iron rod with a cap stamped "SPOONER & ASSOCIATES" set;

THENCE South 70°25'57" West, continuing along the said lot line and the said right-of-way line, a distance of 170.17 feet to the **POINT OF BEGINNING**.

The hereinabove described tract of land contains a computed area of **1.0131 acres (44,130 square feet)** of land, more or less.

STATE OF TEXAS §

COUNTY OF ROCKWALL §

NOW, THEREFORE KNOWN BY ALL MEN THESE PRESENTS:

WE, the undersigned owner of the land shown on this plat, and designated herein as the WAL-MART SUPERCENTER ADDITION to the City of Rockwall, Texas, and whose name is subscribed hereto, hereby dedicate to the use of the public forever, all streets, alleys, parks, water courses, drains, easements and public places thereon shown on the purpose and consideration therein express. We further certify that all other parties who have a mortgage or lien interest in the WAL-MART SUPERCENTER ADDITION have been notified and signed this plat. We understand and do hereby reserve the easement strips shown on this plat for the purposes stated and for the mutual use and accommodation of all utilities desiring to use or using same. We also understand the following:

1. No buildings shall be constructed or placed upon, over, or across the utility easements as described herein.

2. Any public utility shall have the right to remove and keep removed all or part of any buildings, fences, trees, shrubs, or other growths or improvements which in any way endanger or interfere with construction, maintenance or efficiency of their respective system on any of these easement strips; and any public utility shall at all times have the right of ingress or egress, to from and upon the said easement strips for the purpose of construction, reconstruction, inspecting, patrolling, maintaining, and either adding to or removing all or part of their respective system without the necessity of, at any time, procuring the permission of anyone.

3. The City of Rockwall will not be responsible for any claims of any nature resulting from or occasioned by the establishment of grade of streets in the subdivision.

4. The developer and subdivision engineer shall bear total responsibility for storm drain improvements.

5. The developer shall be responsible for the necessary facilities to provide drainage patterns and drainage controls such that properties within the drainage area are not adversely affected by storm drainage from the development.

6. No house dwelling unit, or other structures shall be constructed on any lot in this addition by the owner or any other person until the developer and/or owner has complied with all requirements of the Subdivision Regulations of the City of Rockwall regarding improvements with respect to the entire block on the street or streets on which property abuts, including the actual installation of streets with the required base and paving, curb and gutter, water and sewer, drainage structures, storm structures, storm sewers, and alleys, all according to the specifications of the City of Rockwall; or

Until an escrow deposit, sufficient to pay for the const of such improvements, as determined by the city's engineer and/or administrator computed on a private commercial rate, basis has been made with the city secretary, accompanied by an agreement signed by the developer and/or owner, authorizing the city to make such improvements at prevailing private commercial rates, or have the same made by a contractor and pay for the same out of the escrow deposit, should the developer and/or owner fail or refuse to install the required improvements within the time stated in such written agreement, but in no case shall the City be obligated to make such improvements itself. Such deposit may be used by the owner and/or developer as progress payments as the work progresses in making such improvements by making certified requisitions to the city secretary, supported by evidence of work done; or

(CONTINUED)

Until the developer and/or owner files a corporate surety bond with the city secretary in a sum equal to the cost of such improvements for the designated area, guaranteeing the installation thereof within the time stated in the bond, which time shall be fixed by the city council of the City of Rockwall.

We further acknowledge that the dedications and/or exaction's made herein are proportional to the impact of the Subdivision upon the public services required in order that the development will comport with the present and future growth needs of the City; We, our successors and assigns hereby waive any claim, damage, or cause action that we may have as a result of the dedication of exactions made herein.

* GENERAL NOTES *

- It shall be the policy of the City of Rockwall to withhold issuing building permits until all streets, water, sewer and storm drainage systems have been accepted by the City. The approval of a plat by the City does not constitute any representation, assurance or guarantee that any building within such plat shall be approved, authorized or permit therefore issued, nor shall such approval constitute any representation, assurance or guarantee by the City of the adequacy and availability for water or personal use and fire protection within such plat, as required under Ordinance 83-54.
- The bearings and distances shown hereon are based on a local coordinate system based on NAD83, Texas North Central Zone 4202, scaled from grid to surface at N: 7,016,549.94 and E: 2,594,041.75, using a combined scale factor of 1.000145957600, derived from GPS RTK observations using the North Texas VRS Network (maintained by Western Data Systems).
- According to the Flood Insurance Rate Map published by the Federal Emergency Management Agency, Department of Homeland Security, the subject property appears to be located in Zone "X" (areas determined to be outside the 0.2% annual chance floodplain), as shown on Map No. 48397C0040 L; map revised September 26, 2008, for Rockwall County and incorporated areas. This flood statement does not imply that the property and/or structures located in Zone "X" will be free from flooding or flood damage. This flood statement shall not create liability on the part of the Surveyor.
- This plat was prepared with the benefit of a copy of an Abstractor's Report prepared by Fidelity National Title Group, having a File Number of 20644 / CS4712001756-15 TAK, covering a time frame of 05/21/2008 through 04/17/2017; and only reflects those easements, covenants, restrictions, and other matters of record listed in said Abstractor's Report. No other research for matters of record not listed in said Abstractor's Report was preformed by Spooner & Associates, Inc.
- All property corners are monumented with a 5/8 inch iron rod with a cap stamped "SPOONER & ASSOCIATES" unless shown otherwise hereon.
- The property owner of Lot 5R is responsible for the maintenance, repair and replacement of all drainage systems.

CITY OF ROCKWALL, TEXAS
MEMORANDUM

TO: Mayor and City Council

CC: Rick Crowley, *City Manager*
Brad Griggs, *Assistant City Manager*
Jeffrey Widmer*, Building Official*

FROM: Ryan Miller, *Director of Planning and Zoning*

DATE: June 4, 2018

SUBJECT: Appointment with Sheena Beaver on behalf of Patriot Paws

Sheena Beaver on behalf of Patriot Paws has scheduled an appointment with the City Council to request that the City Council waive all permitting/construction fees associated with the construction of a new residential care facility at 302 Ranch Trail. The City Council and Planning and Zoning Commission have previously approved a Specific Use Permit [*Case No. Z2017-038*] and site plan [*Case No. SP2018-009*] for the proposed facility. Based on comparable project the City estimates that the building permit fees would be between $1,500.00 - $2,000.00. This fee could increase by an additional $400.00 for contractor registration if the contractor is not licensed with the Building Inspections Department. Historically, the City Council has entertained waiving certain construction fees for non-profits, but has done so on a *case-by-case basis*. This matter is discretionary to the City Council. Attached is a request letter from the applicant.

From: Sheena Beaver
To: Miller, Ryan
Cc: Mike Mishler
Subject: Patriot PAWS Project
Date: Monday, May 21, 2018 5:23:03 PM

Good evening Ryan,

Can you please place the Patriot PAWS project on the City Council's agenda in order to have the fees waived? The project passed the architecture review board and P & Z last month.

CITY OF ROCKWALL

ORDINANCE NO. 18-27

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, BY AMENDING ARTICLE IV, *PERMISSIBLE USES*; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

WHEREAS, an amendment to the City of Rockwall's Unified Development Code [*Ordinance No. 04-38*] has been initiated by the City Council of the City of Rockwall to amend Article IV, *Permissible Uses*, of the Unified Development Code [*Ordinance No. 04-38*]; and,

WHEREAS, the Planning and Zoning Commission of the City of Rockwall and the governing body of the City of Rockwall in compliance with the laws of the State of Texas and the ordinances of the City of Rockwall have given the requisite notices by publication and otherwise, and have held public hearings and afforded a full and fair hearing to all property owners generally and to all persons interested in and situated in the city's corporate boundaries, and the governing body in the exercise of its legislative discretion, has concluded that the Unified Development Code [*Ordinance No. 04-38*] should be amended as follows:

NOW, THEREFORE, **BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS:**

SECTION 1. That Article IV, *Permissible Uses,* of the Unified Development Code [*Ordinance No. 04-38*] of the City of Rockwall, as heretofore amended, be and the same is hereby amended as specifically described in *Exhibit 'A'* of this ordinance.

SECTION 2. That any person, firm, or corporation violating any of the provisions of this ordinance shall be deemed guilty of a misdemeanor and upon conviction shall be punished by a penalty of fine not to exceed the sum of *Two Thousand Dollars ($2,000.00*) for each offense and each and every day such offense shall continue shall be deemed to constitute a separate offense;

SECTION 3. That if any section, paragraph, or provision of this ordinance or the application of that section, paragraph, or provision to any person, firm, corporation or situation is for any reason judged invalid, the adjudication shall not affect any other section, paragraph, or provision of this ordinance or the application of any other section, paragraph or provision to any other person, firm, corporation or situation, nor shall adjudication affect any other section, paragraph, or provision of the Unified Development Code [*Ordinance No. 04-38*], and the City Council declares that it would have adopted the valid portions and applications of the ordinance without the invalid parts and to this end the provisions for this ordinance are declared to be severable;

SECTION 4. That this ordinance shall take effect immediately from and after its passage and the publication of the caption of said ordinance as the law in such cases provides.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS THE 4TH DAY OF JUNE, 2018.

Section 2.1.6: Retail and Personal Service Use Conditions

Brewpub. A brewpub is a restaurant that incorporates a craft or microbrewery as an accessory use. The microbrewery in conjunction with the restaurant allows for the manufacturing of beer -- in limited quantities -- for both on premise and off premise consumption.

Craft/Micro Brewery, Distillery and/or Winery. Craft or micro-breweries, distilleries and/or wineries are small scale manufacturing and retail operations that are less than 12,000 square feet in total building area, and where a maximum of 40% of the total floor area can be dedicated to the direct sale of the on-site manufactured product. A craft or micro-brewery, distillery and/or winery may include the following accessory uses (in accordance with any applicable land use standards and requirements): (1) a tasting room to dispense beer for on premise consumption, (2) meeting/banquet facilities, (3) restaurants, and/or (4) retail sales of beer for off-premise consumption. A facility that does not have a manufacturing component (i.e. only provides tasting or retail sales of alcoholic beverages) shall not be considered a craft or micro-brewery, distillery and/or winery and shall be prohibited.

Restaurant with Accessory Private Club ~~*or brew pub*~~. See "private club" above.

~~*Winery. A winery shall mean the manufacturing, bottling, labeling and packaging of wine containing not more than 24 percent alcohol by volume from grapes, fruits and berries grown on-premises or imported, and to include the manufacturing and importation of grape brandy for fortifying purposes only. Wine sales may be to holders of wholesaler's permits, winery permits, and wine bottler's permits. Retail sales to ultimate consumers in unbroken packages for off-premises consumption may not exceed an amount of*~~

~~*35,000 gallons annually. A winery may include the following accessory uses; a tasting room to dispense wine for on-premises consumption, meeting/banquet facilities, restaurants, and a retail sales area of wine for off-premises consumption.*~~

Section 2.1.9: Industrial and Manufacturing

Brewery or Distillery. A brewery or distillery is an industrial facility where the primary purpose of the facility is the manufacturing of malt, brewed and/or distilled beverages produced on the premises for sale or distributed for off-premise consumption. A brewery or distillery may include the following accessory uses (in accordance with any applicable land use standards and requirements): (1) a tasting room to dispense beer for on premise consumption.

Winery. A winery is the industrial manufacturing, bottling, labeling and packaging of wine in accordance with the Texas Local Government Code (TLGC). A winery may include the following accessory uses (in accordance with any applicable land use standards and requirements): (1) a tasting room to dispense wine for on premise consumption, (2) meeting/banquet facilities, (3) restaurants, and/or (4) retail sales of wine for off-premise consumption.

CITY OF ROCKWALL
CITY COUNCIL MEMO

AGENDA DATE: 05/21/2018

APPLICANT: Andy Sebacher; *Forum Studio Architects, Inc.*

AGENDA ITEM: **SP2018-011;** Amended Site Plan for *Lollicup USA*.

SUMMARY:

Discuss and consider a request by Andy Sebacher of Forum Studio Architects, Inc. on behalf of Alan Yu of Lollicup USA, Inc. for the approval of a variance in conjunction with an approved site plan for a manufacturing facility on a 34.23-acre tract of land identified as a portion of Lot 1, Block A, Rockwall, Technology Park, Phase 2 and Tract 2-01 of the J. H. B. Jones Survey, Abstract No. 125, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, located at the southeast corner of the intersection of Corporate Crossing [FM-3549] and Capital Boulevard, situated within the FM-549 Overlay (FM-549 OV) District, and take any action necessary.

PURPOSE AND BACKGROUND:

The applicant is requesting approval of a variance to the Unified Development Code (UDC) as outlined in this report. The request is in conjunction with a request for an *amended site plan* for the purpose of allowing a form-liner used to replicate the use of stone rather than using the required stone product that was approved for the north elevation. If approved, the applicant intends to provide integrally cast concrete wall panels that appear as split-face stone. After the site plan was approved by the Planning and Zoning Commission, the City Council approved variances and exceptions associated with an approximately 650,000 SF warehouse/manufacturing [*i.e. Lollicup USA*] facility on January 16, 2018 [*Case No. SP2017-042*]. It should be noted that the approval granted a variance to the FM-549 Overlay (FM-549 OV) Districts' 20% stone requirement by allowing no stone on the east, west, and south elevations, while allowing 12% on the north elevation. The revised building elevations indicate the appearance of a split-face stone (*i.e. form-liner application*) for the north (13%), east (1%), and west (2%) elevations. The proposed warehouse/manufacturing facility will be situated on a 34.23- acre tract of land identified as a portion of Lot 1, Block A, Rockwall Technology Park, Phase 2 and Tract 2-01 of the J. H. B. Jones Survey, Abstract No. 125. The site is located east of Corporate Crossing, between Capital Boulevard and Discovery Boulevard, is within the FM-549 Overlay (SH-276 OV) District, and is zoned Light Industrial (LI) District.

DENSITY AND DIMENSIONAL REQUIREMENTS:

According to Section 1, *Land Use Schedule*, of Article IV, *Permissible Uses*, of the Unified Development Code (UDC), a warehouse is a permitted by right use in a Light Industrial (LI) District.
With the exception of the variance being requested for the use of a form-liner application, the approved site plan [*SP2017-042*], landscape plan, treescape plan, photometric plan, and building elevations have not changed from the originally approved site plan and generally

conform to the technical requirements contained within the Unified Development Code (UDC) for properties located within the FM-549 (FM-549 OV) District, and Light Industrial (LI) zoning district. A summary of the density and dimensional requirements of the subject property are as follows:

Ordinance Provisions	*Zoning District Standards*	*Conformance to the Standards*
Minimum Lot Area	*12,500 SF*	*34.23-Acres; In Conformance*
Minimum Lot frontage	*100-Feet*	*x>100-Feet; In Conformance*
Minimum Lot Depth	*125-Feet*	*x>125-Feet; In Conformance*
Minimum Front Yard Setback	*25-Feet*	*x>25-Feet; In Conformance*
Minimum Rear Yard Setback	*0-Feet + ½ H* [1]	*x>20-Feet; In Conformance*
Minimum Side Yard Setback	*0-Feet + ½ H* [1]	*x>200-Feet; In Conformance*
Maximum Building Height	*120-Ft* [2]	*41'8"; In Conformance*
Max Building/Lot Coverage	*60%*	*~43.6%; In Conformance*
Minimum Masonry Requirement	*90%*	*x>90%; In Conformance*
Minimum Number of Parking Spaces	*1,300*	*206 Provided; Variance Approved*
Minimum Stone Requirement (SH205 OV)	*20% Each Facade*	*X<20%; Variance Approved*
Minimum Landscaping Percentage	*10%*	*x=26%; In Conformance*
Maximum Impervious Coverage	*85-90%*	*x=74%; In Conformance*

VARIANCE REQUESTS:

The applicant is requesting a variance to the Unified Development Code (UDC) for the section outlined below. It should be noted that a variance request to the FM-549 Overlay (FM-549 OV) District requires passage by a ¾ majority vote of those City Council members present. The request is as follows:

1) Section 6.13, C.1, FM-549 OV, of the UDC requires a minimum of 20% natural (or quarried) stone on all facades. The proposed building elevations do not indicate the use of a natural or quarried stone product on any façade (*i.e. north, south, east, & west*), rather the use of a form-liner appearing as split-face stone for the north (13%), east (1%), and west (2%) elevations. A variance to the FM-549 OV would allow for the building elevations to not meet the stone requirement as depicted on the elevations and requires approval of a 3/4 majority vote of the City Council members present.

A request for a variance as outlined above is considered a discretionary decision for the City Council.

ARCHITECTURAL REVIEW BOARD:

On January 9, 2018, the Architectural Review Board (ARB) reviewed the revised building elevations and requested the applicant provide additional stone to the north elevation along the northwest corner of the area (*i.e. office area*). Additionally, the ARB requested the applicant provide landscaping along the southern boundary to better screen this area from Discovery Blvd. The ARB made a motion to recommend approval of the building elevations with these conditions, which passed by a vote of 4 to 0 with Board Members Meyrat, Neill, and Dayman absent. The Architectural Review Board (ARB) will review the proposed change to the building

elevations at their next meeting to be held on May 8, 2018 and will provide a recommendation to the Planning and Zoning Commission.

On May 8, 2018, the Architectural Review Board (ARB) reviewed the proposed request to allow for the use of a form-liner rather than stone. The ARB made a motion to recommend denial of the request, which passed by a vote of 3 to 0 with Board Members Neill, Craddock, Tovar, and Miller absent.

PLANNING AND ZONING COMMISSION:

On May 8, 2018, the Planning and Zoning Commission's motion to recommend denial of the request to allow a form-liner application passed by a vote of 7 to 0.

Project: Lollicup 3201 Capital Blvd.
Permit Number: B:D2018-0688
#601-03049

Dear David,

Please accept this Development Application and supporting documentation for Amended Site Plan to initiate the approval process. We propose substitution of concrete panels that include integrally cast concrete replica stone of size, color and texture similar to the thin-stone product for the previously approved Eldorado Stone man-made thin-stone product. This will be achieved through a special concrete form and a hand applied mineral stain.

The proposed concrete form liner #892 12" Quarry Stone from Architectural Polymers Inc., develops a 'split-face' stone appearance of running bond masonry that is an integral part of the concrete wall panel. This eliminates the possibility of masonry veneer separation issues.

The formed concrete is then provided the realistic color of natural stone and mortar by the hand applied mineral stain product which forms a permanent penetrating, chemical bond with the concrete. The stain is environmentally friendly, durable, odorless, as well as resistant to UV, weather and mold and mildew and comes with a 25 year warranty.

Please advise if there is any other information we can provide to assist your process.

We look forward to working with the City of Rockwall on this project.

Regards,

Andy Sebacher

Commercial Services

Beautiful, natural looking color for brick, block, concrete, mortar, stucco and stone.

Nawkaw®

Changing the color of masonry and concrete!

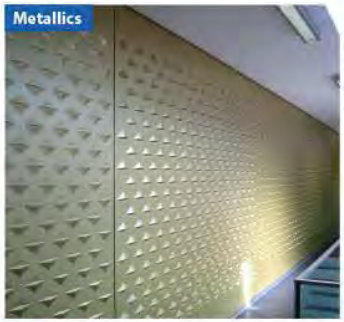
Color—*it's been our passion for more than 30 years!*

It's no wonder that we have come across a number of projects through the years that require specialized services. Not all concrete is created equally (nor bricks for that matter!) That is why we manufacture different types of stain. Some manufacturers have a one-size-fits-all approach to coloring concrete; however, our experience is that every job is different. From our acrylic stains to mineral silicate stains, each has properties that make it well suited for particular applications.

Our installation services teams provide creative color solutions for projects of all sizes.

Nawkaw Services

- Expert installation crews specialize in providing quality services using a variety of application techniques
- Restoration and corrective application
- New Construction, on-site and in-situ, precast, tilt-up
- Color Matching/Blending
- Recoloring
- Creative Application
- Adaptive Reuse
- Commercial projects
- Government projects
- Institutional projects
- Highway projects



Architectural Finishes

The photos below, featuring our "Aged Copper" finish, illustrate how color helps to define the shape and depth of the structure. Without color, the building appears very flat—practically one dimensional. But notice how the color dramatically enhances the dimension, defining the various planes and accentuating the textures inherent in the concrete. For more information about architectural finishes and color for concrete and masonry, please call us today or visit us online at www.Nawkaw.com.

Nawkaw®

Changing the color of masonry and concrete!

370 Commerce Blvd. • Athens, GA 30606 • www.Nawkaw.com • 1-866-4-NAWKAW

95

Architects, contractors, and the world's leading designers look to Nawkaw to transform properties with beautiful colors and tones. We manufacture our stain products and our specially trained crews apply them in order to precisely control the application process and ensure a natural looking and consistent appearance.

Paint vs. Stain

◀ Notice how the stain dramatically enhances the highlights, mid-tones, and shadows created by the wood textured concrete. The semi-translucent color allows the texture to show through rather than being covered up. NawTone™ stains are uniquely formulated for masonry and concrete. Unlike paint, which rests on top of the surface, our products penetrate and bond to masonry and concrete, forming an incredibly durable finish that won't chip, blister, or peel.

Color makes the difference…

Your building's color—it's the ***first*** thing people see, but it can make a ***lasting impression!*** Nawkaw's Certified Stain Technicians are experts at matching and blending color to achieve just the color you are looking for. We can stain project components at a precast facility, on a tilt-up job site, or suspended from a swing stage fifty stories up—all with the same superb results!

Color for National Brands

Nawkaw helps National Brands establish and maintain color consistency throughout their service areas. We store colors in a digital library so they can be quickly retrieved for use at any location across the country and around the world.

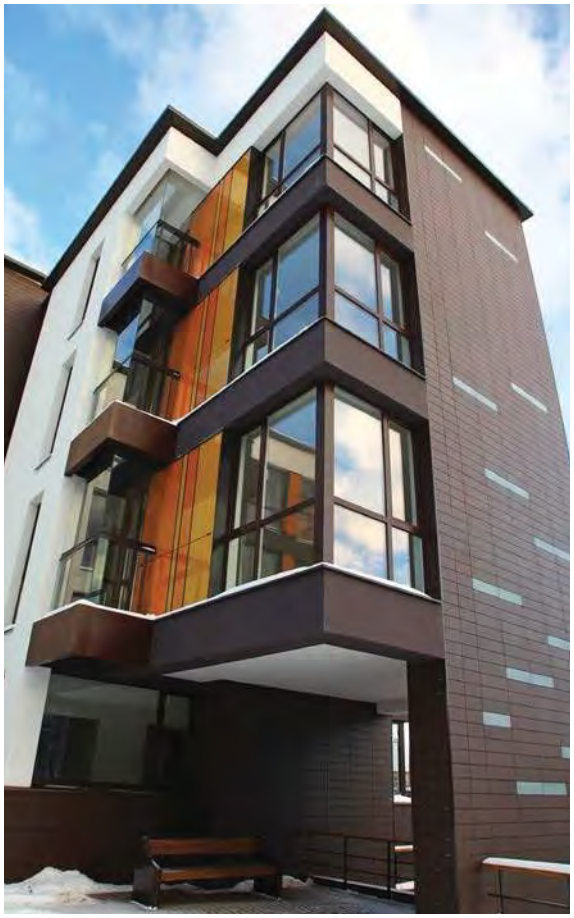
▼ When paints trap moisture beneath the surface, it can lead to unsightly peeling and require multiple reapplications. This is what we call "***Paintenance.***" NawTone stains are a one-and-done finish. Our stains are custom blended, allowing for infinite color control on every project.

96

Technical Data

Nawkaw®

We change the color of masonry and concrete!



NawTone-K™

NawTone-K is mineral stain that uses silicate as a binding agent to form a permanent chemical bond with substrates. The addition of lightfast, inorganic pigments enables a wide range of colors to be produced. **NawTone-K** exhibits the overall characteristics of being:

- UV resistant
- lightfast
- penetrating
- aspiratory
- durable
- odorless
- weather resistant
- mold & mildew resistant
- environmentally friendly

NawTone-K can be diluted with **NawThinz-C** for concrete surfaces or with **NawThinz-M** for masonry surfaces to create color-wash, semi-transparent, or opaque finishes. Our customized application techniques make **NawTone-K** a superior choice for new construction, renovation, restoration, and preservation.

Because **NawTone-K** chemically binds with concrete, it is ideal for use on precast and tilt-up projects. **NawTone-K** offers consistent color solutions for complete color changes, decorative applications, and solving color problems. This product is also very effective for blending away color variations that naturally occur in the manufacture of concrete. This includes blending away unsightly or mismatching patch repairs and skim coat finishes.

Environmental & Safety Concerns

NawTone-K is water-based, nonflammable, nonhazardous and has **Zero VOC** content. Use of this product may help your projects qualify for L.E.E.D credits.

Typical Specifications:

- **Viscosity:** (72° F) 60°-80° KU
- **pH:** ~11
- **Finish:** flat
- **Nonflammable**
- **VOC:** 0 g/L (ASTM D6886)
- **Abrasion Resistance:** excellent
- **Water Vapor Permeance:** 4.5×10^{-6} g/Pa s m^2
- **Water Diffusion Resistance:** $s_d(H_2O)$<0.01 m
- **UV Resistant–Accelerated Weathering** (ASTM G154) : pass
- **Application Temperature:** 41°-110°F (5°-43°C)

Dry Time for Reapplication (if required):
12 hrs concrete / 24 hrs masonry

- **Shelf Life:** 12 months in factory sealed container

Product Properties

- Penetrating
- Nonflammable
- Nontoxic
- Water-based
- Solvent-free
- Vapor-permeable
- Non-film-forming
- Zero VOC
- Water washup

Color Selection

Nawkaw stains allow you the freedom to choose the colors you want from any color specifiers or actual samples.

Create all levels of color, from completely opaque to just a hint of color.

Ask about our 25-Year Warranty

Surface Preparation

Prior to application ensure that substrate is clean, dry and free of dust. Remove loose and unstable material as a sound surface is required for external applications. Be sure to check for any presence of mold release residue from concrete forms. If present, remove according to manufacturer's guidelines.

Substrates that have been treated with acid/chemical wash must be neutralized prior to application.

Alkali or efflorescence should be treated with proper neutralizing compounds as recommended by manufacturers before application can begin.

Application

NawTone-K can be applied by brush, roller, sponge and spray equipment. The product should be thoroughly mixed by stirring before use. The choice of application technique depends on the desired color and finish one wishes to achieve.

For translucent finishes, NawTone-K will be customized depending on the level of translucency required for the project. This may involve varying the number of applications required. Opaque finishes may require 2 or 3 applications.

When NawTone-K has been diluted with NawThinz, be sure to keep it well stirred. ONLY DILUTE WITH NAWTHINZ.

It is important to maintain a wet edge at all times, and work to a natural break line.

Limitations

Not suitable for application on synthetic surfaces such as silicone, urethane, epoxy or plastic. Coating sets hard and is not flexible; not recommended for caulking joints.

Coverage

Approximately 200-400 sq ft (60-120m^2). Actual area covered depends on the porosity of the substrate and the application method(s) used.

Cleaning of Application Equipment

Cleanup of equipment with water should be completed before the products have been allowed to dry. Spills or overspray should be cleaned with water and not allowed to dry.

The User of the product assumes all liability for product's use except in situations involving a manufacture's defect. This technical information is offered as advice based on knowledge and practical experience and does not constitute a warranty. Before application, the User shall determine the suitability of the product for its intended use. User should also ensure that the product is thoroughly mixed prior to application as the product may have settled during shipment or storage. Furthermore, it is recommended that the User test the product on a sample area before use. Nawkaw retains the right to make modifications as part of the product's development or improvement of their application; it is the User's duty to ensure they are aware of any such changes. This edition supersedes all earlier editions.

Safety

- Protect eyes and skin from contact with NawTone-K.
- Do not swallow.
- Keep away from children.

City of Rockwall
The New Horizon

MEMORANDUM

TO: **Honorable Mayor and City Council Members**

FROM: **Rick Crowley, City Manager**

DATE: **June 1, 2018**

SUBJECT: **Highland Drive Engineering Contract**

This item was discussed in the work session.

STATE OF TEXAS ♦
♦
COUNTY OF ROCKWALL ♦

PROFESSIONAL ENGINEERING SERVICES CONTRACT

This Agreement is made and entered into in Rockwall County, Texas, between City of Rockwall, Texas ("CITY"), a municipal corporation and political subdivision of the State of Texas, acting by and through its City Manager and Teague Nall and Perkins, Inc., ("ENGINEER"), located at 825 Watters Creek Boulevard, Suite M300, Allen, Texas, Engineers duly licensed and practicing under the laws of the State of Texas.

WHEREAS, CITY desires to engage Engineer as an independent contractor to render certain technical and professional services necessary for performing:

PROFESSIONAL ENGINEERING SERVICES for reconstruction of Highland Drive from Valley Drive to Bedford Falls Lane

NOW, THEREFORE, for and in consideration of the mutual covenants and agreements contained herein, the Parties hereby agree as follows:

1. Scope of Work

Engineer agrees to perform professional engineering services as specifically defined in this Contract as Attachment "A" and as authorized by CITY. Specifically, Engineer shall perform Professional services as requested by CITY and detailed in Attachment "A".

The Parties by mutual agreement through contract amendments may provide for additional technical and professional services to be performed under the basic general terms and conditions of this Contract. CITY reserves the right to enter into another agreement with other engineering firms to provide the same or similar professional services during the term of this Contract for different projects.

2. Compensation & Term of Agreement

Cost for such services will be an amount of Two Hundred Twenty-Four Thousand Two Hundred Dollars ($224,200.00) billed on a lump sum basis for Basic Services, and an estimated amount of One Hundred Five Thousand Five Hundred Dollars ($105,500.00) billed on an hourly/unit price basis for Special Services, per rates provided in Attachment "B". Engineer is not authorized to perform any work beyond the limited not to exceed amount without authorized written approval by CITY.

The term of this Agreement shall commence upon execution of this agreement and follow the schedule described in Attachment "C". In the event of termination, Engineer will assist the

CITY in arranging a smooth transition process. However, Engineer's obligation to provide services to the CITY will cease upon the effective date of termination, unless otherwise agreed in writing.

3. Method of Payment

CITY shall pay Engineer its fees based on the presentation by Engineer to CITY of a correct monthly statement for all the amounts earned under the Contract together with reasonable supporting documentation verifying the accuracy of the fees and expenses. CITY shall then pay Engineer its fee within thirty (30) days after presentation of the accurate monthly statement by Engineer to CITY. CITY is a State sales and use tax exempt political subdivision of the State of Texas. All records supporting payment shall be kept in the offices of Engineer for a period of not less than three (3) years and shall be made available to CITY for inspection, audit or copying upon reasonable request.

4. Engineer's Standard of Care

Engineer shall provide its services under this Contract with the same degree of care, skill and diligence as is ordinarily provided by a professional Engineer under similar circumstances for a similar project. Engineer represents that it has the capability, experience, available personnel, and means required to perform the services contemplated by this Contract. Services will be performed using personnel and equipment qualified and/or suitable to perform the work requested by the CITY. CITY retains the right to report to Engineer any unsatisfactory performance of Engineer personnel for appropriate corrective action. Engineer shall comply with applicable federal, state, and local laws in connection with any work performed hereunder.

Engineer will seek written CITY approval to accept any contract or perform any services for any person, entity, or business working on this project. CITY may waive this potential conflict, but such waiver is at CITY's sole discretion and its decision shall be final.

5. Ownership of Documents

As part of the total compensation which CITY has agreed to pay Engineer for the professional services to be rendered under this Contract, Engineer agrees that hard copies of all finished and unfinished documents, data, studies, surveys, drawings, specifications, field notes, maps, models, photographs, preliminary reports, reports, bid packet/construction contract documents/advertisement for bids incorporating any CITY standard provisions provided by Engineer, will remain the property of the CITY. Engineer will furnish CITY with paper and electronic copies, to the extent they are available, of all of the foregoing to facilitate coordination, however, ownership of the underlying work product shall remain the intellectual property of the Engineer. Engineer shall have the right to use such work products for Engineer's purposes. However, such documents are not intended to be suitable for reuse by CITY or others on extension of the Project or on any other project. Any reuse without the express written consent of the Engineer will be at reuser's sole risk and without liability or legal exposure to the Engineer, and CITY to the extent allowed by law, shall hold harmless the Engineer from all claims, damages, losses, expenses, and costs, including attorneys' fees arising out of or resulting from the reuse of

said documents without the Engineer's consent. The granting of such consent will entitle the Engineer to further compensation at rates to be agreed upon by CITY and the Engineer. The above notwithstanding, Engineer shall retain all rights in its standard drawing details, designs, specifications, databases, computer software and any other proprietary and intellectual property information provided pursuant to this Contract, whether or not such proprietary information was modified during the course of providing the services.

6. Insurance

A. Engineer agrees to maintain Worker's Compensation and Employer's Liability Insurance to cover all of its own personnel engaged in performing services for CITY under this Contract in at least the following amounts:

Workmen's Compensation – Statutory
Employer's Liability – $100,000
Bodily Injury by Disease - $500,000 (policy limits)
Bodily Injury by Disease - $100,000 (each employee)

B. Engineer also agrees to maintain Commercial General Liability, Business Automobile Liability, and Umbrella Liability Insurance covering claims against Engineer for damages resulting from bodily injury, death or property damages from accidents arising in the course of work performed under this Contract in not less than the following amounts:

$2,000,000 General aggregate limit

$1,000,000 each occurrence sub-limit for all bodily injury or property damage incurred all in one occurrence

$1,000,000 each occurrence sub-limit for Personal Injury and Advertising

C. Engineer shall add CITY, its City Council members and employees, as additional insureds on all required insurance policies, except worker's compensation, employer's liability and errors and omissions insurance. The Commercial General Liability Policy and Umbrella Liability Policy shall be of an "occurrence" type policy.

D. Engineer shall furnish CITY with an Insurance Certificate on the date this Contract is executed and accepted by CITY, which confirms that all above required insurance policies are in full force and effect.

E. Engineer agrees to maintain errors and omissions professional liability insurance in the amount of not less than one million dollars ($1,000,000) annual aggregate, on a claims made basis, as long as reasonably available under standard policies.

7. **INDEMNIFICATION**

ENGINEER SHALL INDEMNIFY AND SAVE HARMLESS THE CITY AND ITS CITY COUNCIL MEMBERS AND EMPLOYEES FROM SUITS, ACTIONS, LOSSES, DAMAGES, CLAIMS, OR LIABILITY, INCLUDING WITHOUT LIMITING THE GENERALITY OF THE FOREGOING, ALL EXPENSES OF LITIGATION, COURT COSTS, AND REASONABLE ATTORNEY'S FEES FOR INJURY OR DEATH TO ANY PERSON, OR INJURY TO ANY PROPERTY, RECEIVED OR SUSTAINED BY ANY PERSON OR PERSONS OR PROPERTY, TO THE EXTENT CAUSED BY THE NEGLIGENT ACTS OF ENGINEER OR ITS AGENTS OR EMPLOYEES, IN THE EXECUTION OF PERFORMANCE OF THIS CONTRACT.

ENGINEER'S TOTAL LIABILITY TO CITY FOR ANY LOSS OR DAMAGES FROM CLAIMS ARISING OUT OF, OR IN CONNECTION WITH, THIS CONTRACT FROM ANY CAUSE INCLUDING ENGINEER'S STRICT LIABILITY, BREACH OF CONTRACT, OR PROFESSIONAL NEGLIGENCE, ERRORS AND OMISSIONS SHALL NOT EXCEED ONE MILLION DOLLARS ($1,000,000). NEITHER PARTY TO THIS AGREEMENT SHALL BE LIABLE TO THE OTHER PARTY OR ANY THIRD PARTY CLAIMING THROUGH THE OTHER RESPECTIVE PARTY, FOR ANY SPECIAL, INCIDENTAL, INDIRECT, PUNITIVE, LIQUIDATED, DELAY OR CONSEQUENTIAL DAMAGES OF ANY KIND INCLUDING BUT NOT LIMITED TO LOST PROFITS OR USE OF PROPERTY, FACILITIES OR RESOURCES, THAT MAY RESULT FROM THIS AGREEMENT, OR OUT OF ANY GOODS OR SERVICES FURNISHED HEREUNDER.

8. Addresses for Notices and Communications

CITY
Amy Williams, P.E., Public Works Director/City Engineer
City of Rockwall
385 S. Goliad Street
Rockwall, Texas 75087

ENGINEER
Michael G. DeMotte, P.E.
Teague, Nall, and Perkins, Inc.
825 Watters Creek Blvd, Suite M300
Allen, TX, 75013

All notices and communications under this Contract shall be mailed or delivered to **CITY** and **ENGINEER** at the above addresses.

9. Successors and Assigns

CITY and Engineer each binds itself and its successors, executors, administrators and

assigns to the other parties of this Contract and to the successors, executors, administrators and assigns of such other parties, in respect to all covenants of this Contract. Except as noted in the first part of this Paragraph, neither CITY nor Engineer shall assign, sublet or transfer its interest in this Contract without the written consent of the other. Nothing herein shall be construed as creating any personal liability on the part of any officer, council member, employee or agent of any public body which is a party hereto.

10. Termination for Convenience of the Parties

Engineer and CITY may terminate this Contract for their convenience at any time by giving at least thirty (30) days notice in writing to each other. If the Contract is terminated by CITY and/or Engineer as provided herein, Engineer will be paid for the Work provided and expenses incurred up to the termination date, if such final compensation is approved by CITY, in its sole discretion. If this Contract is terminated due to the fault of Engineer, Paragraph 10 hereof, relative to Termination for Cause, shall apply.

11. Changes

CITY may, from time to time, request changes in the Scope of Work of **Engineer** to be performed hereunder. Such changes, including any increase or decrease in the amount of **Engineer's** compensation, or time for performance, which are mutually agreed upon by and between **CITY** and **Engineer**, shall be incorporated in written amendments to this Contract. Any subsequent contract amendments shall be executed by the City Manager or other authorized representative as designated by the City Manager or City Council.

Any alterations, additions or deletions to the terms of this Contract, including the scope of work, shall be by amendment **in writing** executed by both CITY and Engineer.

13. Reports and Information

Engineer, at such times and in such forms as **CITY** may reasonably require, and as specified in the Scope of Work or in additional Contract Amendments shall furnish **CITY** periodic reports pertaining to the Work or services undertaken pursuant to this Contract, the cost and obligations incurred, or to be incurred in connection therewith, and any other matter covered by this Contract.

14. Entire Agreement

This Contract and its Attachements and any future Contract Amendments constitute the entire agreement, and supersede all prior agreements and understandings between the parties concerning the subject matter of this Contract.

15. Waiver

The failure on the part of either party herein at any time to require the performance by the

other party, of any portion of this Contract, shall not be deemed a waiver of, or in any way affect that party's rights to enforce such provision, or any other provision. Any waiver by any party herein of any provision hereof, shall not be taken or held to be a waiver of any other provision hereof, or any other breach hereof.

16. Severability

The invalidity or unenforceability of any provision of this Contract shall not affect the validity or enforceability of any other provision of this Contract.

17. Survival

Any and all representations, conditions and warranties made by Engineer under this Contract are of the essence of this Contract and shall survive the execution, delivery and termination of it.

18. Governing Powers and Law

Both Parties agree and understand that the City does not waive or surrender any of its governmental powers by execution of this Agreement. To that end, the parties further understand that this agreement shall not be considered a contract for goods or services under Texas Local Government Code, Section 271.151 and Contractor waives any right or entitlement granted said provisions. This Contract is governed by the laws of the State of Texas and all obligations of the parties under this Contract are performable in Rockwall County, Texas.

19. Attorney's Fees

If it is necessary for either Party herein to file a cause of action at law or in equity against the other Party due to: (a) a breach of this Contract by the other Party and/or (b) any intentional and/or negligent act or omission by the other Party arising out of this Contract, the non-breaching or non-negligent Party shall be entitled to reasonable attorney's fees and costs, and any necessary disbursements, in addition to any other relief to which it is legally entitled.

20. State or Federal Laws

This Contract is subject to all applicable federal and state laws, statutes, codes, and any applicable permits, ordinances, rules, orders and regulations of any local, state or federal government authority having or asserting jurisdiction, but nothing contained herein shall be construed as a waiver of any right to question or contest any such law, ordinance, order, rule or regulation in any forum having jurisdiction.

Attachment "A"
Highland Drive Reconstruction Project (Valley Drive to Bedford Falls Lane)
For
City of Rockwall

Scope of Services

Project Understanding

The City of Rockwall (City) wishes to reconstruct Highland Drive, an existing two-lane residential collector roadway, from Valley Drive to Bedford Falls Lane, approximately 1,850 feet in length. A map with approximate project limits is attached in attachment "E". The roadway lies within an area zoned Single Family (SF-10) in the City of Rockwall. Reconstruction Highland Drive, from Valley Drive to Driftwood Street will consist of two lanes, undivided: two vehicle lanes and parking space (37' B-B) with concrete curb and gutter and five-foot sidewalk on either side. Reconstruction Highland Drive, from Driftwood Street to Bedford Falls Lane will consist of two lanes, undivided: two vehicle lanes and a 9' parking space (41' B-B) (on both sides) with concrete curb and gutter and five-foot sidewalk on either side. The design and construction of sidewalk will depend on the public voting. These improvements will be within the existing 60' Right-of-Way (ROW); however, the contract will include a provision for up to six (6) parcels for corner clip takes or easements in the event that they are required. There will be no traffic signal modifications necessary for the roadway improvements. The paving improvements will begin at the northern curb return of the intersection Highland Drive and Valley Drive and end at the southern curb return of the intersection of Highland Drive and Bedford Falls Lane.

Additional design will include sanitary sewer and water line improvements. Sanitary sewer and water lines will be replaced and will be upsized if required by the City's Wastewater and Water Master Plans. The existing roadway stormwater conveyance capacities will be analyzed using current City drainage criteria. It is not anticipated that additional underground storm drain improvements are required in order to meet the City's current storm water conveyance criteria.

The scope of services also includes preparation of two sets of construction documents, one from Valley Drive to Driftwood Street and another from Driftwood Street to Bedford Falls Lane for bidding and construction purposes. Other design components include coordinating with ONCOR for street lighting, utility coordination, preparation of illumination plans, TDLR compliance with ADA, school zone signage and striping plans for Reinhardt Elementary School, traffic control plans, and erosion control plans.

ENGINEER will provide plans, specifications, estimates, and permits (if applicable) for the project and will support the City of Rockwall's bidding and construction phase services.

BASIC SERVICES

1. ROW Information Gathering and Design Survey

1.1 Data Collection and Property Research

1.1.1 Gather existing plat information.

1.1.2 Collect property owner and record information.

1.1.3 Gather existing ROW and easement information, Identify easements available through typical research methodologies (i.e. plats, court house filings, etc.). Undocumented easements may not be identified.

1.1.4 ENGINEER shall arrange and make provisions for access to perform the services specified within this scope. ENGINEER shall provide the City with the name and address of the property owners.

1.1.5 ENGINEER will provide survey information and easement/ROW documents (sketch and legal description) to the City. Additional ROW and easement documentation services are detailed below in Section 8 of Special Services.

1.2 Design Survey

1.2.1 The limits of the survey shall be from the intersection of Highland Drive and Valley Drive to the intersection of Highland Drive and Bedford Falls Lane, including intersections. The survey shall extend 250 feet south of the intersection of Highland Drive and Valley Drive and 250 feet north of the intersection of Highland Drive and Bedford Falls Lane. The survey shall extend 10 feet outside of the 60-foot right-of-way (ROW) of Highland Drive. Survey will also include intersecting roadways extending 100 feet along each leg of street and alley.

1.2.2 Establish horizontal control points at 500' maximum spacing.

1.2.3 Establish a vertical control benchmark circuit as needed throughout the project. City to provide established monument information for the area.

1.2.4 Set control points, which shall be based on NAD-83, tied into City control monuments, on both sides of the roadway, as required to maintain horizontal control throughout the project limits.

1.2.5 Perform a field survey to identify and locate existing topographic elements within the roadway corridor including, but not limited to the following:

- Property corner monumentation
- Existing pavement, curbs, sidewalks, barrier free ramps, etc.
- Roadway and lane striping
- Driveways
- Existing storm sewer inlets, manholes, junction boxes Headwalls (including culvert sizes and invert elevations)
- Outfalls, bridges and erosion control
- Existing driveway culverts and swales
- Guardrails
- Utility manholes, vaults, water valves, water meters, wastewater cleanouts, sprinkler heads, telephone poles, power poles, utility markers, other public utilities and franchise utilities
- Traffic Signal poles, cabinets, pull boxes and other signal equipment
- Signs (excluding temporary signs)
- Trees, including species and caliper
- Buildings and permanent structures
- Retaining walls
- Fencing walls
- Fence limits and material types (excluding temporary fences)
- Mailboxes, landscape planters and features
- Other applicable physical features that could impact design

1.2.6 Perform cross-sections throughout project limits at 25-foot intervals and at grade breaks, and other critical points.

1.2.7 Survey flags, paints, and markings as located by DIG-TESS.

1.2.8 Prepare a final topographic drawing in digital format (AutoCAD Civil 3D 2018) (including contours and break lines) showing the features located in the field, an ASCII coordinate file of the points located in the field, and a hard copy of the coordinates and feature descriptions.

1.2.9 ENGINEER will perform site visits for the purposes of reviewing the provided survey in the field and making notes for additional survey needs and design considerations.

2 Schematic Conceptual Design (30%)

2.1 Project Management

2.1.1 Prepare a detailed Project Work Plan for TNP internal use. The work plan will serve as guide and communication tool for the TNP project team and will include the following elements:

- Project description
- Client critical success factors and project budget
- TNPs project goals
- Contract provisions
- Scope of services, person-hour estimate and fees
- List and description of deliverables
- Schedule and milestones
- Project contracts
- Communication protocols
- Quality control plan
- Filing and project administration requirements
- Design standards and criteria
- Applicable codes
- Permitting requirements
- CADD standards (if applicable)
- Mock plans
- Labor and expense phases (billings)
- Project close-out requirements

2.1.2 Conduct TNP internal project kickoff meeting with entire project team, including QC Manager. Review Project Work Plan elements.

2.1.3 Conduct weekly TNP internal project review meetings to review project status, review and update schedule, identify and assign next action items, etc.

2.1.4 Prepare and send Project Status Update (PSU) to City's Project Manager on bi-weekly (once every two weeks) basis. PSU will address work completed in previous period, work in progress and/or anticipated to be completed in next period, actions or information needed from City, and a schedule update.

2.1.5 Develop design criteria and design decisions tables.

2.1.6 Prepare project correspondence and invoicing documents.

2.1.7 Prepare and submit project schedule to City staff and provide general project management activities.

2.1.8 Project Administration

- Prepare project correspondence and invoicing documents

2.2 Project stakeholder coordination

- Develop project stakeholder contact list including but not limited to franchise utilities, City's water and sewer department, traffic department, and RISD etc.
- Conduct progress meetings to monitor the development of the project. During this phase of the project, conduct up to two (2) meetings with the City staff regarding project status and coordination issues. The first meeting will be the project kick-off meeting, and the second meeting will be the conceptual design presentation and review.

2.3 Public meeting

- Attend one (1) public involvement meeting as directed by City staff. Provide exhibits suitable for public meeting use depicting street section, alignments etc. Support City staff during meetings by providing technical information, responding to citizen questions, and recording citizen input.

2.4 Conceptual Plan and Graphics (30%)

The following services will be provided as part of the Conceptual Design Phase (30%):

- Review and research previously prepared construction plans record documents, and other pertinent information related to proposed project.
- Review City master plans, design standards, specifications, construction details, and other pertinent information that may impact the design. Review of documents will include but not limited to:
  - City of Rockwall Master Thoroughfare Plan
  - City of Rockwall Water/Wastewater Master Plan
  - City of Rockwall Standards of Design and Construction
  - City of Rockwall Trail Master Plan
- Develop complete and accurate base map showing all existing Right-of-Way (ROW), easements, and utilities.
- Develop and evaluate typical sections (up to two (2)) to use for Highland Drive and other intersecting streets with in the project limits.
- Develop drainage area maps and analyze street and inlet capacities. Design of storm drain system is not anticipated for this project except relocation of two curb inlets (and lateral storm drain lines) in Highland Drive, north of the intersection of Highland Drive and Shepards Hill Drive. However, storm drain design services may be provided as additional services if it is discovered and needed during the design phase.
- Develop horizontal alignments for roadway,
- Develop and evaluate up to two (2) alignments for proposed water lines and wastewater lines.
- Develop vertical alignment for roadway and cut cross sections at critical points, at center of driveways, alley approaches, cross streets, lead walks, at alignment geometric points and at 50’ intervals to evaluate the grading.
- Review City Master Trail Plan and incorporate hike and bike trails in the Northshore park area if necessary.
- Prepare conceptual paving plan and profile roll plots, produced at 1” =20’ horizontal scale and 1” =5’ vertical scale. The horizontal alignment of proposed water lines and sewer lines will be included in the roll plots.
- Prepare cross sections sheets.
- Meet with City staff and present concept paving plan and profile roll plots.
- Incorporate comments and feedback from City staff and other stakeholders.

3 Construction Documents – Preliminary Design (65%)

3.1 Project Management

- Conduct progress meetings to monitor the development of the project regarding project status and coordination issues
- Coordinate with other utilities, (electric power, cable TV, phone, gas, optic fiber, etc.)
- Prepare and e-mail Bi-weekly project status update to the project team (City of Rockwall and TNP staff).
- Update project schedule and interim milestones (coordinate with City staff as necessary)

3.1.1 Project Administration

- Prepare project correspondence and invoicing documents

3.2 Roadway Design

3.2.1 Finalize preliminary roadway alignment upon approval of the conceptual plan

- Prepare typical sections to include:
  - Existing and proposed roadway sections
  - Preliminary subgrade and pavement design
- Prepare preliminary plan and profiles items to be included:
- Preliminary Plan:
  - Control data
  - Existing/Proposed ROW
  - Existing topography
  - Existing pavement
  - Proposed centerline alignment and horizontal curve data
  - Proposed transition pavement tie-ins to existing pavement
  - Proposed drainage structures
  - Proposed retaining walls
  - Proposed lighting
  - Existing trees to remain
  - Existing trees to be removed
  - Existing driveway locations
  - Existing storm drain locations
  - Existing water line locations
  - Existing waste water line locations
  - Existing franchise utility locations
- Preliminary Profile:
  - Existing Ground Profile at Right-of-Way Lines and at Center Line
  - Preliminary Vertical Alignment
- Preliminary Details:
  - Sidewalk Integral Curb/Wall
  - Paving
  - Drainage

3.3 Drainage

3.3.1 Compile the hydrological and hydraulic data

- Create Drainage Area Maps
- Create Drainage Calculation Sheets

3.3.2 Identify the need for additional drainage easements to accommodate the proposed offsite drainage improvements (if applicable)

3.4 Utilities

3.4.1 Public (Water, Wastewater, Storm Drainage, etc.)

- Establish the location of existing public utilities based upon information provided by the City, SUE and field survey information
- Finalize alignment for proposed water line along Highland Drive and all cross streets within the paving limits.
- Prepare plan sheets for water lines. Water line profiles are not anticipated as the proposed water lines will be 8 inches in diameter.
- Prepare plan and profile for proposed wastewater lines.

3.4.2 Franchise Utility Coordination

- Identify franchise utility contacts

- Send one set of plans to each franchise utility for their review. Request each franchise utility to mark up the plans to show the size, type and location of their utilities.
- Notify the City if any relocations are required.
- ENGINEER shall perform the coordination with the franchise utilities if relocations are required.

3.5 Street Lighting

- Review City lighting pole & fixture, obtain and review available lighting design criteria, standard details, as-built street plans, utility plans, and previous lighting design plans from City.
- Coordinate Electrical service locations with ONCOR.
- Develop voltage drop calculations and circuits, determine wire size, conduit and service requirements.
- Identify preliminary conduit locations.
- Prepare safety lighting plans, tabulate quantities.
- Identify / Develop standards and Details.
- Assemble specifications, construction documents.
- The scope of services does not include photometric analysis.

3.6 Structural

3.6.1 Structural design is not anticipated for this project; however, structural design services can be provided as an Additional Services if it is needed or discovered during the design.

3.7 Traffic

3.7.1 Traffic Signals

- The project does not include traffic signals. Traffic signal improvements are not anticipated for this project.

3.7.2 Pavement Marking and Signing Plans

- Prepare preliminary crosswalk pavement marking and signing layouts in accordance with City design standards and the Texas Manual on Uniform Traffic Control Devices (TMUTCD).
- Determine potential conflicts with existing signs and propose sign relocations.
- Provide School Zone Traffic Signage and Striping for Reinhardt Elementary School.
  - Obtain and review site plan/construction plans for proposed elementary school.
  - Visit site and surrounding area to observe peak a.m. and p.m. operations near school
  - Meet with Police Department or school officials to discuss expectations and questions.
  - Identify location of proposed school zone traffic signs and pavement striping.
  - Prepare school zone traffic control plans using aerial background and topographic base map for Highland Drive.
  - Prepare applicable signage and stripping details.
  - Review plans with City and RISD as needed.

3.8 Prepare a preliminary opinion of probable construction cost for the entire project, including alternative design options, using recent average unit bid prices which are representative of similar types of construction in the local area

3.9 Preliminary design submittal (65% design level)

3.9.1 Submit two hard copies to the City for review and comment

3.9.2 Submittal shall be provided with plan/profile sheets (as noted) 22"x34" plan sheets at a scale of 1"=20' horizontal, and 1"=5' vertical) and will include the following:

- Cover Sheet
- General Notes and Legend Sheet
- Summary of Quantities
- Existing Condition Sheets
- Horizontal and Vertical Layout Sheet
- Erosion Control Plan
- Demolition Sheets
- Construction Phasing/Sequencing and Traffic Control Plan Roadway Cross-Sections
- Typical Sections
- Roadway Plan and Profiles
- Alley and Driveway Plan and Profiles
- Cross sections Sheets
- Paving Detail Sheets
- Drainage Area Map
- Drainage Calculations
- Drainage Plan/Profile (for two lateral lines only)
- Water & Sanitary Sewer Plan
- Pavement Signage and Striping Plans
- School Zone Signage and Striping Plans and Details
- Illumination (street lighting) Plans including Details
- Preliminary opinion of probable construction cost

3.10 Conduct project one (1) site visit to verify and resolve the conflicts of proposed improvements.

3.11 Attend one (1) public involvement meeting as directed by City staff. Provide exhibits suitable for public meeting use depicting street section, alignments, profiles etc. Support City staff during meetings by providing technical information, responding to citizen questions, and recording citizen input.

4 Construction Documents – Final Design (100%)

4.1 Project Management

- Conduct progress meetings to monitor the development of the project. During this phase of the project, conduct up to one (1) project meeting with the City staff.
- Prepare and e-mail Bi-weekly progress reports to the project team.

4.2 Roadway

4.2.1 Incorporate the preliminary design submittal review comments.

4.2.2 Prepare plan / profile sheets (22"x34" plan sheets at a scale of 1" =20' horizontal, and 1" =5' Vertical).

4.2.3 Analyze all driveways within the project and develop driveway adjustment and crosswalk profiles as needed. Typically, driveways will be defined vertically by profiles.

4.2.4 Develop design cross-sections

- Develop on 25' station intervals and at driveway centerlines
- Show pavement and subgrade, right-of-way limits, sides slopes, pavement cross slopes
- Slopes, curbs, and retaining walls (if applicable)
- Cross-sections will be provided in the bid documents

4.2.5 Prepare roadway details to clarify intent of design
4.2.6 Modify standard details as needed and include

4.3 Drainage

4.3.1 Incorporate the preliminary design submittal review comments.

4.3.2 Perform storm sewer sizing and alignment design for two lateral storm drain lines. Prepare final inlet design sheets and hydraulic design sheets for inclusion in the plans. New storm drain lines and design of such is not anticipated for this project. The hydraulic calculations will be limited to inlet capacity of exiting inlets, capacity of proposed street, and sizing calculations for two storm drain laterals.

4.3.3 Prepare storm sewer plan/profile sheets depicting storm sewer lines, inlets, junction boxes, connections, manholes, utility crossings and the hydraulic grade lines. The storm drain plan and profile are limited to two storm drain lateral lines if relocation of existing inlets is necessary.

4.3.4 Prepare drainage details to clarify intent of design. Compile applicable City standard details. Modify standard details as needed.

4.3.5 Prepare erosion control plan.

4.4 Utilities

4.4.1 Water

- Incorporate the preliminary design submittal review comments.
- Prepare water line profiles for wastewater and storm drain line crossings
- Check coverage of Fire Hydrants to meet City Standards.
- Prepare water details to clarify intent of design. Compile applicable City Standard details.
- Modify standard details as needed.

4.4.2 Wastewater

- Incorporate the preliminary design submittal review comments.
- Prepare all wastewater lateral profiles.
- Prepare wastewater details to clarify intent of design. Compile applicable City Standard details.
  - Modify standard details as needed.

4.4.3 Utility Coordination

- Submit one set of final design plans and the project schedule to each affected utility for their review and comment to include the normal power, cable TV, gas, and phone utilities.
- The ENGINEER shall perform the coordination with the franchise utilities if any relocations are required.

4.5 Street Lighting

4.5.1 Incorporate the preliminary design submittal review comments.

- Prepare finalized safety street lighting plans.
- Assemble and finalize Specifications and construction documents.
- Incorporate lighting details such as foundations and light poles, fixtures etc. as provided by the City or other entities.
- Coordinate with ONCOR for layout approval and service connection.
- ONCOR will be responsible for the installation of standards and conductors.
- The scope of services does not include photometric analysis.

4.6 Traffic

4.6.1 Traffic Signals

- The project does not include traffic signals. Traffic signal improvements are not anticipated for this project.

4.6.2 Traffic Control Plans

- Finalize construction sequence plan showing:
  - Construction area for each phase of construction and closure of existing travel lanes.
  - Temporary signing and striping, barricades, and other channelization devices Narrative of the sequence of work.
  - Public utilities relocation phasing.
- Develop typical cross section showing lane widths, edge conditions, channelization and proposed construction area.
- Prepare traffic control details to clarify intent of design.

4.6.3 Pavement Marking and Signage Plans

- Prepare crosswalk pavement marking and signing layouts in accordance with City design standards and the Texas Manual on Uniform Traffic Control Devices (TMUTCD).
- Prepare finalize signage and striping plans.
- Prepare details to clarify intent of design
- Compile applicable City standard details. Modify standard details as needed.
- Determine potential conflicts with existing signs and finalize relocations.
- Provide School Zone Traffic Signage and Striping for Reinhardt Elementary School.
  - Incorporate the preliminary design submittal review comments.
  - Finalize school zone traffic signs and striping.
  - Finalize applicable signage and striping details.

4.7 Structural Design

4.7.1 Structural design is not anticipated for this project; however, structural design services can be provided as an Additional Services if it is needed or discovered during the design.

4.8 Prepare general notes, specification data, and final Bid Book in accordance with City of Rockwall requirements. Identify and prepare special specifications and/or special provisions applicable to the project. Prepare Bid-Tab sheets of applicable items for Contractor to fill/present bid prices.

4.9 Compile and update the overall opinion of probable construction cost.

4.10 Prepare a construction duration estimate using anticipated production rates applicable to the local area.

4.11 Final design submittal (100%).

4.11.1 Submit two (2) copies to the City for review and comment

4.11.2 Submittal shall include the following:

- Final design plans
- Opinion of probable construction cost
- Contact documents, including the following:
  - City of Rockwall standard construction contract forms
  - Notice to bidders
  - Special instructions to bidders
  - Bid form (Bid-Tab)

- Standard construction contract
- Performance bond
- Payment bond
- Maintenance bond
- Certificate of insurance
- General conditions
- Special provisions
- Technical specifications

4.12 Accessibility Review

4.12.1 Prepare and submit a completed application for submittal to the Texas Department of Licensing and Regulation (TDLR) for review in accordance with the Elimination of Architectural Barriers Act. ENGINEER shall pay the TDLR review fee and invoice City as a Reimbursable Expenses.

4.12.2 While we do not anticipate accessibility revisions to be required, we will address minor revisions to the plans based on review comments from the RAS.

4.13 Incorporate the final design submittal review comments.

4.14 Prepare the final opinion of probable construction cost.

4.15 Final design submittal (100%)

4.15.1 Submit two (2) full-size and five (5) half-size sets of plans and Contract Documents and Proposal Documents to the City.

4.15.2 Submit the final opinion of probable construction cost to City.

4.15.3 Submit a letter of notification to the City stating completion of the design of the project.

5 Bidding Phase Services

5.1 Furnishing additional copies of bidding documents in excess of the number of the same identified above will be considered as Additional Services.

5.2 City will be responsible for advertising the project; ENGINEER to post the project to CivCast or other bid document distribution website.

5.3 Service to be provided

5.3.1 Respond to contractor questions and provide design clarifications.

5.3.2 Attendance at the pre-bid conference.

5.3.3 Assist the City of Rockwall with production of Addenda items and designs changes.

5.3.4 Tabulating Bids

5.3.5 Checking references and other qualification information for the low bidder and writing a letter of recommendation concerning award of the contract.

6 Construction Phase Services

6.1 Construction Phase Services

6.1.1 Coordinate with City on needs during the construction phase. The services available are listed below, and may be provided upon the request of the City of Rockwall.

6.1.2 ENGINEER to provide up to five (5) full size plan sets, fifteen (15) half size plan sets, and seven (7) specification/contract books of construction documents.

6.2 *Pre-Construction Meeting*. Prepare for and attend the Pre-Construction Meeting prior to commencement of Work at the Site.

6.3 *Visits to Site and Observation of Construction (up to nine (9) visits)*. If required by City, provide on-site construction observation services to clarify design concepts or assist with solutions needed to overcome obstacles in construction or to study and evaluate possible practical alternative solutions. Makes visits to the Site at intervals as directed by City in order to observe the progress of the Work. Such visits and observations by ENGINEER are not intended to be exhaustive or to extend to every aspect of Contractor's work in progress. Observations are to be limited to spot checking, selective measurement, and similar methods of general observation of the Work based on ENGINEER'S exercise of professional judgment. Based on information obtained during such visits and such observations, ENGINEER will determine if Contractor's work is generally proceeding in accordance with the Contract Documents, and ENGINEER shall keep City informed of the general progress of the Work.

6.3.1 The purpose of ENGINEER's visit to the site will be to enable ENGINEER to better carry out the duties and responsibilities assigned in this Agreement to ENGINEER during the construction phase by City, and, in addition, by the exercise of ENGINEER efforts, to provide City a greater degree of confidence that the completed Work will conform in general to the Contract Documents and that the integrity of the design concept of the completed Project as a functioning whole as in ENGINEER indicated in the Contract documents has been implemented and preserved by Contractor. ENGINEER shall not, during such visits or as a result of such observation of Contractor's work in progress, supervise, direct, or have control over Contractor's work, nor shall ENGINEER have authority over or responsibility for the means, methods, techniques, equipment choice and usage, sequences, schedules, or procedures of construction selected by Contractor, for safety precautions and programs incident to Contractor's work, nor for any failure of Contractor to comply with laws and regulations applicable to Contractor's furnishing and performing the Work. Accordingly, ENGINEER neither guaranties the performance of any Contractor nor assumes responsibility for any Contractor's failure to furnish and perform its work in accordance with the Contract Documents.

6.4 Clarifications and Interpretations. Issue clarifications and interpretations of the Contract documents to City as appropriate to the orderly completion of contractor's work. Such clarifications and interpretations will be consistent with the intent of the Contract Documents. Field Orders authorizing variations from the requirements of the Contract Documents will be made by City.

6.5 Shop Drawings and Samples. Review and approve or take other appropriate action in respect to Shop Drawings and Samples and other data which Contract is required to Submit, but only for conformance with the information given in the Contract Document and compatibility with the design concept of the completed Project as a functioning whole as indicated in the Contract Documents. Such review and approvals or other action will not extend to means, methods, techniques, equipment choice and usage, sequences, schedules, or procedures of construction or to related safety precautions and programs.

6.6 Substitutes and "or-equal". Evaluate and determine the acceptability of substitute or "or-equal" materials and equipment proposed by Contractor in accordance with the Contract documents, but subject to the provisions of applicable standards of state or local government entities.

6.7 Limitation of Responsibilities. ENGINEER shall not be responsible for the acts or omissions of any Contractor, or of any of their subcontractors, suppliers, or of any other individual or entity

performing or furnishing the Work, ENGINEER shall not have the authority or responsibility to stop the work of any Contractor.

6.8 *Final Construction Walk Through*. ENGINEER shall be present at the final construction walk through and develop a final "punch/checklist" for the contractor to use to achieve final project acceptance.

6.9 Record Drawings, Prepare project "Record Drawing" based on information provided by the Contractor, and/or City as to the actual field placement of the work including any changes or deletions. ENGINEER will provide the following deliverables:

6.9.1 Electronic copy of the record drawings shall be submitted on CD/DVD or flash drive in all of the following formats.
- AutoCAD (.dwg) format
- Adobe Portable Document (.pdf) 400 dpi (min) (22"x34")

6.9.2 Electronic copy of geotechnical reports, survey data, photographs, and exhibits used for the project, in .pdf or jpg format.

6.9.3 Electronic copy of project specifications in Microsoft Word (.doc) and PDF format.

6.9.4 Record drawings shall be sealed by the engineer of record in accordance with the Texas Board of Professional Engineers Policy Advisory Opinion Regarding Record Drawings.

6.9.5 All field changes and revisions shall be shown and noted in the revision block.

6.9.6 Revisions shall be drawn using accepted drafting standards and shall be clear and legible.

6.9.7 Line work and notes related to work deleted or changed shall be omitted from the Record Drawing.

SPECIAL SERVICES

7 Right-of-Way / Easement Instruments of Conveyance

7.1 Prepare ROW instruments (narrative and graphic exhibits of ROW takes) and setting new property corners (for new ROW only) in the field. For the purpose of the scope services, six (6) corner clips ROW documents are planned.

7.1.1 Up to Six (6) parcels

7.2 Individual parcel exhibits shall be on 8"x11" paper and pdf copy shall be sealed, dated, and signed by a Registered Professional Land Surveyor and shall contain the following:

7.2.1 Parcel number

7.2.2 Area required

7.2.3 Area remaining

7.2.4 Legal description

7.2.5 Current owner

7.2.6 Any existing platted easements or easements filed by separate instrument including easements provided by utility companies

7.2.7 All physical features

7.2.8 Metes and bounds description of parcel to be acquired. The description shall be provided on a separate sheet from the exhibit. Each type of easement shall be described separately.

7.3 Upon written notification by the City of acceptance of the ROW exhibits and instruments, and as directed by the City, the surveyor shall set all corners and points of curvature for the proposed ROW and submit final sealed plans and exhibits, including location of the control points and their NAD-83 reference

7.4 ENGINEER will provide the information listed in Section 2 to the City and/or their selected ROW and easement acquisition agent. This task will include the following:

7.4.1 Transmittal of survey and existing property information.

8 Geotechnical

8.1 Subsurface Exploration

8.1.1 Three (3) borings are planned for this project. The borings and report will be thru a subconsultant.

The locations are as follows:

- Borings will be located approximately 1,000 feet along the alignment.

8.1.2 Boring Services – Pavement borings will be sampled to 15 feet. A total of 45 feet for drilling is planned.

- Check samples for consistency with a hand penetrometer
- Stake the boring locations using normal taping procedures
- Backfill bore holes and plug at the surface

8.2 Laboratory Services

8.2.1 Considering the planned facilities, anticipated soil conditions, and geology, the following laboratory test will be required for classification purpose and to determine strength characteristics:

- Visual Classification
- Moisture content and soil identification
- Liquid and plastic limit determinations
- Unconfined compression
- Calibrated hand penetrometer tests
- Lime/pH series tests
- Soluble sulfate tests (to determine lime-induced heaving potential)

8.3 Engineering Services

8.3.1 Prepare an engineering report presenting the following:

- Sample boring location map
- Boring logs and laboratory results
- General soil and ground-water conditions
- Subgrade design recommendations for lime treated and cement treated
- Pavement design recommendation for reinforced concrete, (including pavement thickness, strength, reinforcement size and spacing, and joint spacing)
- Pavement design alternatives: Provide recommendations for the following street sections:
  - Reinforced concrete pavement on lime treated subgrade.
  - Reinforced concrete pavement on flex base.
  - Reinforced concrete pavement on compacted subgrade.
- Earthwork recommendations

8.3.2 The geotechnical engineer's design recommendations shall be relied upon by the civil and structural engineers for their design.

8.3.3 Submit one (1) paper copy and one .pdf file copy of the report to the City

9 Subsurface Utility Engineering (S.U.E.) Services

9.1 Provide Quality Level 'C/D' S.U.E. Services for the purpose of locating horizontal and vertical locations of underground city and franchise utilities, in conjunction with and /or prior to the field survey.

9.1.1 Quality Level ‘C’ through ‘D’ Services will be provided as defined in CI/ASCE 38-02.

9.1.2 Quality Level D (QL-“D”) – Generally, QL-“D” indicates information collected or derived from research of existing records and/or oral discussions.

9.1.3 Quality Level C (QL-“C”) - Generally, QL-“C” indicates information obtained by surveying and plotting visible above-ground utility features and by using professional judgment in correlating this information to QL-“D” information. Incorporates QL-“D” information (Limited in this scope, this scope is to cover underground utility crossings)

9.1.4 Provide Level ‘C’ through ‘D’ Services to determine horizontal location of utilities up to 3,600 linear feet which will include 1,900 LF along Highland Drive from Valley Drive to Bedford Lane and 100 LF along each cross street and alley intersecting Highland Drive (17 individual intersections).

9.1.5 These services are for the purpose of aiding the design of the project by providing information related to subsurface utilities in order to allow potential utility conflicts to be minimized or eliminated.

9.1.6 Engineer will create and call in locate tickets for Texas811 for the project corridor. Timing of locates will be coordinated to help ensure that locates are performed in conjunction with surveying operations.

9.1.7 As part of the services provided in the Topographic and Boundary Survey Phase, Engineer will visibly investigate surface features and appurtenances or all utility systems shown on the record drawings that are included within the project site, including but not limited to:

- sanitary sewer manholes (including measure down)
- storm sewer manholes (including measure down)
- communication/fiber manholes
- hand holds
- pull boxes
- water valves
- water meters
- fire hydrants
- cleanouts
- blow-offs
- pedestals (communication, fiber, electric)
- gas meters
- signal boxes
- electric poles (transmission and distribution)
- electric transformers
- light poles
- utility signs

9.1.8 Prepare documentation of the utilities encountered and marked by Texas811, including their general location, orientation, type & size, if known

9.1.9 Deliverable will consist of a Quality Level C – AutoCad DWG 2d file depicting all sub-surface utilities found from record drawings and above ground appurtenances. The drawing will be signed and sealed by a Professional Engineer licensed in the State of Texas.

9.2 Provide Quality Level ‘B’ S.U.E. Services for the purpose of locating horizontal and vertical locations of underground city and franchise utilities, in conjunction with and /or prior to the field survey.

- S.U.E. Quality Level ‘B’ Services will be provided as defined in CI/ASCE 38-02.
  - Quality Level B (QL-“B”) – Generally, QL-“B” indicates information obtained through the application of appropriate surface geophysical methods to determine the existence and

approximate horizontal position of subsurface utilities. Quality level B data should be reproducible by surface geophysics at any point of their depiction. This information is surveyed to applicable tolerances defined by the project and reduced onto plan documents.

- Provide Level 'B' S.U.E. Services to determine horizontal location of utilities up to 3,600 linear feet which will include 1,900 LF along Highland Drive from Valley Drive to Bedford Falls Lane and 100 LF along each cross street and alley intersecting Highland Drive (17 individual intersections).
- Investigations made under this task are in addition to those made under task 9.1 (Level 'C/D' S.U.E.).
- Investigate all utility systems shown on the record drawings that are included within the project site. Visible surface features and appurtenances of subsurface utilities found within the project site will also be evaluated. Using appropriate surface geophysical methods, Engineer will search for detectible indications of the horizontal location of anticipated subsurface utilities.
- Mark all locations that can be validated, using paint, flags or other devices.
- These services are for the purpose of aiding the design of the project by providing information related to subsurface utilities in order to allow potential utility conflicts to be minimized or eliminated.
- Prepare documentation of the utilities encountered and marked, including their general location, orientation, type & size, if known.
- Deliverable will consist of a Quality Level B – AutoCad DWG 2D file depicting all sub-surface utilities found and verified and above ground appurtenances. The drawing will be signed and sealed by a Professional Engineer licensed in the State of Texas.

9.3 Provide Quality Level 'A' S.U.E. Services for the purpose of vertically locating the utility lines.

- Provide S.U.E. Quality Level 'A' Services will be provided as defined in CI/ASCE 38-02.
  - Quality Level A (QL-"A") – Generally, QL-"A" indicates precise horizontal and vertical location of utilities obtained by the actual exposure (or verification of previously exposed and surveyed utilities) and subsequent measurement of subsurface utilities, usually at a specific point. Minimally intrusive excavation equipment is typically used to minimize the potential for utility damage. A precise horizontal and vertical location, as well as other utility attributes, is shown on plan documents. Accuracy is typically set to 15-mm vertical and to applicable horizontal survey and mapping accuracy as defined or expected by the project owner.
- Providing all necessary personnel, equipment, supplies, management and supervision needed for the test hole excavation, backfill and restoration.
- Coordinating with CLIENT, property owner, and/or permitting authorities, as needed and assisting the City in obtaining any required permits, permission or rights-of-entry.
- Contacting the appropriate one-call system to request utilities to be marked on-the-ground prior to beginning excavation of test holes.
- Providing and utilizing appropriate traffic control devices, as necessary, in conformance with the MUTCD, including any state or locally adopted supplements.
- Excavate by air-vacuum or other minimally invasive methods up to ten (10) test holes, at locations yet to be determined within the project limits in order to identify the exact horizontal & vertical locations of crucial utilities. For the purpose of the scope, five of such test holes are assumed will be in the paved area and five will be in outside paving area. Furthermore, following assumptions are made for the depth of test holes:
  - Up to ten (10) test holes of 0-12 ft depth will be provided
- Test holes in addition to those listed above will be provided at the rate per test hole agreed to by the City of Rockwall.

- Prepare documentation for each test hole attempted. This documentation will include the horizontal and vertical position of the targeted utility or structure, a general description of the target utility, with condition, material and general orientation noted a generalized description of the material encountered in the test hole, and any other field observations noted during the excavation.
- Deliverable will consist of a Quality Level A – AutoCad DWG 2d (DGN) file showing X, Y and Z w/ depth, a PDF of the same signed and sealed, Utility Summary Sheet, Individual Sheets on Test Holes and ASCII Point List.

10 Right-of-way (ROW) Negotiation and Acquisition Services

General

- ENGINEER will provide negotiation and closing services with respect to the City of Rockwall's intent to acquire property to support the improvements of Highland Drive. For the purpose of scope, a total of 6 separate parcels with fee acquisition is assumed. The actual number of acquisition will be decided during design phase. Services will comply with City of Rockwall Standards and the requirements of Texas Senate Bill 18.
- Provide bi-monthly written report to City Staff on the status of service tasks completed and service tasks remaining in order to bring the parcel into possession of the City. The reporting format will be as determined by the City Staff.
- Primary project and parcel files will be kept in the ENGINEER'S Office with permanent records transferred to the City as Office of Permanent Record. The format for type of file folders and document order and placement are determined by City Staff.
- Maintain records of all payments including, but not limited to, warrant number, amount, date paid, etc.
- Maintain copies of all correspondence and contacts with property owners.
- All required appraisal, closing, and other fees will be paid for by the ENGINEER, to be reimbursed by the City.

10.1 Title and Closing Services (combined)

10.1.1 Secure preliminary title commitment or preliminary title search, and 5-year sales data from Title Company that will be providing title insurance.

10.1.2 Secure title commitment updates in accordance with insurance rules and requirements for parcel payment submissions

10.1.3 Secure title insurance for all parcels acquired, insuring acceptable title to the City. Written approval by the City required for any exception.

10.1.4 The curative services necessary to provide clear title to the City is the responsibility of the Provider.

- Cost of curative services must be included in the negotiated fee schedule for this service.
- Curative services do not include costs/expenses that qualify as payment of incidental expenses to transfer real property to the City.

10.1.5 The Provider has the responsibility of direct contact with the Title Company to obtain an updated title commitment along with other forms and certified copy of the instrument of conveyance necessary when requesting the Parcel Payment from City Staff.

10.1.6 The Provider provides closing services in conjunction with the Title Company and will be required to attend closings.

10.1.7 Any fee related to obtaining certified court documents and fees for recording same which are not collected at the closing of the parcel shall be direct pass through fees at the exact cost supported by the county court house receipts.

10.1.8 Provider shall cause the recordation all original instruments immediately after closing at the respective County Clerk's Office. The cost of the recording fees and filing fees are paid by City and must not be included in the Provider's negotiated fee schedule.

10.2 Negotiation Services

10.2.1 Analyze preliminary title report to determine potential title problems, propose and inform City Office of methods to cure title deficiencies. This includes analysis of access easements.

10.2.2 Analyze appraisal and appraisal review reports and confirm the City's approved value prior to making offer for each parcel.

10.2.3 Prepare and send the letter transmitting the Landowners' Bill of Rights by Certified Mail-Return Receipt Requested (CMRRR).

10.2.4 Prepare the initial offer letter, memorandum of agreement, instruments of conveyance, and any other documents required or requested by the City on applicable City forms.

10.2.5 The written offer, appraisal report and required brochures must be sent to each property owner or the property owner's designated representative through CMRRR. Maintain follow-up contacts and secure the necessary instruments upon acceptance of the offer for the closing. Retain copies of the unsigned CMRRR receipt and the appraisal as support for billing purposes.

10.2.6 Make at least four (4) diligent attempts to negotiate with each property owner after which negotiations will be considered exhausted.

10.2.7 Prepare a separate negotiator contact report for each parcel, per contact.

10.2.8 Copies or working and final file documents may be kept by the Provider. Parcel files of original documentation related to the purchase of the real property or property interests will be maintained.

10.2.9 Receive any counteroffers from the property owner. Evaluate all counters and submit and discuss them with the City's Project Manager.

10.2.10 After concurrence of City Project Manager, prepare final offer letter, and mail the documents of conveyance by CMRRR.

10.2.11 Appear and provide Expert Witness testimony as a Provider when requested.

10.2.12 Issue Property Owner's Survey to the property owner.

10.2.13 Securing a Right of Entry or Possession and Use Agreement is part of general

10.3 Real Estate Appraisal Service

10.3.1 Appraisers must provide advance notice of the date and time of their appraisal inspections of the subject property to the Provider's Project Manager.

10.3.2 Secure written permission from the owner to enter the property from which real estate is to be acquired. The Appraiser, if after diligent effort, is unable to secure the necessary letter of permission from the property owner, a waiver must be obtained in writing. Maintain permission letters with appraisal reports.

10.3.3 Prepare and conduct personal pre-appraisal contact with interest owners for each parcel using acceptable forms.

10.3.4 Contact property owners or their designated representative to offer opportunity to accompany the appraiser on the appraiser's inspection of subject property. Maintain record of contact in file.

10.3.5 For an initial appraisal assignment, prepare appraisal report for each parcel to be acquired utilizing appropriate appraisal forms. These reports shall conform to policies and procedures along with the Uniform Standards of Professional Appraisal Practices as promulgated by the Appraisal Foundation.

10.3.6 For an updated appraisal, prepare appraisal update for the parcel to be acquired utilizing appropriate forms. These reports shall conform to Department policies and procedures along with the Uniform Standards of Professional Appraisal Practices.

10.3.7 As necessary, prepare written notification to City of any environmental concerns associated with the right of way to be acquired, which could require environmental re- mediation.

10.3.8 All completed appraisals will be administratively reviewed and recommended for approval by the City Staff or assigns.

10.3.9 Processing monthly invoices for appraisal services will not be delayed for the purpose of the completion of City Administrative Review.

10.3.10 As an initial and update appraisal are two separate and distinct appraisal assignments, the fees must consider the complexity of each separate assignment as shown in the Appraiser's Fee Schedule.

10.3.11 Beyond delivery of the appraisal assignments, the appraiser can be called to provide preparation and testimony for a Special Commissioners Hearing. For this appraisal assignment, the fee for the preparation time and testimony must be based on an hourly rate agreed to by the City and the appraiser.

10.4 Services Provided by the City

10.4.1 Provide available criteria and full information as to the City's requirements for the project.

10.4.2 Assist the Provider by placing at its disposal all available data pertinent to the project.

10.4.3 Examine documents submitted by the Provider and render a decision pertaining thereto promptly, to avoid unreasonable delay in the progress of the Provider's services.

10.4.4 The Project Manager for the City shall appoint, in writing, a representative that the Provider shall be entitled to rely upon regarding decisions made by the City.

10.4.5 City shall pay all title company invoices directly which will include fees for title commitments, title policies and all other fees related to the closing with the title company.

11 Additional Services

Services not specifically identified in the Scope of Services above shall be considered additional and shall be performed at ENGINEER'S rate schedule (Attachment "B") on an individual basis upon authorization by the City of Rockwall. Such services shall include, but are not limited to the following:

11.1 Construction staking.

11.2 Geotechnical recommendations for the design of retaining wall.

11.3 Structural design of retaining walls, junction boxes or any other structures.

11.4 Photometric or coverage study/analysis for street lighting.

11.5 Design or modification of traffic signal.

11.6 Traffic Impact Analysis

11.7 Quality control and testing services during construction.

11.8 Offsite storm drains design and analysis.

11.9 Environmental or Archeological study and permitting through state agencies.

11.10 Flood study for streams/creeks and permitting through FEMA or US Army Corps of Engineers.

11.11 Construction inspection & management.

-End of Scope of Service-

ATTACHMENT "B"
Payment Schedule

Compensation shall be paid to the Engineer as follows:

	Task	Fee Basis	Fee
	BASIC SERVICES		
1.	ROW Information Gathering and Design Survey	Fixed Fee	$ 19,600.00
2.	Schematic Conceptual Design (30%)	Fixed Fee	$ 60,400.00
3.	Construction Documents – Preliminary Design (65%)	Fixed Fee	$ 77,200.00
4.	Construction Documents – Final Design (100%)	Fixed Fee	$ 40,800.00
5.	Bidding Phase Services	Fixed Fee	$ 8,400.00
6.	Construction Phase Services	Fixed Fee	$ 17,800.00
		Basic Services Subtotal:	**$ 224,200.00**
	SPECIAL SERVICES		
7.	Right-of-Way/Easement Instruments of Conveyance (6 ROW documents are assumed @ $1,250/document)	Unit Price	$ 7,500.00
8.	Geotechnical	Fixed Fee	$ 15,000.00
9.	Subsurface Utility Engineering (S.U.E.) Services		
9.1	Quality Level 'C/D' S.U.E. Services	Fixed Fee	$ 8,700.00
9.2	Quality Level 'B' S.U.E. Services (assumes 3,600 LF)	Hourly*	$ 11,300.00
9.3	Quality Level 'A' S.U.E. Services (5 test holes are assumed @ $1,800/test hole)	Unit Price	$ 9,000.00
10.	Right-of-way (ROW) Negotiation and Acquisition Services (6 parcels assumed)		
10.1	Title and Closing Services (combined) (includes fees)	Hourly*	$ 15,000.00
10.2	Negotiation Services	Hourly*	$ 21,000.00
10.3	Real Estate Appraisal Services	Hourly*	$ 18,000.00
		Special Services Subtotal*	**$ 105,500.00**
		Project Total*	**$ 329,700.00**

*Estimate only (see notes below).

Notes:

1. **Hourly Consulting Services**: Services shall be provided on an hourly, reimbursable basis at the ENGINEER'S standard hourly rates when the Fee Basis is defined as hourly. Actual fees for the services will be based on actual hours required to perform the services, and will vary based upon actual cost, and could potentially exceed the estimates provided above. ENGINEER shall notify the

127

City in writing before exceeding the budgeted fees, and obtain written authorization from City to exceed the contract amount. Please refer to attached schedule of TNP's standard hourly rates. Services shall be billed monthly based on actual time spent working on the project by the ENGINER'S staff. Actual out-of-pocket expenses that are incurred during the progress of the work for hourly services tasks shall be billed at TNP's cost plus 10%. Any project related fees paid by the ENGINEER on behalf of the City shall be reimbursed by the City under the hourly services task. Examples of these type fees include, but are not limited to, application fees, filing fees, permit fees, review fees, title company/closing fees, or fees related to the purchase or acquisition of information or documents requested by the City for inclusion in the Project's deliverables.

2. **Fixed Fee Consulting Services**: Fees for tasks described as "fixed fee" (lump sum) are total fees for all labor and expenses associated with those tasks.

City of Rockwall
The New Horizon

MEMORANDUM

TO: **Honorable Mayor and City Council Members**

FROM: **Kristy Cole, City Secretary / Assistant to the City Manager**

DATE: **June 1, 2018**

SUBJECT: **Vacancies on City Boards & Commissions**

Now that Trace Johannesen has begun serving on City Council, his seat on the **Architectural Review Board** has become vacated. Any newly appointed board member who is selected to fill this vacancy will be serving a **partial term through August of 2019**. Thereafter, he or she would be considered for reappointment to serve a full, two-year term.

Regarding Patrick Trowbridge's vacated seat on the **Planning & Zoning Commission**, any newly appointed person will serve to finish out Mr. Trowbridge's **term through August of 2019**. Any reappointment of said P&Z commissioner thereafter would be for a three-year term (through Aug. of 2022). There are also **two** outstanding vacancies on the city's **Building and Standards Commission**. These seats were vacated some time back by former board members, Dennis Dayman and Jerry Welch. Newly appointed board members would each serve **partial terms through August 2019**. Council will have an opportunity during Executive Session to discuss filling these 'regulatory board' vacancies.

In addition, in the coming weeks I will bring forth information to Council regarding additional vacancies and/or reappointments needed on various other city boards and commissions. These will (mostly) be related to terms that are "up" this August (2018).

182

PARKS

RENOVATION:

Dog Park Turf Renovation is complete and has shown excellent results. Phase II will be overseeding with a three way Perennial Rye blend to protect turf in winter.

PROJECT:

Harbor landscape renovation

FACILITY MANAGEMENT:

Tuttle outfield turf has been through some extensive wear and tear with weather and make up games, but our turf management program has shown to be up to the challange

Rockwall, Texas

Proclamation

Whereas, Cole Randolph is a Special Olympics athlete on the Rockwall County team, participating in five sports throughout the year including basketball, swimming, bowling, flag football, and cycling; and

Whereas, Cole has competed at local, Area and State level competitions and ;

Whereas, Cole has good attendance for both practices and competitions, greets others with a smile and easily meets new friends; and

Whereas, Cole models joy and enthusiasm as he gladly embraces every challenge no matter how great; and

Whereas, Cole expresses appreciation to those who lend their time as volunteers and coaches; and

Whereas, Cole's attitude reflects the spirit of the Special Olympic oath and was recently named the 2018 Area 10 "Male Athlete of the Year" for the Texas Special Olympics.

Now, Therefore, I, Jim Pruitt, Mayor of the City of Rockwall, Texas, do hereby proclaim June 18th as

COLE RANDOLPH CELEBRATION DAY

in the City of Rockwall and urge all citizens to applaud and congratulate Cole for this awesome, noteworthy achievement.

In Witness Whereof, I hereunto set my hand and official seal this 18th day of June 2018.

Jim Pruitt, Mayor

THIS PAGE INTENTIONALLY LEFT BLANK

13

MINUTES
ROCKWALL CITY COUNCIL
Monday, June 04, 2018
4:00 p.m. Regular City Council Meeting
City Hall - 385 S. Goliad, Rockwall, Texas 75087

I. CALL PUBLIC MEETING TO ORDER

Mayor Pro Tem Fowler called the meeting to order at 4:02 p.m. Present were Mayor Pro Tem Kevin Fowler and Councilmembers Patrick Trowbridge, Dana Macalik, John Hohenshelt, Bennie Daniels and Trace Johannesen. Also present were City Manager Rick Crowley, Assistant City Managers Mary Smith and Brad Griggs and City Attorney Frank Garza. Mayor Jim Pruitt was absent from the meeting.

II. WORK SESSION

1. Hold a work session to discuss reconstruction of Highland Drive and the process associated with implementation of this and other projects related to the 2018 Bond Election.

Assistant City Manager Mary Smith provided information pertaining to this work session item. She explained that Highland Drive is on the list for the northern half of the City and is ranked 3rd in priority on that list. The project, in totality, is 1,880' in length. Beginning shortly, RISD will demolish Reinhardt Elementary which fronts Highland, and during the 18-19 school year will rebuild it from the ground up. It makes sense to plan to reconstruct the stretch of Highland in front of Reinhardt during this time when traffic will be light and mostly construction-related. There is only one home that fronts Highland between Driftwood and the northern terminus of the project at Bedford Falls. Mrs. Smith explained that staff has discussed with RISD's construction department and they are in agreement that our contractors and theirs can coordinate the two projects without ours being an impediment to theirs.

Mrs. Smith went on to explain that staff suggests that the Council consider moving forward with engineering the length of the Highland project with the design firm placing an early emphasis on the stretch in front of Reinhardt. Staff believes that section can be engineered, bid, and constructed before the new Reinhardt opens in August 2019. The engineering contract is on the agenda for Council's consideration and is approximately $329,000. The construction estimate for the proposed section is approximately $1million dollars.

2. Hold a work session to discuss the selection committee associated with the hiring of a ballpark feasibility study consultant.

City Manager, Mr. Crowley, and Assistant City Manager, Mr. Griggs, briefed the Council on this item. Councilmember Hohenshelt acknowledged that a "third party" (i.e. a "consultant") is certainly necessary in order to properly evaluate this topic and thoroughly assess the needs. Councilmember Daniels asked if a city council member should or should not serve on this type of committee, and it was generally indicated that this could be a possibility. Discussion ensued pertaining to whether or not this current City Council would or would not end up moving forward with implementing any recommendations that may arise as a result of any consultant-led feasibility study.

Mayor Pro Tem Fowler shared that he is not convinced that taking (approximately) $60,000 out of city funds in order to move forward with this type of study at this particular point in time, especially right after a bond election proposal was recently approved by voters, may not be the best idea. He suggested that this topic might more appropriately be discussed during the city council's annual budget work session. Furthermore, he would like for the full council to be present before moving forward with any action in this regard.

It was generally agreed that Council will have further discussions pertaining to the possibility of moving forward with a feasibility study during the upcoming budget work session this summer.

3. Hold a work session to discuss the RISD School Resource Officer (SRO) staffing program for the 2018-2019 school year.

Police Chief Kirk Riggs shared that the RISD superintendent requested an additional SRO part way through this past school year, and the city provided one (without additional charge to the RISD). He explained that other cities have a 3:1 ratio for number of officers to schools. He believes that increasing the number of SROs from six to nine will help better protect our local schools.

Mayor Pro Tem Fowler then read the following discussion items into the record before recessing the public meeting to go into Executive Session (at 4:38 p.m.).

III. EXECUTIVE SESSION.

THE CITY OF ROCKWALL CITY COUNCIL WILL RECESS INTO EXECUTIVE SESSION TO DISCUSS THE FOLLOWING MATTERS AS AUTHORIZED BY CHAPTER 551 OF THE TEXAS GOVERNMENT CODE:

1. Discussion regarding interlocal mutual aid agreement(s) pursuant to Section §551.071 (Consultation with Attorney).
2. Discussion regarding legal issues pertaining to potential annexation pursuant to Section §551.071 (Consultation with Attorney)
3. Discussion regarding possible sale of real property / land in PD-32 pursuant to Section §551.072 (Real Property).
4. Discussion regarding process and nomination to fill vacancy on Rockwall Central Appraisal District Board pursuant to Section 551.074 (Personnel Matters)
5. Discussion regarding purchase or lease of real property in the vicinity of County Line Rd. pursuant to Section §551.072 (Real Property) and Section §551.071 (Consultation with Attorney).
6. Discussion regarding options to pursue fees due by franchise utility provider pursuant to Section §551.071 (Consultation with Attorney).
7. Discussion regarding appointments to city regulatory boards, commissions, and committees - specifically the Planning & Zoning Commission and Building & Standards Commission - pursuant to Section 551.074 (Personnel Matters)
8. Discussion regarding the appeal to the Public Utility Commission filed by the cities of Garland, Mesquite, Plano and Richardson against the North Texas Municipal Water District (NTMWD) regarding water rates pursuant to §Section 551.071 (Consultation with Attorney)

IV. ADJOURN EXECUTIVE SESSION

Council adjourned from Executive Session at 4:37 p.m.

V. RECONVENE PUBLIC MEETING

Mayor Pro Tem Fowler reconvened the public meeting at 6:00 p.m. with six of seven council members being present (Mayor Jim Pruitt was absent).

VI. TAKE ANY ACTION AS A RESULT OF EXECUTIVE SESSION

Councilmember Hohenshelt made a motion to direct staff to start the process for city initiated zoning on city owned property located in PD-32. Councilmember Macalik seconded the motion, which passed by a vote of 5 ayes, 1 nay (Daniels) and 1 absent (Pruitt).

Councilmember Hohenshelt moved to approve the Parcel 10 construction easement for the price conveyed in the Executive Session. Councilmember Macalik seconded the motion, which passed by a vote of 6 ayes with 1 absent.

Councilmember Hohenshelt moved to direct the city attorney to pursue the 'cause of action' for the franchise fees. Councilmember Macalik seconded the motion, which passed by a vote of 6 ayes with 1 absent.

VII. INVOCATION AND PLEDGE OF ALLEGIANCE – COUNCILMEMBER DANIELS

Councilmember Daniels delivered the invocation and led the Pledge of Allegiance.

VIII. OPEN FORUM

Mayor Pro Tem Fowler explained how Open Forum is conducted and asked if anyone would like to come forth and speak at this time. There being no one indicating such, he then closed Open Forum.

IX. CONSENT AGENDA

1. Consider approval of the minutes from the May 21, 2018 regular city council meeting, and take any action necessary.
2. **MIS2018-006** - Consider a City initiated request to amend the Comprehensive Plan by approving an **ordinance** changing to the Master Thoroughfare Plan Map contained within the Transportation section of the plan for the purpose of [1] reclassifying Horizon Road [FM-3097] from a M4U (minor arterial, four [4] lane, undivided roadway) to a TXDOT4D (TXDOT, four [4] lane, roadway) and [2] realigning Breezy Hill Road to reflect existing public right-of-way, and take any action necessary **(2nd Reading).**
3. **Z2018-018** - Consider the approval of an **ordinance** for a text amendment to the Permissible Use Charts contained in Article IV, Permissible Uses, of the Unified Development Code [Ordinance No. 04-38] for the purpose of allowing the Furniture Upholstery, Refinishing or Resale land use by Specific Use Permit (SUP) in the Commercial (C) District, and take any action necessary **(2nd Reading).**
4. **P2018-010** - Consider a request by Bill Thomas of Engineering Concepts & Design on behalf of David Naylor of Rayburn Country Electric Cooperative for the approval a

replat for Lots 8 & 9, Block A, Rayburn Country Addition being a 20.415-acre tract of land identified as Lots 4 & 5, Block A, Rayburn Country Addition, City of Rockwall, Rockwall County, Texas, zoned Heavy Commercial (HC) District, generally located northeast of the intersection of Mims Road and Sids Road, and take any action necessary.

5. **P2018-011** - Consider a request by Billy Duckworth of A & W Surveyors, Inc. for the approval of a replat for Lots 1 & 2, Block A, Kayce Lynn Addition No. 1 being a 0.310-acre tract of land identified as Lots 33 & 34, Canup Addition, City of Rockwall, Rockwall County, Texas, zoned Single Family 7 (SF-7) District, situated within the Southside Residential Neighborhood Overlay (SRO) District, located at the southeast corner of Emma Jane Road and Sam Houston Street, and take any action necessary.

6. **P2018-012** - Consider a request by Billy Duckworth of A & W Surveyors, Inc. for the approval of a replat for Lot 1, Block A, Kayce Lynn Addition No. 2 being a 0.172-acre tract of land identified as a portion of Lot 53 of the Canup Addition, City of Rockwall, Rockwall County, Texas, zoned Single-Family 7 (SF-7) District, situated within the Southside Residential Neighborhood Overlay (SRO) District, located at the northwest corner of Emma Jane Road and Sam Houston Street, and take any action necessary.

7. **P2018-013** - Consider a request by Bart Tinsley of Adlers Rockwall SIL Property, LLC on behalf of Rob Cameron of Cameron & Cameron for the approval of a conveyance plat for Lots 1 & 2, Block A, Rockwall Seniors Addition being a 12.40-acre tract of land identified as Tract 8 of the B. J. T. Lewis, Abstract No. 255, City of Rockwall, Rockwall County, Texas, zoned Planned Development District 86 (PD-86) for Multi-Family 14 (MF-14) District land uses, situated within the SH-205 Overlay (SH-205 OV) District, generally located south of the intersection of TL Townsend Drive and Justin Road, and take any action necessary.

8. **P2018-014** - Consider a request by Robby Widboom for the approval of a final plat of Lot 1, Block A, Widboom Addition being a one (1) acre tract of land identified as Tract 11-2 of the D. Harr Survey, Abstract No. 102, City of Rockwall, Rockwall County, Texas, zoned Single Family 1 (SF-1) District, situated within the East SH-66 Overlay (E. SH-66 OV) District, addressed as 770 SH-66, and take any action necessary.

9. **P2018-015** - Consider a request by David M. Ellis for the approval of a replat for Lot 1, Block D, Ellis Centre, Phase 2 being a 7.25-acre tract of land identified as Lot 2, Block A and Lots 4 & 5, Block C, Ellis Centre, Phase 2, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, situated at the end of Alpha Drive, and take any action necessary.

10. **P2018-016** - Consider a request by Bassam Ziada for the approval of a replat for Lot 7, Block A, Wal-Mart Supercenter Addition being a 1.0131-acre tract of land identified as Lot 5, Block A, Wal-Mart Supercenter Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, situated within the IH-30 Overlay (IH-30 OV) District, addressed as 776 E. IH-30, and take any action necessary.

Councilmember Hohenshelt moved to approve the entire Consent Agenda. Councilmember Trowbridge seconded the motion. The ordinances were read as follows:

CITY OF ROCKWALL
ORDINANCE NO. 18-28

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, ADOPTING REVISIONS TO THE MASTER THOROUGHFARE PLAN CONTAINED WITHIN THE *TRANSPORTATION* SECTION OF THE COMPREHENSIVE PLAN IN ACCORDANCE WITH THE CITY'S HOME RULE CHARTER; PROVIDING FOR AN EFFECTIVE DATE.

CITY OF ROCKWALL
ORDINANCE NO. 18-26

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, BY AMENDING ARTICLE IV, *PERMISSIBLE USES*; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

The motion passed by a vote of 6 ayes with 1 absent (Pruitt).

X. APPOINTMENTS

1. Appointment with the Planning and Zoning Chairman to discuss and answer any questions regarding cases on the agenda and related issues and take any action necessary.

2. Appointment with Sheena Beaver of the Dallas Builder's Association on behalf of Patriot Paws to discuss and consider a request for a waiver to the building permit fees for a proposed residential care facility on a 3.466-acre parcel of land identified as Lot 1, Block A, Patriot Paws Addition, City of Rockwall, Rockwall County, Texas, zoned Commercial (C) District, addressed as 302 Ranch Trail, and take any action necessary.

Mike Mishler
1009 Ivy Lane
Rockwall, TX

Mr. Mishler came forth and briefed the Council on details associated with his request for these fees to be waived. Following Mr. Mishler's comments, Councilmember Daniels moved to approve waiving the permit fees, as requested. Councilmember Hohenshelt seconded the motion, which passed by a vote of 6 ayes with 1 absent (Pruitt).

XI. ACTION ITEMS

1. **Z2018-019** - Discuss and consider the approval of an **ordinance** for a text amendment to the Permissible Use Charts and Use Standards contained in Article IV, Permissible Uses, of the Unified Development Code [Ordinance No. 04-38] for the purpose of allowing the Brewery or Distillery (Excluding Brew Pub) land use by Specific Use Permit (SUP) in the Downtown (DT) District, and take any action necessary **(2nd Reading).**

Mr. Miller explained that this has been placed on Action Items (in lieu of Consent Agenda) due to it not having received a unanimous vote at the last Council meeting. Councilmember Hohenshelt then moved to approve Z2018-019, and Councilmember Johannesen seconded the motion. The ordinance was read as follows:

CITY OF ROCKWALL
ORDINANCE NO. 18-27

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, AMENDING THE UNIFIED DEVELOPMENT CODE [*ORDINANCE NO. 04-38*] OF THE CITY OF ROCKWALL, AS HERETOFORE AMENDED, BY AMENDING ARTICLE IV, *PERMISSIBLE USES*; PROVIDING FOR A PENALTY OF FINE NOT TO EXCEED THE SUM OF TWO THOUSAND DOLLARS ($2,000.00) FOR EACH OFFENSE; PROVIDING FOR A SEVERABILITY CLAUSE; PROVIDING FOR A REPEALER CLAUSE; PROVIDING FOR AN EFFECTIVE DATE.

The motion passed by a vote of 5 in favor, 1 against (Daniels) and 1 absent (Pruitt).

2. **SP2018-011** - Discuss and consider a request by Andy Sebacher of Forum Studio Architects, Inc. on behalf of Alan Yu of Lollicup USA, Inc. for the approval of a variance in conjunction with an approved site plan for a manufacturing facility on a 34.23-acre tract of land identified as a portion of Lot 1, Block A, Rockwall, Technology Park, Phase 2 and Tract 2-01 of the J. H. B. Jones Survey, Abstract No. 125, City of Rockwall, Rockwall County, Texas, zoned Light Industrial (LI) District, located at the southeast corner of the intersection of Corporate Crossing [FM-3549] and Capital Boulevard, situated within the FM-549 Overlay (FM-549 OV) District, and take any action necessary.

Mr. Miller, Planning Director, briefed the Council on this agenda item, indicating that it was deferred at the last Council meeting. Councilmember Hohenshelt pointed out that no one from the requesting company came to the meeting last time, and – again – no one is present this evening. Councilmember Trowbridge indicated that the Planning & Zoning Commission followed the recommendation of the Architectural Review Board.

Councilmember Daniels asked what would happen if the Council were to take no action at all. Mr. Miller explained that if no action is taken by Council, then it would be considered to be "denied with prejudice," and the applicant would have to wait for one year until they could bring it back again (unless they came back with something that would be considered as a "substantive change").

The Council took no action pertaining to this agenda item.

3. Discuss and consider awarding a contract to Teague, Nall, & Perkins in the amount of $329,700 for the engineering design for Highland Drive improvements to be funded by the 2018 bond election, and take any action necessary.

Councilmember Hohenshelt moved to approve the award of the contract. Councilmember Daniels seconded the motion, which passed by a vote of 6 ayes with 1 absent (Pruitt).

4. Discuss and consider appointments to the city's Architectural Review Board, and take any action necessary.

Mayor Pro Tem Fowler indicated that the Council will bring this agenda item back at a later date for consideration.

XII. CITY MANAGER'S REPORT TO DISCUSS CURRENT CITY ACTIVITIES, UPCOMING MEETINGS, FUTURE LEGISLATIVE ACTIVITIES, AND OTHER RELATED MATTERS.

1. Departmental Reports
Building Inspections Monthly Report - April 2018
Fire Department Monthly Report - April 2018
GIS Division Monthly Report - April 2018
Harbor PD Monthly Report - April 2018
Internal Operations Department Monthly Report - April 2018
Police Department Monthly Report - April 2018
Recreation Monthly Report - April 2018
Rockwall Animal Adoption Center Monthly Report - April 2018
STAR Transit Monthly Report - April 2018

2. City Manager's Report

Mr. Crowley shared that there is a substantial power outage in South and in East Rockwall. A transmission tower was struck by lightning. Oncor is aware and is working to remedy the issue. He indicated that staff reports have been made available to Council in the informational meeting packet, and he is happy to answer any questions. There were no questions asked.

XIII. EXECUTIVE SESSION

THE CITY OF ROCKWALL CITY COUNCIL WILL RECESS INTO EXECUTIVE SESSION TO DISCUSS THE FOLLOWING MATTERS AS AUTHORIZED BY CHAPTER 551 OF THE TEXAS GOVERNMENT CODE:

1. Discussion regarding interlocal mutual aid agreement(s) pursuant to Section §551.071 (Consultation with Attorney).

2. Discussion regarding legal issues pertaining to potential annexation pursuant to Section §551.071 (Consultation with Attorney)

3. Discussion regarding possible sale of real property / land in PD-32 pursuant to Section §551.072 (Real Property).

4. Discussion regarding process and nomination to fill vacancy on Rockwall Central Appraisal District Board pursuant to Section 551.074 (Personnel Matters)

5. Discussion regarding purchase or lease of real property in the vicinity of County Line Rd. pursuant to Section §551.072 (Real Property) and Section §551.071 (Consultation with Attorney).

6. Discussion regarding options to pursue fees due by franchise utility provider pursuant to Section §551.071 (Consultation with Attorney).

7. Discussion regarding appointments to city regulatory boards, commissions, and committees - specifically the Planning & Zoning Commission and Building & Standards Commission - pursuant to Section 551.074 (Personnel Matters)

8. Discussion regarding the appeal to the Public Utility Commission filed by the cities of Garland, Mesquite, Plano and Richardson against the North Texas Municipal Water District (NTMWD) regarding water rates pursuant to §Section 551.071 (Consultation with Attorney)

XIV. RECONVENE PUBLIC MEETING & TAKE ANY ACTION AS RESULT OF EXECUTIVE SESSION

Council did not go back into Executive Session following the close of the public meeting agenda.

XV. ADJOURNMENT

Mayor Pro Tem Fowler adjourned the meeting at 6:18 p.m.

PASSED AND APPROVED BY THE CITY COUNCIL OF THE CITY OF ROCKWALL, TEXAS, THIS 18th DAY OF JUNE, 2018.

City of Rockwall
The New Horizon

MEMORANDUM

TO: **Rick Crowley, City Manager**

FROM: **Amy Williams, P.E., Public Work Director/City Engineer**

DATE: **May 31, 2018**

SUBJECT: **S. Lakeshore Drive/Summit Ridge Drive Reconstruction Project**

As part of the storm drainage engineering design for the S. Lakeshore Drive/Summit Ridge Drive project it has been a priority of Staff and the Engineering Consultant, Kimley-Horn and Associates, Inc., to reduce the flooding that is occurring within the project limits that has been occurring for many years. The current flooding is due to the existing system being undersized and not designed to current standards. The existing drainage system that is within S. Lakeshore Drive and Summit Ridge Drive is designed for a 5-yr storm event compared to the Cities current standard of a 100-yr storm event. Staff and Kimley-Horn's goal was to utilize the existing drainage system downstream of the current project limits as much as possible to carry the storm water runoff and divert flow to other systems in the area that have extra capacity where possible. Partial storm water diversions were able to occur helping relieve the existing system, but elevations and hydraulics prevent a complete diversion of runoff from the drainage system in the S. Lakeshore Drive system. In order to achieve the required need capacity for the S. Lakeshore Dr. drainage system a parallel storm line down Shoretrail Drive and a reconstruction of the system in Stonebridge Drive to Lake Ray Hubbard is required. Portions of the downstream existing system will remain in order to reduce the overall size of pipe needed in the parallel system.

Staff has requested that the consultant engineer for the S. Lakeshore Dr./Summit Ridge Drive Reconstruction Project, Kimley–Horn and Associates, Inc., provide additional engineering services, Amendment Number Five, for the engineering design and construction document preparation for these downstream storm drainage improvements from S. Lakeshore Drive to Lake Ray Hubbard into the Lakeshore Drive/Summit Ridge Drive Reconstruction Project. Amendment Number Five also includes reallocation of existing unused engineering services for traffic signal modifications and retaining wall at the SH 66 and S. Lakeshore Drive Intersection for pedestrian improvements. Also included in the reallocation are services for sanitary sewer line re-routing in the neighborhood to eliminate lines between houses.

Staff is requesting City Council consideration for approval Contract Amendment Number Five for the total additional contract amount of $20,000.00 with Kimley–Horn and Associates, Inc.. for the S. Lakeshore Dr./Summit Ridge Dr. Reconstruction Project. If you have any questions, please advise.

AMENDMENT NUMBER 5 TO THE AGREEMENT BETWEEN THE CLIENT AND KIMLEY-HORN AND ASSOCIATES, INC.

AMENDMENT NUMBER 5 DATED May 31, 2018 to the agreement between City of Rockwall, ("CITY") and Kimley-Horn and Associates, Inc., ("ENGINEER") dated February 23, 2016 ("the Agreement") concerning S Lakeshore Drive/Summit Ridge Drive Reconstruction Project (the "Project").

The ENGINEER has entered into the Agreement with CITY for the furnishing of professional services, and the parties now desire to amend the Agreement.

Therefore, it is mutually agreed that the Agreement is amended to include Additional Services to be performed by ENGINEER and provisions for additional compensation by the CITY to the ENGINEER, all as set forth in Exhibit A hereto. The parties ratify the terms and conditions of the Agreement not inconsistent with this Amendment, all of which are incorporated by reference.

CITY OF ROCKWALL	KIMLEY-HORN AND ASSOCIATES, INC.
By: _____	By: _____
Title: _____	Title: Assistant Secretary
Date: _____	Date: 05-31-18

ENGINEER shall perform the following Additional Services:

Task 19: Demolition and Existing Conditions Drawings

Engineer will prepare existing conditions plan sheets for the entirety of the project (roadway and alleys):

- Review topographic survey information provided by subconsultant and site photos taken during previous site visits. Perform up to one additional site visit to confirm site conditions.
- Prepare drawings depicting existing conditions on 22"x34" page size at 1'=20".
    - The following items may be specifically called out:
        - Pavement materials
        - Sidewalk/leadwalk materials
        - Mailboxes and materials
        - Driveway materials
        - Existing decorative landscape items
        - Existing trees including caliper
        - Existing sign location and type
        - Signal equipment
        - Property and easement lines
    - Prepare drawing legend for materials depicted.
- Drawings will be incorporated into the overall construction drawings for all remaining submittals (90%, 100%).

Engineer will prepare demolition plan sheets for the entirety of the project (roadway and alleys):

- Review topographic survey information provided by subconsultant and identify existing infrastructure that will need to be removed to complete proposed improvements.
- Prepare drawings depicting removal items on 22"x34" page size at 1'=20".
    - The following items may be specifically called out for removal:
        - Roadway pavement
        - Alley pavement
        - Driveway pavement
        - Sidewalk
        - Trees
        - Mailboxes
    - Prepare drawing legend for materials depicted.
- Drawings will be incorporated into the overall construction drawings for all remaining submittals (90%, 100%).

Task 20: Sanitary Sewer Rerouting

The City has requested the Engineer to provide construction drawings for the rerouting of existing sanitary sewer lines within the vicinity of the project limits. These lines have been studied by the City to determine such rerouting is feasible. The Engineer assumes no liability associated with sanitary sewer basin analysis performed in consideration of these improvements. The Engineer will prepare the following:

- Prepare plan and profile drawings for the rerouting of sanitary sewer line at the following locations:
    - Glenn Avenue approximately 165 linear feet west of Spring Creek Drive.
    - Forest Trace from the alley west of Alexander Lane to directly east of the Alexander Lane intersection.
- Prepare utility details to clarify intent of design.
- Compile applicable City standard details. Modify standard details as needed.
- Drawings will be incorporated into the overall construction drawings for all remaining submittals (90%, 100%).
- Engineer will acquire additional topographic information as needed to perform the above design as specified.

Task 21: Drainage Diversion (System B)

Engineer will prepare additional drainage plan and profile sheets for the proposed diversions of Storm Drain System B along Shoretrail Drive and Stonebridge Drive, improvements to the existing System B storm drain line and outfall to Lake Ray Hubbard and the proposed outfall of runoff into Stream No. 4 near the S. Lakeshore Drive bridge:

- Develop memorandum explaining analysis results indicating the need for proposed drainage diversions as outlined above.
- Obtain additional topographic survey information:
    - Along Shoretrail Drive from Stonebridge Drive to S. Lakeshore Drive
    - Along Stonebridge Drive from approximately 140 linear feet south of Shoretrail Drive to approximately 275 linear feet north of Shoretrail Drive.
    - Between lots 313 and 311 Stonebridge Drive extending to the outfall of System B at Lake Ray Hubbard, approximately 475 linear feet.
- Perform hydrologic and hydraulic analysis updates to previously calculated System B to include but not limited to the following:
    - Drainage area delineation
    - Inlet calculations
    - Hydraulic Grade Line (HGL) calculations including capacity, velocity, frictional slope, partial depth, etc.
- Perform system pipe alignment and elevation updates to previously calculated storm drain system to sub-divide system in an effort to create diversion line and a new system outfall.
- Develop outfall geometry and erosion protection for outfalls:
    - Stream No. 4; and
    - System B (Lake Ray Hubbard)
- Perform coordination with City of Dallas to permit discharge of additional storm water runoff into Lake Ray Hubbard.
    - Engineer will endeavor to obtain approval for storm water runoff; however, approval cannot be guaranteed.
- Develop additional plan and profile sheets at 22”x34” page size at 1’=20” for revised storm drain alignments.
- Compile applicable City standard details. Modify standard details as needed.
- Update opinion of probable construction cost for system modifications associated with Task 21.

Task 22: Traffic Signal Modification (South Only)

Design of modifications to the existing traffic signal at State Highway 66 and S. Lakeshore Drive along the southwest and southeast corners based on the a TxDOT approved conceptual layout. The approved layout includes modifications to the southwest and southeast corners of the intersection only.

- Develop layouts and summary charts for the intersection.
- Select the applicable TxDOT and City design details.
- Develop specifications.
- Develop traffic signal sheets for inclusion in the plans for all remaining submittals.

Update opinion of probable construction cost for traffic signal modifications associated with Task 22.

Relocation of signal cabinet, traffic signal analysis, traffic signal or curb ramp modifications to the northeast and/or northwest corners, and traffic signal timing changes will be considered *Additional Services*.

Task 23: Retaining Wall (For Pedestrian Improvements)

Design reinforced concrete retaining walls at the southwest and southeast corners of the intersection of S. Lakeshore Drive and State Highway 66 as needed for proposed pedestrian improvements. Retaining walls may be traditional cantilevered walls or drilled shaft walls, depending on geotechnical recommendations and the height of soil retained.

- Review geotechnical information for considerations in retaining wall design.
- Prepare plan and profile sheets 22” x 34” page size at 1’=20” for proposed wall structures.
- Prepare structural details associated with the construction of these retaining walls including

connections to adjacent abutment structures, pedestrian railing, etc.
- Update opinion of probable construction cost for proposed wall structures associated with Task 23.

Additional Services

Any services not specifically provided for in the above additional services scope will be billed as new additional services and performed at our then current hourly rates.

Schedule:

Kimley-Horn will perform the tasks above within a mutually agreed upon schedule once authorized by the CITY to proceed.

Method of Compensation:

It is the understanding of the ENGINEER at the direction of the CITY that reimbursable services associated with Tasks 2, 6, 12, Add 3 – Bid Phase Services and Add 3 – Construction Phase Services are considered complete. Accordingly, the remaining budget allocated to these tasks as part of the existing agreement are to be reallocated to the tasks outlined in this amendment. Additional compensation is to be authorized as part of Task 21. Further outline of these adjustments is included in Attachment A.

For the Additional Services set forth in this amendment, ENGINEER shall reallocate existing surplus task budgets to the new tasks outlined below:

Reimbursable:

Existing Contract Surplus Budget	**($45,500)**
Task 19: Demolition and Existing Conditions Drawings	$10,000
Task 20: Sanitary Sewer Rerouting	$6,000
Task 21: Drainage Diversion (System B)	$32,000
Task 22: Intersection Improvements (South Only)	$10,000
Task 23: Retaining Wall (For Pedestrian Improvements)	$7,500
Subtotal Reimbursable Fee	**$65,500**
Net Change in Contract Amount	**$20,000**
Revised Total Contract	***$289,500***

ENGINEER will not exceed the total maximum Reimbursable fee shown without authorization from the CITY. Individual task amounts are provided for budgeting purposes only. ENGINEER reserves the right to reallocate amounts among tasks as necessary.

Kimley»Horn

City of Rockwall
The New Horizon

MEMORANDUM

TO: Rick Crowley, City Manager

FROM: Amy Williams, Director of Public Works/City Engineer

DATE: June 5, 2018

SUBJECT: Water/Wastewater Impact Fee Update/Master Plans

State Law requires cities charging impact fees to developments to update these fees every five years. The City of Rockwall currently charges developments impact fees for water, wastewater and roadway improvements. The roadway impact fees were recently updated and approved by City Council. These updates usually involve updating land use assumption, evaluating your existing systems for deficiencies, calculating development needs for the next ten years, creation of a capital improvement project list and establishment of the maximum fees that can be charged.

With the proposed work that will be occurring with the impact fee update process, the updating of our existing Master Plans for the Water Distribution and Wastewater Collection Systems should occur at this time. These Master Plans provide guidance to the Developers, Engineers and Staff to establish proposed improvements to meet future demands.

Staff has received a proposal from Birkhoff, Hendricks and Carter LLP to perform these services for the City in the amount of $131,525.00. Funding for this work is available in current water/wastewater revenues.

Staff requests City Council consideration to approve a contract with Birkhoff, Hendricks and Carter LLP to perform the water/wastewater impact fee update and updating the Master Water/Wastewater Plans in an amount not to exceed $131,525.00.

ENGINEERING SERVICES AGREEMENT

THIS AGREEMENT is made and entered into by and between the **City of Rockwall, Texas**, hereinafter referred to as "City", and **Birkhoff, Hendricks & Carter, L.L.P. Professional Engineers**, hereinafter referred to as "Engineer", to be effective from and after the date as provided herein.

W I T N E S S E T H:

WHEREAS, the City desires to engage the services of the Engineer to **Update the 2013 Water Distribution System and 2013 Wastewater Collection System Master Plans and Update the Water and Wastewater Impact Fee**, for the City of Rockwall, Rockwall County, Texas, hereinafter referred to as the "Project"; and

WHEREAS, the Engineer desires to render such engineering services for the City under the terms and conditions provided herein.

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS:

That for and in consideration of the convenants contained herein, and for the mutual benefits to be obtained hereby, the parties hereto agree as follows:

I. Employment of the Engineer

The City hereby agrees to retain the Engineer to perform professional engineering services in connection with the Project; Engineer agrees to perform such services in accordance with the terms and condition of this Agreement.

II. Scope of Services

The parties agree that Engineer shall perform such services as are set forth and described in Exhibits "A" and "B", which is attached hereto and thereby made a part of this Agreement. The parties understand and agree that deviations or modifications, in the form of written changes may be authorized from time to time by the City.

III. Schedule of Work

The Engineer agrees to commence services immediately upon execution of this Agreement, and to proceed diligently with said service to completion as described in the Completion Schedule attached hereto as Exhibit "F" and thereby made a part of this Agreement.

IV. Compensation and Method of Payment

The parties agree that Engineer shall be compensated for all services provided pursuant to this Agreement in the amount and manner described and set forth in the Compensation Schedule attached hereto as Exhibits "D" and "E" and thereby made a part of this Agreement. Engineer further agrees that it will prepare and present such monthly progress reports and itemized statements as are described in said Exhibits "D" and "E". City agrees to pay invoices upon receipt.

V. Information to be Provided by the City

The City agrees to furnish, if available, all information as outlined in Exhibit "A", Part D.

VI. Insurance

Engineer agrees to procure and maintain for the duration of the contract Professional Liability Insurance, Worker's Compensation, General Liability and Automobile Insurance.

VII. Assignment and Subletting

The Engineer agrees that neither this Agreement nor the services to be performed hereunder will be assigned or sublet without the prior written consent of the City. The Engineer further agrees that the assignment or subletting of any portion or feature of the work or materials required in the performance of this Agreement shall not relieve the Engineer from its full obligations to the City as provided by this Agreement.

VIII. Audits and Records

The Engineer agrees that at any time during normal business hours and as often as City may deem necessary, Engineer shall make available to representatives of the City for examination all of its records with respect to all matters covered by this Agreement, and will permit such representatives of the City to audit, examine, and make excerpts or transcripts from such records, and to make audits of all contracts, invoices, materials, payrolls, records of personnel, conditions of employment and other

data relating to all matters covered by this Agreement, all for a period of one year from the date of final settlement of this Agreement or for such other or longer period, if any, as may be required by applicable statute or other lawful requirement.

IX. Contract Termination

The parties agree that City or the Engineer shall have the right to terminate this Agreement without cause upon thirty (30) days written notice to the other. In the event of such termination without cause, Engineer shall deliver to City all finished or unfinished documents, data, studies, surveys, drawings, maps, models, reports photographs or other items prepared by Engineer in connection with this Agreement. Engineer shall be entitled to compensation for any and all services completed to the satisfaction of City in accordance with the provisions of this Agreement prior to termination.

X. Engineer's Opinion of Cost

The parties recognize and agree that any and all opinions of cost prepared by Engineer in connection with the Project represent the best judgment of Engineer as a design professional familiar with the construction industry, but that the Engineer does not guarantee that any bids solicited or received in connection with the Project will not vary from the opinion by the Engineer.

XI. Ownership of Documents

Original reports and maps are the property of the Engineer; however, the Project is the property of the City. City shall be furnished with such reproductions of maps, exhibits, databases and reports. Upon completion of the services or any earlier termination of this Agreement under Article IX. The electronic files will be provided based on the following conditions:

A. The electronic files are compatible with AutoCAD 2010, H2ONET Water 11.0, Infosewer 7.0, and MS Office operating on an IBM compatible PC using Windows 2007.

B. Engineer does not make any warranty as to the compatibility of these files beyond the specified release of the above stated software.

C. Because data stored on electronic media can deteriorate undetected or be modified, the Owner agrees that the Engineer will not be held liable for completeness or correctness of electronic media after an acceptance period of thirty days after delivery of these files.

D. The electronic files are instruments of our service. Where there is a conflict between the hard copy drawings and the electronic files, the hard copy files will govern in all cases.

E. Both parties acknowledge mutual non-exclusive ownership of the electronic files and each party may use, alter, modify or delete the files without consequence to the other party.

F. All electronic files provided to the Owner will not contain engineer's seal, handwritten dates and signatures.

XII. Complete Contract

This Agreement, including the exhibits hereto numbered "A" through "F" constitute the entire agreement by and between the parties regarding the subject matter hereof.

XIII. Mailing of Notices

Unless instructed otherwise in writing, Engineer agrees that all notices or communications to City permitted or required under this Agreement shall be addressed to City at the following address:

City Engineer
City of Rockwall
P.O. Box 638
Rockwall, Texas 75189

City agrees that all notices or communications to Engineer permitted or required under this Agreement shall be addressed to Engineer at the following address:

Matt Hickey, P.E.
Birkhoff, Hendricks & Carter, L.L.P.
11910 Greenville Avenue, #600
Dallas, Texas 75243
Phone: (214) 361-7900

All notices or communications required to be given in writing by one party or the other shall be considered as having been given to the addressee on the date such notice or communication is posted by the sending party.

XIV. Contract Amendments

This Agreement may be amended only by the mutual agreement of the parties expressed in writing.

XV. Effective Date

This Agreement shall be effective from and after execution by both parties hereto.

EXHIBIT "A"

BASIC SERVICES

Part A Water Demand Study

1) Evaluate the, maximum daily, maximum hourly and minimum hourly water system demands based on the following 2017 Data and future 2018 data:

   a) Water records provided by the City, including monthly metering consumption by metering cycle, hourly discharge pumping records, hourly elevated storage tank level data, and meter data (including NTMWD supply meters), wholesale customer meters and any unique water demand customers within the distribution system. Hourly discharge meter pumping records and hourly elevated storage tank level data to be provided from the City's SCADA system in Excel format for July, August and September 2017 and 2018.

   b) Review summer non-residential gallon per acre water usage from City provided water billings. Review golf courses, athletic fields, parks, commercial and industrial user's water billing consumption.

   c) Review multi-family water usage based on water billings provided by the City for existing multi-family developments in each pressure plane.

   d) Calculate maximum daily and maximum hourly residential per-capita demand rates for the 698.75, and 780 Service Areas. The calculated per-capita rates will be reviewed with the City to determine design per-capita rates to be applied to the Water Distribution Master Plan.

Part B Water Distribution System Master Plan Update

1. Add water lines to the model at the City's direction and as required to properly evaluate the system. Generally, lines of 12-inch and diameter will be modeled. Smaller diameter lines will be evaluated as needed to evaluate a specific area, complete loops, or as requested by the City.

2. Modify the layout to reflect alignments of waterlines as they are constructed and in relation with the current City of Rockwall GIS Shape File water line layers.

3. Update existing scenario pump controls to match City pump settings.

4. Update the demand and population spreadsheets, based on existing and projected land use assumptions as ***provided by the City of Rockwall.***

5. Analyze existing and possible future North Texas Municipal Water District (NTMWD) supply delivery points. Coordinate with NTMWD 10-year and buildout maximum daily demand supply projections.

6. Run model and analyze model results to check facility sizes, line sizes, and operation of elevated storage.

7. Complete a fire flow analysis for the existing and buildout models durning maximum daily demand conditions.

8. Prepare a 10-year Capital Improvement Plan (CIP) and meet with the City to review and comment on the CIP.

9. Update the 2013 Master Plan Map

10. Evaluate and make recommendations for system improvements for the existing (2018) system, 10-year (2028) system and the buildout system.

11. Prepare Master Plan report, 10-year CIP and fire flow analysis reports.

Part C **<u>Wastewater Collection System Master Plan Update</u>**

1. Update the City's Wastewater Collection System Master Plan model data including, lift stations, force mains, trunk lines and manhole loadings.

2. Add trunk lines, lift stations or force mains to the model at the City's direction and as required to properly evaluate the system. Generally, major basin trunk lines 10-inches in diameter or greater and lift stations will be modeled. Smaller sub-basin or collection lines will be evaluated as needed to evaluate a specific area or as requested by the City.

3. Modify the layout to reflect alignments of wastewater lines as they are constructed and in relation with the current City of Rockwall GIS shape file sewer line layers.

4. Update the wastewater loading and population spreadsheets, based on existing and projected land use assumptions as ***provided by the City of Rockwall.*** Inflow and Infiltration (I/I) rates will be based on typical I/I rates from the 2013 wastewater flow monitoring analysis and new NTMWD flow data, if available.

5. Confirm model assumptions based on new NTMWD flow data.

6. Run model and analyze results to check trunk line size and flow capacities.

7. Prepare a 10-year Capital Improvement Plan (CIP) for and meet with the City to review and comment on the CIP.

8. Update the 2013 Master Plan map.

9. Evaluate and make recommendations for system improvements for the existing (2018) system, 10-year (2028) system and the buildout system.

10. Prepare Master Plan report and 10-year CIP report.

Part D **<u>Water and Wastewater Impact Fee Update</u>**

1. Impact Fee to include City's waterlines, pump stations, ground storage reservoirs elevated storage tanks, wastewater trunk lines and lift stations. The water and wastewater impact fees will be based on a single Planning boundary.
2. Review the water and wastewater capital improvement projects included in the last impact fee report.
3. Review, update, and add where necessary, capital projects eligible for recovery in the impact fee program.
4. Develop impact fee models for the years 2018 and 2028 based on population and land use absorption provided by the City. Water models will be 72-hour extended period simulation models for maximum hourly demand conditions. Wastewater Models will be 48-hour extended period simulation models for peak flow loadings. Impact fee models will be compared to the Master Plan buildout models to determine excess capacity in impact fee water and wastewater lines and facilities.
5. Inventory new and existing water and wastewater projects eligible for the impact fee program.
6. Development of a 10-year capital improvement program responding to growth in the land use assumptions, including opinions of probable costs and implementation

schedule. The 10-year capital improvement program will be based on land use and growth assumptions ***provided by the City of Rockwall***.

7. For each CIP project identified, analyze the capacity currently utilized, total capacity available, the capacity utilized over the impact fee period.
8. Review of the existing living unit equivalent (LUE) for the impact fee. Update water meter equivalency based on latest AWWA standards for water meters. Existing water meter counts, by size and classified as domestic or irrigation, shall be ***provided by the City of Rockwall***.
9. Calculate the water and wastewater impact fee based on the list of projects eligible for recovery, actual or estimated construction cost of existing projects, projected cost of projects on the 10-year C.I.P, living unit equivalent and the utilized capacity of the facilities during the 10-year period.
10. Prepare a water and wastewater impact fee report that includes Land Use Assumptions, schedules, opinions of probable costs, capacity tabulations, and capital improvement program exhibits.
11. Coordinate information and findings with city staff.
12. Attend up to six meetings to discuss project approach, project identification, study findings, interim reports and final conclusions and recommendations.
13. Establish project schedule for adoption of updated impact fee by City Council.

Part E **Information to Be Provided By City**

The following information is to be provided by the City, if available.

1. Hourly discharge meter pumping and elevated storage tank level records (Excel Electronic File) July through September 2017 & 2018 for the water demand study.
2. Number of domestic and irrigation water meters per service area. For multifamily developments, the number of meters and the actual number of apartment units those meters serve will need to be provided.
3. Billing records of golf courses, athletic fields, parks, commercial / industrial users for July, August and September 2017 & 2018.
4. Electronic base map of streets and parcels.
5. Electronic base map of waterlines and sewer lines, and/or hard copy map.

6. Construction plans or record drawings of pump stations, storage facilities and wastewater trunk lines, if requested

7. Pump curves or pump and motor data plate information, if requested and available.

8. Current Land Use Map (comprehensive plan)

9. Land Use Assumptions prepared by City of Rockwall Planning Department or Consultant shall include:

   The Capital Improvement Plan (CIP) is required to be based upon a set of adopted Land Use Assumptions (LUA) which includes a "description of the service area(s) and projections of changes in land use, densities, intensities, and population in the service area over at least a ten-year period, including:

   - Determination of Planning Boundary
   - Ten-year population and growth projections; and
   - Discussion of an ultimate or "build-out" development scenario.

   The preparation of the LUA should be based on the recommendations contained in the Comprehensive Plan. Where possible, planners will utilize data generated during the City's comprehensive planning process.

i) Create Impact Fee Service Zones

The City Planner will work with the Engineering Consultants to develop the service zone for the City and any applicable ETJ where Impact Fees may be applied. For water and wastewater impact fees a single service area can be utilized and the planning boundary can be extended to the Extraterritorial Jurisdiction (ETJ).

ii) Prepare Existing Land Use Assumptions Database

The City Planner shall prepare the existing land use data base, population and employment estimates in a format suitable for use in the impact fee program. The information will be presented in an Excel file in tabular format with an explanation of the methodology in a technical memorandum for initial discussion purposes.

iii) Prepare Ten-Year Growth Assumptions

a) The City Planner will prepare ten (10) year growth projections by acres, and other categories as required by the Project Engineer, for the service zones as delineated in i) – Create Impact Fee Service Zones. The growth projections will be coordinated with the City's Comprehensive Future Land Use Plan. The projection

will be presented to the City with alternate growth scenarios. The City Planner will recommend a preferred growth assumption based upon applicability for calculating impact fees.

b) Ultimate or holding capacity projections will also be prepared, as necessary. Projections will also be made for housing units and other categories as requested by the Engineer.

c) The projections will be presented to the staff in the form of a technical memorandum for initial discussion purposes.

iv) Land Use Assumption Report

After the City has reviewed the preliminary recommendations made by the City Planner, a summary report suitable for meeting the requirements of Chapter 395 will be prepared by the City Planning Dept. or Consultant. The document will include:

a) Service Zone Map

b) Documentation or Methodology for:
- Existing land use compilation
- Ten-year growth projections
- Ultimate/holding capacity determinations

c) Land use, population and employment assumption table(s) showing the above projections.

EXHIBIT "B"

SPECIAL SERVICES

Part F **Deliverables**

1. Present the findings to the City staff, Impact Fee Advisory Committee and City Council.

2. Deliver (5) copies of preliminary reports for the Water Distribution System and Wastewater Collection System master plans and (5) copies of preliminary report for Impact Fees for City staff review.

3. Prepare and deliver one unbound original copy of the final Water Distribution System Master Plan report, Wastewater Collection System Master Plan report and Water and Wastewater Impact Fee report. The reports will be capable of reproduction by the City.

4. Provide 20 copies of final impact fee report (bound).

5. Prepare and deliver five (5) bound copies of the final Water Distribution System Master Plan Report and Wastewater Collection System Master Plan, including methodology of the analysis, recommendations, schedules, probable cost for system improvements, and hydraulic results printouts and 2000 scale maps.

6. Provide 25 copies of above the final Water Distribution System Master Plan Report and Wastewater Collection System Master Plan reports without hydraulic results printouts nor the 2000 scale maps. Include 8½" x 11" maps in these reports.

7. Prepare and deliver twenty (10) 1" =2000' scale color maps of the Water Distribution System Master Plan Map and Wastewater Collection System Map.

8. Deliver electronic files of the report and exhibits in PDF file format.

9. Present the findings to the City staff and City Council.

10. Provide one copy each of the color water distribution system and wastewater collection system master plan maps mounted on gator board with clear seal for dry erase markers.

Exhibit "C" to Agreement between the City of Rockwall, Texas (CITY) and Birkhoff, Hendricks & Carter, L.L.P, (ENGINEER) for Professional Services:

Dated _____, 2018

EXHIBIT "C"

EXCLUSIONS

The intent of this scope of services is to include only the services specifically listed in Attachments "A" and "B" and none others. Services specifically excluded from the scope of services include, but are not necessarily limited to the following:

1) Fiduciary responsibility to the City.
2) Inclusion of NTMWD system components in Impact Fee CIP and fee calculation
3) Model calibration
4) Preparation of land use assumptions
5) Preparation of Planning Boundary
6) Wastewater flow monitoring or I/I Study
7) Water system pressure or flow monitoring
8) Water Quality Analysis

EXHIBIT "D"

PAYMENT SCHEDULE FOR BASIC SERVICES

Compensation for engineering services under Exhibit A, Basic Services Part A, B C and D, shall be on a lump sum basis. The tabulation below establishes the not to exceed amount for each category of contract service:

Contract Part	Amount
Part A - Water Demand Study	$16,800.00(lump sum)
Part B – Water Distribution Master Plan	$36,925.00(lump sum)
Part C – Wastewater Master Plan	$35,900.00(lump sum)
Part D - Water & Wastewater Impact Fee Update	$41,900.00(lump sum)
Total Not to Exceed Amount (Basic Services)	**$131,525.00**

Invoices will be posted monthly based upon estimate of work complete for Basic Services Parts A, B and C. Payment is due upon receipt of invoice.

EXHIBIT "E"

PAYMENT SCHEDULE FOR SPECIAL SERVICES

Compensation for engineering services under Exhibit B, Special Services, shall be at salary cost times 2.40, with expenses at actual invoice amount times 1.15. We recommend the City Budget $3,000.00 for reproduction of deliverables.

Invoices will be posted monthly based upon estimate of work complete for Special Services based on hourly expenditures and expenses. Payment is due upon receipt of invoice.

EXHIBIT "F"

PROJECT SCHEDULE
MASTER PLANS

Per Capita Water Analysis	July – October 2018
Water and Wastewater Master Plan	* 6 Months
Impact Fee	* 6 Months

* The Water and Wastewater Master Plans and Impact Fee Update schedules will be developed and translated to dates once the City establishes a projected date of completion for the Land Use Assumptions. The proposed updated schedule will be included into this contract by a future Supplemental Agreement.

CITY OF ROCKWALL, TEXAS
MEMORANDUM

TO: Mayor and City Council

CC: Rick Crowley, *City Manager*
Brad Griggs, *Assistant City Manager*
Ryan Miller, *Director of Planning and Zoning*

FROM: David Gonzales, *Senior Planner*

DATE: June 18, 2018

SUBJECT: MIS2018-013; Reinhardt Elementary School – *Alternative Tree Mitigation Settle Agremment*

The applicant, Michael Ramsey of Ramsey Landscape Architects, has submitted a revised treescape plan for Reinhardt Elementary School. It should be noted that a treescape plan was approved in conjunction with the approval of a site plan [*SP2018-005*] on March 19, 2018. At the time of approval of the site plan, the total mitigation balance due was 346-caliper inches. Due to a minor change in the location of the building footprint, this shift has created a necessity to remove additional trees from the site, which has increased the mitigation balance by 142-caliper inches. The total mitigation balance due is 488-caliper inches. The applicant has indicated that they have exhausted every remedy available in order to satisfy the tree mitigation balance -- a) provide additional trees on site, b) petition the Parks and Recreations Department to accept the trees (*i.e. 163 – three (3)-inch caliper trees*), or c) purchase preservation credits equal to 20% of the balance (*i.e. 97.6 caliper inches at $100 per caliper inch = $9,760*). This option would leave a balance of 390.4 caliper inches or 130 – three (3)-inch caliper trees). Rockwall ISD prefers to settle the total mitigation balance due of 488-caliper inches through an *Alternative Tree Mitigation Settlement Agreement* by paying into the *City's Tree Mitigation Fund* the full amount due of $48,800 (*i.e. 488-caliper inches x $100 per inch = $48,800*).

According to *Section 7*, Alternative Tree Mitigation Settlement Agreement, of *Article X*, of the *Unified Development Code* (UDC), the City Council -- *upon recommendation from the Planning and Zoning Commission* -- may consider an Alternative Tree Mitigation Settlement Agreement where, due to hardship, the applicant is unable to meet the requirements of this article or where it is determined that adherence to the tree mitigation requirements will create a hardship for an applicant. These funds will be deposited in the *City's Tree Mitigation Fund* and will be used for planting trees in the City's parks, medians, street right-of-ways, or other similar areas as determined by the Parks and Recreation Department.

On June 12, 2018 the Planning and Zoning Commission unanimously approved a motion to recommend approval of the *Alternative Tree Mitigation Settlement Agreement* by a vote of 6 to 0 with one (1) vacancy. Attached to this memo is the applicant's letter of request, the revised treescape plan and landscape plan. The approval of the applicant's request is a discretionary decision for the City Council.

Rockwall, TX 75087

Re: New Reinhardt Elementary School - Case No. SP2018-005

Dear Mr. Gonzales,

Rockwall ISD would prefer to pay off all the remaining existing tree mitigation inches owed for the site in lieu of planting trees elsewhere in the city. We have exhausted our locations for any additional new trees on our site.

It is our understanding that since this exceeds the 20% maximum of mitigation pay off allowed, that it will need to go before city council. We would like to be on the June 18 council agenda for this matter. The calculation below is our understanding of the remaining mitigation:

Total mitigation inches on site	726
New inches planted on site	196
Preservation credit inches	42
Mitigation inches remaining	488

New trees planted on site makes mitigation pay off $100.00 per inch.
488 Inches x $100.00 = $48,800.00to total pay off required.

Sincerely,

Ramsey Landscape Architects

Michael Ramsey
